IMPORTANT NOTICE

THIS OFFERING IS AVAILABLE ONLY TO INVESTORS WHO ARE EITHER (1) QUALIFIED INSTITUTIONAL BUYERS ("QIBs") WITHIN THE MEANING OF RULE 144A ("RULE 144A") UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "U.S. SECURITIES ACT"), OR (2) OUTSIDE THE UNITED STATES IN ACCORDANCE WITH REGULATION S ("REGULATION S") UNDER THE U.S. SECURITIES ACT (AND, IF INVESTORS ARE RESIDENT IN A MEMBER STATE OF THE EUROPEAN ECONOMIC AREA, A QUALIFIED INVESTOR).

IMPORTANT: You must read the following before continuing. The following applies to the offering memorandum following this notice, and you are therefore advised to read this carefully before reading, accessing or making any other use of the offering memorandum. In accessing the offering memorandum, you agree to be bound by the following terms and conditions, including any modifications to them any time you receive any information from us as a result of such access.

NOTHING IN THIS ELECTRONIC TRANSMISSION CONSTITUTES AN OFFER OF SECURITIES FOR SALE IN ANY JURISDICTION WHERE IT IS UNLAWFUL TO DO SO. THE SECURITIES HAVE NOT BEEN, AND WILL NOT BE, REGISTERED UNDER THE U.S. SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE OF THE UNITED STATES OR ANY OTHER JURISDICTION AND THE SECURITIES MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND APPLICABLE STATE OR LOCAL SECURITIES LAWS.

THE FOLLOWING OFFERING MEMORANDUM MAY NOT BE FORWARDED OR DISTRIBUTED TO ANY OTHER PERSON AND MAY NOT BE REPRODUCED IN ANY MANNER WHATSOEVER. ANY FORWARDING, DISTRIBUTION OR REPRODUCTION OF THIS DOCUMENT IN WHOLE OR IN PART IS UNAUTHORIZED. FAILURE TO COMPLY WITH THIS DIRECTIVE MAY RESULT IN A VIOLATION OF THE U.S. SECURITIES ACT OR THE APPLICABLE LAWS OF OTHER JURISDICTIONS.

Confirmation of your representation: In order to be eligible to view the offering memorandum or make an investment decision with respect to the securities described therein, investors must be either (1) QIBs or (2) purchasing such securities in an offshore transaction outside the United States in reliance on Regulation S; *provided that* investors resident in a Member State of the European Economic Area are qualified investors (within the meaning of Article 2(1)(e) of Directive 2003/71/EC (and amendments thereto, including Directive 2010/73/EU, to the extent implemented in the relevant Member State) and any relevant implementing measure in each Member State of the European Economic Area). The offering memorandum is being sent at your request. By accepting the e-mail and accessing the offering memorandum, you shall be deemed to have represented to us that:

1. you consent to delivery of such offering memorandum by electronic transmission,
2. either:
   (a) you and any customers you represent are QIBs; or
   (b) the e-mail address that you gave us and to which the e-mail has been delivered is not located in the United States, its territories and possessions (including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Wake Island and the Northern Mariana Islands), any state of the United States or the District of Columbia; and
3. if you are resident in a Member State of the European Economic Area, you are a qualified investor.

Prospective purchasers that are QIBs are hereby notified that the seller of the securities will be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act pursuant to Rule 144A.

You are reminded that the offering memorandum has been delivered to you on the basis that you are a person into whose possession the offering memorandum may be lawfully delivered in accordance with the laws of the jurisdiction in which you are located and you may not, nor are you authorized to, deliver the offering memorandum to any other person.

The materials relating to the offering do not constitute, and may not be used in connection with, an offer or solicitation in any place where offers or solicitations are not permitted by law. If a jurisdiction requires that the offering be made by a licensed broker or dealer and the initial purchasers or any affiliate of the initial purchasers is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by the initial purchasers or such affiliate on behalf of the issuers in such jurisdiction.

Under no circumstances shall the offering memorandum constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful.

The offering memorandum has been sent to you in an electronic form. You are reminded that documents transmitted via this medium may be altered or changed during the process of electronic transmission and consequently neither the initial purchasers, nor any person who controls the initial purchasers, nor any of its directors, officers, employees or agents, accepts any liability or responsibility whatsoever in respect of any difference between the offering memorandum distributed to you in electronic format and the hard copy version available to you on request from the initial purchasers.

OFFERING MEMORANDUM

CONFIDENTIAL
NOT FOR GENERAL DISTRIBUTION
IN THE UNITED STATES

EPHIOS BONDCO PLC

€685,000,000 Senior Secured Notes due 2022
€400,000,000 6.25% Senior Secured Fixed Rate Notes due 2022
€285,000,000 Senior Secured Floating Rate Notes due 2022

EPHIOS HOLDCO II PLC

€375,000,000 8.25% Senior Notes due 2023

Ephios Bondco PLC, a public limited company organized under the laws of England and Wales (the "Senior Secured Notes Issuer") is offering (the "Senior Secured Offering") €685 million aggregate principal amount of its Senior Secured Notes due 2022, made up of its €400 million 6.25% Senior Secured Fixed Rate Notes due 2022 (the "Temporary Senior Secured Fixed Rate Notes") and its €285 million Senior Secured Floating Rate Notes due 2022 (the "Temporary Senior Secured Floating Rate Notes" and together with the Temporary Senior Secured Fixed Rate Notes, the "Temporary Senior Secured Notes") and Ephios Holdco II PLC, a public limited company organized under the laws of England and Wales, (the "Senior Notes Issuer") is offering (the "Senior Offering" and, together with the Senior Secured Offering, the "Offerings") €375 million aggregate principal amount of its 8.25% Senior Notes due 2023 (the "Senior Notes") in connection with the proposed acquisition (the "Synlab Acquisition") of up to 100% of the entire share capital of synlab Holding GmbH ("Synlab") by Ephios Acquisition GmbH, a limited liability company (*Gesellschaft mit beschränkter Haftung*) organized under the laws of Germany ("German BidCo"), which will be a wholly owned subsidiary of the Senior Secured Notes Issuer. The Temporary Senior Secured Notes, Additional Senior Secured Notes (as defined below) and the Senior Notes are collectively referred to herein as the "Notes" and the Senior Secured Notes Issuer and the Senior Notes Issuer are collectively referred to herein as the "Issuers."

Upon completion of these Offerings, the Senior Secured Notes Issuer will issue the Temporary Senior Secured Notes under a temporary indenture (the "Temporary Senior Secured Notes Indenture"). On or about the date on which the Acquisitions (as defined herein) have been completed (the "Completion Date"), the Temporary Senior Secured Notes will be automatically exchanged for an equal aggregate principal amount of, in the case of the Temporary Senior Secured Fixed Rate Notes, additional Senior Secured Fixed Rate Notes due 2022 (the "Additional Senior Secured Fixed Rate Notes") and, in the case of the Temporary Senior Secured Floating Rate Notes, additional Senior Secured Floating Rate Notes due 2022 (the "Additional Senior Secured Floating Rate Notes" and together with the Additional Senior Secured Fixed Rate Notes, the "Additional Senior Secured Notes"). The Additional Senior Secured Notes will be issued pursuant to, and governed by, an indenture dated June 17, 2015 (the "Senior Secured Notes Indenture"), pursuant to which the Senior Secured Notes Issuer issued €500 million principal amount of 6.25% Senior Secured Fixed Rate Notes due 2022 (the "Existing Senior Secured Fixed Rate Notes" and together with the Additional Senior Secured Fixed Rate Notes, the "Senior Secured Fixed Rate Notes") and €300 million principal amount of Senior Secured Floating Rate Notes due 2022 (the "Existing Senior Secured Floating Rate Notes" and together with the Existing Senior Secured Fixed Rate Notes, the "Existing Senior Secured Notes"; the Existing Senior Secured Floating Rate Notes together with the Additional Senior Secured Floating Rate Notes are collectively referred to herein as the "Senior Secured Floating Rate Notes" and together with the Senior Secured Fixed Rate Notes, the "Senior Secured Notes"). The Existing Senior Secured Fixed Rate Notes, the Additional Senior Secured Fixed Rate Notes, the Existing Senior Secured Floating Rate Notes and the Additional Senior Secured Floating Rate Notes will collectively be treated as one single class for all purposes under the Senior Secured Notes Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase, except as otherwise provided for in the Senior Secured Notes Indenture. The Temporary Senior Secured Fixed Rate Notes will have the same terms and conditions as the Existing Senior Secured Fixed Rate Notes and the Temporary Senior Secured Floating Rate Notes will have the same terms and conditions as the Existing Senior Secured Floating Rate Notes, except as described herein.

Interest on the Temporary Senior Secured Notes will be deemed to have accrued from June 17, 2015. The Temporary Senior Secured Fixed Rate Notes will bear interest at a rate of 6.25% and will mature on July 1, 2022. The Temporary Senior Secured Floating Rate Notes will bear interest at a rate equal to three month EURIBOR (with 0% floor) plus 5.00% per annum, reset quarterly. The Senior Secured Notes Issuer will pay interest on the Senior Secured Fixed Rate Notes semiannually on January 1 and July 1 of each year, commencing on January 1, 2016. The Senior Secured Notes Issuer will pay interest on the Senior Secured Floating Rate Notes quarterly on January 1, April 1, July 1, and October 1 of each year, commencing on January 1, 2016. The Senior Notes will be issued under a separate indenture (the "Senior Notes Indenture"), will bear interest at a rate of 8.25% and will mature on July 1, 2023. The Senior Notes Issuer will pay interest on the Senior Notes semiannually on each of January 1, and July 1, commencing on January 1, 2016.

The Senior Secured Notes Issuer may redeem all or a portion of the Senior Secured Fixed Rate Notes prior to July 1, 2018 and all or a portion of the Senior Secured Floating Rate Notes prior to July 1, 2016, in each case at a redemption price equal to 100% of the principal amount of the Senior Secured Fixed Rate Notes or Senior Secured Floating Rate Notes, as applicable, plus accrued and unpaid interest and additional amounts, if any, to the redemption date and a "make whole" premium, as described in this offering memorandum. The Senior Secured Fixed Rate Notes may be redeemed at any time on or after July 1, 2018 and the Senior Secured Floating Rate Notes may be redeemed at any time on or after July 1, 2016, in each case at the redemption prices set forth in this offering memorandum. At any time prior to July 1, 2018, the Senior Secured Notes Issuer may also redeem up to 40% of the aggregate principal amount of the Senior Secured Fixed Rate Notes at a redemption price equal to 106.250% plus accrued and unpaid interest and additional amounts, if any, *provided that* at least 60% of the aggregate principal amount of the Senior Secured Fixed Rate Notes (including the original principal amount of any additional Senior Secured Fixed Rate Notes but excluding Senior Secured Fixed Rate Notes held by the Senior Secured Notes Issuer and its subsidiaries) remain outstanding, with the net proceeds of one or more specified equity offerings. At any time prior to July 1, 2018, the Senior Secured Notes Issuer may on any one or more occasions redeem during each calendar year up to 10% of the original principal amount of the Senior Secured Fixed Rate Notes (including the original principal amount of any additional Senior Secured Fixed Rate Notes) at a redemption price of 103% of the principal amount of the Senior Secured Fixed Rate Notes so redeemed, plus accrued and unpaid interest and additional amounts, if any, to, but not including, the applicable redemption date. The Senior Notes Issuer may redeem all or a portion of the Senior Notes prior to July 1, 2018 at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed plus accrued and unpaid interest and additional amounts, if any, to the redemption date and a "make whole" premium, as described in this offering memorandum. The Senior Notes may be redeemed at any time on or after July 1, 2018 at the redemption prices set forth in this offering memorandum. At any time prior to July 1, 2018, the Senior Notes Issuer may also redeem up to 40% of the aggregate principal amount of the Senior Notes at a redemption price equal to 100% plus accrued and unpaid interest and additional amounts, if any, *provided that* at least 60% of the aggregate principal amount of the Senior Notes (including the original principal amount of any additional Senior Notes but excluding Senior Notes held by the Senior Notes Issuer and its subsidiaries) remain outstanding, with the net proceeds of one or more specified equity offerings. Additionally, the Issuers may redeem all of their respective Notes upon the occurrence of certain changes in applicable tax law at a redemption price equal to 100% of the principal amount of the Notes plus accrued and unpaid interest and additional amounts, if any. If a change of control occurs, each holder of the Notes may require the relevant Issuer of its Notes to repurchase all or a portion of such Notes at 101% of their principal amount plus accrued and unpaid interest and additional amounts, if any. However, a change of control will not be deemed to have occurred if specified consolidated leverage ratios are not exceeded in connection with such event.

Concurrently with the closing of the offering, and pending the consummation of the Acquisitions and satisfaction of certain other conditions, the Initial Purchasers (as defined herein) will deposit the gross proceeds from the Offerings into separate escrow accounts held in the name of the Senior Secured Notes Issuer and the Senior Notes Issuer, respectively. The Temporary Senior Secured Notes Escrow Account will be controlled by the Escrow Agent (as defined herein) and pledged on a first-ranking basis in favor of the Trustee (as defined herein) on behalf of the holders of the Temporary Senior Secured Notes, and the Senior Notes Escrow Account will be controlled by the Escrow Agent and pledged on a first-ranking basis in favor of the Trustee on behalf of the holders of the Senior Notes. The release of the escrow proceeds will be subject to the satisfaction of certain conditions, including the closing of both Acquisitions. The consummation of the Synlab Acquisition pursuant to the Synlab Acquisition Agreement (as defined herein) is subject to the satisfaction of certain conditions, including clearance by the European Commission and the Swiss Competition Commission, and the performance of certain closing actions. The consummation of the Labco Acquisition (as defined herein) pursuant to the Labco Acquisition Agreement (as defined herein) is subject to the satisfaction of certain conditions, including clearance by the European Commission and the performance of certain closing actions. If both Acquisitions are not consummated on or prior to December 31, 2015 (the "Escrow Longstop Date"), and upon the occurrence of certain other events, the Notes will be subject to a special mandatory redemption. The special mandatory redemption price, with respect to the Temporary Senior Secured Notes will be a price equal to 100% of the aggregate issue price of the Temporary Senior Secured Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption, and, with respect to the Senior Notes will be a price equal to 100% of the aggregate issue price of the Senior Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption. See "*Description of the Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*" and "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*."

The Temporary Senior Secured Notes will be senior obligations of the Senior Secured Notes Issuer, will not benefit from any guarantees and will be secured on a first ranking basis by a charge over the Temporary Senior Secured Notes Escrow Account. Upon issuance of the Additional Senior Secured Notes in exchange for the Temporary Senior Secured Notes on or about the Completion Date, the Additional Senior Secured Notes will be senior obligations of the Senior Secured Notes Issuer and the Temporary Senior Secured Notes will be cancelled. The Additional Senior Secured Notes will be guaranteed on a senior secured basis by certain subsidiaries of the Senior Secured Notes Issuer on each of (i) with respect to the Completion Date Guarantors, the Completion Date, (ii) with respect to the Post-Labco Completion Date Guarantors, on or within 90 days following the Completion Date, and (iii) with respect to the Synlab Guarantors, a date or dates on or within (x) if German Bidco has acquired 100% of the share capital of Synlab in the Synlab Acquisition, 90 days or (y) if German Bidco has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, 270 days, in each case, following the Completion Date, as further described in this offering memorandum.

The Senior Notes will be senior obligations of the Senior Notes Issuer. The Senior Notes will be guaranteed on a senior subordinated basis by certain subsidiaries of the Senior Notes Issuer (including the Senior Secured Notes Issuer) at the same time as such subsidiaries provide guarantees of the Additional Senior Secured Notes (or, in the case of the guarantee to be granted by the Senior Secured Notes Issuer, on or about the Completion Date), as further described in this offering memorandum.

The Additional Notes will be secured, subject to agreed security principles, on each of (i) with respect to the Completion Date Collateral, the Completion Date, (ii) with respect to the Labco Completion Date Collateral and the Post-Labco Completion Date Collateral, the Completion Date or on or within 90 days following the Completion Date and (iii) with respect to the Synlab Collateral, a date or dates on or within (x) if German Bidco has acquired 100% of the share capital of Synlab in the Synlab Acquisition, 90 days or (y) if German Bidco has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, 270 days, in each case, following the Completion Date, as further described in this offering memorandum. The property and assets that will secure the Senior Secured Notes and the Senior Secured Note Guarantees (as defined herein) will also secure the Revolving Credit Facility and certain hedging obligations (the "Super Senior Obligations") on a first-ranking basis. In the event of enforcement of the security interests over the Collateral, the Super Senior Obligations and other indebtedness permitted under the Senior Secured Indenture to be incurred on a super priority basis will be repaid with proceeds from the enforcement of the Collateral in priority to the Senior Secured Notes. The Senior Notes will be secured by first-ranking security interests over the issued share capital of the Senior Notes Issuer and over the receivables owed by the Senior Notes Issuer to UK Holdco I and by second-ranking security interests over the issued share capital of the Senior Secured Notes Issuer and over the Senior Notes Proceeds Loan (as defined herein), as further described in this offering memorandum. The laws of certain jurisdictions limit the enforceability of certain of the Guarantees and rights to the assets securing the Notes and the Guarantees. In particular, the Senior Note Guarantees (as defined herein) from Austrian, Belgian, French and Italian guarantors will effectively have no monetary value as none of them will be on-lent any of the proceeds of the Senior Offering. The Senior Secured Notes Guarantees will also be subject to significant limitations. The validity and enforceability of the Guarantees and the security interests and the liability of each Guarantor will be subject to the limitations described in "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*." The security interests and the Guarantees may be released under certain circumstances.

Application will be made for the Temporary Senior Secured Notes, the Additional Notes and the Senior Notes to be listed on the Official List of the Irish Stock Exchange and to be admitted to trading on the Global Exchange Market thereof. There is no assurance that the Notes will be listed and admitted to trading on the Global Exchange Market.

Investing in the Notes involves risks. See "*Risk Factors*" beginning on page 59.

Issue price of the Temporary Senior Secured Fixed Rate Notes: 99.000% plus accrued interest from June 17, 2015.
Issue price of the Temporary Senior Secured Floating Rate Notes: 99.000% plus accrued interest from June 17, 2015.
Issue price of the Senior Notes: 100.000% plus accrued interest, if any, from the Issue Date.

The Notes and the Guarantees have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "U.S. Securities Act"), or the laws of any other jurisdiction and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. In the United States, the Offerings are being made only to "qualified institutional buyers" ("QIBs") (as defined in Rule 144A under the U.S. Securities Act) in compliance with Rule 144A under the U.S. Securities Act ("Rule 144A"). You are hereby notified that the Initial Purchasers of the Notes may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A. Outside the United States, the Offerings are being made in reliance on Regulation S under the U.S. Securities Act ("Regulation S"). See "*Notice to U.S. Investors*" and "*Transfer Restrictions*" for additional information about eligible offerees and transfer restrictions.

The Notes will be issued in registered form in minimum denominations of €100,000 and integral multiples of €1,000 in excess thereof. The Notes will be represented on issue by one or more global notes and the Initial Purchasers expect to deliver the Notes in book-entry form through Euroclear Bank SA/NV ("Euroclear") and Clearstream Banking, *société anonyme* ("Clearstream, Luxembourg") on or about August 6, 2015.

The date of this offering memorandum is July 23, 2015.

CONTENTS

You should rely only on the information contained in this offering memorandum. None of the Issuers, the Guarantors or any of the Initial Purchasers has authorized anyone to provide you with information that is different from the information contained herein. If given, any such information should not be relied upon. None of the Issuers, the Guarantors or any of the Initial Purchasers is making an offer of the Notes in any jurisdiction where the Offerings are not permitted. You should not assume that the information contained in this offering memorandum is accurate as of any date other than the date on the cover of this offering memorandum.

We expect that delivery of the Notes will be made against payment on the Notes on or about the date specified on the cover of this offering memorandum, which is the tenth business day (as such term is used for purposes of Rule 15c6-1 of the U.S. Securities Exchange Act of 1934, as amended (the "U.S. Exchange Act")) following the date of pricing of the Notes (this settlement cycle is referred to as "T+10"). Since trades in the secondary market generally settle in three business days, purchasers who wish to trade Notes on the date of pricing or the next six succeeding business days will be required, by virtue of the fact that the Notes initially will settle T+10, to specify alternative settlement arrangements to prevent a failed settlement. See "*Plan of Distribution*."

IMPORTANT INFORMATION

The Issuers are offering the Notes, and the Guarantors are issuing the Guarantees, in reliance on exemptions from the registration requirements of the U.S. Securities Act. These exemptions apply to offers and sales of securities that do not involve a public offering. The Notes and the Guarantees have not been registered with, recommended by or approved by the U.S. Securities and Exchange Commission (the "SEC") or any other securities commission or regulatory authority, nor has the SEC or any such securities commission or authority passed upon the accuracy or adequacy of this offering memorandum. Any representation to the contrary is a criminal offense in the United States.

This offering memorandum is confidential and has been prepared by us solely for use in connection with the Offerings. This offering memorandum is personal to each offeree and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire the Notes. Distribution of this offering memorandum to any person other than the prospective investor and any person retained to advise such prospective investor with respect to the purchase of Notes is unauthorized, and any disclosure of any of the contents of this offering memorandum, without our prior written consent, is prohibited. Each prospective investor, by accepting delivery of this offering memorandum, agrees to the foregoing and to make no photocopies of this offering memorandum or any documents referred to in this offering memorandum.

In making an investment decision regarding the Notes, prospective investors must rely on their own examination of our business and the terms of the Offerings, including the merits and risks involved. In addition, none of the Issuers, the Initial Purchasers or any of their respective representatives are making any representation to you regarding the legality of an investment in the Notes, and you should not construe anything in this offering memorandum as legal, business or tax advice. You should consult your own advisors as to legal, tax, business, financial and related aspects of an investment in the Notes. You must comply with all laws applicable in any jurisdiction in which you buy, offer or sell the Notes or possess or distribute this offering memorandum, and you must obtain all applicable consents and approvals; neither the Issuers nor the Initial Purchasers shall have any responsibility for any of the foregoing legal requirements.

The Initial Purchasers make no representation or warranty, express or implied, as to the accuracy or completeness of the information contained in this offering memorandum. Nothing contained in this offering memorandum is, or shall be relied upon as, a promise or representation by the Initial Purchasers as to the past or future.

The Issuers accept responsibility for the information contained in this offering memorandum. To the best of the knowledge and belief of the Issuers, the information contained in this offering memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information. However, the information set forth under the headings "*Exchange Rate Information*," "*Summary*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*," "*Industry*" and "*Business*" includes extracts from or is otherwise based on information and data, including industry and market data, released by publicly available sources in Europe and elsewhere as well as reports prepared by industry consultants, including, in relation to the "*Industry*" section, a report dated February 13, 2015 of L.E.K. M&A SAS (the "L.E.K. Report"), which was commissioned by us and was prepared using information from third party data providers, industry associations, competitors' published accounts, interviews with key market participants as well as publicly available sources and internal financial and operational and other information supplied by us or on our behalf. While the Issuers accept responsibility for the accurate extraction and summarization of such information and data, the Issuers have not independently verified the accuracy of such information and data and the Issuers accept no further responsibility in respect thereof. In addition, this offering memorandum contains summaries believed to be accurate with respect to certain documents, but reference is made to the actual documents for complete information. All such summaries are qualified in their entirety by such reference. However, as far as the Issuers are aware, no information or data has or have been omitted which would render reproduced information inaccurate or misleading.

By receiving this offering memorandum, you acknowledge that you have had an opportunity to request from us for review, and that you have received, all additional information you deem necessary to verify the accuracy and completeness of the information contained in this offering memorandum. You also acknowledge that you have not relied on the Initial Purchasers in connection with your investigation of the accuracy of this information or your decision whether to invest in the Notes.

The Issuers reserve the right to withdraw the Offerings at any time, and the Issuers and the Initial Purchasers reserve the right to reject all or a part of any offer to purchase the Notes, for any reason. The Issuers and the Initial Purchasers also reserve the right to sell less than all of the Notes offered by this offering memorandum or to sell to any purchaser less than the amount of Notes it has offered to purchase.

The distribution of this offering memorandum and the offering and sale of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this offering memorandum or any of the Notes come must inform themselves about, and observe any restrictions on, the transfer and exchange of the Notes. See "*Transfer Restrictions*" and "*Plan of Distribution*."

This offering memorandum does not constitute an offer to sell or an invitation to subscribe for or purchase any of the Notes in any jurisdiction in which such offer or invitation is not authorized or to any person to whom it is unlawful to make such an offer or invitation. You must comply with all laws that apply to you in any place in which you buy, offer or sell any Notes or possess this offering memorandum. You must also obtain any consents or approvals that you need in order to purchase any Notes. The Issuers and the Initial Purchasers are not responsible for your compliance with these legal requirements.

The Notes are subject to restrictions on resale and transfer as described under "*Transfer Restrictions*" and "*Plan of Distribution*." By purchasing any Notes, you will be deemed to have made certain acknowledgments, representations and agreements as described in those sections of this offering memorandum. You may be required to bear the financial risks of investing in the Notes for an indefinite period of time.

The Notes will be available in book-entry form only. We expect that the Notes sold pursuant to this offering memorandum will be issued in the form of one or more Global Notes (as defined herein) in registered form without interest coupons attached, which will be deposited with, or on behalf of, a common depositary for the accounts of Euroclear and Clearstream, Luxembourg, and registered in the name of the nominee for the common depositary. Beneficial interests in the Global Notes will be shown on, and transfers of the Global Notes will be effected only through, records maintained by Euroclear, Clearstream, Luxembourg and their respective participants. After the initial issuance of the Global Notes, Notes in certificated form will be issued in exchange for the Global Notes only as set forth in the Indentures. See "*Book-Entry; Delivery and Form*."

The information set forth in relation to sections of this offering memorandum describing clearing arrangements, including the section entitled "*Book-Entry; Delivery and Form*," is subject to any changes in, or reinterpretation of, the rules, regulations and procedures of Euroclear and Clearstream, Luxembourg currently in effect. While the Issuers accept responsibility for accurately summarizing the information concerning Euroclear and Clearstream, Luxembourg, they accept no further responsibility in respect of such information.

STABILIZATION

IN CONNECTION WITH THE OFFERING OF THE TEMPORARY SENIOR SECURED NOTES AND THE ADDITIONAL SENIOR SECURED NOTES, J.P. MORGAN SECURITIES PLC (OR PERSONS ACTING ON BEHALF OF J.P. MORGAN SECURITIES PLC) (THE "SENIOR SECURED NOTES STABILIZING MANAGER") AND IN CONNECTION WITH THE OFFERING OF THE SENIOR NOTES, GOLDMAN SACHS INTERNATIONAL (OR PERSONS ACTING ON BEHALF OF GOLDMAN SACHS INTERNATIONAL) (THE "SENIOR NOTES STABILIZING MANAGER" AND TOGETHER WITH THE NEW SENIOR SECURED NOTES STABILIZING MANAGER, THE "STABILIZING MANAGERS") MAY OVER-ALLOT THE APPLICABLE NOTES (*PROVIDED THAT* THE AGGREGATE PRINCIPAL AMOUNT OF SUCH NOTES ALLOTTED DOES NOT EXCEED 105% OF THE AGGREGATE PRINCIPAL AMOUNT OF THE NOTES THAT ARE THE SUBJECT OF THE OFFERING) OR EFFECT TRANSACTIONS WITH A VIEW TO SUPPORTING THE MARKET PRICE OF THE APPLICABLE NOTES AT A LEVEL HIGHER THAN THAT WHICH MIGHT OTHERWISE PREVAIL. HOWEVER, THERE IS NO ASSURANCE THAT THE STABILIZING MANAGERS (OR PERSONS ACTING ON BEHALF OF THE STABILIZING MANAGERS) WILL UNDERTAKE STABILIZATION ACTION. ANY STABILIZATION ACTION MAY BEGIN ON OR AFTER THE DATE ON WHICH ADEQUATE PUBLIC DISCLOSURE OF THE TERMS OF THE OFFERING IS MADE AND, IF BEGUN, MAY BE ENDED AT ANY TIME, BUT IT MUST END NO LATER THAN 30 DAYS AFTER THE DATE ON WHICH THE ISSUERS RECEIVED THE PROCEEDS OF THE OFFERING, OR NO LATER

THAN 60 DAYS AFTER THE DATE OF THE ALLOTMENT OF THE NOTES, WHICHEVER IS THE EARLIER.

NOTICE TO U.S. INVESTORS

Each purchaser of Notes will be deemed to have made the representations, warranties and acknowledgements that are described in this offering memorandum under "*Transfer Restrictions*."

The Notes have not been and will not be registered under the U.S. Securities Act or the securities laws of any state of the United States and are subject to certain restrictions on transfer. Prospective purchasers are hereby notified that the seller of any Note may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A. For a description of certain further restrictions on resale or transfer of the Notes, see "*Transfer Restrictions*."

THE NOTES MAY NOT BE OFFERED TO THE PUBLIC IN ANY JURISDICTION. BY ACCEPTING DELIVERY OF THIS OFFERING MEMORANDUM, YOU AGREE NOT TO OFFER, SELL, RESELL, TRANSFER OR DELIVER, DIRECTLY OR INDIRECTLY, ANY NOTE TO THE PUBLIC.

NOTICE TO NEW HAMPSHIRE RESIDENTS ONLY

NEITHER THE FACT THAT A REGISTRATION STATEMENT OR AN APPLICATION FOR A LICENSE HAS BEEN FILED UNDER CHAPTER 421-B OF THE NEW HAMPSHIRE REVISED STATUTES (RSA 421-B) WITH THE STATE OF NEW HAMPSHIRE NOR THE FACT THAT A SECURITY IS EFFECTIVELY REGISTERED OR A PERSON IS LICENSED IN THE STATE OF NEW HAMPSHIRE CONSTITUTES A FINDING BY THE SECRETARY OF STATE OF NEW HAMPSHIRE THAT ANY DOCUMENT FILED UNDER RSA 421-B IS TRUE, COMPLETE AND NOT MISLEADING. NEITHER ANY SUCH FACT NOR THE FACT THAT AN EXEMPTION OR EXCEPTION IS AVAILABLE FOR A SECURITY OR A TRANSACTION MEANS THAT THE SECRETARY OF STATE HAS PASSED IN ANY WAY UPON THE MERITS OR QUALIFICATIONS OF, OR RECOMMENDED OR GIVEN APPROVAL TO, ANY PERSONS, SECURITY OR TRANSACTION. IT IS UNLAWFUL TO MAKE OR CAUSE TO BE MADE TO ANY PROSPECTIVE PURCHASER, CUSTOMER OR CLIENT, ANY REPRESENTATION INCONSISTENT WITH THE PROVISIONS OF THIS PARAGRAPH.

NOTICE TO CERTAIN EUROPEAN INVESTORS

European Economic Area

This offering memorandum has been prepared on the basis that all offers of the Notes in any member state of the European Economic Area (the "EEA") which has implemented Directive 2003/71/EC, as amended by Directive 2010/73/EU (the "Prospectus Directive") (each, a "Relevant Member State") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly, any person making or intending to make any offer in that Relevant Member State of Notes which are the subject of the Offerings contemplated in this offering memorandum may only do so in circumstances in which no obligation arises for the Issuers or the Initial Purchasers to publish a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case in relation to such offer. Neither the Issuers nor the Initial Purchasers have authorized, nor do they authorize, the making of any offer of the Notes in circumstances in which an obligation arises for the Issuers or the Initial Purchasers to publish or supplement a prospectus for such offer.

Austria

In the Republic of Austria, the Notes may only be offered and sold in accordance with the provisions of the Austrian Capital Markets Act (the "Capital Markets Act," *Kapitalmarktgesetz*, KMG) and any other applicable Austrian law. No application has been made under Austrian law to offer the Notes to the public in or out of the Republic of Austria. The Notes have not been admitted for a public offer in Austria and accordingly may not be, and are not being, offered, sold or delivered to the public or advertised publicly or by public promotion. This offering memorandum is strictly for private use and the offer is only being made to recipients to whom the offering memorandum is personally addressed and does not constitute an offer or advertisement to the public. Neither this document nor any other document or materials relating thereto is a prospectus according to the Capital Markets Act or Regulation (EC) No 809/2004 (as amended). In Austria, the Notes will only be available to, and this offering memorandum and any other offering material in relation to the Notes is directed only at, persons who are qualified investors (*qualifizierte Anleger*) within the meaning of Section 1 para. 1 no. 5a and Section 3 para. 1 no. 11 of the Capital Markets Act or who are subject to another exemption in accordance with Section 3 para. 1 of the Capital Markets Act. Any resale of the Notes in Austria may only be made in accordance with the Capital Markets Act and other applicable laws and no steps may be taken that would constitute a public offer of the Notes in Austria and the offer to purchase of the Notes may not be advertised publicly in the Republic of Austria.

France

This offering memorandum has not been prepared in the context of a public offering of financial securities in France within the meaning of Article L. 411-1 of the French *Code monétaire et financier* and Title I of Book II of the *Règlement Général of the Autorité des Marchés Financiers* (the "AMF") and, therefore, has not been approved by, registered or filed with the AMF and does not require a prospectus to be submitted for approval to the AMF. Consequently, the Notes have not been and will not be offered or sold to the public in the Republic of France, and no offering or marketing materials relating to the Notes must be made available or distributed in any way that would constitute, directly or indirectly, an offer to the public in the Republic of France.

The Notes may only be offered or sold in the Republic of France pursuant to article L. 411-2-II of the French *Code monétaire et financier* to (i) providers of third-party portfolio management investment services (*personnes fournissant le service d'investissement de gestion de portefeuille pour compte de tiers*), (ii) qualified investors (*investisseurs qualifiés*) acting for their own account and/or (iii) a limited group of investors (*cercle restreint d'investisseurs*) acting for their own account, all as defined in and in accordance with Articles L. 411-2, D. 411-1, D. 411-4, D. 744-1, D. 754-1 and D. 764-1 of the French *Code monétaire et financier*.

Prospective investors are informed that:

(i) this offering memorandum has not been submitted for clearance to the AMF;

(ii) individuals or entities referred to in Article L. 411-2-II-2 of the French *Code monétaire et financier* may participate in the Offerings for their own account, as provided under Articles D. 411-1, D. 411-4, D. 744-1, D. 754-1 and D. 764-1 of the French *Code monétaire et financier*; and

(iii) the direct and indirect distribution or sale to the public of the Notes acquired by them may only be made in compliance with applicable laws and regulations, in particular those relating to an offer to the public (*offre au public de titres financiers*) (which are embodied in Articles L. 411-1, L. 411-2, L. 412-1 and L. 621-8 to L. 621-8-3 of the French *Code monétaire et financier*).

Germany

In the Federal Republic of Germany, the Notes may only be offered and sold in accordance with the provisions of the Securities Prospectus Act of the Federal Republic of Germany (the "Securities Prospectus Act," *Wertpapierprospektgesetz, WpPG*) and any other applicable German law. No application has been made under German law to offer the Notes to the public in or out of the Federal Republic of Germany. The Notes are not registered or authorized for distribution under the Securities Prospectus Act and accordingly may not be, and are not being, offered or advertised publicly or by public promotion. This offering memorandum is strictly for private use and the offer is only being made to recipients to whom the offering memorandum is personally addressed and does not constitute an offer or advertisement to the public. In Germany, the Notes will only be available to, and this offering memorandum and any other offering material in relation to the Notes is directed only at, persons who are qualified investors (*qualifizierte Anleger*) within the meaning of Section 2 No. 6 of the Securities Prospectus Act or who are subject of another exemption in accordance with Section 3 para. 2 of the Securities Prospectus Act. Any resale of the Notes in Germany may only be made in accordance with the Securities Prospectus Act and other applicable laws.

Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor may copies of this offering memorandum or of any other document relating to the Notes be distributed in Italy, except:

(i) to qualified investors (*investitori qualificati*), as defined pursuant to Article 100 of Legislative Decree No. 58 of February 24, 1998, as amended (the "Financial Services Act") and Article 34-ter, first paragraph, letter b) of *Commissione Nazionale per le Società e la Borsa* ("CONSOB") Regulation No. 11971 of May 14, 1999, as amended from time to time ("Regulation No. 11971"); or

(ii) in other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Financial Services Act and Article 34-*ter* of Regulation No. 11971.

Any offer, sale or delivery of the Notes or distribution of copies of this offering memorandum or any other document relating to the Notes in Italy under (i) or (ii) above must be:

(a) made by an investment firm, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Financial Services Act, CONSOB Regulation No. 16190 of October 29, 2007 (as amended from time to time) and Legislative Decree No. 385 of September 1, 1993, as amended (the "Banking Act"); and

(b) in compliance with Article 129 of the Banking Act, as amended, and the implementing guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the issue or the offer of securities in Italy; and

(c) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or other Italian authorities.

Spain

The Notes may not be sold, offered or distributed to persons in Spain, except in circumstances which do not constitute a public offer (*oferta pública*) of securities in Spain, in accordance with article 30 *bis* of the Securities Market Act (*Ley 24/1988, de 28 de Julio, del Mercado de Valores*) as amended and restated, or pursuant to an exemption from registration in accordance with article 41 of the Royal Decree 1310/2005 (*Real Decreto 1310/2005, de 4 de noviembre, por el que se desarrolla parcialmente la Ley 24/1988, de 28 de julio, del Mercado de Valores, en materia de admisión a negociación de valores en mercados secundarios oficiales, de ofertas públicas de venta o suscripción y del folleto exigible a tales efectos*). Neither the Notes, this offering nor this offering memorandum and its contents have been approved or registered with the Spanish Securities and Exchange Commission (*Comisión Nacional del Mercado de Valores*), and therefore it is not intended for the public offering of Notes in Spain.

Switzerland

The Notes may not be publicly offered, sold or advertised, directly or indirectly, in, into or from Switzerland. Neither this offering memorandum nor any other offering or marketing material relating to the Notes constitutes a prospectus as such term is understood pursuant to article 652a or article 1156 of the Swiss Federal Code of Obligations or a listing prospectus within the meaning of the listing rules of the SIX Swiss Exchange Ltd., and neither this offering memorandum nor any other offering or marketing material relating to the Notes may be publicly distributed or otherwise made publicly available in Switzerland.

United Kingdom

This offering memorandum is for distribution only to, and is only directed at, persons who (i) have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the "Financial Promotion Order"), (ii) are persons falling within Article 49(2)(a) to (d) (high net worth companies, unincorporated associations, etc.) of the Financial Promotion Order, (iii) are outside the United Kingdom or (iv) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000) in connection with the issue or sale of any Notes may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as "relevant persons"). This offering memorandum is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which this offering memorandum relates is available only to relevant persons and will be engaged in only with relevant persons.

AVAILABLE INFORMATION

For so long as any of the Notes are "restricted securities" within the meaning of Rule 144(a)(3) under the U.S. Securities Act and we are neither subject to Section 13 or 15(d) of the U.S. Exchange Act, nor exempt from reporting pursuant to Rule 12g3-2(b) under the U.S. Exchange Act, we will furnish to any holder or beneficial owner of Notes, or to any prospective purchaser designated by any such registered holder, upon the written request of any such person, the information required to be delivered pursuant to Rule 144A(d)(4).

We are not currently subject to the periodic reporting and other information requirements of the U.S. Exchange Act. However, pursuant to the Indentures and so long as the Notes are outstanding, we will furnish periodic information to the holders of the Notes. See "*Description of the Senior Secured Notes—Reports*" and "*Description of the Senior Notes—Reports*." We will also make available all reports required by the covenants described under "*Description of the Senior Secured Notes—Reports*" and "*Description of the Senior Notes—Reports*" on our website.

FORWARD-LOOKING STATEMENTS

This offering memorandum contains forward-looking statements, including statements about our markets and our strategy, future operations, industry forecasts, expected investments and target levels of leverage and indebtedness. Forward-looking statements provide our current expectations, intentions or forecasts of future events. Forward-looking statements include statements about expectations, beliefs, plans, objectives, intentions, assumptions and other statements that are not statements of historical fact. Words or phrases such as "anticipate," "believe," "continue," "ongoing," "estimate," "expect," "intend," "may," "plan," "potential," "predict," "project," "target," "seek" or similar words or phrases, or the negatives of those words or phrases, may identify forward-looking statements, but the absence of these words does not necessarily mean that a statement is not forward looking.

Forward-looking statements are subject to known and unknown risks and uncertainties and are based on potentially inaccurate assumptions that could cause actual results to differ materially from those expected or implied by the forward-looking statements. Our actual results could differ materially from those anticipated in our forward-looking statements for many reasons, including the factors described in the section entitled "*Risk Factors*" in this offering memorandum. For example, factors that could cause our actual results to vary from projected future results include, but are not limited to:

- regulatory conditions in the markets in which we operate and our ability to respond effectively to regulatory reforms;
- challenges to the organization and legal structure of our French operations and our dependence on laboratory doctors to check operations carried out by SELs (as defined herein);
- decreases in government-controlled tariffs for clinical laboratory services;
- efforts by third-party payers and health insurance companies to control healthcare spending and reimbursement levels;
- continued weakness in economic conditions;
- failure to be supplied with new tests, technologies and services by our suppliers;
- failure of our information technology systems;
- failure to protect our trademarks uniformly across all countries in which we operate;
- our ability to execute acquisitions and effectively integrate acquired businesses into our network;
- difficulties and delays in integrating the Synlab and Labco businesses or fully realizing the cost synergies we expect to be created in connection with the Transactions;
- failure to realize the expected cost savings from other recently acquired businesses and any future potential acquisition;
- increased quality and price competition;
- failure to realize the full value of goodwill recorded;
- our ability to maintain good relationships with NHS trusts in the United Kingdom;
- our dependence on large customer contracts;
- our ability to retain or recruit experienced laboratory doctors;
- our dependence on senior management, experienced laboratory professionals and key personnel;
- the development of tests that can be performed by our patients or customers or the internalization of testing by hospitals or doctors;
- failure to timely or accurately bill for our services;
- our compliance with or obligations under environmental, health and safety laws;
- our compliance with appropriate quality standards for our testing services;
- disruption to our collection and transportation networks;
- the impact of extreme weather conditions on our activity levels;
- adverse results in material litigation;

- the impact of stringent privacy laws and information security policies;
- failure to comply with tax legislation, including VAT and French payroll tax;
- other risks related to the Transactions, our capital structure and the Notes; and
- certain other risks set forth under the heading "*Risk Factors*."

Accordingly, prospective investors should not rely on these forward-looking statements, which speak only as of the date of this offering memorandum or as otherwise indicated. We do not have any obligation to publicly revise any forward-looking statement to reflect circumstances or events after the date of such forward-looking statement or to reflect the occurrence of unanticipated events.

In addition, from time to time we and our representatives, acting in respect of information provided by us, have made or may make forward-looking statements orally or in writing. These forward-looking statements may be included in, but are not limited to, press releases (including on our website), reports to our security holders and other communications. Although we believe that the expectations reflected in such forward-looking statements are reasonable, there can be no assurance that such expectations will prove to be correct. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The risks described in the "*Risk Factors*" section of this offering memorandum are not exhaustive. Other sections of this offering memorandum describe additional factors that could adversely affect our business, financial condition or results of operations. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time and it is not possible for us to predict all such risks; nor can we assess the impact of all such risks on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, prospective investors should not place undue reliance on forward-looking statements as a prediction of actual results.

CERTAIN DEFINITIONS USED IN THIS OFFERING MEMORANDUM

Unless indicated otherwise in this offering memorandum or the context requires otherwise, all references to:

- "Acquisitions" are collectively to the Labco Acquisition and the Synlab Acquisition;
- "Additional Senior Secured Fixed Rate Notes" are to the €400 million aggregate principal amount of 6.25% Senior Secured Fixed Rate Notes due 2022 to be issued on or about the Completion Date upon automatic exchange of an equal amount of Temporary Senior Secured Fixed Rate Notes by the Senior Secured Notes Issuer;
- "Additional Senior Secured Floating Rate Notes" are to the €285 million aggregate principal amount of Senior Secured Floating Rate Notes due 2022 to be issued on or about the Completion Date upon automatic exchange of an equal amount of Temporary Senior Secured Floating Rate Notes by the Senior Secured Notes Issuer;
- "Additional Senior Secured Notes" are to the €685 million aggregate principal amount of additional Senior Secured Notes made up of the Additional Senior Secured Fixed Rate Notes and the Additional Senior Secured Floating Rate Notes;
- "anatomopathology testing" are to the diagnosis and monitoring of diseases through the testing of histologic and cytological samples, such as organs, tissues and cells;
- "ARS" are to *Agence régionale de santé*, the regional health authority in France;
- "ASL" are to *Azienda Sanitaria Local*, the regional health authority in Italy;
- "CICE" are to the competitiveness and employment tax credit (*crédit d'impôt pour la compétitivité et l'emploi*) adopted in the French Third Amended Finance Law for 2012 (*3ème loi de finances rectificative pour 2012*), No. 2012-1510, dated 29 December 2012, which is a tax credit designed to reduce the charges on employees earning a salary below a certain threshold;
- "Cinven" or "Sponsor" are to Cinven Capital Management (V) Limited Partnership, acting through its general partner Cinven Capital Management (V) General Partner Limited;
- "Cinven Funds" are to investment funds managed or advised by Cinven, in each case (whether individually or as a group) including any affiliates (but excluding any operating portfolio companies) of such funds;
- "clinical laboratory testing" are to the diagnosis and monitoring of diseases through the analysis of body fluids (e.g., blood, serum, plasma or urine);
- "CNAM" are to *Caisse Nationale d'Assurance Maladie*, the French national health insurance fund;
- "COFRAC" are to *Comité français d'accréditation*, the French accreditation body for laboratories;
- "Collateral" are to such term as defined in "*Summary—The Offerings—Collateral*";
- "Completion Date" are to the date on which the proceeds from the Offerings are released from the Escrow Accounts and the Acquisitions are completed;
- "Completion Date Collateral" are to such term as defined in "*Summary—The Offerings—Collateral*";
- "Completion Date Guarantors" are to German BidCo, French BidCo, Labco, Biopar, Labco Corporate Assistance and Labco Diagnostics España S.A. and, in respect of the Senior Notes only, the Senior Secured Notes Issuer;
- "Deep Dive" are to the workforce optimization program that Labco implemented in France during 2012 and 2013;
- "Escrow Accounts" are collectively to the Temporary Senior Secured Notes Escrow Account and the Senior Notes Escrow Accounts;
- "Escrow Agent" are to Elavon Financial Services Limited, UK Branch;
- "Escrow Longstop Date" are to December 31, 2015;
- "EU" are to the European Union;

- "euro," "euros" or "€" are to the single currency of the Member States of the European Union participating in the third stage of the economic and monetary union pursuant to the Treaty on the Functioning of the European Union, as amended or supplemented from time to time;
- "Existing Escrow Account" are to the escrow account into which the gross proceeds from the offering of the Existing Senior Secured Notes were deposited on June 17, 2015 pending consummation of the Labco Acquisition;
- "Existing Labco Credit Facility" are to the revolving credit facility available pursuant to the Existing Labco Credit Facility Agreement;
- "Existing Labco Credit Facility Agreement" are to the senior term and revolving facilities agreement, entered into on January 21, 2011, as amended on April 12, 2012 and as amended and restated on December 18, 2014, and as subsequently amended, supplemented, varied, novated, extended or replaced from time to time, among, *inter alios*, Labco, certain subsidiaries of Labco and certain lenders;
- "Existing Labco Notes" are to Labco's issued and outstanding €700 million 8½% Senior Secured Notes due 2018, the full aggregate principal amount of which will be discharged upon closing of the Labco Acquisition and redeemed thereafter with the proceeds from the offering of Existing Senior Secured Notes and the release of such proceeds from the Existing Escrow Account;
- "Existing Senior Secured Notes" are to the €500 million 6.25% Senior Secured Notes due 2022 and the €300 million Senior Secured Floating Rate Notes due 2022 issued by the Senior Secured Notes Issuer on June 17, 2015 pursuant to the Senior Secured Notes Indenture;
- "Existing Synlab Credit Facility" are to the credit facilities available pursuant to the Existing Synlab Credit Facility Agreement;
- "Existing Synlab Credit Facility Agreement" are to the senior facilities agreement, entered into on January 24, 2012, as amended and restated on July 27, 2012, March 28, 2013 and January 29, 2014, and as subsequently amended, supplemented, varied, novated, extended or replaced from time to time, among, *inter alios*, Synlab, certain subsidiaries of Synlab and certain lenders;
- "Financial Statements" are collectively to the Labco Financial Statements and the Synlab Financial Statements;
- "Financings" are to the Synlab Financing, the Labco Financing and the Labco Refinancing;
- "French BidCo" are to Ephios France, a *société par actions simplifiée* organized under the laws of France, a wholly owned subsidiary of the Senior Secured Notes Issuer;
- "French BidCo Loan" are to the interest-bearing loan agreement to be entered into on or about the Completion Date between French BidCo and Labco in an amount of approximately €7.6 million;
- "General Court" are to General Court of the European Union;
- "German BidCo" are to Ephios Acquisition GmbH, a *Gesellschaft mit beschränkter Haftung* organized under the laws of Germany, which will be a wholly owned subsidiary of the Senior Secured Notes Issuer;
- "German BidCo Loan" are to the interest-bearing loan agreement to be entered into on or about the Completion Date between the Senior Secured Notes Issuer and German BidCo in an amount of approximately €1,328.0 million;
- "Guarantees" are collectively to the Senior Secured Note Guarantees and the Senior Note Guarantees;
- "Guarantors" are collectively to the Labco Completion Date Guarantors, the Post-Labco Completion Date Guarantors, the Completion Date Guarantors and the Synlab Guarantors;
- "HIV" are to human immunodeficiency virus;
- "IAS 34" are to the standard of the IFRS applicable to interim financial reporting;
- "Iberia" are collectively to Spain and Portugal;
- "IFRS" are to the International Financial Reporting Standards issued by the International Accounting Standards Board and as adopted by the European Union;

- "INAMI" are to *Institut National d'Assurance Maladie-Invalidité*, the Belgian national health and disability insurance agency;
- "Indentures" are collectively to the Temporary Senior Secured Notes Indenture, the Existing Indenture and the Senior Notes Indenture;
- "Initial Purchasers" are to Barclays Bank PLC, BNP Paribas, Deutsche Bank AG, London Branch, Goldman Sachs International, HSBC Bank plc, J.P. Morgan Securities plc and Morgan Stanley & Co. International plc;
- "inpatients" are to patients admitted to hospitals and for whom clinical laboratory testing services (or other diagnostic services) are performed as part of their hospital care;
- "Intercreditor Agreement" are to the intercreditor deed dated June 17, 2015 as amended from time to time, between, among others, the Senior Secured Notes Issuer, Ephios Holdco II PLC (as successor to Ephios Holdco II Limited), the other Guarantors party thereto, the Trustee, the Security Agent and certain lenders and arrangers under the Revolving Credit Facility Agreement, which is described in more detail in "*Description of Other Indebtedness—Intercreditor Agreement*";
- "iPP" are to Integrated Pathology Partnerships Limited, one of Labco's operating companies in the United Kingdom, of which Labco owns 90% of the share capital and has call options to purchase the remaining 10% of the share capital;
- "Issue Date" are to the date of the issuance of the Temporary Senior Secured Notes and the Senior Notes offered hereby;
- "Issue Date Collateral" are to such term as defined in "*Summary—The Offerings—Collateral*";
- "Italian GAAP" are to the Italian law governing the preparation of consolidated financial statements in Italy, as interpreted and integrated by the accounting principles established by the Italian Accountancy Body (*Organismo Italiano di Contabilità*);
- "Labco" and "Labco Group" are to Labco S.A., a *société anonyme* organized under the laws of France, and its consolidated subsidiaries, except where the context otherwise requires;
- "Labco Accession Date" are to such term as defined in "*Summary—The Offerings—Guarantee*";
- "Labco Acquisition" are to the acquisition by French BidCo of the Labco Securities pursuant to the Labco Acquisition Agreement;
- "Labco Acquisition Agreement" are to the share sale agreement, dated May 27, 2015, between the Labco Sellers and French BidCo for French BidCo to acquire the Labco Securities from the Labco Sellers, as amended from time to time;
- "Labco Acquisition Longstop Date" are to November 30, 2015;
- "Labco Audited Financial Statements" are to the audited historical consolidated financial statements, including the notes thereto, of Labco and its subsidiaries, prepared in accordance with IFRS, as of and for the years ended December 31, 2012, 2013 and 2014;
- "Labco Collection Centers" are to a center for collecting or taking clinical samples, most of which will be sent to a laboratory for analysis, but some of which are analyzed on-site; most of Labco's laboratories have a Labco Collection Center on-site;
- "Labco Completion Date" are to the date on which the Labco Acquisition is completed;
- "Labco Completion Date Collateral" are to such term as defined in "*Summary—The Offerings—Collateral*";
- "Labco Completion Date Guarantors" are to French BidCo, Labco, Biopar, Labco Corporate Assistance and Labco Diagnostics España S.A.;
- "Labco Financial Statements" are collectively to the Labco Audited Financial Statements and the Labco Unaudited Interim Financial Statements;
- "Labco Financing" are to such term as defined in "*Summary—The Transactions—The Synlab Financing*";

- "Labco Proceeds Loan" are to the interest-bearing loan agreement to be entered into on or about the Labco Completion Date among the Senior Secured Notes Issuer and Labco in an aggregate amount of approximately €800.0 million;
- "Labco Refinancing" are to such term as defined in "*Summary—The Transactions—The Synlab Financing*";
- "Labco Securities" are to up to 100%, but no less than 95%, of the shares of Labco;
- "Labco Sellers" are to the various sellers of the Labco Securities;
- "Labco Unaudited Interim Financial Statements" are to the unaudited historical condensed interim consolidated financial statements, including the notes thereto, of Labco and its subsidiaries, prepared in accordance with IAS 34, as of and for the three months ended March 31, 2015, which include unaudited comparative financial information for the three months ended March 31, 2014;
- "laboratory company" are to any legal entity operating one or more clinical laboratories;
- "laboratory doctor" are to a professional who is qualified to own, manage or operate a clinical laboratory and who, depending on the country in which he or she operates, may or may not be a medical doctor;
- "Law of 30 May 2013" are to the French Law of 30 May 2013 on the reorganizations of medical biology (*loi n° 2013-442 du 30 mai 2013 portant réforme de la biologie médicale*);
- "Mix Effect" are to such term as it is defined in "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Principal Factors Affecting Labco's Results of Operations—General Economic Conditions and Legal Framework*";
- "NHS" are to the UK National Health Service;
- "Notes" are collectively to the Temporary Senior Secured Notes, the Additional Senior Secured Notes and the Senior Notes;
- "Offerings" are to the Senior Secured Offering and the Senior Offering;
- "outpatients" are to patients who are not admitted to a hospital and for whom clinical laboratory testing services (or other diagnostic services) are performed during a visit to their doctor (including within a hospital) or in another context such as upon a request of an employer, an insurer or upon their own initiative;
- "Post-Labco Completion Date Collateral" are to such term as defined in "*Summary—The Offerings—Collateral*";
- "Post-Labco Completion Date Guarantors" are to Labco Italia S.r.l., the holding company that we intend to incorporate in England (such company to become a Guarantor on or prior to the later of (i) the 90th day following the Labco Completion Date and (ii) the 30th day following its incorporation), Bioalliance, Biofrance, Biopaj, Institut de Biologie Clinique, Laboratoire Bioliance, Novabio Diagnostics, Oxabio and Unibionor (which we intend to merge into or with Institut de Biologie Clinique), Laboratoire d'Analyses Médicales Roman Païs SC SPRL, Istituto il Baluardo S.p.A., CAM Centro Analisi Monza S.p.A., SDN S.p.A. and General Lab S.A.;
- "Priority Dividends" are to the priority dividends paid by certain of Labco's SELs to certain laboratory doctors who sold their laboratories to us but remained shareholders of the SEL operating such laboratories. These Priority Dividends are calculated based on the performance of the SEL in which the relevant laboratory doctor works;
- "Regulation S" are to Regulation S under the U.S. Securities Act;
- "Revolving Credit Facility" are to the revolving credit facility available pursuant to the Revolving Credit Facility Agreement;
- "Revolving Credit Facility Agreement" are to the senior revolving facilities agreement, dated as of June 17, 2015 and to be amended and restated on or about the Issue Date, as may be subsequently further amended, supplemented, varied, novated, extended or replaced from time to time, among, *inter alios*, the Senior Secured Notes Issuer as initial borrower, the Security Agent and certain lenders;

- “Rule 144A” are to Rule 144A under the U.S. Securities Act;
- “Sampling Centers” are to centers that do not perform tests; samples are collected from patients then sent to routine testing laboratories, technical platforms or third parties’ laboratories where tests are carried out;
- “SDN Group” are to SDN S.p.A. and its consolidated subsidiaries, which Labco acquired on July 30, 2014;
- “SEL” are to a French company incorporated as a *société d’exercice libéral* of laboratory doctors, if it mainly operates a clinical laboratory, or of doctors, if it exclusively operates an anatomopathology testing laboratory. See “*Regulation—France*”;
- “Senior Note Guarantee” are to a guarantee by each Guarantor of the Senior Notes Issuer’s obligations under the Senior Notes Indenture and the Senior Notes;
- “Senior Notes” are to the €375 million aggregate principal amount of the Senior Notes Issuer’s 8.25% Senior Notes due 2023 offered hereby;
- “Senior Notes Collateral” are to such term as defined in “*Summary—The Offerings—Collateral*”;
- “Senior Notes Escrow Account” are to the escrow account into which the gross proceeds from the Senior Offering will be deposited on the Issue Date pending consummation of the Acquisitions;
- “Senior Notes Escrow Agreement” are to the agreement to be dated the Issue Date among the Senior Notes Issuer, the Trustee and the Escrow Agent relating to the Senior Notes Escrow Account;
- “Senior Notes Indenture” are to the indenture governing the Senior Notes as described in “*Description of the Senior Notes*”;
- “Senior Notes Issuer” or “UK HoldCo II” are to Ephios Holdco II PLC, a public limited company organized under the laws of England and Wales, the direct parent company of the Senior Secured Notes Issuer;
- “Senior Notes Proceeds Loan” are to the interest-bearing loan agreement to be entered into on or about the Completion Date among the Senior Notes Issuer and the Senior Secured Notes Issuer in an aggregate amount of approximately €375.0 million;
- “Senior Offering” are to the offering of the Senior Notes pursuant to this offering memorandum;
- “Senior Secured Fixed Rate Notes” are to the €400 million aggregate principal amount of the Senior Secured Notes Issuer’s 6.25% Senior Secured Fixed Rate Notes due 2022 offered hereby;
- “Senior Secured Floating Rate Notes” are to the €285 million aggregate principal amount of the Senior Secured Notes Issuer’s Senior Secured Floating Rate Notes due 2022 offered hereby;
- “Senior Secured Note Guarantee” are to a guarantee by each Guarantor of the Senior Secured Notes Issuer’s obligations under the Senior Secured Notes Indenture and the Senior Secured Notes;
- “Senior Secured Notes Indenture” are to the indenture governing the Senior Notes dated June 17, 2015, as described in “*Description of the Senior Secured Notes*”;
- “Senior Secured Notes Issuer” are to Ephios Bondco PLC, a public limited company organized under the laws of England and Wales, which is the direct parent company of French BidCo and will be the direct parent company of German BidCo;
- “Senior Secured Notes Issuer Share Pledge” are to such term as defined in “*Summary—The Offerings—Collateral*”;
- “Senior Secured Offering” are to the offering of the Temporary Senior Secured Notes pursuant to this offering memorandum;
- “Shared Collateral” are to the Senior Notes Collateral (other than the Senior Notes Issuer Share Pledge and the Senior Notes Receivables Assignment);
- “Synlab” and “Synlab Group” are to synlab Holding GmbH, a *Gesellschaft mit beschränkter Haftung* organized under the laws of Germany, and its consolidated subsidiaries, except where the context otherwise requires;

- “Synlab Acquisition” are to the acquisition by German BidCo of the Synlab Securities pursuant to the Synlab Acquisition Agreement;
- “Synlab Acquisition Agreement” are to the share purchase agreement, dated June 24 and 25, 2015, between the Synlab Sellers and German BidCo for German BidCo to acquire the Synlab Securities from the Synlab Sellers, as amended from time to time;
- “Synlab Audited Financial Statements” are to the audited historical consolidated financial statements, including the notes thereto, of Synlab and its subsidiaries, prepared in accordance with IFRS, as of and for the years ended December 31, 2013 and 2014;
- “Synlab Collateral” are to such term as it is defined in “*Summary—The Offerings—Collateral*”;
- “Synlab Equity Contribution” are to such term as defined in “*Summary—The Transactions—The Synlab Acquisition*”;
- “Synlab Financial Statements” are collectively to the Synlab Audited Financial Statements and the Synlab Unaudited Interim Financial Statements;
- “Synlab Financing” are to such term as defined in “*Summary—The Transactions—The Synlab Financing*”;
- “Synlab Guarantors” are to synlab Holding GmbH, synlab Services GmbH, Synlab Verwaltungs u. Beteiligungs GmbH; Steinlach-Klinik GmbH, synlab Medizinisches Versorgungszentrum Weiden GmbH, synlab Medzinisches Versorgungszentrum Leinfelden-Echterdingen GmbH, synlab Medzinisches Versorgungszentrum Augsburg GmbH, Medizinisches Versorgungszentrum synlab Leverkusen GmbH, synlab.vet GmbH; synlab Umweltinstitut GmbH, synlab Medizinisches Versorgungszentrum Heidelberg GmbH, synlab Medizinisches Versorgungszentrum Kassel GmbH, synlab Medizinisches Versorgungszentrum Trier GmbH, synlab Medizinisches Versorgungszentrum Berlin GmbH, synlab Medizinisches Versorgungszentrum Stuttgart GmbH, synlab Medizinisches Versorgungszentrum Humangenetik Mannheim GmbH, Synlab Italia S.r.l., synlab Holding Italy S.r.l., synlab Suisse SA, AMS analyses médicales services SA, synlab Holding Austria GmbH and Institut für medizinische und chemische Labordiagnostik Gesellschaft m.b.H.;
- “Synlab Proceeds Loan” are to the interest-bearing loan agreement to be entered into with one or more tranches on or about the Completion Date among the Senior Secured Notes Issuer and Synlab in an aggregate amount of approximately €475.6 million;
- “Synlab Securities” are to up to 100%, but no less than 72.15%, of the shares of Synlab;
- “Synlab Sellers” are to the various sellers of the Synlab Securities;
- “Synlab Unaudited Interim Financial Statements” are to the unaudited historical condensed interim consolidated financial statements, including the notes thereto, of Synlab and its subsidiaries, prepared in accordance with IAS 34, as of and for the three months ended March 31, 2015, which include unaudited comparative financial information for the three months ended March 31, 2014;
- “Temporary Senior Secured Notes Escrow Account” are to the escrow account into which the gross proceeds from the Senior Secured Offering will be deposited on the Issue Date pending consummation of the Acquisitions;
- “Temporary Senior Secured Notes Escrow Agreement” are to the agreement to be dated the Issue Date among the Senior Secured Notes Issuer, the Trustee and the Escrow Agent relating to the Temporary Senior Secured Notes Escrow Account;
- “Temporary Senior Secured Notes Indenture” are to the indenture governing the Temporary Senior Secured Notes as described in “*Description of the Temporary Senior Secured Notes*”;
- “Test S.A.” are to Test Tailored Efficient Swiss Testing S.A., Labco’s joint venture company in Switzerland, of which Labco owns 48% of the share capital and has a call option to purchase the remaining 52% of the share capital from its joint venture partner;
- “Transactions” are to the Acquisitions and the Financings, as further described in “*Summary—The Transactions*”;
- “UK HoldCo I” are to Ephios Holdco Limited, a private limited company organized under the laws of England and Wales, the direct parent company of UK HoldCo II;

- "UK TopCo" are to Ephios Topco Limited, a private limited company organized under the laws of England and Wales, the direct parent company of UK Holdco I;
- "UNCAM" are to the French National Health Insurance Funds Union (*union nationale des caisses d'assurance maladie*);
- "United States" or "U.S." are to the United States of America, its territories and possessions, any state of the United States of America and the District of Columbia;
- "U.S. dollars," "dollars," "U.S.$ "or "$" are to the lawful currency of the United States;
- "U.S. Exchange Act" are to the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated thereunder;
- "U.S. Securities Act" are to the U.S. Securities Act of 1933, as amended, and the rules and regulations promulgated thereunder; and
- "we," "our" or "us" and other similar terms refer to the Issuers and their consolidated subsidiaries following completion of the Acquisitions, except where the context otherwise requires. The use of these terms is not intended to imply that the Acquisitions will be completed on certain terms or at all. See "*Risk Factors—Risks Related to the Transactions*."

PRESENTATION OF FINANCIAL AND OTHER INFORMATION

Presentation of Financial Information

Financial Statements

This offering memorandum contains:

- Unaudited *pro forma* condensed combined consolidated financial information (the "Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information") derived by the application of *pro forma* adjustments to the Synlab Unaudited Interim Financial Statements (as defined below) and the Labco Unaudited Interim Financial Statements (as defined below) included in this offering memorandum. The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information has been prepared for illustrative purposes only and does not purport to represent what the results of operations, balance sheet data or other financial information of the combined business would have been if the Transactions had occurred as of the dates indicated or what such results will be for any future periods. The *pro forma* adjustments are based on the preliminary assumptions and information available at the time of the preparation of this offering memorandum.
- The audited historical consolidated financial statements and the notes thereto of Labco and its subsidiaries, prepared in accordance with IFRS, as of and for the years ended December 31, 2012, 2013 and 2014 (the "Labco Audited Financial Statements"). The Labco Audited Financial Statements for the years ended December 31, 2013 and 2014 have been audited by Labco's statutory auditors, Deloitte & Associés and Aplitec. The Labco Audited Financial Statements for the year ended December 31, 2012 were audited by Labco's statutory auditors at that time, Deloitte & Associés and Pierre Henri Scacchi et Associés. Free English translations of their audit reports are included elsewhere in this offering memorandum, together with these audited consolidated financial statements.
- The unaudited historical interim condensed consolidated financial statements and the notes thereto of Labco and its subsidiaries, prepared in accordance with IAS 34, as of and for the three months ended March 31, 2015 (the "Labco Unaudited Interim Financial Statements" and together with the Labco Audited Financial Statements, the "Labco Financial Statements"). The Labco Unaudited Interim Financial Statements include unaudited comparable information for the three-month period ended March 31, 2014. The Labco Unaudited Interim Financial Statements have been reviewed by Labco's statutory auditors, Deloitte & Associés and Aplitec. A free English translation of their review report has been included in this offering memorandum, together with the Labco Unaudited Interim Financial Statements.
- The audited historical consolidated financial statements, including the notes thereto, of Synlab and its subsidiaries, prepared in accordance with IFRS and the additional requirements of German commercial law pursuant to Section 315(a)(1) German Commercial Code (*Handelsgesetzbuch*— "HGB"), as of and for the years ended December 31, 2013 and 2014 (the "Synlab Audited Financial Statements"). The German language consolidated financial statements of Synlab and its subsidiaries as of and for the years ended December 31, 2013 and 2014 have been audited by Synlab's statutory auditors, Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft ("E&Y") in accordance with Section 317 HGB, and German generally accepted standards for the audit of financial statements promulgated by the German Institute of Public Auditors (*Institut der Wirtschaftsprüfer*). Free English language translations of the abovementioned German language consolidated financial statements (labeled as the "Synlab Audited Financial Statements") and the auditor's reports thereon are included elsewhere in this offering memorandum.
- The unaudited historical condensed interim consolidated financial statements, including the notes thereto, of Synlab and its subsidiaries, prepared in accordance with IAS 34, as of and for the three months ended March 31, 2015 (the "Synlab Unaudited Interim Financial Statements" and together with the Synlab Audited Financial Statements, the "Synlab Financial Statements"). The Synlab Unaudited Interim Financial Statements include unaudited comparative financial information for the three months ended March 31, 2014 and are free English-language translations of the respective unaudited German-language condensed interim consolidated financial statements.

The Senior Secured Notes Issuer was formed on March 23, 2015 to facilitate the Acquisitions. Each of UK HoldCo I and UK HoldCo II was formed on June 4, 2015. French BidCo was formed on June 21, 2012. German BidCo was formed on May 21, 2015. None of them has any business operations or material assets or liabilities other than those incurred in connection with their incorporation and the Transactions. We do not present in this offering memorandum any financial information or financial statements of the Senior Secured Notes Issuer, the Senior Notes Issuer, UK TopCo, UK HoldCo I, French BidCo or German BidCo for the periods presented.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying its accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant, are disclosed in the financial statements. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Critical Accounting Policies and Estimates*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab—Critical Accounting Policies and Estimates*."

In the future, we will report our financial results at the level of the Senior Secured Notes Issuer on a consolidated basis. The Senior Secured Notes Issuer will account for the Acquisitions using the acquisition method of accounting under IFRS, which will affect the comparability of the Senior Secured Notes Issuer's consolidated financial statements with the respective consolidated financial statements of Synlab and Labco contained in this offering memorandum.

The Financial Statements included in this offering memorandum have not been adjusted to reflect the impact of any changes to the income statements, balance sheets or cash flow statements that might occur as a result of purchase accounting adjustments to be applied as a result of the Acquisitions, nor have they been adjusted to reflect the impact of any changes to the balance sheets as a result of limitations on our ability to use certain net operating loss carryforwards for income tax purposes following the Acquisitions.

The Financial Statements have been prepared on the basis of a calendar year and are presented in euro. Certain numerical figures set out in this offering memorandum, including financial information presented in millions or thousands and percentages describing market shares, have been subject to rounding adjustments and, as a result, the totals of the data in this offering memorandum may vary from the actual arithmetic totals of such information.

In making an investment decision, you must rely upon your own examination of the terms of the Offerings and the financial information contained in this offering memorandum.

Presentation of Synlab Financial Information

Prior to 2014, including in the Synlab Audited Financial Statements as of and for the year ended December 31, 2013, Synlab reported certain segment information for its business operations in Estonia, Finland and Lithuania as "Baltic States." In the Synlab Audited Financial Statements as of and for the year ended December 31, 2014, following Synlab's acquisition of a laboratory in Norway, it renamed this segment "North Europe." The segment comprises Synlab's business operations in Estonia, Finland, Lithuania and Norway. See the respective Note 12 to the Synlab Audited Financial Statements.

Financial information of Synlab as of and for the year ended December 31, 2012 in this offering memorandum is generally derived from the Synlab Audited Financial Statements as of and for the year ended December 31, 2013 (which include the respective comparative financial information as of and for the year ended December 31, 2012) or from the internal accounting system of synlab Holding GmbH.

Presentation of Labco Financial Information

We expect that part of the carrying value for deferred tax assets on our balance sheet may be reduced as a result of a potential postponement of our ability to use them. Only the loss carryforwards of Labco's subsidiary in Germany will be definitively lost as a result of the Labco Acquisition, although these were not booked as deferred tax assets in the Labco Financial Statements. In addition, the application of purchase accounting could result in different carrying values for existing assets and assets we may add to our balance sheet, which may include intangible assets such as goodwill, and different amortization and depreciation expenses. Our financial statements could be materially different from the Financial Statements included in this offering memorandum once the adjustments are made.

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from September 30, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated financial statements as of and for the year ended December 31, 2013, the contribution of its German operations appears separately under the line item "net profit of the period from discontinued operations" rather than under each line item where such contribution was previously recorded, and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated financial statements was restated. Labco has not restated its consolidated financial statements as of and for the year ended December 31, 2012, and such financial statements are therefore not directly comparable with its financial statements as of and for the year ended December 31, 2013.

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco's results as of and for the years ended December 31, 2013 and 2014 are not directly comparable. In addition, Labco's results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group's results are fully consolidated in Labco's results of operations for the three months ended March 31, 2015. Labco's results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

Since January 1, 2015 Labco has applied IFRIC 21 (*Levies*) with impacts to its results of operations recognized retrospectively in accordance with IAS 8 (*Accounting Policies, Changes in Accounting Estimates and Errors*). IFRIC 21 provides guidance on recognition of a liability to pay taxes (except for income taxes). IFRIC 21 modifies existing practices for the payment of annual taxes, which, for an entity, is triggered by being in operation on a certain date or by achieving a certain level of activity. The impact of IFRIC 21 on the Labco Group is limited to the time at which it recognized a French levy known as "C3S" (*contribution sociale de solidarité des sociétés*). To improve the comparability of Labco's results of operations for the three months ended March 31, 2015, its consolidated statement of income for the comparative period of March 31, 2014 has been restated in order to reflect the impact of IFRIC 21 on the gross amount (excluding deferred tax effect of €0.1 million), which amounts to €0.4 million in other operating expenses. The application of IFRIC 21 has no impact on cash flow from operating activities as the corresponding reduction in EBITDA is offset by an increase in other current liabilities.

Labco Unaudited Consolidated Pro Forma Financial Information

Labco completed the acquisition of the SDN Group on July 30, 2014. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Principal Factors Affecting Labco's Results of Operations—Expansion of Labco's Network of Clinical Laboratories through Acquisitions and Dispositions*" and "*Business—Labco's Core Markets—Overview of Labco's Southern European Market—Italy*." The acquisition of the SDN Group has had a significant impact on Labco's financial position and results of operation and as a result its results of operations for the three months ended March 31, 2014 are not directly comparable with its results of operations for the three months ended March 31, 2015.

