

Important notice

You must read the following disclaimer before continuing. The following applies to the preliminary offering memorandum following this notice, and you are therefore advised to read this disclaimer carefully before reading, accessing or making any other use of the preliminary offering memorandum. In accessing the preliminary offering memorandum, you agree to be bound by the following terms and conditions, including any modifications to them anytime you receive any information from us as a result of such access.

The preliminary offering memorandum has been prepared in connection with the proposed offer and sale of the notes (the "Notes") described therein. The preliminary offering memorandum and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other person.

THE PRELIMINARY OFFERING MEMORANDUM MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS PRELIMINARY OFFERING MEMORANDUM, IN WHOLE OR IN PART, IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT") OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS. IF YOU HAVE GAINED ACCESS TO THIS TRANSMISSION CONTRARY TO ANY OF THE FOREGOING RESTRICTIONS, YOU ARE NOT AUTHORIZED AND WILL NOT BE ABLE TO PURCHASE ANY OF THE NOTES.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN ANY JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE NOTES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR ANY OTHER JURISDICTION, AND THE NOTES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, "U.S. PERSONS" (AS DEFINED IN REGULATION S UNDER THE U.S. SECURITIES ACT ("REGULATION S")), EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

Confirmation of your representation: In order to be eligible to view this preliminary offering memorandum or make an investment decision with respect to the Notes described therein, you must (1) be a qualified institutional buyer ("QIB") (within the meaning of Rule 144A under the U.S. Securities Act ("Rule 144A")) or (2) not be a U.S. person (within the meaning of Regulation S) and be outside the United States. The preliminary offering memorandum is being sent at your request. By accepting this electronic transmission and accessing the preliminary offering memorandum, you shall be deemed to have represented to us and the initial purchasers set forth in the preliminary offering memorandum (collectively, the "Initial Purchasers") that you consent to the delivery of such preliminary offering memorandum by electronic transmission and either:

- (1) you and any customers you represent are QIBs; or
- (2) (i) you and any customers you represent are not U.S. persons; and
 - (ii) the electronic mail address that you gave us and to which this preliminary offering memorandum has been delivered is not located in the United States, its territories and possessions (including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island and the Northern Mariana Islands), any state of the United States or the District of Columbia.

You are reminded that this preliminary offering memorandum has been delivered to you on the basis that you are a person into whose possession this preliminary offering memorandum may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorized to, deliver this preliminary offering memorandum to any other person.

Under no circumstances shall the preliminary offering memorandum constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of, the Notes, in any jurisdiction in which such offer, solicitation or sale would be unlawful. If a jurisdiction requires that the offering and sale of the Notes be made by a licensed broker or dealer and the Initial Purchasers or any affiliate of the Initial Purchasers is a licensed broker or dealer in that jurisdiction, the offering of the Notes shall be deemed to be made by them or such affiliate on behalf of Titan Luxco 2 S.à r.l. in such jurisdiction.

This preliminary offering memorandum has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission, and consequently, none of the Initial Purchasers of the Notes, nor any person who controls any of the Initial Purchasers, or any of their respective directors, officers, employees or agent of theirs, respectively, or any affiliate of any of the foregoing persons, accepts any liability or responsibility whatsoever in respect of any difference between the preliminary offering memorandum distributed to you in electronic format and the hard copy version available to you on request from the Initial Purchasers.

Subject to Completion, dated April 12, 2013

Preliminary offering memorandum

Strictly confidential

Titan Luxco 2 S.à r.l. (to be transformed into TeamSystem Holding S.p.A.)

€300,000,000 % Senior Secured Notes due 2020

Issue price for the Notes: % plus accrued interest, if any, from the Issue Date.

Interest payable and .

Titan Luxco 2 S.à r.l., a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, to be transformed, on or prior to the Issue Date (as defined herein), into TeamSystem Holding S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy (the "Issuer"), is offering (the "Offering") €300,000,000 aggregate principal amount of its % Senior Secured Notes due 2020 (the "Notes"). The proceeds of the Notes will be primarily used to repay existing debt.

Interest on the Notes will be paid semi-annually in arrears on and of each year, beginning on 2013. The Notes will mature on 2020. The Issuer may redeem the Notes in whole or in part at any time on or after 2016 at the redemption prices specified herein. Prior to 2016, the Issuer may redeem all or part of the Notes at a redemption price equal to 100% of the principal amount of such Notes, plus a "make-whole" premium as of, and accrued and unpaid interest and additional amounts to, if any, the redemption date. Prior to 2016, the Issuer may redeem up to 40% of the aggregate principal amount of the Notes with the net proceeds from certain equity offerings at the redemption prices set forth in this offering memorandum. Additionally, the Issuer may redeem all, but not less than all, of the Notes upon the occurrence of certain changes in applicable tax law. Upon the occurrence of certain events constituting a "change of control", the Issuer may be required to make an offer to repurchase the Notes.

The Notes will be the Issuer's senior obligations and will be guaranteed (collectively, the "Guarantees" and each, a "Guarantee") by TeamSystem S.r.l. (the "Company") and Titan Luxco 3 S.à r.l. ("Titan 3" and together, with the Company, the "Guarantors"). The Guarantees will rank *pari passu* in right of payment with all of such Guarantor's existing and future indebtedness that is not subordinated to such Guarantee. The Guarantees will be subject to contractual and legal limitations, and may be released under certain circumstances. The Notes will be secured on a first-ranking basis by a pledge over: (i) the shares of the Issuer, Titan 3 and the Company; (ii) the Issuer's rights under a funding loan to be made available by the Issuer to the Company with part of the proceeds of the Offering (the "Company Funding Loan"); (iii) the Issuer's rights under a funding loan to be made available by the Issuer to Titan 3 with part of the proceeds of the Offering (the "Titan 3 Funding Loan"); (iv) the Issuer's rights under the Titan 3 Shareholder Loan (as defined herein); and (v) Titan 3's rights under the Company Shareholder Loan (as defined herein) (collectively, the "Notes Collateral"), in each case, subject to the operation of the Agreed Security Principles (as defined herein) and as more fully described in this offering memorandum. The Company Funding Loan will be secured by a pledge over: (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A.; (ii) certain intellectual property rights of the Company (together, the "Company Funding Loan Collateral"); and (iii) certain intercompany receivables of this Company. The Titan 3 Funding Loan will be secured by a pledge over the shares of the Company (the "Titan 3 Funding Loan Collateral" and together, with the Company Funding Loan Collateral, the "Funding Loan Collateral").

Following the Issue Date, we intend to merge Titan 3 into the Issuer (the "Post-Completion Merger"), as further described herein. See "Summary—Post-Completion Merger".

The Notes Collateral will also secure on a first-ranking basis the Revolving Credit Facility (as defined herein) and certain hedging obligations. Under the terms of the Intercreditor Agreement (as defined herein), lenders under the Revolving Credit Facility and counterparties to certain hedging obligations will receive proceeds from the enforcement of the Notes Collateral and the Funding Loan Collateral in priority to the holders of the Notes. See "The Offering—Security". The Collateral will be subject to the Agreed Security Principles and limitations under applicable laws, and may be released under certain circumstances.

Subject to and as set forth in "Description of the Notes—Withholding Taxes," the Issuer will not be liable to pay any additional amounts to holders of the Notes in relation to any withholding or deduction required pursuant to Italian Legislative Decree No. 239 of 1 April 1996 (as the same may be amended or supplemented from time to time) where the Notes are held by a person resident in a country that does not allow for satisfactory exchange of information with Italy (as per article 168-bis, Italian Presidential Decree No. 917 of 22 December 1986) and otherwise in the circumstances as described in "Description of the Notes—Withholding Taxes".

There is currently no public market for the Notes. Application will be made to list the Notes on the Official List of the Luxembourg Stock Exchange and for the Notes to be admitted to trading on the Luxembourg Stock Exchange's Euro MTF market.

The Notes will be issued in minimum denominations of €100,000 and integral multiples of €1,000 in excess thereof. The Notes will be represented by one or more global notes, which will be delivered through Euroclear SA/NV ("Euroclear") and Clearstream Banking, *société anonyme* ("Clearstream, Luxembourg"), on or about 2013 (the "Issue Date"). See "Book-entry, delivery and form".

Investing in the Notes involves a high degree of risk. See "Risk factors" beginning on page 26.

The Notes and the Guarantees have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act") or the securities laws of any other jurisdiction, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. In the United States, the Offering is being made only to "qualified institutional buyers" (as defined in Rule 144A of the U.S. Securities Act) in compliance with Rule 144A under the U.S. Securities Act. You are hereby notified that the initial purchasers of the Notes may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A. Outside of the United States, the Offering is being made in reliance on Regulation S under the U.S. Securities Act. For further details about eligible offerees and resale restrictions, see "Plan of distribution" and "Transfer restrictions".

Table of contents

You should base your decision to invest in the Notes solely on information contained in this offering memorandum. We have not, and J.P. Morgan Securities plc, Société Générale, UniCredit Bank, HSBC, Natixis, IKB and Banca IMI (collectively, the “Initial Purchasers”) have not, authorized any dealer, salesperson or any other person to give any information or represent anything to you other than the information contained in this offering memorandum. We are not, and the Initial Purchasers are not, making an offer of the Notes in any jurisdiction where the Offering is not permitted. You must not rely on unauthorized information or representations. You should not assume that the information contained in this offering memorandum is accurate as of any date other than the date on the front cover of this offering memorandum.

Titan Luxco 2 S.à r.l., is a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg. It is a holding company which indirectly holds all of the outstanding issued share capital of TeamSystem S.r.l., a *società a responsabilità limitata* incorporated under the laws of the Republic of Italy. Titan Luxco 2 S.à r.l. will be transformed, on or prior to the Issue Date, into TeamSystem Holding S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy. In this offering memorandum, the terms “we”, “us”, “our” and the “Group” each refer to TeamSystem S.r.l. and its consolidated subsidiaries, unless the context otherwise requires or is clear from context. The registered office of TeamSystem S.r.l. is located at Via Gagarin 205, Pesaro, Italy and our website is www.teamsystem.com. The information contained on our website is not part of this offering memorandum.

Important information

This offering memorandum is confidential and has been prepared by us solely for use in connection with the Offering. This offering memorandum is personal to each offeree and does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorized or to any person to whom it is unlawful to make such offer or solicitation. No action has been, or will be, taken to permit a public offering in any jurisdiction where action would be required for that purpose. Accordingly, the Notes may not be offered or sold, directly or indirectly, nor may this offering memorandum be distributed, in any jurisdiction except in accordance with the legal requirements applicable in such jurisdiction. You must comply with all laws applicable in any jurisdiction in which you buy, offer or sell any Notes or possess or distribute this offering memorandum, and you must obtain all applicable consents and approvals. Neither we nor the Initial Purchasers shall have any responsibility for any of the foregoing legal requirements. See "*Transfer restrictions*".

Neither we, the Initial Purchasers, any of our or their respective representatives nor The Law Debenture Trust Corporation p.l.c. (the "Trustee") are making any representation to you regarding the legality of an investment in the Notes, nor should you construe anything in this offering memorandum as legal, business, tax or other advice. You should consult your own advisors as to the legal, tax, business, financial and related aspects of an investment in the Notes. In making an investment decision regarding any of the Notes, you must rely on your own examination of our business and the terms of the Offering, including the merits and risks involved.

By accepting delivery of this offering memorandum, you agree to the foregoing restrictions, to make no photocopies of this offering memorandum or any documents referred to herein and not to use any information herein for any purpose other than considering an investment in the Notes.

This offering memorandum is based on information provided by us and other sources that we believe to be reliable. No representation or warranty, express or implied, is made by the Initial Purchasers or their respective directors, affiliates, advisors and agents as to the accuracy or completeness of any of the information set out in this offering memorandum, and nothing contained in this offering memorandum is, or shall be relied upon as, a promise or representation by the Initial Purchasers or their respective directors, affiliates, advisors and agents, whether as to the past or the future. Each prospective investor, by receiving this offering memorandum, acknowledges that they have not relied on the Initial Purchasers or the Initial Purchasers' respective directors, affiliates, advisors and agents in connection with their investigation of the accuracy of this information or their decision whether to invest in the Notes.

We accept responsibility for the information contained in this offering memorandum. To the best of our knowledge and belief, having taken all reasonable care to ensure that such is the case, the information contained in this offering memorandum is in accordance with the facts and does not omit anything material that is likely to affect the import of such information. However, the information set forth under the sections entitled "*Exchange rate and currency information*", "*Summary*", "*Management's discussion and analysis of financial condition and results of operations*", "*Industry*" and "*Business*" includes extracts from information and data, including industry and market data, released by publicly available sources in Europe and elsewhere. While we accept responsibility for the accurate extraction and summarization of such third party information and data, we have not independently verified the accuracy of such third party information and data and accept no further responsibility in respect thereof. In addition, this offering memorandum contains summaries, believed to be accurate, of some terms of specific documents, but reference is made to the actual documents, copies of which will be made available upon request for a more complete understanding. All such summaries are qualified in their entirety by such reference. However, as far as we are aware, no

information or data has been omitted which would render reproduced information inaccurate or misleading. See *"Where to find additional information"*.

The information contained in this offering memorandum is correct as of the date hereof. Neither the delivery of this offering memorandum at any time after the date of publication nor any subsequent commitment to purchase the Notes shall, under any circumstances, create an implication that there has been no change in the information set forth in this offering memorandum or in our business since the date of this offering memorandum. References to any website contained herein do not form part of this offering memorandum.

The information set out in those sections of this offering memorandum describing clearing and settlement arrangements, including the section entitled *"Book-entry, delivery and form"*, is subject to any change in or reinterpretation of the rules, regulations and procedures of Euroclear or Clearstream, Luxembourg currently in effect. While we accept responsibility for accurately summarizing the information concerning Euroclear and Clearstream, Luxembourg, we accept no further responsibility in respect of such information.

The Notes will be available initially only in book-entry form. We expect that the Notes offered hereby will be issued in the form of one or more global notes, which will be deposited with, or on behalf of, a common depository for the accounts of Euroclear and Clearstream, Luxembourg. Beneficial interests in the global notes will be shown on, and transfers of beneficial interests in the global notes will be effected only through, records maintained by Euroclear, Clearstream, Luxembourg, and their respective participants, as applicable. See *"Book-entry, delivery and form"*.

The Notes are subject to restrictions on purchase, transferability and resale, which are described under the section entitled *"Transfer restrictions"*. By possessing this offering memorandum or purchasing any Note, you will be deemed to have represented and agreed to all of the provisions contained in that section of this offering memorandum. You should be aware that you may be required to bear the financial risks of your investment for a long period of time.

The Issuer and the Initial Purchasers reserve the right to withdraw the Offering at any time. The Issuer and the Initial Purchasers also reserve the right to reject any offer to purchase the Notes, in whole or in part, for any reason or no reason and to allot to any prospective investor less than the full amount of the Notes sought by such investor. The Initial Purchasers and certain of their related entities may acquire, for their own accounts, a portion of the Notes.

The Issuer cannot guarantee that its application for admission of the Notes to trading on the Euro MTF Market of the Luxembourg Stock Exchange and to the listing of the Notes on the Official List of the Luxembourg Stock Exchange will be approved as of the settlement date for the Notes or any date thereafter, and settlement of the Notes is not conditional on obtaining this listing and admission to trading.

Stabilization

IN CONNECTION WITH THE OFFERING, J.P. MORGAN SECURITIES PLC (THE "STABILIZATION MANAGER") (OR ANY PERSON(S) ACTING ON BEHALF OF THE STABILIZATION MANAGER) MAY OVER-ALLOT NOTES OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE CAN BE NO ASSURANCES THAT THE STABILIZATION MANAGER (OR ANY PERSON(S) ACTING ON BEHALF OF THE STABILIZATION MANAGER) WILL UNDERTAKE ANY SUCH STABILIZATION ACTION. SUCH STABILIZATION ACTION, IF COMMENCED, MAY BEGIN ON OR AFTER THE DATE OF ADEQUATE PUBLIC DISCLOSURE OF THE FINAL TERMS OF THE OFFERING IS MADE AND MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN THE EARLIER OF 30 CALENDAR DAYS AFTER THE ISSUE DATE OF THE NOTES AND 60 CALENDAR DAYS AFTER THE DATE OF ALLOTMENT OF THE NOTES. ANY STABILIZATION ACTION OR OVER-ALLOTMENT MUST BE CONDUCTED BY THE STABILIZATION MANAGER (OR ANY PERSON(S) ACTING ON BEHALF OF THE STABILIZATION MANAGER) IN ACCORDANCE WITH ALL APPLICABLE LAWS AND RULES.

Notice to investors in the United States

This Offering is being made in the United States in reliance upon an exemption from registration under the U.S. Securities Act for an offer and sale of the Notes which does not involve a public offering. In making your purchase, you will be deemed to have made certain acknowledgments, representations and agreements. See *"Transfer restrictions"*.

This offering memorandum is being provided (1) to a limited number of United States investors that the Issuer reasonably believes to be "qualified institutional buyers" under Rule 144A for informational use solely in connection with their consideration of the purchase of the Notes and (2) to investors outside the United States who are not "U.S. persons" in connection with offshore transactions complying with Rule 903 or Rule 904 of Regulation S under the U.S. Securities Act ("Regulation S").

The Notes and the Guarantees have not been registered with, recommended by or approved by the U.S. Securities and Exchange Commission ("SEC"), any state securities commission in the United States or any other securities commission or regulatory authority in the United States, nor has the SEC or any such securities commission or regulatory authority received or passed upon the accuracy or adequacy of this offering memorandum.

Any representation to the contrary is a criminal offense in the United States. Prospective purchasers are hereby notified that the seller of any Note may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A. For a description of certain further restrictions on resale or transfer of the Notes, see *"Transfer restrictions"*.

Notice to New Hampshire residents only

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENCE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES ("RSA 421-B") WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENCED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE OF NEW HAMPSHIRE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF OR RECOMMENDED OR GIVEN APPROVAL TO ANY PERSON, SECURITY OR TRANSACTION. IT IS UNLAWFUL TO MAKE, OR CAUSE TO BE MADE, TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

Notice to certain European investors

European Economic Area

This offering memorandum has been prepared on the basis that all offers of the Notes will be made pursuant to an exemption under Article 3 of Directive 2003/71/EC (the "Prospectus Directive"), as implemented in Member States of the European Economic Area (the "EEA"), from the requirement to produce a prospectus for offers of the Notes. Accordingly, any person making or intending to make any offer within the EEA of the Notes should only do so in circumstances in which no obligation arises for us or any of the Initial Purchasers to produce a prospectus for such offer. Neither we nor the Initial Purchasers have authorized, nor do they authorize, the making of any offer of Notes through any financial intermediary, other than offers made by the Initial Purchasers, which constitute the final placement of the Notes contemplated in this offering memorandum.

In relation to each Member State of the EEA that has implemented the Prospectus Directive (each, a “Relevant Member State”), the offer to the public of any Notes which is the subject of the Offering contemplated by this offering memorandum is not being made and will not be made in that Relevant Member State other than:

(a) to any legal entity that is a “qualified investor” as defined in the Prospectus Directive (which refers to the definition of professional investors set forth in Directive 2004/39/EC, the Markets in Financial Instruments Directive or “MiFID”); and

(b) in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of the Notes shall require us or the Initial Purchasers to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an “offer to the public” in relation to the Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in each Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

Each subscriber for, or purchaser of, the Notes in the Offering located within a Member State of the EEA will be deemed to have represented, acknowledged and agreed that it is a qualified investor. We and the Initial Purchasers and their respective affiliates, and others will rely upon the trust and accuracy of the foregoing representation, acknowledgement and agreement.

United Kingdom

This offering memorandum is for distribution only to, and is directed solely at, persons who (i) are outside the United Kingdom, (ii) are investment professionals, as such term is defined in Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the “Financial Promotion Order”), (iii) are persons falling within Articles 49(2)(a) to (d) of the Financial Promotion Order or (iv) are persons to whom an invitation or inducement to engage in investment banking activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (the “FSMA”)) in connection with the issue or sale of any Notes may otherwise be lawfully communicated or caused to be communicated (all such persons together being referred to as “relevant persons”). This offering memorandum is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this offering memorandum relates is available only to relevant persons and will be engaged in only with relevant persons. Any person who is not a relevant person should not act or rely on this offering memorandum or any of its contents.

Republic of Italy

The Offering of the Notes has not been registered with the *Commissione Nazionale per le Società e la Borsa* (“CONSOB”) pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of this offering memorandum or of any other document relating to the Notes be distributed in the Republic of Italy, except: (a) to qualified investors (*investitori qualificati*) as defined in Article 26, first paragraph, letter d) of CONSOB Regulation No. 16190 of 29 October 2007, as amended (the “Regulation No. 16190”), pursuant to Article 34-ter, first paragraph letter b) of CONSOB Regulation No. 11971, 14 May 1999, as amended (the “Issuers Regulation”), implementing Article 100 of Legislative Decree

No. 58, 24 February 1998, as amended (the “Financial Services Act”); and (b) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and the Issuers Regulation. In any event, any offer, sale or delivery of the Notes or distribution of copies of this offering memorandum or any other document relating to the Notes in Italy under clauses (a) or (b) above must be: (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Financial Services Act, Legislative Decree No. 385 of 1 September 1993, as amended and Regulation No. 16190; and (ii) in compliance with any other applicable laws and regulations, including any requirement or limitation which may be imposed, from time to time, by CONSOB or the Bank of Italy or other competent authority.

Grand Duchy of Luxembourg

This offering memorandum has not been approved by and will not be submitted for approval to the Luxembourg Financial Services Authority (*Commission de Surveillance du Secteur Financier*) for purposes of a public offering of the Notes in the Grand Duchy of Luxembourg (“Luxembourg”). Accordingly, the Notes may not be offered or sold to the public in Luxembourg, directly or indirectly, and neither this offering memorandum nor any other memorandum, prospectus, form of application, advertisement or other material may be distributed, or otherwise made available in or from, or published in, Luxembourg except for the sole purpose of the admission to trading of the Notes on the Euro MTF Market of the Luxembourg Stock Exchange and to the listing of the Notes on the Official List of the Luxembourg Stock Exchange and except in circumstances which do not constitute a public offer of securities to the public, subject to prospectus requirements, in accordance with the Luxembourg Act of 10 July 2005 on prospectuses for securities, as amended.

THIS OFFERING MEMORANDUM CONTAINS IMPORTANT INFORMATION, WHICH YOU SHOULD READ BEFORE YOU MAKE ANY DECISION WITH RESPECT TO AN INVESTMENT IN THE NOTES.

Forward-looking statements

This offering memorandum contains “forward-looking statements” within the meaning of the securities laws of certain jurisdictions, including statements under the captions “*Summary*”, “*Risk factors*”, “*Management’s discussion and analysis of financial condition and results of operations*”, “*Industry*”, “*Business*” and in other sections. In some cases, these forward-looking statements can be identified by the use of forward-looking terminology, including the words “believes”, “estimates”, “anticipates”, “expects”, “intends”, “may”, “will”, “plans”, “continue”, “ongoing”, “potential”, “predict”, “project”, “target”, “seek” or “should” or, in each case, their negative or other variations or comparable terminology or by discussions of strategies, plans, objectives, targets, goals, future events or intentions. These forward-looking statements include all matters that are not historical facts. They appear in a number of places throughout this offering memorandum and include statements regarding our intentions, beliefs or current expectations concerning, among other things, our results of operations, financial condition, liquidity, prospects, growth, strategies and dividend policy and the industries in which we operate.

By their nature, forward-looking statements involve known and unknown risks, uncertainties and other factors because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward looking statements are not guarantees of future performance and that our actual financial condition, results of operations and cash flows, and the development of the industries in which we operate, may differ materially from (and be more negative than) those made in, or suggested by, the forward-looking statements contained in this offering memorandum. In addition, even if our financial condition, results of operations and cash flows, and the development of the industries in which we operate, are consistent with the forward-looking statements contained in this offering memorandum, those

results or developments may not be indicative of results or developments in subsequent periods. Important risks, uncertainties and other factors that could cause these differences include, but are not limited to those relating to:

- unfavorable economic conditions worldwide and in Italy;
- keeping pace with technological, regulatory and market developments and customer expectations;
- our ability to develop new products and maintain product offerings which are compatible with new system platforms and operating environments;
- our ability to maintain or further develop our core Software and Services business line;
- our customers and end-users not renewing or terminating technical assistance and maintenance services agreements;
- the cyclical and non-recurring nature of revenues generated by our Education business line;
- our ability to realize the full value of our goodwill;
- the seasonal nature of our business;
- the sales cycles of our software products;
- the impact of competitive products and pricing;
- changes in the terms on which we license products and technologies from third-party vendors;
- third-party claims that we are infringing on their intellectual property;
- infringement by third-parties of our intellectual property rights;
- the discovery of undetected software errors and the timely availability of new software products and upgrades;
- our exposure to risks associated with data security;
- system interruption and the lack of redundancy of our information technology systems and applications;
- our ability to successfully implement our business and strategies;
- our ability to integrate and manage future acquisitions and joint ventures and the obstacles or costs associated thereto;
- market perceptions concerning the instability of the euro;
- labor disputes or work stoppages;
- higher employment costs;
- reliance on our senior management team;
- our ability to recruit and retain key management and other highly skilled personnel;
- the possibility that interests of our principal shareholders may be inconsistent with interests of holders of the Notes;
- the possibility that the interests of the minority shareholders of our subsidiaries may be inconsistent with the interests of our other shareholders;
- litigation or legal proceedings;

- factors affecting our leverage and our ability to service debt;
- the effect of operating and financial restrictions in our debt instruments; and
- other factors discussed under “*Risk factors*”.

The foregoing factors and others described under “*Risk factors*” should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We urge you to read this offering memorandum, including the sections entitled “*Risk factors*,” “*Management’s discussion and analysis of financial condition and results of operations*” and “*Business*,” for a more complete discussion of the factors that could affect our future performance and the industries in which we operate.

Any forward-looking statements are only made as at the date of this offering memorandum and, except as required by law or the rules and regulations of any stock exchange on which the Notes are listed, we undertake no obligation to publicly update or publicly revise any forward-looking statement, whether as a result of new information, future events or otherwise. All subsequent written and oral forward-looking statements attributable to us or to persons acting on our behalf are expressly qualified in their entirety by the cautionary statements referred to above and contained elsewhere in this offering memorandum, including those set forth under “*Risk factors*.”

Industry and market data

In this offering memorandum, information regarding markets, market size, market share, market position, growth rates and other industry data pertaining to our business contained in this offering memorandum was, unless otherwise noted, estimated or derived based on three reports prepared at our request by industry consultant IDC Consulting in 2007, 2010 and 2012. When not otherwise specified, information provided is based on the 2012 report, which uses data through 2011. Industry publications and forecasts generally state that the information they contain has been obtained from sources believed to be reliable, but that the accuracy and completeness of such information is not guaranteed. While we believe that each of these studies and publications is reliable, neither we nor the Initial Purchasers have independently verified such data and cannot guarantee their accuracy or completeness. When we refer to the “SMEs software market”, “Professional software market” or other similar market in which we operate, we refer specifically to the markets for enterprise resource planning (“ERP”) and business management software for small to medium sized enterprises (“SMEs”) as well as accountants, lawyers and labor advisors (“Professionals”), respectively. Market share is estimated based on the number of seats, that is, the number of users within each customer.

Information regarding Italian GDP is derived or based on data from the European Commission.

In many cases, there is no readily available external information (whether from trade associations, government bodies or other organizations) to validate market-related analyses and estimates, requiring us to rely on our own internally developed estimates regarding the industries in which we operate, our position in the relevant industry, our market share and the market shares of various industry participants based on our experience, our own investigation of market conditions and our review of industry publications, including information made available to the public by our competitors. Neither we nor any of the Initial Purchasers can assure you of the accuracy and completeness of, or take any responsibility for, such data. Similarly, while we believe our internal estimates to be reasonable, these estimates have not been verified by any independent sources and neither we nor the Initial Purchasers can assure you as to their accuracy or the accuracy of the underlying assumptions used to estimate such data. Unless otherwise indicated, data on our market position and market share is based on revenue for the financial year ended 31 December 2012. Our estimates involve risks and uncertainties and are subject to change based on various factors. See “*Risk factors*”, “*Industry*” and “*Business*” for further discussion.

Customers and churn rates

The statements regarding the number of our customers and churn rates contained in this offering memorandum are derived from internal company surveys and management estimates. We assemble customer data through internal data, our direct sales centers and value added resellers, or VARs. Our direct sales centers compile information on our customers for the purpose of invoicing them. Our VARs compile information on their customers for their own records and furnish it to us for the purpose of negotiating our contractual arrangements, which provide for fees payable to us based also on the size of their customer base. We believe that our estimates are fair and adequate. However, they are not part of our financial statements and have not been audited or otherwise have not been verified by an outside auditor, consultant or independent expert.

Sales related to direct and indirect channels

The statements regarding the amounts of sales related to direct and indirect channels are derived from internal company surveys and management estimates. We believe that our estimates are fair and adequate. However, such estimates are not part of our financial statements and have not been audited or verified by an outside auditor, consultant or independent expert.

Certain definitions

In this offering memorandum, the following words and expressions have the following meanings, unless the context otherwise requires or unless otherwise so defined. In particular, capitalized terms set forth and used in the sections entitled "*Description of other indebtedness—Revolving Credit Facility*", "*Description of other indebtedness—Intercreditor Agreement*" and "*Description of the Notes*" may have different meanings from the meanings given to such terms and used elsewhere in this offering memorandum.

- "*Acquisition*" refers to the acquisition by HgCapital of a majority ownership interest in the Company and its subsidiaries on 29 September 2010; the Acquisition was consummated through a special purpose vehicle, Titan Bidco S.r.l., a company indirectly controlled by HgCapital (and which was subsequently merged into the Company).
- "*Acquisition Facility*" refers to the €25,000,000 senior term loan acquisition facility under the Senior Facilities Agreement, the outstanding principal amount of which will be repaid in full and cancelled in connection with the Refinancing Transactions.
- "*Agreed Security Principles*" refers to the "*Agreed Security Principles*" to be set out in a schedule to the Revolving Credit Facility Agreement as in effect on the Issue Date, as applied *mutatis mutandis* with respect the Notes in good faith by the Issuer.
- "*Bain Capital*" refers to Bain Capital, Ltd., Bain Capital Partners LLC, Bain Capital Europe LLP and any funds, partnerships, limited partners or other entities owned, managed, advised or controlled by any of them or their respective affiliates.
- "*Banca IMI*" refers to Banca IMI S.p.A.
- "*CAD/CAM*" refers to computer aided design and computer aided manufacturing.
- "*Collateral*" refers to, as applicable: (i) prior to the Post-Completion Merger, the Pre-Merger Collateral; and (ii) after the Post-Completion Merger, the Post-Merger Collateral.
- "*Company*" refers to TeamSystem S.r.l., a *società a responsabilità limitata* organized under the laws of the Republic of Italy.

- *"Company Funding Loan"* refers to the loan of a portion of the proceeds of the Offering, to be made on the Issue Date, by the Issuer, as lender, to the Company, as borrower.
- *"Company Funding Loan Collateral"* refers to the pledge over the following assets to secure the Funding Loan Lender's obligations under the Company Funding Loan: (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A.; (ii) certain intellectual property rights of the Company; and (iii) certain intercompany receivables of the Company.
- *"Company Shareholder Loan"* refers to the €70,000,000 subordinated shareholder loan agreement originally dated 30 September 2010, as amended and restated on the Issue Date, by and among, the Company, as borrower and Titan 3, as lender, which will be amended and extended in connection with the Refinancing Transactions.
- *"CAGR"* means the year over year growth rate of an investment over a specified period of time.
- *"E.U."* refers to the European Union.
- *"euro" or "€" or "EUR"* means the lawful currency of the Participating Member States.
- *"Existing Revolving Credit Facility"* refers to €10,000,000 senior revolving credit facility under the Senior Facilities Agreement, the outstanding principal amount of which will be repaid in full and cancelled in connection with the Refinancing Transactions.
- *"Funding Loans"* refers to the Company Funding Loan and the Titan 3 Funding Loan.
- *"Funding Loan Collateral"* refers to the Company Funding Loan Collateral and the Titan 3 Funding Loan Collateral.
- *"Guarantees"* collectively refers to the guarantees issued by each of the Guarantors guaranteeing the Notes, and *"Guarantee"* refers to each of them.
- *"Guarantors"* collectively refers to the Company and Titan 3, and *"Guarantor"* refers to each of them.
- *"HgCapital"* refers to the limited partnerships comprising HgCapital 6, acting through their manager Hg Capital LLP.
- *"HSBC"* refers to HSBC Bank Plc.
- *"ICG"* refers to Intermediate Capital Group LLC, Intermediate Capital Investments Limited, ICG European Fund 2006 No. 2 S.A. and Intermediate Investments Jersey Limited.
- *"Indenture"* refers to the indenture governing the Notes, to be dated on the Issue Date, by and among, *inter alios*, the Issuer, the Guarantors and the Trustee.
- *"IFRS"* refers to International Financial Reporting Standards as adopted by the European Union.
- *"IKB"* refers to Deutsche Industriebank, Milan branch, or IKB Deutsche Industriebank AG, as applicable.
- *"Initial Purchasers"* refers to J.P. Morgan Securities plc, Société Générale, UniCredit Bank, HSBC, Natixis IKB and Banca IMI, and *"Initial Purchaser"* refers to each of them.
- *"Intercreditor Agreement"* refers to the intercreditor agreement to be entered into on or about the Issue Date between, among others, the Issuer, the Guarantors, the Trustee, the Security Agent and the agent under the Revolving Credit Facility on behalf of the lenders thereunder.
- *"Issue Date"* refers to the date of original issuance of the Notes.

- “*Issuer*” and “*Funding Loan Lender*” refers to Titan Luxco 2 S.à r.l., a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, and registered with the Luxembourg Register of Commerce and Companies under number B 154.478, to be transformed, on or prior to the Issue Date, into TeamSystem Holding S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy.
- “*Italian Civil Code*” means the Italian civil code (*codice civile*), enacted by Royal Decree No. 262 of 16 March 1942, as subsequently amended and supplemented.
- “*Mezzanine Credit Facility*” refers to the €56,250,000 term loan facility under the Mezzanine Facility Agreement, the outstanding principal amount of which will be repaid in full and cancelled in connection with the Refinancing Transactions.
- “*Mezzanine Facility Agreement*” refers to the mezzanine facility agreement originally dated 29 September 2010, as amended on 14 October 2011, between, *inter alios*, Titan 3, Intermediate Capital Group plc, as mandated lead arranger and UniCredit Bank AG, Milan Branch, as security agent, providing for the Mezzanine Credit Facility, which will be terminated in connection with the Refinancing Transactions.
- “*Notes*” refers to the €300 million aggregate principal amount of % Senior Secured Notes due 2020.
- “*Notes Collateral*” refers to the first ranking pledge over: (i) the entire issued share capital of the Issuer, Titan 3 and the Company; (ii) the Issuer’s rights under the Titan 3 Funding Loan; (iii) the Issuer’s rights under the Company Funding Loan; (iv) the Issuer’s rights under the Titan 3 Shareholder Loan; and (v) Titan 3’s rights under the Company Shareholder Loan.
- “*Offering*” refers to the offering of the Notes.
- “*Participating Member State*” means any member state of the E.U. that adopts or has adopted, and in each case continues to adopt, the euro as its lawful currency in accordance with legislation of the E.U. relating to Economic and Monetary Union.
- “*Permitted Collateral Liens*” has the meaning ascribed to it under “*Description of the Notes—Certain definitions*”.
- “*PIK Instrument*” refers to the instrument governing the issuance of the PIK Notes dated 29 September 2010 entered into by the Issuer, which will be terminated in connection with the Refinancing Transactions.
- “*PIK Notes*” refers to the €37,500,000 aggregate principal amount of floating rate PIK preference notes issued by the Issuer pursuant to the PIK Instrument, the outstanding principal amount of which will be redeemed in full and cancelled in connection with the Refinancing Transactions.
- “*Post-Completion Merger*” has the meaning ascribed to it under “*Summary—Post-Completion Merger*”.
- “*Post-Merger Collateral*” refers to: (a) the first ranking pledges over (i) the entire issued share capital of the Issuer and the Company, (ii) the Issuer’s rights under the Company Funding Loan and (iii) the Issuer’s rights under the Company Shareholder Loan and (b) the Company Funding Loan Collateral.
- “*Pounds Sterling*,” “*sterling*,” “*British Pounds*,” “*GBP*” and “*£*” refers to the lawful currency of the United Kingdom.
- “*Pre-Merger Collateral*” refers to the Notes Collateral, the Funding Loan Collateral and the Shareholder Loan Collateral.

- *"Refinancing Transactions"* has the meaning ascribed to it under *"Summary—The Refinancing Transactions"*.
- *"Restricted Subsidiary"* has the meaning ascribed to it under *"Description of the Notes—Certain definitions"*.
- *"Revolving Credit Facility"* refers to the super senior €45,000,000 multicurrency revolving credit facility to be entered into as part of the Refinancing Transactions, as described more fully under *"Description of other indebtedness—Revolving Credit Facility"*.
- *"Revolving Credit Facility Agreement"* refers to the agreement governing the Revolving Credit Facility.
- *"SaaS"* means software as a service, a software delivery model in which software and associated data are centrally hosted by a service over a network.
- *"Security Agent"* refers to UniCredit Bank AG, Milan Branch.
- *"Security Documents"* has the meaning ascribed to the term *"Senior Secured Notes Documents"* under *"Description of the Notes—Certain definitions"*.
- *"Senior Credit Facilities"* refers to the Term Loans and the Existing Revolving Credit Facility.
- *"Senior Facilities Agreement"* refers to the senior term and revolving facilities agreement originally dated 29 September 2010, as amended on 17 October 2011 and 12 July 2012, by and among, inter alios, Titan 3, the Company, UniCredit Bank AG, Milan Branch, as agent and UniCredit Bank AG, Milan Branch, as security agent, providing for the Senior Credit Facilities, which will be terminated in connection with the Refinancing Transactions.
- *"Shareholder Loans"* means the Company Shareholder Loan and the Titan 3 Shareholder Loan.
- *"Shareholder Loan Collateral"* refers to the first ranking pledges of: (i) the Issuer's rights under the Titan 3 Shareholder Loan; and (ii) Titan 3's rights under the Company Shareholder Loan.
- *"Société Générale"* refers to Société Générale Corporate & Investment Banking.
- *"Term Loans"* collectively refers to Term Loan A, Term Loan B and the Acquisition Facility.
- *"Term Loan A"* refers to the €77,800,000 senior term loan facility under the Senior Facilities Agreement, the outstanding principal amount of which will be repaid in full and cancelled in connection with the Refinancing Transactions.
- *"Term Loan B"* refers to the €100,000,000 senior term loan facility under the Senior Facilities Agreement, the outstanding principal amount of which will be repaid in full and cancelled in connection with the Refinancing Transactions.
- *"Titan 1"* refers to TeamSystem HoldCo S.à r.l., a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, registered with the Luxembourg Register of Commerce and Companies under number B 154.473.
- *"Titan 3"* refers to Titan Luxco 3 S.à r.l., a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, registered with the Luxembourg Register of Commerce and Companies under number B 154.477, to be transformed after the Issue Date and in connection with the Post-Completion Merger, into Titan 3 S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy.

- "*Titan 3 Funding Loan*" refers to the loan of a portion of the proceeds of the Offering, to be made on the Issue Date, by the Issuer, as lender, to Titan 3, as borrower.
- "*Titan 3 Funding Loan Collateral*" refers to the pledge over the entire issued share capital of the Company to secure the obligations of the Funding Loan Lender under the Titan 3 Funding Loan.
- "*Titan 3 Shareholder Loan*" refers to the €37,500,000 subordinated shareholder loan agreement originally dated 29 September 2010, as amended and restated on the Issue Date, by and among, Titan 3, as borrower and the Issuer, as lender, which will be amended and extended in connection with the Refinancing Transactions.
- "*Trustee*" refers to The Law Debenture Trust Corporation p.l.c., in its capacity as trustee under the Indenture and common representative (*rappresentante comune*) of the holders of the Notes pursuant to Articles 2417 and 2418 of the Italian Civil Code.
- "*UniCredit Bank*" refers to UniCredit Bank AG or UniCredit Bank AG, Milan Branch, as applicable.
- "*United States*" or "*U.S.*" refers to the United States of America, its territories and possessions, and any state of the United States of America and the District of Columbia.
- "*U.S. dollars*," "*USD*" and "*\$*" refers to the lawful currency of the United States of America.

In addition to the terms defined above, the terms "*we*", "*us*", "*our*" and the "*Group*" and other similar terms refer to the Company and its consolidated subsidiaries, unless the context otherwise requires or is clear from context.

Presentation of financial and other information

Financial data

We have presented in this offering memorandum the historical consolidated financial information for the Company, comprising:

- the consolidated financial statements of the Company as of and for the year ended 31 December 2012, audited by Deloitte & Touche S.p.A., and the auditor's report thereto;
- the consolidated financial statements of the Company as of and for the year ended 31 December 2011, audited by Deloitte & Touche S.p.A., and the auditor's report thereto;
- the consolidated financial statements of the Company as of and for the year ended 31 December 2010, audited by PricewaterhouseCoopers S.p.A., and the auditor's report thereto; and
- the *pro forma* consolidated income statement of the Company for the twelve months period ended 31 December 2010 and the auditor's report thereto.

The audited consolidated financial statements of the Company are prepared on the basis of a financial period ending on 31 December of each year. The consolidated financial statements as of and for the year ended 31 December 2010 include an income statement and statement of cash flows for the three months ended 31 December 2010 as a result of the finalization of the Acquisition on 29 September 2010.

The audited consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and are presented in Euro. These consolidated financial statements are included elsewhere in this offering memorandum.

We do not present in this offering memorandum any financial information or financial statements of the Issuer for the periods presented. We do not present financial information of the Issuer because the financial statements are prepared under Luxembourg GAAP and the financial statements are not consolidated. All historical financial information included in this offering memorandum is that of TeamSystem HoldCo 1 S.à r.l., the Company and its consolidated subsidiaries. We have presented in this offering memorandum the consolidated financial information of the Company in order to be able to present the periods under review on a consistent basis, before and after the Acquisition.

Unaudited pro forma 2010 financial information

We have included in this offering memorandum the *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010, for the purpose of presenting the effect of the Acquisition as if it had occurred on 1 January 2010. The unaudited *pro forma* consolidated income statement presented is based (i) on the three months audited consolidated income statement included in the Company's consolidated financial statements as of and for the year ended 31 December 2010, (ii) the consolidated income statement information for the nine months period ended 30 September 2010 of the former company subject to the Acquisition and (iii) applicable adjustments to reflect the Acquisition as if it had occurred on 1 January 2010. The *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010 has been prepared in accordance with the Consob communication No. DEM/1052803 of 5 July 2001—Communication concerning procedures for preparation of pro-forma figures. The pro forma financial information assumes the Acquisition occurred on 1 January 2010 and there can be no assurance that the historical figures, if the Acquisition had actually occurred on 1 January 2010, would be equal to the pro forma figures. The pro forma figures do not take into account potential effects caused by changes in management policy and operational decisions as a consequence of the Acquisition.

Unaudited pro forma 2012 financial information

We have included in this offering memorandum *pro forma* total revenue and *pro forma* Adjusted EBITDA for the year ended 31 December 2012 for the purpose of presenting the effect of the acquisition of H-Umus as if it had occurred on 1 January 2012. This unaudited *pro forma* total revenue and *pro forma* Adjusted EBITDA data is based on (i) the audited consolidated income statement included in the Company's consolidated financial statements as of and for the year ended 31 December 2012 and (ii) the unaudited income statement included in the financial statements of H-Umus as of and for the year ended 31 December 2012. The foregoing unaudited *pro forma* financial data has not been prepared in accordance with the requirements of Regulation S-X of the U.S. Securities Act or any generally accepted accounting standards.

Financial information pro forma for the Refinancing Transactions

We have included in this offering memorandum certain unaudited *pro forma* data on an as adjusted basis to give effect to the Refinancing Transactions, including the issuance of the Notes offered hereby and the application of the net proceeds thereof as described in "Use of proceeds".

Certain non-IFRS financial measures

In this offering memorandum, we present certain non-IFRS measures, including EBITDA, Adjusted EBITDA, EBITDA margin, non-recurring expenses, working capital, gross financial debt, total financial net debt, Adjusted EBITDA margin and similar measures (each, a "Non-IFRS Metric"), which are not required by, or presented in accordance with, IFRS. We define "EBITDA" as operating income (loss) reported in the income statement, plus (i) impairment of non-current assets, (ii) other provisions, (iii) depreciation and amortization of non-current assets and (iv) non-recurring expenses. "Adjusted EBITDA" refers to EBITDA plus allowance for bad debt. "EBITDA margin" refers to EBITDA divided by total revenues. "Adjusted EBITDA margin" refers to Adjusted EBITDA divided by total revenues. "Non-recurring expenses" represent tax and legal advice and other sundry expenses, the nature of which is deemed to be non-recurring with respect to the business' normal operations. We define "working capital" as the total amount of (i) trade receivables, (ii) inventory and (iii) other receivables net of the total amount of trade payables and other current liabilities. "Gross financial debt" equals (i) non-current and current overdrafts and loans from banks and other financial institutions net of (ii) current and non-current financing fees plus (iii) current and non-current liabilities due to shareholders plus (iv) current and non-current other financial liabilities. "Total financial net debt" equals gross financial debt less (i) cash and bank balances and less (ii) non-current and current other financial assets.

We use EBITDA-based measures as internal measures of performance of operations in planning, budgeting, and reviewing the performance of our business. We believe that EBITDA-based measures are useful indicators and commonly used measures in addition to net result, operating profit and other profitability measures under IFRS because they facilitate operating performance assessment and give useful information about our ability to incur and service our indebtedness and can assist certain investors, security analysts and other interested parties in evaluating us.

The Non-IFRS Metrics presented in this offering memorandum are used by different companies for differing purposes and are often calculated in ways that reflect the particular circumstances of those companies. You should exercise caution in comparing the Non-IFRS Metrics as reported by us to such metrics or other similar metrics as reported by other companies because the criteria used by us for the definition of these metrics may not be consistent with that adopted by other companies, and therefore they may not be entirely comparable. "EBITDA" as presented here differs from the definition of "Consolidated EBITDA" contained in the Indenture

as described under the caption *"Description of the notes"* or for the purposes of any of our other indebtedness.

None of our Non-IFRS Metrics are a measurement of performance under IFRS and you should not consider those measures as an alternative to net income or operating profit determined in accordance with IFRS, as the case may be. The Non-IFRS Metrics have limitations as analytical tools and you should not consider them in isolation or as a substitute for analysis of our results or any performance measures under IFRS as set forth in our consolidated financial statements. Some of these limitations in particular related to EBITDA-based measures are:

- they do not reflect our cash expenditures or future requirements for capital commitments;
- they do not reflect changes in, or cash requirements for, our working capital needs;
- they do not reflect the interest expense or cash requirements necessary to service interest or principal payments on our debt;
- they do not reflect any cash income taxes that we may be required to pay;
- they are not adjusted for all non-cash income or expense items that are reflected in our consolidated income statements;
- they do not reflect the impact of earnings or charges resulting from certain matters we consider not to be indicative of our ongoing operations;
- assets are depreciated or amortized over differing estimated useful lives and often have to be replaced in the future, and these measures do not reflect any cash requirements for such replacements; and
- other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.

Because of these limitations, the EBITDA-based measures should not be considered as measures of discretionary cash available to us to invest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

The Non-IFRS Metrics do not necessarily indicate whether cash flow will be sufficient or available to meet our cash requirements and may not be indicative of our historical operating results, nor are such measures meant to be predictive of our future results.

Other data

Certain numerical figures contained in this offering memorandum, including financial information and certain operating data, have been subject to rounding adjustments. Accordingly, in certain instances, the sum of the numbers in a column or a row in tables may not conform exactly to the total figure given for that column or row or the sum of certain numbers presented as a percentage may not conform exactly to the total percentage given.

Exchange rate and currency information

The following tables set forth, for the periods set forth below, the high, low, average and period end Bloomberg Generic Rate expressed as U.S. dollars per €1.00. The Bloomberg Generic Rate is a "best market" calculation, in which, at any point in time, the bid rate is equal to the highest bid rate of all contributing bank indications and the ask rate is set to the lowest ask rate offered by these banks. The Bloomberg Generic Rate is a mid-value rate between the applied highest bid rate and the lowest ask rate. The rates may differ from the actual rates used in the preparation of the consolidated financial statements and other financial information appearing in this offering memorandum. We make no representation that the U.S.

dollar amounts referred to below could have been or could, in the future, be converted into euro at any particular rate, if at all.

The average rate for a year means the average of the Bloomberg Generic Rates on the last day of each month during a year. The average rate for a month, or for any shorter period, means the average of the daily Bloomberg Generic Rates during that month, or shorter period, as the case may be.

The Bloomberg Generic Rate of the Euro on 10 April 2013 was \$1.3070 per €1.00.

U.S. dollars per €1.00	High	Low	Average ⁽¹⁾⁽²⁾	Period end
2008	1.5991	1.2453	1.4712	1.3971
2009	1.5134	1.2530	1.3948	1.4321
2010	1.4513	1.1923	1.3266	1.3384
2011	1.4830	1.2907	1.3926	1.2961
2012	1.3458	1.2061	1.2860	1.3193
January 2013	1.3579	1.3049	1.3302	1.3579
February 2013	1.3640	1.3057	1.3339	1.3057
March 2013	1.3107	1.2780	1.2957	1.2819
April 2013 (through 10 April 2013)	1.3083	1.2820	1.2951	1.3070

(1) The average of the exchange rates on the last business day of each month during the relevant period.

(2) The average of the exchange rates on each business day during the relevant period.

Summary

This summary highlights information contained elsewhere in this offering memorandum. The summary below does not contain all the information that you should consider before investing in the Notes. You should read the entire offering memorandum carefully, including our financial statements and the notes thereto, before making an investment decision. See “Risk factors” for factors that you should consider before investing in the Notes.

Business

We are the leading designer and distributor of mission critical ERP and business management software and related value-added services for “SMEs” and professional advisors in Italy. In total, we have a large and diverse customer base with approximately 118,000 unique end customers. We have a 17% share in the Italian SME software market and a 31% share in the Italian professional advisor software market. When combining our SME and Professional business lines, we had more than twice the market share of our nearest competitor. From 2006 to 2011, we grew our market share in the SME market by approximately 9.9 percentage points and in the professional advisors market by approximately 4.7 percentage points. We have consistently grown our revenues and EBITDA since 2001, despite various economic cycles in the Italian economy. Our *pro forma* total revenue and *pro forma* Adjusted EBITDA for the year ended 31 December 2012 were €154.0 million and €55.4 million, respectively (including the effect of the acquisition of H-Umus as if it had occurred on 1 January 2012), representing a 36.0% *pro forma* Adjusted EBITDA margin. Our *pro forma* total revenue for the year ended 31 December 2010 were €129.2 million, representing a 19.2% increase in revenue from 2010 to 2012. Our *pro forma* Adjusted EBITDA for the year ended 31 December 2010 was €48.6 million, representing a 14% increase in Adjusted EBITDA from 2010 to 2012.

Our software solutions help our customers manage and develop their business and operations by automating and integrating business processes. These solutions are mission critical for the day-to-day operations of our customers. Together with this, the breadth of our product range, our high quality customer service and regular software updates result in a historically stable and low churn level among our Software and Services customers (excluding microbusiness) of approximately 4-5% per year over the past three years. This implies an average customer life of more than 20 years.

We have developed an extensive distribution and service network throughout Italy comprised both of a direct channel and an indirect channel (consisting of value added resellers, or “VARs”). We have strong cash flow visibility underpinned by multi-year contracts with our VARs and maintenance and assistance fees from our direct channel clients. This results in approximately 60% of recurring revenues.

Our core business line is Software and Services, which represents approximately 91% of our adjusted EBITDA, and is complemented by two other lines that complete our product offer: Education and CAD/CAM. Our client base is highly fragmented with our single largest direct channel end customer in 2012 representing approximately 0.2% of our total revenues. Our SME customer base includes micro, small and medium businesses with up to 500 employees and our professional advisor customer base includes accountants, labor advisors, and lawyers. The following table presents our total revenues, EBITDA, and customer numbers for each business

line as of and for the year ended 31 December 2012 (which are not pro forma for the effect of the acquisition of H-Umus as if it occurred on 1 January 2012):

Software and Services (91% of Adjusted EBITDA'12)	
2012 Total Revenues	€118 million
2012 Adjusted EBITDA ⁽²⁾	€49.8 million
Customers ⁽¹⁾	c.98,000
<div><div><div>SMEs</div><div>Customers c.75,000</div></div><div><div>Professionals</div><div>Customers c.23,000</div></div></div>	

CAD/CAM (3.7% of Adjusted EBITDA'12)	
2012 Total Revenues	€20.8mm
2012 Adjusted EBITDA ⁽²⁾	€2.0mm
Customers ⁽¹⁾	c.5,700

(1) Number of customers including approximately 5,000 overlapping customers.

(2) Adjusted EBITDA refers to EBITDA plus allowance for bad debt.

Software and Services (€118 million of total revenues and €49.8 million of Adjusted EBITDA for the year ended 31 December 2012). Our Software and Services core business line designs, develops, markets, installs and services modular, highly scalable and flexible software applications targeting primarily SMEs and Professionals. Our core business is the provision of software, which we keep continuously updated for our clients in response to the regular flow of legislative, tax and accounting changes in Italy.

We believe the breadth and quality of our product offering, along with our responsiveness, which allows us to update our software based on legislative, tax and accounting changes provides us with a significant competitive advantage over our competitors.

We support and sell our software products indirectly through a distribution and service network of over 600 VARs and directly through 21 direct commercial branches and offices employing a staff of over 500 employees, including approximately 90 employees who are dedicated to sales and about 380 employees dedicated to maintenance, customer support and delivery. We believe that our direct and indirect distribution and service network complement each other and have enabled us to build a unique and effective support and sales network. Our direct and indirect channels represented 52% and 48% of our 2012 Software and Services business line revenue, respectively.

Our direct distribution and service network enables us to maintain a direct relationship with end customers and to identify customers' needs promptly and accurately. We charge our direct customers through a combination of an initial license fee and additional fees for maintenance and assistance services as well as customization and personalization. Our maintenance and support services are provided under annual automatically renewable contracts, which are typically directly invoiced to our direct channel customers in January of each year.

Our indirect distribution and service network, through our VARs, allows us to increase our territorial reach and coverage while optimizing the use of our resources. VARs help us service

the initial phase of the value chain by having these VARs sell, install and maintain our products to end customers and receive payments from their customers for these activities. VARs typically pay us a fixed annual amount with predetermined yearly increases. Generally, VARs are prohibited from selling competing products. Exceptions to this are driven by specific business needs. We believe that these multiyear contract arrangements (typically of a three-year term) have strengthened our relationship with our VAR network. Although our VARs exclusively manage the relationship with their end customers, we are able to track the end users of our software as we hold the licenses.

We believe that our extensive distribution network comprised of our dedicated direct sales force and our network of highly motivated VARs allows us to provide the high level of customization, localization and commitment to service and support that our clients require in Italy.

As of 31 December 2012, our Software and Services segment had approximately 98,000 customers, representing 91% of our Adjusted EBITDA.

Education (€14.3 million of total revenue and €2.9 million of Adjusted EBITDA for the year ended 31 December 2012). We entered into our Education business line with the objectives of increasing our range of services offered to our core customer segments, and creating cross-selling opportunities with our core business line. Our Education business line operations started in 2004 with the acquisition of Euroconference and we enhanced our offer substantially in 2012 with the acquisitions of Paradigma and Optime. Euroconference is a leading provider of educational services and products in Italy, offering training to chartered accountants, labour consultants, lawyers and notaries. Paradigma and Optime provide training to members of the senior management of large businesses, financial institutions, public administrators and professional firms. As of 31 December 2012, Euroconference had approximately 17,000 customers and Paradigma and Optime combined had approximately 2,300 customers, for a total of more than 19,000 customers within our Education business line, representing 5.3% of our Adjusted EBITDA.

CAD/CAM (€20.8 million of total revenue and €2.0 million of Adjusted EBITDA for the year ended 31 December 2012). We operate our CAD/CAM business line through NuovaMacut, which we acquired in 2008. NuovaMacut is a provider and distributor of manufacturing software solutions to SMEs. We believe the manufacturing software industry has a high degree of customer loyalty and we expanded our business into this industry in order to reach this specific customer segment. Our CAD/CAM business offers the opportunity to cross-sell our Software and Service products to our CAD/CAM customers and we have been able to cross sell our SME products to an increasing number of our CAD/CAM clients. We estimate that revenues derived from such cross-selling are in the range of €1.0 million per year and we believe there is significant room for further cross-selling and penetration of the CAD/CAM market in the coming years. As of 31 December 2012, our CAD/CAM business line had approximately 5,700 customers, representing 3.7% of our Adjusted EBITDA.

Industry

The Italian ERP and business management software market is characterized by the following:

- an estimated total market size of €1.1 billion, consisting of approximately 4.4 million SMEs.
- a continuous demand for software updates reflecting recurrent regulatory changes and fiscal interventions in Italy;
- the key role of scale in determining the availability of resources to consistently invest in R&D to ensure that the underlying legal, tax and accounting content of software is up to date. Technological updates are required less regularly and typically take place every five to ten years;

- the importance of building strong distribution networks to maximize market penetration and proximity to customers;
- stability in comparison with the general software and IT market due to mission critical nature of services. ERP and business Software and Services are fundamental to the day-to-day activities of the business;
- limited price sensitivity. Customers in this market are primarily concerned with quality of services and the availability of product support: system maintenance and regular product updates are paramount. This limited price sensitivity is also driven by customers' need for suitable training to be made available by suppliers to ensure that employees are able to use software both efficiently and effectively;
- high fragmentation with regard to SMEs, with the top 10 market players in Italy accounting for 40% of the market. Large players are best positioned to take advantage of this fragmented market. This is due to several factors. Firms with wider resources are suited to conducting operations on a larger scale, can offer a wider range of services, support greater geographical reach and deliver a higher quality of customer service. Finally, customers are likely to be less concerned about the risk that their services will be discontinued when dealing with larger providers. As a result, top 10 market players have increased their SME market share from 25% in 2006 to 40% in 2011; and
- high switching costs of existing customers stemming from the training required to familiarize employees with new software. The transition to an alternative supplier also exposes customers to significant data migration risk.

Strengths

We believe we have the following key strengths:

Market leader in a stable and fragmented market with key competitive advantages

We are the leading Italian business management software provider for SMEs and Professionals. Based on number of users. We have a 17% share in the Italian SME software market and a 31% share in the Italian professional advisor software market. When combining our SME and Professional business lines, we had more than twice the market share of our nearest competitor. Within the SME market, we hold the leading market shares of 13%, 14% and 24% of the market for micro, small and medium businesses, respectively. Within the Professionals market, based on the number of users, we hold a leading market share with 30% of the accounting software market and 36% of the payroll software market. From 2006 to 2011, we grew our SME market share by approximately 9.9 percentage points and our professional market share by approximately 4.7 percentage points. We believe there is still significant room for growth across all of our business lines, for which we are well positioned to capture as a result of the breadth and quality of our product offering, along with our ability to timely and quickly update our software based on legislative, tax and accounting changes.

We believe we have significant competitive advantages that make it difficult for competitors to expand their business in, or enter into, the Italian business management software market. The size of our operations allows us to benefit from extensive economies of scale in key areas such as research and development, distribution and customer service. By leveraging our scale, we achieve high returns, which, in turn, enable us to constantly invest in broadening and improving our product offer, our standards of service, our R&D capabilities and our distribution network. For this reason, we believe that most of our smaller competitors are increasingly unable to compete with us in these areas and therefore in the market. In addition, we believe that our localized sales, delivery and maintenance presence is essential to servicing the SME market and that larger competitors struggle to provide specialized products on a local level.

Our significant investment in research and development and our ability to respond with rapid and accurate updates of our software based on legislative, tax and accounting changes are difficult for new market entrants to replicate. We also believe that the depth, quality and reliability of our comprehensive product range, the scale and reach of our distribution network (which covers the entire nation) and our focus on customer service constitute a business model that is difficult to replicate. Furthermore, we believe our customers would experience high switching costs if they decided to use another software provider because they would need to purchase new software, train employees and migrate data, which each come with related risks. As a result, we believe our customers and end-users are unlikely to switch software providers. This is evidenced by our low direct customer churn rate, which historically has been in the range of 4 to 5% (of which only 1% resulted from customers switching to a competitor offering a similar product).

We also believe we have a high degree of VAR loyalty because of our multi-year agreements with fixed fee pricing models, which encourage VARs to build expertise in our products and create high switching costs for our VARs. Historically, we have managed to maintain a VAR churn rate measured by revenues of approximately 1%.

Proven resilience despite the economic downturn

Despite the negative 0.9% CAGR from 2010 to 2012 in Italy's real GDP and the 2% decline in information technology spending in Italy over the same period, our total *pro forma* revenues grew at a CAGR of 9.2% over the same period, which we believe demonstrates the resiliency of our business model. We believe our customers continue spending on our products during lean economic times because we provide business management software critical to the continuation of their businesses.

Recurring revenues with high visibility of EBITDA and cash flow visibility

We consider approximately 60% of the revenues generated by our business in 2012 to be recurring. In particular, within our Software and Services business line, which represents 91% of our Adjusted EBITDA, 67% of our revenues are recurring. As part of our business model, when we sell software products to our direct end-customers, the initial software license sale is typically linked to the sale of contracts covering maintenance and assistance. Contract renewal usually takes place at the beginning of the year, thus providing a high level of visibility on maintenance revenue. Most of our contracts are automatically renewed unless cancelled with three to six months prior written notice (depending on the particular contract); historically, our Software and Services contract renewal rate has been approximately 95-96%.

As a result of renewing contracts at the beginning of the year, the majority of our Software and Services revenue is invoiced at the beginning of the year and paid within the first half of the year, resulting in strong cash flow visibility during the first months of each year (during our annual budgeting process). Therefore, we are able to confidently predict and monitor our EBITDA and cash flow levels throughout the business cycle. In addition, most of our contracts with VARs have a term of three years, with yearly fixed fees and predetermined yearly increases.

Large, growing and diverse customer base with no revenue concentration

As of 31 December 2012, we had approximately 123,000 end customers (including approximately 5,000 customers overlapping across business lines), representing an increase of approximately 35,000 customers since 2009. Excluding our microbusiness line, which is relatively small and operates with a different service model, we achieved a Software and Services customer retention rate of approximately 95-96%, thereby demonstrating the resilience of our business model. We have grown our number of VARs from 320 in 2005 to 616 in 2012,

resulting in a CAGR of 9.8%. The chart below shows the distribution of our clients across our business lines and types of Software and Services customers.

Our customers are also diverse across industries, resulting in a low customer concentration and diverse revenue base by product. In our Software and Services business line, our top 10 direct channel end customers represented approximately 2% of our revenue for 2012, with the largest customer representing approximately 0.2%.

While our growing customer base supports the growth of our business and allows us to benefit from economies of scale related to product development and updates, we believe the diverse nature of our clients and product base helps to insulate our business against declines in product demand in one particular industry and reliance on revenues from a small number of key customers.

Experienced and proven management team

We benefit from the significant experience of our senior management team, which has contributed to the success of the company throughout its history. The majority of the management team have more than 10 years of experience within the company. Our management team has demonstrated its ability to grow our business and improve operating

performance as evidenced by the increase in our revenues and EBITDA over a long period, including in the face of a global economic downturn and recent economic instability.

(1) Adjusted EBITDA, adjusted for bad debt provision.

(2) Software and Service market share for 2011.

Our strategy

We aim to increasingly utilize our current leadership to consolidate our position and better serve our customers, by continuing to provide them with resources for achieving and preserving competitive advantages in their businesses. In order to achieve this goal, we will pursue a growth strategy based on three key pillars:

- **Organic growth:** we plan to utilize our current resources and strengths to sustain our core business. This pillar will constitute the main driver of our future growth, through new customer addition, obtaining additional value from our existing customers (through, for example, cross selling), reinforcement of our VARs and direct networks and improvement of our product offering to generate cash flow;
- **New business:** we will evaluate further growth opportunities, aiming both at complementing our offering to our core customer segments by making additional services available (e.g., payslips processing outsourcing) and at expanding into new, attractive, adjacent software markets;
- **Acquisitions:** we aim at complementing our organic growth by performing bolt-on acquisitions that allow us to expand our core offering (either through specific vertical acquisitions or through products we can cross-sell to our customers) and that easily integrate into our operations. Opportunistically, we may consider potential acquisitions in adjacent, highly attractive markets served by specific software needs.

Our plan for achieving this strategy includes a number of initiatives, the majority of which are already in progress. The most important of these initiatives are briefly described below.

Enhance our direct sales network and implement a uniform pricing model

We are in the process of further improving the effectiveness of our direct network, to enhance its delivery quality and efficiency. This is being achieved through a significant review and improvement of our business processes (including specialization and incentive schemes) and

tools (including customer relationship management, or “CRM”) and through a centralization of our service delivery activities and of our customer support activities in regional hubs.

In addition, we have also improved our direct distribution and service networks’ pricing and discount policies by setting up a structured discount control process and implementing automatic inflation-linked price increases. As a result of our direct channel discount controls implemented over the course of 2012, we estimate we have added €1 million to our EBITDA.

Improve our indirect sales channel and provide new incentives to VARs

We intend to increase the level of support provided to our indirect distribution and service network. To this end, in 2012 we designed and launched the VAR support program (the “VAR support program”), aimed at improving the commercial, managerial and technical capabilities of our VARs. The program was well received and we expect to increase the number of program participants from nine to fifteen VARs over the course of 2013. As another component of the VAR support program, we launched an incentive program that awards VARs for incremental year-on-year growth. VARs achieving a pre-set growth goal will receive specific benefits aimed at improving performance such as free training and marketing support.

Invest in product development to drive product innovation

We have identified medium-term key technology trends, such as SaaS solutions and multi-device capability, and designed our technology roadmap with these trends in mind. In 2012 we launched a €16 million investment plan to build our new technology platform over a five-year period (our “Product Renewal Project”), which will significantly improve our product offering. We expect, over the course of the next four years, to evolve our product range and implement the latest available technologies across our entire product offering. We also intend to renew our software development tools in order to increase the efficiency of our development phase, and to standardize our technology across product lines and research and development teams. As a result of these initiatives, we believe we will be able to continue to offer modular, highly scalable and flexible software in light of recent technological advances, simplify our software management, implement common components across our product line and reduce application development time, thereby decreasing the time it takes to bring a product or upgrade to market and lower development costs.

The Product Renewal Project will renovate our entire line of products through a gradual evolution of existing products, providing our customers with a smooth transition from the current to the new generation product suite. We have been releasing product updates and innovations as they are available, with the goal of providing clients with the immediate benefits of new technology that we have integrated into our products.

Continue to exploit the cross-selling potential of our active customer base and synergies among our product offering with an aim toward further increasing customer loyalty

We believe there is potential for revenue growth and margin improvement through increased cross-selling of our products. Our goal is to further increase the penetration of our existing client base by expanding the range of products and services offered through our traditional distribution and service network and by increasing the use of new sales channels, such as telephone and internet sales, to increase penetration of specific add-on modules for our professional software. We are planning up to six dedicated sales campaigns each year to capture the potential of increasing customer penetration in these new sales channels.

Further expand into the microbusiness market

We aim to capture significant further value from our microbusiness segment, leveraging on the high growth potential of the market and improving our leading market share position. In 2011, the microbusiness segment had a low management software penetration as compared to the larger SMEs segments, with a penetration rate of approximately 13% in Italy as compared to a penetration rate of 97% and 61% in the medium and small enterprises, respectively, for the

same period. These figures evidence the very high growth potential which can be captured in this market, especially when compared with other Western European countries. We intend to implement a comprehensive microbusiness growth plan with the goal of (i) continuously improving our microbusiness offer by increasingly providing value-added services, such as e-payments and by completing and launching our SaaS solution, (ii) strengthening our various distribution channels, both on the internet and through new physical channels, such as stores and resellers, and (iii) helping to expand the wider market for microbusiness software through marketing and communication activities.

Continue our current successful strategy based on accretive bolt-on acquisitions in our core business areas and expanding into selected complementary markets

We intend to continue our successful track record of acquisitions in our core business, based on our well-defined and disciplined approach. We plan to selectively seek attractive partnerships with, or acquisitions of, companies that complement our business and offer significant operational and commercial synergies, with the key strategic goal of expanding our core offer either in selected vertical products, serving specific customer segments, or cross-segment products, thereby enabling us to better serve our current customer base. Accordingly, our typical targets will be small companies featuring excellent quality products, technologies, know-how and people with the potential to be easily integrated in our business model. This approach will continue to be the core pillar of our acquisition strategy. We actively maintain a pipeline of acquisition opportunities aligned to this strategy, which we evaluate on a continuous basis.

Additionally, we regularly monitor selected, attractive adjacent markets, featuring specific software needs. On an opportunistic basis, we evaluate potential acquisition targets in such markets. To this extent, we are currently focusing on healthcare and insurance software, and we have identified a set of potentially attractive acquisition opportunities in these markets, which we are in the process of assessing. Specifically, with respect to insurance software, we have had discussions regarding one potential acquisition in this area, the price of which we expect would be in the range of €20 million. We expect that this acquisition, if completed, would have a neutral or de-leveraging effect and would be financed with drawings under the Revolving Credit Facility as well as cash. However, no binding agreement has so far been signed with respect to this acquisition.

The Refinancing Transactions

The “Refinancing Transactions” consist of the following transactions:

- the issuance by the Issuer of €300 million aggregate principal amount of % Senior Secured Notes due 2020 offered hereby;
- entry into the Company Funding Loan and the Titan 3 Funding Loan;
- the repayment of outstanding borrowings of approximately €183.0 million under the Senior Facilities Agreement and the payment of related accrued interest and break costs in connection with the cancellation of the Senior Facilities Agreement;
- the repayment of outstanding borrowings of approximately €66.0 million under the Mezzanine Facility Agreement and the payment of related accrued interest and break costs in connection with the cancellation of the Mezzanine Facility Agreement;
- the redemption in full of €37.5 million aggregate principal amount of PIK Notes and the repayment of related accrued payment-in-kind interest, and the cancellation of the PIK Notes (and accrued payment-in-kind interest in the form of additional PIK Notes) and the termination of the PIK Instrument;
- entry into the new Revolving Credit Facility Agreement; and
- the payment of fees and expenses in connection with the foregoing transactions, including the fees and expenses to be incurred in connection with the Offering.

Post-Completion Merger

We intend to merge Titan 3 into the Issuer (the “Post-Completion Merger”) and the Issuer, as the surviving legal entity, will form the principal holding company of the Group.

Pursuant to the Post-Completion Merger: (i) Titan Luxco 3 S.à r.l. will be transformed, after the Issue Date, into Titan 3 S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy; (ii) Titan 3 S.p.A. will be merged into the Issuer and the security interests granted to the holders of the Notes and the lenders under the Revolving Credit Facility in respect of its shares as well as the Guarantee of Titan 3 issued in respect of the Notes and the guarantee of Titan 3 provided in respect of the Revolving Credit Facility, respectively, will be released to reflect such merger; (iii) the Titan 3 Funding Loan and the Titan 3 Shareholder Loan, respectively, will be extinguished, and the security interests granted to the holders of the Notes and the lenders under the Revolving Credit Facility in respect thereof will be released; and (iv) the rights and obligations of Titan 3 as lender under the Company Shareholder Loan will be novated and assumed by the Issuer, and the security interests granted to the holders of the Notes and the lenders under the Revolving Credit Facility in respect thereof will be released and retaken to reflect such novation and assumption.

We expect the Post-Completion Merger will be completed within six months of closing of the Refinancing Transactions. There can be no assurance that the Post-Completion Merger will be achieved within this time frame or at all.

Recent developments

Preliminary financial results for the two months ended 28 February 2013

Based on our preliminary financial results for the two months ended 28 February 2013, we believe our business is continuing to perform in line with expectations. For the two months ended 28 February 2013, we estimate that our revenue will experience single digit growth as a result of the growth of our Software and Service business line as a result of price increases and our resilient customer base and we expect the performance of our Education and CAD/CAM business lines to be in line with the weaker macroeconomic environment.

For the two months ended 28 February 2013, we estimate that our Adjusted EBITDA will be flat compared to the same period in 2012. We estimate that our Software and Services business line will experience low double digit Adjusted EBITDA growth and we expect the performance of our Education and CAD/CAM business lines to be in line with the weaker macroeconomic environment.

The foregoing discussion has been prepared by, and is the responsibility of, management and is solely based on the preliminary financial information used by management. Our financial statements for the two months ended 28 February 2013 have not been completed. During the course of our financial statement closing process, we could identify items that would require us to make adjustments that could affect the results of operations for the results discussed above. These results are preliminary and are subject to change, and they may not be indicative of the remainder of the financial quarter or any other period. See “*Forward-looking statements*”. Deloitte & Touche S.p.A. has not audited, reviewed or compiled these preliminary results.

Our Principal Shareholders

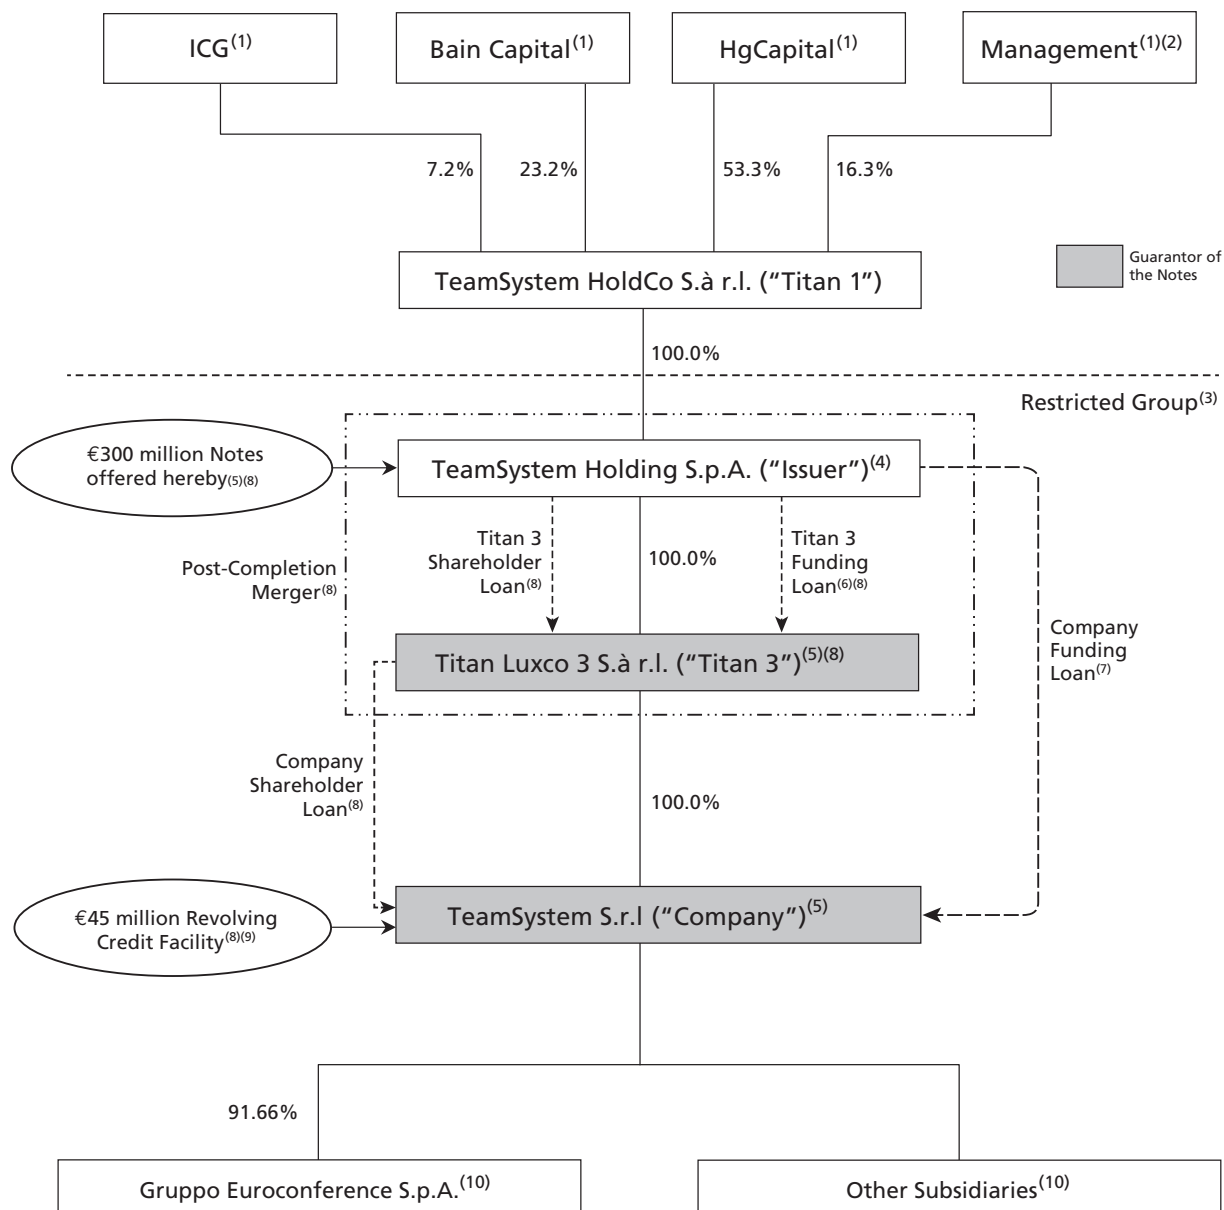

HgCapital, which owns approximately 53% of our ordinary shares, has been a shareholder since 2010 and is a leading investor in the European private equity market with a 27 year track record and investment experience across various sectors. HgCapital owns or has owned ten investments in the software sector and TeamSystem is its fifth investment in the SME software market since 2004. At 31 December 2012, HgCapital had £3.7 billion of assets under management.

Bain Capital owns approximately 23% of our ordinary shares and has been a shareholder since 2004. Bain Capital owns 12 investments in the technology, media and telecommunications sector and four additional investments in software companies.

Members of our current and former management and financial investors own the balance of our ordinary shares. See "*Principal shareholders*".

Our corporate and financing structure

The following diagram summarizes our corporate structure and principal outstanding financing arrangements after giving effect to the Refinancing Transactions. The diagram does not include all entities in the Group, nor all of the debt obligations thereof. For a summary of the debt obligations identified in this diagram, please refer to the sections entitled “Description of the Notes” and “Description of other indebtedness” for further information.

(1) On 29 September 2010, our principal shareholders entered into an investment agreement relating to, *inter alia*, the management and administration of the affairs of the Group (the "Investment Agreement"). For certain details on the Investment Agreement and certain other investors in the Group, see "Principal shareholders—Investment Agreement".

(2) Members of our current and former management, directors and employees indirectly own approximately 16.3% of the equity interests in the Issuer. See "Principal shareholders".

(3) The entities in the "Restricted Group" will be subject to the covenants in the Revolving Credit Facility Agreement and in the Indenture.

(4) On or prior to the Issue Date, the Issuer will be transformed from Titan Luxco 2 S.à r.l., a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, into TeamSystem Holding S.p.A., a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy.

(5) The Notes will be the Issuer's senior obligations and will be guaranteed by the Company and Titan 3. The Guarantees will be subject to certain contractual and legal limitations under applicable laws, and may be released under certain circumstances. See "Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law".

considerations" and "Description of the Notes—Guarantees—Releases of Guarantees". The Guarantors accounted for 81% of the assets of Titan 1 and its consolidated subsidiaries as of 31 December 2012 and 68% of the Adjusted EBITDA of Titan 1 and its consolidated subsidiaries for the year ended 31 December 2012. The Notes will be secured on a first-ranking basis (subject to the operation of the Agreed Security Principles, certain perfection requirements and any Permitted Collateral Liens) by a pledge over: (i) the shares of the Issuer, Titan 3 and the Company; (ii) the Issuer's rights under the Titan 3 Funding Loan; (iii) the Issuer's rights under the Company Funding Loan; (iv) the Issuer's rights under the Titan 3 Shareholder Loan; and (v) Titan 3's rights under the Company Shareholder Loan (collectively, the "Notes Collateral"). The Notes will be secured by the Notes Collateral on the Issue Date, except with respect to the shares of the Company, which will secure the Notes no later than the date that is 60 days after the Issue Date. See "Description of the Notes—Security". The Notes Collateral will also secure on a first ranking basis the Revolving Credit Facility and certain hedging obligations. The Notes Collateral will be subject to the Agreed Security Principles and limitations under applicable laws.

(6) On the Issue Date, the Issuer will make a funding loan available to Titan 3 with part of the proceeds of the Offering, to repay in full the outstanding borrowing under the Mezzanine Facility Agreement (the "Titan 3 Funding Loan"). The Titan 3 Funding Loan will be obligations of Titan 3 and will be secured by a pledge over the shares of the Company (the "Titan 3 Funding Loan Collateral").

(7) On the Issue Date, the Issuer will make a funding loan available to the Company with part of the proceeds of the Offering, to repay in full the outstanding borrowings under the Senior Facilities Agreement (the "Company Funding Loan"). The Company Funding Loan will be obligations of the Company, and will be secured by a pledge over: (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A.; (ii) certain intellectual property rights of the Company (collectively, the "Company Funding Loan Collateral" and together, with the Notes Collateral and the Titan 3 Funding Loan Collateral, the "Pre-Merger Collateral"); and (iii) certain intercompany receivables of the Company.

(8) Titan Luxco 3 S.à r.l. will, after the Issue Date, be transformed into Titan 3 S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy and, thereafter, will be merged into the Issuer. As a consequence of the merger: (i) the Titan 3 Funding Loan and the Titan 3 Shareholder Loan, respectively, will be extinguished; (ii) the security interests granted to the holders of the Notes (and the lenders under the Revolving Credit Facility) in respect of the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and the shares in Titan 3, as well as the Guarantee of Titan 3 issued in respect of the Notes (and the guarantee of Titan 3 provided in respect of the Revolving Credit Facility), respectively, will be released; and (iii) the Issuer will assume the rights and obligations of Titan 3, as lender, under the Company Shareholder Loan. See "Summary—Post-Completion Merger" for more information. After the Post-Completion Merger, the Notes will be secured on a first-ranking basis by a pledge over: (i) the entire issued share capital of the Issuer and the Company; (ii) the Issuer's rights under the Company Funding Loan; and (iii) the Issuer's rights under the Company Shareholder Loan.

(9) On or about the Issue Date, the Issuer, the Guarantors and Gruppo Euroconference S.p.A. will each enter into the Revolving Credit Facility Agreement to provide for a revolving credit facility of €45,000,000. The Company will be a borrower under the Revolving Credit Facility. The Revolving Credit Facility will initially be guaranteed by the Issuer, Titan 3, the Company and Gruppo Euroconference S.p.A. The Revolving Credit Facility will be secured by first-ranking security interests granted on an equal and ratable first-priority basis over the Notes Collateral, as well as (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A., (ii) certain intellectual property rights of the Company, (iii) certain intercompany receivables of the Company and (iv) a special lien (*privilegio speciale*) granted by the Company. Under the terms of the Intercreditor Agreement, lenders under the Revolving Credit Facility and counterparties to certain hedging obligations will receive proceeds from the enforcement of the Collateral in priority to the holders of the Notes. See "Description of other indebtedness—Intercreditor Agreement" for further information. On the Issue Date, the Revolving Credit Facility will be undrawn.

(10) We have minority shareholders in certain of our subsidiaries, including Gruppo Euroconference S.p.A.. In order to preserve control of the relevant subsidiary and incentivize key managers who are minority shareholders, we enter into put and call agreements with such shareholders whereby we are able to call their shares. For more information, see note 32 to the Company's consolidated financial statements as of and for the year ended 31 December 2012, included elsewhere in this offering memorandum.

The Offering

The following is a brief summary of certain terms of the Offering of the Notes. It may not contain all the information that is important to you. For additional information regarding the Notes, the Guarantees and the Collateral, see "Description of the Notes" and "Description of other indebtedness—Intercreditor Agreement".

Issuer	Titan Luxco 2 S.à r.l., a private limited company (<i>société à responsabilité limitée</i>) organized under the laws of the Grand Duchy of Luxembourg, to be transformed, on or prior to the Issue Date, into TeamSystem Holding S.p.A, a joint stock company (<i>società per azioni</i>) organized under the laws of the Republic of Italy.		
Notes	€300,000,000 aggregate principal amount of		%
	Senior Secured Notes due 2020.		
Issue date	On or about	2013.	
Issue price		% plus accrued interest, if any, from the Issue Date.	
Maturity date		2020.	
Interest payment dates	Semi-annually in arrears on each and , commencing 2013. Interest will accrue from the Issue Date.		
Denomination	Each Note will have a minimum denomination of €100,000 and integral multiples of €1,000 in excess thereof.		
Ranking of the Notes	The Notes will: <ul style="list-style-type: none">• be general, senior obligations of the Issuer, secured as set forth below under "—Security";• rank <i>pari passu</i> in right of payment with all existing and future indebtedness of the Issuer that is not subordinated in right of payment to the Notes, including the Issuer's obligations in respect of the Revolving Credit Facility as a guarantor thereunder;• rank senior in right of payment to all existing and future indebtedness of the Issuer that is expressly subordinated in right of payment to the Notes;• be effectively subordinated to any existing and future indebtedness of the Issuer that is secured by property or assets that do not secure the Notes, to the extent of the value of the property or assets securing such indebtedness;• be effectively junior to any existing and future indebtedness of the Issuer that will receive proceeds from any enforcement action over the assets securing the Notes on a priority basis, including indebtedness under the Revolving Credit Facility and certain hedging obligations and certain other future indebtedness;		

- benefit from a guarantee from the Company and Titan 3, which guarantees are subject to certain limitations on recovery; and
- be effectively subordinated to any existing and future indebtedness of subsidiaries of the Issuer that are not Guarantors.

The Notes will be subject to the terms of the Intercreditor Agreement. See *"Description of other indebtedness—Intercreditor Agreement"*.

Guarantees The Issuer's obligations under the Notes will be guaranteed by the Company and Titan 3. The Guarantees will be subject to certain contractual and legal limitations under applicable laws, and may be released in certain circumstances. See *"Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations"*, *"Description of the Notes—Guarantees—Release of Guarantees"* and *"Risk factors—Risks related to the Notes and our Capital Structure"*.

Concurrently, with the Post-Completion Merger, the Guarantee of Titan 3 issued in respect of the Notes (as well as the guarantee of Titan 3 provided in respect of the Revolving Credit Facility) will be released. See *"Summary—Post-Completion Merger"*.

After giving effect to the Refinancing Transactions, the Guarantors would have generated approximately 48% of Titan 1's consolidated revenue and approximately 68% of Titan 1's Adjusted EBITDA for the twelve months ended 31 December 2012, respectively, and accounted for approximately 81% of Titan 1's consolidated total assets as of 31 December 2012.

As at 31 December 2012, after giving effect to the Refinancing Transactions, the subsidiaries of the Issuer that will not provide a guarantee of the Issuer's obligations under the Notes, would have had approximately €0.1 million of third party financial liabilities outstanding.

Ranking of the Guarantees The Guarantee of each Guarantor will:

- be a general obligation of that Guarantor;
- rank *pari passu* in right of payment with all existing and future indebtedness of that Guarantor that is not subordinated in right of payment to such Guarantor's Guarantee; and
- rank senior in right of payment to all existing and future indebtedness of that Guarantor that is subordinated in right of payment to such Guarantor's Guarantee.

The Guarantees will be subject to the terms of the Intercreditor Agreement. See *"Description of other indebtedness—Intercreditor Agreement."*

Security Liens on the rights, property and assets securing the Notes on a first ranking basis shall, subject to the Agreed Security Principles, certain perfection requirements and any Permitted Collateral Liens, comprise the following (collectively, the "Notes Collateral"):

- the shares of the Issuer, Titan 3 and the Company;
- the Issuer's rights under each of the Funding Loans;
- the Issuer's rights under the Titan 3 Shareholder Loan; and
- Titan 3's rights under the Company Shareholder Loan.

The Notes Collateral (other than the "Post-Closing Collateral" (as defined below)) will be granted on the Issue Date. The Notes Collateral to be granted in respect of the shares of the Company (the "Post-Closing Collateral") will be granted no later than the date that is 60 days after the Issue Date. See *"Description of the Notes—Security"*.

In addition, on the Issue Date,

- (a) the Company Funding Loan will be secured by a pledge over:
 - 91.66% of the issued share capital of Gruppo Euroconference S.p.A.;
 - certain intellectual property rights of the Company; and
 - certain intercompany receivables of the Company (collectively, the "Company Funding Loan Collateral"); and
- (b) the Titan 3 Funding Loan will be secured by a pledge over the shares of the Company (the "Titan 3 Funding Loan Collateral" and together, with the "Company Funding Loan Collateral" the "Funding Loan Collateral").

On the Issue Date, the Revolving Credit Facility will be secured by first-ranking security interests granted on an equal and ratable first-priority basis over the Notes Collateral, as well as (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A., (ii) certain intellectual property rights of the Company, (iii) certain intercompany receivables of the Company and (iv) a special lien (*privilegio speciale*) granted by the Company.

Concurrently with the Post-Completion Merger, the Titan 3 Funding Loan Collateral and the security interests granted to the holders of the Notes (as well as the lenders under the Revolving Credit Facility) in respect of the shares of Titan 3, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan, respectively, will be released. See *"Summary—Post-Completion Merger"*.

The security interests securing the Notes may be limited by applicable law or subject to certain defenses that may limit their validity and enforceability. For more information, see *"Risk factors—Risks related to the Notes and our Capital Structure"*.

The security interests securing the Notes may be released under certain circumstances. See *"Risk factors—Risks related to the Notes and our Capital Structure"*, *"Description of other indebtedness—Intercreditor Agreement"* and *"Description of the Notes—Security—Release of Liens"*.

The Intercreditor Agreement will provide that lenders under the Revolving Credit Facility and counterparties to certain hedging obligations will receive the proceeds from the enforcement of the Notes Collateral and the Funding Loan Collateral in priority to holders of the Notes. See *"Description of other indebtedness—Intercreditor Agreement"* and *"Description of the Notes—Security"* for further information.

Additional amounts Any payments made with respect to the Notes will be made without withholding or deduction for or on account of taxes in any relevant taxing jurisdiction unless required by law. If withholding or deduction for such taxes is required to be made with respect to a payment under the Notes, subject to certain exceptions, we will pay the additional amounts necessary so that the net amount received by the holders of the Notes after the withholding or deduction is not less than the amount that they would have received in the absence of the withholding or deduction. See *"Description of the Notes—Withholding Taxes"*.

Subject to and as set out in *"Description of the Notes—Withholding Taxes"*, the Issuer will not be liable to pay any additional amounts to holders of the Notes in relation to any withholding or deduction required pursuant to Italian Legislative Decree No. 239 of 1 April 1996 (as the same may be amended, or supplemented from time to time) where the Notes are held by a person resident in a country that does not allow for satisfactory exchange of information with Italy (as per article 168-bis, Italian Presidential Decree No. 917 of 22 December 1986) and otherwise in the circumstances as described in *"Description of the Notes—Withholding Taxes"*.

Optional redemption	<p>At any time prior to 2016, the Issuer will be entitled at its option to redeem all or a portion of the Notes at a redemption price equal to 100% of the principal amount of the Notes, plus the “make-whole” premium as of, and accrued and unpaid interest and additional amounts to, if any, the redemption date, as described under “<i>Description of the Notes—Optional Redemption</i>”.</p>
	<p>At any time on or after 2016, the Issuer will be entitled at its option to redeem all or a portion of the Notes at the redemption prices set forth under the caption “<i>Description of the Notes—Optional Redemption</i>”.</p>
	<p>At any time prior to 2016, the Issuer will be entitled at its option, on one or more occasions, to redeem the Notes in an aggregate principal amount not to exceed 40% of the aggregate principal amount of the Notes with the net cash proceeds from certain equity offerings at a redemption price equal to % of the principal amount outstanding in respect of the Notes, plus accrued and unpaid interest and additional amounts, if any, to the date of redemption, so long as at least 60% of the aggregate principal amount of the Notes remains outstanding immediately after each such redemption and each such redemption occurs within 180 days after the date of closing of the relevant equity offering.</p>
Optional redemption for tax reasons	<p>In the event of certain developments affecting taxation or in certain other circumstances, the Issuer may redeem the Notes in whole, but not in part, at any time, at a redemption price of 100% of the principal amount, plus accrued and unpaid interest, if any, and additional amounts, if any, to the date of redemption. See “<i>Description of the Notes—Redemption for Taxation Reasons</i>”.</p>
Change of control	<p>Upon the occurrence of certain events constituting a specified change of control event, the Issuer may be required to offer to repurchase the Notes at a purchase price in cash equal to 101% of the principal amount thereof on the date of purchase plus accrued and unpaid interest and additional amounts, if any, to the date of purchase. A specified change of control event will not be deemed to have occurred if certain consolidated leverage ratios are not exceeded as a result of such event. See “<i>Description of the Notes—Change of Control</i>”.</p>
Certain covenants	<p>The Indenture, among other things, will restrict the ability of the Issuer and its restricted subsidiaries to:</p> <ul style="list-style-type: none"> • incur or guarantee additional indebtedness and issue certain preferred stock;

- pay dividends or make other distributions or purchase or redeem our stock;
- make investments or other restricted payments;
- enter into agreements that restrict our Restricted Subsidiaries' ability to pay dividends;
- transfer or sell assets;
- engage in certain transactions with affiliates;
- create liens on assets to secure indebtedness;
- impair the security interests for the benefit of the holders of the Notes; or
- merge or consolidate with other entities.

Each of these covenants is subject to significant exceptions and qualifications. See *"Description of the Notes—Certain Covenants"*.

Use of proceeds The proceeds from the sale of the Notes will be primarily used to repay existing debt of the group. See *"Use of proceeds"*.

Transfer restrictions The Notes and the Guarantees have not been, and will not be, registered under the U.S. Securities Act or the securities laws of any other jurisdiction. The Notes are subject to restrictions on transferability and resale and may only be offered or sold in transactions that are exempt from or not subject to the registration requirements of the U.S. Securities Act. We have not agreed to, or otherwise undertaken to, register the Notes (including by way of an exchange offer) under the U.S. Securities Act.

See *"Transfer restrictions"* and *"Plan of distribution"*.

No prior market The Notes will be new securities for which there is currently no established trading market. Although the Initial Purchasers have advised us that they intend to make a market in the Notes, they are not obligated to do so and they may discontinue market-making at any time without notice. Accordingly, we cannot assure you that an active trading market will develop or be maintained for the Notes.

Listing Application will be made to list the Notes on the Official List of the Luxembourg Stock Exchange and for admission of the Notes to trading on the Luxembourg Stock Exchange's Euro MTF Market.

Risk factors

Investing in the Notes involves a high degree of risk. See the “*Risk factors*” section for a description of certain of the risks you should carefully consider before investing in the Notes.

Summary consolidated financial data

The following tables present our summary consolidated historical and *pro forma* financial and other data as of and for the periods indicated below.

We do not present in this offering memorandum any financial information or financial statements of the Issuer for the periods presented. We do not present financial information of the Issuer because the financial statements have been prepared under Luxembourg GAAP and the financial statements are not consolidated. All historical financial information included in this offering memorandum is that of TeamSystem HoldCo S.à r.l., the Company and its consolidated subsidiaries.

The summary consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of cash flows data for the Company set forth below as of and for the years ended 31 December 2011 and 2012 were derived from the audited consolidated financial statements of the Company, prepared in accordance with IFRS, as adopted by the E.U., and included elsewhere in this offering memorandum. Such consolidated financial statements of the Company have been audited by Deloitte & Touche S.p.A. as set forth in their auditors' opinions included elsewhere in this offering memorandum.

The summary consolidated income statement, consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of cash flows data for the Company set forth below as of and for the year ended 31 December 2010 were derived from the audited consolidated financial statements of the Company, prepared in accordance with IFRS, as adopted by the E.U., and included elsewhere in this offering memorandum. Such consolidated financial statements including the notes thereto of the Company have been audited by PricewaterhouseCoopers as set forth in their auditors' opinion included elsewhere in this offering memorandum. These consolidated financial statements only reflect a period of three months due to the fact the Acquisition was finalized at the end of September 2010 and before such date Titan Bidco Srl, the acquiring entity, was not an operating company.

The summary unaudited *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010 has been prepared for the purpose of presenting the effect of the Acquisition as if it had occurred on 1 January 2010. The *pro forma* consolidated income statement presented is based (i) on the three months audited consolidated income statement included in the Company's consolidated financial statements as of and for the year ended 31 December 2010, (ii) the consolidated income statement information for the nine months period ended 30 September 2010 of the former company subject to the Acquisition and (iii) applicable adjustments to reflect the Acquisition as if it had occurred on 1 January 2010. The *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010 has been prepared in accordance with the Consob communication No. DEM/1052803 of 5 July 2001—Communication concerning procedures for preparation of *pro forma* figures. The *pro forma* financial information assumes the Acquisition occurred on 1 January 2010 and there can be no assurance that the historical figures, if the Acquisition had actually occurred on 1 January 2010, would be equal to the *pro forma* figures. The *pro forma* figures do not take into account potential effects caused by changes in management policy and operational decisions as a consequence of the Acquisition.

The summary unaudited *pro forma* data presented below provides certain financial information on an as adjusted basis to give effect to the Refinancing Transactions, including the issuance of the Notes offered hereby and the application of the net proceeds thereof as described in "Use of proceeds". The unaudited *pro forma* data below has been prepared for informational purposes only, and does not purport to represent what the actual consolidated cash interest expense would have been if the Refinancing Transactions had occurred on 1 January 2012, or

what the actual financial position of the Group would have been if the Refinancing Transactions had occurred on 31 December 2012 nor does it purport to represent our consolidated cash interest expense or actual financial position at any future date. Our historical results may not be indicative of our future results following consummation of the Refinancing Transactions. This unaudited *pro forma* financial data have not been prepared in accordance with the requirements of Regulation S-X of the Securities Act or any generally accepted accounting standards.

The following information should be read in conjunction with, and is qualified in its entirety by reference to, our consolidated financial statements included elsewhere in this offering memorandum. The information below should also be read together with the information contained in the sections entitled "*Capitalization*", "*Use of proceeds*", "*Management's discussion and analysis of financial condition and results of operations*" and "*Selected historical financial data*".

Consolidated income statement data

(1) Income statement information is presented on a *pro forma* basis and is derived from the unaudited *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010.

(2) "EBITDA", "Adjusted EBITDA", "EBITDA margin" and "Adjusted EBITDA margin", respectively, are supplemental measures of our performance that are not required by, or presented in accordance with, IFRS. These measures are not measurements of our financial performance under IFRS and should not be considered in isolation or as an alternative to income from continuing operations, cash flows or any other measures of performance or liquidity prepared in accordance with IFRS or as an alternative to cash flow from operating, investing or financing activities as a measure of liquidity.

We define "EBITDA" as operating income (loss) reported in the income statement, plus (i) impairment of non-current assets, (ii) other provisions, (iii) depreciation and amortization and (iv) non-recurring expenses. "Adjusted EBITDA" refers to EBITDA plus allowance for bad debt. "EBITDA margin" refers to EBITDA divided by total revenues. "Adjusted EBITDA margin" refers to Adjusted EBITDA divided by total revenues.

We believe EBITDA, Adjusted EBITDA, EBITDA margin and Adjusted EBITDA margin, respectively, provide useful information with respect to our overall operating performance and debt service capacity by facilitating comparisons of operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. We note, however, that EBITDA, Adjusted EBITDA, EBITDA margin and Adjusted EBITDA margin, respectively, have limitations as analytical tools, and should not be considered a substitute measure to operating profit, operating profit margin, as indicators of operating performance, as alternatives to operating cash flows or as a measure of our liquidity. See "Presentation of financial and other information—Certain non-IFRS financial measures".

The following table is a reconciliation of operating income (loss) as reported in our income statement to EBITDA and Adjusted EBITDA:

(€ in millions)	As of and for the years ended 31 December		
	2010 pro forma (unaudited)	2011	2012
Operating income (loss)	21.3	22.6	(51.1)
Impairment of non-current assets	–	–	75.0
Other provisions	0.1	0.3	0.2
Depreciation and amortization	25.0	24.9	25.1
Non-recurring expenses ^(b)	0.8	3.1	3.8
EBITDA	47.2	50.9	52.9
Allowance for bad debt ^(a)	1.4	1.5	1.7
Adjusted EBITDA	48.6	52.4	54.7
H-Umus acquisition ^(c)	–	–	0.7
Unaudited pro forma Adjusted EBITDA	n.a.	n.a.	55.4

(a) Represents the allowance of the period for bad or doubtful debt

(b) Represents tax and legal advice and other sundry expenses, the nature of which is deemed to be non-recurring with respect to the business's normal operations.

(c) Represents the acquisition of H-Umus as if it had occurred on 1 January 2012.

(3) *Unaudited pro forma* net interest expense represents net interest expenses, as adjusted to give effect to the Refinancing Transactions, as if the Refinancing Transactions had occurred on 1 January 2012. *Pro forma* cash interest expense excludes the non-cash interest expense relating to the amortization of estimated Notes issuance costs. This estimate reflects the issuance of €300 million of Senior Secured Notes issued at par and carrying an interest rate of % in effect for the year 2012. *Pro forma* net interest expense has been presented for illustrative purposes only and does not purport to represent what our interest expenses would have actually been had the Refinancing Transactions occurred on the date assumed, nor does it purport to project our net interest expense for any future period or our financial condition at any future date.

(4) We define capital expenditure as the total amount of investments in tangibles and intangibles incurred during the period (including capitalization of development costs).

(5) Working capital equals to the total amount of (i) trade receivables, (ii) inventory and (iii) other receivables net of the total amount of (iv) trade payables, and (v) of other current liabilities. The consolidated financial statements as of 31 December 2010 include in the line "other receivables" an amount of €2.5 million as prepayments for financing fees which are not included in working capital.

(6) Gross financial debt equals (i) non-current and current overdrafts and loans from banks and other financial institutions net of (ii) current and non-current financing fees plus (iii) current and non-current liabilities due to shareholders plus (iv) current and non-current other financial liabilities.

(7) Total financial net debt equals gross financial debt less (i) cash and bank balances and less (ii) non-current and current other financial assets.

(8) Financial net debt towards third parties equals total financial net debt less current and non-current liabilities due to shareholders.

(9) Adjusted net financial debt towards third parties equals total financial net debt less (i) current and non-current liabilities due to shareholders and less (ii) loans related to minority shareholders' put and call options (vendor loans).

(10) *Unaudited pro forma* gross financial net debt towards third parties of Titan 1 represents total consolidated financial debt towards third parties of Titan 1 in order to give effect to the Refinancing Transactions as if they had occurred on 31 December 2012, excluding other financial debt.

(11) *Unaudited pro forma* gross financial debt towards third parties of Titan 1 net of cash and cash balances.

Risk factors

An investment in the Notes involves a high degree of risk. You should carefully consider the following risks, together with other information provided to you in this offering memorandum, in deciding whether to invest in the Notes. The occurrence of any of the events discussed below could be detrimental to our financial performance. If these events occur, the trading price of the Notes could decline, we may not be able to pay all or part of the interest or principal on the Notes, and you may lose all or part of your investment. Additional risks not currently known to us or that are presently deemed immaterial may also harm us and affect your investment.

This offering memorandum contains “forward-looking statements” that involve risks and uncertainties. Our actual results may differ significantly from the results discussed in such forward-looking statements. Factors that might cause such differences include those discussed below. See “Forward-looking statements”.

Risks related to our business

Our business, financial condition, results of operations and liquidity may be adversely affected by the current unfavorable economic conditions worldwide and in Italy.

As the crisis in the global financial and credit markets continues to spread to non-financial sectors of the world economy, economies worldwide have started to show significant signs of weakness, resulting in a general contraction in consumer spending that varies by market. Many European economies are facing a sovereign debt crisis and have received financial assistance from the International Monetary Fund and the European Financial Stability Facility. In addition, the credit rating agencies have continued to cut their ratings and post a negative outlook. Such economic contagion has also spread to Italy, where we generate all of our revenue. In January 2012, Standard and Poor’s downgraded its Italian debt rating from “A” to “BBB+” with a “negative outlook”, reflecting its view as to Italy’s increasing vulnerability to external financing risks and the negative impact these could have on economic growth and, in turn, public finances. In the same month, Fitch downgraded its long-term credit assessment of Italy from “A+” to “A–” with a “negative outlook”. In February 2012, Moody’s also downgraded its sovereign debt rating of Italy from “A2” to “A3” with a “negative outlook”. Moody’s further downgraded Italy’s credit rating to “Baa2” from “A3” in July 2012, citing fragile market confidence and deterioration in Italy’s short-term economic outlook. In November 2011 and December 2011, the Italian Parliament approved two separate austerity packages which sought to stabilize economic conditions in Italy and restore market confidence through the implementation of, among other things, spending cuts, pension reforms and tax increases. On 21 December 2012, the then Italian Prime Minister Mario Monti resigned and the Italian parliament was subsequently dissolved. Italian parliamentary elections were held on 24-25 February 2013. No political group or party won the election with an outright majority, resulting in a hung parliament. Discussions to form a new government are ongoing, however, the continued political instability in Italy has resulted in further destabilization of the Italian economy and market confidence. On 8 March 2013, Fitch again downgraded Italy’s credit rating from A– to BBB+, citing Italy’s escalating debt and ongoing recession as the primary reasons for the downgrade. Fitch also reasoned that the increased political uncertainty and non-conducive backdrop for further structural reform measures exacerbate economic conditions amidst the deep recession. This volatility in the Italian market as well as other economic factors specific to our business could lead to a downgrade in our own debt rating, which would have a material adverse effect on our financial condition, business, results of operations and liquidity.

The aforementioned economic and political developments have had a negative impact on Italy’s growth. Italy’s GDP contracted by 5.5% in 2009, and grew at 1.8% in 2010 and 0.4% in 2011. Italy’s real GDP contracted by 2.2% in 2012. Inflation averaged 2.9% in 2011 and rose to

3.3% in 2012 where it is expected to remain in 2013. The impact of the austerity programmes implemented in Italy coupled with general recessionary conditions and ongoing uncertainty in the current macroeconomic environment could have negative effects on our business. Such effects include: reduced customer spending on information technology and other products and services which we provide; increased customer default risk or incidence of bankruptcy; greater pressure on the prices of our products and our services; the inability of our customers to obtain credit on acceptable terms, or at all, to finance purchases of our products and our services; and pressure on our operating margins. Such negative effects would, in turn, have a material adverse effect on our financial condition, business, results of operations and liquidity.

In addition, as the global financial system has experienced adverse credit and liquidity conditions, leading to a reduction in liquidity, greater volatility, general widening of credit spreads and, in some cases, lack of transparency in money and capital markets, several credit providers have reduced or ceased to provide funding to companies. If these conditions, together with the sovereign debt crisis in Italy, continue or worsen, it could adversely affect our ability to raise funding in the capital markets and/or access the credit markets on financial terms acceptable to us.

If we are unable to keep pace with technological, regulatory and market developments and the expectations of our customers, we may not be able to compete as effectively as our competitors and our business could be adversely affected.

The Italian market for business management software is characterized by rapid technological progress, changing customer needs driven by regulatory developments and frequent new product introductions, technologies and enhancements. Our future success depends on our ability to enhance and expand our existing software products, technology and services, to introduce new software products, technologies and services that are attractive to the market. This is necessary to satisfy changing customer requirements and to keep pace with technological, regulatory and market developments. Accordingly, we believe that we must continue to dedicate a significant amount of resources to our research and development efforts to maintain our competitive position and ensure our future success.

We are currently undertaking a review of our product strategy and technology framework ("Product Renewal Project") aimed at improving the commercial performance and quality of our products and increasing the efficiency of our business processes, which includes, among other things, the update of our software product range in light of recent technological trends in Italy including the usage of cloud computing by SMEs, the adoption of web-based business models generally, the increased use of mobile device platforms and the introduction of new software delivery models such as SaaS. It is possible that we may not be successful in bringing new solutions, solution enhancements and services to market before our competitors, and we may not be able to generate sufficient revenue to offset the significant research and development costs that we incur in connection with Product Renewal Project. In addition, we may not develop technological improvements or succeed in adapting our software products to technological change, changing regulatory requirements and changing customer requirements. Further, any new software products we develop may also not achieve the broad market acceptance necessary to generate significant revenues, or even sufficient revenues to cover the costs incurred in developing such software. Finally, we may not succeed in producing high quality software products, enhancements, and releases in a timely and cost-effective manner to compete with applications and other technologies offered by our competitors, which could result in increased customer churn and migration to our competitor's products and services. Accordingly, the implementation of the Product Renewal Project could result in a loss of market share and may therefore have a significant negative impact on our financial performance, business and results of operations.

Market acceptance of new platforms and operating environments may require us to incur the expense of developing and maintaining compatible product offerings.

Although our software products can be licensed for use with a variety of popular industry standard system platforms, there may be existing or future platforms that achieve popularity in the marketplace which may not be architecturally compatible with our software product design. Moreover, existing or future user interfaces that achieve popularity within the business application marketplace, may or may not be architecturally compatible with our current software product design. Developing and maintaining consistent software product performance characteristics across all of these combinations could require significant investment in research and development, placing a significant strain on our resources and software product release schedules which could adversely affect our revenues and results of operations. To maintain software performance across accepted platforms and operating environments, or to achieve market acceptance of those that we support, or to adapt to popular new ones, our expenditure may significantly increase and our revenues and results of operations may, as a result, be adversely affected.

If we fail to maintain or further develop our core software business line, our business, financial condition and results of operations could be materially adversely affected.

Our software business line forms the core of our business and represented approximately €118 million or approximately 77.5% of our total revenues for the twelve months ended 31 December 2012. We market our software business line products and services through our direct and indirect channels.

Our ability to increase revenue growth in the future in our software business line is contingent on the development of new relationships, as well as leveraging existing relationships with customers and VARs in our direct and indirect sales channels. For example, our strategy of strengthening organic growth contemplates increased cross-selling of our products and services to our existing customer base in our software business line. Moreover, through the Product Renewal Project, we intend to develop new relationships with our customers by introducing new software delivery models in response to the changing technological environment in Italy. There can, however, be no assurance that we will be successful in maintaining, expanding or developing our relationships with customers and VARs in our software business line, and if we are not successful, we may lose important sales opportunities, customers and market share.

Our indirect sales channel comprised a network of over 600 VARs as at 31 December 2012, and represented approximately 37% of our total revenues for the same period. Our financial results could be adversely affected if our contracts with VARs are not renewed or are terminated, if our relationship with VARs were to deteriorate, if any of our competitors enter into strategic relationships with or acquire a significant VAR or if the financial condition of our VARs were to weaken. Our business could also be adversely affected if the technical assistance and maintenance services provided by our VARs to end customers deteriorate or if end customer renewal rates with VARs decrease.

Our financial condition and results of operations may be adversely affected by a decline in revenue generated from technical assistance and maintenance services provided to customers.

A significant portion of our revenue is generated from the provision of technical assistance and maintenance services to customers in our software business line, which comprised approximately €84 million or approximately 52% of our total revenues for the twelve months ended 31 December 2012.

Our technical assistance and maintenance services revenue is generated differently under our “direct sales channel” and “indirect sales channel”, respectively. Under our direct sales channel, technical assistance and maintenance services revenue is derived from assistance and maintenance agreements entered into directly with our customers, and the renewal rate of such agreements is dependent upon a number of factors such as our ability to continue to

develop and maintain our products, our ability to continue to recruit and retain qualified personnel to assist our customers, and our ability to promote the value of technical assistance and maintenance services for our products to our customers. Conversely, under our indirect sales channel, the quantum of technical assistance and maintenance services revenue generated is contingent on the nature of the contractual arrangements entered into with our VARs, which are mainly multi-year (with an average duration of three years) fixed fee arrangements, but can also be one-year variable fee arrangements.

Accordingly, if the contracts entered into with customers in our direct sales channel or VARs in our indirect sales channel are not renewed, or are terminated or renegotiated, or if we are unable to maintain the rate of addition of customers in our direct sales channel or VARs in our indirect sales channel, our technical assistance and maintenance services revenues could decline, and our financial condition and results of operations could be adversely affected.

Revenues from our education business line are highly cyclical and non-recurring in nature.

Our education business line offers a range of products including seminars, conferences, training programs as well as a variety of publications targeted at professionals (principally accountants, lawyers and labor advisors) and management in SMEs. This business line contributed approximately €14.3 million of our total revenues or approximately 9.4% of our total revenues for the twelve months ended 31 December 2012.

Our ability to generate revenue from the education business line is highly cyclical and non-recurring in nature due to a number of factors such as: our ability to attract customers to enroll in our training programs and attend our seminars and conventions; customers completing training programs in which they are enrolled; the perception of our education business line offering as being, to a large extent, non-essential to business in periods of economic downturn; and changes in the legal or regulatory requirements in Italy governing accreditation of our education business line offering and requiring certain professionals to attend a minimum number of and/or certain prescribed training programs with accredited providers in order to maintain their license to practice in their respective profession.

Accordingly, if our education business line customers stop using our products, if the uptake of our education business line offering declines for any reason, if legal or regulatory requirements change such that any of our current education providers (currently comprising Euroconference, Paradigma or Optime) no longer qualify as an accredited provider or the products that we offer are no longer required for certain of our professional clients to maintain their professional license, then the revenues derived from our education business line would decline.

Goodwill represents a significant portion of our total assets and we recently recognized a significant goodwill impairment.

We have recognized a significant amount of goodwill on our consolidated financial statements, in connection with the acquisition of a majority stake in our business by HgCapital and acquisitions of various businesses and strategic assets thereafter. Total goodwill, which represents the excess of the cost over the fair value of the assets and liabilities acquired, was approximately €289.3 million or approximately 44.9% of our total assets as of 31 December 2012.

Our goodwill is tested annually (or more frequently if specific events or changes in circumstance indicate the possibility that value has been impaired) for impairment, and is not subject to amortization. As a result of the 2012 impairment test, we recorded €75.0 million of impaired value for the year ended 31 December 2012 into the line item “impairment of goodwill” of the consolidated income statement. This is because the amount of any quantified impairment has to be recorded immediately as a charge to the income statement. The non-recurring impairment is of a purely accounting nature and without any cash impact.

The impairment test has been calculated on the basis of the business plan approved by our Board of Directors, which includes a more conservative forecast of turnover, EBITDA and cash

flow as compared to historical growth rates in order to take account of the uncertainty of the Italian economy and adverse market conditions.

We may be required to record additional goodwill impairments in the future in the event that business forecasts are cut significantly. Such impairments may also result from, among other factors, (i) deterioration in performance, and (ii) adverse changes in applicable laws or regulations, including changes that restrict our business activities or affect the products and services we sell. Therefore in such circumstances, our results of operations could be materially and adversely affected.

Our business is highly seasonal and our working capital needs are subject to quarterly fluctuations, which could negatively impact our results of operations.

Our operating results and working capital needs can vary and have varied in the past, sometimes substantially, from quarter to quarter due to our seasonal billing patterns. In our core industry business line, invoicing in our direct sales channel is concentrated in the month of January, primarily in respect of assistance and maintenance services which are billed in advance annually in each January, whilst contracts with VARs in our indirect sales channel are invoiced on a quarterly or yearly basis. Because of the seasonal nature of our billing patterns, our working capital needs are subject to quarterly fluctuations, traditionally peaking in March due to the concentration of sales invoicing of assistance and maintenance services in our direct sales channel, and falling to their lowest point in December when the majority of trade receivables relating to assistance and maintenance contracts in our direct sales channel are collected. If we do not effectively manage our working capital, by ensuring that alternative sources of capital or cash are available to address our working capital needs from quarter-to quarter, our cash flows, business and results of operations could be adversely affected.

The sales cycle for our software products makes it difficult to predict our operating results.

Our customers often take significant time evaluating our software products before licensing our software. The period between initial customer contact and purchase in our sales distribution channels may vary from one month to more than one year. This is particularly true with purchases by larger customers of more elaborate systems. During the sales evaluation period, prospective customers may delay purchases, may decide not to purchase and may scale down proposed orders for reasons that we do not control and cannot predict including:

- changes in economic conditions;
- changes in customer personnel;
- reduced demand for enterprise software solutions;
- introduction of products by our competitors;
- seasonality of a customer's information technology purchases;
- lower prices offered by our competitors;
- changes in the budgets and purchasing priorities of our customers;
- need for education of customer personnel;
- changes in the information systems of our customers; and
- changes in regulation.

This makes our revenue, and in particular our non-recurring software revenue difficult to forecast, and could result in significant variations in our results of operations from quarter to quarter or year to year. Moreover, the loss or delay of one or a few large sales could have a significant negative impact on our revenue results for a given quarter or year.

We face large or established competitors, local specialized competitors and price competition.

We face competition from a number of software companies that have advantages over us due to their greater name recognition, longer operating and product development history, greater international presence and greater financial, technical and marketing resources. These competitors include well-established companies such as International Business Machines Corporation, Gruppo Wolters Kluwer and Microsoft Corporation. As such, we may not have sufficient financial and human resources to compete against such competitors. We also face competition from a variety of local and more specialized Software and Services providers, including the Zucchetti group, Gruppo 24 Ore and Sistemi S.p.A. If any of our competitors offer more favorable pricing, payment or other contractual terms, warranties, or functionality which we do not currently provide, we may need to lower our prices or offer other favorable terms in order to compete successfully, which could lower our margins and negatively affect our results of operations and market share. In addition, our current competitors may consolidate or form alliances with each other in the future either internationally or with a local software company and, as a result, competition may intensify. The successful consolidation of two or more of our competitors could result in the combination of their resources and technological capabilities, improved access to a wider customer base and improve economies of scale. This intensified competition could result in a loss of market share for us.

Changes in the terms on which we license products and technologies from third-party vendors or in our relationships with such third-party vendors could result in the loss of revenues, increased costs or delays in the production and improvement of our products or force us to pay higher licensing fees.

We have taken numerous third-party software and technologies under license and have used these platforms to operate and develop our own software products. We also sell third party software products under license in Italy. For example, our CAD/CAM business line primarily markets and delivers CAD/CAM software products in the Italian market, pursuant to licensing arrangements with SolidWorks Inc. There can be no assurance that the licenses for such software and technologies will not be terminated, or that such licenses will be available in the future on terms acceptable to us, or that we will be able to obtain third-party software and technology licenses for future products. Changes to or the loss of third-party licenses could lead to a material increase in the cost of licensing, delays in the delivery of third party products to our customers, or could cause our software products to become unusable or result in a material reduction of functional scope, and our reputation and business may consequently suffer.

If any of the third-party platform or software vendors change their product offerings, introduce technological solutions that inhibit integration with our software products, or terminate or interrupt our licenses, we may also need to seek alternative vendors, thus incurring additional internal or external development costs to ensure the continued performance of our software products. Such alternatives may not be available on attractive terms or at all, or within the time frames we require, or may not be as widely accepted or as effective as the platforms or software provided by our existing vendors.

Third parties may claim that we are infringing their intellectual property and we could become subject to significant litigation or licensing expenses or be prevented from selling products or services.

From time to time, third parties may claim that one or more of our products, services, systems or databases infringe their intellectual property rights. We analyze and take action in response to such claims on a case by case basis. Any dispute or litigation regarding trademarks or other intellectual property could be costly and time-consuming due to the complexity of our technology and the uncertainty of intellectual property litigation. In addition, such actions could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, or could subject us

to significant damages or to an injunction against development and the sale of certain of our products or services. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license in response to a claim of intellectual property infringement. Although our policy is to obtain licenses or other rights where necessary, we cannot provide assurance that we have obtained all required licenses or rights. If a successful claim of intellectual property infringement is brought against us we may be unable to develop non-infringing products or services, or to obtain licenses on a timely and cost-effective basis. For the reasons mentioned above, intellectual property infringement claims could have a material adverse effect on our business, financial condition and results of operations.

Third parties may infringe our intellectual property rights. Italian intellectual property law offers limited protection for our products and we may suffer competitively or expend significant resources enforcing our intellectual property rights.

Our success increasingly depends on establishing and protecting our intellectual property rights. Our intellectual property rights include copyrights, database rights, national and European Union trademarks, domain names and trade secrets, as well as confidentiality provisions and licensing arrangements. Italian intellectual property law may not provide sufficient protection for our products. Aspects of our intellectual property contributes to our identity and the recognition of our products and services are an integral part of our business. If we do not enforce our intellectual property rights successfully, our competitive position may suffer which could harm our operating results.

We may need to spend significant resources monitoring or enforcing our intellectual property rights and we may or may not be able to detect infringement by third parties. Our competitive position may be harmed if we cannot detect infringement and enforce our intellectual property rights quickly or at all. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or, for other business reasons. In addition, competitors might avoid infringement by designing around our intellectual property rights or by developing non-infringing competing technologies. The occurrence of these events could materially adversely affect our business, financial condition and results of operations.

Undetected defects or delays in the introduction of new software products and product enhancements may harm our reputation, result in increased costs to us and reduce demand for our products and services.

Our new products and product enhancements are highly complex and often require long development and testing periods. Development work is also subject to various risks. For example, scheduled market launches could be delayed, or products might not completely satisfy our quality standards, meet market needs or the expectations of customers, or comply with regulatory requirements. New products may also contain undetected defects or they may not be mature enough to process large volumes of data. In some circumstances, we might not be in a position to rectify such defects or entirely meet the expectations of customers.

Because our customers use our software products for important aspects of their business (such as the calculation of accounting, financial and tax information), any errors or defects in, or other performance problems with, our software products may adversely affect our customer businesses. As a result, we might be faced with customer claims for cash refunds, damages, replacement software, or other concessions. Moreover, our customers may elect to not renew contractual arrangements relating to our software products and services and/or to delay or withhold payment of software licensing and assistance and maintenance fees. The risk of defects and their adverse consequences could increase as we seek to introduce a variety of new software products simultaneously as part of our Product Renewal Project. Significant undetected defects or delays in the introduction of new products or product enhancements, could affect market acceptance of our software products which, in turn, could adversely impact

our reputation, financial condition, business and results of operations. In addition, this could result in the diversion of development resources.

While the contractual arrangements governing the sale of our software products in both our direct sales channel and indirect sales channel typically contain limitations and disclaimers that purport to limit our liability for defects and errors in our software, such limitations and disclaimers may not be enforced by a court or other tribunal in Italy or otherwise effectively protect us from such claims. Although we maintain general liability insurance, including coverage for errors and omissions, this coverage may not be sufficient to cover liabilities resulting from such product liability claims and our insurer may disclaim coverage. Our liability insurance also may not continue to be available to us on reasonable terms, cover sufficient value, or at all. Any product liability claims successfully brought against us would cause our business to suffer. Publicity surrounding such claims could also affect our reputation and the demand for our software.

A data security breach could have a significant negative impact on our business and our customers.

Our products and services rely on our IT infrastructure and applications. Unauthorized users could gain access to our systems through cyber-attacks and introduce backdoors or steal, use without authorization, or sabotage our intellectual property or confidential data. A breach of our IT security could cause loss of production, recovery costs, or litigation brought by customers or business partners. This could have a significant negative impact on our business, financial condition and results of operations. Although we have taken IT security measures to protect certain portions of our intellectual property, assets and confidential data, if we were to experience frequent or persistent security breaches, such events could significantly impair our ability to conduct our businesses and generate revenue and could harm our reputation.

System interruption and lack of redundancy may cause us to lose customers or business opportunities.

We rely on IT infrastructure and applications to develop our software products. Our inability to maintain and improve our IT systems and infrastructure may result in system interruptions. Like many software developers, we have experienced and may in the future experience system interruptions. Any interruptions, outages or delays in our systems or deterioration in their performance could impair our ability to develop our software products and decrease the quality of services that we can offer to our customers. The costs of enhancing our IT systems and infrastructure to achieve improved stability and redundancy may be time-consuming and expensive and may require resources and expertise that are difficult to obtain.

While we have backup systems and contingency plans for critical aspects of our business, certain other non-critical systems may not be fully redundant and our disaster recovery or business continuity planning may not be sufficient. In addition, we may have inadequate insurance coverage or insurance limits to compensate for losses from a major interruption, and remediation may be costly and have a material adverse effect on our operating results and financial condition.

We may be unable to successfully implement our business and strategies.

Our future financial performance and success largely depends on our ability to implement our business strategies. We may not be able to successfully implement the business strategies described in this offering memorandum or those otherwise developed by our business, and these strategies may not sustain or improve our results of operations in targeted sectors or justify their costs.

Our business strategies are based on our assumptions regarding future demand for our products and services, the new products and applications we are developing and our continuing ability to produce our products and serve our customers profitably. Each of these

factors depends, among other things, on our ability to develop new products and continually enhance our existing products, finance our operations and product development activities, maintain high-quality and efficient operations, relocate and/or close certain facilities with minimal disruption to our operations, and retain and attract highly skilled technical, managerial, marketing and finance personnel. Any failure to develop, revise or implement our business strategies in a timely and effective manner may adversely affect our business, financial condition, results of operations and cash flows.