We have included in this offering memorandum *pro forma* financial information for Labco for the year ended December 31, 2014, which includes Labco's consolidated statement of income for the year ended December 31, 2014, giving *pro forma* effect to the acquisition of the SDN Group as if the acquisition had occurred on January 1, 2014. See "*Labco Unaudited Pro Forma Financial Information*." No *pro forma* balance sheet information is presented because the acquisition has already been reflected in Labco's consolidated statement of financial position as of March 31, 2015 presented in the Labco Unaudited Interim Financial Statements. This *pro forma* financial information has been prepared for illustrative purposes only and does not represent what Labco's results of operation would have been had the acquisition of the SDN Group occurred on January 1, 2014 nor is it indicative of Labco's results of operations or our future financial position.

This *pro forma* financial information is presented on a voluntary basis and has been prepared in accordance with the provisions of Annex II of European Regulation no. 809/2004 on prospectuses and Articles 212-7 and 222-2 of the General Regulation of the AMF and complies with recommendation No. 2013-08 of the AMF. It has not been prepared in accordance with the requirements of Regulation S-X of the U.S. Securities Act or any generally accepted accounting standards. Neither the assumptions underlying the *pro forma* adjustments nor the resulting *pro forma* financial information have been audited or reviewed in accordance with any generally accepted auditing standards. Any reliance you place on this information should fully take this into consideration.

The financial statements of the SDN Group, which Labco acquired in July 2014, are not included in this offering memorandum.

Other Financial Measures

To supplement the financial information presented in accordance with IFRS, this offering memorandum contains certain non-IFRS measures and ratios, including:

- EBITDA, which we define:
  - in the case of Synlab, as operating profit/loss before depreciation, amortization and impairment and income from reversal of impairments of customer lists;
  - in the case of Labco, as net profit before (i) income tax expenses, net, (ii) finance costs, (iii) depreciation, impairment losses and amortization, provisions and reversals, (iv) share profit of associates and (v) non-recurring income and expenses;
- Adjusted EBITDA, which further adjusts EBITDA for:
  - in the case of Synlab, certain other adjustments as described under footnote (1) of "*Summary—Summary Historical Consolidated Financial and Other Data of Synlab—Summary Other Financial Data*";
  - in the case of Labco, certain other adjustments as described under footnote (2) of "*Summary—Summary Historical Consolidated Financial and Other Data of Labco—Summary Other Financial Data*";
- Estimated Adjusted EBITDA, which, in the case of Synlab, we define as Adjusted EBITDA, further adjusted for (i) the estimated effect on EBITDA of the 20 acquisitions (excluding three small asset deals in Germany in 2014) that Synlab closed during the twelve months ended March 31, 2015 to estimate the full twelve-month period effect of the acquired businesses as if they had been acquired at the beginning of such twelve-month period and (ii) certain other adjustments as described under footnotes (3)(b) to (3)(h) of "*Summary—Summary Historical Consolidated Financial and Other Data of Synlab—Summary Other Financial Data*";
- Estimated *Pro Forma* Adjusted EBITDA, which in the case of Labco for the twelve months ended March 31, 2015 has been derived from Labco's Adjusted EBITDA for the same period as adjusted for (i) the full-year effect of the acquisition of the SDN Group, eight separate laboratory companies and three unincorporated clinical laboratories (the entities acquired between April 1, 2015 and June 1, 2015 (the "Q2 2015 Acquired Entities"), together with the SDN Group and the companies acquired between April 1, 2014 and March 31, 2015, the "Acquired Entities") at different dates between April 1, 2014 and June 1, 2015, (ii) the disposal of the Spanish laboratory company Sabater Pharma in July 2014 and (iii) annual estimated cost savings with respect to the Acquired Entities, as well as annual estimated cost savings expected to result from the concentration of Labco's operations in Barcelona, as if they had occurred prior to and were fully integrated by April 1, 2014;
- Estimated Total Revenue, which, in the case of Synlab, we define as revenue, adjusted for the estimated effect on revenue of the 20 acquisitions (excluding three small asset deals in Germany in 2014) Synlab closed during the twelve months ended March 31, 2015 to estimate the full twelve-month period effect of the acquired businesses as if they had been acquired at the beginning of such twelve-month period; and
- capital expenditure, which, in the case of Synlab, we define as the sum of the cash outflows from the purchase of intangible assets and purchase of property, plant and equipment and does not include the cash outflows from acquisition of subsidiaries net of cash acquired, each as set out in its consolidated cash flow statements.

For a reconciliation of Labco's Adjusted EBITDA and Estimated *Pro Forma* Adjusted EBITDA to EBITDA of the period, see "*Summary—Summary Historical Consolidated Financial Information and Other Data of Labco*." For an explanation and reconciliation of Synlab's operating profit/loss to EBITDA, EBITDA to Adjusted EBITDA, Adjusted EBITDA to Estimated Adjusted EBITDA, and revenue to Estimated Total Revenue for the periods presented, see "*Summary—Summary Historical Consolidated Financial Information and Other Data of Synlab*."

EBITDA-based measures and the related ratios are used by management as indicators of our operating performance. We are not presenting EBITDA-based measures as measures of our results of operations. EBITDA-based measures have important limitations as an analytical tool, and you should not consider them in isolation or as substitutes for analysis of our results of operations.

Some of these limitations are:

- EBITDA-based measures do not reflect the impact of significant interest expense or the cash requirements necessary to service interest or principal payments in respect of any borrowings, which could further increase if we incur more debt.
- EBITDA-based measures do not reflect the impact of income tax expense on our operating performance.
- EBITDA-based measures do not reflect the impact of depreciation of assets on our performance. The assets of our business that are being depreciated will have to be replaced in the future and such depreciation expense may approximate the cost to replace these assets in the future. By excluding this expense from EBITDA-based measures, these measures do not reflect our future cash requirements for these replacements.
- EBITDA-based measures do not reflect our cash expenditures or future requirements for capital expenditure or contractual commitments.
- EBITDA-based measures do not reflect changes in or cash requirements for our working capital needs.
- EBITDA-based measures remove the impact of exceptional items from our performance measure.

EBITDA-based measures measures as presented in this offering memorandum are not measures of financial performance under IFRS and should not be considered as alternatives to other indicators of our operating performance, cash flows or any other measure of performance derived in accordance with IFRS. The definitions of these measures may differ from similarly titled measures used by other companies. They have not been prepared in accordance with SEC requirements, IFRS or the accounting standards of any other jurisdiction. The financial information included in this offering memorandum is not intended to comply with the reporting requirements of the SEC and will not be subject to review by the SEC.

In making an investment decision, investors should rely upon their own examination of the terms of the Offerings and the financial information contained in this offering memorandum.

Non-Financial Operating Data

Certain non-financial operating data included in this offering memorandum are derived from management estimates, are not part of the Financial Statements or financial accounting records, and have not been audited by auditors or other outside consultants or experts. Our use or computation of these terms may not be comparable to the use or computation of similarly titled measures reported by other companies. Any or all these terms should not be considered in isolation or as an alternative measure of performance under IFRS.

EXCHANGE RATE INFORMATION

The following table sets forth, for the periods set forth below, the period end, average, high and low exchange rates as published by Bloomberg (London Composite Rate), expressed as dollars per €1.00.

	U.S. dollars per €1.00			
Year	**High**	**Low**	**Average(1)**	**Period End**
2010	1.4510	1.1952	1.3211	1.3366
2011	1.4874	1.2925	1.3998	1.2960
2012	1.3463	1.2053	1.2911	1.3197
2013	1.3804	1.2772	1.3300	1.3789
2014	1.3925	1.2100	1.3209	1.2100
Month	**High**	**Low**	**Average(2)**	**Period End**
December 2014	1.2509	1.2100	1.2312	1.2100
January 2015	1.2104	1.1204	1.1630	1.1291
February 2015	1.1471	1.1195	1.1351	1.1195
March 2015	1.1201	1.0492	1.0818	1.0728
April 2015	1.1214	1.0582	1.0821	1.1214
May 2015	1.1432	1.0882	1.1160	1.0973
June 2015	1.1374	1.0919	1.1229	1.1153
July 2015 (through July 17, 2015)	1.1162	1.0830	1.1015	1.0830

(1) The average of the exchange rates for the last business day of each month during the relevant year.

(2) The average of the exchange rates for each business day during the relevant period.

The exchange rate of the euro on July 17, 2015 was U.S. $1.0830 = €1.00.

Our inclusion of these exchange rates is not meant to suggest that the euro amounts actually represent such dollar amounts or that such amounts could have been converted into dollars at any particular rate, if at all. These rates may differ from the actual rates used in the preparation of other financial information appearing in this offering memorandum. Fluctuations in the exchange rate between the euro and the U.S. dollar in the past are not necessarily indicative of fluctuations that may occur in the future.

SUMMARY

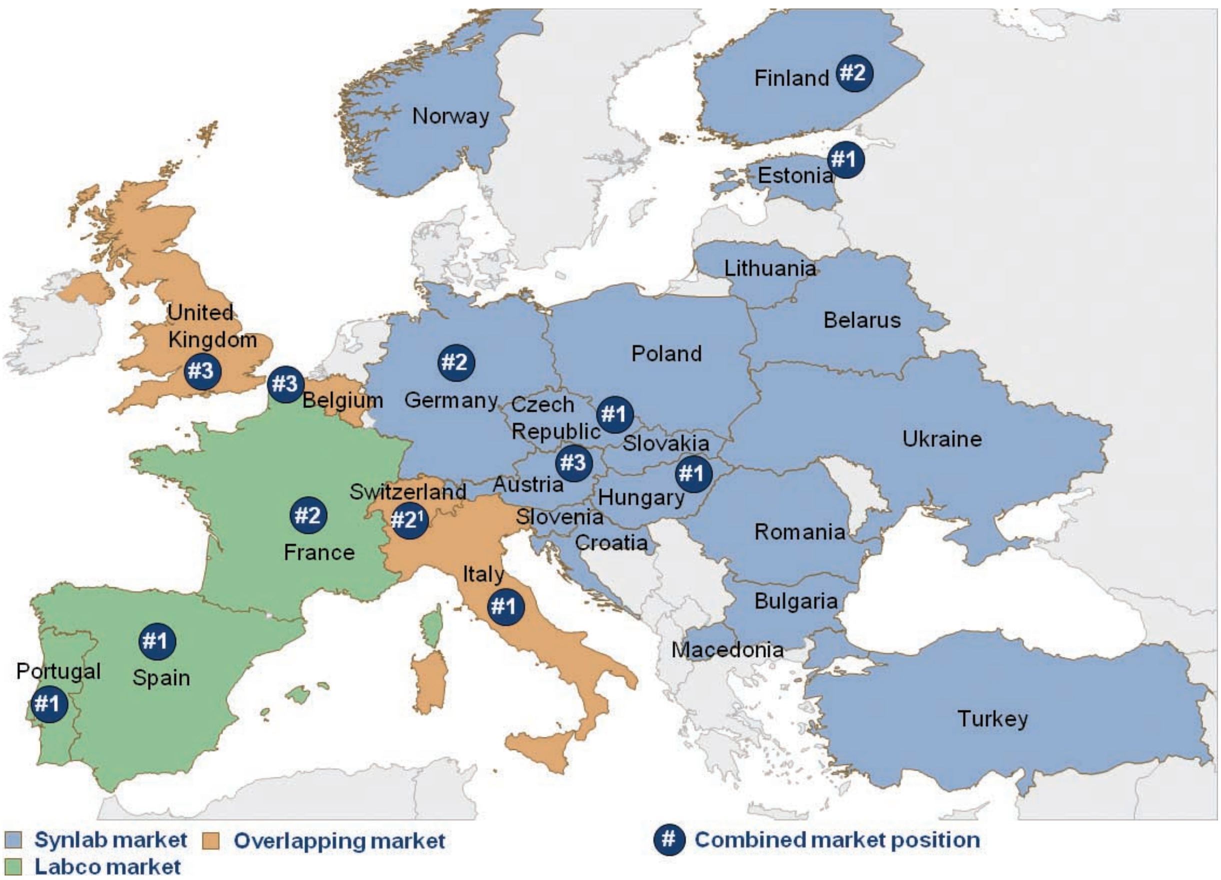
This summary highlights information from this offering memorandum. It is not complete and does not contain all the information that you should consider before investing in the Notes. You should read this offering memorandum carefully in its entirety, including the sections entitled "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab," "Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco," "Industry" and "Business," as well as the Financial Statements included elsewhere in this offering memorandum.

Our Business

Our combined business of Synlab/Labco will be the largest European clinical laboratory services company by revenue and will benefit from a pan-European network of over 465 laboratories across 28 countries. The growing market for clinical laboratory and medical diagnostic services in Europe is driven by positive structural trends, including an aging population, increasing prevalence of chronic diseases, a growing focus on disease prevention and increasing outsourcing of clinical laboratory testing by hospitals. Significant portions of the European market remain fragmented, and both Synlab and Labco have been at the forefront of the consolidation trend in the clinical laboratory and medical diagnostic services market in Europe. Our combined market positions and the scale of our combined laboratory network will allow us to benefit from advantageous procurement conditions with our suppliers, including through group-wide pan-European framework supply agreements for reagents.

Together we believe we will be the market leader in the Czech Republic, Estonia, Hungary, Italy, Portugal and Spain, one of the top two providers of medical diagnostic services in Finland, France, Germany and Switzerland, and among the top three players in Austria, Belgium and the United Kingdom, in each case by revenue.

The pan-European presence and leading positions of our combined business in our core markets are identified in the map below.



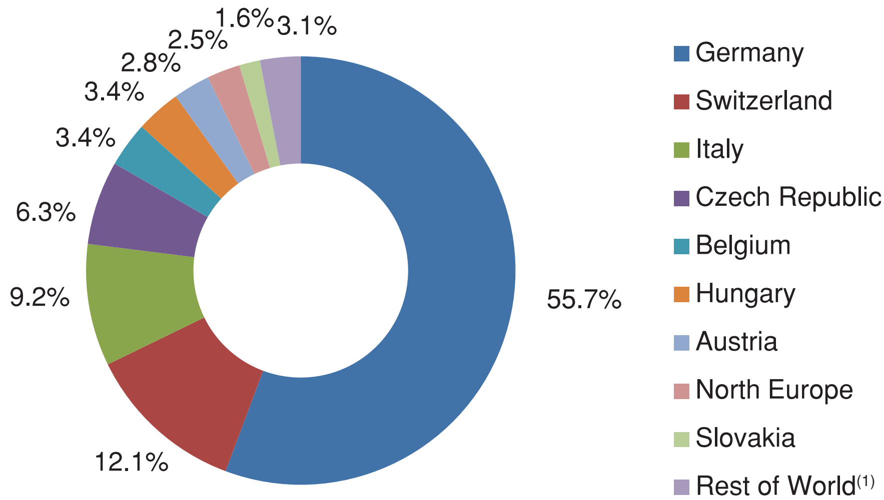
(1) Shared #2 position with medisupport.

Note: Synlab market positions are management estimates. Synlab market positions are based on 2014 revenue, and Labco market positions are based on 2013 revenue.

On a combined basis, we recorded *pro forma* Total Combined Estimated Revenue of €1,402.1 million and generated *Pro forma* Total Combined Estimated Adjusted EBITDA of €305.6 million for the twelve months ended March 31, 2015.

Overview of Synlab

The chart below provides information about Synlab's revenue to external customers for certain countries and regions for the year ended December 31, 2014.



(1) Rest of World comprises the following 11 countries: Belarus, Croatia, Cyprus, Macedonia, Poland, Romania, Slovakia, Slovenia, Turkey, the United Arab Emirates and the United Kingdom.

Synlab's business operations are characterized by a high degree of diversification across customers and payers, geographies, testing services and test parameters. Synlab's broad and diverse customer and payer base includes more than 30,000 medical practices, 700 hospitals and thousands of individuals, in addition to medical insurance companies, pharmaceutical companies and other corporate employers. Synlab's largest customer, a hospital chain operator, accounted for approximately 1% of its revenue in 2014. As of December 31, 2014, Synlab operated a network of over 300 laboratories and 285 blood collection points serving customers in 22 countries. Synlab's efficient hub-and-spoke network comprised 82 base laboratories and 208 hospital/satellite laboratories as well as 16 central hub laboratories, which perform specialty tests on samples provided from other network laboratories. Through Synlab's laboratory network, it is able to offer a full spectrum of approximately 5,000 clinical laboratory tests used by the medical profession in patient diagnosis and in the monitoring and treatment of disease. In 2014, Synlab performed approximately 240 million tests, with its top test accounting for less than 1% of its revenue.

Synlab is a trusted partner to leading healthcare, pharmaceutical and consumer goods companies, who also benefit from Synlab's introduction of approximately 50 new test parameters per year and provide it with further growth and diversification potential.

For the year ended December 31, 2014, Synlab generated revenue of €729.4 million and Adjusted EBITDA of €124.5 million. For the twelve months ended March 31, 2015, Synlab generated revenue of €736.6 million, Adjusted EBITDA of €125.2 million, Estimated Total Revenue of €744.1 million and Estimated Adjusted EBITDA of €139.1 million. As of March 31, 2015, Synlab had 8,006 full-time employees, including 654 laboratory doctors and 3,699 medical technical assistants.

Overview of Labco

The table and chart below provide information about the number of laboratories Labco owns in each of the countries in which it operates and the contribution of those markets to its revenue for the year ended December 31, 2014 after giving *pro forma* effect to the acquisition of the SDN Group in Italy.

France	
Total revenue	€342.3 million

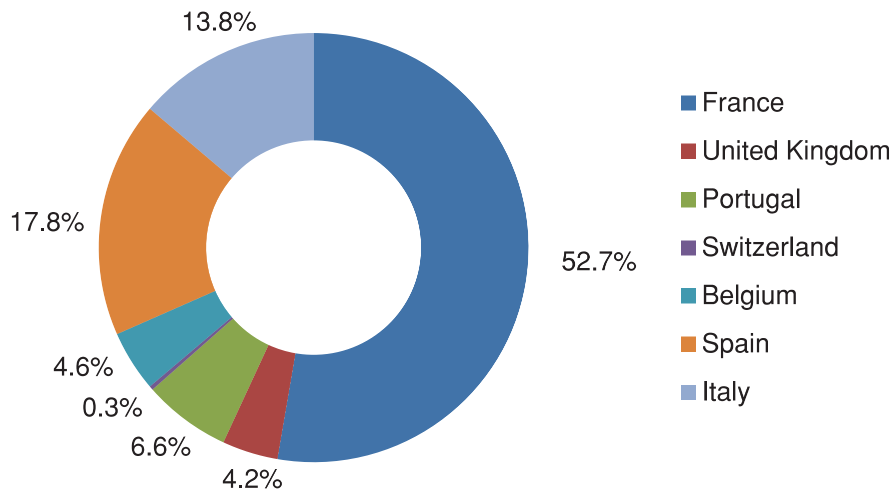
* Excluding Sampling Centers.



Labco offers a wide range of analytical and diagnostic testing services, including more than 5,000 routine and specialist tests (including molecular biology and nutritional biology) in the field of clinical testing; anatomical pathology testing of both histological and cytological samples; and diagnostic imaging using medical and molecular imaging technologies. Labco also offers medically assisted reproduction services in some of its laboratories in France. As of December 31, 2014, Labco provided services through a network of approximately 165 laboratories in seven European countries and approximately 1,000 Sampling Centers. Labco also provides clinical laboratory testing services in Eastern Europe, Latin America, the Middle East and North Africa.

For the year ended December 31, 2014, Labco recorded total revenue of €615.6 million and generated EBITDA of €113.2 million. For the twelve months ended March 31, 2015, Labco recorded total revenue of €644.8 million and generated EBITDA of €119.0 million. For the twelve months ended March 31, 2015, as adjusted for the acquisition of the SDN Group, among others, Labco generated Estimated *Pro Forma* Adjusted EBITDA of €149.0 million. As of December 31, 2014, Labco had almost 6,000 employees and medical staff and more than 600 people qualified to run a clinical laboratory.

Our Competitive Strengths

We believe our business benefits from a number of competitive strengths, including:

The largest Pan-European clinical laboratory services company with a diversified exposure to countries and payers, leading positions in core European markets, and industry leading capabilities across a broad range of routine and specialty tests

We are the leading European clinical laboratory services company by revenue, benefitting from a pan-European network of clinical laboratories in 28 countries, and are one of the market leaders in each of our core European markets. As a combined business we believe we will be the market leader in the Czech Republic, Estonia, Hungary, Italy, Portugal and Spain, one of the top two providers of medical diagnostic services in Finland, France, Germany and Switzerland, and among the top three players in Austria, Belgium and the United Kingdom, in each case by revenue.

We attribute our strong market positions to the high diversification of our business across countries and payers, the size and scale of our laboratory network, our large catalogue of approximately 5,000 tests, and the high quality and reliability of our services. We believe our strong market positions help us to attract qualified specialists in the industry and remain an industry leader with respect to innovation and medical expertise, including through the introduction of approximately 50 new test parameters each year.

We believe that our leading scale has allowed us to secure strong brand name recognition, cost leadership through favourable procurement conditions and the ability to lead sector consolidation by absorbing incremental test volumes at limited additional cost. We believe that our pan-European presence diversifies our sources of income and reduces country-specific operational and regulatory risks. For example, in the year ended December 31, 2014 (as adjusted for Labco's acquisition of the SDN Group), we generated 29%, 25% and 11% of our total revenue from Germany, France and Italy, respectively, with none of the remaining 25 countries accounting for more than 10% of revenue. Our pan-European presence also enables us to apply best practices identified in some markets to our other markets. For example, we have capitalized on the expertise in hospital laboratory outsourcing developed in Spain by launching outsourcing activities in Portugal, where we now provide laboratory testing services to public hospitals in Cascais and Loures. We have also applied this expertise to our joint venture in the United Kingdom for the outsourcing of NHS laboratory testing services.

Resilient and attractive European clinical laboratory services sector, supported by strong structural growth trends

The European clinical laboratory services sector is characterized by resilient underlying growth supported by a number of strong structural trends. The sector has proven relatively resilient to economic cycles, with key geographies such as Germany and France growing 3.1% and 1.2%, respectively, from 2012 to 2014. The sector is also expected to continue benefiting from favourable demographic factors. For example, demographic factors such as an aging population, the increased frequency of long term illnesses requiring recurring tests and increased levels of disposable income tend to support greater healthcare expenditure. Testing volumes have also increased as the medical profession increasingly focuses on the prevention, early detection and treatment of chronic and severe illnesses and increasingly relies on clinical testing for more accurate diagnoses. In addition, our business benefits from the increasing trend of public healthcare providers to use private sector companies for the operation of their diagnostic services under outsourcing contracts. Moreover, technological advances allow for a considerable broadening of the scope of use of diagnostics and growing interest of individuals in the management of their own health is leading them to independently seek clinical testing.

Furthermore, many of the European countries in which we operate have regulatory and market-specific characteristics that require market knowledge, specialized testing competencies, critical size and experience such as we have developed. For example, in some of our core markets, new licenses for new laboratories or testing services are limited or not available. We believe that the amount of time required to develop integrated laboratory, logistics and referrer networks, combined with the scale, experience and regulatory expertise needed to compete effectively across multiple European countries, are key factors to our operating success.

Efficient and dense laboratory network covering a variety of patient needs supported by European centres of excellence

Our market position is enhanced by advantages in economies of scale. We operate an efficient and integrated hub-and-spoke network with over 465 laboratories, made up of central hub labs that focus on certain medical areas and deliver medical expertise as a centre of excellence for performing certain special tests, and local base and satellite labs (spoke) that are focused on highly automated routine tests with quick turnaround time.

We are focused on maximizing efficiency with respect to our laboratory operations. We use automated testing equipment and highly standardized processes in our network of laboratories, which allowed us to process approximately 400 million tests in 2014 with predominantly same day processing for routine tests and limited manual interaction to reduce lead times and risk of errors. Furthermore, our laboratory network's setup allows us to combine specialty tests from across our European network for processing in central labs and certain routine and specialty tests at regional labs, thereby allowing for higher utilization of local laboratory resources and higher output per employee.

Our 465 laboratories cover both inpatient and outpatient care, and we are well positioned to benefit from the trend of hospitals increasingly outsourcing their laboratory testing.

Combination enabling economies of scale, and enhancing the Group's ability to deliver cost reductions

The Synlab/Labco combination creates the largest (by revenue) pan-European clinical laboratory services company with 465 laboratories. Our market positions and the scale of our laboratory network will allow us to benefit from advantageous procurement conditions with our suppliers, including through group-wide pan-European framework supply agreements for reagents. Our combined size presents several opportunities to benefit from economies of scale and deliver cost reductions and synergies through integrating and optimising our laboratory operations, optimizing our procurement functions, our headquarter consolidation, and improving and harmonizing our IT platforms. We intend to take advantage of the increased size by further streamlining our laboratory operations and administrative functions to reduce operating costs and drive margin improvements. At the same time, we are also looking to obtain more favourable commercial conditions from suppliers, optimize production processes in our laboratories through the identification of best practices, rigorously monitor indicators of operating performance, improve logistical processes and centralize certain back office functions, such as treasury and finance. We believe that as a result of the combination we will be able to extract annual EBITDA synergies of €17.5 million in the next 12 months and achieve further potentially significant synergies in the near term. Both Synlab and Labco have a strong track record of executing "buy and build" strategies through the regular acquisition and integration of laboratories into their respective group operations. The achievement of synergy savings has been a key driver in the improvement of gross and operating margins in both groups in recent years and underlines the management team's ability to implement savings.

Demonstrated track record of disciplined acquisitions, integration and efficiency realizations across geographies

The diagnostic services sector in Europe remains fragmented, including in Germany, France, Spain, Switzerland, Italy, Portugal and the Czech Republic, our primary core markets. For example, we estimate that the combined Synlab/Labco business, together with the next largest competitor, will have a combined market share of approximately 7% of the €30 billion European clinical laboratory services market. These markets present opportunities for consolidation and growth.

We believe we are one of the leading consolidators in the European market and that we are well-positioned, based our current geographic footprint, to capitalize on additional opportunities in our existing geographies as well as in potential new geographies. We have a dedicated team focused on finding, evaluating and executing external growth opportunities, and have developed a structured approach to acquisitions that capitalizes on the expertise and market knowledge of our management and local laboratory doctors. Both Synlab and Labco have normally acquired small to medium sized laboratory services companies, but in the past have also made relatively larger acquisitions. Both companies have a strong track record of integrating and extracting synergies from the acquisitions that are executed.

Both Synlab and Labco have consistently expanded their laboratory networks through acquisitions. From 2012 to 2014, Synlab and Labco completed 45 and 43 acquisitions, respectively, and in the three months ended March 31, 2015, they completed eight and four acquisitions, respectively. Since March 31, 2015, Synlab and Labco have entered into sale and purchase agreements in respect of four acquisitions each, all of which are expected to close in 2015. In addition, we entered into a certain number of letters of intent for further targets to be acquired, which may lead to sale and purchase agreements in the course of this year.

As a large laboratory services company offering an attractive established network, we believe we are well-positioned to take advantage of future consolidation opportunities in the European market at attractive prices, including with respect to more significant transactions. Post acquisition, we generally implement cost reduction initiatives aimed at increasing the profitability of the clinical laboratories we acquire through economies of scale and the sharing of best practices across our network.

Strong combined financial profile and high cash conversion

From 2012 to 2014, Synlab's and Labco's revenue grew at compound annual growth rates of 10.2% and 9.4%, respectively, underpinned by organic growth and acquisitions in core markets. For 2014, Synlab's Adjusted EBITDA margin was 17.1% and Labco's EBITDA margin was 18.5%. The results were supported by each company's standalone economies of scale and relatively low maintenance capital expenditure, which also resulted in a relatively high rate of cash conversion for both companies on a standalone basis. In recent years, both Synlab and Labco have separately implemented a number of initiatives to identify cost savings by optimizing supply contract terms, logistics operations and IT systems. The identified additional operational efficiency and cost saving initiatives for the combined company will allow us to reduce our combined cost base and improve our cash flow generation and financial performance. We believe that as a result of the combination we will be able to extract annual EBITDA synergies of €17.5 million in the next twelve months and achieve further potentially significant synergies in the near-term. For the twelve months ended March 31, 2015, the *Pro forma* Total Combined Estimated Adjusted EBITDA of our combined business was €305.6 million and combined capital expenditure was a total of €63.0 million.

Highly experienced management team at group and local levels, supported by a committed financial sponsor shareholder

The combined company will be led by Dr. Bartl Wimmer, who will serve as our chief executive officer, with Philippe Charrier as Executive Chairman. They will be supported by our experienced group senior management team in the implementation of our strategies. In addition, we benefit from strong country management teams, who provide invaluable knowledge and experience in navigating local regulatory requirements and acquiring and integrating new laboratories. The senior management of Synlab and Labco have demonstrated an ability to grow each of our businesses and integrate acquisitions to create pan-European providers of clinical laboratory and medical diagnostics services. We believe the industry knowledge and leadership of our senior and country management teams, combined with their long-term experience, provide us with a significant competitive advantage. We also expect to benefit from Cinven's strong expertise in the healthcare sector. In recent years, funds advised by Cinven have made a significant number of investments in the healthcare sector, including leveraged buyouts of companies in medical devices, healthcare services and life sciences/biotechnology sectors, such as AMCo, Phadia, Sebia, Spire, Avecia and CeramTec.

Our Strategy

As a combined group, we intend to grow our business and maintain our position as the leading provider of clinical laboratory services in Europe by pursuing the following strategies.

Drive organic volume growth by expanding our service offering, strengthening our network and by creating a strong brand identity across Europe

We aim to capitalize on our medical expertise, the trend of greater outsourcing by hospitals as well as scientific and technological advances to drive further growth. Synlab and Labco each have leading positions in certain geographical areas of operation. We aim to create a fully integrated pan-European business with strong brand recognition and reputation. We plan to leverage such reputation and our customer-facing logistics services to attract new customers, particularly doctors and other primary prescribers of our tests.

At the same time, we plan to offer a greater number of specialty tests in order to provide a broader service offering across our network. This can be achieved by identifying and introducing tests in various geographies that are currently only provided by Labco or by Synlab, but not by both, and therefore create a consistent and increased pan-European products and services offering.

We also plan to enhance our quality standards across Europe by replicating the strength of our platforms in key geographies such as Germany, France, Italy and Spain in our other markets which we intend to develop, and drawing on best practices from each country in which we operate.

As we expand our service offering and strengthen our network, we also aim to create a strong brand identity as a Pan-European business providing a broad range of tests. We intend to develop our offerings in all segments of the diagnostics sector, including the growing out-of-pocket self-funded segment, and to accelerate our targeting of large national and international contracts with hospitals, clinics, retirement homes and medical care establishments, particularly for subcontracting and outsourcing.

Establish European centres of excellence to be at the forefront of innovation and continue to develop our distinctive know-how

We plan to further establish our European centres of excellence by continuously strengthening our network through new investments in both technologies and scientists. We refer to Labco's speciality platforms and Synlab's central laboratories as our European centres of excellence which have the ability to perform specialty tests. We are also committed to continuously developing our medical expertise through further improving our track record of innovation. Our increased scale will position us well to further improving our ability to innovate and introduce new tests to all of our markets. In recent years, we have successfully introduced innovative new tests, such as tests for the non-invasive prenatal detection of Down's syndrome in fetuses, the detection of markers for colon cancer without the need for a colonoscopy, genetic tests to evaluate the risk of developing breast or ovarian cancer and cystic fibrosis and the identification of MRSA and other pathogenic germs.

Be private and public hospitals' partner of choice for the outsourcing and subcontracting of their diagnostics activities

As healthcare systems are coming under significant budgetary pressure in some of Synlab's and Labco's core markets, public and private hospital organizations and other healthcare providers are looking at opportunities to improve their productivity and medical quality of service by handing over their inefficient and sub-scale laboratory activities to diagnostics experts. Synlab and Labco are already providing the full spectrum of subcontracting activities, ranging from basic facilities management to full outsourcing with the transfer of entire teams, in Spain, Germany, Switzerland, Czech Republic and the UK and to a lesser extent France, Estonia, Finland and Portugal. All markets are not at the same level of maturity but the trend is expected to further accelerate across Europe. We recently entered the outsourcing and subcontracting space in Italy and Romania. We will be well positioned to tackle this fast growing opportunity by the sharing of best practices, the harmonization of equipment and IT systems and the optimized reorganization of human resources. Going forward we intend to pursue such opportunities in new geographies.

Pursue growth opportunities through selective acquisitions in our current geographies and in new geographies

We believe we are one of the leading consolidators of clinical laboratories in Europe and we intend to grow our share of the fragmented European clinical laboratory services sector by pursuing an acquisition strategy focused on generating synergies between our platforms, improving the territorial coverage of our network and increasing our technological capacity. In regions where we already have a presence, our expansion strategy will focus on pursuing acquisitions which are accretive to our local networks and generate synergies through economies of scale. To improve our territorial coverage, we intend to pursue acquisitions of platforms within our current geographies that increase the extent of our regional networks and outside our current geographies that expand our footprint and further enhance our position across Europe, in each case by continuing to acquire companies that complement the network.

Focus on leverage of the combined business's scale, capabilities and supplier relationships to drive operating efficiencies and growth in our cash flow

We will take advantage of the significant economies of scale provided by our combined network to streamline our laboratory operations and administrative functions while enhancing our service offering. In doing so, we aim to reduce our combined operating costs through operational efficiency improvements across the network. We also aim to leverage our combined size to optimize procurement contracts with suppliers at lower costs. Additionally, we believe there is significant scope to optimize production processes in our laboratories by identifying best practices, rigorously monitoring indicators of operating performance, improving logistical processes and centralizing certain back office functions, such as treasury and finance. We also expect greater investment in our information technology systems to enhance our electronic service offering which will comprise the further harmonisation of our laboratory information systems and the implementation of online prescriptions for referrers and the transmittal of results online or via mobile devices, as well as the promotion of teleradiology and telepathology as further improvements in efficiency in these diagnostic areas.

We believe that a broader electronic service offering will be a key driver of our organic growth. We believe that the implementation of the above mentioned steps can provide significant synergies to the combined group and thereby contribute to increased cash flow of the combined group.

Maintain highest standards of quality, ethics and reliability

We are committed to a strategy of medical expertise and scientific leadership based on the highest standards of quality, ethics and reliability. We will continue to focus on providing customers with accurate test results with the highest possible medical precision, the shortest possible turnaround time and target a zero analysis error rate. We also intend to further develop our medical expertise by ensuring that all our laboratories continue to be fully-accredited at the highest European standards and by maintaining our industry leadership in self-regulation and participation on pan-European scientific committees, such as ÄQL (Ärztliches Qualitätslabor e.V.) in Germany. Furthermore, we will continue to invest in adjacent and specialty segments with strong growth potential, including environmental laboratories services and veterinary diagnostics as well as genetic and anatomopathology testing. Such investments will complement our innovation capabilities related to new test parameters and other new technologies to maintain our medical and scientific leadership position.

The Transactions

The Synlab Acquisition

On June 24 and 25, 2015, Ephios Acquisition GmbH, as purchaser ("German BidCo"), and SL Lux Investment S.C.A., as seller (the "Synlab Seller"), entered into the Synlab Acquisition Agreement regarding the acquisition (the "Synlab Acquisition") of the outstanding shares in synlab Holding GmbH ("Synlab"). Under the terms of the Synlab Acquisition Agreement, German BidCo will acquire at least 72.15% of the issued and outstanding capital stock of Synlab as of the consummation of the Synlab Acquisition (the "Completion Date"). In addition, German BidCo and the Synlab Seller have offered the remaining shareholders of Synlab to accede to the Synlab Acquisition Agreement thereby selling some or all of their shares to German BidCo or, in some cases, to contribute some of their shares into German BidCo as part of a capital increase in kind of German BidCo simultaneously with or immediately following the Completion Date. In accordance with the articles of association of Synlab, the Synlab Seller issued a drag (and tag) notice to all minority shareholders of Synlab pursuant to which the minority shareholders are required (and entitled) to sell and transfer their shares in Synlab to German BidCo. If German BidCo does not acquire all of the shares in Synlab on the closing of the Synlab Acquisition despite this mechanism, there is likely to be a delay of credit support, in particular the granting of security, by Synlab and its subsidiaries for as long as there are minority shareholders opposing the credit support. To mitigate this result, German BidCo may, after a conversion of Synlab into a stock corporation (*Aktiengesellschaft*), initiate proceedings to squeeze-out minority shareholders who hold a maximum of 5% of the shares (or 10% in case of a so called merger squeeze-out, which would require German BidCo to be converted into a stock corporation as well) against a compensation in cash. Both the conversion and the subsequent squeeze-out would become effective after registration with the commercial register (*Handelsregister*), which would be delayed in the case of minority shareholder litigation against the corresponding resolutions. In such event, German BidCo may initiate fast track proceedings (*Freigabeverfahren*) in order to effect the required registrations. The timing and outcome of such fast track proceedings cannot be predicted, in particular due to the combination of a conversion and a squeeze-out. The amount of the cash compensation offered in connection with the conversion and granted in connection with the squeeze-out could be challenged by minority shareholders in separate court appraisal proceedings (*Spruchverfahren*). See "*Risk Factors—Risks Related to the Transactions—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco.*"

As of July 22, 2015, approximately 91.3% of the total outstanding shares of Synlab have been committed to be sold or contributed to German Bidco and we have received confirmation for all of the remaining shareholders that they will accede or are in the process of acceding to the Synlab Acquisition Agreement. We expect all of the remaining shareholders to accede prior to the Completion Date. The consummation of the Synlab Acquisition pursuant to the Synlab Acquisition Agreement will be subject to (a) merger control clearances by the EU Commission and the Swiss Competition Commission and (b) no-existence of enforceable judgment(s), preliminary or permanent injunction(s), order(s) or decree(s) by any governmental authority prohibiting the consummation of the transaction by the Synlab Seller. If the Synlab Acquisition is not consummated by December 15, 2015, the Synlab Acquisition Agreement may be terminated by German BidCo and/or the Synlab Seller (with effect for all acceding minority shareholders). In connection with obtaining approvals of the applicable competition authorities, we may agree to divest certain of our assets or operations. We currently do not expect that we will be required to divest assets or operations that generate a significant portion of our revenues. Please see "*Risk Factors—Risks Related to the Transactions*."

Pursuant to the Synlab Acquisition Agreement, German BidCo will acquire the capital stock of Synlab for €1,225.0 million adjusted for the number shares actually sold/contributed pursuant to the above described drag/tag/contribution mechanism (and subject to the treasury shares held by Synlab) (the "Purchase Price"), subject to certain purchase price adjustments. For purposes of this offering memorandum, we have estimated the Purchase Price to be €1,225.0 million. The Purchase Price bears interest in the amount of €150,000 per calendar day from (and including) January 1, 2015 until (but excluding) the Completion Date. Should the Completion Date be after September 30, 2015, the Purchase Price bears interest in the amount of €150,000 per calendar day from (and including) January 1, 2015 until (and including) September 30, 2015 and €165,000 per calendar day from (and including) October 1, 2015 until (but excluding) the Completion Date. In addition, the Purchase Price will be reduced by the amount of any dividends or similar payments, asset transfers or certain other transfers of value from the Synlab Group to the Synlab Seller that occur prior to the Completion Date that are not permitted under the Synlab Acquisition Agreement and certain payments to employees or directors or finding fee arrangements triggered as a result of the Synlab Acquisition but in some cases subject to a *de minimis* amount of €250,000.

The Synlab Acquisition Agreement includes customary restrictions on the activities of Synlab prior to the Completion Date, including restrictions on the incurrence of additional indebtedness, as well as limited representations, warranties and covenants that are subject to certain limitations and exclusions.

The Synlab Financing

The total aggregate financial resources required in order to consummate the Synlab Acquisition, to repay the Existing Synlab Credit Facility, to pay related fees and expenses and to use for general corporate purposes are expected to be €1,793.5 million and are expected to be financed (the "Synlab Financing") with the following cash resources:

- the Cinven Funds will make a contribution of approximately €743.5 million directly to UK TopCo through a combination of ordinary shares and preferred shares which will, indirectly through UK HoldCo I and the Senior Notes Issuer (through ordinary equity subscriptions), be contributed to the Senior Secured Notes Issuer (collectively, the "Synlab Equity Contribution"); and
- the Senior Notes Issuer will issue the Senior Notes offered hereby in the aggregate principal amount of €375.0 million and will use the proceeds to make an interest bearing loan to the Senior Secured Notes Issuer in an amount of approximately €375.0 million (the "Senior Notes Proceeds Loan");
- the Senior Secured Notes Issuer will issue the Temporary Senior Secured Notes offered hereby in the aggregate principal amount of €685.0 million and will use the proceeds, together with the €375.0 million proceeds from the Senior Notes Proceeds Loan and the €743.5 million proceeds from the Synlab Equity Contribution, to (i) make an interest-bearing loan or loans to Synlab in an amount of approximately €475.6 million (the "Synlab Proceeds Loan") and (ii) make an interest bearing loan to German BidCo in an amount of approximately €1,328.0 million (the "German BidCo Loan"); and

- German BidCo will use the proceeds from the German BidCo Loan, to: (i) fund the Purchase Price for the Synlab Acquisition and (ii) pay related transaction fees and expenses that are expected to be approximately €62 million.
- Synlab will use the proceeds received under the Synlab Proceeds Loan, together with cash on hand, to (i) repay the Existing Synlab Credit Facility and (ii) for general corporate purposes.

In connection with the Offerings, on or about the Issue Date, the Senior Secured Issuer will enter into an amendment and restatement agreement with respect to the Revolving Credit Facility Agreement which will, amongst other things and subject to completion of both Acquisitions, increase the available commitments thereunder to €250.0 million.

See "*Use of Proceeds*," "*Capitalization*," "*Description of Other Indebtedness,*" "*Description of the Temporary Senior Secured Notes*," "*Description of the Senior Secured Notes*" and "*Description of the Senior Notes*."

The Labco Acquisition

On May 27, 2015, French BidCo entered into the Labco Acquisition Agreement to acquire up to 100% of the share capital and voting rights of Labco from the Labco Sellers and at least 75% of the full ownership of the share capital and voting rights of Labco, failing which French BidCo will have the ability to terminate the Labco Acquisition Agreement. The Labco Sellers who signed the Labco Acquisition Agreement on May 27, 2015, represented more than 95% of the share capital and voting rights of Labco to be sold to French BidCo under the Labco Acquisition Agreement. In accordance with the Labco Acquisition Agreement, French BidCo has requested that the Labco Sellers of Labco's B and C shares who signed the Labco Acquisition Agreement exercise their drag-along rights (the "Labco Squeeze-Out") in respect of any shareholder of Labco that refuses to sell its securities in Labco to French BidCo. The Labco Squeeze-Out process was launched on June 10, 2015. There is no assurance, however, that the Labco Squeeze-Out will be completed. The proceeds of the offering of Existing Senior Secured Notes will be released, subject to certain conditions, as long as French BidCo holds 95% of the entire share capital of Labco upon completion of the Labco Acquisition. The consummation of the Labco Acquisition pursuant to the Labco Acquisition Agreement is subject to the satisfaction of certain conditions, including clearance by the European Commission and the performance of certain closing actions. On July 7, 2015, the French Ministry of Economy confirmed that no prior investment authorization under foreign investment control in France is required to complete the Labco Acquisition. If clearance by the European Commission is not obtained on or prior to the Labco Acquisition Longstop Date, the Labco Acquisition Agreement will terminate automatically.

The Labco Financing

The total aggregate financial resources required in order to consummate the Labco Acquisition and to repay Labco's existing debt (including redemption premiums and fees and expenses in connection with the refinancing) are expected to be €1,290.3 million.

Existing Labco Notes Refinancing

On June 17, 2015, the Senior Secured Notes Issuer completed the offering of the Existing Senior Secured Notes in an aggregate principal amount of €800.0 million. The proceeds of the offering were deposited into the Existing Escrow Account and, upon completion of the Labco Acquisition (subject to certain other conditions), will be released and used to make the Labco Proceeds Loan to Labco to (i) redeem all of Labco's issued and outstanding €700.0 million 8½% Senior Secured Notes due 2018 (the "Existing Labco Notes"); (ii) pay a redemption premium in respect of the Existing Labco Notes and all accrued but unpaid interest thereon; (iii) repay €56.0 million of indebtedness under the Existing Labco Credit Facility and all accrued but unpaid interest thereon; and (iv) pay transaction fees and expenses relating to the refinancing of the Existing Labco Notes and Existing Labco Credit Facility, which are expected to be approximately €11.6 million (the "Labco Refinancing"). On July 13, 2015, Labco gave notice to the holders of the Existing Labco Notes that all outstanding Existing Labco Notes are expected to be redeemed following the satisfaction of certain conditions on August 12, 2015. See "*—Recent Developments—Redemption Notice to Holders of Existing Labco Notes*."

Labco Acquisition Financing

The total aggregate financial resources required in order to consummate the Labco Acquisition are expected to be €490.3 million and are expected to be financed (the "Labco Financing") with the following cash resources:

- the Cinven Funds will make a contribution of approximately €438.7 million directly to UK TopCo through a combination of ordinary shares and preferred shares which will, indirectly through UK HoldCo I, the Senior Notes Issuer and the Senior Secured Notes Issuer (through ordinary equity subscriptions), be contributed to French BidCo (collectively, the "Labco Equity Contribution");
- French BidCo will use the proceeds from the Labco Equity Contribution, together with the €51.6 million proceeds it receives from drawings under the Revolving Credit Facility on the Completion Date (the "Labco Financing Drawdown"), to: (i) fund the purchase price for the Labco Acquisition; (ii) make a non-interest bearing loan to Labco in an amount of approximately €7.6 million (the "French BidCo Loan"); and (iii) pay transaction fees and expenses relating to the Labco Acquisition that are expected to be approximately €27.2 million; and

Labco will use the proceeds received under the French BidCo Loan to acquire certain warrants in the Labco Group. As of the Labco Completion Date, whether or not the Synlab Completion Date has not occurred, the Revolving Credit Facility Agreement will provide for a Revolving Credit Facility in the amount of €140.0 million that is available for the Senior Secured Notes Issuer, French BidCo and the Labco Group to utilize to finance or refinance the general corporate and working capital needs of the combined business or to fund acquisitions. We currently expect that the Labco Financing Drawdown will be the only drawings under the Revolving Credit Facility as of the Labco Completion Date. French BidCo intends to repay that facility shortly after the Labco Completion Date. We may draw on the Revolving Credit Facility again on or shortly after the Labco Completion Date, however, in order to fund acquisitions or to meet the ordinary course treasury and cash management requirements of the Labco Group.

Escrow Accounts

Pending the consummation of the Synlab Acquisition, the Initial Purchasers will deposit the gross proceeds from the Senior Secured Offering into the Temporary Senior Secured Notes Escrow Account and the gross proceeds from the Senior Offering into the Senior Notes Escrow Account. The Temporary Senior Secured Notes Escrow Account will be controlled by the Escrow Agent and pledged on a first-ranking basis in favor of the Trustee on behalf of the holders of the Temporary Senior Secured Notes, and the Senior Notes Escrow Account will be controlled by the Escrow Agent and pledged on a first-ranking basis in favor of the Trustee on behalf of the holders of the Senior Notes. The release of the escrowed proceeds are subject to the satisfaction of certain conditions, including the consummation of both the Synlab Acquisition and the Labco Acquisition. If both Acquisitions are not consummated on or prior to the Escrow Longstop Date or upon the occurrence of certain other events, the Notes will be subject to a special mandatory redemption. The special mandatory redemption price, with respect to the Temporary Senior Secured Notes, will be a price equal to 100% of the aggregate issue price of the Temporary Senior Secured Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption, and, with respect to the Senior Notes will be a price equal to 100% of the aggregate issue price of the Senior Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption. In the event that escrowed proceeds are insufficient to pay the special mandatory redemption price, plus accrued and unpaid interest and additional amounts, if any, Cinven will be required to make an equity contribution to the relevant Issuer in an amount required to enable each such Issuer to pay such accrued and unpaid interest and additional amounts, if any, owing to the holders of the relevant Notes, pursuant to an agreement between Cinven and the Issuer. See "*Description of the Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*," "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*" and "*Risk Factors—Risks Related to the Transactions—If the conditions to the escrow agreements are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes*."

Sources and Uses of Funds for the Transactions

We estimate that the gross proceeds from the sale of the Notes will be €1,050 million. We intend to use the proceeds from the Synlab Equity Contribution and the Offerings to (i) fund the purchase price for the Synlab Acquisition; (ii) repay the Existing Synlab Credit Facility; (iii) pay related transaction fees and (iv) for general corporate purposes.

The expected estimated sources and uses of the funds necessary to consummate the Transactions are shown in the table below, assuming that the Acquisitions complete and the Existing Synlab Credit Facility is paid in full on September 30, 2015. Actual amounts will vary from estimated amounts depending on several factors, including accrued interest on debt being repaid, differences from our estimates of fees and expenses associated with the Transactions and the actual Completion Date. Any changes in these amounts may affect the amount of the Synlab Equity Contribution.

Sources of Funds	Amount (€ millions)	Uses of Funds	Amount (€ millions)
Synlab Equity Contribution(1)	743.5	Purchase price for the Synlab Acquisition(4)	1,266.0
Proceeds from the Temporary Senior Secured Notes(2)	678.2	Repayment of Existing Synlab Credit Facility Agreement(5)(7)	455.5
Proceeds from the Senior Notes(3)	375.0	Transaction fees and expenses(6)	62.0
		Cash to balance sheet(7)	13.2
Total Sources	**1,796.7**	**Total Uses**	**1,796.7**

(1) Represents the indirect cash investment expected to be made by the Cinven Funds, which will be contributed through intermediate holdings companies to German BidCo.

(2) Represents the expected gross proceeds to be received from the issuance of the Temporary Senior Secured Notes.

(3) Represents the expected gross proceeds to be received the issuance of the Senior Notes.

(4) Represents the expected total cash consideration payable to the Synlab Sellers for the Synlab Acquisition. This amount assumes completion of the Synlab Acquisition on September 30, 2015 and the estimated payment of per diem interest in the total amount of €41.0 million through the assumed completion of the Synlab Acquisition on such date. This estimate is not an indication that the Synlab Acquisition will be completed on that date, at that price or at all. See "*Summary—The Transactions—The Synlab Acquisition*."

(5) Represents the full repayment of amounts due under the Existing Synlab Credit Facility Agreement based on the expected balance as of the assumed completion of the Synlab Acquisition on September 30, 2015, net of estimated cash and cash equivalents of approximately €110.0 million as of the same date, which estimate reflects payment of accrued interest to such date in the amount of €6.5 million with cash on hand. As of June 30, 2015, borrowings in a gross aggregate principal amount of €564.8 million were outstanding under the Existing Synlab Credit Facility Agreement in addition to €0.7 million of drawings under a local credit facility in Austria. We do not expect to make any scheduled installment payments under the Existing Synlab Credit Facility Agreement prior to the assumed completion of the Synlab Acquisition on September 30, 2015. This estimate is not an indication that the Synlab Acquisition will be completed on that date, at that price or at all. See "*Summary—The Transactions—The Synlab Acquisition—The Synlab Financing*."

(6) Represents estimated fees and expenses associated with the Synlab Acquisition, including underwriting fees and commisions, contingency for fee over-runs and other estimated transaction costs.

(7) Represents an estimated €110 million of cash and cash equivalents on balance sheet as of the assumed completion of the Synlab Acquisition on September 30, 2015, which reflects cash outflows relating to acquisitions signed and completed by June 30, 2015 and payment of accrued interest in the amount of €6.5 million under the Existing Synlab Credit Facility. To the extent any cash requirements should arise to fund additional acquisitions and after accrued and unpaid interest to such date, this amount may change and an amount may be drawn under the Revolving Credit Facility to finance the Synlab Financing.

Our Sponsor

Cinven is a leading private equity provider for large European buyouts, having led transactions totaling in excess of €70 billion. Since 1996, Cinven has completed more than 50 buyouts with an enterprise value per transaction of more than €500 million in ten countries across Europe. Cinven focuses on the following six sectors across Europe: business services, consumer, financial services, healthcare, industrials and technology, media and telecommunications (TMT), and has offices in Guernsey, London, Frankfurt, Paris, Madrid, Milan, Luxembourg, New York and Hong Kong.

Cinven has a long and successful track record of investing in the healthcare sector, particularly in healthcare services and the diagnostics value chain. Successful past and present investments include Spire Healthcare and General Healthcare Group in the United Kingdom; Générale de Santé and Sebia in France; and Phadia in Sweden. Cinven's most recent investments include: AMCo in the United Kingdom (today one of Europe's leading generic pharmaceutical companies with sales in 100 countries worldwide), which was created in 2012 through the merger of Mercury Pharma and Amdipharm; CeramTec in

Germany (a global leader in components for orthopedic implants); and Medpace in the United States (a global contract research organization).

Cinven has extensive experience in diagnostics, including through successful investments in Phadia (the Swedish allergy and autoimmunity diagnostics business) and Sebia (the French provider of clinical electrophoresis equipment and reagents, specializing in multiple myeloma and diabetes diagnostics).

The Issuers

The Senior Secured Notes Issuer is a public limited company formed on March 23, 2015 as a private limited company under the laws of England and Wales with registered number 9503922. The Senior Secured Notes Issuer re-registered as a public limited company on June 8, 2015. The Senior Secured Notes Issuer's principal business address is 5th Floor, 6 St. Andrew Street, London, United Kingdom EC4A 3AE.

The Senior Notes Issuer is a public limited company formed on June 4, 2015 as a private limited company under the laws of England and Wales with registered number 9624069. The Senior Notes Issuer re-registered as a public limited company on July 17, 2015. The Senior Notes Issuer's principal business address is 5th Floor, 6 St. Andrew Street, London, United Kingdom EC4A 3AE.

Recent Developments

Redemption Notice to Holders of Existing Labco Notes

On July 13, 2015, Labco gave notice to the holders of the Existing Labco Notes that all outstanding Existing Labco Notes will be redeemed on August 12, 2015 (the "Existing Labco Notes Redemption Date"). The redemption of the Existing Labco Notes is conditional upon (i) closing of the Labco Acquisition on or prior to the Existing Labco Notes Redemption Date; (ii) concurrently with the closing of the Labco Acquisition, the release of the proceeds held in the Existing Escrow Account; (iii) receipt by the paying agent of sufficient funds from the proceeds held in the Existing Escrow Account to pay the redemption amount payable to the holders of the Existing Labco Notes on or before the Redemption Date and (iv) obtaining all required corporate approvals on or prior to the Existing Labco Notes Redemption Date. Accordingly, none of the Existing Labco Notes shall be deemed due and payable on the Redemption Date unless and until the conditions set forth above are satisfied or waived by Labco. In the event that, in Labco's reasonable belief, completion of the Labco Acquisition and release of Escrow Proceeds will occur at least 30 days, but not more than 60 days, after July 13, 2015, Labco may postpone the Redemption Date to a date which is not less than 30 days, but not more than 60 days, after July 13, 2015; *provided that* the Redemption Date shall not be later than 30 days after the completion of the Labco Acquisition.

Recent Acquisitions

Synlab

On May 1, 2015, Synlab completed the acquisition of the environmental laboratory of Kiwa GmbH, Berlin for a purchase price of €1.2 million.

On May 6, 2015, Synlab acquired 75% of the shares of Medven Africa Limited ("Medven") for a purchase price of €1.6 million with a call option for Synlab to acquire the outstanding shares in Medven and a put option of the other shareholder to purchase the remaining shares in Medven as well as drag and tag along rights regarding the outstanding shares in Medven. In addition to the fixed purchase price, an earnout of up to €0.5 million is payable in 2016. Medven is the parent company of Medlab Ghana Ltd and Medical Imaging Ghana Ltd. Medven provides laboratory analysis and radiology services in and around its Accra, Ghana headquarters.

On May 7, 2015, Synlab completed the first of three scheduled closings for the acquisition of Medical Group Romgermed, a provider of laboratory services in Romania. Synlab acquired CMI Dr. Iacobescu C. Anca S.R.L., CMI Dr Marinescu Dana Mihaela S.R.L., Medsense Servicii Medicale S.R.L., Romgervet S.R.L. and Zostalab S.R.L. for a purchase price of €6.3 million. The remaining payments of €7.8 million and €5.9 million are expected to be made in connection with subsequent closings in the third and fourth quarters of 2015, respectively.

Labco

On May 22, 2015, Labco completed the bolt-on acquisitions of (i) Unibionor, a French laboratory company offering routine clinical testing in various locations in the area of Lille, France, and (ii) Unibio, its holding company. Labco's subsidiary Institut de Biologie Clinique now owns, directly and indirectly, substantially all the share capital of Unibionor, while certain laboratory doctors operating in this company hold the remainder of the shares and will receive shares in Institut de Biologie Clinique in exchange for their Unibionor shares once the entities are legally merged. The aggregate purchase price for this acquisition was approximately €45 million.

On May 27, 2015, Labco completed the bolt-on acquisition of Laboratoire Patrick Benoit by its subsidiary Bioalliance for an aggregate purchase price of approximately €1.9 million.

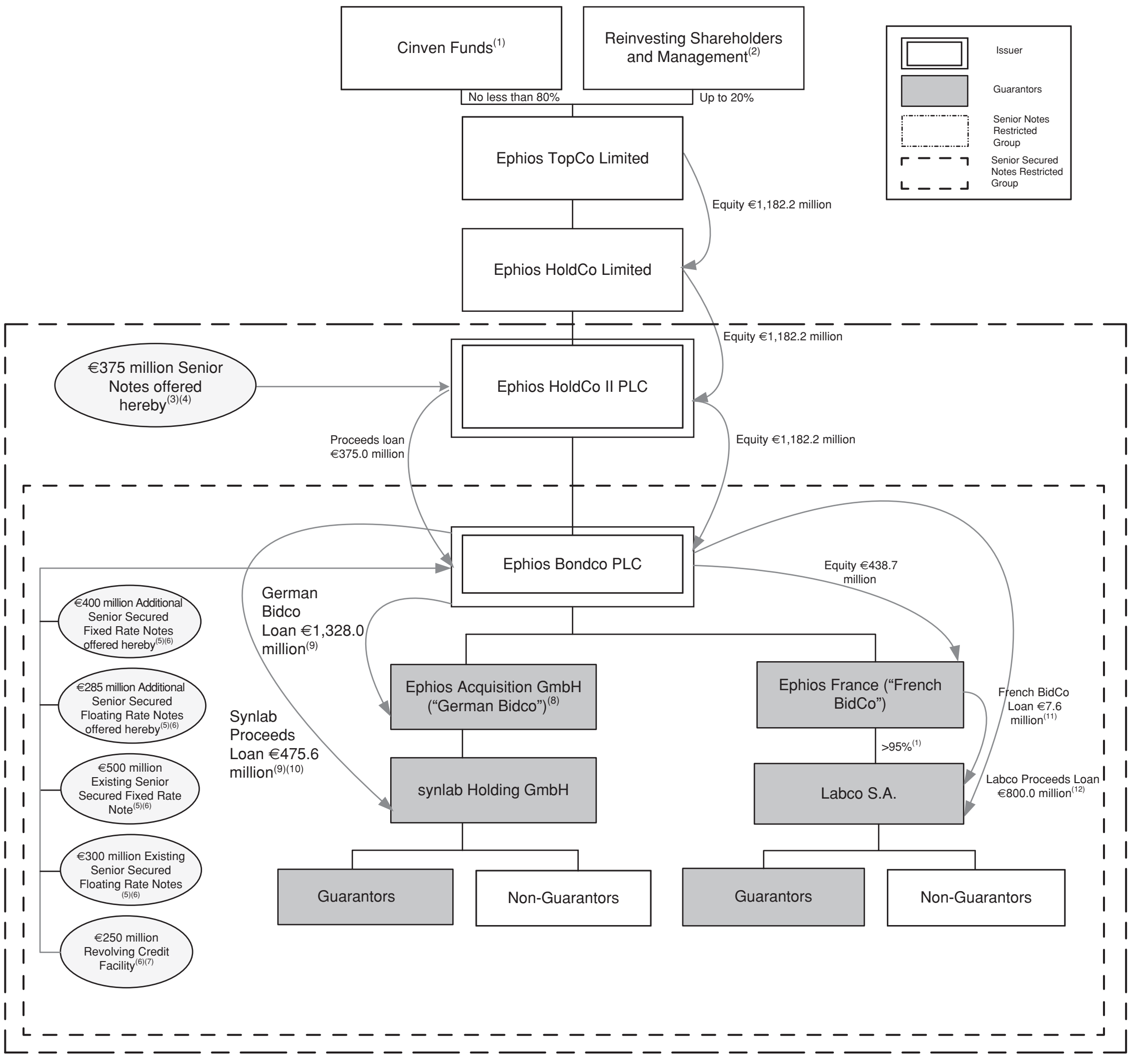
On May 29, 2015, Labco completed the acquisitions of Technipath, A.C. Path and Patholimo, three French anatomopathology companies. A.C. Path and Patholimo will be merged into Technipath. Labco entered into acquisition agreements in respect of these three companies on April 9, 2015, pursuant to which its subsidiary Labco Pathology S.L., a Spanish limited liability company, agreed to acquire substantially all the share capital of Technipath, minus one share held by each anatomopathology doctor currently operating in Technipath, and Technipath agreed to acquire the share capital of A.C. Path and Patholimo. The anatomopathology doctors currently operating in A.C. Path and Patholimo will each receive a share of Technipath when these two entities are legally merged into Technipath. The aggregate purchase price for the acquisitions of Technipath, A.C. Path and Patholimo was approximately €8.7 million. Technipath is a company offering anatomopathology diagnostics in various locations in the area of Lyon, France.

On April 3, 2015, Labco completed the bolt-on acquisition of TMA and TMA Medica in Genoa by its subsidiaries Istituto II Balvardo and Balvardo Servizi Sanitari for an aggregate price of approximately €1.8 million.

On July 1, 2015, Labco completed the bolt on acquisition of Laboratoire Derne Groslambert in France by its subsidiary Biorhone for an aggregate purchase price of approximately €0.2 million.

SUMMARY CORPORATE AND FINANCING STRUCTURE

The following simplified chart sets forth certain aspects of our corporate and financing structure after giving effect to the Transactions. See "*Description of Other Indebtedness*," "*Description of the Senior Secured Notes*" and "*Description of the Senior Notes*" for more information. All entities shown below are 100% owned unless indicated. The amounts of all equity contributions shown in the chart below are based on our current assumptions and estimates. Actual amounts may vary from estimated amounts depending on several factors, including changes in the purchase price for the Acquisitions, based, among other things, on changes in the amount of cash, indebtedness and working capital of Synlab and/or Labco, as the case may be, on the Completion Date.



(1) Upon consummation of the Acquisitions, the Cinven Funds will indirectly acquire up to 100% of the entire share capital and voting rights of synlab Holding GmbH and up to 100%, but no less than 95%, of the entire share capital and voting rights of Labco.

(2) Prior to the Completion Date, certain preexisting minority shareholders of the Labco Group and certain preexisting minority shareholders of the Synlab Group will be invited to participate in the post-completion equity of (ultimately) UK TopCo. The preexisting minority shareholders of the Labco Group will fund their acquisition of equity interests in UK TopCo with cash. The preexisting minority shareholders of the Synlab Group will in effect exchange a portion of their shares in the Synlab Group for their equity interest in UK TopCo. Those who elect to participate will hold shares in UK TopCo indirectly through one of two pooling vehicles controlled by Cinven, other than the Synlab CEO who will hold his shares in UK TopCo through a separate vehicle which he controls. In addition, certain managers who are employees of Synlab or Labco will be issued ordinary shares ("sweet equity") in UK TopCo which will also be held indirectly via one of the two pooling vehicles, other than in the case of such shares issued to the Synlab CEO which will be held by his separate vehicle. Finally, Cinven intends to set up a separate equity incentive plan under which certain managers who are employees of Labco will be offered a right to receive shares in UK TopCo at a later date. We expect that, in the aggregate, up to 20% of the equity of UK TopCo may be held by management and preexisting minority shareholders. See "*Principal Shareholders—Management Equity Participation Program*."

(3) The Senior Notes will be guaranteed on a senior subordinated basis (x) on the Completion Date by the Completion Date Guarantors (and by the Post-Labco Completion Date Guarantors if the Completion Date occurs on or after the Labco Accession Date), (y) if the Completion Date has occurred prior to the Labco Accession Date, on the Labco Accession Date, by the Post-Labco Completion Date Guarantors and (z) on the earlier of (i) the date on which any such entity accedes to the Revolving Credit Facility Agreement and (ii) (A) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (B) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, by the Post-Completion Guarantors. Due to restrictions under Austrian, Belgian, French and Italian law, the Senior Note Guarantees of the Guarantors in Austria, Belgium, France and Italy will effectively have no monetary value as none of them will be onlent any of the proceeds of the offering of the Senior Notes. The Senior Note Guarantees will also be subject to certain other limitations under applicable law, as described under "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—The insolvency laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability*," "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*" and "*Description of the Senior Notes—The Guarantees*."

(4) On the Issue Date, the Senior Notes will be secured by a first ranking pledge over the Senior Notes Escrow Account. On the Completion Date, the Senior Notes will be secured by the Senior Notes Collateral. The Senior Notes Collateral (other than the Senior Notes Issuer Share Pledge) will also secure the Senior Secured Notes, the Revolving Credit Facility and certain priority hedging obligations. In the event of an enforcement of the Senior Notes Collateral, the holders of the Senior Notes will receive proceeds from such Senior Notes Collateral only after holders of the Senior Secured Notes, lenders under the Revolving Credit Facility, the counterparties to certain priority hedging arrangements and the creditors for certain other indebtedness permitted to be secured on a senior basis pursuant to the Senior Notes Indenture have been repaid in full. See "*Description of Other Indebtedness—Intercreditor Agreement" and "Description of the Senior Notes—Security*."

(5) The Temporary Senior Secured Notes will be senior obligations of the Senior Secured Notes Issuer, will not benefit from any guarantees and will be secured on a first-ranking basis by a charge over the Temporary Senior Secured Notes Escrow Account. Upon issuance of the Additional Senior Secured Notes in exchange for the Temporary Senior Secured Notes on or about the Completion Date, the Additional Senior Secured Notes will be senior obligations of the Senior Secured Notes Issuer. Upon the issuance of the Additional Senior Secured Notes, the Temporary Senior Secured Notes will be cancelled. On the Labco Completion Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on that date) will be guaranteed on a senior secured basis by the Labco Completion Date Guarantors. On the Labco Accession Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on or prior to that date) will also be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors. On the Completion Date, the Senior Secured Notes will, to the extent not already so guaranteed, be guaranteed on a senior secured basis by the Completion Date Guarantors, and, to the extent that the Labco Accession Date has occurred or occurs on such date, the Additional Senior Secured Notes will also be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors. To the extent that, on the Completion Date, the Labco Accession Date has not occurred, the Senior Secured Notes will be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors on the occurrence of the Labco Accession Date. On the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, the Senior Secured Notes will also be guaranteed on a senior secured basis by the Synlab Guarantors. If one or more (but no more than three) of the following nine subsidiaries of Labco incorporated in France (Bioalliance, Biofrance, Biopaj, Biopar, Institut de Biologie Clinique, Laboratoire Bioliance, Novabio Diagnostics, Oxabio and Unibionor (which we intend to merge into or with Institut de Biologie Clinique)) (such entities, the "French Guarantors") are unable to accede to the Senior Secured Notes Indenture as Guarantors on or prior to the 90th day following the Labco Completion Date due to the refusal by the management board of any such French Guarantor to approve its Guarantee, or failure by such French Guarantor to execute all required documentation to this effect (any such French Guarantors being referred to as the "Refusing French Guarantors"), the Senior Secured Notes Issuer will use its commercially reasonable efforts to replace such Refusing French Guarantors by one or more other Guarantors (incorporated in France or elsewhere) having, in the aggregate, an EBITDA contribution substantially similar to the Refusing French Guarantors. For the twelve months ended March 31, 2015, the Labco Completion Date Guarantors and Post-Labco Completion Date Guarantors represented 61.3% of Labco's consolidated EBITDA and as of March 31, 2015, the Labco Completion Date Guarantors and Post-Labco Completion Date Guarantors represented 62.5% of our consolidated total assets. As of and for the twelve months ended March 31, 2015, the Synlab Guarantors represented 68.2% of Synlab's revenue, 64.5% of Synlab's EBITDA and 85.4% of Synlab's total assets, each calculated on an aggregated basis (before eliminating effects of intercompany transactions). For the twelve months ended March 31, 2015, the Labco Completion Date Guarantors, the Post-Labco Completion Date Guarantors and the Synlab Guarantors collectively represented approximately 62.8% of Labco's and Synlab's combined EBITDA. Due to restrictions under Austrian, Belgian, French and Italian law, (i) the Senior Secured Note Guarantees of the Guarantors in France, Italy and Belgium will provide credit support to the full aggregate principal amount of the Senior Secured Notes but will effectively have no greater monetary value than the aggregate principal amount of Existing Senior Secured Notes, and the Senior Secured Note Guarantees of the Guarantors in Austria will effectively have no monetary value, as none of them will be onlent any of the proceeds of the offering of the Additional Senior Secured Notes and (ii) the Senior Note Guarantees of the Guarantors in Austria, France, Italy and Belgium will effectively have no monetary value as none of them will be onlent any of the proceeds of the offering of the Senior Notes. The Guarantees will also be subject to certain other limitations under applicable law, as described under "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,*" "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral*," "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—The insolvency*

laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability," "*Risk Factors—Risks Related to Our Capital Structure—The Guarantees may be limited by applicable laws or subject to certain limitations or defenses that may adversely affect their validity and enforceability*," "*Description of the Senior Notes—The Guarantees*" and "*Description of the Senior Secured Notes—The Guarantees*."

(6) On the Issue Date, the Temporary Senior Secured Notes will be secured by a first ranking pledge over the Temporary Senior Secured Notes Escrow Account. On the Labco Completion Date, the Senior Secured Notes and the Additional Senior Secured Notes (if issued on that date) will be secured by the Labco Completion Date Collateral. As soon as is reasonably practicable after the Labco Completion Date and, in any event, within 90 days after the Labco Completion Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on or prior to that date) will also be secured by the Post-Labco Completion Date Collateral. To the extent that any Post-Labco Completion Date Collateral has been provided prior to the Completion Date, the Additional Senior Secured Notes shall be secured by that Post-Labco Completion Date Collateral by not later than the 30th day after the Completion Date. On the Completion Date, the Senior Secured Notes will be secured by the Completion Date Collateral and the Additional Senior Secured Notes will be secured by the Labco Completion Date Collateral. On the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, the Senior Secured Notes will also be secured by the Synlab Collateral. The Collateral will also secure the Revolving Credit Facility and certain priority hedging obligations. In the event of an enforcement of the Collateral, the holders of the Notes will receive proceeds from such Collateral only after lenders under the Revolving Credit Facility, the counterparties to certain priority hedging arrangements and the creditors for certain other indebtedness permitted to be secured on a super priority basis pursuant to the Indenture have been repaid in full. See "*Description of Other Indebtedness—Intercreditor Agreement*" and "*Description of the Senior Secured Notes—Security*."

(7) On June 17, 2015, the Senior Secured Notes Issuer entered into the Revolving Credit Facility Agreement that, as of the Labco Completion Date (whether or not the Synlab Completion Date has not occurred), will provide the Senior Secured Notes Issuer with a €140.0 million Revolving Credit Facility. French BidCo will draw €51.6 million under the Revolving Credit Facility in order to fund a portion of the purchase price for the Labco Acquisition and pay certain fees related to the Labco Acquisition. French BidCo intends to repay that facility shortly after the Labco Completion Date. Other than for such loan, the Revolving Credit Facility is expected to remain undrawn on or about the Labco Completion Date. On the Labco Completion Date, the Labco Completion Date Guarantors will accede to the Revolving Credit Facility Agreement as borrowers. No later than 90 days from the Labco Completion Date the Post-Labco Completion Date Guarantors will accede as guarantors under the Revolving Credit Facility Agreement. See "*Description of Other Indebtedness—Revolving Credit Facility Agreement*" for further information. The Revolving Credit Facility will be a senior obligation of the Senior Secured Notes Issuer and the Guarantors. In connection with the Offerings, on or about the Issue Date, the Senior Secured Notes Issuer will enter into an amendment agreement with respect to the Revolving Credit Facility Agreement which will, amongst other things and subject to completion of both Acquisitions, increase the available commitments thereunder to €250.0 million.

(8) As of the date of this offering memorandum, German BidCo is a wholly-owned subsidiary of Ephios Holdco III, a private limited company organized under the laws of England and Wales and a wholly-owned subsidiary of UK HoldCo I and a sister company of UK Holdco II. Prior to the Completion Date, German BidCo will become a wholly-owned subsidiary of Ephios Bondco PLC.

(9) On or about the Completion Date, the Senior Secured Notes Issuer will use the proceeds from the Synlab Equity Contribution, the offering of the Temporary Senior Secured Notes and the Senior Notes Proceeds Loan to (i) advance the German BidCo Loan in the amount of €1,328.0 million and (ii) advance the Synlab Proceeds Loan in the amount of €475.6 million. German BidCo will use the proceeds of the German BidCo Loan to fund the purchase price for the Synlab Acquisition and pay certain transaction costs.

(10) On or about the Completion Date, the Synlab Proceeds Loan will be used by Synlab and certain of its subsidiaries, together with cash on hand, to repay existing indebtedness under the Existing Synlab Credit Facility Agreement and for general corporate purposes. Under the Existing Synlab Credit Facility, approximately €45.4 million has been on-lent to certain subsidiaries of Synlab in Italy.

(11) On the Labco Completion Date, French BidCo will use the proceeds from an equity contribution indirectly received from the Cinven Funds, together with the proceeds it receives from the Labco Financing Drawdown to: (i) fund the purchase price for the Labco Acquisition; (ii) advance the French BidCo Loan to Labco for the purchase of certain warrants in the Labco Group; and (iii) pay transaction fees and expenses related to the Labco Acquisition.

(12) On the Labco Completion Date, the Senior Secured Notes Issuer will use the proceeds from the offering of Existing Senior Secured Notes to advance the Labco Proceeds Loan to Labco to complete the Labco Refinancing.

THE OFFERING

The summary below describes the principal terms of the Notes, the Guarantees, the Intercreditor Agreement and the Collateral. It is not intended to be complete and certain of the terms and conditions described below are subject to important exceptions. You should carefully review the "Description of the Temporary Senior Secured Notes," "Description of the Senior Secured Notes," "Description of the Senior Notes" and "Description of Other Indebtedness—Intercreditor Agreement" sections of this offering memorandum for more detailed descriptions of the terms and conditions of the Notes and the Intercreditor Agreement.

Issuers

Temporary Senior Secured Notes Issuer and Senior Secured Notes Issuer	Ephios Bondco PLC
Senior Notes Issuer	Ephios Holdco II PLC

Notes Offered

Temporary Senior Secured Fixed Rate Notes	€400 million in aggregate principal amount of 6.25% Senior Secured Fixed Rate Notes due 2022 issued by the Senior Secured Notes Issuer under the Temporary Senior Secured Notes Indenture. On or about the Completion Date, the Temporary Senior Secured Fixed Rate Notes will automatically be exchanged for an equal aggregate principal amount of Additional Senior Secured Fixed Rate Notes issued by the Senior Secured Notes Issuer under the Senior Secured Notes Indenture.
Temporary Senior Secured Floating Rate Notes	€285 million in aggregate principal amount of Senior Secured Floating Rate Notes due 2022 issued by the Senior Secured Notes Issuer under the Temporary Senior Secured Notes Indenture. On or about the Completion Date, the Temporary Senior Secured Floating Rate Notes will automatically be exchanged for an equal aggregate principal amount of Additional Senior Secured Floating Rate Notes issued by the Senior Secured Notes Issuer under the Senior Secured Notes Indenture.
Senior Notes	€375 million in aggregate principal amount of 8.25% Senior Notes due 2023.

Issue Price

Temporary Senior Secured Fixed Rate Notes	99.00%, plus an amount equal to the accrued interest on the Temporary Senior Secured Fixed Rate Notes from June 17, 2015 to, but not including, the Issue Date.
Temporary Senior Secured Floating Rate Notes	99.00%, plus an amount equal to the accrued interest on the Temporary Senior Secured Floating Rate Notes from June 17, 2015 to, but not including, the Issue Date.
Senior Notes	100.00%, plus accrued and unpaid interest, if any, from the Issue Date.

Maturity Date

Temporary Senior Secured Fixed Rate Notes	July 1, 2022.

Temporary Senior Secured Floating Rate Notes	July 1, 2022.
Senior Notes	July 1, 2023.

Interest Rate and Payment Dates

Temporary Senior Secured Fixed Rate Notes	The Temporary Senior Secured Fixed Rate Notes will bear interest at a rate of 6.25%. Interest on the Senior Secured Fixed Rate Notes is payable semiannually in arrears on January 1 and July 1 of each year, commencing on January 1, 2016. Interest on the Temporary Senior Secured Fixed Rate Notes will accrue from June 17, 2015.
Temporary Senior Secured Floating Rate Notes	The Temporary Senior Secured Floating Rate Notes will bear interest at a rate equal to three-month EURIBOR (with 0% floor) plus 5.00% per annum, reset quarterly. Interest on the Senior Secured Floating Rate Notes is payable quarterly in arrears on January 1, April 1, July 1 and October 1, commencing on January 1, 2016. Interest on the Temporary Senior Secured Floating Rate Notes will accrue from June 17, 2015.
Senior Notes	The Senior Notes will bear interest at a rate of 8.25%. Interest on the Senior Notes is payable semiannually in arrears on January 1 and July 1 of each year, commencing on July 1, 2016. Interest on the Senior Notes will accrue from the Issue Date.
Denominations	Minimum denomination of €100,000 and integral multiples of €1,000 in excess thereof.

Guarantees

Temporary Senior Secured Notes	The Temporary Senior Secured Notes will not be guaranteed.
Senior Secured Notes	On the Labco Completion Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on that date) will be guaranteed on a senior secured basis by the Labco Completion Date Guarantors. On the earlier of (i) the date on which any such entity accedes to the Revolving Credit Facility Agreement and (ii) the 90th day following the Labco Completion Date (the "Labco Accession Date"), the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on or prior to that date) will also be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors. On the Completion Date, the Senior Secured Notes will, to the extent not already so guaranteed, be guaranteed on a senior secured basis by the Completion Date Guarantors and, to the extent that the Labco Accession Date has occurred or occurs on such date, the Additional Senior Secured Notes will also be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors. To the extent that, on the Completion Date, the Labco Accession Date has not occurred, the Senior Secured Notes will be guaranteed on a senior secured basis by the Post-Labco Completion Date Guarantors on the occurrence of the Labco Accession Date. On the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the

	Completion Date, the Senior Secured Notes will also be guaranteed on a senior secured basis by the Synlab Guarantors.
Senior Notes	The Senior Notes will be guaranteed on a senior subordinated basis (x) on the Completion Date by the Completion Date Guarantors (and by the Post-Labco Completion Date Guarantors if the Completion Date occurs on or after the Labco Accession Date), (y) if the Completion Date has occurred prior to such date, on the Labco Accession Date by the Post-Labco Completion Date Guarantors and (z) on the earlier of (i) the date on which any such entity accedes to the Revolving Credit Facility Agreement and (ii) (A) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (B) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, by the Synlab Guarantors. The Guarantors will also guarantee our obligations under the Revolving Credit Facility. If one or more (but no more than three) of the French Guarantors are Refusing French Guarantors, the Senior Secured Note Issuer will use its commercially reasonable efforts to replace such Refusing French Guarantors by one or more other Guarantors (incorporated in France or elsewhere) having, in the aggregate, an EBITDA contribution substantially similar to the Refusing French Guarantors. For the twelve months ended March 31, 2015, the Labco Completion Date Guarantors, the Post-Labco Completion Date Guarantors and the Synlab Guarantors collectively represented approximately 62.8% of Labco's and Synlab's combined EBITDA. If we cannot make payments on the Notes when they are due, the Guarantors must make them instead. Due to restrictions under French, Italian, Austrian and Belgian law, (i) the Senior Secured Note Guarantees of the Guarantors in France, Italy and Belgium will provide credit support to the full aggregate principal amount of the Senior Secured Notes but will have no greater monetary value than the aggregate principal amount of Existing Senior Secured Notes, and the Senior Secured Note Guarantees of the Guarantors in Austria will effectively have no monetary value, as none of them will be onlent any of the proceeds of the offering of the Additional Senior Secured Notes and (ii) the Senior Note Guarantees of the Guarantors in Austria, France, Italy and Belgium will effectively have no monetary value as none of them will be onlent any of the proceeds of the offering of the Senior Notes. For German Guarantors, except to the extent of proceeds under the Notes on-lent to that German Guarantor remain outstanding at the time of enforcement, the limitation language could lead to a situation where the Guarantees from German Guarantors cannot be enforced at all. Further, if and to the extent such on-loan remains outstanding by that German Guarantor at the time of enforcement, and such German Guarantor is a holding company (such as German BidCo and Synlab), it may not have revenues of its own and will depend on cash from other Group members to be able to make payment. (See "*Risk Factors—Risks Related to Our Capital*

Structure—The Issuers and certain Guarantors are holding companies that have no revenue generating operations of their own and will depend on cash from the operating companies of our combined Group to be able to make payments on the Notes or the Guarantees.")

Finally, in the event that Synlab is converted into a stock corporation, for a period until its reconversion into a GmbH, stricter limitation language will apply to Synlab and its subsidiaries and, in particular, the on-lending exemption will no longer available. However, the intention is for Synlab to be re-converted into a limited liability company in due course after German Bidco acquires 100% of the shares in Synlab.

The obligations of the Guarantors will be contractually limited under the applicable Guarantees to reflect these and other limitations under applicable law, including but not limited to, with respect to maintenance of share capital, corporate benefit, fraudulent conveyance and other legal restrictions applicable to the Guarantors and their respective shareholders and directors. See "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*," "*Description of the Senior Secured Notes—The Note Guarantees*," "*Description of the Senior Notes—The Note Guarantees*," "*Risk Factors—Risks Related to Our Capital Structure—The Guarantees may be limited by applicable laws or subject to certain limitations or defenses that may adversely affect their validity and enforceability*" and "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral.*"

Ranking

Temporary Senior Secured Notes . . . . The Temporary Senior Secured Notes and guarantees will:

- be senior obligations of the Senior Secured Notes Issuer;
- rank *pari passu* in right of payment with all of the Senior Secured Notes Issuer's and the Guarantors' existing and future indebtedness that is not subordinated in right of payment to the Temporary Senior Secured Notes; and
- rank senior in right of payment to all of the Senior Secured Notes Issuer's and the Guarantors' existing and future indebtedness that is subordinated in right of payment to the Temporary Senior Secured Notes.

Senior Secured Notes and Senior Secured Note Guarantees . . . . The Senior Secured Notes (including the Additional Notes) and Senior Secured Note Guarantees will:

- be senior obligations of the Senior Secured Notes Issuer;
- rank *pari passu* in right of payment with all of the Senior Secured Notes Issuer's and the Guarantors' existing and future indebtedness that is not subordinated in right of payment to the Senior Secured Notes (including the Revolving Credit Facility);
- rank senior in right of payment to all of the Senior Secured Notes Issuer's and the Guarantors' existing and future

indebtedness that is subordinated in right of payment to the Senior Secured Notes and the guarantees; and

- be effectively subordinated to all existing and future indebtedness of the Senior Secured Notes Issuer's subsidiaries that do not guarantee the Senior Secured Notes.

Senior Notes . . . . The Senior Notes will:

- be senior obligations of the Senior Notes Issuer;
- rank *pari passu* in right of payment with all of the Senior Notes Issuer's existing and future indebtedness that is not subordinated in right of payment to the Senior Notes;
- rank senior in right of payment to all of the Senior Notes Issuer's existing and future indebtedness that is subordinated in right of payment to the Senior Notes; and
- be effectively subordinated to all existing and future indebtedness of the Senior Notes Issuer's subsidiaries that do not guarantee the Senior Notes.

Senior Note Guarantees . . . . The Senior Note Guarantees will:

- be a general obligation of that Guarantor;
- be subordinated in right of payment to any existing and future senior debt of that Guarantor, including the Senior Secured Notes and debt incurred under the Revolving Credit Facility;
- rank *pari passu* in right of payment to all existing and future senior subordinated debt of that Guarantor that is not subordinated in right of payment to the Senior Note Guarantee of that Guarantor; and
- rank senior in right of payment to all existing and future debt of that Guarantor that is subordinated in right of payment to the Senior Note Guarantee of that Guarantor.

As of March 31, 2015, on a *pro forma* basis after giving effect to the Transactions, we would have had €1,485 million of senior indebtedness (including the Senior Secured Notes and the Senior Notes), other financial liabilities of €51.9 million and, in addition, €51.6 million of indebtedness outstanding under the Revolving Credit Facility. French BidCo intends to repay that facility shortly after the Labco Completion Date. Other than for such loan, the Revolving Credit Facility is expected to remain undrawn on or about the Labco Completion Date. We expect that on the Labco Completion Date, the amount of cash at the Labco Group and the amount of reserves at the Labco Group that are capable of being distributed to French BidCo will be in excess of the amount of such loan.

Collateral

Temporary Senior Secured Notes . . . . On the Issue Date, the Temporary Senior Secured Notes will be secured by a first-ranking pledge over the Temporary Senior Secured Notes Escrow Account (the "Temporary Senior Secured Notes Issue Date Collateral").

Senior Secured Notes	On the Labco Completion Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on that date) will be secured by: • a first-priority lien on the issued share capital of the Senior Secured Notes Issuer and the receivables, if any, owed by the Senior Secured Notes Issuer to UK Holdco II; • a first-priority lien on the issued share capital of French BidCo owned by the Senior Secured Notes Issuer; • a first-priority lien on the issued share capital of Labco owned by French BidCo; • a first-priority lien on the receivables arising under the Labco Proceeds Loan and the French BidCo Loan; and • a first-priority lien over the rights of French BidCo under the Labco Acquisition Agreement (collectively, the "Labco Completion Date Collateral"). As soon as is reasonably practicable after the Labco Completion Date and, in any event, within 90 days of the Labco Completion Date, the Existing Senior Secured Notes and the Additional Senior Secured Notes (if issued on or prior to that date) will be secured, subject to the Intercreditor Agreement, certain perfection requirements and the Agreed Security Principles, by security interests granted on an equal and ratable first-ranking basis over: • a first-priority lien on the issued share capital owned by Labco or any other Guarantor in the following Guarantors: Biopar, Labco Corporate Assistance, Labco Diagnostics España S.A., Labco Italia S.r.l., Istituto il Baluardo S.p.A., and the holding company that we intend to incorporate in England (such company to become a Guarantor on or prior to the later of (i) the 90th day following the Labco Completion Date and (ii) the 30th day following its incorporation); and • present and future intercompany loan receivables arising under intercompany loans with a principal amount in excess of €5.0 million granted by Labco or any other Guarantor that is a subsidiary of Labco, other than such intercompany loans arising under the cash pooling arrangements to which the Senior Secured Notes Issuer and its Restricted Subsidiaries may from time to time become a party (collectively, the "Post-Labco Completion Date Collateral"). To the extent that any Post-Labco Completion Date Collateral has been provided prior to the Completion Date, the Additional Senior Secured Notes shall be secured by that Post-Labco Completion Date Collateral, on the basis set out above, by not later than the 30th day after the Completion Date. On the Completion Date, the Senior Secured Notes will be secured by: • a first priority lien on the issued share capital of German BidCo owned by the Senior Secured Notes Issuer; • a first priority lien on the issued share capital of Synlab owned by German BidCo;

- a first priority lien on the receivables arising under the Synlab Proceeds Loan and the German BidCo Loan; and
- a first priority lien over the rights of German BidCo under the Synlab Acquisition Agreement and the receivables, if any, owed to German Bidco by any member of the Group

(collectively, the "Completion Date Collateral")

and the Additional Senior Secured Notes will also be secured by the Labco Completion Date Collateral.

On the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German BidCo has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German BidCo has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, the Senior Secured Notes will be secured by:

- a first priority lien on the issued share capital owned by Synlab or any other Guarantor in the following Guarantors: synlab Services GmbH, Synlab Verwaltungs u. Beteiligungs GmbH; Steinlach-Klinik GmbH, synlab Medizinisches Versorgungszentrum Weiden GmbH, synlab Medzinisches Versorgungszentrum Leinfelden-Echterdingen GmbH, synlab Medzinisches Versorgungszentrum Augsburg GmbH, Medizinisches Versorgungszentrum synlab Leverkusen GmbH, synlab.vet GmbH; synlab Umweltinstitut GmbH, synlab Medizinisches Versorgungszentrum Heidelberg GmbH, synlab Medizinisches Versorgungszentrum Kassel GmbH, synlab Medizinisches Versorgungszentrum Trier GmbH, synlab Medizinisches Versorgungszentrum Berlin GmbH, synlab Medizinisches Versorgungszentrum Stuttgart GmbH, synlab Medizinisches Versorgungszentrum Humangenetik Mannheim GmbH, Synlab Italia S.r.l., synlab Holding Italy S.r.l., synlab Suisse SA, AMS analyses médicales services SA, synlab Holding Austria GmbH and Institut für medizinische und chemische Labordiagnostik Gesellschaft m.b.H. (the "Synlab Guarantors"); and
- present and future intercompany loan receivables arising under inter-company loans with a principal amount in excess of €5.0 million granted by Synlab or any other Guarantor that is a subsidiary of Synlab, other than such inter-company loans arising under the cash pooling arrangements to which the Senior Secured Notes Issuer and its Restricted Subsidiaries may from time to time become a party;

(collectively, the "Synlab Collateral" and together with the Temporary Senior Secured Notes Issue Date Collateral, the Labco Completion Date Collateral, the Post-Labco Completion Date Collateral and the Completion Date Collateral, the "Senior Secured Notes Collateral").

Senior Notes . . . . On the Issue Date, the Senior Notes will be secured by a first-ranking pledge over the Senior Notes Escrow Account (the "Senior Notes Issue Date Collateral" and together with the Temporary Senior Secured Notes Issue Date Collateral, the "Issue Date Collateral").

On the Completion Date, the Senior Notes will be secured by:

- a first priority lien on the issued share capital of the Senior Notes Issuer owned by UK Holdco I (the "Senior Notes Issuer Share Pledge");
- a first priority lien on the receivables, if any, owed by the Senior Notes Issuer to UK Holdco 1 (the "Senior Notes Receivables Assignment"); and
- a second-priority lien on the issued share capital of the Senior Secured Notes Issuer and the receivables, owed by the Senior Secured Notes Issuer to the Senior Notes Issuer, including the receivables arising under the Senior Notes Proceeds Loan

(collectively, the "Senior Notes Completion Date Collateral" and together with the Senior Notes Issue Date Collateral, the "Senior Notes Collateral;" and the Senior Notes Collateral together with the Senior Secured Notes Collateral, the "Collateral").

The Shared Collateral will secure on a first-ranking basis the liabilities under the Revolving Credit Facility Agreement, certain priority hedging obligations, the Senior Secured Notes, and the Collateral may also secure certain future indebtedness permitted under the Indentures.

Under the terms of the Intercreditor Agreement, (i) the holders of the Senior Secured Notes will receive proceeds from enforcement of the Collateral only after certain super senior priority obligations, including obligations under the Revolving Credit Facility, certain priority hedging obligations and certain future indebtedness permitted by the Senior Secured Notes Indenture, have been repaid and (ii) the holders of the Senior Notes will receive proceeds from enforcement of the Shared Collateral only after lenders under the Senior Secured Notes, Revolving Credit Facility, the counterparties to certain priority hedging arrangements and the creditors for certain other indebtedness permitted to be secured on a senior basis pursuant to the Senior Notes Indenture have been repaid in full. See "*Description of Other Indebtedness—Intercreditor Agreement*," "*Description of the Senior Secured Notes—Security*" and "*Description of the Senior Notes—Security*."

The security interests may be limited by applicable law or subject to certain defenses that may limit their validity and enforceability. For more information on the security interests granted, see "*Description of the Senior Secured Notes—Security*" and "*Description of the Senior Notes—Security*" and for more information on potential limitations to the security interests, see "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*" and "*Risk Factors—Risks Related to the Senior Secured Notes*" and "*Risk Factors—Risks Related to the Senior Notes*."

The security interests may be released under certain circumstances. See "*Risk Factors—Risks Related to the Senior Secured Notes—There are circumstances other than the repayment or discharge of the Senior Secured Notes under which the Collateral securing the Senior Secured Notes will be released automatically without your consent or the Trustee or the Security Agent obtaining your further consent*," "*Risk Factors—Risks Related to the Senior Notes—There are circumstances other than the repayment or* *discharge of the Senior Notes under which the Senior Note Guarantees will be released automatically, without your consent*," "*Description of Other Indebtedness—Intercreditor Agreement*" and "*Description of the Senior Secured Notes—Security—Security Release*."

Escrow of Proceeds; Special Mandatory Redemption . . . . Concurrently with the closing of the Offerings, and pending the consummation of the Acquisitions and satisfaction of certain other conditions, the Initial Purchasers will deposit the gross proceeds from the Offerings into separate escrow accounts held in the name of the Temporary Senior Secured Notes Issuer and the Senior Notes Issuer, respectively. The Temporary Senior Secured Notes Escrow Account will be controlled by the Escrow Agent (as defined herein) and pledged on a first-ranking basis in favor of the Trustee (as defined herein) on behalf of the holders of the Temporary Senior Secured Notes, and the Senior Notes Escrow Account will be controlled by the Escrow Agent and pledged on a first-ranking basis in favor of the Trustee on behalf of the holders of the Senior Notes. The release of the escrow proceeds will be subject to the satisfaction of certain conditions, including the closing of both Acquisitions. See "*Description of the Temporary Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*" and "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*." If both Acquisitions are not consummated on or prior to the Escrow Longstop Date or upon the occurrence of certain other events, the Notes will be subject to a special mandatory redemption. The special mandatory redemption price, with respect to the Temporary Senior Secured Notes, will be a price equal to 100% of the aggregate issue price of the Temporary Senior Secured Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption, and, with respect to the Senior Notes will be a price equal to 100% of the aggregate issue price of the Senior Notes plus accrued and unpaid interest and additional amounts, if any, to but not including the date of special mandatory redemption. In the event that escrowed proceeds are insufficient to pay the special mandatory redemption price, plus accrued and unpaid interest and additional amounts, if any, Cinven will be required to make an equity contribution to any relevant Issuer in an amount required to enable each such Issuer to pay such accrued and unpaid interest and additional amounts, if any, owing to the holders of the relevant Notes, pursuant to an agreement between Cinven and the Issuer. See "*Description of the Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*," "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*" and "*Risk Factors—Risks Related to the Transactions—If the conditions in the escrow agreements are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes*."

In the event that (i) the Completion Date does not take place on or prior to the Escrow Longstop Date, (ii) in the reasonable judgment of the Issuers, the Acquisitions will not be consummated by the Escrow Longstop Date, (iii) the Labco

Acquisition Agreement terminates at any time prior to the Escrow Longstop Date, (iv) the Synlab Acquisition Agreement terminates at any time prior to the Escrow Longstop Date, (v) the Cinven Funds cease to beneficially own and control a majority of the issued and outstanding shares of the Issuers or (vi) certain insolvency defaults or events of default events occur on or prior to consummation of the Acquisitions, the Notes will be subject to a special mandatory redemption. The special mandatory redemption price will be a price equal to 100% of the aggregate issue price of the Notes plus the accrued and unpaid interest and additional amounts, if any, to the date of such special mandatory redemption. The escrowed funds would be applied to pay for any such special mandatory redemption. In the event that the funds on deposit in the Escrow Account are insufficient to pay the special mandatory redemption price, plus accrued and unpaid interest and additional amounts, if any, Cinven will be required to make an equity contribution to the Issuers in an amount required to enable the Issuers to pay such accrued and unpaid interest and additional amounts, if any, owing to the holders of the Notes, pursuant to an agreement between Cinven and the Issuers. See "*Description of the Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*," "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*" and "*Risk Factors—Risks Related to the Transactions—If the conditions to the escrow are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes*."

Intercreditor Agreement . . . . Pursuant to the Intercreditor Agreement, the liens securing the Senior Secured Notes will be deemed to rank equally with the liens that secure (i) obligations under the Revolving Credit Facility, (ii) certain other future indebtedness permitted to be incurred under the Indentures and (iii) certain obligations under hedging arrangements. Such liens are, or will be, evidenced by security documents for the benefit of (whether directly or through the Security Agent) the holders of the Senior Secured Notes, the lenders under the Revolving Credit Facility and the holders of certain other future indebtedness and obligations. Under the terms of the Intercreditor Agreement, in the event of acceleration of the Revolving Credit Facility, the Senior Secured Notes or certain other future indebtedness, amounts recovered in respect of the Senior Secured Notes, including from the enforcement of Guarantees or Collateral, are required to be turned over to the Security Agent and, subject to the payment of fees and expenses of the agent under the Revolving Credit Facility, the Trustee and Security Agent, paid by the Security Agent to the lenders under the Revolving Credit Facility and counterparties to certain hedging obligations in priority to the holders of the Senior Secured Notes.

The Trustee under the Temporary Senior Secured Notes Indenture will not accede to the Intercreditor Agreement and the holders of the Temporary Senior Secured Notes will not benefit from the Intercreditor Agreement. The Trustee under the Senior Notes will not accede to the Intercreditor Agreement until the Completion Date and the holders of the Senior Notes will not benefit from the Intercreditor Agreement until the Completion Date.

The Security Agent may refrain from enforcing the Senior Secured Notes Collateral and the Shared Collateral unless instructed by the agent/representative in respect of the Majority Super Senior Creditors or by the Trustee/representative in respect of the Senior Secured Notes/*Pari Passu* Required Holders. Each of the agent/representative in respect of the Majority Super Senior Creditors and the Trustee/representative in respect of the Senior Secured Notes/*Pari Passu* Required Holders is entitled to instruct the Security Agent to enforce the Senior Secured Notes Collateral and the Shared Collateral in the manner set out in "*Description of Other Indebtedness—Intercreditor Agreement*" (which includes a provision as to which set of instructions will prevail (and when), and who shall constitute the instructing group in which circumstances). See "*Description of Other Indebtedness—Intercreditor Agreement*."

The Shared Collateral will also secure the Senior Secured Notes and the Revolving Credit Facility on a first-priority basis, will be subject to standstill provisions and may be released under certain circumstances. See "*Risk factors—Risks related to the Senior Secured Notes—The Senior Secured Notes will be secured only to the extent of the value of the Collateral that has been granted as security for the Senior Secured Notes and future secured indebtedness may be secured by certain assets that do not secure the Senior Secured Notes*," and "*Description of other indebtedness—Intercreditor Agreement.*"

The Intercreditor Agreement provides that the holders of the Senior Notes will not be entitled to instruct the Security Agent to take any enforcement action under the Security Documents relevant to the Shared Collateral (or against any Senior Note Guarantee) unless:

a. an event of default (or event or circumstance which would, with the expiration of a grace period, the giving of notice, the making of any determination provided for in the relevant definition of "Event of Default" in the Senior Debt Document (under and as defined in the Intercreditor Agreement) or any combination of the foregoing, be an event of default) under any Senior Debt Document (a "Senior Debt Default") (such default being a "Relevant Senior Debt Default") is continuing;

b. the Credit Facility Agent (under and as defined in the Intercreditor Agreement), the Senior Secured Notes Trustee (under and as defined in the Intercreditor Agreement) and the Pari Passu Debt Representative(s) (under and as defined in the Intercreditor Agreement) have received a notice of the Relevant Senior Debt Default specifying the event or circumstance in relation to the Relevant Senior Debt Default from the Senior Debt Representative (under and as defined in the Intercreditor Agreement);

c. a Senior Debt Standstill Period (under and as defined in the Intercreditor Agreement) has elapsed and the Security Agent is not enforcing the liens on the relevant Shared Collateral at the instruction of the creditors in respect of the Senior Secured Notes, the Revolving Credit Facility or certain hedging obligations; and

d. the Relevant Senior Debt Default is continuing at the end of the relevant Senior Debt Standstill Period.

See "*Description of Other Indebtedness—Intercreditor Agreement*."

Optional Redemption

Temporary Senior Secured Fixed Rate Notes/Senior Secured Fixed Rate Notes . . . . At any time on or after July 1, 2018, the Senior Secured Notes Issuer may redeem some or all of the Senior Secured Fixed Rate Notes at the redemption prices set forth in "*Description of the Senior Secured Notes—Optional Redemption*" plus accrued and unpaid interest and additional amounts, if any, to the date of redemption.

At any time prior July 1, 2018, the Senior Secured Notes Issuer may redeem, at its option, some or all of the Senior Secured Fixed Rate Notes at a redemption price equal to 100% of the principal amount of the Senior Secured Fixed Rate Notes plus accrued and unpaid interest, if any, to the applicable redemption dates plus the applicable "make whole" premium set forth in "*Description of the Senior Secured Notes—Optional Redemption*."

At any time prior to July 1, 2018, the Senior Secured Notes Issuer may also redeem up to 40% of the aggregate principal amount of the Senior Secured Fixed Rate Notes at a redemption price equal to 106.250% plus accrued and unpaid interest and additional amounts, if any, *provided that* at least 60% of the aggregate principal amount of the Senior Secured Fixed Rate Notes (calculated after giving effect to any issuance of any additional Senior Secured Fixed Rate Notes but excluding Senior Secured Fixed Rate Notes held by the Senior Secured Notes Issuer and its subsidiaries) remain outstanding, with the net proceeds of one or more specified equity offerings. See "*Description of the Senior Secured Notes—Optional Redemption*."

At any time prior to July 1, 2018, the Senior Secured Notes Issuer may on any one or more occasions redeem during each calendar year up to 10% of the original principal amount of the Senior Secured Fixed Rate Notes (including the original principal amount of any additional Senior Secured Fixed Rate Notes) at a redemption price of 103% of the principal amount of the Senior Secured Fixed Rate Notes so redeemed, plus accrued and unpaid interest and additional amounts, if any, to, but not including, the applicable redemption date.

Temporary Senior Secured Floating Rate Notes/Senior Secured Floating Rate Notes . . . . At any time on or after July 1, 2016, the Senior Secured Notes Issuer may redeem some or all of the Senior Secured Floating Rate Notes at the redemption prices set forth in "*Description of the Senior Secured Notes—Optional Redemption*" plus accrued and unpaid interest and additional amounts, if any, to the date of redemption.

At any time prior July 1, 2016, the Senior Secured Notes Issuer may redeem, at its option, some or all of the Senior Secured Floating Rate Notes at a redemption price equal to 100% of the principal amount of the Senior Secured Floating Rate Notes plus accrued and unpaid interest, if any, to the applicable redemption dates plus the applicable "make whole" premium

	set forth in "*Description of the Senior Secured Notes—Optional Redemption*."
Senior Notes	At any time on or after July 1, 2018, the Senior Notes Issuer may redeem some or all of the Senior Notes at the redemption prices set forth in "*Description of the Senior Notes—Optional Redemption*" plus accrued and unpaid interest and additional amounts, if any, to the date of redemption. At any time prior July 1, 2018, the Senior Notes Issuer may redeem, at its option, some or all of the Senior Notes at a redemption price equal to 100% of the principal amount of the Senior Notes plus accrued and unpaid interest, if any, to the applicable redemption dates plus the applicable "make whole" premium set forth in "*Description of the Senior Notes—Optional Redemption*." At any time prior to July 1, 2018, the Senior Notes Issuer may also redeem up to 40% of the aggregate principal amount of the Senior Notes at a redemption price equal to % plus accrued and unpaid interest and additional amounts, if any, *provided that* at least 60% of the aggregate principal amount of the Senior Notes (calculated after giving effect to any issuance of any additional Senior Notes but excluding Senior Notes held by the Senior Notes Issuer and its subsidiaries) remain outstanding, with the net proceeds of one or more specified equity offerings. See "*Description of the Senior Notes—Optional Redemption*."
Change of Control	If a change of control occurs, we must give holders of the Notes an opportunity to sell us their Notes at a purchase price of 101% of the principal amount of such Notes, plus accrued and unpaid interest, if any, to the date of purchase. However, a change of control will not be deemed to have occurred if specified consolidated leverage ratios are not exceeded in connection with such event. See "*Description of the Senior Secured Notes—Repurchase at the Option of Holders—Change of Control*" and "*Description of the Senior Notes—Repurchase at the Option of Holders—Change of Control*."
Redemption for Taxation Reasons . . .	If certain changes in the law of any relevant taxing jurisdiction impose certain withholding taxes or other deductions on the payments on the Temporary Senior Secured Notes, the Senior Secured Notes or the Senior Notes or the Senior Secured Note Guarantees or the Senior Note Guarantees and as a result additional amounts are required to be paid, the relevant Issuer may redeem the Temporary Senior Secured Notes, the Senior Secured Notes or the Senior Notes, as applicable, in whole, but not in part, at a redemption price of 100% of the principal amount thereof, plus accrued and unpaid interest and additional amounts, if any, to the date of redemption. See "*Description of the Senior Secured Notes—Redemption for Changes in Taxes*" and "*Description of the Senior Notes—Redemption for Changes in Taxes*."
Additional Amounts	All payments made by any relevant Issuer or any Guarantor with respect to the Temporary Senior Secured Notes, the Senior Secured Notes or the Senior Notes or its Senior Secured Note Guarantee or Senior Note Guarantee, as applicable, will be made without withholding or deduction for, or on account of, any present or future taxes in any relevant taxing jurisdiction unless so required by applicable law. If withholding or deduction for such taxes is required by law in any tax jurisdiction with

	respect to a payment on the Temporary Senior Secured Notes, the Senior Secured Notes or the Senior Notes or the Senior Secured Note Guarantees or Senior Note Guarantees, as applicable, subject to certain exceptions, the relevant Issuer or the relevant Guarantor, as the case may be, will pay the additional amounts necessary so that the net amount received after the withholding or deduction is not less than the amount that would have been received in the absence of the withholding or deduction. See "*Description of the Senior Secured Notes—Additional Amounts*" and "*Description of the Senior Notes—Additional Amounts*."
Certain Covenants	The Indentures contain covenants which, among other things, limit each Issuer's ability and the ability of their respective restricted subsidiaries to: • incur or guarantee additional indebtedness and issue certain preferred stock; • make restricted payments, including dividends or other distributions; • create or permit to exist certain liens; • sell assets; • create restrictions on the ability of our restricted subsidiaries to pay dividends or make other payments to us; • merge or consolidate with other entities or transfer all or substantially all of our assets and the assets of our subsidiaries on a consolidated basis; • guarantee additional debt without also guaranteeing the Notes; • engage in transactions with affiliates; • create unrestricted subsidiaries; and • impair the security interests in the Collateral for the benefit of the holders of the Notes. These covenants are subject to a number of important limitations and exceptions as described under "*Description of the Senior Secured Notes—Certain Covenants*" and "*Description of the Senior Notes—Certain Covenants*."
Transfer Restrictions	The Notes and the Guarantees have not been and will not be registered under the U.S. Securities Act or the securities laws of any other jurisdiction and may not be offered or sold, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act. We have not agreed to, or otherwise undertaken to, register the Notes (including by way of an exchange offer). See "*Transfer Restrictions*."
Use of Proceeds	We intend to use the proceeds of the Offerings and the Synlab Equity Contribution to: (i) fund the purchase price for the Synlab Acquisition; (ii) repay the Existing Synlab Credit Facility; (iii) pay related transaction fees and expenses and (iv) for general corporate purposes.
Listing	Application will be made for listing particulars to be approved by the Irish Stock Exchange and for the Temporary Senior Secured Notes, the Additional Notes and the Senior Notes to be

	listed on the Official List of the Irish Stock Exchange and to be admitted to trading on the Global Exchange Market thereof.
Governing Law of the Indentures, the Guarantees and the Notes	The State of New York.
Governing Law of the Security Documents	Each share pledge is, or will be, governed by the laws of the jurisdiction of incorporation of the company that issued the shares that are subject to such security document (i.e., Austria, England, France, Germany, Italy, Spain or Switzerland), as applicable. The pledges of certain present and future intercompany loan receivables constituting part of the Collateral is, or will be, governed by the laws of the jurisdiction of incorporation of the Guarantors, and may include Austria, England, France, Germany, Italy, Spain and Switzerland.
Governing Law of the Intercreditor Agreement	England and Wales.
Escrow Agent	Elavon Financial Services Limited, UK Branch.

Risk Factors

Investing in the Notes involves substantial risks. Prospective investors should refer to "*Risk Factors*" for a discussion of certain factors that they should carefully consider before deciding to invest in the Notes.

SUMMARY UNAUDITED PRO FORMA CONDENSED COMBINED CONSOLIDATED FINANCIAL INFORMATION

The following tables present summary unaudited *pro forma* condensed combined consolidated financial information and other data from our Unaudited *Pro Forma* Condensed Combined Consolidated Financial Statements. The information under "*Unaudited Pro Forma Condensed Combined Consolidated Income Statement*" in the table below gives effect to the Transactions as if they had been consummated on January 1, 2014 and the information under "*Unaudited Pro Forma Condensed Combined Consolidated Statement of Financial Position*" in the table below assumes the Transactions had been consummated on March 31, 2015.

The following summary unaudited *pro forma* condensed combined consolidated financial data has been derived from and should be read in conjunction with the Labco Financial Statements, the Synlab Financial Statements and the "*Unaudited Pro Forma Condensed Combined Consolidated Financial Information*" included elsewhere in this offering memorandum.

The following summary unaudited *pro forma* condensed combined consolidated financial data is for illustrative purposes only and does not purport to indicate the financial results of our combined business had the Transactions taken place on January 1, 2014 for consolidated income statement purposes, and on March 31, 2015 for consolidated statement of financial position purposes, and is not intended to be a projection of future results. Future results may vary significantly from the results reflected because of various factors, including those discussed in "*Risk Factors.*"

The following tables should be read in conjunction with "*Use of Proceeds*," "*Capitalization*," "*Selected Historical Consolidated Financial Information of Synlab*," "*Selected Historical Consolidated Financial Information of Labco*" "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*," "*Description of the Senior Secured Notes*," "*Description of the Senior Notes*" and the Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information and the notes related thereto included elsewhere in this offering memorandum. Historical results are not necessarily indicative of future expected results. In addition, our results for the three months ended March 31, 2015 should not be regarded as indicative of our expected results for the year ending December 31, 2015.

Unaudited Pro Forma Condensed Combined Consolidated Income Statement

	Year ended December 31, 2014	Three months ended March 31, 2014	Three months ended March 31, 2015	Twelve months ended March 31, 2015
	(€ millions)			
Revenue	1,340.7	335.4	371.3	1,376.6

Other Unaudited Pro Forma Combined Financial Data

	Twelve months ended March 31, 2015
	(€ millions)
Other financial data	
Pro forma Total Combined Estimated Revenue(1)	1,402.1
Pro forma Combined Adjusted EBITDA(2)	252.5
Pro forma Total Combined Estimated Adjusted EBITDA(3)	305.6
Pro forma combined net financial debt(4)	1,896.2
Pro forma combined net senior secured debt(5)	1,521.2
Pro forma combined interest expense(6)	123.0
Ratio of *pro forma* combined net financial debt to *Pro forma* Total Combined Estimated Adjusted EBITDA(3)(4)	6.2x
Ratio of *pro forma* combined net senior secured debt to *Pro forma* Total Combined Estimated Adjusted EBITDA(3)(5)	5.0x
Ratio of *Pro forma* Total Combined Estimated Adjusted EBITDA to *pro forma* combined interest expense(3)(6)	2.5x

(1) *Pro forma* Total Combined Estimated Revenue has been derived from our *pro forma* combined revenue and adjusted to reflect the estimates below in order to give full year effect to (i) Labco's SDN Group Acquisition and (ii) Synlab's acquisition of 20 laboratory companies (excluding three small asset deals in Germany in 2014). *Pro forma* Total Combined Estimated Revenue is not a measure of financial performance under IFRS, and you should not consider *Pro forma* Total Combined Estimated Revenue as an alternative of any other measure of performance derived in accordance with IFRS. We present *Pro forma* Total Combined Estimated Revenue as a supplemental measure of our operating performance as we believe that it is useful to investors in evaluating our operating performance. Other companies may calculate *Pro forma* Total Combined Estimated

Revenue differently than we do. Therefore, you should exercise caution in comparing *Pro forma* Total Combined Estimated Revenue as reported by us to *Pro forma* Total Combined Estimated Revenue of other companies.

The following table provides a reconciliation of *Pro forma* Combined Revenue to *Pro forma* Total Combined Estimated Revenue for the period indicated.

	Twelve months ended March 31, 2015
	(unaudited) **(€ millions)**
***Pro forma* combined Revenue**	**1,376.6**
Adjustments	
Total Revenues of the SDN Group between the date of its acquisition and March 31, 2015[(a)]	(29.9)
Total Revenues of the SDN Group for the year ended December 31, 2014[(a)]	48.0
Pro forma Synlab acquisition adjustments[(b)]	7.5
***Pro forma* Total Combined Estimated Revenue**	**1,402.1**

(a) Total Revenues of the SDN Group represents the aggregate Revenue of SDN for the period from April 1, 2014 to March 31, 2015. These amounts are estimates in part because historical income statement information was not available for certain of these entities for the twelve months ended March 31, 2015 and such information has been converted and adjusted by us as described below. See "*Labco Unaudited Pro Forma Financial Information*."

We have estimated the Revenue of the SDN Group using the following methodology:

- we have generally assumed that the Revenue of the SDN Group for the twelve months ended March 31, 2015 was equal to the EBITDA of such entity for the year ended December 31, 2014;

- Revenue of the SDN Group for the year ended December 31, 2014 was calculated on the basis of the audited historical annual financial statements of such entity prepared under relevant local generally accepted accounting principles or in the absence of audited financial statements on the basis of unaudited financial statements tax returns or unaudited internal management accounts; and

- Revenue estimates of the SDN Group were then converted to our accounting policies by our management.

(b) Represents the estimated effect on revenue from the acquisitions Synlab closed at different dates during the twelve months ended March 31, 2015, as if they had each occurred on April 1, 2014. These amounts are estimates, in part because (i) historical income statement information was generally not available for the acquired companies for the full period prior to closing the acquisitions and (ii) adjustments have been made to the historical financial information of the acquired companies as described below. Synlab has made adjustments to reflect the impact of the acquisition of the entities acquired during the twelve months ended March 31, 2015 based on the methodology described in footnote (3)(d) below.

(2) *Pro forma* Combined Adjusted EBITDA is not a measure of financial performance under IFRS, and you should not consider *Pro forma* Combined Adjusted EBITDA as an alternative of any other measure of performance derived in accordance with IFRS. *Pro forma* Combined Adjusted EBITDA takes into account the adjustments set out below which management considers to be exceptional in nature, as we believe such costs are not reflective of the ongoing performance of our combined business and are thus added back to derive *Pro forma* Combined Adjusted EBITDA. We present *Pro forma* Combined Adjusted EBITDA as a supplemental measure of our operating performance as we believe that it is useful to investors in evaluating our operating performance. Other companies may calculate *Pro forma* Combined Adjusted EBITDA differently than we do. Therefore, you should exercise caution in comparing *Pro forma* Combined Adjusted EBITDA as reported by us to *Pro forma* Combined Adjusted EBITDA of other companies.

The reconciliation of our *Pro forma* Combined net loss for the period to *Pro forma* Combined Adjusted EBITDA for the twelve months ended March 31, 2015, is as follows:

	Twelve months ended March 31, 2015
	(unaudited) **(€ millions)**
Pro forma Combined net loss for the period	(19.5)
Income tax	39.1
Finance costs	128.6
Share of profit of associates	0.5
Depreciation and amortization	91.9
Income from reversal of impairment	(21.0)
Restructuring expenses and provisions for litigation	25.7
Strategic transaction costs including fair value changes in contingent consideration	(7.5)
	237.8
Less restructuring expenses and provisions for litigation for Synlab	(5.7)
Plus strategic acquisition costs and fair value changes in contingent consideration for Synlab	9.3
	241.4
Labco EBITDA (A)	**119.0**
Synlab EBITDA (B)	**122.4**
(A+B)	**241.4**
Further adjustments:	
Labco adjustments:	
Share-based payments (warrants)[a]	2.9
Transactions costs for usual small size acquisitions[b]	1.4
One-off severance payments[c]	0.2
VAT loss on recharge of corporate headquarter costs[d]	1.0
Mobilization costs[e]	0.5
Priority Dividend buy-backs[f]	0.3
UK transitional period losses[g]	2.0
Synlab adjustments:	
Transaction, post-merger and refinancing costs[h]	(8.5)
Restructuring expenses[i]	5.1
Provisions for onerous contracts[j]	2.6
Supplier dispute[k]	(2.0)
Settlement with health insurance funds[l]	3.3
Start-up losses[m]	0.8
Asset disposals and closures[n]	(0.5)
Expenses for legal disputes[o]	2.0
Pro forma Combined Adjusted EBITDA	**252.5**

(a) Represents non-cash expenses recognized as a result of the vesting of rights to obtain warrants for people rendering services to the Labco Group, mainly employees.

(b) Represents Labco's costs incurred in connection with acquisitions, including legal, due diligence and other advisory fees.

(c) Represents one-off severance payments to Labco Group employees.

(d) Represents the loss attributable to the invoicing of non-recoverable VAT upon recharging corporate headquarter costs incurred by Labco S.A. to its subsidiaries, which cost recharging is discretionary and could be discontinued at any time.

(e) Represents Labco's costs associated with tendering for significant contracts with NHS trusts in the United Kingdom, including legal fees and advisory fees for tender consultants.

(f) Represents the effect of the buy-backs, completed on 1 January 2015, of Priority Dividends, which consist of a variable remuneration paid by certain of Labco's SELs to certain laboratory doctors who sold their laboratories to us but remained shareholders of the SEL operating such laboratories. These Priority Dividends are calculated based on the performance of the SEL in which the relevant laboratory doctor works. Cost savings resulting from the buybacks are estimated at approximately € 0.5 million per year.

(g) Represents Labco's losses incurred since the signing of several outsourcing contracts with NHS trusts in October 2014. Outsourced laboratory services for certain NHS trusts generate losses in the first few years of the contracts while the outsourced operations are ongoing but the expected headcount and platform based efficiencies have not been achieved.

(h) Represents Synlab's expenses related to company acquisitions, net of passed-on consultancy expenses for such acquisitions, plus/less income/expenses from changes in value of contingent considerations as recorded in other operating income as well as other operating expenses. For the three months ended March 31, 2015, further represents expenses for legal disputes in Belgium in connection with a company acquisition net of income from a recharge against the seller of Laboratoire d'Analyses Medicales Dr. Jean Collard SPRL.

(i) Represents the sum of Synlab's restructuring expenses as recorded in other operating expenses and termination benefits recorded in personnel expenses. These expenses relate to severance payments and consulting and legal costs in connection with the optimization of Synlab's laboratory network, which included the centralization of services at synlab Holding GmbH and the restructuring of Synlab's hospitals business in Germany.

(j) Reflects Synlab's expenses/income from additions to other provisions for onerous contracts net of income from reversal of such provisions. These provisions for onerous contracts relate to certain hospital contracts in Germany.

(k) Reflects the impacts from the dispute with a significant supplier in connection with the termination of a "per reported result"—contract. In late 2011, the supplier terminated the contract and commenced sales of consumables to Synlab at increased prices.

(l) Represents expenses from Synlab's settlements with health insurance funds related to certain receivables allowances and write offs in 2013 and 2014. In 2013, Synlab Medizinisches Versorgungszentrum Leinfelden-Echterdingen GmbH wrote off €2.3 million of receivables due to a temporary cancellation of a license in January 2013. Adjustments in 2014 related to receivables allowances and write offs at two Czech subsidiaries in connection with receivables from health insurance funds for the years 2009 to 2014.

(m) Represents the negative EBITDA of synlab UK Ltd. during its start-up phase. Due to the public tender business in the United Kingdom, the start-up phase was relatively long compared to other countries.

(n) Represents losses/income from Synlab's disposals of non-current assets.

(o) Represents expenses for legal disputes recorded in other operating expenses.

(3) The presentation of *Pro forma* Total Combined Estimated Adjusted EBITDA and *Pro forma* Total Combined Estimated Revenue is for informational purposes only. This information does not represent the results we would have achieved had each of the acquisitions for which an adjustment is made occurred and been fully integrated on April 1, 2014. The calculations for *Pro forma* Total Combined Estimated Adjusted EBITDA and *Pro forma* Total Combined Estimated Revenue is based on various assumptions and management estimates. The EBITDA of each of the relevant acquired entities for the year ended December 31, 2014 may not be representative of what the EBITDA of such acquired entities would have been for the twelve months ended March 31, 2015. These numbers have not been, and cannot be, audited, reviewed or verified by any independent accounting firm. This information is inherently subject to risks and uncertainties. It may not give an accurate or complete picture of the financial condition or results of operations of the relevant acquired entities for periods prior to their acquisition, may not be comparable to our consolidated financial statements or the other financial information included in this offering memorandum and should not be relied upon when making an investment decision. *Pro forma* Total Combined Estimated Adjusted EBITDA and *Pro forma* Total Combined Estimated Revenue are included in this offering memorandum because we believe that it provides a useful measure of our results of operations; however, this information does not constitute a measure of financial performance under IFRS, and you should not consider *Pro forma* Total Combined Estimated Adjusted EBITDA or *Pro forma* Total Combined Estimated Revenue as an alternative to operating income or any other performance measure derived in accordance with IFRS or as a measure of our results of operations or liquidity. Other companies, including those in our industry, may calculate a similarly titled financial measure differently from us, and so the presentation of such financial measures may not be comparable to other similarly titled measures of other companies. Funds depicted by certain of these measures may not be available for management's discretionary use due to covenant restrictions, debt service payments or other commitments.

We present certain synergy estimates, among others, relating to cost reductions and other benefits expected to arise from the Acquisitions as well as related costs to implement the Acquisitions. The estimates present the expected future impact of this transaction and the integration of Labco and Synlab into a combined business. Such estimates are based on a number of assumptions made in reliance on the information available to us and management's judgments based on such information. The assumptions used in estimating the synergies arising from the Acquisitions are inherently uncertain and are subject to a wide variety of significant business, economic, and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the synergy benefit estimates.

The reconciliation of our *Pro forma* Combined Adjusted EBITDA to our *Pro forma* Total Combined Estimated Adjusted EBITDA is as follows:

	Twelve months ended March 31, 2015
	(unaudited) (€ millions)
***Pro forma* Combined Adjusted EBITDA**	**252.5**
***Labco adjustments*:**	
EBITDA of the SDN Group between its date of acquisition and March 31, 2015	(12.1)
EBITDA of the SDN Group for the year ended December 31, 2014[(a)]	21.9
EBITDA of the Q2 2015 Acquired Entities for the twelve months ended March 31, 2015[(a)]	7.1
EBITDA of Sabater Pharma between April 1, 2014 and the date of its disposal	(0.1)
annual estimated cost savings with respect to Labco's Acquired Entities[(b)]	3.2
annual estimated cost savings from the concentration of Labco's operations in Barcelona[(c)]	1.7
***Synlab adjustments*:**	
pro forma acquisition adjustments[(d)]	3.1
termination and renegotiation of hospital contracts[(e)]	2.3
post-merger integration effects[(f)]	0.2
termination of laboratory rental contract[(g)]	0.1

Synergy adjustments[(p)]	17.5
***Pro forma* Total Combined Estimated Adjusted EBITDA**	**305.6**

(a) EBITDA of the SDN Group and the Q2 2015 Acquired Entities represents the aggregate EBITDA of each of such entities for the period from April 1, 2014 to March 31, 2015. These amounts are estimates in part because historical income statement information was not available for certain of these entities for the twelve months ended March 31, 2015 and such information has been converted and adjusted by us as described below. See "*Labco Unaudited Pro Forma Financial Information*."

We have estimated the EBITDA of the SDN Group and the Q2 2015 Acquired Entities using the following methodology:

- we have generally assumed that the EBITDA of the SDN Group and each Q2 2015 Acquired Entity for the twelve months ended March 31, 2015 was equal to the EBITDA of such entity for the year ended December 31, 2014;

- EBITDA of the SDN Group and each Q2 2015 Acquired Entity for the year ended December 31, 2014 was calculated on the basis of the audited historical annual financial statements of such entity prepared under relevant local generally accepted accounting principles or in the absence of audited financial statements on the basis of unaudited financial statements tax returns or unaudited internal management accounts; and

- EBITDA estimates of the SDN Group and the Q2 2015 Acquired Entities were then converted to our accounting policies by our management.

(b) Represents annual estimated synergies with respect to, and assuming full integration of, the acquisitions by Labco, including (i) a reduction in the cost of sales of the Acquired Entities through applying our known group purchasing cost base for reagents used in our testing procedures to the entities we acquire, (ii) the optimization of the workforces of the Acquired Entities through headcount reductions and restructuring management compensation arrangements and (iii) a reduction in other costs related to the operations of the Acquired Entities, primarily logistics costs and administrative expenses through applying our centralized group administrative function across the entities we acquire. We estimate annual synergies on the basis of standardized integration procedures applied to each acquisition we complete, which includes a compliance certificate that is used to track future performance. This compliance certificate includes key action items that we believe will result in synergies and upon execution of any such action we record corresponding synergy realizations reviewed every six months up until two to three years after the acquisition closes.

Labco's acquisitions of the Acquired Entities can be broadly categorized as follows:

Firstly, we target incremental acquisitions (or "bolt-on" acquisitions) in zones where we already have technical platforms since this allows us to restructure the acquired entities to enable application of our group purchasing and administrative cost base and leads to the rapid implementation of such cost synergies. In the case of these bolt-on acquisitions, which typically have an enterprise value of less than € 10.0 million, we aim to achieve all of the synergies within 12 to 24 months, with approximately half of the synergies expected from the transaction in the first year following the acquisition and then virtually all the remaining synergies during the second year following the acquisition. In 2014 and 2015, estimated synergies with respect to bolt-on acquisitions represented approximately 40% of our total expected synergies. There can be no assurance, however, as to when any such synergies will be achieved or whether such synergies will be achieved at all. See "*Risk Factors—Risks Related to Our Commercial Activities—We face risks associated with our strategy of acquiring companies,*" "*Risk Factors—Risks Related to Our Commercial Activities—We may be unable to realize the expected cost savings from our recently acquired businesses and any future potential acquisition*" and "*Business—Acquisitions and External Growth Strategy*."

Secondly, we are interested in acquisitions that enable us to improve our coverage of a given region, which primarily means acquiring large platforms in new markets from which we will be able to implement our strategy of consolidating smaller operators and/or allow us to acquire new scientific or technological capabilities that can subsequently be deployed throughout our network. These acquisitions can take different forms, including purchasing multiple laboratories with the aim of combining them into a single platform and/or construction of a large centralized facility for the region. In the case of these larger acquisitions, which typically have an enterprise value of more than €10.0 million, we aim to achieve all of the synergies within the same time period as the bolt-on acquisitions; however, a greater proportion of the synergies for such larger acquisitions are usually realized in the second year following the acquisition or may be delayed further, sometimes significantly, since implementing the measures required to realize the synergies typically takes longer. This is primarily because there are often greater numbers of employees at such laboratories and so the time it takes to comply with employment regulations in relation to such employees and negotiate with works councils or other trade bodies generally takes longer. In 2014 and 2015, estimated synergies with respect to larger acquisitions represented approximately 60% of our total expected synergies. There can be no assurance, however, as to when any such synergies will be achieved or whether such synergies will be achieved at all. See "*Risk Factors—Risks Related to Our Commercial Activities—We face risks associated with our strategy of acquiring companies*," "*Risk Factors—Risks Related to Our Commercial Activities—We may be unable to realize the expected cost savings from our recently acquired businesses and any future potential acquisition*" and "*Business—Acquisitions and External Growth Strategy*."

Historically, we believe this methodology, which we use when valuing the Acquired Entities in connection with our decision to purchase such Acquired Entities, has proven reasonably accurate. We estimate that as of December 31, 2013, we had realized 80% of the expected cost-saving synergies planned with respect to acquisitions completed in 2011 and 2012 and from January 1, 2014, we continued to work on implementing the remaining 20% of synergies. Accordingly, we have only included 80% of the synergies that we expect to generate in the figure shown above for acquisitions completed in 2014 and 2015 for the purpose of calculating Combined Estimated Adjusted EBITDA.

(c) Represents annual estimated rental cost savings and productivity gains expected to be generated following the consolidation of six laboratories and one administrative office in Barcelona into a single platform, which is due to complete in the second half of 2015. We estimate Labco will realize productivity gains, notably from headcount reductions, overhead cost reductions resulting from the concentration of our operations in one single facility, and the termination of the lease agreements for the facilities that are being transferred.

(d) Represents the estimated effect on EBITDA from the acquisitions Synlab closed in the twelve months ended March 31, 2015. These amounts are estimates, in part because (i) historical income statement information was generally not available for the acquired companies for the full period prior to closing the acquisitions and (ii) adjustments have been made to the historical financial information of the acquired companies as described below.

Synlab has made adjustments to reflect the impact of the acquisition of the entities acquired during the twelve months ended March 31, 2015 according to the following methodology:

- EBITDA and revenue of each of the companies acquired during the twelve months ended March 31, 2015 for the twelve months ended March 31, 2015 have been calculated in a two-step approach:
  - The EBITDA and revenue for the period between the respective acquisition's closing date and March 31, 2015 have been derived from Synlab's accounting systems, since starting with the closing the acquisitions are obliged to participate in Synlab's group finance and consolidation processes.
  - The EBITDA and revenue for the period between April 1, 2014 and the closing date ("relevant period") has been calculated by using the best available source, i.e. EBITDA and revenue of each of the acquired entities for such period were calculated on the basis of:
    - the audited financial statements of the acquired entity prepared under local generally accepted accounting principles or, in the absence of audited financial statements,
    - financial statements as being subject to and presented in reports prepared for due diligence purposes, or in the absence of a financial due diligence report,
    - unaudited financial statements, or, in the absence of unaudited financial statements,
    - internal management accounts

  for that relevant period, or, in the absence of such financial statements or management accounts for that relevant period, on the basis of the latest available financial information.
- If monthly financial statements or management accounts are not available for the relevant period, EBITDA and revenue adjustments did not take into account seasonality but have been used on a pro-rata basis, and were adjusted on a case-by-case basis to give estimated *pro forma* effect from April 1, 2014 to any one-off effects (such as contractual adjustments or remuneration changes as if the adjustments were made at the beginning of the period presented.

- Furthermore, in case of material deviations between EBITDA and revenue of the acquired companies calculated on local generally accepted accounting principles compared to EBITDA and revenue in accordance with IFRS as adopted by the EU EBITDA and revenue were converted to IFRS by applying on a case-by-case basis IFRS-adjustments to EBITDA and revenue for such relevant period;

- Finally, in case EBITDA and / or revenue for the relevant period are affected by material non-recurring items, these one-off effects were identified and adjusted.

The estimated information presented herein is for information purposes only. This information does not represent the results Synlab would have achieved had each of the acquisitions for which an adjustment is made occurred on April 1, 2014. The calculations for *Pro forma* Total Combined Estimated Adjusted EBITDA and *Pro forma* Total Combined Estimated Revenue are based on various assumptions, management estimates and the unaudited internal financial statements or management accounts of the acquired companies, some of which differ from IFRS. The EBITDA and revenue for each acquired company for the year ended December 31, 2013, or such other applicable period used to calculated *Pro forma* Total Combined Estimated Adjusted EBITDA and *Pro forma* Total Combined Estimated Revenue, may not be representative of what each such company's EBITDA or revenue would have been for the twelve months ended March 31, 2015.

(e) Represents reductions of Synlab's costs in connection with the termination of a hospital contract in and the renegotiation of three hospital contracts, all in Berlin, Germany. Synlab has calculated the twelve-month impact of the rental contract termination to fully reflect this effect in the twelve months ended March 31, 2015.

(f) Represents the impact of post-merger integration and efficiency measures related to the relocation of five blood collection points and the relocation of Synlab's central laboratory to Brescia during 2014, including the reduction of rental and other operating costs. Synlab has calculated the twelve-month impact to fully reflect this effect in the twelve months ended March 31, 2015.

(g) Represents elimination of rental costs in connection with the cancellation of a laboratory rental contract in Switzerland in 2014. Synlab has calculated the twelve-month impact of the rental contract cancellation to fully reflect this effect in the twelve months ended March 31, 2015.

(h) Represents the effect from Synlab's ongoing implementation of certain operational excellence initiatives targeted at the reduction of materials costs and, to a lesser extent, transportation costs as well as a new hospital outsourcing contract in Germany.

(i) Represents the effect from operational measures focused on optimizing supplier expenses, including, in particular, in Switzerland and Germany.

(j) Represents adjustments related to the closure of laboratories in the United Kingdom and Germany by Synlab.

(k) Represents out-of-period revenues exceeding the regular rolling effect from prior period reimbursement with the public health insurance incurred in 2014 in Weiden. Such revenues were not recorded in 2013 when the reimbursement was under dispute, leading to recognition in the later period.

(l) Represents Swiss pension service costs in excess of cash payments.

(m) Represents adjustments largely relating to certain smaller items of less than €250,000 across several countries, mainly from receivables write-offs, re-phasing of provision releases and foreign exchange profits, which generally off-set each other.

(n) Represents the impact from the phasing of a large 10-year hospital outsourcing contract in Melnik, Czech Republic that was signed at the end of 2014 but effective only during the first quarter of 2015. Synlab has calculated the twelve-month impact of this contract to fully reflect this effect in the twelve months ended March 31, 2015.

(o) Represents the estimated effect on EBITDA from the acquisitions Synlab signed and partly closed since the first quarter ended March 31, 2015. These amounts are estimates, in part because (i) historical income statement information was generally not available for the acquired companies for the full period prior to closing the acquisitions and/or (ii) adjustments have been made to the historical financial information of the acquired companies as described in note (d) above. Since March 31, 2015, Synlab has completed the acquisition of laboratories or laboratory service providers in Berlin, Germany, Ghana and Austria and signed an acquisition agreement in connection with the purchase of an entity in Romania. The first of three scheduled closings of the Romania acquisition occurred in the second quarter of 2015 and Synlab has the option to complete the remaining closings at its discretion. See "*Summary—Recent Developments—Recent Acquisitions—Synlab*" for more information.

(p) We believe that the Transactions will create the opportunity to achieve significant cost synergies. We intend to implement certain measures in the first 12 months following the Completion Date, which we estimate will allow us to achieve approximately €17.5 million in cost synergies on an annual run rate basis. Those synergies are expected to arise as a result of cost reductions resulting from (i) the consolidation of overlapping headquarters operations, (ii) improvements in operational efficiency and procurement due to the combined business' greater scale and (iii) consolidation of laboratories in certain countries.

Following the Completion Date we plan to consolidate headquarters operations from the two current locations to a single site. As a result, we will benefit from reduced personnel costs as well as reduced rent and other operational expenses, including expenses related to auditing, legal, IT, telecom and non-core purchasing. We expect to achieve cost reductions of approximately €3.7 million when we consolidate our headquarters at one location.

We believe that our combined business will benefit from greater operational efficiency and improved purchasing power. Synlab provides certain specialty tests that Labco currently outsources to other laboratories. When the Synlab and Labco businesses are joined, those specialty tests will be conducted within the combined business, providing a reduction to our cost of goods sold. In addition, we expect to benefit from improvements to the pricing plans we have with certain third party suppliers. Some of our suppliers and service providers currently have contractual arrangements with both Synlab and Labco, but have different price levels for each business. We expect that we will be able to renegotiate the terms of such contracts, following completion of the Transactions, to continue our relationship with such third party at the more favorable of the two price levels. We estimate that we will achieve cost reductions of approximately €5.5 million as a result of improvements in operational efficiency and procurement.

In certain countries, namely Belgium, Italy and Switzerland, we expect we will be able to generate cost savings by consolidating certain laboratory locations. We will do this by consolidating operations at the most efficient location, with the others being closed or significantly downsized. The increased volumes of tests at the consolidated laboratories will lead to better capacity utilization, thus decreasing the cost base as a percentage of revenues. We believe that such consolidation will reduce the cost base by approximately 20% compared to the costs of the closed labs. We believe that consolidating laboratories will provide cost reductions of approximately €8.3 million.

Although it is our objective to reach the levels of projected synergies reflected in Total Combined Estimated Adjusted EBITDA, no assurance can be given that such levels will be achieved in the time frame indicated or at all or that additional unanticipated costs will not arise. We currently estimate the cost to achieve the anticipated synergies to be approximately €7.2 million. Our synergy estimates are based on a number of assumptions made in reliance on the information available to us and our judgments based on such information. The assumptions used in estimating synergies are inherently uncertain and are subject to significant business, economic, and competitive risks and uncertainties that could cause our actual results to differ materially from those contained in the synergy benefit estimates. See "*Risk Factors—Risks Related to the Transactions—We may fail to realize the anticipated benefits of the Transactions*."

(4) Net financial debt represents the sum of current and non-current interest-bearing loans and borrowings less cash and cash equivalents. *Pro forma* combined net financial debt gives *pro forma* effect to the issuance of the Notes and the application of the proceeds therefrom as if such issuance had taken place on March 31, 2015.

(5) Net senior secured debt represents the sum of the aggregate principal amount of the Senior Secured Notes, other financial liabilities and any drawn amounts under the Revolving Credit Facility less cash and cash equivalents. *Pro forma* combined senior secured debt gives *pro forma* effect to the issuance of the Additional Senior Secured Notes and the application of the proceeds therefrom as if such issuance had taken place on March 31, 2015.

(6) *Pro forma* combined interest expense represents interest expense for the twelve months ended March 31, 2015 as adjusted to give effect to the Transactions. *Pro forma* combined interest expense assumes an imputed weighted average interest rate for the Fixed Rate Notes, the Floating Rate Notes and the Senior Notes, assuming a constant EURIBOR rate for the twelve months ended March 31, 2015 and assuming the Revolving Credit Facility was undrawn during such period. *Pro forma* combined interest expense does not include commitment fees on the Revolving Credit Facility or any charges related to debt issuance costs in connection with the Offering. *Pro forma* interest expense has been presented for illustrative purposes only and does not purport to represent what our interest expense would have actually been had the issue of the Notes occurred on the date assumed, nor does it purport to project our interest expenses for any period or our financial condition at any future date.

SUMMARY HISTORICAL CONSOLIDATED FINANCIAL INFORMATION AND OTHER DATA OF SYNLAB

The following tables set forth summary historical consolidated financial information of synlab Holding GmbH as of and for the years ended December 31, 2012, 2013 and 2014 and as of March 31, 2015 and for the three months ended March 31, 2014 and 2015 as well as for the twelve-month period ended March 31, 2015.

Synlab's financial data as of and for each of the years ended December 31, 2012, 2013 and 2014 included in the summary historical consolidated financial information have been derived from the Synlab Audited Financial Statements included elsewhere in this offering memorandum. The audited consolidated financial statements for the years ended December 31, 2013 and 2014 were prepared in accordance with IFRS and the additional requirements of German commercial law pursuant to Section 315(a)(1) German Commercial Code (*Handelsgesetzbuch*—"HGB"). The German language consolidated financial statements of Synlab and its subsidiaries as of and for the years ended December 31, 2013 and 2014 have been audited by Synlab's statutory auditors, Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft ("E&Y") in accordance with Section 317 HGB, and German generally accepted standards for the audit of financial statements promulgated by the German Institute of Public Auditors (*Institut der Wirtschaftsprüfer*). Free English language translations of the abovementioned German language consolidated financial statements (labeled as the "Synlab Audited Financial Statements") and the auditor's reports thereon are included elsewhere in this offering memorandum.

Synlab's financial data for the three months ended March 31, 2014 and 2015 and as of March 31, 2015 included in the summary consolidated financial information have been derived from the Synlab Unaudited Interim Financial Statements included elsewhere in this offering memorandum. The unaudited German language interim consolidated financial statements of Synlab were prepared in accordance with IAS 34 and include unaudited comparative financial information for the three-month period ended March 31, 2014. Free English language translations of the abovementioned German language interim consolidated financial statements (labeled as the "Synlab Unaudited Interim Financial Statements") are included elsewhere in this offering memorandum.

The unaudited summary consolidated statement of comprehensive income information and the other financial information presented for the twelve months ended March 31, 2015 have been derived by subtracting from the financial information of the Synlab Audited Financial Statements for the year ended December 31, 2014 and Synlab's internal accounting system, the comparative financial information of the Synlab Unaudited Interim Financial Statements for the three months ended March 31, 2014 and Synlab's internal accounting system, and adding the financial information of the Synlab Unaudited Interim Financial Statements for the three months ended March 31, 2015 and Synlab's internal accounting system. The unaudited consolidated statement of comprehensive income information and the other financial information presented for the twelve months ended March 31, 2015 have been prepared for illustrative purposes only and are not necessarily representative of Synlab's results of operations for any future period or its financial condition at any future date. This data has been prepared solely for the purpose of this offering memorandum, is not prepared in the ordinary course of Synlab's financial reporting and has not been audited or reviewed.

The Synlab financial information marked as "audited" in tables in this offering memorandum is extracted from the Synlab Audited Financial Statements. Financial information of Synlab marked as "unaudited" in tables in this offering memorandum is not extracted from the Synlab Audited Financial Statements but is either extracted from the Synlab Unaudited Interim Financial Statements or synlab Holding GmbH's internal accounting system or is based on calculations of figures of the abovementioned sources.

The following tables should be read in conjunction with "*Use of Proceeds*," "*Capitalization*," "*Selected Historical Consolidated Financial Information of Synlab*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*," "*Description of the Senior Secured Notes*," "*Description of the Senior Notes*" and the Synlab Financial Statements included elsewhere in this offering memorandum. Historical results are not necessarily indicative of future expected results. In addition, Synlab's results for the three months ended March 31, 2015 should not be regarded as indicative of our expected results for the year ending December 31, 2015.

Estimated Adjusted EBITDA margin (in %)(4)						18.7
Estimated Total Revenue(3)(5)						744.1

(1) Synlab defines EBITDA as operating profit/loss for the period before depreciation, amortization and impairment and income from reversal of impairments of customer lists. Adjusted EBITDA represents EBITDA as adjusted for the adjustments set out below. Synlab believes such costs are not reflective of the ongoing performance of its business and are thus added back to EBITDA to derive Adjusted EBITDA. Synlab presents EBITDA and Adjusted EBITDA as supplemental measures of its operating performance. Synlab believes that EBITDA and Adjusted EBITDA are useful to investors in evaluating its operating performance. EBITDA and Adjusted EBITDA are not performance indicators recognized under IFRS. Other companies may calculate EBITDA and Adjusted EBITDA differently than Synlab does. Therefore, you should exercise caution in comparing EBITDA and Adjusted EBITDA as reported by us to EBITDA or Adjusted EBITDA of other companies. For more information, see "*Presentation of Financial and Other Information—Presentation of Financial Information—Financial*

Statements—Presentation of Synlab Financial Information." The following table provides a reconciliation of operating profit/loss to EBITDA and EBITDA to Adjusted EBITDA for the periods indicated.

	Year ended December 31,			Three months ended March 31,		Twelve months ended March 31,
	2012	**2013**	**2014**	**2014**	**2015**	**2015**

Supplier dispute[e]	15.1	2.1	(2.0)	—	—	(2.0)
Settlement with health insurance funds[f]	—	2.3	3.3	—	—	3.3
Start-up losses[g]	0.8	1.1	0.8	0.2	0.2	0.8
Asset disposals and closures[h]	(0.2)	(0.3)	(0.5)	—	—	(0.5)
Expenses for legal disputes[i]	2.0	1.9	2.5	0.7	0.2	2.0
Adjusted EBITDA	**89.2**	**98.4**	**124.5**	**33.3**	**34.0**	**125.2**

(a) Represents reversal of impairments of customer lists in the amount of €21.0 million as a result of the improved earnings situation of the cash generating unit Germany.

(b) Represents expenses related to company acquisitions, net of passed-on consultancy expenses for such acquisitions, plus/less income/expenses from changes in value of contingent considerations as recorded in other operating income as well as other operating expenses. For the three months ended March 31, 2015, further represents expenses for legal disputes in Belgium in connection with a company acquisition net of income from a recharge against the seller of Laboratoire d'Analyses Medicales Dr. Jean Collard SPRL.

(c) Represents the sum of restructuring expenses as recorded in other operating expenses and termination benefits recorded in personnel expenses. These expenses relate to severance payments and consulting and legal costs in connection with the optimization of Synlab's laboratory network, which included the centralization of services at synlab Holding GmbH and the restructuring of Synlab's hospitals business in Germany.

(d) Reflects expenses/income from additions to other provisions for onerous contracts net of income from reversal of such provisions. These provisions for onerous contracts relate to certain hospital contracts in Germany.

(e) Reflects the impacts from the dispute with a significant supplier in connection with the termination of a "per reported result"—contract. In late 2011, the supplier terminated the contract and commenced sales of consumables to us at increased prices.

(f) Represents expenses from settlements with health insurance funds related to certain receivables allowances and write offs in 2013 and 2014. In 2013, synlab Medizinisches Versorgungszentrum Leinfelden-Echterdingen GmbH wrote off €2.3 million of receivables due to a temporary cancellation of a license in January 2013. Adjustments in 2014 related to receivables allowances and write offs at two Czech subsidiaries in connection with receivables from health insurance funds for the years 2009 to 2014.

(g) Represents the negative EBITDA of synlab UK Ltd. during its start-up phase. Due to the public tender business in the United Kingdom, the start-up phase was relatively long compared to other countries.

(h) Represents losses/income from disposals of non-current assets.

(i) Represents expenses for legal disputes recorded in other operating expenses.

(2) EBITDA margin for a given period is EBITDA for that period divided by revenue for that period. Adjusted EBITDA margin for a given period is Adjusted EBITDA for that period divided by revenue for that period.

(3) Synlab presents Estimated Adjusted EBITDA and Estimated Total Revenue as further supplemental measures of its operating performance.

Estimated Adjusted EBITDA for the twelve months ended March 31, 2015 has been derived from our Adjusted EBITDA for the same period and adjusted to reflect the estimates described below in order to give effect, among other things, to Synlab's acquisition of 20 laboratory companies (excluding three small asset deals in Germany in 2014) ("Acquired Companies") at different dates during the twelve months ended March 31, 2015, as if they had each occurred on April 1, 2014.

EBITDA of the entities acquired in Q2 2015 for the twelve months ended March 31, 2015[(l)]	3.3
Estimated Adjusted EBITDA	**139.1**

Estimated Total Revenue for the twelve months ended March 31, 2015 has been derived from Synlab's revenue for the same period and adjusted to reflect the estimates described below in order to give effect to its acquisition of the Acquired Companies during the twelve months ended March 31, 2015, as if they had each occurred on April 1, 2014.

The following table provides a reconciliation of revenue to Estimated Total Revenue for the period indicated.

	Twelve months ended March 31, 2015
	(unaudited) (€ millions)
Revenue	**736.6**
Adjustments	
Pro forma acquisition adjustments[(a)]	7.5
Estimated Total Revenue	**744.1**

(a) Estimated Adjusted EBITDA and Estimated Total Revenue include the estimated effect on EBITDA and revenue, respectively, from the Acquired Companies Synlab closed in the twelve months ended March 31, 2015. These amounts are estimates, in part because (i) historical income statement information was generally not available for the acquired companies for the full period prior to closing the acquisitions and (ii) adjustments have been made to the historical financial information of the acquired companies as described below.