Our strategy of selectively pursuing acquisitions of businesses in our core software business line and adjacent markets may present unforeseen integration obstacles or costs.

Our business strategy includes the acquisition of businesses and entering into joint ventures and other business combinations that we expect would complement and expand our existing products and services and the markets where we sell our products and services as well as increase our customer base. We may not be able to successfully identify suitable acquisitions or joint venture opportunities or complete any particular acquisition, combination, joint venture or other transaction on acceptable terms. Acquisitions pose additional risks, including overpayment in relation to a business purchase price or the assumption of unexpected liabilities in connection with the acquisition. We cannot predict the timing and success of our efforts to acquire any particular business and fully integrate the acquired business into our existing organizational set-up or production and logistical operations. Also, efforts to acquire other businesses, or the implementation of other elements of this business strategy, may divert managerial resources away from our business operations. In addition, our ability to engage in strategic acquisitions may depend on our ability to raise substantial capital and we may not be able to raise the funds necessary to implement our acquisition strategy on terms satisfactory to us, if at all. Our failure to identify suitable acquisition or joint venture opportunities may restrict our ability to grow our business. In addition, the integration of an acquired business and its systems, operations and personnel, particularly in respect of businesses operating in adjacent markets, could be more difficult and time-consuming than anticipated, which could lead to increased operating costs, the loss of key employees and customers and a failure to realize anticipated operating synergies.

Market perceptions concerning the instability of the euro, the potential reintroduction of individual currencies within the eurozone or the potential dissolution of the euro entirely, could negatively impact our business or our ability to refinance our liabilities.

Recent economic events affecting European economies have raised a number of questions regarding the stability and overall standing of the European Monetary Union. Credit risk in these countries and in other eurozone countries could have a negative impact on our business. Concerns also remain regarding the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual euro member states. The departure or risk of departure from the euro by one or more eurozone countries or the abandonment of the euro as a currency, or the reintroduction of an individual currency in Italy, could have major negative effects on our existing contractual relations with our customers, and could adversely affect the economy in Italy, where we provide products and services to our customers. In particular, the departure of Italy from the euro would increase our exposure to changes in currency rates. Any of these developments could affect our ability to refinance our liabilities and have a significant negative impact on our business, financial condition and results of operations.

If we experience labor disputes or work stoppages, our business could be materially adversely affected.

The Italian constitution provides that all employees of Italian companies have the right to set up and join trade unions and to carry on trade union activities, including appointing workers' representatives to negotiate with their employer. The right to go on strike is provided for under Italian law. We cannot guarantee that our employees will not go on strike in the future.

Any work stoppages resulting from employee strikes could hinder our ability to provide our standard level of customer service. In addition, we have been in the past, are currently and could in the future be party to, labor disputes with certain of our employees. There can be no assurance that these disputes or future disputes by employees will not have a material adverse effect on our business, financial condition or results of operations.

Higher employment costs may have a material adverse effect on our business, financial condition and results of operations.

Labor costs have been increasing steadily in our business over the past several years. Our labor costs may rise faster than expected in the future as a result of increased workforce activism, salary increases, headcount increases, government decrees and changes in social and pension contribution rules implemented to reduce government budget deficits or to increase welfare benefits to employees. We may not manage to offset the increase in labor costs through productivity gains. We tend to face resistance from customers to price increases motivated by increases in labor costs. If labor costs increase further, our operating costs will increase, which could, if we cannot recover these costs from our customers through increased selling prices or offset them through productivity gains or other measures, have a material adverse effect on our business, financial condition and results of operations.

The senior management team is critical to our continued performance.

We rely upon the members of our senior management team. We have put in place policies and remuneration designed to retain and incentivize management; however, there can be no guarantee that we will be able to retain and incentivize management or to find suitable replacements should any of them leave us. Should senior management leave in significant numbers or if a critical member of senior management were to leave unexpectedly, it could adversely affect our business, results of operations, financial condition or prospects.

Our future success also depends on our ability to continue to retain and attract highly skilled employees. The loss of key personnel could have an adverse effect on our operations.

We believe that our future success also depends upon our ability to continue to train, retain, effectively manage and attract highly skilled technical, managerial, sales and marketing personnel. If our efforts in these areas are not successful, our costs may increase, development and sales efforts may be hindered and our customer service may decline. Although we invest significant resources in recruiting and retaining highly skilled employees, there is intense competition for personnel in the software industry and many of our competitors are larger and have greater financial resources for attracting highly skilled employees. Furthermore, certain of our managers and employees have undertaken non-compete obligations with respect to the activities carried out by the companies of our group. However, should the above non-compete undertakings be deemed not to be compliant with certain antitrust law provisions, such undertakings may not enforceable. A material loss of key employees or the failure to retain and attract suitably qualified employees could have an adverse effect on our continued ability to compete effectively.

The interests of our principal shareholders may not correspond with the interests of the holders of the Notes and the Investment Agreement could impose operating and financial restrictions on our business.

Our principal shareholders are investment funds and entities that are controlled, directly or indirectly, by an affiliate of HgCapital and Bain Capital which, together, indirectly own a majority of the share capital of the Issuer. The interests of our principal shareholders and their respective affiliates could conflict with the interests of the holders of the Notes, particularly if we encounter financial difficulties or are unable to pay our debts when due. Our principal shareholders or their respective affiliates may also have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, although such transactions might also involve risk to the holders of the Notes. In addition, our principal shareholders or their respective affiliates may, in the future, own businesses that directly compete with ours.

Under the Investment Agreement, certain actions relating to the management and administration of the affairs of the Group require the approval of HgCapital, Bain Capital and ICG, including certain acquisitions, disposals, mergers or other business combination transactions relating to us or any of our subsidiaries and certain other matters. See *"Principal Shareholders—Investment Agreement."* Our principal shareholders may be unable to agree on whether we should engage in any of these transactions or other matters and any disagreement may limit our ability to respond to market opportunities, or make certain commercial or financial decisions, as quickly as needed.

Certain of our subsidiaries have minority shareholders whose interests may differ from those of our other shareholders, which may adversely affect our business.

We operate a number of our businesses through strategic partnerships with other investors who hold a minority interest. Our relationships with these strategic partners are governed by various contractual arrangements, which regulate the corporate governance, management and administration of such businesses and, in some instances, provide for the possibility to exercise a put and call option on the minority interest within predetermined future periods. Our strategic partners may not necessarily share our views on the manner in which the relevant business should operate and may exercise their rights in a manner which is adverse to us which, in turn, could have an adverse affect on our business. Moreover, if we cannot resolve any such conflicts of interest or disputes with such strategic partners, we may also have to rely on legal proceedings to remedy the situation, which could result in disruption of our business and substantial uncertainty as to the outcome of any such legal proceedings.

Finally, there could be circumstances in which we may be required to acquire the minority interest of our strategic partners pursuant to a put/call arrangement in place, and there can be no assurance that we will have access to the funds necessary to do so. If we do not comply with an obligation to purchase the relevant minority interest, we may become subject to legal proceedings which may result in substantial costs and expenses being incurred and disruption to our business.

Potential liabilities and costs from litigation could adversely affect our business.

We are involved in litigation and regulatory actions as part of our ordinary course of business. There is no guarantee that we will be successful in defending against civil suits. Even if a civil litigation claim is meritless, does not prevail or is not pursued, any negative publicity surrounding assertions against our business or products could adversely affect our reputation. Regardless of its outcome, litigation may result in substantial costs and expenses and divert the attention of our management. In addition to pending matters, future litigation could lead to increased costs or interruption of our normal business operations.

We are subject to certain competition and antitrust laws.

Our business is subject to applicable competition and antitrust laws, rules and regulations of the European Union and Italy. We may become subject to investigations and proceedings by national and supranational competition and antitrust authorities for alleged infringements of antitrust laws, which could result in fines or other forms of liability or otherwise damage our reputation. Such laws and regulations could limit or prevent our ability to grow in certain markets, in particular Italy.

The Italian software market is currently regarded as a single market. Should the position be redefined, for example, by treating segments of the Italian software market as distinct markets subject to antitrust regulations, we may become subject to an investigation into the strength of our market position. In such cases, given our strong presence in certain segments of the Italian software market, a potential investigation could give rise to certain obligations or restrictions on our market behaviour if we are deemed to have a dominant position. Such obligations could have a material adverse effect on our business, financial conditions and results of operations.

We are from time to time involved in various tax audits and investigations and we may face tax liabilities in the future.

We are from time to time subject to tax audits and investigations by the tax authorities, which include investigations with respect to the direct tax and indirect tax regime of any of our transactions. Adverse developments in laws or regulations, or any change in position by the taxing authority regarding the application, administration or interpretation of laws or regulations, could have a material adverse effect on our business, financial condition and results of operations or on our ability to service or otherwise make payments on the Notes and our other indebtedness. In addition, the relevant tax authorities may disagree with the positions we have taken or intend to take regarding the tax treatment or characterization of any of our transactions. We could also fail, whether inadvertently or through reasons beyond our control, to comply with tax laws and regulations relating to the tax treatment of various of our transactions or financing arrangements, which could result in unfavorable tax treatment for such transactions or arrangements, and possibly lead to significant fines or penalties. It may be necessary to defend our tax filings in court if a reasonable settlement cannot be reached with the relevant tax authorities and such ensuing litigation could be costly and distract management from the other affairs of our business. Tax audits and investigations by the competent tax authorities may generate negative publicity which could harm our reputation with customers, suppliers and counterparties. We can provide no assurance that the financial impact of any adverse tax adjustment in connection with our business would not have a material adverse effect on our business, financial condition and results of operations.

Risks related to our financial profile

The Issuer is a holding company and conducts no business operations of its own and will depend on cash flows from its subsidiaries to make payments on the Notes.

The Issuer is a holding company that conducts no business operations of its own and has no significant assets other than the shares it holds in its direct subsidiary, Titan 3, and its claims (i) prior to the Post-Completion Merger, under the Company Funding Loan, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan and (ii) after the consummation of the Post-Completion Merger, under the Company Funding Loan and the Company Shareholder Loan. Repayment of the Issuer's indebtedness, including under the Notes, is dependent on the ability of our subsidiaries to make such cash available to us, by dividend distributions, repayments of the Company Funding Loan and the Company Shareholder Loan and, prior to the Post-Completion Merger, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan, or otherwise. Our subsidiaries may not be able to, or may be restricted by the terms of their existing or future indebtedness, or by law, in their ability to make distributions or advance upstream loans to enable us to make payments in respect of our indebtedness, including the Notes. Each subsidiary of ours is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries.

While the Indenture governing the Notes and the Revolving Credit Facility Agreement will limit the ability of our subsidiaries to incur contractual restrictions on their ability to pay dividends or make other intercompany payments to us, such limitations are subject to certain significant qualifications and exceptions. In the event that we do not receive distributions or other payments from our subsidiaries, we may be unable to make required principal and interest payments on the Notes. We do not expect to have any other sources of funds that would allow us to make payments to holders of the Notes.

Our substantial leverage and debt service obligations could adversely affect our business and prevent us from fulfilling our obligations with respect to the Notes and the Guarantees.

Upon consummation of the Refinancing Transactions, we will have a substantial amount of outstanding indebtedness with significant debt service requirements. As at 31 December 2012, on a *pro forma* basis after giving effect to the Refinancing Transactions, Titan 1's total net

financial debt would have been approximately €302.6 million, including the Notes. See “Capitalization”.

The degree to which we will remain highly leveraged following the issuance of the Notes could have important consequences for you as a holder of the Notes, including, but not limited to:

- making it difficult for us to satisfy our obligations with respect to the Notes, the Guarantees and other debt and liabilities;
- increasing our vulnerability to, and reducing our flexibility to respond to, general adverse economic and industry conditions;
- requiring us to dedicate a substantial portion of our cash flow from operations to the payment of principal of, and interest on, indebtedness, thereby reducing the availability of our cash flow, and limiting our ability to obtain additional financing, to fund working capital, capital expenditure, acquisitions, joint ventures, or for other general corporate purposes;
- limiting our flexibility in planning for, or reacting to, changes in our business and the competitive environment and the industry in which we operate;
- placing us at a competitive disadvantage as compared to our competitors, to the extent that they are not as highly leveraged; and
- limiting our ability to borrow additional funds and increasing the costs of any such borrowing.

Any of these or other consequences or events could have a material adverse effect on our ability to satisfy our debt obligations, including the Notes.

Despite our significant leverage, we and our subsidiaries will still be able to incur significant additional amounts of debt, which could further exacerbate the risks associated with our substantial indebtedness.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future, including secured indebtedness and indebtedness drawn under our Revolving Credit Facility of up to €45.0 million. Although the Revolving Credit Facility Agreement and the Indenture will contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions, and under certain circumstances the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. If new debt is added to our and our subsidiaries’ existing debt levels, the related risks that we now face, as described in these “Risk factors” would increase. In addition, the Indenture and the Revolving Credit Facility Agreement will not prevent us from incurring obligations that do not constitute indebtedness under those respective agreements.

We are subject to restrictive debt covenants that may limit our ability to finance our future operations and capital needs and to pursue business opportunities and activities.

The Indenture will restrict, among other things, our ability to:

- incur or guarantee additional indebtedness and issue certain preferred stock;
- pay dividends or make other distributions or purchase or redeem our stock;
- make investments or other restricted payments;
- enter into agreements that restrict our restricted subsidiaries’ ability to pay dividends;
- transfer or sell assets;
- engage in certain transactions with affiliates;
- create liens on assets to secure indebtedness;
- impair the security interests for the benefit of the holders of the Notes; or

- merge or consolidate with other entities.

All of these limitations will be subject to significant exceptions and qualifications. See *“Description of the Notes—Certain covenants”*. The covenants to which we are subject could limit our ability to finance our future operations and capital needs and our ability to pursue business opportunities and activities that may be in our interest.

In addition, we will be subject to the affirmative and negative covenants contained in the Revolving Credit Facility Agreement. A breach of any of those covenants or restrictions could result in an “event of default” under the Revolving Credit Facility Agreement. Upon the occurrence of any event of default that is continuing under the Revolving Credit Facility Agreement, subject to applicable cure periods and other limitations on acceleration or enforcement, the relevant creditors could cancel the availability of the Revolving Credit Facility and elect to declare all amounts outstanding under the Revolving Credit Facility, together with accrued interest, immediately due and payable. In addition, a default under the Revolving Credit Facility Agreement could lead to an event of default and acceleration under other debt instruments that contain cross-default or cross-acceleration provisions, including the Indenture. If our creditors, including the creditors under the Revolving Credit Facility, accelerate the payment of those amounts, we cannot assure you that our assets and the assets of our subsidiaries would be sufficient to repay in full those amounts, to satisfy all other liabilities of our subsidiaries that would be due and payable and to make payments to enable us to repay the Notes, in full or in part. In addition, if we are unable to repay those amounts, our creditors could proceed against any collateral granted to them to secure repayment of those amounts.

We may not be able to generate sufficient cash to meet our debt service obligations.

Our ability to make scheduled principal or interest payments when due on our indebtedness and to meet our other debt service obligations, including under the Notes and the Revolving Credit Facility, or to refinance our debt, depends on our future operating and financial performance, which will be affected by our ability to successfully implement our business strategy as well as general economic, financial, competitive, regulatory and other factors, many of which are beyond our control, as well as those factors discussed in these *“Risk factors”* and elsewhere in this offering memorandum. If we cannot generate sufficient cash to meet our debt service requirements, we may, among other things, need to refinance all or a portion of our debt, including the Notes and the Revolving Credit Facility, obtain additional financing, delay planned capital expenditures or investments or sell material assets. If we are not able to refinance any of our debt, obtain additional financing or sell assets on commercially reasonable terms or at all, we may not be able to satisfy our debt obligations, including under the Notes. In addition, the terms of our Revolving Credit Facility and the Indenture and any future debt may limit our ability to pursue any of the foregoing measures.

Our corporate and financing structure may expose us to potentially adverse tax consequences.

We are subject to taxation in, and to the tax laws and regulations of, Italy. We are also subject to intercompany pricing laws, including those relating to the flow of funds among our companies pursuant to, for example, purchase agreements, licensing agreements or other arrangements. Adverse developments in these laws or regulations, or any change in position by the relevant Italian authority regarding the application, administration or interpretation of these laws or regulations, could have a material adverse effect on our business, financial condition and results of operations or on our ability to service or otherwise make payments on the Notes and our other indebtedness.

In addition, the tax authorities in the jurisdictions in which we operate may disagree with the positions we have taken or intend to take regarding the tax treatment or characterization of any of our transactions, including the tax treatment or characterization of our indebtedness, including the Notes, existing and future intercompany loans and guarantees or the deduction of interest expenses. We could also fail, whether inadvertently or through reasons beyond our

control, to comply with Italian tax laws and regulations relating to the tax treatment of various of our financing arrangements, which could result in unfavorable tax treatment for such arrangements.

Risks related to the Notes and our Capital Structure

Creditors under the Revolving Credit Facility, certain hedging obligations and certain debt that we incur in the future may be entitled to be repaid with the proceeds of the Collateral securing the Notes in priority to the Notes.

Under the terms of the Intercreditor Agreement and the Security Documents, proceeds from enforcement of the Collateral securing the Notes must first be applied in satisfaction in full of obligations under the Revolving Credit Facility and under “super priority” hedging obligations and only thereafter to repay the obligations of the Issuer and the Guarantors under the Notes and the Guarantees.

The Indenture and the Intercreditor Agreement will permit, under certain conditions, additional “super priority” debt to be incurred under a credit facility and additional hedging obligations. Any such “super priority” debt or hedging obligations may be secured by the same rights, property and assets that secure the Notes.

As such, in the event of enforcement of the Collateral securing the Notes, you may not be able to recover on the Collateral if the then-outstanding liabilities under such “super priority” debt, including the Revolving Credit Facility, and certain hedging obligations, are greater than the proceeds realized in the event of enforcement of the Collateral securing the Notes.

Holders of the Notes may not control certain decisions regarding the Collateral.

To the extent permitted under applicable law, and subject to the Agreed Security Principles, the Notes will be secured on a first-priority basis by substantially the same rights, property and assets securing the obligations under the Revolving Credit Facility and certain hedging obligations, respectively. In addition, under the terms of the Indenture, we will be permitted to incur significant additional indebtedness and other obligations that may be secured by the same Collateral.

Pursuant to the Intercreditor Agreement, a common security agent shall serve as the Security Agent for the secured parties under the hedging arrangements, the Revolving Credit Facility and the Notes, respectively, with regard to the shared Collateral (as applicable). The Intercreditor Agreement provides that the Security Agent will, subject to certain limited exceptions, act to enforce the security interests in the Collateral and take instructions from the relevant secured creditors in respect of the Collateral only at the direction of an “instructing group”.

Generally, if there are conflicting enforcement instructions received by the Security Agent from the different classes of creditors which are secured by the Collateral and who can constitute either “majority super senior creditors” (generally, creditors representing 66⅔% of the aggregate of all unpaid and undrawn commitments under the Revolving Credit Facility Agreement and the termination value or assumed termination value of certain “super priority” hedging obligations) or “majority senior secured creditors” (generally, creditors representing the majority of the outstanding principal amount under the Notes, any pari passu secured indebtedness and the termination value or assumed termination value of certain hedging obligations), as the case may be, the representatives of the creditors sharing in the Collateral are required to first consult in good faith with each other (in each case, including the Trustee on behalf of the holders of the Notes, the agent on behalf of the lenders under the Revolving Credit Facility and certain counterparties to hedging agreements entered into by the Group) and the Security Agent, for a period of 30 days (or such shorter period as may be agreed) with a view to co-ordinating the instructions to be given by an instructing group and agreeing an enforcement strategy (a “joint enforcement strategy”). Upon conclusion of this “consultation

period”, if the relevant creditor representatives are unable to agree on a joint enforcement strategy or if conflicting enforcement instructions are received by the Security Agent from the different classes of creditors which are secured by the Collateral and who can constitute an instructing group, and provided that the “security enforcement principles” set out in the Intercreditor Agreement have been complied with, then the majority senior secured creditors shall constitute an instructing group and shall have the right to instruct the Security Agent as to the enforcement of the Collateral. Notwithstanding the foregoing, no consultation period shall be required if either (i) any of the Collateral becomes enforceable because of an insolvency event in respect of Titan 1 or certain members of the Group, (ii) the majority super senior creditors or the majority senior secured creditors determine in good faith that entering into consultation could reasonably be expected to have a material adverse effect on the Security Agent’s ability to enforce any of the Collateral or to reduce the amount likely to be realized upon enforcement of the Collateral in any material respect, (iii) a period of no less than six months has elapsed since the date on which the first enforcement instruction was received by the Security Agent or (iv) the relevant creditor representatives agree that no consultation period is required, in which case, the Security Agent shall act in accordance with the instructions provided by the majority senior secured creditors (provided that such instructions are consistent with the security enforcement principles set forth in the Intercreditor Agreement). If the Security Agent is obliged to follow the enforcement instructions of the majority senior secured creditors as discussed above and either (i) the lenders under the Revolving Credit Facility have not been repaid or prepaid in full within six months of the end of the consultation period, (ii) the Security Agent has not commenced any enforcement action in respect of the relevant Collateral within three months of the end of the consultation period or (iii) an insolvency event has occurred in respect of Titan 1 or certain members of the Group and the Security Agent has not commenced enforcement of the relevant Collateral or taken any other enforcement action at that time, then the Security Agent shall, provided that the security enforcement principles set out in the Intercreditor Agreement have been complied with, instead follow the instructions that are given by the majority super senior creditors (and the terms of the relevant previous enforcement instructions of the majority senior secured creditors which conflict with the instructions of the majority super senior creditors shall be deemed revoked).

The foregoing security enforcement arrangements could be disadvantageous to the holders of the Notes in a number of respects.

Disputes may occur between the holders of the Notes and creditors under our Revolving Credit Facility, the counterparties to the relevant hedging arrangements and/or holders of any permitted pari passu secured indebtedness as to the appropriate manner of pursuing enforcement remedies and strategies with respect to the Collateral securing such obligations. In such an event, the holders of the Notes will be bound by any decisions of the relevant instructing group, which may result in enforcement action in respect of the relevant Collateral, whether or not such action is approved by the holders of the Notes or may be adverse to such noteholders. The creditors under the Revolving Credit Facility, the counterparties to certain hedging arrangements or the holders of any permitted pari passu secured indebtedness may have interests that are different from the interest of holders of the Notes and they may elect to pursue their remedies under the relevant Security Documents at a time when it would otherwise be disadvantageous for the holders of the Notes to do so.

Other creditors not party to the Intercreditor Agreement could commence enforcement action against the Issuer or one or more of its subsidiaries during the consultation period, the Issuer or one or more of its subsidiaries could seek protection under applicable bankruptcy laws, or the value of certain Collateral could otherwise be impaired or reduced in value. In addition, if we incur substantial additional indebtedness which may be secured on the Collateral, the holders of the Notes may not comprise the requisite majority senior secured creditors for the purposes of instructing the Security Agent. Further, if the lenders under the Revolving Credit

Facility have not been repaid in full within six months of the end of the consultation period or in the event of the occurrence of certain other circumstances described above, then control of the enforcement proceedings will shift to the majority super senior creditors.

The holders of the Notes will also have no separate right to enforce the Collateral securing the Notes. In addition, the holders of the Notes will not be able to instruct the Security Agent, force a sale of Collateral or otherwise independently pursue the remedies of a secured creditor under the relevant Security Documents, unless they comprise an instructing group which is entitled to give such instructions, which, in turn, will depend on certain conditions and circumstances including those described above.

In addition, if the Security Agent sells the shares of the Issuer or the Guarantor as a result of an enforcement action in accordance with the Intercreditor Agreement, claims under the Notes and the Guarantees and the liens over any other assets securing the Notes and the Guarantees may be released. See *"Description of other indebtedness—Intercreditor Agreement"* and *"Description of the Notes—Security—Release of Liens"*.

The Notes will be structurally subordinated to the liabilities of non-Guarantor subsidiaries.

The Company and Titan 3, respectively, will each guarantee the Notes as of the Issue Date. The Guarantors generated approximately 48% of Titan 1's consolidated revenue and approximately 68% of Titan 1's Adjusted EBITDA for the twelve months ended 31 December 2012, respectively, and accounted for approximately 81% of Titan 1's consolidated total assets as of 31 December 2012. Unless an entity provides a guarantee of the Notes, such entity will not have any obligations to pay amounts due under the Notes or to make funds available for that purpose. As at 31 December 2012, the non-Guarantor subsidiaries of the Issuer had approximately €0.1 million of third party financial liabilities outstanding.

Generally, holders of indebtedness of, and trade creditors of, non-Guarantor subsidiaries, including lenders under bank financing agreements, are entitled to payments of their claims from the assets of such subsidiaries before these assets are made available for distribution to the Issuer or any Guarantor, as a direct or indirect shareholder. Accordingly, in the event that any non-Guarantor subsidiary becomes insolvent, is liquidated, reorganized or dissolved or is otherwise wound up other than as part of a solvent transaction:

- the creditors of the Issuer (including the holders of the Notes) and the Guarantors will have no right to proceed against the assets of such subsidiary; and
- creditors of such non-Guarantor subsidiary, including trade creditors, will generally be entitled to payment in full from the sale or other disposal of the assets of such subsidiary before the Issuer or any Guarantor, as a direct or indirect shareholder, will be entitled to receive any distributions from such subsidiary.

As such, the Notes and each Guarantee will be structurally subordinated to the creditors (including trade creditors) and any preferred stockholders of our non-Guarantor subsidiaries.

The Collateral may not be sufficient to secure the obligations under the Notes.

The Collateral securing the Notes will be subject to any and all exceptions, defects, encumbrances, liens and other imperfections permitted under the Indenture. The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the Collateral securing the Notes as well as the ability of the Security Agent to realize or foreclose on such Collateral.

Not all of our assets will secure the Notes. The value of the Collateral and the amount to be received upon an enforcement of such Collateral will depend upon many factors, including, among others, the ability to sell the Collateral in an orderly sale, whether or not the business is sold as a going concern, economic conditions where operations are located and the availability of buyers. The book value of the Collateral should not be relied on as a measure of realizable

value for such assets. All or a portion of the Collateral may be illiquid and may have no readily ascertainable market value. Likewise, we cannot assure you that there will be a market for the sale of the Collateral, or, if such a market exists, that there will not be a substantial delay in its liquidation. In addition, the pledges, shares and ownership interests of an entity may be of no value if that entity is subject to an insolvency or bankruptcy proceeding because all of the obligations of the entity must first be satisfied, leaving little or no remaining assets in the entity.

The rights of holders of the Notes in the Collateral may be adversely affected by the failure to perfect security interests in the Collateral.

Under applicable law, a security interest in certain tangible and intangible assets can only be properly perfected, and its priority retained, through certain actions undertaken by the secured party and/or the grantor of the security. The liens in the Collateral may not be perfected with respect to the claims of the Notes if either we or the Security Agent (as the case may be) fail or are unable to take the actions required to be taken in order to perfect any of these liens. Such failure may result in the invalidity of the relevant security interest in the Collateral or adversely affect the priority of such security interest in favor of the Notes against third parties, including a trustee in bankruptcy and other creditors who claim a security interest in the same Collateral.

The granting of the security interests in the Collateral may create hardening periods for such security interests in accordance with the law applicable in certain jurisdictions.

The granting of new security interests in the Collateral in connection with the issuance of the Notes, the Funding Loans and the Revolving Credit Facility, respectively, may create hardening periods for such security interests in certain jurisdictions. See "*Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations*".

Pursuant to the Post-Completion Merger, Titan 3 will be transformed from a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg, into a limited liability company (*società a responsabilità limitata*) organized under the laws of the Republic of Italy, and consequently, the security interest initially granted over the shares of Titan 3 on the Issue Date will, in order to continue to benefit the holders of the Notes, need to be released and retaken, creating a new hardening period for such security interest. The Post-Completion Merger will also result in the Titan 3 Shareholder Loan and the Titan 3 Funding Loan, respectively, being extinguished, and the Issuer will assume the rights and obligations of Titan 3 as lender under the Company Shareholder Loan. The security interests granted over the Titan 3 Shareholder Loan and the Titan 3 Funding Loan will also be released, and the security interest granted over the Company Shareholder Loan will be released and retaken, creating a new hardening period for such security interest.

The applicable hardening period for the foregoing security interests and the other security interests in the Collateral will run as from the moment each such security interest has been granted, perfected or recreated. At each time, if the security interest granted, perfected or recreated were to be enforced before the end of the respective applicable hardening period, it may be declared void and/or it may not be possible to enforce it.

In addition, the granting of a shared security interest to secure future indebtedness may restart or reopen hardening periods in certain jurisdictions. The applicable hardening period may run from the moment such security interest is amended, granted or perfected. If the security interest granted were to be enforced before the end of the respective applicable hardening period, it may be declared void or ineffective and/or it may not be possible to enforce it.

The security interests in the Collateral will not be granted directly to the holders of the Notes.

The security interests in the Pre-Merger Collateral and the Post-Merger Collateral that will secure the obligations of the Issuer under the Notes will not be granted directly to the holders of the Notes but will rather be granted in favor of the Security Agent and, in respect of the Collateral located in Italy, the Initial Purchasers, the Trustee for itself and as legal representative (*mandatario con rappresentanza*) of the holders of the Notes and the Security Agent as beneficiary of the parallel debt pursuant to the terms of the Intercreditor Agreement. The Indenture will provide (along with the Intercreditor Agreement) that only the Security Agent shall have the right to enforce on the Pre-Merger Collateral and Post-Merger Collateral. As a consequence, holders of the Notes will not have direct security interests and will not be entitled to take enforcement action in respect of the Collateral securing the Notes, except through the Trustee, who will (subject to the provisions of the Indenture and the Intercreditor Agreement) provide instructions to the Security Agent in respect of the Collateral.

The security interests in the Funding Loan Collateral will be granted in favor of the Issuer as lender under the Funding Loans, and the Issuer's rights under the Funding Loans will, in turn, serve as part of the Collateral securing the obligations of the Issuer under the Notes. As a result, upon the occurrence of an "event of default" under and as defined in the Indenture which is continuing, neither the Trustee nor the holders of the Notes will have the right to enforce the Funding Loan Collateral directly. Rather, the Trustee (acting on the instruction of the holders of at least 25% in principal amount of the outstanding Notes or in its sole discretion) must instead, first declare an acceleration of the Notes and thereafter enforce, through the Security Agent, the pledge of the shares of the Issuer and/or the pledge over the Issuer's rights under the Funding Loans in order to enforce the Funding Loan Collateral. This indirect claim over the Funding Loan Collateral could delay or make more costly any realization of the Funding Loan Collateral. Furthermore, because the Indenture, the Notes, the Intercreditor Agreement, the Funding Loans and the security interests in respect thereof will be governed by the laws of a number of different jurisdictions, respective realization and enforcement may be further delayed by court proceedings being taken in multiple jurisdictions.

The Issuer, Titan 1, Titan 3 and the Company, as the case may be, will have control over the Collateral securing the Notes, and the sale of particular assets could reduce the pool of assets securing the Notes.

The Security Documents will allow the Issuer, Titan 1 and the Company, and prior to the Post-Completion Merger, Titan 3, respectively, to remain in possession of, retain exclusive control over, freely operate, and collect, invest and dispose of any income from, certain of the Collateral. So long as no default or event of default under the Indenture would result therefrom, the Issuer, Titan 1 and the Company, and prior to the consummation of the Post-Completion Merger, Titan 3, may, among other things, and subject to the terms of the applicable Security Document, without any release or consent by the Security Agent or the Trustee, conduct ordinary course activities with respect to the Collateral such as selling, factoring, abandoning or otherwise disposing of Collateral and making ordinary course cash payments, including repayments of indebtedness. Any of these activities could reduce the value of the Collateral, which could reduce the amounts payable to you from the proceeds of any sale of the Collateral in the case of an enforcement of the liens on the Collateral.

It may be difficult to realize the value of the Collateral securing the Notes.

The Collateral will be subject to any and all exceptions, defects, encumbrances, liens and other imperfections permitted under the Indenture and/or the Intercreditor Agreement and accepted by other creditors that have the benefit of a priority security interest in the Collateral from time to time, whether on or after the date the Notes are first issued. The existence of any such exceptions, defects, encumbrances, liens and other imperfections could adversely affect the value of the Collateral securing the Notes, as well as the ability of the Security Agent to realize or foreclose on such Collateral. Furthermore, the ranking of security interests in the Collateral

can be affected by a variety of factors, including, among others, the timely satisfaction of perfection requirements, statutory liens or re-characterization under the laws of certain jurisdictions.

The security interests will be subject to practical problems generally associated with the realization of security interests in collateral. For example, the Security Agent may need to obtain the consent of a third party to enforce a security interest. We cannot assure you that the Security Agent will be able to obtain any such consent. We also cannot assure you that the consent of any third party will be given when required to facilitate a foreclosure on such asset. Accordingly, the Security Agent may not have the ability to foreclose upon that asset, and the value of the Collateral may, as a consequence, significantly decrease.

The security interests in the Collateral located in Italy or governed by Italian law may be limited by Italian law or subject to certain limitations or defenses that may adversely affect their validity and enforceability.

The ability of the Security Agent to enforce on the Collateral located in Italy or governed by Italian law is subject to mandatory provisions of Italian law. Enforcement of the Collateral may also be subject to certain statutory limitations and defenses or to limitations contained in the terms of the Security Documents designed to ensure compliance with applicable statutory requirements.

Under Italian law, the beneficiary of a security interest must be clearly identified and indicated in the relevant security instrument. Due to the difficulty of clearly identifying and keeping track of the names of the individual holders of the Notes over time, there is a risk that holders of the Notes who are not identified in the relevant security instrument as registered holders may not be able to validly enforce their security interests in the Collateral. In order to mitigate this risk, the security providers who will pledge assets under certain Security Documents, including those governed by the laws of Italy, may also enter into a separate and independent undertaking to pay to the Security Agent, in its individual capacity acting in its own name and not as agent or representative of the holders of the Notes, an amount equal to the amount of the obligations in respect of the Notes owed by such security provider. This “parallel debt” is intended to be an obligation owed to the Security Agent which, as such, would be secured by a security interest granted to the Security Agent. To date, the Italian courts have not considered the enforceability of certain rights of a Security Agent benefiting from a parallel debt, and accordingly, there is no assurance that such a structure will be held to be effective before the Italian courts. Accordingly, there is no certainty that the parallel debt procedure will eliminate the risk of unenforceability of Italian law security interests granted for the benefit of the holders of the Notes. In addition, to the extent that the security interests in the Collateral located in Italy created under the parallel debt structure are successfully challenged by other parties, holders of the Notes will not receive any proceeds from an enforcement of the security interest in the relevant Collateral.

Moreover, under Italian law, claims of certain categories of creditors (*creditori privilegiati*) are given statutory priority in relation to the proceeds of a debtor’s property in respect of the claims of other creditors. For a more detailed description of various limitations on the security interests in the Collateral under Italian law, see *“Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations”*.

The grant of Collateral to secure the Notes might be challenged or voidable in an insolvency proceeding.

The grant of Collateral to secure the Notes may be voidable by the grantor or by an insolvency trustee, liquidator, receiver or administrator or by other creditors, or may be otherwise set aside by a court, or be unenforceable if certain events or circumstances exist or occur, including, among others, if the grantor is deemed to be insolvent at the time of the grant, or if the grant permits the secured parties to receive a greater recovery than if the grant had not

been given and an insolvency proceeding in respect of the grantor is commenced within a legally specified "clawback" period following the grant. To the extent that the grant of any security interest is voided, holders of the Notes would lose the benefit of the relevant security interest. See *"Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations."*

The Guarantees will be subject to certain limitations on enforcement and may be limited by applicable law or subject to certain defenses that may adversely affect their validity and enforceability.

Each Guarantee provides the holders of the Notes with a direct claim against the relevant Guarantor. However, although the Indenture will provide that each Guarantee will be limited to the maximum amount that can be guaranteed by the relevant Guarantor, enforcement of each Guarantee would be subject to certain generally available defenses. For example, the Indenture will provide that the Guarantee to be issued by the Company in respect of the Notes will, to avoid any double counting, be reduced by the amount of any repayment of principal made by the Company under the Company Funding Loan (including pursuant to any enforcement of the security interest granted in connection therewith to the holders of the Notes). See *"Description of the Notes—Guarantees"* and *"Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations"*.

The Guarantees and the enforcement thereof are subject to certain generally available defenses. Defenses generally include those that relate to corporate purpose or benefit, fraudulent conveyance or transfer, voidable preference, insolvency or bankruptcy challenges, financial assistance, preservation of share capital, thin capitalization, capital maintenance or similar laws, regulations or defences affecting the rights of creditors generally.

If one or more of these laws and defences are applicable, a Guarantor may have no liability or decreased liability under its Guarantee depending on the amounts of its other obligations and applicable law.

Although laws differ among various jurisdictions, in general, under bankruptcy or insolvency law and other laws, a court could (i) avoid or invalidate all or a portion of a Guarantor's obligations under its Guarantee, (ii) direct that the holders of the Notes return any amounts paid under a Guarantee to the relevant Guarantor or to a fund for the benefit of that Guarantor's creditors or (iii) take other action that is detrimental to you, typically if the court found that:

- the relevant Guarantee was incurred with actual intent to give preference to one creditor over another, hinder, delay or defraud creditors or shareholders of the relevant Guarantor or, in certain jurisdictions, when the granting of the relevant Guarantee has the effect of giving a creditor a preference or the creditor was aware that the relevant Guarantor was insolvent when the relevant Guarantee was given;
- the relevant Guarantor did not receive fair consideration or reasonably equivalent value or corporate benefit for the relevant Guarantee and the relevant Guarantor was: (i) insolvent or rendered insolvent because of the relevant Guarantee; (ii) undercapitalized or became undercapitalized because of the relevant Guarantee; or (iii) intended to incur, or believed that it would incur, indebtedness beyond its ability to pay at maturity;
- the relevant Guarantee was held to exceed the corporate objects of the relevant Guarantor or not to be in the best interests or for the corporate benefit of the relevant Guarantor; or
- the amount paid or payable under the relevant Guarantee was in excess of the maximum amount permitted under applicable law.

We cannot assure you which standard a court would apply in determining whether any Guarantor was “insolvent” at the relevant time or that, regardless of method of valuation, a court would not determine that a Guarantor was insolvent on that date, or that a court would not determine, regardless of whether or not a Guarantor was insolvent on the date a Guarantee was issued, that payments to holders of the Notes constituted preferences, fraudulent transfers or conveyances or on other grounds. There is hence a possibility that a Guarantee may be set aside, in which case the relevant entire guarantee liability may be extinguished. If a court decided that a Guarantee was a preference, fraudulent transfer or conveyance and voided that Guarantee, or held it unenforceable for any other reason, you may cease to have any claim in respect of the relevant Guarantor and would be a creditor solely of the Issuer and the other Guarantor(s).

The insolvency laws of the Republic of Italy and the Grand Duchy of Luxembourg may not be as favorable to holders of Notes as U.S. insolvency laws or those of another jurisdiction with which you may be familiar.

The Company is, and, as of the Issue Date, the Issuer will be, incorporated under the laws of Italy and each are likely to have their “centre of main interests” under the laws of Italy, whereas, as of the Issue Date, Titan 3 will be incorporated under the laws of Grand Duchy of Luxembourg and is likely to have its centre of main interests in the Grand Duchy of Luxembourg.

In accordance with Council Regulation (EC) No. 1346/2000 of 29 May 2000 on insolvency proceedings, as amended, the main insolvency proceedings are opened in the jurisdiction in which the debtor has its centre of main interests. Accordingly, insolvency proceedings with respect to the foregoing companies may proceed under, and be governed by, Italian or Luxembourg insolvency law, as the case may be. The insolvency laws of these jurisdictions may not be as favorable to your interests as those of the United States or another jurisdiction with which you may be familiar. In the event that the Issuer or a Guarantor or any of their respective subsidiaries experiences financial difficulty, it is not possible to predict with certainty in which jurisdiction or jurisdictions insolvency or similar proceedings would be commenced, or the outcome of such proceedings. As a consequence, enforcement of rights under the Notes, the Guarantees and the Collateral in an insolvency situation may be delayed and may be complex and costly for creditors. See “*Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations*” for further information.

There are circumstances other than repayment or discharge of the Notes under which the Collateral securing the Notes and the Guarantees will be released automatically, without your consent or the consent of the Trustee.

Under various circumstances, the Collateral securing the Notes and the Guarantees will be released automatically, including:

- as described under the caption “*Description of the Notes—Amendments and Waivers*”;
- upon legal defeasance, covenant defeasance or satisfaction and discharge of the Indenture as provided under the captions “*Description of the Notes—Defeasance*” and “*Description of the Notes—Satisfaction and discharge*”, as applicable;
- in connection with certain asset disposals by the Issuer or the Company to a person that is not the Issuer or a Restricted Subsidiary, if such asset disposal is permitted under the terms of the Revolving Credit Facility Agreement and the Indenture and is not a distressed disposal, as further described under “*Description of other indebtedness—Intercreditor Agreement*”; and
- in connection with certain enforcement actions taken by the creditors in accordance with the Intercreditor Agreement, as further described under “*Description of other indebtedness—Intercreditor Agreement*”.

The Guarantees to be issued by the Company in respect of the Notes and the Issuer's right to receive payments under the Company Funding Loan, the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and, after the consummation of the Post-Completion Merger, the Company Shareholder Loan, may be subordinated under Italian law to the obligations of other creditors.

The holders of the Notes will benefit from the Issuer's pledge of its rights under the Company Funding Loan, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan and, following the consummation of the Post-Completion Merger, the Company Shareholder Loan, and the Issuer will primarily rely on repayments of these debt instruments in order to make payments of principal, interest and premium (if any) under the Notes. The repayment of the Company Funding Loan, the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and, following the consummation of the Post-Completion Merger, the Company Shareholder Loan, respectively, to the Issuer may be restricted or prohibited as a result of equitable subordination or a similar risk under Italian law. If the Issuer is not able to recover payments under the Company Funding Loan, the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and/or the Company Shareholder Loan, the Issuer will likely not have any other sources of funds available to it that would enable it to make payments of principal, interest and premium (if any) under the Notes.

Italian corporate law (Articles 2497-*quinquies* and 2467 of the Italian Civil Code) provides for rules to protect creditors against "undercapitalized companies" and provides for remedies in respect thereof. In this respect, a loan to a company made by (i) a person that, directly or indirectly, directs the company or exercises management and coordination powers over that company or (ii) a quotaholder in the case of a person incorporated in Italy as a limited liability company (*società a responsabilità limitata*), respectively, will be subordinated to all other creditors of that company and rank senior only to the equity in that company, if the loan is made when, taking into account the kind of business of the company, there was an excessive imbalance of the company's indebtedness compared to its net assets or the company was already in a financial situation requiring an injection of equity and not a loan ("undercapitalization"). Any payment made by the company with respect to any such loan within one year prior to a bankruptcy declaration under Italian law would be required to be returned to the company.

As of the date on the cover page of this offering memorandum, there are few court precedents interpreting the provisions and requirements summarized above and limited guidance has been provided to date by the Italian courts on the specific features and extent of the undercapitalization requirement.

Upon the occurrence of the requirements provided for by the relevant provisions, there is a risk that Italian courts may interpret the Italian Civil Code to apply the undercapitalization principles with respect to (i) the Company Funding Loan, (ii) following the transformation of Titan 3 into a joint stock company (*società per azioni*) pursuant to the Post-Completion Merger, the Titan 3 Funding Loan and/or the Titan 3 Shareholder Loan and (iii) following the consummation of the Post-Completion Merger, the Company Shareholder Loan, in each case, during an insolvency or winding-up situation. Accordingly, there can be no assurance that an Italian court would conclude that the Issuer's obligations under the Company Funding Loan, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan and, following the consummation of the Post-Completion Merger, the Company Shareholder Loan, respectively, are not subordinated to all of its obligations to other creditors (e.g., unsecured lenders, trade creditors). In addition, although there is no Italian case law in this respect, and in light of the broad approach taken to date by the Italian Courts in relation to the application of the provisions of article 2467 of the Italian Civil Code, it cannot be excluded that an Italian Court may re-characterize the Refinancing Transactions as a whole and conclude that the Guarantee to be issued by the Company in respect of the Notes (and its obligations arising thereunder) is subject to the same subordination provisions as those applicable to the debt instruments discussed above.

Should the Issuer's obligations under the foregoing instruments be deemed subordinated to the obligations owed to other creditors by operation of law and senior only to its equity, (i) the Issuer may not be able to recover any amounts under the Company Funding Loan, the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and, following the consummation of the Post-Completion Merger, the Company Shareholder Loan and the security interests granted in respect thereto (it being noted, however, that the enforceability of a secured shareholder loan and its treatment, in the context of an Italian insolvency, is also untested in the Italian courts) and (ii) the holders of the Notes may not be able to recover any amounts under the Guarantee to be issued by the Company in respect of the Notes which, in turn, could adversely affect the Issuer's ability to meet its payment obligations under the Notes. As a result, the Guarantee to be issued by the Company in respect of the Notes, the Company Funding Loan, the Titan 3 Funding Loan, the Titan 3 Shareholder Loan and, following the Post-Completion Merger, the Company Shareholder Loan, and the respective security interests created thereunder, may be of limited value. See *"Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations—Republic of Italy"* for further information.

Upon the consummation of the Post-Completion Merger, the Guarantee issued by Titan 3 in respect of the Notes and certain security interests in the Collateral will be released, respectively.

Upon the consummation of the Post-Completion Merger, the Titan 3 Funding Loan and the Titan 3 Shareholder Loan, respectively, will be extinguished and the security interests granted to the holders of the Notes in respect thereof, will be released. In addition, the Guarantee issued by Titan 3 in respect of the Notes will be fully and unconditionally released following the Post-Completion Merger. Accordingly, the holders of the Notes will no longer benefit from certain first-priority security interests and a Guarantee of the Notes granted as of the Issue Date.

We may be unable to complete the Post-Completion Merger within the anticipated time frame, or at all.

We intend to complete the Post-Completion Merger within six months of the closing of the Refinancing Transactions. The Post-Completion Merger will be undertaken pursuant to the provisions of the Italian Civil Code. In order to complete the Post-Completion Merger, there are various steps that we must take (including the preparation of a merger plan). Our estimation of the time frame required to complete the Post Completion Merger is based upon market practice in Italy. However, there can be no assurance the steps required in Italy in order to consummate the Post-Completion Merger will be undertaken in a timely manner, or at all. In addition, the Indenture also contains no requirement that the Post-Completion Merger be consummated, including within any specific period of time following the Issue Date, and any failure to complete the Post-Completion Merger will not constitute an event of default under the Indenture.

The Issuer may amend the economic terms and conditions of the Notes without the prior consent of all noteholders with the vote of either 75% or 50% of the outstanding Notes.

The Indenture contains provisions for calling meetings of the holders of the Notes to consider matters affecting their interests generally. As set forth in *"Description of the Notes—Meeting of Holders of Notes,"* the majority required to pass an extraordinary resolution at any meeting of such noteholders will be one or more persons holding or representing at least 75% of the aggregate principal amount of the outstanding Notes. These provisions permit defined majorities (50% or 75%) to bind all holders of the Notes, including noteholders who did not attend and vote at the relevant meeting, and noteholders who vote in a manner contrary to the relevant majority. In particular, under the Indenture, an extraordinary resolution may include, among other things, proposals to reduce the rate or change the time for payment of principal or interest in respect of the Notes, to change the date on which any Note may be subject to redemption or to reduce the redemption price, to change the currency of payments

under the Notes and/or to change the quorum requirements relating to meetings and/or the majority required to pass a resolution, and change the amendment provisions. These and other changes may adversely impact noteholders' rights and may have a material adverse effect on the market value of the Notes. Under Italian law, the approval of an extraordinary resolution typically requires the consent of more than one-half of the aggregate principal amount of the outstanding Notes. Our decision to increase the majority requirement to 75% is untested under Italian law, and may be challenged by holders of the Notes, the Issuer and/or others, and if challenged, may not be upheld by an Italian court, with the consequence that the majority voting threshold would be reduced from 75% to 50%.

Payments in respect of the Notes may in certain circumstances be made subject to withholding or deduction of tax.

The Issuer is not liable to pay any additional amounts in relation to any withholding or deduction required pursuant to Italian Legislative Decree No. 239 of 1 April 1996 (as amended or supplemented) where the Notes are held by a person resident in a country that does not allow for satisfactory exchange of information with Italy (as per Article 168-bis, Italian Presidential Decree No. 917 of 22 December 1986) and otherwise in the circumstances as described under the caption "*Description of the Notes—Withholding Taxes*". Holders of the Notes who are resident in such countries or noteholders that are resident in a country allowing for the satisfactory exchange of information with Italy (as per Article 168-bis, Italian Presidential Decree No. 917 of 22 December 1986) but who do not satisfy the conditions set forth by Italian Legislative Decree No. 239 of 1 April 1996 (as amended or supplemented), as well as certain categories of holders of the Notes who are resident in Italy, will only receive the net proceeds of their investment in the Notes. See "*Tax considerations—Certain Italian tax considerations*" and "*Description of the Notes—Withholding Taxes*".

Taxation laws in Italy may restrict the deductibility of all or a portion of the interest expense on our indebtedness, including interest expense in respect of the Notes.

Article 96 of Presidential Decree No. 917 of 22 December 1986, as amended and restated, generally outlines the rules on deductibility of interest expense for Italian corporate income tax purposes. Specifically, the rules allow for the full tax deductibility of interest expense incurred by an Italian tax resident company in each fiscal year up to the amount of the interest income incurred in the same fiscal year, as evidenced by the relevant annual financial statements. A further deduction of interest expense in excess of this amount is allowed up to a threshold of 30% of the EBITDA of an Italian tax resident company (i.e., *risultato operativo lordo della gestione caratteristica* or "ROL") as recorded in such company's profit and loss account. The amount of ROL not used for the deduction of the amount of interest expense that exceeds interest income can be carried forward, increasing the amount of ROL for the following fiscal years. Interest expense not deducted in a relevant fiscal year can be carried forward to the following fiscal years, provided that, in such fiscal years, the amount of interest expense that exceeds interest income is lower than 30% of ROL. In the case of Italian tax resident companies participating in the same tax consolidated group, interest expense not deducted by an entity in the tax consolidated group due to a lack of ROL can be deducted at the tax unity level, within the limit of the excess of ROL of the other companies in that tax consolidated group.

In addition, Article 3(115) of Law No. 549 of 28 December 1995 also sets forth certain limitations to the deductibility of interest expense arising from bonds or notes issued by Italian companies other than banks or listed companies. Currently, under the provisions of Article 32 of Law Decree No. 83 of 22 June 2012, interest on bonds or notes issued by Italian non-listed companies, other than banks, that do not qualify as "micro enterprises" in accordance with the EC Recommendation No. 2003/361/EC of 6 May 2003, are deductible to the extent mentioned above, provided that such bonds or notes are listed upon their issuance on a regulated market or on a multilateral trading platform of a Member State of the European Union and of the

States of the European Economic Area included in the white list provided for by Article 168-bis of Presidential Decree No. 917 of 22 December 1986.

Any future changes in Italian tax laws or in their interpretation (including any future limitation on the use of the ROL of the Issuer and its subsidiaries or changes in the tax treatment of interest expense arising from any indebtedness incurred by the Issuer and its subsidiaries, including in respect of the Notes), the failure to satisfy the applicable Italian legal requirements relating to the deductibility of interest expense incurred in respect of the Notes or the application by the Italian tax authorities of certain existing interpretations of Italian tax law may result in our inability to fully deduct our interest expense in respect of the Notes, which may have an adverse impact on our financial condition.

In addition, the Italian tax authorities have, in certain instances, challenged the deductibility of interest expense incurred in connection with the acquisition financing for merger leveraged buyout transactions. For instance, in cases whereby the acquired Italian company is controlled by a non-Italian-resident company, the Italian tax authorities have argued that the actual beneficiary of the transaction was the non-Italian resident shareholder and that, consequently, the interest expense incurred in connection with the acquisition financing should have instead been recharged to the non-Italian-resident shareholder. In other cases, the Italian tax authorities have argued that the interest expense incurred in connection with the acquisition financing does not serve the Italian business (i.e., it is not compliant with the “inherence” principle set out under Italian taxation law). To date, the Italian tax courts have not ruled in a consistent way with respect to any of the foregoing scenarios.

If the Italian tax authorities were to successfully challenge the tax treatment or characterization (including on the basis of anti-avoidance or anti-abusive criteria) of any of the transactions performed in connection with the acquisition of the Group by HgCapital and Bain Capital in 2010, including the indebtedness incurred in connection with the acquisition and/or to be incurred in connection with the Refinancing Transactions, we may be unable to fully deduct the interest expense incurred on the Notes and we may also be subject to significant penalties and interest, the imposition of withholding taxes, or other consequences that could have a material adverse effect on our financial condition and results of operations or on our ability to service or otherwise make payments on the Notes and our other indebtedness.

You may face foreign exchange risks by investing in the Notes, which risk may be increased if the euro no longer exists or if the Notes are otherwise redenominated as a result of member states leaving the eurozone.

The Notes will be denominated and payable in euro. If investors measure their investment returns by reference to a currency other than euro, an investment in the Notes will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the euro relative to the currency by reference to which investors measure the return on their investments because of economic, political and other factors over which we have no control. Depreciation of the euro against the currency by reference to which investors measure the return on their investments could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss to investors when the return on the Notes is translated into the currency by reference to which the investors measure the return on their investments.

Despite the measures taken by countries in the eurozone to alleviate credit risk, concerns persist regarding the debt burden of certain eurozone countries and their ability to meet future financial obligations, the overall stability of the euro and the suitability of the euro as a single currency given the diverse economic and political circumstances in individual eurozone member states. These and other concerns could lead to the reintroduction of individual currencies in one or more Eurozone member states, or, in more extreme circumstances, the possible dissolution of the euro entirely. Should the euro dissolve entirely, the legal and contractual consequences for holders of euro-denominated obligations would be determined

by laws in effect at such time. We cannot assure you that the official exchange rate at which the Notes may be redenominated would accurately reflect their value in euro. These potential developments, or market perceptions concerning these developments and related issues, could adversely affect the value of the Notes.

We may not be able to obtain the funds required to repurchase the Notes upon a “change of control”.

The Indenture will contain provisions relating to certain events constituting a “change of control”. Upon the occurrence of a change of control, the Issuer will be required to offer to repurchase all outstanding Notes at a price equal to 101% of their principal amount, plus accrued and unpaid interest and additional amounts, if any, to the date of repurchase. If a change of control were to occur, we cannot assure you that the Issuer would have sufficient funds available at such time, or that we would have sufficient funds to provide to the Issuer to pay the purchase price of the outstanding Notes or that the restrictions in our Revolving Credit Facility Agreement, the Indenture, the Intercreditor Agreement or our other then existing contractual obligations would allow the Issuer to make such required repurchases. A change of control may result in an obligation to mandatorily prepay and cancel all or part of the Revolving Credit Facility, an event of default under, or acceleration of, the Revolving Credit Facility, and other indebtedness or trigger a similar obligation to offer to repurchase loans or notes thereunder. The repurchase of the Notes pursuant to such an offer could cause a default under such indebtedness, even if the change of control itself does not.

The ability of the Issuer to receive cash from its subsidiaries to allow it to pay cash to the holders of the Notes following the occurrence of a change of control, may be limited by our then existing financial resources. If an event constituting a “change of control” (as defined in the Indenture) occurs at a time when the Group is prohibited from providing funds to the Issuer for the purpose of repurchasing the Notes, we may seek the consent of the lenders under such indebtedness to the purchase of the Notes or may attempt to refinance the borrowings that contain such prohibition. If such consent to repay such borrowings is not obtained, the Issuer will remain prohibited from repurchasing any tendered Notes. In addition, we expect that we would require third-party financing to make an offer to repurchase the Notes upon a change of control. We cannot assure you that the Group would be able to obtain such financing.

Any failure by the Issuer to offer to purchase the Notes would constitute a default under the Indenture, which would, in turn, constitute a default under the Revolving Credit Facility and certain other indebtedness. See *“Description of the Notes—Change of control”*.

The change of control provision contained in the Indenture may not necessarily afford you protection in the event of certain important corporate events, including a reorganization, restructuring, merger or other similar transaction involving us that may adversely affect you, because such corporate events may not involve a shift in voting power or beneficial ownership or, even if they do, may not constitute a “change of control” as defined in the Indenture. Except as described under *“Description of the Notes—Change of control”*, the Indenture will not contain provisions that would require the Issuer to offer to repurchase or redeem the Notes in the event of a reorganization, restructuring, merger, recapitalization or similar transaction.

In addition, the occurrence of certain events that might otherwise constitute a change of control under the Indenture will be deemed not be a change of control if at the time our consolidated leverage ratio is less than certain specified levels. See *“Description of the Notes—Change of control”* and *“Description of the Notes—Certain definitions—Specified Change of Control Event”*.

The definition of “change of control” contained in the Indenture will include a disposition of all or substantially all of the assets of the Issuer and its restricted subsidiaries (if any), taken as

a whole, to any person. Although there is a limited body of case law interpreting the phrase “all or substantially all”, there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances, there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of “all or substantially all” of the assets of the Issuer and its restricted subsidiaries taken as a whole. As a result, it may be unclear as to whether a change of control has occurred and whether the Issuer is required to make an offer to repurchase the Notes.

The Notes will initially be held in book-entry form, and therefore you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies.

Owners of the book-entry interests will not be considered owners or holders of Notes unless and until definitive notes are issued in exchange for book-entry interests. Instead, the common depositary (or its nominee) for Euroclear and Clearstream, Luxembourg will be the sole registered holder of the Notes in global form.

Payments of principal, interest and other amounts owing on or in respect of the Notes in global form will be made to Deutsche Bank AG, London Branch, the Principal Paying Agent, which will make payments to Euroclear and Clearstream, Luxembourg. Thereafter, such payments will be credited to Euroclear and Clearstream, Luxembourg participants’ accounts that hold book-entry interests in the Notes in global form and credited by such participants to indirect participants. After payment to the common depositary for Euroclear and Clearstream, Luxembourg, none of the Issuer, the Company, the Trustee or any paying agent will have any responsibility or liability for any aspect of the records relating to or payments of interest, principal or other amounts to Euroclear and Clearstream, Luxembourg, or to owners of book-entry interests. Accordingly, if you own a book-entry interest in the Notes, you must rely on the procedures of Euroclear and Clearstream, Luxembourg and, if you are not a participant in Euroclear and/or Clearstream, Luxembourg, on the procedures of the participant through which you own your interest, to exercise any rights and obligations of a holder of the Notes under the Indenture.

Owners of book-entry interests will not have the direct right to act upon our solicitations for consents or requests for waivers or other actions from holders of the Notes, including enforcement of security for the Notes. Instead, if you own a book-entry interest, you will be reliant on the common depositary (or its nominee) (as registered holder of the Notes) to act on your instructions and/or will be permitted to act directly only to the extent you have received appropriate proxies to do so from Euroclear and Clearstream, Luxembourg or, if applicable, from a participant. We cannot assure you that procedures implemented for the granting of such proxies will be sufficient to enable you to vote on any requested actions or to take any other action on a timely basis.

Similarly, upon the occurrence of an “event of default” under and as defined in the Indenture, unless and until the definitive registered Notes are issued in respect of all book-entry interests, if you own a book-entry interest, you will be restricted to acting through Euroclear and Clearstream, Luxembourg. We cannot assure you that the procedures to be implemented through Euroclear and Clearstream, Luxembourg will be adequate to ensure the timely exercise of rights under the Notes.

There may not be an active trading market for the Notes, in which case your ability to sell the Notes may be limited.

We cannot assure you as to:

- the liquidity of any market in the Notes;
- your ability to sell your Notes; or
- the prices at which you would be able to sell your Notes.

Future trading prices for the Notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. Historically, the market for non-investment grade securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the Notes. The liquidity of a trading market for the Notes may be adversely affected by a general decline in the market for similar securities and is subject to disruptions that may cause volatility in prices. The trading market for the Notes may attract different investors and this may affect the extent to which the Notes may trade. It is possible that the market for the Notes will be subject to disruptions. Any such disruption may have a negative effect on you, as a holder of the Notes, regardless of our prospects and financial performance. As a result, there is no assurance that there will be an active trading market for the Notes. If no active trading market develops, you may not be able to resell your holding of the Notes at a fair value, if at all.

In addition, the Indenture will allow us to issue additional notes in the future, which could adversely impact the liquidity of the Notes.

The Notes may not become, or remain, listed on the Luxembourg Stock Exchange and no assurance can be given that, once listed, such listing will satisfy the listing requirement of Article 32(8) of Law Decree No. 83 of 22 June 2012 and Italian Legislative Decree No. 239 of 1 April 1996.

Although an application will be made for the Notes to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Euro MTF Market of the Luxembourg Stock Exchange within a reasonable period after the Issue Date, the Issuer cannot assure you that the Notes will become, or remain listed. If the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Euro MTF Market of the Luxembourg Stock Exchange and the Issuer can no longer maintain such listing or if it becomes unduly burdensome to make or maintain such listing, the Issuer may cease to make or maintain such listing on the Official List of the Luxembourg Stock Exchange, provided, however, that it will use its commercially reasonable efforts to obtain and maintain the listing of the Notes on another “recognized stock exchange”, although there can be no assurance that the Issuer will be able to do so.

No assurance can be given that the Notes will be listed or that, once listed, the listing will be maintained or that such listing will satisfy the listing requirement of Article 32(8) of Law Decree No. 83 of 22 June 2012 and Italian Legislative Decree No. 239 of 1 April 1996 in order for the Notes to be eligible to benefit from the provisions of such legislation relating to deductibility of interest expense and the exemption from the requirement to apply withholding tax. The Italian tax authorities recently issued an interpretive circular relating to, inter alia, the listing requirement of the aforementioned legislation. In the event that the Notes are not listed or that such listing requirement is not satisfied, our ability to deduct interest expense related to the Notes could be adversely impacted. In addition, in such circumstances, payments of interest, premium and other income with respect to the Notes would be subject to a withholding tax (imposta sostitutiva) currently at a rate of 20%, and we would be required to pay additional amounts with respect to such withholding taxes such that beneficial owners receive a net amount that is not less than the amount that they would have received in the absence of such withholding. We cannot assure you that the Italian tax authorities will not interpret the applicable legislation to require that the listing be effective at closing and we cannot assure you that the listing can be achieved by the Issue Date. However, we believe that the applicable legislation should be interpreted in the sense that it does not require the listing of the Notes to be effective at closing to benefit from the provisions relating to deductibility of interest expense and exemption from application of withholding tax. The possible limitation on the deductibility of interest expense and the imposition of withholding taxes with respect to payments on the Notes and the resulting obligation to pay additional amounts to noteholders could have a material adverse effect on our financial condition and results of operations.

In addition, although no assurance is made as to the liquidity of the Notes as a result of listing the Notes on the Official List of the Luxembourg Stock Exchange or another recognized stock exchange in accordance with the Indenture, failure to obtain approval for the listing or the delisting of the Notes from the Official List of the Luxembourg Stock Exchange or another recognized stock exchange, as applicable, may have a material adverse effect on a holder's ability to resell Notes in the secondary market.

You may not be able to recover in civil proceedings for U.S. securities law violations.

The Issuer and each of the Guarantors and their respective subsidiaries are organized outside the United States, and our business is conducted entirely outside the United States. Almost all of the directors and executive officers of the Issuer and the Guarantors are non-residents of the United States. Although the Issuer and the Guarantors will submit to the jurisdiction of certain New York courts in connection with any action under U.S. securities laws, you may be unable to effect service of process within the United States on these directors and executive officers. In addition, as substantially all of the assets of the Issuer, each of the Guarantors and their respective subsidiaries and those of their respective directors and executive officers are located outside of the United States, you may be unable to enforce judgments obtained in the U.S. courts against them. Moreover, in light of recent decisions of the U.S. Supreme Court, actions of the Issuer and the Guarantors may not be subject to the civil liability provisions of the federal securities laws of the United States.

Credit ratings may not reflect all risks, are not recommendations to buy or hold securities and may be subject to revision, suspension or withdrawal at any time.

One or more independent credit rating agencies may assign credit ratings to the Notes. The credit ratings address our ability to perform our obligations under the terms of the Notes and credit risks in determining the likelihood that payments will be made when due under the Notes. The ratings may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by the rating agency at any time. No assurance can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be lowered or withdrawn entirely by the credit rating agency if, in its judgment, circumstances in the future so warrant. A suspension, reduction or withdrawal at any time of the credit rating assigned to the Notes by one or more of the credit rating agencies may adversely affect the cost and terms and conditions of our financings and could adversely affect the value and trading of the Notes.

Transfers of the Notes are restricted, which may adversely affect the value of the Notes.

The Notes are being offered and sold pursuant to an exemption from registration under the U.S. Securities Act and applicable state securities laws of the United States. The Notes have not been and will not be registered under the U.S. Securities Act or any U.S. state securities laws. Therefore you may not transfer or sell the Notes in the United States except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws, or pursuant to an effective registration statement, and you may be required to bear the risk of your investment in the Notes for an indefinite period of time. The Notes and the Indenture contain provisions that restrict the Notes from being offered, sold or otherwise transferred except pursuant to the exemptions available pursuant to Rule 144A and Regulation S under the U.S. Securities Act, or other exemptions under the U.S. Securities Act. In addition, by acceptance of delivery of any Notes, the holder thereof agrees on its own behalf and on behalf of any investor accounts for which it has purchased the Notes that it shall not transfer the Notes in an aggregate principal amount of less than €100,000. Furthermore, we have not registered the Notes under any other country's securities laws. It is your obligation to ensure that your offers and sales of the Notes within the United States and other countries comply with applicable securities laws. See "Transfer restrictions."

Use of proceeds

The gross proceeds from the Offering will be €300,000,000, assuming that the Notes are issued at a price equal to 100.0% of the principal amount thereof.

Certain of the Initial Purchasers and their respective affiliates who are currently lenders and/or agents under the Senior Credit Facilities will receive a portion of the proceeds from the Offering in connection with the repayment of the Senior Credit Facilities and will be lenders and/or agents under the Revolving Credit Facility. See *“Plan of distribution”*.

On or about the Issue Date, we will enter into the Revolving Credit Facility Agreement which will provide for a Revolving Credit Facility in the amount of €45.0 million. On the Issue Date, the Revolving Credit Facility is expected to be undrawn and fully available.

The expected estimated sources and uses of the funds with respect to the Refinancing Transactions, including the Notes offered hereby, are shown in the table below. Actual amounts are subject to adjustments and may vary from estimated amounts depending on several factors, including differences from our estimates of fees and other expenses.

Sources (€ in millions)		Uses	
Notes offered hereby ⁽¹⁾	300.0	Repayment of Senior Credit Facilities ⁽²⁾	183.9
Cash and cash balances	12.8	Repayment of Mezzanine Credit Facility ⁽³⁾	65.4
		Redemption of PIK Notes ⁽⁴⁾	48.5
		Estimated commissions, fees and other expenses ⁽⁵⁾	15.0
Total sources	312.8	Total uses	312.8

(1) Consists of the aggregate principal amount of the gross proceeds from the Notes offered hereby

(2) The outstanding borrowings under our Senior Credit Facilities will be repaid in full and the Senior Credit Facilities will be terminated as part of the Refinancing Transactions. We intend to repay €183.9 million of outstanding borrowings under the Senior Facilities Agreement from the proceeds of the Offering of the Notes, comprising (i) €63.2 million, representing the full outstanding principal amount of Term Loan A, (ii) €101.8 million, representing the full outstanding principal amount of Term Loan B and (iii) €18.8 million, representing the full outstanding principal amount of the Acquisition Facility.

(3) Represents the repayment of the outstanding borrowing under our Mezzanine Credit Facility in full. The Mezzanine Facility Agreement will be terminated as part of the Refinancing Transactions.

(4) Represents the redemption of the outstanding PIK Notes (including accrued payment-in-kind interest in the form of additional PIK Notes) in full. The outstanding PIK Notes will be cancelled as part of the Refinancing Transactions.

(5) Represents estimated fees and expenses associated with the Refinancing Transactions, including underwriting and professional fees, transaction costs, accrued interest and break costs in connection with discharging the Senior Credit Facilities and the Mezzanine Credit Facility, respectively, and redeeming the outstanding PIK Notes.

Capitalization

The following table sets forth the cash and cash equivalents and capitalization of TeamSystem HoldCo S.à.r.l. ("Titan 1"), the direct parent of the Issuer, on a consolidated basis pursuant to IFRS as of 31 December 2012: (i) on an actual consolidated basis based on the actual audited consolidated financial statements of Titan 1 as of 31 December 2012; and (ii) as adjusted to give effect to the Refinancing Transactions, as if they had occurred on 31 December 2012 and to the cash and cash equivalents of Titan 1 as of 31 March 2013.

The capitalization of Titan 1 does not differ in any material respect on a consolidated basis to that of the Issuer, except that whereas the shareholder funding of the Issuer consists solely of equity interests, Titan 1 was funded with a combination of equity and shareholder loans (none of which are recourse to the Issuer). Titan 1 has pledged its shares in the Issuer, which constitute substantially all the assets of Titan 1, in favor of the Notes offered hereby and the Revolving Credit Facility.

You should read this table in conjunction with the information in "Use of proceeds", "Management's discussion and analysis of financial condition and results of operations", and the financial information included herein.

Management does not consider that there has been any material adverse movement in our capitalization since 31 December 2012.

€ millions	As of 31 December 2012	
	Actual	As adjusted
Cash and cash balances	20.1	12.3 ⁽¹⁾
Notes offered hereby	—	300.0
Revolving Credit Facility (undrawn) ⁽²⁾	—	—
Senior Credit Facilities ⁽³⁾	180.8	—
Mezzanine Credit Facility ⁽⁴⁾	62.6	—
PIK Notes ⁽⁵⁾	46.9	—
Other financial debt ⁽⁶⁾	3.7	3.7
Total financial debt toward third parties	294.0	303.7
Total adjusted equity⁽⁷⁾	217.6	217.6
Total capitalization	491.5	509.0

(1) Reflects the cash and cash balances of Titan 1 as of 31 March 2013 as adjusted for the Refinancing Transactions and to reflect cash generated since 31 December 2012 which included an effect of €7.6 million due to normalization of cash orders due on 31 March 2013. To the extent that the Issuer terminates certain hedging arrangements in connection with the Refinancing Transactions, an additional cash cost of €2.0 million would be associated with this close out. The actual cash and cash equivalents as of the date on the cover page of this offering memorandum and after giving effect to the Refinancing Transactions may be different.

(2) On or about the Issue Date, we will enter into a Revolving Credit Facility in the amount of €45.0 million. On the Issue Date, the Revolving Credit Facility is expected to be undrawn and fully available. See "Description of other indebtedness—Revolving Credit Facility".

(3) Represents total liabilities as of 31 December 2012. The outstanding borrowings under our Senior Credit Facilities will be repaid in full and the Senior Credit Facilities will be terminated as part of the Refinancing Transactions.

(4) Represents total liabilities as of 31 December 2012. The outstanding borrowings under our Mezzanine Credit Facility will be repaid in full and the Mezzanine Credit Facility will be terminated as part of the Refinancing Transactions.

(5) Represents total liabilities as of 31 December 2012. The outstanding borrowings under our PIK Notes will be repaid in full and the PIK Notes will be cancelled as part of the Refinancing Transactions.

(6) Represents financial debt for vendor loans, the mark to market evaluation of interest rate swaps and other minor financial liabilities, net of the amount of existing financing fees and other minor financial assets. The As Adjusted column represents other financial debt after the write-off of existing financing fees, the accounting of the new transaction fees as financing fees and the mark to market IRS evaluation as of 31 March 2013.

(7) Represents the amount of Shareholder Loans net of common equity. Shareholder Loans represent the amount of shareholder loans entered into to give financial support to Titan 1, which are recorded as financial liabilities in the consolidated financial statements of Titan 1 as of 31 December 2012. These Shareholder Loans are non-recourse to the Issuer. Common equity represents the negative equity recorded in the consolidated financial statements of Titan 1 as of 31 December 2012.

Selected historical financial data

The following tables present our selected consolidated historical and other data as of and for the periods indicated below.

We do not present in this offering memorandum any financial information or financial statements of the Issuer for the periods presented. We do not present financial information of the Issuer because the financial statements have been prepared under Luxembourg GAAP and the financial statements are not consolidated. All historical financial information included in this offering memorandum is that of TeamSystem HoldCo S.à r.l., the Company and its consolidated subsidiaries.

The consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of cash flows data for the Company set forth below as of and for the years ended December 31, 2011 and 2012 were derived from the audited consolidated financial statements of the Company, prepared in accordance with IFRS, as adopted by the E.U., and included elsewhere in this offering memorandum. Such consolidated financial statements of the Company have been audited by Deloitte & Touche S.p.A. as set forth in their auditors' opinions included elsewhere in this offering memorandum.

The consolidated income statement, consolidated statement of comprehensive income, consolidated statement of financial position and consolidated statement of cash flows data for the Company set forth below as of and for the year ended December 31, 2010 were derived from the audited consolidated financial statements of the Company, prepared in accordance with IFRS, as adopted by the E.U., and included elsewhere in this offering memorandum. Such consolidated financial statements including the notes thereto of the Company have been audited by PricewaterhouseCoopers as set forth in their auditors' opinion included elsewhere in this offering memorandum. These consolidated financial statements only reflect a period of three months due to the fact the Acquisition was finalized at the end of September 2010 and before such date Titan Bidco Srl, the acquiring entity, was not an operating company.

The following information should be read in conjunction with, and is qualified in its entirety by reference to, our consolidated financial statements included elsewhere in this offering memorandum. The information below should also be read together with the information contained in the sections entitled "*Capitalization*", "*Use of proceeds*" and "*Management's discussion and analysis of financial condition and results of operations*".

Management's discussion and analysis of financial condition and results of operations

The following discussion should be read together with, and is qualified in its entirety by reference to, the Company's consolidated financial statements, and the related notes thereto, included in this offering memorandum. The following discussion should also be read in conjunction with the sections entitled "Summary consolidated financial data" and "Selected historical financial data". Except for the historical information contained herein, the discussions in this section contain forward-looking statements that reflect our plans, estimates and beliefs and involve risks and uncertainties. Our actual results could differ materially from those discussed in these forward-looking statements. Factors that could cause or contribute to these differences include, but are not limited to, those discussed below and elsewhere in this offering memorandum, particularly in "Risk factors" and "Forward-looking statements".

Some of the measures used in this offering memorandum are not measurements of financial performance under IFRS, but have been prepared on the basis of IFRS amounts, and should not be considered an alternative to cash flow from operating activities as a measure of liquidity or an alternative to gross operating margin for the period as indicators of our operating performance or any other measures of performance derived in accordance with IFRS.

The consolidated financial statements for the year ended 31 December 2010 include a pro forma presentation of the income statement for the year ended 31 December 2010 in order to show the effect of the acquisition of the Group by entities associated with HgCapital and Bain Capital as if the acquisition had occurred on 1 January 2010. The pro forma figures are derived from the consolidated financial statements as of and for the year ended 31 December 2010.

Overview

We are the leading designer and distributor of mission critical ERP and business management software and related value-added services for SMEs and professional advisors in Italy. In total, we have a large and diverse customer base with approximately 118,000 unique end customers. We have a 17% share in the Italian SME software market and a 31% share in the Italian professional advisor software market. When combining our SME and Professional business lines, we had more than twice the market share of our nearest competitor. From 2006 to 2011, we grew our market share in the SME market by 9.9 percentage points and in the professional advisors market by 4.7 percentage points. We have consistently grown our revenues and EBITDA since 2001, despite various economic cycles in the Italian economy. Our *pro forma* total revenue and *pro forma* Adjusted EBITDA for the year ended 31 December 2012 were €154.0 million and €55.4 million, respectively (including the effect of the acquisition of H-Umus as if it had occurred on 1 January 2012), representing a 36.0% *pro forma* Adjusted EBITDA margin. Our *pro forma* total revenue for the year ended 31 December 2010 were €129.2 million, representing a 19.2% increase in revenue from 2010 to 2012. Our *pro forma* Adjusted EBITDA for the year ended 31 December 2010 was €48.6 million, representing a 14% increase in Adjusted EBITDA from 2010 to 2012.

Our software solutions help our customers manage and develop their business and operations by automating and integrating business processes. These solutions are mission critical for the day-to-day operations of our customers. Together with this, the breadth of our product range, our high quality customer service and regular software updates result in a historically stable and low churn level among our Software and Services customers (excluding microbusiness) of approximately 4-5% per year over the past three years. This implies an average customer life of more than 20 years.

We have developed an extensive distribution and service network throughout Italy comprised both of a direct channel and an indirect channel (consisting of our VARs). We have strong cash flow visibility underpinned by multi-year contracts with our VARs and maintenance and

assistance fees from our direct channel clients. This results in approximately 60% of recurring revenues.

Our core business line is Software and Services, which represents approximately 91% of our adjusted EBITDA, and is complemented by two other lines that complete our product offer: Education and CAD/CAM. Our client base is highly fragmented with our single largest direct channel end customer in 2012 representing 0.2% of our total revenues. Our SME customer base includes micro, small and medium businesses with up to 500 employees and our professional advisor customer base includes accountants, labor advisors, and lawyers.

Comparability of Financial Information for the year ended 31 December 2010

The Group was acquired by entities associated with HgCapital and Bain Capital on 30 September 2010. Our consolidated financial statements as of and for the year ended 31 December 2010 refer to a three month period and are not comparable with the consolidated financial statements for the years ended 31 December 2011 and 2012.

To assist the readers to better understand our results of operations, the consolidated financial statements for the year ended 31 December 2010 include a *pro forma* presentation of the consolidated income statement for the twelve months ended 31 December 2010 for the purpose of presenting the effect of the Acquisition as if it had occurred on 1 January 2010. The unaudited *pro forma* consolidated income statement presented is based (i) on the three months audited consolidated income statement included in the Company's consolidated financial statements as of and for the year ended 31 December 2010, (ii) the consolidated income statement information for the nine months period ended 30 September 2010 of the former company subject to the Acquisition and (iii) applicable adjustments to reflect the Acquisition as if it had occurred on 1 January 2010. The *pro forma* consolidated income statement of the Company for the twelve months ended 31 December 2010 has been prepared in accordance with the Consob communication No. DEM/1052803 of 5 July 2001—Communication concerning procedures for preparation of *pro-forma* figures. The unaudited *pro forma* financial information assumes the Acquisition occurred on 1 January 2010 and there can be no assurance that the historical figures, if the Acquisition had actually occurred on 1 January 2010, would be equal to the *pro forma* figures. The *pro forma* figures do not take into account potential effects caused by changes in management policy and operational decisions as a consequence of the Acquisition.

The consolidated cash flow statement for the year ended 31 December 2010 only relates to the period from 30 September 2010 to 31 December 2010, and thus not is comparable to consolidated cash flow statements presented for the years ended 31 December 2011 and 2012. We do not present a discussion of our consolidated cash flow statements for the year ended 31 December 2010.

Business segment reporting

Beginning with our financial year ended 31 December 2012, the Company voluntarily decided to adopt the segment reporting information under IFRS 8, and, consequently, the Company has also prepared segment reporting for the year ended 31 December 2011 for comparative purposes.

Our financial segment reporting is on the basis of three business segments: Software and Services, Education and CAD/CAM. Our basis of segment reporting reflects the management structure of our business, our system of internal financial reporting and what we believe to be the predominant source of risks and returns in our business. We report external total revenue, EBITDA, Adjusted EBITDA, EBIT, profit and loss, and assets and liabilities for each of our business segments. See note 30 to our 2012 audited consolidated financial statements.

We do not present business segment reporting information for 2010 in our consolidated financial statements.

Consolidation method

We consolidate all the controlled subsidiaries and entities controlled as required by IAS 27 and on the basis of IFRS 3.

Generally, on or about the date when we acquire a majority or controlling stake in a target company, we enter into put and call option agreements for the residual stake held by minority owners of the target company. When the acquisition includes such put and call option agreements, the acquired company is fully consolidated in our financial statements.

Accordingly, the estimated value of the exercise price of the put and call option is included in the cost of the acquisition and contributes to the overall determination of the acquisition price and related goodwill. This accounting method applies only where the Group has acquired a majority control of the voting rights of the target at the date of the acquisition.

Any acquisitions of minority interests subsequent to having achieved control are accounted for as transactions between shareholders, with the pertinent goodwill recorded as a reduction of the Group's equity, in compliance with the requirements of IFRS 3.

See the "basis of consolidation" paragraph of our 2012 audited consolidated financial statements for more details.

Key factors affecting our results of operations

Italian economy

We generate substantially all of our revenues from the sales of products and services to customers in Italy. Our results of operations may be affected by general economic conditions in Italy, including their impact on our customers. A downturn in the Italian economy can affect information technology spending generally, demand and pricing for our products and services, the creditworthiness of our customers and other counterparties (such as VARs), the ability of other software companies to compete effectively, and the availability and cost of financing.

Italy's GDP had a negative CAGR of 0.9% from 2010 to 2012 and spending on information technology in Italy declined by 2% over the same period. Despite the decline in GDP and in information technology spending, our revenues and Adjusted EBITDA grew 28% and 22%, respectively, from 2009 to 2012, demonstrating the resilience of our business. Demand for our core Software and Service products and services from SMEs and Professionals remained stable, confirming the mission critical nature of our products. Demand for the products of our Education and CAD/CAM business experienced a slight downturn and our CAD/CAM business line has been affected by the downturn in the manufacturing market. We have experienced a slight increase in bad debt across our business lines as a result of the macroeconomic climate in Italy, however due to the diversification of our customer base through our direct channel and VARs, our bad debt risk is limited. Despite the economic downturn, we have maintained a stable pricing policy. We have also experienced a slight increase in customer churn, primarily with respect to our SME customers because SMEs have been most impacted by the economic downturn.

Acquisitions

Our operating results can be impacted by the effects of acquisitions. We estimate the financial impact of any potential acquisition with regards to revenues, EBITDA, EBITDA margins, cash flow and return on investment targets before we proceed with the acquisition.

Since and including the fourth quarter of 2011, we acquired five businesses: Danea Soft, Paradigma, Optime, Digita and H-Umus:

Danea Soft. In December 2011, we acquired 51% of Danea Soft S.r.l., an Italian company offering a SaaS based software solution for microbusinesses, for a total price of €4.1 million (of which €0.5 million of an estimated earn out payment has not yet been paid). Danea Soft has allowed us to further penetrate the microbusiness market and extend our product offer with a leading-edge SaaS technology. Danea Soft has approximately 70,000 active customers (of which approximately 22,000 purchase maintenance contracts and which we consider part of our underlying client base) and is the leader in Italy for the supply of management software for microbusinesses. Danea Soft contributed €3.4 million in revenue for the year ended 31 December 2012.

Paradigma and Optime. In January 2012, we acquired 100% of Paradigma S.r.l., an Italian boutique business specializing in high-end professional training services for managers of large Italian businesses, for a total price of €7.3 million (including a fully paid earn out payment). Later in the year we combined Paradigma with Optime, which had been Paradigma's biggest competitor, further strengthening Paradigma's leadership in this sector. We believe the acquisition of Paradigma and Optime extends our primary role in our Education business, in which we already have a leading market share through Euroconference. Paradigma and Optime are the leading companies in management training for large businesses, financial institutions, public administrators and professional firms and contributed €3.8 million in revenue for the year ended 31 December 2012.

Digita. In February 2012, we acquired 60% of Digita S.r.l., an Italian company offering a SaaS based CRM, for a total price of €0.4 million (of which €0.2 million of an estimated earn out payment has not yet been paid). This acquisition further extends our product offering for SMEs and we believe it will provide relevant cross-selling opportunities within our customer base.

H-Umus: In October 2012, we purchased 85% of H-Umus S.r.l., a multitouch software solutions provider and design company from H-Farm Italia S.r.l. for a total price of €3.3 million (of which €0.9 million of an estimated earn out payment has not yet been paid). H-Umus allows us to extend our expertise and product offerings into mobile applications, as it develops innovative mobile-based technologies, e-catalogues and e-showrooms on a variety of interactive platforms, such as single and multi-touch screens.

Recurring contracted revenues

We consider approximately 60% of the total revenue generated by our business in 2012 to be recurring. We deem recurring those revenues which, based on our experience, we expect will be repeated in one or more of the following years, either based on specific contractual arrangements or on our experience. We attribute a recurring nature to a significant part of our revenues primarily due to two factors: our business model and customer loyalty. In most instances, when we sell our software products, we also sell assistance and maintenance services. In our experience, principally due to our customers' need to keep abreast of legislative, tax, and accounting developments, assistance contracts are generally renewed by customers purchasing our products through both the direct and indirect channels throughout the lifecycle of our products. Contract renewal usually takes place before the beginning of the year (during our annual budgeting process), thus providing a high level of visibility on revenue from this business area. Typically, our contracts are automatically renewed each year unless customers provide written termination notice at least three or six months prior to contract expiration. Furthermore, most of the license agreements provide for our right to withdraw at any time with six months prior notice.

Moreover, most of our contractual arrangements with the VARs have a duration of three years, and are generally renewed upon expiry. We believe that the loyalty of our customers and VARs

is due to their satisfaction with our products and to the relatively high costs required to change their existing software provider.

Customer and product mix

Our total revenue is also balanced among customer type and customer size. In 2012, as a percentage of total revenue, the customers for our largest business line, Software and Services, consisted of 66% of SMEs, 32% of Professionals and 2% of microbusinesses. Our top 10 direct customers and VARs represented approximately 2% of our total revenue for 2012.

The products and services that we offer to Professionals generally generate higher profit margins than our other Software and Services products and services. We have a growing SME customer base, and, as a result our profit margin may decrease. The products and services that we offer through our VARs generally generate higher profit margin than our products and services offered through our direct channel because VARs are responsible for their overhead and employee costs. Until we can fully integrate products from acquisitions, our profit margins also tend to be lower following the acquisition of new businesses because the businesses we acquire typically have a lower profit margin.

We have a highly diversified customer base across a wide range of industries. Between 2010 and the year ended 31 December 2012, our customer base increased, from approximately 91,000 end customers as of 31 December 2010 to approximately 123,000 as of 31 December 2012 (including the approximately 4% of customers overlapping between business lines), out of which approximately 98,000 correspond to our Software and Services business line, 19,000 to our Education business line and 6,000 to our CAD/CAM business line.

There is no particular industry or segment on which we rely for our customer base. Our top 10 direct customers represented approximately 2% of our revenue for 2012. We benefit from an extremely low customer and end-user churn rate, historically ranging between 4 and 5%, of which only approximately 1% relates to voluntary churn, with the remainder as a result of exogenous effects, such as a customer merging, choosing to outsource this function or going out of business.

Research and development expenses

The future success of our businesses will depend in part on the success of our investments in product development. We make significant investments in the development of our products and services and historically record approximately €2.5 million of capitalized research and development expenses each year. In addition to our regular research and development expenses, we expect to invest approximately €16 million through 2016 in our special Product Renewal Project (of which €2.4 million was invested in 2012). The majority of the investment will be made in 2013, 2014 and 2015. Following completion of the Product Renewal Project, we expect to return to our historical research and development spending.

Development costs in relation to a particular project are capitalized only when our directors can demonstrate the technical feasibility of completing the project so that it will be available for use or sale, the intention to complete the project and use or sell it, how the project is expected to generate future economic benefits and the availability and amount of resources required to complete the project. Our capitalized development costs for the years ending 31 December 2011 and 2012 were €2.3 million and €4.3 million, respectively.

Principal profit and loss account items

Revenue

We recognize revenue net of returns and bonuses directly. For each revenue stream, there are usually no sales under multiple-element arrangements (e.g. goods and services) for which

separate recognition of revenues would be required. Revenues is generated and recognized according to business line as follows:

Software and Services. Our Software and Services business line generates revenue primarily from the design, development, marketing and distribution of modular, highly scalable and flexible software applications targeted primarily SMEs (businesses with up to 500 employees), professional firms, principally accountants, lawyers and labor advisors. We generate revenue through both our direct and indirect channels.

Our direct channel revenue is primarily derived from the sale of proprietary software products, assistance and maintenance services, other services which include implementation and customization projects, and third-party software and hardware. The assistance and maintenance services business represents the main source of revenues from our direct channel. These services which comprise support and maintenance, including upgrading and updating, are provided under contracts typically entered into in connection with the sale of our software applications and are renewed annually, unless cancelled upon three to six months' prior notice (depending on the particular contract).

Our indirect channel revenues are derived from the sale of software licenses and assistance services to VARs, and from sales of other products and services.

Our direct channel revenues from the sales of software licenses are recognized at the date of delivery because all contractual obligations have generally been performed and there are generally no rights of return or acceptance clauses. Where these contracts include separate revenue streams for other services, such as maintenance and assistance services, these revenues are accounted for separately. Our maintenance and assistance revenues from sales to direct channel customers are recognized on a straight line basis over the term of the contract (usually twelve months) and the portion of revenues pertaining to following years is treated as deferred income. Direct channel revenues related to training, support, implementation and customization software activities that are either included within the main contract or negotiated under separate contracts, are recognized at the service execution date. Revenues related to ERP implementation services still ongoing at the balance sheet date are recognized on the basis of their percentage of completion at that date. Our VARs are invoiced on a quarterly or yearly basis, depending on the particular contract, and revenues are recognized on a straight line basis over the relevant period. Revenues from additional support services and products offered to VARs are recognized when the service has been rendered (in accordance with IAS 18) or when the product has been delivered.

Education. Our Education business generates revenues from the sale of a broad variety of education educational services and products through our Euroconference, Paradigma and Optime brands. We sell seminars, conferences, e-learning courses, professional publications and products.

Revenues from the sale of books and electronic manuals are recognized at the delivery date. Revenues from training are recognized based on the services provided in any given period; in the case of training is delivered across different accounting periods, revenues are recognized on a pro-rata basis according to the "stage of completion" of the training program. Sales of newsletter subscriptions and technical update documents, which generally cover a twelve-month period and related revenues are recognized on a straight line basis over that period, considering the portion of revenues pertaining to the following years as deferred income.

CAD/CAM. Our CAD/CAM business generates revenues primarily through the provision and distribution of manufacturing software solutions to SMEs through a non-exclusive distribution agreement with SolidWorks. We are the largest SolidWorks value added reseller in Italy and in Europe. We also generate revenue through training and consultancy services to end-users of SolidWorks software and develop our own CAD/CAM software.

Revenues from the sale of CAD/CAM software licenses are recognized at the date of delivery because all contractual obligations have generally been performed and there are generally no rights of return or acceptance clauses. Where these contracts include separate revenue streams for other services, such as maintenance and assistance services, these revenues are accounted for separately. Revenues from maintenance and assistance services to customers generally cover a one to three year period and related revenues are recognized on a straight line basis over that period, considering the portion of revenues pertaining to the following years as deferred income.

Costs

Our costs consist mainly of personnel costs, cost of services, consumption of raw and other materials and amortization and depreciation of non-current assets. We view our costs as either fixed, semi-variable or variable. Historically, 60% of our total operating costs have been fixed costs, consisting primarily of personnel costs as a result of employment regulations in Italy and rent costs. Our variable costs consist primarily of raw materials and purchased goods, consulting costs, copyrights and training costs and our semi-variable costs include costs related to bonuses and marketing and costs associated with the provision of services.

Personnel costs represent our largest operating expense and consist primarily of salaries and wages, social security costs, allowance for staff severance indemnity, fees paid to personnel employed on a flexible contract basis, directors' fees and other labor expenses.

Costs of services consist primarily of advertising and marketing expenses, fees associated with copyrights for our education materials, commissions, fees paid to consultants for professional services, sales training expenses, corporate expenses and overhead.

Non-recurring expenses represent tax and legal advice and other sundry expenses, the nature of which is deemed to be non-recurring with respect to the business's normal operations.

Consumption of raw and other materials mainly relates to the cost of sales of hardware, third party software and manuals and materials for education.

Depreciation expense of non-current assets primarily relates to depreciation of property, plant and equipment.

Amortization expense of non-current assets primarily relates to the cost of software, trademarks, patents and licenses, to the amortization of customer relationships and of capitalized development expenses. In particular, development costs in relation to a particular project are capitalized only when our directors can demonstrate the technical feasibility of completing the project so that it will be available for use or sale, the intention to complete the project and use or sell it, how the project is expected to generate future economic benefits and the availability and amount of resources required to complete the project.

Impairment relates to the impairment loss in respect of tangible and intangible assets, including goodwill, capitalized development costs, customer relationship and proprietary TeamSystem brand. The Company recorded an impairment of goodwill for the year ended 31 December 2012.

Operating result

Operating result consists of profit (loss) for the year, before tax, financial income and expenses.

Finance income

Finance income consists of interest income on banks balances, from valuation of derivative instruments and variance in the fair value of vendor loan debt toward minority shareholders.

Finance cost

Finance cost primarily consists of costs of interest on bank overdrafts and loans, interest on loans from shareholders, interest on derivative instruments and financing fees and interests on vendor loans.

Income taxes

Income taxes comprises the Italian corporate income tax and certain changes in deferred tax assets and liabilities.

Adjusted EBITDA

EBITDA consists of operating income (loss) reported in the income statement, plus (i) impairment of non-current assets, (ii) other provisions, (iii) depreciation and amortization of non-current assets and (iv) non-recurring expenses. Adjusted EBITDA consists of EBITDA plus allowance for bad debt. Bad debt consists of the allowance for bad or doubtful debt, as determined by the Company on the basis of historical trends of overdue receivables and percentages of unpaid receivables as well as specific analysis of overdue receivables with respect to certain customers. Adjusted EBITDA figures presented on a segment basis have been prepared on a basis consistent with the preparation of Adjusted EBITDA.

Total comprehensive profit (loss) attributable to the owners of the Company

Total comprehensive profit (loss) represents attributable to the owners of the Company represents profit (loss) plus the effect of other comprehensive income, net of related taxes, attributable to owners of the Company. The only impact of other comprehensive income was related to the actuarial gains and losses on employee termination indemnities accounted for as of 31 December 2012.

Results of operations

Year ended 31 December 2012 compared to year ended 31 December 2011

The table below sets out our results of operations for the year ended 31 December 2012, compared to the year ended 31 December 2011.

(€ in millions)	Year ended 31 December		Percentage change
	2011	2012	
Revenue	141.5	150.8	6.6
Other operating income	1.0	1.6	60

Total revenue

Total revenue increased by €9.7 million, or 6.8% to €152.3 million for the year ended 31 December 2012 from €142.6 million in the year ended 31 December 2011, primarily due to organic growth and to the effect of new acquisitions in the year 2012, of which €7.4 million was the result of acquisitions. In addition to acquisitions, total revenue growth was largely driven by our Software and Services business line. Total revenue for our Education business line was slightly down and total revenue for our CAD/CAM business line was flat compared to the prior year.

Our total revenue per segment for the years ended 31 December 2011 and 2012 was as follows:

	Year ended 31 December		
	2011	2012	Percentage change
Software and Services	110.4	118	6.9%
Direct channel	59.8	65.3	9.2
—SMEs	41.4	45.1	8.9
—Professionals	18.4	20.2	9.8
Indirect channel	56.9	59.6	4.7
Software and Services reconciliation ⁽¹⁾	(6.3)	(7.0)	11.1
Education	12.2	14.3	17.2%
CAD/CAM	20.5	20.8	1.5%
Reconciliation ⁽¹⁾	(0.6)	(0.7)	16.7
Total	142.6	152.3	6.8%

(1) Reconciliation represents intra-segment revenue.

Software and Services total revenue increased by €7.6 million, or 6.9% to €118 million for the year ended 31 December 2012 from €110.4 million in the year ended 31 December 2011, due to the organic growth of the business unit and to the acquisitions of Danea and Digita (representing a combined €3.6 million of revenue), the results of which were consolidated for the first time in the 2012 financial year. The remaining increase in total revenue was the result of a net increase in the number of customers, a price increase for our maintenance and service fees (in line with our policy of price increases according to the rate of inflation) and the effect of stricter controls on our price discounting. Direct channel total revenue, gross of intercompany items, increased by €5.5 million, or 9.2%, to €65.3 million for the year ended 31 December 2012 from €59.8 million for the year ended 31 December 2011. Indirect channel total revenue, gross of intercompany items, increased by €2.7 million, or 4.7%, to €59.6 million for the year ended 31 December 2012 from €56.9 million for the year ended 31 December 2011, mainly due to the increase of renewed maintenance and assistance contracts and to the sales of new software products introduced by the Company. Direct channel total revenue from SMEs increased by €3.7 million, or 8.9% to €45.1 million for the year ended 31 December 2012 from €41.4 million for the year ended 31 December 2011 and direct channel total revenue from Professionals increased by €1.8 million, or 9.8% to €20.2 million for the year ended 31 December 2012 from €18.4 million for the year ended 31 December 2011.

Education total revenue increased by €2.1 million, or 17.2% to €14.3 million for the year ended 31 December 2012 from €12.2 million in the year ended 31 December 2011. This increase in performance was primarily due to the acquisitions of Paradigma and Optime for €3.8 million, which more than offset the decreased revenues resulting from the spinoff of the a business and the macroeconomic climate and decline in discretionary spending (€1.7 million).

CAD/CAM total revenue amounted to €20.8 million at 31 December 2012, essentially in line with the previous year (1.5% of increase compared to 31 December 2011). Although we experienced a decline in new CAD/CAM customers, we improved our client retention as we

increased the number of our existing CAD/CAM customers that extended and/or upgraded their existing licenses. We experienced a slight decrease in total revenue from the sale of CAD/CAM services and commissions from the sale of machinery, which is generally in line with the decline in the manufacturing market. For the year ended 31 December 2012, we generated 78% of our revenue from the resale of SolidWorks products.

As a percentage of our total revenue, the contribution of our business lines remained stable in the years ended 31 December 2011 and 2012, with 77% for Software and Services, 9% for Education and 14% for CAD/CAM.

Consumption of raw and other materials

Consumption of raw and other materials decreased by €0.6 million, or 3.2% to €18.3 million for the year ended 31 December 2012 from €18.9 million for the year ended 31 December 2011 as a result of a different mix of revenue and lower hardware purchases as a result of lower hardware sales.

Cost of service

Cost of service increased by €3.2 million, or 12.6% to €28.6 million for the year ended 31 December 2012 from €25.4 million in the year ended 31 December 2011. The increase is consistent with the organic growth of total revenue and is also due to the first-time inclusion of the results of newly-acquired companies, which represented €3.0 million of costs. Advertising and marketing costs also increased as a result of integrating newly-acquired companies.

Personnel cost

Personnel cost increased by €4.4 million, or 10.1% to €47.8 million for the year ended 31 December 2012 from €43.4 million in the year ended 31 December 2011, primarily due to effect of newly-acquired companies and to the investment in personnel during the year in relation to the planned significant investment in new software solutions and products. The number of full time employees grew from 1,052 in the year ended 31 December 2011 to 1,146 in the year ended 31 December 2012. Personnel costs also increased as a result of contract-based increases in salaries.

Non-recurring expenses

Non-recurring costs increased to €3.8 million for the year ended 31 December 2012 as compared to €3.1 million for the year ended 31 December 2011. Of these costs, €1.4 million relate to consulting fees for acquisitions and €1.3 million relate to consulting fees for product and business efficiency improvement. The remaining costs relate to legal and tax advice.

Depreciation and amortization of non-current assets

The depreciation and amortization of non-current assets amounted to €25.1 million for the year ended 31 December 2012, essentially in line with the value of €24.9 million in the year ended 31 December 2011. The figure mainly relates to the amortization of intangibles (such as customer relationship, brand, software) recognized in the purchase price allocation performed with our acquisition in 2010 by HgCapital and Bain Capital.

Impairment of non-current assets

We recorded an impairment charge of €75 million in the year ended 31 December 2012 for the impairment of goodwill. In order to prudently take account of the economic environment, we approved a new business plan showing conservative growth rates for total revenue and EBITDA compared to historical trends achieved by the Group.

We subjected our non-current assets, as stated in the consolidated balance sheet at 31 December 2012, to impairment tests to verify their recoverability and the outcome showed the need to account for a write-down of a purely accounting nature and without any cash impact, of €75 million, fully adjusted against goodwill.

Operating result

Operating result decreased by €73.7 million to negative €51.1 million for the year ended 31 December 2012 from positive €22.6 million in the year ended 31 December 2011, primarily due to the non-recurring write-down of goodwill.

Finance income

Finance income decreased by €1.2 million, or 30.8% to €2.7 million for the year ended 31 December 2012 from €3.9 million in the year ended 31 December 2011, primarily due to the effect of mark-to-market valuation of derivative contracts (interest rate swaps), that caused a positive financial income in the year 2011 of about €1.8 million, which was not repeated in the year 2012. The decrease is also due to the decrease in value of the vendor loan as a result of the write down of the put and call options.

Finance cost

Finance cost decreased by €1.5 million, or 5.1% to €28.2 million for the year ended 31 December 2012 from €29.7 million in the year ended 31 December 2011. This result was mainly related to the decrease of the Euribor level during the year 2012. In addition, the applicable margin on our senior loan facilities decreased in the second half of the year, taking into account the values of related financial covenants. In addition, a positive effect of mark-to-market valuation of derivatives was recognized at 31 December 2012 (positive difference of €2.2 million compared to 31 December 2011), partially offset by the negative impact of yearly variations in the fair values of vendor loans debt (negative effect of €1.7 million compared to 31 December 2011).

Profit/(Loss) for the year

Loss increased by €86.4 million to €86.7 million for the year ended 31 December 2012 from €0.3 million in the year ended 31 December 2011. In addition to the decrease in operating result in 2012, this loss was due to a negative effect in deferred taxes, which turned from a positive net amount of €12.3 million at 31 December 2011 to a negative net value of €2.0 million at 31 December 2012. This change is primarily attributable to a non-recurring write-down of deferred tax assets of €6.8 million, recorded in prior years and relating to a portion of interest expense temporarily non-deductible in the year it is incurred pursuant to Article 96, paragraph 4 of the Italian tax code. The write-down of this asset and the non-recognition of a deferred tax asset pertaining to the portion theoretically accruing in the year is due to the expected lengthening of the timing of the recoverability thereof, as indicated by forecasts included in the business plan used for testing the Group's goodwill. In addition, in 2011 a non-recurring deferred tax income of about €3.1 million was recognized, due to the step up in the tax basis of "Teamsystem Software" performed by the Company. Current income taxes at 31 December 2012 were also affected by a non-recurring income of €1.4 million, relating to the IRES refund claim to deduct labour costs from IRAP for the past tax years 2007-2011 (art. 2, paragraph 1, of Legislative Decree 201/2011, converted into Law no. 214/2011—"Monti's maneuver"—plus Legislative Decree no. 16 of 2/3/2012).

Adjusted EBITDA

Adjusted EBITDA increased by €2.3 million, or 4.4% to €54.7 million for the year ended 31 December 2012 from €52.4 million in the year ended 31 December 2011, primarily due to the contributions of newly-consolidated companies in 2012 (Danea, Digita, Paradigma and Optime). Adjusted EBITDA margin decreased by 0.8% to 35.9% for the year ended 31 December 2012 from 36.7% for the year ended 31 December 2011, primarily due to the integration of newly consolidated companies (0.4%), with the remainder due to the increase of staffing to improve the Group's efficiency by reorganizing the central hubs.

Our Adjusted EBITDA per segment for the years ended 31 December 2011 and 2012 was as follows:

	Year ended 31 December			
	2011	2012	Percentage change	2012 Adjusted EBITDA margin ⁽²⁾
Software and Services	47.4	49.8	5.1%	32.7%
Education	3.4	2.9	(14.7)%	1.9%
CAD/CAM	1.6	2.0	25.0%	1.3%
Total Adjusted EBITDA ⁽¹⁾	52.4	54.7	4.4%	35.9%

(1) Total Adjusted EBITDA is equal to Operating Income (Loss) plus (i) impairment of non-current assets, (ii) other provisions, (iii) depreciation and amortization of non-current assets and (iv) non-recurring expenses (EBITDA) plus allowance for bad debt.

(2) 2012 Adjusted EBITDA margin refers to Adjusted EBITDA divided by total revenue.

Our Software and Services Adjusted EBITDA increased in 2012 as a result of new acquisitions and our CAD/CAM Adjusted EBITDA increased as a result of higher levels of customer retention. Our Education Adjusted EBITDA decreased as a result of the spinoff of the Euroconference business and the softening in the education market.

As a percentage of our total Adjusted EBITDA, Software and Services, Education and CAD/CAM contributed 91%, 5.3% and 3.7% in 2011, as compared to 90.5%, 6.5% and 3.0% in 2012.

Total comprehensive profit (loss) attributable to the owners of the Company

Total comprehensive loss of the Group amounted to € 88.2 million for the year ended 31 December 2012. The only movement in the other comprehensive income relates to the negative effect of the actuarial evaluation of the period, with a total net effect of €1.0 million. The Company voluntarily decided to apply the new accounting standard IAS 19 revised earlier than required; consequently, we were required to charge the actuarial gains and losses of the year within the other comprehensive income. No restatement was necessary for the year ended 31 December 2011 because the amount of actuarial gains and losses were immaterial.

Year ended 31 December 2011 compared to year ended 31 December 2010

The presentation and discussion of the following financial information for the year ended 31 December 2010 is pro forma in order to give effect to the Acquisition as if it had occurred on 1 January 2010. See *"Presentation of financial information—Pro forma 2010 financial information."*

The table below sets out our results of operations for the year ended 31 December 2011, compared to the year ended 31 December 2010.

(€ in millions)	Year ended 31 December		Percentage change
	2010 pro forma (unaudited)	2011

Adjusted EBITDA⁽¹⁾	48.6	52.4	7.8

(1) Adjusted EBITDA consists of EBITDA plus allowance for bad debt. See "Presentation of financial and other information".

Consolidated statement of comprehensive income

There were no movements in other comprehensive income for the years ended 31 December 2011 and 2010. Therefore we do not present the related statement.

Total revenue

Total revenue increased by €13.4 million, or 10.4% to €142.6 million for the year ended 31 December 2011 from €129.2 million in the year ended 31 December 2010, primarily due to the growth of sales in both direct and indirect channels and to the inclusion of the newly-acquired companies TeamSystem Communication and ISP. TeamSystem Communication and ISP contributed €3.7 million to total revenue in 2011. Excluding the revenue contribution from TS Communications and ISP, the organic growth in 2011 total revenue compared to 2010 (pro forma) revenue would have been €10.0 million, or 7.7%.

Our total revenue per segment for the years ended 31 December 2010 and 2011 was as follows:

(€ in millions)	Year ended 31 December		Percentage change
	2010 pro forma (unaudited)	2011	
Software and Services	99.8	110.4	10.6
<i>Direct channel</i>	54.6	59.8	9.5
—SMEs	37.4	41.4	10.7
—Professionals	17.2	18.4	7.0
<i>Indirect channel</i>	50.5	56.9	12.7
<i>Software and Services reconciliation</i> ⁽¹⁾	(5.2)	(6.3)	21.1
Education	11.0	12.2	10.9
CAD/CAM	18.8	20.5	9.0
Reconciliation ⁽¹⁾	(0.5)	(0.6)	20.0
Total	129.2	142.6	10.4

(1) Reconciliation represents intra-segment total revenues

Software and Services total revenue increased by €10.6 million, or 10.6% to €110.4 million for the year ended 31 December 2011 from €99.8 million in the year ended 31 December 2010. Software and Services is the business line which has contributed the most to the Group's growth during the period, which is, in particular, due to the acquisitions of TeamSystem Communication and ISP. Organic growth represented approximately €6.9 million of Software and Services revenue growth in 2011 as a result of the launch of a highly successful product update as a result of changes to tax legislation. The remainder of the organic growth was the result of delivery of services, cross-selling products to existing customers and an increase in VAR revenue.

Education total revenue increased by €1.2 million, or 10.9% to €12.2 million for the year ended 31 December 2011 from €11.0 million in the year ended 31 December 2010, primarily due to the increase of related business and the success of Gruppo Euroconference sales of "*Master Breve*", which provides a 7-day course for tax advisors which covers the yearly mandatory requirements for such profession.

CAD/CAM total revenue increased by €1.7 million, or 9.0% to €20.5 million for the year ended 31 December 2011 from €18.8 million in the year ended 31 December 2010, primarily as a result of an increase in sales of maintenance and assistance services and a growth in our customer retention rate.

Consumption of raw and other materials

Consumption of raw and other materials increased by €2.2 million, or 13.2% to €18.9 million for the year ended 31 December 2011 from €16.7 million for the year ended 31 December 2010, in line with the increase in revenue and primarily as a result of the increase in raw materials required for the CAD/CAM business line.

Cost of service

Cost of service increased by €2.6 million, or 11.4% to €25.4 million for the year ended 31 December 2011 from €22.8 million in the year ended 31 December 2010, with €0.7 million as a result of the acquisitions of TeamSystem Communication and ISP and the remaining as a result of increased growth in our organic business.

Personnel

Personnel cost increased by €4.6 million or 11.9% to €43.4 million for the year ended 31 December 2011 from €38.8 million in the year ended 31 December 2010. This increase is mainly due to a policy of continuous strengthening of staff to support growth which contributed €2.5 million in the Software and Services business lines and to the acquisitions of TeamSystem Communication and ISP, which have contributed to personnel costs in an amount of approximately €1.6 million.

Non recurring expenses

Non-recurring expenses increased to €3.1 million for the year ended 31 December 2011, as compared to €0.8 million for the year ended 31 December 2010. The increase was primarily related to consulting fees for a strategic consulting program aimed at improving the commercial performance and quality of the Group and increasing the efficiency of business processes. The increase was also due to certain additional expenses related to acquisitions.

Depreciation and amortization of non-current assets

The recurring depreciation and amortization of non-current assets amounted to €24.9 million for the year ended 31 December 2011, in line with the value of €25 million in the year ended 31 December 2010. The figure mainly relates to the amortization of intangibles (such as customer relationship, brand, software) recognized in the purchase price allocation performed with the Acquisition.

Operating result

Operating result increased by €1.3 million, or 6.1% to €22.6 million for the year ended 31 December 2011 from €21.3 million in the year ended 31 December 2010.

Finance income

Finance income increased by €1.4 million, or 56% to €3.9 million for the year ended 31 December 2011 from €2.5 million in the year ended 31 December 2010, primarily due to a decrease of €1.8 million in the estimated vendor loan payables caused by changes in estimates and in applied interest rate for discounting performed in the year.

Finance cost

Finance cost increased by €3.3 million, or 12.5% to €29.7 million for the year ended 31 December 2011 from €26.4 million in the year ended 31 December 2010, mainly due to an increase in interests on bank overdraft and loans (also caused by Euribor variations) and to the negative effect of mark-to-market derivatives valuation.

Profit/(Loss) of the year

Loss decreased by €4.0 million, or 93.0%, to €0.3 million for the year ended 31 December 2011 from €4.3 million in the year ended 31 December 2010. This result was due to the positive variation of deferred income taxes, from €9.2 million at 31 December 2010 to €12.3 million at 31 December 2011, caused by the step up of the tax basis of "Teamsystem Software", and the related non-recurring tax income of €3.1 million.

Adjusted EBITDA

Adjusted EBITDA increased by €3.8 million, or 7.8% to €52.4 million for the year ended 31 December 2011 from €48.6 million in the year ended 31 December 2010, primarily due to an increase in organic sales and also partly due to the inclusion of newly-acquired companies TeamSystem Communication and ISP. Adjusted EBITDA margin decreased by 0.9% to 36.7% for the year ended 31 December 2011 from 37.6% for the year ended 31 December 2010, primarily due to the increase of personnel and services costs.

Our Adjusted EBITDA per segment for the years ended 31 December 2010 and 2011 was as follows:

	Year ended 31 December			
	2010 (unaudited)	2011	Percentage change	2011 Adjusted EBITDA margin ⁽²⁾
Software and Services	44.0	47.4	7.7%	33.2%
Education	3.1	3.4	9.7%	2.4%
CAD/CAM	1.5	1.6	6.7%	1.1%
Total Adjusted EBITDA ⁽¹⁾	48.6	52.4	7.8%	36.7%

(1) Total Adjusted EBITDA is equal to Consolidated Operating Income (Loss) plus (i) impairment of non-current assets, (ii) other provisions, (iii) depreciation and amortization of non-current assets and (iv) non-recurring expenses (EBITDA) plus allowance for bad debt.

(2) 2011 Adjusted EBITDA margin refers to Adjusted EBITDA divided by total revenue.

Our Software and Services Adjusted EBITDA increased in 2011 as a result of the sale of new product licenses, a highly profitable tax software update and low cost of goods sold. Our Education business line Adjusted EBITDA increased from sales of our “*Master Breve*” training and CAD/CAM stayed relatively flat as an increase in sales was largely offset by increased personnel costs.

As a percentage of our total Adjusted EBITDA, Software and Services, Education and CAD/CAM contributed 90.5%, 6.5% and 3.0% in 2011, as compared to 90.5%, 6.4% and 3.1% in 2010.

Liquidity and capital resources

Following the consummation of the Transactions, we expect that our principal sources of liquidity will be our existing cash and cash equivalents, cash generated from operations and any borrowings under our Revolving Credit Facility. The Revolving Credit Facility Agreement contains various conditions that must be satisfied in order for the RCF Lenders to make a loan under the Revolving Credit Facility. See “*Description of Other Indebtedness—Revolving Credit Facility*”. Our principal uses of cash after the consummation of the Transactions will be to fund capital expenditures and other research and development costs, provide working capital, meet debt service requirements and to fund any possible acquisitions.

We believe that our operating cash flows and borrowing capacity under the Revolving Credit Facility expected to be made available at closing will be sufficient to meet our requirements and commitments for the foreseeable future. However, we are highly leveraged and have significant debt service obligations. Our actual financing requirements will depend on a number of factors, many of which are beyond our control. See “*Risk factors—Risks related to our financial profile—We will require a significant amount of cash to service our debt and sustain our operations, which we may not be able to generate or raise*”.

The following table illustrates our cash flows from the indicated sources:

(€ in millions)	Year ended 31 December	
	2011	2012
Consolidated Cash Flow Statement		
Cash flow generated from operations	39.0	46.9
Cash flow from (used in)/generated from investing activities	(14.0)	(15.7)
Cash flow from (used in)/generated from financing activities	(19.5)	(18.2)
Cash flow from taxes	(10.5)	(10.9)
Cash and cash balances from consolidation of new subsidiaries at the date of acquisition	1.6	3.2
Total cash flow generated in the period	(3.4)	5.2
Cash and cash balances at the end of the year	13.8	19.1

The Group was acquired by entities associated with HgCapital and Bain Capital on 29 September 2010. As a result, our consolidated cash flow statement for the year ended 31 December 2010 refers only to a three month period. Consequently, our cash flow statement for the years ended 31 December 2012 and 2011 are not comparable to our cash flow statement for the year ended 31 December 2010 and we have limited our discussion of cash flows to 2012 and 2011.

Cash flow generated from operations

Our cash flow from operating activities increased by €7.9 million to €46.9 million for the year ended 31 December 2012 from €39.0 million for the year ended 31 December 2011. €4.6 million of the increase is due to the shifting in collecting bank cash orders due at 31 December 2011. The remaining increase of €3.3 million was due to the inclusion of newly-acquired companies and reflects a high cash flow conversion, characterized by a low level of cash absorbed by working capital. We have low levels of working capital because we have a low level of inventory and we are able to forecast cash collection of receivables related to maintenance and assistance services and education services not yet delivered allowing us to be disciplined in our working capital.

Cash flow (used in)/generated from investing activities

Our cash flow used in investing activities was €15.7 million for the year ended 31 December 2012 due to investments in ordinary tangible assets of €1.0 million, in intangibles of €2.0 million (mainly related to the acquisition of the source of a software component used in our products for approximately €1.6 million) and investments in participations of €12.7 million.

At 31 December 2011 our cash flow used in investment activities amounted to €14.0 million for the year ended 31 December 2011, reflecting €13.0 million used in for the acquisitions of TeamSystem Communication, ISP and Danea (which acquisition was completed in December 2011).

Cash flow (used in)/generated from financing activities

Our cash flow used in financing activities was €18.2 million for the year ended 31 December 2012 due to interest and reimbursement paid on banks and shareholders loans to make payments on the Mezzanine Credit Facility. This cash use was partially offset by a cash inflow due to the drawing of €15.5 million under of acquisition facility mainly related to the acquisitions of Paradigma (€7.0 million) and H-Umus (€2.5 million).

Our cash flow used in financing activities was €19.5 million for the year ended 31 December 2011, which mainly related to interest and reimbursement paid on banks and shareholders loans, and to the dividends paid in respect of minority interests in our subsidiaries.

Working capital

We focus on the management of our working capital. The following table sets forth the components of our working capital as of 31 December 2010, 2011 and 2012.

(€ in millions)	As of 31 December		
	2010	2011	2012
Trade Receivables	38.0	46.9	46.5
Trade Payables	(15.7)	(16.1)	(15.9)
Inventory	1.2	1.6	1.3
Other receivables ⁽¹⁾	5.7	6.1	6.7
Other current liabilities	(17.7)	(21.1)	(22.4)
Working Capital	11.5	17.4	16.2

(1) The consolidated financial statements as of 31 December 2010 include in the line item "other receivables" an amount of €2.5 million as prepayments for financing fees, which is not included in working capital.

Due to the nature of our contractual arrangements, our net working capital is seasonal. Net working capital is generally cash generative in the second and, to a lesser extent, in the third quarter. This is due to the timing of the collection of trade receivables. Direct channel customer invoicing is particularly concentrated in January, when most of the annual fees related to maintenance and assistance contracts are invoiced. Due to this seasonality, net working capital is generally at its maximum in the first quarter. Deferred income, included in "Other liabilities", has the same seasonality as the invoicing of sales, with an inverse correlation to trade receivables (i.e. it is amortized on a straight line basis through the end of the year). As a result of the seasonality of our net working capital, we plan for fixed capital expenditures for employee salaries and VAT payments, which are due monthly and, with respect to VAT, at the time the invoice is raised (despite the delay in customer payment).

Net working capital is also affected by our internal and external investments, including acquisitions. In particular:

- working capital decreased by approximately €1.2 million from €17.4 million at 31 December 2011 to €16.2 million at 31 December 2012, due to the effect of the timing of collection of banks cash orders from December 2011 to January 2012 in an amount of €2.3 million, which partially offset the increase related to newly-acquired companies and increase in revenue.
- working capital increased by approximately €5.9 million from €11.5 million at 31 December 2010 to €17.4 million at 31 December 2011, due to the effect of bank cash orders and again to the increase in consolidation area and organic growth.

Capital expenditure

We define capital expenditure as the total amount of investments in tangibles and intangibles incurred during the period (including capitalization of development costs).

We have historically low capital expenditure requirements, which we believe to be in line with our industry. As a part of our Product Renewal Project, in which we expect to invest approximately €16 million over the next four years, we increased our capital expenditure spending in 2012 and expect to increase our capital expenditure throughout the duration of the project. We spent €2.4 million on the Product Renewal Project for the year ended 31 December 2012 and we anticipate spending approximately €5.0 million in 2013, €4.0 million in 2014, €2.5 million in 2015 and €2.0 million in 2016.

Our capital expenditure incurred during the years ended 31 December 2012 and 2011 is set out below:

(€ in millions)	Year ended 31 December	
	2011	2012
Development capital expenditure	2.3	4.3
Other tangible assets	0.7	1.1
Intangible assets	0.3	2.0

Contractual obligations

The following table summarizes our material contractual obligations at 31 December 2012 as adjusted to give effect to the Transactions and the use of proceeds from the Notes offered hereby.

(€ in millions)	Within 1 year	Between 2 and 4 years	Over 5 years	Total ⁽¹⁾
Notes ⁽²⁾	—	—	300.0	300.0
Operating leases ⁽³⁾	3.9	7.1	2.0	13.0
Total	3.9	7.1	302.0	313.0

(1) Does not include put and call option agreements and any earn out payments. Including our put and call and earn out agreements, our total contractual obligations would be €328.5 million (€15.5 million represented by the vendor loan).

(2) Represents the aggregate principal amount of the Notes.

(3) Represents operating leases of certain of our office facilities, equipment and vehicles.

The table above does not include guarantee obligations in the ordinary course of business or contingent liabilities. For further details, see note 32 to our 2012 audited consolidated financial statement included elsewhere in this offering memorandum.

The Company is party to put and call option agreements in respect of the shares held by non-controlling shareholders in some controlled subsidiaries. The strike price of these options will be determined based on normalized earnings parameters of the companies plus or minus the net financial position for the period in which the put or call option will be exercised. The best estimate of discounted future disbursements has been recognized in our consolidated financial statements under the “vendor loan” debt caption.

Off-balance sheet arrangements

We are not party to any material off-balance sheet arrangements.

Qualitative and quantitative disclosures about market risk

Our activities and debt financing expose us to a variety of financial risks, the most significant of which are interest rate risk, price risk, credit risk and liquidity risk. Our overall risk management strategy seeks to minimize the potential adverse effects of such risks.

Foreign exchange risk

Our Group operates almost exclusively in Italy. We therefore have no foreign exchange risk.

Interest rate risk

Following the Refinancing Transactions, we will be subject to interest rate risk as a result of our Revolving Credit Facility, which initially contains a floating rate of interest.

Liquidity risk

The two main factors that determine the dynamics of the Group's liquidity are, on one hand, the resources generated/absorbed by operating and investment activities and, on the other hand, the maturity and renewal of financial liabilities. Management of these risks is carried out by the finance department of the Company.

Among the procedures adopted with the intention of optimizing cash flow management and of reducing the liquidity risk, the following should be noted:

- the maintenance of an adequate level of available liquidity;
- the adoption of cash-pooling at Group level;
- adequate borrowing facilities being put in place;
- the control of prospective liquidity conditions in relation to the corporate planning process, and in relation to the monitoring of our compliance with covenants.

The financial projections of the Group do not indicate any critical factors impacting the ability to generate sufficient liquidity in 2013 to meet our commitments. Regular and systematic historical and prospective analyses of financial covenants are performed; based on the calculations performed by management for 2012, contractual financial covenants have been complied with.

Credit risk

We believe that our credit risk is reduced by the lack of concentration of our direct and indirect customer base and high degree of customer loyalty. Our payment terms and billing practices also reduce our exposure to credit risk. We also use procedures to limit overdue balances and send customers reminders when balances are due. Our maximum exposure to credit risk is represented by the carrying value of trade receivables as presented in our financial statements, as well as residual financial receivables recorded in current and non-current financial assets. We use an aging list in order to classify and control our trade receivables and we organize the aging list according to most recent overdue accounts (0-30 days) to oldest (over 180 days). With respect to overdue receivables, any write-down recorded in our financial statements is determined based on an analysis of doubtful debts. Our credit collection performance has historically been successful and losses incurred in the past have been relatively modest. We increased our bad debt provision during 2012 due to the expected effects of the Italian economic crisis. However, due to the very low level of concentration of our receivables among our customer bases, the recognized losses on receivables were low.

Critical accounting policies

The preparation of financial statements according to IFRS requires management to apply accounting policies and methods, which, in certain circumstances, depend on difficult and subjective assessments that may be based on past experience and on assumptions that, from time to time, are considered reasonable and realistic based on relevant circumstances. The application of these estimates and assumptions affects the amounts presented in the financial statements, comprising the statement of financial position, the income statement and cash flow statement, as well as the disclosures provided. The actual amounts of the financial statement components, for which estimates and assumptions have been used, may differ from those reported, due to the uncertainty of assumptions and the conditions on which estimates are based.

The following accounting and measurement policies are those we regard as material factors that influence the presented financial data of our business.

Business combinations

Acquired subsidiaries are accounted for in accordance with the acquisition method as provided for by IFRS 3. The cost of the acquisition is determined by the sum of acquisition-date current values of the consideration transferred, liabilities incurred or assumed and financial instruments issued by the Group for the change in control of the business acquired. All other costs associated with a transaction are expensed. Identifiable assets, liabilities and contingent liabilities of the businesses acquired, which meet the conditions for recognition under IFRS 3, are measured at their acquisition-date current values. Goodwill is measured as the difference between the aggregate of the acquisition-date fair value of the consideration transferred, the amount of any non-controlling interest and the acquisition-date fair value of the acquirer's previously-held equity interest in the acquiree and the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If the value of the acquisition-date amounts of the assets acquired and the liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interest and the fair value of the acquirer's previously-held equity interest in the acquiree, the surplus is recognised immediately in the income statement as income arising from the completed transaction. Non-controlling interests at the acquisition date may be measured at fair value or the non-controlling interest's proportionate share of net assets of the acquiree. The option is available on a transaction by transaction basis.