Synlab has made adjustments to Adjusted EBITDA and revenue to reflect the impact of the acquisition of the Acquired Companies acquired during the twelve months ended March 31, 2015 according to the following methodology:

- EBITDA and revenue for the twelve months ended March 31, 2015 for each of the Acquired Companies which were acquired during the twelve months ended March 31, 2015 have been calculated in a two-step approach:
  - EBITDA and revenue for the period between the closing date of the respective acquisition and March 31, 2015 have been derived from our accounting systems, since commencing with the closing of the respective acquisition, the respective Acquired Companies were part of Synlab's finance and consolidation process;
  - EBITDA and revenue for the period between April 1, 2014 and the closing date of the respective acquisition have been calculated by using available financial information for the respective Acquired Companies; i.e. EBITDA and revenue of each of the Acquired Companies for such period have been calculated on the basis of (i) audited financial statements of the respective Acquired Company prepared under local generally accepted accounting principles, or (ii) in the absence of audited financial statements, unaudited financial information (including unaudited financial information available to Synlab from due diligence reports), or (iii) in the absence of unaudited financial information, internal management accounts, or (iv) in the absence of internal management accounts, on the basis of the latest financial information provided to Synlab by the respective Acquired Company;
  - EBITDA and revenue adjustments did not take into account seasonality but have been used on a pro-rata basis, and were adjusted on a case-by-case basis to give estimated *pro forma* effect from April 1, 2014 to any non-recurring or extraordinary effects (such as contractual adjustments or remuneration changes) as if the adjustments were made at the beginning of the twelve months ended March 31, 2015;

- Furthermore, in case of material deviations between EBITDA and revenue of the respective Acquired Companies calculated on local generally accepted accounting principles compared to EBITDA and revenue in accordance with IFRS as adopted by the EU, EBITDA and revenue were converted to IFRS by applying, on a case-by-case basis, IFRS-adjustments to EBITDA and revenue for such relevant period; and
- Finally, in case EBITDA and/or revenue for the relevant period were affected by material non-recurring or extraordinary items, Synlab made estimated adjustments to EBITDA and revenue of the respective Acquired Companies.

  The presentation of Estimated Adjusted EBITDA and Estimated Total Revenue is for information purposes only. This information does not represent the results Synlab would have achieved had each of the acquisitions for which an adjustment is made been occurred and been fully integrated on April 1, 2014. The calculations for Estimated Adjusted EBITDA and Estimated Total Revenue are based on various assumptions, management estimates and the unaudited internal financial statements or management accounts or other available financial information of the Acquired Companies, some of which differ from IFRS. These numbers have not been, and cannot be, audited, reviewed or verified by any independent accounting firm. This information is inherently subject to risks and uncertainties. It may not give an accurate or complete picture of the financial condition or results of operations of the relevant Acquired Companies for periods prior to their acquisition, may not be comparable to Synlab's consolidated financial statements or the other financial information included in this offering memorandum and should not be relied upon when making an investment decision. Estimated Adjusted EBITDA is included in this offering memorandum because Synlab believes that it provides a useful measure of its results of operations; however, this information does not constitute a measure of financial performance under IFRS, and you should not consider Estimated Adjusted EBITDA as an alternative to operating income or any other performance measure derived in accordance with IFRS or as a measure of Synlab's results of operations or liquidity. Other companies, including those in Synlab's industry, may calculate a similarly titled financial measure differently from Synlab, and so the presentation of such financial measures may not be comparable to other similarly titled measures of other companies. Funds depicted by certain of these measures may not be available for management's discretionary use due to covenant restrictions, debt service payments or other commitments.

(b) Represents reductions of costs in connection with the termination of a hospital contract in and the renegotiation of three hospital contracts, all in Berlin, Germany. We have calculated the twelve-month impact of the rental contract termination to fully reflect this effect in the twelve months ended March 31, 2015.

(c) Represents the impact of post-merger integration and efficiency measures related to the relocation of five blood collection points and the relocation of Synlab's central laboratory to Brescia during 2014, including the reduction of rental and other operating costs. Synlab has calculated the twelve-month impact to fully reflect this effect in the twelve months ended March 31, 2015.

(d) Represents elimination of rental costs in connection with the cancellation of a laboratory rental contract in Switzerland in 2014. Synlab has calculated the twelve-month impact of the rental contract cancellation to fully reflect this effect in the twelve months ended March 31, 2015.

(e) Represents the effect from the ongoing implementation of certain operational excellence initiatives targeted at the reduction of materials costs and, to a lesser extent, transportation costs as well as a new hospital outsourcing contract in Germany.

(f) Represents the effect from operational measures focused on optimizing supplier expenses, including, in particular, in Switzerland and Germany.

(g) Represents adjustments related to the closure of laboratories in the United Kingdom and Germany.

(h) Represents out-of-period revenues exceeding the regular rolling effect from prior period reimbursement with the public health insurance incurred in 2014 in Weiden. Such revenues were not recorded in 2013 when the reimbursement was under dispute, leading to recognition in the later period.

(i) Represents Swiss pension service costs in excess of cash payments.

(j) Represents adjustments largely relating to certain smaller items of less than €250,000 across several countries, mainly from receivables write-offs, re-phasing of provision releases and foreign exchange profits, which generally off-set each other.

(k) Represents the impact from the phasing of a large 10-year hospital outsourcing contract in Melnik, Czech Republic that was signed at the end of 2014 but effective only during the first quarter of 2015. Synlab has calculated the twelve-month impact of this contract to fully reflect this effect in the twelve months ended March 31, 2015.

(l) Represents the estimated effect on EBITDA from the acquisitions Synlab signed and partly closed since the first quarter ended March 31, 2015. These amounts are estimates, in part because (i) historical income statement information was generally not available for the acquired companies for the full period prior to closing the acquisitions and/or (ii) adjustments have been made to the historical financial information of the acquired companies as described in note (d) above. Since March 31, 2015, Synlab has completed the acquisition of laboratories or laboratory service providers in Germany, Ghana and Austria and signed an acquisition agreement in connection with the purchase of an entity in Romania. The first of three scheduled closings of the Romania acquisition occurred in the second quarter of 2015 and Synlab has the option to complete the remaining closings at its discretion. See "*Summary—Recent Developments—Recent Acquisitions—Synlab*" for more information.

(4) Estimated Adjusted EBITDA margin, expressed as a percentage, represents Estimated Adjusted EBITDA divided by Estimated Total Revenue.

(5) EBITDA, Adjusted EBITDA, Estimated Adjusted EBITDA and Estimated Total Revenue are not measurements of financial performance under IFRS or U.S. GAAP and should not be considered as alternatives to other indicators of our operating performance, cash flows or any other measure of performance derived in accordance with IFRS or U.S. GAAP. EBITDA, Adjusted EBITDA, Estimated Adjusted EBITDA and Estimated Total Revenue, as presented in this offering memorandum, may differ from, and may not be comparable to, similarly titled measures used by other companies and from "Consolidated EBITDA" contained in "*Description of the Senior Secured Notes*" and "*Description of the Senior Notes*" and in the Indentures. Synlab presents EBITDA, Adjusted EBITDA, Estimated Adjusted EBITDA and Estimated Total Revenue for informational purposes only. This information does not represent the results Synlab would have achieved had each of the transactions for which an adjustment is made occurred at the dates indicated. There is no assurance that items Synlab has identified for adjustment as non-recurring will not recur in the future or that similar items will not be incurred in the future. The calculations for Adjusted EBITDA, Estimated Adjusted EBITDA and Estimated Total Revenue are based on various assumptions, management estimates and unaudited management accounts. These amounts have not been and, in certain cases, cannot be audited, reviewed or verified by any independent accounting firm. This information is inherently subject to risks and uncertainties. It may not give an accurate or complete picture of the financial condition or results of operations of the transactions for the periods presented and may not be comparable to the Synlab Financial Statements or the other financial information included in this offering memorandum and should not be relied upon when making an investment decision. EBITDA, Adjusted EBITDA, Estimated Adjusted EBITDA and Estimated Total Revenue have limitations as analytical tools and should not be considered in isolation or as a substitute for analysis of Synlab's operating results as reported under IFRS. See "*Presentation of Financial and Other Information*."

SUMMARY HISTORICAL CONSOLIDATED FINANCIAL INFORMATION AND OTHER DATA OF LABCO

The following tables present summary historical consolidated financial information and other data for Labco for the periods ended and as of the dates indicated below.

Labco's financial data as of and for each of the years ended December 31, 2012, 2013 and 2014 included in the summary historical consolidated financial information have been derived from the Labco Audited Financial Statements included elsewhere in this offering memorandum. The audited consolidated financial statements for the years ended December 31, 2013 and 2014 were prepared in accordance with IFRS and have been audited by Labco's statutory auditors, Deloitte & Associés and Aplitec. The audited consolidated financial statements for the year ended December 31, 2012 were prepared in accordance with IFRS and have been audited by Labco's statutory auditors at that time, Deloitte & Associés and Pierre Henri Scacchi et Associés. Free English translations of their audit reports are included elsewhere in this offering memorandum, together with the Labco Audited Financial Statements.

Labco's financial data as of and for each of the three months ended March 31, 2014 and 2015 included in the summary consolidated financial information have been derived from the Labco Unaudited Interim Financial Statements included elsewhere in this offering memorandum. The Labco Unaudited Interim Financial Statements were prepared in accordance with IAS 34 and include unaudited comparable information for the three-month period ended March 31, 2014. The Labco Unaudited Interim Financial Statements have been reviewed by Labco's statutory auditors. A free English translation of this report has been included in this offering memorandum, together with the Labco Unaudited Interim Financial Statements.

The Labco Financial Statements included in this offering memorandum have not been adjusted to reflect the impact of any changes to the income statements, balance sheet or cash flow statements that might occur as a result of purchase accounting adjustments to be applied as a result of the Acquisitions, nor have they been adjusted to reflect the impact of any changes to the balance sheet as a result of limitations on our ability to use certain net operating loss carryforwards for income tax purposes following the Acquisitions. Labco expects that part of the carrying value for deferred tax assets on its balance sheet may be reduced as a result of a potential postponement of its ability to use them. Only the loss carryforwards of Labco's subsidiary in Germany will be definitively lost as a result of the Acquisitions, although these were not booked as deferred tax assets in the Labco Financial Statements. In addition, the application of purchase accounting could result in different carrying values for existing assets and assets Labco may add to its balance sheet, which may include intangible assets such as goodwill, and different amortization and depreciation expenses. Labco's financial statements could be materially different from the Labco Financial Statements included in this offering memorandum once the adjustments are made.

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from September 30, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated financial statements as of and for the year ended December 31, 2013, the contribution of its German operations appears separately under the line item "net profit of the period from discontinued operations" rather than under each line item where such contribution was previously recorded, and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated financial statements was restated. Labco has not restated its consolidated financial statements as of and for the year ended December 31, 2012, and such financial statements are therefore not directly comparable with its financial statements as of and for the year ended December 31, 2013.

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco's results as of and for the years ended December 31, 2013 and 2014 are not directly comparable. In addition, Labco's results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group's results are fully consolidated in Labco's results of operations for the three months ended March 31, 2015. Labco's results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

Since January 1, 2015 Labco has applied IFRIC 21 (*Levies*) with impacts to its results of operations recognized retrospectively in accordance with IAS 8 (*Accounting Policies, Changes in Accounting Estimates and Errors*). IFRIC 21 provides guidance on recognition of a liability to pay taxes (except for income taxes). IFRIC 21 modifies existing practices for the payment of annual taxes, which, for an entity, is triggered by being in operation on a certain date or by achieving a certain level of activity. The impact of IFRIC 21 on the Labco Group is limited to the time at which it recognized a French levy known as "C3S" (*contribution sociale de solidarité des sociétés*). To improve the comparability of Labco's results of operations for the three months ended March 31, 2015, Labco's consolidated statement of income for the comparative period of March 31, 2014 has been restated in order to reflect the impact of IFRIC 21 on the gross amount (excluding deferred tax effect of €0.1 million), which amounts to €0.4 million in other operating expenses. The application of IFRIC 21 has no impact on cash flow from operating activities as the corresponding reduction in EBITDA is offset by an increase in other current liabilities.

The summary unaudited historical consolidated financial data as of and for the twelve months ended March 31, 2015 included in the summary historical consolidated financial information have been derived by adding the consolidated financial data of Labco as of and for the year ended December 31, 2014 to the consolidated financial data of Labco as of and for the three months ended March 31, 2015 and subtracting the consolidated financial data of Labco as of and for the three months ended March 31, 2014. The financial data for the twelve months ended March 31, 2015 have been prepared for illustrative purposes only and are not necessarily representative of Labco's results of operations for any future period or its financial condition at any future date. Such compilation has not been audited or reviewed.

The following tables should be read in conjunction with "*Use of Proceeds*," "*Capitalization*," "*Selected Historical Consolidated Financial Information of Labco*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*," "*Description of the Senior Secured Notes*," "*Description of the Senior Notes*" and the Labco Financial Statements included elsewhere in this offering memorandum. Historical results are not necessarily indicative of future expected results. In addition, Labco's results for the three months ended March 31, 2015 should not be regarded as indicative of our expected results for the year ended December 31, 2015.

Summary Consolidated Statement of Income

	Year ended December 31,			Three months ended March 31,		Twelve months ended March 31, 2015 (unaudited)
	2012 (restated)	2013	2014	2014 (restated) (unaudited)	2015 (unaudited)	
				(€ millions)		
Revenue	511.4	544.2	611.3	150.4	179.0	639.9
Other income	2.9	3.1	4.4	0.6	1.2	5.0
Total revenue	**514.2**	**547.3**	**615.6**	**151.0**	**180.2**	**644.8**
Cost of sales	(111.3)	(122.8)	(140.1)	(33.5)	(41.6)	(148.2)
Payroll-related expenses	(219.6)	(232.5)	(256.8)	(61.9)	(70.2)	(265.1)
Share-based payment (warrants)	(0.6)	(0.3)	(2.0)	0.0	(0.9)	(2.9)
Other operating expenses	(77.7)	(84.5)	(102.1)	(22.6)	(29.0)	(108.5)
Transactions costs for usual small size acquisitions	(1.5)	(1.0)	(1.5)	(0.4)	(0.3)	(1.4)
EBITDA[(1)]	**103.4**	**106.3**	**113.2**	**32.5**	**38.3**	**119.0**
Depreciation, impairment losses and amortization, provisions and reversals	(17.6)	(19.0)	(24.2)	(5.1)	(6.7)	(25.8)
Results from operating activities before non-recurring activities	**85.8**	**87.3**	**89.1**	**27.5**	**31.6**	**93.2**
Non-recurring income and expenses	(6.5)	0.3	(20.8)	(0.6)	(1.1)	(21.3)
Results from operating activities after non-recurring activities	79.3	87.5	68.2	26.9	30.5	71.8
Net finance costs	(53.8)	(59.1)	(64.5)	(15.1)	(16.2)	(65.6)
Income tax expenses	(18.6)	(21.1)	(18.7)	(6.7)	(8.1)	(20.1)
Share of profit of associates	(0.1)	(1.3)	0.4	0.0	0.0	0.4
Net profit of the period from continuing operations	**6.9**	**6.0**	**(14.6)**	**—**	**—**	**—**
Net profit of the period from discontinued operations	(35.0)	6.8	0.0	—	—	—
Net profit of the period	**(28.1)**	**12.8**	**(14.6)**	**5.1**	**6.3**	**(13.4)**
Profit attributable to non-controlling interest	0.4	0.1	0.4	0.2	0.1	0.3
Profit attributable to the owners of the company	(28.5)	12.7	(15.0)	4.9	6.2	(13.7)

(1) EBITDA represents net profit before (i) income tax expenses, net, (ii) finance costs, (iii) depreciation, impairment losses and amortization, provisions and reversals, (iv) share profit of associates and (v) non-recurring income and expenses. EBITDA as presented here differs from the definition of "Consolidated EBITDA" contained in the Indentures.

Total cash flows (A+B+C)	**(11.6)**	**111.4**	**(93.5)**	**(42.3)**	**9.5**
Cash and cash equivalent at the beginning of the period	67.7	56.1	167.4	167.4	74.0
Change effect in foreign exchange rate	(0.0)	(0.1)	0.1	0.0	0.2
Cash and cash equivalent at the end of the period	56.1	167.4	74.0	125.1	83.8
Net increase (decrease) in cash and cash equivalents	**(11.6)**	**111.4**	**(93.5)**	**(42.3)**	**9.5**

(1) EBITDA represents net profit before (i) income tax expenses, net, (ii) finance costs, (iii) depreciation, impairment losses and amortization, provisions and reversals, (iv) share profit of associates non-recurring and (v) income and expenses. EBITDA as presented here differs from the definition of "Consolidated EBITDA" contained in the Indentures.

Summary Other Financial Data

	Year ended December 31,			Three months ended March 31,		Twelve months ended March 31, 2015
	2012 (restated)	2013	2014	2014	2015	
				(unaudited)	(unaudited)	(unaudited)
				(€ millions)		
Other data						
EBITDA	103.4	106.3	113.2	32.5	38.3	119.0
EBITDA margin[(1)]	20.1%	19.4%	18.5%	21.5%	21.3%	18.3%
Adjusted EBITDA[(2)]						127.3
Estimated *Pro Forma* Adjusted EBITDA[(3)]						149.0

(1) EBITDA margin, expressed as a percentage, represents EBITDA divided by total revenue.

(2) Adjusted EBITDA represents EBITDA as adjusted for certain costs identified in the table below. Adjusted EBITDA is not a measure of financial performance under IFRS, and you should not consider Adjusted EBITDA as an alternative of any other measure of performance derived in accordance with IFRS.

The reconciliation of our EBITDA to our Adjusted EBITDA for the twelve months ended March 31, 2015 is as follows:

	Twelve months ended March 31, 2015
	(unaudited) (€ millions)
EBITDA	119.0
Share-based payments (warrants)[(a)]	2.9
Transactions costs for usual small size acquisitions[(b)]	1.4
One-off severance payments[(c)]	0.2
VAT loss on recharge of corporate headquarter costs[(d)]	1.0
Mobilization costs[(e)]	0.5
Priority Dividend buy-backs[(f)]	0.3
UK transitional period losses[(g)]	2.0
Adjusted EBITDA	**127.3**

(a) Represents non-cash expenses recognized as a result of the vesting of rights to obtain warrants for people rendering services to the Group, mainly employees.

(b) Represents costs incurred in connection with acquisitions, including legal, due diligence and other advisory fees.

(c) Represents one-off severance payments to employees.

(d) Represents the loss attributable to the invoicing of non-recoverable VAT upon recharging corporate headquarter costs incurred by Labco S.A. to its subsidiaries, which cost recharging is discretionary and could be discontinued at any time.

(e) Represents costs associated with tendering for significant contracts with NHS trusts in the United Kingdom, including legal fees and advisory fees for tender consultants.

(f) Represents the effect of the buy-backs, completed on January 1, 2015, of Priority Dividends, which consist of a variable remuneration paid by certain of our SELs to certain laboratory doctors who sold their laboratories to us but remained shareholders of the SEL operating such laboratories. These Priority Dividends are calculated based on the performance of the SEL in which the relevant laboratory doctor works. Cost savings resulting from the buybacks are estimated at approximately € 0.5 million per year.

(g) Represents losses incurred since the signing of several outsourcing contracts with NHS trusts in October 2014. Outsourced laboratory services for certain NHS trusts generate losses in the first few years of the contracts while the outsourced operations are ongoing but the expected headcount and platform based efficiencies have not been achieved.

(3) Estimated *Pro Forma* Adjusted EBITDA for the twelve months ended March 31, 2015 has been derived from our Adjusted EBITDA for the same period as adjusted for (i) the full-year effect of the acquisition of the SDN Group, eight separate laboratory companies and three unincorporated clinical laboratories (the entities acquired between April 1, 2015 and June 1, 2015 (the "Q2 2015 Acquired Entities"), together with the SDN Group and the companies acquired between April 1, 2014 and March 31, 2015, the "Acquired Entities") at different dates between April 1, 2014 and June 1, 2015, (ii) the disposal of the Spanish laboratory company Sabater Pharma in July 2014 and (iii) annual estimated cost savings with respect to the Acquired Entities, as well as annual estimated cost savings expected to result from the concentration of our operations in Barcelona, as if they had occurred prior to and were fully integrated by April 1, 2014.

The presentation of Estimated *Pro Forma* Adjusted EBITDA is for informational purposes only. This information does not represent the results we would have achieved had each of the acquisitions for which an adjustment is made occurred and been fully integrated on April 1, 2014. The calculations for Estimated *Pro Forma* Adjusted EBITDA are based on various assumptions and management estimates. The EBITDA of each of the relevant Acquired Entities for the year ended December 31, 2014 may not be representative of what the EBITDA of such Acquired Entities would have been for the twelve months ended March 31, 2015. These numbers have not been, and cannot be, audited, reviewed or verified by any independent accounting firm. This information is inherently subject to risks and uncertainties. It may not give an accurate or complete picture of the financial condition or results of operations of the relevant Acquired Entities for periods prior to their acquisition, may not be comparable to our consolidated financial statements or the other financial information included in this offering memorandum and should not be relied upon when making an investment decision. Estimated *Pro Forma* Adjusted EBITDA is included in this offering memorandum because we believe that it provides a useful measure of our results of operations; however, this information does not constitute a measure of financial performance under IFRS, and you should not consider Estimated *Pro Forma* Adjusted EBITDA as an alternative to operating income or any other performance measure derived in accordance with IFRS or as a measure of our results of operations or liquidity. Other companies, including those in our industry, may calculate a similarly titled financial measure differently from us, and so the presentation of such financial measures may not be comparable to other similarly titled measures of other companies. Funds depicted by certain of these measures may not be available for management's discretionary use due to covenant restrictions, debt service payments or other commitments.

The reconciliation of our Adjusted EBITDA to our Estimated *Pro Forma* Adjusted EBITDA is as follows:

	Twelve months ended March 31, 2015
	(unaudited) (€ millions)
Adjusted EBITDA	127.3
EBITDA of the SDN Group between its date of acquisition and March 31, 2015	(12.1)
EBITDA of the SDN Group for the year ended December 31, 2014[(a)]	21.9
EBITDA of the Q2 2015 Acquired Entities for the twelve months ended March 31, 2015[(a)]	7.1
EBITDA of Sabater Pharma between April 1, 2014 and the date of its disposal	(0.1)
Annual estimated cost savings with respect to the Acquired Entities[(b)]	3.2
Annual estimated cost savings from the concentration of our operations in Barcelona[(c)]	1.7
Estimated *Pro Forma* Adjusted EBITDA	**149.0**

(a) EBITDA of the SDN Group and the Q2 2015 Acquired Entities represents the aggregate EBITDA of each of such entities for the period from April 1, 2014 to March 31, 2015. These amounts are estimates in part because historical income statement information was not available for certain of these entities for the twelve months ended March 31, 2015 and such information has been converted and adjusted by us as described below. See "*Labco Unaudited Pro Forma Financial Information*."

We have estimated the EBITDA of the SDN Group and the Q2 2015 Acquired Entities using the following methodology:

- we have generally assumed that the EBITDA of the SDN Group and each Q2 2015 Acquired Entity for the twelve months ended March 31, 2015 was equal to the EBITDA of such entity for the year ended December 31, 2014;
- EBITDA of the SDN Group and each Q2 2015 Acquired Entity for the year ended December 31, 2014 was calculated on the basis of the audited historical annual financial statements of such entity prepared under relevant local generally accepted accounting principles or in the absence of audited financial statements on the basis of unaudited financial statements tax returns or unaudited internal management accounts; and
- EBITDA estimates of the SDN Group and the Q2 2015 Acquired Entities were then converted to our accounting policies by our management.

(b) Represents annual estimated synergies with respect to, and assuming full integration of, the Acquired Entities, including (i) a reduction in the cost of sales of the Acquired Entities through applying our known group purchasing cost base for reagents used in our testing procedures to the entities we acquire, (ii) the optimization of the workforces of the Acquired Entities through headcount reductions and restructuring management compensation arrangements and (iii) a reduction in other costs related to the operations of the Acquired Entities, primarily logistics costs and administrative expenses through applying our centralized group administrative function across the entities we acquire. We estimate annual synergies on the basis of standardized integration procedures applied to each acquisition we complete, which includes a compliance certificate that is used to track future performance. This compliance certificate includes key action items that we believe will result in synergies and upon execution of any such action we record corresponding synergy realizations reviewed every six months up until two to three years after the acquisition closes.

Our acquisitions of the Acquired Entities can be broadly categorized as follows:

Firstly, we target incremental acquisitions (or "bolt-on" acquisitions) in zones where we already have technical platforms since this allows us to restructure the acquired entities to enable application of our group purchasing and administrative cost base and leads to the rapid implementation of such cost synergies. In the case of these bolt-on acquisitions, which typically have an enterprise value of less than € 10.0 million, we aim to achieve all of the synergies within 12 to 24 months, with approximately half of the synergies expected from the transaction in the first year following the acquisition and then virtually all the remaining synergies during the second year following the acquisition. In 2014 and 2015, estimated synergies with respect to bolt-on acquisitions represented approximately 40% of our total expected synergies. There can be no assurance, however, as to when any such synergies will be achieved or whether such synergies will be achieved at all. See "*Risk Factors—Risks Related to Our Commercial Activities—We face risks associated with our strategy of acquiring companies*" "*Risk Factors—Risks Related to Our Commercial Activities—We may be unable to realize the expected cost savings from our recently acquired businesses and any future potential acquisition*" and "*Business—Acquisitions and External Growth Strategy*."

Secondly, we are interested in acquisitions that enable us to improve our coverage of a given region, which primarily means acquiring large platforms in new markets from which we will be able to implement our strategy of consolidating smaller operators and/or allow us to acquire new scientific or technological capabilities that can subsequently be deployed throughout our network. These acquisitions can take different forms, including purchasing multiple laboratories with the aim of combining them into a single platform and/or construction of a large centralized facility for the region. In the case of these larger acquisitions, which typically have an enterprise value of more than €10.0 million, we aim to achieve all of the synergies within the same time period as the bolt-on acquisitions; however, a greater proportion of the synergies for such larger acquisitions are usually realized in the second year following the acquisition or may be delayed further, sometimes significantly, since implementing the measures required to realize the synergies typically takes longer. This is primarily because there are often greater numbers of employees at such laboratories and so the time it takes to comply with employment regulations in relation to such employees and negotiate with works councils or other trade bodies generally takes longer. In 2014 and 2015, estimated synergies with respect to larger acquisitions represented approximately 60% of our total expected synergies. There can be no assurance, however, as to when any such synergies will be achieved or whether such synergies will be achieved at all. See "*Risk Factors—Risks Related to Our Commercial Activities—We face risks associated with our strategy of acquiring companies*," "*Risk Factors—Risks Related to Our Commercial Activities—We may be unable to realize the expected cost savings from our recently acquired businesses and any future potential acquisition*" and "*Business—Acquisitions and External Growth Strategy*."

Historically, we believe this methodology, which we use when valuing the Acquired Entities in connection with our decision to purchase such Acquired Entities, has proven reasonably accurate. We estimate that as of December 31, 2013, we had realized 80% of the expected cost-saving synergies planned with respect to acquisitions completed in 2011 and 2012 and from January 1, 2014, we continued to work on implementing the remaining 20% of synergies. Accordingly, we have only included 80% of the synergies that we expect to generate in the figure shown above for acquisitions completed in 2014 and 2015 for the purpose of calculating Estimated *Pro Forma* Adjusted EBITDA.

(c) Represents annual estimated rental cost savings and productivity gains expected to be generated following the consolidation of six laboratories and one administrative office in Barcelona into a single platform, which is due to complete in the second half of 2015. We estimate we will realize productivity gains, notably from headcount reductions, overhead cost reductions resulting from the concentration of our operations in one single facility, and the termination of the lease agreements for the facilities that are being transferred.

RISK FACTORS

An investment in the Notes involves risks. You should carefully consider the risks described below before deciding to invest in the Notes. In assessing these risks, you should also refer to the other information in this offering memorandum, including our financial statements and related notes. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties that are not currently known to us or that we currently consider immaterial could also impair our business, financial condition, operating results and our ability to make payments on the Notes.

This offering memorandum also contains forward-looking statements that involve risks and uncertainties. Our actual results may differ materially from those included in these forward-looking statements as a result of various factors, including the risks described below and elsewhere in this offering memorandum.

Risks Related to Our Business

We operate in a highly regulated sector. Compliance with regulations applicable to our activities may increase our costs or restrict our activities. Failure to comply with such regulations may lead to penalties of various types. Future alterations to regulations applicable to us may have a material adverse impact on our activities.

The medical diagnostics industry (including clinical laboratory testing) is subject to extensive regulations and controls by various regulatory authorities in each of the countries in which we operate. Those regulations and controls have a major influence on the way we carry out our activities. For clinical laboratories, those regulations mainly pertain to operating requirements, professional qualifications of laboratory personnel, ownership and corporate governance constraints on companies that operate laboratories (which are especially strict in France), and the pricing and reimbursement levels of clinical tests. Our activities are also subject to numerous other laws and regulations, particularly as regards the handling and storing of certain chemicals and reagents, the disposal of biological waste (waste from care activities that carry a risk of infection), the handling and storage of personal data (including patients' medical records and test results), *relationships with doctors and hospitals (including laws and regulations prohibiting kickbacks and regulating gifts and fringe benefits)* and the prevention of fraud to social security systems. Our compliance with such regulations is monitored by the relevant administrative authorities in the countries and regions in which we operate, as well as by the competent professional associations such as the *Ordre des médecins* and the French *Ordre des pharmaciens*, which are self-regulatory bodies holding disciplinary powers over Labco's SELs and Labco's laboratory doctors in France, and which also maintain the registries of companies which operate clinical laboratories and laboratory doctors allowed to exercise in France. For Synlab's business in Germany, various public authorities monitor the regulatory compliance, depending on the location of the respective medical care center (*medizinische Versorgungszentren*) ("MVZ") and on the regulation to be monitored. The regional associations of public statutory health insurance (*gesetzliche Krankenversicherung*) ("SHI") physicians play a key role in the authorization of MVZ and the reimbursement of laboratory services.

Compliance with current or future laws and regulations may cause an increase in our administrative, legal and operational expenditure, force us to alter our commercial practices, our legal organization, the ownership structure and corporate governance of our subsidiaries or, more generally, reduce or limit our revenue. Those laws and regulations have a broad scope of application and their interpretation by the competent administrative authorities or professional associations is subject to change. Potential efforts to bring us in compliance with existing laws and regulations, with new interpretations of such laws and regulations, or with new laws and regulations may generate substantial new costs for us. Failure to comply with such regulations may also lead to sanctions of various kinds for us and potentially for laboratory doctors working for us. Sanctions may be administrative (fines, periodic penalty payments, temporary or permanent closures of laboratories), disciplinary (temporary or permanent removal of the right to practice), civil (damages), or criminal (a ban on operating a clinical laboratory or imprisonment).

For example, France has introduced minimum accreditation standards with which laboratories have to comply between 2016 and 2020. The implementation of these standards is proving costly and time consuming for Labco. The laboratory accreditation process is likely to require the preparation of a written application, the undertaking of site studies, assessment of the extent of changes required to comply with the new standards, the appointment of external qualified experts, the participation of Labco's staff in this process in addition to their usual workload, the payment of certain administrative fees and the implementation of new quality-control software. Accreditation may be delayed due to many factors, including the number of sites operated by a clinical laboratory and the responsiveness of the accreditation body, COFRAC. See "*Regulation—France*." The noncompliance by Labco's laboratories with the accreditation standards may force the noncomplying laboratories to abandon the activities for which they were not accredited.

Laws and regulations may also require Synlab to modify its operations or impose additional compliance expenses or burdens on it. For example, in Germany, new legislation was introduced in 2012 restricting ownership in MVZ to SHI-authorized physicians, SHI-authorized hospitals, licensed non-physician dialysis service providers and non-profit providers already licensed to provide services to publicly insured patients. Furthermore, in 2013, laboratory specialists became subject to capacity planning (*Bedarfsplanung*), which means that admission to practice in certain areas of specialization is restricted due to oversupply. These and future changes in German regulations may make the acquisition of new MVZ more difficult for Synlab and impair its ability to execute its growth strategy. See "*Regulation—Germany—Laboratory Diagnostics*."

In the Czech Republic, the Czech Institute of Accreditation introduced stricter certification and accreditation requirements in 2011, which certain health insurance providers in the Czech Republic, including the largest by number of insured customers, have as a mandatory pre-requisite for contracts with clinical laboratory service providers. In 2013, the Czech Ministry of Health introduced significant further reimbursement reductions for clinical laboratories which do not meet the requirements of such certifications, which could have a material impact on Synlab's revenue.

In Italy, recent regulations in Campania require accredited clinical laboratories that do not meet a minimum test volume threshold by 2016 to close as accredited laboratories or join a laboratory network. The required minimum test volume threshold is expected to increase further in the future in order to retain national health service accreditation and, thus, continue to operate a clinical laboratory and be entitled to reimbursements.

In general, if we fail to comply with applicable regulations, if they change or are interpreted in a manner adverse to us or if we cannot maintain, renew or secure required permits, licenses, accreditations, agreements or other necessary administrative authorizations, we may be unable to pursue our activities or market our services in the relevant jurisdictions, be excluded from participating in public healthcare programs, no longer be able to enter into contracts with third-party payers, suffer penalties or civil and criminal fines, or be subject to complaints by third parties, with the financial consequences that may result.

Changes affecting certain regulations or government programs that are not directly connected with the medical diagnostics sector, and in particular regulations relating to prescription control, co-payment, doctors, health insurers and hospitals, may also affect us and impair our operating results and our ability to expand our activities. For example, the 2010 amendment of the Portuguese regulation on doctors' pension plans caused a significant number of practicing doctors to retire before the amendment came into effect, reducing the number of practicing doctors and therefore the amount of medical prescriptions we received.

In all of the aforementioned cases, our reputation could be damaged and important relationships with government regulators or third parties could be adversely affected, resulting in a material adverse effect on our activities, development, operating results, financial condition and outlook.

The prices we may charge in certain markets are set by government-enforced rates that are often decreasing.

In many countries, our activities are subject to regulated rates (particularly for clinical services), since our services are provided under public health programs funded partly or entirely by governments. As a result, some or all of the clinical testing services provided by us are subject to prices or required rate-determination methods that are generally set by governmental authorities, and we have only limited influence on them. Rates may be revised at any time and recent revisions have involved reductions in rates. Tariff decreases may reduce our margins and may adversely affect our revenue from testing services and our operating results or even the feasibility of providing certain testing services by some or all of our laboratories. Due to continued economic and financial instability as well as increased pressure on public spending in Europe, further tariff decreases in the countries in which we operate are possible and any such decreases could be significant.

In the year ended December 31, 2014, Synlab estimates that approximately 29% of its revenue from human medicine in Germany, Switzerland, Italy, the Czech Republic and Belgium (the revenue from human medicine in those countries together accounted for 76.2% of Synlab's revenue in the year ended December 31, 2014) was generated from health insurance providers subject to regulated tariffs and approximately 26% and 31% of Synlab's revenue from human medicine in such countries was generated from private payers or other payers, respectively, with which prices for our laboratory testing services are freely negotiated. Tariffs or volume quotas are often established by or negotiated with governments and other authorities or regulatory bodies, and Synlab has limited or no influence over the levels at which they are set.

The recent financial crisis caused significant adverse changes to the prices of sovereign debt and increased financing costs for certain European countries, such as Spain and Portugal. In order to address market concerns regarding their budgetary imbalances, those countries' governments have adopted particularly harsh austerity measures that have included reductions in healthcare spending. Other European countries, including France, Italy and the United Kingdom, have also announced austerity measures aimed at curbing public healthcare expenditure. We must deal with such measures, which affects services provided by us in particular.

Governments typically control healthcare expenditure by reducing rates or reimbursement levels, seeking to reduce the number of tests prescribed by doctors, and limiting the testing services covered by their health, welfare or social security programs. In particular, the French government encourages healthcare professionals to limit the number of tests prescribed. Governments' reimbursement schemes often limit the range of tests that are covered, and certain preexisting or innovative tests that provided higher margins to us may be excluded from such coverage.

In countries such as Spain, where prices are not currently regulated, government price containment measures may impact our activities, since the public healthcare system covers most of the population. In Portugal, the Memorandum of Understanding on Specific Economic Policy Conditionality between the European Commission, the International Monetary Fund and the Central Bank was enacted in 2011 in response to the economic bailout, and resulted in financial aid of €78 billion on the basis of a three-year policy program until mid-2014. We estimate that this program, which included the aim of reducing national spending on healthcare by 10% in both 2011 and 2012, has resulted in price reductions for certain tests in Portugal since October 2011. According to the latest data available from the Portuguese national statistics institute (*Instituto Nacional de Estatistica*), public healthcare spending fell 1.1% in 2013 and 9.9% in 2012. In addition, two public healthcare insurance funds harmonized their rates in Portugal in 2012, which we believe has resulted in price reductions for certain tests in Portugal since August 2012.

In Italy, a new national pricing program (*nomenclatore tariffario*) was decided in January 2013 and provides regions with non-mandatory recommendations regarding the rates they adopt. The Liguria region adopted these new rates in October 2013 and the Campania region did so in March 2013. The adoption of these measures led to a reduction in our revenue relative to 2012. Lombardy adopted those rates in June 2015 along with significant changes in the structure of the regional healthcare system in the future. This may cause a material reduction in revenue for laboratories operated by us in the region. The Italian government has also set up a specialist committee to review national rates, which are due to be updated in 2015. This could lead to additional rate cuts, depending on whether the various regions adopt the rates.

Efforts to reduce public healthcare expenditure are also being made in Belgium.

In France, an agreement was signed on October 10, 2013 by the main French professional biologists' trade unions and UNCAM following the government's announcement of its plan to cut healthcare spending on French clinical laboratories by at least €110 million in 2012. The agreement aims to map out the business prospects of clinical laboratories for a three-year period while continuing to control healthcare spending. It aims to limit annual growth in clinical spending to 0.25% between 2014 and 2016, through moderate, gradual rate reductions and control over prescriptions, in order to offset natural volume growth. Professional unions meet with UNCAM every six months to measure the impact of enacted rate changes and to determine the upcoming changes that may need to be made to achieve the annual growth target. In late January 2015, UNCAM held discussions with professional unions to reiterate its commitment to the three-year agreement and to propose a rate revision commensurate with volume growth projected for 2014 and expected for 2015. Based on those figures, at its meeting held July 8, 2015, CNAM decided to maintain the existing nomenclature for 2015. Another meeting is planned in November 2015 to assess the market spend evolution and potentially propose a rate revision for the beginning of 2016 to align the overall spend with the three-year agreement guideline. In addition, Vitamin D tests, demand for which has grown very strongly since 2007, have seen repeated rate reductions in France: rates were cut by 25% in April 2013 and by 14% in April 2014.

Synlab is particularly sensitive to prices in Germany, as Germany accounted for 55.7% of its revenue for the year ended December 31, 2014 and 52.2% for the three months ended March 31, 2015. Synlab estimates that approximately 30% of such revenue was generated from health insurance providers subject to regulated tariffs, with the remainder generated from private payers or other payers with which prices for its laboratory testing services are freely negotiated. In 2012, German authorities introduced quotations for laboratory services on the basis of 2008 volumes and public health insurance companies reduced effective reimbursement rates by introducing regional volume caps. Furthermore, in the private health insurance system, a binding federal tariff (*Gebührenordnung für Ärzte*, "GOÄ") has been enacted by the Federal Ministry of Health. The tariff system, subject to perennial discussions with respect to amendments, may be revised in the next few years, and such amendments could result in a reduction of GOÄ prices for laboratory services. Because of the importance of the German market to Synlab's business and results of operations, further tariff reductions in Germany could significantly adversely affect Synlab's overall performance.

In Switzerland, where Synlab generated 12.1% of its revenue for the year ended December 31, 2014, tariffs are set by the Federal Department of Home Affairs and paid directly by private insurance providers on behalf of patients, or by patients directly that are reimbursed by private insurance providers in line with the Swiss private health insurance mandate. Changes to the Swiss reimbursement system in 2009 resulted in significant reductions in tariff levels, though a portion of the effect on tariffs was postponed until 2012. In addition, in the Czech Republic, which accounted for 6.3% of Synlab's revenue for the year ended December 31, 2014, a reduction of approximately 20% in outpatient reimbursement rates was introduced in 2010.

In general, we expect increased constraints on government-regulated tariffs to continue. In recent years, many European governments have announced or undertaken measures aimed at curbing spending, including healthcare expenditures, and may institute further policies designed to lower healthcare expenditures. As a result of such policies, changes in medical guidelines could lead to lower volumes of recurring tests, which could have a negative impact on our business. Furthermore, governments tend to reduce in greater proportion tariff levels on tests that are administered in high volumes, which has a multiplying effect on our results as the tests we perform in high volumes tend to be impacted by larger tariff cuts, and we may not be able to offset the impact of lower tariff levels by increasing testing volumes accordingly. Policies that limit or decrease the amounts we may charge for our services or exclude coverage of certain of our services from public health programs could have a material adverse effect on our business, results of operations, financial condition and prospects. See "*Regulation*."

We also face efforts by non-governmental third-party payers—mainly private health insurers—to reduce utilization and reimbursement for clinical laboratory testing services. In certain markets, we receive payment for our services from private health insurers that have gained significant bargaining power by only reimbursing healthcare services if such services are provided by pre-selected providers. Furthermore, in certain markets, private health insurers directly negotiate fee structures with healthcare providers, including clinical laboratories, and certain private health insurers have insisted on discounted fee structures as a condition for pre-selection in the past and may insist on further discounted fee structures in the future. If we are not pre-selected by private insurers, or are required to accept unfavorable terms to secure such pre-selection, our revenue and results of operations may be adversely affected. Private health insurers have also exerted pricing pressure on hospitals which, in turn, have exerted pricing pressure on us. Such pricing pressure on hospitals and other parties with which we conduct business reduces such parties' margins and may cause such parties to default on their obligations to us.

In markets where private insurance supplements public healthcare, private insurers may seek to control their costs by reducing levels of reimbursement under their insurance plans, requiring the patient to pay any shortfall or an increased amount of shortfall. Such efforts by third-party payers to reduce the utilization of clinical laboratory testing services, or their exposure to risks associated with such utilization, and reimbursement levels on the services we provide, could have a material adverse effect on our business, results of operations, financial condition and prospects.

Future economic downturns may lead governments, public health authorities, private insurers and patients to further reduce their expenditures on healthcare. Where patients are directly or indirectly responsible for all or part of the cost of laboratory tests, individual decisions to reduce healthcare expenditures may result in a reduction in demand for our services. A decrease in household disposable income, or the perception thereof, in times of economic downturn can lead to a reduction in individuals' healthcare expenditures. This may result in patients postponing certain types of medical treatment and could result in a significant decrease in our volume of tests and, in turn, have a material adverse effect on our business, results of operations, financial condition and prospects.

The French regulatory environment in which we operate is particularly stringent, especially in relation to ownership and corporate structure of SELs operating clinical laboratories. If regulators were to successfully challenge Labco's existing legal structure, this could have a material adverse impact on our activities.

French regulations impose stringent restrictions on the legal structure and ownership of SELs, particularly those operating clinical laboratories. In particular, the competent administrative authorities (the ARS) and the competent professional associations (*Ordres Professionnels*) may challenge the legal structure and more specifically the corporate governance arrangements of the SELs that Labco has selected to carry out its activities in France. See "*Regulation—France*." Such challenge, if successful, could have a material adverse effect on Labco's financial condition and operating results. The *Ordre des médecins* and the *Ordre des pharmaciens* have already claimed that Labco's organization and legal structure contravened the fundamental principle of independence applying to laboratory doctors. The *Ordre des pharmaciens* has sanctioned certain SELs, which are Labco's subsidiaries, along with certain laboratory doctors working within these subsidiaries, for alleged violations of the applicable regulation. Some of those proceedings are still ongoing, although the *Ordre des pharmaciens* has in general refrained from carrying out investigations in relation to them, in order to comply with the decision of the European Commission, recently confirmed by the European General Court, which found against it.

In 2007, Labco filed a complaint against the *Ordre des pharmaciens* before the European Commission on the grounds that the *Ordre des pharmaciens* had inappropriately used the powers granted to it by impeding the development of free competition and the creation of groups of laboratories on the French clinical laboratory services market. After an investigation in 2010, the European Commission ordered the *Ordre des pharmaciens* to pay a €5 million fine for restrictions on competition. The *Ordre des pharmaciens* appealed to the European General Court, which, on December 10, 2014, confirmed that the *Ordre des pharmaciens* had restrained competition on the clinical laboratory services market. Even though the court confirmed the decision of the Commission, it reduced the fine imposed on the *Ordre des pharmaciens* from €5 million to €4.75 million. Through a press release dated February 23, 2015, the *Ordre des pharmaciens* confirmed that it would not appeal the decision of the European General Court before the Court of Justice of the European Union.

The *Ordre des pharmaciens* has generally refrained from carrying out investigations in relation to new or existing disciplinary proceedings against Labco's laboratory doctors or SELs, in order to comply with the European Commission's decision. On March 5, 2015, the *Conseil Central de la Section G,* which is the body of the *Ordre des pharmaciens* competent for clinical testing, closed, during an administrative session, several disciplinary cases without taking any action. These case closings without any action taken result from a withdrawal of the complaints filed by its president against Labco's laboratory doctors and SELs. Even though these withdrawals are not motivated, Labco believes they are the result of the decision of the *Ordre des Pharmaciens* to not appeal its conviction by the European General Court.

However, Labco cannot guarantee that the *Ordre des pharmaciens* will close its existing disciplinary proceedings without taking any action, will continue to refrain from carrying out investigations or engage new proceedings against Labco's laboratory doctors or SELs, in order to comply with the decisions of the Commission and the court. As a result, Labco could be subject to new disciplinary measures or other measures taken by the *Ordre des pharmaciens*, and the *Ordre des pharmaciens* may also, at the same time, resume proceedings that are currently dormant. The *Ordre des pharmaciens* may impose disciplinary sanctions on laboratory doctors or SELs that are registered with the *Ordre des pharmaciens*, and the *Ordre des médecins* may do likewise to laboratory doctors or SELs that are registered with the *Ordre des médecins*, including warnings, temporary suspensions or removal from the register, which may lead to withdrawals of the prefectoral approvals of the relevant SELs as well as withdrawals of the administrative authorizations of the laboratories they operate, which would disrupt Labco's activities.

In addition, if the competent administrative authorities (ARS) take the view that Labco's organizational and legal structure (including the ownership of Labco's SELs by Istituto il Baluardo S.p.A., a foreign company qualifying as a laboratory company) breaches applicable statutory or regulatory requirements, they could suspend or withdraw the prefectoral approvals or administrative authorizations granted to Labco's SELs and laboratories in France.

In this regard, Article L. 6223-5 of the French Public Health Code forbids various categories of persons, from making any direct or indirect investment in the share capital of a company operating a French clinical laboratory, on the basis of their activities or relations with certain activities in the medical or paramedical sector (the "prohibited investors"). See "*Regulation—France*."

A breach of this prohibition, which cannot be remedied, would expose Labco's French laboratories to periodic financial penalties and fines of up to €2 million per SEL which would amount to €82 million for all of our SELs. Such a situation, if it were to happen, could constitute a material adverse effect within the meaning of the Revolving Credit Facility and could consequently lead, if the lenders under the Revolving Credit Facility decided it, to the early repayment of the sums owed under the Revolving Credit Facility, as well as to its early termination.

If Labco's interpretation provided below of the aforementioned legal provisions were not borne out, any investor, natural or legal person, acquiring any stake in Labco's share capital may be imposed a penalty by the competent administrative authorities if that investor is a prohibited investor. The offending party (i.e., the prohibited investor holding a stake in our share capital) would face a fine of up to €2 million for a legal entity and €500,000 for a natural person per Group SEL (i.e., up to a maximum aggregate amount of €82 million for a legal entity and €20.5 million for a natural person given the number of our SELs).

However, based on legal advice Labco received in the context of another previous financing transaction, Labco's view is that "indirect investment" as mentioned by Article L. 6223-5 of the French Public Health Code must be interpreted in light of the rules set out by the French Commercial Code and that, accordingly, the penalties provided for by the relevant texts can only apply to Labco's SELs and the concerned prohibited investor if a prohibited investor takes control of Labco. Labco's representatives have consulted the French Ministry of Social Affairs, Health and Women's Rights (which oversees the ARS), which did not put forward any different interpretation of the related legal provisions.

Upon completion of the Labco Acquisition, compliance with the provisions of Article L. 6223-5 of the French Public Health Code will have to be considered in light of the indirect ownership of French BidCo by the Cinven Funds, which will acquire up to 100% of the share capital of Labco S.A. and may also hold other participations in companies operating in those "prohibited" activities referred to in Article L. 6223-5 of the French Public Health Code. This being said, the Cinven Funds do not have legal capacity (*absence de personnalité morale*) and as such should not likely be considered as legally "holding" the portfolio participations at stake, nor do the Cinven Funds or their limited partners exercise ownership rights over the share capital held in operating companies within their portfolio (which in addition may not be in France) that may engage in activities referred to in Article L. 6223-5 of the French Public Health Code.

Any challenge to Labco's analysis, which remains subject to interpretation, as well as a change in these legal provisions or their application by the relevant authorities, could thus have a material adverse impact on Labco's activities in France, its operating income, its financial condition and its outlook, as well as on prohibited investors, which may also be subject to personal sanctions. Finally, failure to comply with these provisions may give rise to disciplinary sanctions or adverse administrative decisions by professional associations (against Labco's SELs and the laboratory doctors working within them), or to the suspension or revocation of prefectoral approvals or administrative authorizations held by Labco's SELs and laboratories in France.

Article R. 4113-13 of the French Public Health Code forbids various categories of persons from making any direct or indirect investment in the share capital of SELs of doctors, on the basis of their activities or relations with certain activities in the medical or paramedical sector. See "*Regulation—France*." This provision will be applicable to SELs of anatomopathology doctors that Labco has acquired. Labco and its legal advisors believe that "indirect ownership" within the meaning of Article R. 4113-13 of the French Public Health Code must be interpreted in the same way as for Article L. 6223-5 of the same Code. If Labco's interpretation were challenged, this could give rise to disciplinary sanctions and adverse administrative decisions by the *Ordre des médecins* (against the anatomopathology SELs that Labco has acquired and the doctors who work within them).

Labco's activities in France represented 59% and 56% of its revenue for the financial years ended December 31, 2013 and December 31, 2014, respectively. The French market is an important market for Labco's growth strategy. As a result, any of the aforementioned events may cause material disruption to Labco's activities and may have a material adverse effect on its financial condition and operating results.

Increased quality and price competition could have a material adverse impact on our revenue and profitability.

The medical diagnostics market, including clinical testing services, is intensely competitive in each of the countries in which we operate. In markets in which fee structures are regulated, competition is based mostly on the quality of services provided, including reporting and other information technology systems offered and the skills of laboratory personnel. Reputation in the medical community is a key factor affecting the volume of testing services we provide in such markets, since healthcare professionals are an important source of patient referrals to our laboratories.

Our main competitors, some of whom are also clients, include large multinational companies, national companies in certain countries and numerous small local companies. We may not be able to offer services similar to, or more desirable than, those of our competitors or at a price comparable to that of our competitors in segments where prices are freely negotiated. Although our diagnostics testing services are generally subject to regulatory price constraints in many of our markets, in other market segments we are not subject to regulatory pricing and we compete on the basis of price. These include, in particular, testing services pursuant to hospital outsourcing agreements, environmental laboratory services, veterinary diagnostics testing and testing paid out-of-pocket by customers in certain countries. Price-based competition in countries where prices are not regulated is, however, a commercial constraint for us as we have to propose to our clients competitive conditions compared to competitors who provide services locally.

In addition, in all of our markets we face competition, including from some of our clients, from both public and private diagnostic service providers based on, among other factors, their areas of scientific and advanced expertise, the geographical footprint of their networks, their ability to process samples and report data accurately and in a timely manner, their historical experience and customer relationships and the quality of their facilities. Existing or new competitors could develop close relationships with our hospital and medical professional customers in our markets and compete for referrals, which could have a direct impact on our businesses, either through market share losses or price reductions.

We face price competition in liberalized markets such as Spain, where price is often the determining factor for healthcare providers and third-party payers in the selection of a laboratory. Pricing is also a key driver in the outsourcing decisions of hospital laboratories, for which the main objective of our potential customers is cost reduction. For example, should Labco's clients in Spain decide to regroup, they would increase their bargaining powers, and this could influence their decision to outsource or could lead them to re-internalize their clinical services. The ongoing consolidation of the European clinical laboratory industry is expected to enable larger groups to offer lower prices as they adopt large-scale automated testing allowing them to reduce their costs. The resulting testing procedures are particularly likely to induce increased cost reductions. As a result of the size and structure of our network, we may be unable to achieve competitive levels of efficiency and may lose customers or tenders as a result. This may negatively impact our operating results and cash flows. Our competitors with greater financial resources and stronger market positions than our own may reduce their prices further than we might be able to in order to increase their market share, offer bigger operational resources and broader geographical reach, or conduct more effective marketing programs. In some markets where we operate, such as Spain, scale and geographic reach provide competitive advantages because private health insurers prefer negotiating national contracts with networks that have a substantial geographic footprint and offer them more favorable terms. Our ability to compete effectively may be adversely affected if we do not have an extensive enough network in some of the markets in which we operate.

Current or future regulatory changes in France, and disputes initiated by the competent administrative authorities or professional associations, may affect our ability to develop our network of French laboratories through acquisitions, make us more dependent on laboratory doctors to check operations carried out by SELs, and call into question our organizational and legal structure.

In France, we are subject to regulatory constraints that particularly restrict the ownership of the share capital and voting rights of SELs by persons other than the laboratory doctors operating within such SELs. In order to comply with these regulations, Labco has established a legal structure under which Labco directly and indirectly holds shares representing around 99.9% of the share capital of its SELs, while certain laboratory doctors operating in such SELs hold the remainder of the shares. This structure can, as a general matter, no longer be used for SELs of laboratory doctors acquired since May 31, 2013, which is when the Law of 30 May 2013 was enacted. This law requires that more than 50% of the share capital (in addition to the 50% of the voting rights) of a SEL of laboratory doctors be held by laboratory doctors practicing within that SEL. The law also provides an exemption for existing SELs of laboratory doctors that operated under a different share capital ownership structure on the date the law was promulgated, enabling them to continue operating under their existing structure and have the majority of their share capital held by companies operating laboratories. Laboratory doctors practicing in the SELs benefiting from this exemption have preemption rights under this law in the event of a transfer of the SELs' shares. See "*Regulation—France*."

SELs of laboratory doctors in which Labco held a majority of the share capital when the law was promulgated benefit from a grandfathering exception. For SELs of laboratory doctors that joined us after 30 May 2013, the law has considerably limited Labco's ability to use the same previous structure. The new ownership and corporate governance structure, which allows Labco to own most of the SELs of laboratory doctors acquired since the law was promulgated, or that Labco may acquire in the future under arrangements that comply with the new regulations, may require the adoption of more complex legal structures than those used before the Law of 30 May 2013 came into force. See "*Regulation—France*."

The Law of 30 May 2013 may also limit Labco's ability to sell or transfer shares in SELs of laboratory doctors that Labco holds or that Labco may acquire in the future, and render more complex any restructuring Labco might consider for its subsidiaries. The competent administrative authorities could interpret this new regime as preventing some forms of restructuring, such as those involving a universal transfer of all assets where the acquired SEL is not covered by the grandfathering exception. Such interpretation, which seems to be the one adopted by the French Ministry of Social Affairs, Health and Women's Rights, may make some forms of restructuring of SELs of laboratory doctors within the Group more complex or prevent them outright. Even though the competent administrative authorities (ARSs) are not bound by the Ministry's interpretation and may have already adopted different positions authorizing restructuring operations involving SELs that are not covered by the grandfathering exception, it is nonetheless probable that they will adopt such an interpretation in the future.

Furthermore, the possible adoption in the future of any new law or regulation aiming to reduce again the proportion of SELs' share capital, or the number of SELs, that may be held directly or indirectly by the same physical or legal person (working as a professional or as a third party to the profession) would require Labco to make further changes to the structure of its French activities, in order to comply with the new legal or regulatory provisions. Even though some restructurings are already enacted in principle by the operating rules in force in some of Labco's SELs, Labco can give no assurance that the existing agreements cover all the potential cases of changes of the legislation or the regulation and will permit Labco to comply with the new legal or regulatory provisions. See "*Regulation—France*." In general, any adjustment to French regulations applicable to Labco's SELs in the future, any adverse interpretation of existing regulations, and any introduction of new rules may affect or further limit Labco's ability to own or control its subsidiaries in France.

Labco is not required to carry out any restructuring (because of the grandfathering exception set forth by the Law of 30 May 2013) and although the Law of 30 May 2013 is unlikely to prevent Labco from continuing its development and fully consolidating acquired SELs, if Labco were to alter aspects of its structure in response to regulatory changes or a challenge to its current organizational and legal structure, Labco may no longer be able to fully consolidate its French activities in its financial statements, while Labco's ability to centrally manage cash generated by French SELs or distribute dividends may be affected. Any new structure Labco may have to implement to comply with challenges or new requirements outlined above may result in Labco owning a smaller stake in its existing SELs and make Labco a minority shareholder, and would make Labco more dependent on the contractual, corporate governance and other mechanisms Labco currently uses to control its French SELs. Finally, Labco may also have to reduce our control over certain aspects relating to the activities of its French SELs or to the integration of the French SELs or the businesses they operate within Labco's network.

In addition, the competent administrative authorities (ARS) or the professional associations (which have administrative and disciplinary powers over laboratory doctors, doctors and SELs) may challenge Labco's current organizational and legal structure (and especially the corporate governance framework established in Labco's French SELs, laboratories and medical practices) and force Labco to adopt modifications to such structure. See "*Regulation—France*."

Taking into account the French legal and regulatory framework, Labco has established a corporate governance, contractual and organizational structure that enables Labco to exercise control over its SELs. However, the efficiency of such structure is limited by French regulatory and ethical constraints regarding the independence of laboratory doctors, medical doctors and pharmacists who work in such structure, and such structure does not confer on Labco powers as absolute as Labco would have if it held all or a majority of the voting rights. Labco's model aggregates laboratory doctors, medical doctors and pharmacists who join Labco's network but they retain some autonomy over the day-to-day management of the laboratories and practices for which they are responsible. This decentralized and independent management and responsibility model is required by the regulatory framework applicable in some of the countries in which Labco operates, including France.

Although that model includes various corporate governance mechanisms and other contractual and organizational arrangements entered into with laboratory doctors practicing in the SELs, relating mainly to the exercise of their voting rights and to the management of the SELs, as well as various incentives based on the performances of the SELs and the Group as a whole, in order to align their interests with ours, Labco does not have total control over day-to-day management of the SELs. As a result, with respect to certain matters, Labco should involve, with regards to Labco's decisions, the laboratory doctors who hold the majority of the voting rights in its SELs. It cannot be completely ruled out that these laboratory doctors may not share Labco's views on the way the SELs should be managed, may not respect the various corporate governance mechanisms and other contractual and organizational arrangements they had nevertheless knowingly accepted, and may exercise their voting rights in a manner adverse to Labco's interests. See "*Regulation—France*."

Even though Labco is convinced of the reality of its control of the concerned SELs, Labco can provide no absolute assurance that the existence of the various corporate governance mechanisms and other contractual and organizational arrangements, as well as of the incentivizing measures that have been enacted, will ensure that these laboratory doctors will manage their SELs in an economically satisfactory manner or in a manner consistent with Labco's interests. Labco can neither give no absolute assurance that these laboratory doctors will comply with all the requirements of the SELs, in particular regarding internal control, reporting and accounting requirements. Even though Labco considers it to be a minor possibility, it cannot be ruled out that problems in these areas, or the period required to implement the various mechanisms and other arrangements, could disrupt the operation of Labco's French SELs and divert Labco's managers' time and attention from their other activities. In addition, in the case of a failure or a non-application of the above palliative mechanisms, Labco could be unable to consolidate in full its French activities in its financial statements, whereby Labco's capacity to ensure a centralized management of the cash generated by its French SELs or the distribution of dividends could be affected.

Regulation in force in certain markets in which we operate is undergoing reform and we may not be able to respond to such reforms effectively.

Some markets in which we currently operate are reviewing their regulatory framework. These potential reforms may lead to increased competition and consolidation on such markets.

In addition, we are subject to specific regulation in Belgium relating to the operation of clinical laboratories. In particular, Belgium's Royal Decree of April 26, 2007 lists the legal forms that companies that operate clinical laboratories should take in order to be eligible for reimbursement of their services by the Belgian public health insurance system. The duration of this Royal Decree, which was initially due to expire on December 31, 2009, was extended retroactively until December 31, 2012 by a Decree of January 27, 2010. No new extension has currently been enacted but we have received informal information that the Belgian government is preparing a second retroactive extension or another solution that would remedy this legal vacuum with retroactive effect as from January 1, 2013. The relevant Belgian authorities have given no indication that reimbursements would cease. However, the absence of any extension of the duration of the Royal Decree of April 26, 2007 would have a significant impact on all Belgian laboratories run by us in this legal form.

Although we could develop a strategy to anticipate such regulatory changes, our industry and operating environment may not respond to those changes in the way we expect, and we may, as a result, be unable to maintain our position in those markets or apply our strategy in such markets. In addition, our competitors with greater financial resources or stronger market positions than us may be able to better respond to such regulatory reforms. If we cannot respond effectively to regulatory and market changes, our outlook and operating results could be adversely affected.

Third-party payers and private health insurance companies have taken steps to control the use and reimbursement of healthcare services, including clinical laboratory testing services, which may adversely affect our activities.

We face efforts by non-governmental third-party payers—mainly private health insurers—to reduce utilization and reimbursement of medical and diagnostic work, such as clinical laboratory testing services.

In certain markets (such as Spain), we receive payment for our services from private health insurers that have gained significant bargaining power allowing them to reimburse healthcare services only if such services are provided by preselected providers. Private health insurers negotiate fee structures with healthcare providers, including clinical laboratories, and some of them have already insisted on discounted fee structures as a condition for preselecting us in the past and may insist on further discounted fee structures in the future. If we are not preselected by private health insurers, or is required to accept unfavorable terms to secure such preselection, our operating results may be adversely affected. For example, four private health insurers in Spain accounted for a significant portion of our revenue in Spain in 2013. A major Spanish private health insurer, for which we serve as a preselected provider, implemented significant price decreases in the first half of 2012. Another major Spanish private health insurer also implemented significant price reductions from January 2013. A third major Spanish private health insurer introduced a per capita model for pricing in Madrid in 2008 and expanded the model to other regions in 2009, which caused a significant decrease in prices. Since the model is based on individual payments, the insurer pays a set annual fee per patient in return for which the laboratory network provides all testing services specific to that patient during the relevant year up to a preset limit. Costs associated with testing services required by such patients above the specified limit are borne by the laboratory and so some of the risks associated with changes in the volume of clinical testing services utilized by patients are transferred from the private health insurer to us, even if we set up mechanisms (based on algorithms) to control the volume of prescriptions and reduce that risk.

Pressure from private health insurers may also affect us indirectly. Private health insurers have exerted pricing pressure on private hospitals which, in turn, have exerted pricing pressure on us. For example, two large Spanish private hospitals that are our customers negotiated significant reductions in the average price per test from the first quarter of 2013, primarily due to their merger. This resulted in a total revenue reduction of around €2.5 million. Further consolidation of hospital groups in Spain could also increase the pressure on our prices and reduce our volumes to the extent that such groups conduct more clinical testing in-house. In addition, pricing pressure on private hospitals and our other customers may reduce our customers' margins and may continue to cause customers to default on their obligations to us.

In markets where private insurance supplements the public healthcare system (such as France), private insurers may seek to control their costs by reducing levels of reimbursement under their insurance plans, requiring the patient to pay all or a larger proportion of the shortfall.

Such efforts by third-party payers to reduce the utilization of clinical laboratory testing services, or their exposure to risks associated with such utilization, and reimbursement levels on the services we provide, may have a material adverse effect on our operating results.

Continued weakness in economic conditions may have an adverse effect on our activities.

The economic downturn and volatility in connection with the recent financial crisis has increased the risks associated with conducting our activities in certain countries where we have significant operations, especially in Spain and Portugal. Such risks include the risk of default by customers on their payment obligations to us. In Spain, significant payment delays by public payers are common.

Economic difficulties have also resulted in reduced levels of activities and higher unemployment and have led governments, private insurers and other third parties to reduce their healthcare spending, which may affect our revenue or margins.

Our customers include large companies to which we provide clinical laboratory testing services for their employees. Under labor laws in Spain and Portugal, employees are entitled to a regular check-up paid for by their employer. However, current economic conditions in those countries are leading to bankruptcies, headcount reductions, hiring freezes and financial difficulties for certain of these corporate customers, prompting them to reduce testing services volumes.

In addition to volume reductions or payment defaults, this economic climate has resulted in downward pressure on prices and therefore on margins. Where patients, directly or indirectly (such as through private health insurance premiums) are responsible for all or part of the cost of medical tests, individual decisions to reduce healthcare expenditures may result in a reduction of demand for our services. More generally, a decrease in household disposable incomes, or merely the perception thereof, in times of economic downturn can lead to a reduction in individuals' healthcare expenditure, including private insurance coverage and the level of such coverage, regardless of the level of reimbursement by public social security systems.

The eurozone debt crisis and related market perceptions concerning the instability of the euro, the potential re-introduction of individual currencies within the eurozone, or the potential dissolution of the euro entirely, could adversely affect, including as a result of adverse consequences for us with respect to our outstanding debt obligations that are euro-denominated, our business and our financial performance.

Recent developments in the Eurozone, including Greece failing to make an interest payment under an outstanding loan from the International Monetary Fund and the imposition of capital controls on the Greek banking system, have exacerbated the ongoing global economic crisis. Financial markets and the supply of credit have been and may continue to be negatively impacted by recent developments in the eurozone, including ongoing fears surrounding the sovereign debts and/or fiscal deficits of several countries in Europe (primarily Greece, but also Italy, Portugal and Spain), the possibility of further downgrading of, or defaults on, sovereign debt, concerns about a slowdown in growth in certain economies and uncertainties regarding the overall stability of the euro and the sustainability of the euro as a single currency given the diverse economic and political circumstances in individual member states. Governments and regulators have implemented austerity programs and other remedial measures to respond to the eurozone debt crisis and stabilize the financial system, but the actual impact of such programs and measures are difficult to predict. For example, an anti-austerity party won the parliamentary elections in Greece on January 25, 2015 and subsequently formed a government with another anti-austerity party. The results of the Greek government's ongoing renegotiation of bailout terms and terms relating to the repayment of Greek national debt and continuing concerns that Greece could exit the eurozone could undermine confidence in the overall stability of the euro.

If the eurozone debt crisis is not resolved, it is possible that one or more countries may default on their debt obligations and/or cease using the euro and re-establish their own national currency, or that the eurozone may collapse. If such an event were to occur, it is possible that there would be significant, extended and generalized market dislocation, which may have a material adverse effect on our business, results of operations and financial condition, especially as our operations are primarily in Europe. In addition, the departure of one or more countries from the eurozone may lead to the imposition of, among other things, exchange rate control laws. Should the euro dissolve entirely, the legal and contractual consequences for holders of euro-denominated obligations and for parties subject to other contractual provisions referencing the euro would be determined by laws in effect at such time. These potential developments, or market perceptions concerning these and related issues, could adversely affect our trading environment and/or the value of the Notes and could have adverse consequences for us with respect to our outstanding debt obligations that are euro-denominated and, because we have a substantial amount of debt denominated in euro, our financial condition may be materially affected.

Furthermore, the Indentures and the Revolving Credit Facility Agreement contain covenants restricting our and our subsidiaries' corporate activities. See "*—We are subject to restrictive covenants that limit our operating and financial flexibility*." Certain of such covenants impose limitations based on euro amounts (e.g., the amount of additional debt we or our subsidiaries may incur). As such, if the euro were to significantly decrease in value, the restrictions imposed by these covenants would become tighter, further restricting our ability to finance our operations and conduct our day-to-day business.

Risks Related to Our Technology and Intellectual Property Rights

Failure to be supplied with new tests, technologies and services may negatively impact our testing volume and revenue.

The clinical laboratory industry faces challenges from regularly changing technology and new product introductions. We do not develop our own tests or technologies, but rely on equipment suppliers and test developers for the introduction of new tests. Other companies, including our competitors, may obtain patents, licenses or other rights that may prevent, limit or interfere with our ability to provide particular tests or that may increase our costs. In addition, the increasing development of point of care tests has affected the activity level of our laboratories regarding the analysis covered by these standard tests. Some providers are developing "point of care" tests, which are performed outside the laboratory, by the patient's bedside or even at the patient's home. These tests are used for urgent diagnostic work or routine monitoring. However, they must comply with professional laboratory quality standards. Integrated genetic diagnostic testing services, offered by certain professional websites and hardware suppliers like Affymetrix, may also reduce activity levels for our laboratories. In addition, in markets where laboratory testing prices are unregulated (such as Spain), some of our competitors could introduce new, less expensive tests that may cause a decrease in the demand for our tests. Our success in continuing to offer new tests, technology and services depends on its ability to contract with equipment suppliers and test developers on favorable terms. If we are unable to license new tests, technology and services to expand our specialty testing activity, our testing methods may become outdated and our testing volumes and revenue may be adversely affected.

Failures of our information technology systems, including failures resulting from systems conversions, may disrupt our operations and cause the loss of customers or business opportunities.

Information technology systems are used extensively in all aspects of our business, including clinical testing, test reporting, billing, customer service, logistics and the management of personal data (particularly patients' medical records). Our activities depend on the continued and uninterrupted performance of our information technology systems. Information technology systems are vulnerable because of exposure to damage from a variety of sources, including telecommunications or other network failures, individual acts and natural disasters. Moreover, despite the security measures we have implemented, our information technology systems may be subject to physical or electronic attacks, computer viruses and similar disruptive problems that may affect our ability to function.

There can be no assurances that we may not experience difficulties or disruptions with respect to the performance of our information technology systems, including during the roll-out and testing of new information technology systems or software updates. Information technology problems may impact our ability to carry out tests, deliver test results, bill for tests in due time or maintain the privacy of the medical data we collect. If we were to experience major or recurring information technology systems problems, including with the implementation of IT management systems for tests and billing, our activities would be disrupted. If our activities were so disrupted, that may adversely affect our reputation, expose us to litigation or regulatory sanction and result in a loss of customers and patients and reduce our revenue. In addition, IT systems are also vital from a financial and accounting point of view. Given the number of tests that we manage (several million patients per year), an IT systems failure at one or more of our subsidiaries could affect the reliability of our financial statements. For example, Labco recently identified an error in the programming of the IT system used for most of its French SELs, which generated a revenue figure in one SEL's financial statements that was higher than the actual figure, and a revenue figure in another SEL's financial statements that was lower than the actual figure, whereas the corresponding invoices had been correctly prepared and the incoming payments had been correctly made.

A diverse array of software platforms are used in clinical diagnostics, and, in some cases, such platforms are not the subject of regular updates and improvements common in other industries. In addition, many of the software and IT providers who develop and maintain these platforms are small and medium-sized companies with a regional focus and limited financial resources inadequate to service pan-European laboratory diagnostic providers like us. As a consequence, our IT systems may be vulnerable to and experience difficulties or disruptions which impact our ability to operate.

Historically, Synlab and Labco have grown through acquisitions, and, as a consequence, newly acquired laboratories often use older software platforms that are not consistent with the systems that have been implemented on a group-wide basis or otherwise used in the relevant country. We are continually integrating laboratory, reporting, billing and other information technology systems, particularly with respect to newly acquired laboratories but also with respect to existing laboratories which operate with older or outdated systems and software. For example, Synlab's current operational initiatives include various measures to further harmonize and optimize its IT systems across its laboratory network as well as improve internal financial and operational reporting. Labco have standardized some of its systems and are rolling out standard laboratory information and invoicing systems in all of its operations, including those of recently acquired companies. However, we sometimes continue to use nonstandard IT systems for billing and laboratory operations, as well as central information systems for certain recently acquired companies. We expect that the implementation of standardized practices and systems across the Synlab/Labco network will take several years to complete, and until such completion, there is a risk that our activities may be disrupted due to the incompatibility of some of the information technology systems we use. This could have an adverse effect on our activities and operating results.

Our trademarks may not be protected uniformly across all countries in which we operate or in countries in which we may establish operations.

Ten of Labco's trademarks, including the trademark Labco (semi-figurative), the trademark Labco NOÛS Advanced Special Diagnostics (semi-figurative) and the trademark SDN (semi-figurative) have been filed with the Office for Harmonization in the Internal Market of the European Community, and are thus protected in the 28 countries of the European Union, including France. Labco has recently filed another trademark with the Office for Harmonization in the Internal Market of the European Community that is awaiting registration. The trademark Labco (semi-figurative) was also registered in Switzerland, and other trademarks were also filed in Spain, Portugal and Italy.

However, we cannot be certain that steps taken in France and abroad to protect our trademarks will be successful or effective, or that third parties will not infringe or make unlawful use of our trademarks. Such unauthorized use of our trademarks may damage our competitive advantage and have a material adverse impact on our activities and operating results.

Given its acquisition strategy and the importance that Labco places on developing a strong identity and strong brands, we are exposed to the risk of being unable to use Labco's trademarks in jurisdictions in which they are not protected, for example where a competitor has made a previous application or where the local authorities have refused to protect the trademark. That situation could have an adverse impact on our activities or operating results. See "*Industry*."

Risks Related to Our Commercial Activities

We face risks associated with our strategy of acquiring companies.

Our growth strategy includes acquiring small and medium-sized laboratories and integrating them into our network. In the years ended December 31, 2012, 2013 and 2014, Labco completed 16, 11 and 16 acquisitions, respectively. From 2012 to 2014, Synlab completed 44 acquisitions, primarily in Germany, Italy, Belgium and North Europe.

The success of our strategy is dependent upon our ability to identify suitable acquisition targets, conduct appropriate due diligence, negotiate transactions on terms that are favorable for us, complete such transactions and integrate the acquired businesses into us. Our objective of acquiring further companies in the future depends on the existence of suitable acquisition targets and our ability to finance their acquisition. Continued consolidation of the European medical diagnostics market, including clinical laboratory testing services, may limit opportunities for further acquisitions.

For example, the continued consolidation of the French clinical laboratory testing market, as well as the restrictions on both regional market share and outsourcing, may reduce the opportunities for acquisitions. French regulations still impose controls on, or forbid, acquisitions and restructurings of laboratories (or the SELs that operate them), particularly where those operations would cause, in a given healthcare region, the market share of the laboratory resulting from the acquisition or merger to exceed certain levels in terms of the number of clinical tests performed. See "*Regulation—France*." Those regulations could limit our ability to pursue our strategy of developing regional laboratory hubs that combine several smaller local laboratories into a larger regional entity. Furthermore, French tax reforms could limit laboratory doctors' willingness to sell their laboratory to a potential acquirer, particularly in the event of an increase in capital gains tax.

Our competitors, such as Biomnis, Cerba (which has recently announced the acquisition of Novescia), Sonic Healthcare, Unilabs Group Ltd and Amedes Holding A.G., are following similar acquisition strategies to ours. Other operators, such as Quest Diagnostics Inc. and Laboratory Corporation of America Holdings, while not yet significantly active in Europe, may choose to commence operations in Europe. Those competitors, and certain financial investors wishing to enter the markets in which we operate or may wish to enter, have greater financial resources than us or could be able to accept less favorable terms than we can accept, which may prevent us from acquiring the companies that we want and reduce the number of potential acquisition targets. In addition, through such acquisitions, some of our competitors already have or may in the future gain a major presence in a particular country or, more generally, in Europe, making them attractive acquirers of potential targets seeking to join a network, the size of which would provide greater development prospects.

If we carry out acquisitions, there can be no assurance that we will be able to retain all the customers and patients of the companies we acquire, generate expected margins or cash flows, or realize the anticipated benefits of such acquisitions, including expected growth or synergies. Although we analyze acquisition targets on an ongoing basis, those assessments are subject to a number of assumptions concerning profitability, growth, interest rates and company valuations. There can be no assurance that our assessments and assumptions regarding acquisition targets will prove to be correct, and actual developments may differ significantly from our expectations. Moreover, acquisition targets may be subject to risks or problems which we may not be aware of, which we may not detect or which have not been disclosed to us in the due diligence process. We may learn about such risks or problems only after consummation of the acquisitions, in particular with respect to unknown contingent liabilities and issues relating to compliance with applicable laws and regulations. If we fail to successfully identify and assess risks related to acquisitions, we may be exposed to legal, market or other risks related to companies that we acquire, which could, individually or in the aggregate, have a material adverse effect on our business, results of operations, financial condition and prospects.

In most cases, acquisitions involve the integration of a company that was previously operated independently with systems and processes that differ from those used by us. We may not be able to integrate certain acquired companies successfully, or the integration may require more time and investment than expected, and we could bear or assume unknown or unexpected liabilities or risks related to customers, employees, suppliers, competent administrative authorities, professional associations (*Ordres Professionnels* in France), public health programs, private health insurers or other persons, that could affect our operating results. The process of integrating acquired companies may disrupt our activities and cause slower growth in those companies' activities or a decrease in our operating income as a result of difficulties or risks including, in particular:

- unforeseen legal, regulatory, contractual and other issues;
- the loss of customers, patients or key employees;
- difficulty in standardizing existing information and systems;
- difficulty in consolidating facilities and infrastructure;
- difficulty in realizing operating synergies;
- failure to maintain the quality or timeliness of services that we have historically provided;
- added costs caused by dealing with such disruptions;
- unforeseen challenges from operating in new geographic areas; and
- the diversion of management's attention from our day-to-day management as a result of the need to deal with the aforementioned disruptions and difficulties.

Furthermore, we operate and acquire companies in different countries, with different regulatory and corporate cultures, which may exacerbate the risks described above.

If we were unable to implement our acquisition strategy or integrate acquired companies successfully, our activities and growth may be affected.

We may be unable to realize the expected cost savings from our recently acquired businesses and any future potential acquisition.

Our anticipated cost savings are based upon assumptions about our ability to implement these measures in a timely fashion and within certain cost parameters. Our ability to achieve the planned cost savings is dependent upon a significant number of factors, some of which may be beyond our control. If one or more of our underlying assumptions regarding these projects proves to have been incorrect, these efforts could lead to substantially higher costs than planned and we may not be able to realize fully, or realize in the anticipated timeframe, the expected benefits from our cost measures. Furthermore, pricing pressure from our customers or competitors or other variables may deprive us of some of the benefits of the cost measures that we have assumed that we will be able to retain in the calculation of Estimated *Pro Forma* Adjusted EBITDA. In particular, the realization of cost efficiencies from expected improved coverage of a given region through acquisition and consolidation of large platforms in new markets may be delayed beyond 12-24 months, potentially significantly, and may not be sustainable due to regulatory challenges, difficulties in negotiating with works councils or other trade bodies or other cost variables. Our inability to realize the anticipated cost savings and revenue enhancements from the acquisition of the SDN Group or any recent or future potential acquisition and other measures that we have taken could have a material adverse effect on our business, results of operations, financial condition and cash flows.

Our ability to successfully implement our strategy depends, in part, on our ability to successfully integrate businesses that we acquire. Generally, when we acquire businesses we identify anticipated synergies that are expected to materialize after we combine the acquired business with our own. Achieving synergies can be difficult and uncertain, and the process of integrating acquired businesses involves risks. These risks include, but are not limited to:

- diversion of management's time and attention from daily operations to the integration of newly acquired operations;
- difficulties in the assimilation of different corporate cultures, practices and sales and distribution methodologies;

- difficulties in conforming the acquired company's accounting system, book and records, internal accounting controls, and procedures and policies to ours;
- retaining the loyalty and business of the customers of acquired businesses;
- retaining employees who may be vital to the integration of the acquired business or to the future prospects of the combined businesses;
- difficulties and unanticipated expenses related to the integration and standardization of information technology systems, especially financial reporting and accounting systems;
- difficulties integrating technologies and maintaining uniform standards;
- difficulties in maintaining timeliness and quality of service;
- unforeseen challenges of operating in new geographic areas; and
- unanticipated costs and expenses associated with any undisclosed or potential liabilities.

Furthermore, we operate and acquire businesses in different countries with different regulatory environments and operating cultures, which may exacerbate the risks described above. Failure to successfully transfer business operations and otherwise integrate acquired businesses may result in reduced levels of revenue, operating efficiency or profitability compared to what we historically achieved or might have achieved if we had not acquired such businesses, as well as the loss of customers of the acquired businesses.

We have recognized a significant amount of goodwill and may never realize the full value of that goodwill.

Labco has recognized a significant amount of goodwill. Goodwill represents the excess of acquisition cost over the fair value of the net assets of companies acquired, and Labco's goodwill amounted to €581.5 million as of December 31, 2013 and €702.4 million as of December 31, 2014, equal to 60.1% and 67.1% of Labco's total assets, respectively. Synlab has also recognized a significant amount of goodwill, amounting to €373.3 million as of December 31, 2014, or 37.6% of its total assets. As of March 31, 2015, Synlab recorded €396.6 million of goodwill.

Under IFRS, goodwill is not amortized but is tested for impairment annually and whenever there is any indication of impairment. Impairment may result from, among other things, a deterioration in our performance, a decline in expected future cash flows, adverse market conditions, adverse changes in applicable laws and regulations (including changes that restrict the activities of, or affect the services provided by, our laboratories) and various other factors. The amount of any impairment must be reported immediately as a charge to our income statement and cannot be reversed.

For example, as a result of the challenging market conditions prevailing in Spain and Portugal due to the global economic downturn, Labco recognized a goodwill impairment charge of €95 million on December 31, 2011 with respect to Labco's cash generating unit in Iberia. Labco also booked a €36 million goodwill impairment charge on its cash generating unit in Germany on December 31, 2012. Synlab did not recognize any impairment losses from 2012 to 2014. Any further future impairment of goodwill may result in material reductions in our net income and equity under IFRS.

In the United Kingdom, Labco operates almost exclusively through a partnership with NHS trusts. As a result, Labco's UK activities are highly dependent on the NHS. If Labco's relations with the NHS were to deteriorate, its UK activities may be materially adversely affected.

The clinical laboratory services market in the United Kingdom is dominated by the public sector, via hospital laboratories. The NHS accounted for 82% of UK healthcare spending in 2013 and so has a near monopoly in the UK market. Labco provides clinical testing services to both inpatients and outpatients. In 2013, approximately 95% of spending on clinical laboratory services took place in public-sector hospitals. (Source: L.E.K. Report).

Labco has operated in the United Kingdom since 2010 through its Integrated Pathology Partnerships (iPP) joint venture with Sodexo. Labco owns 90% of iPP (with call options to purchase the remaining 10%), which has several partnerships with the NHS. On June 1, 2012, iPP began to cooperate with Taunton and Somerset NHS Foundation Trust and Yeovil District Hospital NHS Foundation Trust through a partnership. Under the partnership agreement, iPP delivers the full range of laboratory services while the clinical interpretation and clinical advice functions continue to be provided by those trusts' medical staff, who remain employed by the NHS. The partnership, which has an initial term of 20 years renewable for an additional five-year period, was structured in a way that allows other medical trusts in the region to join. In May 2014, Labco—through iPP Facilities Ltd and iPP Analytics Ltd, two new entities created in the first half of 2014—signed two partnership agreements with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust to provide laboratory services. The contract has an initial term of ten years and may be renewed for a further five-year period. See "*Business—Labco's Core Markets—Overview of Labco's Northern European Market—United Kingdom*."

As a result, if Labco's relationships with the NHS or the trusts with which these joint arrangements have been formed were to deteriorate in the future, Labco's ongoing activities in the United Kingdom may be adversely affected, given its high level of dependency on the NHS, and its presence in the United Kingdom may then be compromised.

A portion of our business is dependent on large customer contracts, often with public or private insurance companies or hospitals. If we were to lose one or more of our key customers, or if contracts with these customers are renewed at reduced prices upon expiry of the contract, our revenue could be materially and adversely affected.

The success of our business depends, in part, on larger customer contracts entered into with private insurance companies, local or regional health care providers or hospital chains and our group-wide pan-European framework supply agreements for reagents. In the case of Synlab, these are typically longer-term contracts with terms of up to five years. We may not be able to renew such contracts upon their expiry or may only be able to do so on less favorable terms. If we were unable to renew or extend such contracts on terms which are not significantly less favorable to the existing terms, this could have a negative impact on our revenue and profits. Together with the adverse impact this could have on our local or regional position, such contract loss or failure to renew could lead to a material adverse effect on our business, financial condition and results of our operations.

Even though we have no reason to believe that any key customers would cancel any contracts with us, or that any key customers would default on their obligations under any contracts, there is a risk that such an event could happen. If we are unable to comply with quality requirements, legal and regulatory requirements or the required service level related to any contract, there could be a risk that we would lose such a contract, and the related revenue and profits.

Spain accounted for 17.8% of Labco's revenue for the year ended December 31, 2014. Approximately 29% of Labco's business in Spain is based on sizable contracts with hospitals or private insurance companies. These contracts are typically long-term in nature and renegotiated at expiry. Increasing bargaining power of private health insurers and private hospitals has resulted in significant reduction of reimbursement levels. For example, two large Spanish private hospitals that are customers of the Labco Group negotiated significant reductions in the average price per test from the first quarter of 2013, primarily due to their merger. This resulted in a total revenue reduction for Labco of around € 2.5 million.

In the next three years, certain of Labco's contracts generating approximately €22 million of revenue for the year ending December 31, 2014 will be up for renewal. In particular, some of Labco's largest contracts in Spain, which accounted for approximately 19% of Labco's total revenue in the country for the year ended December 31, 2014, will expire in the next three years. There can be no assurances that we will be able to renew our material contracts, and we could lose significant business to competition at upcoming expiries. Any renewal we receive could also be on terms substantially less favorable to us than those of the contract that is subject to the renewal.

To date we have been able to mitigate a degree of the impact of the reimbursement reductions through volume increases and cost savings in parts of our business, but there is a risk that we will be unable to do so in future years.

The loss of contracts or renewal of contracts at less favorable terms could have a material adverse effect on our business, results of operations, financial condition and prospects.

We may be unable to retain or recruit experienced laboratory doctors, which may weaken our relationships with local medical communities and adversely affect our operating results.

The success of our clinical laboratories depends on employing and retaining qualified, skilled and experienced laboratory doctors who can maintain and enhance our reputation by providing testing services in accordance with our standards. If competition for the services of these professionals were to increase in the future, we may not be able to continue to attract and retain such laboratory doctors, which could make it more difficult to comply with licensing requirements.

Our business depends partly on personal relationships and the professional reputation of our laboratory doctors with patients and with the customers that refer patients to our laboratories, such as general practitioners and private hospitals. Departing laboratory doctors who have close relationships with their local medical community may draw some business away from us. For example, Labco's operating results in Germany in 2009 and 2010 were adversely affected by the 2009 departure of a laboratory doctor operating in its laboratory in Duisburg, which led to the loss of a significant contract with a blood bank. Former executives, including Labco's Chief Medical Officer, along with other staff members of the laboratory operated by Labco in Karlsruhe joined a competitor in 2011, and the subsequent reduction in the laboratory's revenue affected Labco's results and operations in Germany in 2011 and 2012.

If we lose, or fail to attract and retain, qualified laboratory doctors who have positive relationships with their respective local medical communities, our revenue and earnings may be adversely affected.

If we lose the services of members of our senior management team, our activities and operating results may be adversely affected.

The execution of our strategy and our continued success depend in part on our ability to benefit from the continued skills, efforts and motivation of our senior management team, both at our corporate level and in each of the countries in which we operate. Our strategy for organic growth and improved operating efficiency depends particularly on our senior management having deep knowledge of our activities. Our external growth strategy requires knowledge of the dynamics, major players and regulatory environment in the various markets in which we operate. The departure of key members of our senior management or experienced personnel may disrupt the pursuit of our strategy. If one or more members of our senior management team or experienced personnel were unable or unwilling to continue in their present positions, including for health, family or other personal reasons, we may not be able to replace them easily or at all. An inability to attract and retain qualified members or key personnel in due time may could have a material adverse effect on our business, prospects, operating results and financial position.

The development of new, more cost-effective tests that can be performed directly by our customers or patients, or a move by hospitals or doctors to carry out in-house testing, may negatively impact our testing volumes and revenue.

Advances in technology may lead to the development of more cost-effective tests that can be performed outside a commercial clinical laboratory, such as specialty tests that can be performed by hospitals in their own laboratories, point-of-care tests that can be performed by doctors in their surgeries, or home testing that can be performed by patients or other non-medical professionals (such as test kits that already exist for HIV testing). Manufacturers of laboratory equipment and test kits may seek to increase their sales by marketing tests that can be performed in surgeries or directly by patients. In addition, consumer healthcare technology companies may succeed in developing novel approaches to laboratory diagnostics testing, including alternative methods of sample collection and testing which replace traditional ones. The development of such technology and testing methods and their use by our customers or patients would reduce the demand for our services and negatively impact our revenue.

Our customers include public and private hospitals that choose to outsource their testing, usually because they lack the expertise or the resources to conduct the testing themselves in a cost-effective manner. Some of our customers or patients, including hospitals and doctors, may choose to perform themselves tests that we perform. If such customers or patients were to perform such tests themselves, and if we did not offer new or alternative tests attractive to our customers and patients, the demand for our testing services would be reduced and this could have a material adverse effect on our business, results of operations, financial condition and prospects.

Failure to bill quickly or accurately for our services may have a material adverse effect on our activities.

We invoice various customers for our services: patients, insurance companies, social security organizations, medical doctors, hospitals and employers. Depending on the billing arrangement and the applicable regulation of the country in which we operate, the payer may be a third party responsible for providing health insurance coverage to patients (such as public health insurance provider or a private medical insurance plan), a patient or other party (such as a hospital, clinic or an employer) who outsourced testing to us, or a combination of these parties. Changes in laws and regulations, contractual terms agreed with payers or payment policies of payers may increase the complexity and cost of our billing process.

Additionally, checking compliance with applicable regulations as well as internal compliance policies and procedures further increase the costs and complexity of the billing process.

For example, billing arrangements in Spain for clinical testing services are subject to contractual arrangements that require compliance with significant administrative constraints. As a result, the billing systems for Labco's laboratories in Spain are complex and require significant, regular investments in technology in order to maintain technology at the required level. In France, one of Labco's SELs incorrectly invoiced certain tests for several years, due to an error inputting rates into our IT system. As a result, the primary health insurers concerned requested that the €2 million incorrectly invoiced be reimbursed to them, and the SEL concerned made the reimbursement. In general, failure to bill timely or accurately for our services or increased complexity in billing arrangements and procedures may result in penalties, foregone revenue (*i.e.*, no reimbursement or payment for tests already processed) delayed payment and an increase in our working capital requirements and could have a material adverse effect on our business, results of operations and financial condition.

Financial difficulties of a customer or third-party payer may result in payment delays or require us to write off debts.

We encounter third-party credit risk where we are reliant on the ability of a third party to be able to pay for services we provide. We are exposed to varying levels of third-party credit risk across our lines of business depending upon the country in which we provide the service and its specific health scheme. In certain countries, we bill patients directly for the majority of our services, in others we invoice the public healthcare system, and in others we invoice private or public hospitals directly for the majority of services performed. Collection efforts for amounts due can be difficult, especially from patients in countries where there is no primary government payer of healthcare expenses. If a third-party payer or a company with which we have a contractual relationship experiences financial difficulties, we may be unable to collect amounts payable to us, resulting in write-offs of such debt. We maintain reserves for doubtful accounts and amounts past due. However, there can be no assurances that such reserves are sufficient for the third-party credit risks we face. Significant or recurring delays in receiving payment, or incidents of bad debts, could have a material adverse effect on our business, results of operations and financial condition.

Failure to comply with environmental, health and safety laws and regulations may result in fines, penalties and other costs as well as the loss of our licenses and authorizations, which could have a material adverse effect on our operations.

Our operations are subject to various licenses, authorizations and regulations under EU, national and local laws and regulations relating to the protection of the environment, human health and occupational health and safety, including those governing the handling, transportation and disposal of medical samples and biological, infectious and hazardous waste, as well as regulations relating to the health and safety of laboratory employees. We must meet strict requirements in all jurisdictions in which we operate for the disposal of laboratory samples at authorized facilities, such as those arising from French regulations relating to "waste from care activities that carry a risk of infection."

In order to organize our waste management policy, including the disposal of samples or other waste that may qualify as waste from care activities that carry a risk of infection, our companies may use services from external providers. If those providers failed to carry out their activities in line with legal and regulatory requirements, our companies may be held liable.

In addition, we must meet a large number of requirements relating to workplace safety for employees in clinical laboratories, who may be exposed to various biological risks such as blood-borne pathogens (including HIV and the hepatitis B virus). Medical and molecular imaging present specific risks arising from the possible exposure of our staff to radiation. Requirements relate to work practice controls, the wearing of protective clothing and protective equipment implementation, training, medical follow-up, vaccinations and other measures designed to minimize exposure to, and the transmission of, blood-borne pathogens or pathogens borne by other medical samples. We also may become subject to claims from employees or other persons, such as those alleging injury or illness resulting from exposure to the samples or waste they handle.

Environmental, health and safety regulations are likely to become even more stringent over time, and the costs incurred by us to comply with these requirements are likely to increase. Moreover, we may be sanctioned and incur substantial costs, including civil and criminal fines and penalties, enforcement actions, or the suspension or termination of our operating licenses and authorizations as a result of failure to comply with our obligations under those laws and regulations, which may have a material adverse effect on our activities. For example, in 2009, one of Labco's small French laboratories was closed for three weeks as a result of disciplinary sanctions by the *Ordre des pharmaciens* due to a failure to maintain adequate safety and quality standards. We may also become subject to claims from employees or other persons claiming to be victims of injury or illness resulting from exposure to the samples or waste they have handled.

The soil and groundwater at some of the sites we own or lease may be contaminated with hazardous materials from industrial activities that may have occurred in the past. Under certain environmental, hygiene and safety laws and regulations, we may be required to investigate or remediate contamination at properties we own or occupy, even if the contamination was caused by persons unrelated to us. While we are not currently aware of any significant soil or groundwater contamination on our sites, the discovery of previously unknown contamination or the imposition of new obligations to investigate contamination at these or other sites in the future may result in substantial unanticipated costs for us.

Labor disputes could disrupt our operations or lead to higher labor costs.

We are subject to the risk of labor disputes, which may disrupt our operations and may result in an increase in our operation costs. Labor laws applicable to our business in certain countries are relatively rigorous. They are also complex and leave room for interpretation. Labor law authorities or courts may have a different interpretation than we do. In numerous cases, labor laws provide for the strong protection of employees' interests. In addition, some of our employees are members of unions or represented by works councils, employee representatives or other bodies. In many cases, we must inform, consult with and request the consent or opinion of union representatives or works councils in managing, developing or restructuring certain aspects of our business. These employee protections and rights may consequently require us to expend greater time and costs in altering or amending employees' terms of employment or making headcount reductions. These labor laws and consultative procedures could also limit our flexibility with respect to employment policy or economic reorganization and could limit our ability to respond to market changes efficiently. Even where consultative procedures are not mandatory, important strategic business decisions could be negatively received by some employees and employees' representative bodies, which could lead to labor actions that could disrupt our business.

Although we believe our relations with employees and unions are good, our operations may nevertheless be materially affected by strikes, work stoppages, work slowdowns or other labor-related developments in the future, including disagreements with unions, works councils or other employee co-determination bodies, as well as with labor law authorities. These and other similar labor-related incidents or matters could disrupt our operations and adversely affect our business, financial condition and results of operations. Our employees in certain countries benefit from collective bargaining agreements, and we may not be able to periodically renegotiate collective agreements on acceptable terms. Settlement of actual or threatened labor disputes or an increase in the number of our employees covered by collective bargaining agreements may adversely affect our labor costs, productivity and flexibility.

Failure to comply with and establish appropriate quality standards as part of our testing services may adversely impact our reputation and operating results.

Our clinical testing services are intended to supply healthcare professionals with information to help them establish or support diagnoses and prescribe medical or other treatment for their patients. Inaccuracies or negligence in providing our clinical testing services may lead to inaccurate diagnoses by healthcare professionals, prescriptions of inappropriate treatments or decisions not to prescribe treatment when treatment is required, which may have serious consequences for patients (such as illness, harm, death or other adverse effects).

Errors such as misidentifying or inaccurately labeling samples or compromising the integrity of samples, as well as errors caused by testing machines or reagents used for testing, may occur. Claims and litigation against us may result in liability for the harm or other adverse effects caused. Labco has been the subject of legal proceedings for alleged acts or omissions of Labco's laboratory personnel and other employees in the past. If we were involved in such proceedings, and even if we were successful in our defense, the proceedings would be costly, could distract management from executing our strategy and could result in substantial damage to our reputation in the medical community and with patients. Payments related to such liabilities may adversely affect our liquidity and financial position. To the extent we are held liable for misrepresentation or negligence, the damages that we be ordered to pay could have a material adverse effect on our business, results of operations and financial condition.

Business interruption at one of our central or base laboratory facilities could result in significant losses and reputational damage to our business.

We operate a large number of laboratory sites. While many of these are small, we also operate 151 strategic laboratories (i.e., central hub laboratories, specialty laboratories and integrated diagnostic centers) as of December 31, 2014, which are larger or strategic laboratory sites and more critical to our operations in certain regional or national markets. There is a risk of business interruption at these sites, which could be the result of external factors such as natural disasters, fire, vandalism or other unforeseen events. Business interruption could also be the result of internal factors such as failure to comply with regulatory requirements and the resulting loss of authorizations to operate the facility. A business interruption of this kind could have a significant adverse impact on our business, both by direct loss of revenue and profits related to the affected laboratory site, but also through the reputational damage that such a business interruption could have on our business. While we maintain business interruption insurance for most of our major locations, there can be no assurance that it would adequately offset our losses in the event of a business interruption of this kind, which could, in turn, have a material adverse effect on our business, financial condition and results of operations.

Disruption, failure or the unsuitable performance of sample transportation services may adversely affect our activities and financial results.

The proper handling of samples during collection and transportation is essential for maintaining their integrity, ensuring the quality of tests and guaranteeing safety from accidental exposure to potentially infectious microorganisms. The vehicles used to transport samples must satisfy applicable legal, practical and technical requirements, which vary depending on the type of samples transported. These requirements govern, for example, the use of appropriate containers and packaging, the labeling of containers, the manner in which samples and containers are stored in the vehicle, the temperature at which samples must be transported and the duration of the journey. Drivers employed to transport samples must be trained to handle them in accordance with best practice and applicable laws and regulations. Mishandling of the sample in the collection and transportation process may increase the likelihood of errors in laboratory testing. In addition, efficient transportation of samples is key to Synlab's business. Synlab's business operates on a model of numerous satellite and hospital laboratory sites and blood collection centers where samples are collected and, if testing is not conducted on site at the local laboratory, delivered to base or central hub laboratory sites where testing takes place. Disruption to the transportation of samples, failure to comply with requirements relating to samples or the inadequate performance of the transportation service may damage our reputation, lead to claims against us and the loss of customers and patients, which would adversely affect our operating results, financial position and outlook.

In addition, in certain of the countries in which we operate, we have entered into outsourcing arrangements with third parties for the transportation of medical samples from specified sampling points (such as hospital sites, doctors' surgeries and Sampling Centers) to our clinical laboratories. For example, in the case of Synlab, third-party logistics providers are used in particular in Finland, where specialty tests are transported to Synlab's central laboratory in Tallinn, Estonia, for processing. We do not control the facilities or operations of such third-party transport operators and therefore depend on the quality of their transportation services in order to maintain the integrity of samples. Any interruption in their services, including as a result of strikes, inclement weather conditions or otherwise, or failure to meet their contractual obligations may damage our reputation and result in claims against us and the loss of customers or patients, which would adversely affect our operating results, financial position and outlook.

Disruptions in the delivery of testing supplies could adversely affect us.

We depend on effective supply and distribution networks of our suppliers to obtain necessary reagents and consumables for our testing operations and for the maintenance of our testing equipment. Damage or disruption to such supply or distribution capabilities due to labor strikes at suppliers, loss on non-delivery of such materials or any other reason could impair our ability to process tests and provide customers results in a timely manner, which could damage our reputation and adversely impact our results of operations. To the extent that we are unable to effectively manage such events if they occur, or cannot financially mitigate the likelihood or potential impact of such events, they could have a material adverse effect on our business, financial condition and results of operations.

Extreme weather conditions may affect our activity levels and, consequently, our revenue.

A significant portion of our activities depends on the ability of patients—who are often ill, aged, pregnant or have limited mobility—to travel to see a doctor or to a laboratory or blood collection center. Accordingly, unusual or inclement climatic conditions, particularly those affecting ground transportation conditions, have already in the past caused, and may in the future cause, a decrease in demand for our testing services. We also maintain a logistics network to transport test samples from sampling points to laboratories and between laboratories. Our logistics network depends significantly on ground transportation, which may be disrupted by factors including snow and other adverse weather conditions. Disruptions to our logistics network restrict our ability to provide our services in affected areas and reduce our revenue.

For example, because of heavy snowfall, Labco's operations in Monza (Italy) and Southwest France were significantly affected in December 2011 and February 2012, respectively. Similarly, heavy snowfall in Northern France in January and February 2013 also disrupted Labco's operations and led to a reduction in revenue during that period.

We may incur liabilities that are not covered by insurance.

We carry insurance of various types, including business interruption, property and casualty, directors and officers and general liability coverage. We maintain insurance policies both at the group level as well as specific policies for individual laboratories that we operate through our various subsidiaries. While we seek to maintain appropriate levels of insurance, not all claims are insurable and there can be no assurance that we will not experience incidents of a nature that is not covered by insurance. We maintain an amount of insurance protection that we believe is adequate, but there can be no assurances that our insurance coverage will be sufficient or effective under all circumstances and against all liabilities to which we may subject. We could, for example, be subject to substantial claims for damages upon the occurrence of several events within one calendar year. In addition, our insurance costs may increase over time in response to any negative development in our claims history or due to material price increases in the insurance market in general. We may not be able to maintain our current insurance coverage or do so at a reasonable cost. Liabilities that are not covered by insurance or our inability to maintain our current insurance coverage could have a material adverse effect on our business, financial condition and results of operations.

Risks Related to Disputes and Litigation

Adverse results in material litigation could have an adverse financial impact and an adverse impact on our client base and reputation.

In the ordinary course of our business, we are involved or may in future be involved in certain contentious proceedings (including administrative, court, arbitration and disciplinary proceedings) relating to matters concerning the professional liability of our laboratories, disputes with laboratory doctors, medical doctors and employees and regulatory issues, as well as enquiries initiated by regulatory authorities, professional associations and health insurers, regarding, among other things, billing matters. For our most significant current and potential disputes and the amount of provisions we set aside with respect to proceedings underway, see "*Legal Matters*."

Some of the proceedings initiated by or against us may involve claims for material amounts and could divert management's attention and time from day-to-day business operations to address such issues. Proceedings may result in substantial monetary damages, adversely affect our customer base and reputation, and reduce demand for our services. The final outcome of those proceedings or claims might have an adverse impact on our financial position.

In some proceedings in which we are involved or could be involved, material amounts are claimed, or could potentially be claimed, from us or our subsidiaries and affiliates. Any provisions we set aside in this respect in our financial statements may prove insufficient if we were found liable, which could have material adverse consequences on our activities and financial position (particularly on our operating results and cash flow) regardless of whether or not the underlying claim is well founded.

In general, it is possible that, in the future, new proceedings, whether or not connected with those currently underway, may be initiated against us, our subsidiaries or our laboratory doctors, medical doctors or employees. Since such proceedings may be lengthy and costly, they could also, regardless of their outcome, have adverse consequences on our activities, financial position (particularly our results and cash position) and outlook.

We are subjected to stringent privacy laws and information security policies.

We are subject to legal obligations relating to respect for and the protection of personal data—particularly patients' medical records—and strict policies relating to information security. We receive, generate and store significant volumes of personal and sensitive information, such as patient medical information, and must therefore comply with privacy and data protection regulations with respect to the use and disclosure of protected health information, intended to ensure the confidentiality, integrity and availability of such information. Such regulations establish a complex regulatory framework on a variety of subjects, including:

- the circumstances under which the use or disclosure of protected medical health information is permitted or required without specific authorization by the patient;
- a patients' rights to access, ask for amendments to and receive, protected information contained in their medical records;
- requirements to notify patients of privacy measures to maintain the confidentiality of protected medical information;
- administrative, technical and physical backups required of entities that use or receive protected medical information; and
- the protection of computing systems that store protected health information.

The realization of any of these risks could have a material adverse effect our business, results of operations and financial condition. For example, in July 2012 Labco entered into a settlement agreement with one of Labco's patients in France following the involuntary disclosure of certain confidential medical information.

Additionally, it was discovered at the beginning of April 2015 that certain of Synlab's laboratory results regarding patients in the western part of Switzerland were publicly accessible via a third party mobile application. The application was immediately deactivated to prevent any further unauthorized access. The incident is the subject of an ongoing internal investigation and has prompted an information request by the Swiss Federal Data Protection and Information Commissioner. Synlab may have to bear the cost of any additional investigative or remedial measures which may be necessary in addition to any liabilities as a result of the incident. If we do not adequately safeguard confidential patient data or other protected health information, or if such information or data is wrongfully used by us or disclosed to an unauthorized person or entity, our reputation could suffer and we could be subject to fines, penalties and administrative, legal or disciplinary proceedings.

Risks Related to Taxation

We are exposed to risks related to taxation in the various countries in which we operate.

We organize our commercial and financial activities on the basis of various and complex legal and regulatory requirements in the various countries in which we operate, particularly with regard to taxation. Changes in regulations or their interpretation in the various countries in which we operate could affect the calculation of our overall tax burden (income tax, social security contributions and other taxes), along with our financial position, liquidity and results. In addition, we must interpret French, German and local regulations, international tax agreements, legal opinions and administrative practice in each of the jurisdictions in which we operate. We cannot guarantee that our application and interpretation of such provisions will not be challenged by the authorities concerned. In general, any breach of tax laws or regulations applicable in the countries in which we operate could lead to tax adjustments, late-payment interest, fines and penalties. Additionally, we are subject to routine tax audits by local authorities in the countries in which we operate. Our activities, results, financial position, liquidity and outlook could be materially affected if one or more of the aforementioned risks materialized.

Risks related to French tax rules regarding the tax-deductibility of interest

French tax rules may restrict the deductibility, for French tax purposes, of all or portion of the interest on our indebtedness incurred in France. These rules, or any adverse changes to them, could affect our ability to deduct interest payments on our borrowings from taxable income, thereby increasing our tax burden, which could have a material adverse impact on our business, results of operations, financial condition and prospects (see "*—Risks Related to Our Capital Structure—French tax legislation may restrict* *the deductibility, for French tax purposes, of all or a portion of the interest on our indebtedness incurred in France, thus reducing the cash flow available to service our indebtedness. Similar rules exist in other countries"*).

Risks related to German tax rules regarding the tax-deductibility of interest

German tax rules may restrict the deductibility, for German tax purposes, of all or portion of the interest on our indebtedness incurred in Germany. These rules, or any adverse changes to them, could affect our ability to deduct interest payments on our borrowings from taxable income, thereby increasing our tax burden, which could have a material adverse impact on our business, results of operations, financial condition and prospects (see "*—Risks Related to Our Capital Structure—German tax legislation may restrict the deductibility, for German tax purposes, of all or portion of the interest on our indebtedness incurred in Germany*").

We are exposed to risks related to VAT and French payroll tax.

Most of our activities are exempt from VAT. We cannot recover VAT applicable to charges and expenses relating to those VAT-exempt activities. As a result, any increase in the VAT rate on those charges and expenses (such as the increase in the Italian VAT rate from 21% to 22%, which came into force in October 2013, or the application in Spain of VAT at the standard rate of 21% from January 1, 2015 instead of the reduced rate of 10% previously applied to reagents and medical equipment) would represent an additional cost for us. We would not necessarily be able to pass on this additional cost in the prices we charge to our customers. Some of our existing or future activities are subject to VAT, which allows us to deduct VAT levied on the related charges and expenses. In the United Kingdom, the tax authorities have confirmed, after a long debate, that VAT is applicable to activities such as the management and provision of our assets and equipment. However, it is possible that these tax arrangements will be challenged by the tax authorities in the future. If that happens, we may not be able to pass on the resulting increase in costs to our customers.

Similarly, given that most of our activities are VAT exempt, we are subject to payroll tax in France. As a result, any change in the regulations applicable to the French payroll tax may have an adverse impact on our results and financial position.

Risks Related to the Transactions

The Acquisitions are subject to significant uncertainties and risks.

On June 24 and 25, 2015, German BidCo, an entity directly owned by the Senior Secured Notes Issuer and indirectly owned by Cinven Funds, entered into the Synlab Acquisition Agreement to acquire the Synlab Securities from the Synlab Sellers. The consummation of the Synlab Acquisition is subject to the satisfaction of certain conditions, including clearance by the European Commission and the Swiss Competition Commission, and the performance of certain closing actions. German BidCo will not consummate the Synlab Acquisition until these clearances are received, which may extend past the Escrow Longstop Date. In addition, any of the competition authorities may choose to prevent the Synlab Acquisition from taking place. Alternatively, any of the competition authorities may permit the Synlab Acquisition but demand that German BidCo, the Senior Secured Notes Issuer and the Synlab Group implement remedies. Accordingly, German BidCo may not be permitted to undertake the Synlab Acquisition in a timely fashion, without remedies, or at all. Any such remedy may make the Synlab Acquisition less attractive.

On May 27, 2015, French BidCo, an entity directly owned by the Senior Secured Notes Issuer and indirectly owned by Cinven Funds, entered into the Labco Acquisition Agreement to acquire the Labco Securities from the Labco Sellers. The consummation of the Labco Acquisition is subject to the satisfaction of certain conditions, including clearance by the European Commission and, to the extent required, foreign investment authorization by the French Ministry for the Economy, and the performance of certain closing actions. French BidCo will not consummate the Labco Acquisition until these clearances are received, which may extend past the Escrow Longstop Date. In addition, any of the competition authorities may choose to prevent the Labco Acquisition from taking place. Alternatively, any of the competition authorities may permit the Labco Acquisition but demand that French BidCo, the Senior Secured Notes Issuer and the Labco Group implement remedies. Accordingly, French BidCo may not be permitted to undertake the Labco Acquisition in a timely fashion, without remedies, or at all. Any such remedy may make the Labco Acquisition less attractive.

Completion of the Acquisitions is a condition to releasing the proceeds from the Offerings from escrow. If the Acquisitions are not consummated on or prior to the Escrow Longstop Date for any reason and, as a result, the proceeds from the sale of the Notes to be held in escrow are not released, each of the Issuers will be required to redeem the relevant Notes pursuant to the terms of the special mandatory redemption provided under the relevant Indentures, and you may not obtain the investment return you expect on the Notes. The Issuers may also undertake a special mandatory redemption at any time if, in their reasonable judgment, the Acquisitions will not be consummated by the applicable Acquisition Longstop Date. See "*Description of the Temporary Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*" and "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*."

The Acquisitions are expected to be consummated in accordance with the terms of the Labco Acquisition Agreement and the Synlab Acquisition Agreement, as the case may be. However, the Labco Acquisition Agreement and the Synlab Acquisition Agreement may be amended and the closing conditions may be waived at any time by the parties thereto, without the consent of holders of the Notes. As a condition for release, the escrow agreements will include a certification that no material term of or condition to the terms of the Acquisitions have been amended or waived in a manner or to an extent that would be materially adverse to the interests of the holders of the Notes. Furthermore, any amendment made to either Acquisition Agreement may make the applicable Acquisition less attractive. Any amendment made to either Acquisition Agreement may be materially adverse to holders of the relevant series of Notes, which, in turn, may have an adverse effect on the return you expect to receive on such Notes.

The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco.

Should a minority shareholder refuse to comply with the drag mechanism described in "*The Transactions—The Synlab Acquisition*" and provided German BidCo holds at least 95% of the outstanding shares in Synlab following the Completion Date, German BidCo currently intends to convert Synlab into a German stock corporation (*Aktiengesellschaft*) for an interim period and perform a squeeze-out of the remaining minority shareholders. In addition, following the Completion Date and the conversion but prior to (and also anytime thereafter) the squeeze-out becoming effective, German BidCo and Synlab intend to (provided German BidCo holds at least 75% of the outstanding shares in Synlab) conclude a domination and profit and loss sharing agreement (*Beherrschungs- und Ergebnisabführungsvertrag*) which would require payment of a statutory guaranteed dividend for the remaining minority shareholders as long as they are shareholders of Synlab. Any minority shareholder having voted against the conversion of Synlab into a stock corporation, the conclusion of the domination and profit and loss sharing agreement or the squeeze-out may contest the underlying shareholders' resolutions on certain limited grounds in a way that prevents the measures from being registered with the competent commercial register and, thus, from becoming effective.

Despite compliance with all procedural requirements with respect to such measures, some legal commentators argue that a minority shareholder could nevertheless challenge a shareholder resolution for a change of a German limited liability company (such as Synlab) into a German stock corporation or the subsequent squeeze out if the only reason for the change in legal form is to carry out a squeeze out of minority shareholders, which, under German law, is not possible with respect to minority shareholders in limited liability companies such as Synlab prior to its conversion into a stock corporation. Other legal scholars argue that if the relevant majority of shareholders makes use of their legal right to change the legal form of a company to benefit from the advantages of that new form, this merely reflects the risk any minority shareholder assumes. The German Federal Supreme Court (*Bundesgerichtshof*) has rejected the arguments of misuse of rights in a case where the majority shareholder reached the relevant 95% threshold required for the squeeze out only for a limited period of time through a securities lending transaction which took place only for the purpose of the squeeze out. Further, in 2012, the Regional Court of Hamburg (*OLG Hamburg*) also rejected the argument of misuse of rights in a case where it was necessary to change the legal form of the majority shareholder (not the company) to effect the squeeze out and the change of legal form took place only in order to allow the squeeze out to happen. The Regional Court of Hamburg held that a squeeze out envisaged in the German Stock Corporation Act (*Aktiengesetz*), as intended in this transaction, does not require any justification and that instead a formal view has to be taken. In another case, the Regional Court of Hamburg in 2008 held that a merger implemented in order to achieve a 95% participation did not constitute a misuse of rights if (as in its case) there are other valid and independent business reasons for the merger. Legal writers disagree whether a conversion of the company that serves no other valid business purpose than enabling a squeeze out constitutes a misuse of rights, and there are no court precedents on this specific question. It should be noted that in the present transaction German Bidco as majority shareholder would implement the conversion into a stock corporation, domination and profit and loss pooling agreement and squeeze out only to acquire the shares of any minority shareholders in Synlab which failed to comply with their obligation to transfer their shares to German Bidco pursuant to the drag notices given by the Synlab Seller.

Should (i) the conversion of Synlab into a stock corporation not be registered, (ii) the conversion be registered but the domination and profit and loss sharing agreement not be registered or (iii) either of the two be successfully challenged thereafter, then unless the minority shareholder has consented to Synlab and its subsidiaries granting the Guarantees and Collateral with respect to the Additional Senior Secured Notes and the Senior Notes, which at that point is unlikely, such Guarantees and such Collateral may not be granted at all or, if such Guarantees and Collateral are granted, they may be void or could be successfully challenged by any minority shareholder who did not approve the guarantees or Collateral or the minority shareholder may bring damage claims against German Bidco, Synlab or its subsidiaries as well as against any of their directors. As a consequence, the Additional Senior Secured Notes and the Senior Notes would not be secured by Guarantees and Collateral of Synlab and its respective subsidiaries.

The Unaudited Pro Forma Condensed Combined Consolidated Financial Information included in this offering memorandum is presented for illustrative purposes only and our actual financial condition and results of operations following the Transactions may differ materially.

Until the Completion Date, Synlab and Labco will continue to operate as separate companies. Accordingly, our operations have not previously been managed on a combined basis and will not be operated on such basis until the Completion Date. The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information in this offering memorandum has not been audited by any independent auditors, is presented for informational purposes only and is not necessarily indicative of the financial position or results of operations that would have actually occurred had the Transactions been completed as of the dates indicated, nor is it indicative of the future operating results or financial position of the combined company, including the future operation of Synlab/Labco as a combined business. The presentation of the Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information is based on information available, preliminary estimates and certain *pro forma* assumptions, as described therein. The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information does not reflect future events that may occur after the Transactions, including the potential non-realization of operating cost savings, the incurrence of costs related to the planned integration, and does not consider potential negative impacts of current market conditions on revenues or expenses. Such actual events may have a material adverse impact on our business, financial condition and cash flows, our ability to make payments on the Notes and investor confidence, which in turn could affect the trading price of the Notes. See "*Unaudited Pro Forma Condensed Combined Consolidated Financial Information*."

Anticipated synergies from the Transactions may not materialize.

Upon completion of the Transactions, we expect to achieve certain synergies discussed elsewhere in this offering memorandum relating to the consolidation of the businesses of Synlab and Labco. We may not realize any or all of the anticipated synergies relating to the Transactions that we currently anticipate, including if we are unable to consummate either the Synlab Acquisition or the Labco Acquisition. The synergies that we currently expect are synergies relating to cost reductions resulting from (i) the consolidation of our operations at a single headquarters, (ii) improvements in operational efficiency and procurement due to the combined business' greater scale and (iii) consolidation of laboratories in certain geographies. Our estimated synergies from the Transactions are forward-looking and therefore subject to a number of assumptions about the timing, execution and costs associated with realizing the synergies. Such assumptions are inherently uncertain and are subject to significant business, economic and competition risks and uncertainties. In particular, because Synlab and Labco will continue to operate as separate companies until the Completion Date, the Issuers have only limited access to and insights into these input factors. There can be no assurance that such assumptions will turn out to be correct. In addition, the synergies may be offset by deterioration in the markets in which we operate, increases in other expenses or problems in the business unrelated to the Transactions. As a result, the amount of synergies that we will actually realize and/or the timing of any such realization may differ significantly (and may be significantly lower) from the ones that we currently estimate and we may incur significant costs in realizing the Transactions and in reaching the estimated synergies. We may not be successful in integrating the Synlab and Labco businesses as currently anticipated, which may have a material adverse effect on our business and operations.

The Issuers do not currently control Synlab, Labco or their respective subsidiaries and will not control Synlab, Labco and their respective subsidiaries until completion of the Acquisitions.

Labco and its subsidiaries are currently controlled by four different categories of shareholders: founding shareholders; financial investors; laboratory doctors practicing in Labco's laboratories; and others, such as management, family members and estate planning entities of Labco's laboratory doctors. The Issuers, indirectly through German BidCo and French BidCo, will not obtain control of Synlab, Labco or their respective subsidiaries until the completion of the Acquisitions. The Issuers cannot assure you that the current shareholders will operate the business of Synlab, Labco and their respective subsidiaries during the interim period in the same way that the Issuers would. The information contained in this offering memorandum has been derived from industry publications and from surveys or studies conducted by third-party sources and, in the case of historical information relating to Synlab, Labco and their respective subsidiaries, has been provided to the Issuers by the current shareholders as well as members of management of Synlab, Labco and their respective subsidiaries, and the Issuers have relied on such information supplied to them in its preparation. Furthermore, the Transactions themselves have required, and will likely continue to require, substantial time and focus from management, which could adversely affect their ability to operate the businesses. Likewise, other employees may be uncomfortable with the Transactions or feel otherwise affected by it, which could have an impact on work quality and retention.

In addition, prior to the Completion Date, none of Synlab, Labco or their respective subsidiaries will be subject to the covenants described in "*Description of the Senior Secured Notes*" and "*Description of the Senior Notes*," to be included in the Indentures. As such, the Issuers cannot assure you that, prior to such date, Synlab, Labco or their respective subsidiaries will not take an action that would otherwise have been prohibited by the Indentures had such covenants been applicable.

Synlab and/or Labco may have liabilities that are not known to French BidCo or German BidCo, as the case may be.

As part of the Acquisitions, German BidCo will assume certain liabilities of Synlab and French BidCo will assume certain liabilities of Labco. There may be liabilities that German BidCo and/or French BidCo, as the case may be, failed or was unable to discover in the course of performing due diligence investigations into Labco or Synlab, as the case may be. Any such liabilities, individually or in the aggregate, could have a material adverse effect on our business, financial condition and results of operations. As German BidCo integrates Synlab and French BidCo integrates Labco, German BidCo and French BidCo may learn additional information that adversely affects the Issuers, such as unknown or contingent liabilities and issues relating to compliance with applicable laws.

If the conditions to the escrow agreements are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes.

The gross proceeds from the Offerings will be held in the Escrow Accounts pending the satisfaction of certain conditions, some of which are outside of our control. If the Acquisitions do not occur on or before the Escrow Longstop Date or in the event of certain other events that trigger escrow termination, the Notes will be subject to a special mandatory redemption as described in "*Description of the Senior Secured Notes—Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption*" and "*Description of the Senior Notes—Disbursement of Funds; Senior Notes Escrow Account; Special Mandatory Redemption*" and you may not obtain the return you expect to receive on the Notes.

The escrowed funds will be initially limited to the gross proceeds of the Offerings and will not be sufficient to pay the special mandatory redemption price, which is equal to 100% of the aggregate issue price of the Notes plus accrued and unpaid interest and additional amounts, if any, to the date of special mandatory redemption. In the event that the escrowed funds are insufficient to pay the special mandatory redemption price, plus any such accrued and unpaid interest and additional amounts, Cinven will be required to make an equity contribution in an amount required to enable each relevant Issuer to pay such accrued and unpaid interest and additional amounts, if any, owing to the holders of the relevant Notes. Your decision to invest in the Notes is made at the time of purchase. Changes in our business or financial condition, or the terms of the Acquisitions or the financing thereof, between the closing of these Offerings and the Completion Date, will have no effect on your rights as a purchaser of the Notes.

Our agreements may contain change of control provisions that if triggered, provide a right of termination.

Certain of our supplier and third-party provider agreements contain change of control clauses that entitle the relevant counterparties to terminate or enforce other rights under the agreements in the event of a change of control. If the Acquisitions are successful, such counterparties may seek to exercise these rights which could result in the termination or amendment of the applicable contract. In the event of any such termination there can be no assurance that we would be able to successfully replace the services or customer payments that were provided under the relevant contract at attractive prices or at all. Likewise, if we were required to amend any such contract we can provide no assurance that the terms of such amendment will not be materially adverse to us or will not otherwise impact our business or operations. Accordingly, any termination or amendment of a significant contract as a result of the change of control following the Acquisitions could materially or adversely affect our business and ability to provide services to our customers.

Risks Related to Our Capital Structure

The Issuers and certain Guarantors are holding companies that have no revenue generating operations of their own and will depend on cash from the operating companies of our combined Group to be able to make payments on the Notes or the Guarantees.

The Issuers and certain Guarantors are holding companies with no business operations other than the equity interests they hold in each of their subsidiaries. The Issuers and such Guarantors are dependent upon the cash flow from their operating subsidiaries in the form of dividends or other distributions or payments to meet their obligations, including their obligations under the Notes or the Guarantees. The amounts of dividends and distributions available to the Issuers and such Guarantors will depend on the profitability and cash flows of their subsidiaries and the ability of those subsidiaries to declare dividends under applicable law. The subsidiaries of the Issuers and such Guarantors, however, may not be able to, or may not be permitted under applicable law to, make distributions or advance upstream loans to the Issuers or such Guarantors to make payments in respect of their indebtedness, including the Notes and the Guarantees. While the Indentures limit the ability of the Issuers' subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments, these limitations are subject to significant qualifications and exceptions, including exceptions for restrictions imposed by applicable law. In addition, the subsidiaries of the Issuers that do not guarantee the Additional Senior Secured Notes or the Senior Notes have no obligation to make payments with respect to the Additional Senior Secured Notes or the Senior Notes.

Our significant leverage may make it difficult for us to operate our businesses.

We currently have, and after the issuance of the Notes will continue to have, a significant amount of outstanding debt with substantial debt service requirements. As of March 31, 2015, and as adjusted to give effect to the Transactions and the application of the proceeds therefrom, our *pro forma* combined net financial debt would have been €1,896.2 million, which reflects external interest-bearing loans and borrowings less cash and cash equivalents. In addition, we will be permitted to incur additional indebtedness under the Revolving Credit Facility in the future, and other significant additional indebtedness to fund acquisitions as set out in "*Description of the Senior Secured Notes—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" and "*Description of the Senior Notes—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*." Our significant leverage could have important consequences for our business and operations and for you as a holder of Notes, including, but not limited to:

- making it more difficult for us to satisfy our obligations with respect to the Notes and our other debts and liabilities;
- requiring us to dedicate a substantial portion of our cash flow from operations to payments on our debt, thus reducing the availability of our cash flow to fund acquisitions, organic growth projects and for other general corporate purposes;
- increasing our vulnerability to a downturn in our business or general economic or industry conditions;

- placing us at a competitive disadvantage relative to competitors that have lower leverage or greater financial resources than we have;
- limiting our flexibility in planning for or reacting to competition or changes in our business and industry;
- negatively impacting credit terms with our creditors;
- restricting us from pursuing strategic acquisitions or exploiting certain business opportunities; and
- limiting, among other things, our ability to borrow additional funds or raise equity capital in the future and increasing the costs of such additional financings.

Any of these or other consequences or events could have a material adverse effect on our ability to satisfy our debt obligations, including the Notes. Our ability to make payments on and refinance our indebtedness and to fund acquisitions, working capital expenditures and other expenses will depend on our future operating performance and ability to generate cash from operations. Our ability to generate cash from operations is subject, in large part, to general economic, competitive, legislative and regulatory factors and other factors that are beyond our control. We may not be able to generate sufficient cash flow from operations or obtain enough capital to service our debt or fund our future acquisitions or other working capital expenditures.

In addition, we may be able to incur substantial additional debt in the future, including indebtedness in connection with any future acquisition. The terms of the Indentures and the Revolving Credit Facility Agreement permit our subsidiaries to do so, in each case, subject to certain limitations. If new debt is added to our current debt levels, the risks that we now face could intensify.

For a discussion of our cash flows and liquidity, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab—Liquidity and Capital Resources*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Liquidity and Capital Resources*."

We may incur substantially more debt in the future, which may make it difficult for us to service our debt, including the Notes, and impair our ability to operate our businesses.

We may incur substantial additional debt in the future. Although the Indentures and the Revolving Credit Facility Agreement contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of significant qualifications and exceptions and, under certain circumstances, the amount of indebtedness that could be incurred in compliance with these restrictions could be substantial. Under the Indentures, in addition to specified permitted indebtedness, we will be able to incur additional indebtedness so long as on a *pro forma* basis our fixed charge coverage ratio (as defined in the Senior Secured Notes Indenture) is at least 2.00 to 1.00. Under the Senior Secured Notes Indenture, in the event such indebtedness is secured indebtedness, we will be able to incur additional secured indebtedness so long as on a *pro forma* basis our consolidated senior secured leverage ratio (as defined in the Indenture, which, among other things, excludes certain specified permitted indebtedness from the calculation of such ratio and is calculated on a net basis) is no more than 5.50 to 1.00. We will also be able to refinance indebtedness outstanding under our Revolving Credit Facility Agreement with debt incurred in compliance with these ratios and then be able to draw amounts under our Revolving Credit Facility Agreement at a time when we do not meet these ratios. The terms of the Indentures permit us to incur future debt that may have substantially the same covenants as, or covenants that are more restrictive than, those of the Indentures. Moreover, some of the debt we may incur in the future could be structurally senior to the Notes and, in the case of the Senior Secured Notes, may be secured by collateral that does not secure the Senior Secured Notes. In addition, the Indentures and our Revolving Credit Facility Agreement do not prevent us from incurring obligations that do not constitute indebtedness under those agreements. The incurrence of additional debt would increase the leverage-related risks described in this offering memorandum.

French tax legislation may restrict the deductibility, for French tax purposes, of all or a portion of the interest on our indebtedness incurred in France, thus reducing the cash flow available to service our indebtedness.

Under Article 212 § II of the French *Code général des impôts*, deductions of interest accrued on indebtedness granted by a related party within the meaning of Article 39.12 of the French *Code général des impôts* or on indebtedness granted by a third party but guaranteed by a related party (a third party assimilated to a related party) is allowed under certain conditions but subject to limitations. Deductions for interest on such indebtedness may be disallowed in the fiscal year during which they are accrued if such interest payments exceed each of the following: (i) the amount of interest multiplied by the ratio of (a) 1.5 times the company's net equity or, under certain conditions, share capital, and (b) the average amount of indebtedness owed to related parties (or to third parties assimilated to related parties) over the relevant fiscal year; (ii) 25% of the company's earnings before tax and extraordinary items, as adjusted for purposes of these limitations; and (iii) the amount of interest received by the company from related parties. Deductions may be disallowed for the portion of interest that exceeds in a relevant fiscal year the highest of the above three limitations if such portion of interest exceeds €150,000, unless the company is able to demonstrate for the relevant fiscal year that the indebtedness ratio of the Labco Group to which it belongs is higher or equal to its own indebtedness ratio. The portion of interest for which deduction is disallowed may be deducted under certain conditions, in the following fiscal year, the remainder being subject to a 5% discount in each subsequent fiscal year. Specific rules may apply within French tax consolidated groups.

These thin capitalization rules could apply at the level of the Senior Secured Notes Issuer's French subsidiaries for any amount of the proceeds of the Existing Senior Secured Notes used by the Senior Secured Notes Issuer to grant intragroup loans to such subsidiaries as well as, more generally, in respect of any loans contracted by such French subsidiaries from any related party or party assimilated to a related party.

Moreover, Article 209 § IX of the French *Code général des impôts* imposes restrictions on the deductibility of interest expenses incurred by a French company if such company has acquired shares of another company qualifying as "*titres de participations*" within the meaning of Article 219 I *a quinquies* of the French *Code général des impôts* and if such acquiring company cannot demonstrate, with respect to the fiscal years running over the twelve-month period from the acquisition of the shares (or with respect to the first fiscal year opened after January 1, 2012 for shares acquired during a fiscal year opened prior to such date), that (i) the decisions relating to such acquired shares are actually taken by the company having acquired them (or, as the case may be, by a company controlling the acquiring company or by a company directly controlled by such controlling company, within the meaning of Article L. 233-3 § I of the French *Code de commerce*, which is located in France) and (ii) where control or an influence is exercised over the acquired company, such control or influence is exercised by the acquiring company (or, as the case may be, by a company controlling the acquiring company or by a company directly controlled by such controlling company, within the meaning of Article L. 233-3 § I of the French *Code de commerce*, which is located in France).

On November 30, 2012, the French tax authorities published their final administrative guidelines, referenced as BOI-IS-BASE-35-30-20130329 regarding Article 209 § IX of the French *Code général des impôts*. This tax legislation and the related administrative guidelines remain quite vague and subject to significant uncertainties as to their interpretation. Therefore, we cannot provide any assurance that this tax legislation would not limit the deductibility of interest borne by French BidCo.

Moreover, Article 212 *bis* of the French *Code général des impôts* provides for a general limitation of deductibility of net financial charges, subject to certain exceptions. Adjusted net financial charges incurred by French companies that are subject to French corporate income tax and are not members of a French tax consolidated group are deductible from their taxable result only up to 75% of their amount in respect of fiscal years starting as from January 1, 2014, to the extent that such companies' financial charges (net of financial income) are at least equal to €3.0 million in a given fiscal year. Under Article 223 B *bis* of the French *Code général des impôts*, special rules apply to companies that belong to French tax consolidated groups. The 75% limitation is factored on the basis of the Labco Group's consolidated taxable result and applies to the adjusted aggregate net financial charges incurred by companies that are members of the French tax consolidated group with respect to amounts made available by lenders outside such group, to the extent that the tax group companies' consolidated financial charges (net of financial income) are at least equal to €3.0 million in a given fiscal year.

Finally, for fiscal years ending on or after September 25, 2013, the deductibility of interest paid to a related party within the meaning of Article 39.12 of the French *Code général des impôts* is subject to a new limitation pursuant to Article 212 § I-b of French *Code général des impôts*. If the lender is a related party to the borrower within the meaning of Article 39.12 of the French Tax Code, the borrower shall now demonstrate, at the French tax authorities' request, that the lender is, for the current fiscal year and with respect to the concerned interest, subject to an income tax in an amount which is at least equal to 25% of the corporate income tax determined under standard French tax rules. Where the related party lender is domiciled or established outside France, the "corporate income tax determined under standard French tax rules" means that to which it would have been liable in France on the interest received if it had been domiciled or established in France. Specific rules apply where the lender is a pass through entity for French tax purposes, a collective investment scheme referred to in Articles L. 214-1 to L. 214-191 of the French Monetary and Financial Code (*Code monétaire et financier*) (which includes UCITSs and AIFs as well as other collective investment schemes such as SICAVs and SPPICAVs with a single shareholder) or, subject to certain conditions, a similar entity organized under a foreign law.

Considering this legislation and guidelines issued by the French tax authorities (BOI-IS-BASE-35-50-20140805 and BOI-IS-BASE-35-10-20140805), this last interest deduction limitation should not apply to interest borne by French BidCo and Labco in respect of the proceeds of the Existing Senior Secured Notes that will be made available to these companies by the Senior Secured Notes Issuer by means of intragroup loans to the extent the Senior Secured Notes Issuer is subject to an income tax in an amount which is at least equal to 25% of the corporate income tax determined under standard French tax rules. However, we cannot provide any assurance that this tax legislation would not limit the deductibility of interest borne by French BidCo and Labco in relation to these intragroup loans. More generally, based on this tax legislation, our ability to deduct interest payments in respect of any loans contracted by either Issuer's French subsidiaries from any related party would also depend on the tax treatment of the interest payments at the level of the person to which they are made. The impact of such rules on our ability to deduct interest paid on indebtedness could increase our tax burden and therefore negatively impact our financial condition and operating results. In addition, our cash flow might also be negatively impacted should we have to pay Additional Amounts.

There are similar rules in most countries in which we operate.

The impact of such rules on our ability to deduct interest paid on indebtedness could increase our tax burden and therefore negatively impact our financial condition and operating results. In addition, our cash flow might also be negatively impacted should we have to pay Additional Amounts as a result of the levying of the withholding tax referred to above.

German tax legislation may restrict the deductibility, for German tax purposes, of all or a portion of the interest on our indebtedness incurred in Germany, thus reducing the cash flow available to service our indebtedness. Similar rules exist in other countries.

Pursuant to the German interest barrier rule (*Zinsschranke*), section 4h German Income Tax Act (*Einkommensteuergesetz*) and section 8a German Corporate Income Tax Act (*Körperschaftsteuergesetz*), interest expenses can only be deducted for German corporate income and trade tax purposes up to the sum of (a) the amount of the interest income come in the same assessment period and (b) 30% of the EBITDA as defined in section 4h German Income Tax Act. In principle, this limitation does not apply if (a) the net interest expenses p.a. (i.e. interest expenses less interest income) is less than EUR 3,000,000, (b) the respective taxpayer does not form part of a group or (c) the respective taxpayer forms part of a group, but the debt to equity ratio of such taxpayer is, in principle equal or better than that of the group, whereby for the exceptions (b) and (c), there exist further prerequisites in the case that shareholder debt exists.

As regards German BidCo and the Synlab Group, it cannot be excluded that none of the exceptions applies and that the EBITDA is not sufficient in order to achieve a full tax-deductibility under the interest barrier rule.

If and to the extent interest expenses are deductible under the interest barrier rule, there exists a further limitation rule for German trade tax purposes pursuant to which, in principle, only 75% of all interest expenses exceeding an amount of EUR 100,000 can be deducted, except for interest expenses owed within a fiscal unity.

The impact of such rules on our ability to deduct interest owed on indebtedness could increase our tax burden and, therefore, negatively impact our financial condition and operating results. In particular, these rules might cause that a profit arises for (trade) tax purposes so that (trade) tax might be payable although a loss might have been occurred from an accounting perspective.

We are subject to restrictive covenants that limit our operating and financial flexibility.

Our Revolving Credit Facility Agreement and the Indentures contain covenants which impose significant restrictions on the way we operate, including restrictions on our ability to:

- incur or guarantee additional debt and issue preferred stock;
- make certain payments, including dividends or other distributions;
- make certain investments or acquisitions, including participating in joint ventures or undertaking capital expenditure;
- prepay or redeem subordinated debt;
- engage in certain transactions with affiliates;
- create unrestricted subsidiaries;
- agree to limitations on the ability of our subsidiaries to make distributions;
- sell assets, or consolidate or merge with or into other companies;
- sell or transfer all or substantially all of our assets or those of our subsidiaries on a consolidated basis;
- issue or sell share capital of certain subsidiaries; and
- create or incur certain liens.

These covenants could affect our ability to operate our business and may limit our ability to react to market conditions or regulatory developments or take advantage of potential business opportunities as they arise. For example, such restrictions could adversely affect our ability to finance our operations; pursue acquisitions, investments or alliances; restructure our organization; or finance our capital needs.

Our failure to comply with the covenants under the Revolving Credit Facility Agreement or the Indentures, including as a result of events beyond our control, could result in an event of default which could materially and adversely affect our financial condition and operating results.

Our Revolving Credit Facility Agreement and the Indentures require us to comply with various covenants.

The Revolving Credit Facility contains a financial drawstop test whereby the Consolidated Senior Secured Leverage Ratio in respect of any relevant period for which it is tested, shall not be more than 7.50:1. The Senior Secured Notes Issuer has the ability to cure such drawstop in accordance with certain conditions set out in the Revolving Credit Facility. Our ability to meet this condition could be affected by deterioration in our operating results, as well as by events beyond our control, including decreases in tariffs or reimbursements for laboratory testing services and unfavorable economic conditions, and we cannot assure you that we will be able to meet those ratios and tests. Moreover, the Revolving Credit Facility Agreement includes certain events of default (such as breach of representations and warranties, unlawfulness, invalidity, repudiation and rescission) that are in addition to the events of default set forth in the Indenture. If an event of default occurs under the Revolving Credit Facility Agreement or any other of our debt instruments and is not cured or waived, the holders of the defaulted debt could terminate their commitments and declare all amounts borrowed, together with accrued and unpaid interest and other fees, to be immediately due and payable. Borrowings under other debt instruments, including the Notes, that contain cross-acceleration or cross-default provisions also may be accelerated or become payable on demand. In these circumstances, our assets and cash flow may not be sufficient to repay in full that indebtedness and our other indebtedness, including the Notes then outstanding, if some or all of these instruments were accelerated, which could force us into bankruptcy or liquidation, and we might not be able to repay our obligations under the Notes in such an event.

The Notes are structurally subordinated to the liabilities of non-guarantor subsidiaries.

Certain of our subsidiaries will not guarantee the Notes. Our subsidiaries will not have any obligations to pay amounts due under the Notes or to make funds available for that purpose unless they guarantee the Notes. Generally, holders of indebtedness of, and trade creditors of, non-guarantor subsidiaries, including lenders under bank financing agreements, are entitled to payment of their claims from the assets of such subsidiaries before these assets are made available for distribution to the Issuers or any Guarantor, as a direct or indirect shareholder.

Accordingly, in the event that any non-guarantor subsidiary becomes insolvent, is liquidated, reorganized or dissolved or is otherwise wound up other than as part of a solvent transaction:

- the creditors of the Issuers (including the holders of the Notes) and the Guarantors will have no right to proceed against the assets of such subsidiary; and
- the creditors of such non-guarantor subsidiary, including trade creditors, will generally be entitled to payment in full from the sale or other disposal of the assets of such subsidiary before the Issuer or any Guarantor, as a direct or indirect shareholder, will be entitled to receive any distributions from such subsidiary.

As such, the Notes and each Guarantee of the Notes will be structurally subordinated to the creditors (including trade creditors) and any preferred stockholders of our non-guarantor subsidiaries. Any of the debt that our non-guarantor subsidiaries incur in the future in accordance with the Indenture will rank structurally senior to the Notes and the Guarantees.

We may not be able to generate sufficient cash to service our indebtedness, including due to factors outside our control, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make payments on or to refinance the Notes or our other debt obligations will depend on our future operating performance and ability to generate sufficient cash. This depends on general economic, financial, competitive, market, regulatory and other factors, many of which are beyond our control.

Our businesses may not generate sufficient cash flows from operations to make payments on our debt obligations, and additional debt and equity financing may not be available to us in an amount sufficient to enable us to pay our debts when due, or to refinance such debts, including the Notes. If our future cash flows from operations and other capital resources are insufficient to pay obligations as they mature or to fund our liquidity needs, we may be forced to:

- reduce or delay our business activities, planned acquisitions and capital expenditures;
- sell assets;
- obtain additional debt or equity financing; or
- restructure or refinance all or a portion of our debt, including the Notes, on or before maturity.

We may not be able to accomplish any of these alternatives on a timely basis or on satisfactory terms, if at all.

In particular, our ability to restructure or refinance our debt will depend in part on our financial condition at such time. Any refinancing of our debt could be at higher interest rates than our current debt and may require us to comply with more-onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments and the Indenture may restrict us from adopting some of these alternatives. Furthermore, we may be unable to find alternative financing, and even if we could obtain alternative financing, it might not be on terms that are favorable or acceptable to us. If we are not able to refinance any of our debt, obtain additional financing or sell assets on commercially reasonable terms or at all, we may not be able to satisfy our debt obligations, including under the Notes. In that event, borrowings under other debt agreement or instruments that contain cross-default or cross-acceleration provisions may become payable on demand, and we may not have sufficient funds to repay all our debts, including the Notes.

In addition, any failure to make payments of interest or principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness. In the absence of such operating results and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. The terms of our indebtedness, including under the Indenture, restrict our ability to transfer or sell assets. We may not be able to consummate certain dispositions or obtain the funds that we could have realized from the proceeds of such dispositions, and any proceeds we do realize from asset dispositions may not be adequate to meet our debt service obligations then due.

We are exposed to interest rate risks, and such rates may adversely affect our debt service obligations.

A portion of our debt bears interest at a variable rate, and we will be exposed to the risk of fluctuations in interest rates, primarily under the Revolving Credit Facility and the Floating Rate Notes, which are based on the Euro Interbank Offered Rate (EURIBOR) and the London Interbank Offered Rate (LIBOR) plus an applicable margin. These interest rates could rise significantly in the future, increasing our interest expense associated with these obligations, reducing cash flow available for capital expenditures and hindering our ability to make payments on the Notes. Neither our Revolving Credit Facility Agreement nor the Senior Secured Notes Indenture contains a covenant requiring us to hedge all or any portion of our floating rate debt.

We may not have the ability to raise the funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control as required by the Indenture.

Upon the occurrence of a "change of control," as defined in the Indentures, we would be required to offer to repurchase all the relevant outstanding Notes at a purchase price equal to 101% of the aggregate principal amount thereof on the date of purchase plus accrued and unpaid interest and additional amounts, if any, to the date of purchase.

Our ability to fund the purchase price for any offer to purchase the Notes upon a change of control would be limited by our access to funds at the time and the terms of our other debt and contractual agreements, including the Revolving Credit Facility and the Intercreditor Agreement. We may not have sufficient funds at the time of any such event to make the required repurchases. The source of funds for any repurchase required will be available cash or cash generated from operating activities or other sources, including borrowings, sales of assets or sales of equity or funds provided by subsidiaries. We cannot assure you that we would be able to obtain the necessary level of financing. If an event constituting a change of control occurs at a time when our subsidiaries are prohibited from providing funds to ourselves for the purpose of repurchasing the Notes, our subsidiaries may seek the consent of the lenders under such indebtedness to the purchase of the Notes or may attempt to refinance the borrowings that contain such prohibition. If a consent to repay such borrowings is not obtained, we may be prohibited from repurchasing any Notes. In addition, a change of control may result in prepayment of certain lenders under the Revolving Credit Facility, the Notes and any other indebtedness we may have outstanding. The repurchase of the Notes pursuant to such an offer could cause a default under the Revolving Credit Facility and other indebtedness, even if the change of control itself does not. Any failure by us to offer to purchase the Notes would constitute a default under the Indenture which would, in turn, constitute a default under the Revolving Credit Facility and certain other indebtedness. See "*Description of the Senior Secured Notes—Repurchase at the Option of Holders*" and "*Description of the Senior Notes—Repurchase at the Option of Holders*."

The change of control provision contained in the Indentures may not necessarily afford you protection in the event of certain important corporate events, including a reorganization, restructuring, merger, recapitalization or other similar transaction involving us that may adversely affect you, because such corporate events may not involve a shift in voting power or beneficial ownership or, even if they do, may not constitute a "change of control" as defined in the Indentures. Except as described under "*Description of the Senior Secured Notes—Repurchase at the Option of Holders*" and "*Description of the Senior Notes—Repurchase at the Option of Holders*," the Indentures will not contain provisions that would require us to offer to repurchase or redeem the applicable Notes in the event of a reorganization, restructuring, merger, recapitalization or similar transaction.

The definition of "change of control" contained in the Indentures will include (with certain exceptions) a disposition of all or substantially all the assets of ourselves and our restricted subsidiaries, taken as a whole, to any person. Although there is a limited body of case law interpreting the phrase "all or substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances, there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of our assets and its restricted subsidiaries taken as a whole. As a result, it may be unclear as to whether a change of control has occurred and whether we are required to make an offer to repurchase the Notes.

The Guarantees may be limited by applicable laws or subject to certain limitations or defenses that may adversely affect their validity and enforceability.

The obligations of the Guarantors incorporated in France, Germany, Spain, Belgium, Italy, Austria and Switzerland and the enforcement of each such Guarantee will be limited to the maximum amount that can be guaranteed by such Guarantor under the applicable laws of each jurisdiction, to the extent that the granting of such Guarantee is not in the relevant Guarantor's corporate interests, or the burden of such Guarantee exceeds the benefit to the relevant Guarantor, or such Guarantee would be in breach of capital maintenance or thin capitalization rules or any other general statutory laws or would cause the directors of such subsidiary Guarantor to contravene their fiduciary duties and incur civil or criminal liability. An increase in the amount of debt that benefits from such Guarantee without a corresponding increase in the amount of the Guarantee will dilute the value of such Guarantee to its beneficiaries, including the holders of the Additional Senior Secured Notes and the Senior Notes.

Accordingly, enforcement of any such Guarantee against the relevant Guarantor would be subject to certain defenses available to guarantors generally or, in some cases, to limitations contained in the terms of the Guarantees designed to ensure compliance with statutory requirements applicable to the relevant Guarantors. These laws and defenses may include those that relate to fraudulent conveyance, financial assistance, corporate benefit, capital maintenance and regulations or defenses affecting the rights of creditors generally. As a result, a Guarantor's liability under its Guarantee could be materially reduced or eliminated, depending upon the law applicable to it.