Normally, at the same time as the acquisition of a majority or controlling stake in a target company, we enter into put and call option agreements for the residual stake held by minority owners of the acquiree. For those cases where part of the acquisition takes place through the stipulation of a binding option agreement, with the simultaneous presence of put and call clauses, the target company is consolidated, since the substance of the binding option agreement is that of the payment of deferred consideration for part of the target company's capital, as evidenced by a series of transactions completed in the past. Accordingly, the estimated value of the exercise price of the put/call is included in the cost of acquisition and contributes to the overall determination of goodwill. This accounting method applies only where the Group has acquired majority control of the voting rights of the companies acquired and where no doubt arises as to the distribution of relevant amounts of dividends in the period up to the date the option is exercised. In view of the recognition of goodwill related to these options, the Group accounts for, as a financial liability, the vendor loan related to the estimated actual consideration for the exercise of the options. In accordance with this principle, subsequent changes in the fair value of the payable, due to amendments made to the initial assessment of the exercise consideration, are recognised in the consolidated income statement, as is the case for the notional charges deriving from the gradual decrease of the effect of discounting.

Any acquisitions of minority interests subsequent to having achieved control are accounted for as transactions between shareholders, with the pertinent goodwill recorded as a reduction of the Group's equity, in compliance with the requirements of IFRS 3.

Capitalized development costs

In accordance with IAS 38, research expenses are charged to income as incurred.

Development costs incurred in relation to a determined project are capitalised only when the Directors can demonstrate, by means of appropriate analysis, the technical feasibility of completing the intangible asset so that it will be available for use or sale, the intention to complete the intangible asset and use or sell it, how the intangible asset will generate probable future economic benefits, the availability of adequate technical, financial and other resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. After initial recognition, development costs are carried at cost less any accumulated amortisation and any accumulated impairment losses. Amortisation begins when development is complete and the asset is

available for use. It is amortised with reference to the period for which it is envisaged that the associated project will generate revenues for the Group. During the period in which an asset is no longer in use, it is assessed annually to ascertain if there has been any impairment.

Other development expenses that do not meet the above requirements are expensed as incurred. Development costs that have previously been expensed are not accounted for as an asset in subsequent periods.

Capitalised development costs are amortised (as from the start of the production or marketing of the product) on a straight line basis over their residual useful life (estimated to be between 3 and 5 years).

Goodwill and other indefinite life assets

The carrying value of assets with an indefinite useful life, for example goodwill and intangible assets in process of formation, are not subject to depreciation or amortisation, but are assessed annually to determine whether an asset may be impaired.

The estimated recoverable amount is represented by the higher of fair value and value in use. For the purposes of assessment, assets are grouped into the smallest identifiable unit for which the Directors are capable of separating the related cash inflows.

If the recoverable amount of the asset or cash generating unit is lower than the net carrying amount, the asset is adjusted to take account of the impairment loss, which is charged to income. The impairment loss of a cash generating unit is firstly allocated to goodwill and any residual balance is allocated to other assets.

Use of Estimates

Set out below is a listing of financial statement components that, more than others, require greater subjectivity, on the part of management, in the application of estimates and, for which, a change in the conditions of underlying assumptions used may have a significant impact on the financial statements of the consolidated companies:

- Business combinations (IFRS 3) and measurement of intangible assets: the process of allocation of goodwill to the assets of the Group following a business combination is based on estimates and assumptions derived from the professional judgment of management. Professional judgment is also used to determine the most appropriate methodologies for measurement, and in certain cases provisional initial accounting has been opted for, as permitted by the accounting standard.
- Impairment of goodwill and other intangible and tangible assets: goodwill and other intangible assets with an indefinite useful life are tested annually for impairment and during the course of the year if there is any indication thereof. Other intangible assets and tangibles are tested annually for impairment when there are indications that the carrying amount may not be recovered. When value in use needs to be computed, management estimates the cash flows expected from an asset or from the cash generating unit and choose an adequate discount rate in order to calculate the present value of the cash flows. Accordingly, the impairment test for fixed assets is performed using forecasts, which are naturally subject to uncertainty, of cash flow included in business plans approved by the relevant Directors.
- Development costs: the initial capitalisation of costs is subject to confirmation of the judgment of Directors as to the technical and economic feasibility of the project, usually when the project has achieved a precise phase of the development plan. To determine the amount to be capitalised, the Directors apply various assumptions regarding expected future cash flows from the asset, the discount rate to apply and the periods in which the expected benefits will occur.

- **Deferred tax asset and liability:** a deferred tax asset has been recognised on interest expense exceeding gross operating income carried forward, only to the extent that it is probable that there will be sufficient future gross operating income to allow the surplus to be utilised. A significant discretionary assessment is required of Directors to determine the amount that can be accounted for as a deferred tax asset. They have to estimate the probable timing and the amount of future gross operating income, as well as a planning strategy for future taxation.
- **Employee benefits:** The cost of employee benefit plans is determined using actuarial assessments. An actuarial assessment requires the application of assumptions with respect to discount rates, the expected yield from investments, future wage increases, mortality rates and future increases in pensions. Due to the long term nature of these plans, the estimates are subject to a significant degree of uncertainty.
- **Derivatives:** the fair value of financial instruments not traded on an active market (for example, over-the-counter derivatives) is determined using valuation techniques. Directors apply their own professional judgement to select the valuation methodology and the related assumptions based on market conditions at the end of each financial year.

Industry

Overview

We provide ERP and business management software to micro, small and medium sized enterprises ("SMEs") and accountants, lawyers and labor advisors ("Professionals") based in Italy. In 2012 this market was estimated to be worth €1.1 billion.

Prospective competitors wishing to operate in this market face clear barriers to entry with larger incumbent players deriving benefit from economies of scale. Some of the most important market characteristics include:

- the importance of building strong distribution networks to maximize market penetration and proximity to customers;
- the key role of scale in determining the availability of resources to consistently invest in R&D to ensure that the underlying legal, tax and accounting content of software is up to date. Technological updates are required less regularly and typically take place every five to ten years;
- high switching costs of existing customers stemming from the training required to familiarize employees with new software. The transition to an alternative supplier also exposes customers to significant data migration risk; and
- limited price sensitivity. Customers in this market are primarily concerned with quality of services and the availability of product support: system maintenance and regular product updates are paramount. This limited price sensitivity is also driven by customers' need for suitable training to be made available by suppliers to ensure that employees are able to use software both efficiently and effectively.

The factors listed above result in a steady demand for this type of software that is resilient to the changes in the macro-economy.

Within the Italian ERP and business management software market, our main two target segments are SMEs and Professionals.

ERP and Business Management Software for SMEs

The Italian SMEs market comprises approximately 4.4 million firms each employing fewer than 500 employees. Of those enterprises, 239,000 fall in the small and medium sized enterprise category, employing 10 to 49 people and 50 to 499 people respectively. The remaining businesses, over 4.1 million, are categorized as micro enterprises (employing 1 to 9 people). Compared to other Western European markets, Italian SMEs represent a relatively large segment of the domestic market. Italy has approximately twice the number of SMEs when compared with the UK and over 40% more than those operating in France. SMEs play a major role in global economic growth, providing more jobs globally than any other form of business. Over 95% of OECD enterprises are SMEs, which account for 60-70% of employment in most countries.

Two main factors have traditionally driven the Italian ERP and business management software market for SMEs. Firstly, companies are increasingly seeking to improve their ability to drive, monitor and analyse data and key operating and financial processes. By doing so these firms anticipate an increased propensity to improve operations, competitive position and profitability. Secondly, the market is driven by the requirement for firms to be compliant with tax and legal requirements. ERP software allows companies to automate processes such as invoicing, accounting, production, warehousing, logistics, sales and CRM. These functions are considered critical for the day-to-day operations of a business.

The SMEs segment for ERP and business software in Italy generated €833 million in 2012. The SMEs software segment includes licenses, maintenance and project services related to product delivery and support.

SMEs require ERP and business management software solutions tailored to their individual requirements. Since these software solutions are important for the day-to-day running of these businesses and involve high switching costs, customers are incentivised to remain loyal to their current supplier.

In most European markets, including Italy, VARs play an important role in the ERP and business management distribution and service. VARs are resellers of software and product licenses on behalf of the ERP providers and usually operate on an exclusive basis. VARs install the relevant software and provide maintenance and assistance to customers. The provision of these business services is particularly important to small firms which do not usually have the necessary in-house capabilities to efficiently start up and maintain a new software system or to train the staff tasked with using it. The software applications can also be sold via other distributors, through direct sales channels or via web sales (usually dedicated to microbusinesses). It is common for small businesses to first purchase software applications designed for financial management and then to gradually expand functional coverage until potentially upgrading to a broad ERP software solution.

Within the SMEs market, manufacturing companies have a specific need for computer aided manufacturing (CAM) and computer aided design (CAD). Specifically, CAM/CAD products are deployed to customers operating in architecture and design, engineering, procurement, construction and operations management. Through these software tools users are able to design products and control manufacturing processes. Manufacturing customers increasingly require CAM/CAD to be fully integrated with their ERP systems. Vertical CAM/CAD software is therefore fundamental to manufacturing firms' operations.

Business Management Software for Professionals

This segment consists of professional advisors providing legal, tax, labor and accounting advice to corporations and private individuals. This market segment generated an estimated €282 million in 2012. The Professionals software segment can be divided into two main target groups:

- **Fiscal and accounting software:** This group consists of professional advisors providing tax and accounting advice to corporations and private individuals.

- **Payroll software:** This group consists of labor consultants who provide advice and services relating to payroll and HR matters to companies and professional organizations.

Regular and timely software updates are even more critical for professional advisors in comparison with SMEs. Business management software must constantly be updated to accommodate changes in tax, accounting and labor regulation. In addition, the Professionals market is even more resilient to macro-economic cycles due to a mix geared towards licenses, maintenance and assistance rather than project services. With the exception of the legal profession, which still has a low penetration rate, the Professionals market is even more highly penetrated than the SMEs market. Penetration of software for fiscal and labor advisors reached 100% over the last 10-years with such development driven by compulsory electronic filing to the Italian tax and pension authorities.

Key Trends and Growth Drivers in Italian Business Management Software for SMEs and Professionals

Key trends and growth drivers in this market include:

- **Stability due to mission critical nature of services:** The market is more stable in comparison with the general software and IT market because ERP and business Software and Services are fundamental to the day-to-day activities of the business. Italian SMEs have become increasingly sophisticated which has driven demand for a broader range innovative management solutions that monitor key company activities.
- **Continued changes in fiscal, accounting and labor regulations:** The recurrent regulatory changes and fiscal interventions in Italy have resulted in a continuous demand for software updates that reflect the latest requirements. These changes also drive a constant pipeline of new products. The complexity and ongoing evolution of labor regulation has also given rise to a demand for payroll IT solutions and expertise.
- **Continued growth in the underpenetrated micro segment:** In 2011, the microbusiness segment had a low management software penetration as compared to the larger SMEs segments, with a penetration rate of approximately 13% in Italy as compared to a penetration rate of 97% and 61% in the medium and small enterprises, respectively, for the same period. These figures evidence the very high growth potential which can be captured in this market, especially when compared with other Western European countries. In the future, penetration may be increased by extending the product offering to microbusinesses beyond basic accounting ERP.
- **Demand for SaaS, multi-device and web-based services:** The software marketplace continues to evolve, with opportunities in the areas of cloud computing/SaaS, multi-device and web-based services. These solutions allow for improved software performance, improved business processes, cost reduction, access to real time information and improved employee productivity. In addition, portability and scalability are increasingly important within ERP and business management software.

Competition

We were the market leader in the SMEs and Professionals segment with a combined market share of 20.5%, based on number of users. Our main competitors include the Zucchetti Group and Gruppo WKI. International players currently active in the Italian market include IBM and Microsoft. The remaining market is divided amongst many smaller ERP and management software providers.

The competitive dynamic within the ERP SMEs software segment depends on a number of key differentiating characteristics such as relative dimension, size of customer base, flexibility, breadth of product offering, number of users for each software application, software functionality and industry sector specialization. Only a small number of companies are capable of offering software application solutions tailored for all customer segments.

The ERP market for SMEs is highly fragmented with the top 10 market players in Italy accounting for 40% of the market. Large players are best positioned to take advantage of this fragmented market. This is due to several factors. Firms with wider resources are suited to conducting operations on a larger scale, can offer a wider range of services, support greater geographical reach and deliver a higher quality of customer service. Finally, customers are likely to be less concerned about the risk that their services will be discontinued when dealing with larger providers. As a result, top 10 market players have increased their aggregate SME market share from 25% in 2006 to 40% in 2011.

While the Professionals market is even more stable and mature compared to the SMEs market, large players are still best positioned to take advantage of the fragmented market. This is due to several factors. Firms with wider resources are better suited to conducting operations on a larger scale, can offer a wider range of services, support greater geographical reach and deliver a higher quality of customer service. In addition, larger firms are better placed to promptly implement software updates. This superior brand strength may be leveraged to both attract new custom and retain existing customers. The two companies with the largest presence in this market segment have increased their aggregate market share from 44% in 2006 to 51% in 2011.

Market share of top players⁽¹⁾⁽²⁾

(1) Based on number of users; Top 10 for SMEs, top two for Professionals

(2) Second tier players within Professionals segment include WKI Osra, Sistemi and Buffetti

ERP solutions offered by large international software providers are primarily aimed at large businesses and are often expensive to purchase, standardized and inflexible and/or complicated to install and maintain. Consequently small and medium sized businesses usually select smaller local suppliers as preferred suppliers. Local ERP SMEs software firms compete with larger international software providers by offering a combination of lower prices, superior local tax and accounting knowledge, proximity and more flexible vertical specific solutions.

Business

Overview

We are the leading designer and distributor of mission critical ERP and business management software and related value-added services for SMEs and professional advisors in Italy. In total, we have a large and diverse customer base with approximately 118,000 unique end customers. We have a 17% share in the Italian SME software market and a 31% share in the Italian professional advisor software market. When combining our SME and Professional business lines, we had more than twice the market share of our nearest competitor. From 2006 to 2011, we grew our market share in the SME market by approximately 9.9 percentage points and in the professional advisors market by approximately 4.7 percentage points. We have consistently grown our revenues and EBITDA since 2001, despite various economic cycles in the Italian economy. Our *pro forma* total revenue and *pro forma* Adjusted EBITDA for the year ended 31 December 2012 were €154.0 million and €55.4 million, respectively (including the effect of the acquisition of H-Umus as if it had occurred on 1 January 2012), representing a 36% Adjusted EBITDA margin. Our *pro forma* total revenue for the year ended 31 December 2010 were €129.2 million, representing a 19.2% increase in revenue from 2010 to 2012. Our *pro forma* Adjusted EBITDA for the year ended 31 December 2010 was €48.6 million, representing a 14% increase in Adjusted EBITDA from 2010 to 2012.

Our software solutions help our customers manage and develop their business and operations by automating and integrating business processes. These solutions are mission critical for the day-to-day operations of our customers. Together with this, the breadth of our product range, our high quality customer service and regular software updates result in a historically stable and low churn level among our Software and Services customers (excluding microbusiness) of approximately 4-5% per year over the past three years. This implies an average customer life of more than 20 years.

We have developed an extensive distribution and service network throughout Italy comprised both of a direct channel and an indirect channel (consisting of “VARs”). We have strong cash flow visibility underpinned by multi-year contracts with our VARs and maintenance and assistance fees from our direct channel clients. This results in approximately 60% of recurring revenues.

Our core business line is Software and Services, which represents approximately 91% of our adjusted EBITDA, and is complemented by two other lines that complete our product offer: Education and CAD/CAM. Our client base is highly fragmented with our single largest direct channel end customer in 2012 representing approximately 0.2% of our total revenues. Our SME customer base includes micro, small and medium businesses with up to 500 employees and our professional advisor customer base includes accountants, labor advisors, and lawyers.

Our competitive strengths

We believe we have the following key strengths:

Market leader in a stable and fragmented market with key competitive advantages

We are the leading Italian business management software provider for SMEs and professionals. Based on number of users. We have a 17% share in the Italian SME software market and a 31% share in the Italian professional advisor software market. When combining our SME and Professional business lines, we had more than twice the market share of our nearest competitor. Within the SME market, we hold the leading market shares of 13%, 14% and 24% of the market for micro, small and medium businesses, respectively. Within the professionals market, based on the number of users, we hold a leading market share with 30% of the accounting software market and 36% of the payroll software market. From 2006 to 2011, we grew our SME market share by approximately 7.5 percentage points and our professional

market share by approximately 4.4 percentage points. We believe there is still significant room for growth across all of our business lines, for which we are well positioned to capture as a result of the breadth and quality of our product offering, along with our ability to timely and quickly update our software based on legislative, tax and accounting changes.

We believe we have significant competitive advantages that make it difficult for competitors to expand their business in, or enter into, the Italian business management software market. The size of our operations allows us to benefit from extensive economies of scale in key areas such as research and development, distribution and customer service. By leveraging our scale, we achieve high returns, which, in turn, enable us to constantly invest in broadening and improving our product offer, our standards of service, our R&D capabilities and our distribution network. For this reason, we believe that most of our smaller competitors are increasingly unable to compete with us in these areas and therefore in the market. In addition, we believe that our localized sales, delivery and maintenance presence is essential to servicing the SME market and that larger competitors struggle to provide specialized products on a local level.

Our significant investment in research and development and our ability to respond with rapid and accurate updates of our software based on legislative, tax and accounting changes are difficult for new market entrants to replicate. We also believe that the depth, quality and reliability of our comprehensive product range, the scale and reach of our distribution network (which covers the entire nation) and our focus on customer service constitute a business model that is difficult to replicate. Furthermore, we believe our customers would experience high switching costs if they decided to use another software provider because they would need to purchase new software, train employees and migrate data, which each come with related risks. As a result, we believe our customers and end-users are unlikely to switch software providers. This is evidenced by our low direct customer churn rate, which historically has been in the range of 4 to 5% (of which only 1% resulted from customers switching to a competitor offering a similar product).

We also believe we have a high degree of VAR loyalty because of our multi-year agreements with fixed fee pricing models, which encourage VARs to build expertise in our products and create high switching costs for our VARs. Historically, we have managed to maintain a VAR churn rate measured by revenues of approximately 1%.

Proven resilience despite the economic downturn

Despite negative 0.9% CAGR from 2010 to 2012 in Italy's real GDP and the 2% decline in information technology spending in Italy over the same period, our total *pro forma* revenues grew at a CAGR of 9.2% over the same period, which we believe demonstrates the resiliency of our business model. We believe our customers continue spending on our products during lean economic times because we provide business management software critical to the continuation of their businesses.

Recurring revenues with high visibility of EBITDA and cash flow visibility

We consider approximately 60% of the revenues generated by our business in 2012 to be recurring. In particular, within our Software and Services business line, which represents 91% of our Adjusted EBITDA, 67% of our revenues are recurring. As part of our business model, when we sell software products to our direct end-customers, the initial software license sale is typically linked to the sale of contracts covering maintenance and assistance. Contract renewal usually takes place at the beginning of the year, thus providing a high level of visibility on maintenance revenue. Most of our contracts are automatically renewed unless cancelled with three to six months prior written notice (depending on the particular contract); historically, our Software and Services contract renewal rate has been approximately 95-96%.

As a result of renewing contracts at the beginning of the year, the majority of our Software and Services revenue is invoiced at the beginning of the year and paid within the first half of the year, resulting in strong cash flow visibility during the first months of each year (during our

annual budgeting process). Therefore, we are able to confidently predict and monitor our EBITDA and cash flow levels throughout the business cycle. In addition, most of our contracts with VARs have a term of three years, with yearly fixed fees and predetermined yearly increases.

Large, growing and diverse customer base with no revenue concentration

As of 31 December 2012, we had approximately 123,000 end customers (including approximately 5,000 customers overlapping across business lines), representing an increase of 35,000 customers since 2009. Excluding our microbusiness line, which is relatively small and operates with a different service model, we achieved Software and Services a customer retention rate of approximately 95-96%, thereby demonstrating the resilience of our business model. We have grown our number of VARs from 320 in 2005 to 616 in 2012, resulting in a CAGR of 9.8%. The chart below shows the distribution of our clients across our business lines and types of Software and Services customers.

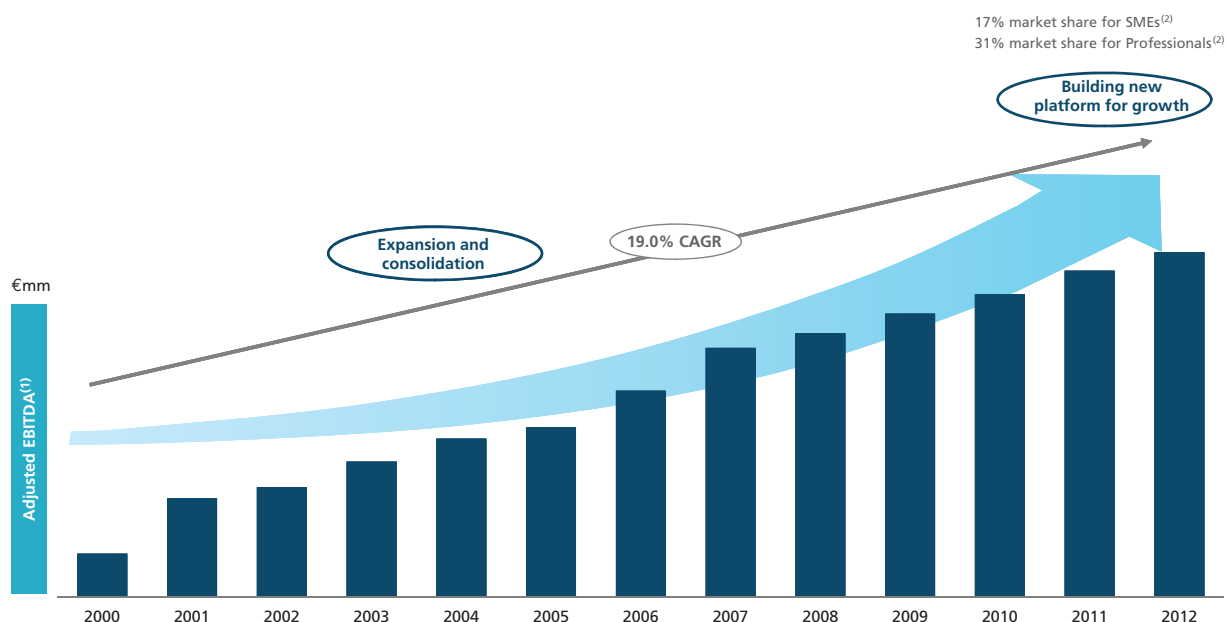

Our customers are also diverse across industries, resulting in a low customer concentration and diverse revenue base by product. In our Software and Services business line, our top 10 direct channel end customers represented approximately 2% of our revenue for 2012, with the largest customer representing approximately 0.2%.

While our growing customer base supports the growth of our business and allows us to benefit from economies of scale related to product development and updates, we believe the diverse nature of our clients and product base helps to insulate our business against declines in product demand in one particular industry and reliance on revenues from a small number of key customers.

Experienced and proven management team

We benefit from the significant experience of our senior management team, which has contributed to the success of the company throughout its history. The majority of the management team have more than 10 years of experience within the company. Our management team has demonstrated its ability to grow our business and improve operating

performance as evidenced by the increase in our revenues and EBITDA over a long period, including in the face of a global economic downturn and recent economic instability.

(1) Adjusted EBITDA, adjusted for bad debt provision.

(2) Software and Service market share for 2011.

Our strategy

We aim to increasingly utilize our current leadership to consolidate our position and better serve our customers, by continuing to provide them with resources for achieving and preserving competitive advantages in their businesses. In order to achieve this goal, we will pursue a growth strategy based on three key pillars:

- **Organic growth:** we plan to utilize our current resources and strengths to sustain our core business. This pillar will constitute the main driver of our future growth, through new customer addition, obtaining additional value from our existing customers (through, for example, cross selling), reinforcement of our VARs and direct networks and improvement of our product offering to generate cash flow;
- **New business:** we will evaluate further growth opportunities, aiming both at complementing our offering to our core customer segments by making additional services available (e.g., payslips processing outsourcing) and at expanding into new, attractive, adjacent software markets;
- **Acquisitions:** we aim at complementing our organic growth by performing bolt-on acquisitions that allow us to expand our core offering (either through specific vertical acquisitions or through products we can cross-sell to our customers) and that easily integrate into our operations. Opportunistically, we may consider potential acquisitions in adjacent, highly attractive markets served by specific software needs.

Our plan for achieving this strategy includes a number of initiatives, the majority of which are already in progress. The most important of these initiatives are briefly described below.

Enhance our direct sales network and implement a uniform pricing model

We are in the process of further improving the effectiveness of our direct network, to enhance its delivery quality and efficiency. This is being achieved through a significant review and improvement of our business processes (including specialization and incentive schemes) and

tools (including customer relationship management, or “CRM”) and through a centralization of our service delivery activities and of our customer support activities in regional hubs.

In addition, we have also improved our direct distribution and service networks’ pricing and discount policies by setting up a structured discount control process and implementing automatic inflation-linked price increases. As a result of our direct channel discount controls implemented over the course of 2012, we estimate we have added €1 million to our EBITDA.

Improve our indirect sales channel and provide new incentives to VARs

We intend to increase the level of support provided to our indirect distribution and service network. To this end, in 2012 we designed and launched the VAR support program (the “VAR support program”), aimed at improving the commercial, managerial and technical capabilities of our VARs. The program was well received and we expect to increase the number of program participants from nine to fifteen VARs over the course of 2013. As another component of the VAR support program, we launched an incentive program that awards VARs for incremental year-on-year growth. VARs achieving a pre-set growth goal will receive specific benefits aimed at improving performance such as free training and marketing support.

Invest in product development to drive product innovation

We have identified medium-term key technology trends, such as SaaS solutions and multi-device capability, and designed our technology roadmap with these trends in mind. In 2012 we launched a €16 million investment plan to build our new technology platform over a five-year period (our “Product Renewal Project”), which will significantly improve our product offering. We expect, over the course of the next four years, to evolve our product range and implement the latest available technologies across our entire product offering. We also intend to renew our software development tools in order to increase the efficiency of our development phase, and to standardize our technology across product lines and research and development teams. As a result of these initiatives, we believe we will be able to continue to offer modular, highly scalable and flexible software in light of recent technological advances, simplify our software management, implement common components across our product line and reduce application development time, thereby decreasing the time it takes to bring a product or upgrade to market and lower development costs.

The Product Renewal Project will renovate our entire line of products through a gradual evolution of existing products, providing our customers with a smooth transition from the current to the new generation product suite. We have been releasing product updates and innovations as they are available, with the goal of providing clients with the immediate benefits of new technology that we have integrated into our products.

Continue to exploit the cross-selling potential of our active customer base and synergies among our product offering with an aim toward further increasing customer loyalty

We believe there is potential for revenue growth and margin improvement through increased cross-selling of our products. Our goal is to further increase the penetration of our existing client base by expanding the range of products and services offered through our traditional distribution and service network and by increasing the use of new sales channels, such as telephone and internet sales, to increase penetration of specific add-on modules for our professional software. We are planning up to six dedicated sales campaigns each year to capture the potential of increasing customer penetration in these new sales channels.

Further expand into the microbusiness market

We aim to capture significant further value from our microbusiness segment, leveraging on the high growth potential of the market and improving our leading market share position. In 2011, the microbusiness segment had a low management software penetration as compared to the larger SMEs segments, with a penetration rate of approximately 13% in Italy as compared to a penetration rate of 97% and 61% in the medium and small enterprises, respectively, for the

same period. These figures evidence the very high growth potential which can be captured in this market, especially when compared with other Western European countries. We intend to implement a comprehensive microbusiness growth plan with the goal of (i) continuously improving our microbusiness offer by increasingly providing value-added services, such as e-payments and by completing and launching our SaaS solution, (ii) strengthening our various distribution channels, both on the internet and through new physical channels, such as stores and resellers, and (iii) helping to expand the wider market for microbusiness software through marketing and communication activities.

Continue our current successful strategy based on accretive bolt-on acquisitions in our core business areas and expanding into selected complementary markets

We intend to continue our successful track record of acquisitions in our core business, based on our well-defined and disciplined approach. We plan to selectively seek attractive partnerships with, or acquisitions of, companies that complement our business and offer significant operational and commercial synergies, with the key strategic goal of expanding our core offer either in selected vertical products, serving specific customer segments, or cross-segment products, thereby enabling us to better serve our current customer base. Accordingly, our typical targets will be small companies featuring excellent quality products, technologies, know-how and people with the potential to be easily integrated in our business model. This approach will continue to be the core pillar of our acquisition strategy. We actively maintain a pipeline of acquisition opportunities aligned to this strategy, which we evaluate on a continuous basis.

Additionally, we regularly monitor selected, attractive adjacent markets, featuring specific software needs. On an opportunistic basis, we evaluate potential acquisition targets in such markets. To this extent, we are currently focusing on healthcare and insurance software, and we have identified a set of potentially attractive acquisition opportunities in these markets, which we are in the process of assessing. Specifically, with respect to insurance software, we have had discussions regarding one potential acquisition in this area, the price of which we expect would be in the range of €20 million. We expect that this acquisition, if completed, would have a neutral or de-leveraging effect and would be financed with drawings under the Revolving Credit Facility as well as cash. However, no binding agreement has so far been signed with respect to this acquisition.

History

Our business dates back to 1979, when we were established as a distributor in Italy for Triumph Adler, a German hardware and software producer. In the early 1980s, following Triumph Adler's decision to exit the software market, we began developing software products and services and grew as a result of both organic growth and acquisitions.

During the 1980s we launched GeCom Multi and GeCom Redditi, our core products for tax advisors and accountants, and GeCom Paghe, our core product for labor advisors. We grew rapidly throughout the 1990s and became a leading software provider for tax advisors, accountants and labor advisors in Italy.

In 2001, we entered the SME market with the launch of Gamma Enterprise, an innovative ERP system designed as a fully featured product tailored to the Italian SME market. The following year we further expanded in the small business segment with the launch of Gamma Sprint and Gamma Plus.

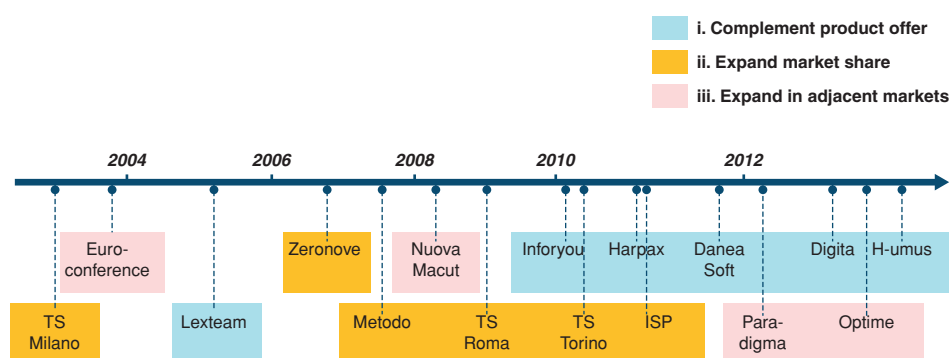

In 2004 we rolled out ArchivaPlus and ArchiScan, our electronic storage and archiving solutions. In 2005, we entered the legal software market with the establishment of our Lexteam company. In 2009 we entered the microbusiness market with the introduction of our Facile09 software. In 2011, we launched our TeamSystem Service, which provides payroll outsourcing services to our labor advisor customers.

In addition to this organic growth, we have carried out a number of acquisitions. These acquisitions were pursued in order to achieve three main strategic goals:

- (i) to complement our product offering to Professionals and SMEs through the acquisition of small software businesses with excellent technical know-how: Lexteam (in 2005), Inforyou (in 2010), Harpax (in 2011), Danea Soft (in 2011), Digita (in 2012) and H-Umus (in 2012);
- (ii) to expand our market share and direct network through the acquisition of VARs such as Unixon (in 2004, now TS Milano, Unibyte (in 2008, now TS Roma), Delta Computer (in 2010, now TS Torino) and ISP (in 2011), as well as companies operating in our core software segments such as Zeronove (in 2006) and Metodo (in 2007); and
- (iii) to expand our offering to core market customers through the acquisition of businesses in adjacent markets: Euroconference (in 2004), NuovaMacut (in 2008), Paradigma and Optime (in 2012).

Recently, we have progressively focused our acquisition strategy on complementing and broadening our product offering.

The table below shows our acquisition track record since 2004.

Our business lines

We offer our products and services through three business lines: (i) Software and Services, (ii) Education and (iii) CAD/CAM. Our Software and Services business is our core business line, accounting for 77.5% of total revenue and 91% of consolidated EBITDA in 2012.

Both the Education and CAD/CAM business lines offer additional services and products to our traditional Software and Services markets. The Education business offers updates to professionals, companies (especially large tax and legal firms) and financial institutions, while the CAD/CAM business facilitates the integration of our products by SMEs operating in the manufacturing sector, for which CAD/CAM software quality is mission critical.

The following charts show our revenue and EBITDA breakdown by business line for the year ended 31 December 2012:

2012 Revenue and EBITDA split

(1) *Pro forma* for the effect of the acquisition of H-Umus as if it had occurred on 1 January 2012.

Software and Services

Our Software and Services business line designs, develops, distributes, installs and services modular, highly scalable and flexible software applications. Our core markets are SMEs (businesses with up to 500 employees), and Professionals, principally accountants, lawyers and labor advisors.

Our Software and Services product offering includes business management software solutions, providing our clients with a comprehensive set of applications covering financial and tax management, procurement, logistics, production, sales and distribution. These products and applications are designed to manage, analyze and improve our clients' businesses. Our software solutions automate and integrate critical business processes, facilitating collaboration among customers, partners, suppliers and employees. These products are modular, integrated applications that are capable of running on most operating systems and can easily be customized to address our clients' specific business needs. In addition, both the organic growth and selected acquisitions carried out to date have allowed us to develop tailored vertical products to assist customers in specific niches (for example, athletics, furniture and fashion).

For SMEs, the current business environment requires corporate functions and information flow to be constantly under control. For Professionals our products are mission critical, as they are strictly needed for Professionals to offer their services. As such, our Software and Services business line's key products are embedded at each stage of the value chain of our core customers. Our critical role in the regular execution of daily business activities consequently makes our business very stable.

We market our software directly, either through our branch network or the internet, and indirectly through our network of VARs. Our Software and Services business generates revenue from (i) granting licenses for our software products (ii) providing customer-specific delivery and implementation (such as product set-up, customizations and product training), (iii) providing ongoing assistance, maintenance and product updates and (iv) the supply to our clients of complementary hardware such as servers, laptops and printers.

The chart below illustrates the sales percentages breakdown of recurring and non-recurring components for the year ended 31 December 2012.

(1) Recurring sales include maintenance and assistance, recurring sales from indirect channel, Euroconference and NuovaMacut

Assistance and maintenance contracts generate a substantial portion of our recurring revenue. For the year ended 31 December 2012, 67% of our Software and Service revenue (excluding microbusiness revenue) was recurring. This was the result of an extremely low end-customer churn rate, averaging 4 to 5% in the last three years. Of this 4 to 5%, only approximately 1% related to churn arising from customers switching to a competitor offering a similar product, while the remaining 3-4% came from exogenous causes, for example customers merging, choosing to outsource this function or going out of business.

In addition to our traditional Software and Services business line, since 2011 we have also been developing a payroll outsourcing division, TeamSystem Service. This division offers a payroll outsourcing service to our labor advisor clients. Since this service is offered only to labor advisors and not to their final clients, we do not compete with labor advisors themselves. On the contrary, we offer labor advisors a way to improve their efficiency by leveraging our scale and expertise in payroll processing while allowing them to focus their relationships with their customers on value-added activities.

SMEs

Companies of different sizes have different needs that cannot be properly served by a single software solution. As a result, we offer a wide range of software products designed to serve microbusinesses as well as small and medium sized companies.

Small and Medium Businesses

We offer a full range of scalable ERP solutions with verticals, customizations and functional modules, including customer-relationship management ("CRM") and switchboards. ERPs are software solutions that integrate internal and external management of information across an entire business by providing finance and accounting support, operations support (including warehouse management, manufacturing, procurement and logistics) as well as sales and post-sale support. The purpose of ERP software is to facilitate the flow of information across a company's various business functions, enabling the driving and control of business processes and activities and the management of communications and interactions with external parties and clients. We also offer human resources and payroll modules in order to complete our integrated ERP offering to our customers.

Our solutions can be used by SMEs in virtually any industry and our client base has no specific concentration.

Our key SME products are summarized below:

- *Gamma Enterprise*: First launched in 2001, this product is an ERP software solution for SMEs, which covers a wide range of integrated functions for the management of internal and external processes in SMEs, including customer management and sales analysis. The software facilitates an efficient control of the management of the different processes within a

business and reduces the time SMEs spend managing their administrative and business procedures. As of and for the year ended 31 December 2012, Gamma Enterprise was used by approximately 3,000 customers and represented 9% of our total revenue.

- *Gamma Sprint*: Gamma Sprint is designed as a downsized version of Gamma Enterprise, targeting small businesses with limited operating and administrative complexity. Gamma Sprint is a modular and flexible product designed to provide our customers with an easy-to-use, intuitive interface. As of and for the year ended 31 December 2012, Gamma Sprint was used by more than 4,000 customers and represented 1% of our total revenue.
- *Gamma Plus/Evolution*: Gamma Plus, along with its recently updated version Gamma Evolution, is an ERP designed for small business. Its functional coverage is similar to Gamma Sprint. Although less advanced from a technological perspective, it features native integration with GeCom applications for accountants, allowing customers to regularly exchange information (such as invoices) with their accountants. As of and for the year ended 31 December 2012, Gamma Plus/Evolution was used by more than 19,000 customers and represented 5% of our total revenue.
- *CRM*: Our CRM solutions are offered to all SMEs, but are principally targeted toward medium sized businesses. We offer CRM solutions through our Tustena software. As of and for the year ended 31 December 2012, Tustena was used by approximately 128 customers, and represented approximately 0.3% of our total revenue.
- *Gymnasium System*: This product is tailored to customers in the sports, health and leisure industries and is sold through Inforyou. As of 31 December 2012, Gymnasium System was used by approximately 1,000 customers, and represented 1.7% of our total revenue.

We believe we will be able to increase our revenues per customer by cross-selling newly acquired products, such as CRM, e-catalogues and switchboards, as well as additional modules and functionalities.

Microbusinesses

We offer management software to microbusinesses (businesses with less than 10 employees), which we believe to be a market with high growth potential due to its large, total market size (including approximately 4 million companies) and low penetration rate (13% as of 31 December 2011, as compared to 97% and 61% in mid and small enterprises as of 31 December 2011, respectively). In line with our growth plans, for the year ended 31 December 2012, our microbusiness offering generated €3.3 million of revenue and an EBITDA of €1.5 million representing a growth of 16% of revenue and 31% of EBITDA compared to the year ended 31 December 2011.

We first entered the microbusiness software market in 2009 with the introduction of Facile09. After assessing the market potential for growth, we significantly increased our presence in December 2011 through the acquisition of Danea Soft. Danea Soft is the market leader in Italy for microbusiness solutions, with approximately 75,000 licenses sold in Italy as of 31 December 2012, out of which approximately 23,000 pay us an annual subscription fee to access phone support and value added services.

Our software solution for microbusinesses is Easyfatt. This product is tailored for independent professionals and micro-sized enterprises. The basic version of the software includes key administrative functionality such as invoicing activities, VAT management and tax withholding calculations and product delivery. An enhanced version of Easyfatt (Easyfatt Professional) features additional functionality, including management of logistics, manufacturing and warehousing. The most advanced version, Easyfatt Enterprise, includes features to assist microbusinesses having multiples workplaces or a small network of branches. Our customers may also subscribe to our value-added services, which offer additional features such as switchboard integration and electronic payments integration.

Due to the nature of the products required by microbusinesses, our products are generally available through internet downloads. Unlike Professional products and, to some extent, small or medium business products, microbusiness products are less dependent on regulatory changes. Therefore, maintenance and assistance are not mandatory. Furthermore, products do not require customization, on-site delivery or specific training. Therefore, most of our microbusiness revenues are generated from license fees. This means that revenues from this business are less recurring, but with higher margins as compared with other SMEs segments.

As a result of the different functional coverage and the different distribution channels for our microbusiness products as compared to other SMEs segments, we believe there is only a small risk of cannibalization with other SME software.

We are currently managing our exposure to piracy risk by issuing individual license keys to our customers. This risk will be significantly reduced as we move to a full SaaS offer, which will enable us to track each individual access in real time, thus making illicit use of our software virtually impossible.

Professionals

We offer specific mission critical products with constant regulatory-driven updates to Professionals, principally to labor advisors and accountants. Italian labor advisors prepare and certify payslips, confirm that appropriate tax and other contributions are properly accounted for in payslips and provide support and consultancy on legal matters concerning labor. In Italy, the target end-user market consists of approximately 81,000 Professionals, whose need for our software and related updates is driven by the complex and frequently-evolving Italian accounting, tax and legal regulations. Accountants use our software products to support their bookkeeping, tax calculation and compliance procedures.

In addition, we also have dedicated software solutions for lawyers and for building managers.

We offer an integrated and modular product line that provides our Professional clients with a comprehensive set of services and content, ranging from consultancy and management software to accounting and inventory management. With the exception of the legal profession, which still has a low penetration rate, the Professionals market is even more highly penetrated and mature than the SME market, yet generally produces higher margins. These higher margins are mainly attributable to (i) typically higher maintenance fees due to the need for frequent updates and (ii) lower installation costs as compared to SMEs, as Professional software installation can usually be done within a day. In particular, software updates are vital to our Professional customers' ability to maintain compliance with constantly changing legislation in Italy. Therefore, maintenance and assistance fees, which are recurring by nature, are included within the initial license fee for Professionals, while for SMEs, maintenance and assistance fees are an addition of about 25% to the initial license fee.

Our key software solutions for Professionals are summarized below:

- *GECOM Evolution Multi*: This product is tailored to accountants and includes modules for basic accounting and inventory management, balance sheet analysis, tax analysis and amortization processes. As of and for the year ended 31 December 2012, this application was used by approximately 16,000 customers and represented 8% of our total revenue.
- *GECOM Evolution Redditi*: This product is tailored to tax advisors and is aimed at tax filing. This product is often sold together with GECOM Evolution Multi. As of and for the year ended 31 December 2012, this application was used by approximately 15,000 customers and represented 6% of our total revenue.
- *GECOM Evolution Paghe*: This product is tailored to labor advisors and SMEs and assists in human resources management by providing accurate, efficient and secure payroll processing, monitoring of employee attendance, automated administration of employee benefit plans as

well as controlling eligibility and enrollment. As of and for the year ended 31 December 2012, this application was used by approximately 10,000 customers and represented 4% of our total revenue.

- *Legal System (Lextel)*: This application is tailored for lawyers and legal firms, and is designed to manage office activities as well as interact with and fulfill the necessary processes in the Italian public administration and judiciary. This includes providing web access to the databases of the different courts and tribunals in Italy, to each of the entities of the judiciary and to their newsletters and updates. As of and for the year ended 31 December 2012 this application was used by approximately 2,000 customers, and represented 0.8% of our total revenue.
- *Domustudio*: This application, developed by Danea Soft, is tailored to the requirements of building managers, and provides a platform for the main accounting, tax and other management issues for such Professionals. As of and for the year ended 31 December 2012 this application was used by approximately 2,700 customers, and represented 0.5% of our total revenue.

Software License Sales

Our software products are licensed to end-users under yearly, non-transferable license agreements that stipulate which modules can be used and how many concurrent or named users may use them. Furthermore, most of the license agreements provide us with a right to withdraw at any time with six months' prior notice.

Revenue from sales of new licenses amounted to €21 million for the year ended 31 December 2012, or 13% of our total revenue.

Assistance & Maintenance Support

We offer technical support for our products, technical improvements and software updates in order to improve their features and to respond to legislative, tax and accounting changes. Most of these updates are critical for our customers. We also provide support regarding questions and concerns about new functionality and features related to our products, as well as new regulations. For these reasons, maintenance and assistance fees represent our largest and most stable, recurring source of revenues. For the year ended 31 December 2012, 67% of our Software and Services revenues were generated from assistance and maintenance support activities.

We also provide assistance services to VARs, which in turn provide delivery and assistance and maintenance services to customers in the indirect distribution and sales network. Although our VARs exclusively manage the relationship with their customers, we are able to track the end users of our software as we hold the licenses.

Below is a description of the assistance services we deliver to our direct customers and to our VARs.

Assistance to Direct Clients. We provide assistance and maintenance support to our direct customers through a dedicated customer service unit, which is organized by type of product and employed approximately 180 staff as at 31 December 2012. Through this unit, as part of our assistance services, we offer technical and product error reporting and resolution support covering each of our applications. We also answer questions regarding new legislative, tax and accounting regulations, as well as the interpretation and implementation of such regulations. Our assistance and maintenance service is delivered by telephone conference between the client and one of our technical support representatives. Conference slots are booked in advance through WebReCall, a proprietary ticket management and tracking system that also enables clients to file error reports online and to access a database of error reports and recommended solutions. Through TeamCast, an email distribution software application, we also

offer a service whereby product updates, new releases, new versions and corrections are emailed to clients. We also serve our clients through our branches which, together with our customer service department, consists of more than 300 employees dedicated to product delivery, customer training and on-site support.

Our direct customers typically enter into a contract for the provision of maintenance and assistance services at the time of initial sale of our software products. The contract includes periodic software updates, technical support related to our products and direct support regarding questions and doubts on any new regulation related to our products. Unless a customer gives three to six months prior notice of cancellation (depending on the terms of the particular contract), the assistance contract is automatically renewed on an annual basis. We typically invoice customers at the start of each calendar year, and generally receive payment within between 90 and 120 days from the date of our invoice. If a customer cancels its assistance contract or does not pay its invoice within the required time, we have the right to terminate the assistance service and cease to provide any further support, improvements or updates. Due to our customers' need to keep abreast of legislative, tax and accounting developments and the rapid obsolescence of our software products if they are not continually updated to take account of such developments, assistance contracts are generally renewed by customers throughout the lifecycle of our products. Historically, 95-96% of our Software and Services end-users (excluding microbusiness end-users) renew their licenses every year.

Assistance to VARs. VARs independently offer their customers a first-level assistance service similar to the one we provide to our direct customers. We in turn provide VARs with second-level assistance on complex technical matters. We provide such assistance to VARs through a dedicated unit in our R&D department. This department provides VARs with assistance both online and by telephone for (i) technical and product error reporting and resolution (ii) online access to a database of error reports (iii) product updates and new releases and (iv) new versions and product corrections. In order to ensure that the quality of the services delivered to end-customers is consistent with the high standards we strive to offer, we constantly monitor the number and the quality of the issues in relation to which each VAR seeks our advice. Although our VARs exclusively manage the relationship with their end-users, they allow us to keep track of end users of our software. We also offer technical training courses on our products and on managerial best practices.

Education

We entered into the Education business line in 2004 with the acquisition of Euroconference and enhanced our offer substantially in 2012 through the acquisitions of Paradigma and Optime. We believe the Education business line presents synergies with our core software offering. We provide professional training to accountants, labor advisors, lawyers, notaries and business managers. Through our Education business line, we also provide continuing education courses for Professionals that are required by law or professional association rules to attend courses for a specified number of hours of courses in order to maintain their Professional license. Considering the clear overlap with the target market of our Software and Services business line, we believe that the Education business line represents a complementary market for the Group.

Euroconference. Euroconference is a leading provider of educational services and publications for Professionals in Italy, providing training to chartered accountants, labor consultants and lawyers. With approximately 17,000 clients as of 31 December 2012 and a full range of training products and services primarily focused on tax, company, administrative and labor law, Euroconference offers a range of seminars, conferences, training programs and a variety of publications targeted at professionals and company managers. The training is primarily focused on current developments and changes in tax, accounting, labor and fiscal rules. Our education services are provided primarily through instructor-led classroom events, as well as through our self-paced e-learning platform. Our key product is the *Master Breve*, which provides a 7-day

course for tax advisors which covers the yearly mandatory requirements for such profession. As a result of the compulsory nature of these courses and our leadership position in the market, Euroconference was able to increase revenues and EBITDA year on year from 2008 to 2011 by 13% and 7% respectively, despite the overall adverse economic conditions in Italy. We have launched a customer loyalty program for Euroconference. Under the customer loyalty program, we award our best clients with discounts *Master Breve* and with additional targeted and specific offers on our other training programs and publications.

In 2012 Euroconference suffered a hostile spin-off by employees that subsequently established a company (Didactica Professionisti S.p.A.) that directly competes with Euroconference. As a result of this spin-off, revenues and EBITDA dropped by 14% and 36% respectively in 2012. We were able to replace management by the beginning of 2013 and we believe we have recruited valuable employees from some of our competitors. We also commenced a legal action against our former employees who undertook the spin-off and on 7 January 2013, the Court of Turin ordered this spin-off to cease all marketing and sales activities relating to the single lectures included in its *Master Breve* product (but not relating to *Master Breve* as a whole) and to publish the decision in *Il Sole 24 Ore*, a leading Italian economics newspaper. We are still considering the opportunity to claim damages for the above illicit conduct of Didactica and of our former employees and independent contractors. We aim to restore our Euroconference business to its previous level of profitability in within the next two years.

Paradigma and Optime. Our Education offer was enhanced in 2012 with the acquisitions of Paradigma and Optime. Both companies provide and organize seminars and conferences for members of the senior management of large businesses, financial institutions, public administrations and professional firms. Seminars are held and designed and held with the contribution of highly qualified academic and professional experts. Topics include tax, accounting, privacy, compliance and labor laws. Furthermore, we sell publications with content derived from the seminars and e-learning modules.

CAD/CAM

CAD/CAM (computer aided design/computer aided manufacturing) software is business critical for manufacturing companies. The core business of CAD/CAM users revolves around the design and production of physical goods. CAD/CAM software plays an integral role in these activities by providing computer-based, high quality and efficient product design as well as fully automated machine set up and control. Our CAD/CAM business started with the acquisition of NuovaMacut in 2008. With approximately 6,000 clients as of 31 December 2012, NuovaMacut is primarily engaged in the automation business. NuovaMacut sells and delivers CAD/CAM software mainly purchased under a non-exclusive distribution arrangement with SolidWorks Inc. NuovaMacut is the largest SolidWorks value added reseller in Italy and in Europe and is one of the ten largest distributors worldwide. In addition to CAD/CAM, NuovaMacut also sells fluid-dynamic analysis, product data management ("PDM") and documentation management software from SolidWorks, and develops and sells personalized libraries for SolidWorks CAD and a proprietary PDM solution. NuovaMacut is also engaged in the machine tools business as an exclusive agent for manufacturing companies in the Emilia Romagna, one of the Italian regions with the highest concentration of such companies.

Due to our manufacturing customers' high level of reliance on CAD/CAM software, we believe that such customers view their CAD/CAM supplier as the primary supplier for their additional software requirements. As such, our CAD/CAM business offers the opportunity to cross-sell our Software and Service products to our CAD/CAM customers and we have been able to cross sell our ERP solution for SMEs to an increasing number of our CAD/CAM clients. We estimate that revenues coming from cross-selling are in the range of approximately €1 million per year and we believe there is significant room for further cross-selling and penetration of our CAD/CAM customer base in the coming years. As demonstrated by our contract renewal rate, which has

increased from 80.7% to 84.6% from 2010 to 2012, our CAD/CAM customer base has also proved to be increasingly loyal over time.

Sales and marketing

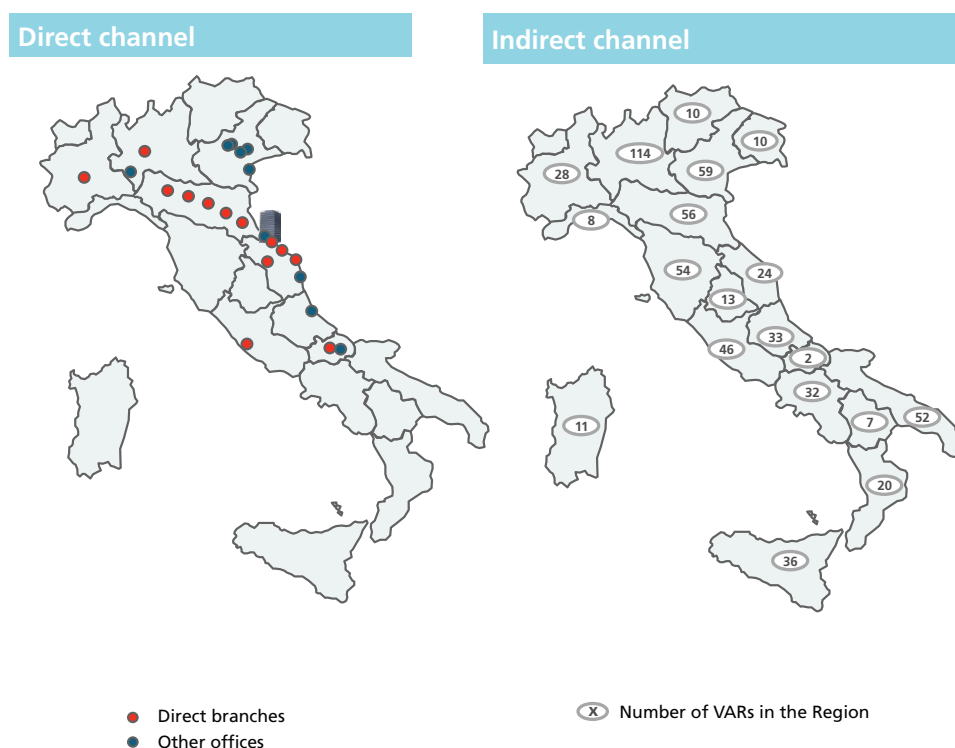

Software and Services

Sales Distribution Channels

We market our Software and Services business line through our direct and indirect channels. As of 31 December 2012, we had an indirect network of over 600 VARs and a direct network of 21 commercial branches and offices employing a staff of over 500 people, of which about 90 are dedicated to sales, about 380 are dedicated to maintenance, customer support and delivery and about 30 are dedicated to general administration.

Our direct and indirect channels represented approximately 53% and 47% of our Software and Services business line revenues in 2012, respectively.

We believe that the combination of our direct and indirect distribution and service networks has enabled us to build a significant competitive advantage and barrier to entry. Our direct distribution and service network enables us to maintain a direct relationship with end customers and to identify customers' needs promptly and accurately. Our indirect distribution and service network, through our unique network of VARs, allows us to increase our customer base while optimizing the use of our resources and minimizing commercial costs.

Direct Distribution and Service Network

Our direct sales offices provide software solutions and related maintenance services, including installation, start-up, and post-sale support, directly to our clients. As of 31 December 2012, our direct network offices consisted of 21 commercial branches and offices. As of 31 December 2012, our customer support unit consisted of approximately 300 people, approximately 100 of which operate locally in order to continuously monitor quality standards and provide local delivery and customization. Our direct sales team is complemented by dedicated teams focused solely on horizontal niche markets (such as switchboards and CRM) as well as some selected vertical markets (such as fitness centers). In order to improve the quality of service delivered to our customers, maximize the effectiveness of our salesforce, share best practices and benefit

from economies of scale, we are in the process of organizing our direct sales branches into six hubs (three of which are already active).

In order to complement our software product offering and to offer a complete product solution to our customers, we also sell hardware (mainly servers, laptops and printers) and hardware-related maintenance and assistance services. While our complementary hardware offering contributes only a small portion of our revenue compared to our software products, this offering allows us to establish closer relationships with our clients and reduces the potential of our clients' exposure to competitors.

As of 31 December 2012, our direct channel had approximately 41,000 active clients, including SMEs, microbusinesses and Professionals (but excluding switchboards and paylips outsourcing).

Furthermore, we see potential to further expand our direct channel penetration in Italy, with a particular focus on those regions presenting the most significant growth opportunities.

Indirect Distribution and Service Network

In addition to our direct sales force, we enter into distribution arrangements with VARs to benefit from their resources, reach and customer base. As of 31 December 2012, we had 616 VARs throughout Italy, with an increase of ten VARs from 31 December 2011. We believe that our VAR contractual model provides for highly predictable and recurring revenues.

As of 31 December 2012, our VARs had approximately 57,000 active clients. New VARs are recruited by our regional managers, mostly through converting early-stage VARs of our smaller competitors. We believe that the breadth, the quality and the loyalty of our VAR network is one of our key strengths. Switching costs for VARs are typically even higher than those for direct customers, and a churning VAR incurs a very high level of risk for its business. In cases of churning VARs, we have historically maintained approximately 90% of our end-users, representing an immediate loss for the VAR in terms of related maintenance fees, which represent the bulk of a VAR's total revenue. In addition, churning VARs have limited potential for attracting new customers, as they lack a knowledge base of the new product and may lack credibility in the market in relation to the new product. Marketing our products through our VARs constitutes an effective way of targeting clients because it allows us to reach a larger number of potential customers while optimizing commercial costs and focusing our resources on value-added activities and services, such as product development and service improvement.

Our VARs market and promote our software products and typically provide delivery, customization, direct assistance and other related services to their end-customers. In turn, we offer centralized second-level assistance and technical support to VARs. We also engage in joint marketing programs, presentation of seminars, attendance at trade shows and the hosting of conferences with many of our VARs. We periodically meet with our major VARs in order to get their customer insight, local market dynamics and to keep them updated with our developments and performance.

There is a trend in Italy towards the consolidation of VARs and 44 of our VARs have merged since 2010. We believe the trend toward consolidation is due to efficiency and scale synergies generated through VAR mergers. We believe VAR mergers result in increases in the operating efficiency of our indirect distribution and service network.

Because of the importance of VARs to the sale of our software products, we intend to increase the level of support provided to our indirect service and distribution network. To this end, in 2012 we designed and launched our VAR support program, which aims to improve the commercial, managerial and technical capabilities of our VARs and to promote the growth of their customer bases. The program was well received and we expect to increase the number of program participants from nine to fifteen over the course of 2013. We charge VARs a fee for attending the training programs, which we believe increases their commitment to the program.

As another component of the VAR support program, we launched an incentive program that awards VARs for incremental year-on-year growth. VARs that achieve a pre-set growth goal will receive specific benefits aimed at improving performance, such as free trainings and marketing support.

Contractual Arrangements with VARs

VARs typically pay us an annual pre-determined amount pursuant to fixed fee contracts with predetermined yearly increases, although a minority of our VARs pay us a per-license fee. In almost all cases, VARs are prohibited from selling competing products. Exceptions to this are driven by specific business needs. We believe that the multiyear contract arrangements (typically of a three-year term) have strengthened our relationship with the VAR network. We believe that our extensive distribution network comprised of our dedicated direct sales force and our network of motivated VARs allows us to provide the high level of customization, localization and commitment to service and support that our clients require.

Fixed fee contracts with predetermined yearly increases. Since the 1980s, we have been using a model whereby we enter into contracts with VARs specifying a fixed fee with predetermined yearly increases. A large portion of our contracts with VARs are fixed fee contracts, which accounted for approximately 88% of the revenue we generated from our indirect distribution and service network in 2012. These agreements represent the core of our unique distribution model. They provide for payment of a fixed fee with pre-determined annual increases and are generally entered into for a period of at least three years. The fees paid by the VARs under such arrangements are not dependent on the number of licenses sold to end customers.

Under the fixed fee contract, each VAR pays an annual fixed fee (typically invoiced quarterly), which increases every year and is independent of the number of licenses sold during the course of the contract. The amount of each annual fixed fee is determined at the time the contract is signed. The fee for the first year is based primarily on the VAR's number of active assistance contracts. In the following years, the fee automatically escalates based on an assumption the VAR's number of customers will increase. The budgeted growth is agreed with the VAR up front and reflects each VAR's market potential. Upon expiry of the contract, fees are renegotiated based on the active customer base of the VAR at such time and its expected growth. Therefore, if a VAR attracts a higher number of new customers than budgeted in the contract, it will obtain additional revenue for the new licenses and assistance contracts with no additional payment due to us. Therefore, new customers are highly profitable for the VARs and these contractual arrangements provide VARs with a powerful incentive to expand their customer base. We benefit directly from the growth of each VAR's customer base when the fixed fee contract expires and is renewed, and indirectly through the sale of products not included in the fixed fee contract.

The chart below shows the structure of the typical three year fixed fee contract with predetermined yearly increases:

Approximately one third of our contracts with VARs expire each year and, historically, the vast majority of these contracts with VARs are renewed. In the rare event that a contract with a particular VAR is not renewed or is terminated we can take action to migrate customers to a direct branch or to another VAR in the area. If a VAR does not pay its licensing fee or if it goes out of business, we inform end-users that the VAR is no longer a licensed distributor of our products and will no longer be receiving product updates or maintenance services. We then appoint a direct branch or another VAR within our network as the distributor for the clients of the former VAR. Prior to such VAR receiving an appointment, we usually require this new VAR to pay us an amount equal to or greater than the amount owed by the former VAR.

We believe that because of the clear incentive provided to VARs to expand their end-customer base, combined with the non-compete undertakings of the contract, the flat-fee contract model represents one of the key drivers of our growth in the indirect channel.

Our VAR retention rate is high and has historically been stable, with a VAR churn rate representing only 1% of total VAR revenues (with churning VARs typically being very small in size). If a VAR decides to change software providers, the VAR would incur significant start-up costs (i.e. training employees as to the new product's technical requirements). A VAR changing software providers would also incur significant risk of client churn because, as these clients would have a high switching cost in turn; we have a strong likelihood of being able to divert such end customers to another one of our VARs in the same region or to our direct channel. As a result, we rarely lose a VAR to a competitor. The primary reason for VAR churn is therefore as a result of a VAR going out of business or becoming insolvent, in which case we are generally able to retain the end-customer.

Consumption Fee. We also enter into non-fixed fee arrangements with VARs under which we are paid fees based on the number of the products licensed or the number of additional customers that subscribe for assistance services. Ancillary and independent products are also sold under more standard "per license" fee contractual arrangements. These arrangements accounted for approximately 12% of our revenues in the indirect channel in 2012.

Education

Sales in our Education business line are mainly procured through telemarketing, and we generally advertise our products in major newspapers (*Il Sole 24 Ore*), targeted mail and advertising emails.

CAD/CAM

Sales in our CAD/CAM business line are achieved through our direct sales branches of NuovaMacut. As of 31 December 2012, NuovaMacut had 10 branches dedicated for such purpose.

Customers

We have a highly diversified customer base across a wide range of industries. Between 31 December 2010 and 31 December 2012, our customer base increased from approximately 91,000 customers to approximately 123,000 (including the approximately 4% of customers overlapping between business lines). Of this total figure, approximately 98,000 customers correspond to our Software and Services business line, approximately 19,000 to our Education business line and approximately 6,000 to our CAD/CAM business line.

There is no particular industry or segment on which we rely for our customer base. Our top 10 direct customers and VARs represented approximately 2% of our revenue for 2012, with the top customer representing only 0.2%. We benefit from an extremely low customer and end-user churn rate, historically ranging between 4 and 5%, from which only approximately 1% related to churn arising from customers switching to a competitor offering a similar product, while the remaining 3-4% were due to exogenous factors, for example customers merging, choosing to outsource this function or going out of business.

Suppliers

We purchase certain products which we offer to our direct customers and VARs from a range of suppliers, such as hardware (for example servers, computers and printers), optical storage, business intelligence, operating systems and antivirus programs. Although they do not justify a direct investment by us in their development and production processes, these third-party products complement our software offering and we believe provide us with opportunities to strengthen the quality of our offering. In particular, in our indirect distribution and service network, we bundle third-party products with our software products, which allows us to offer a competitive sales position and to attain significant margins. Additionally, we undertake joint marketing initiatives and VAR recruiting activities with some of our suppliers, which allow us to leverage the distribution channels of these suppliers in the marketing of our products.

We believe that, although our supply arrangements represent an opportunity to foster the growth of our business, we are not dependent on any of our suppliers, with the exception of NuovaMacut, where we act as the largest Italian reseller of SolidWorks.

Research and development

The majority of our software products are developed internally. Our goal is to develop products based on user experience and customer requirements. In certain limited circumstances, we also purchase or license intellectual property rights from third parties. Internal development allows us to maintain technical control over the design and development of our products.

Our research and development department is divided into three segments: ERP software, Professional software and web and utility software. Our web and utility software is offered through our TeamPortal product, which offers customers one point of access for multiple applications and databases. Our research and development department is located in four factories: Pesaro, Senigallia, Fabriano and Campobasso, each one specializing in specific development areas. As of 31 December 2012, we had 310 employees in our research and development department, of which 289 are in dedicated to development and VAR support and 21 are dedicated to special on-site developments for customers. Occasionally, we engage external consultants specializing on specific topics (we currently have 31 consultants).

Within each segment, our employees have specialized skills and knowledge of our product technology and our employees are responsible for the design, analysis and implementation of the following activities:

- extending our software capabilities with respect to regulatory and legal updates, thereby providing a fundamental component of our Professional software where our customers require quick responses to frequently changing legislation;
- performing technical upgrades to our existing products; and
- broadening our product range to extend current functional coverage, introduce new functionalities and enter new market segments, with the goal of providing increasingly comprehensive software solutions to customers with different requirements.

Our recent acquisitions also contribute to our research and development efforts. As part of our acquisition strategy, we seek to acquire companies with cutting edge technologies with the goal of applying such acquired technologies to our existing product offering. Our acquisitions of DaneaSoft and Digita enhanced our knowledge of SaaS technology, which we can now use throughout our research and development activities.

We make substantial investments in research and software product development. Research and development costs are generally expensed in our results of operations, with the exception of our research and development costs related to new product developments, which are capitalized. Research and development expenditures were €7.6 million, €8.7 million and €9.2 in 2010, 2011 and 2012, respectively. Capitalized research and development costs were €2.2 million, €2.3 million and €4.3 million in 2010, 2011 and 2012, respectively. These costs include costs related to second level assistance to VARs, but excludes other indirect costs and other costs attributable to research and development. We believe our level of investment and commitment to research and development, particularly during the current economic downturn in Italy, provides us with a competitive advantage over our competitors that are unable to make such investments.

Product Renewal Project

In 2012 we launched our Product Renewal Project, a five-year, €16 million investment plan to build our new technology platform, which will substantially improve our product offering. We have identified medium-term key technology trends, such as SaaS solutions and multi-device capability, and designed our technology roadmap with these trends in mind. We expect, over the course of the next four years, to evolve our product range and implement the latest available technologies across our entire product offering. We also intend to renew our software development tools in order to increase the efficiency of our development phase, and to standardize our technology across product lines and research and development teams. As a result of these initiatives, we believe we will be able to continue to offer modular, highly scalable and flexible software in light of recent technological advances. These initiatives will also allow us to simplify our software management, implement common components across our product lines and reduce application development time, thereby lowering development costs and decreasing the time it takes to upgrade a product or bring a product to market.

The Product Renewal Project will renovate our entire line of products through a gradual evolution of existing products, providing our customers with a smooth transition from the current to the new generation product suite. We have been releasing product enhancements and innovations as they are available, with the goal of providing clients with the immediate benefits of new technology that we have integrated into our products.

In order to implement our Product Renewal Project, we plan to hire, on average, four new employees each quarter until 2014 have hired 29 people in relation to the Product Renewal Project to date. These new employees will primarily focus on implementing initiatives related to the Product Renewal Project. Starting in the second half of 2014, we expect to begin to

move such newly hired employees back to customary duties within our research and development department.

We expect that the Product Renewal Project will require an investment of €16 million investment in research and development over the next four years. We expect that this renewal program will allow us to better compete in the market and believe that it will sustain our growth and increase our market share to the detriment of our competitors that are unable to afford such an investment.

We have been releasing product updates and innovations as they are available, with the goal of providing clients with the immediate benefits of new technology that we have integrated into our products.

Other R&D initiatives

We are currently exploring a number of possible segments for expansion through the development of new ancillary products, such as industry-specific vertical applications for SMEs and cross-segment features that can complete functional coverage of our core ERP. While enhancing the functionality of existing applications, these products offer significant cross-selling potential. We plan on continuing to dedicate a significant amount of resources to research and development efforts to maintain and improve our competitive position in these markets.

Intellectual Property

We regard certain aspects of our internal operations, software and documentation as proprietary, and rely on a combination of contract, copyright, trademark and trade secret laws to protect our proprietary information. Existing copyright laws afford only limited protection. We believe that, because of the rapid pace of technological change in the computer software industry, trade secret and copyright protection is less significant than factors such as the knowledge, ability and experience of our employees, frequent software product enhancements and the timeliness and quality of assistance services. We cannot guarantee that these protections will be adequate or that our competitors will not independently develop technologies that are substantially equivalent or superior to our technology.

Competition

The software industry is intensely competitive and evolving rapidly. We believe that the key competitive factors affecting our market include:

- depth, breadth and quality of offering;
- superior scale in distribution and customer service network;
- extensive and loyal VAR network ;
- ability to invest in new products due to R&D scale;
- sufficient brand equity in a critical product;
- ability to offer better value for money; and
- substantial local tax and accounting knowledge.

We believe we have several competitive advantages over a number of our competitors. Some of these advantages include the breadth and completeness of our software functionality, our focus on each of our targeted industries, our substantial distribution footprint, the industry knowledge and expertise of the members of our sales, marketing and services teams and the strong customer support services we offer.

Minority Shareholders in our Subsidiaries

As part of our acquisition strategy, when we acquire new businesses, we typically acquire a majority interest and offer sellers the option to become minority shareholders (as occurred, for example, with the acquisitions of Danea Soft, TeamSystem Communication, Digita and H-Umus). In order to incentivize such minority shareholders we typically enter into agreements with them providing for, *inter alia*, (i) our undertaking to hire individual sellers or appoint them as directors of the company, (ii) put and call option rights with a strike price to be calculated on the basis of the results of the company, and (iii) non-compete undertakings of the sellers with respect to the activities carried out by the company in which we acquired the majority interest. We believe managers and employees are incentivized to perform at high levels as a result of the above acquisition strategy. See note 4 to our consolidated financial statements included elsewhere in this offering memorandum. In certain cases, we also undertook to make yearly distributions of dividends upon the approval of our financial statements.

Properties

We currently own approximately 4,000 square meters and rent approximately 18,500 square meters of office and other commercial space across several locations in Italy. We do not have properties under capital leases. If required, suitable additional or alternative space will be available on commercially reasonable terms to accommodate expansion of our operations. We also lease more than 30 branches and commercial offices around Italy.

Employees

(in thousands)	As of 31 December		
	2010	2011	2012
Software and services	772	852	940
Education	55	61	81
CAD/CAM	139	139	125
Total	966	1052	1146

We have not experienced any labor-related work stoppages during the past three years.

Legal and other proceedings

We are subject to various legal and other proceedings. Below is a description of the pending disputes that we consider material.

In 2012, Euroconference suffered a hostile spin-off by certain employees and independent contractors who established a company, Didactica Professionisti S.p.A., ("Didactica") that directly competes with Euroconference. On 1 October 2012, Euroconference brought an urgent petition before the Court of Turin against Didactica, and certain of Euroconference's former employees and independent contractors. The basis of the claim was unfair competition, infringement of trademarks related to our *Master Breve* product and illicit use of our confidential information and data base. On 7 January 2013 the Court of Turin ordered Didactica to cease all marketing and sales activities relating to the single lectures included in *Master Breve* (but not relating to *Master Breve* as a whole) and to publish the decision in *Il Sole 24 Ore*, a leading Italian economics newspaper. We are still considering whether to make a claim for damages in respect of the above illicit conduct of Didactica and of our former employees and independent contractors.

Passepartout S.p.A. ("Passepartout"), a software design and development company, claimed before the Court of Verona a breach by Euroconference of its obligation pursuant to an agreement with Passepartout to promote Passepartout's products in 20 Italian cities.

Passepartout alleged that this breach occurred due to Company's intention not to promote Passepartout's business in specific cities where its business was in competition with the Company's business. On such basis, Passepartout claimed against Euroconference and the Company, on a joint and several basis, damages for €600,000. The issues relating to this proceeding are currently under investigation. The next hearing has been scheduled for 13 June 2013 to allow parties to attempt to negotiate a settlement of the dispute.

Our subsidiary, Metodo has received a tax assessment in relation to costs incurred for sponsorship agreements it entered into in 2003, prior to our acquisition of 70% of the share capital of Metodo in 2007. The total maximum liability that could arise from such tax assessment is approximately €500,000. No provision has been made in the financial statements of Metodo due to the seller indemnity provisions included in the related share purchase agreement, which require the sellers to indemnify us pro-rata for certain liabilities which we may incur related to Metodo's activities prior to our acquisition. Metodo has initiated a settlement procedure with the Italian tax authorities ("*accertamento con adesione*"). We cannot guarantee that the sellers will comply with their indemnification obligations under the share purchase agreement to cover the resulting tax liability or that similar tax assessments will not be received for subsequent periods preceding our acquisition.

Insurance

We maintain insurance to cover risks associated with the ordinary operation of our business, including coverage for injuries and accidents, civil liability claims (including claims brought in connection with errors and omissions) and information technology, such as damage to hardware, software and databases. We have directors' and officers' civil liability insurance for members of our board of directors, the board of statutory auditors and the other managers of the Group's companies. Certain of our companies also maintain coverage relating to the specific risks of their business. We regularly conduct periodic reviews of our insurance cover to ensure that we have adequate coverage and that our deductibles and premiums are at reasonable levels.

We do not have insurance coverage for all business interruptions and operational risks because we believe that these risks cannot be insured or can only be insured on unreasonable terms. We do not have insurance protection against the risk of failure by customers to pay.

Management

Management of the Issuer

The Issuer indirectly holds the entire issued share capital of the Company.

The following table lists individuals who are the current directors of the board of the Issuer together with their age, title and other roles they hold within the Group.

Name	Age	Title
Nadia Dziwinski	41	HgCapital Manager
François Champon	31	HgCapital Manager
Hille-Paul Schut	35	HgCapital Manager
Alexander Leslie John King	38	HgCapital Manager
Stephen Warshaw	64	HgCapital Manager
Luigi Bartone	39	ICG Manager
Ailbhe Jennings	50	Bain Manager
Ivano Sessa	35	Bain Manager

On or prior to the Issue Date, the board of directors of the Issuer will be changed upon the transformation of Titan Luxco 2 S.à r.l. to TeamSystem Holding S.p.A.

The Company

The Company is a *società a responsabilità limitata* incorporated under the laws of the Republic of Italy. The following is a summary of certain information concerning the management of the Company and certain provisions of Italian law regarding corporate governance. This summary is qualified in its entirety by reference to such by-laws and/or Italian law, as the case may be, and it does not purport to be complete.

The Company is managed by a board of directors (*Consiglio di Amministrazione*) which, within the limits prescribed by Italian law, the Company's by-laws and resolutions of the Company's shareholders, has the power to manage the Company, legally represent the Company in its dealings with third parties and to delegate its general authority to an executive committee and/or one or more managing directors (including the chief executive officer). In addition, the Italian Civil Code requires the Company to have a board of statutory auditors (*Collegio Sindacale*) which functions as a supervisory body (see below).

Board of directors

The following table lists individuals who are the current directors of the board of the Company together with their age, title and other roles they hold within the Group.

Name	Age	Title
Stephen Warshaw	64	Chairman
Federico Leproux	42	Managing Director and Chief Executive Officer
Vicenzo Ferrari	54	Director and Chief Financial Officer
Gianandrea de Bernardis	48	Director
Ivano Sessa	35	Director

Summarized below is a brief description of the experience of the individuals who serve as members of the board of directors of the Company

Stephen Warshaw was appointed as Chairman in 2011 and will be reappointed on 12 April 2013. Mr. Warshaw is a member of the Portfolio Management Team of HgCapital, where he joined in 2010. He is currently also Chairman of Cambridge Education Group Ltd.

Until 2006, Mr. Warshaw was the chief executive officer of CMPMedica, a subsidiary of United Business Media plc, and has held senior management positions at, *inter alia*, Oxford University Press, Reed Elsevier plc, Informa plc and Veronis Suhler Stephenson International. He was also previously chairman of Iris Software Limited. Mr. Warshaw holds a BA in French and Russian from Keele University, as well as a post-graduate certificate in education (PGCE) from New College, Oxford University.

Federico Leproux was appointed Chief Executive Officer in 2011 and will be reappointed on 12 April 2013, and has held positions in the Company since 2007, where he also served as Chairman until 2011. From 2004 until 2007, he worked as an Engagement Manager at McKinsey & Company. Prior to that, Mr. Leproux was a Senior Consultant at Bain & Company. Between 1999 and 2003, Mr. Leproux worked as Initiative, Logistics and Operations Manager at Procter & Gamble. Mr. Leproux holds a Degree in Mechanical Engineering from La Sapienza University in Rome, Italy.

Vincenzo Ferrari was appointed as a Director in June 2011 and will be reappointed on 12 April 2013, and has held positions in the Company since 2000. He was a member of the board of directors of AMPS, an energy distribution company and he has also held various positions in other energy companies like Bonatti, Stayer Group and the Bonfiglioli Group. Mr. Ferrari holds a degree in Economics from the University of Parma and a Masters in Business Administration from Università Commerciale Luigi Bocconi.

Gianandrea De Bernardis was appointed as a Director in June 2011 and will be reappointed on 12 April 2013. Prior to that, he served as Chief Executive Officer of our Company from 2001 to 2009. Since 2009, he has also served as a member of the board and the chief executive officer of Cerved Group, a provider of credit information to financial institutions and corporations in Italy. Mr. De Bernardis holds a degree in electrical engineering from the Politecnico di Milano and an MBA from the Università Commerciale Luigi Bocconi.

Ivano Sessa was appointed as a Director in September 2011 and will be reappointed on 12 April 2013. Since 2004, Mr. Sessa has served as a principal at Bain Capital. Prior to that, Mr. Sessa was a consultant with Bain & Company in New York, Atlanta and Milan. Mr. Sessa received a BS in Business Administration from Università Commerciale Luigi Bocconi.

Senior Management

In addition to the Chief Executive Officer and Chief Financial Officer of the Company, the following individuals are members of the senior management team of the Company:

Name	Age	Title
Giuseppe Busacca	32	M&A and Business Development Director

Giuseppe Busacca joined the Company in 2011 as M&A and Business Development Director and sits on the board of certain subsidiaries of the Company, including TeamSystem Communication, DaneaSoft, Paradigma, Digita and Optima. Prior to that, he held several positions at McKinsey & Company including engagement manager from 2008-2011. He holds a degree in Engineering from the Polytechnic University in Milan and a master's degree in Business Administration from INSEAD (France/Singapore).

Board of statutory auditors

The board of statutory auditors currently in place was appointed until the approval of the financial statements of the Company for the year ending December 31, 2014. The following

table lists individuals who are the current members of the board of statutory auditors of the Company:

Name	Age	Title
Claudio Sanchioni	54	Chairman
Fabio Landuzzi	42	Statutory auditor
Daniela Marchionni	40	Statutory auditor
Marco Cecilioni	42	Alternate auditor
Cristina Amadori	46	Alternate auditor

Compensation

For the year ended 31 December 2012, the Company paid its board of directors and senior management team aggregate remuneration and other benefits of €2.6 million.

Principal shareholders

General

As at the Issue Date, all of the outstanding shares of the Issuer will be held by TeamSystem HoldCo S.à r.l.

The breakdown of ordinary shares of TeamSystem HoldCo S.à r.l. as at 31 December 2012, was as follows:

	Number of ordinary shares	Percentage
HgCapital	1,955,584	53.3%
Bain Capital	850,000	23.2%
ICG	262,500	7.2%
Current and former management, directors and employees	599,102	16.3%
Total	3,667,186	100%

Investment Agreement

HgCapital, Bain Capital, ICG and certain executives have entered into an Investment Agreement dated 29 September 2010 (the "Investment Agreement"), relating to the management and administration of the affairs of the Group, which governs, among other things:

- the rights of members to designate persons for appointment to the board of directors of TeamSystem HoldCo S.à r.l. ("Titan 1"), our ultimate parent company;
- decisions which must be made with the prior written consent of the board of directors of Titan 1; and
- transfer restrictions in respect of shares held by each investor.

Board composition

The Board of directors of Titan 1 is the main policy making and oversight board of the Group. Pursuant to the Investment Agreement, the members have the right to designate individuals for appointment to the board of directors of Titan 1 as follows: (i) HgCapital may appoint and remove individuals as it may reasonably nominate and upon removal appoint other individuals in their place, (ii) so long as ICG or one of its affiliates retains securities of Titan 1, ICG may appoint (and remove and replace) one individual, and in the case such individual is not an employee of ICG or its affiliates, such appointment shall be subject to the reasonable consent of HgCapital and (iii) so long as Bain Capital or one of its affiliates holds 10% of the shares of Titan 1, Bain Capital may appoint (and remove and replace) one individual and an additional individual for each full 10% of shares of Titan 1 it holds in the aggregate, and in the case such individual or individuals are not employees of Bain Capital or its affiliates, such appointment shall be subject to the reasonable consent of HgCapital. HgCapital has the right to appoint and remove the Chief Executive Officer and the Chief Financial Officer of the Group, subject to prior consultation with ICG and the rights of such officers under their respective employment agreements.

Consent matters

Pursuant to the Investment Agreement, questions arising at any meeting of the board of directors are decided by the majority of votes cast and at least two directors, including one HgCapital-appointed director, are required to be present in order to constitute a quorum. Certain matters, including the following, before taken by any member of the Group, require the prior consent of the board of directors of Titan 1: (i) any change to the articles of association of a member of the Group, (ii) any change in the share capital of any member of

the Group or any issuance of shares or the right to subscribe for or convert any instrument into shares or securities, (iii) any reduction of the share capital or variation of the voting rights attaching to any class of shares or any redemption or other acquisition of any shares or other securities of any member of the Group, (iv) the entry into a material joint venture or similar arrangement outside the ordinary course of business and the business plan, (v) the merger of any member of the Group with any other company, (vi) certain acquisitions or disposals of any member of the Group, (vii) capital expenditures over a specified threshold, which is not provided for in the business plan and (viii) the payment or declaration of any dividend or other distribution

Transfer restrictions

The members have agreed not to transfer any of securities in the Group other than in accordance with the Investment Agreement. No member may transfer securities unless consented to by HgCapital (acting reasonably), unless the transfer is to a family member or a family trust, or unless otherwise permitted pursuant to certain provisions of the Investment Agreement. HgCapital has standard drag rights and may cause any members to transfer their pro rata portion of any securities HgCapital has decided to transfer. Each member has a standard tag right to transfer a pro rata portion of any securities proposed to be transferred by HgCapital and, in the event any transfer would result in HgCapital holding less than 50.1% of the total shares issued by Titan 1, a member may transfer all of their securities.

Certain relationships and related party transactions

In the twelve months ended 31 December 2012, the Company paid €88,000 in fees to our audit committee and €50,000 in fees to our board of directors.

Description of other indebtedness

The following is a summary of the material terms of our principal financing arrangements after giving effect to the Refinancing Transactions. The following summaries do not purport to describe all of the applicable terms and conditions of such arrangements and are qualified in their entirety by reference to the actual agreements. We recommend you refer to the actual agreements for further details, copies of which are available upon request.

Revolving Credit Facility

The following is a summary of the provisions of the Revolving Credit Facility to be provided under a super senior revolving credit facility agreement (the “Revolving Credit Facility Agreement”) to be entered into with, among others, the Company as original borrower, UniCredit Bank AG, Milan Branch as agent (the “RCF Agent”) and UniCredit Bank AG, Milan Branch as security agent, on or about the Issue Date, in connection with the Refinancing Transactions. The Issuer, Titan 3, the Company and Gruppo Euroconference S.p.A. are guarantors under the Revolving Facilities Agreement, each guaranteeing, subject to certain limitations, the obligations of the Company as borrower and the other guarantor(s).

Overview

The Revolving Credit Facility Agreement will provide for committed financing in the form of a €45.0 million Revolving Credit Facility. In addition, the Company may elect to request additional uncommitted financing being made available under the Revolving Credit Facility Agreement up to a maximum principal amount of €15.0 million.

The Revolving Credit Facility will be used to finance the general corporate purposes of the Issuer and its Restricted Subsidiaries (the “Restricted Group”) and/or the working capital needs of the Restricted Group including, without limitation, for making acquisitions and for capital expenditure purposes.

Utilization

The Revolving Credit Facility may initially be utilized by the Company. Any member of the Restricted Group organized under the laws of the Republic of Italy, the Grand Duchy of Luxembourg, The Netherlands or a jurisdiction approved by all the lenders under the Revolving Credit Facility (the “RCF Lenders”), may become an additional borrower of the Revolving Credit Facility.

The Revolving Credit Facility may be utilized in euro or any other currency agreed by the RCF Lenders (an “Optional Currency”).

The Revolving Credit Facility Agreement contains various conditions that must be satisfied in order for the RCF Lenders to make a loan under the Revolving Credit Facility. One such condition requires, in respect of non-rollover utilizations under the Revolving Credit Facility, the Company to comply with a “minimum EBITDA condition” in certifying that, on the quarter-end date most recently preceding the utilization date for which quarterly financial statements of the Group are available, the consolidated EBITDA of the Restricted Group for the 12-month period ending on such quarter-end date was not less than €35.0 million.

Availability Period

The Revolving Credit Facility may be utilized from and including the Issue Date to and including the business day falling one month prior to the date falling six months before the scheduled maturity date of the Notes.

Interest and Fees

Loans under the Revolving Credit Facility will initially bear interest at rates per annum equal to EURIBOR (or, in relation to a loan in an Optional Currency, LIBOR) plus certain mandatory costs, if any, plus a margin of 4.00% per annum. Provided that a period of at least 12 months has expired since the original date of the Revolving Credit Facility Agreement, and no event of default has occurred and is continuing, the margin on loans under the Revolving Credit Facility will be subject to reduction if certain leverage ratios are met. The margin under the Revolving Credit Facility will be subject to an increase of 0.5% if the maturity of the Revolving Credit Facility is 6½ years or more.

If at any time the rate of interest payable by an borrower organized under the laws of the Republic of Italy (an "Italian Borrower") in respect of a loan under the Revolving Credit Facility exceeds the maximum rate of interest permitted by Italian Law No. 108 of 7 March 1996 (the "Italian Usury Legislation") at that time and that would constitute a breach of Italian Usury Legislation, then the rate of interest payable by that Italian Borrower in respect of the relevant loan will be capped, for the shortest possible period, at the maximum rate permitted under the Italian Usury Legislation.

A commitment fee will be payable on the aggregate undrawn and uncanceled amount of the Revolving Credit Facility from the Issue Date to the end of the availability period for the Revolving Credit Facility at a rate of 40% of the applicable margin for the Revolving Credit Facility. The accrued commitment fee will be payable quarterly in arrears, on the last day of the availability period of the Revolving Credit Facility and on the date the Revolving Credit Facility is cancelled in full or on the date on which an RCF Lender cancels its commitment. No commitment fee shall be payable prior to the Issue Date or if the Issue Date does not occur.

Default interest will be calculated as an additional 1% on the overdue amount.

The Company is also required to pay customary agency fees to the RCF Agent and the Security Agent in connection with the Revolving Credit Facility Agreement.

Repayments

Loans under the Revolving Credit Facility must be repaid in full on the last day of the interest period relating thereto, subject to a netting mechanism against amounts to be drawn on such date. All outstanding amounts under the Revolving Credit Facility will be repaid on the termination date which is the date falling six months before the scheduled maturity date of the Notes.

Prepayments

The Revolving Credit Facility Agreement will allow for voluntary prepayment (subject to *de minimis* amounts) of the Revolving Credit Facility.

The Revolving Credit Facility Agreement will also allow for voluntarily prepayment of the Revolving Credit Facility with the net cash proceeds received by the Restricted Group from certain disposals of assets, to the extent that such net cash proceeds have not been applied for other permitted purposes.

The Revolving Credit Facility Agreement will permit each lender thereunder to require the mandatory prepayment and cancellation of all amounts due to such lender under the Revolving Credit Facility upon a "change of control". The term, "change of control" will be defined in the Revolving Credit Facility Agreement to comprise, generally, the scenarios (x) as set out under the definition of "Change of Control" under the caption "Description of the Notes—Certain definitions", (y) where prior to an initial public offering, HgCapital and Bain Capital (together, the "Investors") and management investors in the Restricted Group together cease to control and beneficially own more than 50% (provided that Investors shall not account for less than 38.5%) of the issued share capital and/or voting rights of the Issuer and (z) where

following an initial public offering, the Investors and management together cease to control or own, legally and beneficially, more than 30% (provided that Investors shall not account for less than 23%) of the issued share capital and/or voting rights of the Company.

Guarantees

Each of the Issuer, the Company, Titan 3 and Gruppo Euroconference S.p.A. will provide a guarantee of all amounts payable to the RCF Agent (each, an “RCF Guarantee” and together, the “RCF Guarantees”), the Security Agent, the mandated lead arranger and the lenders under the Revolving Credit Facility as well as the counterparties to certain hedging agreements.

Subject to the Agreed Security Principles, within 60 days after the date of delivery of each annual audited consolidated accounts of the Restricted Group, the Revolving Credit Facility Agreement requires that:

- (a) each member of the Restricted Group that has earnings before interest, tax, depreciation and amortization representing 5% or more of consolidated EBITDA of the Restricted Group or gross assets representing 5% or more of the gross assets of the Restricted Group (such member, a “Material Company”) become a guarantor under the Revolving Credit Facility Agreement (an “RCF Guarantor”);
- (b) any member of the Restricted Group that is a holding company of any Material Company (other than the Issuer) become an RCF Guarantor;
- (c) any member of the Restricted Group that is a Guarantor under the Notes become a RCF Guarantor; and
- (d) any member of the Restricted Group necessary to ensure that the RCF Guarantors represent not less than 75% of each of the consolidated EBITDA and the gross assets of the Restricted Group (subject to certain exceptions) (the “Guarantor Coverage Test”), respectively, become an RCF Guarantor until the Guarantor Coverage Test is satisfied.

Security

As of the Issue Date, the Revolving Credit Facility will be initially secured by first-ranking security interests granted on an equal and ratable first-priority basis over (i) the entire issued share capital of each of the Issuer, Titan 3 and the Company, (ii) 91.66% of the issued share capital of Gruppo Euroconference S.p.A. (iii) the Issuer’s rights in respect of the Titan 3 Funding Loan and the Company Funding Loan, (iv) the Issuer’s rights in respect of the Titan 3 Shareholder Loan, (v) Titan 3’s rights in respect of the Company Shareholder Loan, (vi) certain intellectual property rights of the Company, (vii) certain intercompany receivables of the Company and (viii) a special lien (*privilegio speciale*) granted by the Company.

Representations and Warranties

The Revolving Credit Facility Agreement contains certain customary representations and warranties (subject to certain exceptions and qualifications and with certain representations and warranties being repeated), including status, binding obligations, non-conflict with constitutional documents, applicable laws or regulations or other obligations, power and authority, validity and admissibility into evidence, governing law and enforcement of “finance documents” (as such term is defined in the Revolving Credit Facility Agreement), accuracy of most recent financial statements delivered, pensions and centre of main interests and establishments.

Covenants

The Revolving Credit Facility Agreement contains certain of the incurrence covenants and related definitions (with certain adjustments) that are set forth in the section entitled “Description of the Notes—Certain covenants.”

The Revolving Credit Facility Agreement requires certain members of the Restricted Group to observe certain affirmative covenants, including covenants relating to:

- maintenance of *pari passu* ranking of the Revolving Credit Facility;
- maintenance of insurance;
- maintenance of intellectual property;
- compliance with the “Guarantor Coverage Test” (see “—Guarantees” above); and
- further assurance with respect to security interests granted in favor of the transaction documents.

The Revolving Credit Facility Agreement also requires certain members of the Restricted Group to observe certain negative covenants, including covenants relating to:

- restrictions on making certain acquisitions; and
- changing the centre of main interests of certain obligors party to the Revolving Credit Facility in such capacity.

The Revolving Credit Facility Agreement also contains an information covenant under which, among other things, the Company is required to deliver to the RCF Agent annual financial statements, quarterly financial statements, compliance certificates and an annual budget.

Notes Purchase Condition

The Revolving Credit Facility Agreement contains a “notes purchases” covenant, which provides, subject to certain exceptions set out in the Revolving Credit Facility Agreement, that the Company may not, and shall procure that no other member of the Restricted Group will, repay, prepay, purchase, redeem, defease or otherwise acquire any Notes (or any replacement or refinancing indebtedness thereof as permitted under the Revolving Credit Facility Agreement from time to time) prior to the scheduled repayment date. The exceptions to such notes purchases covenant include, *inter alios*, (i) Notes purchases funded with certain new equity, permitted payments or permitted indebtedness under the Revolving Credit Facility Agreement, (ii) Notes purchases that do not exceed 50% of the original aggregate principal amount of the Notes on the Issue Date and (iii) Notes purchases that exceed 50% of the original aggregate principal amount of the Notes on the Issue Date *provided* that the Revolving Credit Facility is reduced and cancelled on a pro rata basis with the amount of Notes purchased and, in each of the forgoing instances, *provided further* that no event of default is continuing or would result from such Notes purchase under the Revolving Credit Facility Agreement.

Financial covenant

The Revolving Credit Facility Agreement contains a “minimum EBITDA condition”, requiring that the consolidated EBITDA for the Restricted Group for the 12-month period ending on each quarter-end date is not less than €35.0 million, however, non-compliance with such condition will only give rise to a default under the Revolving Credit Facility Agreement if any utilizations are outstanding thereunder on the relevant quarter-end date or the date of delivery of the financial statements in respect of the relevant quarter-end date.

There are no other financial maintenance covenants under the Revolving Credit Facility Agreement.

Events of Default

The Revolving Credit Facility Agreement contains events of default, with certain adjustments, as those applicable to the Notes as set forth in the section entitled “Description of the Notes—

Events of Default." In addition, the Revolving Credit Facility Agreement contains the following events of default:

- breach of the financial covenant under the Revolving Credit Facility, subject to a 20 business day equity cure period;
- breach of the requirement to deliver financial statements and compliance certificates, subject to a 15 business day grace period;
- representations or warranties found to be untrue or misleading, subject to a 60 day grace period;
- cross-default to certain third party financial indebtedness in excess of €10.0 million;
- expropriation of assets;
- cessation of business;
- invalidity, unlawfulness or repudiation of the "finance documents" (under and as defined in the Revolving Credit Facility Agreement); and
- breach of a material term of the Intercreditor Agreement, subject to a 20 business day grace period.

Governing Law

The Revolving Credit Facility Agreement will be governed by English law.

Intercreditor Agreement

The following is a summary of certain provisions of the Intercreditor Agreement to be entered into between, among others, the Issuer, the Company, the RCF Agent, the Security Agent and the Trustee, on or about the Issue Date, in connection with the Refinancing Transactions.

Overview

The Intercreditor Agreement will set out, among other things:

- the relative ranking of certain debt of the Issuer and certain of its subsidiaries (together, the "ICA Group") with regard to the liabilities of the ICA Group in respect of (i) the Revolving Credit Facility and the other Credit Facility Liabilities (as defined below), (ii) the Notes, (iii) any second lien notes (the "Second Lien Notes"), (iv) the Pari Passu Liabilities (as defined below), (v) any Additional Second Lien Debt Liabilities (as defined below), (vi) certain interest rate hedging agreements (each a "Hedging Agreement") entered into in connection with each of clauses (i) through (v) above (together, the "Hedging Liabilities"), (vii) certain intra-group indebtedness other than the Funding Loans (together, the "Intra-Group Liabilities") and (viii) certain liabilities owed by any member of the Restricted Group (each a "Shareholder Creditor") to certain direct and indirect shareholders of the Issuer (together, the "Shareholder Liabilities");
- when payments can be made in respect of certain indebtedness of the ICA Group, including the Revolving Credit Facility, the Notes, the Second Lien Notes, the Intra-Group Liabilities and the Shareholder Liabilities;
- when enforcement action can be taken in respect of the Transaction Security (as defined below) by (i) the lenders under the Revolving Credit Facility, the creditors of the other Credit Facility Liabilities and the counterparties to certain Hedging Liabilities (such liabilities, "Super Senior Hedging Liabilities") and their respective creditor representatives (together, the "Super Senior Creditors"), (ii) the holders of the Notes (the "Senior Secured Noteholders"), the Trustee, each counterparty to the Hedging Liabilities that are not Super Senior Hedging Liabilities (such liabilities, "Senior Secured Hedging Liabilities") and the creditors of the Pari

Passu Liabilities (together, the "Senior Secured Creditors") and (iii) the holders of the Second Lien Notes (the "Second Lien Noteholders"), the creditors of the Additional Second Lien Debt Liabilities (the "Additional Second Lien Creditors") and the trustee for the Second Lien Notes (the "Second Lien Notes Trustee") (together, the "Second Lien Creditors");

- the requirement for the Super Senior Creditors, the Senior Secured Creditors and the Second Lien Creditors to turnover amounts received from enforcement of the Transaction Security, among other things; and
- when the Transaction Security, the Guarantees, the Second Lien Notes Guarantees (as defined below) and the RCF Guarantees will be released to permit an enforcement sale.

The Intercreditor Agreement will also contain provisions related to future additional indebtedness permitted to be incurred by members of the ICA Group under the terms of each of the Revolving Credit Facility Agreement, the Intercreditor Agreement, the documents creating the Transaction Security (the "Transaction Security Documents"), the Indenture and the indenture for the Second Lien Notes (the "Second Lien Notes Indenture"), which may also be secured by the Transaction Security. Such indebtedness may either, with respect to enforcement of Transaction Security (and the proceeds thereof): (i) have equivalent rights to the Senior Secured Noteholders under the Intercreditor Agreement, in which case it will vote in, and share in the proceeds of enforcement with, the same class of creditors as the Senior Secured Noteholders (the "Pari Passu Liabilities"); (ii) rank senior to the Notes Liabilities (as defined below), in which case it will vote in, and share in the proceeds of enforcement with, the same class of creditors as the lenders under the Revolving Credit Facility; and (iii) have equivalent rights to the Second Lien Noteholders under the Intercreditor Agreement, in which case it will vote in, and share in the proceeds of enforcement with, the same class of creditors as the Second Lien Noteholders (the "Additional Second Lien Debt Liabilities").

By accepting a Senior Secured Note and a Second Lien Note (as the case may be), the relevant holder thereof shall be deemed to have agreed to, and accepted the terms and conditions of, the Intercreditor Agreement.

The following description is a summary of certain provisions, among others, that are contained in the Intercreditor Agreement and which relate to the rights and obligations of the Senior Secured Noteholders and the Second Lien Noteholders. It does not restate the Intercreditor Agreement in its entirety. As such, you are urged to read the Intercreditor Agreement because it, and not the discussion that follows, defines certain rights of the Senior Secured Noteholders and the Second Lien Noteholders.

Ranking and Priority

The Intercreditor Agreement will provide that (i) the liabilities owed by the debtors under or in connection with the Revolving Credit Facility Agreement and any other indebtedness which ranks senior to the Notes Liabilities with respect to the proceeds of any enforcement of Transaction Security (excluding any Hedging Liabilities, the "Credit Facility Liabilities"), (ii) the Super Senior Hedging Liabilities (together, with the Credit Facility Liabilities, the "Super Senior Liabilities"), (iii) the liabilities (the "Notes Liabilities") owed by the Issuer and the debtors under the Intercreditor Agreement (other than the Issuer) to the Senior Secured Noteholders and the Trustee (together, the "Notes Creditors") under each of the Indenture, the Notes, the Intercreditor Agreement, the Guarantees and the Transaction Security Documents (together, the "Notes Documents"), (iv) the Senior Secured Hedging Liabilities, (v) the Pari Passu Liabilities (if any) (together, with the Notes Liabilities and the Senior Secured Hedging Liabilities, the "Senior Secured Liabilities"), (vi) the liabilities (the "Second Lien Notes Liabilities") owed by the Issuer as issuer of the Second Lien Notes (the "Second Lien Notes Issuer") and the debtors under the Intercreditor Agreement (other than the Second Lien Notes Issuer) to the Second Lien Noteholders and the Second Lien Notes Trustee (together, the "Second Lien Notes Creditors") under each of the Second Lien Notes Indenture, the Second Lien Notes, the Intercreditor

Agreement, the guarantees of the Second Lien Notes (the “Second Lien Notes Guarantees”) and the Transaction Security Documents (together, the “Second Lien Notes Documents”), (vii) the Additional Second Lien Debt Liabilities (if any) (together, with the Second Lien Notes Liabilities, the “Second Lien Liabilities”), (viii) the Intra-Group Liabilities and (ix) the Shareholder Liabilities, will rank in the following order:

- *first*, the Super Senior Liabilities and the Senior Secured Liabilities *pari passu* and without any preference between them;
- *second*, the Second Lien Liabilities *pari passu* between themselves and without any preference between them; and
- *third*, the Intra-Group Liabilities *pari passu* between themselves and without any preference between them; and
- *fourth*, the Shareholder Liabilities *pari passu* between themselves and without any preference between them.

Transaction Security

Subject to certain agreed security principles and/or to the extent legally possible (as the case may be), the lenders under the Revolving Credit Facility, the creditors of the other Credit Facility Liabilities, the counterparties to Hedging Liabilities (each a “Hedge Counterparty”), the Senior Secured Noteholders, the Second Lien Noteholders, the creditors of any *Pari Passu* Liabilities and the creditors of any Additional Second Lien Debt Liabilities may take, accept or receive the benefit of security interests over certain assets and property of any members of the Group (including, in respect of the Revolving Credit Facility and the Notes, a security interest over the shares of the Issuer) (together, the “Transaction Security”).

The Intercreditor Agreement will provide that the Transaction Security created pursuant to the Transaction Security Documents shall rank and secure the Super Senior Liabilities, the Senior Secured Liabilities and the Second Lien Liabilities (in each case, only to the extent such Transaction Security is expressed to secure those liabilities), in the following order:

- *first*, the Super Senior Liabilities and the Senior Secured Liabilities *pari passu* and without any preference between them; and
- *second*, the Second Lien Liabilities *pari passu* between themselves and without any preference between them.

Unless there is a legal restriction on doing so, the Security Agent shall hold the Transaction Security for the benefit of the lenders under the Revolving Credit Facility, the Hedge Counterparties, the creditors of any *Pari Passu* Liabilities, the creditors of any Additional Second Lien Debt Liabilities, the Senior Secured Noteholders and the Second Lien Noteholders.

The proceeds from the enforcement of the Transaction Security are to be applied as described below under “—Enforcement of Transaction Security—Waterfall”.

Restrictions on Payments

The Intercreditor Agreement will provide that payments may be made in respect of the Revolving Credit Facility, the Notes and the Second Lien Notes in accordance with the terms of such indebtedness, respectively, subject (i) in the case of the Notes, to compliance with the “notes purchase condition” covenant (see “—Revolving Credit Facility—Covenants—Notes Purchase Condition” above) and (ii) in the case of the Second Lien Notes, to the conditions described under “—Permitted Second Lien Notes Payments” and “—Permitted Second Lien Notes Payments—Second Lien Notes Payment Block” below.

Permitted Second Lien Notes Payments

Subject to the conditions described under “—Second Lien Notes Payment Block” below:

- (a) prior to the later of the date on which all amounts outstanding in respect of the Super Senior Liabilities are paid and discharged in full (the “Super Senior Discharge Date”) and the date on which all amounts outstanding in respect of the Senior Secured Liabilities are paid and discharged in full (the “Senior Secured Discharge Date”), payments may be made in respect of the Second Lien Notes Liabilities in accordance with the Second Lien Notes Documents:
 - (i) if:
 - (A) the payment is of:
 - (I) any principal amount of the Second Lien Notes Liabilities, which is either (1) not prohibited from being paid by any document or instrument evidencing the Credit Facility Liabilities (each a “Credit Facility Document”), the Notes Documents and any document or instrument evidencing the Pari Passu Liabilities (each a “Pari Passu Debt Document”) or (2) paid on or after the final maturity date of the Second Lien Notes Liabilities, provided that such final maturity date is no earlier than the maturity date as contained in the Second Lien Notes Indenture as of the date of the Intercreditor Agreement; or
 - (II) any other amount which is not an amount of principal or capitalized interest;
 - (B) no Second Lien Payment Stop Notice (as defined below) is outstanding; and
 - (C) no payment event of default under a Credit Facility Document and in respect of principal, interest or fees exceeding €100,000 (or its equivalent) under the Notes Documents or the Pari Passu Debt Documents (a “Senior Payment Default”), has occurred and is continuing; or
 - (ii) if the Majority Super Senior Creditors and the Majority Senior Secured Creditors give prior consent to that payment being made;
 - (iii) if the payment is of certain fees, costs and expenses of the Second Lien Notes Trustee (the “Second Lien Notes Trustee Amounts”);
 - (iv) of costs, commissions, taxes, consent fees and expenses incurred in respect of (or reasonably incidental to) the Second Lien Notes Documents; or
 - (v) of costs, commissions, taxes, premiums and any expenses incurred in respect of (or reasonably incidental to) any refinancing of the Second Lien Notes Liabilities in compliance with the Intercreditor Agreement, the Credit Facility Documents, the Notes Documents and any Pari Passu Debt Documents; and
- (b) on or after the later of the Super Senior Discharge Date and the Senior Secured Discharge Date, payments may be made in respect of the Second Lien Notes Liabilities in accordance with the Second Lien Notes Documents.

Second Lien Notes Payment Block

The Intercreditor Agreement will provide that, until the later of the Super Senior Discharge Date and the Senior Secured Discharge Date, except with the prior consent of the Majority Super Senior Creditors and the Majority Senior Secured Creditors, and subject to certain insolvency exceptions, payments may not be made in respect of the Second Lien Notes (other than the Second Lien Notes Trustee Amounts and any payment by the Second Lien Notes Issuer referred to in

(a)(ii) of “*Permitted Second Lien Notes Payments*” above) if:

- (a) a Senior Payment Default has occurred and is continuing; or
- (b) an event of default (other than a Senior Payment Default) under a Credit Facility Document, a Notes Document or a Pari Passu Debt Document (a “Senior Event of Default”) has occurred and is continuing, from the date on which the RCF Agent or a representative for the creditors of any other Credit Facility Liabilities (each a “Credit Facility Agent”), the Trustee or a representative for the creditors of any Pari Passu Liabilities (as the case may be) (the “Relevant Representative”) delivers a notice (a “Second Lien Notes Payment Stop Notice”) specifying the event or circumstance in relation to that Senior Event of Default to the Second Lien Notes Issuer, the Security Agent and the Second Lien Notes Trustee, until the earliest of:
 - (i) the date falling 179 days after delivery of that Second Lien Notes Payment Stop Notice;
 - (ii) the date on which an event of default under and as defined in the Second Lien Notes Indenture occurs for failure to pay principal at the original scheduled maturity of the Second Lien Notes;
 - (iii) in relation to payments of Second Lien Notes Liabilities, if a Second Lien Notes Standstill Period (as defined below) is in effect at any time after delivery of that Second Lien Notes Payment Stop Notice, the date on which that Second Lien Notes Standstill Period expires;
 - (iv) the date on which the relevant Senior Event of Default is no longer continuing and, if the relevant liabilities have been accelerated, such acceleration has been rescinded;
 - (v) the date on which the Relevant Representative delivers a notice to the Second Lien Notes Issuer, the Security Agent, the Second Lien Notes Trustee and any representative for the creditors of any Additional Second Lien Debt Liabilities (an “Additional Second Lien Debt Representative”), cancelling the Second Lien Payment Stop Notice;
 - (vi) the later of the Super Senior Discharge Date and the Senior Secured Discharge Date; and
 - (vii) the date on which the Second Lien Notes Trustee takes any enforcement action that it is permitted to take under the Intercreditor Agreement.

The ability of a Relevant Representative to deliver a Second Lien Notes Payment Stop Notice and the effectiveness of such notice is subject to a number of conditions, including the following:

- (a) unless a waiver is provided by the Second Lien Notes Trustee and the Additional Second Lien Debt Representative(s):
 - (i) a new Second Lien Notes Payment Stop Notice may not be delivered unless and until 360 days have elapsed since the delivery of the immediately prior Second Lien Payment Stop Notice; and
 - (ii) no Second Lien Notes Payment Stop Notice may be delivered in reliance on a Senior Event of Default more than 60 days after the date the Credit Facility Agent(s), the Trustee or the representative for the creditors of any Pari Passu Liabilities (each a “Pari Passu Debt Representative”) (as applicable) received notice of that Senior Event of Default;
- (b) the Credit Facility Agent(s), the Trustee and the Pari Passu Debt Representative(s) may serve only one Second Lien Notes Payment Stop Notice with respect to the same event or set of circumstances;

- (c) the Credit Facility Agent(s), the Trustee and the Pari Passu Debt Representative(s) may not serve a Second Lien Payment Stop Notice with respect to a Senior Event of Default which had been notified to each of them at the time at which an earlier Second Lien Payment Stop Notice was issued; and
 - (d) if:
 - (i) at any time following the issuance of a Second Lien Notes Payment Stop Notice or the occurrence of a Senior Payment Default, that Second Lien Notes Payment Stop Notice ceases to be outstanding and/or (as the case may be) the Senior Payment Default ceases to be continuing; and
 - (ii) the relevant debtor under the Intercreditor Agreement (the "Debtor") then promptly pays to the Second Lien Noteholders an amount equal to any payments which had accrued under the Second Lien Notes Documents and which would have been permitted payments but for that Second Lien Notes Payment Stop Notice or Senior Payment Default,
- then any event of default which may have occurred as a result of that suspension of payments shall be waived and any Second Lien Notes Enforcement Notice (as defined below) which may have been issued as a result of that event of default shall be waived, in each case without any further action being required on the part of the Second Lien Noteholders.

Intra-Group Liabilities

The Intercreditor Agreement will permit payments from time to time when due in respect of Intra-Group Liabilities ("Intra-Group Liabilities Payments") if:

- (a) at the time of payment, the indebtedness due in respect of the Revolving Credit Facility and the other Credit Facility Liabilities, the Notes, the Second Lien Notes, any Pari Passu Liabilities and any Additional Second Lien Debt Liabilities has not been accelerated (if accelerated, each, an "Acceleration Event"); or
- (b) if an Acceleration Event has occurred:
 - (i) prior to the Super Senior Discharge Date, the relevant Instructing Group (as defined below) has consented to the payment being made; or
 - (ii) on or after the Super Senior Discharge Date but prior to the Senior Secured Discharge Date, the Majority Senior Secured Creditors (as defined below) consent to the payment being made; or
 - (iii) on or after the Senior Secured Discharge Date but prior to the later of the date on which all amounts outstanding in respect of the Second Lien Notes Liabilities are paid and discharged in full (the "Second Lien Notes Discharge Date") and the date on which all amounts outstanding in respect of the Additional Second Lien Debt Liabilities are paid and discharged in full (the "Additional Second Lien Debt Discharge Date"), the Second Lien Notes/Additional Second Lien Required Holders (as defined below) consent to the payment being made; or
 - (iv) to the extent such payment is made to facilitate payment of the Super Senior Liabilities and/or the Senior Secured Liabilities; or
 - (v) to the extent such payment is made to facilitate payment of the Second Lien Notes Liabilities and/or the Additional Second Lien Debt Liabilities that are permitted to be paid under the terms of the Intercreditor Agreement.

Shareholder Liabilities

The Intercreditor Agreement will permit payments to be made on Shareholder Liabilities from time to time when due if:

- (a) the payment is not prohibited by the Revolving Credit Facility Agreement and the other Credit Facility Documents, the Notes Documents, the Second Lien Notes Documents, the Pari Passu Debt Documents, and the documents or instruments evidencing the Additional Second Lien Debt Liabilities (the “Additional Second Lien Debt Documents”);
- (b) prior to the Super Senior Discharge Date, the relevant Instructing Group consent to such payment being made;
- (c) on or after the Super Senior Discharge Date but prior to the Senior Secured Discharge Date, the Majority Senior Secured Creditors consent to such payment being made; or
- (d) on or after the Senior Secured Discharge Date but prior to the later of the Second Lien Notes Discharge Date and the Additional Second Lien Debt Discharge Date, the Second Lien Notes/Additional Second Lien Required Holders consent to such payment being made.

Enforcement of Transaction Security

The Security Agent may refrain from enforcing the Transaction Security or taking any other enforcement action unless otherwise instructed by:

- (a) the relevant Instructing Group (as further described in “—*Super Senior Creditors and Senior Secured Creditors*” and “—*Super Senior Creditors and Senior Secured Creditors—Consultation*” below); or
- (b) prior to the later of the Super Senior Discharge Date and the Senior Secured Discharge Date, the Second Lien Notes Trustee or the relevant Additional Second Lien Debt Representative (acting on the instructions of the Second Lien Notes/Additional Second Lien Required Holders) (as further described in “—*Second Lien Creditors*” below).

Super Senior Creditors and Senior Secured Creditors

On or prior to the date on which the Credit Facility Liabilities have been discharged in full (the “Credit Facility Discharge Date”), the Security Agent may refrain from enforcing the Transaction Security unless otherwise instructed by:

- (a) the lenders under the Revolving Credit Facility Agreement and the creditors of any other Credit Facility Liabilities (together, the “Credit Facility Creditors”), the aggregate of whose unpaid amounts and undrawn commitments under the Credit Facility Documents, and the Hedge Counterparties, the aggregate of whose Super Senior Hedging Liabilities, together, exceed 66⅔% of the aggregate of all unpaid and undrawn commitments under the Credit Facility Documents and the termination value or assumed termination value of all Super Senior Hedging Liabilities (the “Majority Super Senior Creditors”); or
- (b) the holders of the Notes, the creditors of any Pari Passu Liabilities and the Hedge Counterparties, the aggregate of whose Senior Secured Hedging Liabilities, together, represent in the aggregate more than 50% of the outstanding principal amount of the Notes and Pari Passu Liabilities and the termination value or assumed termination value of all Senior Secured Hedging Liabilities (the “Majority Senior Secured Creditors” and, with the Majority Super Senior Creditors, each an “Instructing Group”),

in each case, acting in accordance with the terms of the Intercreditor Agreement.

After the Credit Facility Discharge Date, the Security Agent will only act on the instructions of the holders of the Notes, the creditors of any Pari Passu Liabilities and the Hedge Counterparties, the aggregate of whose Hedging Liabilities, together, represent more than

50% of the outstanding principal amount of the Notes, Pari Passu Liabilities and the termination value or assumed termination value of such Hedging Liabilities.

Consultation

If either of the Majority Super Senior Creditors or the Majority Senior Secured Creditors wish to instruct the Security Agent to commence enforcement of any Transaction Security, the creditor representative(s) thereof shall deliver a copy of the instructions (or proposed instructions) as to such enforcement (the "Enforcement Proposal") to the Security Agent and each of the other creditor representative(s) for the Super Senior Creditors, the Senior Secured Creditors and Second Lien Creditors (as applicable).

The Security Agent shall commence implementation of the Enforcement Proposal provided that (for the period on or prior to the Credit Facility Discharge Date) it has not received any "conflicting enforcement instructions" (which includes a failure to deliver an instruction) in respect of such Enforcement Proposal from the creditor representative of either the Majority Super Senior Creditors or the Majority Senior Secured Creditors (as applicable) prior to the date which is 10 business days (or such shorter period as each relevant creditor representative shall agree) after the date of receipt of such Enforcement Proposal by the Security Agent (such date, the "Proposed Enforcement Instruction Date").

If the Security Agent has received conflicting enforcement instructions as set out above, it shall promptly notify the creditor representative for each of the Super Senior Creditors and the Senior Secured Creditors, following which, such creditor representatives must consult with each other and the Security Agent in good faith during the 30 day period (or such shorter period as each relevant creditor representative shall agree) (such period, the "Initial Consultation Period") following the earlier of (i) the date of the latest such conflicting enforcement instruction and (ii) the date falling 10 business days after the date on which the first Enforcement Proposal was received by the Security Agent, with a view to formulating joint enforcement instructions.

Notwithstanding the foregoing, no such Initial Consultation Period is required if:

- (a) any of the Transaction Security has become enforceable as a result of an insolvency event occurring with respect to any of Titan 1, the Issuer and certain other members of the ICA Group (each a "Relevant Company");
- (b) the Majority Super Senior Creditors or the Majority Senior Secured Creditors determine in good faith that to do so and thereby delay commencement of enforcement could reasonably be expected to have a material adverse effect on (i) the Security Agent's ability to enforce any of the Transaction Security or (ii) the realization proceeds of any enforcement of the Transaction Security in any material respect;
- (c) a period of not less than six months has elapsed since the Proposed Enforcement Instruction Date and no enforcement is being effected by the Security Agent; or
- (d) each creditor representative for the Super Senior Creditors and the Senior Secured Creditors agree that no Initial Consultation Period is required.

If the relevant creditor representatives are able to agree on the terms of joint enforcement instructions following the Initial Consultation Period, then the terms of any previous enforcement instructions shall be deemed revoked and the Security agent shall enforce the Transaction Security in accordance with the terms of the joint enforcement instructions, provided that such enforcement instructions were consented to by the Majority Super Senior Creditors and the Majority Senior Secured Creditors.

If following the Initial Consultation Period, both the Majority Super Senior Creditors and the Majority Senior Secured Creditors are not able to agree on joint enforcement instructions, or if consultation was not required to occur as discussed above, then the Security Agent shall enforce the Transaction Security in accordance with the terms of the enforcement instructions

(if any) given by the Majority Senior Secured Creditors, provided that such instructions comply with the Security Enforcement Principles (as defined below), and the terms of all enforcement instructions given by the Majority Super Senior Creditors shall be deemed revoked.

Notwithstanding the foregoing, if, for the period on or prior to the Credit Facility Discharge Date, the Security Agent is obliged to follow instructions provided by the Majority Senior Secured Creditors (in accordance with the immediately foregoing paragraph) and either:

- (a) the liabilities of the ICA Group in respect of the Revolving Credit Facility have not been repaid or prepaid in full within six months of the end of the Initial Consultation Period;
- (b) the Security Agent has not commenced any enforcement of the Transaction Security within three months of the end of the Initial Consultation Period; or
- (c) an insolvency event has occurred with respect to a Relevant Company and the Security Agent has not commenced any enforcement of the Transaction Security or taken any other enforcement action at that time,

then the Security Agent shall, provided that such instructions comply with the Security Enforcement Principles, thereafter follow the enforcement instructions that are subsequently given by the Majority Super Senior Creditors (and the terms of all enforcement instructions previously given by the Majority Senior Secured Creditors which conflict with the instructions provided by the Majority Super Senior Creditors shall be excluded).

Second Lien Creditors

Prior to the later of the Super Senior Discharge Date and the Senior Secured Discharge Date, and except with the prior consent of or as required by the Instructing Group, no Second Lien Noteholder or Additional Second Lien Creditor may direct the Security Agent to enforce or otherwise require the enforcement of any Transaction Security. Subject to certain exceptions relating to the enforcement over shares of a member of the ICA Group providing a guarantee of the Super Senior Liabilities, Senior Secured Liabilities and/or Second Lien Liabilities (an "ICA Guarantor"), the foregoing restriction on pursuing enforcement of Transaction Security by any Second Lien Creditor will not apply if:

- (a) an event of default under the Second Lien Notes Documents (a "Second Lien Notes Default") or any Additional Second Lien Debt Document (an "Additional Second Lien Default" and, with a Second Lien Notes Default, each a "Relevant Second Lien Default") is continuing;
- (b) the Credit Facility Agent(s), the Trustee and the Pari Passu Debt Representative(s) have received a notice of the Relevant Second Lien Default specifying the event or circumstance in relation to the Relevant Second Lien Default from the Second Lien Notes Trustee or the Additional Second Lien Debt Representative (as the case may be);
- (c) a Second Lien Standstill Period (as defined below) has elapsed; and
- (d) the Relevant Second Lien Default is continuing at the end of the relevant Second Lien Standstill Period.

Generally, in relation to a Relevant Second Lien Default, a "Second Lien Standstill Period" means the period beginning on the date (the "Second Lien Standstill Start Date") of service of a notice referred to in paragraph (b) above and ending on the earlier to occur of:

- (a) the date falling 179 days after the Second Lien Standstill Start Date;
- (b) the date enforcement action is taken in relation to an ICA Guarantor, provided, however, that if a Second Lien Standstill Period ends pursuant to this paragraph (b), the Second Lien Noteholders and the Additional Second Lien Creditors may only take the same enforcement action as taken by the Super Senior Creditors and the Senior Secured Creditors (as

applicable) against such ICA Guarantor and not against any other member of the ICA Group;

- (c) the date of an insolvency event in relation to a Relevant Company owing Second Lien Liabilities against whom enforcement action is to be taken;
- (d) the date on which a Second Lien Notes Default or Additional Second Lien Default occurs for failure to pay principal at the original scheduled maturity of the Second Lien Notes or the Additional Second Lien Debt; and
- (e) the expiry of any other Second Lien Standstill Period outstanding at the date such first mentioned Second Lien Standstill Period commenced (unless that expiry occurs as a result of a cure, waiver or other permitted remedy).

Prior to the later of the Super Senior Discharge Date and the Senior Secured Discharge Date, and subject to the following paragraph, in order for the Security Agent to enforce the Transaction Security in such manner as requested by the Second Lien Creditors:

- (a) it must receive instructions from those Second Lien Noteholders and Additional Second Lien Creditors who together represent in the aggregate more than 50% of the outstanding principal amount of the Second Lien Notes and Additional Second Lien Debt Documents (the "Second Lien Notes/Additional Second Lien Required Holders"), and such instructions must be consistent with the Security Enforcement Principles; and
- (b) it must have received instructions by the Instructing Group not to enforce or to cease to enforce the Transaction Security or received no instructions from the Instructing Group and the Instructing Group has not required any Debtor to make a distressed disposal (see "*—Release of liabilities in respect of the Transaction Security, the Notes and the Second Lien Notes*" below).

Notwithstanding the foregoing, if the Second Lien Notes Trustee or the relevant Additional Second Lien Debt Representative has instructed (or indicated an intention to instruct) the Security Agent to enforce the Transaction Security, then either a Credit Facility Agent, the Trustee or a Pari Passu Debt Representative may give the Security Agent instructions to enforce the Transaction Security as such person sees fit in lieu of any instructions to enforce given by the Second Lien Notes Trustee or an Additional Second Lien Debt Representative, and the Security Agent shall instead act on the first such instructions received from such Credit Facility Agent, the Trustee or Pari Passu Debt Representative (as the case may be), provided that such instructions are consistent with the Security Enforcement Principles.

Security Enforcement Principles

A creditor representative of the Majority Super Senior Creditors, the Majority Senior Secured Creditors or the Second Lien Notes/Additional Second Lien Required Holders (as the case may be) may only give enforcement instructions that are consistent with certain security enforcement principles set out in a schedule to the Intercreditor Agreement (the "Security Enforcement Principles"), which include the following principles:

- it shall be the primary and overriding aim of any enforcement of the Transaction Security to achieve the security enforcement objective (being to maximize so far as is consistent with prompt and expeditious realization of value from enforcement of the Transaction Security, the recovery by the Super Senior Creditors and the Senior Secured Creditors) (the "Security Enforcement Objective");
- without prejudice to the Security Enforcement Objective, the Transaction Security will be enforced such that either (a) all proceeds of enforcement are received by the Security Agent in cash (or substantially in cash) for distribution in accordance with the terms of the Intercreditor Agreement (see "*—Waterfall*" below) or (b) with respect to such actions taken by the Majority Senior Secured Creditors, sufficient proceeds from enforcement will be

received by the Security Agent in cash (or substantially in cash) to ensure that the Super Senior Liabilities are repaid and discharged in full (unless the Majority Super Senior Creditors agree otherwise);

- to the extent that the Transaction Security that is the subject of the proposed enforcement action is:
 - (a) over assets other than shares in a member of the ICA Group where the aggregate book value of such assets exceeds €1.0 million (or its equivalent); or
 - (b) over some or all of the shares in a member of the ICA Group over which Transaction Security exists,

then the Security Agent shall (unless such enforcement is made pursuant to a public auction or pursuant to any process supervised by a court of law where there is a determination of value by or on behalf of the court) appoint an internationally recognized investment bank or any one of BDO, Deloitte & Touche, Ernst & Young, Grant Thornton, KPMG or PricewaterhouseCoopers (a "Financial Advisor") to opine as expert to the Security Agent on (i) the optimal method of enforcing the Transaction Security so as to achieve the Security Enforcement Objective and maximize the recovery of any such enforcement action, (ii) that the proceeds received from any such enforcement are fair from a financial point of view after taking into account all relevant circumstances and (iii) that such sale is otherwise in accordance with the Security Enforcement Objective; and

- the Security Agent shall be under no obligation to appoint a Financial Advisor or to seek the advice of a Financial Advisor, unless expressly required to do so by the Intercreditor Agreement.