Due to such restrictions under French, Italian, Austrian and Belgian law, (i) the Senior Secured Note Guarantees of the Guarantors in France, Italy and Belgium will provide credit support to the full aggregate principal amount of the Senior Secured Notes but will have no greater monetary value than the aggregate principal amount of Existing Senior Secured Notes, and the Senior Secured Note Guarantees of the Guarantors in Austria will effectively have no monetary value, as none of them will be on-lent any of the proceeds of the offering of the Additional Senior Secured Notes and (ii) the Senior Note Guarantees of the Guarantors in France, Italy, Austria and Belgium will effectively have no monetary value as none of them will be on-lent any of the proceeds of the offering of the Senior Notes.

Under French financial assistance rules, a company is prohibited from guaranteeing indebtedness of another company that is used, directly or indirectly, for the purpose of its acquisition. Under French corporate benefit rules, a court could declare any guarantee unenforceable and, if payment had already been made under the relevant guarantee, require that the recipient return the payment to the relevant guarantor, if the court found that the French guarantor did not receive some real and adequate corporate benefit from the transaction involving the grant of the guarantee as a whole. Existence of corporate benefit is a factual matter which must be determined on a case-by-case basis. The existence of a real and adequate benefit to the guarantor and whether the amounts guaranteed are commensurate with the benefit received are matters of fact as to which French case law provides no clear guidance.

It is possible that a Guarantor, or a creditor of a Guarantor, or the bankruptcy trustee or other insolvency office holder in the case of a bankruptcy/insolvency of a Guarantor, may contest the validity and enforceability of the Guarantor's guarantee on any of the above grounds and that the applicable court may determine that the Guarantee should be limited or voided. To the extent that agreed limitations on the Guarantee obligation apply, the Additional Senior Secured Notes and the Senior Notes would be to that extent effectively subordinated to all liabilities of the applicable Guarantor, including trade payables of such Guarantor. Future guarantees may be subject to similar limitations. See "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*," "*Risk Factors—Risks Related to the Notes and the Guarantees—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco*," "*Description of the Senior Secured Notes—The Note Guarantees,*" and "*Description of the Senior Notes—The Note Guarantees.*"

The interests of our ultimate principal shareholder may be inconsistent with your interests.

As of the Completion Date, our ultimate principal shareholder, Cinven, will indirectly own almost all of our issued and outstanding shares through investment management funds. The interests of our principal shareholder could conflict with the interests of investors in the Notes, particularly if we encounter financial difficulties or are unable to pay our debts when due. Our principal shareholder could cause us to pursue acquisitions or divestitures and other transactions or to make large dividend payments (subject to limitations in the Indenture) or other distributions or payments to it as the shareholder, even though such transactions may involve increased risk for the holders of the Notes. Furthermore, no assurance can be given that our principal shareholder will not sell all or any part of its shareholding at any time nor that it will not look to reduce its holding by means of a sale to a strategic investor, an equity offering or otherwise. Such divestitures may not trigger a "Change of Control" under the Indentures.

Investors may face foreign exchange risks by investing in the Notes.

The Notes will be denominated and payable in euros. If investors measure their investment returns by reference to a currency other than euros, an investment in the Notes will entail foreign exchange-related risks due to, among other factors, possible significant changes in the value of the euro relative to the currency by reference to which such investors measure the return on their investments. These changes may be due to economic, political and other factors over which we have no control. Depreciation of the euro against the currency by reference to which such investors measure the return on their investments could cause a decrease in the effective yield of the Notes below their stated coupon rates and could result in a loss to investors when the return on the Notes is translated into the currency by reference to which such investors measure the return on their investments. Investments in the Notes denominated in a currency other than U.S. dollars by U.S. holders (as defined in "*Certain Tax Considerations—Certain U.S. Federal Income Tax Consequences*") may also have important tax consequences as a result of foreign exchange gains or losses, if any. See "*Certain Tax Considerations—Certain U.S. Federal Income Tax Consequences*."

Credit ratings may not reflect all risks, are not recommendations to buy or hold securities and may be subject to revision, suspension or withdrawal at any time.

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to the structure, market, additional risk factors discussed above and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal by the rating agency at any time. No assurance can be given that a credit rating will remain constant for any given period of time or that a credit rating will not be lowered or withdrawn entirely by the credit rating agency if, in its judgment, circumstances in the future so warrant. A suspension, reduction or withdrawal at any time of the credit rating assigned to the Notes by one or more of the credit rating agencies may adversely affect the cost and terms and conditions of our financings and could adversely affect the value and trading of the Notes.

Investors may not be able to recover in civil proceedings for U.S. securities law violations.

The Issuers and the Guarantors and their respective subsidiaries are organized outside the United States, and their business is conducted entirely outside the United States. The directors and executive officers of the Issuers and the Guarantors are nonresidents of the United States. Although the Issuers and the Guarantors will submit to the jurisdiction of certain New York courts in connection with any action under U.S. securities laws or under the Indentures, you may be unable to effect service of process within the United States on the directors and executive officers of the Issuers and the Guarantors. In addition, because all of the assets of the Issuers and the Guarantors and their respective subsidiaries and all or a majority of the assets of their directors and executive officers are located outside of the United States, you may be unable to enforce against them judgments obtained in the U.S. courts. Moreover, in light of recent decisions of the U.S. Supreme Court, actions of the Issuers and the Guarantors may not be subject to the civil liability provisions of the federal securities laws of the United States. See "*Service of Process and Enforcement of Civil Liabilities*."

Risks Related to the Senior Secured Notes

As of the Completion Date, the Senior Secured Notes Issuer and the Guarantors will have control over the Collateral securing the Senior Secured Notes, and the sale of particular assets could reduce the pool of assets securing the Senior Secured Notes.

The security documents relating to the Additional Senior Secured Notes (the "Security Documents") will allow the Senior Secured Notes Issuer, the Guarantors and the other Collateral providers to remain in possession of, retain exclusive control over, freely operate, and collect, invest and dispose of any income from the Senior Secured Notes Collateral to the extent that it relates to their assets. So long as no acceleration event has occurred and subject to certain conditions, the Senior Secured Notes Issuer, the Guarantors and the other Collateral providers may, among other things, without any release or consent by the Security Agent, conduct ordinary course activities with respect to the Senior Secured Notes Collateral, such as selling, factoring, abandoning or otherwise disposing of the Senior Secured Notes Collateral and making ordinary course cash payments, including repayments of indebtedness.

The granting of the security interests in connection with the issuance of the Senior Secured Notes, or the incurrence of permitted debt in the future, may create or restart hardening periods (i.e., the periods of time following the granting of security interests during which such security interests may be challenged in accordance with the laws applicable in certain jurisdictions).

The granting of security interests to secure the Senior Secured Notes and the Guarantees may create hardening periods for such security interests in certain jurisdictions. In addition, the Senior Secured Notes Indenture specifically permits the release and retaking of security that constitutes Senior Secured Notes Collateral in connection with the incurrence of permitted Indebtedness if certain conditions are satisfied. The granting of shared security interests to secure future indebtedness permitted to be secured on the Senior Secured Notes Collateral may restart or reopen such hardening periods. The applicable hardening period for these new security interests can run from the moment each new security interest has been granted or perfected. At each time, if the security interest granted or recreated were to be enforced before the end of the respective hardening period applicable in such jurisdiction, it may be declared void or ineffective and/or it may not be possible to enforce it. See "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*."

The same rights also apply following the issuance of the Senior Secured Notes in connection with the accession of further subsidiaries as additional Guarantors and the granting of security interest over their relevant assets and equity interests for the benefit of holders of the Senior Secured Notes.

Given that some security interests to be granted by Labco and other French Guarantors may be granted after Labco or such French Guarantor accedes to the Senior Secured Notes Indenture and the Revolving Credit Facility Agreement, this could trigger the hardening period issues described in "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*."

The Senior Secured Notes will not be initially secured by all of the Senior Secured Notes Collateral and not all of the Guarantors will initially guarantee the Senior Secured Notes.

As of the Issue Date, the Senior Secured Notes will not be secured by all of the Collateral, as further described under "*Description of the Senior Secured Notes—Security*." We will take such necessary actions so that the Additional Senior Secured Notes are secured by the security interests in the Completion Date Collateral and the Synlab Collateral described in this offering memorandum no later than the Completion Date, in the case of the Completion Date Collateral, and the date that is on the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German Bidco has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German Bidco has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, in the case of the Synlab Collateral. We will also take such necessary actions so that the Additional Senior Secured Notes are secured by the security interests in the Post-Labco Completion Date Collateral either (i) if the Additional Senior Secured Notes are issued on that date, on the earlier of (x) the date on which any such entity accedes to the Revolving Credit Facility Agreement and (y) the 90th day following the Labco Completion Date, or (ii) the 30th day following the Completion Date. There can be no assurance, however, that we will be successful in procuring such liens within the time period specified, the failure of which would result in an "event of default" under the Senior Secured Notes Indenture.

When issued, the Senior Secured Notes will not be guaranteed. We will agree to take such necessary actions so that no later than the Completion Date, the Completion Date Guarantors, and no later than the date that is on the earlier of (i) the date on which any Synlab Guarantor accedes to the Revolving Credit Facility Agreement and (ii) (x) if German Bidco has acquired 100% of the share capital of Synlab in the Synlab Acquisition, the 90th day or (y) if German Bidco has acquired less than 100% of the share capital of Synlab in the Synlab Acquisition, the 270th day, in each case, following the Completion Date, the Synlab Guarantors will become guarantors of the Senior Secured Notes by executing and delivering to the Trustee a supplemental indenture (or supplemental indentures) in the form attached to the Senior Secured Notes Indenture. We will also take such necessary actions so that the Additional Senior Secured Notes are guaranteed by the Post-Labco Completion Date Guarantors either (i) if the Additional Senior Secured Notes are issued on that date, on the earlier of (x) the date on which any such entity accedes to the Revolving Credit Facility Agreement and (y) the 90th day following the Labco Completion Date, or (ii) the Completion Date. Due to restrictions under French, Italian, Austrian and Belgian law, the Senior Secured Note Guarantees of the Guarantors in France, Italy and Belgium will provide credit support to the full aggregate principal amount of the Senior Secured Notes but will have no greater monetary value than the aggregate principal amount of Existing Senior Secured Notes, and the Senior Secured Note Guarantees of the Guarantors in Austria will effectively have no monetary value, as none of them will be onlent any of the proceeds of the offering of the Additional Senior Secured Notes. "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,*" There can be no assurance that we will be successful in procuring such additional guarantees within the time period specified, the failure of which would result in an event of default under the Senior Secured Notes Indenture. The additional guarantees will be limited as set forth under "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,* "*Risk Factors—Risks Related to Our Indebtedness and the Notes—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco*," and "*Risk Factors—Risks Related to Our Indebtedness and the Notes—The insolvency laws of France and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability*."

Creditors under the Revolving Credit Facility and counterparties to certain hedging obligations and future indebtedness permitted to be incurred under the terms of the Senior Secured Notes Indenture and the Intercreditor Agreement to rank pari passu with the Revolving Credit Facility are entitled to be repaid with recoveries from the enforcement of the Guarantee claims and proceeds from the enforcement of the Senior Secured Notes Collateral in priority over the Senior Secured Notes.

The Intercreditor Agreement includes provisions governing the sharing of recoveries from guarantee claims and proceeds from enforcement of the Senior Secured Notes Collateral. Such recoveries and enforcement proceeds are required to be turned over to the Security Agent after certain events, including the acceleration of the Senior Secured Notes or the Revolving Credit Facility. The Security Agent is required to pay turned-over amounts and other recoveries by the Security Agent from enforcement actions to discharge obligations under the Revolving Credit Facility or certain hedging obligations and future indebtedness in priority to paying any such amounts to discharge the Senior Secured Notes. As such, in the event of a foreclosure of the Senior Secured Notes Collateral or the enforcement of the Guarantees, you may not benefit from such recoveries if the then outstanding claims under the Revolving Credit Facility or certain hedging obligations and future indebtedness are greater than the proceeds recovered. Any proceeds remaining from an enforcement sale of Senior Secured Notes Collateral or the enforcement of the Guarantees will, after all obligations under the Revolving Credit Facility and such hedging obligations and, if applicable future Indebtedness that ranks *pari passu* with the Revolving Credit Facility have been discharged, be applied pro rata in repayment of the Notes and any other indebtedness that ranks *pari passu* with the Senior Secured Notes.

Furthermore, claims of our secured creditors that are secured by assets that do not also secure the Senior Secured Notes will have priority with respect to such assets over the claims of holders of the Senior Secured Notes. As such, the claims of the holders of the Senior Secured Notes will be effectively subordinated to the rights of such secured creditors to the extent of the value of the assets securing such indebtedness.

You may be required to pay a "soulte" in the event you decide to enforce the pledges over shares of French companies by judicial or contractual foreclosure of the Senior Secured Notes Collateral consisting of shares rather than by a sale of such Senior Secured Notes Collateral in a public auction.

Security interests governed by French law may only secure a creditor up to the secured amount that is due and unpaid to it. The pledges over securities (whether in the form of a pledge over a securities account or in the form of a pledge over shareholding interests (*parts sociales*)) of French companies may be enforced at the option of the secured creditor either by a sale of the pledged shares in a public auction (the proceeds of the sale being paid to the secured creditors), by judicial foreclosure (*attribution judiciaire*) or by contractual foreclosure (*attribution conventionnelle or pacte commissoire*) of the shares to the secured creditor, following which the secured creditor becomes the legal owner of the pledged shares. In a proceeding for *attribution judiciaire* or *attribution conventionnelle*, an expert is appointed (whether contractually or by the court) to value the collateral (in this case, the pledged shares) and if the value of the collateral exceeds the amount of secured debt under the pledge, the secured creditor is required to pay the relevant pledgor a *soulte* equal to the difference between the value of the shares and the amount of the secured debt. This is true regardless of the actual amount of proceeds ultimately received by the secured creditor from a subsequent sale of the Senior Secured Notes Collateral.

Also, if the secured creditors choose to enforce by way of foreclosure (whether an *attribution judiciaire* or an *attribution conventionnelle*), the secured liabilities would be deemed extinguished up to the value of the foreclosed securities.

Consequently, in the event the Security Agent (acting on its own behalf as well as on behalf of the lenders under the Revolving Credit Facility and the holders of the Senior Secured Notes or as creditor of the parallel debt) decides to, and is entitled to, enforce the share pledges through a judicial or contractual foreclosure and if the value of such shares exceeds the amount of the secured debt under the pledge, the security agent (acting on its own behalf as well as on behalf of the lenders under the Revolving Credit Facility and the holders of the Senior Secured Notes or as creditor of the parallel debt) may be required to pay to the relevant pledgor a *soulte* equal to the value by which such shares exceeds the amount of secured debt under the pledge.

If the value of such shares is less than the amount of the secured debt under the pledge, the relevant amount owed to the relevant creditor will be reduced by an amount equal to the value of such shares, and the remaining amount owed to such creditor will be unsecured.

If the Security Agent (acting on its own behalf as well as on behalf of the lenders under the Revolving Credit Facility and the holders of the Senior Secured Notes or as creditor of the parallel debt) declines to request the judicial or contractual foreclosure of the shares, a sale of the pledged shares could be undertaken by public auction in accordance with applicable law. Due to the French regulatory restrictions set forth in the immediately following risk factor, the security agent (acting on its own behalf as well as on behalf of the lenders under the Revolving Credit Facility and the holders of the Senior Secured Notes or as creditor of the parallel debt) is likely to have an incentive to enforce the pledged shares through a public auction. Since public auction procedures are not designed for a sale of a business as a going concern (as the latter will not be sold pursuant to a competitive bid process and/or a private sale organized by an investment bank and controlled by the vendor on the basis of a value determined pursuant to the methods usually used for the purpose of the acquisition of companies or groups of companies) it is possible that the sale price received in any such auction might not reflect the value of the Labco Group as a going concern.

Your ability to enforce the pledges over shares of our French laboratory companies will be limited by French law restrictions on the ownership of laboratory companies and future regulatory changes may have an impact on the value of the Senior Secured Notes Collateral.

French law provides that no more than 25% of the share capital of a SEL operating clinical laboratories can be held by persons who are neither laboratory doctors nor laboratory companies (Article R. 6212-82 of the French Public Health Code), and that the laboratory doctors practicing within a SEL must hold the majority of the voting rights and, for the SELs not benefiting from the grandfathering exception granted by the Law of 30 May 2013 that allows them to keep their existing structure at the date of promulgation of such Law, a majority of the share capital within such SEL. In addition, laboratory doctors practicing within a SEL which benefits from the grandfathering exception also benefit from certain pre-emption rights in connection with any sale or transfer of shares of the SELs (see "*Regulation—France*").

If the Security Agent seeks enforcement of a pledge over shares in a SEL not benefitting from the grandfathering exception, at least 51% of the shares will need to be acquired by laboratory doctors practicing within the SEL whose shares are being sold, which will decrease the pool of potential buyers, result in a lower sale price. In addition, the Security Agent may be obligated to offer the shares to the laboratory doctors in the first instance if those laboratory doctors benefit from preemptive rights. This could also limit the attractiveness of the acquisition of the laboratory to other potential buyers. In any event, the Security Agent or any other purchasers (other than the laboratory doctors practicing within such SELs) will hold a minority of the voting rights. In addition, relevant law restricts the ability of such persons or entities to own shares of SELs operating medical laboratories, thus further reducing the number of potential buyers of our medical laboratories in connection with the enforcement of the Collateral. These restrictions may limit significantly the amount you are able to recover under the Collateral in the case of an event of default.

As a result, the ability of the Security Agent to enforce a pledge on the share capital of a French SEL operating clinical laboratories will be limited because it will be able to hold, following a judicial or contractual foreclosure, a maximum of 25% of the share capital of each such SEL, which shares have been pledged.

We may issue new shares to laboratory doctors in order to comply with any new law or regulation regarding the participation of laboratory doctors in the share capital of SELs operating clinical laboratories. Since the new shares to be issued to laboratory doctors practicing within such SELs would not be pledged to secure the Senior Secured Notes and the guarantees, the percentage of shares of our French SELs that constitute part of the Collateral securing the Senior Secured Notes would decrease following such issuance and would be limited to a minority of the share capital of our SELs whose shares have been pledged as Collateral for the Senior Secured Notes. See "*—Risks Related to Our Business—Current or future regulatory changes in France, and disputes initiated by the competent administrative authorities or professional associations, may affect our ability to develop our network of French laboratories through acquisitions, make us more dependent on laboratory doctors to check operations carried out by SELs, and call into question our organizational and legal structure*" and "*Regulation—France*."

Holders of the Senior Secured Notes may not control certain decisions regarding the Senior Secured Notes Collateral.

The obligations under the Senior Secured Notes and the Guarantees are secured on a first-ranking basis with security interests over the Senior Secured Notes Collateral that also secure our obligations under the Revolving Credit Facility and certain other indebtedness and hedging obligations (the "Super Senior Liabilities"). The Senior Secured Notes Indenture also permits the Senior Secured Notes Collateral to secure additional indebtedness in accordance with the terms thereof and the Intercreditor Agreement. The Intercreditor Agreement provides that the Security Agent will only enforce the Senior Secured Notes Collateral as provided for in the Intercreditor Agreement, and regulates the ability of the Trustee or the holders of the Senior Secured Notes to instruct the Security Agent to take enforcement action. The Security Agent is not required to take enforcement action unless instructed to do so by an instructing group that may consist of either (i) creditors holding more than 66.67% of the indebtedness and commitments under the Revolving Credit Facility Agreement, certain other indebtedness permitted to rank *pari passu* with the Revolving Credit Facility Agreement on the proceeds of enforcement of Senior Secured Notes Collateral (a "Credit Facility") and obligations (the "Majority Super Senior Creditors") or (ii) the holders of the aggregate principal amount of the then outstanding Senior Secured Notes, creditors in respect of indebtedness ranking *pari passu* with the Senior Secured Notes and creditors in respect of certain non-priority hedging obligations (the "Senior Secured Credit Participations") which aggregate more than 50% of the total Senior Secured Credit Participations at that time (the "Notes/*Pari Passu* Required Holders") (in each case acting through their respective creditor representatives). Prior to the discharge in full of all Super Senior Liabilities, the Notes/*Pari Passu* Required Holders (in each case acting through their respective creditor representatives) shall be the instructing group, however: (i) if and to the extent the obligations under the Super Senior Liabilities have not been fully discharged in cash within six months of enforcement instructions first being issued by either the Notes/*Pari Passu* Required Holders or the Majority Super Senior Creditors; or (ii) if Security Agent has not commenced enforcement action within three months of enforcement instructions first being issued by either the Notes/*Pari Passu* Required Holders or the Majority Super Senior Creditors, then the enforcement instructions provided by the Majority Super Senior Creditors will prevail.

Following the transaction security having become enforceable, a creditor representative acting on behalf of the Majority Super Senior Creditors or the Notes/*Pari Passu* Required Holders may at any time provide immediate enforcement instructions to the Security Agent if the Majority Super Senior Creditors or the Notes/*Pari Passu* Required Holders determine in good faith that to delay the taking of any enforcement action could reasonably be expected to have a material adverse effect on the Security Agent's ability to enforce any transaction security or the realization of enforcement proceeds. In such circumstances, the Security Agent shall act only with respect to the relevant asset or debtor that is the subject of such determination, in accordance with the first such notice of such determination and instructions as to enforcement received by the Security Agent, provided in each case that they are consistent with certain security enforcement principles.

If at any time an insolvency event has occurred with respect to any debtor (other than an insolvency event which is the direct result of any action taken by the Security Agent acting on the instructions of the Majority Super Senior Creditors or the Notes/*Pari Passu* Required Holders), the Security Agent shall act, to the extent the Majority Super Senior Creditors have provided such instructions, in accordance with the instructions received from the Majority Super Senior Creditors, provided that in the event the Security

Agent has received Proposed Enforcement Instructions from the creditor representative for the Notes/*Pari Passu* Required Holders and has commenced Relevant Enforcement Action pursuant to such instructions, the Security Agent shall continue to act in accordance with the instructions of the creditor representative for the Notes/*Pari Passu* Required Holders until such time as the creditor representative for the Majority Super Senior Creditors issue enforcement instructions to the Security Agent and such instructions shall override and supersede any such prior instructions given by the creditor representative for the Notes/*Pari Passu* Required Holders.

To the extent we incur additional indebtedness that is secured on a *pari passu* basis with the Senior Secured Notes, the voting interest of holders of Senior Secured Notes in an instructing group will be diluted commensurate with the amount of indebtedness we incur.

The lenders under the Revolving Credit Facility Agreement, and the creditors of any other credit facility and the creditors in respect of certain priority hedging obligations may have interests that are different from the interests of holders of the Senior Secured Notes and they may, subject to the terms of the Intercreditor Agreement, elect to pursue their remedies under the Security Documents at a time when it would be disadvantageous for the holders of the Senior Secured Notes to do so. In addition, if the Security Agent sells Senior Secured Notes Collateral consisting of the shares of the Senior Secured Notes Issuer or any of its subsidiaries as a result of an enforcement action in accordance with the Intercreditor Agreement, claims under the Guarantees and the liens over any other assets of such entities securing the Senior Secured Notes and the Guarantees may be released. See "*Description of Other Indebtedness—Intercreditor Agreement*" and "*Description of the Senior Secured Notes—Security—Security Release*."

Delays in enforcement could decrease or eliminate recovery values. In addition, the holders of the Senior Secured Notes will not have any independent power to enforce, or have recourse to, any of the Security Documents or to exercise any rights or powers arising under the Security Documents, except through the Security Agent as provided in the Intercreditor Agreement. By accepting the Senior Secured Notes, you will be deemed to have agreed to these restrictions. As a result of these restrictions, holders of the Senior Secured Notes will have limited remedies and recourse against the Senior Secured Notes Issuer and the Guarantors in the event of a default. See "*Description of Other Indebtedness—Intercreditor Agreement*."

Enforcing your rights as a holder of the Senior Secured Notes or under the guarantees or the Senior Secured Notes Collateral across multiple jurisdictions may prove difficult.

The Senior Secured Notes Issuer is organized under the laws of England and Wales; the Guarantors are organized under the laws of France, Germany, Austria, Belgium, Italy, Spain and Switzerland; the Senior Secured Notes Collateral includes the shares of certain of our subsidiaries incorporated under the laws of those jurisdictions, and certain present and future intercompany loan receivables held by the Senior Secured Notes Issuer and certain of its subsidiaries in respect of debtors in certain of these jurisdictions. In the event of bankruptcy, insolvency, administration or a similar event, proceedings could be initiated in any of these jurisdictions. Your rights under the Senior Secured Notes, the guarantees and the Senior Secured Notes Collateral are likely to be subject to insolvency and administrative laws of several jurisdictions and there can be no assurance that you will be able to effectively enforce your rights in such complex proceedings. In addition, the multi-jurisdictional nature of enforcement over the Senior Secured Notes Collateral may limit the realizable value of the Senior Secured Notes Collateral.

The insolvency, administration and other laws of the jurisdiction of organization of the Senior Secured Notes Issuer and the Guarantors may be materially different from, or conflict with, each other and with the laws of the United States, including in the areas of rights of creditors, priority of governmental and other creditors, the ability to obtain post-petition interest, the duration of proceeding and preference periods. The application of these laws, and any conflict between them, could call into question whether, and to what extent, the laws of any particular jurisdiction should apply, adversely affect your ability to enforce your rights under the guarantees and the security documents in these jurisdictions or limit any amounts that you may receive.

The Senior Secured Notes will be secured only to the extent of the value of the Senior Secured Notes Collateral that has been granted as security for the Senior Secured Notes and future secured indebtedness may be secured by certain assets that do not secure the Senior Secured Notes.

The Senior Secured Notes will be secured only to the extent of the value of the Senior Secured Notes Collateral, which consists of first-ranking liens over the shares held by the Senior Secured Notes Issuer and certain Guarantors in certain of our subsidiaries incorporated under the laws of France, Spain, Belgium and Italy and certain present and future intercompany loan receivables held by the Senior Secured Notes Issuer and certain of its subsidiaries. See "*Description of the Senior Secured Notes—Security*." Not all of our assets secure the Senior Secured Notes, and the Senior Secured Notes Indenture allows the Senior Secured Notes Issuer and its restricted subsidiaries to secure any future senior secured indebtedness (as defined in the Senior Secured Notes Indenture) permitted to be incurred under the Senior Secured Notes Indenture (which may be structurally senior to the Senior Secured Notes and the guarantees) with the property and assets of the restricted subsidiaries that do not secure the Senior Secured Notes. The value of such assets and property could be significant. If an event of default occurs and the obligations under the Senior Secured Notes are accelerated, the Senior Secured Notes and the guarantees will not benefit from the assets securing such secured debt and will rank equally with the holders of other unsecured indebtedness of the Senior Secured Notes Issuer and its restricted subsidiaries with respect to any property or assets that is or are excluded from the Senior Secured Notes Collateral securing the Senior Secured Notes or such secured debt.

While the Senior Secured Notes Indenture creates certain obligations to provide additional guarantees and grant additional security over assets, or a particular class of assets, whether as a result of the acquisition or creation of future assets or subsidiaries, the designation of an unrestricted subsidiary as a restricted subsidiary or otherwise, such obligations are subject to certain agreed security principles. The agreed security principles set forth in the Senior Secured Notes Indenture set out a number of limitations on the rights of the holders of the Senior Secured Notes to be granted security in certain circumstances. The operation of the agreed security principles may result in, among other things, the amount recoverable under any Senior Secured Notes Collateral provided being limited or security not being granted over a particular type or class of assets. Accordingly, the agreed security principles may affect the value of the security provided by the Senior Secured Notes Issuer and the Guarantors.

The value of the Senior Secured Notes Collateral securing the Senior Secured Notes may not be sufficient to satisfy our obligations under the Senior Secured Notes and such Collateral may be reduced or diluted under certain circumstances.

The Senior Secured Notes will be secured by pledges over the shares held by the Senior Secured Notes Issuer and certain Guarantors in certain of our subsidiaries and certain present and future intercompany loan receivables held by the Senior Secured Notes Issuer and certain of its subsidiaries to certain subsidiaries. If we default on the Senior Secured Notes, holders of the Senior Secured Notes will be secured only to the extent of the value of the assets underlying the security interests granted in favor of holders of the Senior Secured Notes.

In the event of an enforcement of the pledges in respect of the Senior Secured Notes, the proceeds from the sale of the assets underlying the pledges may not be sufficient to satisfy the Senior Secured Notes Issuer's obligations with respect to the Senior Secured Notes. No appraisal of the value of the Senior Secured Notes Collateral has been made in connection with this Offering. The value of the assets underlying the pledges will also depend on many factors, including, among other things, whether or not the business is sold as a going concern, regulatory restrictions that could affect such sale, the ability to sell the assets in an orderly sale and the condition of the economies in which operations are located and the availability of buyers.

The shares and other Senior Secured Notes Collateral that are pledged or assigned for the benefit of the holders of the Senior Secured Notes may provide for only limited repayment of the Senior Secured Notes, in part because most of these shares and intercompany loan receivables may not be liquid and their value to other parties may be less than their value to us. Likewise, we cannot assure you that the Senior Secured Notes Collateral will be saleable or, if saleable, that there will not be substantial delays in the liquidation thereof. Industry regulations in certain jurisdictions in which we operate, such as France, include restrictions on persons who may own or operate clinical laboratories. In the event of foreclosure, the transfer of clinical laboratories (or the ownership of an entity holding clinical laboratories) may be prohibited or only permitted to a limited group of investors eligible to hold such assets, thereby decreasing the pool of potential buyers. Furthermore, the transfer of clinical laboratories may require, in certain jurisdictions, governmental or other regulatory consents, approvals or filings. Such consents, approvals or filings may take time to obtain or may not be obtained at all. As a result, enforcement may be delayed, a temporary shutdown of operations may occur and the value of the Senior Secured Notes Collateral may be significantly decreased. Most of our assets will not secure the Senior Secured Notes and it is possible that the value of the Senior Secured Notes Collateral will not be sufficient to cover the amount of indebtedness secured by such Senior Secured Notes Collateral. With respect to any shares of our subsidiaries pledged to secure the Senior Secured Notes and the guarantees, such shares may also have limited value in the event of bankruptcy, insolvency or other similar proceedings in relation to the entity's shares that have been pledged because all of the obligations of the entity whose shares have been pledged must first be satisfied, leaving little or no remaining assets in the pledged entity. As a result, the creditors secured by a pledge of the shares of these entities may not recover anything of value in the case of an enforcement sale. In addition, the value of this Senior Secured Notes Collateral may decline over time. If the proceeds of the Senior Secured Notes Collateral are not sufficient to repay all amounts due on the Senior Secured Notes, the holders of the Senior Secured Notes (to the extent not repaid from the proceeds of the sale of the Senior Secured Notes Collateral) would have only a senior unsecured, unsubordinated claim against the Senior Secured Notes Issuer's and the Guarantors' remaining assets. See "*—Your ability to enforce the pledges over shares of our French laboratory companies will be limited by French law restrictions on the ownership of laboratory companies and future regulatory changes may have an impact on the value of the Collateral*."

The Senior Secured Notes Indenture also permits the granting of certain liens other than those in favor of the holders of the Senior Secured Notes on the Senior Secured Notes Collateral. To the extent that holders of other secured indebtedness or third parties enjoy liens, including statutory liens, whether or not permitted by the Senior Secured Notes Indenture or the security documents, such holders or third parties may have rights and remedies with respect to the Senior Secured Notes Collateral which, if exercised, could reduce the proceeds available to satisfy our obligations under the Senior Secured Notes. Moreover, if we issue Senior Secured Notes under the Senior Secured Notes Indenture, holders of such Senior Secured Notes would benefit from the same collateral as the holders of the Senior Secured Notes being offered hereby, thereby diluting your ability to benefit from the liens on the Senior Secured Notes Collateral.

In certain jurisdictions, security over the Senior Secured Notes Collateral will be granted to the Security Agent rather than directly to the holders of the Senior Secured Notes. The ability of the Security Agent to enforce the Senior Secured Notes Collateral may be restricted by local law.

In France, Germany and other jurisdictions (which may include, without limitation, Austria, Spain, Belgium and Italy) where parallel debt obligations are, or a separate appointment of the security trustee for local law purposes is customary or required, the security interests in the Senior Secured Notes Collateral that will secure the obligations of the Senior Secured Notes Issuer under the Senior Secured Notes and the obligations of the Guarantors under the guarantees will not be granted directly to the holders of the Senior Secured Notes but will be granted only in favor of the Security Agent. The Senior Secured Notes Indenture and the Intercreditor Agreement provide that only the Security Agent has the right to enforce such security documents. As a consequence, holders of the Senior Secured Notes will not have direct security interests and will not be entitled to take enforcement action in respect of the Senior Secured Notes Collateral securing the Senior Secured Notes, except through the Trustee, who will provide instructions (subject to the provisions of the Senior Secured Notes Indenture) to the Security Agent.

The security over the Senior Secured Notes Collateral in France, Germany and other jurisdictions (which may include, without limitation, Austria, Spain, Belgium and Italy) where parallel debt obligations are, or a separate appointment of the security trustee for local law purposes is customary or required, will also be granted in favor of the Security Agent as beneficiary of parallel debt obligations ("Parallel Debt") created to satisfy a requirement that the Security Agent, as grantee of certain types of collateral, be a creditor of the relevant Guarantor. The Parallel Debt is in the same amount and payable at the same time as the obligations of the Senior Secured Notes Issuer under the Senior Secured Notes Indenture and the Senior Secured Notes (the "Principal Obligations"). Any payment in respect of the Principal Obligations shall discharge the corresponding Parallel Debt and any payment in respect of the Parallel Debt shall discharge the corresponding Principal Obligations. The Security Agent will have, pursuant to the Parallel Debt, a claim against the Senior Secured Notes Issuer for the full principal amount of the Senior Secured Notes. The holders of the Senior Secured Notes will not be entitled to enforce such security except through the Security Agent. Holders of the Senior Secured Notes bear some risks associated with a possible insolvency or bankruptcy of the Security Agent. The Parallel Debt obligations referred to above are contained in the Intercreditor Agreement or in a Debtor Accession Deed applicable to a given Debtor, which is governed by English law. In Italy, the security interests granted over the relevant Senior Secured Notes Collateral will be granted, among others, to the Trustee and to the Security Agent as beneficiary of the Parallel Debt. There can be no assurance that such a structure will be effective before Austrian, French, German, Belgian or Italian courts since there is no judicial or other guidance as to its efficacy, and therefore the ability of the Security Agent to enforce the Senior Secured Notes Collateral may be restricted as the Senior Secured Notes Collateral may be invalid or unenforceable with respect to the claims of any person who is not a party to the relevant security document, including all holders of the Senior Secured Notes.

In order to permit the beneficial holders of the Senior Secured Notes to benefit from a secured claim, the Intercreditor Agreement will provide for the creation of "parallel debt" obligations in favor of the Security Agent. Pursuant to the parallel debt, the Security Agent becomes the holder of a claim equal to each amount payable by an obligor under the Senior Secured Notes Indenture and the Intercreditor Agreement. To the extent that the security interests in the Senior Secured Notes Collateral created under the parallel debt structure are successfully challenged by other parties, holders of the Senior Secured Notes will not receive any proceeds from an enforcement of the security interest in the Senior Secured Notes Collateral.

Further, under a parallel debt structure, the holders of the Senior Secured Notes will bear the risks associated with the possible insolvency or bankruptcy of the Security Agent as the beneficiary of the parallel debt.

The Trustee has certain assigned duties and rights under the Senior Secured Notes Indenture that become particularly important following Defaults or Events of Default, and acts as trustee in a fiduciary capacity in the best interests of the holders of the Senior Secured Notes.

See "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations—France—Limitations on Enforcement—Parallel Debt*."

Investors' rights in the Senior Secured Notes Collateral may be adversely affected by the failure to perfect security interests in the Senior Secured Notes Collateral.

Under applicable law, a security interest in certain tangible and intangible assets can only be properly perfected, and its priority retained, through certain actions undertaken by the secured party or the grantor of the security, as applicable. The liens on the Senior Secured Notes Collateral securing the Senior Secured Notes may not be perfected with respect to the claims of the Senior Secured Notes if we fail or are unable to take the actions necessary to perfect any of these liens. The Security Agent will not be under any obligation to take any steps to perfect any such liens.

There are circumstances other than the repayment or discharge of the Senior Secured Notes under which the Senior Secured Notes Collateral securing the Senior Secured Notes will be released automatically without your consent or the Trustee or the Security Agent obtaining your further consent.

Under a variety of circumstances, the Senior Secured Notes Collateral securing the Senior Secured Notes will be released automatically, including a sale, transfer or other disposal of such Senior Secured Notes Collateral in a transaction that does not violate the asset sale covenant of the Senior Secured Notes Indenture, and in connection with an enforcement sale permitted under the Intercreditor Agreement. The Senior Secured Notes Indenture will also permit us to designate one or more restricted subsidiaries that are Guarantors as unrestricted subsidiaries. If we designate a Guarantor as an unrestricted subsidiary for purposes of the Senior Secured Notes Indenture, all of the liens on the Senior Secured Notes Collateral owned by such subsidiary and any guarantees of the Senior Secured Notes by such subsidiary will be released under the Senior Secured Notes Indenture, subject to certain conditions. Designation of an unrestricted subsidiary as such will reduce the aggregate value of the Senior Secured Notes Collateral securing the Senior Secured Notes to the extent of liens securing the shares of such unrestricted subsidiary or of its subsidiaries.

Risks Related to the Senior Notes

The Senior Notes are effectively subordinated to our secured debt.

The Senior Notes will be effectively subordinated in right of payment to any of our present and future secured indebtedness to the extent of the value of the assets securing such indebtedness, including indebtedness under the Senior Secured Notes and the Revolving Credit Facility. In the event of our bankruptcy, liquidation, reorganization or other winding up, our assets that secure debt ranking senior or equal in right of payment to the Senior Notes will be available to pay obligations on the Senior Notes only after the secured debt has been repaid in full from these assets. There may not be sufficient assets remaining to pay amounts due on any or all of the Senior Notes then outstanding. The Senior Notes Indenture will not prohibit us from incurring additional secured debt, nor will it prohibit any of our subsidiaries from incurring additional liabilities.

Your right to receive payment under the Senior Notes Guarantees is contractually subordinated to senior debt.

The obligations of the guarantors of the Senior Notes (the "Senior Notes Guarantors") under their respective Senior Note Guarantees will be contractually subordinated in right of payment to the prior payment in full in cash of all existing and future obligations in respect of senior debt of such Senior Notes Guarantor. This senior debt includes the guarantees of the Senior Secured Notes or in the case of the Senior Secured Notes Issuer, its obligations under the Senior Secured Notes, and the obligations under the Revolving Credit Facility. Although the Senior Notes Indenture will contain restrictions on the ability of the Senior Notes Guarantors to incur additional debt, any additional debt incurred may be substantial and senior to the guarantees.

Upon any payment or distribution to creditors of a Senior Notes Guarantor in respect of an insolvency event, the holders of senior debt of such Senior Notes Guarantor will be entitled to be paid in full from the assets of such Senior Notes Guarantor before any payment may be made pursuant to such guarantee. Until the senior debt of such Senior Notes Guarantor is paid in full, any distribution to which holders of the Senior Notes would be entitled but for the subordination provisions to be included in the Intercreditor Agreement shall instead be made to holders of senior debt of such Senior Notes Guarantor as their interests may appear. As a result, in the event of insolvency of a Senior Notes Guarantor, holders of senior debt of such Senior Notes Guarantor may recover more, ratably, than the holders of Senior Notes, in respect of the Senior Notes Guarantor's guarantee in respect thereof.

In addition, the subordination provisions in the Intercreditor Agreement relating to the Senior Note Guarantees will provide:

- customary turnover provisions by the Senior Notes Trustee and the holders of the Senior Notes for the benefit of the holders of senior debt of such Senior Notes Guarantor;
- that if a payment default on any senior debt of a Senior Notes Guarantor has occurred and is continuing, such Senior Notes Guarantor may not make any payment in respect of its guarantee until such default is cured or waived;
- that if any other default occurs and is continuing on any designated senior indebtedness that permits the holders thereof to accelerate its maturity and the Senior Notes Trustee receives a notice of such default, such Senior Notes Guarantor may not make any payment in respect of the Senior Notes, or pursuant to its Note Guarantee, until (amongst others) the earlier of the waiver or cure of such default and 179 days after the date on which the applicable payment blockage notice is received; and
- that the holders of the Senior Notes and the Senior Notes Trustee are prohibited, without the prior consent of the majority senior secured creditors or the majority super senior creditors, from taking any enforcement action in relation to such guarantee, except in certain circumstances.

The Senior Notes Indenture will also provide that, except under very limited circumstances, only the Senior Notes Trustee will have standing to bring an enforcement action in respect of the Senior Notes and the Senior Note Guarantees. Moreover, the Intercreditor Agreement and the Senior Notes Indenture will restrict the rights of holders of the Senior Notes to initiate insolvency proceedings or take legal actions against each of the Senior Notes Guarantor and by accepting any Senior Note each such holder will be deemed to have agreed to these restrictions. As a result of these restrictions, holders of the Senior Notes will have limited remedies and recourse under the guarantees in the event of a default by the Senior Notes Issuer or a Senior Notes Guarantor.

Your security over the Shared Collateral ranks behind the security benefiting the holders of the Senior Secured Notes and the lenders under the Revolving Credit Facility and your rights to enforce your security over the Shared Collateral are limited.

All of the Shared Collateral is also pledged to the security agent for the benefit of the holders of the Senior Secured Notes and the lenders under the Revolving Credit Facility and to the security agent for the benefit of holders of the Senior Notes. Under the Intercreditor Agreement and the security documents, the Senior Secured Notes and the Revolving Credit Facility Agreement are secured by first-ranking security interests in all of the Shared Collateral and the proceeds of any sale of such Shared Collateral on enforcement will be applied first to repay all debt of the holders of the Senior Secured Notes, the lenders under the Revolving Credit Facility and certain hedging obligations. Consequently, you may not be able to recover on such Shared Collateral because the holders of the Senior Secured Notes, the lenders under the Revolving Credit Facility and the counterparties to certain hedging obligations will have a prior claim on all proceeds realized from any enforcement of such Shared Collateral.

The Senior Notes will be secured only to the extent of the value of the Senior Notes Collateral that has been granted as security for the Senior Notes and future secured debt may be secured by certain assets that do not secure the Senior Notes.

The Senior Notes will be secured only to the extent of the value of the Senior Notes Collateral described in this Offering Memorandum. See "*Description of the Senior Notes—Security*." The Shared Collateral will also secure the Senior Secured Notes and the Revolving Credit Facility on a first-ranking basis, and may secure additional debt ranking senior to or *pari passu* with the Senior Notes and the Senior Note Guarantees, and the Senior Notes Issuer Share Pledge may secure additional debt ranking *pari passu* with the Senior Notes, to the extent permitted by the terms of the Senior Notes Indenture and the Intercreditor Agreement. The rights of the holders may therefore be diluted by any increase in the debt secured by the Senior Notes Collateral or a reduction of the Senior Notes Collateral securing the Senior Notes. In addition, pursuant to the Intercreditor Agreement, the proceeds of an enforcement of the Shared Collateral will be applied in repayment of the Revolving Credit Facility, certain priority hedging obligations followed by the Senior Secured Notes before repayment of the Senior Notes and Senior Note Guarantees. To the extent the claims of the holders of the Senior Notes exceed the value of the Senior Notes Collateral securing the Senior Notes and the Senior Note Guarantees, those claims will generally rank equally with the claims of the holders of all other existing and future senior unsecured debt ranking *pari passu* with the Senior Notes and the Senior Note Guarantees. As a result, if the value of the assets pledged as Senior Notes Collateral is less than the value of the claims of the holders of the Senior Notes, those claims may not be satisfied in full. In addition, not all of our assets will secure the Senior Notes, and the Senior Notes Indenture will allow the Senior Notes Issuer and its restricted subsidiaries to secure certain types of debt permitted to be incurred under the Senior Notes Indenture (which may be structurally senior to the Senior Notes and the Senior Note Guarantees) with the property and assets of the restricted subsidiaries that do not secure the Notes. The value of such assets and property could be significant. If an event of default occurs and the obligations under the Senior Notes are accelerated, the Senior Notes and the Senior Note Guarantees will not benefit from the assets securing such secured debt and will rank equally with the holders of other unsecured debt of the Senior Notes Issuer and its restricted subsidiaries with respect to any property or assets that is excluded from the Senior Notes Collateral securing the Senior Notes or such secured debt.

The value of the Senior Notes Collateral securing the Senior Notes may not be sufficient to satisfy our obligations under the Senior Notes and such Senior Notes Collateral may be reduced or diluted under certain circumstances.

In the event of an enforcement of the relevant Security Documents, the proceeds from the sale of the assets underlying the relevant Security Documents may not be sufficient to satisfy the obligations of the Senior Notes Issuer and the Senior Notes Guarantors with respect to the Senior Notes. No appraisal of the value of the Senior Notes Collateral has been made in connection with these Offerings. The value of the Senior Notes Collateral will also depend on many factors, including, among other things, whether or not the business is sold as a going concern, regulatory restrictions that could affect such sale, the ability to sell the assets in an orderly sale and the condition of the economies in which operations are located and the availability of buyers.

The shares and other Senior Notes Collateral that are pledged or assigned for the benefit of the holders of the Senior Notes may provide for only limited repayment of the Senior Notes, in part because most of these shares and intercompany loan receivables may not be liquid and their value to other parties may be less than their value to us. Likewise, we cannot assure you that the Senior Notes Collateral will be salable or, if salable, that there will not be substantial delays in the liquidation thereof. Most of our assets will not secure the Senior Notes and it is possible that the value of the Senior Notes Collateral will not be sufficient to cover the amount of debt secured by such Senior Notes Collateral. With respect to any shares pledged to secure the Senior Notes and the Senior Note Guarantees, such shares may also have limited value in the event of a bankruptcy, insolvency or other similar proceedings in relation to the entity's shares that have been pledged because all of the obligations of the entity whose shares have been pledged must first be satisfied, leaving little or no remaining assets in the pledged entity. As a result, the creditors secured by a pledge of the shares of these entities may not recover anything of value in the case of an enforcement sale. In addition, the value of this Senior Notes Collateral may decline over time. If the proceeds of the Senior Notes Collateral are not sufficient to repay all amounts due on the Senior Notes, the holders of the Senior Notes (to the extent not repaid from the proceeds of the sale of the Senior Notes Collateral) would have only a senior unsecured, unsubordinated claim against the Senior Notes Issuer's and the Senior Notes Guarantors' remaining assets.

The Senior Notes Indenture will permit the granting of certain liens other than those in favor of the holders of the Senior Notes on the Senior Notes Collateral. To the extent that holders of other secured debt or third parties enjoy liens, including statutory liens, whether or not permitted by the Senior Notes Indenture or the relevant Security Documents, such holders or third parties may have rights and remedies with respect to the Senior Notes Collateral that, if exercised, could reduce the proceeds available to satisfy our obligations under the Senior Notes. Moreover, if we issue additional notes under the Senior Notes Indenture, holders of such additional notes would benefit from the same collateral as the holders of the Senior Notes being offered hereby, thereby diluting your ability to benefit from the liens on the Senior Notes Collateral.

Risks Related to the Senior Secured Notes and the Senior Notes

The insolvency laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability.

On and after the Completion Date as described elsewhere in this offering memorandum, our obligations under the relevant Notes will be guaranteed by the relevant Guarantors and secured by security interests over the relevant Collateral. The Issuers are organized under the laws of England and Wales and the Guarantors are organized under the laws of Austria, France, Germany, Italy, Spain and Switzerland. There is a rebuttable presumption that the "centre of main interest" as defined in the Council of the European Union Regulation No. 134612000 on Insolvency Proceedings is the jurisdiction where the registered office is situated. In addition, the Collateral will include a pledge over the shares in certain of our subsidiaries incorporated under the laws of France, Germany, Austria, Belgium, Italy, Spain and Switzerland and pledges of certain present and future intercompany loan receivables held by the Senior Secured Notes Issuer and certain of its subsidiaries incorporated under the laws of Austria, England and Wales, France, Germany, Italy, Spain and Switzerland.

The insolvency laws of foreign jurisdictions may not be as favorable to your interests as the laws of the United States or other jurisdictions with which you are familiar. In particular, the French bankruptcy laws and regulations are unfavorable to creditors in many respects. In the event that any one or more of the Issuers, the Guarantors or any other of the Issuers' subsidiaries experiences financial difficulty, it is not possible to predict with certainty in which jurisdiction or jurisdictions insolvency or similar proceedings would be commenced, or the outcome of such proceedings.

Although laws differ among the jurisdictions, in general, applicable fraudulent transfer and conveyance and equitable principles, insolvency laws and limitations on the enforceability of judgments obtained in courts in such jurisdictions could limit the enforceability of the Notes against the Issuers, the enforceability of a Guarantee against a Guarantor and the enforceability of the Security Interests. In certain circumstances the court may also void the Security Interest or the Guarantee if the company is close to or near insolvency. The following discussion of fraudulent transfer, conveyance and insolvency law, although an overview, describes generally applicable terms and principles, which are defined under the relevant jurisdiction's fraudulent transfer and insolvency statutes.

In an insolvency proceeding, it is possible that creditors of the Guarantors or the appointed insolvency administrator may challenge the guarantees and the Security Interests, and intercompany obligations generally, as preferences, transaction at an undervalue, invalid charges, fraudulent transfers or conveyances or on other grounds. If so, such laws may permit a court, if it makes certain findings, to:

- avoid or invalidate all or a portion of a Guarantor's obligations under its Guarantee or the Security Interests provided by such Guarantor;

- direct that the Issuers and the holders of the Additional Senior Secured Notes and the Senior Notes return any amounts paid under a Guarantee or any Security Interest to the relevant Guarantor or to a fund for the benefit of the Guarantor's creditors; and
- take other action that is detrimental to you.

If we cannot satisfy our obligations under the Notes and any Guarantee or Security Interest is found to be a preferences, transaction at an undervalue, fraudulent transfer or conveyance or is otherwise set aside, we cannot assure you that we can ever repay in full any amounts outstanding under the Notes. In addition, the liability of each Guarantor under its Guarantee or the Security Interests will be limited to the amount that will result in such guarantee or Security Interests not constituting a fraudulent conveyance or improper corporate distribution or otherwise being set aside. The amount recoverable from the Guarantors under the Security Documents (as defined herein) will also be limited. However, there can be no assurance as to what standard a court would apply in making a determination of the maximum liability of each. There is also the possibility that the entire Guarantee or Security Interest may be set aside, in which case the entire liability may be extinguished. See also "*Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral*."

In order to initiate any of these actions under fraudulent transfer or other applicable principles, courts would, for example, need to find that, at the time the Guarantees were issued or the Security Interests created, the Guarantor:

- issued such Guarantee or created such Security Interest with the intent of hindering, delaying or defrauding current or future creditors or with a desire to prefer some creditors over others, or created such security after its insolvency;
- issued such Guarantee or created such Security Interest in a situation where a prudent businessman as a shareholder of such Guarantor would have contributed equity to such Guarantor or where the relevant beneficiary of the Guarantee or Security Interest knew or should have known that the Guarantor was insolvent or a filing for insolvency had been made; or
- received less than reasonably equivalent value for incurring the debt represented by the Guarantee or Security Interest on the basis that the Guarantee or Security Interest were incurred for our benefit, and only indirectly the Guarantor's benefit, or on some other basis and (i) was insolvent or rendered insolvent by reason of the issuance of the Guarantee or the creation of the Security Interest, or subsequently became insolvent for other reasons; (ii) was engaged, or was about to engage, in a business transaction for which the Guarantor's assets were unreasonably small; or (iii) intended to incur, or believed it would incur, debts beyond its ability to make required payments as and when they would become due.

Different jurisdictions evaluate insolvency on various criteria, but a Guarantor generally may, in different jurisdictions, be considered insolvent at the time it issued a Guarantee or created any Security Interest if:

- its liabilities exceed the fair market value of its assets;
- it cannot pay its debts as and when they become due; or
- the present saleable value of its assets is less than the amount required to pay its total existing debts and liabilities, including contingent and prospective liabilities, as they mature or become absolute.

Although we believe that we are solvent, and will be so after giving effect to the Transactions, there can be no assurance as to which standard a court would apply in determining whether a Guarantor was "insolvent" as of the date the Guarantees were issued or the Security Interests were created or that, regardless of the method of valuation, a court would not determine that a Guarantor was insolvent on that date, or that a court would not determine, regardless of whether or not a Guarantor was insolvent on the date its Guarantee was issued or the Security Interests were created, that payments to holders of the Notes constituted fraudulent transfers on other grounds.

For an overview of certain insolvency laws and enforceability issues as they relate to the Guarantees and Security Interests, see "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*."

Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral.

Certain of the Guarantors are organized under the laws of Austria, France, Germany, Italy and Spain. Enforcement of the obligations under a Guarantee against any such Guarantor will be subject to certain defenses available to the Issuers or the relevant Guarantor, as the case may be. These laws and defenses may include those that relate to fraudulent conveyance, financial assistance, corporate benefit, capital maintenance and regulations or defenses affecting the rights of creditors generally.

Under French financial assistance rules, a company is prohibited from guaranteeing, or providing security in relation to, indebtedness of another company that is used, directly or indirectly, for the purpose of its acquisition. Under French corporate benefit rules, a court could declare any guarantee or security unenforceable and, if payment had already been made under the relevant guarantee, or any proceeds have been obtained from the enforcement of any security, require that the recipient return the payment or any proceeds so obtained to the relevant guarantor or security provider, if the court found that the French guarantor or security provider did not receive some real and adequate corporate benefit from the transaction involving the grant of the guarantee or security as a whole. Existence of corporate benefit is a factual matter which must be determined on a case-by-case basis. The existence of a real and adequate benefit to the guarantor or security provider and whether the amounts guaranteed or secured are commensurate with the benefit received are matters of fact as to which French case law provides no clear guidance.

Under Italian financial assistance rules (set out in article 2358 of the Italian civil code for companies incorporated as a *società per azioni* and article 2474 of the Italian civil code for companies incorporated as *società a responsabilità limitata*), an Italian company is prevented from providing, directly or indirectly, financial assistance (whether giving security or a guarantee, granting loans or providing credit support in other forms) for the acquisition and/or refinancing of acquisition of (or subscription to) its own shares or shares of any its direct or indirect parent companies.

Under Italian financial assistance rules, any guarantee or security provided in breach of the financial assistance prohibitions would be unenforceable. In the event the acquisition funds cannot be clearly identified and separated from other funds, an Italian court could consider the relevant guarantee or security provided by an Italian company unenforceable even if such guarantee or security includes general carve-outs intending to exclude from the scope of the guarantee or security any financial support which may be considered to in breach of Italian financial assistance prohibitions.

In addition, each of the Guarantees and Collateral, as applicable, and the amounts recoverable thereunder will be limited to the maximum amount that can be guaranteed or secured by a particular Guarantor or security provider under the applicable laws of each jurisdiction, to the extent that the granting of such Guarantee or Collateral is not in the relevant Guarantor's or security provider's corporate interests, or the burden of such Guarantee or Collateral exceeds the benefit to the relevant Guarantor or security provider, or such Guarantee or Collateral would be in breach of capital maintenance or thin capitalization rules or any other general statutory laws and/or would cause the directors of such subsidiary Guarantor or security provider to contravene their fiduciary duties and incur civil or criminal liability. In particular, enforcement of any such Guarantee or Collateral against the relevant Guarantor or security provider would be subject to certain contractual limitations (so called "limitation language") contained in the respective Indentures (or any other document governing the Guarantees) and Security Documents, respectively, designed to ensure compliance with statutory requirements applicable to the relevant Guarantor or security provider. As a result, a Guarantor's or security provider's liability under its Guarantee or Collateral could be materially reduced or eliminated, depending upon the law and contractual enforcement restrictions applicable to it. This could lead to a situation in which such Guarantee or Collateral cannot be enforced at all. It is possible that a Guarantor or security provider, or any of their creditors, or the bankruptcy trustee or other insolvency office holder in the case of a bankruptcy/insolvency of a Guarantor or security provider, may contest the validity and enforceability of the Guarantor's Guarantee or the security provider's Collateral on any of the above grounds and that the applicable court may determine that the Guarantee or Collateral should be limited or voided. To the extent that any limitations on the relevant Guarantees or Collateral apply, the Notes would be to that extent effectively subordinated to all liabilities of the applicable Guarantor or security provider, including trade payables of such Guarantor or security provider. Future Guarantees and Collateral may be subject to similar limitations.

An increase in the amount of debt that benefits from such Guarantee without a corresponding increase in the amount of the Guarantee will dilute the value of such Guarantee to its beneficiaries, including the holders of the Notes. See "*Description of the Senior Secured Notes—The Senior Secured Note Guarantees,*" "*Description of the Senior Notes—The Senior Note Guarantees*" and "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*."

Transfer of the Notes will be restricted, which may adversely affect the value of the Notes.

Because the Notes and the Guarantees have not been, or will not be, and are not required to be, registered under the U.S. Securities Act or the securities laws of any other jurisdiction, they may not be offered or sold in the United States except to QIBs in accordance with Rule 144A, in offshore transactions in accordance with Regulation S or pursuant to another exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and all other applicable laws. These restrictions may limit the ability of investors to resell the Notes. It is the obligation of investors in the Notes to ensure that all offers and sales of the Notes in the United States and other countries comply with applicable securities laws. See "*Transfer Restrictions*."

The Notes will initially be held in book-entry form and therefore investors must rely on the procedures of the relevant clearing systems to exercise any rights and remedies.

The Notes will initially only be issued in global certificated form and held through Euroclear and Clearstream, Luxembourg.

Interests in the global Notes will trade in book-entry form only, and Notes in definitive registered form, or definitive registered Notes, will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book-entry interests will not be considered owners or holders of Notes. The common depositary, or its nominee, for Euroclear and Clearstream, Luxembourg will be the sole registered holder of the global notes representing the Notes. Payments of principal, interest and other amounts owing on or in respect of the global notes representing the Notes will be made to the paying agent, which will make payments to Euroclear and Clearstream, Luxembourg. Thereafter, these payments will be credited to participants' accounts that hold book-entry interests in the global Notes representing the Notes and credited by such participants to indirect participants. After payment to the common depositary for Euroclear and Clearstream, Luxembourg, the Issuers will have no responsibility or liability for the payment of interest, principal or other amounts to the owners of book-entry interests. Accordingly, if investors own a book-entry interest, they must rely on the procedures of Euroclear and Clearstream, Luxembourg, and if investors are not participants in Euroclear and Clearstream, Luxembourg, they must rely on the procedures of the participant through which they own their interest, to exercise any rights and obligations of a holder of the Notes under the Indentures.

Unlike the holders of the Notes themselves, owners of book-entry interests will not have the direct right to act upon the Issuers' solicitations for consents, requests for waivers or other actions from holders of the Notes. Instead, if an investor owns a book-entry interest, it will be permitted to act only to the extent it has received appropriate proxies to do so from Euroclear and Clearstream, Luxembourg. The procedures implemented for the granting of such proxies may not be sufficient to enable such investor to vote on a timely basis.

Similarly, upon the occurrence of an event of default under the Indentures, unless and until definitive registered Notes are issued in respect of all book-entry interests, if investors own book-entry interests, they will be restricted to acting through Euroclear and Clearstream, Luxembourg. The procedures to be implemented through Euroclear and Clearstream, Luxembourg may not be adequate to ensure the timely exercise of rights under the Notes. See "*Book-Entry; Delivery and Form*."

There may not be an active trading market for the Notes, in which case your ability to sell the Temporary Notes or the Notes will be limited.

We cannot assure you as to:

- the liquidity of any market in the Notes;
- your ability to sell your Notes; or
- the prices at which you would be able to sell your Notes.

Future trading prices of the Notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. The liquidity of a trading market for the Notes may be adversely affected by a general decline in the market for similar securities. Historically, the market for non-investment grade securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the Notes. Any such disruption may have a negative effect on you, as a holder of Notes, regardless of our prospects and financial performance. The initial purchasers have advised that they intend to make a market in the Notes after completing the Offering. However, they have no obligation to do so and may discontinue market-making activities at any time without notice. In addition, such market-making activity will be subject to limitations imposed by the U.S. Securities Act and other applicable laws and regulations. As a result, there may not be an active trading market for the Notes. If no active trading market develops, you may not be able to resell your Notes at a fair value, if at all.

The Notes may not become, or remain, listed on the Irish Stock Exchange.

Although the Issuers have, in the Indentures, agreed to use its reasonable best efforts to have the Notes listed on the Official List of the Irish Stock Exchange and admitted to trading on its Global Exchange Market within a reasonable period after the Issue Date and to maintain such listing as long as the Notes are outstanding, the Issuers cannot assure you that the Notes will become or remain listed. If the Issuers cannot maintain the listing on the Official List of the Irish Stock Exchange and the admission to trading on the Global Exchange Market or it becomes unduly burdensome to make or maintain such listing, the Issuers may cease to make or maintain such listing on the Official List of the Irish Stock Exchange, *provided* that it will use reasonable best efforts to obtain and maintain the listing of the Notes on another stock exchange. There can be no assurance, however, that the Issuers will be able to do so. Although no assurance is made as to the liquidity of the Notes as a result of their listing on the Official List of the Irish Stock Exchange or another recognized listing exchange for comparable issuers in accordance with the Indentures, failure to be approved for listing or the delisting of the Notes from the Official List of the Irish Stock Exchange or another listing exchange in accordance with the Indentures may have a material adverse effect on a holder's ability to resell Notes in the secondary market.

THE TRANSACTIONS

The Synlab Acquisition

On June 24 and 25, 2015, Ephios Acquisition GmbH, as purchaser ("German BidCo"), and SL Lux Investment S.C.A., as seller (the "Synlab Seller"), entered into the Synlab Acquisition Agreement regarding the acquisition of the outstanding shares in synlab Holding GmbH (the "Synlab Acquisition"). Under the terms of the Synlab Acquisition Agreement, German BidCo will acquire at least 72.15% of the issued and outstanding capital stock of synlab Holding GmbH as of the consummation of the Synlab Acquisition (the "Completion Date"). In addition, German BidCo and the Synlab Seller have offered the remaining shareholders of synlab Holding GmbH to accede to the Synlab Acquisition Agreement thereby selling some or all of their shares to German BidCo or, in some cases, to contribute some of their shares into German BidCo as part of a capital increase in kind of German BidCo simultaneously with or immediately following the Completion Date. In accordance with the articles of association of synlab Holding GmbH, the Synlab Seller issued a drag (and tag) notice to all minority shareholders of synlab Holding GmbH pursuant to which the minority shareholders are required (and entitled) to sell and transfer their shares in synlab Holding GmbH to German BidCo. If German BidCo does not acquire all of the shares in Synlab on the closing of the Synlab Acquisition despite this mechanism, there is likely to be a delay of credit support, in particular the granting of security, by Synlab and its subsidiaries for as long as there are minority shareholders opposing the credit support. To mitigate this result, German BidCo may, after a conversion of Synlab into a stock corporation (*Aktiengesellschaft*), initiate proceedings to squeeze-out minority shareholders who hold a maximum of 5% of the shares (or 10% in case of a so called merger squeeze-out, which would require German BidCo to be converted into a stock corporation as well) against a compensation in cash. Both the conversion and the subsequent squeeze-out would become effective after registration with the commercial register (*Handelsregister*), which would be delayed in the case of minority shareholder litigation against the corresponding resolutions. In such event, German BidCo may initiate fast track proceedings (*Freigabeverfahren*) in order to effect the required registrations. The timing and outcome of such fast track proceedings cannot be predicted, in particular due to the combination of a conversion and a squeeze-out. The amount of the cash compensation offered in connection with the conversion and granted in connection with the squeeze-out could be challenged by minority shareholders in separate court appraisal proceedings (*Spruchverfahren*). See "*Risk Factors—Risks Related to the Transactions—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco.*" As of July 22, 2015, approximately 91.3% of the total outstanding shares of Synlab have been committed to be sold or contributed to German Bidco and we have received confirmation for all of the remaining shareholders that they will accede or are in the process of acceding to the Synlab Acquisition Agreement. We expect all of the remaining shareholders to accede prior to the Completion Date. The consummation of the Synlab Acquisition pursuant to the Synlab Acquisition Agreement will be subject to (a) merger control clearances by the EU Commission and the Swiss Competition Commission and (b) no-existence of enforceable judgment(s), preliminary or permanent injunction(s), order(s) or decree(s) by any governmental authority prohibiting the consummation of the transaction by the Synlab Seller. If the Synlab Acquisition is not consummated by December 15, 2015, the Synlab Acquisition Agreement may be terminated by German BidCo and/or the Synlab Seller (with effect for all acceding minority shareholders). In connection with obtaining approvals of the applicable competition authorities, we may agree to divest certain of our assets or operations. We currently do not expect that we will be required to divest assets or operations that generate a significant portion of our revenues. Please see "*Risk Factors—Risks Related to the Transactions*."

Pursuant to the Synlab Acquisition Agreement, German BidCo will acquire the capital stock of synlab Holding GmbH for €1,225 million adjusted for the number shares actually sold/contributed pursuant to the above described drag/tag/contribution mechanism and subject to the treasury shares held by synlab Holding GmbH (the "Purchase Price") subject to certain purchase price adjustments. For purposes of this offering memorandum, we have estimated the Purchase Price to be €1,266.0 million. The Purchase Price bears interest in the amount of €150,000 per calendar day from (and including) January 1, 2015 until (but excluding) the Completion Date. Should the Completion Date be after September 30, 2015, the Purchase Price bears interest in the amount of €150,000 per calendar day from (and including) January 1, 2015 until (and including) September 30, 2015 and €165,000 per calendar day from (and including) October 1, 2015 until (but excluding) the Completion Date. In addition, the Purchase Price will be reduced by the amount of any dividends or similar payment, asset transfers or certain other transfers of value from the Synlab Group to the Synlab Seller that occur prior to the Completion Date that are not permitted under the

Synlab Acquisition Agreement and certain payments to employees or directors or finding fee arrangements triggered as a result of the Synlab Acquisition but in some cases subject to a *de minimis* amount of €250,000.

The Synlab Acquisition Agreement includes customary restrictions on the activities of synlab Holding GmbH prior to the Completion Date, including restrictions on the incurrence of additional indebtedness, as well as limited representations, warranties and covenants that are subject to certain limitations and exclusions.

If, until the Completion Date, German Bidco has not acquired all of the issued share capital in Synlab the Senior Secured Notes Issuer will use reasonable endeavors that German Bidco and/or any of its subsidiary acquires such shares in Synlab at some point after the Completion Date (either by way of squeeze out following a conversion of Synlab into a stock corporation (*Aktiengesellschaft*) or otherwise). In addition, Synlab and German Bidco will take steps for entering into and registration of a domination agreement (*Beherrschungsvertrag*) between Synlab as dominated entity and German Bidco as dominating entity. The Senior Secured Notes Issuer furthermore undertakes to arrange for the conversion of Synlab from a stock corporation back into a limited liability company (*Gesellschaft mit beschränkter Haftung*) under German law if either all issued shares in Synlab have been acquired or a non-appealable court ruling confirms that the squeeze out of any minority shareholders of Synlab is not permissible in the present case.

The Synlab Financing

The total aggregate financial resources required in order to consummate the Synlab Acquisition, to repay the Existing Synlab Credit Facility, to pay related fees and expenses and to use for general corporate purpose are expected to be €1,793.5 million and are expected to be financed (the "Synlab Financing") with the following cash resources:

- the Cinven Funds will make a contribution of approximately €743.5 million directly to UK TopCo through a combination of ordinary shares and preferred shares which will, indirectly through UK HoldCo I and the Senior Notes Issuer (through ordinary equity subscriptions), be contributed to the Senior Secured Notes Issuer (collectively, the "Synlab Equity Contribution"); and
- the Senior Notes Issuer will issue the Senior Notes offered hereby in the aggregate principal amount of €375.0 million and will use the proceeds to make an interest bearing loan to the Senior Secured Notes Issuer in an amount of approximately €375.0 million (the "Senior Notes Proceeds Loan");
- the Senior Secured Notes Issuer will issue the Temporary Senior Secured Notes offered hereby in the aggregate principal amount of €685.0 million and will use the proceeds, together with the €375.0 million proceeds from the Senior Notes Proceeds Loan and the €743.5 million proceeds from the Synlab Equity Contribution, to (i) make an interest-bearing loan or loans to Synlab in an amount of approximately €475.6 million (the "Synlab Proceeds Loan") and (ii) make an interest bearing loan to German BidCo in an amount of approximately €1,328.0 million (the "German BidCo Loan"); and
- German BidCo will use the proceeds from the German BidCo Loan, to: (i) fund the Purchase Price for the Synlab Acquisition and (ii) pay related transaction fees and expenses that are expected to be approximately €62 million.
- Synlab will use the proceeds received under the Synlab Proceeds Loan, together with cash on hand, to (i) repay the Existing Synlab Credit Facility and (ii) for general corporate purposes.

In connection with the Offerings, on or about the Issue Date, the Senior Secured Issuer will enter into an amendment and restatement agreement with respect to the Revolving Credit Facility Agreement which will, amongst other things and subject to completion of both Acquisitions, increase the available commitments thereunder to €250.0 million.

See "*Use of Proceeds*," "*Capitalization*," "*Description of Other Indebtedness,*" "*Description of the Temporary Senior Secured Notes*," "*Description of the Senior Secured Notes*" and "*Description of the Senior Notes*."

The Labco Acquisition

On May 27, 2015, French BidCo entered into the Labco Acquisition Agreement to acquire up to 100% of the share capital and voting rights of Labco from the Labco Sellers and at least 75% of the full ownership of the share capital and voting rights of Labco, failing which French BidCo will have the ability to terminate the Labco Acquisition Agreement. The Labco Sellers who signed the Labco Acquisition Agreement on May 27, 2015, already represented more than 95% of the share capital and voting rights of Labco to be sold to French BidCo under the Labco Acquisition Agreement. In accordance with the Labco Acquisition Agreement, French BidCo has requested that the Labco Sellers of Labco's B and C shares who signed the Labco Acquisition Agreement exercise their drag-along rights in respect of any shareholder of Labco that refuses to sell its securities in Labco to French BidCo; the drag along process has been launched. French BidCo may also request in accordance with the Labco Acquisition Agreement that Labco exercise its call option rights in respect of any shareholder of Labco that would be in default under the drag along process. French BidCo intends to request that the Labco Sellers and Labco exercise their respective drag-along and call option rights on or prior to the completion of the Labco Acquisition (the "Labco Squeeze-Out"). There is no assurance, however, that the Labco Squeeze-Out will be completed. The proceeds of the offering of Existing Notes will be released, subject to certain conditions, as long as French BidCo holds 95% of the entire share capital of Labco upon completion of the Labco Acquisition. The consummation of the Labco Acquisition pursuant to the Labco Acquisition Agreement is subject to the satisfaction of certain conditions, including clearance by the European Commission and the performance of certain closing actions. The French Ministry of Economy has confirmed that no prior investment authorization under foreign investment control in France is required. If clearance by the European Commission is not obtained on or prior to the Labco Acquisition Longstop Date, the Labco Acquisition Agreement will terminate automatically.

The Labco Financing

The total aggregate financial resources required in order to consummate the Labco Acquisition and to repay Labco's existing debt (including redemption premiums and fees and expenses in connection with the refinancing) are expected to be €1,290.3 million.

The total aggregate financial resources required in order to consummate the Labco Acquisition are expected to be €490.3 million and are expected to be financed with (i) an equity contribution by the Cinven Funds of approximately €438.7 million which will be indirectly contributed to French BidCo; (ii) a drawdown of €51.6 million under the Revolving Credit Facility on the Labco Completion Date (the "Labco Financing Drawdown"); and (iii) the proceeds of the French BidCo Loan which Labco will use to acquire certain warrants in the Labco Group.

As of the Completion Date, the Revolving Credit Facility Agreement will provide for a Revolving Credit Facility in the amount of €250.0 million to finance or refinance the general corporate and working capital needs of the combined business or to fund acquisitions. We currently expect that the Labco Financing Drawdown will be the only drawings under the Revolving Credit Facility as of the Labco Completion Date. French BidCo intends to repay that facility shortly after the Labco Completion Date. We may draw on the Revolving Credit Facility again on or shortly after the Labco Completion Date, however, in order to fund acquisitions or to meet the ordinary course treasury and cash management requirements of the Labco Group.

On June 17, 2015, the Senior Secured Notes Issuer completed the offering of the Existing Notes in an aggregate principal amount of €800 million. The proceeds of the offering were deposited into the Existing Escrow Account and, upon completion of the Labco Acquisition (subject to certain other conditions), will be released and used to make the Proceeds Loan to Labco to (i) redeem all of Labco's issued and outstanding €700 million 8½% Senior Secured Notes due 2018 (the "Existing Labco Notes"); (ii) pay a redemption premium in respect of the Existing Labco Notes and all accrued but unpaid interest thereon; (iii) repay €56.0 million of indebtedness under the Existing Labco Credit Facility and all accrued but unpaid interest thereon; and (iv) pay transaction fees and expenses relating to the refinancing of the Existing Labco Notes and Existing Labco Credit Facility, which are expected to be approximately €11.6 million.

USE OF PROCEEDS

We estimate that the gross proceeds from the sale of the Notes will be €1,053.2 million. We intend to use the proceeds from the Synlab Equity Contribution and the Offerings to (i) fund the purchase price for the Synlab Acquisition; (ii) repay the Existing Synlab Credit Facility; (iii) pay transaction fees and expenses relating to the Synlab Acquisition that are expected to be approximately €62.0 million and (iv) for general corporate purposes.

The expected estimated sources and uses of the funds necessary to consummate the Transactions are shown in the table below, assuming that the Acquisitions complete and the Existing Synlab Credit Facility is paid in full on September 30, 2015. Actual amounts will vary from estimated amounts depending on several factors, including accrued interest on debt being repaid, differences from our estimates of fees and expenses associated with the Transactions and the actual Completion Date. Any changes in these amounts may affect the amount of the Synlab Equity Contribution.

None of the proceeds of the Notes will be used in a manner which would constitute a "use of proceeds in Switzerland" (*Mittelverwendung in der Schweiz*) as interpreted by the Swiss tax authorities for purposes of Swiss withholding tax so that it triggers Swiss withholding tax consequences on interest payments under the Notes unless a positive written tax ruling has been obtained in advance (certified by the Issuer to be in form and substance satisfactory to the holders of the Notes) according to which such use of proceeds does not trigger Swiss withholding tax on interest payments under the Notes.

Sources of Funds	Amount (€ millions)	Uses of Funds	Amount (€ millions)
Synlab Equity Contribution[1]	743.5	Purchase price for the Synlab Acquisition[4]	1,266.0
Proceeds from the Temporary Senior Secured Notes[2]	678.2	Repayment of Existing Synlab Credit Facility Agreement, net of cash on hand[5][7]	455.5
Proceeds from the Senior Notes[3]	375.0	Transaction fees and expenses[6]	62.0
		Cash to balance sheet[7]	13.2
Total Sources	**1,796.7**	**Total Uses**	**1,796.7**

(1) Represents the indirect cash investment expected to be made by the Cinven Funds, which will be contributed through intermediate holdings companies to German BidCo.

(2) Represents the expected gross proceeds to be received from the issuance of the Temporary Senior Secured Notes.

(3) Represents the expected gross proceeds to be received the issuance of the Senior Notes.

(4) Represents the expected total cash consideration payable to the Synlab Sellers for the Synlab Acquisition. This amount assumes completion of the Synlab Acquisition on September 30, 2015 and the estimated payment of per diem interest in the total amount of €41.0 million through the assumed completion of the Synlab Acquisition on such date. This estimate is not an indication that the Synlab Acquisition will be completed on that date, at that price or at all. See "*Summary—The Transactions—The Synlab Acquisition*."

(5) Represents the full repayment of amounts due under the Existing Synlab Credit Facility Agreement based on the expected balance as of the assumed completion of the Synlab Acquisition on September 30, 2015, net of estimated cash and cash equivalents of approximately €110.0 million as of the same date, which estimate reflects payment of accrued interest to such date in the amount of €6.5 million with cash on hand. As of June 30, 2015, borrowings in a gross aggregate principal amount of €564.8 million were outstanding under the Existing Synlab Credit Facility Agreement in addition to €0.7 million of drawings under a local credit facility in Austria. We do not expect to make any scheduled installment payments under the Existing Synlab Credit Facility Agreement prior to the assumed completion of the Synlab Acquisition on September 30, 2015. This estimate is not an indication that the Synlab Acquisition will be completed on that date, at that price or at all. See "*Summary—The Transactions—The Synlab Acquisition—The Synlab Financing*."

(6) Represents estimated fees and expenses associated with the Synlab Acquisition, including underwriting fees and commisions, contingency for fee over-runs and other estimated transaction costs.

(7) Represents an estimated €110 million of cash and cash equivalents on balance sheet as of the assumed completion of the Synlab Acquisition on September 30, 2015, which reflects cash outflows relating to acquisitions signed and completed by June 30, 2015 and payment of accrued interest in the amount of €6.5 million under the Existing Synlab Credit Facility. To the extent any cash requirements should arise to fund additional acquisitions before September 30, 2015, however, this amount may change and an amount may be drawn under the Revolving Credit Facility to finance the Synlab Financing.

CAPITALIZATION

The following table sets forth, in each case, as of March 31, 2015, the cash and cash equivalents and capitalization of:

- Labco on an actual basis;
- Synlab on an actual basis; and
- the Issuers and their consolidated subsidiaries as adjusted to give effect to the Transactions. The adjustments are based on available information and contain assumptions made by our management.

The table below should be read in conjunction with "*The Transactions*," "*Selected Historical Consolidated Financial Information of Synlab*," "*Selected Historical Consolidated Financial Information of Labco*," "*Use of Proceeds*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*," "*Description of Other Indebtedness*," "*Description of the Senior Secured Notes*," "*Description of the Senior Notes*" and the Financial Statements included elsewhere in this offering memorandum. Except as set forth below, there have been no other material changes to the capitalization of the Issuers since March 31, 2015.

	As of March 31, 2015				
	Labco (actual)	**Synlab (actual)**	**Labco (as adjusted for the Existing Senior Secured Notes)**	**Synlab (as adjusted for the Offerings)**	**Combined business (as adjusted)**
			(unaudited) (€ millions)		
Cash and cash equivalents[(1)]	**83.9**	**76.0**	**2.5**	**13.2**	**15.7**
Debt					
Existing Labco Notes[(2)]	700.0	—	—	—	—
Existing Labco Credit Facility[(3)]	8.0	—	—	—	—
Existing Senior Secured Notes[(4)]	—	—	800.0	—	800.0
Existing Synlab Credit Facility[(5)]	—	529.8	—	—	—
Senior Secured Notes[(6)]	—	—	—	685.0	685.0
Senior Notes offered hereby[(7)]	—	—	—	375.0	375.0
Revolving Credit Facility[(8)]	—	—	—	—	—
Other financial liabilities[(9)]	31.7	20.2	31.7	20.2	51.9
Total debt	**739.7**	**550.0**	**831.7**	**1,080.2**	**1,911.9**
Total equity[(10)]	**152.1**	**263.0[(10)]**	**438.7**	**743.5**	**1,182.2**
Total capitalization	**891.8**	**813.0**	**1,270.4**	**1,823.7**	**3,094.1**

(1) As adjusted cash and cash equivalents reflects the amount of cash and cash equivalents as if the Transactions had occurred on March 31, 2015 and, (i) with respect to Labco, as adjusted cash and cash equivalents reflects the use of cash as set forth in "*The Transactions—The Labco Acquisition—The Labco Financing*" and footnote (8) below, and the payment made on July 15, 2015 of €29.8 million of accrued interest on the Existing Labco Notes and (ii) with respect to Synlab, as adjusted cash and cash equivalents reflects the use of cash as set forth in "*The Transactions—The Synlab Acquisition—The Synlab Financing*" and full repayment of the Existing Synlab Credit Facility as described in footnote (5) of "*Use of Proceeds*." With respect to Synlab actual, represents the carrying amount of cash and cash equivalents.

(2) Represents the aggregate principal amount of Labco's 8½% Senior Secured Notes due 2018 outstanding as of March 31, 2015, excluding accrued but unpaid interest.

(3) Between April 1, 2015 and the date of this offering memorandum, additional drawings in an amount of €42 million were made under the Existing Labco Credit Facility, resulting in an aggregate utilization of €50 million. Labco expects to make additional drawings in the amount of approximately €5 million between the date of this offering memorandum and July 31, 2015 to finance certain acquisitions. The Existing Labco Credit Facility will be terminated in connection with the Labco Acquisition.

(4) Represents the €500 million 6.25% Senior Secured Notes due 2022 issued by Labco on June 17, 2015 and the €300 million Senior Secured Floating Rate Notes due 2022 issued by Labco on June 17, 2015.

(5) Represents the outstanding principal amount of interest-bearing bank loans/overdraft facilities drawn by Synlab Holding GmbH under the Existing Synlab Credit Facility as of March 31, 2015 and includes €0.5 million of drawings under a local revolving credit facility in Austria as of March 31, 2015 which will also be repaid in full from the proceeds from the Offerings.

(6) Represents the aggregate principal amount of Senior Secured Notes offered hereby.

(7) Represents the aggregate principal amount of Senior Notes offered hereby.

(8) As amended and restated, the Revolving Credit Facility will provide for aggregate borrowings of up to €250.0 million. French BidCo will draw €51.6 million under a loan pursuant to the Revolving Credit Facility on the Labco Completion Date to finance a portion of the purchase price for the Labco Acquisition and pay certain fees related to the Labco Acquisition. French BidCo intends to repay that facility shortly after the Labco Completion Date. Other than for such loan, the Revolving Credit Facility is expected to remain undrawn on or about the Labco Completion Date. We expect that on the Labco Completion Date, the amount of cash at the Labco Group and the amount of reserves at the Labco Group that are capable of being distributed to French BidCo, will be in excess of the amount of such loan.

(9) With respect to Labco, includes finance leases in the amount of €18.3 million, indebtedness under Labco's bilateral bank loans in the amount of €12.5 million and other financial liabilities in the amount of €0.9 million. With respect to Synlab, the actual figure includes the carrying amount liabilities from finance leases in the amount of €19.6 million and other financial liabilities in the amount of €0.6 million which will not be refinanced using the proceeds from the Offerings.

(10) With respect to Synlab on an actual basis as of March 31, 2015, represents equity of parent company shareholders.

UNAUDITED PRO FORMA CONDENSED COMBINED CONSOLIDATED FINANCIAL INFORMATION

Introduction

The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information has been prepared to reflect the following transactions:

(i) the acquisitions of Synlab and Labco;

(ii) the repayment of certain existing Synlab and Labco indebtedness; and

(iii) the incurrence of indebtedness under the Notes offered hereby.

These transactions are referred to in "*The Transactions*" of this offering memorandum.

Basis of preparation

The unaudited *pro forma* condensed combined consolidated statement of financial position as of March 31, 2015 and the unaudited *pro forma* condensed combined consolidated income statements for the twelve months ended March 31, 2015, the three months ended March 31, 2015, the year ended December 31, 2014 and the three months ended March 31, 2014 are based on the historical consolidated financial statements of Synlab and Labco, which are included elsewhere in this offering memorandum.

The unaudited *pro forma* condensed combined consolidated income statement for the twelve months ended March 31, 2015 has been calculated by subtracting the unaudited *pro forma* condensed combined consolidated income statement for the three months ended March 31, 2014 from the unaudited *pro forma* condensed combined consolidated income statement for the year ended December 31, 2014 and then adding the unaudited *pro forma* condensed combined consolidated income statement for the three months ended March 31, 2015.

The unaudited *pro forma* adjustments to the historical financial information described in the accompanying notes give effect to the Transactions as if they has occurred on March 31, 2015, for the purpose of the unaudited *pro forma* condensed combined consolidated statement of financial position and, and on January 1, 2014 for the purposes of the unaudited *pro forma* condensed combined consolidated income statements. The unaudited *pro forma* adjustments are based on currently available financial information and certain assumptions that we believe are reasonable and supportable.

The unaudited *pro forma* income statements do not give effect to items (including costs of €40.4 million, directly attributable to the Acquisitions) that will be incurred in connection with the Transactions but will not have a continuing impact for us beyond the next twelve months following completion of the Transactions.

The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information is presented solely for informational purposes and is not intended to represent or be indicative of the consolidated income statements or financial position had the Transactions been completed as of the dates and for the periods presented, nor is it necessarily indicative of future results. The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information should be read in conjunction with "*Use of Proceeds*", "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*", "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*", "*The Transactions*", and the consolidated financial statements and related notes included elsewhere in the offering memorandum.

The Unaudited *Pro Forma* Condensed Combined Consolidated Financial Information does not reflect any changes in the business of Labco or Synlab or any other changes arising from the Transactions since March 31, 2015.

The Acquisition

Ephios Holdco II plc through its wholly owned subsidiaries has made offers to acquire the entire issued share capital of Synlab and Labco for cash consideration of €463.1 million and €1,266.0 million respectively as defined herein.

The acquisitions of Synlab and Labco will be accounted by Ephios Holdco II plc as acquisitions in accordance with IFRS 3 (Revised 2008) "Business Combinations." The purchase consideration will be allocated to the identifiable assets and liabilities of Synlab and Labco measured at their fair value as of the effective date of each acquisition. Any excess of purchase consideration over the fair value of the identifiable assets and liabilities of Synlab and Labco will be recognised as goodwill in the consolidated financial statements of Ephios Holdco II plc. Pending completion of the acquisitions, we have not yet commenced our assessment of the fair values of the identifiable assets and liabilities of Synlab and Labco. Accordingly, we are unable to provide a meaningful estimate of the goodwill that will be recognised by Ephios Holdco II plc in relation to the acquisitions but provide a preliminary estimate based on the carrying amounts of the assets and liabilities recognised by Synlab and Labco as of March 31, 2015.

The actual goodwill recognised by Ephios Holdco II plc in relation to the acquisitions of Synlab and Labco is likely to differ significantly from the preliminary estimate due to differences that are likely to exist between the carrying amounts of the assets and liabilities recognised by Synlab and Labco as of March 31, 2015 and the fair value of the assets and liabilities of Synlab and Labco measured at the effective date of the Acquisitions.

Management considers that significant changes in the amount of goodwill recognised in relation to the Acquisition of Synlab and Labco may arise due to:

- the recognition of intangible assets that have been internally developed by Synlab and Labco;
- the remeasurement of intangible assets previously recognised by Synlab and Labco;
- the remeasurement of property, plant and equipment; and
- the recognition of contingent liabilities.

Furthermore, the unaudited *pro forma* condensed combined consolidated income statements do not reflect the impact that such fair value adjustments would have had on the results of Synlab and Labco operations, through, for example, increased depreciation and amortisation charges.

(i) Goodwill on acquisitions made during Q1 2015, for which a purchase price allocation has not yet been completed have been represented as Goodwill from other current assets.

Note 3

The increase in the carrying amount of goodwill arising from the acquisitions of Synlab and Labco is calculated as follows:

	Labco	Synlab	Total
		(€ millions)	
Purchase consideration	463.1	1,266.0	1,729.1
Less:			
Net assets of Labco[(1)]	122.3	—	122.3
Net assets of Synlab	—	264.4	264.4
Adjusted for:			
—Historical goodwill recognised by Labco	(704.8)	—	(704.8)
—Historical goodwill recognised by Synlab	—	(403.2)	(403.2)
Adjusted net liabilities	(582.5)	(138.8)	(721.3)
Goodwill	1,045.6	1,404.8	2,450.4
Historical goodwill	(704.8)	(403.2)	(1,108.0)
Adjustment required	340.8	1,001.6	1,342.4

(1) The net assets of Labco have been adjusted to reflect the fair value adjustment of €29.8 million on redemption of the Labco debt.

Note 4

Cash outflow in relation to the acquisition

	Labco	Synlab	Total
		(€ millions)	
Purchase consideration	455.5	1,266.0	1,721.5
Repurchase of warrants	7.6	—	7.6
Estimated acquisition fees and expenses	25.7	14.7	40.4
Premium on redemption	29.8	—	29.8
Total	**518.6**	**1,280.7**	**1,799.3**

Note 5

Elimination of share capital and reserves of Synlab and Labco and recording of acquisition fees and expenses excluding financing fees

On consolidation at Ephios Holdco II plc level, the share capital and reserves of Synlab and Labco will be eliminated. The adjustment, together with the recognition of transaction costs, will be as follows:

	Labco	Synlab	Total
		(€ millions)	
Equity	152.1	264.4	416.5
Recognition of estimated acquisition fees and expenses excluding financing fees	25.7	14.7	40.4
Total	**177.8**	**279.1**	**456.9**

Note 6

The cash outflow in relation to the repayment of Synlab and Labco debt will be as follows:

	Labco	Synlab	Total
		(€ millions)	
Repurchase consideration	700.0	529.8	1,229.8
Settlement of revolving credit facility	8.0	—	8.0
Net cash outflow	**708.0**	**529.8**	**1,237.8**

Note 7

The aggregate equity contributions made by the Cinven Funds to Ephios HoldCo II plc are as follows:

	Labco	Synlab	Total
		(€ millions)	
Equity contribution	438.7	743.5	1,182.2

Note 8

Proceeds from debt issuance

The proceeds from the debt issuances to finance the Acquisitions reflect the following:

	€ millions
Existing Senior Secured Notes	
6.25% Senior Secured Notes due 2022	500.0
Senior Secured Floating Rate Notes due 2022[(1)]	300.0
Offerings	
€400,000,000 6.25% Senior Secured Fixed Rate Notes due 2022	400.0
€285,000,000 Senior Secured Notes Floating Rate Notes due 2022	285.0
€375,000,000 8.25% Senior Notes Due 2023	375.0
Less: debt issuance costs	(60.4)
Net proceeds	1,799.6

(i) The cost of sales balance has been presented in its component parts, reflecting materials and related expenses of €38.9 million and transport expenses of €2.6 million.

(ii) SBP (Warrants) of €0.9 million have been classified within Payroll related expenses, as a component of the total payroll costs.

(iii) Operating expenses have been reduced by €9.4 million relating to operating lease and rental expenses, which has been separately disclosed on the face of the income statement, while immaterial balances relating to transaction costs for usual size transactions and provisions for impairment losses and reversals on assets and liabilities have been aggregated within operating expenses.

(iv) The category of "Impairment and reversal of impairment on non-operational assets" has been renamed as "Restructuring expenses and provisions for major litigations."

(v) Net finance costs are grossed up, i.e. finance income and costs are presented separately.

(ii) Payroll expenses in relation to temporary staff and personnel related expenses have been reclassified from other operating expenses as payroll related costs.

(iii) Restructuring expenses and transaction costs have been reclassified from other operating expenses and separately presented.

(iv) The revaluation on shares in partnerships with NCI has been represented as finance income.

Note 11

The adjustment to interest expense is computed as follows:

	€ millions
Existing Senior Secured Notes	
6.25% Senior Secured Notes due 2022	500.0
Senior Secured Floating Rate Notes due 2022[(i)]	300.0
Offerings	
€400,000,000 6.25% Senior Secured Fixed Rate Notes due 2022	400.0
€285,000,000 Senior Secured Notes Floating Rate Notes due 2022[(i)]	285.0
€375,000,000 8.25% Senior Notes Due 2023	375.0
Total interest expense and amortisation of transaction costs on new borrowings	126.0
Less: interest expense and amortisation of transaction costs on borrowings repaid	(96.5)
Pro forma adjustment to interest expense	29.5

(i) The assumed rate of interest applied in calculating the interest on the senior secured floating rate notes due 2022 is 5.2%.

Note 12

An income tax benefit arises on the interest expense only to the extent that it would have reduced taxable profit in the relevant period. We have tax effected any increases in taxable profits due to the interest expense apportioned to Labco at the French statutory rate of 33.3% and to Synlab at the German statutory rate of 29.6%. We have tax effected any reduction in taxable profits due to the interest expense apportioned to Holdings at the UK statutory rate of 19%.

SELECTED HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF SYNLAB

The following tables present selected historical consolidated financial information and other data for Synlab for the periods ended and as of the dates indicated below.

The Synlab financial information marked as "audited" in tables in this offering memorandum is extracted from the Synlab Audited Financial Statements. Synlab financial information marked as "unaudited" in tables in this offering memorandum is not extracted from the Synlab Audited Financial Statements but is either extracted from the Synlab Unaudited Interim Financial Statements or Synlab's internal accounting system or is based on calculations of figures of the abovementioned sources.

You should read the information set forth below in conjunction with the sections "*Presentation of Financial and Other Information*," "*Use of Proceeds*," "*Capitalization*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Synlab*" and Synlab's Financial Statements included elsewhere in this offering memorandum.

LABCO UNAUDITED PRO FORMA FINANCIAL INFORMATION

Background to the preparation of *pro forma* financial information

Labco completed the acquisition of SDN S.p.A., an Italian laboratory testing group (the "SDN Acquisition") on July 30, 2014. See "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Principal Factors Affecting Labco's Results of Operations—Expansion of Labco's Network of Clinical Laboratories through Acquisitions and Dispositions*" and "*Business—Labco's Core Markets—Overview of Labco's Southern European Market—Italy*." Labco expects that the SDN Acquisition will have a significant impact on its financial position and results of operation. *Pro forma* financial information has been prepared to provide an overview of the theoretical impact of this acquisition on Labco's consolidated financial statements.

This *pro forma* financial information is presented on a voluntary basis and has been prepared in accordance with the provisions of Annex II of European Regulation no. 809/2004 on prospectuses and Articles 212-7 and 222-2 of the General Regulation of the French Financial Market Authority (*Authorité des Marchés Financiers*) (the "AMF") and complies with recommendation no. 2013-08 of the AMF. It has not been prepared in accordance with the requirements of Regulation S-X of the Securities Act or any generally accepted accounting standards. Neither the assumptions underlying the *pro forma* adjustments nor the resulting *pro forma* financial information have been audited or reviewed in accordance with any generally accepted auditing standards.

This *pro forma* financial information has been prepared for illustrative purposes only and does not represent what Labco's results of operation would have been had the SDN Acquisition occurred on January 1, 2014 nor is it indicative of Labco's results of operations or our future financial position.

The *pro forma* financial information has been prepared to show the theoretical impact that the SDN Acquisition would have had on Labco's consolidated financial statements without Labco's senior executives taking over management of the entities and assets acquired and without their implementing any industrial, financial or commercial policies or synergies.

This *pro forma* information includes Labco's consolidated statement of income for the year ended December 31, 2014 giving *pro forma* effect to the SDN Acquisition as if the SDN Acquisition had occurred on January 1, 2014. No *pro forma* balance sheet information is presented because the SDN Acquisition is already reflected in Labco's consolidated statement of financial position as of December 31, 2014 presented in its audited consolidated financial statements for the year ended December 31, 2014 prepared in accordance with IFRS.

Acquisitions by the Labco group during the year ended December 31, 2014, during the three months ended March 31, 2015 and during the period after March 31, 2015

Transactions not requiring pro forma financial information given their non-material impact

The impact of the acquisitions made in 2014, taken individually or together, on Labco's principal indicators was not material with regard to the 25% threshold laid down in the AMF regulations. Accordingly, no *pro forma* financial information has been prepared for these transactions, since a presentation of their impact is not relevant.

Usual small size acquisitions during the three months ended March 31, 2015:

Acquisition date	Country	Entity	% acquired	Transaction form	Business
02/17/2015	France	LB Defasque	NA	Asset deal	Routine clinical testing
02/12/2015	Belgium	CPG Laboratoire	NA	Asset deal	Routine clinical testing

The impact of the above acquisitions made during the three months ended March 31, 2015, taken individually or together, on Labco's principal indicators was not material. Accordingly, no *pro forma* financial information has been prepared for these transactions, since a presentation of their impact is not relevant.

Usual small size acquisitions for the period after March 31, 2015 up to the date of this offering memorandum:

Acquisition date	Country	Entity	% acquired	Transaction form	Business
04/03/2015 . . .	Italy	TMA & TMA Medical	100%	Share deal	Imaging & Medical services
05/22/2015 . . .	France	Unibio & Unibionor	100%	Share deal	Routine clinical testing
05/27/2015 . . .	France	LABM Patrick Benoit	NA	Asset deal	Routine clinical testing
05/29/2015 . . .	France	3 entities Technipath	100%	Share deal	Anatomopathology
07/01/2015 . . .	France	Derne-Groslambert	100%	Share deal	Routine clinical testing

The impact of those acquisitions, taken individually or together, on Labco's principal indicators was not material. Accordingly, no *pro forma* financial information has been prepared for these transactions, since a presentation of their impact is not relevant.

Transactions giving rise to pro forma financial information

Strategic acquisition of the SDN Group

Labco completed the SDN Acquisition on July 30, 2014 at a price of €115.0 million, including a deferred payment of €10.0 million. The SDN Group provides integrated diagnostic services including (routine and specialty) clinical tests and the full spectrum of medical imaging services (radiology, MRI), with considerable expertise in nuclear imaging. For a description of the SDN Acquisition, see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Principal Factors Affecting Labco's Results of Operations—Expansion of Labco's Network of Clinical Laboratories through Acquisitions and Dispositions*" and "*Business—Labco's Core Markets—Overview of Labco's Southern European Market—Italy*."

***Pro forma* financial information**

The *pro forma* consolidated statement of income for the year ended December 31, 2014 has been prepared as if the SDN Acquisition had occurred on January 1, 2014.

Notes to the *pro forma* information

Underlying financial information

The *pro forma* financial information has been prepared using the following historical financial information to which restatements and presentation adjustments have been made to produce the *pro forma* financial information:

- Labco's Audited Financial Statements for the year ended December 31, 2014, included elsewhere in this offering memorandum. Such financial statements include the SDN Group's income for the period between July 31, 2014 and December 31, 2014.

- The SDN Group's interim financial information for the pre-acquisition period from January 1 to July 30, 2014, which were prepared in accordance with Italian GAAP but classified in line with Labco's chart of accounts and did not undergo a limited review.

The *pro forma* financial information has been prepared in accordance with IFRS, as adopted by the Labco Group. See Notes 2 and 3 to Labco's Audited Financial Statements for the year ended December 31, 2014 included elsewhere in this offering memorandum. The SDN Group's interim financial information for the pre-acquisition period from January 1 to July 30, 2014 were prepared in accordance with Italian GAAP. These standards comply in a number of areas, especially those specific to clinical testing services, with IFRS, with the notable exception of goodwill amortization. Reclassifications and adjustments were also made during the preparation of the *pro forma* financial information to bring these financial statements into line with Labco's IFRS chart of accounts.

The *pro forma* financial information does not take into account:

- cost savings and other synergies that may be unlocked from the SDN Acquisition;
- special items potentially arising from restructuring or integration costs that may be incurred as a result of the acquisition;
- any tax expense or benefit that may arise from another corporate or tax reorganization of the Group.

Principal reclassifications and restatements

Following a preliminary analysis, reclassifications between aggregates were made to items in the SDN Group's statement of income to harmonize the presentation in accordance with Italian GAAP with transactions of a similar type performed by the Labco Group in accordance with IFRS.

Restatements and adjustments were made to the statement of income to (i) bring the SDN Group's financial statements in compliance with IFRS, (ii) compile the *pro forma* financial information as if the SDN Group had been acquired on January 1, 2014 with respect to the income statement adjustments.

1. The adjustments to bring the financial statements in compliance with IFRS include:
    - Cancellation of the goodwill impairment loss recognized in the SDN Group's financial statements in accordance with Italian GAAP (amounting to €3.4 million per annum).
2. The *pro forma* effects include:
    - The restatement linked to financing arrangements for the acquisition of the SDN Group. Labco adopted the actual financing arrangements and recognized their effects as if they had been put in place on January 1, 2014. An amount of €95.0 million was drawn down from Labco's revolving credit facility to finance the acquisition at an interest rate of EURIBOR + 4.5% giving rise to interest expense net of tax (estimated at a rate of 33.33%) of €1.1 million in the seven first months ended July 31, 2014, while €10.0 million came from Labco's treasury. Accordingly, the financial cost arising from non-utilization fees for the part amounting to €95.0 million (rate of 2.025%) recognized in Labco's financial statements over these periods was cancelled.

Presentation of the various pro forma adjustments made:

To Labco's statement of income for the year ended December 31, 2014

SELECTED HISTORICAL CONSOLIDATED FINANCIAL INFORMATION OF LABCO

The following tables present summary historical consolidated financial information and other data for Labco for the periods ended and as of the dates indicated below.

Labco's financial data as of and for each of the years ended December 31, 2012, 2013 and 2014 included in the summary historical consolidated financial information have been derived from the Labco Audited Financial Statements included elsewhere in this offering memorandum. The audited consolidated financial statements for the years ended December 31, 2013 and 2014 were prepared in accordance with IFRS and have been audited by Labco's statutory auditors, Deloitte & Associés and Aplitec. The audited consolidated financial statements for the year ended December 31, 2012 were prepared in accordance with IFRS and have been audited by Labco's statutory auditors at that time, Deloitte & Associés and Pierre Henri Scacchi et Associés. Free English translations of their audit reports are included elsewhere in this offering memorandum, together with the Labco Audited Financial Statements.

Labco's financial data as of and for each of the three months ended March 31, 2014 and 2015 included in the summary consolidated financial information have been derived from the Labco Unaudited Interim Financial Statements included elsewhere in this offering memorandum. The Labco Unaudited Interim Financial Statements were prepared in accordance with IAS 34 and include unaudited comparable information for the three-month period ended March 31, 2014. The Labco Unaudited Interim Financial Statements have been reviewed by Labco's statutory auditors. A free English translation of this report has been included in this offering memorandum, together with the Labco Unaudited Interim Financial Statements.

The Labco Financial Statements included in this offering memorandum have not been adjusted to reflect the impact of any changes to the income statements, balance sheet or cash flow statements that might occur as a result of purchase accounting adjustments to be applied as a result of the Acquisitions, nor have they been adjusted to reflect the impact of any changes to the balance sheet as a result of limitations on our ability to use certain net operating loss carryforwards for income tax purposes following the Acquisitions. Labco expects that part of the carrying value for deferred tax assets on its balance sheet may be reduced as a result of a potential postponement of its ability to use them. Only the loss carryforwards of Labco's subsidiary in Germany will be definitively lost as a result of the Acquisitions, although these were not booked as deferred tax assets in the Labco Financial Statements. In addition, the application of purchase accounting could result in different carrying values for existing assets and assets Labco may add to its balance sheet, which may include intangible assets such as goodwill, and different amortization and depreciation expenses. Labco's financial statements could be materially different from the Labco Financial Statements included in this offering memorandum once the adjustments are made.

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from September 30, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated financial statements as of and for the year ended December 31, 2013, the contribution of its German operations appears separately under the line item "net profit of the period from discontinued operations" rather than under each line item where such contribution was previously recorded, and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated financial statements was restated. Labco has not restated its consolidated financial statements as of and for the year ended December 31, 2012, and such financial statements are therefore not directly comparable with its financial statements as of and for the year ended December 31, 2013.

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco's results as of and for the years ended December 31, 2013 and 2014 are not directly comparable. In addition, Labco's results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group's results are fully consolidated in Labco's results of operations for the three months ended March 31, 2015. Labco's results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

Since January 1, 2015 Labco has applied IFRIC 21 (*Levies*) with impacts to its results of operations recognized retrospectively in accordance with IAS 8 (*Accounting Policies, Changes in Accounting Estimates* *and Errors*). IFRIC 21 provides guidance on recognition of a liability to pay taxes (except for income taxes). IFRIC 21 modifies existing practices for the payment of annual taxes, which, for an entity, is triggered by being in operation on a certain date or by achieving a certain level of activity. The impact of IFRIC 21 on the Labco Group is limited to the time at which it recognized a French levy known as "C3S" (*contribution sociale de solidarité des sociétés*). To improve the comparability of Labco's results of operations for the three months ended March 31, 2015, Labco's consolidated statement of income for the comparative period of March 31, 2014 has been restated in order to reflect the impact of IFRIC 21 on the gross amount (excluding deferred tax effect of €0.1 million), which amounts to €0.4 million in other operating expenses. The application of IFRIC 21 has no impact on cash flow from operating activities as the corresponding reduction in EBITDA is offset by an increase in other current liabilities.

The following tables should be read in conjunction with "*Use of Proceeds*," "*Capitalization*," "*Selected Historical Consolidated Financial Information of Labco*," "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco*," "*Description of the Senior Secured Notes*," "*Description of the Senior Notes*" and the Labco Financial Statements and the notes related thereto included elsewhere in this offering memorandum. Historical results are not necessarily indicative of future expected results. In addition, Labco's results for the three months ended March 31, 2015 should not be regarded as indicative of our expected results for the year ended December 31, 2015.

Cash and cash equivalent at the end of the period	56.1	167.4	74.0	125.1	83.8
Net increase (decrease) in cash and cash equivalents	**(11.6)**	**111.4**	**(93.5)**	**(42.3)**	**9.5**

(1) EBITDA represents net profit before (i) income tax expenses, net, (ii) finance costs, (iii) depreciation, impairment losses and amortization, provisions and reversals, (iv) share profit of associates non-recurring and (v) income and expenses. EBITDA as presented here differs from the definition of "Consolidated EBITDA" contained in the Indenture.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF SYNLAB

The following should be read in conjunction with the information set forth under "Selected Historical Consolidated Financial Information of Synlab," "Presentation of Financial and Other Information," and Synlab's Financial Statement's included elsewhere in this offering memorandum.

The following discussion includes forward-looking statements based on assumptions about Synlab's future performance. Synlab's actual results could differ materially from those contained in these forward-looking statements as a result of many factors, including but not limited to those described under "Forward-Looking Statements," "Risk Factors" and elsewhere in this offering memorandum.

Overview

Synlab is the market leader in the Czech Republic, Italy and Hungary and believes it is one of the top two providers of medical diagnostic services in Germany, Estonia and Finland, and one of the top three players in Switzerland, based on 2014 revenue. Synlab's strong market positions are attributable to the superior scale of its laboratory network, the high quality and reliability of its services and the broad spectrum of tests it offers across its laboratory network. The growing market for clinical laboratory and medical diagnostic services in Europe is driven by positive secular trends, including an aging population, increasing prevalence of chronic diseases, a growing focus on disease prevention and increased outsourcing of clinical laboratory testing by hospitals. Significant portions of the European market remain highly fragmented, and Synlab has established itself as one of the foremost consolidators of clinical laboratories in Europe. Since Synlab was founded in 1998, it has expanded through numerous acquisitions to build a network of over 300 laboratories across Europe, including entering at least one new market per year since 2011. Synlab believes that due to its leading market positions and its strong consolidation platform, it is well-positioned to benefit from the attractive long-term growth and consolidation trends in the clinical laboratory and medical diagnostic services market in Europe.

Synlab's business operations are characterized by a high degree of diversification across customers and payers, geographies, testing services and test parameters. Synlab's broad and diverse customer and payer base includes more than 30,000 medical practices, 700 hospitals and thousands of individuals, in addition to medical insurance companies, pharmaceutical companies and other corporate employers. Synlab's largest customer, a hospital chain operator, accounted for approximately 1% of its revenue in 2014. As of December 31, 2014, Synlab operated a network of over 300 laboratories and 285 blood collection points serving customers in 22 countries. Synlab's efficient hub-and-spoke network comprised 83 base laboratories and 208 hospital/satellite laboratories as well as 16 central hub laboratories, which perform specialty tests on samples provided from other network laboratories. Through its laboratory network, Synlab is able to offer a full spectrum of approximately 5,000 clinical laboratory tests used by the medical profession in patient diagnosis and in the monitoring and treatment of disease. In 2014, Synlab performed approximately 240 million tests, with its top test accounting for less than 1% of its revenue.

Synlab conducts clinical and medical diagnostic tests, including many specialty and routine tests using automated testing equipment, delivers results to prescribing doctors and patients and offers assistance with the interpretation of such results through its laboratory doctors. In addition to its focus in human medicine, Synlab is also active in adjacent markets in environmental and veterinary testing. Synlab is a trusted partner to leading healthcare, pharmaceutical and consumer goods companies, who also benefit from its introduction of approximately 50 new test parameters per year and provide it with further growth and diversification potential.

For the year ended December 31, 2014, Synlab generated revenue of €729.4 million and Adjusted EBITDA of €124.5 million. For the twelve months ended March 31, 2015, Synlab generated revenue of €736.6 million, Adjusted EBITDA of €125.2 million, Estimated Total Revenue of €744.1 million and Estimated Adjusted EBITDA of €139.1 million. As of March 31, 2015, Synlab had 8,006 full-time employees, including 654 laboratory doctors and 3,699 medical technical assistants.

Principal Factors Affecting Synlab's Results of Operations

You should consider the following factors when analyzing Synlab's financial condition and results of operations.

Demand for Laboratory Tests

Synlab's revenue is directly linked to the volume of tests it performs, which is dependent on a number of factors, over many of which, including general economic conditions, Synlab has little or no control. Demographic trends, including the aging of the population and the increasing prevalence of chronic diseases, such as cancer and diabetes, which require recurrent tests, are contributing to increased demand for its services. Testing volumes have also increased as the medical profession has, over time, shifted its focus from the treatment of chronic and severe illnesses to the prevention and early detection and diagnosis of such illnesses. This shift has been supported by growing demand for customized healthcare solutions and the potential for preventive medicine to reduce medication and hospitalization costs. In doing so, physicians are also increasingly relying on clinical testing for more accurate diagnoses. Furthermore, the development of new technologies and tests, combined with the reduction in costs from increased automation of testing, has increased the role of clinical testing. In addition, outsourcing of tests, in particular specialty tests, from hospital laboratories has also increased in many countries where Synlab operates, due mainly to budgetary pressures and public spending cuts. Finally, the overall greater health consciousness of the general public along with increased disposable income contribute to both volume growth and a willingness of certain patients to absorb out-of-pocket costs. Synlab is also developing new revenue streams in response to growing demand for environmental and veterinary medicine clinical testing, which are attractive growth opportunities not subject to regulated tariffs for laboratory testing.

Regulated Tariffs for Laboratory Testing

In a number of the markets in which Synlab operates, its services are provided through healthcare programs funded, at least in part, by public authorities which establish tariffs and reimbursement levels for some or all the clinical laboratory testing services it provides. Tariffs and reimbursement levels vary significantly by country, with average reimbursement levels for laboratory tests generally lower in Germany than in other European countries in which Synlab operates. In other markets, such as Switzerland, healthcare patients rely on private insurance to pay medical bills, but the pricing of medical services is regulated by the state. In such markets, tariffs are set by governments and healthcare authorities and are the basis of the prices Synlab charges to its clients. Governments also can control healthcare expenditure by cutting tariffs or reimbursement levels, and by limiting the services covered by government health programs. The timing of tariff cuts and other measures related to the reduction of healthcare expenditure may also affect the comparability of Synlab's financial results and the scope of the impact on a particular period or in a particular country. In the year ended December 31, 2014, Synlab estimates that approximately 29% of its revenue from human medicine in Germany, Switzerland, Italy, the Czech Republic and Belgium (the revenue from human medicine in those countries together accounted for 76.2% of Synlab's revenue in the year ended December 31, 2014) was generated from health insurance providers subject to regulated tariffs and approximately 26% and 31% of its revenue from human medicine in such countries was generated from private payers or other payers, respectively, with which prices for its laboratory testing services are freely negotiated.

To limit the scope of reimbursement, governments often do not extend coverage to certain specialty or innovative tests that may provide higher margins for Synlab's business. Moreover, during the periods under review, authorities in various European markets, including Germany, the Czech Republic and Italy implemented or announced their intention to implement measures aimed at curbing government expenditure, including on healthcare, and this has had and may have in the future a negative impact on tariffs and reimbursement levels and, in turn, prices Synlab charges for its tests. For example, in 2012, authorities in Germany introduced quotations for laboratory services in an effort to discourage "excessive" testing by restricting the number of clinical laboratory tests for which a patient may be fully reimbursed. Specifically, once a patient exceeds the specified limit, any additional tests are reimbursed at a discount. In addition, in the second half of 2012, the German Federal Association of Statutory Health Insurance Physicians (*Kassenärztliche Bundesvereinigung*, or national "KV") implemented a central federal quota (i.e., a capped percentage of the scheduled uniform standard fees (*Einheitlicher Bewertungsmaßstab*, "EBM")) for laboratory tests. Contrary to the former system, whereby quotas on scheduled compensations were managed at the regional level, under the new national EBM funding structure quotas are calculated nationwide and in advance for each quarter with the general objective of limiting the recent significant increase in laboratory testing expenses in Germany. The quota for the fourth quarter of 2012 was 95.4%. It decreased for the first quarter of 2013 to 89.2%. The quota for the first quarter of 2015 is 91.6%. Future quotas are not yet known.

Although the clinical laboratory services market is generally considered to be less sensitive to economic cycles and short-term fluctuations than certain other markets, a prolonged weakening of overall economic conditions may have a negative impact on Synlab's results of operations as governments and third-party payers seek to reduce healthcare expenditure. Deteriorating economic conditions have in the past led, and may in the future lead, governments and insurance providers to seek to reduce healthcare expenditure growth, which increases pressure on volumes and prices for Synlab's services. However, Synlab benefits from a broad customer base and a diversity of payers for its testing services. In addition, Synlab's increasing volumes of revenue generated from its environmental laboratory and veterinary diagnostics services, which are not subject to regulated tariffs like in human diagnostics clinical testing, will help to offset the impact of future reductions in healthcare expenditure. Nevertheless, individual decisions to reduce out-of-pocket healthcare, environmental or veterinary expenditures may result in reduced demand for Synlab's services. More broadly, a general diminution of disposable income, or the perception thereof in times of economic downturn, can lead to a reduction in individuals' health expenditures, regardless of the level of reimbursements by public social security systems or private insurance.

Expansion of Synlab's Laboratory Network through Acquisitions

The European clinical laboratory testing market is highly fragmented. For example, Synlab estimates that the accessible market in Italy has more than 5,000 laboratories and the remaining share of the accessible market in Germany includes more than 300 laboratories with a regional focus. Synlab believes that consolidation of the European clinical laboratory testing market will allow large international laboratory consolidators, like Synlab, who benefit from high testing volumes across geographic markets, to further expand regional laboratory clusters, improve efficiency and lower overall cost, and thus mitigate the effect of future price declines.

Synlab has a proven track record as an effective consolidator of small, locally-owned private laboratories and intend to continue to acquire laboratories to expand its footprint in existing markets, reinforce its scientific expertise and expand into new markets. Synlab applies rigorous investment criteria when evaluating and executing acquisition opportunities, including the geographic compatibility and operational capability of the potential target with its business, valuation multiples, synergy potential and the expected ease with which Synlab can integrate the potential target. During the periods under review, Synlab has focused on acquisitions of small- and medium-sized regional laboratories in Germany, Switzerland, Italy, Belgium and North Europe to strengthen its network in these countries and enter into new markets which present attractive growth opportunities. In the years ended December 31, 2012, 2013 and 2014, Synlab completed 14, 18 and 13 acquisitions, respectively. Cash outflows for the acquisition of subsidiaries net of cash acquired for the years ended December 31, 2012, 2013 and 2014 amounted to €63.3 million, €91.5 million and €23.2 million, respectively. In the three months ended March 31, 2015, Synlab completed eight acquisitions, with cash outflows for the acquisition of subsidiaries net of cash acquired for the same period amounting to €22.8 million. Synlab believes that these acquisitions have enhanced its competitive position considerably.

Acquisitions affect Synlab's results of operations in several tangible ways. First, Synlab's results for the period during which an acquisition takes place are affected by the inclusion of the results of the acquired business in its consolidated results. As acquired businesses are consolidated from the date of their acquisition, the full impact of an acquisition is only reflected in Synlab's financial statements in the subsequent period. In addition to the accretive revenue and cost impact of acquisitions, Synlab has historically been able to extract synergies and generate cost savings as a result of acquisitions. Consistent with its investment criteria, Synlab focuses on acquiring laboratories to increase regional market share and scale, which allows Synlab to further improve the efficiency of its organization. In addition, Synlab has historically been successful in generating synergies when it integrates acquired laboratories, including improved scale benefits through volume consolidation and procurement.

Changes in regulation can affect Synlab's ability to expand its laboratory network. For example, as result of changes in the requirements for opening and licensing additional medical care centers (*Medizinische Versorgungszentren*) ("MVZ") in Germany in 2012, no new acquisitions in Germany which would have necessitated the establishment of a new MVZ could be made in the first half of 2013. Accordingly, Synlab's acquisition activity in that period was concentrated on the expansion of existing MVZs in Germany and acquisitions in other markets. In the past, such regulatory changes have only temporarily affected Synlab's acquisition strategy in the applicable country without having a significant impact on its ability to make acquisitions in other markets.

Because of the nature of the businesses Synlab acquires, it carries a significant amount of goodwill and intangible assets from purchase price allocations on its consolidated statement of financial position. As of December 31, 2013 and 2014 and March 31, 2015, Synlab recorded goodwill of €350.9 million, €373.3 million and €396.6 million, respectively. Under IFRS, goodwill is recorded as an intangible asset and measured at cost less any accumulated impairment losses. Goodwill is subject to an impairment test annually and whenever there are indications of impairment. Synlab may record significant charges in its consolidated statement of comprehensive income in case of impairment under IFRS.

Synlab intends to further expand its network by continuing to acquire laboratories in each of the markets where it currently operates, and Synlab will continue to be selective in exploring opportunities in other countries.

Organic Growth

Synlab's results of operations are also affected by organic growth in its various businesses, varying from one type of business and one geographical market to another. Synlab determines organic growth between one given financial period and an earlier comparative financial period by calculating the growth in revenue excluding the consolidation perimeter effects arising from acquisitions and disposals completed in either of the financial periods under comparison. In particular, when Synlab analyzes organic growth in revenue between one accounting period ("period n") and the prior comparative accounting period ("period n-1"), the impact of consolidation perimeter effects are determined as follows:

- organic growth for acquisitions that took place during financial period n-1 is calculated by comparing revenue in period n with *pro forma* revenue in period n-1 adjusted for the effects of acquisitions (i.e., by adding back revenue from the acquisitions made during the period prior to the date on which the relevant operations were added to the scope of consolidation). The full-year contribution from the acquisitions made during financial period n-1 consists of the estimate of revenue recognized by the newly acquired companies prior to the date on which they were added to the perimeter of consolidation;
- organic growth for acquisitions that took place during period n is calculated by subtracting revenue generated by the businesses acquired between the date on which they joined the perimeter of consolidation and the end of period n; and
- the percentage of organic growth is then calculated as the ratio of revenue in period n restated for the acquisitions completed during period n/*pro forma* revenue in period n-1 adjusted for the impact of the acquisitions.

In addition to organic growth, Synlab analyzes its results by considering the estimated consequences for revenue of differences in the number of working days between two periods.

Synlab's organic growth between 2012 and 2013 was 1.7% and between 2013 and 2014 was 3.8%.

Synergies and Cost Savings Initiatives

Synergies and cost savings are key components of Synlab's profitability, because they allow Synlab to compensate, in part, for the price pressure from government and third-party payers while continuing to grow its business.

Synlab has been and continues to be focused on achieving operational efficiencies and synergies across its network by optimizing its laboratory networks, particularly in its primary markets, to improve the efficiency of its operations and the effectiveness of its customer service, while reducing cost. In Germany, following a phase of significant growth since 2009, Synlab implemented a number of operational changes to adapt the structure of its operations and management to the increasing size of its laboratory network, including hiring of a new chief executive officer for Germany in 2013 and the establishment of a country management team with regional business unit heads. Additional projects launched in Germany in 2013, which Synlab expects to be largely implemented by the end of 2015, are focused on the reorganization of certain business units, including Synlab's hospital business, increased laboratory and process standardization, purchasing optimization and sales force effectiveness. These have been complemented by enhanced internal reporting quality and transparency to permit benchmarking of certain performance indicators by region, laboratory or location and cost center.

Synlab is also implementing additional operational improvement initiatives in other core markets to drive profitability. In Switzerland, Synlab is focused on further centralizing specialty testing, introducing electronic order capabilities and unifying its laboratory IT system structure to one system for each language. In the Czech Republic, Synlab is continuing to roll out its business-to-customer business with a standardized offering, new blood collection points for full market coverage and increase sharing of knowhow with its Swiss and German genetics specialty laboratories to broaden the spectrum of tests in the Czech Republic. In addition, in Italy, Synlab is standardizing its blood collection points, improving the sharing of best practices to expand into the hospital outsourcing market and reinforcing its sales force with a specialized team focused on hospitals.

Seasonality

Synlab experiences some seasonality in the volumes of tests it performs and, consequently, in its revenue. Synlab has historically performed fewer tests during holiday and vacation periods, notably in the summer months and around the winter holidays, and also during the winter and other periods of adverse weather conditions. The extent of the impact of the seasonality varies among the countries in which Synlab operates and is also affected by the number of working days in a period. Synlab's net working capital requirements generally follow the seasonality of the business and are typically higher in January, with fluctuations also occurring due to the timing of collections and the timing of payments.

Foreign Currency Effects

As of December 31, 2014, Synlab operated in 22 countries throughout Europe and the Middle East. Consequently, a number of Synlab's subsidiaries transact business and report their financial results in currencies other than the euro, Synlab's consolidated reporting currency. Accordingly, Synlab's results of operations are subject to currency effects, primarily currency translation exposure as transaction-related exposure at its subsidiaries is limited because revenue and costs are largely incurred in their respective operating currencies. For those countries with a reporting currency other than euro, income and expense amounts are translated into euro at annual average exchange rates, and assets and liabilities are translated into euro at the reporting date rates. Fluctuations in exchange rates against the euro will give rise to period-on-period differences in Synlab's results of operations. For example, Synlab expects its business operations in Switzerland to contribute more to its consolidated revenue and earnings in 2015 than it has in the past due to the January 2015 abolishment of the peg to the euro that had been in place for the Swiss franc since September 2011. Synlab's primary foreign currency risk relates to fluctuations in the Swiss franc, the Czech crown and the Hungarian forint. See "*—Qualitative and Quantitative Disclosures on Financial Risk—Foreign Currency Risk*."

Description of Key Income Statement Items

Set forth below is a summary description of the key elements of the line items of Synlab's consolidated income statement.

Revenue

Revenue consists of Synlab's sales for its testing services to third parties, including health insurance companies, privately insured patients, hospitals and clinics, physicians and laboratories as well as revenue from environmental analyses, veterinary medicine, other examinations, studies and expert opinions and from trading goods (such as sales of laboratory equipment).

Material Expenses

Material expenses primarily include the costs of reagents and expenses "per reported result," other consumables Synlab purchases from suppliers and which are used for providing its testing services, costs of other purchased or external analysis services and merchandise. Framework agreements with laboratory equipment manufacturers provide for payments to suppliers based on the analyses performed on a per reported result billing basis. Costs per reported result comprise material inputs such as reagents, consumables and calibrators as well as, in some cases, allocated service charges for maintenance and leasing.

Personnel Expenses

Personnel expenses include salaries and wages, overtime pay, bonuses and other variable compensation, expenses resulting from share-based remuneration, pension expenses and social security contributions and other expenses directly related to Synlab's personnel, including termination benefits.

Expenses on Rental and Lease Agreements

Expenses on rental and lease agreements comprise expenses related to Synlab's laboratories and offices, other fixtures and fittings, office equipment and lease payments for analysis equipment and the automobiles comprising Synlab's logistics fleet.

Transport Expenses

Transport expenses comprise operating costs related to Synlab's vehicle fleet and expenses for external logistics providers.

Other Operating Income

Other operating income include income from reversals of valuation allowances, other income unrelated to the reporting period (such as receivables due from health insurance companies), overdue charges (dunning fees), income from disposals of non-current assets and foreign currency translation, rental income, reimbursements of travel expenses, income from recoveries on derecognized receivables and other income. In 2014, other operating income also included changes in the value of contingent consideration, revenue from reversals of provisions and liabilities and passed-on consultancy expenses.

Income from changes in value of contingent consideration primarily relates to the reversal of earn outs in the acquisition of Synlab Finland OY. Income from reversal of provisions and liabilities primarily relates to provisions in connection with legal disputes.

Other Operating Expenses

Other operating expenses principally consist of expenses for temporary employees, IT and communications expenses, administrative costs, legal and consulting fees, advertising and marketing expenses, additions to allowances for doubtful accounts, cost of premises, repair and maintenance expenses, personnel-related expenses (such as training and recruiting), energy expenses and miscellaneous other operating expenses.

Depreciation, Amortization and Impairment and Reversals of Impairments

Depreciation, amortization and impairment mainly comprise amortization of intangible assets, in particular customer lists from acquisitions of companies, and regular depreciation on property, plant and equipment. In 2014, impairment reversals were also recorded in connection with impairment testing on the cash generating unit Germany as of December 31, 2014 due to the improved earnings situation of the cash generating unit Germany. For additional information, see note 2.4(b) of the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum.

Financial Income

Financial income represents income from derivative financial instruments measured at fair value, exchange gains, income from other securities and borrowings and other finance income.

Financial Expenses

Financial expenses primarily include interest expense on interest-bearing loans and borrowings, exchange losses, the interest portion of pension and similar obligations, the unwinding of discounts on other non-current provisions and other finance costs.

Income Tax Expense

Income tax expense includes current and deferred income tax expense. The tax rates and tax laws used to compute current income taxes are those that are enacted in the countries where the respective Group companies operate and generate taxable income.

Results of Operations

Comparison of the Three Months Ended March 31, 2015 and 2014

The following table shows Synlab's results of operations for the periods indicated.

	Three months ended March 31,	
	2014	2015
	(€ millions) (unaudited)	
Revenue	**185.1**	**192.3**
Material expenses	(47.5)	(47.4)
Personnel expenses	(64.8)	(68.6)
Expenses on rental and lease agreements	(7.4)	(8.1)
Transport expenses	(6.9)	(6.4)
Other operating income	2.9	3.5
Other operating expenses	(29.3)	(32.1)
Depreciation, amortization and impairment	(16.0)	(17.1)
Income from reversal of impairments of customer lists	—	—
Operating profit/loss	**16.1**	**16.1**
Share of profit of associates	0.0	(0.2)
Financial income	0.2	4.0
Financial expenses	(7.7)	(13.4)
Revaluation on shares in partnerships with a non-controlling interest	0.0	(0.2)
Income before tax	**8.6**	**6.2**
Income tax expense	(3.2)	(2.9)
Consolidated profit/loss for the period	**5.4**	**3.3**

Revenue

Synlab's revenue increased by €7.2 million, or 3.9%, from €185.1 million in the three months ended March 31, 2014 to €192.3 million in the three months ended March 31, 2015.

The table below sets forth, for each of the periods indicated, Synlab's revenue from external customers by geography.

	Three months ended March 31,	
	2014	2015
	(€ millions) (unaudited)	
Germany	104.6	100.4
Switzerland	20.8	26.0
Italy	17.4	20.0
Czech Republic	11.6	12.3
Belgium	6.2	6.8
Hungary	6.3	6.1
Austria	5.0	5.2
North Europe	4.5	5.4
Slovakia	3.1	2.8
Other (Rest of World)	5.5	7.3
Total	**185.1**	**192.3**

Revenue in Germany decreased by €4.2 million, or 4.0%, from €104.6 million in the three months ended March 31, 2014 to €100.4 million in the three months ended March 31, 2015. The decrease was mainly driven by a decrease in human medicine revenues by €3.2 million and a decrease in environmental revenues by €0.9 million and was partly offset by the revenue contribution of acquisitions in April and May 2014.

Revenue in Switzerland increased by €5.2 million, or 25.0%, from €20.8 million in the three months ended March 31, 2014 to €26.0 million in the three months ended March 31, 2015. The increase in revenue in Switzerland was driven to a significant extent by the positive impact of the favorable exchange rate movement in the three months ended March 31, 2015 compared to the same period in the prior year.

Revenue in Italy increased by €2.6 million, or 14.9%, from €17.4 million in the three months ended March 31, 2014 to €20.0 million in the three months ended March 31, 2015. The increase was primarily driven by the contributions of acquisitions in 2014 to increase coverage in certain regions, all of which occurred after March 31, 2014 and therefore did not contribute to Synlab's revenue in the three months ended March 31, 2014.

Revenue in the Czech Republic increased by €0.7 million, or 6.0%, from €11.6 million in the three months ended March 31, 2014 to €12.3 million in the three months ended March 31, 2015. The increase was primarily driven by continued growth in the core business in human medicine and genetic testing services. The increase was partly offset by continuing weakness in the Czech crown.

Revenue in Belgium increased by €0.6 million, or 9.7%, from €6.2 million in the three months ended March 31, 2014 to €6.8 million in the three months ended March 31, 2015. The increase was supported by the revenue contribution of an additional laboratory in April 2014, which, consequently, did not contribute to Synlab's revenue for the three months ended March 31, 2014.

Revenue in Hungary decreased by €0.2 million, or 3.2%, from €6.3 million in the three months ended March 31, 2014 to €6.1 million in the three months ended March 31, 2015. The decrease was primarily driven by currency translation effects as a result of the continuing weakness of the Hungarian forint.

Revenue in Austria increased by €0.2 million, or 4.0%, from €5.0 million in the three months ended March 31, 2014 to €5.2 million in the three months ended March 31, 2015. The increase was primarily due to positive organic growth in the market.

Revenue in North Europe increased by €0.9 million, or 20.0%, from €4.5 million in the three months ended March 31, 2014 to €5.4 million in the three months ended March 31, 2015. The increase was supported by the revenue contribution of Lab1 AS, through the acquisition of which on December 31, 2014 Synlab entered the market in Norway and which, consequently, did not contribute to its revenue for the three months ended March 31, 2014.

Revenue in Slovakia decreased by €0.3 million, or 9.7%, from €3.1 million in the three months ended March 31, 2014 to €2.8 million in the three months ended March 31, 2015. The decrease was primarily driven by the loss of an outsourcing contract in 2014 after March 31, 2014, thereby negatively affecting the revenue generated in the three months ended March 31, 2015 relative to the same period in the prior year.

Revenue in other countries (Rest of World) increased by €1.8 million, or 32.7%, from €5.5 million in the three months ended March 31, 2014 to €7.3 million in the three months ended March 31, 2015. The increase was primarily attributable to generally positive in various countries comprising this segment.

Material Expenses

Synlab's material expenses decreased slightly by €0.1 million, or 0.2%, from €47.5 million in the three months ended March 31, 2014 to €47.4 million in the three months ended March 31, 2015. The decrease was primarily due to a decline in material expenses in Germany and Northern Europe, due to, respectively, a favorable renegotiations of several hospital contracts and improved production efficiency and was offset, in part, by an increase in material expenses in Italy and Switzerland due to, respectively, lower reimbursement rates and higher percentage of sales to hospitals, which have lower margins.

Personnel Expenses

Synlab's personnel expenses increased by €3.8 million, or 5.9%, from €64.8 million in the three months ended March 31, 2014 to €68.6 million in the three months ended March 31, 2015. The increase was primarily due to an increase in personnel expenses in Switzerland, which increased from €7.8 million in the three months ended March 31, 2014 to €10.1 million in the three months ended March 31, 2015 and related to the significant exchange rate movement in the Swiss franc compared to the euro in January 2015. The increase was partly offset by smaller declines in personnel expenses in other countries, such as Italy, the Czech Republic and Belgium, among others.

Expenses on Rental and Lease Agreements

Synlab's expenses on rental and lease agreements increased by €0.7 million, or 9.5%, from €7.4 million in the three months ended March 31, 2014 to €8.1 million in the three months ended March 31, 2015. The increase was primarily due to an increase in expenses on rental and lease agreements in Italy, related to new acquisitions and the opening of new blood collection points, and to a lesser extent in Switzerland.

Transport Expenses

Synlab's transport expenses decreased by €0.5 million, or 9.5%, from €6.9 million in the three months ended March 31, 2014 to €6.4 million in the three months ended March 31, 2015. The decrease was primarily due to generally lower transport expenses across most of Synlab's markets and was partly offset by an increase in Switzerland due to the significant exchange rate movement in the Swiss franc compared to the euro in January 2015.

Other Operating Income

Other operating income increased by €0.6 million, or 20.7%, from €2.9 million in the three months ended March 31, 2014 to €3.5 million in the three months ended March 31, 2015. The increase was primarily due to an increase in operating income in Belgium, the Czech Republic and Switzerland and was partly offset by a decrease in Germany.

Other Operating Expenses

Other operating expenses increased by €2.8 million, or 9.6%, from €29.3 million in the three months ended March 31, 2014 to €32.1 million in the three months ended March 31, 2015. The increase was primarily due to legal and consultancy expenses for acquisitions increasing by €0.8 million, auditing expenses increasing by €0.4 million and increased operating expenses in Switzerland, including customer loyalty costs increasing by €0.5 million and IT expenses increasing by €0.2 million.

Depreciation, Amortization and Impairment

Depreciation, amortization and impairment increased by €1.1 million, or 6.9%, from €16.0 million in the three months ended March 31, 2014 to €17.1 million in the three months ended March 31, 2015. The increase was primarily due to amortization of intangible assets in the Czech Republic in the amount of €0.6 million and depreciation on customer lists in Italy in an amount of €0.5 million.

Financial Income

Synlab's financial income increased by €3.8 million from €0.2 million in the three months ended March 31, 2014 to €4.0 million in the three months ended March 31, 2015. The increase was primarily due to non-realized exchange rate gains from long-term financings in various countries, including, in particular, Austria and Germany.

Financial Expenses

Synlab's financial expenses increased by €5.7 million, or 74.0%, from €7.7 million in the three months ended March 31, 2014 to €13.4 million in the three months ended March 31, 2015. The increase was primarily due to non-realized exchange rate gains from long-term financings in various countries, including, in particular, Germany and Switzerland.

Income Tax Expense

Income tax expense decreased by €0.3 million, or 9.4%, from €3.2 million in the three months ended March 31, 2014 to €2.9 million in the three months ended March 31, 2015.

Comparison of the Years ended December 31, 2014 and 2013

The following table shows Synlab's results of operations for the periods indicated.

	Year ended December 31,	
	2013	2014
	(€ millions)	
Revenue	**671.2**	**729.4**
Material expenses	(177.4)	(181.1)
Personnel expenses	(240.7)	(257.1)
Expenses on rental and lease agreements	(28.3)	(31.5)
Transport expenses	(26.8)	(27.7)
Other operating income	12.6	27.4
Other operating expenses	(125.5)	(138.0)
Depreciation, amortization and impairment	(62.5)	(65.8)
Income from reversal of impairments of customer lists	0	21.0
Operating profit/loss	**22.6**	**76.5**
Share of profit of associates	0.6	(0.7)
Financial income	4.0	3.2
Financial expenses	(33.8)	(33.8)
Revaluation on shares in partnerships with a non-controlling interest	(1.0)	(0.8)
Income before tax	**(7.7)**	**44.3**
Income tax expense	(7.5)	(12.1)
Consolidated profit/loss for the year	**(15.2)**	**32.2**

Revenue

Synlab's revenue increased by €58.2 million, or 8.7%, from €671.2 million in the year ended December 31, 2013 to €729.4 million in the year ended December 31, 2014.

The table below sets forth, for each of the periods indicated, Synlab's revenue from external customers by geography.

	Year ended December 31,	
	2013	2014
	(€ millions)	
Germany	381.6	406.1
Switzerland	77.5	88.1
Italy	62.1	67.1
Czech Republic	45.2	46.1
Belgium	23.5	24.8
Hungary	25.2	24.7
Austria	20.2	20.3
North Europe	6.9	18.2
Slovakia	12.3	11.4
Other (Rest of World)	16.7	22.3
Total	**671.2**	**729.4**

Revenue in Germany increased by €24.5 million, or 6.4%, from €381.6 million in the year ended December 31, 2013 to €406.1 million in the year ended December 31, 2014. The increase was driven by the revenue contribution of acquisitions in the last two years as well as strong organic growth in southern Germany and increasing demand for environmental analyses, particularly legionella testing. Acquisition activity in Germany in 2014 was primarily focused in the areas of environmental and pharmaceutical testing. The increase was partly offset by Synlab's continuous active hospital contract management and the termination of certain loss-making contracts as well as the loss of certain GPs.

Revenue in Switzerland increased by €10.6 million, or 13.7%, from €77.5 million in the year ended December 31, 2013 to €88.1 million in the year ended December 31, 2014. The increase in revenue in

Switzerland was primarily supported by organic growth across the Swiss laboratory network as well as, to a lesser extent, revenue contributions from newly acquired companies. Further revenue growth was achieved as a result of several new hospital contracts, a reduction in hospital rebates agreed with one of Synlab's primary customers and the acquisition of an environmental laboratory, which allowed Synlab to enter the pharmaceutical analysis segment of the market. Revenue from environmental analysis in Switzerland increased from €1.6 million in the year ended December 31, 2013 to €3.4 million in the year ended December 31, 2014.

Revenue in Italy increased by €5.0 million, or 8.1%, from €62.1 million in the year ended December 31, 2013 to €67.1 million in the year ended December 31, 2014. The increase was primarily driven by the contributions of acquisitions in the previous two years as well as, to a lesser extent, further acquisitions in 2014 to increase coverage in certain regions.

Revenue in the Czech Republic increased by €0.9 million, or 2.0%, from €45.2 million in the year ended December 31, 2013 to €46.1 million in the year ended December 31, 2014. The increase was primarily driven by growth in the core business in human medicine and increasing order flow toward the end of the year in higher-margin genetic testing services. The increase was considerably higher in the local currency but was negatively affected by unfavorable exchange rate movements upon translation into Synlab's consolidated financial statements.

Revenue in Belgium increased by €1.3 million, or 5.5%, from €23.5 million in the year ended December 31, 2013 to €24.8 million in the year ended December 31, 2014. The increase was primarily driven by intensified sales activity and an inflation adjustment and was partly offset by the tariff reform (a reduction in reimbursement) which went into effect in November 2013 and affected revenue and earnings in Belgium in 2014. Revenue from veterinary analysis testing increase from €1.4 million in the year ended December 31, 2013 to €1.6 million in the year ended December 31, 2014.

Revenue in Hungary decreased by €0.5 million, or 2.0%, from €25.2 million in the year ended December 31, 2013 to €24.7 million in the year ended December 31, 2014. The decrease was primarily driven by currency translation effects as a result of the continuing weakness of the forint.

Revenue in Austria increased by €0.1 million, or 0.5%, from €20.2 million in the year ended December 31, 2013 to €20.3 million in the year ended December 31, 2014. The slight increase in revenue was primarily due to higher revenue from human medicine, which increased from €16.3 million to €16.8 million, and was partly offset by a decline in revenue from environmental analysis, which decreased from €2.5 million to €2.0 million over the same period.

Revenue in North Europe increased by €11.3 million from €6.9 million in the year ended December 31, 2013 to €18.2 million in the year ended December 31, 2014. The increase was primarily the result of the first full year revenue contribution of the Quattromed Group, which Synlab acquired in July 2013.

Revenue in Slovakia decreased by €0.9 million, or 7.3%, from €12.3 million in the year ended December 31, 2013 to €11.4 million in the year ended December 31, 2014. The decrease was primarily driven by the loss of an outsourcing contract, which reduced the available budget for billing.

Revenue in other countries (Rest of World) increased by €5.6 million, or 33.5%, from €16.7 million in the year ended December 31, 2013 to €22.3 million in the year ended December 31, 2014. The increase was primarily attributable to the increase of Synlab's shareholdings in companies in Turkey, in which Synlab acquired a majority interest in 2014, and the United Arab Emirates, in which Synlab acquired a majority interest in 2013 and the full year contribution of which is first reflected in 2014. Results were also generally positive in the other countries comprising this segment, namely Slovenia, Macedonia, Croatia, Romania, Poland, Belarus and the United Kingdom.

The table below sets forth, for each of the periods indicated, Synlab's revenue by type.

	Year ended December 31, 2013	Year ended December 31, 2014
	(€ millions)	
Health insurance companies	239.4	250.3
Privately insured patients	203.0	215.5
Clinics	97.4	104.4
Laboratories	31.7	33.6
Doctors	26.3	40.7
Other revenue from human medicine	2.5	1.6
Revenue from human medicine	**600.3**	**646.0**
Revenue from environmental analysis	25.9	34.7
Revenue from other examinations	18.1	17.5
Revenue from veterinary medicine	10.5	11.8
Revenue from trading goods	10.4	7.3
Revenue from studies and expert opinions	3.6	8.1
Other revenue	2.3	4.0
Total	**671.2**	**729.4**

Material Expenses

Material expenses increased by €3.7 million, or 2.1%, from €177.4 million in the year ended December 31, 2013 to €181.1 million in the year ended December 31, 2014. The increase was primarily attributable to an increase in reagents and expenses "per reported result" from €108.9 million in the year ended December 31, 2013 to €120.3 million in the year ended December 31, 2014, which was partly offset by a decrease in consumables during the same period from €50.5 million to €41.9 million. The increase in reagents and expenses "per reported result" reflects the effect of the acquisitions completed in 2014 and the incremental effect of the acquisitions closed in 2013, whereas the decrease in expenses for consumables was attributable to a change in the reporting of non-production-related consumables, which Synlab began reporting under other operating expenses in 2014. As a percentage of revenue, material expenses decreased from 26.4% in the year ended December 31, 2013 to 24.8% in the year ended December 31, 2014.

Personnel Expenses

Synlab's personnel expenses increased by €16.4 million, or 6.8%, from €240.7 million in the year ended December 31, 2013 to €257.1 million in the year ended December 31, 2014. The increase was primarily attributable to an increase in salaries and social security expenses consistent with Synlab's increase in headcount in connection with its acquisitions completed in 2014 and its efforts to increase its sales force team. As a percentage of revenue, personnel expenses decreased from 35.9% for the year ended December 31, 2013 to 35.2% for the year ended December 31, 2014, supported by a decrease in other personnel expenses from €4.9 million to €3.6 million over the same period.

Expenses on Rental and Lease Agreements

Synlab's expenses on rental and lease agreements increased by €3.2 million, or 11.3%, from €28.3 million in the year ended December 31, 2013 to €31.5 million in the year ended December 31, 2014. The increase was due to a combination of increases in expenses for buildings and other fixtures and fittings and office equipment as a result of the effect of the acquisitions completed in 2014 and the first time full-year effect of the acquisitions completed in 2013. The increase was partly offset by a decline in lease payments for analysis equipment.

Transport Expenses

Synlab's transport expenses increased by €0.9 million, or 3.4%, from €26.8 million in the year ended December 31, 2013 to €27.7 million in the year ended December 31, 2014. The increase was attributable to an increase in transport expenses for external logistics providers, from €20.9 million in the year ended December 31, 2013 to €22.2 million in the year ended December 31, 2014 as a result of acquisitions in 2014 in countries where Synlab does not operate its own logistics services. The increase was partly offset by a decrease in expenses for Synlab's vehicle fleet, primarily due to a decrease in fuel and maintenance expenses.

Other Operating Income

Other operating income increased by €14.8 million from €12.6 million in the year ended December 31, 2013 to €27.4 million in the year ended December 31, 2014. The increase was primarily attributable to income in the amount of €8.9 million recorded as changes in value of contingent consideration in the year ended December 31, 2014, of which €8.7 million related to the reversal of earn outs in the acquisition of Synlab Finland OY and the absence of such income in the year ended December 31, 2013. The increase was also attributable, to a lesser extent, to €4.1 million in income from reversal of provisions and liabilities in connection with legal disputes and €3.3 million from passed-on consultancy expenses related to a proposed transaction which was not consummated.

Other Operating Expenses

Other operating expenses increased by €12.5 million, or 10.0%, from €125.5 million in the year ended December 31, 2013 to €138.0 million in the year ended December 31, 2014. The increase was primarily attributable to an increase in legal and consulting fees from €10.6 million in the year ended December 31, 2013 to €14.0 million in the year ended December 31, 2014 related to company acquisitions, legal disputes and restructuring activities, as well as an increase in advertising and marketing expenses from €11.6 million to €14.0 million over the same period mainly related to an increase in customer loyalty expenses in Switzerland by €1.7 million and an increase in advertising and marketing expenses in the Czech Republic by €0.7 million.

Depreciation, Amortization and Impairment and Impairment Reversals

Depreciation, amortization and impairment increased by €3.3 million, or 5.3%, from €62.5 million in the year ended December 31, 2013 to €65.8 million in the year ended December 31, 2014. The increase was primarily attributable to an increase in amortization of intangible assets related to amortization of customer lists from acquisitions. In addition, in the year ended December 31, 2014, Synlab recorded income from the reversal of impairments of customer lists in an amount of €21.0 million as a result of impairment testing of the cash generating unit Germany as of December 31, 2014.

Financial Income

Synlab's financial income decreased by €0.8 million, or 20.0%, from €4.0 million in the year ended December 31, 2013 to €3.2 million in the year ended December 31, 2014. The decrease was primarily attributable to decreases in income from derivative financial instruments measured at fair value and other financial income.

Financial Expenses

Synlab's financial expenses remained unchanged at €33.8 million in the year ended December 31, 2013 compared to the year ended December 31, 2014.

Income Tax Expense

Income tax expense increased by €4.6 million, or 61.3%, from €7.5 million in the year ended December 31, 2013 to €12.1 million in the year ended December 31, 2014. The increase was attributable to an increase of current income taxes as a result of a significant increase in income before tax, from €−7.7 million in the year ended December 31, 2013 to €44.3 million in the year ended December 31, 2014, and a decrease in deferred taxes.

Comparison of the Years Ended December 31, 2013 and 2012

The following table shows Synlab's results of operations for the periods indicated.

	Year ended December 31,	
	2012	2013
	(€ millions)	
Revenue	**600.9**	**671.2**
Material expenses	(163.6)	(177.4)
Personnel expenses	(224.0)	(240.7)
Expenses on rental and lease agreements	(24.0)	(28.3)
Transport expenses	(26.1)	(26.8)
Other operating income	11.1	12.6
Other operating expenses	(110.9)	(125.5)
Depreciation, amortization and impairment	(54.4)	(62.5)
Operating profit/loss	**9.0**	**22.6**
Income from associated companies	0.4	0.6
Financial income	1.0	4.0
Financial expenses	(34.0)	(33.8)
Revaluation on shares in partnerships with a non-controlling interest	(1.0)	(1.0)
Income before tax	**(24.5)**	**(7.7)**
Income tax expense	(2.6)	(7.5)
Consolidated profit/loss for the period	**(27.1)**	**(15.2)**

Revenue

Synlab's revenue increased by €70.3 million, or 11.7%, from €600.9 million in the year ended December 31, 2012 to €671.2 million in the year ended December 31, 2013.

The table below sets forth, for each of the periods indicated, Synlab's revenue from external customers by geography.

	Year ended December 31,	
	2012	2013
	(€ millions)	
Germany	369.9	381.6
Switzerland	64.9	77.5
Italy	56.9	62.1
Czech Republic	47.9	45.2
Belgium	0	23.5
Hungary	17.8	25.2
Austria	19.4	20.2
Baltic States(1)	0	6.9
Slovakia	11.5	12.3
Other / Rest of World	12.6	16.7
Total	**600.9**	**671.2**

(1) Renamed "North Europe" in the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 following Synlab's acquisition of a laboratory in Norway. See also "*Presentation of Financial and Other Information*."