Waterfall

Subject to certain exceptions, the proceeds of enforcement of Transaction Security and any other amounts received by the Security Agent (including amounts from time to time received pursuant to the provisions described under "*—Turnover*", below) shall be held by the Security Agent on trust and applied in the following order of priority:

- (a) *first*, in payment of the following amounts in the following order:
 - (i) pro rata and *pari passu* any sums owing to the Security Agent, each Pari Passu Debt Representative in respect of any Pari Passu Liabilities issued in the form of notes, each Additional Second Lien Debt Representative in respect of any Additional Second Lien Debt Liabilities issued in the form of notes, the Trustee in respect of certain of its fees, costs and expenses (the "Notes Trustee Amounts") and the Second Lien Notes Trustee in respect of the Second Lien Notes Trustee Amounts; and then
 - (ii) pro rata and *pari passu* to each creditor representative of the Super Senior Liabilities, the Senior Secured Liabilities and the Second Lien Liabilities (to the extent not included in sub-paragraph (i) above and excluding any Hedge Counterparty as its own creditor representative) of the unpaid fees, costs and expenses and liabilities (and all interest thereon) of each such creditor representative and any receiver, attorney or agent appointed by such creditor representative under any Transaction Security Document or the Intercreditor Agreement;
- (b) *second*, *pari passu* and pro rata in or towards payment of all costs and expenses incurred by the Super Senior Creditors in connection with any realization or enforcement of the Transaction Security;
- (c) *third*, in or towards payment to each Credit Facility Agent and the Hedge Counterparties of the Super Senior Hedging Liabilities for application towards the discharge of the Credit

Facility Liabilities and the Super Senior Hedging Liabilities, respectively, on a *pari passu* and pro rata basis;

- (d) *fourth, pari passu* and pro rata in or towards payment to the Trustee, each Pari Passu Debt Representative and the Hedge Counterparties of the Senior Secured Hedging Liabilities (the "Senior Secured Hedge Counterparties") for application towards any unpaid costs and expenses incurred by or on behalf of any Senior Secured Noteholders, any creditors of the Pari Passu Liabilities (the "Pari Passu Creditors") and the Senior Secured Hedge Counterparties in connection with any realization or enforcement of the Transaction Security;
- (e) *fifth*, in or towards payment to the Trustee, each Pari Passu Debt Representative and the Senior Secured Hedge Counterparties for application towards the discharge of the Notes Liabilities, the Pari Passu Liabilities and the Senior Secured Hedging Liabilities, respectively, on a *pari passu* and pro rata basis;
- (f) *sixth, pari passu* and pro rata to the Second Lien Notes Trustee and each Additional Second Lien Debt Representative for application towards any unpaid costs and expenses incurred by or on behalf of any Senior Secured Noteholders and Additional Second Lien Creditors in connection with any realization or enforcement of the Transaction Security; and
- (g) *seventh*, in or towards payment to the Second Lien Notes Trustee and each Additional Second Lien Debt Representative for application towards the discharge of the Second Lien Notes Liabilities and the Additional Second Lien Debt Liabilities, respectively, on a *pari passu* and pro rata basis;
- (h) lastly, after the latest to occur of the date on which all amounts outstanding in respect of the Second Lien Liabilities are paid and discharged in full (the "Second Lien Discharge Date"), the Super Senior Discharge Date and the Senior Secured Discharge Date, in payment of the surplus to the relevant Debtor or other person entitled to it.

Enforcement of Funding Loan Collateral

The Intercreditor Agreement provides that the Issuer, as lender of the Funding Loans, irrevocably authorizes the Security Agent to enforce the Funding Loan Collateral on its behalf. In addition, at all times after the Security Agent has been requested to commence any enforcement action and subject to the terms of the Intercreditor Agreement, the Security Agent is entitled to do all such things in relation to the enforcement of the Funding Loan Collateral to which it or the relevant Super Senior Creditors, Senior Secured Creditors or Second Lien Creditors (as the case may be) may be entitled under the terms of the Funding Loan Collateral, the Intercreditor Agreement and/or applicable law.

Turnover

General

The Intercreditor Agreement, in general, provides that if a Super Senior Creditor, a Senior Secured Creditor or Second Lien Creditor, receives or recovers or otherwise realizes the proceeds of any enforcement of any Transaction Security or any other amounts which should otherwise be received, recovered or realized by the Security Agent for application in accordance with "*—Enforcement of Transaction Security—Waterfall*" above, then, subject to certain exceptions (including certain prior actual knowledge qualifications in respect of the Trustee and the Second Lien Notes Trustee, as applicable), it shall:

- (a) in relation to receipts or recoveries not received or recovered by way of set-off: (i) hold that amount on trust for the Security Agent and promptly pay that amount or an amount equal to that amount to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and (ii) promptly pay an amount equal to the amount (if any) by which receipt or recovery exceeds the relevant liabilities owed to such creditor to the

Security Agent for application in accordance with the terms of the Intercreditor Agreement; and

- (b) in relation to receipts and recoveries received or recovered by way of set-off, promptly pay an amount equal to that recovery to the Security Agent for application in accordance with the terms of the Intercreditor Agreement.

Second Lien Creditors

The Intercreditor Agreement further provides that if any Second Lien Creditor receives or recovers:

- (i) any payment or distribution of, or on account of, or in relation to any such Second Lien Liabilities which is not otherwise permitted under the Intercreditor Agreement or made in accordance with "*—Enforcement of Transaction Security—Waterfall*" above;
- (ii) other than by way of set-off permitted under the Intercreditor Agreement, any amount by way of set-off in respect of any such Second Lien Liabilities which is not otherwise permitted under the Intercreditor Agreement or which does not give effect to a payment or enforcement action which is otherwise permitted to be made, received or taken by the relevant Second Lien Creditor under the Intercreditor Agreement;
- (iii) other than by way of set-off permitted under the Intercreditor Agreement, any amount on account of, or in relation to, any of such Second Lien Liabilities after the occurrence of an Acceleration Event or the enforcement of any Transaction Security (each a "Distress Event") or as a result of any other litigation or proceedings against a Debtor or a member of the ICA Group (other than after the occurrence of an insolvency event in respect of that entity), other than, in each case, any amount received or recovered in accordance with "*—Enforcement of Transaction Security—Waterfall*" above;
- (iv) other than by way of set-off permitted under the Intercreditor Agreement, any amount by way of set-off in respect of any of such liabilities after the occurrence of a Distress Event; or
- (v) other than by way of set-off permitted under the Intercreditor Agreement, any distribution in cash or in kind or payment of, or on account of or in relation to, any of such Second Lien Liabilities owed by any Debtor which is not made in accordance with "*—Enforcement of Transaction Security—Waterfall*" above and which is made as a result of, or after, the occurrence of an insolvency event in respect of that Debtor,

the relevant Second Lien Creditor will, subject to certain exceptions (including certain prior actual knowledge qualifications in respect of the Second Lien Notes Trustee):

- (A) in relation to receipts or recoveries not received or recovered by way of set-off, (1) hold that amount on trust for the Security Agent and promptly pay that amount to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and (2) promptly pay an amount equal to the amount (if any) by which receipt or recovery exceeds the relevant liabilities owed to such creditor to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and
- (B) in relation to receipts and recoveries received or recovered by way of set-off, promptly pay an amount equal to that recovery to the Security Agent for application in accordance with the terms of the Intercreditor Agreement.

Release of liabilities in respect of the Transaction Security, the Notes and the Second Lien Notes

Distressed Disposals

Where an enforcement sale of an asset of a member of the ICA Group or of a holding company of a member of the ICA Group subject to the Transaction Security is being effected, the Intercreditor Agreement provides that the Security Agent is irrevocably authorized:

- to release the Transaction Security, or any other claim over that asset;
- if the asset which is disposed of consists of shares in the capital of an Debtor, to release:
(a) that debtor and any subsidiary of that Debtor from all or any part of its Guarantee Liabilities, its liabilities as a principal debtor under the liabilities governed by the Intercreditor Agreement (together, the "Borrowing Liabilities"), or other liabilities it may have to an intra-group lender or Debtor (together, the "Other Liabilities"); (b) any Transaction Security granted by that Debtor or any subsidiary of that Debtor over any of its assets; and (c) any other claim of a lender of Intra-Group Liabilities (an "Intra-Group Lender"), the Funding Loan Lender, a Shareholder Creditor or another Debtor over that Debtor's assets or over the assets of any subsidiary of that Debtor; and
- if the asset which is disposed of consists of shares in the capital of any holding company of a Debtor, to release (a) that holding company and any subsidiary of that holding company from all or any part of its Borrowing Liabilities, its Guarantee Liabilities and Other Liabilities; (b) any Transaction Security granted by that Holding Company and any subsidiary of that holding company over any of its assets; and (c) any other claim of an Intra-Group Lender, Shareholder Creditor, the Funding Loan Lender or another Debtor over the assets of that holding company and any subsidiary of that holding company.

In addition, it is a further condition to the release of any of the Second Lien Notes Guarantees, any Transaction Security over shares in the Issuer or assets of a Second Lien Notes Guarantor or the Issuer and/or any Second Lien Liabilities, that either:

- (a) the Second Lien Notes Trustee and each Additional Second Lien Debt Representative has approved the release (acting on the requisite amount of Second Lien Noteholders and creditors pursuant to the Second Lien Notes Indenture and each relevant Additional Second Lien Debt Document, respectively); or
- (b) where shares or assets of a Second Lien Notes Guarantor or an Additional Second Lien Debt Guarantor or assets of the Parent are sold:
 - (i) the proceeds of such sale received by the Security Agent are in the form of cash (or substantially in cash) or if not in cash (or substantially in cash), the requirements in paragraph (iii)(2) below are satisfied;
 - (ii) all present and future obligations owed to the Super Senior Creditors and the Senior Secured Creditors under the Credit Facility Documents, the Hedging Agreements, the Notes Documents and the Pari Passu Debt Documents by a member of the ICA Group, all of whose shares are pledged in favor of such creditors are sold or disposed of pursuant to such enforcement action, are unconditionally released and discharged or sold or disposed of concurrently with such sale (and are not assumed by the purchaser or one of its affiliates), and all security under the Transaction Security Documents in respect of the assets that are sold or disposed of is simultaneously and unconditionally released and discharged concurrently with such sale, provided that in the event of a sale or disposal of any such claim (instead of a release or discharge):
 - (1) the Credit Facility Agent(s), the Trustee and the Pari Passu Debt Representative(s) determine acting reasonably and in good faith that the lenders under the under the relevant Credit Facility Documents, the Notes Creditors and the Pari Passu

Creditors (respectively) will recover more than if such claim was released or discharged; and

- (2) the Credit Facility Agent(s), the Trustee and the Pari Passu Debt Representative(s) serve a notice on the Security Agent notifying the Security Agent of the same, in which case the Security Agent shall be entitled immediately to sell and transfer such claim to such purchaser (or an affiliate of such purchaser); and

(iii) such sale or disposal (including any sale or disposal of any claim) is made:

- (1) pursuant to a public auction; or
- (2) where a Financial Advisor confirms that the sale, disposal or transfer price is fair from a financial point of view after taking into account all relevant circumstances, although there shall be no obligation to postpone any such sale, disposal or transfer in order to achieve a higher price.

Non-Distressed Disposals

The Intercreditor Agreement will also provide for the release of the Transaction Security, the Guarantees, the Second Lien Notes Guarantees and the RCF Guarantees under certain circumstances including certain permitted asset disposals. Under certain circumstances it is envisaged that the Security Agent shall effect such release without requiring the consent of the relevant secured creditors (including the Senior Secured Noteholders and the Second Lien Noteholders).

Funding Loans

The following is a summary of the provisions of the Funding Loans which the Issuer will enter into, as lender, using a portion of the net proceeds of the Offering of the Notes, on the Issue Date, in connection with the Refinancing Transactions.

Company Funding Loan

The Issuer, as lender, will enter into a loan agreement with the Company, as borrower, pursuant to which the Issuer will lend a portion of the net proceeds received from the Offering of the Notes to the Company in order to allow the Company to repay, or procure the repayment of, all indebtedness outstanding under the Senior Credit Facilities plus accrued and unpaid interest and related fees and repayment costs through the date of repayment. As of 31 December 2012, the aggregate amount outstanding under the Senior Credit Facilities was €180.8 million.

Interest on the Company Funding Loan shall accrue at a rate that we anticipate will not be lower than the interest rate applicable to the Notes. Interest payments received by the Issuer from the Company under the Company Funding Loan will be used to service interest payments under the Notes. The maturity date of the Company Funding Loan will be on or after the maturity date of the Notes.

The Issuer's rights under the Company Funding Loan will be pledged on a first-priority basis to secure the obligations under the Revolving Credit Facility and the Notes. The Company Funding Loan will also be secured by a security interest granted over (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A., (ii) certain intellectual property rights of the Company and (iii) certain intercompany receivables of the Company.

The Company Funding Loan will provide that where an amount is paid by the Company pursuant to its Guarantee of the Notes (a "Guarantee Payment"), the obligations of the Company to pay the principal amount due under the Company Funding Loan will be permanently reduced by the amount of such Guarantee Payment.

The Company Funding Loan will be governed by Italian law.

Titan 3 Funding Loan

The Issuer, as lender, will enter into a loan agreement with Titan 3, as borrower, pursuant to which the Issuer will lend a portion of the net proceeds received from the Offering of the Notes to Titan 3 in order to allow Titan 3 to repay, or procure the repayment of, all indebtedness outstanding under the Mezzanine Credit Facility plus accrued and unpaid interest and related fees and repayment costs through the date of repayment. As of 31 December 2012, the aggregate amount outstanding under the Mezzanine Credit Facility was €62.6 million.

The Issuer's rights under the Titan 3 Funding Loan will be pledged on a first-priority basis to secure the obligations under the Revolving Credit Facility and the Notes. The Titan 3 Funding Loan will also be secured by a security interest granted over the entire issued share capital of the Company.

Interest on the Titan 3 Funding Loan shall accrue at a rate that we anticipate will not be lower than the interest rate applicable to the Notes. The maturity date of the Titan 3 Funding Loan will be on or after the maturity date of the Notes, provided, however, that the Titan 3 Funding Loan will be extinguished following the consummation of the Post-Completion Merger and the security interests granted in connection thereto will be subsequently released.

The Titan 3 Funding Loan will provide that where an amount is paid by Titan 3 pursuant to its Guarantee of the Notes (a "Titan 3 Guarantee Payment"), the obligations of the Titan 3 to pay the principal amount due under the Titan 3 Funding Loan will be permanently reduced by the amount of such Titan 3 Guarantee Payment.

The Titan 3 Funding Loan will be governed by Italian law.

Company Shareholder Loan

On 30 September 2010, Titan 3 loaned to Titan Bidco S.p.A. (which entity was subsequently merged into the Company) an aggregate principal amount of €70,000,000, representing a portion of the indebtedness incurred under the Mezzanine Credit Facility and the PIK Notes to finance the acquisition of the Company by HgCapital and Bain Capital in 2010.

The terms and conditions of the Company Shareholder Loan will be amended in connection with the Refinancing Transactions to provide for, among other things, all payments made thereunder to be subject to the terms of the Intercreditor Agreement and the extension of the maturity date to be on or after the maturity date of the Notes. In addition, the rights and obligations of Titan 3 under the Company Shareholder Loan will be assumed by the Company pursuant to the Post-Completion Merger.

Interest on the Company Shareholder Loan shall accrue at a rate that we anticipate will not be lower than the interest rate applicable to the Notes.

Titan 3 and, following the Post-Completion Merger, the Issuer's rights under the Company Shareholder Loan will be pledged on a first-priority basis to secure the obligations under the Revolving Credit Facility and the Notes.

Interest payments received by Titan 3 and, following the consummation of the Post-Completion Merger, the Issuer, under the Company Shareholder Loan will be used to service interest payments under the Notes.

The Company Shareholder Loan will be governed by Italian law.

Titan 3 Shareholder Loan

On 29 September 2010, the Issuer loaned to Titan 3 an aggregate principal amount of €37,500,000, representing a portion of the indebtedness incurred under the PIK Notes to finance the acquisition of the Company by HgCapital and Bain Capital in 2010.

The terms and conditions of the Titan 3 Shareholder Loan will be amended in connection with the Refinancing Transactions to provide, among other things, for all payments made thereunder to be subject to the terms of the Intercreditor Agreement and the extension of the maturity date to be on or after the maturity date of the Notes.

The Issuer's rights under the Titan 3 Shareholder Loan will be pledged on a first-priority basis to secure the obligations under the Revolving Credit Facility and the Notes.

The Titan 3 Shareholder Loan will be extinguished following consummation of the Post-Completion Merger, and the security interests granted to the holders of the Notes and the lenders under the Revolving Credit Facility in respect thereof will be released. Until that time, interest payments received by the Issuer under the Titan 3 Shareholder Loan will be used to service interest payments under the Notes.

Interest on the Titan 3 Shareholder Loan shall accrue at a rate that we anticipate will not be lower than the interest rate applicable to the Notes.

The Titan 3 Shareholder Loan will be governed by Italian law.

Description of the Notes

You will find definitions of certain capitalized terms used in this “Description of the Notes” under the heading “Certain Definitions”. For purposes of this “Description of the Notes”, references to the “Issuer”, “we”, “our”, and “us” refer only to Titan Luxco 2 S.à r.l., a private limited company (société à responsabilité limitée) organized under the laws of the Grand Duchy of Luxembourg, to be transformed, on or prior to the Issue Date (as defined herein), into TeamSystem Holding S.p.A, a joint stock company (società per azioni) organized under the laws of the Republic of Italy, and its successors and assigns.

The Issuer will issue €300 million aggregate principal amount of % Senior Secured Notes due 2020 (the “Senior Secured Notes”) under an indenture to be dated as of the Issue Date (the “Indenture”), between, *inter alios*, the Issuer, the Guarantors, The Law Debenture Trust Corporation plc, as trustee (the “Trustee”), UniCredit Bank AG as security agent (the “Security Agent”) and Deutsche Bank AG, London Branch as paying agent. Upon the initial issuance of the Senior Secured Notes, the Senior Secured Notes will be guaranteed by Titan Luxco 3 S.à.r.l. (“Titan 3”) and TeamSystem S.r.l. (“TeamSystem” and, together with Titan 3, the “Initial Guarantors”). The Indenture will not incorporate or include or be subject to the U.S. Trust Indenture Act of 1939, as amended.

The proceeds of the offering of the Senior Secured Notes sold on the Issue Date will be used by the Issuer to refinance our existing Indebtedness and to pay costs and expenses as set forth in this Offering Memorandum under the caption “Use of Proceeds.” Following the Issue Date,⁽¹⁾ the Notes will be secured by the Notes Collateral, the Company Funding Loan will be secured by the Company Funding Loan Collateral, and the Titan 3 Funding Loan will be secured by the Titan 3 Funding Loan Collateral (each as defined under “—Security”, and collectively referred to herein as the “Collateral”). See “—Security”.

The Indenture will be unlimited in aggregate principal amount, of which €300 million aggregate principal amount of Senior Secured Notes will be issued in this Offering. We may, subject to applicable law, issue an unlimited principal amount of additional Senior Secured Notes having identical terms and conditions as the Senior Secured Notes (the “Additional Senior Secured Notes”); *provided*, that if the Additional Senior Secured Notes are not fungible with the Senior Secured Notes for U.S. federal income tax purposes, the Additional Senior Secured Notes will be issued with a separate ISIN code or common code, as applicable, from the Senior Secured Notes. We will only be permitted to issue Additional Senior Secured Notes in compliance with the covenants contained in the Indenture, including the covenant restricting the Incurrence of Indebtedness (as described below under “—Certain covenants—Limitation on Indebtedness”). Except with respect to right of payment and optional redemption, and as otherwise provided for in the Indenture, the Senior Secured Notes issued in this Offering and, if issued, any Additional Senior Secured Notes will be treated as a single class for all purposes under the Indenture, including, without limitation, with respect to waivers, amendments, redemptions and offers to purchase. Unless the context otherwise requires, in this “Description of the Senior Secured Notes”, references to the “Senior Secured Notes” include the Senior Secured Notes and any Additional Senior Secured Notes that are actually issued.

The Indenture will be subject to the terms of the Intercreditor Agreement and any Additional Intercreditor Agreements (as defined below). The terms of the Intercreditor Agreement are important to understanding the terms and ranking of the Liens on the Collateral securing the Senior Secured Notes. Please see “Description of other Indebtedness—Intercreditor Agreement” for a description of the material terms of the Intercreditor Agreement.

This “Description of the Notes” is intended to be an overview of the material provisions of the Senior Secured Notes, the Indenture and the Senior Secured Notes Security Documents. Since this description of the terms of the Senior Secured Notes is only a summary, you should refer to the Senior Secured Notes, the Indenture and the Senior Secured Notes Security Documents for

complete descriptions of the obligations of the Issuer and your rights. Copies of such documents are available from us upon request.

The registered Holder of a Note will be treated as the owner of it for all purposes. Only registered Holders will have rights under the Indenture, including, without limitation, with respect to enforcement and the pursuit of other remedies. The Senior Secured Notes have not been, and will not be, registered under the U.S. Securities Act and are subject to certain transfer restrictions.

General

The Senior Secured Notes will, upon issuance:

- be general senior obligations of the Issuer, secured as set forth under “—Security”;
- rank *pari passu* in right of payment with any existing and future Indebtedness of the Issuer that is not subordinated to the Senior Secured Notes;
- rank senior in right of payment to any future Indebtedness of the Issuer that is expressly subordinated to the Senior Secured Notes;
- be effectively subordinated to any existing or future Indebtedness or obligation (including obligations to trade creditors) of the Issuer and its Subsidiaries that is secured by property and assets that do not secure the Senior Secured Notes, to the extent of the value of the property and assets securing such Indebtedness;
- be effectively subordinated to any existing or future Indebtedness or obligation that is secured on a super priority basis, to the extent of the property and assets subject to such super priority;
- benefit from guarantees given by Titan 3 and TeamSystem, which Guarantees are subject to certain limitations on recovery (see “—Guarantees”);
- be effectively subordinated to any existing or future Indebtedness of the Subsidiaries of the Issuer, other than Titan 3 and TeamSystem, including obligations under the Revolving Credit Facility, and any guarantees by the Issuer’s Subsidiaries of obligations of the Issuer;
- mature on 2020; and
- be represented by one or more registered Notes in global form, but in certain circumstances may be represented by Definitive Registered Notes (see “Book-Entry, Delivery and Form”).

As of the Issue Date, all of our Subsidiaries will be “Restricted Subsidiaries”. However, under the circumstances described below under “—Certain Definitions—Unrestricted Subsidiary”, we will be permitted to designate certain of our Subsidiaries as “Unrestricted Subsidiaries”. Our Unrestricted Subsidiaries will not be subject to any of the restrictive covenants in the Indenture.

All of our operations are conducted through our Subsidiaries. Our subsidiaries, other than Titan 3 and TeamSystem, will not guarantee the Senior Secured Notes or have any obligations in respect of the Senior Secured Notes. Claims of creditors of our Subsidiaries that have not guaranteed the Senior Secured Notes, including trade creditors, secured creditors and creditors holding debt and guarantees issued by those Subsidiaries, and claims of preferred and minority stockholders (if any) of those Subsidiaries generally will have priority with respect to the assets and earnings of those Subsidiaries over the claims of our creditors, including Holders of the Senior Secured Notes. The Senior Secured Notes therefore will be effectively subordinated to creditors (including trade creditors) and preferred and minority stockholders (if any) of our subsidiaries that have not guaranteed the Senior Secured Notes. Although the Indenture will limit the incurrence of Indebtedness and Disqualified Stock or preferred stock of Restricted Subsidiaries, the limitation will be subject to a number of significant exceptions. Moreover, the

Indenture will not impose any limitation on the incurrence by Restricted Subsidiaries of liabilities that are not considered Indebtedness or Disqualified Stock or preferred stock under the Indenture. See “—Certain Covenants—Limitation on Indebtedness”.

As of 31 December 2012, after giving *pro forma* effect to the Transactions, the Issuer and its consolidated Subsidiaries would have had €302.6 million of Indebtedness, of which €300 million is represented by the Senior Secured Notes, and €45 million available for drawing under the Revolving Credit Facility, and no Subsidiaries of the Issuer (other than the Initial Guarantors) Guaranteed any of the Issuer’s Indebtedness. The Issuer’s Subsidiaries are subject to substantial other obligations incurred in the ordinary course of business, and have substantial minority interests and/or option rights held by third parties.

Principal and Maturity

The Issuer will issue €300 million in aggregate principal amount of Senior Secured Notes on the Issue Date. The Senior Secured Notes will mature on 2020. The Senior Secured Notes will be issued in minimum denominations of €100,000 and in integral multiples of €1,000 in excess thereof.

Interest

Interest on the Senior Secured Notes will accrue at the rate of % per annum. Interest on the Senior Secured Notes will:

- accrue from the Issue Date or, if interest has already been paid, from the date it was most recently paid;
- be payable in cash semi-annually in arrears on and , commencing on 2013;
- be payable to the holder of record of such Senior Secured Notes on the and immediately preceding the related interest payment date; and
- be computed on the basis of a 360-day year comprised of twelve 30-day months.

The rights of Holders to receive the payments of interest on the Senior Secured Notes are subject to applicable procedures of Euroclear and Clearstream. If the due date for any payment in respect of any Notes is not a Business Day at the place at which such payment is due to be paid, the Holder thereof will not be entitled to payment of the amount due until the next succeeding Business Day at such place, and will not be entitled to any further interest or other payment as a result of any such delay.

Methods of Receiving Payments on the Senior Secured Notes

Principal, interest and premium, if any, on the Global Notes (as defined below) will be payable at the specified office or agency of one or more Paying Agents; *provided* that all such payments with respect to the Senior Secured Notes represented by one or more Global Note registered in the name of or held by a nominee of a common depository for Euroclear and Clearstream, as applicable, will be made by wire transfer of immediately available funds to the account specified by the Holder or Holders thereof.

Principal, interest and premium, Additional Amounts if any, on any certificated securities (“Definitive Registered Notes”) will be payable at the specified office or agency of one or more Paying Agents maintained for such purposes in the City of London. In addition, interest on the Definitive Registered Notes may be paid by check mailed to the person entitled thereto as shown on the register for the Definitive Registered Notes. See “—Paying Agent and Registrar for the Senior Secured Notes”.

Paying Agent and Registrar for the Senior Secured Notes

The Issuer will maintain one or more Paying Agents for the Senior Secured Notes in the City of London. The Issuer will also undertake to maintain a Paying Agent in a European Union member state that will not be obligated to withhold or deduct tax pursuant to the European Union Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN meeting of 26 and 27 November 2000 regarding the taxation of savings income (the "Directive"), or any law implementing or complying with or introduced in order to conform to, such Directive. The initial Paying Agent will be Deutsche Bank AG, London Branch (the "Principal Paying Agent").

The Issuer will also maintain a registrar (the "Registrar") in Luxembourg, and a transfer agent (the "Transfer Agent") in the City of London. The initial Registrar will be Deutsche Bank Luxembourg S.A. and the initial Transfer Agent will be Deutsche Bank AG, London Branch. The Registrar and Transfer Agent will maintain a register reflecting ownership of the Senior Secured Notes outstanding from time to time, if any, and will make payments on and facilitate transfers of the Senior Secured Notes on behalf of the Issuer.

The Issuer may change any Paying Agents, Registrars or Transfer Agents for the Senior Secured Notes without prior notice to the Holders of such Notes. However, for so long as Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF market and the rules of the Irish Stock Exchange so require, the Issuer will publish notice of any change of Paying Agent, Registrar or Transfer Agent in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxembourg Wort*). Such notice of the change in a Paying Agent, Registrar or Transfer Agent may also be published on the official website of the Luxembourg Stock Exchange (www.bourse.lu), to the extent and in the manner permitted by the rules of the Luxembourg Stock Exchange. The Issuer or any of its Subsidiaries may act as Paying Agent or Registrar in respect of the Senior Secured Notes.

Guarantees

The obligations of the Issuer pursuant to the Senior Secured Notes, including any payment obligation resulting from a Change of Control, will (subject to the Agreed Security Principles) be guaranteed by TeamSystem on a senior unsecured basis and by Titan 3 on a senior secured basis, and in certain circumstances in the future may be guaranteed by one or more Restricted Subsidiaries of the Issuer (each a "Guarantor" and such guarantee, a "Guarantee").

The Agreed Security Principles apply to the granting of guarantees and security in favor of obligations under the Senior Secured Notes. The Agreed Security Principles include restrictions on the granting of guarantees where, among other things, such grant would be restricted by general statutory or other legal limitations or requirements, financial assistance, corporate benefit, fraudulent preference, "thin capitalization" rules, retention of title claims and similar matters. See "*—Security*".

Each Guarantee will be limited with a view to minimizing the risk that it may be voided or otherwise rendered ineffective or challenged under applicable law. In particular TeamSystem will guarantee payment obligations under the Notes corresponding to the share of the proceeds of the offering of the Notes downstreamed through the Company Funding Loan and used to repay its indebtedness under the Senior Facilities Agreement (such obligations, the "Senior Refinancing Tranche"). In addition, the Guarantee granted by TeamSystem will, to avoid any double counting, be reduced by the amount of any repayment made by TeamSystem under the Company Funding Loan. In no event will the exposure of TeamSystem under the Guarantee exceed €170 million. The Guarantee granted by Titan 3 on the Issue Date will guarantee an amount of only up to €66 million. See also "*Risk factors—Risks related to the Notes and our capital structure*" for a more detailed discussion of the legal and contractual limitations on the Guarantees and their enforcement.

Releases of Guarantees

The Guarantee of any Guarantor will terminate:

- upon a sale or other disposition (including by way of consolidation or merger) of the Capital Stock of the relevant Guarantor (whether by direct sale or sale of a holding company) or the sale or disposition of all or substantially all the assets of the Guarantor (other than to the Issuer or a Restricted Subsidiary) otherwise permitted by the Indenture;
- upon the designation in accordance with the Indenture of the Guarantor as an Unrestricted Subsidiary;
- upon defeasance or discharge of the Senior Secured Notes, as provided in “—Defeasance” and “—Satisfaction and Discharge”;
- in accordance with the Intercreditor Agreement or any Additional Intercreditor Agreement;
- as described under “—Amendments and Waivers”;
- as described in the first paragraph of the covenant described below under “—Certain Covenants—Additional Guarantees”; or
- as a result of a transaction permitted by “—Merger and Consolidation—The Guarantors”.

The Trustee shall take all reasonably necessary actions, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Guarantee in accordance with these provisions, subject to customary protections and indemnifications. Each of the releases set forth above shall be effected by Trustee without the consent of the Holders or any other action or consent on the part of the Trustee.

Transfer and Exchange

The Senior Secured Notes will be issued in the form of several registered notes in global form without interest coupons, as follows:

- Notes sold within the United States to qualified institutional buyers pursuant to Rule 144A under the Securities Act will initially be represented by one or more global notes in registered form without interest coupons attached (the “144A Global Notes”). The 144A Global Notes will, on the Issue Date, be deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.
- Notes sold outside the United States pursuant to Regulation S under the Securities Act will initially be represented by one or more global notes in registered form without interest coupons attached (the “Regulation S Global Notes” and, together with the 144A Global Notes, the “Global Notes”). The Regulation S Global Note will, on the Issue Date, be deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

Ownership of interests in the Global Notes (“Book-Entry Interests”) will be limited to persons that have accounts with Euroclear and Clearstream or persons that may hold interests through such participants.

Ownership of interests in the Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under “Notice to Investors”. In addition, transfers of Book-Entry Interests between participants in Euroclear or participants in Clearstream will be effected by Euroclear and Clearstream pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear or Clearstream and their respective participants.

Book-Entry Interests in the 144A Global Notes (the “144A Book-Entry Interests”) may be transferred to a person who takes delivery in the form of Book-Entry Interests in the Regulation S Global Notes (the “Regulation S Book-Entry Interests”) denominated in the same currency only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made in accordance with Regulation S under the Securities Act.

Prior to 40 days after the Issue Date of the Senior Secured Notes, ownership of Regulation S Book-Entry Interests will be limited to persons that have accounts with Euroclear or Clearstream or persons who hold interests through Euroclear or Clearstream, and any sale or transfer of such interest to US persons shall not be permitted during such period unless such resale or transfer is made pursuant to Rule 144A under the Securities Act. Subject to the foregoing, Regulation S Book-Entry Interests may be transferred to a person who takes delivery in the form of 144A Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a “qualified institutional buyer” within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under “Notice to Investors” and in accordance with any applicable securities law of any other jurisdiction.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book-Entry Interest in the Global Note from which it was transferred and will become a Book-Entry Interest in the Global Note to which it was transferred. Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in the Global Note to which it was transferred.

If Definitive Registered Notes are issued, they will be issued only in minimum denominations of €100,000 principal amount, and integral multiples of €1,000 in excess thereof, upon receipt by the Registrar of instructions relating thereto and any certificates, opinions and other documentation required by the Indenture. It is expected that such instructions will be based upon directions received by Euroclear or Clearstream, as applicable, from the participant which owns the relevant Book-Entry Interests. Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Indenture or as otherwise determined by the Issuer in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under “Notice to Investors”.

Subject to the restrictions on transfer referred to above, Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof. In connection with any such transfer or exchange, the Indenture will require the transferring or exchanging Holder to, among other things, furnish appropriate endorsements and transfer documents, to furnish information regarding the account of the transferee at Euroclear or Clearstream, where appropriate, to furnish certain certificates and opinions, and to pay any Taxes in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the Holder, other than any Taxes payable in connection with such transfer.

Notwithstanding the foregoing, the Issuer is not required to register the transfer or exchange of any Notes:

- (1) for a period of 15 days prior to any date fixed for the redemption of the Senior Secured Notes;
- (2) for a period of 15 days immediately prior to the date fixed for selection of Senior Secured Notes to be redeemed in part;

- (3) for a period of 15 days prior to the record date with respect to any interest payment date; or
- (4) which the Holder has tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Disposition Offer.

The Issuer, the Trustee, the Paying Agents and the Registrar will be entitled to treat the Holder of a Senior Secured Note as the owner of it for all purposes.

Restricted Subsidiaries and Unrestricted Subsidiaries

Immediately after the issuance of the Senior Secured Notes, all the Issuer's Subsidiaries will be Restricted Subsidiaries. However, in the circumstances described below under "*Certain Definitions—Unrestricted Subsidiary*", the Issuer will be permitted to designate Restricted Subsidiaries (other than TeamSystem and Titan 3) as Unrestricted Subsidiaries. Unrestricted Subsidiaries will not be subject to any of the restrictive covenants in the Indenture.

Security

General

The Senior Secured Notes will be secured, subject to the Agreed Security Principles, certain perfection requirements and any Permitted Collateral Liens, by security interests granted on an equal and ratable first-priority basis over (i) the shares of the Issuer, Titan 3 and TeamSystem; (ii) the Issuer's rights under a funding loan to be made available by the Issuer to TeamSystem with part of the proceeds of the Offering (the "Company Funding Loan"); (iii) the Issuer's rights under a funding loan to be made available by the Issuer to Titan 3 with part of the proceeds of the Offering (the "Titan 3 Funding Loan"); (iv) the Issuer's rights under the Titan 3 Shareholder Loan (as defined herein); and (v) Titan 3's rights under the Company Shareholder Loan (as defined herein) (collectively, the "Notes Collateral").

The Notes Collateral (other than the "Post-Closing Collateral" (as defined below)) will be granted on the Issue Date. The Notes Collateral to be granted in respect of the shares of TeamSystem (the "Post-Closing Collateral") will be granted no later than the date that is 60 days after the Issue Date.

The Company Funding Loan will, in turn, be secured by a pledge over: (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A.; (ii) certain intellectual property rights of TeamSystem; and (iii) certain intercompany receivables of TeamSystem (together, the "Company Funding Loan Collateral").

The Titan 3 Funding Loan will be secured by a pledge over the shares of TeamSystem (the "Titan 3 Funding Loan Collateral" and together, with the Notes Collateral and the Company Funding Loan Collateral, the "Collateral").

The Notes Collateral will also secure on a first-ranking basis the Revolving Credit Facility. In addition, the Revolving Credit Facility will also be secured by (i) 91.66% of the issued share capital of Gruppo Euroconference S.p.A., (ii) certain intellectual property rights of TeamSystem, (iii) certain intercompany receivables of TeamSystem and (iv) a special lien (*privilegio speciale*) granted by TeamSystem.

Subject to certain conditions, including compliance with the covenants described under "*Certain covenants—Impairment of Security Interest*" and "*Certain covenants—Liens*", the Issuer will be permitted to grant security over the Collateral in connection with future issuances of Indebtedness of the Issuer or Indebtedness of the Restricted Subsidiaries, including any Additional Senior Secured Notes issued by the Issuer, in each case, as permitted under the Indenture and the Intercreditor Agreement. See "*Risk factors—Risks related to the Notes and the capital structure*".

Any other security interests that may in the future be granted to secure obligations under the Senior Secured Notes, any Guarantees and the Indenture or the Funding Loans would also constitute "Notes Collateral," "Company Funding Loan Collateral" or "Titan 3 Funding Loan Collateral", as the case may be. All Collateral will be subject to the operation of the Agreed Security Principles and any Permitted Collateral Liens.

Notwithstanding the foregoing and the provisions of the covenant described below under "*Certain covenants—limitation on issuances of guarantees of indebtedness*", certain property, rights and assets (other than the Collateral described in the first and second paragraphs of this section) may not be pledged, and any pledge over property, rights and assets may be limited (or the Liens not perfected), in accordance with the Agreed Security Principles. Pursuant to the Agreed Security Principles, a guarantee or security may not be given, or may be limited, due to, among other things, general statutory limitations, regulatory requirements or restrictions, financial assistance, corporate benefit, fraudulent preference, "earnings stripping", "controlled foreign corporation" and "thin capitalisation" rules, tax restrictions, retention of title claims, employee consultation or approval requirements, capital maintenance rules and similar principles, as well as the fiduciary duties of management; the applicable cost which shall not be disproportionate to the benefit to the Lenders of obtaining such guarantee or security; stamp duty, notarisation, registration or other applicable fees, taxes and duties where the benefit to the Lenders of increasing the guaranteed or secured amount is disproportionate to the level of such fee, taxes and duties; where there is material incremental cost involved in creating security over all assets owned in a particular category; where giving a guarantee or security would be either impossible or impractical or would unduly disrupt the business of the relevant person concerned to create security over certain categories of assets; or where assets are subject to contracts, leases, licences, or other third party arrangements which may prevent those assets from being charged; where the grantor is not a Wholly Owned Subsidiary or it is not within the legal capacity of the relevant person or would conflict with fiduciary duties or contravene legal prohibitions or regulatory conditions or would result in (or in a risk of) personal or criminal liability on the part of any officer; where there are joint venture or similar arrangements or any minority interest.

In relation to any security documents that are subject to Italian law, lists of assets will be provided if, and only to the extent required by local law and local market practice, necessary to perfect or register the relevant security interests and, unless required to be provided by local law or local market practice more frequently, such asset lists will be provided on an annual basis. No perfection action will be required in jurisdictions other than Italy or Luxembourg.

As described above, all of the Notes Collateral will also secure the liabilities under the Revolving Credit Facility as well as certain Hedging Obligations and any Additional Senior Secured Notes and may also secure certain future indebtedness; *provided, however*, that the lenders under the Revolving Credit Facility and counterparties to certain Hedging Obligations will receive the proceeds from the enforcement of the Collateral in priority to the holders of the Senior Secured Notes and any Additional Senior Secured Notes. See "*Priority*" below. See also, "*Risk factors—Risks related to the Notes and our capital structure—Creditors under the Revolving Credit Facility, certain hedging obligations and certain debt that we incur in the future may be entitled to be repaid with the proceeds of the Collateral securing the Notes in priority to the Notes*". The proceeds from the enforcement of the Collateral may not be sufficient to satisfy the obligations owed to the holders of the Senior Secured Notes.

No appraisals of the Collateral have been made in connection with this Offering of the Senior Secured Notes. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, the Collateral may not be able to be sold in a short period of time, or at all. See "*Risk factors—Risks related to the Notes and our capital structure—The Collateral may not be sufficient to satisfy the obligations under the Notes*".

Priority

The relative priority with regard to the security interest in the Collateral that is created by the Senior Secured Notes Security Documents (the "Security Interest") as between (a) the lenders under the Revolving Credit Facility, (b) the counterparties under certain Hedging Obligations, and (c) the Trustee, the Security Agent and the Holders of the Senior Secured Notes under the Indenture, respectively, is established by the terms of the Intercreditor Agreement, the Indenture, the Senior Secured Notes Security Documents and the security documents relating to the Revolving Credit Facility, and such Hedging Obligations, which provide among other things that the obligations under the Senior Secured Notes will receive proceeds on enforcement of security over the Collateral only after the claims of the Revolving Credit Facility Agreement and such Hedging Obligations and any future Indebtedness permitted to be secured on a super priority basis in accordance with the terms of the Indenture and the Intercreditor Agreement are satisfied.

See "*Description of other indebtedness—Intercreditor Agreement*". In addition, pursuant to the Intercreditor Agreements or Additional Intercreditor Agreements entered into after the Issue Date, the Collateral may be pledged to secure other Indebtedness. See "*—Release of Liens*", "*—Certain Covenants—Impairment of Security Interest*" and "*—Certain Definitions—Permitted Collateral Liens*".

Senior Secured Notes Security Documents

The Senior Secured Notes Security Documents will be entered into among, *inter alios*, the relevant security provider, the Security Agent and the Trustee acting for itself and in its capacity as the Trustee, legal representative (*mandatario con rappresentanza*) under the Indenture and common representative (*rappresentante comune*) of the holders of the Senior Secured Notes pursuant to Articles 2417 and 2418 of the Italian Civil Code.

The Indenture and the Intercreditor Agreement will provide that, to the extent permitted by the applicable laws, only the Security Agent will have the right to enforce the Senior Secured Notes Security Documents on behalf of the Senior Secured Notes Trustee and the holders of the Senior Secured Notes. As a consequence of such contractual provisions, holders of the Senior Secured Notes will not be entitled to take enforcement action in respect of the Collateral, except through the Trustee under the Indenture, who will (subject to the provisions of the Indenture) provide instructions to the Security Agent for the enforcement of security over the Collateral. Under the Intercreditor Agreement, the Security Agent will also act on behalf of the lenders under the Revolving Credit Facility and the counterparties under certain hedging agreements in relation to the Security Interest in favor of such parties.

The Indenture will provide that, subject to the terms thereof and of the Intercreditor Agreement, the Senior Secured Notes, the Indenture, the Titan 3 Funding Loan, the Company Funding Loan and the Titan 3 Shareholder Loan, as applicable, will be secured by Security Interests in the relevant Collateral until all obligations under the Senior Secured Notes and the Indenture have been discharged. However, please see the section entitled "*Risk factors—Risks related to the Notes and our capital structure*". The validity and enforceability of the Security Interests will be subject to, *inter alia*, the limitations described in "*Risk factors—Risks related to the Notes and our capital structure*" and "*Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations—Republic of Italy—Certain Italian insolvency laws*".

The Senior Secured Notes Security Documents will provide that the rights under the Senior Secured Notes Security Documents and the Indenture must be exercised by the Security Agent. Holders may not, individually or collectively, take any direct action to enforce any rights in their favor under the Senior Secured Notes Security Documents. The Holders may only act through the Trustee, who will instruct the Security Agent in accordance with the terms of the Indenture.

In the event that the Issuer or its Subsidiaries enter into insolvency, bankruptcy or similar proceedings, the Security Interest created under the Senior Secured Notes Security Documents or the rights and obligations enumerated in the Intercreditor Agreement could be subject to potential challenges. If any challenge to the validity of the Security Interest or the terms of the Intercreditor Agreement was successful, the Holders may not be able to recover any amounts under the Senior Secured Notes Security Documents. See *"Risk factors—Risks related to the Notes and our capital structure"*.

Enforcement of Security Interest

The Indenture and the Intercreditor Agreement will restrict the ability of the Holders or the Trustee to enforce the Security Interests and provide for the release of the Security Interests created by the Senior Secured Notes Security Documents in certain circumstances upon enforcement by the lenders under the Revolving Credit Facility. These limitations are described under *"Description of other indebtedness—Intercreditor Agreement"* and *"Limitations on validity and enforceability of the Guarantors and the security interests and certain insolvency law considerations—Republic of Italy—Certain Italian insolvency laws"*. The ability to enforce may also be restricted by similar arrangements in relation to future indebtedness that is secured on the Collateral in compliance with the Indenture and the Intercreditor Agreement.

The creditors under the Revolving Credit Facility, the holders of Senior Secured Notes, the counterparties to Hedging Obligations secured by the Collateral and the Trustee have, and by accepting a Senior Secured Note, each Holder will be deemed to have, appointed, also for the purposes of Article 1704 (*Mandato con rappresentanza*) the Security Agent to act as its agent under the Intercreditor Agreement and the security documents securing such Indebtedness, including the Senior Secured Notes Security Documents. The creditors under the Revolving Credit Facility, the holders of Senior Secured Notes, the counterparties to Hedging Obligations secured by the Collateral and the Trustee have, and by accepting a Senior Secured Note, each Holder will be deemed to have, authorized the Security Agent to (i) perform the duties and exercise the rights, powers and discretions that are specifically given to it under the Intercreditor Agreement and the security documents securing such Indebtedness, including the Senior Secured Notes Security Documents, together with any other incidental rights, power and discretions; and (ii) execute each Senior Secured Notes Security Document, waiver, modification, amendment, renewal or replacement expressed to be executed by the Security Agent on its behalf.

Intercreditor Agreement; Additional Intercreditor Agreements; Agreement to be Bound

The Indenture will provide that the Issuer and the Trustee will be authorized (without any further consent of the holders of the Senior Secured Notes) to enter into the Intercreditor Agreement to give effect to the provisions described in the section entitled *"Description of other indebtedness—Intercreditor Agreement"*.

The Indenture will also provide that each holder of the Senior Secured Notes, by accepting such Note, will be deemed to have:

- (1) appointed and authorized the Security Agent and the Trustee to give effect to the provisions in the Intercreditor Agreement and any Additional Intercreditor Agreements;
- (2) agreed to be bound by the provisions of the Intercreditor Agreement and the Senior Secured Notes Security Documents; and
- (3) irrevocably appointed the Security Agent and the Trustee to act on its behalf to enter into and comply with the provisions of the Intercreditor Agreement.

Please see the sections entitled *"Risk factors—Risks related to the Notes and the capital structure—Holders of the Notes may not control certain decisions regarding the Collateral"* and *"Description of other indebtedness—Intercreditor Agreement"*.

Similar provisions to those described above may be included in any Additional Intercreditor Agreement (as defined below) entered into in compliance with the covenant described under *“—Certain covenants—Additional Intercreditor Agreements”*.

Release of Liens

The Issuer and its Subsidiaries will be entitled to release the Security Interest in respect of the Collateral under any one or more of the following circumstances:

- (1) in connection with any sale or other disposition of Collateral to (a) a Person that is not a Parent or a Restricted Subsidiary (but excluding any transaction subject to *“—Certain covenants—Merger and Consolidation”*), if such sale or other disposition does not violate the covenant described under *“—Certain covenants—Limitation on Sales of Assets and Subsidiary Stock”* or is otherwise permitted in accordance with the Indenture or (b) any Restricted Subsidiary *provided* that this clause 1(b) shall not be relied upon in the case of a transfer of capital stock or of accounts receivable to a Restricted Subsidiary (except to a Receivables Subsidiary) unless the relevant property and assets remain subject to, or otherwise become subject to a Lien in favor of the Senior Secured Notes following such sale or disposal;
- (2) in the case of a Guarantor that is released from its Guarantee pursuant to the terms of the Indenture, the release of the property and assets, and Capital Stock, of such Guarantor;
- (3) as described under *“—Amendments and Waivers”*;
- (4) upon payment in full of principal, interest and all other obligations on the Senior Secured Notes or defeasance or discharge of the Senior Secured Notes, as provided in *“—Defeasance”* and *“—Satisfaction and Discharge”*;
- (5) if the Issuer designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Indenture, the release of the property and assets, and Capital Stock, of such Unrestricted Subsidiary;
- (6) as otherwise permitted in accordance with the Indenture or the Intercreditor Agreement;
or
- (7) in the case of a merger, consolidation or other transfer of assets in compliance with the covenant described below under *“Merger and Consolidation”*, including in connection with the merger of Titan 3 into the Issuer.

In addition, the Security Interest created by the Senior Secured Notes Security Documents will be released (a) in accordance with the Intercreditor Agreement or any Additional Intercreditor Agreement and (b) as may be permitted by the covenant described under *“—Certain covenants—Impairment of Security Interest”*.

The Security Agent and the Trustee (if required) will take all necessary action required to effectuate any release of Collateral securing the Senior Secured Notes and the Guarantees, in accordance with the provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement and the relevant Senior Secured Notes Security Document. Each of the releases set forth above shall be effected by the Security Agent without the consent of the Holders or any action on the part of the Trustee (unless action is required by it to effect such release).

Optional Redemption

Except as described below and except as described under *“—Redemption for Taxation Reasons”*, the Senior Secured Notes are not redeemable until _____, 2016. On and after _____, 2016 the Issuer may redeem all or, from time to time, part of the Senior Secured Notes upon not less than 10 nor more than 60 days' notice, at the following redemption prices (expressed as a

percentage of principal amount) plus accrued and unpaid interest and Additional Amounts (as defined below), if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period beginning on of the years indicated below:

Year	Redemption Price
2016	%
2017	%
2018 and thereafter	100.000%

Prior to , 2016, the Issuer may on any one or more occasions redeem up to 40% of the aggregate principal amount of the Senior Secured Notes (including the principal amount of any Additional Senior Secured Notes), upon not less than 10 nor more than 60 days' notice, with funds in an aggregate amount (the "Redemption Amount") not exceeding the Net Cash Proceeds of one or more Equity Offerings at a redemption price of % of the principal amount of the Senior Secured Notes, plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided that*:

- (1) at least 60% of the original principal amount of each of the Senior Secured Notes (including the principal amount of any Additional Senior Secured Notes) remains outstanding after each such redemption; and
- (2) the redemption occurs within 180 days after the closing of such Equity Offering.

In addition, prior to , 2016 the Issuer may redeem all or, from time to time, a part of each of the Senior Secured Notes upon not less than 10 nor more than 60 days' notice at a redemption price equal to 100% of the principal amount of the Senior Secured Notes plus the Applicable Premium and accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date).

"Applicable Premium" means, with respect to any Senior Secured Note the greater of

- (a) 1% of the principal amount of such Senior Secured Note and
- (b) the excess (to the extent positive) of:
 - (A) the present value at such redemption date of (1) the redemption price of such Senior Secured Note at , 2016 (such redemption price (expressed in percentage of principal amount) being set forth in the table above under the first paragraph of this section (excluding accrued and unpaid interest)), plus (2) all required interest payments due on such Senior Secured Note to and including , 2016 (excluding accrued but unpaid interest), computed upon the redemption date using a discount rate equal to the Bund Rate at such redemption date plus 50 basis points; over
 - (B) the outstanding principal amount of such Senior Secured Note, and

as calculated by the Issuer or on behalf of the Issuer by such Person as the Issuer shall designate.

For the avoidance of doubt, calculation of Applicable Premium shall not be an obligation or duty of the Trustee or any Paying Agent.

"Bund Rate" as selected by the Issuer, means the yield to maturity at the time of computation of direct obligations of the Federal Republic of Germany (Bunds or Bundesanleihen) with a

constant maturity (as officially compiled and published in the most recent financial statistics that has become publicly available at least two Business Days (but not more than five Business Days) prior to the redemption date (or, if such financial statistics are not so published or available, any publicly available source of similar market data selected in good faith by the Board of Directors or a member of Senior Management of the Issuer) most nearly equal to the period from the redemption date to _____, 2016; *provided, however*, that if the period from the redemption date to _____, 2016 is not equal to the constant maturity of a direct obligation of the Federal Republic of Germany for which a weekly average yield is given, the Bund Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of direct obligations of the Federal Republic of Germany for which such yields are given, except that if the period from such redemption date to _____, 2016 is less than one year, the weekly average yield on actually traded direct obligations of the Federal Republic of Germany adjusted to a constant maturity of one year shall be used.

Any such redemption and notice may, in the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent.

General

We may repurchase the Senior Secured Notes at any time and from time to time in the open market or otherwise.

Notice of redemption will be provided as set forth under "*Selection and Notice*" below.

If the Issuer effects an optional redemption of Senior Secured Notes, it will, for so long as the Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require, inform the Luxembourg Stock Exchange of such optional redemption and confirm the aggregate principal amount of the Notes that will remain outstanding immediately after such redemption.

If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest will be paid to the Person in whose name the Senior Secured Note is registered at the close of business on such record date, and no additional interest will be payable to Holders whose Senior Secured Notes will be subject to redemption by the Issuer.

Sinking Fund

The Issuer is not required to make mandatory redemption payments or sinking fund payments with respect to the Senior Secured Notes.

Redemption at Maturity

On _____, 2020, the Issuer will redeem the Senior Secured Notes that have not been previously redeemed or purchased and cancelled at 100% of their principal amount plus accrued and unpaid interest thereon and Additional Amounts, if any, to the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Selection and Notice

If less than all of any series of Senior Secured Notes is to be redeemed at any time, the Principal Paying Agent or the Registrar will select Notes for redemption in compliance with the requirements of the principal securities exchange, if any, on which that series of Senior Secured Notes are listed, and in compliance with the requirements of Euroclear or Clearstream, or if the Senior Secured Notes are not so listed or such exchange prescribes no method of selection and

the Senior Secured Notes are not held through Euroclear or Clearstream, or Euroclear or Clearstream prescribes no method of selection, on a *pro rata* basis by use of a pool factor; *provided, however*, that no Senior Secured Note of €100,000 in aggregate principal amount or less shall be redeemed in part and only Senior Secured Notes in integral multiples of €1,000 will be redeemed. Neither the Principal Paying Agent nor the Registrar will be liable for any selections made by it in accordance with this paragraph.

For so long as the Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require, the Issuer shall publish notice of redemption in a daily newspaper with general circulation in Ireland (which is expected to be the *Irish Times*) and in addition to such publication shall mail such notice to Holders by first-class mail, postage prepaid, at their respective addresses as they appear on the registration books of the Registrar. Such notice of redemption may also be published on the website of the Irish Stock Exchange (www.bourse.lu).

If any Senior Secured Note is to be redeemed in part only, the notice of redemption that relates to that Senior Secured Note shall state the portion of the principal amount thereof to be redeemed. In the case of a Definitive Registered Note, a new Definitive Registered Note in principal amount equal to the unredeemed portion of any Definitive Registered Note redeemed in part will be issued in the name of the Holder thereof upon cancellation of the original Definitive Registered Note. In the case of a Global Note, an appropriate notation will be made on such Note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Subject to the terms of the applicable redemption notice, Senior Secured Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Senior Secured Notes or portions of Senior Secured Notes called for redemption.

Redemption for Taxation Reasons

The Issuer may redeem any series of Senior Secured Notes in whole, but not in part, at any time upon giving not less than 10 nor more than 60 days' prior notice to the Holders of the relevant series of Senior Secured Notes (which notice will be irrevocable) at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed for redemption (a "Tax Redemption Date") (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date) and all Additional Amounts (as defined below under "Withholding Taxes"), if any, then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise, if any, if the Issuer determines in good faith that, as a result of:

- (1) any change in, or amendment to, the law or treaties (or any regulations or rulings promulgated thereunder) of a Relevant Taxing Jurisdiction (as defined below) affecting taxation; or
- (2) any amendment to, or change in the application, administration or interpretation of such laws, treaties, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction or a change in published administrative practice) (each of the foregoing in clauses (1) and (2), a "Change in Tax Law"),

a Payor (as defined below) is, or on the next interest payment date in respect of the relevant series of Senior Secured Notes would be, required to pay Additional Amounts with respect to the Senior Secured Notes (but, in the case of a Guarantor, only if the payment giving rise to such requirement cannot reasonably be made by the Issuer or another Guarantor who can make such payment without the obligation to pay Additional Amounts), and such obligation cannot be avoided by taking reasonable measures available to the Payor (including, for the avoidance of doubt, the appointment of a new Paying Agent where this would be reasonable). Such Change in Tax Law must be announced and become effective on or after the Issue Date (or if the applicable Relevant Tax Jurisdiction became a Relevant Tax Jurisdiction on a date

after the Issue Date, such later date). The foregoing provisions shall apply (a) to a Guarantor only after such time as such Guarantor is obligated to make at least one payment on the Senior Secured Notes and (b) *mutatis mutandis* to any successor Person, after such successor Person becomes a party to the Indenture, with respect to a change or amendments occurring after the time such successor Person becomes a party to the Indenture or, in any event, where the Change in Tax Law would have applied to the predecessor of any such Successor.

Notice of redemption for taxation reasons will be published in accordance with the procedures described under "*Selection and Notice*". Notwithstanding the foregoing, no such notice of redemption will be given (a) earlier than 60 days prior to the earliest date on which the Payor would be obligated to make such payment of Additional Amounts and (b) unless at the time such notice is given, such obligation to pay such Additional Amounts remains in effect. Prior to the publication or mailing of any notice of redemption of any series of Senior Secured Notes pursuant to the foregoing, the Issuer or a successor Person, where applicable, will deliver to the Trustee (a) an Officer's Certificate stating that it is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to its right so to redeem have been satisfied and (b) an opinion of an independent tax counsel of recognized standing to the effect that the Issuer has been or will become obligated to pay Additional Amounts as a result of a Change in Tax Law. The Trustee will accept and shall be entitled to rely on such Officer's Certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, without further inquiry, in which event it will be conclusive and binding on the Holders.

Withholding Taxes

All payments made by or on behalf of the Issuer or any Guarantor or a successor of any of them (each, a "Payor") in respect of the Senior Secured Notes or with respect to any Guarantee, as applicable, will be made free and clear of and without withholding or deduction for, or on account of, any Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of:

- (1) any jurisdiction from which payment on any such Senior Secured Note is made, or any political subdivision or governmental authority thereof or therein having the power to tax; or
- (2) any other jurisdiction in which a Payor is organized, engaged in business for tax purposes, or otherwise considered to be a resident for tax purposes, or any political subdivision or governmental authority thereof or therein having the power to tax (each of clause (1) and (2), a "Relevant Taxing Jurisdiction"),

will at any time be required by law to be made from any payments made by or on behalf of the Payor or the Paying Agent with respect to any Senior Secured Note, including payments of principal, redemption price, interest or premium, if any, the Payor will pay (together with such payments) such additional amounts (the "Additional Amounts") as may be necessary in order that the net amounts received in respect of such payments, after such withholding, or deduction (including any such deduction or withholding from such Additional Amounts), will not be less than the amounts which would have been received in respect of such payments on any such Note in the absence of such withholding or deduction; *provided, however*, that no such Additional Amounts will be payable for or on account of:

- (1) any Taxes that would not have been so imposed but for the existence of any present or former connection between the relevant Holder or the beneficial owner of a Note (or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of power over the relevant Holder or beneficial owner, if the relevant Holder or beneficial owner is an estate, nominee, trust, partnership, limited liability company or corporation) and the Relevant Taxing Jurisdiction (including, without limitation, being resident for tax purposes,

or being a citizen or resident or national or domiciliary of, or carrying on a business or maintaining a permanent establishment, a dependent agent, place of business or a place of management present or deemed present in, or being physically present in, the Relevant Taxing Jurisdiction) but excluding, in each case, any connection arising solely from the acquisition, ownership or holding of such Senior Secured Note or the receipt of any payment or the exercise or enforcement of rights under such Senior Secured Note, the Indenture or a Guarantee;

- (2) any Tax that is imposed or withheld by reason of the failure by the Holder or the beneficial owner of the Senior Secured Note to comply with a written request of the Payor or any other person through whom payment can be made addressed to the Holder, after reasonable notice (at least 30 days before any such withholding would be payable), to provide certification, information, documents or other evidence concerning the nationality, residence or identity of the Holder or such beneficial owner or to make any declaration or similar claim or satisfy any other reporting requirement relating to such matters, which is required by a statute, treaty, regulation or administrative practice of the Relevant Taxing Jurisdiction as a precondition to exemption from all or part of such Tax but, only to the extent the Holder or beneficial owner is legally entitled to provide such certification or documentation;
- (3) any Taxes, to the extent that such Taxes were imposed as a result of the presentation of the Senior Secured Note for payment (where presentation is permitted or required) more than 30 days after the relevant payment is first made available for payment to the Holder;
- (4) any Taxes that are payable otherwise than by withholding from a payment of the principal of, premium, if any, or interest, if any, on the Senior Secured Notes or with respect to any Guarantee;
- (5) any estate, inheritance, gift, value added, sales, excise, use, transfer, personal property or similar tax, assessment or other governmental charge;
- (6) any Taxes that are required to be deducted or withheld on a payment to an individual pursuant to the Directive or any law implementing, or complying with, or introduced in order to conform to, such Directive;
- (7) except in the case of the liquidation, dissolution or winding-up of the Payor, any Taxes imposed in connection with a Senior Secured Note presented for payment by or on behalf of a Holder or beneficial owner who would have been able to avoid such Tax by presenting the relevant Senior Secured Note to, or otherwise accepting payment from, another Paying Agent in a member state of the European Union; or
- (8) any Taxes to the extent such Taxes are on account of *imposta sostitutiva* (pursuant to Italian Legislative Decree No. 239 of April 1, 1996, as amended or supplemented from time to time ("Legislative Decree No. 239")) and any related implementing regulations, and pursuant to Italian Legislative Decree No. 461 of November 21, 1997; *provided that*:
 - (i) Additional Amounts shall be payable in circumstances where the procedures required under Legislative Decree No. 239 in order to benefit from an exemption from *imposta sostitutiva* have not been complied with due to the actions or omissions of the Payor or their agents; and
 - (ii) for the avoidance of doubt, (A) no Additional Amounts shall be payable with respect to any Taxes to the extent that such Taxes result from payment to a non-Italian resident legal entity or a non-Italian resident individual which are subject to *imposta sostitutiva* by reason of not being resident in a country which allows for a satisfactory exchange of information with Italy (white list) and (B) no Additional Amounts shall be payable with respect to Taxes to the extent such Taxes are on account of *imposta sostitutiva* if the Holder becomes subject to *imposta sostitutiva* after the Issue Date by reason of the

approval of the ministerial Decree to be issued under Art. 168-bis D.P.R. No. 917 of satisfactory exchange of information with Italy, whereby such Holders country of residence does not appear on the new list; or

(9) any combination of the items (1) through (8) above.

Such Additional Amounts will also not be payable where, had the beneficial owner of the Note had been the Holder of the Note, it would not have been entitled to payment of Additional Amounts by reason of any of clauses (1) to (9) above.

In addition, no Additional Amounts shall be paid with respect to a Holder who is a fiduciary or a partnership or any person other than the beneficial owner of the Senior Secured Notes, to the extent that the beneficiary or settler with respect to such fiduciary, the member of such partnership or the beneficial owner would not have been entitled to Additional Amounts had such beneficiary, settler, member or beneficial owner held such Senior Secured Notes directly.

The Payor will (i) make any required withholding or deduction and (ii) remit the full amount deducted or withheld to the Relevant Taxing Jurisdiction in accordance with applicable law. The Payor will use all reasonable efforts to obtain certified copies of tax receipts evidencing the payment of any Taxes so deducted or withheld from each Relevant Taxing Jurisdiction imposing such Taxes and will provide such certified copies, or if, notwithstanding the Payor's reasonable efforts to obtain such tax receipts, such tax receipts are not available, certified copies of other reasonable evidence of such payments as soon as reasonably practicable to the Trustee and copied to the Paying Agent. Such copies shall be made available to the Holders upon request and will be made available at the offices of the Paying Agent. The Payor will attach to each certified copy a certificate stating that the amount of withholding Taxes evidenced by the certified copy was paid in connection with payments in respect of the principal amount of Senior Secured Notes then outstanding.

If any Payor is obligated to pay Additional Amounts under or with respect to any payment made on any Senior Secured Note or any Guarantee, at least 30 days prior to the date of such payment, the Payor will deliver to the Trustee an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable and such other information necessary to enable the Paying Agent to pay Additional Amounts to Holders on the relevant payment date (unless such obligation to pay Additional Amounts arises less than 45 days prior to the relevant payment date, in which case the Payor may deliver such Officer's Certificate as promptly as practicable after the date that is 30 days prior to the payment date). The Trustee shall be entitled to rely solely on such Officer's Certificate as conclusive proof that such payments are necessary.

Wherever in the Indenture, the Senior Secured Notes or this "Description of the notes" there is mentioned, in any context:

- (1) the payment of principal;
- (2) purchase prices in connection with a purchase of Senior Secured Notes;
- (3) interest; or
- (4) any other amount payable on or with respect to any of the Senior Secured Notes or any Guarantee,

such reference shall be deemed to include payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The Payor will pay any present or future stamp, issue, registration, court or documentary taxes, or similar charges or levies or any other excise, property or similar taxes or similar charges or levies (including any related interest, penalties or additions to tax) that arise in a Relevant Taxing Jurisdiction from the execution, delivery or registration of any Senior Secured Notes, any Guarantee, the Indenture, or any other document or instrument in relation thereto (other than in each case, in connection with a transfer of the Senior Secured Notes after this Offering) or the receipt of any payments with respect thereto or any such taxes or similar charges or levies imposed by any jurisdiction as a result of, or in connection with, the enforcement of the Senior Secured Notes or any Guarantee.

The foregoing obligations will survive any termination, defeasance or discharge of the Indenture and will apply *mutatis mutandis* to any jurisdiction in which any successor to a Payor is organized engaged in business for tax purposes or otherwise resident for tax purposes, or any jurisdiction from which any payment under, or with respect to the Senior Secured Notes is made by or on behalf of such Payor, or any political subdivision or taxing authority thereof or therein.

Change of Control

If a Change of Control occurs, subject to the terms of the covenant described under this heading "Change of Control", each Holder will have the right to require the Issuer to repurchase all or any part of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount of the Senior Secured Notes, plus accrued and unpaid interest to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that the Issuer shall not be obligated to repurchase any series of Senior Secured Notes as described under this heading, "Change of Control", in the event and to the extent that it has unconditionally exercised its right to redeem all of the Senior Secured Notes of such series as described under "—Optional Redemption" or all conditions to such redemption have been satisfied or waived.

Unless the Issuer has unconditionally exercised its right to redeem all the Senior Secured Notes as described under "—Optional Redemption" or all conditions to such redemption have been satisfied or waived, no later than the date that is 60 days after any Change of Control, the Issuer will mail a notice (the "Change of Control Offer") to each Holder of any such Senior Secured Notes, with a copy to the Trustee:

- (1) stating that a Change of Control has occurred or may occur and that such Holder has the right to require the Issuer to purchase all or any part of such Holder's Senior Secured Notes at a purchase price in cash equal to 101% of the principal amount of such Senior Secured Notes plus accrued and unpaid interest to, but not including, the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date) (the "Change of Control Payment");
- (2) stating the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed) and the record date (the "Change of Control Payment Date");
- (3) stating that any Senior Secured Note accepted for payment pursuant to the Change of Control Offer will cease to accrue interest after the Change of Control Payment Date unless the Change of Control Payment is not paid, and that any Senior Secured Notes or part thereof not tendered will continue to accrue interest;
- (4) describing the circumstances and relevant facts regarding the transaction or transactions that constitute the Change of Control;
- (5) describing the procedures determined by the Issuer, consistent with the Indenture, that a Holder must follow in order to have its Senior Secured Notes repurchased; and

- (6) if such notice is mailed prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control.

On the Change of Control Payment Date, if the Change of Control shall have occurred, the Issuer will, to the extent lawful:

- (1) accept for payment all Senior Secured Notes or portion thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the Principal Paying Agent an amount equal to the Change of Control Payment in respect of all Senior Secured Notes so tendered;
- (3) deliver or cause to be delivered to the Trustee an Officer's Certificate stating the aggregate principal amount of Senior Secured Notes or portions of the Senior Secured Notes being purchased by the Issuer in the Change of Control Offer;
- (4) in the case of Global Notes, deliver, or cause to be delivered, to the Principal Paying Agent the Global Notes in order to reflect thereon the portion of such Senior Secured Notes or portions thereof that have been tendered to and purchased by the Issuer; and
- (5) in the case of Definitive Registered Notes, deliver, or cause to be delivered, to the relevant Registrar for cancellation all Definitive Registered Notes accepted for purchase by the Issuer.

If any Definitive Registered Notes have been issued, the Paying Agent will promptly mail to each Holder of Definitive Registered Notes so tendered the Change of Control Payment for such Senior Secured Notes, and the Trustee (or an authenticating agent) will, at the cost of the Issuer, promptly authenticate and mail (or cause to be transferred by book-entry) to each Holder of Definitive Registered Notes a new Definitive Registered Note equal in principal amount to the unpurchased portion of the Senior Secured Notes surrendered, if any; *provided* that each such new Senior Secured Note will be in a principal amount that is at least €100,000 and integral multiples of €1,000 in excess thereof.

For so long as the Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of such exchange so require, the Issuer will publish notices relating to the Change of Control Offer in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxembourg Wort*) or to the extent and in the manner permitted by such rules, post such notices on the official website of the Irish Stock Exchange (www.bourse.lu).

Except as described above with respect to a Change of Control, the Indenture will not contain provisions that permit the Holders to require that the Issuer repurchase or redeem the Senior Secured Notes in the event of a takeover, recapitalization or similar transaction. The existence of a Holder's right to require the Issuer to repurchase such Holder's Notes upon the occurrence of a Change of Control may deter a third party from seeking to acquire the Issuer or its Subsidiaries in a transaction that would constitute a Change of Control.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Senior Secured Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place providing for the Change of Control at the time the Change of Control Offer is made.

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of

Senior Secured Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of the conflict.

The Issuer's ability to repurchase Senior Secured Notes issued by it pursuant to a Change of Control Offer may be limited by a number of factors. The occurrence of certain of the events that constitute a Change of Control would require a mandatory prepayment of Indebtedness under the Revolving Credit Facility. In addition, certain events that may constitute a change of control under the Revolving Credit Facility and require a mandatory prepayment of Indebtedness under such agreement may not constitute a Change of Control under the Indenture. Future Indebtedness of the Issuer or its Subsidiaries may also contain prohibitions of certain events that would constitute a Change of Control or require such Indebtedness to be repurchased upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Issuer to repurchase the Senior Secured Notes could cause a default under, or require a repurchase of, such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Issuer. Finally, the Issuer's ability to pay cash to the Holders upon a repurchase may be limited by the Issuer's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. See *"Risk factors—Risks related to the Notes and the capital structure—We may not be able to obtain the funds required to repurchase the Notes upon a "change of control" to finance a change of control offer and certain events that might otherwise constitute a change of control may not trigger a requirement for us to repurchase the Notes if at the time our consolidated leverage ratio is less than certain specified levels"*.

The definition of "Change of Control" includes a disposition of all or substantially all of the property and assets of the Issuer and its Restricted Subsidiaries taken as a whole to specified other Persons. Although there is a limited body of case law interpreting the phrase "substantially all", there is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the property or assets of a Person. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder may require the Issuer to make an offer to repurchase the Senior Secured Notes as described above.

The provisions of the Indenture relating to the Issuer's obligation to make an offer to repurchase the Senior Secured Notes as a result of a Change of Control may be waived or modified with the written consent of Holders of a majority in outstanding principal amount of the Senior Secured Notes.

Certain covenants

Limitation on Indebtedness

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness (including Acquired Indebtedness); *provided, however*, that the Issuer and any Restricted Subsidiary may Incur Indebtedness (including Acquired Indebtedness) if on the date of such Incurrence and after giving *pro forma* effect thereto (including *pro forma* application of the proceeds thereof), (1) the Fixed Charge Coverage Ratio for the Issuer and its Restricted Subsidiaries would have been at least 2.0 to 1.0; and (2) to the extent that the Indebtedness is Senior Secured Indebtedness, the Consolidated Senior Secured Leverage Ratio for the Issuer and its Restricted Subsidiaries would have been no greater than 5.0 to 1.0; and *provided further* that the aggregate principal amount of Indebtedness Incurred by Restricted Subsidiaries that are not Guarantors pursuant to this paragraph shall not exceed €15.0 million.

The first paragraph of this covenant will not prohibit the Incurrence of the following Indebtedness ("Permitted Debt"):

- (1) Indebtedness Incurred pursuant to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof and Guarantees in respect of such Indebtedness in a maximum aggregate principal amount at any time outstanding not exceeding the greater of (i) €60 million and (ii) 100% of Consolidated EBITDA, *plus* in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing;
- (2) (a) Guarantees by the Issuer or any Restricted Subsidiary of Indebtedness of the Issuer or any Restricted Subsidiary, so long as the Incurrence of such Indebtedness is permitted under the terms of the Indenture; or
(b) without limiting the covenant described under "—Limitation on Liens", Indebtedness arising by reason of any Lien granted by or applicable to such Person securing Indebtedness of the Issuer or any Restricted Subsidiary so long as the Incurrence of such Indebtedness is permitted under the terms of the Indenture;
- (3) Indebtedness of the Issuer owing to and held by any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owing to and held by the Issuer or any Restricted Subsidiary; *provided, however, that*:
 - (a) in the case of Indebtedness owing to and held by any Restricted Subsidiary that is not a Guarantor, to the extent such Indebtedness is not expressly subordinated to the prior payment in full in cash of all obligations with respect to the Senior Secured Notes, the Funding Loan and the Guarantees;
 - (b) any subsequent issuance or transfer of Capital Stock or any other event which results in any such Indebtedness being beneficially held by a Person other than the Issuer or a Restricted Subsidiary of the Issuer; and
 - (c) any sale or other transfer of any such Indebtedness to a Person other than the Issuer or a Restricted Subsidiary of the Issuer,

shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (3) by the Issuer or such Restricted Subsidiary, as the case may be;
- (4) (a) Indebtedness represented by the Senior Secured Notes (other than any Additional Senior Secured Notes), (b) any Indebtedness outstanding on the Issue Date (other than Indebtedness Incurred under clauses (1) or (3) of this paragraph), (c) Refinancing Indebtedness Incurred in respect of any Indebtedness described in this clause (4) or clauses (5) and (13) of this paragraph or Incurred pursuant to the first paragraph of this covenant, (d) Management Advances, (e) any loan or other instrument contributing the proceeds of the Senior Secured Notes, including the Funding Loans and (f) any loan or other instrument contributing the proceeds of any Indebtedness Incurred in accordance with the Indenture, including any Additional Funding Loans;
- (5) Indebtedness of any Person (i) outstanding on the date on which such Person becomes a Restricted Subsidiary of the Issuer or any Restricted Subsidiary or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Issuer or any Restricted Subsidiary or (ii) Incurred to provide all or a portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Issuer or a Restricted Subsidiary; *provided, however, with respect*

to this clause (5), that at the time of such acquisition or other transaction (x) the Issuer would have been able to Incur €1.00 of additional Indebtedness pursuant to the first paragraph of this covenant after giving *pro forma* effect to the relevant acquisition and the Incurrence of such Indebtedness pursuant to this clause (5) or (y) the Fixed Charge Coverage Ratio would not be less than it was immediately prior to giving effect to such acquisition or other transaction;

- (6) Indebtedness under Currency Agreements, Interest Rate Agreements and Commodity Hedging Agreements not for speculative purposes (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer);
- (7) Indebtedness consisting of (A) Capitalized Lease Obligations, mortgage financings, Purchase Money Obligations or other financings, incurred for the purpose of financing all or any part of the purchase price or cost of construction or improvement of property, plant or equipment used in a Similar Business or (B) Indebtedness otherwise incurred to finance the purchase, lease, rental or cost of design, construction, installation or improvement of property (real or personal) or equipment that is used or useful in a Similar Business, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, and any Indebtedness which refinances, replaces or refunds such Indebtedness, in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (7) and then outstanding, will not exceed at any time outstanding the greater of 18% of Consolidated EBITDA or €10 million and in the case of Purchase Money Obligations is Incurred within 180 days of the purchase of the relevant assets;
- (8) Indebtedness in respect of (a) workers' compensation claims, self-insurance obligations, performance, indemnity, surety, judgment, appeal, advance payment, customs, VAT or other tax or other guarantees or other similar bonds, instruments or obligations and completion guarantees and warranties provided by the Issuer or a Restricted Subsidiary or relating to liabilities, obligations or guarantees Incurred in the ordinary course of business or in respect of any governmental requirement, (b) letters of credit, bankers' acceptances, guarantees or other similar instruments or obligations issued or relating to liabilities or obligations Incurred in the ordinary course of business or in respect of any governmental requirement, *provided, however*, that upon the drawing of such letters of credit or other similar instruments, the obligations are reimbursed within 30 days following such drawing, (c) the financing of insurance premiums in the ordinary course of business and (d) any customary cash management, cash pooling or netting or setting off arrangements in the ordinary course of business;
- (9) Indebtedness arising from agreements providing for customary guarantees, indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, Incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Capital Stock of a Subsidiary (other than Guarantees of Indebtedness Incurred by any Person acquiring or disposing of such business or assets or such Subsidiary for the purpose of financing such acquisition or disposition); *provided* that the maximum liability of the Issuer and its Restricted Subsidiaries in respect of all such Indebtedness shall at no time exceed the gross proceeds, including the fair market value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Issuer and its Restricted Subsidiaries in connection with such disposition;
- (10)(a) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within 30 Business Days of Incurrence;

- (b) customer deposits and advance payments received in the ordinary course of business from customers for goods or services purchased in the ordinary course of business;
 - (c) Indebtedness owed on a short-term basis of no longer than 30 days to banks and other financial institutions incurred in the ordinary course of business of the Issuer and its Restricted Subsidiaries with such banks or financial institutions that arises in connection with ordinary banking arrangements to manage cash balances of the Issuer and its Restricted Subsidiaries; and
 - (d) Indebtedness incurred by a Restricted Subsidiary in connection with bankers acceptances, discounted bills of exchange or the discounting or factoring of receivables for credit management of bad debt purposes, in each case incurred or undertaken in the ordinary course of business;
- (11) Indebtedness in an aggregate outstanding principal amount which, when taken together with any Refinancing Indebtedness in respect thereof and the principal amount of all other Indebtedness Incurred pursuant to this clause (11) and then outstanding, will not exceed the greater of 46% of Consolidated EBITDA or €25 million; and
- (12) Indebtedness of the Issuer and the Guarantors in an aggregate outstanding principal amount which, when taken together with any Refinancing Indebtedness in respect thereof and the principal amount of all other Indebtedness Incurred pursuant to this clause (12) and then outstanding, will not exceed 100% of the Net Cash Proceeds received by the Issuer from the issuance or sale (other than to a Restricted Subsidiary) of its Subordinated Shareholder Funding or Capital Stock (other than Disqualified Stock, Designated Preference Shares or an Excluded Contribution) or otherwise contributed to the equity (other than through the issuance of Disqualified Stock, Designated Preference Shares or an Excluded Contribution) of the Issuer, in each case, subsequent to the Issue Date; provided, however, that (i) any such Net Cash Proceeds that are so received or contributed shall be excluded for purposes of making Restricted Payments under the first paragraph and clauses (1), (6) and (10) of the third paragraph of the covenant described below under "Certain Covenants—Limitation on Restricted Payments" to the extent the Issuer and its Restricted Subsidiaries incur Indebtedness in reliance thereon and (ii) any Net Cash Proceeds that are so received or contributed shall be excluded for purposes of Incurring Indebtedness pursuant to this clause (12) to the extent the Issuer or any of its Restricted Subsidiaries makes a Restricted Payment under the first paragraph and clauses (1), (6) and (10) of the third paragraph of the covenant described below under "—Certain Covenants—Limitation on Restricted Payments" in reliance thereon.

For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant:

- (1) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, the Issuer, in its sole discretion, will classify, and may from time to time reclassify, such item of Indebtedness and only be required to include the amount and type of such Indebtedness in one of the clauses of the second paragraph or the first paragraph of this covenant;
- (2) all Indebtedness outstanding on the Issue Date under the Revolving Credit Facility shall be deemed initially Incurred under clause (1) of the second paragraph of this covenant and not the first paragraph or clause (4)(b) of the second paragraph of this covenant, and may not be reclassified pursuant to clause (1) of this paragraph;
- (3) Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included;

- (4) if obligations in respect of letters of credit, bankers' acceptances or other similar instruments are Incurred pursuant to any Credit Facility and are being treated as Incurred pursuant to clause (1), (7), (11) or (12) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included;
- (5) the principal amount of any Disqualified Stock of the Issuer or a Restricted Subsidiary, or Preferred Stock of a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof;
- (6) Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness;
- (7) the amount of Indebtedness issued at a price that is less than the principal amount thereof will be equal to the amount of the liability in respect thereof determined on the basis of IFRS; and
- (8) for the purposes of determining "Consolidated EBITDA" under clause (1)(ii) of the second paragraph of this covenant, (i) pro forma effect shall be given to Consolidated EBITDA on the same basis as for calculating the Consolidated Secured Leverage Ratio for the Issuer and its Restricted Subsidiaries and (ii) Consolidated EBITDA shall be measured on the date on which the Issuer obtains new commitments (in the case of revolving facilities) or incurs new Indebtedness (in the case of term facilities).

Accrual of interest, accrual of dividends, the accretion of accreted value, the accretion or amortization of original issue discount, the payment of interest in the form of additional Indebtedness, the payment of dividends in the form of additional shares of Preferred Stock or Disqualified Stock or the reclassification of commitments or obligations not treated as Indebtedness due to a change in IFRS will not be deemed to be an Incurrence of Indebtedness for purposes of the covenant described under this "—Limitation on Indebtedness". The amount of any Indebtedness outstanding as of any date shall be (a) the accreted value thereof in the case of any Indebtedness issued with original issue discount and (b) the principal amount, or liquidation preference thereof, in the case of any other Indebtedness.

If at any time an Unrestricted Subsidiary becomes a Restricted Subsidiary, any Indebtedness of such Subsidiary shall be deemed to be Incurred by a Restricted Subsidiary of the Issuer as of such date (and, if such Indebtedness is not permitted to be Incurred as of such date under the covenant described under this "—Limitation on Indebtedness", the Issuer shall be in Default of this covenant).

For purposes of determining compliance with any euro-denominated restriction on the Incurrence of Indebtedness, the Euro Equivalent of the principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or first committed, in the case of Indebtedness Incurred under a revolving credit facility; *provided* that (a) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a currency other than euro, and such refinancing would cause the applicable euro-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such euro-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the amount set forth in clause (2) of the definition of Refinancing Indebtedness; (b) the Euro Equivalent of the principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date; and (c) if any such Indebtedness that is denominated in a different currency is subject to a Currency Agreement (with respect to the euro) covering principal amounts payable on such

Indebtedness, the amount of such Indebtedness expressed in euro will be adjusted to take into account the effect of such agreement.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Issuer or a Restricted Subsidiary may incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies. The principal amount of any Indebtedness Incurred to refinance other Indebtedness, if Incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such Refinancing Indebtedness is denominated that is in effect on the date of such refinancing.

Neither the Issuer nor any Guarantor will incur any Indebtedness (including Permitted Debt) that is contractually subordinated in right of payment to any other Indebtedness of the Issuer or any Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the Senior Secured Notes and the applicable Guarantee, if any, on substantially identical terms; *provided, however*, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Issuer or any Guarantor solely by virtue of being unsecured or by virtue of being secured with different collateral or by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment ordering provisions affecting different tranches of Indebtedness.

Limitation on Restricted Payments

The Issuer will not, and will not permit any of its Restricted Subsidiaries, directly or indirectly, to:

- (1) declare or pay any dividend or make any other payment or distribution on or in respect of the Issuer's or any Restricted Subsidiary's Capital Stock (including any payment in connection with any merger or consolidation involving the Issuer or any of its Restricted Subsidiaries) except:
 - (a) dividends or distributions payable in Capital Stock of the Issuer (other than Disqualified Stock) or in options, warrants or other rights to purchase such Capital Stock of the Issuer or in Subordinated Shareholder Funding; and
 - (b) dividends or distributions payable to the Issuer or a Restricted Subsidiary (and, in the case of any such Restricted Subsidiary making such dividend or distribution, to holders of its Capital Stock other than the Issuer or another Restricted Subsidiary);
- (2) purchase, redeem, retire or otherwise acquire for value any Capital Stock of the Issuer or any direct or indirect Parent of the Issuer held by Persons other than the Issuer or a Restricted Subsidiary of the Issuer (other than in exchange for Capital Stock of the Issuer (other than Disqualified Stock));
- (3) make any principal payment on, or purchase, repurchase, redeem, defease or otherwise acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Indebtedness (other than (a) any such payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement or in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case, due within one year of the date of payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement and (b) any Indebtedness Incurred pursuant to clause (3) of the second paragraph of the covenant described under "—Limitation on Indebtedness") or any Subordinated Shareholder Funding (other than any payment of interest thereon in the form of additional Subordinated Shareholder Funding); or
- (4) make any Restricted Investment in any Person,

(any such dividend, distribution, payment, purchase, redemption, repurchase, defeasance, other acquisition, retirement or Restricted Investment referred to in clauses (1) through (4) are referred to herein as a "Restricted Payment"), if at the time the Issuer or such Restricted Subsidiary makes such Restricted Payment:

- (a) a Default shall have occurred and be continuing (or would result immediately thereafter therefrom);
- (b) the Issuer is not able to Incur an additional €1.00 of Indebtedness pursuant to the first paragraph of the covenant described under "—Limitation on Indebtedness" after giving effect, on a *pro forma* basis, to such Restricted Payment; or
- (c) the aggregate amount of such Restricted Payment and all other Restricted Payments made subsequent to the Issue Date (and not returned or rescinded) (including Permitted Payments permitted below by clauses (5), (9), (10), (11), (15), (17) and (18) of the second succeeding paragraph, but excluding all other Restricted Payments permitted by the second succeeding paragraph) would exceed the sum of (without duplication):
 - (i) 50% of Consolidated Net Income for the period (treated as one accounting period) from the first day of the fiscal quarter commencing prior to the Issue Date to the end of the most recent fiscal quarter ending prior to the date of such Restricted Payment for which internal consolidated financial statements of the Issuer are available (or, in the case such Consolidated Net Income is a deficit, minus 100% of such deficit);
 - (ii) 100% of the aggregate Net Cash Proceeds, and the fair market value (as determined in accordance with the next succeeding paragraph) of property or assets or marketable securities, received by the Issuer from the issue or sale of its Capital Stock (other than Disqualified Stock or Designated Preference Shares) or Subordinated Shareholder Funding subsequent to the Issue Date or otherwise contributed to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer subsequent to the Issue Date (other than (w) Subordinated Shareholder Funding or Capital Stock in each case sold to a Subsidiary of the Issuer, (x) Net Cash Proceeds or property or assets or marketable securities received from an issuance or sale of such Capital Stock to a Restricted Subsidiary or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary, (y) Net Cash Proceeds or property or assets or marketable securities to the extent that any Restricted Payment has been made from such proceeds in reliance on clause (6) of the second succeeding paragraph and (z) Excluded Contributions);
 - (iii) 100% of the aggregate Net Cash Proceeds, and the fair market value (as determined in accordance with the next succeeding paragraph) of property or assets or marketable securities, received by the Issuer or any Restricted Subsidiary from the issuance or sale (other than to the Issuer or a Restricted Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) by the Issuer or any Restricted Subsidiary subsequent to the Issue Date of any Indebtedness that has been converted into or exchanged for Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares) or Subordinated Shareholder Funding (plus the amount of any cash, and the fair market value (as determined in accordance with the next succeeding paragraph) of property or assets or marketable securities, received by the Issuer or any Restricted Subsidiary upon such conversion or exchange) but excluding (w) Disqualified Stock or Indebtedness issued or sold to a Subsidiary of the Issuer, (x) Net Cash Proceeds to the extent that any Restricted Payment has been made from such proceeds in reliance on clause (6) of the second succeeding paragraph, and (y) Excluded Contributions; and

- (iv) 100% of the aggregate Net Cash Proceeds, and the fair market value (as determined in accordance with the next succeeding paragraph) of property or assets or marketable securities, received by the Issuer or any Restricted Subsidiary (other than to the Issuer or a Restricted Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) from the disposition of any Unrestricted Subsidiary or the disposition or repayment of any Investment constituting a Restricted Payment made after the Issue Date;
- (v) in the case of the designation of an Unrestricted Subsidiary as a Restricted Subsidiary or all of the assets of such Unrestricted Subsidiary are transferred to the Issuer or a Restricted Subsidiary, or the Unrestricted Subsidiary is merged or consolidated into the Issuer or a Restricted Subsidiary, 100% of such amount received in cash and the fair market value of any property or marketable securities received by the Issuer or any Restricted Subsidiary in respect of such redesignation, merger, consolidation or transfer of assets, excluding the amount of any Investment in such Unrestricted Subsidiary that constituted a Permitted Investment made pursuant to clause (11) of the definition of "Permitted Investment"; and
- (vi) 100% of any dividends or distributions received by the Issuer or a Restricted Subsidiary after the Issue Date from an Unrestricted Subsidiary,

provided, however, that no amount will be included in Consolidated Net Income for purposes of the preceding clause (i) to the extent that it is (at the Issuer's option) included in the foregoing clause (iv), (v) or (vi).

The fair market value of property or assets other than cash covered by the preceding sentence shall be the fair market value thereof as determined in good faith by an officer of the Issuer, or, if such fair market value exceeds €10 million, by the Board of Directors.

The foregoing provisions will not prohibit any of the following (collectively, "Permitted Payments"):

- (1) any Restricted Payment made by exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the proceeds of the substantially concurrent sale (other than to a Subsidiary of the Issuer) of, Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares), Subordinated Shareholder Funding or a substantially concurrent contribution to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer; *provided, however,* that to the extent so applied, the Net Cash Proceeds, or fair market value (as determined in accordance with the preceding sentence) of property or assets or of marketable securities, from such sale of Capital Stock or Subordinated Shareholder Funding or such contribution will be excluded from clause (c)(ii) of the preceding paragraph;
- (2) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness made by exchange for, or out of the proceeds of the substantially concurrent sale of, Refinancing Indebtedness permitted to be Incurred pursuant to the covenant described under "—Limitation on Indebtedness" above;
- (3) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Preferred Stock of the Issuer or a Restricted Subsidiary made by exchange for or out of the proceeds of the substantially concurrent sale of Preferred Stock of the Issuer or a Restricted Subsidiary, as the case may be, that, in each case, is permitted to be Incurred pursuant to the covenant described under "—Limitation on Indebtedness" above, and that in each case, constitutes Refinancing Indebtedness;

- (4) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness:
- (a) (i) from Net Available Cash to the extent permitted under “—Limitation on Sales of Assets and Subsidiary Stock” below, but only if the Issuer shall have first complied with the terms described under “—Limitation on Sales of Assets and Subsidiary Stock” and purchased all Senior Secured Notes tendered pursuant to any offer to repurchase all the Senior Secured Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest;
 - (b) following the occurrence of a Change of Control (or other similar event described therein as a “change of control”), but only (i) if the Issuer shall have first complied with the terms described under “—Change of Control” and purchased all Senior Secured Notes tendered pursuant to the offer to repurchase all the Senior Secured Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 101% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest; or
 - (c) (i) consisting of Acquired Indebtedness (other than Indebtedness Incurred (A) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Issuer or a Restricted Subsidiary or (B) otherwise in connection with or contemplation of such acquisition) and (ii) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest and any premium required by the terms of any Acquired Indebtedness;
- (5) any dividends paid within 60 days after the date of declaration if at such date of declaration such dividend would have complied with this covenant;
- (6) the purchase, repurchase, redemption, defeasance or other acquisition, cancellation or retirement for value of Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof) and loans, advances, dividends or distributions by the Issuer to any Parent to permit any Parent to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), or payments to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), in each case from Management Investors; *provided* that such payments, loans, advances, dividends or distributions do not exceed an amount (net of repayments of any such loans or advances) equal to (1) €3 million, plus €1 million multiplied by the number of calendar years that have commenced since the Issue Date, plus (2) the Net Cash Proceeds received by the Issuer or its Restricted Subsidiaries since the Issue Date (including through receipt of proceeds from the issuance or sale of its Capital Stock or Subordinated Shareholder Funding to a Parent) from, or as a contribution to the equity (in each case under this clause (2), other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer from, the issuance or sale to Management Investors of Capital Stock (including any options, warrants or other rights in respect thereof), to the extent such Net Cash Proceeds are not included in any calculation under clause (c)(ii) of the first paragraph describing this covenant;

- (7) the declaration and payment of dividends to holders of any class or series of Disqualified Stock, or of any Preferred Stock of a Restricted Subsidiary, Incurred in accordance with the terms of the covenant described under “—Limitation on Indebtedness”;
- (8) purchases, repurchases, redemptions, defeasances or other acquisitions or retirements of Capital Stock deemed to occur upon the exercise of stock options, warrants or other rights in respect thereof if such Capital Stock represents a portion of the exercise price thereof;
- (9) dividends, loans, advances or distributions to any Parent or other payments by the Issuer or any Restricted Subsidiary in amounts equal to (without duplication):
 - (a) the amounts required for any Parent to pay any Parent Expenses or any Related Taxes; or
 - (b) amounts constituting or to be used for purposes of making payments of fees and expenses Incurred (i) in connection with the Transactions or disclosed in the Offering Memorandum or (ii) to the extent specified in clauses (2), (3), (5), (7) and (11) of the second paragraph under “—Limitation on Affiliate Transactions”;
- (10) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), the declaration and payment by the Issuer of, or loans, advances, dividends or distributions to any Parent to pay, dividends on the common stock or common equity interests of the Issuer or any Parent following a Public Offering of such common stock or common equity interests, in an amount not to exceed in any fiscal year the greater of
 - (a) 6% of the Net Cash Proceeds received by the Issuer from such Public Offering or contributed to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer or contributed as Subordinated Shareholder Funding to the Issuer and (b) following the Initial Public Offering, an amount equal to the greater of (i) the greater of (A) 7% of the Market Capitalization and (B) 7% of the IPO Market Capitalization; *provided* that in the case of this clause (i) after giving *pro forma* effect to such loans, advances, dividends or distributions, the Consolidated Leverage Ratio shall be equal to or less than 3.0 to 1.0 and (ii) the greater of (A) 5% of the Market Capitalization and (B) 5% of the IPO Market Capitalization; *provided* that in the case of this clause (ii) after giving *pro forma* effect to such loans, advances, dividends and distributions, the Consolidated Leverage Ratio shall be equal to or less than 3.375 to 1.0;
- (11) so long as no Default or Event of Default has occurred and is continuing (or would result from), Restricted Payments in an aggregate amount outstanding at any time not to exceed the greater of €12.5 million and 23% of Consolidated EBITDA;
- (12) payments by the Issuer, or loans, advances, dividends or distributions to any Parent to make payments, to holders of Capital Stock of the Issuer or any Parent in lieu of the issuance of fractional shares of such Capital Stock, *provided, however*, that any such payment, loan, advance, dividend or distribution shall not be for the purpose of evading any limitation of this covenant or otherwise to facilitate any dividend or other return of capital to the holders of such Capital Stock (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer);
- (13) Restricted Payments in an aggregate amount outstanding at any time not to exceed the aggregate cash amount of Excluded Contributions, or consisting of non-cash Excluded Contributions, or Investments in exchange for or using as consideration Investments previously made under this clause (13);
- (14) payment of any Receivables Fees and purchases of Receivables Assets pursuant to a Receivables Repurchase Obligation in connection with a Qualified Receivables Financing;

- (15)(i) the declaration and payment of dividends to holders of any class or series of Designated Preference Shares of the Issuer issued after the Issue Date; and (ii) the declaration and payment of dividends to any Parent or any Affiliate thereof, the proceeds of which will be used to fund the payment of dividends to holders of any class or series of Designated Preference Shares of such Parent or Affiliate issued after the Issue Date; *provided, however*, that, in the case of clauses (i) and (ii), the amount of all dividends declared or paid pursuant to this clause (15) shall not exceed the Net Cash Proceeds received by the Issuer or the aggregate amount contributed in cash to the equity (other than through the issuance of Disqualified Stock or an Excluded Contribution or, in the case of Designated Preference Shares by Parent or an Affiliate the issuance of Designated Preference Shares) of the Issuer or contributed as Subordinated Shareholder Funding to the Issuer, as applicable, from the issuance or sale of such Designated Preference Shares;
- (16) dividends or other distributions of Capital Stock, Indebtedness or other securities of Unrestricted Subsidiaries;
- (17) dividends or other distributions in amounts required for a direct or indirect parent of the Issuer to pay interest on Indebtedness the proceeds of which have been contributed to the Issuer or any of its Restricted Subsidiaries and that has been guaranteed by, or is otherwise considered Indebtedness of, the Issuer or any of its Restricted Subsidiaries Incurred in accordance with the covenant described under “—Limitation on Indebtedness”; and
- (18) so long as no Default or Event of Default has occurred and is continuing (or would result from), any dividend, distribution, loan or other payment to any Parent; *provided* that the Consolidated Leverage Ratio does not exceed 2.5 to 1.0 on a *pro forma* basis after giving effect to any such dividend, distribution, loan or other payment.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of such Restricted Payment of the asset(s) or securities proposed to be paid, transferred or issued by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to such Restricted Payment. The fair market value of any cash Restricted Payment shall be its face amount, and the fair market value of any non-cash Restricted Payment shall be determined conclusively by the Board of Directors of the Issuer acting in good faith.

Limitation on Liens

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, create, incur or suffer to exist any Lien upon any of its property or assets (including Capital Stock of a Restricted Subsidiary of the Issuer), whether owned on the Issue Date or acquired after that date, or any interest therein or any income or profits therefrom, which Lien is securing any Indebtedness (such Lien, the “Initial Lien”), except (a) in the case of any property or asset that does not constitute Collateral, (1) Permitted Liens or (2) Liens on property or assets that are not Permitted Liens if the Senior Secured Notes and the Indenture are directly secured (or indirectly secured through the Company Funding Loan, the Titan 3 Funding Loan, the Company Shareholder Loan and/or the Titan 3 Shareholder Loan) equally and ratably with, or prior to, in the case of Liens with respect to Subordinated Indebtedness, the Indebtedness secured by such Initial Lien for so long as such Indebtedness is so secured, and (b) in the case of any property or asset that constitutes Collateral, Permitted Collateral Liens.

Any such Lien created in favor of the Senior Secured Notes will be automatically and unconditionally released and discharged upon (i) the release and discharge of the Initial Lien to which it relates, and (ii) otherwise as set forth under “—Security—Release of Liens”.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

The Issuer will not, and will not permit any Restricted Subsidiary to, create or otherwise cause or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

(A) pay dividends or make any other distributions in cash or otherwise on its Capital Stock or pay any Indebtedness or other obligations owed to the Issuer or any Restricted Subsidiary, or with respect to any other interest or participation in, or measured by, its profits, or pay any Indebtedness owed to the Parent or any other Restricted Subsidiary;

(B) make any loans or advances to the Issuer or any Restricted Subsidiary; or

(C) sell, lease or transfer any of its property or assets to the Issuer or any Restricted Subsidiary,

provided that (x) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill requirements to) loans or advances made to the Issuer or any Restricted Subsidiary to other Indebtedness Incurred by the Issuer or any Restricted Subsidiary shall not be deemed to constitute such an encumbrance or restriction.

The provisions of the preceding paragraph will not prohibit:

(1) any encumbrance or restriction pursuant to (a) any Credit Facility (including the Revolving Credit Facility) or (b) any other agreement or instrument, in each case, in effect at or entered into on the Issue Date;

(2) any encumbrance or restriction pursuant to an agreement or instrument of a Person or relating to any Capital Stock or Indebtedness of a Person, entered into on or before the date on which such Person was acquired by or merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary, or on which such agreement or instrument is assumed by the Issuer or any Restricted Subsidiary in connection with an acquisition of assets (other than Capital Stock or Indebtedness Incurred as consideration in, or to provide all or any portion of the funds utilized to consummate, the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was acquired by the Issuer or was merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary entered into or in connection with such transaction) and outstanding on such date; *provided* that, for the purposes of this clause (2), if another Person is the Successor Company (as defined under “—Merger and Consolidation”), any Subsidiary thereof or agreement or instrument of such Person or any such Subsidiary shall be deemed acquired or assumed by the Issuer or any Restricted Subsidiary when such Person becomes the Successor Company;

(3) any encumbrance or restriction pursuant to an agreement or instrument effecting a refinancing of Indebtedness Incurred pursuant to, or that otherwise refinances, an agreement or instrument referred to in clause (1) or (2) of this paragraph or this clause (3) (an “Initial Agreement”) or contained in any amendment, supplement or other modification to an agreement referred to in clause (1) or (2) of this paragraph or this clause (3); *provided, however*, that the encumbrances and restrictions with respect to such Restricted Subsidiary contained in any such agreement or instrument are no less favorable in any material respect to the Holders taken as a whole than the encumbrances and restrictions contained in the Initial Agreement or Initial Agreements to which such refinancing or amendment, supplement or other modification relates (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer);

- (4) any encumbrance or restriction:
 - (a) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or the assignment or transfer of any lease, license or other contract;
 - (b) contained in mortgages, charges, pledges or other security agreements permitted under the Indenture or securing Indebtedness of the Issuer or a Restricted Subsidiary permitted under the Indenture to the extent such encumbrances or restrictions restrict the transfer of the property or assets subject to such mortgages, charges, pledges or other security agreements; or
 - (c) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Issuer or any Restricted Subsidiary;
- (5) any encumbrance or restriction pursuant to Purchase Money Obligations and Capitalized Lease Obligations permitted under the Indenture, in each case, that impose encumbrances or restrictions on the property so acquired, or any encumbrance or restriction pursuant to a joint venture agreement that imposes restrictions on the distribution or transfer of the assets or Capital Stock of the joint venture;
- (6) any encumbrance or restriction with respect to a Restricted Subsidiary (or any of its property or assets) imposed pursuant to an agreement entered into for the direct or indirect sale or disposition to a Person of all or substantially all the Capital Stock or assets of such Restricted Subsidiary (or the property or assets that are subject to such restriction) pending the closing of such sale or disposition;
- (7) customary provisions in leases, licenses, joint venture agreements and other similar agreements and instruments entered into in the ordinary course of business;
- (8) encumbrances or restrictions arising or existing by reason of applicable law or any applicable rule, regulation or order, or required by any regulatory authority;
- (9) any encumbrance or restriction on cash or other deposits or net worth imposed by customers under agreements entered into in the ordinary course of business;
- (10) any encumbrance or restriction pursuant to Currency Agreements, Interest Rate Agreements or Commodity Hedging Agreements;
- (11) any encumbrance or restriction arising pursuant to an agreement or instrument (a) relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under “—Limitation on Indebtedness” if the encumbrances and restrictions;
- (12) contained in any such agreement or instrument taken as a whole are not materially less favorable to the Holders of the Senior Secured Notes than (i) the encumbrances and restrictions contained in the Revolving Credit Facility, together with the security documents associated therewith, and the Intercreditor Agreement, in each case, as in effect on the Issue Date or (ii) as is customary in comparable financings (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) or (b) constituting an Additional Intercreditor Agreement;
- (13) restrictions effected in connection with a Qualified Receivables Financing that, in the good faith determination of the Board of Directors or a member of Senior Management of the Issuer, are necessary or advisable to effect such Qualified Receivables Financing; or
- (14) any encumbrance or restriction existing by reason of any lien permitted under “—Limitation on Liens”.

Limitation on Sales of Assets and Subsidiary Stock

The Issuer will not, and will not permit any Restricted Subsidiary to, consummate any Asset Disposition unless:

- (1) the consideration the Issuer or such Restricted Subsidiary receives for such Asset Disposition is not less than the fair market value of the assets sold (as determined by the Issuer's Board of Directors); and
- (2) at least 75% of the consideration the Issuer or such Restricted Subsidiary receives in respect of such Asset Disposition consists of:
 - (i) cash (including any Net Cash Proceeds received from the conversion within 180 days of such Asset Disposition of securities, notes or other obligations received in consideration of such Asset Disposition);
 - (ii) Cash Equivalents;
 - (iii) the assumption by the purchaser of (x) any liabilities recorded on the Issuer's or such Restricted Subsidiary's balance sheet or the notes thereto (or, if incurred since the date of the latest balance sheet, that would be recorded on the next balance sheet) (other than Subordinated Debt), as a result of which neither the Issuer nor any of the Restricted Subsidiaries remains obligated in respect of such liabilities or (y) Indebtedness of a Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, if the Issuer and each other Restricted Subsidiary is released from any guarantee of such Indebtedness as a result of such Asset Disposition;
 - (iv) Replacement Assets;
 - (v) any Capital Stock or assets of the kind referred to in clause (4) or (6) in the third paragraph of this covenant;
 - (vi) consideration consisting of Indebtedness of the Issuer or any Guarantor received from Persons who are not the Issuer or any Restricted Subsidiary, but only to the extent that such Debt (i) has been extinguished by the Issuer or the applicable Guarantor and (ii) is not Subordinated Indebtedness of the Issuer or such Guarantor;
 - (vii) any Designated Non-Cash Consideration received by the Issuer or any Restricted Subsidiary, having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received pursuant to this covenant that is at any one time outstanding, not to exceed the greater of €10 million or 18% of Consolidated EBITDA (with the fair market value of each issue of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value); or
 - (viii) a combination of the consideration specified in clauses (i) through (vii) of this paragraph (2).

If the Issuer or any Restricted Subsidiary consummates an Asset Disposition, the Net Cash Proceeds of the Asset Disposition, within 365 days of the later of (i) the date of the consummation of such Asset Disposition and (ii) the receipt of such Net Cash Proceeds, may be used by the Issuer or such Restricted Subsidiary to:

- (1) (i) prepay, repay, purchase or redeem any Indebtedness incurred under clause (1) of the second paragraph of the covenant described under "—Limitation on Indebtedness" or any Refinancing Indebtedness in respect thereof; *provided, however*, that, in connection with any prepayment, repayment or purchase of Indebtedness pursuant to this clause (1), the Issuer or such Restricted Subsidiary will (except in the case of Indebtedness incurred pursuant to clause (1) of the second paragraph of the covenant described under "—Limitation on Indebtedness," retire such Indebtedness and will cause the related

commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid, purchase or redeemed; (ii) unless included in (1)(i), prepay, repay, purchase or redeem Senior Secured Notes or Indebtedness that is secured by a Lien on the Collateral that is not subordinated in right of payment to the Senior Secured Notes at a price of no more than 100% of the principal amount of the Senior Secured Notes or such applicable Indebtedness, plus accrued and unpaid interest to the date of such prepayment, repayment, purchase or redemption; or (iii) prepay, repay, purchase or redeem any Indebtedness of a Restricted Subsidiary of the Issuer that is not a Guarantor or any Indebtedness that is secured on assets which do not constitute Collateral (in each case other than Subordinated Indebtedness of the Issuer or a Guarantor or Indebtedness owed to the Issuer or any Restricted Subsidiary); *provided* that the Issuer shall prepay, repay, purchase or redeem Indebtedness (other than the Senior Secured Notes) pursuant to clause (ii) or (iii) only if the Issuer makes (at such time or in compliance with this covenant) an offer to Holders to purchase their Notes in accordance with the provisions set forth below for an Asset Disposition Offer for an aggregate principal amount of Notes equal to the proportion that (x) the total aggregate principal amount of Senior Secured Notes outstanding bears to (y) the sum total aggregate principal amount of the Senior Secured Notes outstanding plus the total aggregate principal amount outstanding of such Indebtedness (other than the Senior Secured Notes);

- (2) purchase Senior Secured Notes pursuant to an offer to all Holders of the Senior Secured Notes at a purchase price in cash equal to at least 100% of the principal amount thereof, plus accrued and unpaid interest to, but not including, the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date);
- (3) invest in any Replacement Assets;
- (4) acquire all or substantially all of the assets of, or any Capital Stock of, another Similar Business, if, after giving effect to any such acquisition of Capital Stock, the Similar Business is or becomes a Restricted Subsidiary;
- (5) make a capital expenditure;
- (6) acquire other assets (other than Capital Stock and cash or Cash Equivalents) that are used or useful in a Similar Business;
- (7) consummate any combination of the foregoing; or
- (8) enter into a binding commitment to apply the Net Cash Proceeds pursuant to clause (1), (3), (4), (5) or (6) of this paragraph, *provided* that, a binding commitment shall be treated as a permitted application of the Net Cash Proceeds from the date of such commitment until the earlier of (x) the date on which such investment is consummated, (y) the 180th day following the expiration of the aforementioned 365 day period, if the investment has not been consummated by that date,

provided, however, if the assets disposed of constitute Collateral or constitute all or substantially all of the assets of a Restricted Subsidiary whose Capital Stock has been pledged as Collateral, subject to the Agreed Security Principles, the Issuer shall pledge or shall cause the applicable Restricted Subsidiary to pledge any acquired Capital Stock or assets (to the extent such assets were of a category of assets included in the Collateral as of the Issue Date) referred to in this covenant in favor of the Senior Secured Notes on a first-ranking basis.

The amount of such Net Cash Proceeds not so used as set forth in this paragraph constitutes "Excess Proceeds". Pending the final application of any such Net Cash Proceeds, the Issuer may temporarily reduce revolving credit borrowings or otherwise invest such Net Cash Proceeds in any manner that is not prohibited by the terms of the Indenture.

On the 366th day after an Asset Disposition, if the aggregate amount of Excess Proceeds exceeds €15 million, the Issuer will be required within 10 Business Days thereof to make an offer ("Asset Disposition Offer") to all Holders and, to the extent the Issuer elects, to all holders of other outstanding Pari Passu Indebtedness, to purchase the maximum principal amount of Senior Secured Notes and any such Pari Passu Indebtedness to which the Asset Disposition Offer applies that may be purchased out of the Excess Proceeds, at an offer price in respect of the Senior Secured Notes in an amount equal to (and, in the case of any Pari Passu Indebtedness, an offer price of no more than) 100% of the principal amount of the Senior Secured Notes and 100% of the principal amount of Pari Passu Indebtedness, in each case, plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture or the agreements governing the Pari Passu Indebtedness, as applicable, in minimum denominations of €100,000 and in integral multiples of €1,000 in excess thereof.

To the extent that the aggregate amount of Senior Secured Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to an Asset Disposition Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to other covenants contained in the Indenture. If the aggregate principal amount of the Senior Secured Notes surrendered in any Asset Disposition Offer by Holders and other Pari Passu Indebtedness surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Excess Proceeds shall be allocated among the Senior Secured Notes and Pari Passu Indebtedness to be purchased on a pro rata basis on the basis of the aggregate principal amount of tendered Senior Secured Notes and Pari Passu Indebtedness. For the purposes of calculating the principal amount of any such Indebtedness not denominated in euro, such Indebtedness shall be calculated by converting any such principal amounts into their Euro Equivalent determined as of a date selected by the Issuer that is within the Asset Disposition Offer Period (as defined below). Upon completion of any Asset Disposition Offer, the amount of Excess Proceeds shall be reset at zero.

To the extent that any portion of Net Available Cash payable in respect of the Senior Secured Notes is denominated in a currency other than the currency in which the relevant Senior Secured Notes are denominated, the amount thereof payable in respect of such Senior Secured Notes shall not exceed the net amount of funds in the currency in which such Senior Secured Notes are denominated that is actually received by the Issuer upon converting such portion of the Net Available Cash into such currency.

The Asset Disposition Offer, in so far as it relates to the Senior Secured Notes, will remain open for a period of not less than 20 Business Days following its commencement (the "Asset Disposition Offer Period"). No later than five Business Days after the termination of the Asset Disposition Offer Period (the "Asset Disposition Purchase Date"), the Issuer will purchase the principal amount of Senior Secured Notes and, to the extent it elects, Pari Passu Indebtedness required to be purchased by it pursuant to this covenant (the "Asset Disposition Offer Amount") or, if less than the Asset Disposition Offer Amount has been so validly tendered, all Senior Secured Notes and Pari Passu Indebtedness validly tendered in response to the Asset Disposition Offer.

On or before the Asset Disposition Purchase Date, the Issuer will, to the extent lawful, accept for payment, on a pro rata basis to the extent necessary, the Asset Disposition Offer Amount of Senior Secured Notes and Pari Passu Indebtedness or portions of Senior Secured Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to the Asset Disposition Offer, or if less than the Asset Disposition Offer Amount has been validly tendered and not properly withdrawn, all Senior Secured Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn and in minimum denominations of €100,000 and in integral multiples of €1,000 in excess thereof. The Issuer will deliver to the Trustee an Officer's Certificate stating that such Senior Secured Notes or portions thereof were accepted for payment by the Issuer in accordance with the terms of this covenant. The Issuer or the Paying

Agent, as the case may be, will promptly (but in any case not later than five Business Days after termination of the Asset Disposition Offer Period) mail or deliver to each tendering Holder an amount equal to the purchase price of the Senior Secured Notes so validly tendered and not properly withdrawn by such Holder, and accepted by the Issuer for purchase, and the Issuer will promptly issue a new Senior Secured Note (or amend the applicable Global Note), and the Trustee (or an authenticating agent), upon delivery of an Officer's Certificate from the Issuer, will authenticate and mail or deliver (or cause to be transferred by book entry) such new Senior Secured Note to such Holder, in a principal amount equal to any unpurchased portion of the Senior Secured Note surrendered; *provided* that each such new Senior Secured Note will be in a principal amount with a minimum denomination of €100,000. Any Senior Secured Note not so accepted will be promptly mailed or delivered (or transferred by book entry) by the Issuer to the Holder thereof.

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Senior Secured Notes pursuant to the Indenture. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of any conflict.

Limitation on Affiliate Transactions

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Issuer (any such transaction or series of related transactions being an "Affiliate Transaction") involving aggregate value in excess of €5.0 million unless:

- (1) the terms of such Affiliate Transaction taken as a whole are not materially less favorable to the Issuer or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's-length dealings with a Person who is not such an Affiliate;
- (2) in the event such Affiliate Transaction involves an aggregate value in excess of €15.0 million, the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the disinterested members of the Board of Directors of the Issuer resolving that such transaction complies with clause (1) above; and
- (3) in the event such Affiliate Transaction involves an aggregate consideration in excess of €25.0 million, the Issuer has received a written opinion (a "Fairness Opinion") from an Independent Financial Advisor that such Affiliate Transaction is fair, from a financial standpoint, to the Issuer and its Restricted Subsidiaries or that the terms are not materially less favorable than those that could reasonably have been obtained in a comparable transaction at such time on an arm's-length basis from a Person that is not an Affiliate.

The provisions of the preceding paragraph will not apply to:

- (1) any Restricted Payment permitted to be made pursuant to the covenant described under "—Limitation on Restricted Payments", any Permitted Payments (other than pursuant to clause (9)(b)(ii) of the fourth paragraph of the covenant described under "—Limitations on Restricted Payments") or any Permitted Investment (other than Permitted Investments as defined in paragraphs (1)(b), (2), (8), (11) and (14) of the definition thereof);
- (2) any issuance or sale of Capital Stock, options, other equity-related interests or other securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, or entering into, or maintenance of, any employment, consulting, collective bargaining or benefit plan, program, agreement or arrangement, related trust or

other similar agreement and other compensation arrangements, options, warrants or other rights to purchase Capital Stock of the Issuer, any Restricted Subsidiary or any Parent, restricted stock plans, long-term incentive plans, stock appreciation rights plans, participation plans or similar employee benefits or consultants' plans (including valuation, health, insurance, deferred compensation, severance, retirement, savings or similar plans, programs or arrangements) or indemnities provided on behalf of officers, employees, directors or consultants approved by the Board of Directors of the Issuer, in each case in the ordinary course of business;

- (3) any Management Advances and any waiver or transaction with respect thereto;
- (4) any transaction between or among the Issuer and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among Restricted Subsidiaries or any Receivables Subsidiary;
- (5) the payment of reasonable fees and reimbursement of expenses to, and customary indemnities and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Issuer, any Restricted Subsidiary of the Issuer or any Parent (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees);
- (6) (i) the Transactions, (ii) the entry into and performance of obligations of the Issuer or any of its Restricted Subsidiaries under the terms of any transaction pursuant to or contemplated by, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Issue Date, as these agreements and instruments may be amended, modified, supplemented, extended, renewed, replaced or refinanced from time to time in accordance with the other terms of this covenant or to the extent not more disadvantageous to the Holders in any material respect, and (iii) the entry into and performance of any registration rights or other listing agreement;
- (7) the execution, delivery and performance of any Tax Sharing Agreement or any arrangement pursuant to which the Issuer or any of its Restricted Subsidiaries is required or permitted to file a consolidated tax return, or the formation and maintenance of any consolidated group for tax, accounting or cash pooling or management purposes in the ordinary course of business;
- (8) transactions with customers, clients, suppliers or purchasers or sellers of goods or services, in each case in the ordinary course of business, which are fair to the Issuer or the relevant Restricted Subsidiary in the reasonable determination of the Board of Directors or an officer of the Issuer or the relevant Restricted Subsidiary, or are on terms no less favorable than those that could reasonably have been obtained at such time from an unaffiliated party;
- (9) any transaction in the ordinary course of business between or among the Issuer or any Restricted Subsidiary and any Affiliate of the Issuer or an Associate or similar entity that would constitute an Affiliate Transaction solely because the Issuer or a Restricted Subsidiary or any Affiliate of the Issuer or a Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;
- (10)(a) issuances or sales of Capital Stock (other than Disqualified Stock or Designated Preference Shares) of the Issuer or options, warrants or other rights to acquire such Capital Stock or Subordinated Shareholder Funding; *provided* that the interest rate and other financial terms of such Subordinated Shareholder Funding are approved by a majority of the members of the Board of Directors in their reasonable determination and (b) any amendment, waiver or other transaction with respect to any Subordinated Shareholder

Funding in compliance with the other provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement, as applicable;

- (11)(a) payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) of annual management, consulting, monitoring or advisory fees and related expenses in an aggregate amount not to exceed €1.0 million per year and (b) customary payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) for financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with loans, capital market transactions, acquisitions or divestitures, which payments (or agreements providing for such payments) in respect of this clause (11) are approved by a majority of the Board of Directors in good faith;
- (12) any transactions which the Issuer or a Restricted Subsidiary delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to the Issuer or such Restricted Subsidiary from a financial point of view;
- (13) investments by any of the Investors in securities of the Issuer or any of the Issuer's Restricted Subsidiaries (and the payment of reasonable out of pocket expenses of the Investors in connection therewith) so long as (i) the investment complies with clause (1) of the preceding paragraph, (ii) the investment is being offered generally to other investors on the same or more favorable terms and (iii) the investment constitutes less than 5% of the proposed issue amount of such class of securities; and
- (14) any transaction effected as part of a Qualified Receivables Financing.

Reports

So long as any Notes are outstanding, the Issuer will furnish to the Trustee the following reports:

- (1) within 120 days after the end of the Issuer's fiscal year beginning with the fiscal year ended 31 December 2013, annual reports containing: (i) information substantially similar in scope to that included in the section entitled "*Management's discussion and analysis of financial condition and results of operations*" of this Offering Memorandum; (ii) *pro forma* income statement and balance sheet information of the Issuer, together with explanatory footnotes, for any material acquisitions, dispositions or recapitalizations that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates (unless such *pro forma* information has been provided in a previous report pursuant to clause (2) or (3) below); *provided* that such *pro forma* financial information will be provided only to the extent available without unreasonable expense, in which case the Issuer will provide, in the case of a material acquisition, acquired company financials; (iii) the audited consolidated balance sheet of the Issuer as at the end of the most recent fiscal year and audited consolidated income statements and statements of cash flow of the Issuer for the most recent two fiscal years, including appropriate footnotes to such financial statements, for and as at the end of such fiscal years and the report of the independent auditors on the financial statements; (iv) a description of the business, management and shareholders of the Issuer, all material affiliate transactions and a description of all material debt instruments; (v) a description of material risk factors and material subsequent events; and (vi) Consolidated EBITDA; *provided* that the information described in clauses (iv), (v) and (vi) may be provided in the footnotes to the audited financial statements;
- (2) within 60 days (or in the case of the first such report, 75 days) following the end of each of the first three fiscal quarters in each fiscal year of the Issuer, beginning with the quarter ended 30 June 2013, quarterly financial statements containing the following information: (i) the Issuer's unaudited condensed consolidated balance sheet as at the end of such

quarter and unaudited condensed statements of income and cash flow for the most recent quarter year to date period ending on the unaudited condensed balance sheet date and the comparable prior period, together with condensed footnote disclosure; (ii) *pro forma* income statement and balance sheet information of the Issuer, together with explanatory footnotes, for any material acquisitions, dispositions or recapitalizations that have occurred since the beginning of the most recently completed fiscal year as to which such quarterly report relates (*provided* that such *pro forma* financial information will be provided only to the extent available without unreasonable expense, in which case the Issuer will provide, in the case of a material acquisition, acquired company financials); (iii) an operating and financial review of the unaudited financial statements, including a discussion of the consolidated financial condition, results of operations, Consolidated EBITDA and material changes in liquidity and capital resources of the Issuer; (iv) a discussion of material changes in material debt instruments since the most recent report; and (v) material subsequent events and any material changes to the risk factors disclosed in the most recent annual report; *provided* that the information described in clauses (iv) and (v) may be provided in the footnotes to the unaudited financial statements; and

- (3) promptly after the occurrence of a material event that the Issuer announces publicly or any acquisition, disposition or restructuring, merger or similar transaction that is material to the Issuer and the Restricted Subsidiaries, taken as a whole, or a senior executive officer or director changes at the Issuer or a change in auditors of the Issuer, a report containing a description of such event.

In addition, the Issuer shall furnish to the Holders and to prospective investors, upon the request of such parties, any information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act for so long as the Senior Secured Notes are not freely transferable under the Exchange Act by persons who are not “affiliates” under the Securities Act.

The Issuer shall also make available to Holders and prospective holders of the Senior Secured Notes copies of all reports furnished to the Trustee on the Issuer’s website and if and so long as the Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Euro MTF Market thereof and to the extent that the rules and regulations of the Luxembourg Stock Exchange so require, copies of such reports furnished to the Trustee will also be made available at the specified office of the listing agent in Luxembourg.

All financial statement information shall be prepared in accordance with IFRS as in effect on the date of such report or financial statement (or otherwise on the basis of IFRS as then in effect) and on a consistent basis for the periods presented, except as may otherwise be described in such information; *provided, however*, that the reports set forth in clauses (1), (2) and (3) above may, in the event of a change in IFRS, present earlier periods on a basis that applied to such periods. No report need include separate financial statements for any Subsidiaries of the Issuer or any disclosure with respect to the results of operations or any other financial or statistical disclosure not of a type included in this Offering Memorandum. In addition, the reports set forth above will not be required to contain any reconciliation to U.S. generally accepted accounting principles.⁽⁴⁾

For purposes this covenant, an acquisition or disposition shall be deemed to be material if the entity or business acquired or disposed of represents greater than 20% of the Issuer’s (a) total revenue or Consolidated EBITDA for the most recent four quarters for which annual or quarterly financial reports have been delivered to the Trustee or (b) consolidated assets as of the last day of the most recent quarter for which annual or quarterly financial reports have been delivered to the Trustee.

At any time that any of the Issuer’s subsidiaries are Unrestricted Subsidiaries and any such Unrestricted Subsidiary or a group of Unrestricted Subsidiaries, taken as a whole, constitutes a Significant Subsidiary of the Issuer, then the quarterly and annual financial information

required by the first paragraph of this “*Reports to Holders*” covenant will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, of the financial condition and results of operations of the Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Issuer.

All reports provided pursuant to this “*Reports*” covenant shall be made in the English language.

In the event that (i) the Issuer becomes subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, or elects to comply with such provisions, for so long as it continues to file the reports required by Section 13(a) with the SEC or (ii) the Issuer elects to provide to the Trustee reports which, if filed with the SEC, would satisfy (in the good faith judgment of the Issuer) the reporting requirements of Section 13(a) or 15(d) of the Exchange Act (other than the provision of U.S. GAAP information, certifications, exhibits or information as to internal controls and procedures), for so long as it elects, the Issuer will make available to the Trustee such annual reports, information, documents and other reports that the Issuer is, or would be, required to file with the SEC pursuant to such Section 13(a) or 15(d). Upon complying with the foregoing requirement, the Issuer will be deemed to have complied with the provisions contained in the preceding paragraphs.

Merger and Consolidation

The Issuer

The Issuer will not consolidate with or merge with or into, or assign, convey, transfer, lease or otherwise dispose all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions to, any Person, unless:

- (1) the resulting, surviving or transferee Person (the “*Successor Company*”) will be a Person organized and existing under the laws of any member state of the European Union, or the United States of America, any State of the United States or the District of Columbia, Canada or any province of Canada, Norway or Switzerland and the Successor Company (if not the Issuer) will expressly assume, (a) by supplemental indenture, executed and delivered to the Trustee, in form reasonably satisfactory to the Trustee, all the obligations of the Issuer under the Senior Secured Notes and the Indenture and (b) all obligations of the Issuer under the Intercreditor Agreement and the Senior Secured Notes Security Documents, as applicable;
- (2) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Subsidiary of the Successor Company as a result of such transaction as having been Incurred by the Successor Company or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction, either (a) the Successor Company would be able to Incur at least an additional €1.00 of Indebtedness pursuant to the first paragraph of the covenant described under “—*Limitation on Indebtedness*” or (b) the Fixed Charge Coverage Ratio would not be less than it was immediately prior to giving effect to such transaction; and
- (4) the Issuer shall have delivered to the Trustee an Officer’s Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture and an Opinion of Counsel to the effect that such supplemental indenture (if any) has been duly authorized, executed and delivered and is a legal, valid and binding agreement enforceable against the Successor Company (in each case, in form and substance reasonably satisfactory to the Trustee),

provided that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact.

Any Indebtedness that becomes an obligation of the Issuer or any Restricted Subsidiary (or that is deemed to be Incurred by any Restricted Subsidiary that becomes a Restricted Subsidiary) as a result of any such transaction undertaken in compliance with this covenant, and any Refinancing Indebtedness with respect thereto, shall be deemed to have been Incurred in compliance with the covenant described under "—Limitation on Indebtedness".

For purposes of this covenant, the sale, lease, conveyance, assignment, transfer, or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Issuer, which properties and assets, if held by the Issuer instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Issuer on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Issuer.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Indenture but in the case of a lease of all or substantially all its assets, the predecessor company will not be released from its obligations under the Indenture or the Senior Secured Notes.

There is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

The foregoing provisions (other than the requirements of clause (2) of the first paragraph of this "Merger and Consolidation" covenant) shall not apply to (i) any transactions which constitute an Asset Disposition if the Issuer has complied with the covenant described under "—Limitation on Sales of Assets and Subsidiary Stock" or (ii) the creation of a new subsidiary as a Restricted Subsidiary of the Issuer.

The Guarantors

No Guarantor (other than a Guarantor whose guarantee is to be released in accordance with the terms of the Indenture or the Intercreditor Agreement) may:

- (1) consolidate with or merge with or into any Person (whether or not such Guarantor is the surviving corporation);
- (2) sell, assign, convey, transfer, lease or otherwise dispose of, all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions, to any Person; or
- (3) permit any Person to merge with or into it unless:
 - (A) the other Person is the Issuer or any Restricted Subsidiary that is a Guarantor or becomes a Guarantor;
 - (B) (1) either (x) a Guarantor is the continuing Person or (y) the resulting , surviving or transferee Person expressly assumes all of the obligations of the Guarantor under its Guarantee and the Indenture (pursuant to a supplemental indenture executed and delivered in a form reasonably satisfactory to the Trustee); and (2) immediately after giving effect to the transaction, no Default or Event of Default shall have occurred and is continuing; or
 - (C) the transaction constitutes a sale or other disposition (including by way of consolidation or merger) of a Guarantor or the sale or disposition of all or substantially all the assets

of a Guarantor (in each case other than to the Issuer or a Restricted Subsidiary) otherwise permitted by the Senior Secured Notes Indenture,

provided however, that the prohibition in clauses (1), (2) and (3) of this covenant shall not apply to the extent that compliance with clauses (A) and (B) (1) could give rise to or result in: (1) any breach or violation of statutory limitations, corporate benefit, financial assistance, fraudulent preference, thin capitalization rules, capital maintenance rules, guidance and coordination rules or the laws rules or regulations (or analogous restriction) of any applicable jurisdiction (2) any risk or liability for the officers, directors or (except in the case of a Restricted Subsidiary that is a partnership) shareholders of such Restricted Subsidiary (or, in the case of a Restricted Subsidiary that is a partnership, directors or shareholders of the partners of such partnership); or (3) any cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out of pocket expenses.

The provisions set forth in this “Merger and Consolidation” covenant shall not restrict (and shall not apply to): (i) any Restricted Subsidiary that is not a Guarantor from consolidating with, merging or liquidating into or transferring all or substantially all of its properties and assets to the Issuer, a Guarantor or any other Restricted Subsidiary that is not a Guarantor; (ii) Guarantor from merging or liquidating into or transferring all or part of its properties and assets to the Issuer or another Guarantor; (iii) any consolidation or merger of the Issuer into any Guarantor; *provided that*, if the Issuer is not the surviving entity of such merger or consolidation, the relevant Guarantor will assume the obligations of the Issuer under the Senior Secured Notes, the Indenture, the Intercreditor, any Additional Intercreditor Agreement and the Senior Secured Notes Security Documents and clauses (1) and (4) under the heading “—Issuer” shall apply to such transaction; (iv) the Issuer or any Guarantor consolidating into or merging or combining with an Affiliate incorporated or organized for the purpose of changing the legal domicile of such entity, reincorporating such entity in another jurisdiction, or changing the legal form of such entity and (v) the merger and/or liquidation of Titan 3 with or into the Issuer; *provided, however*, that clauses (1), (2) and (4) under the heading “—The Issuer” or “—The Guarantors”, as the case may be, shall apply to any such transaction.

TeamSystem shall remain at all times a Wholly Owned Subsidiary of the Issuer.

Suspension of Covenants on Achievement of Investment Grade Status

If on any date following the Issue Date, the Senior Secured Notes have achieved Investment Grade Status and no Default or Event of Default has occurred and is continuing (a “Suspension Event”), then, beginning on that day and continuing until such time, if any, at which the Senior Secured Notes cease to have Investment Grade Status (the “Reversion Date”), the provisions of the Indenture summarized under the following captions will not apply to the Senior Secured Notes:

- (1) “—Limitation on Restricted Payments”;
- (2) “—Limitation on Indebtedness”;
- (3) “—Limitation on Restrictions on Distributions from Restricted Subsidiaries”;
- (4) “—Limitation on Affiliate Transactions”;
- (5) “—Limitation on Sales of Assets and Subsidiary Stock”; and
- (6) the provisions of clause (3) of the first paragraph of the covenant described under “—Merger and Consolidation”,

and, in each case, any related default provision of the Indenture will cease to be effective and will not be applicable to the Issuer and its Restricted Subsidiaries.

Such covenants and any related default provisions will again apply according to their terms from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Issuer properly taken during the continuance of the Suspension Event, and no action taken prior to the Reversion Date will constitute a Default or Event of Default. The "Limitation on Restricted Payments" covenant will be interpreted as if it has been in effect since the date of the Indenture but not during the continuance of the Suspension Event. On the Reversion Date, all Indebtedness Incurred during the continuance of the Suspension Event will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (4)(b) of the second paragraph of the covenant described under "—Limitation on Indebtedness". In addition, the Indenture will also permit, without causing a Default or Event of Default, the Issuer or any of the Restricted Subsidiaries to honor any contractual commitments or take actions in the future after any date on which the Senior Secured Notes cease to have an Investment Grade Status as long as the contractual commitments were entered into during the Suspension Event and not in anticipation of the Senior Secured Notes no longer having an Investment Grade Status. The Issuer shall notify the Trustee that the conditions set forth in the first paragraph under this caption has been satisfied, *provided that*, no such notification shall be a condition for the suspension of the covenants described under this caption to be effective. There can be no assurance that the Senior Secured Notes will ever achieve or maintain an Investment Grade Status.

Impairment of Security Interest

The Issuer shall not, and shall not permit any Restricted Subsidiary to, take or knowingly or negligently omit to take any action that would have the result of materially impairing the Security Interest with respect to the Collateral (it being understood, subject to the proviso below, that the Incurrence of Permitted Collateral Liens shall under no circumstances be deemed to materially impair the Security Interest with respect to the Collateral) for the benefit of the Trustee and the Holders, and the Issuer shall not, and shall not permit any Restricted Subsidiary to, grant to any Person other than the Security Agent, for the benefit of the Trustee and the Holders and the other beneficiaries described in the Senior Secured Notes Security Documents and the Intercreditor Agreement or any Additional Intercreditor Agreement, any interest whatsoever in any of the Collateral, except that (i) the Issuer and its Restricted Subsidiaries may Incur Permitted Collateral Liens and the Collateral may be discharged and released in accordance with the Indenture, the applicable Senior Secured Notes Security Documents or the Intercreditor Agreement or any Additional Intercreditor Agreement and (ii) the applicable Senior Secured Notes Security Documents may be amended from time to time to cure any ambiguity, mistake, omission, defect or inconsistency therein; *provided, however*, that in the case of clause (i) above, except with respect to any discharge or release in accordance with the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement, the Incurrence of Permitted Collateral Liens or any action expressly permitted by the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement, the Senior Secured Notes Security Documents may not be amended, extended, renewed, restated, supplemented, released or otherwise modified or replaced, unless contemporaneously with any such action, the Issuer delivers to the Trustee, either (1) a solvency opinion, in form and substance reasonably satisfactory to the Trustee from an Independent Financial Advisor confirming the solvency of the Issuer and its Subsidiaries, taken as a whole, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, release, modification or replacement, (2) a certificate from the Board of Directors of the relevant Person which confirms the solvency of the person granting such Security Interest after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, or (3) an Opinion of Counsel, in form and substance reasonably satisfactory to the Trustee, confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, the Lien or Liens created under the Senior Secured Notes Security Documents, so

amended, extended, renewed, restated, supplemented, modified or replaced are valid Liens not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Lien or Liens were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification or replacement. In the event that the Issuer complies with the requirements of this covenant, the Trustee and the Security Agent shall (subject to customary protections and indemnifications) consent to such amendments without the need for instructions from the Holders.

Additional Guarantees

Notwithstanding anything to the contrary in this covenant, no Restricted Subsidiary shall Guarantee the Indebtedness outstanding under the Revolving Credit Facility, any Credit Facility or any other Public Debt, in each case of the Issuer or a Guarantor unless such Restricted Subsidiary is or becomes a Guarantor on the date on which the Guarantee is incurred and, if applicable, executes and delivers to the Trustee a supplemental indenture in the form attached to the Indenture pursuant to which such Restricted Subsidiary will provide a Guarantee, which Guarantee will be senior to or pari passu with such Restricted Subsidiary's guarantee of such other Indebtedness; *provided, however*, that such Restricted Subsidiary shall not be obliged to become such a Guarantor to the extent and for so long as the Incurrence of such Guarantee is contrary to the Agreed Security Principles or could give rise to or result in:

- (1) any breach or violation of statutory limitations, corporate benefit, financial assistance, fraudulent preference, thin capitalization rules, capital maintenance rules, guidance and coordination rules or the laws rules or regulations (or analogous restriction) of any applicable jurisdiction;
- (2) any risk or liability for the officers, directors or (except in the case of a Restricted Subsidiary that is a partnership) shareholders of such Restricted Subsidiary (or, in the case of a Restricted Subsidiary that is a partnership, directors or shareholders of the partners of such partnership); or
- (3) any cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out of pocket expenses. At the option of the Issuer, any Guarantee may contain limitations on Guarantor liability to the extent reasonably necessary.

Future Guarantees granted pursuant to this provision shall be released as set forth under "—Releases of the Guarantees". A Guarantee of a future Guarantor may also be released at the option of the Issuer if at the date of such release either (i) there is no Indebtedness of such Guarantor outstanding which was Incurred after the Issue Date and which could not have been Incurred in compliance with the Indenture if such Guarantor had not been designated as a Guarantor, or (ii) there is no Indebtedness of such Guarantor outstanding which was Incurred after the Issue Date and which could not have been Incurred in compliance with the Indenture as at the date of such release if such Guarantor were not designated as a Guarantor as at that date. The Trustee and the Security Agent shall each take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Guarantee in accordance with these provisions, subject to customary protections and indemnifications.

The validity and enforceability of the Senior Secured Notes Guarantees and the Security Interests and the liability of each Guarantor will be subject to the limitations as described and set out in "Risk Factors".

Additional Intercreditor Agreements

The Indenture will provide that, at the request of the Issuer, in connection with the Incurrence by the Issuer or its Restricted Subsidiaries of any Indebtedness permitted pursuant to the covenant described under "—Limitation on Indebtedness", the Issuer, the relevant Restricted Subsidiaries, the Trustee and the Security Agent shall enter into with the holders of such

Indebtedness (or their duly authorized Representatives) an intercreditor agreement (an "Additional Intercreditor Agreement") or a restatement, amendment or other modification of the existing Intercreditor Agreement on substantially the same terms as the Intercreditor Agreement (or terms not materially less favorable to the Holders), including containing substantially the same terms with respect to release of Guarantees and priority and release of the Security Interest; *provided* that such Additional Intercreditor Agreement will not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, as applicable, adversely affect the rights, duties, liabilities or immunities of the Trustee or Security Agent under the Indenture or the Intercreditor Agreement.

The Indenture also will provide that, at the direction of the Issuer and without the consent of Holders, the Trustee and the Security Agent shall from time to time enter into one or more amendments to any Intercreditor Agreement to: (1) cure any ambiguity, omission, defect or inconsistency of any such agreement, (2) increase the amount or types of Indebtedness covered by any such agreement that may be Incurred by the Issuer or any Restricted Subsidiary that is subject to any such agreement (including with respect to any Intercreditor Agreement or Additional Intercreditor Agreement, the addition of provisions relating to new Indebtedness ranking junior in right of payment to the Senior Secured Notes), (3) add Restricted Subsidiaries to the Intercreditor Agreement or an Additional Intercreditor Agreement, (4) further secure the Senior Secured Notes (including Additional Senior Secured Notes), (5) make provision for equal and ratable pledges of the Collateral to secure Additional Senior Secured Notes, directly or indirectly, (6) implement any Permitted Collateral Liens, (7) amend the Intercreditor Agreement or any Additional Intercreditor Agreement in accordance with the terms thereof or (8) make any other change to any such agreement that does not adversely affect the Holders in any material respect. The Issuer shall not otherwise direct the Trustee or the Security Agent to enter into any amendment to any Intercreditor Agreement without the consent of the Holders of the majority in aggregate principal amount of the Senior Secured Notes then outstanding, except as otherwise permitted below under "Amendments and Waivers", and the Issuer may only direct the Trustee and the Security Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, adversely affect their respective rights, duties, liabilities or immunities under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Indenture shall also provide that, in relation to any Intercreditor Agreement or Additional Intercreditor Agreement, the Trustee (and Security Agent, if applicable) shall consent on behalf of the Holders to the payment, repayment, purchase, repurchase, defeasance, acquisition, retirement or redemption of any obligations subordinated to the Senior Secured Notes thereby; *provided, however*, that such transaction would comply with the covenant described under "—Limitation on Restricted Payments".

The Indenture also will provide that each Holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement or any Additional Intercreditor Agreement, (whether then entered into or entered into in the future pursuant to the provisions described herein) and to have directed the Trustee and the Security Agent to enter into any such Additional Intercreditor Agreement. A copy of the Intercreditor Agreement or any Additional Intercreditor Agreement shall be made available for inspection during normal business hours on any Business Day upon prior written request at our offices or at the offices of the listing agent.

Events of Default

Each of the following is an "Event of Default" under the Indenture:

- (1) default in any payment of interest on any Note issued under the Indenture when due and payable, continued for 30 days;

- (2) default in the payment of the principal amount of or premium, if any, on any Note issued under the Indenture when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;
- (3) failure by the Issuer or any of its Restricted Subsidiaries to comply for 60 days after notice by the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes with its other agreements contained in the Indenture;
- (4) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries (or the payment of which is Guaranteed by the Issuer or any of its Restricted Subsidiaries) other than Indebtedness owed to the Issuer or a Restricted Subsidiary whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, which default:
 - (a) is caused by a failure to pay principal at stated maturity on such Indebtedness, immediately upon the expiration of the grace period provided in such Indebtedness ("payment default"); or
 - (b) results in the acceleration of such Indebtedness prior to its maturity (the "cross acceleration provision"),

and, in each case, either (i) the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a payment default or the maturity of which has been so accelerated, aggregates €15.0 million or more or (ii) such Indebtedness is incurred pursuant to clause (1) or (6) of the second paragraph of the "—Limitation on Indebtedness" covenant secured by Collateral that is granted the benefit of super senior priority rights on the proceeds of enforcement of Collateral under the Intercreditor Agreement, and (A) the 15 day consultation period under the Intercreditor Agreement with respect to the enforcement of such Indebtedness has expired, (B) certain insolvency events have occurred or (C) the consultation period under the Intercreditor Agreement does not apply because the Senior Secured Creditors have determined in good faith that to enter into consultation could reasonably be expected to have a material adverse effect on the Security Agent's ability to enforce any of the Collateral or the realization of proceeds thereof and have instructed the Security Agent as to the enforcement of the Collateral;

- (5) certain events of bankruptcy, insolvency or court protection of the Issuer, Titan 1, or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer and its Restricted Subsidiaries), would constitute a Significant Subsidiary (the "bankruptcy provisions");
- (6) failure by the Issuer or any Significant Subsidiary or group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer and its Restricted Subsidiaries), would constitute a Significant Subsidiary to pay final judgments aggregating in excess of €15.0 million (exclusive of any amounts that a solvent insurance company has acknowledged liability for), which judgments are not paid, discharged or stayed for a period of 60 days after the judgment becomes final (the "judgment default provision");
- (7) any security interest under the Senior Secured Notes Security Documents shall, at any time, cease to be in full force and effect (other than in accordance with the terms of the relevant Senior Secured Notes Security Document, the Intercreditor Agreement, any Additional Intercreditor Agreement and the Indenture and except through the gross negligence or willful misconduct of the Trustee or Security Agent) with respect to Collateral having a fair market value in excess of €5.0 million for any reason other than the satisfaction in full of all obligations under the Indenture or the release of any such security interest in

accordance with the terms of the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the Senior Secured Notes Security Documents or any such security interest created thereunder shall be declared invalid or unenforceable or the Issuer shall assert in writing that any such security interest is invalid or unenforceable and any such Default continues for 10 days; and

- (8) any Guarantee of a Significant Subsidiary ceases to be in full force and effect (other than in accordance with the terms of such Guarantee or the Indenture) or is declared invalid or unenforceable in a judicial proceeding or any Guarantor denies or disaffirms in writing its obligations under its Guarantee and any such Default continues for 10 days.

However, a default under clauses (3), (4) or (6) of this paragraph will not constitute an Event of Default until the Trustee or the Holders of 25% in principal amount of the outstanding Senior Secured Notes under the Indenture notify the Issuer of the default and, with respect to clauses (3), (4) and (6) the Issuer does not cure such default within the time specified in clauses (3), (4) or (6), as applicable, of this paragraph after receipt of such notice.

If an Event of Default (other than an Event of Default described in clause (5) above) occurs and is continuing, the Trustee by notice to the Issuer or the Holders of at least 25% in principal amount of the outstanding Notes under the Indenture by written notice to the Issuer and the Trustee, may, and the Trustee at the request of such Holders shall, declare the principal of, premium, if any, and accrued and unpaid interest on all the Senior Secured Notes under the Indenture to be due and payable. Upon such a declaration, such principal, premium and accrued and unpaid interest will be due and payable immediately. In the event of a declaration of acceleration of the Senior Secured Notes because an Event of Default described in clause (4) under "Events of Default" has occurred and is continuing, the declaration of acceleration of the Senior Secured Notes shall be automatically annulled if the event of default or payment default triggering such Event of Default pursuant to clause (4) shall be remedied or cured, or waived by the holders of the Indebtedness, or the Indebtedness that gave rise to such Event of Default shall have been discharged in full, within 30 days after the declaration of acceleration with respect thereto and if (1) the annulment of the acceleration of the Senior Secured Notes would not conflict with any judgment or decree of a court of competent jurisdiction and (2) all existing Events of Default, except nonpayment of principal, premium or interest on the Senior Secured Notes that became due solely because of the acceleration of the Senior Secured Notes, have been cured or waived.

If an Event of Default described in clause (5) above occurs and is continuing, the principal of, premium, if any, and accrued and unpaid interest on all the Senior Secured Notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders.

Holders of the Senior Secured Notes may not enforce the Indenture or the Senior Secured Notes except as provided in the Indenture and may not enforce the Senior Secured Notes Security Documents except as provided in such Senior Secured Notes Security Documents and the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Holders of a majority in principal amount of the outstanding Notes under the Indenture may waive all past or existing Defaults or Events of Default (except with respect to nonpayment of principal, premium, interest or Additional Amounts, if any) and rescind any such acceleration with respect to such Notes and its consequences if rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Subject to the provisions of the Indenture relating to the duties of the Trustee, if an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee indemnity or security satisfactory to the Trustee against any loss, liability or expense. Except to enforce the right to receive payment of

principal or interest when due, no Holder may pursue any remedy with respect to the Indenture or the Senior Secured Notes unless:

- (1) such Holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) Holders of at least 25% in principal amount of the outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee security or indemnity satisfactory to it against any loss, liability or expense;
- (4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity; and
- (5) the Holders of a majority in principal amount of the outstanding Notes have not given the Trustee a direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee.

The Indenture will provide that, in the event an Event of Default has occurred and is continuing, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification or security satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action. The Indenture will provide that if a Default occurs and is continuing and the Trustee is informed of such occurrence by the Issuer, the Trustee must give notice of the Default to the Holders within 60 days after being notified by the Issuer. Except in the case of a Default in the payment of principal of, or premium, if any, or interest on any Note, the Trustee may withhold notice if and so long as the Trustee determines that withholding notice is in the interests of the Holders. The Issuer is required to deliver to the Trustee, within 120 days after the end of each fiscal year, an Officer's Certificate indicating whether the signers thereof know of any Default or Event of Default that occurred during the previous year. The Issuer is required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any events of which it is aware which would constitute certain Defaults, their status and what action the Issuer is taking or proposes to take in respect thereof.

The Indenture will provide that (i) if a Default occurs for a failure to deliver a required certificate in connection with another default (an "Initial Default") then at the time such Initial Default is cured, such Default for a failure to report or deliver a required certificate in connection with the Initial Default will also be cured without any further action and (ii) any Default or Event of Default for the failure to comply with the time periods prescribed in the covenant entitled "—Reports" or otherwise to deliver any notice or certificate pursuant to any other provision of the Indenture shall be deemed to be cured upon the delivery of any such report required by such covenant or notice or certificate, as applicable, even though such delivery is not within the prescribed period specified in the Indenture.

The Indenture will provide for the Trustee to take action on behalf of the Holders in certain circumstances, but only if the Trustee is indemnified or secured to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the Senior Secured Notes and, accordingly, in such circumstances the Trustee will be unable to take action, notwithstanding the provision of an indemnity to it, and it will be for Holders to take action directly.

Amendments and Waivers

Subject to certain exceptions, the Senior Secured Notes Documents may be amended, supplemented or otherwise modified with the consent of Holders of at least a majority in principal amount of the Senior Secured Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Senior Secured Notes) and, subject to certain exceptions, any default or compliance with any provisions thereof may be waived with the consent of the Holders of at least a majority in principal amount of the Senior Secured Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Senior Secured Notes). However, without the consent of Holders holding not less than 75% of the then outstanding principal amount of the Senior Secured Notes affected, then outstanding, an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

- (1) reduce the principal amount of Senior Secured Notes whose Holders must consent to an amendment, waiver or modification;
- (2) reduce the stated rate of or extend the stated time for payment of interest on any Senior Secured Note;
- (3) reduce the principal of or extend the Stated Maturity of any Senior Secured Note;
- (4) reduce the premium payable upon the redemption of any Senior Secured Note or change the time at which any Senior Secured Note may be redeemed, in each case as described above under “—Optional Redemption”;
- (5) make any Senior Secured Note payable in money other than that stated in the Senior Secured Note;
- (6) impair the right of any Holder to receive payment of principal of and interest or Additional Amounts, if any, on such Holder’s Senior Secured Notes on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder’s Senior Secured Notes;
- (7) make any change in the provision of the Indenture described under “Withholding Taxes” that adversely affects the right of any Holder of such Senior Secured Notes in any material respect or amends the terms of such Senior Secured Notes in a way that would result in a loss of an exemption from any of the Taxes described thereunder or an exemption from any obligation to withhold or deduct Taxes so described thereunder unless the Issuer agrees to pay Additional Amounts, if any, in respect thereof;
- (8) release any security interests granted for the benefit of the Holders in the Collateral other than in accordance with the terms of the Security Documents, the Intercreditor Agreement, any applicable Additional Intercreditor Agreement or the Indenture;
- (9) waive a Default or Event of Default with respect to the nonpayment of principal, premium or interest or Additional Amounts, if any, on the Senior Secured Notes (except pursuant to a rescission of acceleration of the Senior Secured Notes by the Holders of at least a majority in aggregate principal amount of such Senior Secured Notes and a waiver of the payment default that resulted from such acceleration);
- (10) release any Guarantor from any of its obligations under its Guarantee or the Indenture, except in accordance with the terms of the Indenture and the Intercreditor agreement;
- (11) make any change or amendment to the Funding Loans that would adversely affect the Holders of the Senior Secured Notes in any material respect; or
- (12) make any change in the amendment or waiver provisions which require the Holders’ consent described in this sentence,

provided, however, that if such amendment or waiver described in clauses (2), (3) and (4) above only amends the rights of a series of Senior Secured Notes, only the consent of Holders of not less than 75% of the then outstanding principal amount of such series shall be required.

Notwithstanding the foregoing, without the consent of any Holder, the Issuer, the Trustee, the Security Agent and the other parties thereto, as applicable, may amend or supplement any Senior Secured Notes Documents to:

- (1) cure any ambiguity, omission, defect, error or inconsistency;
- (2) provide for the assumption by a successor Person of the obligations of the Issuer or any Restricted Subsidiary under any Senior Secured Notes Document;
- (3) add to the covenants or provide for a Guarantee for the benefit of the Holders or surrender any right or power conferred upon the Issuer or any Restricted Subsidiary;
- (4) make any change that would provide additional rights or benefits to the Trustee or the Holders or that does not adversely affect the rights or benefits to the Trustee or any of the Holders in any material respect under the Senior Secured Notes Documents;
- (5) make such provisions as necessary (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) for the issuance of Additional Senior Secured Notes;
- (6) to provide for any Restricted Subsidiary to provide a Guarantee in accordance with the covenant described under "Certain Covenants—Limitation on Indebtedness", to add Guarantees with respect to the Senior Secured Notes, to add security to or for the benefit of the Senior Secured Notes, or to confirm and evidence the release, termination, discharge or retaking of any Guarantee or Lien (including the Collateral and the Senior Secured Notes Security Documents) or any amendment in respect thereof with respect to or securing the Senior Secured Notes when such release, termination, discharge or retaking or amendment is provided for under the Indenture, the Senior Secured Notes Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement;
- (7) to conform the text of the Indenture, the Senior Secured Notes Security Documents or the Senior Secured Notes to any provision of this "Description of the Senior Secured Notes" to the extent that such provision in this "Description of the Senior Secured Notes" was intended to be a verbatim recitation of a provision of the Indenture, the Senior Secured Notes Security Documents or the Senior Secured Notes;
- (8) to evidence and provide for the acceptance and appointment under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement of a successor Trustee or Security Agent pursuant to the requirements thereof or to provide for the accession by the Trustee or Security Agent to any Senior Secured Notes Document;
- (9) in the case of the Senior Secured Notes Security Documents, to mortgage, pledge, hypothecate or grant a security interest in favor of the Security Agent for the benefit of the Holders or parties to the Revolving Credit Facility, in any property which is required by the Senior Secured Notes Security Documents or the Revolving Credit Facility (as in effect on the Issue Date) to be mortgaged, pledged or hypothecated, or in which a security interest is required to be granted to the Security Agent, or to the extent necessary to grant a security interest in the Collateral for the benefit of any Person; *provided* that the granting of such security interest is not prohibited by the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement and the covenant described under "*Certain covenants—Impairment of security interest*" is complied with; or
- (10) as provided in "*Certain covenants—Additional Intercreditor Agreements*".

In formulating its decision on such matters, the Trustee shall be entitled to require and rely absolutely on such evidence as it deems necessary, including Officer's Certificates and Opinions of Counsel.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment of any Senior Secured Notes Document. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any Holder of Notes given in connection with a tender of such Holder's Notes will not be rendered invalid by such tender.

For so long as the Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the Euro MTF Market and the rules of such exchange so require, the Issuer will publish notice of any amendment, supplement and waiver in Luxembourg in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxembourg Wort*). Such notice of any amendment, supplement and waiver may also be published on the website of the Irish Stock Exchange (www.bourse.lu).

Acts by Holders

In determining whether the Holders of the required principal amount of the Senior Secured Notes have concurred in any direction, waiver or consent, the Senior Secured Notes owned by the Issuer or by any Person directly or indirectly controlled, or controlled by, or under direct or indirect common control with, the Issuer will be disregarded and deemed not to be outstanding.

Meeting of Holders of Notes

Without prejudice to the provisions described above under the caption "*—Amendments and waivers*", in accordance with the provisions set forth under the Italian Civil Code, the Indenture will include provisions for the convening of meetings of the Holders of the Senior Secured Notes to consider any matter affecting their interests, including, without limitation, the modification or abrogation by extraordinary resolution of any provisions of the Senior Secured Notes or the Indenture. A meeting may be convened by the directors of the Issuer and/or the Noteholders' Representative (as defined below) and shall be convened upon request by holders of at least 5.0% of the aggregate principal amount of the outstanding Notes.

In accordance with the Italian Civil Code, the vote required to pass a resolution by a meeting of the Holders of Senior Secured Notes will be (i) in the case of the first meeting, one or more persons that hold or represent Holders of more than one half of the aggregate principal amount of the outstanding Senior Secured Notes, and (ii) in the case of the second and any further adjourned meeting, one or more persons that hold or represent Holders of at least two-thirds of the aggregate principal amount of the Senior Secured Notes so present or represented at such meeting that will be validly held if there are one or more persons present that hold or represent Holders of more than one third of the aggregate principal amount of the outstanding Notes; *provided, however*, that (a) the Issuer's bylaws may provide for a higher quorum (to the extent permitted under Italian law) and (b) certain proposals, as set out under Article 2415 paragraph 1, item 2, and paragraph 3 of the Italian Civil Code (namely, the amendment of the economic terms and conditions of the Senior Secured Notes) may only be approved by an extraordinary resolution passed at a meeting of Holders of the Senior Secured Notes (including any adjourned meeting) by one or more persons present that hold or represent holders of not less than one-half of the aggregate principal amount of the outstanding Senior Secured Notes.

With respect to the matters set forth in the second paragraph under "*—Amendments and waivers*", and to the extent permitted under Italian law, the Indenture will contractually increase the percentage of the aggregate principal amount of Senior Secured Notes otherwise required by Article 2415 of the Italian Civil Code to pass an extraordinary resolution with

respect to such matters from 50% to 75%. See *“Risk factors—Risks related to the Notes and the capital structure—The Issuer may amend the economic terms and conditions of the Notes without the prior consent of all noteholders with the vote of either 75% or 50% of the outstanding Notes”*. Any extraordinary resolution duly passed at any such meeting shall be binding on all the holders of the Senior Secured Notes, whether or not such holder was present at such meeting or voted to approve such extraordinary resolution.

Noteholders’ Representative

A representative of the Holders of the Senior Secured Notes (*rappresentante comune*) (the “Noteholders’ Representative”) may be appointed pursuant to Articles 2415 and 2417 of the Italian Civil Code by the Noteholders in order to represent the interests of the holders of the Senior Secured Notes pursuant to Article 2418 of the Italian Civil Code as well as to give effect to resolutions passed at a meeting of the holders of the Senior Secured Notes. Pursuant to the terms of the Indenture, the execution of the Indenture and the issuance and purchase of the Senior Secured Notes on the Issue Date shall be deemed to constitute the authorization and agreement on behalf of the Holders of the Senior Secured Notes of the initial appointment as of the Issue Date of the Trustee as the Noteholders’ Representative. If the Noteholders’ Representative is not appointed by a meeting of the Holders of the Senior Secured Notes, the Noteholders’ Representative shall be appointed by a decree of the Court where the Issuer has its registered office upon request by one or more holders of the Senior Secured Notes and/or upon request by the directors of the Issuer. The Noteholders’ Representative remains appointed for a maximum period of three years but may be reappointed again thereafter.

Defeasance

The Issuer at any time may terminate all obligations of the Issuer under the Senior Secured Notes and the Indenture (“legal defeasance”) and cure all then existing Defaults and Events of Default, except for certain obligations, including those respecting the defeasance trust, the rights, powers, trusts, duties, immunities and indemnities of the Trustee and the obligations of the Issuer in connection therewith and obligations concerning issuing temporary Senior Secured Notes, registration of Senior Secured Notes, mutilated, destroyed, lost or stolen Senior Secured Notes and the maintenance of an office or agency for payment and money for security payments held in trust. Subject to the foregoing, if the Issuer exercises its legal defeasance option, the Security Documents and the rights of the Trustee and the Holders under the Intercreditor Agreement or any Additional Intercreditor Agreement in effect at such time will terminate (other than with respect to the defeasance trust).

The Issuer at any time may terminate its obligations under the covenants described under “Certain Covenants” (other than clauses (1) and (2) of “—*Certain covenants—Merger and consolidation*”) and “Change of Control” and the default provisions relating to such covenants described under “Events of Default” above, the operation of the cross-default upon a payment default, the cross acceleration provisions, the bankruptcy provisions with respect to the Issuer and Significant Subsidiaries, the judgment default provision, the guarantee provision and the security default provision described under “Events of Default” above (“covenant defeasance”).

The Issuer at its option at any time may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Issuer exercises its legal defeasance option, payment of the Senior Secured Notes may not be accelerated because of an Event of Default with respect to such Senior Secured Notes. If the Issuer exercises its covenant defeasance option with respect to the Senior Secured Notes, payment of the Senior Secured Notes may not be accelerated because of an Event of Default specified in clause (3) (other than with respect to clauses (1) and (2) of the covenant described under “—*Certain Covenants—Merger and Consolidation*”), (3), (4), (5) (with respect only to the Issuer and Significant Subsidiaries), (6), (7) or (8) under “Events of Default” above.

In order to exercise either defeasance option, the Issuer must irrevocably deposit in trust (the "defeasance trust") with the Trustee (or another entity designated by the Trustee for this purpose) cash in euros or euro-denominated European Government Obligations or a combination thereof for the payment of principal, premium, if any, and interest on the Senior Secured Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of:

- (1) an Opinion of Counsel in the United States to the effect that Holders of the relevant Senior Secured Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and in the case of legal defeasance only, such Opinion of Counsel in the United States must be based on a ruling of the U.S. Internal Revenue Service or other change in applicable U.S. federal income tax law);
- (2) an Officer's Certificate stating that the deposit was not made by the Issuer with the intent of defeating, hindering, delaying, defrauding or preferring any creditors of the Issuer;
- (3) an Officer's Certificate and an Opinion of Counsel (which opinion of counsel may be subject to customary assumptions and exclusions), each stating that all conditions precedent provided for or relating to legal defeasance or covenant defeasance, as the case may be, have been complied with;
- (4) an Opinion of Counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the U.S. Investment Company Act of 1940; and
- (5) the Issuer delivers to the Trustee all other documents or other information that the Trustee may reasonably require in connection with either defeasance option.

Satisfaction and Discharge

The Indenture, and the rights of the Trustee and the Holders under the Intercreditor Agreement and any Additional Intercreditor Agreement and the Senior Secured Notes Security Documents will be discharged and cease to be of further effect (except as to surviving rights of conversion or transfer or exchange of the Senior Secured Notes, as expressly provided for in the Indenture) as to all outstanding Senior Secured Notes when (1) either (a) all the Senior Secured Notes previously authenticated and delivered (other than certain lost, stolen or destroyed Senior Secured Notes, and certain Senior Secured Notes for which provision for payment was previously made and thereafter the funds have been released to the Issuer) have been delivered to the Principal Paying Agent for cancellation; or (b) all Senior Secured Notes not previously delivered to the Principal Paying Agent for cancellation (i) have become due and payable, (ii) will become due and payable at their Stated Maturity within one year or (iii) are to be called for redemption within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Principal Paying Agent in the name, and at the expense, of the Issuer; (2) the Issuer has deposited or caused to be deposited with the Trustee (or another entity designated by the Trustee for this purpose), money or euro-denominated European Government Obligations, or a combination thereof, as applicable, in an amount sufficient to pay and discharge the entire indebtedness on the Senior Secured Notes not previously delivered to the Principal Paying Agent for cancellation, for principal, premium, if any, and interest to the date of deposit (in the case of Senior Secured Notes that have become due and payable), or to the Stated Maturity or redemption date, as the case may be; (3) the Issuer has paid or caused to be paid all other sums payable under the Indenture; and (4) the Issuer has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel each to the effect that all conditions precedent under the "Satisfaction and Discharge" section of the Indenture relating to the satisfaction and discharge of the Indenture have been

complied with, provided that any such counsel may rely on any Officer's Certificate as to matters of fact (including as to compliance with the foregoing clauses (1), (2) and (3)).

No Personal Liability of Directors, Officers, Employees and Shareholders

No director, officer, employee, incorporator or shareholder of the Issuer or any of their respective Subsidiaries or Affiliates, as such, shall have any liability for any obligations of the Issuer under the Senior Secured Notes Documents or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder by accepting a Senior Secured Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Senior Secured Notes. Such waiver may not be effective to waive liabilities under the U.S. federal securities laws and it is the view of the SEC that such a waiver is against public policy.

Concerning the Trustee and Certain Agents

The Law Debenture Trust Corporation p.l.c. is to be appointed as Trustee under the Indenture. The Indenture will provide that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are set forth specifically in the Indenture. During the existence of an Event of Default, the Trustee will exercise such of the rights and powers vested in it under the Indenture and use the same degree of care that a prudent Person would use in conducting its own affairs. The permissive rights of the Trustee to take or refrain from taking any action enumerated in the Indenture will not be construed as an obligation or duty.

The Indenture will impose certain limitations on the rights of the Trustee, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions with the Issuer and its Affiliates and Subsidiaries.

The Indenture will set out the terms under which the Trustee may retire or be removed, and replaced. Such terms will include, among others, (1) that the Trustee may be removed at any time by the Holders of a majority in principal amount of the then outstanding Notes, or may resign at any time by giving written notice to the Issuer and (2) that if the Trustee at any time (a) has or acquires a conflict of interest that is not eliminated, or (b) becomes incapable of acting as Trustee or becomes insolvent or bankrupt, then the Issuer may remove the Trustee, or any Holder who has been a bona fide Holder for not less than 6 months may petition any court for removal of the Trustee and appointment of a successor Trustee.

Any removal or resignation of the Trustee shall not become effective until the acceptance of appointment by the successor Trustee.

The Indenture will contain provisions for the indemnification of the Trustee for any loss, liability, taxes expenses incurred without gross negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture.

Notices

For so long as any of the Senior Secured Notes are listed on the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require, notices with respect to the Senior Secured Notes of the Issuer will be published in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxembourg Wort*) or if, in the opinion of the Issuer such publication is not practicable, in an English language newspaper having general circulation in Europe. In addition, for so long as any Senior Secured Notes are represented by Global Notes, all notices to Holders of the Senior Secured Notes will be delivered by or on behalf of the Issuer to Euroclear and Clearstream. Such notices may also be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

Each such notice shall be deemed to have been given on the date of such publication or, if published more than once on different dates, on the first date on which publication is made; *provided that*, if notices are mailed, such notice shall be deemed to have been given on the later of such publication and the seventh day after being so mailed. Any notice or communication mailed to a Holder shall be mailed to such Person by first-class mail or other equivalent means and shall be sufficiently given to such Holder if so mailed within the time prescribed. Failure to mail a notice or communication to a Holder or any defect in it shall not affect its sufficiency with respect to other Holders. If a notice or communication is mailed in the manner provided above, it is duly given, whether or not the addressee receives it.

Prescription

Claims against the Issuer for the payment of principal, or premium, if any, on the Senior Secured Notes will be prescribed ten years after the applicable due date for payment thereof. Claims against the Issuer for the payment of interest on the Senior Secured Notes will be prescribed five years after the applicable due date for payment of interest.

Currency Indemnity and Calculation of Euro-Denominated Restrictions

The euro is the sole currency of account and payment for all sums payable by the Issuer and the Guarantors, if any, under or in connection with the Senior Secured Notes and the Guarantees, if any, including damages. Any amount received or recovered in a currency other than euro, whether as a result of, or the enforcement of, a judgment or order of a court of any jurisdiction, in the winding-up or dissolution of the Issuer, any Guarantor or otherwise by any Holder or by the Trustee, in respect of any sum expressed to be due to it from the Issuer or a Guarantor will only constitute a discharge to the Issuer or such Guarantor, as applicable, to the extent of the euro amount which the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so).

If that euro amount is less than the euro amount expressed to be due to the recipient or the Trustee under any Senior Secured Note, the Issuer and the Guarantors, if any, will indemnify them against any loss sustained by such recipient or the Trustee as a result. In any event, the Issuer and the Guarantors, if any, will indemnify the recipient or the Trustee on a joint or several basis against the cost of making any such purchase. For the purposes of this currency indemnity provision, it will be *prima facie* evidence of the matter stated therein for the Holder of a Note or the Trustee to certify in a manner reasonably satisfactory to the Issuer (indicating the sources of information used) the loss it Incurred in making any such purchase. These indemnities constitute a separate and independent obligation from the Issuer's and the Guarantors' other obligations, will give rise to a separate and independent cause of action, will apply irrespective of any waiver granted by any Holder of a Note or the Trustee (other than a waiver of the indemnities set out herein) and will continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Senior Secured Note or any Guarantee, or to the Trustee.

Except as otherwise specifically set forth herein, for purposes of determining compliance with any euro-denominated restriction herein, the Euro Equivalent amount for purposes hereof that is denominated in a non-euro currency shall be calculated based on the relevant currency exchange rate in effect on the date such non-euro amount is Incurred or made, as the case may be.

Listing

Application will be made to list the Senior Secured Notes on the Official List of the Luxembourg Stock Exchange and to admit the Senior Secured Notes to trading on the Euro

MTF Market thereof. There can be no assurance that the application to list the Senior Secured Notes on the Official List of the Irish Stock Exchange and to admit the Senior Secured Notes on the Euro MTF will be approved and settlement of the Senior Secured Notes is not conditioned on obtaining such listing.

Enforceability of Judgments

Since substantially all the assets of the Issuer are located outside the United States, any judgment obtained in the United States against the Issuer, including judgments with respect to the payment of principal, premium, interest, Additional Amounts, if any, and any redemption price and any purchase price with respect to the Senior Secured Notes, may not be collectable within the United States.

Consent to Jurisdiction and Service

In relation to any legal action or proceedings arising out of or in connection with the Indenture and the Senior Secured Notes, the Issuer will in the Indenture irrevocably submit to the jurisdiction of the federal and state courts in the Borough of Manhattan in the City of New York, County and State of New York, United States.

Governing Law

The Indenture and the Senior Secured Notes, and the rights and duties of the parties thereunder shall be governed by and construed in accordance with the laws of the State of New York. The Intercreditor Agreement and the rights and duties of the parties thereunder shall be governed by and construed in accordance with the laws of England and Wales.

Certain Definitions

"Acquired Indebtedness" means Indebtedness (1) of a Person or any of its Subsidiaries existing at the time such Person becomes a Restricted Subsidiary, or (2) assumed in connection with the acquisition of assets from such Person, in each case whether or not Incurred by such Person in connection with such Person becoming a Restricted Subsidiary of the Issuer or such acquisition or (3) of a Person at the time such Person merges with or into or consolidates or otherwise combines with the Issuer or any Restricted Subsidiary. Acquired Indebtedness shall be deemed to have been Incurred, with respect to clause (1) of the preceding sentence, on the date such Person becomes a Restricted Subsidiary and, with respect to clause (2) of the preceding sentence, on the date of consummation of such acquisition of assets and, with respect to clause (3) of the preceding sentence, on the date of the relevant merger, consolidation or other combination.

"Additional Funding Loan" means any loan made by the Issuer to a Restricted Subsidiary with the proceeds of Indebtedness incurred by the Issuer in accordance with the Indenture.

"Affiliate" of any specified Person means any other Person, directly or indirectly, controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition, "control" when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms "controlling" and "controlled" have meanings correlative to the foregoing.

"Agreed Securities Principles" means the agreed security principles appended to the Revolving Credit Facility, as of the Issue Date, as applied *mutatis mutandis* with respect to the Senior Secured Notes in good faith by the Issuer.

"Asset Disposition" means any direct or indirect sale, lease (other than an operating lease entered into in the ordinary course of business), transfer, issuance or other disposition, or a

series of related sales, leases (other than operating leases entered into in the ordinary course of business), transfers, issuances or dispositions that are part of a common plan, of shares of Capital Stock of a Subsidiary (other than directors' qualifying shares), property or other assets (each referred to for the purposes of this definition as a "disposition") by the Issuer or any of its Restricted Subsidiaries, including any disposition by means of a merger, consolidation or similar transaction. Notwithstanding the preceding provisions of this definition, the following items shall not be deemed to be Asset Dispositions:

- (1) a disposition by a Restricted Subsidiary to the Issuer or by the Issuer or a Restricted Subsidiary to a Restricted Subsidiary;
- (2) a disposition of cash, Cash Equivalents, Temporary Cash Investments or Investment Grade Securities;
- (3) a disposition of inventory, trading stock, security equipment or other equipment or assets in the ordinary course of business;
- (4) a disposition of obsolete, damaged, retired, surplus or worn out equipment or assets or equipment, facilities or other assets that are no longer useful in the conduct of the business of the Issuer and its Restricted Subsidiaries and any transfer, termination, unwinding or other disposition of hedging instruments or arrangements not for speculative purposes;
- (5) transactions permitted under "*Certain covenants—Merger and Consolidation*" or a transaction that constitutes a Change of Control;
- (6) an issuance of Capital Stock by a Restricted Subsidiary to the Issuer or to another Restricted Subsidiary or as part of or pursuant to an equity incentive or compensation plan approved by the Board of Directors or the issuance of directors' qualifying shares and shares issued to individuals as required by applicable law;
- (7) any dispositions of Capital Stock, properties or assets in a single transaction or series of related transactions with a fair market value (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) of less than €5.0 million or, if greater, 0.8% of Total Assets;
- (8) any Restricted Payment that is permitted to be made, and is made, under the covenant described above under "*Certain covenants—Limitation on Restricted Payments*" and the making of any Permitted Payment or Permitted Investment or, solely for purposes of clause (3) of the first paragraph of the covenant described under "*Certain covenants—Limitation on Sales of Assets and Subsidiary Stock*", asset sales, the proceeds of which are used to make such Restricted Payments or Permitted Investments;
- (9) the granting of Liens not prohibited by the covenant described above under the caption "*Certain Covenants—Limitation on Liens*";
- (10) dispositions of receivables in connection with the compromise, settlement or collection thereof in the ordinary course of business or in bankruptcy or similar proceedings and exclusive of factoring or similar arrangements or any sale of assets received by the Issuer or a Restricted Subsidiary upon the foreclosure of a Lien granted in favor of the Issuer or any Restricted Subsidiary;
- (11) the licensing or sub-licensing of intellectual property or other general intangibles and licenses, sub-licenses, leases or subleases of other property, in each case, in the ordinary course of business;
- (12) foreclosure, condemnation, taking by eminent domain or any similar action with respect to any property or other assets;

- (13) the sale or discount (with or without recourse, and on customary or commercially reasonable terms) of accounts receivable or notes receivable arising in the ordinary course of business, or the conversion or exchange of accounts receivable for notes receivable;
- (14) for the purposes of the first paragraph of the covenant described under “—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock” only, sales or dispositions of receivables in connection with any Qualified Receivables Financing or any factoring transaction or in the ordinary course of business;
- (15) any issuance, sale or disposition of Capital Stock, Indebtedness or other securities of an Unrestricted Subsidiary;
- (16) any issuance, sale or disposition of Capital Stock, Indebtedness or other securities of an Unrestricted Subsidiary;
- (17) any disposition of Capital Stock of a Restricted Subsidiary pursuant to an agreement or other obligation with or to a Person (other than the Issuer or a Restricted Subsidiary) from whom such Restricted Subsidiary was acquired, or from whom such Restricted Subsidiary acquired its business and assets (having been newly formed in connection with such acquisition), made as part of such acquisition and in each case comprising all or a portion of the consideration in respect of such sale or acquisition;
- (18) any surrender or waiver of contract rights or the settlement, release or surrender of contract, tort or other claims of any kind;
- (19) any disposition of assets to a Person who is providing services related to such assets, the provision of which have been or are to be outsourced by the Issuer or any Restricted Subsidiary to such Person; *provided, however*, that the Board of Directors shall certify that in the opinion of the Board of Directors, the outsourcing transaction will be economically beneficial to the Issuer and its Restricted Subsidiaries (considered as a whole); *provided further* that the fair market value of the assets disposed of, when taken together with all other dispositions made pursuant to this clause (18), does not exceed €5 million;
- (20) an issuance of Capital Stock by a Restricted Subsidiary to the Issuer or to another Restricted Subsidiary, an issuance or sale of by a Restricted Subsidiary of Preferred Stock or Redeemable Capital Stock that is permitted by the covenant described above under “—Limitation on Indebtedness” or an issuance of Capital Stock by the Issuer pursuant to an equity incentive or compensation plan approved by the Board of Directors;
- (21) sales, transfers or other dispositions of Investments in joint ventures to the extent required by, or made pursuant to, customary buy/sell arrangements between the joint venture parties set forth in joint venture arrangements and similar binding agreements; *provided* that any cash or Cash Equivalents received in such sale, transfer or disposition is applied in accordance with the “—Limitation on Sales of Assets and Subsidiary Stock” covenant; and
- (22) any disposition with respect to property built, owned or otherwise acquired by the Issuer or any Restricted Subsidiary pursuant to customary sale and lease-back transactions, asset securitizations and other similar financings permitted by the Indenture.

“Associate” means (i) any Person engaged in a Similar Business of which the Issuer or its Restricted Subsidiaries are the legal and beneficial owners of between 20% and 50% of all outstanding Voting Stock and (ii) any joint venture entered into by the Issuer or any Restricted Subsidiary of the Issuer.

“Bain” means Bain Capital, Ltd., Bain Capital Partners LLC and any funds or limited partners or companies managed or advised by any of them or their respective affiliates

“Board of Directors” means (1) with respect to the Issuer or any corporation, the board of directors or managers, as applicable, of the corporation, or any duly authorized committee

thereof; (2) with respect to any partnership, the board of directors or other governing body of the general partner of the partnership or any duly authorized committee thereof; and (3) with respect to any other Person, the board or any duly authorized committee of such Person serving a similar function. Whenever any provision of the Indenture requires any action or determination to be made by, or any approval of, a Board of Directors, such action, determination or approval shall be deemed to have been taken or made if approved by a majority of the directors (excluding employee representatives, if any) on any such Board of Directors (whether or not such action or approval is taken as part of a formal board meeting or as a formal board approval).

"Business Day" means each day that is not a Saturday, Sunday or other day on which banking institutions in Milan, Italy or London, United Kingdom are authorized or required by law to close.

"Capital Stock" of any Person means any and all shares of, rights to purchase, warrants or options for, or other equivalents of or partnership or other interests in (however designated), equity of such Person, including any Preferred Stock, but excluding any debt securities convertible into such equity.

"Capitalized Lease Obligations" means an obligation that is required to be classified and accounted for as a capitalized lease for financial reporting purposes on the basis of IFRS (as in effect on the Issue Date for purposes of determining whether a lease is a capitalized lease). The amount of Indebtedness will be, at the time any determination is to be made, the amount of such obligation required to be capitalized on a balance sheet (excluding any notes thereto) prepared in accordance with IFRS, and the stated maturity thereof will be the date of the last payment of rent or any other amount due under such lease prior to the first date such lease may be terminated without penalty.

"Cash Equivalents" means:

- (1) securities issued or directly and fully Guaranteed or insured by the United States or Canadian governments, a member state of the European Union, Switzerland or Norway or, in each case, any agency or instrumentality of thereof (*provided* that the full faith and credit of such country or such member state is pledged in support thereof), having maturities of not more than two years from the date of acquisition;
- (2) certificates of deposit, time deposits, eurodollar time deposits, overnight bank deposits or bankers' acceptances having maturities of not more than one year from the date of acquisition thereof issued by any lender party to the Revolving Credit Facility or by any bank or trust company (a) whose commercial paper is rated at least "A-1" or the equivalent thereof by S&P or at least "P-1" or the equivalent thereof by Moody's (or if at the time neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) or (b) (in the event that the bank or trust company does not have commercial paper which is rated) having combined capital and surplus in excess of €250 million;
- (3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clauses (1) and (2) entered into with any bank meeting the qualifications specified in clause (2) above;
- (4) commercial paper rated at the time of acquisition thereof at least "A-2" or the equivalent thereof by S&P or "P-2" or the equivalent thereof by Moody's or carrying an equivalent rating by a Nationally Recognized Statistical Rating Organization, if both of the two named rating agencies cease publishing ratings of investments or, if no rating is available in respect of the commercial paper, the issuer of which has an equivalent rating in respect of its long-term debt, and in any case maturing within one year after the date of acquisition thereof;

- (5) readily marketable direct obligations issued by any state of the United States of America, any province of Canada, any member of the European Union, Switzerland or Norway or any political subdivision thereof, in each case, having one of the two highest rating categories obtainable from either Moody's or S&P (or, if at the time, neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) with maturities of not more than two years from the date of acquisition;
- (6) Indebtedness or preferred stock issued by Persons with a rating of "BBB –" or higher from S&P or "Baa3" or higher from Moody's (or, if at the time, neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) with maturities of 12 months or less from the date of acquisition;
- (7) bills of exchange issued in the United States, Canada, a member state of the European Union, Switzerland, Norway or Japan eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent);
- (8) interests in any investment company, money market or enhanced high yield fund which invests 95% or more of its assets in instruments of the type specified in clauses (1) through (7) above; and
- (9) for purposes of clause (2) of the definition of "Asset Disposition", the marketable securities portfolio owned by the Issuer and its Subsidiaries on the Issue Date.

"Change of Control" means the occurrence of any of the following:

- (1) the Issuer becoming aware of (by way of a report or any other filing pursuant to Section 13(d) of the Exchange Act, proxy, vote, written notice or otherwise) any "person" or "group" of related persons (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act as in effect on the Issue Date), other than one or more Permitted Holders, is or becomes the "beneficial owner" (as defined in Rules 13d-3 and 13d-5 under the Exchange Act as in effect on the Issue Date), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Issuer, *provided* that for the purposes of this clause, (x) no Change of Control shall be deemed to occur by reason of the Issuer becoming a Subsidiary of a Successor Parent; or
- (2) the sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or other business combination transaction), in one or a series of related transactions, of all or substantially all of the assets of the Issuer and its Restricted Subsidiaries taken as a whole to a Person, other than a Restricted Subsidiary or one or more Permitted Holders,

provided that, in each case, a Change of Control shall not be deemed to have occurred if such a Change of Control is also a Specified Change of Control Event.

"Clearstream" means Clearstream Banking, *société anonyme*, as currently in effect or any successor securities clearing agency.

"Commodity Hedging Agreements" means, in respect of a Person, any commodity purchase contract, commodity futures or forward contract, commodities option contract or other similar contract (including commodities derivative agreements or arrangements), to which such Person is a party or a beneficiary.

"Company Funding Loan" means the loan from the Issuer to TeamSystem S.r.l of proceeds of the initial issuance of the Senior Secured Notes.

"Company Shareholder Loan" means the shareholder loan from Titan 3 to TeamSystem S.r.l. outstanding on the Issue Date.

"Consolidated Adjusted Leverage Ratio" means, as of any date of determination, the Consolidated Leverage Ratio, calculated as though Indebtedness of the Issuer and its Restricted Subsidiaries were reduced by an amount equal to the cash and Cash Equivalents held by the Issuer and its Restricted Subsidiaries as of such date of determination but not exceeding 0.5x of pro forma Consolidated EBITDA

"Consolidated EBITDA" for any period means, without duplication, the Consolidated Net Income for such period, plus the following to the extent deducted in calculating such Consolidated Net Income:

- (1) Consolidated Interest Expense;
- (2) Consolidated Income Taxes;
- (3) consolidated depreciation expense;
- (4) consolidated amortization or impairment expense or provisions for bad debt;
- (5) any expenses, charges or other costs related to any issuance of Capital Stock, listing of Capital Stock, Investment, acquisition (including amounts paid in connection with the acquisition or retention of one or more individuals comprising part of a management team retained to manage the acquired business and any expenses, charges or other costs related to deferred or contingent payments), disposition, recapitalization or the Incurrence of any Indebtedness permitted by the Indenture (whether or not successful) (including any such fees, expenses or charges related to the Transactions (including any expenses in connection with related due diligence activities)), in each case, as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer;
- (6) any minority interest expense (whether paid or not) consisting of income attributable to minority equity interests of third parties in such period or any prior period or any net earnings, income or share of profit of any Associates, associated company or undertaking;
- (7) the amount of management, monitoring, consulting and advisory fees and related expenses paid in such period to the Permitted Holders to the extent permitted by the covenant described under "—Certain Covenants—Limitation on Affiliate Transactions";
- (8) other non-cash charges, write-downs or items reducing Consolidated Net Income (excluding any such non-cash charge, write-down or item to the extent it represents an accrual of or reserve for cash charges expected to be paid in any future period) or other items classified by the Issuer as special, extraordinary, exceptional, unusual or nonrecurring items less other non-cash items of income increasing Consolidated Net Income (excluding any such non-cash item of income to the extent it represents a receipt of cash expected to be paid in any future period);
- (9) the proceeds of any business interruption insurance received or that become receivable during such period to the extent the associated losses arising out of the event that resulted in the payment of such business interruption insurance proceeds were included in computing Consolidated Net Income;
- (10) payments received or that become receivable with respect to, expenses that are covered by the indemnification provisions in any agreement entered into by such Person in connection with an acquisition to the extent such expenses were included in computing Consolidated Net Income; and
- (11) any Receivables Fees and discounts on the sale of accounts receivables in connection with any Qualified Receivables Financing representing, in the Issuer's reasonable determination, the implied interest component of such discount for such period.

"Consolidated Financial Interest Expense" means, for any period (in each case, determined on the basis of IFRS), the consolidated net interest income/expense of the Issuer and its Restricted Subsidiaries related to Indebtedness (except Indebtedness specified under clause (3) of the definition thereof), but not including any pension liability interest cost, amortization of debt issuance cost, and premium, commissions, discounts and other fees and charges owed or paid with respect to financings, or costs associated with Hedging Obligations.

"Consolidated Income Taxes" means taxes or other payments, including deferred Taxes, based on income, profits or capital of any of the Issuer and its Restricted Subsidiaries whether or not paid, estimated, accrued or required to be remitted to any governmental authority.

"Consolidated Interest Expense" means, for any period (in each case, determined on the basis of IFRS), the consolidated net interest income/expense of the Issuer and its Restricted Subsidiaries, whether paid or accrued, plus or including (without duplication) any interest, costs and charges consisting of:

- (1) interest expense attributable to Capitalized Lease Obligations;
- (2) amortization of original issue discount (but not including deferred financing fees, debt issuance costs, commissions, fees and expenses);
- (3) non-cash interest expense;
- (4) commissions, discounts and other fees and charges owed with respect to financings not included in clause (2) above;
- (5) costs associated with Hedging Obligations (excluding amortization of fees or any non-cash interest expense attributable to the movement in mark-to-market valuation of such obligations);
- (6) the product of (a) all dividends or other distributions in respect of all Disqualified Stock of the Issuer and all Preferred Stock of any Restricted Subsidiary, to the extent held by Persons other than the Issuer or a subsidiary of the Issuer, multiplied by (b) a fraction, the numerator of which is one and the denominator of which is one minus the then current combined national, state and local statutory tax rate of such Person, expressed as a decimal, as estimated in good faith by a responsible accounting or financial officer of the Issuer;
- (7) the consolidated interest expense that was capitalized during such period; and
- (8) interest actually paid by the Issuer or any Restricted Subsidiary under any Guarantee of Indebtedness or other obligation of any other Person,

minus (i) accretion or accrual of discounted liabilities other than Indebtedness, (ii) any expense resulting from the discounting of any Indebtedness in connection with the application of purchase accounting in connection with any acquisition, (iii) interest with respect to Indebtedness of any Holding Company of such Person appearing upon the balance sheet of such Person solely by reason of push-down accounting under IFRS and (iv) any Additional Amounts with respect to the Senior Secured Notes included in interest expense under IFRS.

"Consolidated Leverage" means the sum of the aggregate outstanding Indebtedness of the Issuer and its Restricted Subsidiaries (excluding Hedging Obligations).

"Consolidated Leverage Ratio" means, as of any date of determination, the ratio of (x) Consolidated Leverage at such date to (y) the aggregate amount of Consolidated EBITDA for the period of the four most recent fiscal quarters ending prior to the date of such determination for which internal consolidated financial statements of the Issuer are available. In the event that the Issuer or any of its Restricted Subsidiaries Incurs, assumes, guarantees, repays, repurchases, redeems, defeases or otherwise discharges any Indebtedness subsequent to

the commencement of the period for which the Consolidated Leverage Ratio is being calculated and on or prior to the date on which the event for which the calculation of the Consolidated Leverage Ratio is made (the "Calculation Date"), then the Consolidated Leverage Ratio will be calculated giving *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of the Issuer) to such Incurrence, assumption, guarantee, repayment, repurchase, redemption, defeasance or other discharge of Indebtedness, and the use of the proceeds therefrom, as if the same had occurred at the beginning of the applicable reference period; *provided, however*, that the *pro forma* calculation shall not give effect to (i) any Indebtedness incurred on the Calculation Date pursuant to the provisions described in the second paragraph under "—Limitation on Indebtedness" or (ii) the discharge on the Calculation Date of any Indebtedness to the extent that such discharge results from the proceeds incurred pursuant to the provisions described in the second paragraph under "—Limitation on Indebtedness".

In addition, for purposes of calculating the Consolidated Leverage Ratio:

- (1) acquisitions and Investments that have been made by the Issuer or any of its Restricted Subsidiaries, including through mergers or consolidations, or any Person or any of its Subsidiaries which are Restricted Subsidiaries acquired by the Issuer or any of its Restricted Subsidiaries, and including all related financing transactions and including increases in ownership of Subsidiaries which are Restricted Subsidiaries, during the reference period or subsequent to such reference period and on or prior to the Calculation Date, or that are to be made on the Calculation Date or thereafter as part of a transaction to which the incurrence of Indebtedness relates, will be given *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of the Issuer and may include anticipated synergies and expense and cost reductions) as if they had occurred on the first day of the reference period;
- (2) the Consolidated EBITDA (whether positive or negative) attributable to discontinued operations, as determined in accordance with IFRS, and operations, businesses or group of assets constituting a business or operating unit (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded on a *pro forma* basis as if such disposition occurred on the first day of such period;
- (3) the Consolidated Interest Expense attributable to discontinued operations, as determined in accordance with IFRS, and operations, businesses or group of assets constituting a business or operating unit (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded on a *pro forma* basis as if such disposition occurred on the first day of such period, but only to the extent that the obligations giving rise to such Consolidated Interest Expense will not be obligations of the Issuer or any of its Restricted Subsidiaries following the Calculation Date;
- (4) any Person that is a Restricted Subsidiary on the Calculation Date will be deemed to have been a Restricted Subsidiary at all times during such reference period;
- (5) any Person that is not a Restricted Subsidiary on the Calculation Date will be deemed not to have been a Restricted Subsidiary at any time during such reference period; and
- (6) if any Indebtedness bears a floating rate of interest, the interest expense on such Indebtedness will be calculated as if the rate in effect on the Calculation Date had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness, and if any Indebtedness is not denominated in the Issuer's functional currency, that Indebtedness for purposes of the calculation of Consolidated Leverage shall be treated in accordance with IFRS.

"Consolidated Net Income" means, for any period, the net income (loss) of the Issuer and its Restricted Subsidiaries determined on a consolidated basis on the basis of IFRS; *provided, however,* that there will not be included in such Consolidated Net Income:

- (1) subject to the limitations contained in clause (3) below, any net income (loss) of any Person if such Person is not a Restricted Subsidiary, except that the Issuer's equity in the net income of any such Person for such period will be included in such Consolidated Net Income up to the aggregate amount of cash or Cash Equivalents actually distributed by such Person during such period to the Issuer or a Restricted Subsidiary as a dividend or other distribution or return on investment (subject, in the case of a dividend or other distribution or return on investment to a Restricted Subsidiary, to the limitations contained in clause (2) below);
- (2) solely for the purpose of determining the amount available for Restricted Payments under clause (c)(i) of the first paragraph of the covenant described under "*Certain Covenants—Limitation on Restricted Payments*", any net income (loss) of any Restricted Subsidiary if such Subsidiary is subject to restrictions on the payment of dividends or the making of distributions by such Restricted Subsidiary to the Issuer by operation of the terms of such Restricted Subsidiary's charter or any agreement, instrument, judgment, decree, order, statute or governmental rule or regulation applicable to such Restricted Subsidiary or its shareholders (other than (a) restrictions that have been waived or otherwise released, (b) restrictions pursuant to the Senior Secured Notes or the Indenture, (c) contractual restrictions in effect on the Issue Date with respect to a Restricted Subsidiary (including pursuant to the Revolving Credit Facility and the Intercreditor Agreement), and other restrictions with respect to such Restricted Subsidiary that, taken as a whole, are not materially less favorable to the Holders than such restrictions in effect on the Issue Date, and (d) restrictions not prohibited by the covenant described under "*Certain Covenants—Limitation on Restrictions on Distributions from Restricted Subsidiaries*", except that the Issuer's equity in the net income of any such Restricted Subsidiary for such period will be included in such Consolidated Net Income up to the aggregate amount of cash or Cash Equivalents actually distributed or that could have been distributed by such Restricted Subsidiary during such period to the Issuer or another Restricted Subsidiary as a dividend or other distribution (subject, in the case of a dividend to another Restricted Subsidiary, to the limitation contained in this clause);
- (3) any net gain (or loss) realized upon the sale or other disposition of any asset or disposed operations of the Issuer or any Restricted Subsidiaries (including pursuant to any sale/ leaseback transaction) which is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by an Officer or the Board of Directors of the Issuer);
- (4) any extraordinary, one-off, non-recurring, exceptional or unusual gain, loss, expense or charge, including any charges or reserves in respect of any restructuring, redundancy, relocation, refinancing, integration or severance or other post-employment arrangements, signing, retention or completion bonuses, transaction costs (including costs related to the Transactions or any investments), acquisition costs, business optimization, system establishment, software or information technology implementation or development, costs related to governmental investigations and curtailments or modifications to pension or post-retirement benefits schemes, litigation or any asset impairment charges or the financial impacts of natural disasters (including fire, flood and storm and related events);
- (5) the cumulative effect of a change in accounting principles;
- (6) any non-cash compensation charge or expense arising from any grant of stock, stock options or other equity based awards, any non-cash deemed finance charges in respect of any pension liabilities or other provisions, any non-cash net after tax gains or losses attributable to the termination or modification of any employee pension benefit plan and any charge or expense relating to any payment made to holders of equity based securities

or rights in respect of any dividend sharing provisions of such securities or rights to the extent such payment was made pursuant to the covenant described under “—Certain Covenants—Limitation on Restricted Payments”;

- (7) all deferred financing costs written off and premiums paid or other expenses incurred directly in connection with any early extinguishment of Indebtedness or Hedging Obligations and any net gain (loss) from any write-off or forgiveness of Indebtedness;
- (8) any unrealized gains or losses in respect of Hedging Obligations or other financial instruments or any ineffectiveness recognized in earnings related to qualifying hedge transactions or the fair value or changes therein recognized in earnings for derivatives that do not qualify as hedge transactions, in each case, in respect of Hedging Obligations;
- (9) any unrealized foreign currency transaction gains or losses in respect of Indebtedness or other obligations of the Issuer or any Restricted Subsidiary denominated in a currency other than the functional currency of such Person and any unrealized foreign exchange gains or losses resulting from remeasuring assets and liabilities denominated in foreign currencies;
- (10) any unrealized foreign currency translation or transaction gains or losses in respect of Indebtedness or other obligations of the Issuer or any Restricted Subsidiary owing to the Issuer or any Restricted Subsidiary;
- (11) any one-time non-cash charges or any amortization or depreciation, in each case to the extent related to the Transactions or any acquisition of another Person or business or resulting from any reorganization or restructuring involving the Issuer or its Subsidiaries;
- (12) any goodwill or other intangible asset impairment charge or write-off or write-down; and
- (13) the impact of capitalized, accrued or accreting or pay-in-kind interest or principal on Subordinated Shareholder Funding.

“Consolidated Senior Secured Leverage” means the sum of the aggregate outstanding Senior Secured Indebtedness of the Issuer and its Restricted Subsidiaries (excluding Hedging Obligations).

“Consolidated Senior Secured Leverage Ratio” means, as of any date of determination, the ratio of (x) Consolidated Senior Secured Leverage at such date to (y) the aggregate amount of Consolidated EBITDA for the period of the four most recent fiscal quarters ending prior to the date of such determination for which internal consolidated financial statements of the Issuer are available, in each case calculated with such *pro forma* and other adjustments as are consistent with the *pro forma* provisions set forth in the definition of Consolidated Leverage Ratio.

“Contingent Obligations” means, with respect to any Person, any obligation of such Person guaranteeing in any manner, whether directly or indirectly, any operating lease, dividend or other obligation that does not constitute Indebtedness (“primary obligations”) of any other Person (the “primary obligor”), including any obligation of such Person, whether or not contingent:

- (1) to purchase any such primary obligation or any property constituting direct or indirect security therefor;
- (2) to advance or supply funds:
 - (a) for the purchase or payment of any such primary obligation; or
 - (b) to maintain the working capital or equity capital of the primary obligor or otherwise to maintain the net worth or solvency of the primary obligor; or

- (3) to purchase property, securities or services primarily for the purpose of assuring the owner of any such primary obligation of the ability of the primary obligor to make payment of such primary obligation against loss in respect thereof.

"Credit Facility" means, with respect to the Issuer or any of its Subsidiaries, one or more debt facilities, arrangements, instruments or indentures (including the Revolving Credit Facility or commercial paper facilities and overdraft facilities) with banks, institutions or investors providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables), notes, letters of credit or other Indebtedness, in each case, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time (and whether in whole or in part and whether or not with the original administrative agent and lenders or another administrative agent or agents or other banks, institutions or investors and whether provided under the original Revolving Credit Facility or one or more other credit or other agreements, indentures, financing agreements or otherwise) and in each case including all agreements, instruments and documents executed and delivered pursuant to or in connection with the foregoing (including any notes and letters of credit issued pursuant thereto and any Guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other Guarantees, pledges, agreements, security agreements and collateral documents). Without limiting the generality of the foregoing, the term *"Credit Facility"* shall include any agreement or instrument (1) changing the maturity of any Indebtedness Incurred thereunder or contemplated thereby, (2) adding Subsidiaries of the Issuer as additional borrowers or guarantors thereunder, (3) increasing the amount of Indebtedness Incurred thereunder or available to be borrowed thereunder or (4) otherwise altering the terms and conditions thereof.

"Currency Agreement" means, in respect of a Person, any foreign exchange contract, currency swap agreement, currency futures contract, currency option contract, currency derivative or other similar agreement to which such Person is a party or beneficiary.

"Default" means any event which is, or after notice or passage of time or both would be, an Event of Default.

"Designated Non-Cash Consideration" means the fair market value (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) of non-cash consideration received by the Issuer or one of its Restricted Subsidiaries in connection with an Asset Disposition that is so designated as Designated Non-Cash Consideration pursuant to an Officer's Certificate, setting forth the basis of such valuation, less the amount of cash, Cash Equivalents or Temporary Cash Investments received in connection with a subsequent payment, redemption, retirement, sale or other disposition of such Designated Non-Cash Consideration. A particular item of Designated Non-Cash Consideration will no longer be considered to be outstanding when and to the extent it has been paid, redeemed or otherwise retired or sold or otherwise disposed of in compliance with the covenant described under *"—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock"*.

"Designated Preference Shares" means, with respect to the Issuer or any Parent, Preferred Stock (other than Disqualified Stock) (a) that is issued for cash (other than to the Issuer or a Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any such Subsidiary for the benefit of their employees to the extent funded by the Issuer or such Subsidiary) and (b) that is designated as *"Designated Preference Shares"* pursuant to an Officer's Certificate of the Issuer at or prior to the issuance thereof, the Net Cash Proceeds of which are excluded from the calculation set forth in clause (c)(ii) of the second paragraph of the covenant described under *"—Certain Covenants—Limitation on Restricted Payments"*.

"Disqualified Stock" means any Capital Stock that, by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable, in each case, at the option of the

holder of the Capital Stock), or upon the happening of any event, matures or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise, or redeemable at the option of the holder of the Capital Stock, in whole or in part, in each case on or prior to the date that is 90 days after the earlier of (a) the Stated Maturity of the Senior Secured Notes or (b) the date on which there are no Senior Secured Notes outstanding. Notwithstanding the preceding sentence, any Capital Stock that would constitute Disqualified Stock solely because the holders of the Capital Stock have the right to require the issuer thereof to repurchase such Capital Stock upon the occurrence of a Change of Control or an Asset Disposition will not constitute Disqualified Stock if the terms of such Capital Stock provide that the issuer thereof may not repurchase or redeem any such Capital Stock pursuant to such provisions unless such repurchase or redemption complies with the covenant described above under the caption “—Certain Covenants—Restricted Payments”. For purposes hereof, the amount of Disqualified Stock which does not have a fixed repurchase price shall be calculated in accordance with the terms of such Disqualified Stock as if such Disqualified Stock were purchased on any date on which Indebtedness shall be required to be determined pursuant to the Indenture, and if such price is based upon, or measured by, the fair market value of such Disqualified Stock, such fair market value to be determined as set forth herein. Only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such date will be deemed to be Disqualified Stock.

“Equity Offering” means (x) a sale of Capital Stock of the Issuer (other than Disqualified Stock and other than offerings registered on Form S-8 (or any successor form) under the Securities Act or any similar offering in other jurisdictions), or (y) the sale of Capital Stock or other securities by any Person, in each case, the proceeds of which are contributed as Subordinated Shareholder Funding or to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer or any of its Restricted Subsidiaries.

“Euro Equivalent” means, with respect to any monetary amount in a currency other than euro, at any time of determination thereof by the Issuer or the Trustee, the amount of euro obtained by converting such currency other than euro involved in such computation into euro at the spot rate for the purchase of euro with the applicable currency other than euro as published in *The Financial Times* in the “Currency Rates” section (or, if *The Financial Times* is no longer published, or if such information is no longer available in *The Financial Times*, such source as may be selected in good faith by the Board of Directors or a member of Senior Management of the Issuer) on the date of such determination.

“Euroclear” means Euroclear Bank SA/NV or any successor securities clearing agency.

“European Government Obligations” means any security that is (1) a direct obligation of any country that is a member of the European Monetary Union on the date of the Indenture, for the payment of which the full faith and credit of such country is pledged or (2) an obligation of a person controlled or supervised by and acting as an agency or instrumentality of any such country the payment of which is unconditionally Guaranteed as a full faith and credit obligation by such country, which, in either case under the preceding clause (1) or (2), is not callable or redeemable at the option of the issuer thereof.

“Exchange Act” means the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

“Excluded Contribution” means Net Cash Proceeds or property or assets received by the Issuer as capital contributions to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer after the Issue Date or from the issuance or sale (other than to a Restricted Subsidiary or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) of Capital Stock (other than Disqualified Stock or Designated Preference Shares) or Subordinated Shareholder Funding of the Issuer, in

each case, to the extent designated as an Excluded Contribution pursuant to an Officer's Certificate of the Issuer.

"fair market value" wherever such term is used in this *"Description of the Notes"* or the Indenture (except in relation to an enforcement action pursuant to the Intercreditor Agreement and except as otherwise specifically provided in this *"Description of the Notes"* or the Indenture), may be conclusively established by means of an Officer's Certificate or a resolution of the Board of Directors of the Issuer setting out such fair market value as determined by such Officer or such Board of Directors in good faith.

"Fixed Charge Coverage Ratio" means, as of any date of determination, the ratio of (x) the aggregate amount of Consolidated EBITDA of such Person for the period of the four most recent fiscal quarters prior to the date of such determination for which internal consolidated financial statements are available to (y) the Fixed Charges of such Person for such four fiscal quarters.

In the event that the specified Person or any of its Restricted Subsidiaries incurs, assumes, guarantees, repays, repurchases, redeems, defeases, retires, extinguishes or otherwise discharges any Indebtedness (other than Indebtedness incurred under any revolving credit facility unless such Indebtedness has been permanently repaid and has not been replaced) or issues, repurchases or redeems Disqualified Stock or Preferred Stock subsequent to the commencement of the period for which the Fixed Charge Coverage Ratio is being calculated and on or prior to the date on which the event for which the calculation of the Fixed Charge Coverage Ratio is made (the *"Calculation Date"*), then the Fixed Charge Coverage Ratio will be calculated giving *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of such Person), including in respect of anticipated synergies and expense and cost reductions, to such incurrence, assumption, guarantee, repayment, repurchase, redemption, defeasance, retirement, extinguishment or other discharge of Indebtedness, or such issuance, repurchase or redemption of Disqualified Stock or Preferred Stock, and the use of the proceeds therefrom, as if the same had occurred at the beginning of the applicable four-quarter reference period; *provided, however*, that the *pro forma* calculation of Fixed Charges shall not give effect to (i) any Indebtedness incurred on the Calculation Date pursuant to the provisions described in the second paragraph of the covenant described above under *"—Certain covenants—Limitation on Indebtedness"* (other than for the purposes of the calculation of the Fixed Charge Coverage Ratio under clause (5) thereunder) or (ii) the discharge on the Calculation Date of any Indebtedness to the extent that such discharge results from the proceeds incurred pursuant to the provisions described in the second paragraph of the covenant described above under *"—Certain covenants—Limitation on Indebtedness"*.

In addition, for purposes of calculating the Fixed Charge Coverage Ratio:

- (1) acquisitions or Investments that have been made by the specified Person or any of its Restricted Subsidiaries, including through mergers or consolidations, or by any Person or any of its Restricted Subsidiaries acquired by the specified Person or any of its Subsidiaries which are Restricted Subsidiaries, and including all related financing transactions and including increases in ownership of Restricted Subsidiaries, during the four-quarter reference period or subsequent to such reference period and on or prior to the Calculation Date, or that are to be made on the Calculation Date, or thereafter as part of a transaction to which the incurrence of Indebtedness relates, will be given *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of such Person), including in respect of anticipated expense and cost reductions and synergies, as if they had occurred on the first day of the four-quarter reference period;
- (2) the Consolidated EBITDA attributable to discontinued operations, as determined in accordance with IFRS, and operations or businesses (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded;

- (3) the Fixed Charges attributable to discontinued operations, as determined in accordance with IFRS, and operations or businesses (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded, but only to the extent that the obligations giving rise to such Fixed Charges will not be obligations of the specified Person or any of its Restricted Subsidiaries following the Calculation Date;
- (4) any Person that is a Restricted Subsidiary on the Calculation Date will be deemed to have been a Restricted Subsidiary at all times during such four-quarter period;
- (5) any Person that is not a Restricted Subsidiary on the Calculation Date will be deemed not to have been a Restricted Subsidiary at any time during such four-quarter period;
- (6) if any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest expense on such Indebtedness will be calculated as if the rate in effect on the Calculation Date had been the applicable rate for the entire period (taking into account any Hedging Obligation applicable to such Indebtedness if such Hedging Obligation has a remaining term as at the Calculation Date in excess of 12 months, or, if shorter, at least equal to the remaining term of such Indebtedness); and
- (7) Interest on a Capitalized Lease Obligation shall be deemed to accrue at an interest rate reasonably determined by a responsible financial or accounting officer of the Issuer to be the rate of interest implicit in such Capitalized Lease Obligation in accordance with IFRS.

"Fixed Charges" means, with respect to any specified Person for any period, the sum, without duplication, of:

- (1) the Consolidated Financial Interest Expense of such Person for such period; plus
- (2) all dividends, whether paid or accrued and whether or not in cash, on or in respect of all Disqualified Stock of the Issuer or any series of Preferred Stock of any Restricted Subsidiary, other than dividends on Equity Interests payable to the Issuer or a Restricted Subsidiary.

"Guarantee" means any obligation, contingent or otherwise, of any Person directly or indirectly guaranteeing any Indebtedness of any other Person, including any such obligation, direct or indirect, contingent or otherwise, of such Person:

- (1) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness of such other Person (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take-or-pay or to maintain financial statement conditions or otherwise); or
- (2) entered into primarily for purposes of assuring in any other manner the obligee of such Indebtedness of the payment thereof or to protect such obligee against loss in respect thereof (in whole or in part),

provided, however, that the term *"Guarantee"* will not include endorsements for collection or deposit in the ordinary course of business. The term *"Guarantee"* used as a verb has a corresponding meaning.

"Guarantor" means any Restricted Subsidiary that Guarantees the Senior Secured Notes.

"Hedging Obligations" of any Person means the obligations of such Person pursuant to any Interest Rate Agreement, Currency Agreement or Commodity Hedging Agreement.

"Hg Capital" means limited partnerships or investors acting through their manager Hg Pooled Management Limited.

"Holder" means each Person in whose name the Senior Secured Notes are registered on the Registrar's books, which shall initially be the respective nominee of Euroclear or Clearstream, as applicable.

"Holding Company" means, in relation to any Person, any other Person in respect of which it is a Subsidiary.

"IFRS" means International Financial Reporting Standards (formerly International Accounting Standards) ("IFRS") endorsed from time to time by the European Union or any variation thereof with which the Issuer or its Restricted Subsidiaries are, or may be, required to comply. Except as otherwise set forth in the Indenture, all ratios and calculations based on IFRS contained in the Indenture shall be computed in accordance with IFRS as in effect on the Issue Date.

"Incur" means issue, create, assume, enter into any Guarantee of, incur or otherwise become liable for; *provided, however*, that any Indebtedness or Capital Stock of a Person existing at the time such Person becomes a Restricted Subsidiary (whether by merger, consolidation, acquisition or otherwise) will be deemed to be Incurred by such Restricted Subsidiary at the time it becomes a Restricted Subsidiary and the terms "Incurred" and "Incurrence" have meanings correlative to the foregoing and any Indebtedness pursuant to any revolving credit or similar facility shall only be "Incurred" at the time any funds are borrowed thereunder.

"Indebtedness" means, with respect to any Person on any date of determination (without duplication):

- (1) the principal of indebtedness of such Person for borrowed money;
- (2) the principal of obligations of such Person evidenced by bonds, debentures, notes or other similar instruments;
- (3) all reimbursement obligations of such Person owing in respect of letters of credit, bankers' acceptances or other similar instruments (except to the extent such reimbursement obligations relate to trade payables or other obligations not constituting Indebtedness and such obligations are satisfied within 30 days of Incurrence), in each case only to the extent that the underlying obligation in respect of which the instrument was issued would be treated as Indebtedness;
- (4) the principal component of all obligations of such Person to pay the deferred and unpaid purchase price of property (except trade payables), where the deferred payment is arranged primarily as a means of raising finance, which purchase price is due more than one year after the date of placing such property in service or taking final delivery and title thereto;
- (5) Capitalized Lease Obligations of such Person;
- (6) the principal component of all obligations, or liquidation preference, of such Person with respect to any Disqualified Stock or, with respect to any Restricted Subsidiary, any Preferred Stock (but excluding, in each case, any accrued dividends);
- (7) the principal component of all Indebtedness of other Persons secured by a Lien on any asset of such Person, whether or not such Indebtedness is assumed by such Person; *provided, however*, that the amount of such Indebtedness will be the lesser of (a) the fair market value of such asset at such date of determination (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) and (b) the amount of such Indebtedness of such other Persons;
- (8) Guarantees by such Person of the principal component of Indebtedness of other Persons to the extent Guaranteed by such Person; and
- (9) to the extent not otherwise included in this definition, net obligations of such Person under Currency Agreements and Interest Rate Agreements (the amount of any such obligations to be equal at any time to the termination value of such agreement or arrangement giving rise to such obligation that would be payable by such Person at such time).

The term "Indebtedness" shall not include (i) Subordinated Shareholder Funding, (ii) any lease, concession or license of property (or Guarantee thereof) which would be considered an operating lease under IFRS as in effect on the Issue Date, (iii) prepayments of deposits received from clients or customers in the ordinary course of business or (iv) obligations under any license, permit or other approval (or Guarantees given in respect of such obligations) Incurred prior to the Issue Date or in the ordinary course of business.

The amount of Indebtedness of any Person at any time in the case of a revolving credit or similar facility shall be the total amounts of funds borrowed and then outstanding. The amount of Indebtedness of any Person at any date shall be determined as set forth above or otherwise provided in the Indenture, and (other than with respect to letters of credit or Guarantees or Indebtedness specified in clause (7) or (8) above) shall equal the amount thereof that would appear on a balance sheet of such Person (excluding any notes thereto) prepared on the basis of IFRS.

Notwithstanding the above provisions, in no event shall the following constitute Indebtedness:

- (1) Contingent Obligations Incurred in the ordinary course of business, obligations under earnout or put or call rights, obligations under or in respect of Qualified Receivables Financings and accrued liabilities Incurred in the ordinary course of business that are not more than 90 days past due;
- (2) in connection with the purchase by the Issuer or any Restricted Subsidiary of any business, any post-closing payment adjustments to which the seller may become entitled to the extent such payment is determined by a final closing balance sheet or such payment depends on the performance of such business after the closing; *provided, however, that*, at the time of closing, the amount of any such payment is not determinable and, to the extent such payment thereafter becomes fixed and determined, the amount is paid within 30 days thereafter; or
- (3) for the avoidance of doubt, any obligations in respect of workers' compensation claims, early retirement or termination obligations, pension fund obligations or contributions or similar claims, obligations or contributions or social security or wage Taxes.

"Independent Financial Advisor" means an investment banking or accounting firm of international standing or any third party appraiser of international standing; *provided, however, that* such firm or appraiser is not an Affiliate of the Issuer.

"Initial Investors" means any funds or limited partnerships managed or advised by HgCapital or Bain or any of their respective Affiliates or direct or indirect Subsidiaries or any trust, fund, company or partnership owned, managed or advised by either of them or any of their respective Affiliates or direct or indirect Subsidiaries or any entity controlled by all or substantially all of the managing directors of such fund or HgCapital or Bain from time to time.

"Initial Public Offering" means an Equity Offering of common stock or other common equity interests of the Issuer or any Parent or any successor of the Issuer or any Parent (the "IPO Entity") following which there is a Public Market and, as a result of which, the shares of common stock or other common equity interests of the IPO Entity in such offering are listed on an internationally recognized exchange or traded on an internationally recognized market.

"Intercreditor Agreement" means the Intercreditor Agreement dated on or about the Issue Date, by and among, *inter alios*, the Issuer, UniCredit Bank AG, Milan Branch, as senior agent and the Security Agent and The Law Debenture Trust plc as the Trustee, as amended from time to time.

"Interest Rate Agreement" means, with respect to any Person, any interest rate protection agreement, interest rate future agreement, interest rate option agreement, interest rate swap

agreement, interest rate cap agreement, interest rate collar agreement, interest rate hedge agreement or other similar agreement or arrangement to which such Person is party or a beneficiary.

"Investment" means, with respect to any Person, all investments by such Person in other Persons (including Affiliates) in the form of any advance, loan or other extensions of credit (other than advances or extensions of credit to customers, suppliers, directors, officers or employees of any Person in the ordinary course of business, and excluding any debt or extension of credit represented by a bank deposit other than a time deposit) or capital contribution to (by means of any transfer of cash or other property to others or any payment for property or services for the account or use of others), or the Incurrence of a Guarantee of any obligation of, or any purchase or acquisition of Capital Stock, Indebtedness or other similar instruments issued by, such other Persons and all other items that are or would be classified as investments on a balance sheet (excluding any notes thereto) prepared on the basis of IFRS; *provided, however*, that endorsements of negotiable instruments and documents in the ordinary course of business will not be deemed to be an Investment. If the Issuer or any Restricted Subsidiary issues, sells or otherwise disposes of any Capital Stock of a Person that is a Restricted Subsidiary such that, after giving effect thereto, such Person is no longer a Restricted Subsidiary, any Investment by the Issuer or any Restricted Subsidiary in such Person remaining after giving effect thereto will be deemed to be a new Investment equal to the fair market value of the Capital Stock of such Subsidiary not sold or disposed of in an amount determined as provided in the final paragraph of the covenant described above under the caption *"—Certain Covenants—Limitation on Restricted Payments"*.

For purposes of *"—Certain Covenants—Limitation on Restricted Payments"*:

- (1) *"Investment"* will include the portion (proportionate to the Issuer's equity interest in a Restricted Subsidiary to be designated as an Unrestricted Subsidiary) of the fair market value of the net assets of such Restricted Subsidiary of the Issuer at the time that such Restricted Subsidiary is designated an Unrestricted Subsidiary; and
- (2) any property transferred to or from an Unrestricted Subsidiary will be valued at its fair market value at the time of such transfer, in each case as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer.

The amount of any Investment outstanding at any time shall be the original cost of such Investment, reduced (at the Issuer's option) by any dividend, distribution, interest payment, return of capital, repayment or other amount or value received in respect of such Investment.

"Investment Grade Securities" means:

- (1) securities issued or directly and fully Guaranteed or insured by the United States or Canadian government or any agency or instrumentality thereof (other than Cash Equivalents);
- (2) securities issued or directly and fully guaranteed or insured by a member of the European Union, Switzerland or Norway or any agency or instrumentality thereof (other than Cash Equivalents);
- (3) debt securities or debt instruments with a rating of "BBB –" or higher from S&P or "Baa3" or higher by Moody's or the equivalent of such rating by such rating organization or, if no rating of Moody's or S&P then exists, the equivalent of such rating by any other Nationally Recognized Statistical Ratings Organization, but excluding any debt securities or instruments constituting loans or advances among the Issuer and its Subsidiaries; and
- (4) investments in any fund that invests exclusively in investments of the type described in clauses (1), (2) and (3) above which fund may also hold cash and Cash Equivalents pending investment or distribution.

"Investment Grade Status" shall occur when all of the Senior Secured Notes receive both of the following:

- (1) a rating of "BBB –" or higher from S&P; and
- (2) a rating of "Baa3" or higher from Moody's,

or the equivalent of such rating by either such rating organization or, if no rating of Moody's or S&P then exists, the equivalent of such rating by any other Nationally Recognized Statistical Ratings Organization.

"IPO Market Capitalization" means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the IPO Entity at the time of closing of the Initial Public Offering multiplied by (ii) the price per share at which such shares of common stock or common equity interests are sold in such Initial Public Offering.

"Issue Date" means _____, 2013.

"Issuer" means Titan LuxCo 2 S.à r.l.

"Lien" means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind (including any conditional sale or other title retention agreement or lease in the nature thereof).

"Management Advances" means loans or advances made to, or Guarantees with respect to loans or advances made to, directors, officers, employees or consultants of any Parent, the Issuer or any Restricted Subsidiary:

- (1) (a) in respect of travel, entertainment or moving related expenses Incurred in the ordinary course of business or (b) for purposes of funding any such person's purchase of Capital Stock or Subordinated Shareholder Funding (or similar obligations) of the Issuer, its Subsidiaries or any Parent with (in the case of this sub-clause (b)) the approval of the Board of Directors;
- (2) in respect of moving related expenses Incurred in connection with any closing or consolidation of any facility or office; or
- (3) (in the case of this clause (3)) not exceeding €1.0 million in the aggregate outstanding at any time.

"Management Investors" means the officers, directors, employees and other members of the management of or consultants to any Parent, the Issuer or any of their respective Subsidiaries, or spouses, family members or relatives thereof, or any trust, partnership or other entity for the benefit of or the beneficial owner of which (directly or indirectly) is any of the foregoing, or any of their heirs, executors, successors and legal representatives, who at any date beneficially own or have the right to acquire, directly or indirectly, Capital Stock of the Issuer, any Restricted Subsidiary or any Parent.

"Market Capitalization" means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the IPO Entity on the date of the declaration of the relevant dividend multiplied by (ii) the arithmetic mean of the closing prices per share of such common stock or common equity interests for the 30 consecutive trading days immediately preceding the date of declaration of such dividend.

"Moody's" means Moody's Investors Service, Inc. or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

"Nationally Recognized Statistical Rating Organization" means a nationally recognized statistical rating organization within the meaning of Rule 436 under the Securities Act.

"Net Available Cash" from an Asset Disposition means cash payments received (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or otherwise and net proceeds from the sale or other disposition of any securities received as consideration, but only as and when received, but excluding any other consideration received in the form of assumption by the acquiring person of Indebtedness or other obligations relating to the properties or assets that are the subject of such Asset Disposition or received in any other non-cash form) therefrom, in each case net of:

- (1) all legal, accounting, investment banking, title and recording tax expenses, commissions and other fees and expenses Incurred, and all Taxes paid or required to be paid or accrued as a liability under IFRS (after taking into account any available tax credits or deductions and any Tax Sharing Agreements), as a consequence of such Asset Disposition;
- (2) all payments made on any Indebtedness which is secured by any assets subject to such Asset Disposition, in accordance with the terms of any Lien upon such assets, or which must by its terms, or in order to obtain a necessary consent to such Asset Disposition, or by applicable law, be repaid out of the proceeds from such Asset Disposition;
- (3) all distributions and other payments required to be made to minority interest holders (other than any Parent, the Issuer or any of their respective Subsidiaries) in Subsidiaries or joint ventures as a result of such Asset Disposition; and
- (4) the deduction of appropriate amounts required to be provided by the seller as a reserve, on the basis of IFRS, against any liabilities associated with the assets disposed of in such Asset Disposition and retained by the Issuer or any Restricted Subsidiary after such Asset Disposition.

"Net Cash Proceeds", with respect to any issuance or sale of Capital Stock or Subordinated Shareholder Funding, means the cash proceeds of such issuance or sale net of attorneys' fees, accountants' fees, underwriters' or placement agents' fees, listing fees, discounts or commissions and brokerage, consultant and other fees and charges actually Incurred in connection with such issuance or sale and net of taxes paid or payable as a result of such issuance or sale (after taking into account any available tax credit or deductions and any Tax Sharing Agreements).

"Offering Memorandum" means this offering memorandum in relation to the Senior Secured Notes.

"Officer" means, with respect to any Person, (1) any member of the Board of Directors, the Chief Executive Officer, the President, the Chief Financial Officer, any Vice President, the Treasurer or the Secretary (a) of such Person or (b) if such Person is owned or managed by a single entity, of such entity, or (2) any other individual designated as an "Officer" for the purposes of the Indenture by the Board of Directors of such Person.

"Officer's Certificate" means, with respect to any Person, a certificate signed by one Officer of such Person.

"Opinion of Counsel" means a written opinion from legal counsel reasonably satisfactory to the Trustee. The counsel may be an employee of or counsel to the Issuer or its Subsidiaries.

"Parent" means any Person of which the Issuer at any time is or becomes a Subsidiary after the Issue Date and any holding companies established by any Permitted Holder for purposes of holding its investment in any Parent.

"Parent Expenses" means:

- (1) costs (including all professional fees and expenses) Incurred by any Parent in connection with reporting obligations under or otherwise Incurred in connection with compliance with applicable laws, rules or regulations of any governmental, regulatory or self-regulatory

body or stock exchange, the Indenture or any other agreement or instrument relating to Indebtedness of the Issuer or any Restricted Subsidiary, including in respect of any reports filed with respect to the Securities Act, Exchange Act or the respective rules and regulations promulgated thereunder;

- (2) customary indemnification obligations of any Parent owing to directors, officers, employees or other Persons under its charter or by-laws or pursuant to written agreements with any such Person to the extent relating to the Issuer and its Subsidiaries;
- (3) obligations of any Parent in respect of director and officer insurance (including premiums therefor) to the extent relating to the Issuer and its Subsidiaries;
- (4) fees and expenses payable by any Parent in connection with the Transactions;
- (5) general corporate overhead expenses, including (a) professional fees and expenses and other operational expenses of any Parent related to the ownership or operation of the business of the Issuer or any of its Restricted Subsidiaries, and (b) costs and expenses with respect to the ownership, directly or indirectly, by any Parent, (c) any taxes and other fees and expenses required to maintain such Parent's corporate existence and to provide for other ordinary course operating costs, including customary salary, bonus and other benefits payable to, and indemnities provided on behalf of, officers and employees of such Parent and (d) to reimburse reasonable out of pocket expenses of the Board of Directors of such Parent;
- (6) other fees, expenses and costs relating directly or indirectly to activities of the Issuer and its Subsidiaries or any Parent or any other Person established for purposes of or in connection with the Transactions or which holds directly or indirectly any Capital Stock or Subordinated Shareholder Funding of the Issuer, in an amount not to exceed €500,000 in any fiscal year;
- (7) any income taxes, to the extent such income taxes are attributable to the income of the Issuer and its Restricted Subsidiaries and, to the extent of the amount actually received in cash from its Unrestricted Subsidiaries, in amounts required to pay such taxes to the extent attributable to the income of such Unrestricted Subsidiaries provided, however, that the amount of such payments in any fiscal year do not exceed the amount that the Issuer and its consolidated Subsidiaries would be required to pay in respect of such taxes for such fiscal year were the Issuer and each of these Subsidiaries to pay such taxes on a consolidated basis on behalf of an affiliated group consisting only of the Issuer and such Subsidiaries; and
- (8) expenses Incurred by any Parent in connection with any public offering or other sale of Capital Stock or Indebtedness:
 - (a) where the net proceeds of such offering or sale are intended to be received by or contributed to the Issuer or a Restricted Subsidiary;
 - (b) in a pro-rated amount of such expenses in proportion to the amount of such net proceeds intended to be so received or contributed; or
 - (c) otherwise on an interim basis prior to completion of such offering so long as any Parent shall cause the amount of such expenses to be repaid to the Issuer or the relevant Restricted Subsidiary out of the proceeds of such offering promptly if completed.

"Pari Passu Indebtedness" means Indebtedness of the Issuer or any Guarantor which does not constitute Subordinated Indebtedness.

"Paying Agent" means any Person authorized by the Issuer to pay the principal of (and premium, if any) or interest on any Note on behalf of the Issuer.

"Permitted Collateral Liens" means Liens on the Collateral:

- (a) that are described in clauses (1), (2), (3), (4), (5), (6), (8), (9), (10), (11), (12), (17), (18), (19), (20), (23), (24) or (26) of the definition of "Permitted Liens" which share in the security provided over the Collateral;
- (b) to secure:
 - (i) the Senior Secured Notes (including any Additional Senior Secured Notes);
 - (ii) Indebtedness permitted to be Incurred under the first paragraph of the covenant described under "*—Certain Covenants—Limitation on Indebtedness*";
 - (iii) Indebtedness described under clause (1) of "*—Permitted Debt*", to the extent incurred by the Issuer or a Guarantor, which Indebtedness may have super seniority priority status not materially less favorable to the Holders than that accorded to the Revolving Credit Facility on the Issue Date pursuant to the Intercreditor Agreement;
 - (iv) Indebtedness described under clause (2) of "*—Permitted Debt*", to the extent such Guarantee is in respect of Indebtedness otherwise permitted to be secured and specified in this definition of Permitted Collateral Liens;
 - (v) Indebtedness described under paragraphs (b), (e) and (f) of clause (4) of "*—Permitted Debt*", and Indebtedness secured on a basis junior to the Senior Secured Notes consistently with the Intercreditor Agreement;
 - (vi) Indebtedness described under clause (6) of "*—Permitted Debt*" in respect of Interest Rate Agreements to the extent such agreements relate to the Senior Secured Notes, Additional Senior Secured Notes and any other Indebtedness in the form of bonds or notes that is permitted to be incurred under the covenant described under "*—Certain Covenants—Limitation on Indebtedness*", which Indebtedness may have super senior priority status not materially less favorable to the Holders than that accorded to the Revolving Credit Facility on the Issue Date pursuant to the Intercreditor Agreement;
 - (vii) Indebtedness described under clauses (5)(i), 5(ii) (*provided that pro forma for the relevant transaction, the Consolidated Secured Leverage Ratio either does not exceed 5.00:1 or is not greater than immediately prior to such transaction*), (7) (other than with respect to Capitalized Lease Obligations), (11) or (12) of "*—Permitted Debt*"; and
 - (viii) any Refinancing Indebtedness in respect of Indebtedness referred to in the foregoing clauses (i) to (vii).

"Permitted Holders" means, collectively, (1) the Initial Investors, (2) any Related Person of any Persons specified in clause (1), (3) any Person who is acting as an underwriter in connection with a public or private offering of Capital Stock of any Parent or the Issuer, acting in such capacity and (4) any group (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Exchange Act or any successor provision) of which any of the foregoing (including any Persons mentioned in the following sentence) are members; *provided that*, in the case of such group and without giving effect to the existence of such group or any other group, the Initial Investors and such Persons referred to in the following sentence, collectively, have beneficial ownership of more than 50% of the total voting power of the voting Stock of the Issuer or any of its direct or indirect parent companies held by such group. Any person or group whose acquisition of beneficial ownership constitutes (1) a Change of Control in respect of which a Change of Control Offer is made in accordance with the requirements of the Indenture or (2) a Change of Control which is also a Specified Change of Control Event, will thereafter, together with its Affiliates, constitute an additional Permitted Holder.

"Permitted Investment" means (in each case, by the Issuer or any of its Restricted Subsidiaries):

- (1) Investments in (a) a Restricted Subsidiary (including the Capital Stock of a Restricted Subsidiary) or the Issuer or (b) a Person (including the Capital Stock of any such Person) and such Person will, upon the making of such Investment, become a Restricted Subsidiary;
- (2) Investments in another Person and as a result of such Investment such other Person is merged, consolidated or otherwise combined with or into, or transfers or conveys all or substantially all its assets to, the Issuer or a Restricted Subsidiary;
- (3) Investments in cash, Cash Equivalents, Temporary Cash Investments or Investment Grade Securities;
- (4) Investments in receivables owing to the Issuer or any Restricted Subsidiary created or acquired in the ordinary course of business, including Investment in connection with any Qualified Receivables Financing;
- (5) Investments in payroll, travel, relocation, entertainment and similar advances to cover matters that are expected at the time of such advances ultimately to be treated as expenses for accounting purposes and that are made in the ordinary course of business;
- (6) Management Advances and any advances or loans not to exceed €1.0 million at any one time outstanding to any management equity plan or stock option plan or any other management or employee benefit or incentive plan or unit trust or the trustees of any such plan or trust to pay for the purchase or other acquisition for value of Capital Stock (other than Disqualified Stock) of the Issuer or a Parent of the Issuer;
- (7) Investments in Capital Stock, obligations or securities received in settlement of debts created in the ordinary course of business and owing to the Issuer or any Restricted Subsidiary, or as a result of foreclosure, perfection or enforcement of any Lien, or in satisfaction of judgments or pursuant to any plan of reorganization or similar arrangement including upon the bankruptcy or insolvency of a debtor;
- (8) Investments made as a result of the receipt of non-cash consideration from a sale or other disposition of property or assets, including an Asset Disposition, in each case, that was made in compliance with "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*";
- (9) Investments in existence on, or made pursuant to legally binding commitments in existence on, the Issue Date, and any extension, modification or renewal of any such Investment; provided that the amount of the Investment may be increased (i) as required by the terms of the Investment as in existence on the Issue Date or (b) as otherwise permitted under the Indenture;
- (10) Currency Agreements, Interest Rate Agreements, Commodity Hedging Agreements and related Hedging Obligations, which transactions or obligations are Incurred in compliance with "*—Certain Covenants—Limitation on Indebtedness*";
- (11) Investments, taken together with all other Investments made pursuant to this clause (11) and at any time outstanding, in an aggregate amount at the time of such Investment (net of any distributions, dividends, payments or other returns in respect of such Investments) not to exceed the greater of 28% of Consolidated EBITDA and €15 million; *provided* that, if an Investment is made pursuant to this clause in a Person that is not a Restricted Subsidiary and such Person subsequently becomes a Restricted Subsidiary or is subsequently designated a Restricted Subsidiary pursuant to the covenant described under "*—Certain Covenants—Limitation on Restricted Payments*", such Investment shall thereafter be deemed to have been made pursuant to clause (1) or (2) of the definition of "Permitted Investments" and not this clause;

- (12)pledges or deposits with respect to leases or utilities provided to third parties in the ordinary course of business or Liens otherwise described in the definition of "Permitted Liens" or made in connection with Liens permitted under the covenant described under "—Certain Covenants—Limitation on Liens";
- (13)any Investment to the extent made using Capital Stock of the Issuer (other than Disqualified Stock), Subordinated Shareholder Funding or Capital Stock of any Parent as consideration;
- (14)any transaction to the extent constituting an Investment that is permitted and made in accordance with the provisions of the second paragraph of the covenant described under "—Certain Covenants—Limitation on Affiliate Transactions" (except those described in clauses (1), (3), (8), (9) and (12) of that paragraph);
- (15)Guarantees not prohibited by the covenant described under "—Certain Covenants—Limitation on Indebtedness" and (other than with respect to Indebtedness) guarantees, keepwells and similar arrangements in the ordinary course of business; and
- (16)Investments in loans under the Revolving Credit Facility, the Senior Secured Notes and any Additional Senior Secured Notes.

"Permitted Liens" means, with respect to any Person:

- (1) Liens on assets or property pursuant to a "*privilegio speciale*" (or similar successor principles under Italian law providing for floating charges over moveable assets) securing Indebtedness under clauses (1) or (11) under the definition of "Permitted Debt";
- (2) pledges, deposits or Liens under workmen's compensation laws, unemployment insurance laws, social security laws or similar legislation, or insurance related obligations (including pledges or deposits securing liability to insurance carriers under insurance or self-insurance arrangements), or in connection with bids, tenders, completion guarantees, contracts (other than for borrowed money) or leases, or to secure utilities, licenses, public or statutory obligations, or to secure surety, indemnity, judgment, appeal or performance bonds, guarantees of government contracts (or other similar bonds, instruments or obligations), or as security for contested taxes or import or customs duties or for the payment of rent, or other obligations of like nature, in each case Incurred in the ordinary course of business;
- (3) Liens imposed by law, including carriers', warehousemen's, mechanics', landlords', materialmen's and repairmen's or other similar Liens, in each case for sums not yet overdue for a period of more than 60 days or that are bonded or being contested in good faith by appropriate proceedings;
- (4) Liens for taxes, assessments or other governmental charges not yet delinquent or which are being contested in good faith by appropriate proceedings; *provided* that appropriate reserves required pursuant to IFRS have been made in respect thereof;
- (5) Liens in favor of issuers of surety, performance or other bonds, guarantees or letters of credit or bankers' acceptances (not issued to support Indebtedness for borrowed money) issued pursuant to the request of and for the account of the Issuer or any Restricted Subsidiary in the ordinary course of its business;
- (6) encumbrances, ground leases, easements (including reciprocal easement agreements), survey exceptions, or reservations of, or rights of others for, licenses, rights of way, sewers, electric lines, telegraph and telephone lines and other similar purposes, or zoning, building codes or other restrictions (including minor defects or irregularities in title and similar encumbrances) as to the use of real properties or Liens incidental to the conduct of the business of the Issuer and its Restricted Subsidiaries or to the ownership of its properties which do not in the aggregate materially adversely affect the value of said properties or

materially impair their use in the operation of the business of the Issuer and its Restricted Subsidiaries;

- (7) Liens on assets or property of the Issuer or any Restricted Subsidiary (other than Collateral) securing Hedging Obligations permitted under the Indenture relating to Indebtedness permitted to be Incurred under the Indenture and which is secured by a Lien on the same assets or property that secures such Indebtedness;
- (8) leases, licenses, subleases and sublicenses of assets (including real property and intellectual property rights), in each case entered into in the ordinary course of business;
- (9) Liens arising out of judgments, decrees, orders or awards not giving rise to an Event of Default so long as any appropriate legal proceedings which may have been duly initiated for the review of such judgment, decree, order or award have not been finally terminated or the period within which such proceedings may be initiated has not expired;
- (10) Liens on assets or property of the Issuer or any Restricted Subsidiary for the purpose of securing Capitalized Lease Obligations or Purchase Money Obligations, or securing the payment of all or a part of the purchase price of, or securing other Indebtedness Incurred to finance or refinance the acquisition, improvement or construction of, assets or property acquired or constructed in the ordinary course of business; *provided* that (a) the aggregate principal amount of Indebtedness secured by such Liens is otherwise permitted to be Incurred under clause (7) of the covenant described above under “—Certain Covenants—Limitation on Indebtedness” and (b) any such Lien may not extend to any assets or property of the Issuer or any Restricted Subsidiary other than assets or property acquired, improved, constructed or leased with the proceeds of such Indebtedness and any improvements or accessions to such assets and property;
- (11) Liens arising by virtue of any statutory or common law provisions relating to banker’s Liens, rights of set-off or similar rights and remedies as to deposit accounts or other funds maintained with a depository or financial institution;
- (12) Liens arising from Uniform Commercial Code financing statement filings (or similar filings in other applicable jurisdictions) regarding operating leases entered into by the Issuer and its Restricted Subsidiaries in the ordinary course of business;
- (13) Liens existing on, or provided for or required to be granted under written agreements existing on, the Issue Date after giving *pro forma* effect to the use of the proceeds of the Senior Secured Notes as described in the Offering Memorandum (including any Lien securing the Funding Loan);
- (14) Liens on property, other assets or shares of stock of a Person at the time such Person becomes a Restricted Subsidiary (or at the time the Issuer or a Restricted Subsidiary acquires such property, other assets or shares of stock, including any acquisition by means of a merger, consolidation or other business combination transaction with or into the Issuer or any Restricted Subsidiary); *provided*, that such Liens are limited to all or part of the same property, other assets or stock (plus improvements, accession, proceeds or dividends or distributions in connection with the original property, other assets or stock) that secured (or, under the written arrangements under which such Liens arose, could secure) the obligations to which such Liens relate;
- (15) Liens on assets or property of the Issuer or any Restricted Subsidiary securing Indebtedness or other obligations of such Restricted Subsidiary owing to the Issuer or another Restricted Subsidiary, or Liens in favor of the Issuer or any Restricted Subsidiary;
- (16) Liens securing Refinancing Indebtedness Incurred to refinance Indebtedness that was previously so secured, and permitted to be secured under the Indenture; *provided* that any such Lien is limited to all or part of the same property or assets (plus improvements,

accessions, proceeds or dividends or distributions in respect thereof) that secured (or, under the written arrangements under which the original Lien arose, could secure) the Indebtedness being refinanced or is in respect of property that is or could be the security for or subject to a Permitted Lien hereunder;

- (17) any interest or title of a lessor under any Capitalized Lease Obligation or operating lease;
- (18) (a) mortgages, liens, security interest, restrictions, encumbrances or any other matters of record that have been placed by any government, statutory or regulatory authority, developer, landlord or other third party on property over which the Issuer or any Restricted Subsidiary of the Issuer has easement rights or on any leased property and subordination or similar arrangements relating thereto and (b) any condemnation or eminent domain proceedings affecting any real property;
- (19) any encumbrance or restriction (including put and call arrangements) with respect to Capital Stock of, or assets owned by, any joint venture or similar arrangement pursuant to any joint venture or similar agreement;
- (20) Liens on property or assets under construction (and related rights) in favor of a contractor or developer or arising from progress or partial payments by a third party relating to such property or assets;
- (21) Liens on Receivables Assets Incurred in connection with a Qualified Receivables Financing;
- (22) Liens on rights under any Additional Funding Loan that are assigned to the third party creditors of the Indebtedness incurred by the Issuer to finance such Additional Funding Loan and incurred in accordance with clause (4) of the second paragraph of the covenant described under “—Certain Covenants—Limitation on Indebtedness”;
- (23) Liens securing or arising by reason of any netting or set-off arrangement entered into in the ordinary course of banking or other trading activities;
- (24) Liens arising out of conditional sale, title retention, hire purchase, consignment or similar arrangements for the sale of goods entered into in the ordinary course of business;
- (25) Liens securing Indebtedness or other obligations of a Receivables Subsidiary;
- (26) Liens on Capital Stock or other securities or assets of any Unrestricted Subsidiary that secure Indebtedness of such Unrestricted Subsidiary;
- (27) (a) Liens created for the benefit of or to secure, directly or indirectly, the Senior Secured Notes, (b) Liens pursuant to the Intercreditor Agreement and the senior security documents entered into pursuant to the Revolving Credit Facility and (c) Liens in respect of property and assets securing Indebtedness if the recovery in respect of such Liens is subject to loss-sharing as among the Holders of the Senior Secured Notes and the creditors of such Indebtedness pursuant to the Intercreditor Agreement or an Additional Intercreditor Agreement; and
- (28) Liens provided that the maximum amount of Indebtedness secured in the aggregate at any one time pursuant to this clause (28) does not exceed €7.5 million.

“*Person*” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company, government or any agency or political subdivision thereof or any other entity.

“*Preferred Stock*”, as applied to the Capital Stock of any Person, means Capital Stock of any class or classes (however designated) which is preferred as to the payment of dividends or as to the distribution of assets upon any voluntary or involuntary liquidation or dissolution of such Person, over shares of Capital Stock of any other class of such Person.

"Public Debt" means any Indebtedness consisting of bonds, debentures, notes or other similar debt securities issued in (1) a public offering registered under the Securities Act or (2) a private placement to institutional investors that is underwritten for resale in accordance with Rule 144A or Regulation S under the Securities Act, whether or not it includes registration rights entitling the holders of such debt securities to registration thereof with the SEC for public resale.

"Public Market" means any time after:

- (1) an Equity Offering has been consummated; and
- (2) shares of common stock or other common equity interests of the IPO Entity having a market value in excess of €100 million on the date of such Equity Offering have been distributed pursuant to such Equity Offering.

"Public Offering" means any offering, including an Initial Public Offering, of shares of common stock or other common equity interests that are listed on an exchange or publicly offered (which shall include an offering pursuant to Rule 144A or Regulation S under the Securities Act to professional market investors or similar persons).

"Purchase Money Obligations" means any Indebtedness Incurred to finance or refinance the acquisition, leasing, construction or improvement of property (real or personal) or assets (including Capital Stock), and whether acquired through the direct acquisition of such property or assets or the acquisition of the Capital Stock of any Person owning such property or assets, or otherwise.

"Qualified Receivables Financing" means any Receivables Financing of a Receivables Subsidiary that meets the following conditions: (1) the Board of Directors or a member of Senior Management of the Issuer shall have determined in good faith that such Qualified Receivables Financing (including financing terms, covenants, termination events and other provisions) is in the aggregate economically fair and reasonable to the Issuer and the Receivables Subsidiary, (2) all sales of accounts receivable and related assets to the Receivables Subsidiary are made at fair market value (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer), and (3) the financing terms, covenants, termination events and other provisions thereof shall be on market terms (as determined in good faith by the Board of Directors or a member of Senior Management of the Issuer) and may include Standard Securitization Undertakings.

The grant of a security interest in any accounts receivable of the Issuer or any of its Restricted Subsidiaries (other than a Receivables Subsidiary) to secure Indebtedness under a Credit Facility or Indebtedness in respect of the Senior Secured Notes shall not be deemed a Qualified Receivables Financing.

"Rating Agencies" means Moody's and S&P or, in the event Moody's or S&P no longer assigns a rating to the Senior Secured Notes, any other "nationally recognized statistical rating organization" within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the U.S. Exchange Act selected by the Issuer as a replacement agency.

"Receivable" means a right to receive payment arising from a sale or lease of goods or services by a Person pursuant to an arrangement with another Person pursuant to which such other Person is obligated to pay for goods or services under terms that permit the purchase of such goods and services on credit, as determined on the basis of IFRS.

"Receivables Assets" means any assets that are or will be the subject of a Qualified Receivables Financing.

"Receivables Fees" means distributions or payments made directly or by means of discounts with respect to any participation interest issued or sold in connection with, and other fees paid to a Person that is not a Restricted Subsidiary in connection with, any Receivables Financing.

"Receivables Financing" means any transaction or series of transactions that may be entered into by the Issuer or any of its Subsidiaries pursuant to which the Issuer or any of its Subsidiaries may sell, convey or otherwise transfer to (a) a Receivables Subsidiary (in the case of a transfer by the Issuer or any of its Subsidiaries), or (b) any other Person (in the case of a transfer by a Receivables Subsidiary), or may grant a security interest in, any accounts receivable (whether now existing or arising in the future) of the Issuer or any of its Subsidiaries, and any assets related thereto, including all collateral securing such accounts receivable, all contracts and all guarantees or other obligations in respect of such accounts receivable, proceeds of such accounts receivable and other assets which are customarily transferred or in respect of which security interest are customarily granted in connection with asset securitization transactions involving accounts receivable and any Hedging Obligations entered into by the Issuer or any such Subsidiary in connection with such accounts receivable.

"Receivables Repurchase Obligation" means any obligation of a seller of receivables in a Qualified Receivables Financing to repurchase receivables arising as a result of a breach of a representation, warranty or covenant or otherwise, including as a result of a receivable or portion thereof becoming subject to any asserted defense, dispute, off-set or counterclaim of any kind as a result of any action taken by, any failure to take action by or any other event relating to the seller.

"Receivables Subsidiary" means a Wholly Owned Subsidiary of the Issuer (or another Person formed for the purposes of engaging in a Qualified Receivables Financing with the Issuer in which the Issuer or any Subsidiary of the Issuer makes an Investment and to which the Issuer or any Subsidiary of the Issuer transfers accounts receivable and related assets) which engages in no activities other than in connection with the financing of accounts receivable of the Issuer and its Subsidiaries, all proceeds thereof and all rights (contractual or other), collateral and other assets relating thereto, and any business or activities incidental or related to such business, and which is designated by the Board of Directors of the Issuer (as provided below) as a Receivables Subsidiary and:

- (1) no portion of the Indebtedness or any other obligations (contingent or otherwise) of which (i) is guaranteed by the Issuer or any other Restricted Subsidiary of the Issuer (excluding guarantees of obligations (other than the principal of, and interest on, Indebtedness) pursuant to Standard Securitization Undertakings), (ii) is subject to terms that are substantially equivalent in effect to a guarantee of any losses on securitized or sold receivables by the Issuer or any other Restricted Subsidiary of the Issuer, (iii) is recourse to or obligates the Issuer or any other Restricted Subsidiary of the Issuer in any way other than pursuant to Standard Securitization Undertakings, or (iv) subjects any property or asset of the Issuer or any other Restricted Subsidiary of the Issuer, directly or indirectly, contingently or otherwise, to the satisfaction thereof, other than pursuant to Standard Securitization Undertakings;
- (2) with which neither the Issuer nor any other Restricted Subsidiary of the Issuer has any contract, agreement, arrangement or understanding other than on terms which the Issuer reasonably believes to be no less favorable to the Issuer or such Restricted Subsidiary than those that might be obtained at the time from Persons that are not Affiliates of the Issuer; and
- (3) to which neither the Issuer nor any other Restricted Subsidiary of the Issuer has any obligation to maintain or preserve such entity's financial condition or cause such entity to achieve certain levels of operating results.

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer's Certificate certifying that such designation complied with the foregoing conditions.

"refinance" means refinance, refund, replace, renew, repay, modify, restate, defer, substitute, supplement, reissue, resell, extend or increase (including pursuant to any defeasance or discharge mechanism) and the terms *"refinances"*, *"refinanced"* and *"refinancing"* as used for any purpose in the Indenture shall have a correlative meaning.

"Refinancing Indebtedness" means Indebtedness that is Incurred to refund, refinance, replace, exchange, renew, repay or extend (including pursuant to any defeasance or discharge mechanism) any Indebtedness existing on the date of the Indenture or Incurred in compliance with the Indenture (including Indebtedness of the Issuer that refinances Indebtedness of any Restricted Subsidiary and Indebtedness of any Restricted Subsidiary that refinances Indebtedness of the Issuer or another Restricted Subsidiary, but not Indebtedness of a Restricted Subsidiary that is not a Guarantor that refinances Indebtedness of the Issuer or a Guarantor) including Indebtedness that refinances Refinancing Indebtedness; *provided, however, that:*

- (1) if the Indebtedness being refinanced constitutes Subordinated Indebtedness, the Refinancing Indebtedness has a final stated maturity at the time such Refinancing Indebtedness is Incurred that is the same as or later than the final stated maturity of the Indebtedness being refinanced or, if shorter, the Senior Secured Notes;
- (2) such Refinancing Indebtedness is Incurred in an aggregate principal amount (or if issued with original issue discount, an aggregate issue price) that is equal to or less than the sum of the aggregate principal amount (or if issued with original issue discount, the aggregate accreted value) then outstanding of the Indebtedness being refinanced (plus, without duplication, any additional Indebtedness Incurred to pay interest or premiums required by the instruments governing such existing Indebtedness and costs, expenses and fees Incurred in connection therewith);
- (3) if the Indebtedness being refinanced is expressly subordinated to the Senior Secured Notes, such Refinancing Indebtedness is subordinated to the Senior Secured Notes on terms at least as favorable to the Holders as those contained in the documentation governing the Indebtedness being refinanced; and

provided, however, that Refinancing Indebtedness shall not include Indebtedness of the Issuer or a Restricted Subsidiary that refinances Indebtedness of an Unrestricted Subsidiary.

Refinancing Indebtedness in respect of any Credit Facility or any other Indebtedness may be Incurred from time to time after the termination, discharge or repayment of any such Credit Facility or other Indebtedness.

"Related Person" with respect to any Permitted Holder, means:

- (1) any controlling equity holder, majority (or more) owned Subsidiary or partner or member of such Person; or
- (2) in the case of an individual, any spouse, family member or relative of such individual, any trust or partnership for the benefit of one or more of such individual and any such spouse, family member or relative, or the estate, executor, administrator, committee or beneficiaries of any thereof; or
- (3) any trust, corporation, partnership or other Person for which one or more of the Permitted Holders and other Related Persons of any thereof constitute the beneficiaries, stockholders,

partners or owners thereof, or Persons beneficially holding in the aggregate a majority (or more) controlling interest therein; or

- (4) any investment fund or vehicle managed, sponsored or advised by such Person or any successor thereto, or by any Affiliate of such Person or any such successor.

"Related Taxes" means:

any Taxes, including sales, use, transfer, rental, ad valorem, value added, stamp, property, consumption, franchise, license, capital, registration, business, customs, net worth, gross receipts, excise, occupancy, intangibles or similar Taxes (other than (x) Taxes measured by income and (y) withholding imposed on payments made by any Parent), required to be paid (*provided* such Taxes are in fact paid) by any Parent by virtue of its:

- (a) being incorporated or otherwise being established or having Capital Stock outstanding (but not by virtue of owning stock or other equity interests of any corporation or other entity other than, directly or indirectly, the Issuer or any of the Issuer's Subsidiaries);
- (b) issuing or holding Subordinated Shareholder Funding;
- (c) being a holding company parent, directly or indirectly, of the Issuer or any of the Issuer's Subsidiaries;
- (d) receiving dividends from or other distributions in respect of the Capital Stock of, directly or indirectly, the Issuer or any of the Issuer's Subsidiaries; or
- (e) having made any payment with respect to any of the items for which the Issuer is permitted to make payments to any Parent pursuant to "—Certain Covenants—Limitation on Restricted Payments".

"Replacement Assets" means non current properties and assets that replace the properties and assets that were the subject of an Asset Disposition or non current properties and assets that will be used in the Issuer's business, including for the avoidance of doubt assets reflecting capitalized software development expenditures, or in that of the Restricted Subsidiaries or any and all businesses that in the good faith judgment of the Board of Directors or any member of Senior Management of the Issuer are reasonably related.

"Representative" means any trustee, agent or representative (if any) for an issue of Indebtedness or the provider of Indebtedness (if provided on a bilateral basis), as the case may be.

"Restricted Investment" means any Investment other than a Permitted Investment.

"Restricted Subsidiary" means any Subsidiary of the Issuer other than an Unrestricted Subsidiary.

"Revolving Credit Facility" means the revolving credit facility established pursuant to the super senior revolving facility agreement to be dated on or prior to the Issue Date, among, *inter alios*, the Issuer, the senior lenders (as named therein), UniCredit Bank AG, Milan branch, as agent and security agent, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time.

"S&P" means Standard & Poor's Investors Ratings Services or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

"SEC" means the U.S. Securities and Exchange Commission.

"Securities Act" means the U.S. Securities Act of 1933, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

"Senior Management" means the officers, directors, and other members of Senior Management of the Issuer or any of its Subsidiaries, who at any date beneficially own or have the right to acquire, directly or indirectly, Capital Stock of the Issuer or any Parent.

"Senior Secured Indebtedness" means, with respect to any Person as of any date of determination, any Indebtedness for borrowed money that (a) is secured by a first-priority Lien on the Collateral or (b) that is incurred by a Restricted Subsidiary that is not a Guarantor and that in the case of each of (a) and (b), is Incurred under the first paragraph of the covenant described under *"—Certain Covenants—Limitation on Indebtedness"* or clauses (1), (4), (11) or (12) of the second paragraph of the covenant described under *"Certain Covenants—Limitation on Indebtedness"* (in the case of clause (4), to the extent such Indebtedness constitutes Indebtedness under the Senior Secured Notes (excluding Additional Senior Secured Notes)) and any Refinancing Indebtedness in respect thereof.

"Senior Secured Notes Documents" means the Senior Secured Notes (including Additional Senior Secured Notes), the Indenture, the Senior Secured Notes Security Documents, the Intercreditor Agreement and any Additional Intercreditor Agreements.

"Senior Secured Notes Security Documents" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Indenture or otherwise or any of the foregoing, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests in the Collateral as contemplated by the Indenture.

"Significant Subsidiary" means any Restricted Subsidiary that meets any of the following conditions:

- (1) the Issuer's and its Restricted Subsidiaries' investments in and advances to the Restricted Subsidiary exceed 10% of the total assets of the Issuer and its Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year;
- (2) the Issuer's and its Restricted Subsidiaries' proportionate share of the total assets (after intercompany eliminations) of the Restricted Subsidiary exceeds 10% of the total assets of the Issuer and its Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year; or
- (3) the Issuer's and its Restricted Subsidiaries' proportionate share of the Consolidated EBITDA of the Restricted Subsidiary exceeds 10% of the Consolidated EBITDA of the Issuer and its Restricted Subsidiaries on a consolidated basis for the most recently completed fiscal year.

"Similar Business" means (a) any businesses, services or activities engaged in by the Issuer or any of its Subsidiaries or any Associates on the Issue Date and (b) any businesses, services and activities that are related, complementary, incidental, ancillary or similar to any of the foregoing or are extensions or developments of any thereof.

"Specified Change of Control Event" means the occurrence of any event that would constitute a Change of Control pursuant to the definition thereof; *provided* that immediately prior to the occurrence of such event and immediately thereafter and giving *pro forma* effect thereto, (i) the Consolidated Leverage Ratio of the Issuer and its Subsidiaries would have been less than 5.0 to 1.0, if the date of such occurrence is prior to the eighteen month anniversary of the Issue Date; or (ii) the Consolidated Adjusted Leverage Ratio of the Issuer and its Subsidiaries would have been less than 4.25 to 1.0, if the date of such occurrence is on or after the 18 month anniversary of the Issue Date.

Notwithstanding the foregoing, only one Specified Change of Control Event shall be permitted under the Indenture after the Issue Date.

"Standard Securitization Undertakings" means representations, warranties, covenants, indemnities and guarantees of performance entered into by the Issuer or any Subsidiary of the Issuer which the Issuer has determined in good faith to be customary in a Receivables Financing, including those relating to the servicing of the assets of a Receivables Subsidiary, it being understood that any Receivables Repurchase Obligation shall be deemed to be a Standard Securitization Undertaking.

"Stated Maturity" means, with respect to any security, the date specified in such security as the fixed date on which the payment of principal of such security is due and payable, including pursuant to any mandatory redemption provision, but shall not include any contingent obligations, including those described in *"—Change of Control"* and the covenant under *"—Limitation on Sales of Assets and Subsidiary Stock"*, to repay, redeem or repurchase any such principal prior to the date originally scheduled for the payment thereof.

"Subordinated Indebtedness" means, with respect to any person, any Indebtedness (whether outstanding on the Issue Date or thereafter Incurred) which is expressly subordinated in right of payment to the Senior Secured Notes or any Guarantee of the Senior Secured Notes pursuant to a written agreement, including any Subordinated Shareholder Funding.

"Subordinated Shareholder Funding" means, collectively, any funds provided to the Issuer by any Parent, any Affiliate of any Parent or any Permitted Holder or any Affiliate thereof, in exchange for or pursuant to any security, instrument or agreement other than Capital Stock, in each case issued to and held by any of the foregoing Persons, together with any such security, instrument or agreement and any other security or instrument other than Capital Stock issued in payment of any obligation under any Subordinated Shareholder Funding; *provided, however,* that such Subordinated Shareholder Funding:

- (1) does not mature or require any amortization, redemption or other repayment of principal or any sinking fund payment prior to the first anniversary of the Stated Maturity of the Senior Secured Notes (other than through conversion or exchange of such funding into Capital Stock (other than Disqualified Stock) of the Issuer or any funding meeting the requirements of this definition) or the making of any such payment prior to the first anniversary of the Stated Maturity of the Senior Secured Notes is restricted by the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement;
- (2) does not require, prior to the first anniversary of the Stated Maturity of the Senior Secured Notes, payment of cash interest, cash withholding amounts or other cash gross-ups, or any similar cash amounts or the making of any such payment prior to the first anniversary of the Stated Maturity of the Senior Secured Notes is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;
- (3) contains no change of control or similar provisions and does not accelerate and has no right to declare a default or event of default or take any enforcement action or otherwise require any cash payment, in each case, prior to the first anniversary of the Stated Maturity of the Senior Secured Notes or the payment of any amount as a result of any such action or provision or the exercise of any rights or enforcement action, in each case, prior to the first anniversary of the Stated Maturity of the Senior Secured Notes is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;
- (4) does not provide for or require any security interest or encumbrance over any asset of the Issuer or any of its Subsidiaries; and
- (5) pursuant to its terms or to the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement, is fully subordinated and junior in right of payment to the Senior Secured Notes pursuant to subordination, payment blockage and enforcement limitation terms which are customary in all material respects for similar

funding or are no less favorable in any material respect to Holders than those contained in the Intercreditor Agreement as in effect on the Issue Date with respect to the "Shareholder Liabilities" (as defined therein).

"Subsidiary" means, with respect to any Person:

- (1) any corporation, association, or other business entity (other than a partnership, joint venture, limited liability company or similar entity) of which more than 50% of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof; or
- (2) any partnership, joint venture, limited liability company or similar entity of which:
 - (a) more than 50% of the capital accounts, distribution rights, total equity and voting interests or general or limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof whether in the form of membership, general, special or limited partnership interests or otherwise; and
 - (b) such Person or any Subsidiary of such Person is a controlling general partner or otherwise controls such entity.

"Successor Parent" with respect to any Person means any other Person with more than 50% of the total voting power of the Voting Stock of which is, at the time the first Person becomes a Subsidiary of such other Person, "beneficially owned" (as defined below) by one or more Persons that "beneficially owned" (as defined below) more than 50% of the total voting power of the Voting Stock of the first Person immediately prior to the first Person becoming a Subsidiary of such other Person. For purposes hereof, "beneficially own" has the meaning correlative to the term "beneficial owner", as such term is defined in Rules 13d-3 and 13d-5 under the Exchange Act (as in effect on the Issue Date).

"Tax Sharing Agreement" means any tax sharing or profit and loss pooling or similar agreement with customary or arm's-length terms entered into with any Parent or Unrestricted Subsidiary, as the same may be amended, supplemented, waived or otherwise modified from time to time in accordance with the terms thereof and of the Indenture.

"Taxes" means all present and future taxes, levies, imposts, deductions, charges, duties and withholdings and any charges of a similar nature (including interest and penalties with respect thereto) that are imposed by any government or other taxing authority.

"TeamSystem" means TeamSystem S.r.l and any of its successors or assigns.

"Temporary Cash Investments" means any of the following:

- (1) any investment in:
 - (a) direct obligations of, or obligations Guaranteed by, (i) the United States of America or Canada, (ii) any European Union member state, (iii) Switzerland or Norway, (iv) any country in whose currency funds are being held specifically pending application in the making of an investment or capital expenditure by the Issuer or a Restricted Subsidiary in that country with such funds or (v) any agency or instrumentality of any such country or member state; or
 - (b) direct obligations of any country recognized by the United States of America rated at least "A" by S&P or "A-1" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);

- (2) overnight bank deposits, and investments in time deposit accounts, certificates of deposit, bankers' acceptances and money market deposits (or, with respect to foreign banks, similar instruments) maturing not more than one year after the date of acquisition thereof issued by:
- (a) any lender under the Revolving Credit Facility;
 - (b) any institution authorized to operate as a bank in any of the countries or member states referred to in subclause (1)(a) above; or
 - (c) any bank or trust company organized under the laws of any such country or member state or any political subdivision thereof,

in each case, having capital and surplus aggregating in excess of €250 million (or the foreign currency equivalent thereof) and whose long-term debt is rated at least "A" by S&P or "A-2" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;
- (3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clause (1) or (2) above entered into with a Person meeting the qualifications described in clause (2) above;
- (4) Investments in commercial paper, maturing not more than 270 days after the date of acquisition, issued by a Person (other than the Issuer or any of its Subsidiaries), with a rating at the time as of which any Investment therein is made of "P-2" (or higher) according to Moody's or "A-2" (or higher) according to S&P (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);
- (5) Investments in securities maturing not more than one year after the date of acquisition issued or fully Guaranteed by any state, commonwealth or territory of the United States of America, Canada, any European Union member state or Switzerland, Norway or by any political subdivision or taxing authority of any such state, commonwealth, territory, country or member state, and rated at least "BBB –" by S&P or "Baa3" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);
- (6) bills of exchange issued in the United States, Canada, a member state of the European Union, Switzerland, Norway or Japan eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent);
- (7) any money market deposit accounts issued or offered by a commercial bank organized under the laws of a country that is a member of the Organization for Economic Co-operation and Development, in each case, having capital and surplus in excess of €250 million (or the foreign currency equivalent thereof) or whose long term debt is rated at least "A" by S&P or "A2" by Moody's (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody's then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;
- (8) investment funds investing 95% of their assets in securities of the type described in clauses (1) through (7) above (which funds may also hold reasonable amounts of cash pending investment or distribution); and

- (9) investments in money market funds complying with the risk limiting conditions of Rule 2a-7 (or any successor rule) of the SEC under the U.S. Investment Company Act of 1940, as amended.

"Titan 3 Funding Loan" means the loan from the Issuer to Titan 3 of proceeds of the initial issuance of the Senior Secured Notes.

"Titan 3 Shareholder Loan" means the shareholder loan from the Issuer to Titan 3 outstanding on the Issue Date.

"Total Assets" means the consolidated total assets of the Issuer and its Restricted Subsidiaries as shown on the balance sheet of such Person prepared on the basis of IFRS.

"Transactions" shall have the meaning assigned to such term in this Offering Memorandum under the caption "The Transactions".

"U.S. GAAP" means generally accepted accounting principles in the United States of America as in effect from time to time.

"Unrestricted Subsidiary" means:

- (1) any Subsidiary of the Issuer (other than TeamSystem S.r.l) that at the time of determination is an Unrestricted Subsidiary (as designated by the Board of Directors of the Issuer in the manner provided below); and
- (2) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors of the Issuer may designate any Subsidiary of the Issuer (including any newly acquired or newly formed Subsidiary or a Person becoming a Subsidiary through merger, consolidation or other business combination transaction, or Investment therein) to be an Unrestricted Subsidiary only if:

- (1) such Subsidiary or any of its Subsidiaries does not own any Capital Stock or Indebtedness of, or own or hold any Lien on any property of, the Issuer or any other Subsidiary of the Issuer which is not a Subsidiary of the Subsidiary to be so designated or otherwise an Unrestricted Subsidiary; and
- (2) such designation and the Investment of the Issuer in such Subsidiary complies with "—Certain Covenants—Limitation on Restricted Payments".

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer's Certificate certifying that such designation complies with the foregoing conditions.

The Board of Directors of the Issuer may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that immediately after giving effect to such designation (1) no Default or Event of Default would result therefrom and (2)(x) the Issuer could Incur at least €1.00 of additional Indebtedness under the first paragraph of the covenant described under "—Certain Covenants—Limitation on Indebtedness" or (y) the Fixed Charge Coverage Ratio would not be less than it was immediately prior to giving effect to such designation, in each case, on a *pro forma* basis taking into account such designation. Any such designation by the Board of Directors shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the resolution of the Board of Directors giving effect to such designation or an Officer's Certificate certifying that such designation complied with the foregoing provisions.

"Uniform Commercial Code" means the New York Uniform Commercial Code.

"Voting Stock" of a Person means all classes of Capital Stock of such Person then outstanding and normally entitled to vote in the election of directors.

"Wholly-Owned Subsidiary" means a Restricted Subsidiary of the Issuer, all of the Capital Stock of which (other than directors' qualifying shares or shares required by any applicable law or regulation to be held by a Person other than the Issuer or another Wholly-Owned Subsidiary) is owned by the Issuer or another Wholly-Owned Subsidiary.

Book-entry, delivery and form

General

The Notes sold to qualified institutional buyers in reliance on Rule 144A under the U.S. Securities Act will initially be represented by one or more global notes in registered form without interest coupons attached (the “Rule 144A Global Notes”). The Notes sold to non-U.S. persons outside the United States in reliance on Regulation S under the U.S. Securities Act will initially be represented by one or more global notes in registered form without interest coupons attached (the “Regulation S Global Notes” and, together with the Rule 144A Global Notes, the “Global Notes”). The Global Notes will be deposited, on the Issue Date, with a common depository and registered in the name of the nominee of the common depository for the accounts of Euroclear and Clearstream, Luxembourg.

Ownership of interests in the Rule 144A Global Notes (“Rule 144A Book-Entry Interests”) and ownership of interests in the Regulation S Global Notes (the “Regulation S Book-Entry Interests” and, together with the Rule 144A Book-Entry Interests, the “Book-Entry Interests”) will be limited to persons that have accounts with Euroclear and/or Clearstream, Luxembourg or persons that hold interests through such participants. Euroclear and Clearstream, Luxembourg will hold interests in the Global Notes on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective depositories. Except under the limited circumstances described below, Book-Entry Interests will not be issued in definitive form.

Book-Entry Interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream, Luxembourg and their participants. The Book-Entry Interests in Global Notes will be issued only in denominations of €100,000 and in integral multiples of €1,000 in excess thereof. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of those securities in definitive form. The foregoing limitations may impair your ability to own, transfer or pledge Book-Entry Interests. In addition, while the Notes are in global form, holders of Book-Entry Interests will not be considered the registered owners or “holders” of Notes for any purpose.

So long as the Notes are held in global form, the common depository for Euroclear and/or Clearstream, Luxembourg (or its nominee), as applicable, will be considered the sole holders of the Global Notes for all purposes under the Indenture. In addition, participants must rely on the procedures of Euroclear and Clearstream, Luxembourg, and indirect participants must rely on the procedures of Euroclear and Clearstream, Luxembourg and the participants through which they own Book-Entry Interests, to transfer their interests or to exercise any rights of holders of Notes under the Indenture.

None of the Issuer, the Guarantors or the Trustee or any of their respective affiliates will have any responsibility, or be liable, for any aspect of the records relating to the Book-Entry Interests.

Redemption of the Global Notes

In the event that any Global Note (or any portion thereof) is redeemed, Euroclear and/or Clearstream, Luxembourg, as applicable, will redeem an equal amount of the Book-Entry Interests in such Global Note from the amount received by them in respect of the redemption of such Global Note. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by Euroclear and Clearstream, Luxembourg, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Issuer understands that, under the existing practices of Euroclear and Clearstream, Luxembourg, if fewer than all of the Notes are to be redeemed at any time,

Euroclear and Clearstream, Luxembourg will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or on such other basis as they deem fair and appropriate unless otherwise required by law or applicable stock exchange or depositary requirements.

Payments on Global Notes

The Issuer will make payments of any amounts owing in respect of the Global Notes (including principal, premium, if any, interest and additional amounts, if any) to the principal paying agent. The principal paying agent will, in turn, make such payments to the common depositary or its nominee for Euroclear and Clearstream, Luxembourg, which will distribute such payments to participants in accordance with their respective customary procedures. All payments required to be made by the Issuer with respect to the Notes, or by a Guarantor under its Guarantee, will be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and as described under "*Description of the Notes—Additional amounts*". If any such deduction or withholding is required to be made, then, to the extent described under "*Description of the Notes—Additional amounts*", the Issuer will pay additional amounts as may be necessary in order for the net amounts received by any holder of the Global Notes or owner of Book-Entry Interests after such deduction or withholding to equal the net amounts that such holder or owner would have otherwise received in respect of such Global Note or Book-Entry Interest, as the case may be, absent such withholding or deduction. The Issuer expects that standing customer instructions and customary practices will govern payments by participants to owners of Book-Entry Interests held through such participants.

Under the terms of the Indenture, the Issuer, the Trustee, the registrar and the paying agents will treat the registered holders of the Global Notes (i.e. the common depositary for Euroclear or Clearstream, Luxembourg (or its nominees)) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Issuer, the Trustee, the registrar or any of the paying agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream, Luxembourg or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest or for maintaining, supervising or reviewing the records of Euroclear or Clearstream, Luxembourg or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest;
- Euroclear, Clearstream, Luxembourg or any participant or indirect participant; or
- the records of the common depositary.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants.

Currency of payment for the Global Notes

The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Global Notes, will be paid to holders of interests in such Notes through Euroclear and/or Clearstream, Luxembourg in euros.

Action by owners of Book-Entry Interests

Euroclear and Clearstream, Luxembourg have advised the Issuer that they will take any action permitted to be taken by a holder of a Note (including the presentation of Notes for exchange as described above) only at the direction of one or more participants to whose account the Book-Entry Interests in the Global Notes are credited and only in respect of such portion of the

aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream, Luxembourg will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Notes. However, if there is an “Event of Default” (as defined in the Indenture) under the Notes, each of Euroclear and Clearstream, Luxembourg, at the request of the holders of the Notes, reserve the right to exchange the Global Notes for definitive registered Notes in certificated form (the “Definitive Registered Notes”), and to distribute such Definitive Registered Notes to their respective participants.

Transfers

Transfers between participants in Euroclear and Clearstream, Luxembourg will be effected in accordance with Euroclear and Clearstream, Luxembourg’s rules and will be settled in immediately available funds. If a holder of a Note requires physical delivery of Definitive Registered Notes for any reason, including to sell Notes to persons in states that require physical delivery of such securities or to pledge such securities, such holder must transfer its interest in the Global Notes in accordance with the normal procedures of Euroclear and Clearstream, Luxembourg and in accordance with the procedures to be set forth in the Indenture.

The Global Notes will each bear a legend to the effect set forth under “*Transfer Restrictions*”. Book-Entry Interests in the Global Notes will be subject to the restrictions on transfers and certification requirements discussed under “*Transfer Restrictions*”.

Transfers of Rule 144A Book-Entry Interests to persons wishing to take delivery of Rule 144A Book-Entry Interests will at all times be subject to such transfer restrictions.

Rule 144A Book-Entry Interests may be transferred to a person who takes delivery in the form of a Regulation S Book-Entry Interest only upon delivery by the transferor of a written certification (in the form to be provided in the Indenture) to the effect that such transfer is being made in accordance with Regulation S or Rule 144 under the U.S. Securities Act or any other exemption (if available under the U.S. Securities Act).

Regulation S Book-Entry Interests may be transferred to a person who takes delivery in the form of a Rule 144A Book-Entry Interest only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a “qualified institutional buyer” within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under “*Transfer Restrictions*” and in accordance with any applicable securities laws of any other jurisdiction.

In connection with transfers involving an exchange of a Regulation S Book-Entry Interest for a Rule 144A Book-Entry Interest, appropriate adjustments will be made to reflect a decrease in the principal amount of the Regulation S Global Note and a corresponding increase in the principal amount of the Rule 144A Global Note.

Definitive Registered Notes may be transferred and exchanged for Book-Entry Interests in a Global Note only as described under “*Description of the Notes—Transfer and exchange*”, as the case may be and, if required, only if the transferor first delivers to the Registrar a written certificate (in the form to be provided in the Indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to the Notes. See “*Notice to investors*”.

Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in any other Global Note will, upon transfer, cease to be a Book-Entry Interest in the first-mentioned Global Note and become a Book-Entry Interest in such other Global Note, and accordingly will thereafter be subject to all transfer

restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it remains such a Book-Entry Interest.

Definitive Registered Notes

Under the terms of the Indenture, owners of the Book-Entry Interests will receive Definitive Registered Notes:

- (1) if Euroclear or Clearstream, Luxembourg notifies the Issuer that it is unwilling or unable to continue to act as depositary and a successor depositary is not appointed by the Issuer within 120 days; or
- (2) if the owner of a Book-Entry Interest requests such exchange in writing delivered through Euroclear or Clearstream, Luxembourg following an “Event of Default” under and as defined in the Indenture and enforcement action is being taken in respect thereof under the Indenture.

In such an event, the Issuer will issue Definitive Registered Notes, registered in the name or names and issued in any approved denominations, requested by or on behalf of Euroclear and/or Clearstream, Luxembourg or the Issuer, as applicable (in accordance with their respective customary procedures and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and such Definitive Registered Notes will bear the restrictive legend as provided in the Indenture, unless that legend is not required by the Indenture or applicable law.

To the extent permitted by law, the Issuer, the Trustee, the paying agents and the Registrar shall be entitled to treat the registered holder of any Global Note as the absolute owner thereof and no person will be liable for treating the registered holder as such. Ownership of the Global Notes will be evidenced through registration from time to time at the registered office of the Issuer, and such registration is a means of evidencing title to the Notes.

We will not impose any fees or other charges in respect of the Notes; however, owners of the Book-Entry Interests may incur fees normally payable in respect of the maintenance and operation of accounts in Euroclear and/or Clearstream, Luxembourg, as applicable.

Information concerning Euroclear and Clearstream, Luxembourg

All Book-Entry Interests will be subject to the operations and procedures of Euroclear and Clearstream, Luxembourg, as applicable. The Issuer provides the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. Neither the Issuer nor any of the Initial Purchasers are responsible for those operations or procedures.

The Issuer understands as follows with respect to Euroclear and Clearstream, Luxembourg: Euroclear and Clearstream, Luxembourg hold securities for participating organizations. They facilitate the clearance and settlement of securities transactions between their participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream, Luxembourg provide various services to their participants, including the safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream, Luxembourg interface with domestic securities markets. Euroclear and Clearstream, Luxembourg participants are financial institutions such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and Clearstream, Luxembourg is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear and Clearstream, Luxembourg participant, either directly or indirectly.

Because Euroclear and Clearstream, Luxembourg can act only on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of an owner of a beneficial interest to pledge such interest to persons or entities that do not participate in the Euroclear and/or Clearstream, Luxembourg systems, or otherwise take actions in respect of such interest, may be limited by the lack of a definitive certificate for that interest. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests to such persons may be limited. In addition, owners of beneficial interests through the Euroclear or Clearstream, Luxembourg systems will receive distributions attributable to the Rule 144A Global Notes only through Euroclear or Clearstream, Luxembourg participants.

Global clearance and settlement under the book-entry system

The Notes represented by the Global Notes are expected to be listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF market of the Luxembourg Stock Exchange and any permitted secondary market trading activity in the Notes will, therefore, be required to be settled in immediately available funds. The Issuer expects that secondary trading in any certificated Notes will also be settled in immediately available funds.

Although Euroclear and Clearstream, Luxembourg currently follow the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants in Euroclear or Clearstream, Luxembourg, as the case may be, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or modified at any time. None of the Issuer, the Initial Purchasers, the Trustee, the Registrar or the paying agents will have any responsibility for the performance by Euroclear or Clearstream, Luxembourg or their participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

Initial settlement

Initial settlement for the Notes will be made in euros. Book-Entry Interests owned through Euroclear or Clearstream, Luxembourg accounts will follow the settlement procedures applicable to conventional bonds in registered form. Book-Entry Interests will be credited to the securities custody accounts of Euroclear and Clearstream, Luxembourg holders on the business day following the settlement date against payment for value of the settlement date.

Secondary market trading

The Book-Entry Interests will trade through participants of Euroclear or Clearstream, Luxembourg and will settle in same-day funds. Since the purchase determines the place of delivery, it is important to establish at the time of trading of any Book-Entry Interests where both the purchaser's and the seller's accounts are located to ensure that settlement can be made on the desired value date.

Tax considerations

If you are a prospective investor, you should consult your tax advisor on the possible tax consequences of buying, holding or selling any Notes under the laws of your country of citizenship, residence or domicile, including the effect of any local taxes applicable to you. The discussions that follow do not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase, hold or sell notes. In particular, these discussions do not consider any specific facts or circumstances that may apply to you. The discussions that follow for each jurisdiction are based upon the applicable laws and interpretations thereof as in effect as of the date of this offering memorandum. These tax laws and interpretations are subject to change, possibly with retroactive or retrospective effect.

Certain United States federal income tax consequences

To ensure compliance with Internal Revenue Service Circular 230, you are hereby notified that any discussion of tax matters set forth in this offering memorandum was written in connection with the promotion or marketing of the transactions or matters addressed herein and was not intended or written to be used, and cannot be used by any prospective investor, for the purpose of avoiding tax-related penalties under federal, state or local tax law. Each prospective investor should seek advice based on its particular circumstances from an independent tax advisor.

The following is a summary of certain United States federal income tax consequences of the purchase, ownership and disposition of Notes as of the date hereof. This summary deals only with Notes that are held as capital assets by a U.S. holder (as defined below) who acquires our Notes upon original issuance at their initial offering price.

A “U.S. holder” means a beneficial owner of Notes that is for United States federal income tax purposes any of the following:

- an individual citizen or resident of the United States;
- a corporation (or any other entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury Regulations (“Treasury Regulations”) to be treated as a United States person.

This summary is based upon provisions of the United States Internal Revenue Code of 1986, as amended (the “Code”), and Treasury Regulations, rulings and judicial decisions as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income tax consequences different from those summarized below. This summary does not address all aspects of United States federal income taxes and does not deal with foreign, state or local or other tax considerations that may be relevant to U.S. holders in light of their particular circumstances. In addition, it does not represent a detailed description of the United States federal income tax consequences applicable to you if you are subject to special treatment under the United States federal income tax laws. For example, this summary does not address:

- tax consequences to holders who may be subject to special tax treatment, such as dealers in securities or currencies, traders in securities that elect to use the mark-to-market method of accounting for their securities, financial institutions, regulated investment companies, real

estate investment trusts, partnerships or other pass-through entities for United States federal income tax purposes, tax-exempt entities, insurance companies, individual retirement or other tax-deferred accounts;

- tax consequences to persons holding the Notes as part of a hedging, integrated, constructive sale or conversion transaction or a straddle;
- tax consequences to U.S. holders whose “functional currency” is not the U.S. dollar;
- U.S. federal estate or gift tax consequences, if any;
- alternative minimum tax consequences, if any; or
- any state, local or foreign tax consequences.

If a partnership (or other entity treated as a partnership for United States federal income tax purposes) holds our Notes, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our Notes, you should consult your tax advisors.

It is currently expected, and the following discussion assumes, that the Notes will not be issued with original issue discount that is equal to or greater than a statutory de minimis amount for U.S. federal income tax purposes.

If you are considering the purchase of Notes, you should consult your own tax advisors concerning the particular United States federal income tax consequences to you of the purchase, ownership and disposition of the Notes, as well as the consequences to you arising under the laws of any other taxing jurisdiction.

Payments of interest

Interest on a Note will generally be taxable to you as ordinary income at the time it is paid or accrued in accordance with your method of accounting for tax purposes. In addition to interest on the Notes (which includes any foreign tax withheld from the interest payments you receive), you will be required to include in income any additional amounts paid in respect of such tax withheld. You may be entitled to deduct or credit any taxes withheld, subject to certain limitations (including that the election to deduct or credit foreign taxes applies to all of your applicable foreign taxes for a particular tax year). Interest income (including any additional amounts) on a Note generally will be considered foreign source income and, for purposes of the United States foreign tax credit, generally will be considered passive category income. You will generally be denied a foreign tax credit for foreign taxes imposed with respect to the Notes where you do not meet a minimum holding period requirement during which you are not protected from risk of loss. The rules governing the foreign tax credit are complex. You are urged to consult your tax advisors regarding the availability of the foreign tax credit under your particular circumstances.

If you use the cash basis method of accounting for United States federal income tax purposes, you will be required to include in income the U.S. dollar value of the amount received, determined by translating the euros at the spot rate on the date such payment is received regardless of whether the payment is in fact converted into U.S. dollars. You will not recognize exchange gain or loss with respect to the receipt of such payment.

If you use the accrual method of accounting for United States federal income tax purposes, you may determine the amount of income recognized with respect to such interest in accordance with either of two methods. Under the first method, you will be required to include in income for each taxable year the U.S. dollar value of the interest that has accrued during such year, determined by translating such interest at the average rate of exchange for the period or periods during which such interest accrued or, in the case of an accrual period that spans two

taxable years of a U.S. holder, the part of the period within the taxable year. Under the second method, you may elect to translate interest income at the spot rate on:

- the last day of the accrual period,
- the last day of the taxable year if the accrual period straddles your taxable year, or
- the date the interest payment is received if such date is within five business days of the end of the accrual period.

This election will apply to all debt obligations you hold from year to year and cannot be changed without the consent of the IRS. You should consult your own tax advisor as to the advisability of making the above election.

Upon receipt of an interest payment on a Note (including, upon the sale of a Note, the receipt of proceeds which include amounts attributable to accrued interest previously included in income), you will recognize U.S. source ordinary gain or loss in an amount equal to the difference, if any, between the U.S. dollar value of such payment (determined by translating the euros received at the spot rate on the date such payment is received) and the U.S. dollar value of the interest income you previously included in income with respect to such payment.

Sale, exchange, retirement and other disposition of Notes

Upon the sale, taxable exchange, retirement or other taxable disposition of a Note, you will recognize gain or loss equal to the difference between the amount realized upon the sale, exchange, retirement or other disposition (less an amount equal to any accrued but unpaid interest, which will be taxable as interest income to the extent not previously included in income) and your tax basis in the Note. Your tax basis in a Note will, in general, be your U.S. dollar cost for that Note. If you purchased your Note with euros, your U.S. dollar cost generally will be the U.S. dollar value of the purchase price on the date of such purchase. If your Note is sold, exchanged, retired or disposed of for an amount in euros, the amount realized generally will be the U.S. dollar value of the euro amount received on the date of sale, exchange, retirement or other disposition. If you are a cash method taxpayer and the Notes are traded on an established securities market, euros paid or received will be translated into U.S. dollars at the spot rate on the settlement date of the purchase or sale. An accrual method taxpayer may elect the same treatment with respect to the purchase and sale of Notes traded on an established securities market, provided that the election is applied consistently. Such election cannot be changed without the consent of the IRS.

Subject to the foreign currency rules discussed below, your gain or loss will generally be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange, retirement or other disposition, you have held the Note for more than one year. Capital gains of individuals derived in respect of capital assets held for more than one year are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations. Gain or loss realized by you on the sale, exchange, retirement or other disposition of a Note would generally be treated as U.S. source gain or loss.

A portion of your gain or loss may be treated as exchange gain or loss with respect to the principal amount of a Note. Exchange gain or loss will be treated as ordinary income or loss and generally will be U.S. source gain or loss. For these purposes, the principal amount of the Note is your purchase price for the Note calculated in euros on the date of purchase, and the amount of exchange gain or loss recognized is equal to the difference between (i) the U.S. dollar value of the principal amount determined on the date of the sale, exchange, retirement or other disposition of the Note and (ii) the U.S. dollar value of the principal amount determined on the date you purchased the Note. The amount of exchange gain or loss will be limited to the amount of overall gain or loss realized on the disposition of the Note.

Exchange gain or loss with respect to euros

Your tax basis in the euros received as interest on a Note will be the U.S. dollar value thereof at the spot rate in effect on the date the euros are received. Your tax basis in euros received on the sale, exchange, or retirement of a Note will be equal to the U.S. dollar value of the euros, determined at the time of the sale, exchange, or retirement. As discussed above, if the Notes are traded on an established securities market, a cash basis U.S. holder (or, upon election, an accrual basis U.S. holder) will determine the U.S. dollar value of the euros by translating the euros received at the spot rate of exchange on the settlement date of the sale, exchange, or retirement. Accordingly, your basis in the euros received would be equal to the spot rate of exchange on the settlement date.

Any gain or loss recognized by you on a sale, exchange, retirement or other disposition of the euros will be ordinary income or loss and generally will be U.S. source gain or loss.

Reportable transactions

Treasury Regulations meant to require the reporting of certain tax shelter transactions could be interpreted to cover transactions generally not regarded as tax shelters, including certain foreign currency transactions. Under the Treasury Regulations, certain transactions are required to be reported to the IRS including, in certain circumstances, a sale, exchange, retirement or other taxable disposition of a foreign currency note or foreign currency received in respect of a foreign currency note to the extent that such sale, exchange, retirement or other taxable disposition results in a tax loss in excess of a threshold amount. You should consult with your own tax advisors to determine the tax return obligations, if any, with respect to an investment in the Notes, including any requirement to file IRS Form 8886 (Reportable Transaction Disclosure Statement).

Backup withholding and information reporting

Generally, information reporting requirements will apply to payments of principal and interest on a Note, or the proceeds from a sale of a Note, by a U.S. paying agent or intermediary unless you are an exempt recipient. Additionally, if you fail to provide your taxpayer identification number, or in the case of interest payments, fail either to report in full dividend and interest income or to make certain certifications, you may be subject to backup withholding.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against your United States federal income tax liability provided the required information is timely furnished to the IRS.

EU Directive on taxation of savings income

On 3 June 2003, the EU Council of Economic and Finance Ministers adopted the European Union Savings Directive (Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments) effective from 1 July 2005 (the "Directive"). Under the Directive, each Member State of the European Union (each, a "Member State") is required to provide to the tax authorities of another Member State details of certain payments of interest within the meaning of the Directive or other similar income paid by a paying agent within the meaning of the Directive, to an individual resident or certain types of entities called "residual entities," within the meaning of the Directive (the "Residual Entities"), established in that other Member State (or certain dependent or associated territories). For a transitional period, however, Austria and Luxembourg are permitted to apply a withholding tax system whereby if a beneficial owner, within the meaning of the Directive, does not opt for exchange of information or does not provide a specific tax certificate, the relevant Member State will levy a withholding tax on payments to such beneficial owner.

The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. The Directive does not preclude Member States from levying other types of withholding tax.

Also with effect from 1 July 2005, a number of non-EU countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) and certain dependent or associated territories have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent (within the meaning of the Directive) within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State. In addition, Luxembourg has entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a paying agent (within the meaning of the Directive) in Luxembourg to, or collected by such a paying agent for, an individual resident or a Residual Entity established in one of those territories.

The European Commission announced on 13 November 2008 proposals to amend the Directive. If implemented, the proposed amendments would, *inter alia*, (i) extend the scope of the Directive to payments made through certain intermediate structures (whether or not established in a Member State) for the ultimate benefit of EU resident individuals and (ii) provide for a wider definition of interest subject to the Directive. The European Parliament approved an amended version of this proposal on 24 April 2009. Discussions are still ongoing at Council level, building on unanimous conclusions adopted on 2 December 2008 and on 9 June 2009. Investors who are in any doubt as to their position should consult their professional advisors.

Implementation of the Directive in Italy

Italy has implemented the Directive through Legislative Decree No. 84 of 18 April 2005 ("Decree No. 84"). Under Decree No. 84, subject to a number of the important conditions being satisfied, in the case of interest paid to individuals who qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State or in a dependent or associated territory under the relevant international agreement, Italian-qualified paying agents (i.e., banks, SIMs (as defined herein), fiduciary companies and SGRs resident for tax purposes in Italy, permanent establishments in Italy of nonresident persons and any other economic operator resident for tax purposes in Italy paying interest for professional or commercial reasons) must report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner. Such information will be transmitted by the Italian tax authorities to the competent foreign tax authorities of the Member State of residence of the beneficial owner. In certain circumstances the same reporting requirements must be complied with also in respect of interest paid to an entity established in another Member State, other than legal persons (with the exception of certain Finnish and Swedish entities), entities whose profits are included in business income taxable under general arrangements for business taxation and, in specific cases, UCITS recognized in accordance with Directive 85/611/EEC.

Certain Italian tax considerations

The statements herein regarding Italian taxation are based on the laws and published practice of the Italian tax authorities in effect in Italy as of the date on the cover page of this offering memorandum and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis. The following is a summary only of the material Italian tax consequences of the purchase, ownership and disposition of the Notes for Italian-resident and non-Italian-resident beneficial owners, although it is not intended to be, nor should it be constructed to be, legal or tax advice. The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to

purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Notes are advised to consult their own tax advisors concerning the overall tax consequences of their acquiring, holding and disposing of the Notes and receiving payments on interest, principal and/or other amounts under the Notes, including, in particular, the effect of any state, regional and local tax laws. Neither the Issuer nor any other entity belonging to the Group will update this summary to reflect changes in law or in the interpretation thereof and, if any such change occurs, the information in this summary could be superseded.

Tax treatment of interest

Italian Legislative Decree No. 239 of April 1, 1996 ("Decree 239") sets forth the applicable regime regarding the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price, hereinafter, for the purpose of the discussion under "*Certain Italian tax considerations*", collectively referred to as "Interest") deriving from notes falling within the category of bonds (*obbligazioni*) and similar securities (pursuant to Article 44 of Presidential Decree No. 917 of December 22, 1986, as amended and supplemented ("Decree 917")), issued, *inter alia*, by:

- (a) companies resident in Italy for tax purposes whose shares are listed on a regulated market or on a multilateral trading platform of EU Member States and of the States party to the EEA Agreement included in the white list provided for by Article 168-bis of Decree 917 (for the time being, reference is to be made to the Ministerial Decree of September 4, 1996, as subsequently amended and supplemented, the "White List"); or
- (b) companies resident in Italy for tax purposes whose shares are not listed, issuing notes listed upon their issuance on the aforementioned regulated markets or platforms.

For these purposes, securities similar to bonds ("*titoli simili alle obbligazioni*") are securities that incorporate an unconditional obligation for the issuer to actually pay, at maturity, an amount not lower than their nominal/face value/principal and that do not provide any right of direct or indirect participation in, or control on, the management of the issuer or of the business in connection with which they are issued.

Italian-resident Noteholders

Holders of the Notes not engaged in an entrepreneurial activity

Where an Italian-resident beneficial owner of the Notes (a "Noteholder") is:

- (a) an individual not engaged in an entrepreneurial activity to which the Notes are connected;
- (b) a non-commercial partnership (*società semplice*);
- (c) a non-commercial private or public institution; or
- (d) an investor exempt from Italian corporate income taxation,

the interest derived from the Notes, and accrued during the relevant holding period, is subject to a withholding tax (*imposta sostitutiva*), levied at a rate of 20%, unless the relevant Noteholder holds the Notes in a discretionary investment portfolio managed by an authorized intermediary and has validly opted for the application of the "*Risparmio Gestito*" regime provided for by Article 7 of Italian Legislative Decree of November 21, 1997, No. 461 (see "*Tax treatment of capital gains—Risparmio gestito regime*" below).

Noteholders engaged in an entrepreneurial activity

In the event that an Italian-resident Noteholder is engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* applies as a provisional tax.

Where a Noteholder is an Italian-resident company or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Notes are effectively connected, and the Notes are deposited with an authorized intermediary, interest from the Notes will not be subject to *imposta sostitutiva*. It must, however, be included in the relevant Noteholder's income tax return and is therefore subject to general Italian corporate taxation and, in certain circumstances, depending on the status of the Noteholder, the Italian regional tax on productive activities ("IRAP").

Real estate investment funds

As clarified by the Italian Revenue Agency through, among others, the Circular dated August 8, 2003, No. 47/E and the Circular dated 15 February 2012, No. 2/E, payments of Interest on the Notes made to Italian-resident real estate collective investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998, as amended and supplemented, and Article 14-bis of Law No. 86 of 25 January 1994, respectively, are subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund, provided that the Notes, together with the relevant coupons, are timely deposited with an authorized intermediary.

However, a withholding or substitute tax at a rate of 20% will apply, in certain circumstances, to income realized by unitholders or shareholders in the event of distributions on, or the redemption or sale of, the relevant units or shares. Subject to certain conditions, income realized by the real estate investment fund is attributed to the investor irrespective of its actual collection and in proportion to the percentage of ownership of units on a tax transparency basis.

Funds and SICAVs

Where an Italian-resident Noteholder is an open-ended or a closed-ended collective investment fund (a "Fund") or a *Società di Investimento a Capitale Variabile* ("SICAV") established in Italy and either (i) the Fund or SICAV or (ii) their manager is subject to a form of supervision of the competent regulatory authority, and the Notes are deposited with an authorized intermediary, Interest accrued on the Notes during the holding period should not be subject to the *imposta sostitutiva*, but must be included in the management results of the Fund or the SICAV (as the case may be). The Fund or the SICAV will not be subject to taxation on such management results, but a withholding or substitute tax at the rate of 20% will instead apply, in certain circumstances, to distributions made in favor of unitholders or shareholders (as the case may be).

Pension funds

Where an Italian-resident Noteholder is a pension fund (subject to the regime provided for by Article 17 of the Italian Legislative Decree No. 252 of 5 December 2005) and the Notes are deposited with an authorized intermediary, Interest relating to the Notes and accrued during the holding period will not be subject to the *imposta sostitutiva*, but must be included in the results of the relevant portfolio accrued at the end of the relevant tax period (which will be subject to an 11% substitute tax).

Enforcement of the imposta sostitutiva

Pursuant to Decree 239, the *imposta sostitutiva* is applied by banks, *società di intermediazione mobiliare* ("SIM"), fiduciary companies, *società di gestione del Risparmio* ("SGR"), stockbrokers and other entities identified by a decree of the Ministry of Finance (each, an "Intermediary").

An Intermediary must:

- (a) be resident in Italy, or be a permanent establishment in Italy of a non-Italian-resident financial intermediary; and
- (b) participate, in any way, in the collection of Interest or in the transfer of the Notes. For the purpose of the application of the *imposta sostitutiva*, a transfer of Notes includes any assignment or other act, either with or without consideration, which results in a change in ownership of the Notes or in a change in the Intermediary with which the Notes are deposited.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by the relevant Italian financial intermediary (or permanent establishment in Italy of a non-Italian resident financial intermediary) paying interest to a Noteholder or, absent that, by the Issuer.

Non-Italian-resident Noteholders

Where the Noteholder is a non-Italian resident, an exemption from the *imposta sostitutiva* applies, *provided* that the non-Italian-resident Noteholder is:

- (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy, included in the White List; or
- (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or
- (c) an “institutional investor”, whether or not subject to tax, which is established in a country which allows for a satisfactory exchange of information with Italy, included in the White List, even if it does not possess the status of a taxpayer in its own country of establishment; or
- (d) a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State.

In order to ensure gross payment, non-Italian-resident Noteholders must be the beneficial owners of the payments of Interest or certain non-Italian-resident institutional investors and must timely deposit the Notes, together with the coupons relating to such Notes, directly or indirectly with:

- (i) an Italian or foreign bank or financial institution (which could be a non-EU resident) (the “First Level Bank”), acting as intermediary in the deposit of the Notes held, directly or indirectly, by the Noteholder with a Second Level Bank (as defined below); or
- (ii) an Italian-resident bank or brokerage company (SIM), or a permanent establishment in Italy of a nonresident bank or SIM, acting as depositary or sub-depositary of the Notes appointed to maintain direct relationships, via telematic link, with the Department of Revenue of the Ministry of Economy and Finance (the “Second Level Bank”).

Non-Italian resident organizations and companies, acting through a system of centralized administration of securities and directly connected with the Department of Revenue of the Italian Ministry of Economy and Finance (which include Euroclear and Clearstream, Luxembourg) are treated as Second Level Banks, provided that they appoint an Italian representative (an Italian-resident bank or SIM, or permanent establishment in Italy of a nonresident bank or SIM, or a central depositary of financial instruments pursuant to Article 80 of Legislative Decree No. 58 of February 24, 1998) for the purposes of the application of Decree 239. In the event that a non-Italian-resident bondholder deposits the relevant bonds directly with a Second Level Bank, the latter shall be treated both as a First Level Bank and a Second Level Bank.

The exemption from the *imposta sostitutiva* for non-Italian-resident Noteholders is conditional upon:

- (i) the deposit of the bonds, either directly or indirectly, with an institution which qualifies as a Second Level Bank; and
- (ii) the submission to the First Level Bank or the Second Level Bank (as the case may be) of a statement of the relevant Noteholder (*autocertificazione*), to be provided only once, in which it declares, *inter alia*, that it is the beneficial owner of any interest on the bonds and it is eligible to benefit from the exemption from the *imposta sostitutiva*.

Such statement must comply with the requirements set forth by a Ministerial Decree dated 12 December 2001, is valid until withdrawn or revoked (unless some information provided therein has changed) and does not need to be submitted where a certificate, declaration or other similar document for the same or equivalent purposes was previously submitted to the same depository. The above statement is not required for non-Italian-resident investors that are international bodies or entities set up in accordance with international agreements entered into force in Italy referred to in paragraph (b) above or Central Banks or entities also authorized to manage the official reserves of a State referred to in paragraph (d) above. Additional requirements are provided for “institutional investors” referred to in paragraph (c) above.

The First Level Bank is obligated to send the above statement to the Second Level Bank within 15 days from receipt. The Second Level Bank files the data relating to the nonresident bondholder together with the data relating to the First Level Bank and of the transactions carried out, via telematic link, to the Italian tax authorities within the first transmission period after receipt of such data. Transmission periods are two-week periods per month during which the Second Level Bank transmits to the Italian tax authorities data relating to Note transactions carried out during the preceding month. The Italian tax authorities monitor and control such data and any discrepancies thereof.

The *imposta sostitutiva* will be applicable at a rate of 20% on interest paid to Noteholders who do not qualify for the foregoing exemption or do not timely and properly satisfy the relevant conditions.

Noteholders who are subject to the *imposta sostitutiva* may, nevertheless, be eligible for full or partial relief under an applicable tax treaty, provided that the relevant conditions are satisfied.

Tax treatment of capital gains

Italian-resident Noteholders

Noteholders not engaged in an entrepreneurial activity. Where an Italian-resident Noteholder is an individual not engaged in an entrepreneurial activity to which the Notes are connected, any capital gain realized by such Noteholder from the sale or redemption of the Notes would be subject to the *imposta sostitutiva* levied at a rate of 20%. Noteholders may set off any capital losses with their capital gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt, under certain conditions, for any of the three regimes described below.

Tax declaration regime. Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for Italian-resident individuals not engaged in an entrepreneurial activity to which the Notes are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains (net of any incurred capital loss) realized by the Italian-resident individual holding the Notes during any given tax year. Italian-resident individuals holding the Notes not in connection with an entrepreneurial activity must indicate the overall capital gains realized in any tax year, net of any relevant incurred capital loss, in their annual tax return, and pay the *imposta sostitutiva* on such gains, together with any

balance of income tax due for such year. Capital losses in excess of capital gains may be carried forward and set off against capital gains realized in any of the four succeeding tax years. Capital losses realized before 1 January 2012 may be carried forward to be offset against subsequent capital gains of the same nature realized from 1 January 2012 in an amount equal to 62.5% of the relevant capital loss.

Risparmio amministrato regime. As an alternative to the tax declaration regime, Italian-resident individual Noteholders holding the Notes not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realized on each sale or redemption of the Notes (the “*risparmio amministrato*” regime). Such separate taxation of capital gains is allowed subject to:

- (i) the Notes being deposited with an Italian bank, SIM or certain authorized financial intermediary; and
- (ii) an express election for the *risparmio amministrato* regime being made in writing in a timely fashion by the relevant Noteholder.

The depository must account for the *imposta sostitutiva* in respect of capital gains realized on each sale or redemption of the Notes (as well as in respect of capital gains realized upon the revocation of its mandate), net of any incurred capital loss. The depository must also pay the *imposta sostitutiva* to the Italian tax authorities on behalf of the Noteholder, deducting a corresponding amount from the proceeds to be credited to the Noteholder or using funds provided by the Noteholder for this purpose. Under the *risparmio amministrato* regime, any possible capital loss resulting from a sale or redemption of the Notes may be deducted from capital gains subsequently realized, within the same securities management, in the same tax year or in the following tax years, up until the fourth tax year. Under the *risparmio amministrato* regime, the Noteholder is not required to declare the capital gains/losses in its annual tax return.

Risparmio gestito regime. In the *risparmio gestito* regime, any capital gains realized by Italian-resident individuals holding the Notes not in connection with an entrepreneurial activity and who have entrusted the management of their financial assets (including the Notes) to an authorized intermediary, will be included in the computation of the annual increase in value of the managed assets accrued, even if not realized, at tax year-end, subject to a 20% substitute tax to be paid by the managing authorized intermediary. Any depreciation of the managed assets accrued at the tax year-end may be carried forward against any increase in value of the managed assets accrued in any of the four succeeding tax years. The Noteholder is not required to declare the capital gains or losses realized in its annual tax return.

Noteholders engaged in an entrepreneurial activity. Any gain obtained from the sale or redemption of the Notes will be treated as part of taxable income (and, in certain circumstances, depending on the status of the Noteholder, also as part of the net value of the production for IRAP purposes) if realized by an Italian company, a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Notes are connected) or Italian-resident individuals engaged in an entrepreneurial activity to which the Notes are connected.

Real estate investment funds. Any capital gains realized by a Noteholder which is an Italian real estate investment fund accrues to the tax year-end appreciation of the managed assets, which is exempt from any income tax. A withholding tax may apply in certain circumstances at a rate of 20% on distributions made by Italian real estate funds.

Funds and SICAVs. Any capital gains realized by a Noteholder who is an Italian Fund or an SICAV will be included in the result of the relevant portfolio accrued at the end of the relevant tax period. A 20% withholding tax will apply in certain circumstances to distributions by the Italian Fund or SICAV to unitholders or shareholders (as applicable).

Pension funds. Any capital gains realized by a Noteholder who is an Italian pension fund (subject to the regime provided for by Article 17 of Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the relevant tax period, and subject to an 11% substitute tax.

Non-Italian-resident Noteholders

A 20% *imposta sostitutiva* on capital gains may be payable on capital gains realized on the sale or redemption of the Notes by non-Italian-resident persons without a permanent establishment in Italy to which the Notes are effectively connected, if the Notes are held in Italy.

However, pursuant to Article 23, letter f), No. 2 of Decree 917, capital gains realized by non-Italian-resident Noteholders from the sale or redemption of notes issued by an Italian-resident issuer and traded on regulated markets in Italy or abroad are not subject to the *imposta sostitutiva*, subject to the filing of required documentation in a timely fashion (in particular, a self-declaration that the Noteholder is not resident in Italy for tax purposes). As of the date of this Offering Memorandum, the Italian tax authorities have not officially confirmed whether a multilateral trading platform qualifies for this exemption.

Capital gains realized by non-Italian-resident Noteholders from the sale or redemption of Notes issued by an Italian-resident issuer, even if the Notes are not traded on a regulated market, are not subject to the *imposta sostitutiva*, provided that the effective beneficiary is:

- (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy, included in the White List;
- (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy;
- (c) an institutional investor, whether or not subject to tax, which is established in a country which allows for a satisfactory exchange of information with Italy, included in the White List, even if it does not possess the status of a taxpayer in its own country of establishment; or
- (d) a central bank or an entity which manages, *inter alia*, the official reserves of a foreign State.

In order to ensure gross payment, non-Italian-resident Noteholders must satisfy the same conditions set forth above in order to benefit from the exemption from the *imposta sostitutiva* in accordance with Decree 239 (see “—*Tax Treatment of Interest*” above).

If the above conditions are not met, capital gains realized by non-Italian-resident Noteholders from the sale or redemption of Notes issued by an Italian-resident issuer and not traded on a regulated market may be subject to the *imposta sostitutiva* at the current rate of 20%. However, Noteholders may be able to benefit from an applicable double tax treaty with Italy, providing that capital gains realized upon the sale or redemption of the Notes are taxed only in the country where the recipient is tax resident, subject to satisfying certain conditions.

The *risparmio amministrato* regime is the ordinary regime automatically applicable to non-Italian-resident persons and entities holding Notes deposited with an Intermediary, but non-Italian-resident Noteholders retain the right to waive its applicability.

Certain reporting obligations for Italian-resident noteholders

Italian-resident individuals directly holding financial assets, including the Notes, outside Italy (without the intervention of an Italian-resident intermediaries) are required to report, in their Italian tax return, the year-end value of their financial assets held abroad, if the overall value of such assets exceeds €10,000.

Any transfer of cash, securities and any other financial assets, derived from Italy to a foreign country, from a foreign country to Italy and from one foreign country to another foreign country, in connection with financial assets, including the Notes, held outside of Italy needs to be reported in the Italian tax return of the Italian-resident individual, if the overall value of the transfer affected exceeds €10,000.00.

Italian inheritance tax and gift tax

The transfer of Notes by reason of gift, donation or succession proceedings is subject to Italian inheritance tax and gift tax as follows:

- (a) 4% for transfers in favor of the spouse or direct relatives exceeding, for each beneficiary, a threshold of €1.0 million;
- (b) 6% for transfers in favor of siblings exceeding, for each beneficiary, a threshold of €0.1 million; 6% for transfers in favor of relatives up to the fourth degree and to all relatives in law in direct line and to other relatives in law up to the third degree, on the entire value of the inheritance or the gift; and
- (c) 8% for transfers in favor of any other person or entity, on the entire value of the inheritance or the gift.

If the heir/heirress and/or the donee is a person with a severe disability pursuant to Law No. 104 of February 5, 1992, inheritance tax or gift tax is applied to the extent that the value of the inheritance or gift exceeds €1.5 million.

With respect to Notes listed on a regulated market, the value for inheritance tax and gift tax purposes is the average stock exchange price of the last quarter preceding the date of the succession or of the gift (including any accrued interest). With respect to unlisted Notes, the value for inheritance tax and gift tax purposes is generally determined by reference to the value of listed debt securities having similar features or based on certain elements as presented in the Italian tax law.

Italian inheritance tax and gift tax applies to non-Italian-resident individuals for bonds issued by Italian resident companies.

Wealth tax—direct holding

According to Article 19 of Law Decree No. 201 of 6 December 2011 (“Decree 201”), Italian-resident individuals holding financial assets—including the Notes—outside Italy without the involvement of an Italian financial intermediary are required to pay a wealth tax currently at the rate of 0.15% (the level of tax being determined in proportion to the period of ownership). The wealth tax applies on the market value at the end of the relevant year or, in the absence of a market value, on the nominal value or redemption value of such financial assets held outside Italy. Taxpayers are permitted to deduct from the wealth tax a tax credit equal to any wealth taxes paid in the country where the financial assets are held (up to the amount of the Italian wealth tax due).

Stamp taxes and duties—holding through financial intermediary

According to Article 19 of Decree 201, a proportional stamp duty applies on a yearly basis, currently at a rate of 0.15% for subsequent years calculated on the market value or—in the absence of a market value—on the nominal value or the redemption amount of any financial product or financial instruments (including the Notes). The stamp duty cannot be lower than €34.20 and from the year 2013 onwards, and the stamp duty should not exceed €4,500 if the Notes are held by Noteholders who are not natural persons. Stamp duty applies both to Italian-resident-holders of the Notes and to non-Italian-resident Noteholders, to the extent that the Notes are held with an Italian-based financial intermediary (and not directly held by the

Noteholders outside Italy, in which case wealth tax applies to Italian-resident holders of the Notes only).

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows:

- (a) public deeds and notarized deeds (*atti pubblici e scritture private autenticate*) are subject to fixed registration tax at rate of €168.00; and
- (b) private deeds (*scritture private non autenticate*) are subject to fixed registration tax of €168.00 only in the case of use or voluntary registration or occurrence of the so-called *enunciazione*.

Payments by the Company as provider of a Guarantee of the Notes

If the Company, as a provider of a Guarantee of the Notes, makes any payments in respect of interest on the Notes (or any other amounts due under the Notes other than the repayment of principal) it is possible that such payments may be subject to withholding tax at the applicable rate, subject to such relief as may be available under the provisions of any applicable double taxation treaty.

Certain ERISA considerations

The U.S. Employee Retirement Income Security Act of 1974, as amended ("ERISA") imposes certain requirements on employee benefit plans subject to Title I of ERISA and on entities that are deemed to hold the assets of such plans ("ERISA Plans"), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA's general fiduciary requirements, including, but not limited to, the requirement of investment prudence and diversification and the requirement that an ERISA Plan's investments be made in accordance with the documents governing the plan.

Section 406 of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the "Code") prohibit certain transactions involving the assets of an ERISA Plan (as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts (together with ERISA Plans, "Plans")) and certain persons (referred to as "parties in interest" or "disqualified persons") having certain relationships to such Plans, unless a statutory or administrative exemption is applicable to the transaction. A "party in interest" or "disqualified person" who engaged in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and/or the Code. In addition, fiduciaries of Plans that engaged in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and/or the Code.

A direct or indirect prohibited transaction within the meaning of Section 406 of ERISA and Section 4975 of the Code could arise if the Notes are acquired or held by Plans to which the Issuer, an Initial Purchaser or any of their respective affiliates, is a "party in interest" and such acquisition is not entitled to an applicable exemption, of which there are many.

Non-U.S. plans, governmental plans and certain church plans (collectively referred to as "Non-ERISA Plans"), while not subject to the fiduciary responsibility provisions of Title I of ERISA or the prohibited transaction provisions of Section 406 of ERISA and Section 4975 of the Code, may nevertheless be subject to non-U.S., state, local or other federal laws or regulations that are substantially similar to the fiduciary responsibility or prohibited transaction provisions of ERISA or the Code ("Similar Law").

The foregoing discussion of ERISA and the Code is general in nature and does not purport to be complete. Fiduciaries of Plans (and each fiduciary for non-U.S. plans, governmental plans and church plans subject to Similar Law) should consult with their legal advisor concerning the potential consequences to Plans or Non ERISA Plans under ERISA, the Code or Similar Law, as applicable, of an investment in the Notes. Each prospective investor will be required to give a deemed representation as to the purchase and holding of the Notes. See "*Transfer restrictions*".

Limitations on validity and enforceability of the Guarantees and the security interests and certain insolvency law considerations

The following is a summary of certain limitations on the validity and enforceability of the Guarantees and the security interests being provided for the Notes, and a summary of certain insolvency law considerations in each of the jurisdictions in which the Issuer and the Guarantors are incorporated or organized. The description below is only a summary, and does not purport to be complete or to discuss all of the limitations or considerations that may affect the validity and enforceability of the Notes or the Guarantees or security interests being provided for the Notes. Prospective investors in the Notes should consult their own legal advisors with respect to such limitations and considerations.

European Union

The Issuer and the Guarantors are incorporated and organized under the laws of the Member States of the European Union.

Pursuant to Council Regulation (EC) No. 1346/2000 of 29 May 2000 on insolvency proceedings (the “EU Insolvency Regulation”), the court which shall have jurisdiction to open insolvency proceedings in relation to a company is the court of the Member State (other than Denmark) where the company concerned has its “centre of main interests” (as that term is used in Article 3(1) of the EU Insolvency Regulation). The determination of where any such company has its “centre of main interests” is a question of fact on which the courts of the different Member States may have differing and conflicting views. The term “centre of main interests” is not a static concept. Although there is a rebuttable presumption under Article 3(1) of the EU Insolvency Regulation that any such company has its “centre of main interests” in the Member State in which it has its registered office, Preamble 13 of the EU Insolvency Regulation states that the “centre of main interests” of a debtor should correspond to the place where the debtor conducts the administration of its interests on a regular basis and is therefore ascertainable by third parties. In that respect, factors such as where board meetings are held, the location where the company conducts the majority of its business and the perception of the company’s creditors as regards the centre of the company’s business operations may all be relevant in the determination of the place where the company has its “centre of main interests”.

If the “centre of main interests” of a company is and will remain located in the state in which it has its registered office, the main insolvency proceedings in respect of the company under the EU Insolvency Regulation would be commenced in such jurisdiction and, accordingly, a court in such jurisdiction would be entitled to commence the types of insolvency proceedings referred to in Annex A to the EU Insolvency Regulation. Insolvency proceedings opened in one Member State under the EU Insolvency Regulation are to be recognized in the other Member States (other than Denmark), although secondary proceedings may be opened in another Member State. If the “centre of main interests” of a debtor is in one Member State (other than Denmark), under Article 3(2) of the EU Insolvency Regulation, the courts of another Member State (other than Denmark) have jurisdiction to open “territorial proceedings” only in the event that such debtor has an “establishment” (in the meaning of the EU Insolvency Regulation) in the territory of such other Member State. The effects of those territorial proceedings are restricted to the assets of the debtor situated in the territory of such other Member State. If the company does not have an establishment in any other Member State, no court of any other Member State has jurisdiction to open territorial proceedings in respect of such company under the EU Insolvency Regulation.

In the event that any one or more of the Issuer, the Guarantors or any of their respective subsidiaries experience financial difficulty, it is not possible to predict with certainty in which

jurisdiction or jurisdictions insolvency or similar proceedings would be commenced, or the outcome of such proceedings. Applicable insolvency laws may affect the enforceability of the obligations of the Issuer and the Guarantors.

Republic of Italy

Certain Italian insolvency laws

The insolvency laws of Italy may not be as favorable to investors' interests as those of other jurisdictions with which investors may be familiar. In Italy, the courts play a central role in the insolvency process and in-court procedures may be materially more complex and time-consuming than in equivalent situations in jurisdictions with which investors may be familiar.

The following is a brief description of certain aspects of insolvency law in Italy. Certain provisions of Italian law have been amended or have entered into force only recently and, therefore, may be subject to further implementation and/or interpretations and have not been tested to date in the Italian courts.

The two primary aims of Royal Decree No. 267 of March 16, 1942 (the main Italian bankruptcy legislation), as reformed and currently in force (the "Italian Bankruptcy Law"), are to liquidate the debtor's assets and protect the goodwill of the going concern (if any) for the satisfaction of creditors' claims as well as, in case of the "*Prodi-bis*" procedure or "*Marzano*" procedure, to maintain employment. These competing aims have often been balanced by selling businesses as going concerns and ensuring that employees are transferred along with the businesses being sold.

Under the Italian Bankruptcy Law, bankruptcy must be declared by a court, based on the insolvency (*insolvenza*) of a company upon a petition filed by the company itself, the public prosecutor and/or one or more creditors. Insolvency occurs when a debtor is no longer able to regularly meet its obligations as they become due. This must be a permanent, and not a temporary, status in order for a court to hold that a company is insolvent.

In cases where a company is in distress, it may be possible for it to enter into out-of-court arrangements with its creditors, which may safeguard the existence of the company, but which are susceptible to being reviewed by a court in the event of a subsequent insolvency, and possibly challenged as voidable transactions.

In addition, the following forms of debt restructuring and bankruptcy are available under Italian law for companies in a state of crisis and for insolvent companies.

A) Out-of-court reorganization plans (piani di risanamento) pursuant to Article 67, Paragraph 3(d) of the Italian Bankruptcy Law

Out-of-court debt restructuring agreements are based on restructuring plans (*piani di risanamento attestati*) prepared by companies in order to restructure their indebtedness and to ensure the recovery of their financial condition. An independent expert appointed by the debtor has to verify the feasibility of the restructuring plan and the truthfulness of the business data provided by the company.

The terms and conditions of these plans are freely negotiable. Unlike in-court pre-bankruptcy agreement proceedings and debt restructuring agreements, out-of-court reorganization plans pursuant to Article 67, Paragraph 3(d) of the Italian Bankruptcy Law do not offer the debtor any protection against enforcement proceedings and/or precautionary actions of third-party creditors. The Italian Bankruptcy Law provides that, should these plans fail and the debtor be declared bankrupt, the payments and/or acts carried out for the implementation of the reorganization plan, subject to certain conditions (i) are not subject to clawback action and (ii) are exempted from certain potentially applicable criminal sanctions. Neither ratification by the court nor publication in the Companies' Register are needed (although publication in the

Companies' Register is possible upon a debtor's request) and, therefore, the risk of bad publicity or disvalue judgments are lower than in case of an in-court pre-bankruptcy agreement or a debt restructuring agreement.

B) Debt restructuring agreements with creditors (accordi di ristrutturazione dei debiti) pursuant to Article 182-bis of the Italian Bankruptcy Law

Out-of-court agreements for the restructuring of indebtedness entered into with creditors representing at least 60% of the outstanding company's debts can be ratified by the court. An expert appointed by the debtor must assess the truthfulness of the business data provided by the company and declare that the agreement is feasible and, particularly, that it ensures that the debts of the nonparticipating creditors can be fully satisfied within the following time frames: (i) 120 days from the date of ratification of the agreement by the court, in the case of debts which are due and payable to the nonparticipating creditors as at the date of the sanctioning (*omologazione*) of the debt restructuring agreement by the court; and (ii) 120 days from the date on which the relevant debts fall due, in case of receivables which are not yet due and payable to the nonparticipating creditors as of the date of the sanctioning (*omologazione*) of the debt restructuring agreement by the court. Only a debtor who is insolvent or in a state of crisis (i.e., facing distress which does not yet amount to insolvency) can initiate this process and request the court's sanctioning (*omologazione*) of the debt restructuring agreement entered into with its creditors.

The agreement is published in the companies' register and is effective as of the day of its publication. Starting from the date of such publication and for 60 days thereafter, creditors cannot start or continue any interim relief or enforcement actions over the assets of the debtor and cannot obtain any security interest (unless agreed) in relation to preexisting debts. Such moratorium can be requested, pursuant to Article 182-bis, Paragraph 6 of the Italian Bankruptcy Law, by the debtor from the court pending negotiations with creditors (prior to the above-mentioned publication of the agreement), subject to the fulfillment of certain conditions. Such moratorium request must be published in the companies' register and becomes effective as of the date of publication. The court, having verified the completeness of the documentation, sets the date for a hearing within 30 days of the publication and orders the company to supply the relevant documentation in relation to the moratorium to the creditors. In such hearing, the court assesses whether the conditions for granting the moratorium are in place and, if they are, orders that no interim relief or enforcement action may be started or continued, nor can security interests (unless agreed) be acquired over the assets of the debtor, and sets a deadline (not exceeding 60 days) within which the restructuring agreement has to be filed. The court's order may be challenged within 15 days of its publication. Within the same time frame, an application for the *concordato preventivo* (as described below) may be filed, without prejudice to the effect of the moratorium.

The Italian Bankruptcy Law does not expressly provide for any indications concerning the contents of the debt restructuring agreement. The plan can therefore provide, *inter alia*, either for the prosecution of the business by the debtor or by a third party, or the sale of the business to a third party and may contain, refinancing agreements, moratoria, write-offs and/or postponements of claims. The debt restructuring agreement may also contain a proposed tax settlement for the partial or deferred payment of certain taxes.

Creditors and other interested parties may oppose the agreement within 30 days from the publication of the agreement in the companies' register. The court will, after having settled the oppositions (if any), validate the agreement by issuing a decree, which may be appealed within 15 days of its publication.

Pursuant to the new Article 182-*quinquies* of the Italian Bankruptcy Law, the court, pending the sanctioning (*omologazione*) of the agreement pursuant to Article 182-bis, paragraph 1, or after the filing of the instance pursuant to Article 182-bis, paragraph 6, or a petition for a *concordato preventivo*, also pursuant to Article 161, paragraph 6, may authorize the debtor

(i) to incur in new indebtedness pre-deductible, provided that the expert appointed by the debtor declares the aim of the new financial indebtedness results in a better satisfaction of the creditors, and (ii) to pay debts deriving from the supply of services or goods, already payable and due, provided that the expert declares that such payment is essential for the keeping of company's activities and to ensure the best satisfaction for all creditors.

C) Court-supervised pre-bankruptcy composition with creditors (concordato preventivo)

A company which is insolvent or in a situation of crisis, but has not been declared insolvent by the court, has the option to make a composition proposal to its creditors, under court supervision, in order to compose its overall indebtedness and/or reorganize its business, thereby avoiding a declaration of insolvency and the initiation of bankruptcy proceedings. Such composition proposal can be made by a commercial enterprise which exceeds any of the following thresholds: (i) has had assets (*attivo patrimoniale*) in an aggregate amount exceeding €0.3 million for each of the three preceding fiscal years, (ii) gross revenues (*ricavi lordi*) in an aggregate amount exceeding €0.2 million for each of the three preceding fiscal years, and (iii) has total indebtedness in excess of €0.5 million. Only the debtor company can file a petition with the court for a *concordato preventivo* (together with, *inter alia*, the proposed agreement and an independent expert report assessing the feasibility of the composition proposal and the truthfulness of the business data provided by the company). The petition for *concordato preventivo* is then published by the debtor in the companies' register. From the date of such publication to the date on which the court sanctions the *concordato preventivo*, all enforcement and interim relief actions by the creditors (whose debt became due before the sanctioning of the *concordato preventivo* by the court) are stayed. During this time, all enforcement, precautionary actions and interim measures sought by the creditors, whose title arose beforehand, are stayed. Preexisting creditors cannot obtain security interests (unless authorized by the court) and mortgages registered within the 90 days preceding the date on which the petition for the *concordato preventivo* is published in the companies' register are ineffective against such preexisting creditors.

The composition proposal filed in connection with the petition may provide for: (i) the restructuring of debts and the satisfaction of creditors' claims (including through extraordinary transactions, such as the granting to creditors and to their subsidiaries or affiliated companies of shares, bonds (including bonds convertible into shares), or other financial instruments and debt securities); (ii) the transfer to a receiver (*assuntore*) of the operations of the debtor company making the composition proposal; (iii) the division of creditors into classes and (iv) different treatment of creditors belonging to different classes. The composition proposal may also contain a proposed tax settlement for the partial or deferred payment of certain taxes.

The filing of the petition for the *concordato preventivo* may be preceded by the filing of a preliminary petition for a *concordato preventivo* (so called *concordato in bianco*, pursuant to Article 161, paragraph 6, of the Italian Bankruptcy Law). The debtor company may file such petition along with its financial statements from the latest three financial years reserving the right to submit the underlying plan, the proposal and all relevant documentation within a period assigned by the court between 60 and 120 days from the date of the filing of the preliminary petition, subject to only one possible further extension of up to 60 days, where there are reasonable grounds for such extension. In advance of such deadline, the debtor may also file a petition for the approval of a debt restructuring agreement (pursuant to Article 182-bis of the Italian Bankruptcy Law).

The composition proposal may propose that (i) the debtor's company's business continues to be run by the debtor's company as a going concern, or (ii) the business is transferred to one or more companies and any assets which are no longer necessary to run the business are liquidated (*concordato con continuità aziendale*). In these cases, the petition for the *concordato preventivo* should fully describe the costs and revenues which are expected as a

consequence of the continuation of the business as a going concern, as well as the financial resources and support which will be necessary. The report of the independent expert shall also certify that the continuation of the business is conducive to the satisfaction of creditors' claims to a greater extent than if such composition proposal was not implemented.

Furthermore, the going concern-based arrangements with creditors can provide for, *inter alia*, the winding-up of those assets which are not functional to the business allowed. The composition agreement may also contain a proposed tax settlement for the partial or deferred payment of certain taxes.

If the court determines that the composition proposal is admissible, it appoints a judge (*giudice delegato*) to supervise the procedure, appoints one or more judicial officers (*commissari giudiziali*) and calls a creditors' meeting. During the implementation of the proposal, the company generally continues to be managed by its board of directors, but is supervised by the appointed judicial officers and judge (who shall authorize all transactions that exceed the ordinary course of business).

The *concordato preventivo* is voted on at a creditors' meeting and must be approved by the majority (by value of claims) of the creditors entitled to vote and, where there are different classes of creditors also, by the majority of classes. Creditors who have not voted will be deemed to approve the *concordato preventivo* proposal if they fail to notify their objection via telegraph, fax, mail or e-mail to such proposal within 20 days from the closure of the minutes of that creditors' meeting. Secured creditors are not entitled to vote on the proposal of *concordato preventivo* unless and to the extent they waive their security, or the *concordato preventivo* provides that they will not receive full satisfaction of the fair market value of their secured assets (such value being assessed by an independent expert), in which case they can vote only in respect of the part of their debt affected by the proposal. The court may also approve the *concordato preventivo* (notwithstanding the circumstance that one or more classes objected it) if (i) the majority of classes has approved it, and (ii) the court deems that the interests of the dissenting creditors would be adequately safeguarded through it compared to other solutions. If an objection to the implementation of the *concordato preventivo* is filed by 20% of the creditors or, in case there are different classes of creditors, by a creditor belonging to a dissenting class, entitled to vote, the court may nevertheless sanction the *concordato preventivo* if it deems that the relevant creditors' claims are likely to be satisfied to a greater extent as a result of the *concordato preventivo* than would otherwise be the case.

After the approval by the creditors' meeting, the court (having settled possible objections raised by the dissenting creditors, if any) confirms the *concordato preventivo* proposal by issuing a confirmation order.

If the creditors' meeting does not approve the *concordato preventivo*, the court may, upon request of the public prosecutor or a creditor, and having decided that the appropriate conditions apply, declare the company bankrupt.

Bankruptcy (fallimento)

A request to declare a debtor company bankrupt and to commence bankruptcy proceedings (*fallimento*) and the judicial liquidation of the debtor company's assets can be filed by the debtor company itself, any of its creditors and, in certain cases, by the public prosecutor. The bankruptcy is declared by the competent bankruptcy court. The Italian Bankruptcy Law is applicable only to commercial enterprises (*imprenditori commerciali*) if any of the following thresholds are met (i.e., the company has had assets (*attivo patrimoniale*) in an aggregate amount exceeding €0.3 million for each of the three preceding fiscal years, gross revenues (*ricavi lordi*) in an aggregate amount exceeding €0.2 million for each of the three preceding

fiscal years and has total indebtedness in excess of €0.5 million). On the commencement of bankruptcy proceedings:

- subject to certain exceptions, all actions of creditors are stayed and creditors must file claims within a defined period. In particular, under certain circumstances secured creditors may enforce against the secured property as soon as their claims are admitted as preferred claims. Secured claims are paid out of the proceeds of the secured assets, together with interest and expenses. Any outstanding balance will be considered unsecured and rank *pari passu* with all of the bankrupt's other unsecured debt. The secured creditor may sell the secured asset only after it has obtained authorization from the designated judge (*giudice delegato*). After hearing the bankruptcy receiver and the creditors' committee, the designated judge decides whether to authorize the sale, and sets forth the timing in its decision;
- the administration of the debtor company and the management of its assets pass from the debtor company to the bankruptcy receiver (*curatore fallimentare*);
- any act of the debtor company done after a declaration of bankruptcy (including payments made) is ineffective against the creditors;
- continuation of business may be authorized by the court if an interruption would cause greater damage to the company, but only if the continuation of the company's business does not cause damage to creditors; and
- the execution of certain contracts and/or transactions pending as of the date of the bankruptcy declaration are suspended until the receiver decides whether to take them over. Although the general rule is that the bankruptcy receiver is allowed to either continue or terminate contracts where some or all of the obligations have not been performed by both parties, certain contracts are subject to specific rules expressly provided for by the Italian Bankruptcy Law.

The bankruptcy proceedings are carried out and supervised by a court-appointed bankruptcy receiver, a deputy judge (*giudice delegato*) and a creditors' committee. The bankruptcy receiver is not a representative of any one of the creditors, but is responsible for the liquidation of the assets of the debtor for the satisfaction of the creditors as a whole. The proceeds from the liquidation are distributed in accordance with statutory priority. The liquidation of a debtor can take a considerable amount of time, particularly in cases where the debtor's assets include real property.

Bankruptcy composition with creditors (concordato fallimentare)

A bankruptcy proceeding can terminate prior to liquidation through a bankruptcy composition proposal with creditors. The proposal can be filed, by one or more creditors or third parties, from the declaration of bankruptcy. By contrast, the debtor or its subsidiaries are only permitted to file such proposal after one year following such declaration, but within two years following the decree giving effectiveness to the liabilities account (*stato passivo*). Secured creditors are not entitled to vote on the proposal of *concordato fallimentare*, unless and to the extent they waive their security or the *concordato fallimentare* provides that they will not receive full satisfaction of the fair market value of their secured assets (such value being assessed by an independent expert), in which case they can vote only in respect of the part of their debt affected by the proposal.

The proposal may provide for the division of creditors into classes (thereby proposing different treatment among the classes), the restructuring of debts and the satisfaction of creditors' claims in any manner. The *concordato fallimentare* proposal must be approved by the creditors' committee and the creditors holding the majority (by value) of claims (and, if classes are formed, also by a majority (by value) of the claims in a majority of the classes). Final court ratification is also required.

Statutory priorities

The statutory priority given to creditors under the Italian Bankruptcy Law may be different from that established in the United States, the United Kingdom and certain other EU jurisdictions. Neither the debtor nor the court can deviate from the rules of statutory priority by proposing their own priorities of claims or by subordinating one claim to another based on equitable subordination principles (as a consequence it must be noted that priority of payments such as those commonly provided in intercreditor contractual arrangements may not be enforceable against an Italian bankruptcy estate to the extent they are inconsistent with the priorities provided by law). The rules of statutory priority apply irrespective of whether the proceeds are derived from the sale of the entire bankrupt's estate or part thereof, or from a single asset.

Article 111 of the Italian Bankruptcy Law establishes that proceeds of liquidation shall be allocated according to the following order: (i) for payments of "pre-deductible" claims (i.e., claims originated in the insolvency proceeding, such as costs related to the procedure); (ii) for payment of claims which are privileged, such as claims of secured creditors; and (iii) for the payment of unsecured creditors' claims. Under Italian law, the highest priority claims (after the costs of the proceedings are paid) are the claims of preferential creditors including, *inter alia*, a claim whose priority is legally acquired (i.e., repayment of rescue or interim financing, mentioned above), the claims of the Italian tax authorities and social security administrators, and claims for employee wages. The remaining priority claims are those of "privileged" creditors (*creditori privilegiati*; a priority in payment in most circumstances, but not exclusively, provided for by law), mortgagees (*creditori ipotecari*), pledgees (*creditori pignoratizi*) and unsecured creditors (*crediti chirografari*).

Avoidance powers in insolvency

Under Italian law, there are "clawback" or avoidance provisions that may lead to, *inter alia*, the revocation of payments made or security interests granted by the debtor prior to the declaration of bankruptcy. The key avoidance provisions include, but are not limited to, transactions made below market value, preferential transactions and transactions made with a view to defraud creditors. Clawback rules under Italian law are normally considered to be particularly favorable to the receiver in bankruptcy, compared to the rules applicable in other jurisdictions.

In bankruptcy proceedings, depending on the circumstances, the Italian Bankruptcy Law provides for a clawback period of up to either one year or six months in certain circumstances (please note that in the context of extraordinary administration procedures—see sections below—in relation to certain transactions the clawback period can be extended to five and three years, respectively) and a two-year ineffectiveness period for certain other transactions.

The Italian Bankruptcy Law distinguishes between acts or transactions which are ineffective by operation of law and acts or transactions which are voidable at the request of the bankruptcy receiver/court commissioner, as detailed below.

(a) Acts ineffective by operation of law

- (i) Under Article 64 of the Italian Bankruptcy Law, all transactions entered into for no consideration are ineffective *vis-à-vis* creditors if entered into by the debtor in the two-year period prior to the insolvency declaration; and
- (ii) under Article 65 of the Italian Bankruptcy Law, payments of debts falling due on the day of the declaration of insolvency or thereafter are deemed ineffective *vis-à-vis* creditors if made by the debtor in the two-year period prior to the insolvency declaration.

(b) *Acts which could be declared ineffective at the request of the bankruptcy receiver/court commissioner*

- (i) The following acts and transactions, if done or made during the period specified below, may be clawed back (*revocati*) vis-à-vis the bankruptcy as provided for by article 67 of the above referenced Royal Decree and be declared ineffective unless the other party proves that it had no actual or constructive knowledge of the debtor's insolvency:
 - (I) the onerous transactions entered into in the year preceding the insolvency declaration, where the value of the debt or of the obligations undertaken by the debtor exceeds by 25% the value of the consideration received by and/or promised to the debtor;
 - (II) payments of debts, due and payable, made by the debtor, which were not paid in cash or by other customary means of payment in the year preceding the insolvency declaration;
 - (III) pledges and mortgages granted by the bankrupt entity in the year preceding the insolvency declaration in order to secure preexisting debts which have not yet fallen due; and
 - (IV) pledges and mortgages, granted by the bankrupt entity in the six months preceding the insolvency declaration, in order to secure debts which had fallen due.
- (ii) The following acts and transactions, if done or made during the period specified below, may be clawed back (*revocati*) and declared ineffective if the bankruptcy receiver proves that the other party knew that the bankrupt entity was insolvent at the time of the act or transaction:
 - (I) the payments of debts that are immediately due and payable and any onerous transactions entered into or made in the six months preceding the insolvency declaration; and
 - (II) the granting of security interests securing debts (even those of third parties) and made in the six months preceding the insolvency declaration.
- (iii) The following transactions are exempt from clawback actions:
 - (I) a payment for goods or services made in the ordinary course of business and in accordance with market practice;
 - (II) a remittance on a bank account, provided that it does not reduce the bankrupt entity's debt towards the bank in a material and lasting manner;
 - (III) a sale, including an agreement for sale registered pursuant to Article 2645-*bis* of the Italian Civil Code, currently in force, made for a fair value and concerning a residential property that is intended as the main residence of the purchaser or the purchaser's family (within three degrees of kinship) or a nonresidential property that is intended as the main seat of the enterprise of the purchaser, on the condition that, as at the date of the insolvency declaration, such activity is actually exercised or the investments for the start of such activity have been carried out;
 - (IV) transactions entered into, payments made and security interests granted with respect to the bankrupt entity's goods, provided that they concern the implementation of a *piano di risanamento attestato* (see Out-of-court

Reorganization Plans (*Piani di risanamento*) Pursuant to Article 67, Paragraph 3(d) of the Italian Bankruptcy Law);

- (V) a transaction entered into, payment made or security interest granted to implement a *concordato preventivo* (see Court-Supervised Pre-bankruptcy Composition with Creditors (*concordato preventivo*)) or an *accordo di ristrutturazione dei debiti* under Article 182-bis of the Italian Bankruptcy Law (see Debt Restructuring Agreements with Creditors (*accordi di ristrutturazione dei debiti*) Pursuant to Article 182-bis of the Italian Bankruptcy Law) and transactions entered into, payments made and security interests granted after the filing of the application for a *concordato preventivo* (see above);
- (VI) remuneration payments to the bankrupt entity's employees and consultants; and
- (VII) a payment of a debt that is immediately due, payable and made on the due date, with respect to services necessary for access to *concordato preventivo* procedures.

In addition, in certain cases, the bankruptcy receiver can request that certain transactions of the bankrupt entity be declared without effect vis-à-vis the acting creditors within the Italian Civil Code ordinary clawback period of five years (*revocatoria ordinaria*). Under Article 2901 of the Italian Civil Code, a creditor may demand that transactions through which the bankrupt entity disposed of its assets to the detriment of such creditor's rights be declared ineffective with respect to such creditor, provided that the bankrupt entity was aware of such detriment (or, if the transaction was entered into prior to the date on which the creditor's claim originated, that such transaction was fraudulently entered into by the debtor in order to cause detriment of such creditor's rights) and that, in the case of a transaction entered into for consideration with a third person, the third person was aware of such detriment (or, if the transaction was entered into prior to the date on which the creditor's claim originated, such third party participated in the fraudulent scheme).

Extraordinary administration for large insolvent companies (amministrazione straordinaria delle grandi imprese in stato di insolvenza)

An extraordinary administration procedure applies under Italian law for large industrial and commercial enterprises (the *Prodi-bis* procedure). The relevant company must be insolvent, but demonstrating serious recovery prospects. To qualify for this procedure, the company must have employed at least 200 employees in the previous year. In addition, it must have debts equal to at least two-thirds of its assets as shown in its financial statements and two-thirds of its income from sales and services during its last financial year. Either of the creditors, the debtor, a court or the public prosecutor may make a petition to commence an extraordinary administration procedure. The same rules set forth for bankruptcy proceedings with respect to existing contracts and creditors' claims largely apply to extraordinary administration proceedings.

There are two main phases—a judicial phase and an administrative phase.

A) Judicial phase

In the judicial phase, the court determines whether the company meets the admission criteria and whether it is insolvent. It then issues a decision to that effect and appoints up to three judicial receivers (*commissario giudiziale*) to investigate whether the company has serious prospects for recovery via a business sale or reorganization. The judicial receiver files a report with the court within 30 days, and within ten days from such filing, the Italian Productive Activities Minister (the "Ministry") may make an opinion on the admission of the company to the extraordinary administration procedure. The court then decides (within 30 days from the filing of the report) whether to admit the company to the procedure or to place it into bankruptcy.

B) Administrative phase

Assuming that the company is admitted to the extraordinary administration procedure, the administrative phase begins and an extraordinary commissioner (or commissioners) is appointed by the Ministry. The extraordinary commissioner(s), prepares a plan which can provide for either the sale of the business as a going concern within one year (unless extended by the Ministry) (the "Disposal Plan") or a reorganization leading to the company's economic and financial recovery within two years (unless extended by the Ministry) (the "Recovery Plan"). The plan may also include an arrangement with creditors (e.g., a debt for equity swap, an issue of shares in a new company to whom the assets of the company have been transferred, etc.) (*concordato*). The plan must be approved by the Ministry.

The procedure ends upon successful completion of either a Disposal Plan or a Recovery Plan, failing which the company is declared bankrupt.

Industrial restructuring of large insolvent companies (ristrutturazione industriale di grandi imprese in stato di insolvenza)

Introduced in 2003, the industrial restructuring of large insolvent companies is also known as the "Marzano" procedure. It is complementary to the *Prodi-bis* procedure and, except as otherwise provided, the same provisions apply. The Marzano procedure is intended to be faster than the *Prodi-bis* procedure. For example, although a company must be insolvent, the application to the Ministry is made together with the filing to the court for the declaration of the insolvency of the debtor.

The Marzano procedure only applies to large insolvent companies which, on a consolidated basis, have at least 500 employees in the year before the procedure is commenced and at least €300 million of debt. The decision whether to open a Marzano procedure is taken by the Ministry following the debtor's request (who must also file an application for the declaration of insolvency). The Ministry assesses whether the relevant requirements are met and then appoints the extraordinary commissioner(s) who will manage the company. The court also decides on the company's insolvency.

The extraordinary commissioner(s) has/have 180 days (or 270 days if the Ministry so agrees) to submit a Disposal Plan or Recovery Plan. The restructuring through the Disposal Plan or the Recovery Plan must be completed within, respectively, one year (extendable to two years) and two years. If no Disposal or Recovery Plan is approved by the Ministry, the court will declare the company bankrupt and open bankruptcy proceedings.

Compulsory administrative winding-up (liquidazione coatta amministrativa)

A compulsory administrative winding-up (*liquidazione coatta amministrativa*) is only available for certain companies, including, *inter alia*, public interest entities such as state-controlled companies, insurance companies, credit institutions and other financial institutions, none of which can be made subject to bankruptcy proceedings. It is irrelevant whether these companies belong to the public or the private sector. A compulsory administrative winding-up is a special sort of insolvency proceeding in which the entity is liquidated not by the bankruptcy court, but by the relevant administrative authority that oversees the industry in which the entity is active. The procedure may be triggered not only by the insolvency of the relevant entity, but also on other grounds expressly provided for by the relevant legal provisions (e.g., in respect of Italian banks, serious irregularities concerning the management of the bank or serious violations of the applicable legal, administrative or statutory provisions). The effect of this procedure is that the entity loses control over its assets and a liquidator (*commissario liquidatore*) is appointed to wind up the company. The liquidator's actions are monitored by a steering committee (*comitato di sorveglianza*). The powers assigned to the designated judge and the bankruptcy court under the other insolvency proceedings are assumed by the relevant administrative authority under this procedure. The effect on creditors of the forced administrative winding-up is largely the same as under bankruptcy proceedings and includes, for example, a ban on

enforcement measures. The same rules set forth for bankruptcy proceedings with respect to existing contracts and creditors' claims largely apply to extraordinary administration proceedings.

Certain Italian law considerations in relation to guarantees and security interests and certain other additional Italian legal considerations

Corporate benefit and financial assistance issues under Italian law

Under Italian law, the entry into of a transaction (including the creation of a security interest or the granting of a guarantee) by a company must be permitted by the applicable laws and by its by-laws (*statuto sociale*) and is subject to compliance with the rules on corporate benefit and corporate authorization. If a security interest or a guarantee is being provided in the context of an acquisition, group reorganization, refinancing or restructuring, financial assistance issues may also be triggered.

Corporate benefit

An Italian company entering into a transaction (including granting a security interest or a guarantee) must receive a real and adequate benefit in exchange for it. The concept of a real and adequate benefit is not specifically defined in the applicable legislation and is determined by a factual analysis on a case-by-case basis. As a general rule, corporate benefit is to be assessed at the level of the relevant company on a stand-alone basis, although upon certain circumstances and subject to specific rules the interest of the group to which such company belongs may also be taken into consideration.

As a general rule, absence of a real and adequate corporate benefit could render the transaction (including granting a security interest or a guarantee) *ultra vires* and potentially affected by conflict of interest and the related corporate resolutions adopted by the shareholders and directors may be the subject matter of challenges and annulment. Civil liabilities also may be imposed on the directors of the company if it is assessed that they did not act in the interest of it and that the acts they carried out do not fall within the corporate purpose of the company or were against mandatory provisions of Italian law. The lack of corporate benefit could also lead to civil liabilities on those companies or persons ultimately exercising control over the Italian grantor or having knowingly received an advantage or profit from such improper control. Moreover, the transaction (including the security interest or guarantee granted by an Italian company) could be declared null and void if the lack of corporate benefit was known or presumed to be known by the third party and such third party acted intentionally against the interest of the company.

The above principles on corporate benefit apply equally to upstream/downstream security interest or guarantees granted by Italian companies.

In relation to security interests or guarantees, while corporate benefit for a downstream security or guarantee (i.e., a security or a guarantee granted to secure financial obligations of direct or indirect subsidiaries of the relevant grantor) can usually be easily proved, the validity and effectiveness of an upstream or cross-stream security or guarantee (i.e., a security or a guarantee granted to secure financial obligations of the direct or indirect parent or sister companies of the relevant grantor) granted by an entity organized under the laws of Italy depend on the existence of a real and adequate benefit in exchange for the granted security interest or guarantee. The general rule is that the risk assumed by an Italian grantor of security or guarantee must not be disproportionate to the direct or indirect economic benefit to it.

Financial assistance

Save for specific exceptions, it is unlawful under Italian laws for a company to give financial assistance (whether by means of loans, security, guarantees or otherwise) to support the acquisition or subscription by a third party of its own shares or quotas or those of any entity that (directly or indirectly) controls the Italian company, and any loan, guarantee or security

given or granted in breach of these provisions is null and void. Financial assistance to refinance indebtedness incurred by a company to purchase or subscribe for its own shares or quotes or those of its direct or indirect parent company might also be considered as falling within the scope of Italian financial assistance provisions.

Certain limitations on enforcement

Under Italian law, in the event that an entity becomes subject to insolvency proceedings, guarantees and security interests given by it could be subject to potential challenges by the appointed bankruptcy receiver or by other creditors under the rules of ineffectiveness or avoidance or clawback of Italian Bankruptcy Law and the relevant law on the non-insolvency avoidance or clawback of transactions made by the debtor during a certain legally specified period (the “suspect period”). For a more detailed explanation of the terms, conditions and consequences of clawback actions in an insolvency scenario, see “—Insolvency Laws”.

If challenged successfully, the guarantee or the security interest may become unenforceable and any amounts received must be refunded to the insolvent estate. To the extent that the grant of any security interest or guarantee is voided, holders of the Notes could lose the benefit of the security interest or guarantee and may not be able to recover any amounts under the related security documents.

In addition under Italian law, in certain circumstances also in the ordinary course of business, an action can be brought by any creditor of a given debtor within five years from the date in which the latter enters into a guarantee, security, agreement and any other act by which it disposes of any of its assets, in order to seek a clawback action (*azione revocatoria ordinaria*) pursuant to Article 2901 of the Italian Civil Code (which results in a declaration of ineffectiveness as to the acting creditor) of the said guarantee, security, agreement and other act that is purported to be prejudicial to the acting creditor’s right of credit. An Italian court could revoke the said guarantee, security, agreement and other act only if it, in addition to the ascertainment of the prejudice, was to make the two following findings:

- that the debtor was aware of the prejudice which the act would cause to the rights of the acting creditor, or, if such act was done prior to the existence of the claim or credit, that the act was fraudulently designed for the purpose of prejudicing the satisfaction of the claim or credit;
- that, in the case of non-gratuitous act, the third party involved was aware of said prejudice and, if the act was done prior to the existence of the claim or credit, that the said third party participated in the fraudulent design.

Furthermore, under fraudulent conveyance and other provisions of Italian law, a court could void or invalidate all or a portion of the obligations of a guarantor under the relevant guarantee and, if payment had already been made under that guarantee, require the recipients of that payment to return the payment to the relevant guarantor, if the court found that, *inter alia*:

- (i) the relevant guarantor gave such guarantee with actual intent to hinder, delay or defraud its current or future creditors or with a desire to prefer some creditors over others, or when the beneficiary of the guarantee was aware that the relevant guarantor was insolvent when it gave the relevant guarantee;
- (ii) the relevant guarantor did not receive fair consideration or reasonably equivalent value for its guarantee or the relevant guarantor was insolvent at the time the guarantee was given;
- (iii) the relevant guarantee was held to exceed the corporate objects of the relevant guarantor or not to be in the best interest or for the corporate benefit of the relevant guarantor; or
- (iv) the guarantor giving such guarantee was aware, or should have been aware, that the transaction was to the detriment of the creditors.

If a court decided either that a guarantee was a fraudulent conveyance and voided such guarantee, or held it unenforceable for any other reason, the beneficiary of the guarantee may cease to have any claim with respect to the relevant guarantor. The same would also apply to any security interest.

Certain considerations in relation to security interests

It is uncertain and untested in the Italian courts whether, under Italian law, a security can be created and perfected: (i) in favor of creditors which are neither directly parties to the relevant security documents or are not specifically identified therein or in the relevant share certificates and corporate documents or public registries; and (ii) in favor of a “trustee”, since there is no established concept of “trust” or “trustee” under Italian law and the precise nature, effect and enforceability of the duties, rights and powers of a “trustee” as agent or trustee under security interests granted over Italian assets is uncertain under Italian law.

The enforceability of Italian law security granted in favor of a trustee acting as trustee and common representative (*rappresentante comune*) of the relevant creditors pursuant to Articles 2417 and 2418 of the Italian Civil Code has not been tested before the Italian courts and, therefore, the risk of the relevant creditors being unable to enforce Italian law security cannot be eliminated or mitigated. Furthermore, to date, the Italian courts have not considered whether a common representative (*rappresentante comune*) of creditors may be validly appointed by means of a contractual arrangement, including in the form of an indenture (establishing the terms of an issuance of notes or bonds) or other similar contractual arrangements.

The validity of “parallel debt” structures under Italian law has, to date, not been considered before the Italian courts and the security interests comprising the parallel debt claim could be held to be in conflict with mandatory provisions of Italian law. Accordingly, no assurance can be given that the enforceability of a security interest governed by Italian law securing a “parallel debt” obligation will be upheld by an Italian court and further, no assurance can be provided on how an Italian court would interpret an Italian law security instrument purporting to secure, inter alia, a “parallel debt” obligation.

The procedures for the enforcement of Italian law security and the timing for obtaining judicial decisions (including in relation to security enforcement) in the Republic of Italy are materially complex and time-consuming, especially given that the Italian courts maintain a significant role in the enforcement process, in comparison to other jurisdictions with which investors may be familiar.

Equitable subordination

Italian corporate law (Articles 2497-*quinquies* and 2467 of the Italian Civil Code) provides for rules to protect creditors against “undercapitalized companies” and provide for remedies in respect thereof. In this respect in case of a loan to a company by, respectively, (i) a person that, directly or indirectly, direct the company or exercises management and coordination powers over that borrowing company or (ii) a quotaholder in the case of a company incorporated in Italy as a *società a responsabilità limitata*, will be subordinated to all other creditors of that borrower and senior only to the equity in that borrower, if the loan is made when, also taking into account the kind of business of the borrower, there was an excessive imbalance of the borrower’s indebtedness compared to its net assets or the borrower was already in a financial situation requiring an injection of equity and not a loan (“undercapitalization”). Any payment made by the borrower with respect to any such loan within one year prior to a bankruptcy declaration would be required to be returned to the borrower.

As of the date hereof, there are few court precedents on the applicability of the foregoing provisions and limited guidance has been provided to date by the Italian courts on the features and extent of the undercapitalization requirement. Such precedents tend however to provide a broad interpretation of such provisions, affirming, *inter alia*, that Article 2467 does indeed

apply, based on an interpretation by analogy, to companies incorporated as a *società per azioni*, and to indirect form of financings, such as guarantees or finance granted by parties related to the quotaholders of the company.

The Grand Duchy of Luxembourg

One of the Guarantors of the Notes, Titan 3, is organized under the laws of The Grand Duchy of Luxembourg.

Insolvency laws

Titan 3 has its “centre of main interests” (within the meaning of E.U. Council Regulation No. 1346/2000 of 29 May 2000 on insolvency proceedings) and its “central administration” (within the meaning of the Luxembourg law of 10 August 1915, on commercial companies, as amended) in the Grand Duchy of Luxembourg. Accordingly, insolvency proceedings with respect to Titan 3 may proceed under, and be governed by, the Luxembourg insolvency laws. The insolvency laws of the Grand Duchy of Luxembourg may not be as favorable to investors’ interests as those of other jurisdictions with which investors may be familiar and may limit the ability of holders of the Notes to enforce the Guarantee provided by Titan 3 (and any future Guarantor incorporated under the laws of The Grand Duchy of Luxembourg) of the Issuer’s obligations under the Notes. Insolvency proceedings may have a material adverse effect on the Titan 3’s business, assets and obligations as Guarantor. The following is a brief description of certain aspects of insolvency laws in The Grand Duchy of Luxembourg.

Pursuant to Luxembourg insolvency laws, your ability to receive payment under the Notes may be more limited than would be the case under U.S. bankruptcy laws. Under Luxembourg law, the following types of proceedings (altogether referred to as “insolvency proceedings”) may be opened against an entity having its registered office or principal establishment or “centre of main interests” in The Grand Duchy of Luxembourg or an establishment within the meaning of E.U. Council Regulation No. 1346/2000 of 29 May 2000 on insolvency proceedings (in relation to secondary proceedings):

- bankruptcy proceedings (*faillite*), the opening of which may be requested by the relevant Luxembourg company or by any of its creditors or the public prosecutor. Following such a request, the courts having jurisdiction may open bankruptcy proceedings, if that Luxembourg company (a) is in default of payment (*cessation des paiements*) and (b) has lost its commercial creditworthiness (*ébranlement de crédit*). If a court finds that these conditions are satisfied, it may also open bankruptcy proceedings, absent a request made by such Luxembourg company or a creditor. The main effect of such proceedings is the suspension of all measures of enforcement against the Luxembourg company, except, subject to certain limited exceptions, for secured creditors and the payment of creditors in accordance with their rank upon the realization of assets;
- controlled management proceedings (*gestion contrôlée*), the opening of which may only be requested by the relevant Luxembourg company and not by its creditors; and
- composition proceedings (*concordat préventif de faillite*), which may be requested only by the relevant Luxembourg company (having received prior consent of a majority of its creditors) and not by its creditors. The court’s decision to admit a company to the composition proceedings triggers a provisional stay on enforcement of claims by creditors.

In addition to these proceedings, the ability of the holders of Notes to receive payment under the Notes may be affected by a decision of a court to grant a reprieve from payments (*sursis de paiements*) or to put the relevant Luxembourg company into judicial liquidation (*liquidation judiciaire*). Judicial liquidation proceedings may be opened at the request of the public prosecutor against companies pursuing an activity in violation of criminal laws or in serious

violation of the Code Commerce or of the Companies Act 1915. The conduct of such liquidation proceedings will generally follow the same rules as those applicable to bankruptcy proceedings.

The liability of Titan 3 as a Guarantor of the Notes will, in the event of a liquidation of the entity following bankruptcy or judicial liquidation proceedings, rank after the cost of liquidation (including any debt incurred for the purpose of such liquidation) and those debts of Titan 3 that are entitled to priority under Luxembourg law. Preferential debts under Luxembourg law for instance include, among others:

- certain amounts owed to the Luxembourg Revenue;
- value-added tax and other taxes and duties owed to the Luxembourg Customs and Excise;
- social security contributions; and
- remuneration owed to employees.

Pursuant to Article 20 of the Luxembourg Act dated 5 August 2005 concerning financial collateral arrangements, all collateral arrangements in respect of assets over which Luxembourg security interests have been granted, as well as all enforcement events and valuation and enforcement measures agreed upon by the parties in accordance with this law, are valid and binding upon third parties, commissioners, receivers, liquidators and other similar persons notwithstanding any insolvency proceedings.

During insolvency proceedings, all enforcement measures by unsecured creditors are suspended. Other than as described above, the ability of secured creditors to enforce their security interests may also be limited, particularly in the event of controlled management proceedings automatically causing the rights of secured creditors to be frozen until a final decision has been taken by a Luxembourg court as to the petition for controlled management, and may be affected thereafter by a reorganization order given by the court. A reorganization order requires the prior approval by more than 50% of the creditors representing more than 50% of the relevant Luxembourg company's liabilities in order to take effect.

Furthermore, investors' should note that declarations of default and subsequent acceleration (such as acceleration upon the occurrence of an event of default) may not be enforceable during controlled management proceedings.

Transactions that may be challenged or set aside

Luxembourg insolvency laws may also affect transactions entered into or payments made by a Luxembourg company during the period before bankruptcy, the so-called "suspect period" (*période suspecte*), which is a maximum of six months (and 10 days, depending on the transaction in question) preceding the judgment declaring bankruptcy, except that in certain specific situations the Luxembourg court may set the start of the suspect period at an earlier date (if the bankruptcy judgment was preceded by another insolvency bankruptcy judgment under Luxembourg law, in which case the court may set the maximum of up to six months prior to the filing for such controlled management). In particular:

- pursuant to Article 445 of the Luxembourg Code of Commerce (*Code de commerce*), specified transactions (such as, in particular, the payment of debts which have not fallen due, whether payment is made in cash or by way of assignment, sale, set-off or by any other means; the payment of debts which have fallen due by any means other than in cash or by bill of exchange; the sale of assets without consideration or with substantially inadequate consideration) entered into during the suspect period (or the 10 days preceding it) must be set aside or declared null and void, if so requested by the insolvency receiver;
- pursuant to Article 446 of the Luxembourg Code of Commerce, payments made for matured debts as well as other transactions concluded for consideration during the suspect period are

subject to cancellation by the court upon proceedings instituted by the insolvency receiver if they were concluded with the knowledge of the bankrupt party's cessation of payments; and

- in the case of bankruptcy, Article 448 of the Luxembourg Code of Commerce and article 1167 of the Luxembourg Civil Code (*action paulienne* or *actio pauliana*) gives the insolvency receiver (acting on behalf of the creditors) the right to challenge any fraudulent payments and transactions, including the granting of security with an intent to defraud, made prior to the bankruptcy, without any time limit. The conditions governing the *actio pauliana* are the following: (i) the creditor must prove that the act he challenges actually caused him some harm; (ii) the creditor must prove the fraudulent intent of his debtor, which may be inferred; and (iii) the creditor's claim must precede the transaction challenged for fraud.

The transactions potentially subject to avoidance also include those contemplated by the Guarantee issued by Titan 3 or the granting of security interests under the Security Documents by a Luxembourg entity. If they are challenged successfully, the Guarantee issued by the Titan 3 may become unenforceable and any amounts received must be refunded to the insolvent estate.

In principle, a bankruptcy order rendered by a Luxembourg court does not result in automatic termination of contracts except for *intuitu personae* contracts, that is, contracts for which the identity of the company or its solvency were crucial. The contracts, therefore, subsist after the bankruptcy order. However, the insolvency receiver may choose to terminate certain contracts. As of the date of adjudication of bankruptcy, no interest on any unsecured claim will accrue vis-à-vis the bankruptcy estate.

Insolvency proceedings may therefore have a material adverse effect on the relevant Luxembourg company's business and assets and the Luxembourg company's respective obligations under the Notes.

Finally, international aspects of Luxembourg bankruptcy, controlled management or composition proceedings may be subject to the E.U. Insolvency Regulation.

Financial Assistance and Limitation on Guarantee and Security Interest

Any security interests/guarantees granted by entities organized in The Grand Duchy of Luxembourg, which constitute a breach of the provisions on financial assistance as defined by Article 49-6 of the Luxembourg law dated 10 August 1915 on commercial companies, as amended, or any other similar provisions (to the extent applicable, as at the date of this offering memorandum, to an entity organized under the laws of The Grand Duchy of Luxembourg and having the form of a private limited liability company), might not be enforceable.

The granting of guarantees/security interests by a Luxembourg company is subject to specific limitations and requirements relating to corporate object and corporate benefit.

The granting of guarantees/security interests by a company incorporated and existing in The Grand Duchy of Luxembourg must not be prohibited by the corporate object (*objet social*) and/or legal form of that company. In addition, there is also a requirement according to which the granting of security by a company has to be for its "corporate benefit".

Although no statutory definition of corporate benefit (*intérêt social*) exists under Luxembourg law, corporate benefit is widely interpreted and includes any transactions from which the company derives a direct or indirect economic or commercial benefit. The provision of a guarantee/security interest for the obligations of direct or indirect subsidiaries is likely to raise no particular concerns, whereas the provision of cross-stream and upstream guarantees/security interests may be more problematic.

Failure to comply with the above mentioned corporate benefit requirement will typically result in liability for the managers of the Luxembourg company concerned. The question whether a

guarantee granted in the absence of corporate interest could be held null and void is discussed among legal doctrine. While some authors express the view that an absence of corporate interest could give rise to liability of the directors of the relevant company only, others consider that the consequences could be that the relevant obligations be null and void.

There is a risk that the managers of a Luxembourg company will be held liable if, among other things:

- the guarantee/security interest so provided would materially exceed the (direct or indirect) benefit deriving from the secured obligations for the Luxembourg company, or
- the Luxembourg company derives no personal benefit or obtains no direct or indirect consideration for the guarantee/security interest granted, or
- the commitment of the Luxembourg company exceeds its financial means.

In addition to any criminal and civil liability incurred by the managers of the Luxembourg company, a guarantee provided by a Luxembourg company could itself be held unenforceable, if it is held that it is contrary to public policy (*ordre public*) (in case of facts consisting a misuse of corporate assets).

The above analysis is slightly different within a group of companies where a group interest (*intérêt de groupe*) exists. The existence of a group interest could prevent a guarantee provided by a Luxembourg company from falling foul of the above constraints. In order for a group interest to be recognized, the following cumulative criteria must be met and proven:

- the “assisting” company must receive some benefit, or there must be a balance between the respective commitments of all the affiliates;
- the financial assistance must not exceed the assisting company’s financial means, in which case it is typical for the guarantee to be limited to an aggregate amount not exceeding the assisting company’s own funds *capitaux propres*; and
- the companies involved must form part of a genuine group operating under a common strategy aimed at a common objective.

As a result, the guarantees/security interests granted by a Luxembourg company may be subject to certain limitations, which usually take the form of a general limitation language, which is inserted in the relevant finance document(s) and which covers the aggregate obligations and exposure of the relevant Luxembourg assisting company under all finance documents.

Plan of distribution

Subject to the terms and conditions set forth in the purchase agreement (the "Purchase Agreement") to be dated as of , the Issuer has agreed to sell to the Initial Purchasers, and the Initial Purchasers have agreed to purchase from the Issuer, the entire principal amount of the Notes. The Initial Purchasers are J.P. Morgan Securities plc, Société Générale Corporate & Investment Banking, UniCredit Bank AG, HSBC, Natixis, IKB Deutsche Industriebank AG and Banca IMI.

The obligations of the Initial Purchasers under the Purchase Agreement, including their agreement to purchase Notes from the Issuer, are several and not joint. The Purchase Agreement provides that the Initial Purchasers will purchase all the Notes if they purchase any of them.

The Initial Purchasers initially propose to offer the Notes for resale at the issue price that appears on the cover of this offering memorandum. The Initial Purchasers may change the price at which the Notes are offered and any other selling terms at any time without notice. The Initial Purchasers may offer and sell Notes through certain of their affiliates, including in respect of sales into the United States. Société Générale is not a U.S. registered broker dealer. To the extent that Société Générale intends to affect any sales of the Notes in the United States, it will do so through SG Americas Securities, LLC or one or more other U.S. registered broker dealers as permitted by the rules and regulations of the Financial Industry Regulatory Authority.

The Purchase Agreement provides that the obligations of the Initial Purchasers to pay for and accept delivery of the Notes are subject to, among other conditions, the delivery of certain legal opinions by their counsel and our counsel. The Purchase Agreement also provides that, if an Initial Purchaser defaults, the purchase commitments of the non-defaulting Initial Purchaser may be increased or, in some cases, the Offering may be terminated.

The Purchase Agreement provides that we will indemnify and hold harmless the Initial Purchasers against certain liabilities, including liabilities under the U.S. Securities Act, and will contribute to payments that the Initial Purchasers may be required to make in respect thereof. We have agreed, subject to certain limited exceptions, that during the period from the date the Purchase Agreement is executed through and including the date that is 90 days after the date the Purchase Agreement is executed, to not, and to cause our subsidiaries to not, without having received the prior written consent provided for in the Purchase Agreement, offer, sell, contract to sell, issue or otherwise dispose of any debt securities issued or guaranteed by us or any of our subsidiaries.

Persons who purchase Notes from the Initial Purchasers may be required to pay stamp duty, taxes and other charges in accordance with the laws and practice of the country of purchase in addition to the issuer price of the Notes set forth on the cover page of this offering memorandum.

The Issuer has agreed to pay the Initial Purchasers certain customary fees for their services in connection with the Offering and to reimburse them for certain out-of-pocket expenses.

The Notes and the Guarantees have not been, and will not be, registered under the U.S. Securities Act and may not be offered or sold within the United States except to "qualified institutional buyers" in reliance on Rule 144A under the U.S. Securities Act and outside the United States in reliance on Regulation S under the U.S. Securities Act. Resales of the Notes are restricted as described under "*Transfer restrictions*". Each purchaser of the Notes will be deemed to have made acknowledgments, representations and agreements as described under "*Transfer restrictions*".

In the Purchase Agreement, each Initial Purchaser, severally and not jointly, has also represented and agreed to the Issuer that:

- it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the “FSMA”)) received by it in connection with the issue or sale of any of the Notes in circumstances in which section 21(1) of the FSMA does not apply to the Issuer or the Guarantors; and
- it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes, in from or otherwise involving the United Kingdom.

No action has been taken in any jurisdiction, including the United States and Italy, by any of the Issuer, the Guarantors or the Initial Purchasers that would permit a public offering of the Notes or the possession, circulation or distribution of this offering memorandum or any other material relating to the Issuer, the Guarantors or the Notes in any jurisdiction where action for this purpose is required. This offering memorandum does not constitute an offer to sell or a solicitation of an offer to purchase in any jurisdiction where such offer or solicitation would be unlawful. Persons into whose possession this offering memorandum comes are advised to inform themselves about and to observe any restrictions relating to the Offering, the distribution of this offering memorandum and resale of Notes. See “*Transfer restrictions*”.

The Issuer and the Guarantors have each also agreed that they will not at any time offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any securities under circumstances in which such offer, sale, contract, pledge or disposition would cause the exemption afforded by Section 4(2) of the U.S. Securities Act or the safe harbors of Rule 144A and Regulation S to cease to be applicable to the offer and sale of the Notes.

The Notes are a new issue of securities for which there currently is no market. The Issuer will make an application to list the Notes on the Official List of the Luxembourg Stock Exchange and to admit the Notes for trading on the Luxembourg Stock Exchange’s Euro MTF market. However, we cannot assure you that the Notes will be approved for listing or that such listing will be maintained.

The Initial Purchasers have advised us that they intend to make a market in the Notes as permitted by applicable law. The Initial Purchasers are not obliged, however, to make a market in the Notes, and any market-making activity may be discontinued at any time at their sole discretion without notice. In addition, any such market-making activity will be subject to the limits imposed by the U.S. Securities Act and the U.S. Securities Exchange Act of 1934, as amended (the “U.S. Exchange Act”). Accordingly, we cannot assure you that any market for the Notes will develop, that it will be liquid if it does develop or that you will be able to sell any Notes at a particular time or at a price which will be favorable to you.

The Issuer expects that delivery of the Notes will be made against payment therefor on or about the date specified on the cover page of this offering memorandum, which will be the business day following the date of pricing of the Notes (such settlement cycle being referred to herein as “T+”). Under Rule 15c6-1 of the U.S. Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade Notes on the date of pricing or the next successive business days will be required, by virtue of the fact that the Notes initially will settle in T+, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to make such trades should consult their own advisors.

The Initial Purchasers or persons acting on their behalf may engage in over-allotment, stabilizing transactions, covering transactions and penalty bids in accordance with applicable

laws and regulations. Over-allotment involves sales in excess of the Offering size, which creates a short position for the Initial Purchasers. Stabilizing transactions permit bidders to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Covering transactions involve purchase of the Notes in the open market after the distribution has been completed in order to cover short positions. Penalty bids permit the Initial Purchasers to reclaim a selling concession from a broker or dealer when the Notes originally sold by that broker or dealer are purchased in a stabilizing or covering transaction to cover short positions. These stabilizing transactions, covering transactions and penalty bids, may cause the price of the Notes to be higher than it would otherwise be in the absence of these transactions. These transactions, if commenced, may be discontinued at any time.

From time to time, the Initial Purchasers and their affiliates have provided in the past, and may in the future provide, investment banking, commercial banking, financial advisory and other services to us and our affiliates for which they have received or may receive customary fees and commissions. J.P. Morgan Securities plc will be the mandated lead arranger, a bookrunner and a lender under the Revolving Credit Facility Agreement, and will receive customary fees for their services in such capacities. UniCredit Bank AG, Milan branch, Société Générale, HSBC, Natixis, IKB and/or their respective affiliates will each be a bookrunner and lender under the Revolving Credit Facility Agreement. UniCredit Bank AG, Milan branch, an affiliate of UniCredit Bank AG, an Initial Purchaser of the Notes, will also be the Security Agent for the Notes under the Intercreditor Agreement. In addition, Société Générale, UniCredit Bank AG, Natixis, IKB, Banca IMI and/or their respective affiliates are lenders under our Senior Credit Facilities, which we intend to repay by using a portion of the net proceeds from the Offering.

Transfer restrictions

General

The Notes and the Guarantees have not been and will not be registered under the U.S. Securities Act or any state securities laws and, therefore, the Notes may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws.

Accordingly, the Notes and the Guarantees offered hereby are being offered and sold to the Initial Purchasers for re-offer and resale only:

- in the United States, to qualified institutional buyers as defined in Rule 144A under the U.S. Securities Act ("QIBs") in reliance on Rule 144A under the U.S. Securities Act ("Rule 144A"); and
- outside the United States, to non-U.S. persons in an offshore transaction in accordance with Regulation S under the U.S. Securities Act ("Regulation S").

We use the terms "offshore transaction", "U.S. persons" and "United States" with the meanings given to them in Regulation S.

Important information about the Offering

If you purchase Notes, you will be deemed to have represented and agreed as follows:

- (1) You understand and acknowledge that the Notes and the Guarantees have not been and will not be registered under the U.S. Securities Act or any other applicable securities laws and that the Notes are being offered for resale in transactions not requiring registration under the U.S. Securities Act or any other securities laws, including sales pursuant to Rule 144A under the U.S. Securities Act, and, unless so registered, may not be offered, sold or otherwise transferred except in compliance with the registration requirements of the U.S. Securities Act or any other applicable securities laws, pursuant to an exemption therefrom, or in a transaction not subject thereto, and in each case in compliance with the conditions for transfer set forth in paragraph (4) below.
- (2) You are not an "affiliate" (as defined in Rule 144 under the U.S. Securities Act) of the Issuer, you are not acting on the Issuer's behalf and you are either:
 - (a) a QIB and are aware that any sale of the Notes to you will be made in reliance on Rule 144A, and such acquisition will be for your own account or for the account of another QIB; or
 - (b) not a "U.S. person" or purchasing the Notes for the account or benefit of a U.S. person (other than a distributor), and you are purchasing notes outside the United States in an offshore transaction in accordance with Regulation S under the U.S. Securities Act.
- (3) You acknowledge that neither the Issuer, the Guarantors nor the Initial Purchasers nor any other person has made any representation to you with respect to us or the offer or sale of any of the Notes, other than the information contained in this offering memorandum, which offering memorandum has been delivered to you and upon which you are relying in making your investment decision with respect to the Notes. You acknowledge that no person other than the Issuer makes any representation or warranty as to the accuracy or completeness of this offering memorandum. You have had access to such financial and other information concerning us and the Notes (and the Guarantees), including an opportunity to ask questions of, and request information from, us and any of the Initial Purchasers.

- (4) You are purchasing Notes for your own account, or for one or more investor accounts for which you are acting as a fiduciary or agent, in each case for investment, and not with a view to, or for offer or sale in connection with, any distribution thereof in violation of the U.S. Securities Act or any other applicable securities laws, subject to any requirement of law that the disposition of your property or the property of such investor account or accounts be at all times within your or their control and subject to your or their ability to resell such Notes pursuant to Rule 144A, Regulation S or any other available exemption from registration available under the U.S. Securities Act. You agree on your own behalf and on behalf of any investor account for which you are purchasing the Notes, and each subsequent holder of the Notes by its acceptance thereof will be deemed to agree, to offer, sell or otherwise transfer such Notes prior to the date (the "Resale Restriction Termination Date") that is one year (in the case of Notes issued in reliance on Rule 144A ("Rule 144A Notes")) or 40 days (in the case of Notes issued in reliance on Regulation S ("Regulation S Notes")) after the later of the Issue Date and the last date on which the Issuer or any affiliate of the Issuer was the owner of such Notes (or any predecessor thereto) only:
- (a) to the Issuer, the Guarantors or any subsidiary thereof;
 - (b) pursuant to a registration statement which has been declared effective under the U.S. Securities Act;
 - (c) for so long as the Notes are eligible for resale pursuant to Rule 144A, to a person you reasonably believe is a QIB that purchases for its own account or for the account of another QIB to whom you give notice that the transfer is being made in reliance on Rule 144A;
 - (d) pursuant to offers and sales that occur outside the United States in compliance with Regulation S; or
 - (e) pursuant to any other available exemption from the registration requirements of the U.S. Securities Act;

subject, in each of the foregoing cases, to any requirement of law that the disposition of the seller's property or the property of an investor account or accounts be at all times within its or their control, and in compliance with any applicable foreign or state securities laws and any applicable local laws and regulations.

You acknowledge that each of the Issuer and the Trustee reserve the right prior to any offer, sale or other transfer of the Notes (i) pursuant to clause (d) or clause (e) above prior to the Resale Restriction Termination Date of the Notes to require the delivery of an opinion of counsel, certifications and/or other information satisfactory to each of them, and (ii) in each of the foregoing cases, to require that a certificate of transfer in the form appearing on the reverse of the security is completed and delivered by the transferor to the Trustee. The foregoing restrictions on resale will not apply subsequent to the Resale Restriction Termination Date.

You acknowledge that each Global Note will contain a legend substantially in the following form:

"THIS SECURITY HAS NOT BEEN AND WILL NOT BE REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS SECURITY NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE OFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF IN THE ABSENCE OF SUCH REGISTRATION UNLESS SUCH TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT.

THE HOLDER OF THIS SECURITY BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT (A) IT IS A "QUALIFIED INSTITUTIONAL BUYER" (AS DEFINED IN RULE 144A UNDER THE U.S. SECURITIES ACT ("RULE 144A")) OR (B) IT IS A NON-U.S. PERSON ACQUIRING THIS SECURITY IN AN "OFFSHORE TRANSACTION" PURSUANT TO RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, (2) AGREES THAT IT WILL NOT, ON ITS OWN BEHALF AND ON BEHALF OF ANY INVESTOR FOR WHICH IT HAS PURCHASED SECURITIES TO, PRIOR TO THE DATE (THE "RESALE RESTRICTION TERMINATION DATE") WHICH IS [IN THE CASE OF THE RULE 144A NOTES: ONE YEAR] [IN THE CASE OF REGULATION S NOTES: 40 DAYS] (OR SUCH SHORTER PERIOD OF TIME AS PERMITTED BY [RULE 144] [REGULATION S] UNDER THE U.S. SECURITIES ACT OR ANY SUCCESSOR PROVISION THEREUNDER) AFTER THE LATER OF THE ORIGINAL ISSUE DATE HEREOF AND THE LAST DATE ON WHICH THE ISSUER OR ANY AFFILIATE OF THE ISSUER WAS THE OWNER OF THIS SECURITY (OR ANY PREDECESSOR OF THIS SECURITY) OFFER, SELL OR OTHERWISE TRANSFER THIS SECURITY EXCEPT (A) TO THE ISSUER, THE GUARANTORS OR ANY SUBSIDIARY THEREOF, (B) PURSUANT TO A REGISTRATION STATEMENT WHICH HAS BEEN DECLARED EFFECTIVE UNDER THE U.S. SECURITIES ACT, (C) FOR SO LONG AS THE NOTES ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A, TO A PERSON IT REASONABLY BELIEVES IS A "QUALIFIED INSTITUTIONAL BUYER" AS DEFINED IN RULE 144A THAT PURCHASES FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF A QUALIFIED INSTITUTIONAL BUYER TO WHOM NOTICE IS GIVEN THAT THE TRANSFER IS BEING MADE IN RELIANCE ON RULE 144A, (D) PURSUANT TO OFFERS AND SALES THAT OCCUR OUTSIDE THE UNITED STATES IN COMPLIANCE WITH REGULATION S UNDER THE U.S. SECURITIES ACT OR (E) PURSUANT TO ANY OTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT, SUBJECT IN EACH OF THE FOREGOING CASES TO ANY REQUIREMENT OF LAW THAT THE DISPOSITION OF ITS PROPERTY OR THE PROPERTY OF SUCH INVESTOR ACCOUNT OR ACCOUNTS BE AT ALL TIMES WITHIN ITS OR THEIR CONTROL AND IN COMPLIANCE WITH ANY APPLICABLE FOREIGN OR STATE SECURITIES LAWS, AND ANY APPLICABLE LOCAL LAWS AND REGULATIONS AND FURTHER SUBJECT TO THE ISSUER'S AND THE TRUSTEE'S RIGHTS PRIOR TO ANY SUCH OFFER, SALE OR TRANSFER (I) PURSUANT TO CLAUSES (D) AND (E) TO REQUIRE THE DELIVERY OF AN OPINION OF COUNSEL, CERTIFICATIONS AND/OR OTHER INFORMATION SATISFACTORY TO EACH OF THEM AND (II) IN EACH OF THE FOREGOING CASES, TO REQUIRE THAT A CERTIFICATE OF TRANSFER IN THE FORM APPEARING ON THE OTHER SIDE OF THIS SECURITY IS COMPLETED AND DELIVERED BY THE TRANSFEROR TO THE TRUSTEE AND (3) AGREES THAT IT WILL GIVE TO EACH PERSON TO WHOM THIS SECURITY IS TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND".

If you purchase Notes, you will also be deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in the Notes as well as to holders of the Notes.

- (5) You acknowledge that the Registrar will not be required to accept for registration of transfer any Notes acquired by you, except upon presentation of evidence satisfactory to the Issuer and the Registrar that the restrictions set forth therein have been complied with.
- (6) You acknowledge that:
 - (a) the Issuer, the Initial Purchasers and others will rely upon the truth and accuracy of your acknowledgements, representations and agreements set forth herein, and you agree that, if any of your acknowledgements, representations or agreements herein cease to be accurate and complete, you will notify the Issuer and the Initial Purchasers promptly in writing; and
 - (b) if you are acquiring any Notes as fiduciary or agent for one or more investor accounts, you represent with respect to each such account that:
 - (i) you have sole investment discretion; and

- (ii) you have full power to make the foregoing acknowledgements, representations and agreements on behalf of each such investor account.
- (7) You agree that you will, and each subsequent holder is required to, give to each person to whom you transfer the Notes notice of any restrictions on the transfer of the Notes.
 - (8) If you are a purchaser in a sale that occurs outside the United States within the meaning of Regulation S, you acknowledge that until the expiration of the "distribution compliance period" (as defined below), you shall not make any offer or sale of the Notes to a U.S. person or for the account or benefit of a U.S. person within the meaning of Rule 902 under the U.S. Securities Act. The "distribution compliance period" means the 40-day period following the Issue Date for the Notes.
 - (9) You acknowledge that until 40 days after the commencement of the Offering, any offer or sale of the Notes within the United States by a dealer (whether or not participating in the Offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A under the U.S. Securities Act.
 - (10) You understand that no action has been taken in any jurisdiction (including the United States) by the Issuer, the Guarantors or the Initial Purchasers that would permit a public offering of the Notes or the possession, circulation or distribution of this offering memorandum or any other material relating to the Issuer, the Guarantors or the Notes in any jurisdiction where action for that purpose is required. Consequently, any transfer of the Notes will be subject to the selling restrictions set forth in this section of this offering memorandum and/or in the front of this offering memorandum under "*Notice to certain European investors*", "*Notice to investors in the United States*" and "*Notice to New Hampshire residents only*".
 - (11) You represent and warrant that: (a) either (i) no portion of the assets used by you to acquire and hold the Notes constitutes assets of any employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), any plan, individual retirement account or other arrangement subject to Section 4975 of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code") or provisions under any federal, state, local, non-U.S. or other laws or regulations that are similar to such provisions of ERISA or the Code (collectively, "Similar Law"), or any entity whose underlying assets are considered to include "plan assets" of any such plan, or account, within the meaning of U.S. Department of Labor Regulations, 29 C.F.R. §2510.3-101, as modified by Section 3(42) of ERISA or otherwise, or (ii) the purchase and holding of the Notes will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a violation under any applicable Similar Law; and (b) you will not transfer the Notes to any person or entity, unless such person or entity could itself truthfully make the foregoing representation and warranty.

Italy

The Offering of the Notes has not been registered with the *Commissione Nazionale per le Società e la Borsa* ("CONSOB") pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of this offering memorandum or of any other document relating to the Notes be distributed in the Republic of Italy, except: (a) to qualified investors (*investitori qualificati*) as defined in Article 26, first paragraph, letter d) of CONSOB Regulation No. 16190 of 29 October 2007, as amended (the "Regulation No. 16190") pursuant to Article 34-ter, first paragraph letter b) of CONSOB Regulation No. 11971, 14 May 1999, as amended (the "Issuers Regulation"), implementing Article 100 of Legislative Decree No. 58, 24 February 1998, as amended (the "Financial Services Act"); and (b) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and the Issuers Regulation. In any event, any offer, sale or delivery of the Notes or distribution of copies of this offering memorandum or any other document

relating to the Notes in Italy under (a) or (b) above must be: (i) made by an investment firm, bank or financial intermediary permitted to conduct such activities in Italy in accordance with the Financial Services Act, Legislative Decree No. 385 of 1 September 1993, as amended and Regulation No. 16190; and (ii) in compliance with any other applicable laws and regulations, including any requirement or limitation which may be imposed, from time to time, by CONSOB or the Bank of Italy or other competent authority.

Legal matters

Certain legal matters in connection with the Offering will be passed upon for the Issuer by Simpson Thacher & Bartlett LLP, as to matters of U.S. federal law, New York state law and English law, and by Gattai, Minoli, Partners, as to matters of Italian law, and by Pirola Pennuto Zei & Associati and Tremonti, Vitali, Romaguoli, Piccarolie Associati, as to matters of Italian tax law.

Certain legal matters in connection with the Offering will be passed upon for the Initial Purchasers by Linklaters LLP, as to matters of U.S. federal law and New York state law, and by Studio Legale Associato in association with Linklaters LLP, as to matters of English law and Italian law.

Independent auditors

The consolidated financial statements of the Company for each of the years ended 31 December 2012 and 31 December 2011, which were prepared in accordance with IFRS as adopted by the E.U., included in this offering memorandum, have been audited by Deloitte & Touche S.p.A., independent auditors, as set forth in their reports appearing herein.

The consolidated financial statements of the Company for the year ended 31 December 2010, which were prepared in accordance with IFRS as adopted by the E.U., included in this offering memorandum, has been audited by PricewaterhouseCoopers S.p.A., independent auditors, as set forth in their reports appearing herein.

Where to find additional information

Each purchaser of the Notes from an Initial Purchaser will be furnished with a copy of this offering memorandum and any related amendments or supplements to this offering memorandum. Each person receiving this offering memorandum and any related amendments or supplements to this offering memorandum acknowledges that:

- (1) such person has been afforded an opportunity to request from us, and to review and has received, all additional information considered by it to be necessary to verify the accuracy and completeness of the information herein;
- (2) such person has not relied on any of the Initial Purchasers or any person affiliated with any of the Initial Purchasers in connection with its investigation of the accuracy of such information or its investment decision; and
- (3) except as provided pursuant to clause (1) above, no person has been authorized to give any information or to make any representation concerning the Notes or the Guarantees offered hereby other than those contained herein and, if given or made, such other information or representation should not be relied upon as having been authorized by us or any of the Initial Purchasers.

For so long as any of the Notes remain outstanding and are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act, we will, during any period in which we are not subject to Section 13 or 15(d) under the U.S. Exchange Act, nor exempt from reporting pursuant to Rule 12g3-2(b) of the U.S. Exchange Act, make available to any holder or beneficial holder of a Note, or to any prospective purchaser of a Note designated by such holder or beneficial holder, the information specified in, and meeting the requirements of, Rule 144A(d)(4) under the U.S. Securities Act upon the written request of any such holder or beneficial owner. Any request should be directed to the Company at Via Gagarin 205, Pesaro, Italy.

All of the above documents will be available at the offices of the listing agent in Luxembourg.

We are not currently subject to the periodic reporting and other information requirements of the U.S. Exchange Act. However, pursuant to the Indenture that will govern the Notes, we will agree to furnish periodic information to the holders of the Notes. See “Description of the Notes—Certain covenants—Reports”.

Enforcement of civil liabilities

The Issuer, on or prior to the Issue Date, will be incorporated as a *società per azioni* under the laws of the Republic of Italy. The Guarantors are organized or incorporated (as applicable) under the laws of the Republic of Italy and the Grand Duchy of Luxembourg. Substantially all of the directors and executive officers of the Issuer and each of the Guarantors, respectively, are non-residents of the United States. Substantially all of the assets of the Issuer and each of the Guarantors and their respective directors and executive officers, are located outside the United States. As a result, any judgment obtained in the United States against the Issuer or a Guarantor or any such other person, including judgments with respect to the payment of principal, premium (if any) and interest on the Notes or any judgment of a U.S. court predicated upon civil liabilities under U.S. federal or state securities laws, may not be collectible in the United States. Furthermore, although the Issuer and each of the Guarantors will appoint an agent for service of process in the United States and will submit to the jurisdiction of New York courts in connection with any action in relation to the Notes, the Guarantees and the Indenture or under U.S. securities laws, it may not be possible for investors to effect service of process on the Issuer, the Guarantors or on such other persons as mentioned above within the United States in any action, including actions predicated upon the civil liability provisions of U.S. federal securities laws. If a judgment is obtained in a U.S. court against the Issuer, any Guarantor or any of their respective directors or executive officers, investors will need to enforce such judgment in jurisdictions where the relevant company or individual has assets. Even though the enforceability of U.S. court judgments outside the United States is described below for the Republic of Italy, you should consult with your own advisors in any pertinent jurisdictions as needed to enforce a judgment in those countries or elsewhere outside the United States.

We have been advised by counsel in the Republic of Italy that the recognition and enforcement of a judgment rendered by a U.S. federal or New York state court in the Republic of Italy is governed by Article 64 of the Private International Law Act (i.e. Law 218 of May 31 1995) (the “PIL Act”) (and certain other provisions of the PIL Act).

Pursuant to the PIL Act, any judgment issued by a U.S. federal or New York state court should automatically be recognized in the Republic of Italy provided that the following requirements are met:

- the relevant U.S. federal or New York state court had appropriate jurisdiction to pass judgment upon the matter (in accordance with the Italian law rules on jurisdiction);
- the defendant had received the summons in accordance with the laws of the state in which the proceedings have taken place, and the defendant had not been deprived of his fundamental right to a defense;
- the parties had appeared in the proceedings in accordance with the local procedural law, or the proceedings were conducted in absentia (*in contumacia*) in accordance with such local procedural law;
- the judgment rendered by the U.S. federal or New York state court must be final and binding (*passato in giudicato*) according to the law of the state in which it was issued;
- the judgment rendered by the U.S. federal or New York state court is not in conflict with any earlier final and binding judgment issued by an Italian court;

- there is no pending proceeding before any Italian court in relation to the same subject matter and between the same parties which started prior to the commencement of the proceedings before the relevant U.S. federal or New York state court; and
- the judgment rendered by the U.S. federal or New York state court is not contrary to Italian public policy.

In addition, according to Article 67 of the PIL Act, if a judgment rendered by a U.S. federal or New York state court is not complied with, its recognition is challenged or it is necessary to enforce such judgment, a proceeding must be instituted in the competent Court of Appeal in the Republic of Italy to that end. The competent Court of Appeal does not consider the merits of the case but reviews exclusively the existence of all the requirements set out above (including requiring that the judgment rendered by the U.S. federal or New York state court is not contrary to public policy in Italy).

Listing and general information

Listing

Application will be made to list the Notes on the Official List of the Luxembourg Stock Exchange and for trading on the Euro MTF market of the Luxembourg Stock Exchange (the "Euro MTF").

Luxembourg listing information

So long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and are admitted to trading on the Euro MTF market of that exchange and the rules and regulations of the Luxembourg Stock Exchange so require, the Issuer will publish or make available any notices (including financial notices) to the public in written form at places indicated by announcements to be published in a leading newspaper having a general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or on the website of the Luxembourg Stock Exchange (www.bourse.lu) or by any other means considered equivalent by the Luxembourg Stock Exchange.

For so long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and are admitted to trading on the Euro MTF and the rules of the Luxembourg Stock Exchange so require, copies of the following documents may be obtained at the specified office of the listing agent in the Grand Duchy of Luxembourg and the registered office of the Issuer during normal business hours on any weekday (Saturdays, Sundays and public holidays excluded):

- the organizational documents of the Issuer and each of the Guarantors;
- the financial statements of the Company included in this offering memorandum;
- our most recent audited consolidated financial information, any interim financial information published by us and the most recent audited financial information published by the Issuer;
- the Indenture (which includes the Guarantees and the form of the Notes);
- the Intercreditor Agreement; and
- the Security Documents.

The Issuer has appointed Deutsche Bank AG, London Branch in separate capacities, as principal paying agent and transfer agent for the Notes and Deutsche Bank Luxembourg S.A. in separate capacities, as registrar and Luxembourg listing agent for the Notes. The Issuer reserves the right to vary such appointments in accordance with the terms of the Indenture and will publish a notice of such change of appointment in a leading newspaper having a general circulation in the Grand Duchy of Luxembourg (which is expected to be the *Luxemburger Wort*) or on the

website of the Luxembourg Stock Exchange (www.bourse.lu) or by any other means considered equivalent by the Luxembourg Stock Exchange. Application may also be made to the Euro MTF market to have the Notes removed from listing on the Euro MTF market, including if necessary to avoid any new withholding taxes in connection with the listing.

The Issuer accepts responsibility for the information contained in this offering memorandum. The Issuer declares that, having taken all reasonable care to ensure that such is the case, to the best of its knowledge, except as otherwise noted, the information contained in this offering memorandum is in accordance with the facts and does not omit anything likely to affect its import. This offering memorandum may only be used for the purposes for which it has been published.

Clearing information

The Notes sold pursuant to Regulation S and Rule 144A have been accepted for clearance through the facilities of Euroclear and Clearstream, Luxembourg under the common codes _____ and _____, respectively. The international securities identification number (the "ISIN") for the Notes sold pursuant to Regulation S is _____ and the ISIN for the Notes sold pursuant to Rule 144A is _____.

General information

Except as otherwise disclosed in this offering memorandum:

- there has been no material adverse change in the prospects of the Company since 31 December 2012, the date of its last published consolidated financial information;
- there has been no material adverse change in Issuer's financial position since its date of incorporation; and
- none of the Issuer, the Company, nor any of their respective direct or indirect subsidiaries has been involved in any litigation, administrative proceeding or arbitration relating to claims or amounts which are material in the context of the issuance of the Notes and, so far as the Issuer and the Company is aware, no such litigation, administrative proceeding or arbitration is pending or threatened.

For the avoidance of doubt, any website referred to in this offering memorandum and the information on the referenced website does not form part of this offering memorandum prepared in connection with the Offering.

Material contracts

Contracts not entered into in the ordinary course of the Issuer's business that could result in any member of the Group being under an obligation or entitlement that is material to the Issuer's ability to meet its obligations to holders in respect of the Notes are summarized under the captions "*Description of the Notes*" and "*Description of other indebtedness*".

The Issuer

As of the date on the cover page of this offering memorandum, the Issuer is a private limited company (*société à responsabilité limitée*) organized under the laws of the Grand Duchy of Luxembourg. The Issuer will be transformed, on or prior to the Issue Date, into TeamSystem Holding S.p.A, a joint stock company (*società per azioni*) organized under the laws of the Republic of Italy.

As of the date on the cover page of this offering memorandum, the Issuer has a total share capital of €3,213,641, all of which has been subscribed and paid up, comprising €3,213,641 shares of a nominal value of €1.00 each.

The Issuer is currently registered with the Luxembourg Register of Commerce and Companies under number B 154.477. The registered office of the Issuer is 7a rue Robert Stumper, L-2557 Luxembourg, Grand Duchy of Luxembourg.

The Issuer acts as a holding company for the Group, and indirectly holds all of the outstanding issued share capital of the Company. The Issuer does not have any independent operations.

The creation and issuance of the Notes will be authorized by the Issuer's board of directors prior to the closing of the Offering.

The Issuer's financial year begins on 1 January and ends on 31 December of each year.

The Company

The Company, which will provide a Guarantee in respect of the Notes, has the following corporate information.

The Company is a *società a responsabilità limitata* incorporated under the laws of the Republic of Italy. The Company was incorporated on 18 March 1987. The Company is registered in the Italian companies register (*Camera di Commercio Industria Artigianato e Agricoltura di Peraro e Urbino*) under registration number and fiscal code 01035310414.

The Company operates in the business of software services and has its registered office at Via Gagarin 205, Pesaro, Italy.

The Company's financial year begins on 1 January and ends on 31 December of each year. The Company prepares and publishes annual audited financial statements.

Titan 3

Titan 3, which will provide a Guarantee in respect of the Notes, has the following corporate information.

Titan 3 was incorporated on 23 July 2010. Titan 3 is registered with the Luxembourg Register of Commerce and Companies under number B 154.477.

The registered office of the Titan 3 is 7a rue Robert Stumper, L-2557 Luxembourg, Grand Duchy of Luxembourg.

AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ART. 14 OF LEGISLATIVE DECREE No. 39 OF 27 JANUARY 2010

To the Shareholder of TeamSystem S.r.l.

1. We have audited the consolidated financial statements of TeamSystem S.r.l. and subsidiaries (the "TeamSystem Group"), which comprise the consolidated statement of financial position as of 31 December 2012, and the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes. These consolidated financial statements prepared in accordance with International Financial Reporting Standards as adopted by the European Union are the responsibility of the Company's Directors. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
2. We conducted our audit in accordance with Auditing Standards issued by the Italian Accounting Profession (CNDCEC) and recommended by Consob, the Italian Commission for listed Companies and the Stock Exchange. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Directors, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

For the opinion on the prior year's consolidated financial statements, whose data are presented for comparative purposes, reference should be made to our auditors' report issued on 21 May 2012. Furthermore, as described in the explanatory notes, the Directors have prepared for the first time the operating segments information contemplated by IFRS 8 and consequently they have also presented the prior years' related comparative data, which have been examined by us for the purpose of expressing our opinion on the consolidated financial statements as of 31 December 2012.

3. In our opinion, the consolidated financial statements give a true and fair view of the financial position of TeamSystem Group as of 31 December 2012, and of the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

4. The Directors of TeamSystem S.r.l. are responsible for the preparation of the Directors' Report in accordance with the applicable laws and regulations. Our responsibility is to express an opinion on the consistency of the report on operations with the financial statements, as required by law. For this purpose, we have performed the procedures required under Auditing Standard n. 001 issued by the Italian Accounting Profession (CNDCEC) and recommended by CONSOB. In our opinion, the Directors' Report is consistent with the consolidated financial statements of TeamSystem Group as of 31 December 2012.

Pesaro, 29 March 2013

On behalf of the Board of Directors
of TeamSystem Srl
Managing Director
Federico Leproux

TeamSystem Group

Notes to the consolidated financial statements

for the year ended 31 December 2012

Company background

TeamSystem Srl (the “Company” or the “Parent Company”) is a Company registered in the Pesaro Business Register and is domiciled in Italy. TeamSystem Srl is a leader in Italy in the production and marketing of management / ERP software and in the provision of training aimed at micro—small and medium enterprises, at professionals (accountants, labour consultants, lawyers, condominium managers and self-employed professionals) and at associations.

Its registered office is in Via Gagarin 205, Pesaro. TeamSystem Srl does not have any financial instruments listed on the stock market. The Company with its subsidiaries (the “TeamSystem Group” or “Group”) have operated for more than 30 years in the field of management software for consultants and businesses. The Company is a 100% wholly-owned subsidiary of Titan Luxco 3 S.à.r.l. It is a 53% indirectly held subsidiary of the private equity firm HG Capital and is approximately 23% held by the private investment firm Bain Capital, with the remainder held by TeamSystem’s senior and middle managers and by a number of financial investors. It should be noted that the aforementioned equity investments have the same characteristics in terms of subscription price and risk and there are no differences favouring TeamSystem’s senior and middle management.

The consolidated financial statements were prepared by the Board of Directors on 29 March 2013.

Accounting standards adopted

The Company has adopted international accounting standards as endorsed by the European Commission (hereinafter “IFRS”) for the preparation of its separate and consolidated financial statements pursuant to the provisions of articles 3 and 4 of Legislative Decree 28 February 2005, no. 38, which governs the exercise of options provided for by article 5 of Community regulations no. 1606/2002 concerning international accounting standards.

IFRS is intended to mean all “International Financial Reporting Standards”, all International Accounting Standards (“IAS”), and all the interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”), previously known as Standing Interpretations Committee (“SIC”) endorsed by the European Commission at the date of approval of the draft consolidated financial statements by the Parent Company’s Board of Directors and covered by EU Regulations published at that date.

The consolidated financial statements have been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value, as well as on a going concern basis.

Set out below are the accounting policies applied for the preparation of the consolidated financial statements, which are unchanged with respect to those applied in the prior year, except for that commented upon later regarding (i) the early application of the new accounting standard IAS 19 and (ii) the first-time adoption of disclosures pertaining to operating segments in accordance with IFRS 8. As described also in below notes, the early application of IAS 19 revised does not require the Company to restate the 2012 consolidated financial statements due to the fact that the effect of such application on the consolidated statement of comprehensive income was immaterial (approximately Euro 88 thousands), while no impact related to the consolidated statement of financial position.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Going concern basis

The economic environment, which is commented upon in the Report on operations and characterised by widespread uncertainty, inevitably impacts the ability of TeamSystem Group to maintain business growth rates in line with those achieved historically.

In order to prudently take account of the international and Italian economic environment, in a context whereby there may be no continuity with the past and in which forecasts are characterised by elements of considerable uncertainty, on 29 March 2013 TeamSystem Group approved a new Business Plan that shows growth rates for revenues and EBITDA, which are conservative in comparison to historical trends achieved by TeamSystem Group, as well as confirming the commitment of TeamSystem Group to continue, on one hand, on a path of business development and, on the other, with a gradual reduction of financial indebtedness.

With reference to the Business Plan, TeamSystem Group subjected the non-current assets, as stated in the consolidated statement of financial position at 31 December 2012, to impairment tests to verify their recoverability and the outcome showed the need to account for a write-down, of Euro 75 million, fully adjusted against goodwill and without cash impact.

TeamSystem Srl's consolidated financial statements have been prepared on a going concern basis and the Board of Directors is not aware of any material uncertainties or doubts concerning TeamSystem Group's ability to continue its activities in the foreseeable future.

Content of the consolidated financial statements

The consolidated financial statements include:

1. The consolidated income statement for the year ended 31 December 2012, together with the comparative consolidated income statement for the prior year. In particular, it should be noted that the consolidated income statement format presents an analysis of costs aggregated by nature, since this classification is considered to be more relevant for the purposes of an understanding of TeamSystem Group's results.

Furthermore it should be noted that, with respect to the prior year, the Company has renamed certain components of the consolidated financial statements for the year ended 31 December 2012 with the sole aim of improving the legibility and the quality of reporting. The following income statement totals have been changed: "Total value of production" has been renamed "Total revenue", while the sub-total "Total production costs" has been removed. In addition, the previous used intermediate result called "Gross Operating Margin (GOM)", shown in the consolidated financial statements until 31 December 2011 has been removed, following the same reason as above. All the described changes, occurred in the consolidated financial statements as of 31 December 2012, have been reflected in the 31 December 2011 comparative statements.

Lastly, since no discontinued or similar operations occurred in either the 2012 or 2011 financial years, "Profit (Loss) for the year" is derived solely from current operations; consequently, the Company has not presented an income statement line "Income (loss) for the year from continuing operations" since, as indicated, this coincides with "Profit (Loss) for the year".

2. The consolidated statement of comprehensive income for the year ended 31 December 2012, compared to the consolidated statement of comprehensive income for the year

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2012

ended 31 December 2011. In fact, IAS 1 no longer requires the presentation of income and charges recorded directly within equity (defined as changes generated by transactions with "minorities") in the statement of changes in equity, which has to evidence only changes generated by transactions with shareholders along with comprehensive income as defined below. In accordance with IAS 1, in fact, all the changes generated by transactions with non-controlling interests, whether recorded in the income statement or accounted for directly within equity, are to be shown in one separate statement (statement of comprehensive income) or in two separate statements (income statement and statement of comprehensive income), as is the case for TeamSystem Group, which has presented comprehensive results for the year (so called comprehensive income). Up to the 2011 consolidated financial statements, revenues and costs for the year were presented solely in the consolidated income statement, since there were no circumstances requiring separate presentation in a consolidated statement of comprehensive income as required by IFRS. As detailed later, following the early application of the new accounting standard IAS 19, it was necessary to disclose the required information for the 2012 consolidated statement of comprehensive income, whereas no restatement was made of the information relating to the 2011 consolidated statement of comprehensive income, since the amount was negligible.

3. The consolidated statement of financial position at 31 December 2012, together with the comparative consolidated statement of financial position at 31 December 2011. In particular, the consolidated statement of financial position has been prepared using a format, in accordance with IAS 1, classified on the basis of the operating cycle, with a distinction between current and non-current components. On the basis of this distinction, assets and liabilities are considered to be current, if it is assumed that they will be realised or settled during the normal operating cycle.
4. The consolidated cash flow statement for the year ended 31 December 2012, together with the comparatives for the year ended 31 December 2011. For the preparation of the consolidated cash flow statement, the indirect method has been used, in compliance with IAS 7, under which income or the loss for the year is adjusted for the effects of non-cash transactions, for items such as deferred payments and charges that are the cause of charges and payments in the past or in the future, as well as items of gains or losses associated with cash flows of activities classified as investment or financing. The Company has decided to apply the indirect method starting from the operating result, considering qualitative information factors. It should be noted that, with respect to the version presented up until the prior year, (i) certain components of cash flows from financing activities have been grouped together and (ii) some descriptive refinements have been made to the presentation of the cash flow statement.
5. The consolidated statement of changes in owner's equity at 31 December 2012 and 2011 takes account of the previously mentioned changes correlated to the implementation of IAS 1; it should be noted that, with respect to the version presented up until the prior year, some descriptive refinements have been made to the presentation.
6. The notes to the consolidated financial statements.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Scope of consolidation

The consolidated financial statements of TeamSystem Group include the financial statements of the Parent Company and those of businesses for which TeamSystem controls directly or indirectly the majority of voting rights that can be exercised at a shareholders' general meeting.

A listing of businesses consolidated on a line-by-line basis is provided in the following table and it should be noted that the consolidation % takes account of any put and call options stipulated during the course of acquisitions:

CONSOLIDATED SUBSIDIARIES	Place of incorporation and operation	Share capital	Net equity	Profit (loss) for the year	Held %	Equity ratios %

(3) = holding would be 96.87% should put/call option be exercised;

(4) = investment held by Education Team Srl;

(5) = investments held by Nuovamacut Automazione Spa.

Changes to the scope of consolidation and other extraordinary operations that have occurred in 2012

The scope of consolidation, that is, the consolidation percentages, changed during the course of 2012 due to the effect of the following transactions (more detail information on accounting for new acquired companies can be also find in Note 36 of this consolidated financial statements):

- a) the acquisition (by the Parent Company) of the entire quota capital of Paradigma Srl and the subsequent contribution of the holding therein to the newly formed company Education Team Srl. A contribution was also made by Optime Srl (initially held by third parties) to Education Team Srl; subsequent to this double contribution, TeamSystem Srl's percentage holding in Education Team Srl fell from the original 100% to 77.50%. At the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

same time as the above contributions, contracts were entered into for put and call options for non-controlling interests not yet held. The financial statements of Paradigma Srl and Optime Srl have been consolidated for the entire 2012 financial year; the financial statements of Education Team Srl have been consolidated as from the date of incorporation of this company;

- b) the acquisition of the entire share capital of Nuovamacut Automazione Spa by the Parent Company TeamSystem Srl;
- c) the acquisition of the entire quota capital of TeamSystem Torino Srl and the subsequent merger of this company with TeamSystem Milano Srl, from which emerged the company named TeamSystem 2 Srl (which is fully held by the Parent Company);
- d) the acquisition of the entire quota capital of Zeronove Srl and the subsequent merger through the absorption of Zeronove Srl into TeamSystem Srl with an effective date for accounting and tax purposes of 1 January 2012;
- e) the acquisition of a further quota of 8.46% in TeamSystem Ancona Srl. The percentage held by the Parent Company in TeamSystem Ancona Srl has thus become 89.65%;
- f) the cover of losses incurred by Nuovamacut Bologna Macchine Utensili Srl by Nuovamacut Automazione Spa;
- g) the acquisition of a further quota of 19.46% in Nuovamacut Nord Ovest srl by Nuovamacut Automazione Srl; the percentage holding has gone from 66.88% to 86.34%;
- h) the acquisition of a further quota of 7.50% in Nuovamacut Nord Est srl by Nuovamacut Automazione Srl; the percentage holding has gone from 67.50% to 75.00%;
- i) the merger through the absorption of DRC Form Srl into Gruppo Euroconference Spa;
- j) the acquisition of a controlling interest of 60% of the quota capital of Digita Srl (the financial statements of which have been consolidated for the full 2012 financial year considering the proximity of the transaction to the beginning of the financial year) and the simultaneous stipulation of put and call option agreements for the remaining quotas not yet held;
- k) the acquisition of an 85% controlling interest in H-Umus Srl (for which only the statement of financial position was consolidated at 31 December 2012) and the subsequent stipulation of put and call option agreements for the remaining quotas not yet held;
- l) the acquisition of a further 5.87% of the share capital of Gruppo Euroconference Spa as well as the simultaneous stipulation of put and call option agreements for 0.39% of the company's share capital.

Reference date

The consolidated financial statements have been prepared based on the draft financial statements of the controlled subsidiaries within consolidation perimeter already approved by respective Boards of Directors.

All the financial statements of the TeamSystem Group companies have a 31 December financial year end.

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2012

Basis of consolidation

The financial statements used for the consolidation are the financial statements of the individual businesses, as approved by the respective administrative bodies. These financial statements are reclassified and adjusted in order to comply with IFRS and the accounting policies adopted by the Parent Company.

In the preparation of the consolidated financial statements, the statement of financial position, of income statement components, of comprehensive income are consolidated line-by-line. Receivables and payables, income and charges and gains and losses originating from transactions between and among the businesses included in the consolidation are eliminated. The carrying value of consolidated equity investments is eliminated against the corresponding portion of equity attributable to the Group (or to non-controlling interests).

Business combinations

Acquired subsidiaries are accounted for in accordance with the acquisition method as provided for by IFRS 3. The cost of the acquisition is determined by the sum of acquisition-date current values of the consideration transferred, liabilities incurred or assumed and financial instruments issued by the Group for the change in control of the business acquired.

All other costs associated with a transaction are expensed.

Identifiable assets, liabilities and contingent liabilities of the businesses acquired, which meet the conditions for recognition under IFRS 3, are measured at their acquisition-date current values, except for non-current assets (or disposal groups) classified as held for sale in accordance with IFRS 5 and which are recorded and measured in accordance with applicable accounting standards.

Goodwill is measured as the difference between the aggregate of the acquisition-date fair value of the consideration transferred, the amount of any non-controlling interest and the acquisition-date fair value of the acquirer's previously-held equity interest in the acquiree and the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If the value of the acquisition-date amounts of the assets acquired and the liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interest and the fair value of the acquirer's previously-held equity interest in the acquiree, the surplus is recognised immediately in the income statement as income arising from the completed transaction.

Non-controlling interests at the acquisition date may be measured at fair value or the non-controlling interest's proportionate share of net assets of the acquiree. The option is available on a transaction by transaction basis.

TeamSystem Group, normally at the same time as the acquisition of majority / controlling stakes in an investee, enters into put and call option agreements for the residual stake held by non-controlling owners of the acquiree. For those cases where part of the acquisition takes place through the stipulation of a binding option agreement, with the simultaneous presence of put and call clauses, the investee is consolidated, since the substance of the binding option agreement is that of the payment of deferred consideration for part of the investee's capital, as evidenced by a series of transactions completed in the past. Accordingly, the estimated value of the exercise price of the put / call is included in the cost of acquisition and contributes to the overall determination of goodwill. This accounting method applies only where the Group

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

has acquired majority control of the voting rights of the companies acquired and where no doubt arises as to the distribution of relevant amounts of dividends in the period up to the date the option is exercised. In view of the recognition of goodwill related to these options, TeamSystem Group accounts for, as a financial liability, the payable (so-called vendor loan) related to the estimated actual consideration for the exercise of the options. In accordance with this principle, subsequent changes in the fair value of the payable, due to amendments made to the initial assessment of the exercise consideration, are recognised in the consolidated income statement, as is the case for the notional charges deriving from the gradual decrease of the effect of discounting. To note that, in absence of a clear accounting rule for the accounting of non-controlling interests in the case of put and call arrangements, following also the IFRIC and IASB debate, the Company has decided to use the described method, acceptable under current framework and positions.

Any acquisitions of non-controlling interests subsequent to having achieved control are accounted for as transactions between shareholders, with the pertinent goodwill recorded as a reduction of the Group's equity, in compliance with the requirements of IFRS 3.

Business combinations involving entities or businesses under common control are excluded from the scope of IFRS 3. A business combination involving entities or businesses under common control is a combination in which all the entities or businesses are controlled by the same party or when the controlling party before and after a business combination is the same and control is not of a temporary nature. The existence of a non-controlling interest in each of the entities being combined, before or after the business combination, is not relevant for the determination of whether the business combination involves entities under common control. Transactions of this type (excluding transactions between companies included in the same scope of consolidation, since, in such a case, the principle of continuity of values applies) and which do not have a significant impact on future cash flow from the net assets transferred, are accounted for in accordance with the principle of continuity of carrying values, otherwise they fall within the scope of IFRS 3.

Translation of foreign currency financial statements

The financial statements of the businesses comprised within the scope of consolidation are all prepared in Euros, considering all subsidiaries at today are located in Italy and there are no relevant operations conducted abroad.

Intangible assets

Research and development expenses

In accordance with IAS 38, research expenses are charged to income as incurred.

Development costs incurred in relation to a determined project are capitalised only when the Company can demonstrate, by means of appropriate analysis, the technical feasibility of completing the intangible asset so that it will be available for use or sale, the intention to complete the intangible asset and use or sell it, how the intangible asset will generate probable future economic benefits, the availability of adequate technical, financial and other resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development.

After initial recognition, development costs are carried at cost less any accumulated amortisation and any accumulated impairment losses. Amortisation begins when development

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

is complete and the asset is available for use. It is amortised with reference to the period for which it is envisaged that the associated project will generate revenues for TeamSystem Group. During the period in which an asset is no longer in use, it is assessed annually to ascertain if there has been any impairment.

Other development expenses that do not meet the above requirements are expensed as incurred. Development costs that have previously been expensed are not accounted for as an asset in subsequent periods.

Capitalised development costs are amortised (as from the start of the production or marketing of the product) on a straight line basis over their residual useful life (estimated to be between 3 and 5 years).

Customer relationship

Customer relationship (which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010 by actual main shareholder HG) represents the total of contractual (supply contracts and service contracts etc.) and non contractual customer relationships and has been valued based on discounted income flows (Income Approach). The asset is amortised over its useful life estimated to be twenty years.

Proprietary software

Proprietary software, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010 is stated at its reproduction cost and is amortised over the length of its expected useful life of 5 years.

Proprietary software developed internally and destined for internal use is stated at cost of production and is amortised over the length of its residual expected useful life.

Third party software licenced for internal use

Third party software licenced for internal use is stated at purchase cost and is amortised over the length of its residual expected useful life estimated to be of five years.

Brands

The TeamSystem, Euroconference, Metodo and Nuovamacut brands, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010, have been valued in accordance with the royalties method and are amortised over the length of their residual expected useful life estimated to be of twenty years (TeamSystem and Euroconference) or ten years (Metodo and Nuovamacut).

Goodwill

Goodwill is initially recognised at cost, represented by the excess cost of the business combination over the fair value of the assets and liabilities acquired.

Goodwill is not amortised, as required by IFRS, but is allocated to its respective Cash Generating Unit (hereinafter "CGU") and subjected annually (or more frequently if determined events or changes in circumstances indicate the possibility that value has been impaired) to impairment testing in accordance with IAS 36 "Impairment of Assets".

Subsequent costs

Costs incurred subsequently on intangible assets are capitalised if they increase the future economic benefit of the specific capitalised asset.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Amortisation

Amortisation is charged systematically on a straight line basis over the asset's estimated useful life, except for intangible assets with an indefinite life (being solely goodwill) that are not amortised and are systematically assessed to verify the absence of impairment. Other intangible assets are amortised as from the time they become usable. The estimated useful life of each main category is shown in the following table:

Goodwill	Indefinite useful life
Brands	10 - 20 years
Customer relationship	20 years
Proprietary software	5 years
Development expenses	3 - 5 years

Property, plant and equipment

Property, plant and equipment owned by the Group

Property, plant and equipment consisting mainly of land, buildings, electronic machines, furniture and fittings and general and specific plant are stated at purchase cost, net of accumulated depreciation and writedowns. Costs incurred subsequent to acquisition (repairs and maintenance costs and replacement costs) are recorded as part of the carrying value of an asset, or recognised as a separate asset, only when it is believed that it is probable that associated future economic benefits will be generated and that the cost of the asset can be measured in a reliable manner. Repairs and maintenance costs (or costs of replacements that do not have the above characteristics) are expensed in the year in which they are incurred. Property, plant and equipment and assets are systematically depreciated each year at rates determined on the basis of the residual useful life of the asset. The rates applied by the Parent Company are the following:

Land	Indefinite useful life
Buildings	33 years
Plant and machinery	10 years
Industrial and commercial equipment	7 years
Other assets	4 - 7 years

Regardless of the depreciation already accounted for, in the event of impairment, an asset is written down accordingly. Gains and losses arising on disposal are determined by comparing the sales consideration to the net book value. The amount determined is accounted for in the consolidated income statement in the pertinent year.

Financial charges incurred for capital expenditure on an asset that necessarily takes a substantial period of time to get ready for its intended use ("qualifying asset" in accordance with IAS 23—Borrowing Costs) are capitalised and depreciated over the useful life of the asset class to which they relate. All other financial charges are expensed in the year they are incurred.

Leased assets

In accordance with IAS 17, lease contracts are classified as finance leases where the terms of the contract are such as to transfer substantially all the risks and rewards incidental to ownership to the lessee. All other leases are considered to be operating leases. Leased assets

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

are recognised at amounts equal to the present value of future the minimum lease payments. The corresponding liability towards the lessor is included in the consolidated statement of financial position as a liability for lease obligations. Payments of lease installments are split between their capital and interest elements in order to produce a constant periodic interest rate on the remaining balance of the liability. Financial charges are expensed in the year.

Equity investments

Equity investments in other businesses classified as non current assets are stated at cost, inclusive of directly attributable charges, net of any impairment adjustments.

Inventories

Inventory, that includes mostly some hardware and licences purchased from third parties for re-selling, is stated at the lower of specific purchase cost, inclusive of ancillary charges and its estimated realisable value, which can be derived from market prices. Inventories of obsolete or slow moving items are written down by taking account of their potential use or realisation.

Trade receivables

Receivables are recorded at cost (identified by their nominal value), net of a provision to take account of their expected realisable value equivalent to fair value.

Cash and bank balances

Cash and bank balances include cash on hand, bank and post office account balances and securities with an original maturity of less than three months.

Assets and liabilities classified as held for sale

Non current assets (or disposal groups) are classified as held for sale if their carrying value will be recovered mainly from the sale thereof rather than from their continuous use. Assets are measured at the lower of carrying value and fair value net of costs to sell. Assets and liabilities held for sale are presented separately from other assets and liabilities on the face of the statement of financial position. The impact on income of discontinued assets is presented separately in the income statement net of the tax effect.

No discontinued or similar operations occurred in either the 2012 or 2011 financial years and consequently related financial statements do not present any assets and liabilities classified as held for sale.

Foreign currency transactions

The functional and presentation currency of the Group Companies is the Euro. As required by IAS 21, amounts originally denominated in foreign currency are translated at exchange rates ruling at the year end. Exchange differences realised on the collection of foreign currency receivables and on the payment of foreign currency payables are recorded in the consolidated income statement.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Writedowns (impairment)

The carrying value of assets with an indefinite useful life, for example goodwill and intangible assets in process of formation, are not subject to depreciation or amortisation, but are assessed annually to determine whether an asset may be impaired.

The carrying value of other assets, except for financial instruments covered by IAS39 and for deferred tax assets (IAS12), are subject to assessment at each the consolidated statement of financial position date (or more frequently if determined events or changes in circumstances indicate the possibility that value has been impaired) to determine whether there is any indication that an asset may be impaired (impairment test). The estimated recoverable amount is represented by value in use. For the purposes of assessment, assets are grouped into the smallest identifiable unit for which the Management are capable of separating the related cash inflows (CGU).

If the recoverable amount of the asset or CGU is lower than the net carrying amount, the asset is adjusted to take account of the impairment loss, which is charged to the consolidated income statement within Non-recurring impairment of assets. The impairment loss of a CGU is first allocated to goodwill and any residual balance is allocated to other assets.

Three CGUs, coinciding with the operating segments identified in accordance with IFRS 8, have been identified by the Group as follows: the Software and Services (SWSS) CGU consisting of all TeamSystem Group companies operating in the software sector (comprising Metodo), the Education CGU (consisting of Gruppo Euroconference, Paradigma Srl, Optime Srl, Education Team Srl) and the CAD/CAM CGU (relating to Nuovamacut Group Companies). The goodwill allocated to the Software and Services CGU, to the Education CGU and the CAD/CAM CGU are subject to impairment tests (at least annually) by comparing its carrying value to recoverable amount, given by the higher between fair value and value in use.

Interest bearing financial liabilities

Interest bearing financial liabilities are initially recorded at fair value, net of ancillary charges. Subsequent to their initial recognition, interest bearing financial liabilities are measured at amortised cost. As at the consolidated statement of financial position date, the Group Companies do not hold any financial liabilities designated at fair value through profit or loss.

Hedging instruments

The Group Companies use financial derivatives. These financial derivatives are classified as financial instruments held for trading, unless they are designated as effective hedging instruments. These financial derivatives are initially recognised at fair value at the date in which they are stipulated; subsequently, the fair value is periodically remeasured. They are accounted for as an asset when the fair value is positive and as a liability when it is negative. Any gain or loss resulting from a change in fair value is taken to income. The fair value of interest rate swap contracts is determined with reference to the market value of similar instruments.

At the start of a hedging transaction, the Company designates and formally documents the hedging relationship to which it intends applying hedge accounting, its risk management objectives and the strategies pursued. The documentation includes the identification of the hedging instrument, of the element or transaction subject to hedging, of the nature of the risk

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

and the means by which the business intends assessing the effectiveness of the hedge in offsetting the exposure to changes in the fair value of the hedged element or in the cash flows attributable to the hedged risk. It is expected that these hedges are highly effective in offsetting the hedged exposure or changes in the hedged cash flows attributable to the hedged risk. The assessment of whether these hedges have been proven to be highly effective is performed on a continuous basis during the financial year in which they have been designated. The transactions that satisfy the criteria for hedge accounting are accounted for on the basis of the following policy.

The portion of the gain or loss on the hedging instrument relating to the effective hedge is taken directly to equity, whereas the non effective portion is immediately recognised in the consolidated income statement. The gain or loss included in equity is reclassified to the consolidated income statement in the year in which the hedged transaction impacts the consolidated income statement, that is, when the financial charge or income is recognised. If it is believed that the envisaged transaction will no longer take place, the amounts initially recorded in equity are transferred to the consolidated income statement. If the hedging instrument expires or is sold or annulled or if its designation as hedging is revoked, the amounts previously included in equity remain as such until such time as the expected transaction takes place. To note anyway that in the last two years the Group has designed as hedging none of its derivatives (derivative instruments in place have been in fact considered as held for trading and consequently accounted in compliance with related requirements (changes in fair value in profit and loss).

Employee benefit plans

Defined contribution plans

A defined contribution plan is a pension plan for which the Company pays fixed contributions to a separate entity. The Company does not have any obligation, legal or otherwise, to make additional contributions if the fund has insufficient assets to meet the payment of all employee benefits relating to the period of service. The obligations related to contributions for employees' pensions and other benefits are expensed as incurred.

Defined benefit plans

Net obligations related to defined benefit plans consist mainly of employee termination indemnities and are calculated by estimating, with actuarial techniques, the amount of the future benefit accrued to employees in the current and prior financial years. The benefit thus determined is discounted and recognised net of the fair value of any related assets. The computation is performed by an independent actuary using the projected unit credit method. Actuarial gains and losses are recognised in the consolidated income statement in the year in which they arise.

Following the introduction of new legislation on supplementary pensions, as per Legislative Decree 252/2005, introduced by the 2007 Finance Act, the possibility has arisen to transfer accruing severance indemnities to supplementary pension funds. Consequently, in the actuarial valuation of the Provision for employee termination indemnities at 31 December 2008, account was taken of the effects deriving from the legislation, recognising, for IAS/IFRS purposes, only the liability relating to accrued severance indemnities remaining as a liability in the consolidated statement of financial position, as the amounts accruing are paid over to a separate entity (supplementary pension fund or the state fund Istituto Nazionale di Previdenza Sociale "INPS").

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2012

As from the 2012 consolidated financial statements, TeamSystem Group has elected for early application of IAS 19 revised (published in the Official Gazette on 6 June 2012). The amendment to IAS 19—Employee benefits, eliminates the option to defer the recognition of actuarial gains and losses under the “corridor” method and requires the entire deficit or surplus to be recorded in the consolidated statement of financial position and the separate recognition in the consolidated income statement of service cost and net interest, while actuarial gains and losses arising from the new measurement each year of assets and liabilities are required to be recognised in the statement of comprehensive income. Furthermore, the return on assets included in net interest is calculated on the basis of the discount rate used for liabilities and no longer on the expected return.

Provisions

Where the Company has an obligation, legal or otherwise, resulting from a prior event and it is probable that this will lead to the loss of economic benefits to meet the obligation, an appropriate provisions for risks and charges is recorded. No provision is made for future operating losses. Provisions are measured at the current value of management’s best estimate of the cost of satisfying the obligation existing at the consolidated statement of financial position date. With respect to legal cases, the amount of the provision is determined on the basis of estimates made by the relevant consolidated Company, together with its legal advisors, in order to determine the probability, the timing and the amounts involved.

Trade and other payables

Trade and other payables are stated at cost, representing their settlement value.

Revenue

The criteria to account and recognize revenues in our business may vary, considering the different nature of sales (software licenses, products as hardware components and assistance services) and the related different streams of revenues, also connected to our three business operating segment (please refer also to Note 30). In detail:

Software and services business unit

Direct Channel

Software licenses: revenues from sales of software licenses are recognized at the delivery date, as all contractual obligations are performed and generally there are no rights of return or acceptance clauses.

In case the sale contracts include separate revenue streams for other services, such as maintenance and assistance, the revenues in respect of these streams are separately identifiable in the contract (no multiple arrangements).

Maintenance and assistance to customers: maintenance and assistance contracts, that include software updates, help lines and on-site support, generally cover a twelve-month period and related revenues are recognized on a straight line basis over that period, considering the portion of revenues pertaining to the following years as deferred income.

Hardware and other products: revenues related to hardware components and other products purchased from third parties, are recognized at the delivery date, as all contractual obligations are performed and generally there are no rights of return or acceptance clauses.

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2012

Other services: revenues related to training, support, implementation and customization software activities that are either included within the main contract or negotiated under following deals, are recognized at the service execution date. Revenues related to Erp (Enterprise Resource Planning) implementation services still ongoing at the balance sheet date are recognized on the basis of their percentage of completion at that date.

Indirect Channel

VARs (Value Added Reseller) contracts: the contracts generally cover a three-year period and include a flat fee payment that allows the VARs to download unlimited number of license and to receive software updates and assistance services. Contracts are invoiced on a quarterly or yearly basis and related revenues are recognized on a straight line basis over that period.

Software licenses: revenues from sales of software licenses not included in a flat fee contract (see previous paragraph) are recognized at the delivery date, as all contractual obligations are performed and generally there are no rights of return or acceptance clauses

In case of software sales related to additional features which are sold as Temporary Annual Licenses (TLA), downloaded from TeamSystem website by VARs, revenues are recognized at the download date for new licenses and on a straight line basis for the renewals which automatically take place at the beginning of each year.

Other services and products: additional support services and products are offered to resellers, including training, marketing, manuals; revenues are normally recognized when the service has been rendered consistent with IAS 18 or the product has been delivered.

Education business unit

Publishing: revenues from sale of books and electronic manuals are recognized at the delivery date.

Training: sales include large conferences, masters and specialist training. Revenues are recognized based on the services provided in any given period; in the case of training is delivered across different accounting periods, revenues are recognized on a pro-rata basis according to the "stage of completion" of the training programme, consistent with IAS 18.

Information: sales include newsletter subscriptions and technical update documents, which generally cover a twelve-month period and related revenues are recognized on a straight line basis over that period, considering the portion of revenues pertaining to the following years as deferred income.

CAD/CAM business unit

Software licenses: revenues from sales of software licenses are recognized at the delivery date, as all contractual obligations are performed and generally there are no rights of return or acceptance clauses.

In case the sale contracts include separate revenue streams for other services, such as maintenance and assistance, the revenues in respect of these streams are separately identifiable in the contract (no multiple arrangements).

Maintenance and assistance to customers: maintenance and assistance contracts, that include software updates, help lines and on-site support, generally cover a range from one to three

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

years period and related revenues are recognized on a straight line basis over that period, considering the portion of revenues pertaining to the following years as deferred income.

For all the above streams of revenues, there are usually no sales under multiple-element arrangements (e.g. goods and services) for which separate recognition of revenues would be required (as explained, in the case some services are included in a licence sale contract, we usually specify the different related amounts of revenues).

Grants

Grants are recognised when there is reasonable certainty that they will be received and that all related conditions will be met. Grants towards cost components are recognised as income, but are systematically allocated to the financial year, in order to match the costs they are intended to offset. For grants towards the cost of an asset, the asset and the grant are recognised at their nominal value and the release to income takes place gradually, on a straight line basis, over the expected useful life of the asset.

Where a non cash grant is received, the asset and the contribution are recognised at their nominal value and are released to income on a straight line basis over the expected useful life of the asset.

Dividends

The distribution of dividends to shareholders of the Group Companies is recognised as a liability in the period in which they are approved by the general meeting of shareholders.

Costs

Rent and operating leases charges

Rent and operating leases charges are charged to income on an accruals basis.

Financial income and expense

Financial income and expense are charged to income on an accruals basis.

Current and deferred taxation

The tax charge for the year comprises current and deferred taxation. Current tax is charged to income, except for cases where the tax relates to items accounted for as an equity component. Current tax is calculated by applying the tax rate in force at the consolidated statement of financial position date to taxable income. Concerning IRES (corporate income tax), it should be noted that the Parent Company and some of its subsidiaries have elected for a consolidated tax regime, with the Parent Company as tax consolidator.

Deferred tax is calculated, using the so-called liability method, on temporary differences between the book and tax bases of assets and liabilities. Deferred tax is calculated as a function of the expected timing of the reversal of the temporary differences, using the tax rate in force at the date of the expected reversal. A deferred tax asset is recognised only where it is probable that sufficient taxable income will be generated in subsequent years for the recovery thereof.

Non recurring items

In accordance with normal practice in Italy for listed companies, the Group has evidenced income components deemed to be non-recurring, since they pertain to events or transactions,

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

the occurrence of which is non-recurring, that is, resulting from transactions or facts that are not repeated frequently in the normal conduct of business activities; in detail:

- non recurring expenses relate to costs (such as tax and legal advices, costs incurred in the valuation of possible acquisition) the nature of which is considered to be unusual and non-recurring with respect to the business's ordinary operations;
- non recurring taxes relate to unusual changes in income and deferred taxes. In 2012, the main figure were due to retrospective modification in tax legislation (as the c.d. "Monti's maenuver" in 2012) and to non recurring write down of deferred tax asset related to the change in business plan assumptions.

For further information please refer to notes 5, 24 and 29 of these consolidated financial statements.

Earnings per share

The Company does not have any financial instruments listed on regulated markets; consequently, as permitted by IAS 33, the information on earnings per share is not provided in these notes.

Operating segments

As expressly permitted by IFRS 8, the Parent Company, not having had any financial instruments listed on regulated markets, did not provide any disclosures up until the prior year inclusive on operating segments. As from the current financial year, TeamSystem Group has deemed it appropriate to prepare such information (see Note 30) in order to provide a more complete picture and, consequently, IFRS 8 disclosures have also been provided for 2011 comparatives.

In accordance with IFRS 8—Operating segments, an operating segment is a component of an entity: a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity); b) whose operating results are reviewed regularly by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; c) for which discrete financial information is available. Within TeamSystem Group the following three operating segments have been identified, characterised by the autonomous nature of their products/services and production processes that have the aforementioned features:

- Software and Services (SWSS), that is, the operating segment consisting of all the Group companies operating in the software production/marketing sector;
- Education, that is, the segment consisting of companies operating in the professional training sector, being Gruppo Euroconference Spa, Optime Srl, Paradigma Srl and Education Team Srl;
- CAD/CAM, that is, the operating segment relating to Nuovamacut group companies.

Use of estimates

The preparation of the consolidated financial statements requires the Company to apply accounting policies and methods, which, in certain circumstances, depend on difficult and

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

subjective assessments that may be based on past experience and on assumptions that, from time to time, are considered reasonable and realistic based on relevant circumstances. The application of these estimates and assumptions affects the amounts presented in the consolidated financial statements, comprising the consolidated statement of financial position, the consolidated income statement and consolidated cash flow statement, as well as the disclosures provided. The actual amounts of the consolidated financial statement components, for which estimates and assumptions have been used, may differ from those reported, due to the uncertainty of assumptions and the conditions on which estimates are based. In particular, the uncertainty caused by the current economic and financial crisis has led to the need to make difficult assumptions regarding future business performance as reflected in the Business Plan.

Set out below is a listing of consolidated financial statement components that, more than others, require greater subjectivity, on the part of the Company, in the application of estimates and, for which, a change in the conditions of underlying assumptions used may have a significant impact on the financial statements of the consolidated companies:

- Business combinations (IFRS 3) and measurement of intangible assets: the process of allocation of goodwill to the assets of TeamSystem Group following a business combination is based on estimates and assumptions derived from the professional judgement of the Management. Professional judgement is also used to determine the most appropriate methodologies for measurement, and in certain cases provisional initial accounting has been opted for, as permitted by the accounting standard.
- Goodwill and other intangible assets: goodwill and other intangible assets with an indefinite useful life are tested annually for impairment and during the course of the year if there is any indication thereof. Other intangible assets are tested annually for impairment when there are indications that the carrying amount may not be recovered. When value in use needs to be computed, the Management estimate the cash flows expected from an asset or from the cash generating unit and choose an adequate discount rate in order to calculate the present value of the cash flows. Accordingly, the impairment test for fixed assets is performed using forecasts, which are naturally subject to uncertainty, of cash flow included in business plans approved by the relevant Board of Directors or in projections prepared by management of the Group companies in periods in which the business plan has not been updated for the insights needed to make strategic choices.
- Development expenses: the initial capitalisation of costs is subject to confirmation of the judgement of Management as to the technical and economic feasibility of the project, usually when the project has achieved a precise phase of the development plan. To determine the amount to be capitalised, the Company applies various assumptions regarding expected future cash flows from the asset, the discount rate to apply and the periods in which the expected benefits will occur.
- Deferred tax asset and liability: a deferred tax asset has been recognised until 31 December 2011 on interest expense exceeding gross operating income as defined by art. 96 of Italian TUIR—Testo Unico delle Imposte sui Redditi—(hereinafter “GOI”) carried forward, only to the extent that it is probable that there will be sufficient future GOI to allow the surplus to be utilised. A significant discretionary assessment is required to determine the amount that can be accounted for as a deferred tax asset. They have to estimate the probable timing and the amount of future GOI, as well as a planning strategy for future taxation.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

- **Employee benefits:** The cost of employee benefit plans is determined using actuarial assessments. An actuarial assessment requires the application of assumptions with respect to discount rates, the expected yield from investments, future wage increases, mortality rates and future increases in pensions. Due to the long term nature of these plans, the estimates are subject to a significant degree of uncertainty.
- **Derivatives:** the fair value of financial instruments not traded on an active market (for example, over-the-counter derivatives) is determined using valuation techniques. Company applies their own professional judgement to select the valuation methodology and the related assumptions based on market conditions at the end of each financial year.

Rounding adjustments of data

The figures included in the consolidated financial statements (as described above) and in the notes to the consolidated financial statements are expressed in thousands of Euros, except where otherwise indicated, since this is the currency used in the conduct of TeamSystem Group's operations.

Certain numerical figures contained in this consolidated financial statements, including financial information and certain operating data, have been subject to rounding adjustments due to the above presentation of numbers in thousands of Euros. Accordingly, in certain instances, the sum of the numbers in a column or a row in tables may not conform exactly to the total figure given for that column or row.

First-time adoption of IFRS 8 operating segments

As expressly permitted by IFRS 8, the Parent Company, not having had any financial instruments listed on regulated markets, did not provide any disclosures up until the prior year inclusive on operating segments. As from the current financial year, TeamSystem Group has deemed it appropriate to prepare such information (see Note 30) in order to provide a more complete picture and, consequently, IFRS 8 disclosures have also been provided for 2011 comparatives.

Accounting standards, amendments and interpretations adopted early by the company—new IAS 19

On 16 June 2011 the IASB issued an amendment to IAS 19—Employee benefits, which eliminates the option to defer the recognition of actuarial gains and losses under the "corridor" method and requires the entire deficit or surplus to be recorded in the statement of financial position and the separate recognition in the income statement of service cost and net interest, while actuarial gains and losses arising from the new measurement each year of assets and liabilities are required to be recognised in the statement of comprehensive income. Furthermore, the return on assets included in net interest is calculated on the basis of the discount rate used for liabilities and no longer on the expected return. The amendment, which is applicable retrospectively for annual periods beginning on or after 1 January 2013, has been applied early by TeamSystem Group as from 1 January 2012.

If (in compliance with IAS 1, following the early application of IAS 19 as just commented upon) the Company had restated the 2011 consolidated income statement and consolidated statement of comprehensive income, the Group's loss for the financial year would have been negatively impacted by approximately Euro 88 thousand (net of the tax effect), whereas the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

comprehensive result would have remained unchanged and neither would there have been any impact on the consolidated financial position. Consequently, considering the absolute immateriality of the amounts in question, the Company did not restate the consolidated income statement or the consolidated statement of comprehensive income for the 2011 financial year, while no impact related to the consolidated statement of financial position.

Accounting standards, amendments and interpretations applicable as from 1 January 2012 not relevant to the company

The following amendments, improvements and interpretations, effective as from 1 January 2012, apply to circumstances and cases that are not present within the Company as of the date of this annual financial report, but they could have an accounting impact on future transactions or agreements:

- On 7 October 2011 the International Accounting Standards Board ("IASB") published some amendments to **IFRS 7—Financial instruments: Disclosures**. The amendments were issued with the intention of enhancing derecognition disclosure requirements for transfers of financial assets. In particular, the amendments require greater transparency as to the risk exposure associated with transfers of financial assets, where the transferor has some form of continuing involvement in these assets. Furthermore, the amendments require further disclosures, where a disproportionate amount of these transactions takes place at the end of an accounting period. The adoption of these amendments did not have any impact on the financial statement disclosures.
- On 20 December 2011 the IASB issued a minor amendment to **IAS 12—Income taxes** that requires entities to measure deferred tax relating to investment property measured at fair value to reflect the manner in which the carrying amount of the asset will be recovered (through continued use or through sale). Specifically, the amendment introduces a rebuttable presumption that the carrying amount of an investment property measured at fair value in accordance with IAS 40 will be recovered entirely through sale and that the measurement of deferred tax, in jurisdictions in which tax rates are different, should reflect the rate applicable to the sale. The adoption of this amendment did not have any effect on the measurement of deferred tax at 31 December 2012.

Accounting standards, amendments and interpretations not yet applicable and not adopted early by the company

As of the date of this annual financial report the European Union's delegated bodies had not yet concluded the endorsement process required for the adoption of the amendments and standards described below:

- On 12 November 2009 the IASB published IFRS 9—Financial instruments: this standard was then amended on 28 October 2011. The standard, applicable retrospectively as from 1 January 2015, is the first part of a process in stages that has the objective of completely replacing IAS 39 and it introduces new criteria for the classification and measurement of financial assets and liabilities and for the derecognition of financial assets. In particular, for financial assets, the new standard uses a single approach based on the means of management of financial instruments and on the features of contractual cash flows from financial assets for the determination of the assessment criterion, replacing various provisions of IAS 39. Regarding financial liabilities, the main amendments relate to the accounting

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

treatment of changes in fair value of a financial liability designated as at fair value through profit or loss, in the event that these are due to a change in the credit risk of the liability in question. In accordance with the new standard, these changes are to be presented in other comprehensive income and shall no longer be presented in the income statement.

- On 19 March 2011 the IASB published an amendment to IFRS 1 First-time adoption of International Financial Reporting Standards—Government Loans that amends the reference to accounting for government loans in the transition to IFRS (and, accordingly, it is not applicable to the Company).
- On 17 May 2012 the IASB published the document Annual Improvements to IFRSs: 2009-2011 Cycle, a collection of amendments to standards as part of the annual process of improvements thereto that concentrates on amendments considered necessary, but not urgent. Set out below are those that will lead to a change in presentation, recognition and measurement of financial statement components, with the omission of those that will only lead to a change in terminology or editorial changes with minimum effects in accounting terms, or those that have an effect on standards or interpretations not applicable to the Company:
 - IAS 1 Presentation of financial statements—Comparative information: this clarifies that, if additional comparative information is provided, this has to be presented in accordance with IAS/IFRS. Moreover, it clarifies that, if an entity changes an accounting policy or makes a retrospective restatement or reclassification, the entity is required to present an opening statement of financial position for the comparative period (“third statement of financial position”), whereas the explanatory notes are not required to provide comparative disclosures, not even for the “third statement of financial position”, apart for the components affected.
 - IAS 16 Property, plant and machinery —Classification of servicing equipment: this clarifies that servicing equipment has to be classified within property, plant and equipment if used for more than one financial year, or, otherwise, in inventory.
 - IAS 32—Financial instruments: presentation—Tax effect of a distribution to holders of equity instruments and costs of equity instrument transactions: this clarifies that the tax effect of a distribution to holders of equity instruments should be accounted for in accordance with IAS 12.
 - IAS 34 Interim financial reporting—Total assets for a particular reportable segment: this clarifies that total assets need to be disclosed only when the amount is regularly provided to the chief operating decision maker and there has been a material change in the total amount disclosed in the entity’s previous annual financial statements for that reportable segment.

The effective date for the proposed amendments is foreseen for annual periods beginning on or after 1 January 2013, with early application permitted.

- On 28 June 2012 the IASB published the document Consolidated Financial Statements, Joint Arrangements and Disclosure of Interests in Other Entities: Transition Guidance (Amendments to IFRS 10, IFRS 11 and IFRS 12). In the first place, this aims to clarify the intentions of the Board with reference to the transition rules of IFRS 10 Consolidated financial statements. The document defines the date of initial application of IFRS 10 as “the beginning of the annual period in which IFRS 10 is applied for the first time”. Accordingly, with entities with a

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

financial year that coincides with the calendar year and which apply IFRS 10 for the first time to financial statements for the year ending 31 December 2013, the date of initial application will be 1 January 2013. If the conclusions regarding consolidation are the same as those under IAS 27 Consolidated and separate financial statements / SIC 12 Consolidation — Special Purpose Entities and under IFRS 10 at the date of initial recognition, the entities will have no obligation. Likewise, no obligation will arise if an equity interest is disposed of during the course of a comparative period (and, as such, is no longer present at the date of initial application). The document proposes to amend IFRS 10 to clarify how an investor should retrospectively restate the period(s) and comparatives if the conclusions regarding consolidation are not the same as those under IAS 27 / SIC 12 and IFRS 10 at the date of initial application. In particular, when it is not practicable to make a retrospective restatement as defined above, an acquisition/sale will be accounted for at the beginning of the comparative period presented, with a consequent restatement of retained earnings.

- On 31 October 2012 amendments were issued to IFRS 10, IFRS 12 and IAS 27 Investment Entities that introduce an exception from consolidation of subsidiaries by investment entities, except where the subsidiaries provide services relating to the investment activities. Pursuant to those amendments, an investment entity should measure those investments at fair value through profit or loss. To qualify as an investment entity, it has to:
 - obtain funds from one or more investor for the purpose of providing those investor(s) with investment management services;
 - commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both;
 - measure and evaluate the performance of substantially all of its investments on a fair value basis; and
 - these amendments apply to annual periods beginning on or after 1 January 2014, with early application permitted.

All the above changes, according to Company's evaluation, will not cause significant impacts on its consolidated financial statements, rather than some minor disclosure changes in the case.

As of the date of this annual financial report the European Union's delegated bodies had not yet concluded the endorsement process required for the adoption of the amendments and standards described below and which the Company has decided not to adopt early:

- On 12 May 2011 the IASB issued IFRS 10—Consolidated financial statements that will replace SIC-12 Consolidation—Special Purpose Entities and part of IAS 27—Consolidated and separate financial statements, which will be renamed Separate financial statements and will outline the accounting treatment of equity investments in separate financial statements. The new standard moves away from existing standards, identifying the concept of control as a determining factor for the purposes of consolidation of a company in the parent company's consolidated financial statements. Moreover, it provides guidance for the determination of the existence of control where it is difficult to ascertain. The standard is applicable retrospectively as from 1 January 2013.
- On 12 May 2011 the IASB issued IFRS 11—Joint Arrangements, which will replace IAS 31—Interests in Joint Ventures and SIC-13—Jointly Controlled Entities—Non-Monetary Contributions by Ventures. The new standard provides criteria for the identification of joint

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

arrangements based on rights and obligations deriving from the arrangements, rather than on the legal form thereof and establishes that the equity method has to be used to account for entities subject to joint control in consolidated financial statements. The standard is applicable retrospectively as from 1 January 2013. Subsequent to the adoption of IAS 28—Investments in associates, it was amended to include in the scope of its application, as from the effective date of the standard, equity investments in entities subject to joint control.

- On 1 May 2011 the IASB issued IFRS 12—Disclosure of interests in other entities, which is a new and complete standard on additional disclosures to be provided for all types of equity investments, including subsidiaries, joint arrangements, associates, special purpose entities and other non-consolidated vehicles. The standard is applicable retrospectively as from 1 January 2013.
- On 12 May 2011 the IASB issued IFRS 13—Fair value measurement, which explains how fair value has to be determined for the purposes of financial statements and it applies to all standards that require or permit measurement at fair value or fair value disclosures. The standard is applicable prospectively as from 1 January 2013.
- On 16 December 2011 the IASB issued some amendments to IAS 32—Financial instruments: presentation, to clarify the application of certain criteria present in IAS 32 for offsetting financial assets and liabilities. The amendments are applicable retrospectively for annual periods beginning on or after 1 January 2014.
- On 16 December 2011 the IASB issued some amendments to IFRS 7—Financial instruments: disclosures. The amendment requires disclosure of the effect or the potential effect on the financial position of offsetting arrangements for financial assets and liabilities. The amendments are applicable to annual periods beginning on or after 1 January 2013 and for interim periods subsequent to that date. The information has to be provided retrospectively.
- On 16 June 2011 the IASB issued an amendment to IAS 1—Presentation of financial statements, which requires companies to group together items within other comprehensive income that may be reclassified to the profit or loss section of the income statement. The amendment is applicable to annual periods beginning on or after 1 July 2012.
- On October 2011 IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine was published. This applies to waste removal costs incurred by surface mining operations during the production phase of the mine. This interpretation applies to annual periods beginning on or after 1 January 2013.

During the course of 2012 the subsidiary TeamSystem Ancona Srl exercised the purchase option on previously leased land and buildings and, accordingly, there was no impact on the consolidated financial statements.

“Land” at 31 December 2012 consists of approximately Euro 997 thousand of freehold land owned by the aforementioned company and approximately Euro 901 thousand of land owned by the Parent Company. “Buildings”, consist of Euro 3,961 thousand relating to the Parent Company and approximately Euro 1,894 thousand relating to the subsidiary TeamSystem Ancona Srl.

The most significant additions in 2012 relate to “Other assets” of approximately Euro 640 thousand and “Equipment” of approximately Euro 61 thousand.

Total	283,990	75	(3)	6,259	(24,194)	266,126

With respect to additions, in 2012, totalling Euro 6,259 thousand (2,616 thousand Euro at December 2011), the main expenditures are related to:

- a) capitalised development costs of Euro 2,183 thousand relating to new products and / or new software modules developed mainly by the Parent Company during the course of 2012 and which started being marketed in the same financial year (Euro 1,076 thousand in 2011);
- b) assets in process of formation capitalised mainly by the Parent Company of Euro 2,084 thousand with respect to development costs of new products and / or new

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

software modules, which at 31 December 2012 had not yet been completed or for which the marketing and sales phase had not yet started (Euro 1,085 thousand in 2011).

During the 2012 financial year the Parent Company initiated a complex long term project of technological renewal ("PROTEO 360"). This initiative, which is highly strategic in the field of information technology, is aimed at technological upgrading of the Group's entire software portfolio and application platforms by means of the renewal and innovation of existing software products and the alignment of the range to more recent and innovative technologies. The duration of the research and development on "PROTEO 360" (Product Renewal Project) is approximately 5 years, with an overall expenditure budget of approximately Euro 16 million. In any case, the benefits of the project for the renewal of the software infrastructure will already be evident during the interim phase of gradual release of the innovative applications-functionalities. During the 2012 financial year expenditure was incurred of approximately Euro 2.4 million.

3 Goodwill

	As of 31 Dec 2010	Other movements	Additions	(Impairments)	As of 31 Dec 2011
Goodwill CGU SWSS	314,794		11,788		326,582
Goodwill CGU Education . . .	20,645		15		20,660
Goodwill CGU CAD/CAM . . .	6,410				6,410
Total	341,849		11,803		353,652

	As of 31 Dec 2011	Other movements	Additions	(Impairments)	As of 31 Dec 2012
Goodwill CGU SWSS	326,582		4,028	(75,000)	255,610
Goodwill CGU Education . . .	20,660		6,636		27,296
Goodwill CGU CAD/CAM . . .	6,410				6,410
Total	353,652		10,664	(75,000)	289,317

"Goodwill" (amounting to Euro 289,317 thousand at 31 December 2012) relates to the acquisition in 2010 of TeamSystem Group from HG Capital via the special purpose vehicle Titan BidCo Srl, with the exception of investments made in 2011 and 2012.

The Goodwill relating to the acquisition of TeamSystem Group primarily consists of the excess consideration paid over the current value of the assets and liabilities acquired and it was allocated to the three CGU Software and Services (SWSS), Education and CAD/CAM, net of a writedown of Euro 75 million made in the 2012 financial year and which is commented upon later.

The increases in "Goodwill" recorded in 2012 relate to the following:

- with respect to the Software and Services CGU, Euro 3,565 thousand arising from the acquisition of H-Umus Srl and approximately Euro 462 thousand arising from the acquisition of Digita Srl;

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

- with respect to the Education CGU, the increase in goodwill is linked to the acquisitions of the companies Optime Srl and Paradigma Srl, the holdings in which were then contributed by the Parent Company to Education Team Srl.

The purchased Goodwill arising in 2012 has been determined provisionally, as determined and specified in Note 36 to these consolidated financial statements and to which reference should be made. In this regard, it should be noted that the definition of purchased Goodwill arising in 2011 and which was considered to be provisional for the purposes of the 2011 consolidated financial statements, did not lead to any differences with respect to the amount recorded in those consolidated financial statements and, accordingly, it has not been necessary to restate the 2011 consolidated financial statements.

Impairment Tests

The goodwill pertaining to each of the aforementioned CGUs is subject to impairment testing at least annually, except for acquisitions made at the year end, for which the consideration paid is representative of fair value.

With respect to impairment tests, steps were taken to determine the recoverable amount (so-called Enterprise Value) of each CGU of TeamSystem Group as a whole, by means of the application of discounted cash flow methodology. The test was performed by discounting prospective cash flow for 2013-2017 as reported by the Business Plan approved by the Board of Directors on 29 March 2013; these forecasts evidence growth rates in turnover, EBITDA and cash flow that are more conservative with respect to TeamSystem Group's historical growth rates, to take account of the considerable uncertainty of the Italian economic environment.

Beyond the time span of the Business Plan, a terminal value was determined assuming an operating cash flow (Net operating profit Less Adjusted Tax—NOPLAT) suitably normalised to maintain conditions of normal business operations. In the choice of the growth rate to apply to NOPLAT, it was established that, consistent with the development foreseen by the Business Plan and with historical growth, there was a reasonable expectation of growth of 1.90% (so-called g rate; the 2011 impairment test adopted a 2.0% g rate).

In addition to that for the g rate, the main assumptions adopted regard the estimate of the weighted average cost of capital ("WACC") of 9.78% (9.80% was the rate used for the 2011 impairment test) for the SWSS CGU and the CAD/CAM CGU and of 8.78% (8.07% was the rate used for the 2011 impairment test) for the Education CGU.

The impairment tests performed required a writedown of Euro 75 million to be recorded in the consolidated financial statements for the year ended 31 December 2012, entirely related to the SWSS CGU; there was no evidence of impairment for the Education and CAD/CAM CGUs.

The Company have also performed sensitivity analysis, by applying more prudent assumptions for the determination of WACC and g-rate parameters and the results of this analysis for the three CGU are set out below, stated that the impairment loss of Euro 75 million highlighted in the sensitivity analysis related to the CGU SWSS has been recorded into the consolidated

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

financial statements and consequently the impacts of sensitivity have to be interpreted taking into consideration such aspect.

CGU SWSS		WACC

5 Deferred tax assets and liabilities

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Deferred tax assets	1,414	8,049	(6,634)	– 82.4%
Deferred tax liabilities	77,985	83,093	(5,108)	– 6.1%

The deferred tax asset recorded by the Group companies mainly relates to the provision for doubtful accounts, the provision for agents' indemnity and other provisions for risks and/or provisions disallowed for tax purposes; these tax assets are not subject to any time maturity/expiration. The change since prior year is essentially attributable to the non-recurring write-down of the deferred tax asset of Euro 6,794 thousand, recorded in prior years and relating to a portion of interest expense temporarily non-deductible in the year it is incurred pursuant to Art. 96, paragraph 4. The write-down of this asset and the non-recognition of a deferred tax asset pertaining to the portion theoretically accruing in the year is due to the expected lengthening of the timing of the recoverability thereof, as indicated by forecasts included in the Business Plan.

TeamSystem Group

Total	83,092	8	40	489 (5,645)	77,985

The main decrease in the deferred tax liability that took place in 2012 relates to an amount of approximately Euro 4,635 thousand concerning the reversal of the deferred tax component pertaining to the amortisation of intangible assets (software, brands, customer relationships and other IFRS assets) identified on allocation of the price paid for the acquisition of TeamSystem Group.

Considering that all companies belonging to the Group are located in Italy, the only actual significant difference between effective and nominal tax rate relates to the above described write off of deferred tax assets on interest expenses.

Overall, changes in the deferred tax asset and deferred tax liability had a negative impact on the consolidated income statement of Euro 1,950 thousand and a positive impact on the consolidated statement of comprehensive income of Euro 386 thousand.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

6 Inventories

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Raw and ancillary materials	154	48	106	n.m.
Finished products and goods	1,207	1,484	(278)	– 18.7%
Advances		71	(71)	– 100.0%
(Allowance for slow-moving inventory)	(27)	(52)	25	– 48.1%
Total	1,334	1,552	(218)	– 14.1%

The closing inventory of finished products and goods includes hardware products not yet delivered at the consolidated statement of financial position date, as well as consumables, accessories, third party software modules and licences for resale, characterised by a high turnover.

7 Trade receivables

The Trade receivables balance is comprised as follows:

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Trade receivables	49,853	49,761	92	0.2%
(Allowance for doubtful receivables)	(3,387)	(2,876)	(511)	17.8%
Total	46,466	46,885	(419)	– 0.9%

Trade receivables amount in total to approximately Euro 49,853 thousand, gross of the provision for doubtful accounts.

	As of 31 Dec 2010	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2011
Allowance for doubtful receivables	2,763	73		1,223	(1,183)	2,876
Total	2,763	73		1,223	(1,183)	2,876

	As of 31 Dec 2011	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2012
Allowance for doubtful receivables	2,876	2		1,680	(1,171)	3,387
Total	2,876	2		1,680	(1,171)	3,387

The increase in the provision for doubtful accounts is to take account of the expected realisable value of receivables not yet collected at 31 December 2012. The utilisations of the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

provision are due to the write off of receivables, based on elements of certainty and precision, or based on ongoing insolvency proceedings.

8 Tax receivables

The "Tax receivables" balance is comprised as follows:

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
VAT receivables	471	58	413	n.m.
Income taxes receivable	2,029	1,755	274	15.6%
Other tax receivables	499	246	253	n.m.
Total	2,999	2,059	940	45.6%

"Income tax receivable" mainly relates to an amount receivable by the Group companies concerning non-recurring income from a reimbursement of IRES due to the failure to make an IRAP deduction (Euro 1,392 thousand) with respect to prior years. This income originates from a law introduced in 2012.

9 Other receivables

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Deposits	315	246	70	28.4%
Receivables from employees	51	47	5	9.9%
Other receivables	608	409	199	48.6%
Accrued income	13	12	1	12.5%
Prepayments	5,666	5,344	322	6.0%
Total	6,654	6,058	597	9.8%

"Other receivables" consist of an amount of approximately Euro 157 thousand due to the Parent Company, following the temporary suspension of the payment of contributions decided by the Italian government in connection with the earthquake that damaged the ancillary establishments in Campobasso and Fabriano in prior years (see also Note 15).

Prepayments mainly relate to the portion of costs of software subscriptions (pertaining essentially to Nuovamacut Group Companies) attributable to future financial years on the basis of the contractual duration. The deferred income arising from the same accounting treatment adopted for the corresponding income is disclosed in Note 17.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

10 Net financial indebtedness (net of shareholder loan)

Net consolidated financial indebtedness at 31 December 2012, with the exception of the shareholder loan (Note 11), is set out as follows and shows a total amount in line with 31 December 2011.

	As of 31 Dec 2012			As of 31 Dec 2011		
	Current	Non-current	Total	Current	Non-current	Total

(a) + (b) + (c) + (d) = Total . . .	(1,094)	(168,307)	(169,402)	(214)	(169,643)	(169,857)

Cash and bank accounts at 31 December 2012 amounted to Euro 19,068 thousand (Euro 13,826 as 31 December 2011).

At 31 December 2012 the market value of option contracts on interest rates held for trading by the Parent Company is approximately Euro 3 thousand and is included in "Other current financial assets".

At 31 December 2011 the amounts due to banks relate essentially to loans from the bank, Unicredit, obtained by the Parent Company for a total of Euro 180,823 thousand (comprising interest accrued at that date of approximately Euro 83 thousand) relating to the financing facilities "Facility A" (Euro 62.2 million), "Facility B" (Euro 100 million) and "Acquisition Facility" (Euro 18.5 million). For all the lending facilities, the interest rates applied are equal to EURIBOR (corresponding to the interest period duration decided from time to time) increased by a spread determined periodically in relation to the outcome of certain economic-financial parameters. At the consolidated statement of financial position date, the variable spread was 4% for Facility A and for the Acquisition Facility and 4.5% for Facility B. Facility A is repayable in six monthly installments as from June 2011. Facility B is repayable in one instalment on the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

contractual maturity of the loan in September 2017. The "Acquisition" facility is repayable in six monthly instalments as from June 2014. It should be noted that, for the measurement of financial liabilities at amortised cost, financing fees due to banks represent pro-rata temporis amortisation of ancillary costs incurred to obtain financing, whereas prepaid financing fees represent the amount of ancillary charges relating to financing facilities not yet used, but for which it is believed that they will be used in the following financial year.

Set out below are the movements (solely of the capital elements) in the aforementioned Unicredit facilities during the course of 2012:

	As of 31 Dec 2010	(Reimbursement)	New draught	Capitalization	Other movements	As of 31 Dec 2011
Facility A	77,800	(4,668)				73,132
Facility B	100,000					100,000
Facility Acquisition			3,000			3,000
Facility Revolving						
Total	177,800	(4,668)	3,000			176,132

	As of 31 Dec 2011	(Reimbursement)	New draught	Capitalization	Other movements	As of 31 Dec 2012
Facility A	73,132	(10,892)				62,240
Facility B	100,000					100,000
Facility Acquisition	3,000		15,500			18,500
Facility Revolving						
Total	176,132	(10,892)	15,500			180,740

Facility A, Facility B and the Acquisition facility are secured by pledges over the quotas of the Parent Company and the subsidiary Group Euroconference Spa, by pledges over trade receivables, over brands, as well as a special lien over fixed assets and inventory of the Parent Company.

Furthermore, on a quarterly/annual basis, a check is made of compliance with certain covenants linked to the following ratios and components of the consolidated financial statements (as specified by the terms of the loan agreements):

- 1) ratio of "Cash-Flow" to "Debt Service";
- 2) ratio of "Financial Charges" to "EBITDA".
- 3) ratio of "Senior Net Debt" to "EBITDA";
- 4) ratio of "Total Net Debt" to "EBITDA";
- 5) level of capital expenditure on tangible fixed assets and intangible assets "Capex".

The Group's financial projections do not indicate any critical issues concerning its ability to generate sufficient cash flow in 2013 to meet its contractual commitments. Regular and systematic historical and prospective analyses of contractual financial covenants are performed; from the computation prepared by Company for 2012, the contractual financial parameters have been complied with, whereas, with respect to 2013 forecasts, it is reasonable to believe

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

that the objective of compliance with these conditions will be met. Moreover, it should be noted that TeamSystem Group' Management is considering whether to proceed with extraordinary operations in order to refinance the Group, with the aims being to increase its financial flexibility and to better support its mid-long term development projects.

The Vendor Loan (Euro 15,515 thousand at 31 December 2012 and Euro 17,056 at 21 December 2011) relates to put / call options and/or earn-outs due to non-controlling shareholders of some consolidated subsidiaries (Metodo Spa, Lexteam Srl, Inforyou Srl, Gruppo Euroconference Spa, I.S.P. Srl, TeamSystem Communication Srl, TeamSystem Akron Srl, Danea Soft Srl, H-Umus Srl, Digita Srl e di Education Team Srl). As already explained in "Basis of consolidation" paragraph, TeamSystem Group, normally at the same time as the acquisition of controlling stakes in an investee, enters into put and call option agreements for the residual stake held by non-controlling owners of the acquiree. For those cases, where part of the acquisition takes place through the stipulation of a binding option agreement, with the simultaneous presence of put and call clauses, the investee is consolidated and the estimated value of the exercise price of the put / call is included in the cost of acquisition and contributes to the overall determination of goodwill; a debt towards minorities (the above called " vendor loan") is accounted for, subject to fair value measurement and subsequent changes.

Concerning the 2012 acquisitions (Digita Srl, Education Team and H-Umus Srl) it should be noted that the measurement of goodwill has been considered as a provisional measurement (according to IFRS 3); consequently, the related vendor loans represent the today best estimates and can be subject to changes.

Lastly, it should be noted that, with reference to the allocation of the definitive "Goodwill" pertinent to the acquisition of Danea Srl, the allocation made provisionally in the financial statements for the year ended 31 December 2011 has been confirmed without the need for restatement of the financial statements for the year ended 31 December 2011, whereas the change in fair value of the vendor loan payable pertaining to that acquisition has been expensed in the year (approximately Euro 839 thousand) as it originated from decisions/ measurement based on elements subsequent to the acquisition date.

Other financial liabilities at 31 December 2012 include IRS derivatives at market value of Euro 2,758 thousand. These derivative contracts were entered into by the Parent Company and do not qualify as hedging for the purposes of IFRS.

11 Shareholder loan

The balance of Euro 82,083 thousand (Euro 77,986 at 31 December 2011) relates to a loan provided by the holding company Titan Luxco 3 S.à.r.l. Approximately, Euro 2,801 thousand (Euro 2,832 at 31 December 2011) was classified within current liabilities.

The interest rate applied equates to the "Cash margin" (6.00%) to which has been added the PIK margin (of 5.80%) arriving at an annual total of 11.80%. The repayment of the loan (subject to the extinction of all existing facilities) is envisaged no later than 12 months after the repayment of the last senior facility (that is, Facility B granted by Unicredit as previously indicated in Note 10).

At 31 December 2012, TeamSystem Group's quota capital, which coincides with that of the Parent Company, was fully subscribed and paid in and consisted of one quota. No change has occurred in the financial year.

"Other income (expenses) net of the tax effect" relate primarily to the recognition of actuarial differences in accordance with the new standard "IAS 19 revised". The early application thereof had a negative effect on comprehensive income of Euro 1,018 thousand net of tax effect. There was no significant effect on the related opening balances.

The line labeled "Transactions with non-controlling interests" shows the change in equity pertaining to the Group (and that pertaining to non-controlling interest) as a consequence of the decrease in the non-controlling interest following the acquisition of further stakes by Group companies, also by means of the stipulation of agreements for put and call options on the shares/quotas not yet held. In particular, in the 2012 financial year the acquisition of a further 19.46% holding in Nuovamacut Nord Ovest srl led to a decrease in "retained earnings

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

arising on consolidation" of approximately Euro 31 thousand and a decrease of approximately Euro 243 thousand in non-controlling interest; the acquisition of a further 7.5% holding in Nuovamacut Nord Est srl led to a decrease in "retained earnings arising on consolidation" of approximately Euro 31 thousand and a decrease of approximately Euro 20 thousand in non-controlling interest.

In accordance with common Italian practice, the table below shows the reconciliation of Net Equity and Profit (Loss) of the Parent Company and Net Equity and Profit (Loss) of the consolidated financial statements for the year ended 31 December 2012.

Reconciliation between profit (loss) and net equity of the parent company and profit (loss) and net equity of the consolidated financial statement

13 Employee termination indemnities

	As of 31 Dec 2010	Change in consolidation area	Other movements	Service cost	Interest cost	Actuarial (gain) / loss	(Benefits paid)	As of 31 Dec 2011
Employee termination indemnities	6,382	308	0	651	287	(122)	(498)	7,008
Total	6,382	308	0	651	287	(122)	(498)	7,008

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

	As of 31 Dec 2011	Change in consolidation area	Other movements	Service cost	Interest cost	Actuarial (gain) / loss	(Benefits paid)	As of 31 Dec 2012
Employee termination indemnities	7,008	179	(11)	677	312	1,405	(654)	8,915
Total	7,008	179	(11)	677	312	1,405	(654)	8,915

In accordance with IAS 19, employee termination indemnities are considered to be a defined benefit plan to be accounted for by applying the "Projected Unit Credit Method," which consists of discounting an estimate of the amount to be paid to each employee on termination of their employment and which involves the determination of:

- **initial DBO** , that is, the present value of employee service payments expected to be made in the future, already available at the beginning of the period;
- **service cost**, that is, the present value of employee service expected to be made in the future relating to services provided in the current period;
- **interest cost**, namely, interest on the provision at the beginning of the period and on corresponding movements in the period being considered;
- **benefits paid and transfers in/out** represent all payments and transfers in and out relating to the period being considered, being elements that lead to the utilisation of the provision;
- **the actuarial gain and loss**, namely, the actuarial gain/loss relating to the valuation period.

The estimate, performed by an independent actuary, was computed on the basis of the following assumptions:

	Financial year 2012	Financial year 2011
Turnover	4.00%	4.00%
Discount rate	3.20%	4.60%
Anticipation rate	1.00%	1.00%

The discount rate used for the determination of the present value of the provision for severance indemnities was determined with reference to the IBoxx Corporate A index for December 2012, whereas the discount rate used for the determination of the liability at 31 December 2011 was determined with reference to the IBoxx Eurozone Corporate AA index. It should be noted that if the Company had not changed the criteria for estimating the provision for severance indemnities and had it adopted the same discount rates applied for the measurement of severance indemnities at 31 December 2011, the amount of the liability would have been approximately Euro 559 thousand higher.

Furthermore, it should be noted that, should the annual discount rate vary by plus or minus ¼%, the provision for severance indemnities would be approximately Euro 8,656 thousand and Euro 9,189 thousand, respectively.

As described in the section relating to accounting standards, the amendment to IAS 19—Employee benefits, eliminates the option to defer the recognition of actuarial gains and losses under the "corridor" method and requires the entire deficit or surplus to be recorded in the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

consolidated statement of financial position and the separate recognition in the consolidated income statement of service cost and net interest, while actuarial gains and losses arising from "remeasurement" each year of assets and liabilities are required to be recognised in the consolidated statement of comprehensive income. Consequently, the change included in the 2012 consolidated statement of comprehensive income (Euro 1,018 thousand) equates to the actuarial gain and loss (Euro 1,405 thousand) as indicated above, net of the tax effect of Euro 386 thousand.

If (in compliance with IAS 1, following the early application of IAS 19 as just commented upon) the Company had restated the 2011 consolidated income statement and consolidated statement of comprehensive income, the Group's results for the financial year would have been negatively impacted by approximately Euro 88 thousand (net of the tax effect), whereas the comprehensive result would have remained unchanged and neither would there have been any impact on the consolidated statement of financial position. Consequently, considering the absolute immateriality of the amounts in question, the Company did not restate the consolidated income statement and consolidated statement of comprehensive income for the 2011 financial year.

14 Provisions for risks and charges

	As of 31 Dec 2010	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2011
Provision for pension and similar obligations	975	279		84	(290)	1,048
Provision for litigations	628			149	(15)	763
Other provision for risks and charges . .	302	2		65	(254)	115
Total	1,906	280		298	(559)	1,926

	As of 31 Dec 2011	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2012
Provision for pension and similar obligations	1,048		3	114	(229)	937
Provision for litigations	763	27		4	(179)	614
Other provision for risks and charges . .	115	189	(3)	97	(93)	304
Total	1,926	215	0	214	(501)	1,856

The "Provision for pensions and similar obligations" amounts to Euro 937 thousand at 31 December 2012 and mainly relates to the Provision for agents' indemnity.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

The Provision for litigation at 31 December 2012 amounts to Euro 614 thousand and mainly refers to some tax arguments within preliminary report issued by the Italian Tax Authority in relation to the Company. Despite of this, the Group is not party to any other significant litigation or disputes.

15 Other non current liabilities

Other non current liabilities" amount to Euro 949 thousand at 31 December 2012 (Euro 1,012 thousand at 31 December 2011) and essentially relate to Parent Company balances:

- Euro 95 thousand relating to income tax, VAT and other taxes of TeamSystem Fabriano Srl, merged by absorption into TeamSystem Srl in 2001 ;
- Euro 854 thousand relating to social contributions of which Euro 827 thousand relates to the ancillary establishment in Campobasso and Euro 27 thousand relates to the ancillary establishment in Fabriano.

It should be noted that Legislative Decree 61/2008 (ratified by Law 103/2008) and Legislative Decree 62/2008 (ratified by Law 201/2008) have provided for the payment, at an amount reduced by 40%, without any additional penalties and interest, by means of 120 monthly instalments, of taxation and contributions suspended as a result of regulatory provisions for areas hit by the earthquake of 1997 (Marche and Umbria).

16 Current tax liabilities

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
VAT liabilities	203	176	26	14.80%
Income tax payables	1,051	381	669	175.50%
Liability resulting from tax consolidation	10	12	(2)	– 18.37%
Withholdings	1,906	1,827	78	4.3%
Other tax liabilities	1,498	3,413	(1,915)	– 56.1%
Total	4,666	5,810	(1,143)	– 19.7%

"Other tax liabilities" almost entirely relate to substitute tax payable, whose payment is divided by instalments, (triggered by the Parent Company) due to the effect of the step-up of the tax basis (during 2011) of the asset "TeamSystem Software" on the allocation of the purchase price for the acquisition of TeamSystem Group by the private equity firm HG Capital.

Deferred revenues	8,783	7,830	953	12.2%
Total	22,448	21,053	1,395	6.6%

“Employee payables” of Euro 6,403 thousand relate to remuneration and 2012 performance bonuses (not yet paid at the year end) payable to employees, directors and collaborators, as well as accruals for holiday pay and leave of absence. It should be noted that there are no employee bonuses due beyond one year worthy of mention.

“Advances” at 31 December 2012 amount to Euro 3,004 thousand and mainly relate to advances received by the “Education” SBU relating to training services being provided at the consolidated statement of financial position date.

“Deferred revenues” (Euro 8,783 thousand) mainly relates to the portion of revenues for software subscriptions (pertaining essentially to Nuovamacut Group companies) attributable to future financial years, based upon the contract duration.

18 Revenue

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Sales and subscriptions of hardware . .	7,576	8,829	(1,253)	– 14.2%
Sales and subscriptions of software . . .	109,696	100,056	9,640	9.6%
Sales of other products	1,714	1,654	60	3.6%
Sales of other services	18,068	19,073	(1,004)	– 5.3%
Education	13,715	11,902	1,813	15.2%
Total	150,769	141,513	9,256	6.5%

For comments relating to revenue trends, reference should be made to the Note 30 (Operating segments).

19 Other operating income

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Credit notes and expenses reimbursements	948	852	96	11.2%
Other revenues	629	187	442	236.0%
Total	1,577	1,040	538	51.7%

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

20 Consumption of raw and other materials

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
HW purchases	4,692	5,400	(708)	– 13.1%
Third parties' SW for resale	10,744	10,854	(111)	– 1.0%
Handbooks and forms	192	214	(22)	– 10.4%
Materials for education	497	459	38	8.3%
Fuel	1,167	969	198	20.4%
Other materials	909	928	(19)	– 2.1%
Change in inventory of raw materials and consumables	134	60	75	125.7%
Total	18,334	18,883	(549)	– 2.9%

The cost of "Consumption of raw and other materials" mainly relates to the cost of sales of hardware, third party software and manuals.

21 Cost of services

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Agents commissions and other costs . .	3,372	3,040	331	10.9%
Consulting and third parties services . .	7,591	5,662	1,929	34.1%
Administrative, tax and legal expenses	1,273	1,297	(24)	– 1.8%
Education—Consulting and copyrights	3,388	2,528	861	34.1%
Magazines—Consulting and copyrights	711	690	21	3.0%
Other costs for education services	1,170	1,276	(106)	– 8.3%
Advertising and marketing	2,480	1,655	825	49.8%
Car rentals	1,964	1,851	113	6.1%
Consumptions	1,920	1,804	117	6.5%
Other services	6,024	5,622	402	7.1%
Services capitalized as development costs	(1,264)		(1,264)	
Total	28,629	25,425	3,204	12.6%

"Other services" mainly comprise:

- a) costs (incurred by the Parent Company) of approximately Euro 564 thousand relating to the activation and/or the provision of services such as TeamSystem Electronic Services, tax return assistance etc.;
- b) costs for shipping and transport of Euro 1,333 thousand;
- c) costs for reimbursement of expenses of Euro 1,789 thousand;
- d) insurance costs of Euro 233 thousand;
- e) repairs and maintenance costs of Euro 368 thousand.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Mainly as a result of the project for renewal of "PROTEO 360" software (as previously commented upon in Note 2 to these consolidated financial statements) the Parent Company resorted to external resources (with respect to employed staff) to assist with the completion of the project for innovation of its product portfolio. The related expenditure (approximately Euro 1,264 thousand) has thus been reversed from operating costs and has been capitalised.

22 Personnel cost

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Wages	34,361	30,803	3,559	11.6%
Social securities	10,108	9,070	1,038	11.4%
Employee termination indemnities . . .	1,899	1,664	235	14.1%
Other personnel expenses	40	32	9	27.4%
Total personnel expenses	46,408	41,568	4,840	11.6%
Freelancers and collaborators fees . . .	846	830	16	1.9%
Directors' fees and related costs	3,509	3,318	191	5.8%
Personnel capitalized as development costs	(3,004)	(2,294)	(710)	31.0%
Total	47,759	43,422	4,337	10.0%

With respect to the cost of employee termination indemnities, reference should be made to Note 13 thereon.

23 Other operating expenses

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Rents	2,021	1,712	309	18.0%
Rentals	373	235	138	59.0%
Other expenses for use of third parties assets	29	34	(5)	- 15.0%
Other taxes	206	149	57	38.6%
Losses from assets disposals	8	27	(19)	- 69.5%
Other expenses	299	243	56	22.9%
Total	2,937	2,401	536	22.3%

The growth in "Other operating costs" since the prior financial year is basically due to the growth in costs for "Rent" (Euro 309 thousand) consequent to changes in the scope of consolidation.

24 Non-recurring expenses

Non-recurring costs for the year ended 31 December 2012 amount to Euro 3,777 thousand (Euro 3,146 thousand for the year ended 31 December 2011) and relate to tax and legal advice and other sundry expenses, the nature of which is deemed to be non-recurring with respect to the business's normal operations. In particular, these costs include advisory costs incurred for acquisitions of equity investments (Euro 1,408 thousand) and management consulting

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

(Euro 1,345 thousand) performed by leading international consulting firms aimed at the improvement of commercial performance and the quality of the Group's product range as well as the improvement of the efficiency of business processes (project Blue Print).

25 Allowance for doubtful receivables and other risk provisions

This reflects accruals made to the provision for doubtful accounts and the provision for risks (Euro 1,905 thousand for the year ended 31 December 2012 and Euro 1,750 thousand for the year ended 31 December 2011).

26 Impairment of non current assets

This exclusively reflects the writedown of Euro 75 million of part of the carrying value of Goodwill as a result of the outcome of impairment tests.

27 Finance income

"Finance income" is comprised of the following:

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Interests and other finance income . . .	2,500	1,921	579	30.2%
Interest from banks	210	224	(14)	– 6.4%
MTM valuation of derivative instruments		1,754	(1,754)	– 100.0%
Total	2,710	3,899	(1,189)	– 30.5%

"Interest and other income" includes income of Euro 2,376 thousand relating to a decrease in the estimated vendor loan payable, due to changes in fair-value in the year.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

28 Finance cost

“Finance cost” are comprised of the following:

	As of 31 Dec 2012	As of 31 Dec 2011	Net change	Net change—%
Interest on bank overdrafts and loans .	10,773	11,242	(469)	– 4.2%
Interest on loans from shareholders . .	8,398	8,375	23	0.3%
Interest on derivative instruments	1,875	2,607	(732)	– 28.1%
Interest—financing fees	2,604	2,597	7	0.3%
Bank commission	925	1,106	(180)	– 16.3%
Loss resulting from MTM derivatives valuation	94	2,321	(2,227)	– 96.0%
Interest from actuary valuation of employee benefit	332	310	21	6.9%
Other Ifrs financial charges	2,792	800	1,992	249.1%
Other financial charges	358	371	(13)	– 3.5%
Impairment of other equity investments	20		20	100.0%
Total	28,170	29,728	(1,558)	– 5.2%

An amount of Euro 2,024 thousand of “Other IFRS financial charges” relates to the change in the year of the fair value of the vendor loan. Of this financial charge, approximately Euro 587 thousand is due to the payment of dividends to third parties.

29 Current taxes

Current taxes for the 2012 financial year amount to Euro 8,201 thousand and consist of the following:

- IRES of Euro 4,820 thousand;
- IRAP (regional tax on productive activities) of Euro 3,381 thousand.

It should be noted that the aforementioned IRES amount is stated net of non-recurring income of Euro 1,392 thousand relating to an IRES refund claim for the failure to deduct labour costs from IRAP. This claim is based on Art. 2, paragraph 1, of Legislative Decree 201/2011 (converted into Law no. 214/2011)—“Monti’s maneuver”—plus Legislative Decree no. 16 of 2/3/2012 (so called tax simplification decree, converted, with amendments, by Law no. 44 of 26 April 2012) that has ruled on the possibility to also apply the new provisions concerning full deductibility to the prior tax years 2007-2011.

With respect to the amount of deferred tax recorded in the consolidated income statement, reference should be made to details provided in Note 5.

30 Operating segments

In accordance with IFRS 8—Operating segments, an operating segment is a component of an entity: a) that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity); b) whose operating results are reviewed regularly by the entity’s chief

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; c) for which discrete financial information is available. Within TeamSystem Group the following three operating segments have been identified, characterised by the autonomous nature of their products/services and production processes that have the aforementioned features:

- Software and Services (SWSS), that is, the operating segment consisting of all the Group companies operating in the software production/marketing sector;
- Education, that is, the segment consisting of companies operating in the professional training sector, being Gruppo Euroconference Spa, Optime Srl, Paradigma Srl and Education Team Srl;
- CAD/CAM, that is, the operating segment relating to Nuovamacut group companies.

Please note that all costs have been properly allocated to the corresponding operating segment (none "non-allocated costs"), considering the nature and relations of such costs to corresponding revenues.

The following definitions relate to terms used in the table set out below:

EBITDA = Earnings before Interest, Taxes, Depreciation and Amortisation;

It is calculated as operating result plus (i) impairment of non-current assets, (ii) allowance for doubtful receivables and other risks provisions (iii) depreciation and amortization of non current assets (iv) non-recurring expenses.

Cash EBITDA = is calculated as the difference between EBITDA as above, net of capitalized development expenses in the financial year;

Adjusted EBITDA = is equal to the above EBITDA without taking account of the allowance for doubtful receivables.

EBIT = Earnings before Interest and Taxes

It is calculated as follows with reference to the format of the financial statements: Profit (Loss) for the year +/- current and deferred tax for the year +/- financial charges and income. This parameter coincides with the operating result presented by the consolidated income statement.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

It should be noted that these financial parameters are not disciplined by IFRS and, accordingly, the preparation criteria adopted by the Company and by the Group may not be comparable with those adopted by other companies.

In 2012 TeamSystem Group's revenues and EBITDA both grew significantly compared to 2011. Revenues recorded an increase of approximately Euro 9,793 thousand (with growth of approximately 7% and amounting to Euro 152,346 thousand) whereas EBITDA grew by approximately Euro 2,010 thousand (corresponding to an increase of approximately 4% compared to 2011). This growth is partly attributable to the contribution made by the companies newly consolidated in 2012, that is, Digita Srl, Education Team Srl, Paradigma Srl, Optime Srl and, lastly, Danea Srl (only the statement of financial position of the latter was consolidated at 31 December 2011).

From an analysis of EBITDA relating to TeamSystem Group's three operating segments, it should be noted that the Software and Services business unit contributed to the Group an EBITDA of Euro 48,307 thousand (over 91% of total EBITDA) with growth of Euro 2,216 thousand compared to 2011 (up approximately 5% in percentage terms), the CAD/CAM business unit contributed an EBITDA of Euro 1,789 thousand, with growth of Euro 326 thousand (up approximately 22% in percentage terms), while the Education business unit contributed an EBITDA of Euro 2,855 thousand, down on 2011 by approximately Euro 527 thousand (– 16% in percentage terms). The negative result recorded by Education, which contrasts with the trend of the other two business units, is attributable to the not particularly brilliant trend in the relevant market, but also and above all, to the effects of the hostile spin-off of former employees and directors, the negative effects of which, in terms of earnings performance, partly continued into the first three months of 2013.

In any case, it should be noted that almost all of TeamSystem Group's revenues and activities relate to Italy, where almost all its operations are concentrated. The fragmentation of customers, which is typical of the sectors in which the Group operates, impedes any significant dependence on individual customers.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

31 Financial instruments and IFRS 7

The Group Companies are exposed to a variety of risks of a financial nature that are managed and monitored centrally and which can be categorised as follows:

Foreign exchange risks

The Group Companies operate almost exclusively in Italy and, accordingly, are not exposed to foreign exchange risks.

Credit risk

The credit risk is substantially reduced by the high fragmentation of the customer base and the high degree of customer loyalty. Moreover, accurate procedures for the control of overdue balances limit doubtful balances to insignificant amounts.

In any case, the customer credit policy, by customer category (resellers and end-users), envisages:

- a) the control and assessment of "credit standing";
- b) the control of the flow of payment collection;
- c) taking appropriate action by issuing reminders and by the use of credit collection procedures, including recourse to companies specialised in debt recovery.

The maximum theoretical exposure to credit risk for the Group Companies is represented by the carrying value of trade receivables as presented in the consolidated financial statements, as well as residual financial receivables recorded in current and non current financial assets.

As at 31 December 2012 the Group does not have any guarantees covering trade receivables.

The tool used by the Group for the classification and control of trade receivables consists of an Ageing List, in which amounts of overdue receivables are summarised by ageing category, from the most recent (0-30 days) to the oldest (over 180 days).

With respect to overdue receivables, the writedown recorded in the consolidated financial statements was determined based on a specific analysis of doubtful accounts. It should be noted, however, that the Group's performance in terms of credit collection is good and losses incurred in the past have been relatively modest.

In consideration of the insignificant credit exposure, no disclosure has been made at 31 December 2012 of past due trade receivables by ageing category.

Interest rate risk

TeamSystem Group is exposed mainly to interest rate risk, and mainly due to the indebtedness incurred for the purposes of the leveraged transaction in 2010, followed by a reverse merger. The floating rate loans, the features of which are disclosed in Notes 10 and 11, expose, in fact, the Parent Company and its subsidiaries to the risk of what could even be significant changes in cash flow. The aim of the management of interest rate risk is to limit and stabilise cash outflows due to interest expense on existing loans; for this purpose, the Parent Company has entered into interest rate swap contracts, which, even though they do not qualify as hedging for the purposes of IFRS, have characteristics that offset in part fluctuations in the Euribor rate that is a feature of much of the Group's debt.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

As required by IFRS 7 and in order to measure the impact of the risk of variability of interest rates, Group Management has performed specific sensitivity analysis; this sensitivity analysis has been applied to the main statement of financial position components that could be subject to changes in carrying value as a result of fluctuations in market interest rates.

In particular, the analysis has taken into consideration the floating rate loans (primarily represented by "Facility A", "Facility B" and the "Acquisition facility") as well as the derivative financial instruments held by the Parent Company and has assumed a fluctuation of 30% upwards and downwards in applicable interest rates. The potential effects on income (before income taxes) of this assumed change would be a higher or lower financial charge of approximately Euro 360 thousand in the year to 31 December 2012 (it would have been Euro 105 thousand in the year ended 31 December 2011).

It should be noted that the spread applied to Facility A and Facility B also fluctuates based on certain financial parameters established by the loan agreement; in particular, the contractual spread may vary by a maximum of 4.5% to a minimum of 3.5% for "Facility A" and the "Acquisition facility" and by a maximum of 5% to a minimum of 4.5% for Facility B, based on the financial covenants (see also disclosures made in Note 10). The aforementioned sensitivity analysis was conducted assuming the maintenance of current levels of spread (4% for Facility A and Acquisition and 4.5% for Facility B); the change in the Group's performance consequently reflects an interest rate risk with variability that is additional to the interest related to the debt.

Liquidity risk

The two main factors that determine the dynamics of the Group's liquidity are, on one hand, the resources generated/absorbed by operating and investment activities and, on the other hand, the maturity and renewal of financial liabilities. Management of these risks is done by the Finance Department of the Parent Company.

Of the procedures adopted with the intention of optimising cash flow management and of reducing the liquidity risk, the following should be noted:

- the maintenance of an adequate level of available liquidity;
- the adoption of Cash-pooling at Group level;
- the obtainment of adequate borrowing facilities;
- the control of prospective liquidity conditions, in relation to the corporate planning process, also with reference to the verification of compliance with covenants.

The Group's financial projections do not indicate any critical issues concerning its ability to generate sufficient cash flow in 2013 to meet its contractual commitments. Regular and systematic historical and prospective analyses of contractual financial covenants are performed; from the computation prepared by Management for 2012, the contractual financial parameters have been complied with, whereas, with respect to 2013 forecasts, it is reasonable to believe that the objective of compliance with these conditions will be met. Moreover, it should be noted that TeamSystem Group Management is considering whether to proceed with extraordinary operations in order to restructure financial indebtedness, with one of the aims being to raise additional funding for acquisitions.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

Set out below are details of the Group's financial liabilities analysed according to the related due dates of the payment outflows. The flows indicated are non discounted nominal cash flows, determined with reference to the residual contractual maturity for both capital and interest elements for which the assumed interest rates have remained unchanged from those existing at 31 December 2012 (both for loans and for interest rate swap derivatives at the consolidated statement of financial position date).

Position at 31 December 2011

	As of 31 Dec 2011	within 12 months	1-2 years	2-5 years	over 5 years	Total cash flow
Due to shareholders	77,986	4,300	4,086	13,732	97,328	119,446
Overdrafts and loans from banks	178,121	23,451	21,569	86,952	100,000	231,972
Other financial liabilities (leasing)	223	227				227
Derivative instruments	2,746	1,877	2,765			4,642
Vendor loan	17,056	2,970	3,517	5,543	6,286	18,315
	276,131	32,825	31,937	106,227	203,614	374,602

Position at 31 December 2012

	As of 31 Dec 2012	within 12 months	1-2 years	2-5 years	over 5 years	Total cash flow
Due to shareholders	82,083	4,086	4,286	14,660	100,373	123,405
Overdrafts and loans from banks	181,009	21,681	30,016	160,550		212,247
Overdrafts and loans from other financial institutions .	48	48				1,793
Derivative instruments	2,758	2,765				2,765
Vendor loan	15,515	3,984	633	8,477	6,466	19,560
	281,413	32,564	34,935	183,687	106,839	358,026

The difference between the amounts presented in the consolidated financial statements and total cash flow is mainly attributable to the computation of interest over the contractual duration for amounts due to banks or for the vendor loan.

Financial instruments by category (IFRS 7 parag. 8)

As required by IFRS 7, paragraph 8, financial instruments have been identified by category pertaining to Group's assets and liabilities with respect to their classification in the statement of financial position.

Explanations of financial instruments' categories

FVTPL = Financial instruments at fair value through profit and loss

LAR = Loans and Receivables

AFS = Financial assets available for sale

FLAC = Financial liabilities measured at amortised cost

Considering the features of the financial assets and liabilities recorded in the financial statements and shown by the above table, the fair value of many of these (current trade receivables and payables, current and non-current financial liabilities) do not differ from their carrying value.

Levels of fair value hierarchy

In relation to the financial instruments recorded in the statement of financial position at fair value, IFRS 7 requires these amounts to be classified on the basis of levels of hierarchy that reflect the significance of the input used for the determination of fair value. The levels are the following:

- Level 1—prices quoted by active markets for assets or liabilities being measured;
- Level 2—inputs other than Level 1 inputs that are directly observable (prices) or indirectly (derived from prices) market inputs;
- Level 3—inputs not based on observable market data.

Derivative instruments		2,758		2,758
	2,758	15,514	18,272	

During the year there have been no significant transfers from one level to another of the fair value categories presented.

The financial payable relating to the “vendor loan” represents the main category within the fair value level 3 and it’s represented by the fair value of the estimated liability with respect to put and call or earnout agreements relating to various non-controlling holdings in the Group companies; the related fair value was determined considering the contractual hypotheses for the determination of the consideration. Changes in fair value, due both to timing and possible changes in *estimated* indicators that formed the basis for the computation of the consideration, are accounted for in the consolidated income statement; the effect recorded in the 2012 consolidated income statement resulting from the change in estimate of the fair value of the liability relating to the vendor loan amounts to approximately Euro 352 thousand and approximately Euro 2,376 thousand has been accounted for as “Interest and other income” (see also Note 27 in relation thereto) and approximately Euro 2,024 thousand as “Other IFRS financial charges” (Note 28).

With reference to the impact on the consolidated income statement, a detailed analysis is provided below in accordance with parag. 20 of IFRS 7.

32 Guarantees provided, commitments and other contingent assets and liabilities

Guarantees Provided

At 31 December 2012, the quotas of the Parent Company as well as the shares of Gruppo Euroconference Spa were pledged as collateral for loans granted to the Parent Company (Note 10).

Other significant commitments and contractual rights

The Parent Company is party to put option agreements in respect of the shares/quotas held by non-controlling share in the following companies and for the percentage holdings as indicated below:

- 1) Digita Srl, with reference to 40.00% of the quota capital;
- 2) Education Team Srl, with reference to 22.50% of the quota capital;
- 3) H-Umus Srl, with reference to 15.00% of the quota capital;
- 4) TeamSystem Akron Srl, with reference to 49.00% of the quota capital;
- 5) Danea Srl, with reference to 49.00% of the quota capital;
- 6) Gruppo Euroconference Spa, with reference to 0.39% of the share capital;
- 7) Inforyou Srl, with reference to 40% of the quota capital;
- 8) I.S.P. Srl, with reference to 40% of the quota capital;
- 9) Lexteam Srl, with reference to 12.50% of the quota capital;
- 10) Metodo Srl, with reference to 10.00% of the quota capital;
- 11) TeamSystem Communication Srl, with reference to 40.00% of the quota capital;

The strike price of these options will be determined based on normalised earnings parameters of the companies in question to which will be added the average (or actual) net financial indebtedness for the period in which the put options may be exercised. The best estimate of discounted future disbursements has been recognised in the financial statements (Note 10) while the best estimate of future disbursements (by financial year) is indicated in the table shown in Note 31—Liquidity risk—analysis of financial liabilities by due date of cash outflows.

Operating lease agreements and rental of property

The Group companies are party to operating lease agreements relating mainly to the use of motor cars. At 31 December 2012 the amount of outstanding instalments for operating leases was approximately Euro 5.3 million. TeamSystem Group's operational premises are mostly

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2012

leased. At 31 December 2012, the amount of outstanding lease instalments was approximately Euro 7.7 million.

	within 1 year	2 - 4 years	over 5 years	Total
Leases for motor cars	1,940	3,196	166	5,301
Leases for operational premises	1,979	3,877	1,805	7,662
	3,919	7,073	1,971	12,963

Other commitments and contingent assets/liabilities

The Group companies, in the performance of their activities, are exposed to a series of legal, tax and other risks. These risks relate to ongoing legal disputes (the outcome of which cannot be forecast with certainty) or claims made against Group companies for the recovery of damages suffered by third parties. An adverse outcome of these proceedings could lead to the payment of costs not covered (or not fully covered) by insurance and would thus impact the financial position.

The Group, in accordance with opinions provided by its legal advisers, has made specific provision as part of the provision for risks and charges (Note 14) for litigation for which it is believed that a disbursement of resources is probable and for which the amount is capable of being reliably estimated. Based on the information available, there are no further potentially significant contingent liabilities that could lead to significant disbursements for the Group.

Neither does the Group have any potentially significant contingent assets at 31 December 2012.

33 Related-parties transactions

Directors, board of audit committee and top management

As required by IAS 24, the table below shows the amounts due for 2012 and 2011 years to the members of TeamSystem Srl Board of Directors, those to statutory auditors and in addition those due to the Top Management of the Group.

	As of 31 Dec 2012	As of 31 Dec 2011
Directors	50	25
Audit committee	88	88
Top management	2,550	2,241
Total emoluments	2,688	2,354

In detail, compensations due to Top Management includes Euro 91 thousands (Euro 80 thousands as 31 December 2011) related to Italian T.F.R. allowance of the year.

As already indicated elsewhere in these notes, TeamSystem's senior and middle managers have a 24% of shares of the ultimate Parent Company of the Group; as already disclosed, these equity investments have the same characteristics in terms of subscription price and risk of other shareholders and there are no differences favouring Teamsystem's senior and middle management.

**Consolidated financial statements
for the year ended
31 December 2011**

AUDITORS' REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ART. 14 OF LEGISLATIVE DECREE No. 39 OF JANUARY 27, 2010

To the Shareholder of TeamSystem S.r.l.

1. We have audited the consolidated financial statements of TeamSystem S.r.l. and its subsidiaries (the "TeamSystem Group"), which comprise the consolidated statement of financial position as of December 31, 2011 and the consolidated income statement, consolidated statement of changes in equity and consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes. These consolidated financial statements prepared in accordance with International Financial Reporting Standards as adopted by the European Union are the responsibility of the Company's Directors. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
2. We conducted our audit in accordance with Auditing Standards issued by the Italian Accounting Profession (CNDCEC) and recommended by Consob, the Italian Commission for listed Companies and the Stock Exchange. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Directors, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

For the opinion on the prior year's consolidated financial statements, whose data are presented for comparative purposes, reference should be made to the auditors' report issued by other auditors on June 28, 2011. In addition, the consolidated financial statements include a *pro forma* consolidated income statement related to the year 2010, in order to present retroactively at January 1, 2010 the *pro-forma* accounting effects of the acquisition of TeamSystem S.r.l. by Titan Bidco S.r.l., occurred on September 29, 2010; the *pro-forma* consolidated income statement was analyzed by other auditors, whose report was issued on June 28, 2011.

3. In our opinion, the consolidated financial statements give a true and fair view of the financial position of TeamSystem Group as of December 31, 2011, and of the results of its operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

4. The Directors of TeamSystem S.r.l. are responsible for the preparation of the Directors' Report in accordance with the applicable laws and regulations. Our responsibility is to express an opinion on the consistency of the report on operations with the financial statements, as required by law. For this purpose, we have performed the procedures required under Auditing Standard n. 001 issued by the Italian Accounting Profession (CNDCEC) and recommended by CONSOB. In our opinion, the Directors' Report is consistent with the consolidated financial statements of TeamSystem Group as of December 31, 2011.

TeamSystem Srl
Managing Director
Federico Leproux

TeamSystem Group

Notes to the consolidated financial statements

for the year ended 31 December 2011

Introduction

On 30 September 2010 the private equity firm HG Capital (hereinafter “HGC”) won the auction for the acquisition from Bain Capital of TeamSystem Srl (hereinafter “Incorporating Company”) and its subsidiaries (hereinafter “TeamSystem Group” or the “Group”) for approximately Euro 567 million. The purchase transaction (“Acquisition”) was finalised by means of a corporate “vehicle” Titan Bidco Srl (hereinafter “Company” or “Incorporated Company”), a company entirely held by Luxco 3 S.à.r.l. and ultimately controlled by HG Capital Ltd.

The total amount of original financial indebtedness to which recourse was made by Titan Bidco Srl (a company set up on 16 December 2009) for the purpose of the acquisition (comprising that taken on by TeamSystem Srl) was approximately Euro 247.8 million, of which Euro 177.8 million relates to bank debt and Euro 70.0 million to a Shareholders Loan.

Subsequent to the acquisition, on 9 November 2010, TeamSystem was transformed from an S.p.A. (a company limited by shares) to an Srl (a company limited by quotas) and on 21 December 2010 the reverse merger took place between TeamSystem Srl (Incorporating Company) and Titan Bidco Srl (Incorporated Company). The consequent deed of merger was deposited with the business register on 21 December 2010. The accounting and tax effects have been backdated to 30 September 2010, the date when Titan Bidco Srl effectively acquired ownership of the stake in TeamSystem Srl and its subsidiaries.

For the sole purpose of improving disclosure, in these consolidated financial statements, as was the case for the consolidated financial statements of the previous year, the 2010 consolidated income statement shows a second column headed “31 December 2010 pro-forma”, for the purpose of presenting the pro-forma accounting effects, backdated to 1 January 2010, of the acquisition by Titan Bidco Srl of TeamSystem Group. These figures are derived from the “Consolidated pro-forma financial statements of the Group for the year ended 31 December 2010” prepared, on a voluntary basis, in compliance with the provisions contained in the Consob communication DEM/1052803 of 5 July 2001.

Company background

TeamSystem Srl (the “Company” or the “Parent Company”) is a company registered in the Pesaro Business Register and is domiciled in Italy. TeamSystem Srl is a leader in Italy in the production and marketing of management / ERP software and in the provision of training aimed at micro—small and medium enterprises, at professionals (accountants, labour consultants, lawyers, condominium managers and self-employed professionals) and at associations.

Its registered office is in Via Gagarin 205, Pesaro. TeamSystem Srl does not have any financial instruments listed on the stockmarket. The company is a 100% directly held subsidiary of Titan Luxco 3 S.à.r.l. It is a 53% indirectly held subsidiary of the private equity firm HG Capital and is approximately 23% held by the private investment firm Bain Capital, with the remainder held by TeamSystem’s senior and middle managers and by a number of financial investors. TeamSystem has operated for more than 30 years in the field of management software for consultants and businesses. It should be noted that the aforementioned equity investments have the same characteristics in terms of subscription price and risk and there are no differences favouring TeamSystem’s senior and middle management.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

These consolidated financial statements were prepared by the Board of Directors on 11 May 2012 for approval by the first call of the General Meeting of Shareholders set for 24 May 2012, with the second call set for 29 May 2012.

Accounting standards adopted

With respect to the accounting standards adopted for the preparation of the financial statements, it should be noted that, pursuant to articles 3 and 4 of Legislative Decree No. 38 of 28 February 2005 that governs the exercise of options provided for by article 5 of Community regulations No. 1606/2002 concerning international accounting standards, the Company has elected to adopt on a voluntary basis the international accounting standards approved by the European Commission (hereinafter "IFRS") for the preparation of its statutory and consolidated financial statements.

IFRS is intended to mean all "International Financial Reporting Standards", all International Accounting Standards ("IAS"), all the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), previously known as Standing Interpretations Committee ("SIC") endorsed by the European Commission at the date of approval of the draft consolidated financial statements by the Parent Company's Board of Directors and covered by EU Regulations published at that date.

The consolidated financial statements have been prepared on a historical cost basis, except for derivative financial instruments that have been measured at fair value, as well as on a going concern basis.

TeamSystem Srl's consolidated financial statements have been prepared on a going concern basis and the Board of Directors is not aware of any material uncertainties or doubts concerning TeamSystem Group's ability to continue its activities in the foreseeable future.

Set out below are the accounting policies applied in the preparation of the consolidated financial statements and which do not differ from those applied in the previous year.

Content of the consolidated financial statements

The consolidated financial statements include:

1. the consolidated income statement for the year ended 31 December 2011, together with the comparative consolidated income statement for the year ended 31 December 2010. In particular, it should be noted that the consolidated income statement format presents an analysis of costs aggregated by nature, since this classification is considered to be more relevant for the purposes of an understanding of TeamSystem Group's results. In particular, it should be noted that the income statement format adopted, in compliance with IAS 1, presents the following captions, not defined as accounting measures by IFRS (accordingly the criteria for the definition of these captions may not be consistent with that adopted by other companies), since the Company believes that this information is relevant for the purposes of an understanding of TeamSystem Group's results:
 - a. Gross operating margin: consists of net income for the year before the following:
 - 1) taxation;
 - 2) gains/losses on assets held for sale;
 - 3) financial income/expense;
 - 4) depreciation and amortisation and writedowns of fixed assets
 - 5) writedowns of receivables and other accruals;

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2011

- b. Operating result: consists of net income for the year, before tax, gains/losses on assets held for sale and financial income/expense;
- c. Profit (Loss) before income taxes: consists of net income for the year before income taxes.

Revenues and costs for the year are presented solely in the income statement, since there are no circumstances requiring separate presentation in the consolidated statement of comprehensive income as required by IFRS.

As previously indicated, the third income statement column "31 Dec 2010 Pro-forma" presents TeamSystem Group's results for 2010 as though the extraordinary transactions mentioned in the Introduction had been carried out at the beginning of the 2010 financial year.

- 2. the consolidated statement of financial position at 31 December 2011, together with the comparative consolidated statement of financial position at 31 December 2010. In particular, the consolidated statement of financial position has been prepared using a format, in accordance with IAS 1, classified on the basis of the operating cycle, with a distinction between current and non-current components. On the basis of this distinction, assets and liabilities are considered to be current, if it is assumed that they will be realised or settled during the normal operating cycle.
- 3. the consolidated cash flow statement for the year ended 31 December 2011, together with comparatives for the year ended 31 December 2010. For the preparation of the consolidated cash flow statement, the indirect method has been used, in compliance with IAS 7, under which income or the loss for the year is adjusted for the effects of non-cash transactions, for all sorts of items of deferred payments and charges that are the cause of charges and payments in the past or in the future, as well as items of gains or losses associated with cash flows of activities classified as investment or financing.
- 4. the consolidated statement of changes in owner's equity for the years ended 31 December 2011 and 2010 takes account of the previously mentioned changes correlated to the implementation of IAS 1 (Revised);
- 5. the notes to the consolidated financial statements (inclusive of appendices).

The figures included in the consolidated financial statements (as described above) and in the notes to the consolidated financial statements are expressed in thousands of Euros, except where otherwise indicated.

Scope of consolidation

The consolidated financial statements of TeamSystem Group include the financial statements of the Parent Company and those of businesses for which TeamSystem controls directly or indirectly the majority of voting rights that can be exercised at a shareholders' general meeting.

TeamSystem Group

(5) = investment held by Gruppo Euroconference Spa;

(6) = investments held by Nuovamacut Automazione Spa.

Changes to the scope of consolidation during the course of 2011

The scope of consolidation (that is, consolidation percentages) changed during the course of 2011 due to the effect of the following:

- of the acquisition of a controlling interest in I.S.P. Srl (for which the results and financial position have been consolidated for the entire financial year) and the stipulation of contracts for a put/call option on the remaining quota capital not yet held;
- of the acquisition of a controlling interest in TeamSystem Communication Srl (for which the results and financial position have been consolidated for the entire financial year) and the stipulation of contracts for a put/call option on the remaining quota capital not yet held;
- of the acquisition of a controlling interest in Danea Soft Srl (for which only the financial position has been consolidated at 31 December 2011, as the combination occurred very close to year end) and the stipulation of contracts for a put/call option on the remaining quota capital not yet held;
- of the acquisition (by Gruppo Euroconference Spa) of a 100% controlling interest in Drc Form Srl (for which the results and financial position have been consolidated for the entire financial year) and the stipulation of contracts for a put/call option on the remaining quota capital not yet held;

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

- e) of the acquisition (by Nuovamacut Automazione Spa) of a 100% controlling interest in Nuovamacut 5 Srl, which was merged by absorption during the course of 2011 into its parent company Nuovamacut Automazione Spa;
- f) of the merger between Nuovamacut Veneto Srl and Nuovamacut Friuli Srl that resulted in a company named Nuovamacut Nord Est, which is controlled by Nuovamacut Automazione Spa;
- g) of the acquisition of further quotas in TeamSystem Ancona Srl and the stipulation of contracts for the purchase of further non-controlling interests therein;
- h) of the stipulation of contracts for a put/call option on the entire quota capital not yet held of TeamSystem Akron Srl;
- i) of the acquisition of the entire quota capital of TeamSystem Roma Srl (the results of which were already considered as being 100% attributable to the Group due to the effect of the stipulation of contracts for a put/call option on the entire quota capital);
- j) of the acquisition of further quotas in TeamSystem Torino Srl (the results of which were already considered as being 100% attributable to the Group, due to the effect of the stipulation of contracts for a put/call option on the entire quota capital).

Reference date

The consolidated financial statements have been prepared from draft financial statements approved by the Boards of Directors.

All the financial statements of the TeamSystem Group companies have a 31 December financial year end.

Basis of consolidation

The financial statements used for the consolidation are the financial statements of the individual businesses, as approved by the respective administrative bodies. These financial statements are reclassified and adjusted in order to comply with IFRS and the accounting policies adopted by the Parent Company.

In the preparation of the consolidated financial statements, the statement of financial position and income statement components are consolidated line-by-line. Receivables and payables, income and charges and gains and losses originating from transactions between and among the businesses included in the consolidation are eliminated. The carrying value of consolidated equity investments is eliminated against the corresponding portion of equity attributable to the Group (or to non-controlling interest).

Equity investments in subsidiaries

These are consolidated on a line-by-line basis with respect to companies / entities over which the Group exercises control ("subsidiaries"), either through a direct or indirect majority holding of shares or quotas with voting rights or through the exercise of dominant influence, intended as the power to determine, even indirectly, the financial and operating policies of the companies / entities and to obtain benefits from their activities, regardless of the equity stake held. The existence of potential voting rights capable of being exercised at 31 December is considered for the purposes of the determination of control.

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2011

Subsidiaries are essentially consolidated as from the date on which control is assumed and are deconsolidated from the date on which control ceases.

On consolidation, amounts arising from transactions with consolidated subsidiaries are eliminated, particularly receivables and payables at the year end, costs and revenues as well as financial charges and income. Moreover, gains and losses realised between subsidiaries consolidated on a line-by-line basis are reversed, if significant.

Business combinations

Acquired subsidiaries are accounted for in accordance with the acquisition method as provided for by IFRS 3. The cost of the acquisition is determined by the sum of acquisition-date current values of the consideration transferred, liabilities incurred or assumed and financial instruments issued by the Group for the change in control of the business acquired.

All other costs associated with a transaction are expensed.

Identifiable assets, liabilities and contingent liabilities of the businesses acquired, which meet the conditions for recognition under IFRS 3, are measured at their acquisition-date current values, except for non-current assets (or disposal groups) classified as held for sale in accordance with IFRS 5 and which are recorded and measured in accordance with applicable accounting standards.

Goodwill is measured as the difference between the aggregate of the acquisition-date fair value of the consideration transferred, the amount of any non-controlling interest and the acquisition-date fair value of the acquirer's previously-held equity interest in the acquiree and the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If the value of the acquisition-date amounts of the assets acquired and the liabilities assumed exceeds the aggregate of the consideration transferred, the amount of any non-controlling interest and the fair value of the acquirer's previously-held equity interest in the acquiree, the surplus is recognised immediately in the income statement as income arising from the completed transaction.

Non-controlling interests at the acquisition date, may be measured at fair value or the non-controlling interest's proportionate share of net assets of the acquiree. The option is available on a transaction by transaction basis.

The Group, normally at the same time as the acquisition of majority / controlling stakes in an investee, enters into put and call option agreements for the residual stake held by non-controlling owners of the acquiree. For those cases where part of the acquisition takes place through the stipulation of a binding option agreement, with the simultaneous presence of put and call clauses, the investee is consolidated, since the substance of the binding option agreement is that of the payment of deferred consideration for part of the investee's capital, as evidenced by a series of transactions completed in the past. Accordingly, the estimated value of the exercise price of the put / call is included in the cost of acquisition and contributes to the overall determination of goodwill.

This accounting method applies only where the Group has acquired majority control of the voting rights of the companies acquired and where no doubt arises as to the distribution of relevant amounts of dividends in the period up to the date the option is exercised.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

In view of the recognition of goodwill related to these options, TeamSystem Group accounts for, as a financial liability, the payable (so-called vendor loan) related to the estimated actual consideration for the exercise of the options.

In accordance with this principle, subsequent changes in the fair value of the payable, due to amendments made to the initial assessment of the exercise consideration, are recognised in the consolidated income statement, as is the case for the notional charges deriving from the gradual decrease of the effect of discounting.

Business combinations involving entities or businesses under common control are excluded from the scope of IFRS 3. A business combination involving entities or businesses under common control is a combination in which all the entities or businesses are controlled by the same party or when the controlling party before and after a business combination is the same and control is not of a temporary nature.

The existence of a non-controlling interest in each of the entities being combined, before or after the business combination, is not relevant for the determination of whether the business combination involves entities under common control. Transactions of this type (excluding transactions between companies included in the same scope of consolidation, since, in such a case, the principle of continuity of values applies) and which do not have a significant impact on future cash flow from the net assets transferred, are accounted for in accordance with the principle of continuity of values, otherwise they fall within the scope of IFRS 3.

Translation of foreign currency financial statements

The financial statements of the businesses comprised within the scope of consolidation are all prepared in Euros.

Intangible assets

Research and development expenses

In accordance with IAS 38, research expenses are charged to income as incurred.

Development costs incurred in relation to a determined project are capitalised only when the Company can demonstrate, by means of appropriate analysis, the technical feasibility of completing the intangible asset so that it will be available for use or sale, the intention to complete the intangible asset and use or sell it, how the intangible asset will generate probable future economic benefits, the availability of adequate technical, financial and other resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development.

After initial recognition, development costs are carried at cost less any accumulated amortisation and any accumulated impairment losses. Amortisation begins when development is complete and the asset is available for use. It is amortised with reference to the period for which it is envisaged that the associated project will generate revenues for the Group. During the period in which an asset is no longer in use, it is assessed annually to ascertain if there has been any impairment.

Other development expenses that do not meet the above requirements are expensed as incurred. Development costs that have previously been expensed are not accounted for as an asset in subsequent periods.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

Capitalised development costs are amortised (as from the start of the production or marketing of the product) on a straight line basis over their residual useful life (estimated to be between 3 and 5 years).

Customer relationship

Customer relationship (which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010) represents the sum total of contractual (supply contracts and service contracts etc.) and non contractual customer relationships and has been valued based on discounted income flows (Income Approach). The asset is amortised over its useful life estimated to be twenty years.

Proprietary software

Proprietary software, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010, is stated at its reproduction cost and is amortised over the length of its expected useful life of 5 years.

Proprietary software developed internally and destined for internal use is stated at cost of production and is amortised over the length of its residual expected useful life.

Third party software licenced for internal use

Third party software licenced for internal use is stated at purchase cost and is amortised over the length of its residual expected useful life estimated to be of five years.

Brands

The TeamSystem, Euroconference, Metodo and Nuovamacut brands, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010, have been valued in accordance with the royalties method and are amortised over the length of their residual expected useful life estimated to be of twenty years (TeamSystem and Euroconference) or ten years (Metodo and Nuovamacut).

Goodwill

Goodwill is initially recognised at cost, represented by the excess cost of the business combination over the fair value of the assets and liabilities acquired.

Goodwill is not amortised, as required by IFRS, but is allocated to its respective Cash Generating Unit (hereinafter "CGU") and subjected annually (or more frequently if determined events or changes in circumstances indicate the possibility that value has been impaired) to impairment testing in accordance with IAS 36 "Impairment of Assets".

Subsequent costs

Costs incurred subsequently on intangible assets are capitalised if they increase the future economic benefit of the specific capitalised asset.

Amortisation

Amortisation is charged systematically on a straight line basis over the asset's estimated useful life, except for intangible assets with an indefinite life (being solely goodwill) that are not amortised and are systematically assessed to verify the absence of impairment. Other intangible

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

assets are amortised as from the time they become usable. The estimated useful life of each main category is shown in the following table:

Goodwill	Indefinite useful life
Brands	10 - 20 years
Customer relationship	20 years
Proprietary software	5 years
Development expenses	3 - 5 years

Property, plant and equipment

Property, plant and equipment owned by the Group

Property, plant and equipment, consisting mainly of land, buildings, electronic machines, furniture and fittings and general and specific plant are stated at purchase cost, net of accumulated depreciation and writedowns. Costs incurred subsequent to acquisition (repairs and maintenance costs and replacement costs) are recorded as part of the carrying value of an asset, or recognised as a separate asset, only when it is believed that it is probable that associated future economic benefits will be generated and that the cost of the asset can be measured in a reliable manner. Repairs and maintenance costs (or costs of replacements that do not have the above characteristics) are expensed in the year in which they are incurred. Property, plant and equipment are systematically depreciated each year at rates determined on the basis of the residual useful life of the asset. The rates applied by the Parent Company are the following:

Land	Indefinite useful life
Buildings	33 years
Plant and machinery	10 years
Industrial and commercial equipment	7 years
Other assets	4 - 7 years

Regardless of the depreciation already accounted for, in the event of impairment, an asset is written down accordingly. Gains and losses arising on disposal are determined by comparing the sales consideration to the net book value. The amount determined is accounted for in the consolidated income statement in the pertinent year.

Financial charges incurred for capital expenditure on an asset that necessarily takes a substantial period of time to get it ready for its intended use ("qualifying asset" in accordance with IAS 23—Borrowing Costs) are capitalised and depreciated over the useful life of the asset class to which they relate. All other financial charges are expensed in the year they are incurred.

Borrowing costs for the purchase of fixed assets are charged to income.

Leased assets

In accordance with IAS 17, lease contracts are classified as finance leases where the terms of the contract are such as to transfer substantially all the risks and rewards incidental to ownership to the lessee. All other leases are considered to be operating leases. Leased assets are recognised at amounts equal to the present value of the future minimum lease payments. The corresponding liability towards the lessor is included in the consolidated statement of

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

financial position as a liability for lease obligations. Payments of lease instalments are split between their capital and interest elements in order to produce a constant periodic interest rate on the remaining balance of the liability. Financial charges are expensed in the year.

Equity investments

Equity investments in other businesses classified as non current assets are stated at cost, inclusive of directly attributable charges, net of any impairment adjustments.

Inventories

Inventory is stated at the lower of specific purchase cost, inclusive of ancillary charges and its estimated realisable value, which can be derived from market prices. Inventories of obsolete or slow moving items are written down by taking account of their potential use or realisation.

Trade receivables

Receivables are recorded at cost (identified by their nominal value), net of a provision to take account of their expected realisable value.

Cash and bank balances

Cash and bank balances include cash on hand, bank and post office account balances and securities with an original maturity of less than three months.

Assets and liabilities classified as held for sale

Non current assets (or disposal groups) are classified as held for sale if their carrying value will be recovered mainly from the sale thereof rather than from their continuous use. Assets are measured at the lower of carrying value and fair value net of costs to sell. Assets and liabilities held for sale are presented separately from other assets and liabilities on the face of the statement of financial position. The impact on income of assets sold is presented separately in the income statement net of the tax effect.

Foreign currency transactions

The functional and presentation currency of the Group Companies is the Euro. As required by IAS 21, amounts originally denominated in foreign currency are translated at exchange rates ruling at the year end. Exchange differences realised on the collection of foreign currency receivables and on the payment of foreign currency payables are recorded in the consolidated income statement.

Writedowns (impairment)

The carrying value of assets with an indefinite useful life, for example goodwill and intangible assets in process of formation, are not subject to depreciation or amortisation, but are assessed annually to determine whether an asset may be impaired.

The carrying value of other assets, except for long term work in progress (IAS11), for financial instruments covered by IAS39 and for deferred tax assets (IAS12), are subject to assessment at each consolidated statements of financial position date sheet date to determine whether there is any indication that an asset may be impaired (impairment test). The estimated recoverable

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

amount is represented by value in use. For the purposes of assessment, assets are grouped into the smallest identifiable unit for which the Company is capable of separating the related cash inflows (CGU).

If the recoverable amount of the asset or CGU is lower than the net carrying amount, the asset is adjusted to take account of the impairment loss, which is charged to the consolidated income statement within Non recurring impairment of assets. The impairment loss of a CGU is firstly allocated to goodwill and any residual balance is allocated to other assets.

Three CGUs have been identified by the Group as follows: the Software Solutions CGU consisting of all the Group companies operating in the software sector (comprising Metodo), the Education CGU (consisting of Gruppo Euroconference) and the Nuovamacut CGU (relating to Nuovamacut Group Companies). The goodwill allocated to the Software Solutions CGU, to the Education CGU and the Nuovamacut CGU are subject to impairment tests (at least annually) by use of the DCF Method, that is, using the cash flows (arising from the most recent business plans approved by management of the Companies) discounted at a rate which is representative of each CGU's business risk.

Interest bearing financial liabilities

Interest bearing financial liabilities are initially recorded at fair value, net of ancillary charges. Subsequent to their initial recognition, interest bearing financial liabilities are measured at amortised cost. As at the consolidated statement of financial position date, the Group Companies do not hold any financial liabilities designated at fair value through profit or loss.

Hedging instruments

The Group Companies use financial derivatives. These financial derivatives are classified as financial instruments held for trading, unless they are designated as effective hedging instruments. These financial derivatives are initially recognised at fair value at the date in which they are stipulated; subsequently, the fair value is periodically remeasured. They are accounted for as an asset when the fair value is positive and as a liability when it is negative. Any gain or loss resulting from a change in fair value is taken to income. The fair value of interest rate swap contracts is determined with reference to the market value of similar instruments.

At the start of a hedging transaction, the Company designates and formally documents the hedging relationship to which it intends applying hedge accounting, its risk management objectives and the strategies pursued. The documentation includes the identification of the hedging instrument, of the element or transaction subject to hedging, of the nature of the risk and the means by which the business intends assessing the effectiveness of the hedge in offsetting the exposure to changes in the fair value of the hedged element or in the cash flows attributable to the hedged risk. It is expected that these hedges are highly effective in offsetting the hedged exposure or changes in the hedged cash flows attributable to the hedged risk. The assessment of whether these hedges have been proven to be highly effective is performed on a continuous basis during the financial year in which they have been designated. The transactions that satisfy the criteria for hedge accounting are accounted for on the basis of the following policy.

The portion of the gain or loss on the hedging instrument relating to the effective hedge is taken directly to equity, whereas the non effective portion is immediately recognised in the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

consolidated income statement. The gain or loss included in equity is reclassified to the consolidated income statement in the year in which the hedged transaction impacts the income statement, that is, when the financial charge or income is recognised. If it is believed that the envisaged transaction will no longer take place, the amounts initially recorded in equity are transferred to the consolidated income statement. If the hedging instrument expires or is sold or annulled or if its designation as hedging is revoked, the amounts previously included in equity remain as such until such time as the expected transaction takes place.

Employee benefit plans

Defined contribution plans

A defined contribution plan is a pension plan for which the company pays fixed contributions to a separate entity. The company does not have any obligation, legal or otherwise, to make additional contributions if the fund has insufficient assets to meet the payment of all employee benefits relating to the period of service. The obligations related to contributions for employees' pensions and other benefits are expensed as incurred.

Defined benefit plans

Net obligations related to defined benefit plans consist mainly of employee termination indemnities and are calculated by estimating, with actuarial techniques, the amount of the future benefit accrued to employees in the current and prior financial years. The benefit thus determined is discounted and recognised net of the fair value of any related assets. The computation is performed by an independent actuary using the projected unit credit method. Actuarial gains and losses are recognised in the consolidated income statement in the year in which they arise.

Following the introduction of new legislation on supplementary pensions, as per Legislative Decree 252/2005, introduced by the 2007 Finance Act, the possibility has arisen to transfer accruing severance indemnities to supplementary pension funds. Consequently, in the actuarial valuation of the Provision for employee termination indemnities at 31 December 2008, account was taken of the effects deriving from the legislation, recognising, for IAS/IFRS purposes, only the liability relating to accrued severance indemnities remaining as a liability in the consolidated statement of financial position, as the amounts accruing are paid over to a separate entity (supplementary pension fund or the state fund Istituto Nazionale di Previdenza Sociale "INPS").

Provisions for risks and charges

Where the Company has an obligation, legal or otherwise, resulting from a prior event and it is probable that this will lead to the loss of economic benefits to meet the obligation, an appropriate provisions for risks and charges is recorded. No provision is made for future operating losses. Provisions are measured at the current value of Company's best estimate of the cost of satisfying the obligation existing at the consolidated statement of financial position date. With respect to legal cases, the amount of the provision is determined on the basis of estimates made by the relevant consolidated Company, together with its legal advisors, in order to determine the probability, the timing and the amounts involved.

Trade and other payables

Trade and other payables are stated at cost, representing their settlement value.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

Revenues

Revenues from sales of goods and services

Revenues for sales of software licences or hardware are recognised on shipment of the goods, at which point the risks and benefits associated with ownership of the goods are transferred to the purchaser.

Revenues from sales of goods are recognised when the risks and benefits associated with ownership of the goods are transferred to the purchaser. Revenues from services still ongoing at the consolidated statement of financial position date are recognised on the basis of their percentage of completion at that date.

Revenues for support services are taken to income over the contractual duration.

There are no sales under multiple-element arrangements (e.g. goods and services) for which separate recognition of revenues would be required.

Grants

Grants are recognised when there is reasonable certainty that they will be received and that all related conditions will be met. Grants towards cost components are recognised as income, but are systematically allocated to the financial year, in order to match the costs they are intended to offset. For grants towards the cost of an asset, the asset and the grant are recognised at their nominal value and the release to income takes place gradually, on a straight line basis, over the expected useful life of the asset.

Where a non cash grant is received, the asset and the contribution are recognised at their nominal value and are released to income on a straight line basis over the expected useful life of the asset.

Dividends

The distribution of dividends to shareholders of the Group Companies is recognised as a liability in the period in which they are approved by the general meeting of shareholders.

Costs

Rent and operating leases charges

Rent and operating leases charges are charged to income on an accruals basis.

Financial income and expense

Financial income and expense are charged to income on an accruals basis.

Current and deferred taxation

The tax charge for the year comprises current and deferred taxation. Current tax is charged to income, except for cases where the tax relates to items accounted for as an equity component. Current tax is calculated by applying the tax rate in force at the consolidated statement of financial position date to taxable income. Concerning IRES (corporate income tax), it should be noted that the Parent Company and its subsidiaries have elected for a consolidated tax regime, with the Parent Company as tax consolidator.

Deferred tax is calculated, using the so-called liability method, on temporary differences between the book and tax bases of assets and liabilities. Deferred tax is calculated as a function of the expected timing of the reversal of the temporary differences, using the tax rate

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

in force at the date of the expected reversal. A deferred tax asset is recognised only where it is probable that sufficient taxable income will be generated in subsequent years for the recovery thereof.

Segment information

As expressly provided for by IFRS 8, the Parent Company does not have any financial instruments listed on regulated markets and thus does not prepare segment information. In any case, the notes to the consolidated financial statements provide information on the more significant amounts (goodwill, revenues, etc.) relating to the Education division.

Use of estimates

The preparation of financial statements requires the Company to apply accounting policies and methods, which, in certain circumstances, depend on difficult and subjective assessments that may be based on past experience and on assumptions that, from time to time, are considered reasonable and realistic based on relevant circumstances. The application of these estimates and assumptions affects the amounts presented in the financial statements, comprising the statement of financial position, the income statement and cash flow statement, as well as the disclosures provided. The actual amounts of the financial statement components, for which estimates and assumptions have been used, may differ from those reported, due to the uncertainty of assumptions and the conditions on which estimates are based. Set out below is a listing of financial statement components that, more than others, require greater subjectivity, on the part of Company, in the application of estimates and, for which, a change in the conditions of underlying assumptions used may have a significant impact on the financial statements of the consolidated companies:

- Business combinations (IFRS 3) and measurement of intangible assets: the process of allocation of goodwill to the assets of TeamSystem Group following a business combination is based on estimates and assumptions derived from the professional judgement of the Company. Professional judgement is also used to determine the most appropriate methodologies for measurement, and in certain cases provisional initial accounting has been opted for, as permitted by the accounting standard.
- Goodwill and other intangible assets: goodwill and other intangible assets with an indefinite useful life are tested annually for impairment and during the course of the year if there is any indication thereof. Other intangible assets are tested annually for impairment when there are indications that the carrying amount may not be recovered. When value in use needs to be computed, the Company estimates the cash flows expected from an asset or from the CGU and choose an adequate discount rate in order to calculate the present value of the cash flows. Accordingly, the impairment test for fixed assets is performed using forecasts, which are naturally subject to uncertainty, of cash flow included in business plans approved by the relevant Board of Directors or in projections prepared by management of the Group companies in periods in which the business plan has not been updated for the insights needed to make strategic choices.
- Development expenses: the initial capitalisation of costs is subject to confirmation of the judgement of management as to the technical and economic feasibility of the project, usually when the project has achieved a precise phase of the development plan. To determine the amount to be capitalised, the Company applies various assumptions regarding

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

expected future cash flows from the asset, the discount rate to apply and the periods in which the expected benefits will occur.

- **Deferred tax asset and liability:** a deferred tax asset has been recognised on interest expense exceeding gross operating income (hereinafter "GOI") carried forward, to the extent that it is probable that there will be sufficient future GOI to allow the surplus to be utilised. A significant discretionary assessment is required by Management to determine the amount that can be accounted for as a deferred tax asset. They have to estimate the probable timing and the amount of future GOI, as well as a planning strategy for future taxation.
- **Employee benefits:** The cost of employee benefit plans is determined using actuarial assessments. An actuarial assessment requires the application of assumptions with respect to discount rates, the expected yield from investments, future wage increases, mortality rates and future increases in pensions. Due to the long term nature of these plans, the estimates are subject to a significant degree of uncertainty;
- **Derivatives:** the fair value of financial instruments not traded on an active market (for example, over-the-counter derivatives) is determined using valuation techniques. Company applies its own professional judgement to select the valuation methodology and the related assumptions based on market conditions at the end of each financial year.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

New accounting standards

Accounting standards, amendments and interpretations in force as from 2011.

Standard	Content	Effective date	Date from which the standard is applicable to the Company	Expected impact on the Company's financial statements
Amendment to IAS 32—Financial instruments: presentation	The amendment has modified the methodology for accounting for rights, options and purchase warrants and for a fixed number and a fixed amount in any currency, of an entity's own equity instruments.	1 February 2010	1 January 2011	No impact for the Company.
IFRIC 19—Extinguishing financial liabilities with equity instruments	This clarifies the requirements of IFRS, in the case where a business renegotiates the terms of a financial liability with its creditor and the creditor commits to accepting the Company's shares or other equity instruments of the Company to extinguish all or part of a financial liability.	1 July 2010	1 January 2011	No impact for the Company.
Amendment to IFRS 1—First-time adoption of International Financial Reporting Standards amended to provide an exemption from comparative IFRS 7 disclosures	Gives the possibility to first-time adopters of IFRS to retrospectively apply the new requirements of IFRS 7 (Revised).	1 July 2010	1 January 2011	No impact for the Company.
IAS 24 revised—Related party disclosures	Amends the definition of related party and amends a number of matters concerning disclosure by government-related entities.	1 January 2011	1 January 2011	No significant impact is expected for the Company. On 11 November 2010 the Board approved the procedure for related party transactions as required by Consob resolution No. 17221 of 12/3/2010 and subsequent amendments
Amendment to IFRIC 14—The limit on a defined benefit asset, minimum funding requirements and their interaction	This permits entities to recognise as an asset voluntary prepayments for minimum funding contributions.	1 January 2011	1 January 2011	No significant impact is expected for the Company.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

Accounting standards, amendments and interpretations in force for financial years commencing after 1 January 2011.

Standard	Content	Effective date	Date from which the standard is applicable to the Company	Expected impact on the Company's financial statements
Amendment to IFRS 7—Financial instruments: Disclosures	This promotes the transparency of disclosure of transfer transactions improving the understanding of users of financial statements of the risk associated with transfer transactions of financial assets and the effects of this risk on the financial position.	1 July 2011	1 January 2012	No significant impact is expected for the Company.
Amendment to IFRS 1—First-time adoption of International Financial Reporting Standards	The following aspects have been amended: a) The first amendment replaces references to a fixed date of 1 January 2004 with the date of transition to IFRS; b) The second amendment provides guidance on how an entity should resume presenting financial statements in accordance with IFRS after a period when the entity was unable to comply with IFRSs because its functional currency was subject to severe hyperinflation.	1 July 2011	N/A	No impact for the Company.
Amendment to IAS 12—Income Taxes	Following the amendments made, for those who apply IAS 40, deferred tax is measured at the tax rate applicable on the sale of an asset and not at the tax rate applicable to the use of the asset.	1 January 2012	N/A	No impact for the Company since the applicable tax rate for income produced from the use of the asset and the income produced from the sale of the asset coincide.
Amendment to IAS 1—Presentation of financial statements	This indicates how to classify within the statement of comprehensive income those items that, in subsequent financial years, could be reclassified to the income statement.	1 July 2012	N/A	No significant impact is expected for the Company.
Amendment to IAS 19—Employee benefits	This eliminates the corridor method and partially amends the computation of finance costs.	1 January 2013	N/A	No significant impact is expected for the Company.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

Standard	Content	Effective date	Date from which the standard is applicable to the Company	Expected impact on the Company's financial statements
IFRS 9—Financial instruments	This publication represents the first phase of project plan for the replacement of IAS 39. The new standard uses a single approach based on the means of management of financial instruments and on the features of contractual cash flows from financial assets for the determination of the assessment criterion, replacing various provisions of IAS 39. Moreover, the new standard envisages a single method for the determination of the impairment of financial assets.	1 January 2013	N/A	No significant impact is expected for the Company.
IFRS 10—Consolidated financial statements	This establishes new principles for the preparation of consolidated financial statements when an entity controls one or more other entities.	1 January 2013	N/A	No impact is expected for the Company.
IFRS 11—Joint Arrangements	This defines and amends the accounting treatment of joint arrangements and joint ventures.	1 January 2013	N/A	No impact is expected for the Company.
IFRS 12—Disclosure of interests in other entities	This amends and clarifies disclosure requirements relating to information to be provided on interests in other entities.	1 January 2013	N/A	No significant impact is expected for the Company.
IFRS 13—Fair value measurement	This improves consistency and reduces complexity by providing an unequivocal definition of fair value, unequivocally identifying the means of its application and the disclosures to be provided in the notes to the financial statements.	1 January 2013	N/A	The Company is evaluating the impact that this new standard could have on biological assets (current and non current) and on financial assets available for sale.
IAS 27 (Revised 2011)—Consolidated and separate financial statements	The standard has been revised following the approval of IFRS 10 (Consolidated financial statements). In particular, it sets out the requirements for the preparation of separate financial statements .	1 January 2013	N/A	No significant impact is expected for the Company.
IAS 28 (Revised)—Investments in associates	This amends and regulates the measurement of joint ventures following the approval of IFRS 11.	1 January 2013	N/A	No impact is expected for the Company.

Total			310,433	843	(6,206)		305,069

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

	As of 31 Dec 2010	Change in consolidation area movements	Other	Additions (Amortization)	(Impairments)	As of 31 Dec 2011
Capitalized development expenses	416	129	93	1,152	(536)	1,254
Software, trademarks, patents and licenses	77,572	182	12	135	11,909	65,993
Customer relationship IFRS	223,549				(11,312)	212,237
Other intangible assets	3,190	5		59	(256)	2,998
Assets under construction	343		(105)	1,270		1,508
Total	305,069	317		2,616	(24,013)	283,990

With respect to additions (totalling Euro 2,616 thousand), the main expenditure has related to:

- a) capitalised development costs of Euro 1,076 thousand relating to new products and / or new software modules developed mainly by the Parent Company during the course of 2011 and which started being marketed in the same financial year;
- b) assets in process of formation capitalised mainly by the Parent Company of Euro 1,085 thousand with respect to development costs of new products and /or new software modules, which at 31 December 2011 had not yet been completed or for which the marketing and sales phase had not yet started.

3 Goodwill

	OPENING BALANCE	As of 30 Sep 2010 TS Group	Additions	(Impairments)	As of 31 Dec 2010
Goodwill CGU SWSS		314,794			314,794
Goodwill CGU Education		20,645			20,645
Goodwill CGU CAD/CAM		6,410			6,410
Total		341,849			341,849

	As of 31 Dec 2010	Other movements	Additions	(Impairments)	As of 31 Dec 2011
Goodwill CGU SWSS	314,794		11,788		326,582
Goodwill CGU Education	20,645		15		20,660
Goodwill CGU CAD/CAM	6,410				6,410
Total	341,849		11,803		353,652

"Goodwill" (totalling Euro 353,652 thousand at 31 December 2011) relates, with reference to the balance at 31 December 2010, to the acquisition of TeamSystem Group made in 2010 by the private equity firm HG Capital by means of the vehicle Titan BidCo Srl, as commented upon in the introduction, plus Euro 11,803 thousand relating to acquisitions made in 2011.

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2011

The goodwill recorded at 31 December 2010 represents the excess of the consideration paid over the current value of the assets and liabilities acquired and has been allocated to the CGUs Software Solution, Education and Nuovamacut.

The increase in "Goodwill" recorded during the course of 2011 relates to newly acquired companies: Euro 2,028 thousand for I.S.P. Srl, Euro 15 thousand for Drc Form Srl, Euro 1,260 thousand for TeamSystem Communication Srl and Euro 8,500 thousand for Danea Soft Srl. For the purchase price allocation process for these new Companies, reference should be made to "Appendix 1" to these consolidated financial statements. Furthermore, it should be noted that the purchase price allocation (and the consequent determination of goodwill) is preliminary, with respect to Danea Soft Srl (as per "Appendix 1" to the Group's consolidated financial statements).

Impairment Tests

The goodwill pertaining to each of the aforementioned CGUs is subject to impairment testing at least annually, except for acquisitions made at the year end, for which the consideration paid is representative of fair value.

In terms of impairment tests, steps were taken to determine the recoverable amount (so-called Enterprise Value) of each CGU and of TeamSystem Group as a whole, by means of the application of discounted cash flow methodology. The test was performed by discounting prospective cash flow reported (i) with respect to 2012, in the budget approved by the Board of Directors, (ii) with regard to subsequent years, in projections included in the Business Plan approved by the Board of Directors on 11 November 2011, in connection with the reverse merger described in the introduction and subject to attestation by an independent appraiser; these projections show significant rates in growth of turnover, EBITDA and cash flow that, moreover, are substantially consistent with TeamSystem Group's historical percentage growth rates, as attested by the appraiser, on the occasion of the reverse merger, for the purposes of his sworn appraisal as to the financial sustainability of the aforementioned Business Plan. In particular, it should be noted that the trend in results for 2011 is not materially different from the forecasts for 2011 as included in the Business Plan and, also for this reason, it was not considered necessary to update the projections for subsequent years—something that will be performed in 2012 to take account of the new acquisitions.

Beyond the time span of the business plan, a terminal value was determined assuming an operating cash flow (Net operating profit Less Adjusted Tax- NOPLAT) suitably normalised to maintain conditions of normal business operations. In the choice of the growth rate to apply to NOPLAT, it was established that, consistent with the development foreseen by the Business Plan and with historical growth, there was a reasonable expectation of growth of 2% (so-called g rate).

In addition to the g rate assumption, the main assumptions adopted regard the estimate of the weighted average cost of capital ("WACC") of 9.80% for the SWSS and Nuovamacut CGUs and 8.10% for the Education CGU.

The impairment tests did not provide any indication of impairment and thus no writedowns were required.

The Company also performed sensitivity analysis, applying more prudent assumptions than those used for the determination of the WACC parameters and for the g-rate and it should be noted that, under this scenario, it would be necessary to apply writedowns, but they have not

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

been recognised in the financial statements, as the aforementioned parameters are presently considered to be more appropriate for the purposes of impairment tests.

The impairment test models and related results were approved by the Board of Directors on 11 May 2012, in accordance with guidelines of the joint document No. 4 of March 2010 issued by ISVAP, Bank of Italy and Consob.

4 Equity investments in other companies

5 Deferred tax assets and deferred tax liabilities

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
Deferred tax assets	8,049	5,447	2,602	47.8%
Deferred tax liabilities	83,093	97,673	(14,580)	– 14.9%

The deferred tax assets mainly relates to non tax deductible accruals made to the provision for doubtful accounts, to the provision for agents' indemnity and to excess financial charges that can be carried forward to future financial years by the Parent Company as a deduction from future taxable income for IRES purposes (Euro 6,793 thousand).

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

With respect to the deferred tax liabilities, reference should be made to the following tables.

	As of OPENING BALANCE	30 Sep 2010 TS Group	Other movements	Additions (Disposals)	As of 31 Dec 2010

Total	97,673	17	(4,803)	569 (10,362)	83,093

The decreases recorded during the course of 2011 are mainly attributable to the step up in the tax basis of “TeamSystem Software” performed by the Parent Company; the residual deferred tax liability pertaining to this asset has been the reason for “Other movements” of Euro 4,803 thousand (due to the portion of deferred tax reclassified to substitute tax payable) and has generated non-recurring tax income of Euro 3,104 thousand, shown in the table under the “Decreases” column.

Moreover, the decreases almost entirely relate to the release of a portion of deferred tax pertaining to the amortisation of intangible assets (Software, Brands, Customer relationship and Other IFRS assets) identified on allocation of the purchase price paid for the acquisition of TeamSystem Group.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

6 Inventories

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
Raw and ancillary materials	48	51	(2)	– 4.6%
Finished products and goods	1,484	1,219	265	21.8%
Advances	71		71	n.m.
(Allowance for slow-moving inventory)	(52)	(32)	(20)	62.7%
Total	1,552	1,238	314	25.4%

The closing inventory of finished products and goods includes hardware products not yet delivered at the consolidated statement of financial position date, as well as consumables, accessories, third party software modules and licences for resale, characterised by a high turnover.

7 Trade receivables

The “Trade receivables” balance is comprised as follows:

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
Trade receivables	49,761	40,773	8,988	22.0%
(Allowance for doubtful receivables)	(2,876)	(2,763)	(113)	4.1%
Total	46,885	38,009	8,875	23.4%

Trade receivables amount in total to approximately Euro 49,761 thousand, gross of the provision for doubtful accounts.

	OPENING BALANCE	Change in consolidation area	Balance As of 30 Sep 2010 TS Group	Additions	(Utilisations)	As of 31 Dec 2010
Allowance for doubtful receivables			3,000	346	(583)	2,763
Total			3,000	346	(583)	2,763

	As of 31 Dec 2010	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2011
Allowance for doubtful receivables	2,763	73		1,223	(1,183)	2,876
Total	2,763	73		1,223	(1,183)	2,876

The increase in the provision for doubtful accounts is to take account of the expected realisable value of receivables not yet collected at 31 December 2011. The utilisations of the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

provision are due to the write off of receivables, based on elements of certainty and precision, or based on ongoing insolvency proceedings.

8 Tax receivables

The "Tax receivables" balance is comprised as follows:

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
VAT receivables	58	190	(131)	– 69.2%
Income taxes receivable	1,755	94	1,661	n.m.
Other tax receivables	246	2,907	(2,661)	– 91.6%
Total	2,059	3,190	(1,131)	– 35.5%

"Income tax receivable" mainly relates to a Parent Company tax credit arising from an advance payment of IRES that exceeded the balance due for the 2011 financial year.

9 Other receivables

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
Deposits	246	196	50	25.6%
Receivables from employees	47	29	18	60.9%
Other receivables	409	533	(123)	– 23.2%
Accrued income	12	124	(112)	– 90.5%
Prepayments	5,344	4,866	478	9.8%
Total	6,058	5,748	310	5.4%

"Other receivables" consist of an amount of approximately Euro 170 thousand due to the Parent Company, following the temporary suspension of the payment of contributions in connection with the earthquake that damaged the ancillary establishments in Campobasso and Fabriano in prior years (see also Note 15).

Prepayments mainly relate to the portion of costs of software subscriptions (pertaining essentially to Nuovamacut Group companies) attributable to future financial years on the basis of the contractual duration.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

10 Net financial indebtedness (net of shareholder loan)

Net consolidated financial indebtedness at 31 December 2011, with the exception of shareholder loan, is set out as follows:

	As of 31 Dec 2011			As of 31 Dec 2010

Cash and bank accounts at 31 December 2011 amount to Euro 13,826 thousand.

Other financial assets essentially consist:

- of bonds (BTP) maturing in July 2012, acquired by the Parent Company as a temporary investment of liquidity (Euro 80 thousand);
- of the market value of option contracts on interest rates held for trading by the Parent Company (Euro 79 thousand).
- of the market value of current and non current financial instruments (Euro 852 thousand) held by Danea Soft Srl, a Company that was newly consolidated in 2011, as listed below: balanced mutual funds of Euro 199 thousand, monetary deposits of Euro 300 thousand with maturity in May 2012, an investment in Italian government bonds (BTP) of Euro 148 thousand with maturity in July 2014, Unicredit bonds of approximately Euro 200 thousand with maturity in April 2013 and interest accrued at the consolidated statement of financial position date on the aforementioned financial instruments of approximately Euro 5 thousand.

At 31 December 2011 the amounts due to banks relate essentially to loans from the bank, Unicredit, obtained by the Parent Company for a total of Euro 176,194 thousand (comprising

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2011

interest accrued at that date of approximately Euro 62 thousand) relating to the financing facilities "Facility A" (Euro 73.1 million), "Facility B" (Euro 100 million) and "Acquisition Facility" (Euro 3 million).

For all the lending facilities, the interest rates applied are equal to EURIBOR (corresponding to the interest period duration decided from time to time) increased by a spread determined periodically in relation to the outcome of certain economic-financial parameters. At the consolidated statement of financial position date, the variable spread was 4.25% for Facility A and for the Acquisition Facility and 5.00% for Facility B. Facility A is repayable in six monthly instalments as from June 2011. Facility B is repayable in one instalment on the contractual maturity of the loan in September 2017. The "Acquisition" facility is repayable in six monthly instalments as from June 2014.

Set out below are the movements (solely of the capital elements) in the aforementioned Unicredit facilities during the course of 2011:

	As of 31 Dec 2010	(Reimbursement)	New draught	Capitalization	Other movements	As of 31 Dec 2011
Facility A	77,800	(4,668)				73,132
Facility B	100,000					100,000
Facility Acquisition . . .			3,000			3,000
Facility Revolving						
Total	177,800	(4,668)	3,000			176,132

Facility A, Facility B and the Acquisition facility are secured by pledges over the shares / quotas of the Parent Company and the subsidiary Group Euroconference Spa, by pledges over trade receivables, over brands, as well as a special lien over fixed assets and inventory of the Parent Company.

Furthermore, on a quarterly/annual basis, a check is made of compliance with certain covenants linked to the following ratios and components of the consolidated financial statements (as specified by the terms of the loan agreements):

- 1) ratio of "Cash-Flow" to "Debt Service";
- 2) ratio of "Financial Charges" to "EBITDA".
- 3) ratio of "Senior Net Debt" to "EBITDA";
- 4) ratio of "Total Net Debt" to "EBITDA";
- 5) level of capital expenditure on tangible fixed assets and intangible assets "Capex".

Checks performed at the consolidated statement of financial position date have shown that the covenants have been complied with and neither has there been any indication of non-compliance during the course of 2012.

The Vendor Loan (Euro 17,056 thousand) is with respect to put / call options and / or earn-outs due to non-controlling shareholders in Metodo Spa, Lexteam Srl, Zeronove Srl, Nuovamacut Automazione Spa, Inforyou Srl, TeamSystem Turin Srl, Group Euroconference Spa, I.S.P Srl, TeamSystem Communication Srl, TeamSystem Ancona Srl, TeamSystem Akron Srl and Danea Soft Srl. Particularly with respect to Danea Soft Srl, it should be noted that the estimate of the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

vendor loan (both in terms of put/call option and earn-out) has to be considered as preliminary, due to the preliminary allocation of the purchase price paid for the acquisition, as detailed further in "Appendix 1" to the consolidated financial statements.

Other financial liabilities at 31 December 2011 include IRS derivatives at market value of Euro 2,746 thousand. These derivatives were purchased by the Parent Company and are held for trading.

11 Shareholder loan

This balance of Euro 77,986 thousand relates to a loan provided by the holding company Titan Luxco 3 S.à.r.l.

The General Meeting of Shareholders of the Parent Company of 15 April 2011 approved an allocation of Euro 4,800 thousand of the Company's available reserves to the legal reserve and, as a result of a need for greater financial efficiency following the complex acquisition of the Group, also approved a partial reimbursment of the net equity, amounting to Euro 2,100 thousand.

The General Meeting of Shareholders of the Parent Company of 28 June 2011 passed a resolution to cover the loss for the 2010 financial year of Euro 3,293 thousand by means of the use of the reserve for capital contributions.

The column "Change in ownership" comprises the change in equity of the group (and that pertaining to non-controlling interests) as a consequence of the decrease in non-controlling holdings following the acquisition of further stakes by the Parent Company (also by means of the stipulation of agreements for put/call options on the shares/quotas not held by the Parent Company at the consolidated statement of financial position date), which occurred after the original business combination date. In particular, with reference to "retained earnings arising on consolidation," Euro 925 thousand relates to the acquisition of TeamSystem Ancona, Euro 1,678 thousand relates to the acquisition of TeamSystem Akron Srl, Euro 91 thousand is attributable to the acquisition of a residual stake in Drc Form Srl and approximately Euro 17 thousand is due to the acquisition of a residual stake in Nuovamacut 5 Srl.

Total	6,382	308	0	651	287	(122)	(498)	7,008

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

In accordance with IAS 19, employee termination indemnities are considered to be a defined benefit plan to be accounted for by applying the "Projected Unit Credit Method," which consists of discounting an estimate of the amount to be paid to each employee on termination of their employment and which involves the determination of:

- the past service liability, being the cost relating to the service already provided by the worker;
- the service cost, being the cost of the service provided by the worker in the year;
- the interest cost, being the interest expense deriving from the actuarial liability;
- the actuarial gain and loss, being the actuarial gain/loss relating to the valuation period.

The estimate, performed by an independent actuary, was computed on the basis of the following assumptions:

	Financial year 2011	Financial year 2010
Turnover	4.00%	4.00%
Discount rate	4.60%	4.70%
Anticipation rate	1.00%	1.00%

It should be noted that, following the implementation of new legislation on supplementary pensions, as per Legislative Decree 252/2005 introduced by the 2007 Finance Act, the possibility has arisen to transfer accruing severance indemnities to supplementary pension funds. Consequently, in the actuarial valuation of the Provision for employee termination indemnities at 31 December 2010, account was taken of the effects deriving from the new legislation, recognising, for IFRS purposes, only the liability relating to accrued severance indemnities remaining as a consolidated liability, as the amounts accruing are paid over to a separate entity (supplementary pension fund or the state fund INPS).

14 Provisions for risks and charges

Changes in provisions for risks and charges are set out as follows:

	OPENING BALANCE	Change in consolidation area	As 30 Sep 2010 TS Group	Additions	(Utilisations)	As of 31 Dec 2010
Provision for pension and similar obligations			953	46	(24)	975
Provision for litigations			623	9	(3)	628
Other provision for risks and charges . .			298	7	(3)	302
Total			1,874	62	(30)	1,906

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

	As of 31 Dec 2010	Change in consolidation area	Other movements	Additions	(Utilisations)	As of 31 Dec 2011
Provision for pension and similar obligations	975	279		84	(290)	1,048
Provision for litigations	628			149	(15)	763
Other provision for risks and charges .	302	2		65	(254)	115
Total	1,906	280		298	(559)	1,926

The "Provision for pensions and similar obligations" amounts to Euro 1,048 thousand at 31 December 2011 and mainly relates to the Provision for agents' indemnity.

The Provision for risks for litigation at 31 December 2011 amounts to Euro 763 thousand.

TeamSystem Group is not party to any litigation or disputes worthy of mention.

15 Other non current liabilities

Other non current liabilities" amount to Euro 1,012 thousand at 31 December 2011 and essentially relate to Parent Company balances:

- Euro 108 thousand relating to income tax, VAT and other taxes of TeamSystem Fabriano Srl, merged by absorption into TeamSystem Srl in 2001;
- Euro 904 thousand relating to social contributions of which Euro 870 thousand relates to the ancillary establishment in Campobasso and Euro 34 thousand relates to the ancillary establishment in Fabriano.

It should be noted that Legislative Decree 61/2008 (ratified by Law 103/2008) and Legislative Decree 62/2008 (ratified by Law 201/2008) have provided for the payment, at an amount reduced by 40%, without any additional penalties and interest, by means of 120 monthly instalments, of taxation and contributions suspended as a result of regulatory provisions for areas hit by the earthquake of 1997 (Marche and Umbria).

16 Current tax liabilities

The "Current tax liabilities" balance is comprised as follows:

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
VAT liabilities	176	463	(287)	– 61.93%
Income tax payables	381	400	(19)	– 4.66%
Liability resulting from tax consolidation .	12	9	3	29.49%
Withholdings	1,827	1,675	153	9.1%
Other tax liabilities	3,413	391	3,022	n.m.
Total	5,810	2,938	2,872	97.7%

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

“Other tax liabilities” almost entirely relate to substitute tax payable, whose payment is divided by instalments, (triggered by the Parent Company) due to the effect of the step-up of the tax basis of the asset “TeamSystem Software” on the allocation of the purchase price for the acquisition of TeamSystem Group by the private equity firm HG Capital.

17 Other current liabilities

	As of 31 Dec 2011	As of 31 Dec 2010	Net change	Net change—%
Due to social securities	3,109	2,761	348	12.6%
Employee payables	5,720	5,060	660	13.0%
Advances	3,555	3,716	(160)	–4.3%
Other liabilities	478	376	102	27.1%
Accrued income	362	128	234	n.m.
Deferred revenues	7,830	5,676	2,154	37.9%
Total	21,053	17,716	3,337	18.8%

“Employee payables” of Euro 5,720 thousand relate to remuneration and 2011 performance bonuses (not yet paid at the year end) payable to employees, directors and collaborators, as well as accruals for holiday pay and leave of absence.

“Advances” at 31 December 2011 amount to Euro 3,555 thousand and mainly relate to advances received by the “Education” SBU relating to training services being provided at the consolidated statement of financial position date.

“Deferred revenues” (Euro 7,830 thousand) mainly relates to the portion of revenues for software subscriptions (pertaining essentially to Nuovamacut Group companies) attributable to future financial years, based upon the contract duration.

18 Revenue

Total	29,728	7,382	26,353	3,376	45.7%

“Other IFRS financial charges” include Euro 793 thousand of notional financial charges related to the discounting of the estimated earn-out and put / call options payable.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

26 Current taxes

Current taxes for the 2011 financial year amount to Euro 9,459 thousand and consist of the following:

- IRES of Euro 6,470 thousand;
- IRAP (regional tax on productive activities) of Euro 2,989 thousand.

With respect to deferred taxes, reference should be made to Note 5.

27 Financial instruments and IFRS 7

The Group Companies are exposed to a variety of risks of a financial nature that are managed and monitored centrally and which can be categorised as follows:

Foreign exchange risks

The Group Companies operate almost exclusively in Italy and, accordingly, are not exposed to foreign exchange risks.

Credit risk

The credit risk is substantially reduced by the high fragmentation of the customer base and the high degree of customer loyalty. Moreover, accurate procedures for the control of overdue balances limit doubtful balances to insignificant amounts.

In any case, the customer credit policy, by customer category (resellers and end-users), envisages:

- a) the control and assessment of "credit standing";
- b) the control of the flow of payment collection;
- c) taking appropriate action by issuing reminders and by the use of credit collection procedures, including recourse to companies specialised in debt recovery.

The maximum theoretical exposure to credit risk for the Group Companies is represented by the carrying value of trade receivables as presented in the financial statements, as well as residual financial receivables recorded in current and non current financial assets.

Interest rate risk

The risks relating to changes in interest rates relate to loan facilities that have been granted. Floating rate loans expose the Company to a risk of changes in cash flow. The aim of the management of interest rate risk is to limit and stabilise cash outflows triggered by interest expense on loans.

Liquidity risk

The two main factors that determine the dynamics of the Group's liquidity are, on one hand, the resources generated/absorbed by operating and investment activities and, on the other hand, the maturity and renewal of financial liabilities. Management of these risks is done by the Finance Department of the Parent Company.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

Of the procedures adopted with the intention of optimising cash flow management and of reducing the liquidity risk, the following should be noted:

- the maintenance of an adequate level of available liquidity;
- the adoption of Cash-pooling at Group level;
- the obtainment of adequate borrowing facilities;
- the control of prospective liquidity conditions, in relation to the corporate planning process, also with reference to the verification of compliance with covenants.

The financial projections of the Company and of the Group do not indicate any critical factors impacting the ability to generate sufficient cash flow in 2012 to meet their commitments, taking account of available facilities and to comply with the covenants.

Liquidity risk—liquidity statement (IFRS 7 parag. 39)

The following table of liquidity risk shows the timing of commitments in respect of the capital elements of loans and lease contracts (if any):

Position at 31 Dec 2010

Sensitivity (IFRS parag. 40)

As previously indicated, the Group is exposed mainly to interest rate risk. Sensitivity analysis has been applied to the main statement of financial position components, the measurement of which could change as a result of fluctuations in market interest rates.

In particular, the analysis took into consideration solely floating rate loans and assumed a change of 30% (upwards and downwards) in the interest rates applied. The potential effects

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

on income (before income taxes) of this assumed change would be a higher or lower financial charge of approximately Euro 105 thousand in the year to 31 December 2011 (it would have been Euro 33 thousand in the year ended 31 December 2010).

Financial instruments by category (IFRS 7 parag. 8)

As required by IFRS 7, paragraph 8, financial instruments have been identified by category with respect to their balance sheet classification.

Levels of fair value hierarchy

In relation to the financial instruments recorded in the statement of financial position at fair value, IFRS 7 requires these amounts to be classified on the basis of levels of hierarchy that reflect the significance of the input used for the determination of fair value. The levels are the following:

- Level 1—prices quoted by active markets for assets or liabilities being measured;
- Level 2—inputs other than Level 1 inputs that are directly observable (prices) or indirectly (derived from prices) market inputs;
- Level 3—inputs not based on observable market data.

30 Subsequent events

Acquisition of Paradigma

In January 2012 the agreement was finalised for the acquisition by TeamSystem Srl of 100% of the quotas of Paradigma Srl.

Paradigma, a company set up in Turin in 1991, is an Italian boutique specialised in professional training services aimed at management in large Italian and international businesses and completes the product range of TeamSystem Group, which can thus preside over the market for training in the following segments: SMEs, professionals, large practices and multinational

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2011

businesses. The transaction falls within the plan for the development of TeamSystem Group aimed at also extending its leadership in the training sector, in which it has operated for a number of years through Euroconference, a group company specialised in training services for accountants, corporate administration managers and labour consultants.

Acquisition of Digita

In February 2012 the agreement was finalised for the acquisition by TeamSystem Srl of 60% of the quotas of Digita S.r.l, stipulating, at the same time with the non-controlling shareholders, a shareholder agreement that provides for the possibility to exercise a put and call option on the residual 40% stake within predetermined future periods.

Digita S.r.l, an Italian company located in Asolo (Treviso), has developed Tustena CRM software, which is based on a platform designed natively with cloud logic and which is capable of satisfying all marketing and customer management needs, as well as permitting scalability and ample possibilities for personalisation.

Acquisition of TeamSystem Ancona

In February 2012, subsequent to the letter of intent entered into with approximately further non-controlling shareholders, the acquisition was completed by TeamSystem of almost all of their quotas, corresponding to 8.46% of the quota capital.

Cover of loss of the subsidiary TeamSystem Service

In April 2012, on the occasion of the approval of the 2011 financial statements of TeamSystem Service, the quota capital was reduced to zero, the further losses incurred in the 2011 financial year were covered and the quota capital was increased again to its previous level, by means of the pay in by the sole owner TeamSystem of Euro 205 thousand.

Independent auditors' report

To the shareholders of
TeamSystem Srl

- 1 We have audited the consolidated financial statements of TeamSystem Srl (formerly Titan Bidco Srl) and its subsidiaries (together the "Group" or the "TeamSystem Group") as of and for the year ended 31 December 2010 which comprise the statement of financial position, the income statement and the statement of comprehensive income, statement of changes in equity, statement of cash flows and related notes. The directors of TeamSystem Srl are responsible for the preparation of these consolidated financial statements in compliance with the International Financial Reporting Standards as adopted by the European Union. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
- 2 We conducted our audit in accordance with the auditing standards issued Consiglio Nazionale dei Dottori Commercialisti e degli Esperti Contabili and recommended by CONSOB. Those standards require that we plan and perform the audit to obtain the necessary assurance about whether the consolidated financial statements are free of material misstatements and, taken as a whole, are presented fairly. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the directors. We believe that our audit provides a reasonable basis for our opinion.

For comparability purposes, the income statement shows an additional column "31 December 2010 Pro-forma" which includes the pro-forma adjustments deriving from the acquisition of TeamSystem Srl by Titan Bidco Srl which took place on 29 September 2010 as if it had taken place on 1 January 2010. The pro forma information, which has been derived from the "Pro-Forma consolidated income statement for the year ended 31 December 2010 of TeamSystem Srl", was prepared on a voluntary basis for information purposes only, in accordance with criteria recommended by CONSOB in its communication DEM/1052803 of 5 July 2001, and was examined by us. Our report thereon was issued on 28 June 2011.

- 3 In our opinion, the consolidated financial statements of the TeamSystem Group as of and for the year ended 31 December 2010 comply with the International Financial Reporting Standards as adopted by the European Union; accordingly, they have been prepared clearly and give a true and fair view of the financial position, result of operations and cash flows of the TeamSystem Group for the year then ended.
- 4 As mentioned in the "Introduction" to the disclosures notes, Titan BidCo acquired TeamSystem Srl (and its subsidiaries) during 2010 and then was incorporated in TeamSystem Srl by means of a reverse merger. The effects of the reverse merger are shown in the notes to the consolidated financial statements and, more specifically, in the Introduction and in Annex 1.

Report on the pro-forma consolidated income statement for the year ended 31 December 2010 of TeamSystem Group

To the Board of Directors of
TeamSystem Srl

1. We have examined the pro-forma consolidated income statement for the year ended 31 December 2010 accompanied by the explanatory notes (together the "Pro-Forma Consolidated Financial Information") of TeamSystem Srl (formerly Titan Bidco Srl) and its subsidiaries (together the "Group" or the "TeamSystem Group").

The Pro-Forma Consolidated Financial Information has been derived from the consolidated financial statements of TeamSystem Group for the year ended 31 December 2010 as well as from the pro-forma adjustments applied thereto which we have examined.

The consolidated financial statements for the year ended 31 December 2010 of TeamSystem Group were audited by us and our audit report thereon was issued on 28 June 2011.

The Pro-Forma Consolidated Financial Information has been prepared on the basis of the assumptions illustrated in the explanatory notes, in order to retrospectively reflect the acquisition of TeamSystem Srl by Titan Bidco Srl, which occurred on 30 September 2010 (the "Acquisition").

2. The Pro-Forma Consolidated Financial Information has been prepared on a voluntary basis for information purposes only, in accordance with criteria recommended by CONSOB in its communication DEM/1052803 of 5 July 2001 *"Comunicazioni in materia di modalità di redazione dei dati pro-forma"*.

The purpose of the preparation of the Pro-Forma Consolidated Financial Information is to simulate, using accounting policies that are consistent with the historical data and compliant with applicable legislation, the effects of the Acquisition on the consolidated income statement of the Group, as if it had taken place on 1 January 2010. However, it should be noted that if the Acquisition had actually taken place on the date assumed above, the effects would have not necessarily been the same as those presented.

The preparation of the Pro-Forma Consolidated Financial Information is the responsibility of the Company's Directors. Our responsibility is to express an opinion on the reasonableness of the assumptions used by the Directors, and the correctness of the methodology applied in the preparation of the Pro-Forma Consolidated Financial Information. It is also our responsibility to express an opinion on the correctness of the measurement criteria and the accounting principles applied.

3. We conducted our examination in accordance with criteria recommended by CONSOB in its communication DEM/1061609 of 9 August 2011 for the examination of pro-forma financial information, carrying out tests as we considered necessary for the purposes of our engagement.
4. In our opinion, the assumptions used by TeamSystem Group in the preparation of the Pro-Forma Consolidated Financial Information are reasonable and the method used in the preparation of the above mentioned pro-forma information has been applied correctly for

the purposes illustrated above. Moreover, the measurement criteria and accounting principles used for the preparation of the above pro forma information are correct.

Pesaro, 13 June 2011

On behalf of the Board of Directors of
TeamSystem Srl
Managing Director
Federico Leproux

TeamSystem Group

Notes to the consolidated financial statements

for the year ended 31 December 2010

Introduction

On 30 September 2010 the private equity firm HG Capital (hereinafter "HGC") won the auction for the acquisition from Bain Capital of TeamSystem Srl (hereinafter "Incorporating Company") and its subsidiaries (hereinafter "TeamSystem Group") for approximately Euro 567 million. The purchase transaction ("Acquisition") was finalised by means of a corporate "vehicle" Titan Bidco Srl (hereinafter "Company" or "Incorporated Company"), a company entirely held by Luxco 3 Sàrl and ultimately controlled by HG Capital Ltd.

The total amount of financial indebtedness to which recourse was made by Titan Bidco Srl for the purpose of the acquisition (comprising that taken on by TeamSystem Srl) was approximately Euro 247.8 million, of which Euro 177.8 million relates to bank debt and Euro 70.0 million to a Shareholders Loan.

Subsequent to the acquisition, on 9 November 2010, TeamSystem was transformed from an S.p.A. (a company limited by shares) to an Srl (a company limited by quotas) and on 21 December 2010 the reverse merger took place between TeamSystem Srl (Incorporating Company) and Titan Bidco Srl (Incorporated Company).

The consequent deed of merger was deposited with the business register on 21 December 2010. The accounting and tax effects have been backdated to 30 September 2010, the date when Titan Bidco Srl effectively acquired ownership of the stake in TeamSystem Srl and its subsidiaries.

The decision to proceed with a "reverse merger" is associated with the need for the operating company, TeamSystem Srl, to retain all its own complex legal relationships and licences, simplifying and avoiding the administrative burden of replacing TeamSystem Srl as party to all legal relationships and of transferring the licences and approvals, as well as substituting the company in all of its commercial relationships.

In consideration of the reverse merger transaction (as previously described), for financial statement purposes, Titan Bidco Srl was identified as the reporting entity, even though, from a legal and formal point of view, TeamSystem Srl is the company that emerged from the business combination.

Titan Bidco Srl was established on 16 December 2009 and, since it had no subsidiaries, it did not prepare and, consequently, did not file any consolidated financial statements for the 2009 financial year and, accordingly, no comparatives have been presented. Despite the foregoing, purely for the purpose of improved disclosure, Titan Bidco Srl has included a second column headed "31 December 2010 pro-forma" in the consolidated income statement, in order to present the pro-forma accounting impact, backdated to 1 January 2010, of the acquisition by Titan Bidco Srl of TeamSystem Group. These figures are derived from the "Consolidated pro-forma financial statements of the Group for the year ended 31 December 2010" prepared, on a voluntary basis, in compliance with the provisions contained in the Consob communication DEM/1052803 of 5 July 2001. For further details, reference should be made to Appendix 2 to these consolidated financial statements.

Company background

TeamSystem Srl (the "Company" or the "Parent Company") is a company registered in the Pesaro Business Register and is domiciled in Italy. TeamSystem Srl is a leader in Italy in the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

production and marketing of management / ERP software and in the provision of training aimed at micro—small and medium enterprises, at professionals (accountants, labour consultants, lawyers, condominium managers and self-employed professionals) and at associations.

Its registered office is in Via Gagarin 205, Pesaro. TeamSystem Srl does not have any financial instruments listed on the stockmarket. The company is a 100% directly held subsidiary of Titan Luxco 3 S.à.r.l. It is a 53% indirectly held subsidiary of the private equity firm HG Capital and is approximately 23% held by the private investment firm Bain Capital, with the remainder held by TeamSystem's senior and middle managers and by a number of financial investors. TeamSystem has operated for more than 30 years in the field of management software for consultants and businesses.

These consolidated financial statements were prepared by the Board of Directors on 13 June 2011 for approval by the first call of the General Meeting of Quotaholders set for 28 June 2011, with the second call set for 7 July 2011.

Accounting standards adopted

With respect to the accounting standards adopted for the preparation of the financial statements, it should be noted that, pursuant to articles 3 and 4 of Legislative Decree No. 38 of 28 February 2005, which governs the exercise of options covered by article 5 of European regulation No. 1606/2002 concerning international accounting standards, the Company has elected to adopt on a voluntary basis the international accounting standards endorsed by the European Commission (hereinafter "IFRS") for the preparation of its statutory and consolidated financial statements.

IFRS is taken to mean the international accounting standards issued by the International Accounting Board ("IASB") and endorsed by the European Community, as well as all amended international accounting standards ("IAS") and all the interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"), previously entitled Standing Interpretations Committee ("SIC").

TeamSystem Srl's consolidated financial statements, in the absence of any significant uncertainties or doubts regarding its ability to continue its activities in the foreseeable future, have been prepared on a going concern basis.

The financial statements

The balance sheet has been classified on the basis of the operating cycle, with a distinction between current and non-current components. On the basis of this distinction, assets and liabilities are considered to be current, if it is assumed that they will be realised or settled during the normal operating cycle. The revenue and cost components recorded in the financial year are presented by means of two statements: a separate income statement, which reflects an analysis of costs aggregated by nature and a statement of comprehensive income. Lastly, the cash flow statement has been prepared using the indirect method for the determination of cash flows deriving from operating activities. With this method, income for the year is adjusted for the effects of non-cash transactions, deferred payments and charges, as well as items of gains or losses associated with cash flows of activities classified as investment or financing.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

For the balance sheet, the income statement and the statement of comprehensive income, the first column shows figures relating to the 2010 financial year, whereas, only for the income statement and statement of comprehensive income, the second "Pro-forma" column shows the results of TeamSystem Group as though the extraordinary transactions mentioned in the above introduction had taken place at the end of the 2009 financial year. With reference to the pro-forma figures, reference should be made to Appendix 2 to these financial statements that sets out the assumptions used in the preparation thereof.

The figures included in the balance sheet, the income statement, in other financial statements and in the notes to the financial statements are expressed in thousands of Euros, except where otherwise indicated.

The consolidated financial statements for the year ended 31 December 2010 have been audited by PricewaterhouseCoopers Spa.

The accounting policies applied in the preparation of the consolidated financial statements are described later and have been applied on a consistent basis for all financial years presented, except where otherwise indicated.

Scope of consolidation

The consolidated financial statements of TeamSystem Group include the financial statements of the Parent Company and those of businesses for which TeamSystem controls directly or indirectly the majority of voting rights that can be exercised at a quotaholders' general meeting.

The entities consolidated on a line-by-line basis are as follows:

CONSOLIDATED SUBSIDIARIES	Place of incorporation and operation	Share capital	Net equity	Profit (loss) for the year	Held %	Equity ratios %
TeamSystem Ancona Srl	Ancona	400,000	2,338,697	38,811	57.90%	57.90%

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Changes to the scope of consolidation during the course of 2010

The scope of consolidation (that is, consolidation percentages) changed during the course of 2010 due to the effect:

- a) of the acquisition of a controlling interest in Inforyou Srl;
- b) of the acquisition of a controlling interest in TeamSystem Torino Srl;
- c) of the acquisition of a controlling interest in Nuovamacut Automazione Spa, parent company of the group with this name. With reference to Nuovamacut Group, it should be noted that, with respect to the structure of the sub-group that was acquired during the year, the following transactions have taken place:
 - i) merger by absorption of Nuovamacut 3 Srl, Solid Technology Srl and Asse Zeta Srl (incorporated companies) into Nuovamacut Nord Ovest srl (incorporating company);
 - ii) acquisition of a further minority quota in Nuovamacut Bologna Macchine Utensili Srl;
- d) acquisition of a further minority quota in TeamSystem Roma Srl;
- e) acquisition of a further minority quota in Lexteam Srl;
- f) acquisition of further shares from the minority shareholders of Metodo Spa;
- g) acquisition of further shares from the minority shareholders of Gruppo Euroconference Spa.

Reference date

The consolidated financial statements have been prepared based on financial statements approved by shareholders/quotaholders in general meeting, or, in the absence thereof, from draft financial statements approved by the Boards of Directors. All the financial statements of the TeamSystem Group companies have a 31 December financial year end.

Basis of consolidation

The financial statements used for the consolidation are the financial statements of the individual businesses, as approved by the respective administrative bodies. These financial statements are reclassified and adjusted in order to comply with IFRS and the accounting policies adopted by the Parent Company.

In the preparation of the consolidated financial statements, the statement of financial position and income statement components are consolidated line-by-line. Receivables and payables, income and charges and gains and losses originating from transactions between and among the businesses included in the consolidation are eliminated. The carrying value of consolidated equity investments is eliminated against the corresponding portion of equity attributable to the Group (or to minority interest).

Translation of foreign currency financial statements

The financial statements of the businesses comprised within the scope of consolidation are all prepared in Euros.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Intangible assets

Research and development expenses

In accordance with IAS 38, research expenses are charged to income as incurred.

Development costs incurred in relation to a determined project are capitalised only when the Directors can demonstrate, by means of appropriate analysis, the technical feasibility of completing the intangible asset so that it will be available for use or sale, the intention to complete the intangible asset and use or sell it, how the intangible asset will generate probable future economic benefits, the availability of adequate technical, financial and other resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development.

After initial recognition, development costs are carried at cost less any accumulated amortisation and any accumulated impairment losses. Amortisation begins when development is complete and the asset is available for use. It is amortised with reference to the period for which it is envisaged that the associated project will generate revenues for the Group. During the period in which an asset is no longer in use, it is assessed annually to ascertain if there has been any impairment.

Other development expenses that do not meet the above requirements are expensed as incurred. Development costs that have previously been expensed are not accounted for as an asset in subsequent periods.

Capitalised development costs are amortised (as from the start of the production or marketing of the product) on a straight line basis over their residual useful life (estimated to be between 3 and 5 years).

Customer relationship

Customer relationship (which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010) represents the sum total of contractual (supply contracts and service contracts etc.) and non contractual customer relationships and has been valued based on discounted income flows (Income Approach). The asset is amortised over its useful life of twenty years.

Proprietary software

Proprietary software, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010, is stated at its reproduction cost and is amortised over the length of its expected useful life of 5 years.

Proprietary software developed internally and destined for internal use is stated at cost of production and is amortised over the length of its residual expected useful life.

Third party software licenced for internal use

Third party software licenced for internal use is stated at purchase cost and is amortised over the length of its residual expected useful life estimated to be of five years.

Brands

The TeamSystem, Euroconference, Metodo and Nuovamacut brands, which arose on accounting for the acquisition of TeamSystem Group that took place on 30 September 2010, have been valued in accordance with the royalties method and are amortised over the length of their

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2010

residual expected useful life estimated to be of twenty years (TeamSystem and Euroconference) or ten years (Metodo and Nuovamacut).

Goodwill

Goodwill is initially recognised at cost, represented by the excess cost of the business combination over the fair value of the assets and liabilities acquired.

Goodwill is not amortised but is allocated to its respective Cash Generating Unit (hereinafter "CGU") and subjected annually (or more frequently if determined events or changes in circumstances indicate the possibility that value has been impaired) to impairment testing in accordance with IAS 36 "Impairment of Assets".

Subsequent costs

Costs incurred subsequently on intangible assets are capitalised if they increase the future economic benefit of the specific capitalised asset.

Amortisation

Amortisation is charged systematically on a straight line basis over the asset's estimated useful life, except for intangible assets with an indefinite life (being solely goodwill) that are not amortised and are systematically assessed to verify the absence of impairment. Other intangible assets are amortised as from the time they become usable. The estimated useful life of each main category is shown in the following table:

Goodwill	Indefinite useful life
Brands	10 - 20 years
Customer relationship	20 years
Proprietary software	5 years
Development expenses	3 - 5 years

Property, plant and equipment

Property, plant and equipment owned by the Group

Tangible fixed assets, consisting mainly of land, buildings, electronic machines, furniture and fittings and general and specific plant are stated at purchase cost, net of accumulated depreciation and writedowns. Costs incurred subsequent to acquisition (repairs and maintenance costs and replacement costs) are recorded as part of the carrying value of an asset, or recognised as a separate asset, only when it is believed that it is probable that associated future economic benefits will be generated and that the cost of the asset can be measured in a reliable manner. Repairs and maintenance costs (or costs of replacements that do not have the above characteristics) are expensed in the year in which they are incurred. Tangible fixed assets are systematically depreciated each year at rates determined on the basis of the residual useful life of the asset. The rates applied by the Parent Company are the following:

Land	Indefinite useful life
Buildings	33 years
Plant and machinery	10 years
Industrial and commercial equipment	7 years
Other assets	4 - 7 years

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Regardless of the depreciation already accounted for, in the event of impairment, an asset is written down accordingly. Gains and losses arising on disposal are determined by comparing the sales consideration to the net book value. The amount determined is accounted for in the income statement in the year incurred.

Financial charges incurred for capital expenditure on an asset that necessarily takes a substantial period of time to get it ready for its intended use ("qualifying asset" in accordance with IAS 23—Borrowing Costs) are capitalised and depreciated over the useful life of the asset class to which they relate. All other financial charges are expensed in the year they are incurred.

Borrowing costs for the purchase of fixed assets are charged to income.

Leased assets

In accordance with IAS 17, lease contracts are classified as finance leases where the terms of the contract are such as to transfer substantially all the risks and rewards incidental to ownership to the lessee. All other leases are considered to be operating leases. Leased assets are recognised at amounts equal to the present value of the minimum lease payments.

The corresponding liability towards the lessor is included in the statement of financial position as a liability for lease obligations. Payments of lease instalments are split between their capital and interest elements in order to produce a constant periodic interest rate on the remaining balance of the liability. Financial charges are expensed in the year.

Investments

Investments in other businesses classified as non current assets are stated at cost, inclusive of directly attributable charges, net of any impairment adjustments.

Inventory

Inventory is stated at the lower of specific purchase cost, inclusive of ancillary charges and its estimated realisable value, which can be derived from market prices. Inventories of obsolete or slow moving items are written down by taking account of their potential use or realisation.

Receivables

Receivables are recorded at cost (identified by their nominal value), net of a provision to take account of their expected realisable value.

Cash and bank balances

Cash and bank balances include cash on hand, bank and post office account balances and securities with an original maturity of less than three months.

Assets and liabilities classified as held for sale

Non current assets (or disposal groups) are classified as held for sale if their carrying value will be recovered mainly from the sale thereof rather than from their continuous use. Assets are measured at the lower of carrying value and fair value net of costs to sell. Assets and liabilities held for sale are presented separately from other assets and liabilities on the face of the

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

statement of financial position. The impact on income of assets sold is presented separately in the income statement net of the tax effect.

Foreign currency transactions

The functional and presentation currency of the Group companies is the Euro. As required by IAS 21, amounts originally denominated in foreign currency are translated at exchange rates ruling at the year end. Exchange differences realised on the collection of foreign currency receivables and on the payment of foreign currency payables are recorded in the income statement.

Writedowns (impairment)

The carrying value of assets with an indefinite useful life, for example goodwill and intangible assets in process of development, are not subject to depreciation or amortisation, but are assessed annually to determine whether an asset may be impaired.

The carrying value of other assets, except for long term work in progress (IAS11), for financial instruments covered by IAS39 and for deferred tax assets (IAS12), are subject to assessment at each balance sheet date to determine whether there is any indication that an asset may be impaired (impairment test). The estimated recoverable amount is represented by value in use. For the purposes of assessment, assets are grouped into the smallest identifiable unit for which the Directors are capable of separating the related cash inflows (CGU).

If the recoverable amount of the asset or cash generating unit (CGU or cash generating unit) is lower than the net carrying amount, the asset is adjusted to take account of the impairment loss, which is charged to income. The impairment loss of a cash generating unit is firstly allocated to goodwill and any residual balance is allocated to other assets.

Three cash generating units have been identified by the Group as follows: the Software Solutions CGU consisting of all the Group companies operating in the software sector (comprising Metodo), the Education CGU (consisting of Gruppo Euroconference) and the Nuovamacut CGU (relating to Nuovamacut Group companies).

The goodwill allocated to the Software Solutions CGU, to the Education CGU and the Nuovamacut CGU are subject to impairment tests (at least annually) by use of the DCF Method, that is, using the cash flows (arising from the most recent business plans approved by management of the Company) discounted at a rate which is representative of each CGU's business risk.

Interest bearing financial liabilities

Interest bearing financial liabilities are initially recorded at fair value, net of ancillary charges. Subsequent to their initial recognition, interest bearing financial liabilities are measured at amortised cost. As at the balance sheet date, the Group companies do not hold any financial liabilities designated at fair value through profit or loss.

Hedging instruments

The Group companies use financial derivatives. These financial derivatives are classified as financial instruments held for trading, unless they are designated as effective hedging instruments. These financial derivatives are initially recognised at fair value at the date in

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

which they are entered into; subsequently, the fair value is periodically remeasured. They are accounted for as an asset when the fair value is positive and as a liability when it is negative. Any gain or loss resulting from a change in fair value is taken to income as incurred. The fair value of interest rate swap contracts is determined with reference to the market value of similar instruments.

At the start of a hedging transaction, the Company designates and formally documents the hedging relationship to which it intends applying hedge accounting, its risk management objectives and the strategies pursued. The documentation includes the identification of the hedging instrument, of the element or transaction subject to hedging, of the nature of the risk and the means by which the business intends assessing the effectiveness of the hedge in offsetting the exposure to changes in the fair value of the hedged element or in the cash flows attributable to the hedged risk. It is expected that these hedges are highly effective in offsetting the hedged exposure or changes in the hedged cash flows attributable to the hedged risk. The assessment of whether these hedges have been proven to be highly effective is performed on a continuous basis during the financial year in which they have been designated. The transactions that satisfy the criteria for hedge accounting are accounted for on the basis of the following policy.

The portion of the gain or loss on the hedging instrument relating to the effective hedge is taken directly to equity, whereas the non effective portion is immediately recognised in the income statement. The gain or loss included in equity is reclassified to the income statement in the year in which the hedged transaction impacts the income statement, that is, when the financial charge or income is recognised. If it is believed that the envisaged transaction will no longer take place, the amounts initially recorded in equity are transferred to the income statement. If the hedging instrument expires or is sold or annulled or if its designation as hedging is revoked, the amounts previously included in equity remain as such until such time as the expected transaction takes place.

Employee benefit plans

Defined contribution plans

A defined contribution plan is a pension plan for which the company pays fixed contributions to a separate entity. The company does not have any obligation, legal or otherwise, to make additional contributions if the fund has insufficient assets to meet the payment of all employee benefits relating to the period of service. The obligations related to contributions for employees' pensions and other benefits are expensed as incurred.

Defined benefit plans

Net obligations related to defined benefit plans consist mainly of employee termination indemnities and are calculated by estimating, with actuarial techniques, the amount of the future benefit accrued to employees in the current and prior financial years. The benefit thus determined is discounted and recognised net of the fair value of any related assets. The computation is performed by an independent actuary using the projected unit credit method. Actuarial gains and losses are recognised in the income statement in the year in which they arise.

Following the introduction of new legislation on supplementary pensions, as per Legislative Decree 252/2005, introduced by the 2007 Finance Act, the possibility has arisen to transfer accruing severance indemnities to supplementary pension funds. Consequently, in the actuarial

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

valuation of the Provision for employee termination indemnities at 31 December 2008, account was taken of the effects deriving from the legislation, recognising, for IAS/IFRS purposes, only the liability relating to accrued severance indemnities remaining as a balance sheet liability, as the amounts accruing are paid over to a separate entity (supplementary pension fund or the state fund INPS).

Provisions for risks and charges

Where the Company has an obligation, legal or otherwise, resulting from a prior event and it is probable that this will lead to the loss of economic benefits to meet the obligation, an appropriate provisions for risks and charges is recorded. No provision is made for future operating losses. Provisions are measured at the current value of Management's best estimate of the cost of satisfying the obligation existing at the balance sheet date. With respect to legal cases, the amount of the provision is determined on the basis of estimates made by the relevant consolidated Company, together with its legal advisors, in order to determine the probability, the timing and the amounts involved.

Trade and other payables

Trade and other payables are stated at cost, representing their settlement value.

Revenues

Revenues from sales of goods and services

Revenues from sales of goods are recognised when the risks and benefits associated with ownership of the goods are transferred to the purchaser. Revenues from services still ongoing at the balance sheet date are recognised on the basis of their percentage of completion at that date.

Grants

Grants are recognised when there is reasonable certainty that they will be received and that all related conditions will be met. Grants towards cost components are recognised as income, but are systematically allocated to the financial year, in order to match the costs they are intended to offset. For grants towards the cost of an asset, the asset and the grant are recognised at their nominal value and the release to income takes place gradually, on a straight line basis, over the expected useful life of the asset.

Where a non cash grant is received, the asset and the contribution are recognised at their nominal value and are released to income on a straight line basis over the expected useful life of the asset.

Dividends

The distribution of dividends to shareholders / quotaholders of the Group companies is recognised as a liability in the period in which they are approved by the general meeting of shareholders / quotaholders.

Costs

Rent and operating leases charges

Rent and operating leases charges are charged to income on an accruals basis.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Financial income and expense

Financial income and expense are charged to income on an accruals basis.

Current and deferred taxation

The tax charge for the year comprises current and deferred taxation. Current tax is charged to income, except for cases where the tax relates to items accounted for as an equity component. Current tax is calculated by applying the tax rate in force at the balance sheet date to taxable income. Concerning IRES (corporate income tax), it should be noted that the Parent Company and some of its subsidiaries have elected for a consolidated tax regime, with the Parent Company as tax consolidator.

Deferred tax is calculated, using the so-called liability method, on temporary differences between the book and tax bases of assets and liabilities. Deferred tax is calculated as a function of the expected timing of the reversal of the temporary differences, using the tax rate in force at the date of the expected reversal. A deferred tax asset is recognised only where it is probable that sufficient taxable income will be generated in subsequent years for the recovery thereof.

Segment information

As expressly provided for by IFRS 8, the Parent Company does not have any financial instruments listed on regulated markets and thus does not prepare segment information. In any case, the notes to the consolidated financial statements provide information on the more significant amounts (goodwill, revenues, etc.) relating to the Education division.

Use of estimates

The preparation of financial statements requires the directors to apply accounting policies and methods, which, in certain circumstances, depend on difficult and subjective assessments that may be based on past experience and on assumptions that, from time to time, are considered reasonable and realistic based on relevant circumstances. The application of these estimates and assumptions affects the amounts presented in the financial statements, comprising the balance sheet, the income statement and cash flow statement, as well as the disclosures provided. The actual amounts of the financial statement components, for which estimates and assumptions have been used, may differ from those reported, due to the uncertainty of assumptions and the conditions on which estimates are based. Set out below is a listing of financial statement components that, more than others, require greater subjectivity, on the part of directors, in the application of estimates and, for which, a change in the conditions of underlying assumptions used may have a significant impact on the financial statements of the consolidated companies:

- Business combinations (IFRS 3) and measurement of intangible assets: the process of allocation of goodwill to the Company's assets following a business combination is based on estimates and assumptions derived from the professional judgement of the Directors. Professional judgement is also used to determine the most appropriate methodologies for measurement. It is for this reason that the business combination which took place in the financial year just ended should be considered, as permitted by the applicable accounting standard, preliminary and not definitive.
- Goodwill and other intangible assets: goodwill and other intangible assets with an indefinite useful life are tested annually for impairment and during the course of the year if there is

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

any indication thereof. Other intangible assets are tested annually for impairment when there are indications that the carrying amount may not be recovered. When value in use needs to be computed, the Directors estimate the cash flows expected from an asset or from the cash generating unit and choose an adequate discount rate in order to calculate the present value of the cash flows.

- Development expenses: the initial capitalisation of costs is subject to confirmation of the judgement of Directors as to the technical and economic feasibility of the project, usually when the project has achieved a precise phase of the development plan. To determine the amount to be capitalised, the Directors apply various assumptions regarding expected future cash flows from the asset, the discount rate to apply and the periods in which the expected benefits will occur. At 31 December 2010, the best estimate of the carrying amount of the capitalised development costs was Euro 499 thousand.
- Deferred tax asset and liability: a deferred tax asset has been recognised on interest expense exceeding gross operating income (hereinafter "GOI") carried forward, to the extent that it is probable that there will be sufficient future GOI to allow the surplus to be utilised. A significant discretionary assessment is required of Directors to determine the amount that can be accounted for as a deferred tax asset. They have to estimate the probable timing and the amount of future GOI, as well as a planning strategy for future taxation. The carrying value of interest expense recognised for tax purposes at 31 December 2010 is Euro 4,301 thousand.
- Employee benefits: The cost of employee benefit plans is determined using actuarial assessments. An actuarial assessment requires the application of assumptions with respect to discount rates, the expected yield from investments, future wage increases, mortality rates and future increases in pensions. Due to the long term nature of these plans, the estimates are subject to a significant degree of uncertainty;
- Derivatives: the fair value of financial instruments not traded on an active market (for example, over-the-counter derivatives) is determined using valuation techniques. Directors apply their own professional judgement to select the valuation methodology and the related assumptions based on market conditions at the end of each financial year.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

New accounting standards

Accounting standards, amendments and interpretations in force as from 2010 applied by the Company and the Group

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
Amendment to IAS 27	Consolidated and separate financial statements	The amendments clarify and deal mainly with the accounting treatment of transactions or events that change the proportion of ownership interest in subsidiaries and the allocation of a subsidiary's losses to minority interest. In accordance with the transition provisions of the standard, the Group has applied these amendments to IAS 27 prospectively. IAS 27 requires that, once a controlling interest has been acquired in a business, the transactions by which a parent company acquires or disposes of further non-controlling interests, without any change in control of a subsidiary, are transactions with shareholders and should be recognised under equity. It follows that the carrying value of the controlling interest and of the minority interest should be adjusted to reflect the change of interest in the subsidiary and the difference between the amount of the adjustment made to minority interest and the fair value of the consideration paid or received for the transaction should be recognised under equity and attributed to the shareholders of the parent company. No adjustments will be made to the carrying value of goodwill and gains or losses recognised in the income statement. Furthermore, ancillary charges deriving from these transactions should be taken to equity in accordance with the provisions of paragraph 35 of IAS 32. There is no significant impact for the Group.	1 January 2010
IFRS 3 (Revised)	Business combinations	The revised version of IFRS 3 introduced some important changes, as described below and regarding mainly: <ul style="list-style-type: none"> a) the provisions concerning acquisitions of subsidiaries achieved in stages state that a business combination arises only when control is obtained and that, at that date, all the identifiable net assets of the companies acquired are measured at fair value; b) an accounting policy choice to measure minority interest at fair value. Minority interest, in fact, has to be measured at fair value or at the minority's proportionate share of the fair value of the identifiable net assets of the acquiree (method already permitted in the previous version of IFRS 3). 	1 January 2010

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
		c) the costs associated with the business combination must be expensed and recognition has to be made at the acquisition date of any conditional payments. Moreover, with reference to the separate financial statements, acquisition related costs are subject to a specific policy choice as provided for by IAS 27. The impact of this change for the Group was Euro 5,323 thousand of additional costs for non-recurring services.	

Accounting standards, amendments and interpretations not yet applicable or not adopted early by the Group companies

The Company is evaluating the effect on the financial statements of international accounting standards (IAS/IFRS) and IFRIC interpretations that have been endorsed by the European Community and which have not yet become applicable to the financial statements, as well as International accounting standards (IAS/IFRS) and IFRIC interpretations that have not yet been endorsed by the European Community.

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
IFRIC 19	IFRIC 19—Extinguishing financial liabilities with equity instruments	This provides guidance on the recognition of the extinction of a financial liability through the issue of equity instruments. The interpretation establishes that, if a business renegotiates the conditions for the extinction of a financial liability and its creditor accepts to extinguish it through the issue of shares in the business, then the shares issued by the business become part of the consideration paid for the extinction of the financial liability and have to be measured at fair value; the difference between the carrying value of the extinguished financial liability and the initial value of the equity instruments issued has to be recognised in the income statement. There is no significant impact for the Group.	1 January 2011
Amendment to IFRS 1	First-time adoption of International Financial Reporting Standards	This amendment is aimed at eliminating the reference date of 1 January 2004 described as the date of transition to IFRS, as well as providing guidance on the presentation of financial statements in accordance with IFRS after a period of hyperinflation. There is no significant impact for the Group.	1 January 2012
IAS 24 (Revised)	Related party disclosures	Amends the definition of related party and amends a number of matters concerning disclosure by government-related entities. There is no significant impact for the Group.	1 January 2011

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2010

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
Amendment to IFRIC 14	The limit on a defined benefit asset, minimum funding requirements and their interaction	This permits entities to recognise as an asset voluntary prepayments for minimum funding contributions. No significant impact is expected for the Group.	1 January 2011
IFRS 9	Financial instruments	This represents the first part of a process in stages that has the objective of completely replacing IAS 39 and it introduces new criteria for the classification and measurement of financial assets and liabilities and for the derecognition of financial assets. In particular, for financial assets, the new standard uses a single approach based on the means of management of financial instruments and on the features of contractual cash flows from financial assets for the determination of the assessment criterion, replacing various provisions of IAS 39. Regarding financial liabilities, the main amendments relate to the accounting treatment of changes in fair value of a financial liability designated as at fair value through profit or loss, in the event that these are due to a change in the credit risk of the liability in question. In accordance with the new standard, these changes are to be presented in other comprehensive income and shall no longer be presented in the income statement. As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the standard. No significant impact is expected for the Group.	1 January 2013
Amendment to IFRS 1	First-time adoption of International Financial Reporting Standards	The following aspects have been amended: a) Change in accounting policies subsequent to the transition, but in the year of preparation of the first IFRS financial statements. b) In certain specific cases, on the preparation of the first financial statements after the transition, it is possible to account for a revaluation of assets by taking it directly to equity, even though the revaluation had not yet taken place on transition. New exemptions for revaluations. There is no significant impact for the Group.	N/A

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
Amendment to IFRS 3 (Revised)	Business combinations	The amendment clarifies that the components of minority interest that do not have the right to a proportionate share of net assets of the subsidiary are to be measured at fair value or in accordance with the requirements of applicable accounting standards. Accordingly, for example, a stock option plan granted to employees has to be measured, in the event of a business combination, in accordance with the provisions of IFRS 2 and the equity component of convertible bonds has to be measured in accordance with IAS 32. Moreover, the Board has examined the question of payments based on shares that are replaced as part of a business combination and has provided specific guidance to clarify the accounting treatment. There is no significant impact for the Group.	1 January 2011
Amendment to IFRS 7	Financial instruments: Disclosures	The amendment emphasises the interaction between disclosures of a qualitative nature and those of a quantitative nature required by the standard, concerning the nature and the extent of risks inherent in financial instruments. This should help the users of financial statements to link the information presented and to have access to a general description of the nature and the extent of the risks deriving from financial instruments. Moreover, the disclosure requirement has been eliminated for financial assets that have reached maturity, but which have been renegotiated or written down, as well as that relating to the fair value of collateral. No significant impact is expected for the Group.	1 January 2011
Amendment to IFRS 7	Financial instruments: Disclosures (7 October 2010)	The amendment was issued with the intention of improving an understanding of transactions concerning the transfer of financial assets, including an understanding of the potential effects deriving from any risk remaining with the business that transferred the assets. Furthermore, the amendment requires further disclosures, where a disproportionate amount of these transactions takes place at the end of an accounting period. As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the amendment. There is no significant impact for the Group.	1 January 2012
Amendment to IAS 1	Presentation of financial statements	The amendment clarifies that the Company will have to present an analysis of the individual components of the statement of comprehensive income either in the statement of changes in equity or in the notes to the financial statements. No significant impact is expected for the Group.	1 January 2011

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2010

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
Amendment to IAS 32	Financial instruments: presentation	The amendment deals with accounting for the issue of rights (rights, options or warrants) denominated in a currency that differs from the issuer's functional currency. Previously these rights were accounted for as a financial derivative liability; the amendment requires, on predetermined conditions, that such rights be classified as equity, regardless of the currency in which the strike price is denominated. The amendment has to be applied retrospectively. There is no significant impact for the Group.	1 January 2011
Amendment to IAS 34	Interim financial reporting	This provides a guide to disclosures to be provided in interim financial reports: a) Events and circumstances that can impact the fair value of financial instruments and their classification; b) Transfers of financial instruments between different levels of fair value hierarchy; c) Changes in the classification of financial assets; Changes in contingent liabilities and contingent assets. No significant impact is expected for the Group.	1 January 2011
Amendment to IFRIC 13	Customer loyalty programmes	The meaning of fair value is clarified in the context of reward credits awarded under customer loyalty programmes. No significant impact is expected for the Group.	1 January 2012
IAS 12	Income taxes	The amendment requires businesses to measure a deferred tax asset based on the manner in which the carrying value of the asset will be recovered (through continued use or through sale). As a consequence of this amendment, SIC-21—Income taxes—Recovery of revalued non-depreciable assets will no longer be applicable. There is no significant impact for the Group.	1 January 2012
IFRS 10	Consolidated financial statements	IFRS 10, which is based on already existing IFRS, clearly defines the concept of "control" providing a definition that attempts to resolve the differences between IAS 27—that focuses on the concept of "control"—and SIC 12 that places an emphasis on risks and benefits transferred / retained. Accordingly, the new standard repeals SIC 12 and eliminates the paragraphs relating to consolidated financial statements under IAS 27. There are essentially three elements characterising the new definition of control: a) the existence of power over the subsidiary; b) exposure to variable returns from its involvement with the subsidiary;	1 January 2013

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2010

Document	Title	Description and impact on the company	Come into force as from the financial year commencing:
		<p>c) the ability to affect those returns through its power over the subsidiary.</p> <p>As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the amendment. No significant impact is expected for the Group.</p>	
IFRS 11	Joint Arrangements	<p>IFRS 11 repeals and replaces IAS 31—Interests in joint ventures. The standard identifies two kinds of joint arrangements: joint operations and joint ventures. In the case of joint operations, the investee recognises in its financial statements its assets and liabilities, comprising those held or incurred jointly and its revenues and costs, comprising its share of those incurred jointly.</p> <p>Equity investments in joint ventures may no longer be presented in consolidated financial statements by applying the proportionate consolidation method, but have to be accounted for under the equity method, as required by IAS 28 for investments in associates.</p> <p>As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the amendment. No significant impact is expected for the Group.</p>	1 January 2013
IFRS 12	<i>Disclosure of interests in other entities</i>	<p>IFRS 12 establishes which disclosures are to be made in the notes to the financial statements upon the application of IFRS 10 and IFRS 11.</p> <p>As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the standard. No significant impact is expected for the Group.</p>	1 January 2013
IFRS 13	<i>Fair Value Measurement</i>	<p>IFRS 13 applies to all instances whereby other standards require, permit or request disclosures on fair value measurement. It does not extend to the use of fair value in financial statements, but provides clear guidance, establishes a sole hierarchy for the identifiability of fair value and indicates a minimum set of disclosures to be provided in the explanatory notes.</p> <p>As at the reference date of these financial statements, the European Union's delegated bodies had not yet concluded the endorsement process required for the application of the standard. There is no significant impact for the Group.</p>	1 January 2013

for the year ended 31 December 2010

Notes to financial statement components:
(all amounts are expressed in thousands of Euro)

1 Property, plant and equipment

Changes in property, plant and equipment in the 2010 financial year are set out below:

COST	OPENING BALANCE	As of 30 Sep 2010 TS Group	Other movements	Additions	(Disposals)	As of 31 Dec 2010
Lands		1,898				1,898
Buildings		7,923				7,923
Plant and machinery		1,580		11	(7)	1,584
Equipments		346		2		348
Other assets		6,812		104	(146)	6,771
Total		18,558		118	(153)	18,523

ACCUMULATED DEPRECIATION	OPENING BALANCE	As of 30 Sep 2010 TS Group	Other movements	Depreciation	(Disposals)	As of 31 Dec 2010
Lands						
Buildings		1,573		64		1,637
Plant and machinery		1,326		21	(7)	1,340
Equipments		285		5		290
Other assets		5,473		142	(138)	5,477
Total		8,657		232	(145)	8,744

NET VALUE	OPENING BALANCE	As of 30 Sep 2010 TS Group	Other movements	Additions (Depreciation)	(Disposals)	As of 31 Dec 2010
Lands		1,898				1,898
Buildings		6,350		(64)		6,286
Plant and machinery		254	11	(21)	(0)	244
Equipments		60	2	(5)		58
Other assets		1,339	104	(142)	(7)	1,294
Total		9,901	118	(232)	(7)	9,779

"Land" consists of leasehold land of Euro 880 thousand and of freehold land of Euro 1,018 thousand. "Buildings" consist of leasehold buildings of Euro 2,067 thousand and freehold buildings of Euro 4,219 thousand.

The most significant additions relate to "Other assets" of Euro 104 thousand and "Equipments" of Euro 11 thousand.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

2 Intangible assets

Changes in intangible assets in the 2010 financial year are set out below:

	As of OPENING BALANCE	30 Sep 2010 TS Group	Additions	(Amortization)	(Impairments)	As of 31 Dec 2010
Capitalized development expenses		432	56	(71)		416
Software, trademarks, patents and licenses		80,289	499	(3,216)		77,572
Customer relationship IFRS		226,400		(2,851)		223,549
Other intangible assets		3,203	54	(68)		3,190
Assets under construction		109	234			343
Total		310,433	843	(6,206)		305,069

With respect to additions (totalling Euro 843 thousand), the main expenditure consists of capitalised development costs of Euro 499 thousand relating to new products and new software modules developed mainly by the Parent Company during the course of 2010 and for which marketing commenced in the financial year.

Intangible assets arising on the provisional allocation of the purchase price paid by HG Capital are:

- Customer relationships of Euro 226,400 thousand;
- Software, Brands and non-patented technology of Euro 83,100 thousand.

3 Goodwill and impairment tests

	As of OPENING BALANCE	30 Sep 2010 TS Group	Additions	(Impairments)	As of 31 Dec 2010
Goodwill CGU SWSS		314,794			314,794
Goodwill CGU Education		20,645			20,645
Goodwill CGU Nuovamacut		6,410			6,410
Total		341,849			341,849

“Goodwill”, which results from a provisional allocation, amounts to Euro 341,849 thousand and relates to the acquisition of TeamSystem Group made by HG Capital through the vehicle Titan BidCo Srl. This goodwill consists of the excess consideration paid over the current value of the assets and liabilities acquired (see also “Appendix 1” to these financial statements).

The goodwill has been allocated to the Software Solution, Education and Nuovamacut cash generating units (CGU). The goodwill pertaining to each of the aforementioned CGUs is subject to impairment testing at least annually. With a reference date of 31 December 2010, steps have been taken to determine the recoverable amount of each CGU and the Group as a whole, by discounting prospective cash flow (“Discounted Cash Flow Method”) based on the most recent business plan approved in November 2010 on the occasion of the reverse merger transaction, in which estimates were made of growth rates for turnover, EBITDA and cash flow based on both past earnings and future expectations. The main assumptions adopted in this regard estimated the weighted average cost of capital (“WACC”) to be 10.44% for the SWSS and Nuovamacut

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

CGUs and 9.63% for the Education CGU, as well as a perpetual growth rate “g” of 2%. These impairment tests did not indicate any impairment of the CGUs and, in fact, they showed a value in use in excess of capital employed attributable to each CGU.

4 Equity investments in other companies

OTHER INVESTMENTS	OPENING BALANCE	As of 30 Sep 2010		As of 31 Dec 2010
		TS Group	Additions (Disposals)	
Other investments		111		111
Total		111		111

5 Deferred tax assets and deferred tax liabilities

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
Deferred tax assets	5,447		5,447	
Deferred tax liabilities	97,673		97,673	

The deferred tax assets mainly relates to non tax deductible accruals made to the provision for doubtful debts, to the provision for agents’ indemnity and to excess financial charges that can be carried forward to future financial years by the Parent Company as a deduction from future taxable income for IRES purposes.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

With respect to the deferred tax liabilities, reference should be made to the following table.

	As of OPENING BALANCE	30 Sep 2010 TS Group	Other movements	Additions (Disposals)	As of 31 Dec 2010
Fair value valuation of Lands and Buildings		1,560		(12)	1,548
TeamSystem—Intangibles		90,334		(1,536)	88,798
Staff leaving indemnity— actuary valuation		178		(8)	170
Investments revaluation		244			244
Total Parent company		92,316		(1,557)	90,759
Deferred tax liabilities of subsidiaries		26		3 (3)	26
Total subsidiaries		26		3 (3)	26
Staff leaving indemnity— actuary valuation		129		13 (4)	138
Euroconference—Intangibles . .		1,727		(22)	1,705
Education—Services in progress				384	384
Finance lease and valuation of assets at fair value		803		9 (4)	808
Investment revaluation in TS . .		(244)			(244)
Metodo—Intangibles		1,978		(90)	1,888
Nuovamacut—Intangibles		2,104		(48)	2,056
Research and development . . .		144		25 (16)	152
Total consolidation entries . .		6,641		431 (184)	6,887
Total		98,983		434 (1,744)	97,673

The decreases are mainly attributable to the portion of deferred tax pertaining to the amortisation of intangible assets (Software, Brands, Customer relationship mainly) identified on allocation of the purchase price paid for the acquisition.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

6 Inventories

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
Raw and ancillary materials	51		51	
Finished products and goods	1,219		1,219	
(Allowance for slow-moving inventory) . .	(32)		(32)	
Total	1,238		1,238	

The closing inventory of finished products and goods includes hardware products not yet delivered at the balance sheet date, as well as consumables, accessories, third party software modules and licences for resale, characterised by a high turnover.

7 Trade receivables

The “Trade receivables” balance is comprised as follows:

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
Trade receivables	40,773		40,773	
(Allowance for doubtful receivables)	(2,763)		(2,763)	
Total	38,009		38,009	

Trade receivables amount in total to Euro 40,773 thousand, gross of the provision for doubtful debts.

	OPENING BALANCE	TS Group Balance As of 30 Sep 2010	Additions	(Utilisations)	As of 31 Dec 2010
Allowance for doubtful receivables		3,000	346	(583)	2,763
Total		3,000	346	(583)	2,763

The increase in the provision for doubtful debts is to take account of the expected realisable value of receivables not yet collected at 31 December 2010. The utilisations of the provision are due to the write off of receivables, based on elements of certainty and precision, or based on ongoing insolvency proceedings.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

8 Tax receivables

The "Tax receivables" balance is comprised as follows:

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
VAT receivables	190		190	
Income taxes receivable	94		94	
Other tax receivables	2,907		2,907	
Total	3,190		3,190	

"Other tax receivables" consist mainly of a receivable due by the consolidating Parent Company, following payments made of tax advances in excess of the amount provided for taxation at the 2010 year end. This receivable will be recovered fully on payment of the first tax advance for the 2011 financial year.

9 Other receivables

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
Deposits	196		196	
Receivables from employees	29		29	
Other receivables	533		533	
Accrued income	124		124	
Prepayments	7,363		7,363	
Total	8,245		8,245	

"Other sundry receivables" consist of an amount of approximately Euro 228 thousand of by the Parent Company, following the temporary suspension of the payment of contributions in connection with the earthquake that damaged the ancillary establishments in Campobasso and Fabriano in prior years (see also Note 15).

It should be noted that the Parent Company's prepaid expenses include deferred costs relating to the debt refinancing process (as a consequence of the acquisition of TeamSystem Group by HG Capital) that was concluded with the provision of financing by Unicredit, with the related facilities consisting of an "Acquisition" facility (approximately Euro 1,784 thousand at 31 December 2010) and a "Revolving" facility (approximately Euro 714 thousand at 31 December 2010). These deferred costs have been included in prepaid expenses, since the Parent Company had neither used the "Revolving" facility nor the "Acquisition" facility as at the balance sheet date.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

10 Net financial indebtedness

Net consolidated financial indebtedness at 31 December 2010, with the exception of the shareholder loan, is set out as follows:

	As of 31 Dec 2010			OPENING BALANCE		
	Current	Non-current	Total	Current	Non-current	Total
Bank accounts and post office . .	17,200		17,200	10		10
Cash and bank balances	55		55			
Total Cash and bank balances . .	17,255		17,255	10		10
Derivative instruments		727	727			
Other financial assets	28	82	110			
Total—Other financial assets . . .	28	809	837			
Overdrafts and loans from banks	(6,321)	(173,132)	(179,453)			
Finance lease liabilities	(142)	(223)	(365)			
Overdrafts and loans from other financial institutions						
Total financial liabilities— Gross	(6,463)	(173,355)	(179,818)			
Financing fees with banks		12,732	12,732			
Financing fees with other financial institutions						
Total financing fees		12,732	12,732			
Total Financial liabilities	(6,463)	(160,623)	(167,086)			
Vendor loan and put option . . .	(1,021)	(8,357)	(9,378)			
Derivative instruments	(2,162)	(1,067)	(3,229)			
Other financial liabilities	2		2			
Total—Other financial liabilities .	(3,182)	(9,424)	(12,606)			
Total	7,638	(169,238)	(161,600)	10		10

Cash and cash equivalents at 31 December 2010 amount to Euro 17,255 thousand.

Other financial assets essentially consist:

- of bonds (BTP) maturing in July 2012, acquired by the Parent Company as a temporary investment of liquidity;
- of the market value of option contracts on interest rates held for trading by the Parent Company.

Amounts due to banks at 31 December 2010 relate essentially to loans obtained by the Parent Company (in relation to the refinancing of previous bank debt as a consequence of the acquisition of TeamSystem Group by HG Capital) totalling Euro 177,882 thousand (comprising interest accrued at that date of Euro 82 thousand) relating to the financing facilities “Unicredit Facility A” (Euro 77,800 thousand) and “Unicredit Facility B” (Euro 100,000 thousand). For both lending facilities the interest rates applied are equal to Euribor (corresponding to the interest

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

period duration decided from time to time) increased by a spread determined periodically in relation to the outcome of certain economic-financial parameters. At the balance sheet date, the variable spread was 4.50% for Facility A and 5.00% for Facility B. Facility A is repayable in six monthly instalments as from June 2011. Facility B is repayable in one instalment on the contractual maturity of the loan in September 2017.

The above facilities are secured by pledges over the quotas/shares of the Parent Company and Gruppo Euroconference Spa, by pledges over trade receivables, over brands, as well as a special lien over fixed assets and inventory of the Parent Company.

Furthermore, on a quarterly/annual basis, a check is made of compliance with certain covenants linked to the following ratios and components of the consolidated financial statements (as specified by the terms of the loan agreements):

- ratio of "Cash-Flow" to "Debt Service";
- ratio of "Financial Charges" to "EBITDA".
- ratio of "Senior Net Debt" to "EBITDA";
- ratio of "Total Net Debt" to "EBITDA";

as of the first control date, the covenants had been complied with.

The Vendor Loan (Euro 9,378 thousand) relates to put/call options and/or earn-outs due to the minority shareholders/quotaholders of Metodo Spa, Lexteam Srl, Zeronove Srl, TeamSystem Rome Srl, Nuovamacut Automazione Spa, Inforyou Srl, TeamSystem Turin Srl and Gruppo Euroconference Spa.

Other financial liabilities at 31 December 2010 include IRS derivatives measured at mark to market value at the balance sheet date totalling Euro 3,976 thousand. As at the balance sheet date, these derivatives are held for trading.

11 Shareholder loan

This balance of Euro 72,111 thousand relates to a loan provided by the holding company Titan Luxco 3 S.à.r.l.

The General Meeting of Quotaholders of Titan Bidco Srl held on 21 September 2010 to permit the transformation of the company to a “società per azioni”—company limited by shares—(in view of the acquisition of TeamSystem Group), passed a resolution to increase the capital by a nominal value of Euro 110 thousand, reserved as an option for the sole owner Titan Luxco 3 S.à.r.l.

On 27 September 2010, the sole owner of Titan Bidco Srl notified the latter of an irrevocable commitment to pay in a capital contribution by 30 September of Euro 318,876 thousand to allow Titan Bidco to have sufficient funds to proceed with the acquisition of a 100% holding in TeamSystem Srl. This was in fact paid on 30 September 2010.

On 1 October 2010, the sole owner Titan Bidco Srl gave notification of the waiver of the receivable due from the latter of Euro 19,100 thousand with the objective of improving the solidity of Titan Bidco's financial position and to achieve an equity/financial debt ratio acceptable to the lending banks.

The column “Change in interest” comprises the change in equity of the group (and that pertaining to minority interests) as a consequence of the decrease in minority holdings following the acquisition of further stakes by the Parent Company.

13 Employee termination indemnities

	As of OPENING BALANCE	30 Sep 2010 TS Group	Other movements	Service cost	Interest cost	Actuarial (gain) / loss	(Benefits Paid)	As of 31 Dec 2010
Employee termination indemnities		6,323		133	71	3	(148)	6,382
Total		6,323		133	71	3	(148)	6,382

In accordance with IAS 19, employee termination indemnities are considered to be a defined benefit plan to be accounted for by applying the "Projected Unit Credit Method," which consists of discounting an estimate of the amount to be paid to each employee on termination of their employment and which involves the determination of:

- the past service liability, being the cost relating to the service already provided by the worker;
- the service cost, being the cost of the service provided by the worker in the year;
- the interest cost, being the interest expense deriving from the actuarial liability;

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

– the actuarial gain and loss, being the actuarial gain/loss relating to the valuation period.

The estimate, performed by an independent actuary, was computed on the basis of the following assumptions:

	Financial year 2010
Turnover	4.00%
Discount rate	4.70%
Anticipation rate	1.00%

It should be noted that, following the implementation of new legislation on supplementary pensions, as per Legislative Decree 252/2005 introduced by the 2007 Finance Act, the possibility has arisen to transfer accruing termination indemnities to supplementary pension funds. Consequently, in the actuarial valuation of the Provision for employee termination indemnities at 31 December 2010, account was taken of the effects deriving from the new legislation, recognising, for IFRS purposes, only the liability relating to accrued severance indemnities remaining as a balance sheet liability, as the amounts accruing are paid over to a separate entity (supplementary pension fund or the state fund INPS).

14 Provisions for risks and charges

Changes in provisions for risks and charges are set out as follows:

	OPENING BALANCE	As of 30 Sep 2010 TS Group	Additions	(Utilisations)	As of 31 Dec 2010
Provision for pension and similar obligations		953	46	(24)	975
Provision for litigations		623	9	(3)	628
Other provision for risks and charges		298	7	(3)	302
Total	0	1,874	62	(30)	1,906

The “Provision for pensions and similar obligations” amounts to Euro 975 thousand at 31 December 2010 and mainly relates to the Provision for agents’ indemnity.

The Provision for risks for litigation at 31 December 2010 amounts to Euro 628 thousand.

15 Other non current liabilities

Other non current liabilities” amount to Euro 1,131 thousand at 31 December 2010 and essentially relate to the following:

- Euro 122 thousand relating to income tax, VAT and other taxes of TeamSystem Fabriano Srl, merged by absorption into the parent company TeamSystem Srl in 2001;
- Euro 1,009 thousand relating to social contributions of which Euro 970 thousand relates to the ancillary establishment in Campobasso and Euro 39 thousand relates to the ancillary establishment in Fabriano.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

It should be noted that Legislative Decree 61/2008 (ratified by Law 103/2008) and Legislative Decree 62/2008 (ratified by Law 201/2008) have provided for the payment, at an amount reduced by 40%, without any additional penalties and interest, by means of 120 monthly instalments, of taxation and contributions suspended as a result of regulatory provisions for areas hit by the earthquake of 1997 (Marche and Umbria).

16 Current tax liabilities

The "Current tax liabilities" balance is comprised as follows:

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
VAT liabilities	463		463	
Income tax payables	400		400	
Liability resulting from tax consolidation	9		9	
Withholdings	1,675		1,675	
Other tax liabilities	391		391	
Total	2,938		2,938	

17 Other current liabilities

	As of 31 Dec 2010	OPENING BALANCE	Net change	Net change—%
Due to social securities	2,761		2,761	
Employee payables	5,060		5,060	
Advances	3,716		3,716	
Other liabilities	376		376	
Accrued income	128		128	
Deferred revenues	5,676		5,676	
Total	17,716		17,716	

"Employee payables" of Euro 5,060 thousand relate to remuneration and 2010 performance bonuses (not yet paid at the year end) payable to employees, directors and collaborators, as well as accruals for holiday pay and leave of absence.

"Advances" at 31 December 2010 amount to Euro 3,716 thousand and mainly relate to advances relating to training services being provided by the "Education" SBU at the balance sheet date.

"Deferred income" (Euro 5,676 thousand) mainly relates to the portion of revenues for software subscriptions (pertaining essentially to Nuovamacut Group companies) attributable to future financial years.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

18 Revenues

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Sales and subscriptions of hardware	2,225	7,626
Sales and subscriptions of software	25,083	91,155
Sales of other products	376	1,636
Sales of other services	4,066	16,634
Education	4,194	10,732
	35,944	127,783

19 Other operating income

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Credit notes and expenses reimbursements	347	854
Other revenues	70	531
Total	417	1,385

20 Consumption of raw and other materials

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
HW purchases	1,415	4,659
Third parties' SW for resale	2,995	9,762
Handbooks and forms	10	208
Materials for education	206	443
Fuel	210	749
Other materials	262	892
Change in inventory of raw materials and consumables	(224)	33
Total	4,874	16,746

The cost of "Consumption of raw and other materials" mainly relates to the cost of sales of hardware, third party software and manuals.

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

21 Cost of services

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Agents commissions and other costs	673	2,624
Consulting and third parties services	1,696	5,126
Administrative, tax and legal expenses	331	1,118
Education—Consulting and copyrights	1,009	2,092
Magazines—Consulting and copyrights	182	728
Other costs for education services	407	1,091
Advertising and marketing	611	1,387
Car rentals	417	1,605
Consumptions	410	1,683
Other services	1,350	5,383
Total	7,087	22,836

With respect to the pro-forma column, the line “Other services” mainly comprises:

- a) costs (incurred by the Parent Company) of approximately Euro 524 thousand relating to the activation and/or the provision of services such as TeamSystem Electronic Services, tax return assistance etc.;
- b) costs for shipping and transport of Euro 1,337 thousand;
- c) costs for reimbursement of expenses of Euro 1,528 thousand;
- d) insurance costs of Euro 263 thousand;
- e) repairs and maintenance costs of Euro 276 thousand.

22 Personnel costs

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Wages	7,301	27,720
Social securities	2,172	8,193
Employee termination indemnities	409	1,449
Other personnel expenses	9	66
Total personnel expenses	9,891	37,428
Freelancers and collaborators fees	161	706
Directors’ fees and related costs	650	2,884
Personnel capitalized as development costs	(524)	(2,215)
Total	10,178	38,803

With respect to the cost of employee termination indemnities, reference should be made to Note 13 thereon.

TeamSystem Group
Notes to the consolidated financial statements (continued)
for the year ended 31 December 2010

23 Other operating expenses

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Rents	383	1,560
Rentals	45	157
Other expenses for use of third parties assets	15	69
Other taxes	42	132
Losses from assets disposals	4	12
Other expenses	77	224
Total	564	2,154

24 Finance income

“Finance income” is comprised of the following:

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Interests and other finance income	7	19
Interest from banks	28	32
MTM valuation of derivative instruments	1,300	2,447
Total	1,336	2,498

25 Finance cost

“Finance cost” are comprised of the following:

	As of 31 Dec 2010	As of 31 Dec 2010 Pro-forma
Interest on bank overdrafts and loans	2,529	9,977
Interest on loans from shareholders	2,111	8,375
Interest on derivative instruments	604	2,764
Interest—financing fees	627	2,464
Bank commission	285	1,038
Loss resulting from MTM derivatives valuation	1,067	1,067
Interest from actuary valuation of employee benefit	80	301
Other IAS financial charges	49	109
Other financial charges	29	235
Impairment of other equity investments		23
Total	7,382	26,353

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

26 Current taxes

Current taxes for the 2010 financial year amount to Euro 2,720 thousand and consist of the following:

- IRES of Euro 1,980 thousand, net of approximately Euro 190 thousand relating to income derived from the consolidated tax regime.
- IRAP (regional tax on productive activities) of Euro 740 thousand,

With respect to deferred taxation, reference should be made to Note 5.

27 Financial instruments and IFRS 7

The Group companies are exposed to a variety of risks of a financial nature that are managed and monitored centrally and which can be categorised as follows:

Foreign exchange risks

The Group companies operate almost exclusively in Italy and, accordingly, are not exposed to foreign exchange risks.

Credit risk

The credit risk is substantially reduced by the high fragmentation of the customer base and the high degree of customer loyalty. Moreover, accurate procedures for the control of overdue balances limit doubtful balances to insignificant amounts.

In any case, the customer credit policy, by customer category (resellers and end-users), envisages:

- a) the control and assessment of "credit standing";
- b) the control of the flow of payment collection;
- c) taking appropriate action by issuing reminders and by the use of credit collection procedures, including recourse to companies specialised in debt recovery.

The maximum theoretical exposure to credit risk for the Group companies at 31 December 2010 is represented by the carrying value of trade receivables as presented in the financial statements, as well as residual financial receivables recorded in current and non current financial assets.

Interest rate risk

The risks relating to changes in interest rates relate to loan facilities that have been granted. Floating rate loans expose the Company to a risk of changes in cash flow. The aim of the management of interest rate risk is to limit and stabilise cash outflows triggered by interest expense on loans through prudent management of decisions regarding the frequency of instalment payments.

Liquidity risk

The two main factors that determine the dynamics of the Group's liquidity are, on one hand, the resources generated/absorbed by operating and investment activities and, on the other hand, the maturity and renewal of financial liabilities. Management of these risks is done by the Finance Department of the Parent Company.

TeamSystem Group

Notes to the consolidated financial statements (continued) for the year ended 31 December 2010

Of the procedures adopted with the intention of optimising cash flow management and of reducing the liquidity risk, the following should be noted:

- the maintenance of an adequate level of available liquidity;
- the adoption of Cash-pooling at Group level;
- the obtainment of adequate borrowing facilities;
- the control of prospective liquidity conditions, in relation to the corporate planning process.

Liquidity risk—liquidity statement (IFRS 7 parag. 39)

The following table of liquidity risk shows the timing of commitments in respect of the capital elements of loans and lease contracts (if any):

Position as of 31 December 2010

Categories of financial instruments	Carrying amount	Repayment period				
		Less than 6 months	6 months to 1 year	1-2 years	2-5 years	5+ years
Loans from shareholders	72,111		1,073			71,038
Overdrafts and loans from banks	179,453	3,918	2,368	10,927	45,902	116,338
Loans from other financial institutions (Mezzanine) . . .						
Finance lease liability	365	70	72	223		
Total	251,929	3,988	3,513	11,150	45,902	187,376

Sensitivity (IFRS 7 parag. 40)

As previously indicated, the Group is exposed mainly to interest rate risk. Sensitivity analysis has been applied to the main statement of financial position components, the measurement of which could change as a result of fluctuations in market interest rates.

In particular, the analysis took into consideration solely floating rate loans and assumed a change of 10%, upwards and downwards, in the interest rates applied. The potential effects on income (before income taxes) of this assumed change would be a higher or lower financial charge of approximately Euro 10 thousand in the year to 31 December 2010.

Financial instruments by category (IFRS 7 parag. 8)

As required by IFRS 7, paragraph 8, financial instruments have been identified by category with respect to their balance sheet classification.

Explanations of financial instruments' categories
FVTPL = Financial instruments at fair value through profit and loss
LAR = Loans and Receivables
FLAC = Financial liabilities measured at amortised cost
AFS = Financial assets available for sale
HTM = Held to Maturity

Levels of fair value hierarchy

- Level 1—prices quoted by active markets for assets or liabilities being measured;
- Level 2—inputs other than Level 1 inputs that are directly observable (prices) or indirectly (derived from prices) market inputs;
- Level 3—inputs not based on observable market data.

With reference to the impact on the income statement, a detailed analysis is provided below (IFRS 7 parag. 20)

TeamSystem Group

Notes to the consolidated financial statements (continued)

for the year ended 31 December 2010

Position as of 31 December 2010

Impact on Profit and Loss	Finance costs	Finance income	Total impact on Profit and Loss
Cash and bank balances	(53)	28	(25)
Trade receivables		7	7
Other financial assets—current			
Loans from shareholders	(2,111)		(2,111)
Overdrafts and loans from banks	(3,418)		(3,418)
Loans from other financial institutions (Mezzanine)			
Finance lease liabilities			
Trade payables			
Tax liabilities			
Other financial liabilities	(1,720)	1,300	(420)
Total	(7,302)	1,335	(5,967)

Levels of fair value hierarchy

In relation to the financial instruments recorded in the statement of financial position at fair value, IFRS 7 requires these amounts to be classified on the basis of levels of hierarchy that reflect the significance of the input used for the determination of fair value. The levels are the following:

- Level 1—prices quoted by active markets for assets or liabilities being measured;
- Level 2—inputs other than Level 1 inputs that are directly observable (prices) or indirectly (derived from prices) market inputs;
- Level 3—inputs not based on observable market data.

30 Subsequent events

Finalisation of long term loan agreement

On 19 January 2011, after the reverse merger with the vehicle utilised for the acquisition transaction and which formed an essential condition thereof, an agreement was made with the lending banks to convert short term financing to medium-long term and for the fulfilment of all obligations arising therefrom (formalisation of pledges, privileges and other guarantees provided).

Distribution of capital reserve

As indicated by the Sole Quotaholder, which had expressed an interest in rendering the capital structure of its investment in TeamSystem more efficient, on 15 April 2011 the Quotaholder's Meeting, after having passed a resolution to allocate Euro 4,800 thousand to the legal reserve, approved the distribution of an amount of Euro 2,100 thousand of reserves, considered to be surplus, based on prudent forecasts of the company's cash needs for the first few months subsequent to the acquisition transaction.

Appendix 2
to the consolidated financial statements
for the year ended
31 December 2010

Consolidated pro-forma income statement
of TeamSystem Group for the year ended
31 December 2010

TeamSystem Group

Consolidated pro-forma income statement

for the year ended 31 December 2010

1. Introduction

This appendix sets out the pro-forma income statement (hereinafter referred to as “Pro-forma income statement for the year ended 31 December 2010” or “2010 pro-forma”) of TeamSystem Srl (hereinafter “TeamSystem” or the “Company”) and its subsidiaries (hereinafter “TeamSystem Group”). The pro-forma income statement for the year ended 31 December 2010 has been prepared to provide the Owner with information relating to TeamSystem Group’s results for the 2010 financial year, as though the acquisition of TeamSystem Group by HG Capital (hereinafter the “Transaction”) that took place on 30 September 2010 and described in the consolidated financial statements for the year ended 31 December 2010, had taken place on 1 January 2010.

The pro-forma income statement for the year ended 31 December 2010 is based on the consolidated income statement included in the consolidated financial statements of TeamSystem Group for the year ended 31 December 2010, prepared in accordance with international accounting standards (hereinafter “IAS” or “IFRS”) endorsed by the European Union.

With respect to the accounting standards adopted for the preparation of the historical figures in the consolidated income statement of TeamSystem Group for the year ended 31 December 2010, reference should be made to the notes to these consolidated financial statements.

The consolidated financial statements for the year ended 31 December 2010 have been audited by PricewaterhouseCoopers SpA, which issued its audit report on 28 June 2011.

The technical procedures adopted for the preparation of the pro-forma figures are those contained in the Consob communication No. DEM/1052803 of 5 July 2001—Communication concerning procedures for preparation of pro-forma figures. The expression “pro-forma figures” refers to a balance sheet and income statement arrived at by adjusting historical figures (from annual separate or consolidated financial statements) to retroactively reflect the effect of transactions already entered into or proposed, as though they had taken place on a prior date.

It should be noted that this appendix does not include a cash flow statement and neither is it accompanied by a report on operations. In consideration of the different purposes for pro-forma figures, with respect to those of normal consolidated financial statements and, since the effects are calculated in a different manner, this document should be read and interpreted separately, without seeking accounting links to the aforesaid consolidated financial statements.

The 2010 pro-forma figures were prepared by making appropriate adjustments to TeamSystem Group consolidated income statement to retroactively reflect the significant effects of the Transaction.

For the purposes of a correct interpretation of the information provided by the 2010 pro-forma figures, the following matters should be considered:

- since this consists of a presentation based on hypotheses, if the Transaction had really taken place on the date used for reference for the preparation of the 2010 pro-forma figures, rather than at the actual date, the historical figures would not necessarily have been equal to those of the 2010 pro-forma figures;

TeamSystem Group

Consolidated pro-forma income statement (continued) for the year ended 31 December 2010

- the 2010 pro-forma figures do not reflect forecast figures, since they were prepared in order to merely represent the effects of the Transaction that are capable of being isolated and which are objectively measurable, without taking account of potential effects caused by changes in management policy and operational decisions that are a consequence of the Transaction;
- in consideration of the different purposes for the 2010 pro-forma figures compared to the figures shown in the historical financial statements and the different means of computation of the effects, with reference to the consolidated income statement, the pro-forma income statement for the year ended 31 December 2010 should be read and interpreted separately, without seeking accounting links between the two documents.

The 2010 pro-forma income statement for the year ended 31 December 2010 is presented in a format that uses various columns to analytically illustrate the flow of transactions subject to the pro-forma adjustments.

TeamSystem Group

Consolidated pro-forma income statement (continued) for the year ended 31 December 2010

3. Assumptions made for the preparation of the pro-forma income statement for the year ended 31 December 2010

The underlying assumptions behind the pro-forma income statement for the year ended 31 December 2010 relate to the effects that there would have been on the consolidated income statement if the Transaction had taken place on 1 January 2010. In particular:

- backdating of the acquisition of the holding in TeamSystem Srl by the special purpose vehicle Titan Bidco Srl for a total of Euro 566.8 million, financed by means of a mix of bank debt of Euro 247.8 million and the purchaser's own resources of Euro 319.0 million. It should be noted that, for the purposes of this document, the formalisation of the change of ownership is backdated to 1 January 2010 (hereinafter "Pro-Forma Closing"), whereas the stipulation of the new financing agreement is backdated to the day before;
- inclusion of the analytical income statement of TeamSystem Group for the first 9 months of 2010, from 1 January 2010 up to the acquisition date;
- backdating of the effect of the depreciation and amortisation of tangible and intangible assets arising from the provisional Purchase Price Allocation process performed as at 30 September 2010 (hereinafter "PPA");
- elimination of all the associated costs incurred for the Transaction that were then charged to the income statement for the period from 30 September—31 December 2010, as required by the reference accounting standards.

4. Description of adjustments to the pro-forma income statement for the year ended 31 December 2010

The main pro-forma adjustments made to the historical income statement figures may be summarised as follows:

- the "31 Dec 2010" column represents the income statement for the year ended 31 December 2010 as presented in the consolidated financial statements;
- the "Inclusion P&L first 9 months 2010" column represents the results of TeamSystem Group for the period prior to the Transaction (1 January 2010—30 September 2010).

Summary details of the other adjustments made, with the related current and deferred tax effect, is set out below:

4.1 *Accounting for additional depreciation and amortisation of new values arising from PPA*

The table below illustrates the reversal of amortisation and depreciation accounted for in the period 1 January—30 September 2010 on the uplift to the carrying value arising from the PPA made in the 2004 financial statements following the previous acquisition by Bain Capital and

TeamSystem Group

Consolidated pro-forma income statement (continued)

for the year ended 31 December 2010

the accounting for the amortisation and depreciation arising from the acquisition on 30 September 2010 by HG Capital.

Description	Amortisation & Depreciation	Income taxes		Total effect
		Deferred (31.4%)	Current (31.4%)	
Property, plant and equipment:				
Reversal of depreciation for the first 9 months on the uplift resulting from 2004 PPA				
—TeamSystem Srl	91	(25)		66
—Other Group Companies	43	(12)		31
	134	(37)	0	97
Depreciation for the first 9 months on 2010 PPA

TeamSystem Group

Consolidated pro-forma income statement (continued)

for the year ended 31 December 2010

4.2 Accounting for interest on financing obtained for the Transaction and reversal of interest accounted for on previously existing financing

The table below illustrates the reversal of interest accounted for in the period 1 January—30 September 2010 on financing in place prior to the Transaction and the accounting for interest on financing obtained for the acquisition by HG Capital.

Description	Finance cost	Income taxes		Total effect
		Deferred (27.5%)	Current (27.5%)	
Finance Cost				
Reversal of interest expenses on previous financing (MedioBanca)	2,598	(714)		1,884
Pro-forma interest expenses for the first 9 months on the new financing (Unicredit)	(7,362)	2,025		(5,337)
	(4,764)	1,310	0	(3,454)
Amortized Cost				
Reversal of Amortised Cost for the first 9 months on previous financing (MedioBanca)	583	(160)		423
Pro-forma impact of Amortised Cost on new financing for the first 9 months (Unicredit)	(1,837)	505		(1,332)
	(1,254)	345	0	(909)
Bank charges on the unused credit lines				
Reversal of bank charges on the unused previous credit lines	221	(61)		160
Pro-forma effect for the first 9 months of bank charges on the unused new credit lines	(608)	167		(441)
	(387)	106	0	(281)
Finance cost on previous/new financing—Total adjustment	(6,405)	1,761	0	(4,644)

4.3 Writedown of ancillary charges recorded in respect of old financing and effect of derivatives used to hedge the latter

Description	Finance cost/ income	Income taxes		Total effect
		Deferred (27.5%)	Current (27.5%)	
Finance cost				
Backdating of the writedown of the ancillary charges on previous financing—MedioBanca	2,772	(762)		2,010
Reversal of the transfer to P&L of the Cash Flow Hedge Reserve on derivatives on previous financing	2,046	0	(563)	1,483
	4,818	(762)	(563)	3,493
Finance income				
Adjustment for the lower negative Fair Value at 30 Sept 2010 of derivatives hedging the previous financing	1,142	0	(314)	828
	1,142	0	(314)	828
Writedown of ancillary charges and derivatives' effect on previous financing—Net finance cost—Total adjustment	5,960	(762)	(877)	4,321

With particular reference to the items illustrated above, further details are provided below of the reasoning behind these adjustments.

Having backdated, as explained in paragraph 3, the stipulation of the new financing agreement to the day before Pro-Forma Closing, it was necessary to:

- consistently backdate the effect on results of the writedown of ancillary charges relating to the old financing, which, in substance, was replaced by the new financing raised for the Transaction;

TeamSystem Group

Consolidated pro-forma income statement (continued)

for the year ended 31 December 2010

- consistently backdate the effect of the reversal of the cash flow hedge reserve in the pro-forma income statement for the year ended 31 December 2010. This entry was required, since, based on the assumptions behind this document, the hedged element is represented by the old financing;
- include the pro-forma income statement for the year ended 31 December 2010 to reflect the fair value adjustment for derivatives no longer considered to be hedges, in light of the backdating indicated by the previous point.

4.4 Other

The "Other" column represents the following adjustments:

4.4.1 Adjustment to Shareholders Loan interest expense

As part of the Transaction, the Shareholder Loan provided by Bain Capital (residual amount at 30 September 2010 of Euro 42.9 million) was replaced by a new Shareholders Loan conceded by HG Capital (residual amount at 31 December 2010 of Euro 70.0 million). The adjustment has thus taken account of the difference in the debt and the applicable interest rates; details of the adjustment are as follows:

Description	Finance cost	Income taxes		Total effect
		Deferred (27.5%)	Current (27.5%)	
Reversal of interest expenses on the previous Shareholders loan (Bain Capital)	3,653	(1,059)		2,594
Pro-forma effect on the interest expenses on the new Shareholders loan (HG Capital)	(6,264)	1,723		(4,541)
Shareholders loans—Finance cost—Total adjustment	(2,611)	664	0	(1,947)

4.4.2 Backdating of ancillary Transaction costs

Prior to the closing date of the Transaction, certain ancillary costs were incurred, strictly related to the closure, with a positive outcome, of the Transaction. As indicated by the assumptions, these costs have been eliminated:

Description	Non-recurring expenses	Income taxes		Total effect
		Deferred (27.5%)	Current (27.5%+3.4%)	
Reversal of transaction cost resulting from the acquisition of the equity investment	5,324	0	0	5,324
Reversal of ancillary charges resulting from the transaction with one of the former shareholders	846	0	(233)	613
Reversal of ordinary administrative consulting fee—Bain Capital (January/May)	275	0	(86)	189
Non-recurring expenses—Total adjustment	6,445	0	(319)	6,126

4.4.3 Difference in financial income

As a result of backdating all the financial transactions related to the Transaction, there would have been a difference in available funds that would have been reflected by a lower level of

TeamSystem Group

Consolidated pro-forma income statement (continued)

for the year ended 31 December 2010

financial income receivable in the pro-forma income statement for the year ended 31 December 2010:

Description	Finance income	Income taxes		Total effect
		Deferred (27.5%)	Current (27.5%)	
Pro-forma lower finance income on the difference in the average available funds for the year	(42)	0	12	(30)
Finance income—Total adjustment	(42)	0	12	(30)