Revenue in Germany increased by €11.7 million, or 3.2%, from €369.9 million in the year ended December 31, 2012 to €381.6 million in the year ended December 31, 2013. The increase was primarily due to organic growth in Synlab's existing laboratory network, despite the quota regulation introduced in the German state health care system effective for the full year 2013. The increase in revenue was supported by Synlab's acquisitions in Germany in 2012 and 2013, the latter of which contributed €6.2 million of revenue in the year ended December 31, 2013. Furthermore, significant investments made in businesses active in pathology, human genetics, coagulation analytics and environmental testing were only partially reflected in revenue for 2013.

Revenue in Switzerland increased by €12.6 million, or 19.4%, from €64.9 million in the year ended December 31, 2012 to €77.5 million in the year ended December 31, 2013. The increase in revenue in Switzerland was supported by strong organic growth and revenue contributions from newly acquired companies in Switzerland in 2013, including the expansion into Central Switzerland through the acquisition of Bakteriologisches Institut Olten BIO AG. The increase was also the result of the expansion of existing hospital contracts and new hospital contracts secured. The acquisition of an environmental firm allowed Synlab to enter this segment and contributed an additional €1.6 million of revenue the year ended December 31, 2013.

Revenue in Italy increased by €5.2 million, or 9.1%, from €56.9 million in the year ended December 31, 2012 to €62.1 million in the year ended December 31, 2013. The increase was primarily driven by organic growth and the first time full-year contributions of acquisitions in 2012 as well as two additional acquisitions in the first half of 2013 to enter new regions.

Revenue in the Czech Republic decreased by €2.7 million, or 5.6%, from €47.9 million in the year ended December 31, 2012 to €45.2 million in the year ended December 31, 2013. The decrease was attributable to a temporary interruption of a contract with health insurers related to genetic testing and which was not fully offset by the recovery of revenue from genetic testing the fourth quarter (following the contract interruption) or the revenue contributions of three small acquisitions in the first part of 2013.

Revenue in Belgium amounted to €23.5 million in the year ended December 31, 2013 and was the result of Synlab's acquisition of Laboratoire Collard in December 2012. Belgium was reported as a segment for the first time in 2013.

Revenue in Hungary increased by €7.4 million, or 41.6%, from €17.8 million in the year ended December 31, 2012 to €25.2 million in the year ended December 31, 2013. The increase was primarily driven by the acquisition made in 2012 and the first full-year contribution in 2013. The increase was partly offset by currency losses on the forint and the delayed renewal of an existing contract. Hungary was reported as a separate segment for the first time in 2013.

Revenue in Austria increased by €0.8 million, or 4.1%, from €19.4 million in the year ended December 31, 2012 to €20.2 million in the year ended December 31, 2013. The increase in revenue was primarily due to higher revenue from environmental analysis, which increased from €1.9 million to €2.5 million and, to a lesser extent, by an increase in revenue from human medicine, which rose from €16.0 million to €16.3 million over the same period despite increasingly intense competition in certain regions of the country.

Revenue in Baltic States amounted to €6.9 million in the year ended December 31, 2013 and was the result of Synlab's acquisition of the Quattromed Group, with subsidiaries in Estonia, Finland and Lithuania, in July 2013.

Revenue in Slovakia increased by €0.8 million, or 7.0%, from €11.5 million in the year ended December 31, 2012 to €12.3 million in the year ended December 31, 2013. The increase was primarily due to organic growth of Synlab's human medicine testing services in Slovakia.

Revenue in other countries (Rest of World) increased by €4.1 million, or 32.5%, from €12.6 million in the year ended December 31, 2012 to €16.7 million in the year ended December 31, 2013. The increase was primarily attributable to the increase of Synlab's shareholding in 2014 in Freiburg Medical Laboratory Middle East LLC in the United Arab Emirates, in which Synlab previously only held a minority interest, and to its entry into the market in the United Kingdom. Results were also generally positive in the other countries comprising this segment, namely Slovenia, Macedonia, Croatia, Romania, Poland, Belarus and Turkey.

The table below sets forth, for each of the periods indicated, Synlab's revenue by type.

	Year ended December 31, 2012	Year ended December 31, 2013
	(€ millions)	
Health insurance companies	208.6	239.4
Privately insured patients	184.4	203.0
Clinics	99.4	97.4
Laboratories	29.4	31.7
Doctors	18.5	26.3
Other revenue from human medicine	2.3	2.5
Revenue from human medicine	542.6	600.3
Revenue from environmental analysis	17.7	25.9
Revenue from other examinations	15.1	18.1
Revenue from veterinary medicine	8.9	10.5
Revenue from trading goods	10.0	10.4
Revenue from studies and expert opinions	4.0	3.6
Other revenue	2.6	2.3
Total	**600.9**	**671.2**

Material Expenses

Synlab's material expenses increased by €13.8 million, or 8.4%, from €163.6 million in the year ended December 31, 2012 to €177.4 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in reagents and expenses "per reported result" from €101.8 million in the year ended December 31, 2012 to €108.9 million in the year ended December 31, 2013, as well as an increase in consumables during the same period from €42.2 million to €50.5 million. The increase in reagents and expenses "per reported result" reflects the effect of the acquisitions completed in 2013 and the incremental effect of the acquisitions closed in 2012. As a percentage of revenue, however, material expenses decreased from 27.2% in the year ended December 31, 2012 to 26.4% in the year ended December 31, 2013.

Personnel Expenses

Synlab's personnel expenses increased by €16.7 million, or 7.5%, from €224.0 million in the year ended December 31, 2012 to €240.7 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in salaries and social security expenses consistent with Synlab's increase in headcount in connection with its acquisitions completed in 2013, in particular its acquisitions in North Europe, and was partly offset by a decrease in variable compensation compared to the prior year. As a percentage of revenue, personnel expenses decreased from 37.3% for the year ended December 31, 2012 to 35.9% for the year ended December 31, 2013.

Expenses on Rental and Lease Agreements

Synlab's expenses on rental and lease agreements increased by €4.3 million, or 17.9%, from €24.0 million in the year ended December 31, 2012 to €28.3 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in building expenses and other fixtures and fittings and office equipment as a result of the effect of the acquisitions completed in 2013 and the first time full-year effect of such expenses for the acquisitions completed in 2012.

Transport Expenses

Synlab's transport expenses increased by €0.7 million, or 2.7%, from €26.1 million in the year ended December 31, 2012 to €26.8 million in the year ended December 31, 2013. The increase was attributable to an increase in expenses incurred for Synlab's own vehicle fleet, whereas transport expenses related to external logistics providers remained stable.

Other Operating Income

Other operating income increased by €1.5 million, or 13.5%, from €11.1 million in the year ended December 31, 2012 to €12.6 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in other operating income, other, from €0.7 million in the year ended December 31, 2012 to €4.7 million in the year ended December 31, 2013, €1.0 million of which related to earnings from a license agreement with a laboratory in Germany. The increase was partly offset by an absence of income from reversal of provisions in 2013 compared to €4.6 million recorded in the year ended December 31, 2012 as a result of a purchase price adjustment related to the acquisition of the MVZ Leverkusen Group.

Other Operating Expenses

Other operating expenses increased by €14.6 million, or 13.2%, from €110.9 million in the year ended December 31, 2012 to €125.5 million in the year ended December 31, 2013. The increase was primarily attributable to an increase of €4.2 million in miscellaneous other operating expenses as well as smaller increases in administrative costs and advertising and marketing expenses. As a percentage of revenue, other operating expenses increased slightly from 18.5% for the year ended December 31, 2012 to 18.7% for the year ended December 31, 2013.

Depreciation, Amortization and Impairment

Depreciation, amortization and impairment increased by €8.1 million, or 14.9%, from €54.4 million in the year ended December 31, 2012 to €62.5 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in amortization of intangible assets related to amortization of customer lists from acquisitions and, to a lesser extent, to an increase in depreciation of property, plant and equipment.

Financial Income

Synlab's financial income increased by €3.0 million from €1.0 million in the year ended December 31, 2012 to €4.0 million in the year ended December 31, 2013. The increase was primarily attributable to €2.0 million of income from derivative financial instruments measured at fair value recorded in the year ended December 31, 2013 compared to no such earnings recorded in the prior year.

Financial Expenses

Synlab's financial expenses decreased by €0.2 million, or 0.6%, from €34.0 million in the year ended December 31, 2012 to €33.8 million in the year ended December 31, 2013. The decrease was primarily attributable to €1.6 million of expenses from derivative financial instruments measured at fair value recorded in the year ended December 31, 2012 compared to no such expenses recorded in the year ended December 31, 2013. The decrease was partly offset by an increase in interest and similar expenses from €30.2 million in the year ended December 31, 2012 to €31.2 million in the year ended December 31, 2013.

Income Tax Expense

Income tax expense increased by €4.9 million from €2.6 million in the year ended December 31, 2012 to €7.5 million in the year ended December 31, 2013. The increase was attributable to an increase of current income taxes as a result of a significant increase in income before tax, from €−24.5 million in the year ended December 31, 2012 to €−7.7 million in the year ended December 31, 2013, and a decrease in deferred income taxes.

Liquidity and Capital Resources

Liquidity describes the ability of a company to generate sufficient cash flows to meet the cash requirements of its business operations, including working capital needs, debt service obligations, capital expenditures, contractual obligations and other commitments, as well as acquisitions. Synlab's primary sources of liquidity are provided by its cash from operating activities and its financings. Synlab's liquidity requirements arise primarily to fund acquisitions, to meet its debt service obligations, working capital needs and, to a lesser extent, to fund capital expenditures.

Synlab's financial condition and liquidity is and will continue to be influenced by a variety of factors, including:

- Synlab's ability to generate cash flows from its operations;
- the level of Synlab's outstanding indebtedness and the indebtedness of its subsidiaries, and the interest Synlab is obligated to pay on such indebtedness, which affects its net financial expense;
- Synlab's ability and the ability of its subsidiaries to continue to borrow funds from financial institutions; and
- Synlab's external growth funding requirements, which consist primarily of the funding of acquisitions of laboratories.

Synlab's cash requirements consist mainly of the following:

- funding acquisitions, Synlab's working capital requirements and capital expenditure needs;
- servicing Synlab's indebtedness and the indebtedness of its subsidiaries; and
- operating activities and paying taxes.

Synlab expects its future sources of liquidity will consist mainly of the following:

- cash generated from Synlab's operating activities; and
- borrowings under the Revolving Credit Facility.

Synlab's principal source of liquidity on an ongoing basis is expected to be its operating cash flows. Synlab will also have access to the Revolving Credit Facility following the Completion Date. The continued availability of the Revolving Credit Facility is dependent upon certain conditions as described further under "*Description of Other Indebtedness—Revolving Credit Facility Agreement.*" In addition, Synlab's ability to generate cash depends on its future operating performance, which, in turn, depends to some extent on general economic, financial, industry and other factors, many of which are beyond its control. See "*Risk Factors*."

Although Synlab believes that its expected cash flows from operating activities, together with available borrowings under the Revolving Credit Facility, will be adequate to meet its anticipated liquidity and debt service needs, Synlab cannot assure you that its business will generate sufficient cash flows from operating activities or that future debt financing will be available to Synlab in an amount sufficient to enable Synlab to pay its debts when due, including the Notes, or to fund its other liquidity needs.

Cash Flow

The table below sets forth certain line items from Synlab's cash flow statement for the periods indicated.

	Year ended December 31,			Three months ended March 31,	
	2012	2013	2014	2014	2015
			(€ millions)	(unaudited)	
Cash flow from operating activities	40.8	69.6	91.8	12.4	6.4
Cash flow from investing activities	(85.6)	(103.7)	(40.9)	(15.3)	(26.6)
Cash flow from financing activities	73.5	55.1	(28.4)	(23.1)	6.6
Cash and cash equivalents at beginning of period	15.1	43.8	64.6	64.6	87.2
Net foreign exchange differences	0.0	(0.2)	0.2	0.0	2.3
Net change in cash and cash equivalents	28.6	21.0	22.5	(26.1)	(13.6)
Cash and cash equivalents at end of period	43.8	64.6	87.2	38.5	76.0

Cash Flow from Operating Activities

Cash flow from operating activities decreased by €6.0 million, or 48.4%, from €12.4 million in the three months ended March 31, 2014 to €6.4 million in the three months ended March 31, 2015. The decrease was primarily the result of changes in net working capital. In the three months ended March 31, 2014, net cash inflow from a decrease in inventories amounted to €3.2 million as a result of stock management improvements, while in the three months ended March 31, 2015, there was a net cash outflow from an increase in inventories that amounted to €0.7 million. In addition, Synlab experienced a net cash outflow relating to accruals and provisions for personnel expenses in the three months ended March 31, 2015 as a result of higher deferred expenses being incurred during the period.

Cash flow from operating activities increased by €22.2 million, or 31.9%, from €69.6 million in the year ended December 31, 2013 to €91.8 million in the year ended December 31, 2014. The increase was primarily attributable to a significant increase in profit/loss before changes in net working capital, which increased from €88.6 million in the year ended December 31, 2013 to €117.2 million in the year ended December 31, 2014, and a decrease in change in other net working capital from €8.7 million in the year ended December 31, 2013 to €5.0 million in the year ended December 31, 2014. The increase was partly offset by a significant decrease in change in trade payables as a result of an increasing use of cash discounts with significant suppliers, and an increase in income taxes paid as a result of higher in income before tax in 2014 compared to 2013.

Cash flow from operating activities increased by €28.8 million, or 70.6%, from €40.8 million in the year ended December 31, 2012 to €69.6 million in the year ended December 31, 2013. The increase was primarily attributable to an increase in profit/loss before changes in net working capital, which increased from €63.3 million in the year ended December 31, 2012 to €88.6 million in the year ended December 31, 2013, and an improvement in net working capital. The increase was primarily attributable to improvements in change in trade receivables, which was a result of dunning process improvements, and change in other net working capital, which related to the partial settlement of former shareholder liabilities, the utilization of provisions for restructuring and onerous contracts, as well as other utilizations of provisions.

Cash Flow from Investing Activities

Cash flow from investing activities decreased by €11.3 million, or 73.9%, from a cash outflow of €15.3 million in the three months ended March 31, 2014 to a cash outflow of €26.6 million in the three months ended March 31, 2015. The decrease was primarily the result of greater cash outflows for acquisitions of subsidiaries net cash acquired. In the three months ended March 31, 2014, €8.9 million of cash outflows for acquisitions of subsidiaries net of cash acquired related to one major acquisition with an additional €1.8 million of outflows relating to minor acquisitions and payments of earnouts. In the three months ended March 31, 2015, €17.2 million of cash outflows for acquisitions of subsidiaries net of cash acquired related to two major acquisitions with an additional €5.6 million of outflows relating to five minor acquisitions and payments of earnouts.

Cash flow from investing activities improved by €62.8 million, or 60.6%, from a cash outflow of €103.7 million in the year ended December 31, 2013 to a cash outflow of €40.9 million in the year ended December 31, 2014. The lower cash used in investing activities was primarily due to a significant decrease in cash outflows for acquisition of subsidiaries net of cash acquired, which decreased from €91.5 million in the year ended December 31, 2013 to €23.2 million in the year ended December 31, 2014. In the year ended December 31, 2013, cash outflows due to company acquisitions related primarily to acquisitions in North Europe and Germany. In the year ended December 31, 2014, cash outflows due to company acquisitions related primarily to the acquisition of INTERLAB GmbH central lab services.

Cash flow from investing activities decreased by €18.1 million, or 21.1%, from a cash outflow of €85.6 million in the year ended December 31, 2012 to a cash outflow of €103.7 million in the year ended December 31, 2013. The higher net cash used in investing activities was primarily due to an increase in cash outflows for acquisition of subsidiaries net of cash acquired, which increased from €63.3 million in the year ended December 31, 2012 to €91.5 million in the year ended December 31, 2013. In the year ended December 31, 2012, cash outflow due to company acquisitions related primarily to acquisitions in Belgium, Hungary and Germany. In the year ended December 31, 2013, cash outflow due to company acquisitions related primarily to acquisitions in North Europe and Germany.

Cash Flow from Financing Activities

Cash flow from financing activities improved by €29.7 million, from a cash outflow of €23.1 million in the three months ended March 31, 2014 to a cash inflow of €6.6 million in the three months ended March 31, 2015. The change was primarily the result of proceeds from interest-bearing loans and borrowings of €20.0 million, the amount being drawn under the Existing Synlab Credit Facility in the three months ended March 31, 2015, whereas in the three months ended March 31, 2014, repayments of interest-bearing loans and borrowings were €10.0 million higher than in the three months ended March 31, 2015.

Cash flow from financing activities decreased by €83.5 million from a cash inflow of €55.1 million in the year ended December 31, 2013 to a cash outflow of €23.4 million in the year ended December 31, 2014. The decrease was primarily attributable to a significant decrease in proceeds from interest-bearing loans and borrowings, which decreased from €142.8 million to €37.0 million over the same period due to considerably lower acquisition costs in 2014 compared to 2013.

Cash flow from financing activities decreased by €18.4 million, or 25.0%, from €73.5 million in the year ended December 31, 2012 to €55.1 million in the year ended December 31, 2013. The decrease was primarily attributable to a significant decrease in proceeds from interest-bearing loans and borrowings, which decreased from €394.7 million to €142.8 million over the same period, and was partly offset by lower repayments of interest-bearing loans and borrowings, which decreased from €279.1 million to €43.8 million over the same period. The above mentioned development stems from the group-wide refinancing undertaken in the year ended December 31, 2012 as certain debt was fully repaid by new facilities drawn under the Existing Synlab Credit Facility Agreement. In the year ended December 31, 2013, the abovementioned amount of €142.8 million was drawn following an amendment to the Existing Synlab Credit Facility Agreement.

Capital Expenditures

Synlab's acquisition capital expenditure is primarily related to customer lists from the acquisitions of laboratories. Synlab's capital expenditures primarily relate to the acquisition of technical machines and equipment, and other equipment, fixtures, fittings and office equipment. Synlab calculates capital expenditures as the sum of the cash outflows from the purchase of intangible assets and purchase of property, plant and equipment and does not include the cash outflows from the acquisition of subsidiaries net of cash acquired, each as set out in its consolidated cash flow statements. Such capital expenditures for the years ended December 31, 2012, 2013 and 2014 and the three and twelve-month periods ended March 31, 2015 were €25.6 million, €16.5 million, €23.4 million, €4.5 million and €23.2 million respectively.

Capital expenditures decreased in 2013 compared to 2012 due to lower investments in expansion and maintenance projects and as a result of stricter investment controls. Expansion capital expenditures in 2013 were primarily focused on the following: (i) IT investments in Germany and the Czech Republic, (ii) investments in refurbishments of a building in the Czech Republic and a laboratory in Switzerland, (iii) new analysis equipment in Italy and Germany and (iv) an upfront fee in connection with the award of a new hospital outsourcing contract in Switzerland.

Capital expenditures increased in 2014 compared to 2013 due primarily to an increase in expansion capital expenditures. Expansion capital expenditures in 2014 included the relocation of Synlab's central laboratory in Italy from Brescia to Castenedolo and the opening of new blood collection points in the Czech Republic. In addition, Synlab's expansion capital expenditures related to (i) IT investments in Switzerland (in connection with the implementation of new laboratory information systems in three laboratories), the Czech Republic and Germany and (ii) new laboratory equipment in Italy and Austria. Maintenance capital expenditure also increased slightly in 2014 compared to 2013, primarily related to IT maintenance in Germany (mostly comprising license fees), Italy and Slovakia as well as office equipment in Switzerland and Italy.

Capital expenditures in the three months ended March 31, 2015 related to the purchase of intangible assets in the amount of €1.2 million, including primarily licences and the purchase of property, plant and equipment in the amount of €3.2 million, primarily machinery and other technical equipment in Germany for about €1.5 million and other countries for an additional €1.5 million.

Synlab expects capital expenditure, excluding acquisitions, for the year ended December 31, 2015 to be in line with Synlab's capital expenditures, excluding acquisitions, for the year ended December 31, 2014.

Contractual Obligations and Commercial Commitments

Financial Obligations

As of December 31, 2014, the maturity structure of Synlab's financial obligations, excluding interest-bearing loans and borrowings, was as follows:

	Residual Maturity			
	Up to 1 year	More than 1 and up to 5 years	More than 5 years	Total
		(€ millions)		
Trade payables[(1)]	78.0	0.0	0.0	78.0
Other financial liabilities[(2)]	35.8	1.7	2.9	40.4
Total	**113.8**	**1.7**	**2.9**	**118.4**

(1) Represents primarily trade liabilities as well as provisions for outstanding invoices, advisory and audit costs and short-term accruals for fees and other taxes.

(2) Represents purchase price liabilities, liabilities to minority shareholders and former shareholders as well as personnel-related liabilities and tax relevant items.

Operating Leases

Synlab is a party, as lessee, to various rental and lease agreements, which relate primarily to company buildings, fixtures, fittings and office equipment, IT equipment and vehicles. The lease agreements have average terms of between three and five years. For the year ended December 31, 2014, Synlab's operating lease payments amounted to €41.8 million, of which €22.5 million related to leases on buildings and €10.3 million related to analysis equipment (much of which was provided by suppliers under "price per reported results" contracts).

The table below sets forth the future minimum lease payment obligations arising from contractual operating leases for the periods indicated, as of December 31, 2014.

	Payments due by period as of December 31, 2014			
	Up to 1 year	1 - 5 years	More than 5 years	Total
		(€ millions)		
Fixtures, fittings and office equipment	3.7	12.8	1.5	18.0
Analysis equipment	5.2	16.7	0	21.8
Leases on buildings	19.8	44.2	19.3	83.3
Other	4.0	4.4	0.2	8.6
Total	**32.7**	**78.1**	**21.0**	**131.7**

Financial Leases

Synlab has entered into financial leases for various technical equipment and for fixtures, fittings and office equipment. These lease agreements provide for lease extensions at prevailing market conditions, with options for extensions exercisable by the corresponding contracting company. For the year ended December 31, 2014, Synlab's payments for financial leases amounted to €8.6 million.

The table below sets forth the future minimum lease payment obligations arising from Synlab's financial leases for the periods indicated, as of December 31, 2014.

	Payments due by period as of December 31, 2014			
	Up to 1 year	1 - 5 years	More than 5 years	Total
		(€ millions)		
Financial leases	8.0	13.2	0.1	21.3

Pensions and Similar Obligations

Synlab's provisions for pensions and similar obligations amounted to €19.7 million as of December 31, 2014. For a description of Synlab's pension obligations, see Note 6.14, "Pension and similar obligations," to the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum.

Off-Balance Sheet Commitments

As of December 31, 2014, Synlab had provided lease guarantees for buildings and equipment in a total amount of €5.2 million and a contract performance guarantee in the amount of €0.3 million.

Except as described above, Synlab is not party to any off-balance sheet arrangements that have, or are reasonably likely to have, a material effect on its financial condition, results of operations, liquidity, capital expenditure or capital resources.

Qualitative and Quantitative Disclosures on Financial Risk

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Prior to the offering of the Notes, Synlab's exposure to the risk of changes in market interest rates related primarily to limited variable interest rate financial liabilities under the Existing Senior Facilities Agreement.

Synlab maintains interest rate swaps, collars and caps to minimize the risk from variable cash flows or convert variable cash flows into fixed cash flows, and to hedge against interest rate fluctuations. As Synlab carries financial liabilities at amortized costs instead of market value, there is no economic risk from changes in the carrying amount of the financial liabilities due to interest rate changes. Synlab bears interest rate risk primarily in the euro zone, the Czech Republic, Hungary and Switzerland.

The Revolving Credit Facility bears interest at variable rates. While Synlab may enter into additional hedging agreements in the future, Synlab may also elect not to do so or the terms on which Synlab hedges may not be satisfactory or may fail to adequately protect it from changes in market interest rates.

Credit Risk

Synlab's primary exposure to credit risk relates to its trade receivables. Synlab has no significant concentrations of credit risk due to the large number of disparate customers, customer groups and geographies. Outstanding receivables from customers are regularly monitored and collected on when overdue by way of a multi-step collections procedure. While Synlab is limited in its ability to minimize credit risk of customers prior to transactions due to its public service obligations, Synlab receives a significant portion of its revenue from business with health insurers who are nationwide partners under statutory health insurance schemes or public authorities.

Foreign Currency Risk

Synlab conducts its business in various currencies other than the euro, and Synlab is therefore exposed to foreign currency risk. The largest part of Synlab's foreign currency risk is attributed to business operations and fluctuations in Swiss francs, the Czech crown and the Hungarian forint. However, because Synlab's revenue and expenses are generally denominated in the local currencies of the local operating subsidiary, its exposure to currency risks from operating activities is limited. For an illustration of the sensitivity of Synlab's profit/loss before tax to fluctuations in the Swiss franc, the Czech crown and the Hungarian forint for the years ended December 31, 2013 and 2014, see Note 7 to the Synlab Audited Financial Statements as of and for the years ended December 31, 2014 included elsewhere in this offering memorandum.

Liquidity Risk

Liquidity risk is the risk of not being able to fulfil current or future obligations if Synlab does not have sufficient funds available to meet such obligations at the time they become due. Liquidity risk arises primarily in relation to cash flows generated and used in working capital and from financing activities, particularly by serving Synlab's debt and its payment obligations relating to its ordinary course business activities. Synlab manages liquidity risk by ongoing monitoring of its cash flows on a daily basis. In order to manage its liquidity needs, Synlab also uses an eight-week forecast prepared weekly and a twelve-month rolling liquidity plan prepared on a monthly basis.

Critical Accounting Policies and Estimates

Synlab's preparation of its consolidated financial statements requires management to make assumptions, undertake estimates and exercise judgment that affect the reported amount of assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the fiscal period. See Note 2.4 to the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum. All assumptions, expectations and forecasts used as a basis for certain estimates within the consolidated financial statements represent good-faith assessments of Synlab's future performance for which management believes there is a reasonable basis. Estimates and judgments used in the determination of reported results are continuously evaluated.

Assumptions, estimates and judgments are based on historical experience and on various other factors that management believes to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions.

Goodwill and Intangible Assets

Goodwill and intangible assets are Synlab's largest assets. Under IFRS, goodwill is recorded as an intangible asset and not amortized but subject to an annual impairment test during the year-end closing process, and additionally whenever there are indications that an impairment of goodwill or intangible assets with indefinite useful lives may have occurred. Synlab conducts impairment testing based on calculations of recoverable amount using the discounted cash flow method. Cash flows are projected based on financial planning for the next five years. Cash flows beyond the planning period are projected using individual growth rates. The recoverable amount depends largely on the discount rate used in the discounted cash flow method, on the expected cash inflows and outflows, and on the growth rate used for extrapolation. Although management believes that the assumptions it has used in calculating recoverable amount are reasonable, unforeseeable changes in these assumptions could lead to impairment expenses that could have a negative impact on the financial position, financial performance and cash flows. The basic assumptions made to calculate the recoverable amount of goodwill for the individual cash generating units and of intangible assets with indefinite useful lives including sensitivity analysis are outlined in detail in Notes 6.2 and 6.3 to the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum. As of December 31, 2014, the carrying amount of goodwill was €373.3 million (as of December 31, 2013: €350.9 million). No impairment losses were recognized in the years 2012, 2013 or 2014.

Pension and Similar Obligations

The expenditure on post-employment defined-benefit plans and the present value of pension obligations are determined based on actuarial calculations. The actuarial calculation is based on various assumptions, which may differ from actual future developments. This includes the determination of discount rates, future wage and salary increases, the mortality rate and future increases in pension benefits. Due to the complexity of calculations, the assumptions used and its long-term nature, a defined-benefit plan obligation is very sensitive to changes in these assumptions. For further details and a description of the assumptions used in the calculation of post-employment obligations, see Note 6.14 to the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum.

Deferred Tax Assets

Deferred tax assets are recognized for tax loss carryforwards. The recognition of deferred tax assets on tax loss carryforwards requires management estimates to the extent that it is probable that taxable profits will be available against which the losses can by utilized. If there is doubt regarding the extent to which the tax loss carry-forwards can be realized, appropriate impairments are recognized in relation to the deferred tax assets as required. There is uncertainty regarding the interpretation of complex tax provisions, changes in the tax code and the amounts concerned in and dates of future taxable events. Given the large scope of international business transactions and the long-term nature and complexity of existing contractual agreements, it is possible that differences between the actual results and assumptions made or future changes in such assumptions could lead to adjustments in taxable income of tax expense already recorded. Synlab accrues provisions based on realistic estimates of the potential impact of tax audits in those countries in which Synlab conducts transactions. The amount of such provisions is based on various factors, including, for example, experience gained from previous tax audits and differing interpretations of tax provisions by the taxable company and the tax authorities. Such diverging interpretations occur when a large number of different tax issues are present, depending upon the conditions prevailing in the country of domicile of the respective Group company.

At each reporting date, Synlab evaluates whether future tax benefits are sufficiently likely to justify the recognition of deferred tax assets. This requires management to assess the tax advantages resulting from available tax strategies and future taxable income, in addition to other positive and negative factors. Expected taxable income as projected in company forecasts is used in these assessments. The amount of deferred tax assets stated could be reduced if projected taxable income and the tax benefits to be gained from available tax strategies are lower, or if changes in current tax provisions limit the time frame or the scope of realization of future tax benefits.

Deferred tax assets are recorded for all unused tax loss carryforwards (including interest carryforwards) in the amount in which it is likely that taxable income will be available against which the tax loss and interest carryforwards can actually be used. When determining the amount of the deferred tax assets, management must exercise a substantial amount of discretion in estimating the amount and timing of future taxable income as well as future tax planning strategies.

Measurement of Contingent Consideration at Fair Value

Contingent consideration arising in the scope of business combinations is recorded as part of the business combination at fair value as of the date of acquisition. If the contingent consideration satisfies the definition of a derivative, and thus of a financial liability, it will be re-measured at fair value in subsequent periods at the balance sheet date. Fair value is determined using discounted cash flows. Basic assumptions take into consideration the likelihood of fulfilment of every performance target as well as the discount rate.

On July 31, 2013, Synlab acquired the Estonian company Medicap Holding AS (which was merged into synlab Eesti OÜ as surviving entity) and its subsidiaries synlab Eesti OÜ (formerly Quattromed HTI Laborid OÜ) in Estonia, OÜ Viljandi Tervisekeskus in Estonia, Synlab Finland OY (formerly Quattromed Finland Oy) in Finland and synlab Lietuva UAB (formerly UAB "SORPO") in Lithuania. Two contingent consideration elements were agreed as part of the acquisition price agreement with the former owners of Medicap Holding AS. Accordingly, a payment to the sellers of a maximum €2.7 million fell due in 2014 upon reaching a defined revenue threshold in Finland in fiscal year 2013. A further payment of a maximum €11.8 million was linked to revenue recorded in Finland in 2014 and will be due for disbursement in 2015. As of December 31, 2014, only €3.1 million remained in provisions for contingent consideration.

As of December 31, 2014, the fair value of consideration recorded under "Other provisions" was €8.1 million (as of December 31, 2013: €15.5 million). For further details, see Note 2.4(e) to the Synlab Audited Financial Statements as of and for the year ended December 31, 2014 included elsewhere in this offering memorandum.

Fair Value of Financial Instruments

If the fair value of financial assets and liabilities recorded in the statement of financial position cannot be determined using data from an active market, it is determined using valuation techniques such as the discounted cash flow method. The inputs used in the model are based on observable market data whenever possible. If this is not possible, the determination of fair values is to a certain extent a matter of discretion. Discretionary decisions involve inputs such as liquidity risk, default risk and volatility. Changes in the assumptions with respect to these factors could have an impact on the recorded fair value of the financial instruments. As of December 31, 2014, obligations from financial liabilities recognized at fair value through profit or loss (derivatives not used as hedges) amounted to €0.5 million (as of December 31, 2013: €2.3 million).

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF LABCO

The following should be read in conjunction with the information set forth under "Selected Historical Consolidated Financial Information of Labco," "Presentation of Financial and Other Information," and Labco's Financial Statement's included elsewhere in this offering memorandum.

The following discussion includes forward-looking statements based on assumptions about Synlab's future performance. Labco's actual results could differ materially from those contained in these forward-looking statements as a result of many factors, including but not limited to those described under "Forward-Looking Statements," "Risk Factors" and elsewhere in this offering memorandum

Overview

Labco is one of the leading groups in the European clinical laboratory services market, with the broadest geographical reach. Labco performs over 150 million tests per annum at its 165 laboratories. Labco provides its services to more than 20 million patients per annum and has almost 6,000 employees and medical staff in the countries in which it operates.

Labco's business activities are organized into two geographical operating segments: (i) Northern Europe, encompassing France, the United Kingdom, Belgium, Switzerland and, until 2013, Germany; and (ii) Southern Europe, encompassing Spain and Portugal (both managed by the same management team), and Italy. In line with IFRS 8, segment reporting is prepared based on the internal management data used to allocate resources to the segments and for the analysis of their performance by Labco's Chief Executive Officer and the executive committee. The segments' performance is measured based on revenue and EBITDA in a manner consistent with the income statement published in Labco's consolidated financial statements included elsewhere in this offering memorandum. Labco's financial items (including financial income and expenses) and income tax expense are managed centrally by the Labco Group and are not presented in the operating segment figures. Where shared resources, provided in most cases by Labco's holding companies, are used, this is taken into account in the segment results by reallocating the costs to the segments in proportion to each segment's revenue.

Labco is the market leader in Spain and Portugal (Labco ranked number one in these markets based on 2014 revenue). In France and Italy, Labco is one of the two leading players in its business sector. In Italy, Labco has a strong presence in medical imaging and poly-ambulatory medicine following its acquisition of the SDN Group in July 2014 (based on *pro forma* 2013 and 2014 revenues). Labco also has a significant foothold in Belgium, where it ranks third (based on 2014 revenue). In addition, since 2010 Labco has been present in the United Kingdom where it delivers laboratory outsourcing services to hospitals and other healthcare providers. In December 2013, Labco pulled out of the German market to focus on national markets in which it has achieved or may shortly achieve a leadership position, significant market share or a distinctive positioning. Labco also set up a business in Switzerland in 2013 through its joint venture subsidiary, Test S.A. In addition, Labco provides clinical laboratory testing services to customers in Latin America, the Middle East, Eastern Europe and North Africa, with analyses for those countries performed by its Labco NOÛS specialty laboratory located in Barcelona, and the related revenue is included in its Iberia cash-generating unit.

For the year ended December 31, 2013, revenue from Labco's Northern Europe segment amounted to €357.9 million (representing 65% of the Labco Group total) and EBITDA amounted to €75.5 million (71% of the Labco Group total), representing an EBITDA margin of 21.1%. Concurrently, revenue from Labco's Southern Europe segment amounted to €189.4 million (35% of the Labco Group total) and its EBITDA amounted to €30.8 million (29% of the Labco Group total), representing an EBITDA margin of 16.2%.

For the year ended December 31, 2014, revenue from Labco's Northern Europe segment amounted to €401.3 million (representing 65% of the Labco Group total) and EBITDA amounted to €79.2 million (70% of the Labco Group total), representing an EBITDA margin of 19.7%. Concurrently, revenue from Labco's Southern Europe segment amounted to €214.3 million (35% of the Labco Group total) and its EBITDA amounted to €34.0 million (30% of the Labco Group total), representing an EBITDA margin of 15.9%.

The differences in the EBITDA margin between the Southern Europe and Northern Europe segments reflect: (i) differences in profitability of the clinical testing activities between countries where Labco is present given the business models adopted and prices implemented by the public health authorities or private-sector organizations in those countries; (ii) differences in profitability between the medical diagnostics activities that Labco performs (routine testing, specialty testing, anatomical pathology testing, medically assisted reproduction and medical imaging); and (iii) the geographical positioning and the size of its laboratories in the various national markets.

The greater profitability of the Northern Europe segment compared with that of the Southern Europe segment for the years ended December 31, 2012, 2013 and 2014 reflects the size of France's contribution to the Northern Europe segment during this period. In addition, the profitability of Labco's operations in Belgium progressed significantly between 2012 and 2014 with the take-off in nutritional testing. Since the profitability of Labco's outsourced clinical testing activities in the United Kingdom is below the Labco Group's average, the expansion of iPP's activities in the United Kingdom is having an unfavorable impact on the Northern Europe segment's margin. In addition, as outlined above, the principal countries in the Southern Europe segment experienced a major economic and financial crisis over the period, which affected the operations of this segment. However, with the July 2014 acquisition of the SDN Group, which is a leading player in integrated diagnostics with higher profitability than the rest of the Labco Group, Labco expects profitability to improve in the Southern Europe segment.

Labco has a catalogue of over 5,000 routine and specialty tests used by health professionals to diagnose their patients and to care for and treat their conditions. Aside from the patients who go to Labco's clinical testing laboratories, Labco's customers are also doctors, hospitals, insurance companies and employers. Labco performs clinical analysis, generally using automated testing equipment or devices. Labco delivers the results to prescribing doctors and patients and offers assistance with the interpretation of these results through its laboratory doctors. In certain countries, some of Labco's laboratories are also responsible for sampling and the delivery of the samples to its testing facilities.

Between 2012 and 2014, Labco recognized significant growth in its revenue as a result of solid organic growth as well as profitable, accretive growth through acquisitions, mainly through the purchase of small and medium-sized laboratories that are merged with its existing organization or strategic acquisitions of new regional platforms.

In 2014, Labco generated revenue of €615.6 million and EBITDA of €113.3 million (or €649.6 million and €131.3 million, respectively, after giving *pro forma* effect to the acquisition of the SDN Group as if the acquisition had occurred on January 1, 2014).

Principal Factors Affecting Labco's Results of Operations

You should consider the following factors when analyzing Labco's financial condition and results of operations.

General Economic Conditions and Legal Framework

Economic Environment

Labco is exposed to the general economic conditions in the markets in which it operates. Although the market for clinical testing services is not generally regarded as very sensitive to macroeconomic cycles, Labco believes that a downturn in general economic conditions affects demand for its services and thus has a negative impact on its results of operations. This impact derives from the fact that governments and third-party payers (see "*—Description of Key Income Statement Items—Revenue*" for a detailed explanation of third-party payers) are seeking to reduce healthcare expenditure, and existing and potential customers may face financial difficulties. In addition, where patients, directly or indirectly (such as through private health insurance premiums), are responsible for all or part of the costs of laboratory tests, individual decisions to reduce out-of-pocket healthcare expenditures may result in weaker demand for Labco's services.

The economic recession and the volatility generated by the economic and financial crisis that began in 2007 have increased the risk associated with conducting Labco's business in certain countries where it has significant operations, such as the risk of customers defaulting on their payments. Economic difficulties have also given rise to weaker levels of activity and higher unemployment and have led governments, private insurers and other organizations to reduce their healthcare spending, which may curb Labco's revenue or margins. Moreover, competition and pricing pressures tend to increase during such periods, which may reduce Labco's ability to win additional outsourcing contracts and may require it to agree to the renegotiation of contracts on less favorable terms (see "*Risk Factors—Risks Related to Our Commercial Activities*").

Tough economic conditions can, however, have a positive impact on the outsourcing of clinical laboratory testing insofar as the roll-out of cost-cutting or deficit reduction plans may prompt companies or public-sector institutions to outsource clinical testing services more rapidly and to a greater extent. Likewise, price cuts in Spain have, for example, been offset by volume growth owing to an increase in the number of patients relying on private healthcare plans. Labco believes this trend reflects the erosion of trust in the public health insurance system and a poorer quality of service provided by the public healthcare systems amid fiscal austerity.

Specific Impact of Volume and Price Effects

Like most businesses providing healthcare services, Labco's performance, particularly the organic growth in its business, is influenced by the combined effects of trends in volumes and the average price per file, which is in turn affected by pricing trends and the nature of the clinical testing performed (the "Mix Effect"). Volume growth flows from macroeconomic trends and developments in society with the aging of the population, the increase in chronic conditions and a shift towards preventative and personalized medicine, for which diagnosis is crucial. In many countries where Labco operates, services are delivered to patients under healthcare programs funded at least to some extent by public organizations that set prices or a method of determining prices covering all or some of the clinical laboratory testing services that Labco provides. These prices vary significantly from one country to another. Prices may be changed at any time, and recent price revisions have generally resulted in price reductions.

Amid the tough economic environment prevailing in Europe, governments and public-sector payers took additional measures to reduce their overall health spending over the period between 2011 and 2014, including the clinical laboratory testing services provided by the Labco Group. Governments typically control healthcare expenditure by cutting prices or reimbursement levels, seeking to reduce the number of tests prescribed by doctors, and limiting the testing services covered by their health, protection and social security programs.

These measures, particularly those capping or reducing the prices that Labco is allowed to charge for its services or totally excluding some of its services from the scope of reimbursed health services, have a negative impact on clinical testing volumes and the prices that can be charged for these tests, which adds to a negative impact on Labco's revenue. In addition, the date from which price reductions and other measures intended to cut health spending may also affect comparisons between Labco's results and the size of these reductions in a given period.

Since 2011, many European governments, particularly those in France, Spain, Portugal, Germany, Italy and the United Kingdom, have introduced or announced their intention of introducing austerity measures with a view to reducing public spending, including health expenditure. In France, for example, the government announced its intention of securing at least €110 million in mandatory annual savings on health expenditure from French clinical laboratory testing services in 2012. However, an agreement was signed on October 10, 2013 by the main French biologists' trade unions and UNCAM. The purpose of the agreement is to give clinical laboratories visibility on their financial prospects over a three-year period and to facilitate control over public healthcare spending. This led to a three-year agreement setting annual growth in clinical laboratory spending at 0.25% for the period 2014 to 2016. This target will be achieved by reductions in prices to be spread over the period, and control of prescriptions, in order to offset the natural growth in volumes. Trade unions meet with UNCAM every six months, in order to assess the impact of changes in prices and determine what future changes may be necessary to meet the annual growth target.

In Portugal, the "Memorandum of Understanding on Specific Economic Policy Conditionality" between the European Commission, the International Monetary Fund and the European Central Bank in 2011 was enacted in response to the economic bailout, which resulted in financial aid of €78 billion on the basis of a three-year political program until mid-2014. Labco believes that this program, which included the aim of reducing national spending on healthcare by 10% in each of 2011 and 2012, has resulted in price reductions in excess of 10% for certain tests in Portugal since October 2011. In addition, two public health insurance funds aligned their prices in Portugal during 2012, which has led, in Labco's opinion, to price cuts applicable to certain tests there since August 2012. In Italy, where prices are set on an indicative basis at the national level and subject to adjustments at the regional level, prices in Liguria were lowered in October 2012, and a new reduction of 20% to 30% for molecular imaging services was agreed in 2013. Campania also adopted lower prices in March 2013.

Labco must also contend with efforts by nongovernmental third-party payers (mainly private health insurers) to reduce the utilization and reimbursement of clinical laboratory testing services. In certain markets, Labco receives payment for its services from private health insurers that have gained significant bargaining power by reimbursing healthcare services only if such services are provided by pre-selected providers. These private health insurers negotiate fee structures with healthcare providers, including clinical laboratories, and certain private health insurers have insisted on discounted fee structures as a condition for pre selection in the past and may insist on further discounted fee structures in the future. If Labco is not preselected by private insurers, or is required to accept unfavorable terms to secure such preselection, its results of operations may be adversely affected. For example, four private insurance customers in Spain accounted for a significant portion of Labco's Spanish revenue in 2014. A major Spanish private health insurer, for which Labco is a preselected provider, introduced significant prices cuts in the first half of 2012. Another major Spanish private health insurer also decided to introduce significant prices reductions effective January 2013.

Pressure from private health insurers in other areas of the healthcare sector may also affect Labco indirectly. Private health insurers have exerted pricing pressure on private hospitals which, in turn, have exerted pricing pressure on Labco.

Influence of the Legislative and Regulatory Environment in which Labco Operates

Labco is subject to significant regulation and control by various regulatory organizations and must adapt to frequent legislative and regulatory changes at both national and European level. These regulations mainly pertain to operating standards, professional qualifications of laboratory personnel, ownership and corporate governance constraints on companies operating clinical laboratories, and pricing and reimbursement levels of clinical laboratory tests. The changes made to the law and the regulations have had in the past, and may continue to have in the future, a significant impact on Labco's results of operations. In particular, compliance by laboratories with operating standards and the professional qualifications of laboratory personnel may drive up Labco's payroll-related, administrative, legal and operating costs.

Until the publication on January 13, 2010 of the ordinance relating to medical biology (*ordonnance n°2010-49 relative à la biologie médicale*), the scope for consolidation in the French market was severely restricted by limitations placed on the number of clinical laboratories that could be operated by a single laboratory company, while restrictions on outsourcing volumes gave rise to operational inefficiencies. Since the date of entry in force of the ordinance, these restrictions have been eased (it being underscored, however, that a SEL is not allowed to operate more than five clinical laboratories, the number and location of the sites of a clinical laboratory may be limited and the number of tests that can be outsourced by one clinical laboratory to another for analysis and interpretation every year is limited to 15% of the total number of tests carried out by the outsourcing laboratory), making it possible to (i) restructure the portfolio of clinical laboratories in France, (ii) set up technical platforms that have enabled and will continue to enable Labco to unlock economies of scale by increasing the volume of tests performed and by maximizing returns on testing equipment and personnel, and (iii) bring back in-house certain specialty tests that were previously outsourced. As a result, Labco's results of operations have improved. As outlined in "*Regulation—France*," the Law of 30 May 2013 amended the ownership rules concerning clinical testing laboratory companies in France. The Law of 30 May 2013 may limit Labco's ability to sell or transfer shares in SELs that it holds or that it may acquire in the future, and render more complex any restructuring it might consider for its subsidiaries. The Law of 30 May 2013 extended the French regional health authorities' oversight of compliance with the concentration rules in a given geographical region and clarified the fact that a natural person or a legal entity could not hold a share exceeding 33% of the testing market in this area, either directly or indirectly, through majority ownership of the capital of several clinical laboratory companies the combined business of which represents more than 33% of the testing market in this area.

Furthermore, the ordinance of January 13, 2010, as amended by the Law of 30 May 2013, instituted minimum accreditation standards that clinical testing laboratories must satisfy between 2016 and 2020, the implementation of which will be costly, time and resources consuming for the Labco Group (see "*Regulation—France*"). It requires 50% of the clinical testing performed by each laboratory to be accredited from November 1, 2016, 70% from November 1, 2018 and 100% from November 1, 2020. Expenses related to the management of quality and accreditations excluding payroll-related costs amounted to €1.1 million in the year ended December 31, 2014, compared with €0.74 million in the year ended December 31, 2013.

In addition, since the clinical sector is VAT exempt, clinical testing laboratories must pay VAT, thereby recognizing operating costs inclusive of VAT. VAT rates, the amount of taxes on sales and other similar taxes may be increased, especially in the current economic and political climate, with certain European governments seeking to raise more revenue from direct and indirect taxation. For example, certain VAT rates were increased in France on January 1, 2014, with the standard rate being raised from 19.6% to 20.0%, which gave rise to additional purchasing costs for French clinical testing laboratories, barring renegotiations with suppliers to agree improved terms and conditions to fully or partially offset the impact of the 0.4% increase in the VAT rate (see "*Risk Factors—Risks Related to Taxation—We are exposed to risks related to VAT and French payroll tax*").

Raw materials and products used in clinical laboratory testing services in Spain will no longer qualify for the reduced rate of VAT. See "*Business—Labco's Core Markets—Overview of Labco's Southern European Market—Spain*."

In addition, deferred taxes have been capitalized to reflect the future tax savings arising from differences between the carrying amount of assets and liabilities and their tax base, and deferred tax losses from Labco's subsidiaries. Future crystallization of these assets will depend on tax rules, the outcome of the possible tax audits and the future results of the relevant subsidiaries. As of December 31, 2014, the value of the deferred taxes recognized as assets amounted to €10.9 million, of which €4.8 million derived from tax loss carryforwards. It is possible that the value of these assets will decline following changes in the tax rules.

Expansion of Labco's Network of Clinical Laboratories through Acquisitions and Dispositions

During the period covered by the financial statements included elsewhere in this offering memorandum, acquisitions accounted for a significant portion of Labco's overall expansion strategy. As a result, acquisitions and sales have been, and probably will in the future be, a key factor to take into consideration when analyzing Labco's operating performance.

Since 2009, Labco has primarily made acquisitions of small clinical laboratories, which may be closed down or converted into Sampling Centers to unlock significant synergies in the short term. Labco has also dedicated more substantial resources to integrating its recent acquisitions.

During the years ended December 31, 2011, 2012, 2013 and 2014, Labco completed 35, 16, 11 and 16 acquisitions, respectively, of groups of companies, individual companies or small or medium-sized clinical laboratory businesses, primarily in France, for a total consideration net of cash acquired (excluding earn-outs) of €97.2 million, €45.2 million, €20.4 million and €130.2 million, respectively, with its acquisition of the SDN Group representing €107.6 million. For the current fiscal year, Labco has made ten acquisitions, seven of which were in France. Earn-out payments linked to Labco's acquisitions may turn out to be significant. As of December 31, 2014, the estimated fair value of liabilities linked to earn-out payments (fixed or subject to performance conditions) amounted to €11.5 million.

The following table provides an overview of the types of acquisitions which Labco completed as a percentage of total acquisitions during the periods indicated:

	Year ended December 31,			
	2011	2012	2013	2014
Medical enhanced content(1)	6%	—	9%	50%
Technical platforms(2)	11%	13%	—	—
Bolt-ons(3)	83%	88%	91%	50%

(1) Acquisitions that allow Labco to acquire new scientific or technological capacities (such as molecular biology, nuclear medicine and anatomopathology).

(2) Acquisitions of platforms that centralize the processing of test samples from collection centers, small laboratories and hospitals.

(3) Acquisitions of smaller laboratories that are accretive to Labco's networks.

Between 2012 and 2013, Labco did not make any large acquisitions and, at the same time, scaled down the number of such acquisitions it made compared with 2011 for various reasons. Firstly, Labco suspended its acquisition program in Italy, Spain and Portugal until the economy picked up again in late 2013 so that it could instead focus on organic growth and on restructuring its business portfolio. Labco decided to pull out of the German market in the summer of 2013, since it was unable to identify any growth opportunities to quickly achieve critical mass in the German market. Lastly, the economic, regulatory and tax-related uncertainties in France prompted hesitancy among the major players, sparking a sharp slowdown in merger and acquisition activity in clinical diagnostics. Against this backdrop, the number of opportunities for the Labco Group and that of completed transactions decreased significantly.

Even so, on October 25, 2013, Labco acquired almost all of Sodexo's holdings in the iPP joint venture, set up jointly to expand outsourcing of the clinical diagnostics business for the NHS in the United Kingdom. iPP commenced its operations on June 1, 2012 under the contract with Taunton and Somerset NHS Foundation Trust and the Yeovil District Hospital NHS Foundation Trust. Since iPP is now controlled by the Labco Group, it has been fully consolidated in the Labco Group's accounts since October 25, 2013, while the net profit of the iPP joint venture was previously recognized in the "share of profit of associates" line item of Labco's income statement.

Labco completed a major acquisition in Italy on July 30, 2014 by acquiring SDN S.p.A. and its four subsidiaries, which are active in Naples and Campania, making Labco a market leader in the Italian market and bolstering its activities in integrated diagnostics, especially in molecular imaging. The SDN Group generated revenue of €48.0 million in the year ended December 31, 2014, with margins ahead of the Labco Group's average.

As part of Labco's overall strategy, it regularly evaluates its business portfolio and from time to time may sell non-core activities and those regarded as less profitable. During the summer of 2013, Labco completed a strategic review of its operations in Germany and decided to pull out of the German market for the time being to focus on national markets in which it has achieved or may shortly achieve a leadership position, significant market share or a distinctive positioning. Labco therefore sold its business activities in Germany to Sonic Healthcare on December 2, 2013 and, in compliance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*), the cash-generating unit sold was restated under "*discontinued operations*" in the 2012 and 2013 periods in its consolidated financial statements for the year ended December 31, 2013.

Acquisitions and disposals affect Labco's results of operations in different ways. Firstly, Labco's results during periods in which an acquisition takes place may be affected by the inclusion of results from the businesses acquired in the consolidated results from the date on which control is gained, which is generally when ownership of the shares changes hands. Similarly, disposals affect group results, since the divested entity is no longer consolidated from the date control is lost. The acquisitions that Labco made in 2012, 2013 and 2014 contributed approximately to 2.3%, 2.1% and 4.5%, respectively, to its revenue for the years ended December 31, 2012, 2013 and 2014. Subsequently, the results of the periods are positively impacted by the synergies plus the immediate effect of the inclusion of results from the businesses acquired in the consolidated results. For example, acquisitions can harness economies of scale in procurement through the pooling of purchasing volumes with suppliers to secure rebates in return for larger volumes.

Labco acquires clinical laboratories with limited property, plant and equipment assets for a consideration that in many cases exceeds their net assets, which leads to significant amounts of goodwill being recognized on its statement of financial position (€702.4 million as of December 31, 2014). Labco evaluates the recoverability and measures the potential impairment of goodwill annually or at interim closing dates if an impairment indicator is identified and may recognize charges in case of impairment. Following the annual goodwill impairment review, Labco recognized a €36 million impairment loss allocated to the cash-generating unit in Germany as of December 31, 2012. No impairment loss was recognized in 2013 or 2014. For further information about the analysis of goodwill impairment and corresponding sensitivity analyses, see Note 13 "*Goodwill*" to Labco's audited consolidated financial statements for the year ended December 31, 2014 included elsewhere in this offering memorandum.

Labco intends to continue its expansion drive to improve its geographical coverage and increase the density of its network of clinical laboratories. This development is expected to consist of selective acquisitions of clinical laboratories in each of the markets in which Labco is present. Labco also intends to pursue further development in specialty testing, such as genetic testing and other clinical diagnostics, including anatomical pathology and radiological testing for integrated diagnosis, by making selective acquisitions or forging commercial partnerships with biotechnology companies. In addition, Labco may consider selling laboratories in some markets or regions through dynamic management of its asset portfolio, in order to focus on national markets or regions in which it has achieved or may shortly achieve a leadership position, significant market share or a distinctive positioning.

Organic Growth

Labco's results of operations are also affected by organic growth in its various businesses, varying from one type of business and one geographical market to another. Labco determines organic growth between one given financial period and an earlier comparative financial period by calculating the growth in revenue excluding the consolidation perimeter effects arising from acquisitions and disposals completed in either of the financial periods under comparison. In particular, when Labco analyzes organic growth in revenue between one accounting period ("period n") and the prior comparative accounting period ("period n-1"), the impact of consolidation perimeter effects are determined as follows:

- organic growth for acquisitions that took place during financial period n-1 is calculated by comparing revenue in period n with *pro forma* revenue in period n-1 adjusted for the effects of acquisitions (i.e., by adding back revenue from the acquisitions made during the period prior to the date on which the relevant operations were added to the scope of consolidation). The full-year contribution from the acquisitions made during financial period n-1 consists of the estimate of revenue recognized by the newly acquired companies prior to the date on which they were added to the perimeter of consolidation;
- organic growth for acquisitions that took place during period n is calculated by subtracting revenue generated by the businesses acquired between the date on which they joined the perimeter of consolidation and the end of period n; and
- the percentage of organic growth is then calculated as the ratio of revenue in period n restated for the acquisitions completed during period n/*pro forma* revenue in period n-1 adjusted for the impact of the acquisitions.

In addition to organic growth, Labco analyzes its results by considering the estimated consequences for revenue of differences in the number of working days between two periods.

Between 2012 and 2014, given the challenging economic conditions prevailing in Europe and additional measures taken to reduce healthcare spending by various governments (see "*—General Economic Conditions and Legal Framework—Specific Impact of Volume and Price Effects*"), volume growth was offset by pricing pressures, paving the way for organic growth of 1.8% between 2012 and 2013 and 3.4% between 2013 and 2014.

Cost Structure and Operating Performance

Synergies and cost reductions have a crucial bearing on Labco's profitability because they help to offset some of the downward pressure on prices brought to bear by governments and third-party payers, which may negatively impact its revenue.

Since 2011, Labco has consolidated small clinical laboratories into larger entities and pooled testing volumes at more efficient technical platforms in all the countries in which it operates. Various mergers took place in 2011 (15 entities merged with another in France, seven in Iberia and one in Germany), in 2012 (14 entities merged with another in France, four in Iberia and one in Italy), in 2013 (17 entities merged with another in France, seven in Iberia and one in Germany), and in 2014 (five entities merged with another in France and eight in Iberia). Mergers pave the way for significant economies of scale.

Labco regularly introduces measures to reduce costs across all expense categories. In particular, to reduce raw materials costs and protect its margins against the backdrop of price reductions imposed on the clinical laboratory testing market in a number of countries, it implemented the pan-European Strategic Procurement Optimization and Rationalization project ("SPORT") in 2009, which has resulted in a reduction in procurement costs by cutting the number of suppliers Labco works with and by securing better commercial terms through the use of framework agreements, especially for purchases of the chemical reagents used in clinical laboratory tests. For example, in late 2012, Labco held European and national calls for tenders to choose two preferred suppliers of reagents and clinical laboratory equipment in each testing category (such as biochemistry and bacteriology), which has gradually allowed it to benefit from more favorable commercial terms, thereby generating significant savings.

The "Safe" project initiated in June 2010 enabled Labco to reduce its operational staff costs through a hiring freeze and laboratory headcount reductions.

Labco also implemented the "Deep Dive" program during 2012 and 2013, which involved a full, detailed review of its operations in France in order to initiate a workforce optimization plan that led to the reduction of 67 full-time employee positions over two years.

Lastly, since the fourth quarter of 2011, Labco has implemented major restructuring plans in Spain and Portugal. Labco's headcount in Spain and Portugal was reduced through cutbacks in support functions and consolidation of laboratories. For example, Labco grouped most of its facilities in Portugal in the cities of Lisbon, Faro and Porto. During 2013, further restructuring was implemented in Spain in the context of contractual renegotiations with a major customer leading to a major reorganization of the operations of the laboratories handling the contract in line with customer service requirements and, to a lesser extent, a reorganization of the headquarters functions. In late 2014, a restructuring plan was implemented in order to consolidate all sites in the Barcelona region in Spain within the new building purchased in October 2014. Labco expects the new site and the related overhaul of logistics to enable it to manage volume growth.

In Italy, the activities of the CAM laboratory were reorganized with the consolidation of the various sites at a unique facility in Elvezia, Monza, which was optimized and endowed with cutting-edge equipment in late 2012.

Even so, these initiatives may lead in certain cases to restructuring costs, impairment losses, redundancy costs and litigation costs.

Seasonality

Seasonality of Revenue and Results of Operations

Labco's revenue and results of operations are exposed to seasonal fluctuations owing to the impact of vacation periods, particularly in the summer, on the activities of certain laboratories and the impact of challenging weather conditions, if any, during the winter period. The effect of this seasonal impact varies between the countries in which Labco is present.

Seasonality of Changes in Labco's Working Capital Requirements

Labco's working capital requirements are also subject to seasonal fluctuations owing to the impact of vacation periods on the aforementioned activities and the seasonal effects of payments by its principal customers, in particular public-sector or public-private organizations, such as INAMI in Belgium and the ASL regional health insurance funds in Italy, which tend to settle all the amounts they owe for the year on December 31. As such, more cash is required to cover Labco's working capital requirements over the first nine months of the financial year, while in the fourth quarter it enjoys the benefit of the cash generated by the working capital. In addition, the seasonal effect on cash used as or generated by working capital usually tends to increase from one year to the next owing to (organic or acquisition-led) growth in consolidated annual revenue.

Factors Affecting Comparability

Disposal of Labco's German Operations

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from September 30, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated financial statements as of and for the year ended December 31, 2013, the contribution of its German operations appears separately under the line item "net profit of the period from discontinued operations" rather than under each line item where such contribution was previously recorded, and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated financial statements was restated. Labco has not restated its consolidated financial statements as of and for the year ended December 31, 2012, and such financial statements are therefore not directly comparable with its financial statements as of and for the year ended December 31, 2013.

Acquisition of the SDN Group

Labco completed the acquisition of the SDN Group on July 30, 2014. See "*—Principal Factors Affecting Labco's Results of Operations—Expansion of Labco's Network of Clinical Laboratories through Acquisitions and Dispositions*" and "*Business—Labco's Core Markets—Overview of Labco's Southern*

European Market—Italy.” The financial results of the SDN Group have been included in Labco’s financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco’s results as of and for the years ended December 31, 2013 and 2014 are not directly comparable. In addition, Labco’s results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group’s results are fully consolidated in Labco’s results of operations for the three months ended March 31, 2015. Labco’s results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

Labco has included in this offering memorandum *pro forma* financial information for the year ended December 31, 2014, which gives *pro forma* effect to the acquisition of the SDN Group as if such acquisition had occurred on January 1, 2014. See “*Labco Unaudited Pro Forma Financial Information*.”

IFRIC 21 (Levies) Restatement

Since January 1, 2015 Labco has applied IFRIC 21 (*Levies*) with impacts to its results of operations recognized retrospectively in accordance with IAS 8 (*Accounting Policies, Changes in Accounting Estimates and Errors*). IFRIC 21 provides guidance on recognition of a liability to pay taxes (except for income taxes). IFRIC 21 modifies existing practices for the payment of annual taxes, which, for an entity, is triggered by being in operation on a certain date or by achieving a certain level of activity. The impact of IFRIC 21 on the Labco Group is limited to the time at which it recognized a French levy known as “C3S” (*contribution sociale de solidarité des sociétés*). To improve the comparability of Labco’s results of operations for the three months ended March 31, 2015, its consolidated statement of income for the comparative period of March 31, 2014 has been restated in order to reflect the impact of IFRIC 21 on the gross amount (excluding deferred tax effect of €0.1 million), which amounts to €0.4 million in other operating expenses. The application of IFRIC 21 has no impact on cash flow from operating activities as the corresponding reduction in EBITDA is offset by an increase in other current liabilities.

Description of Key Income Statement Items

Revenue

Labco generates revenue from a wide range of clinical or diagnostic services that are paid for by private insurers, hospitals, patients, pharmacies and national health insurance funds. These services include clinical laboratory testing, consisting of both routine and specialty testing, anatomopathology diagnostics, histologic and cytologic testing, as well as imaging services including medical imaging and molecular imaging (mainly in Italy). It also consists of other revenue, which mainly comprises interest received on trade receivables and revenue generated by activities not directly related to clinical testing and medical imaging services.

Revenue from clinical laboratory testing and medical imaging services is stated at the fair value of the consideration received or receivable net of returns, trade rebates and volume discounts. Revenue from services is recognized when the service is rendered. Revenue is based on the net amount invoiced or “invoiceable,” where this may be estimated reliably. Where it seems probable that a discount will be granted and that its amount can be estimated reliably, the discount is accounted for as a reduction in total revenue when the sale is recognized.

The process of estimating the ultimate collection rate of the receivables generated by the clinical laboratory testing business requires the use of significant assumptions and judgments. Services that are reimbursed by third-party payers, including social security systems, are recognized under revenue net of allowances to provisions for the difference between the invoiced amount and the estimated amount of the reimbursement receivable from these third-party payers. Adjustments to these provisions based on actual reimbursements by third-party payers are accounted for upon their payment as an adjustment to net total revenue.

Public-Sector Third-Party Payers

Payments made by public-sector agencies for clinical laboratory testing services are based on pricing scales drawn up by the public authorities. Collection times for these receivables usually depend on full and accurate information being furnished in accordance with the various reporting deadlines. Collection times vary from one country to another.

Private Insurers

Reimbursements by private insurers are based on negotiated fee-for-service schedules and on capitated payment rates.

Substantially all of the accounts receivable due from private insurers represent amounts billed under negotiated fee-for-service arrangements. Labco uses a standard approach to establish allowances for doubtful accounts for such receivables that considers the aging of the receivables, historical collection experience and other factors.

Client Payers

Client payers include doctors, hospitals, employers and other commercial laboratories. The credit risk and ability to pay are more of a consideration for these payers than private insurers and government payers. Labco uses a standard approach to establish allowances for doubtful accounts for such receivables that considers the aging of the receivables as well as specific account reviews, historical collection experience and other factors.

Patients (Individuals)

Patients are charged based on the established patient fee schedules, subject to any limitations on fees negotiated with the mutuals or doctors on behalf of their patients. The collection of receivables due from patients is subject to credit risk and ability of the patients to pay. Labco uses a standard approach to establish allowances for doubtful accounts for such receivables that considers the aging of the receivables, historical collection experience and other factors.

Countries and regions in which Labco operates experience different demand trends owing primarily to their public health management models and local economic conditions.

See "Business—Labco's Customers."

Cost of Sales

Labco's cost of sales consists primarily of variable costs given the high proportion of raw materials costs (chemical reagents) and outsourced tests, and to a lesser extent, transport and logistics costs. The main components of this cost of sales are as follows:

- chemical reagents used to perform the clinical laboratory tests purchased from suppliers in the health diagnostics industry (Beckmann, Abbott, Roche and Siemens);
- supplies and consumables such as tubes, needles, special conditioning used to collect samples or to condition the samples so that they can be processed on automated equipment or diagnostic devices;
- analyses outsourced to other clinical testing laboratories, particularly certain specialty tests that Labco is unable or not authorized to perform;
- pre-testing sample collection, where this is not carried out by Labco; and
- transport and collection costs related to the waste generated by the clinical testing business.

The rebates granted by certain suppliers, primarily suppliers of reagents and consumables and specialty testing laboratories, are accounted for as reductions in the cost of purchasing raw materials, supplies and outsourced tests.

Payroll-Related Expenses

Payroll-related expenses consist of fixed and variable wages and salaries, temporary staffing costs, social security contributions and other salary-based taxes (such as the *taxe sur les salaires* in France), pension contributions or estimated service costs for provisions for post-employment benefit schemes in France recognized in accordance with IFRS IAS 19 and any other expenses payable to employees, such as mandatory employee profit-sharing in France, or related to employees, such as travel expenses. They also consist of the fixed and variable remuneration paid to laboratory doctors under various legal forms, either compensation paid as salary or fees or, mainly for French laboratory doctors, the priority dividends based on current-year profits for the variable portion.

As explained in Note 3.1.1 to Labco's consolidated financial statements for the year ended December 31, 2014 included elsewhere in this offering memorandum, the priority dividends due to be paid to certain laboratory doctors in the following year are recognized as employee benefit expense and a liability in the current year.

Share-Based Payments

Expenses related to share-based payments represent expenses to be recognized under IFRS 2 and correspond to the estimated theoretical costs of the benefit that employees may gain from the equity instruments ("BSA" warrants or free shares) granted to them as employees performing services to the Group. These expenses also include, eventually, social security expenses to be paid for such granted shares.

Other Operating Expenses

Other operating expenses mainly include:

- rent and service charges related to premises, equipment and vehicles;
- maintenance and repair expenses, particularly for testing equipment and systems, as well as insurance costs;
- taxes other than on income and in particular land tax and business tax. In France, this category also covers CET (*Contribution Économique Territoriale*), one of the business levies in France, but not the CVAE (*Cotisation sur la Valeur Ajoutée des Entreprises*) business levy. These two levies were both introduced in France on January 1, 2010. The business tax payable by French subsidiaries prior to January 1, 2010 was replaced by the CET and CVAE levies. CET is recognized under "*Taxes other than on income*," while CVAE is accounted for under "*Income tax*";
- expenses and professional fees, such as lawyers', audit and consultants' fees;
- sales, marketing and quality expenses (since the clinical laboratory testing industry is highly regulated and particularly so in France with the obligation to secure accreditation based on strict standards, Labco incurs quality-related expenses); and
- administrative expenses and allowances for doubtful accounts or inventories, when proven and definitive.

Transaction Costs for Usual Small Size Acquisitions

Under IFRS 3 (revised), transaction costs related to acquired entities have been recorded since 2008 in the consolidated statement of income together with those related to abandoned deals. Given the non-operational, irregular and non-recurring nature of these costs, they are shown on a separate line of the consolidated statement of income, and depending on the amount of costs incurred per acquisition project, they are qualified as transaction costs for usual small size acquisitions recorded as other operating expenses, or they are qualified as transaction costs for significant and unusual transactions recorded as non-recurring operating expenses in the line perimeter effect.

EBITDA

EBITDA is defined as operating income before non-recurring items restated for depreciation and amortization, impairment losses and additions to provisions net of reversals.

Under IFRS, EBITDA does not have to be shown on a separate line of the statement of income. EBITDA does not necessarily represent a useful measure of Labco's financial condition, liquidity or profitability and should not be considered as an alternative to the results determined in compliance with IFRS for the period, the cash flows determined in compliance with IFRS or any other measure provided for in compliance with IFRS.

EBITDA may be used to compare Labco's performance using consistent criteria over the various periods concerned insofar as it eliminates the impact of items that are not directly related to operating performance even though it includes certain non-operating and unusual items such as share-based payments and transaction costs for usual small size acquisitions, which have been shown on separate lines. Labco believes that EBITDA is a useful measure insofar as it provides the same information as that used by its management to assess its performance. Even so, EBITDA has a number of limitations as an analytical tool and should not be considered in isolation or instead of an analysis of Labco's results from operating activities. Since other market participants may not calculate EBITDA in the same manner, the EBITDA shown by Labco may not be comparable with the figures provided by other companies under the same heading.

Depreciation, Amortization, Impairment Losses, Provisions and Reversals

Depreciation and amortization reflects the normal wear and tear of property, plant and equipment and intangible assets, including the amortization of intangible assets recognized upon consolidation in respect of fair value adjustments to assets and liabilities within twelve months of an acquisition. Current operating provisions reflect allowances to and reversals from provisions for disputes with employees, customers or third parties and restructuring expenses incurred in the normal course of Labco's business. This also includes allowances for doubtful accounts and inventories to cover the risks of non-collection of receivables or impairment of inventories. Where the risk of impairment is proven, the provisions are reversed, and a definitive impairment loss is recognized under other operating expenses.

Non-Recurring Income and Expenses

Non-recurring income and expenses consist of income and expenses that are not considered to be generated or incurred in Labco's recurring operating activities. This line item primarily reflects impairment losses on goodwill and other non-operating non-current assets, significant non-recurring restructuring costs, provisions for major litigation, expenses incurred through the restructuring of Labco's debt, the transaction costs related to significant and unusual acquisitions involving consolidated subsidiaries, whether or not the planned transaction is abandoned or goes ahead, changes in the fair value of earn-out payments after the one-year evaluation period, and capital gains and losses on the disposal of non-current assets or of investments in consolidated companies.

Net Finance Costs

Net finance costs is the sum of financial expense and income and primarily includes (i) interest on outstanding amounts of existing debt, particularly the amounts outstanding on Labco's bonds, revolving credit facility and bank loans and factoring programs, (ii) interest payable on finance leases, (iii) gains and losses caused by fluctuations in exchange rates, (iv) the impact of fair value adjustments on financial instruments held to cover interest rate risks, (v) the interest cost of post-employment benefit obligations and (vi) income from cash equivalents.

Income Tax Expenses

Income tax expenses consist of (i) tax paid on income in all the countries in which Labco operates, including the tax on production activities in Italy (*Imposta Regionale sulle attività produttive*) and the CVAE in France, and (ii) any changes in the net deferred taxes accounted for on Labco's statement of financial position.

Share of Profit of Associates

The share of profit of associates represents the share in the profit after tax of associates attributable to the Labco Group.

Net Profit from Discontinued Operations

Net profit from discontinued operations represents the net profit generated by operations classified as discontinued pursuant to IFRS 5 and thus shown on a separate line of the income statement. A discontinued operation under IFRS 5 is a cash-generating unit (i.e., a component of an entity with activities and cash flows that can be distinguished for operational and financial reporting purposes) representing either a separate major line of business or a geographical area of operations in respect of which a single coordinated plan to dispose has been drawn up. The net profit of the German entities in the relevant periods has therefore been reclassified under this heading for the years 2012 and 2013.

Results of Operations

Comparison of the Three Months Ended March 31, 2015 and March 31, 2014

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Labco's results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group's results are fully consolidated in Labco's results of operations for the three months ended March 31, 2015. Labco's results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

The following table summarizes the historical results of Labco's operations for the three months ended March 31, 2015 and 2014. The financial data below has, in part, been derived from and should be read in conjunction with Labco's Unaudited Interim Financial Statements included elsewhere in this offering memorandum.

	Three months ended March 31,					
	2014 (restated)	%	2015	%	Variation	%

Total Revenue

Total revenue increased by €29.2 million, or 19.3%, to €180.2 million for the three months ended March 31, 2015 from €151.0 million for the three months ended March 31, 2014. On a constant perimeter basis, total revenue increased by €10.1 million, or 6.0%, over the same period. This increase was primarily due to the full-year contribution of acquisitions completed in 2014, particularly the impact of the acquisition of the SDN Group in Italy on July 30, 2014, as well as organic volume growth, the commencement of Labco's outsourcing operations under the agreement with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust, and the favorable Mix Effect recorded in most countries in which Labco operates. This increase was partially offset by the challenging economic environment in Iberia and price reductions in most countries in which Labco operates, particularly in France and Italy.

The following table provides a breakdown of total revenue by country and as a percentage of Labco's total revenue for the three months ended March 31, 2015 and 2014, as well as an analysis of the increase in total revenue between organic growth (at comparable perimeter) and growth including changes in the perimeter of consolidation (at current perimeter) for each segment and for the Labco Group as a whole.

	Three months ended March 31,				% Variation	
	2014 (restated)	%	2015	%	Unadjusted Perimeter	Constant Perimeter
	(€ millions except for %) (unaudited)					
Total revenue						
Northern Europe	101.1	67.0	112.1	62.0	10.9	7.0
France	88.6	59.0	89.6	50.0	1.2	(2.4)
Belgium	7.4	5.0	8.6	5.0	15.7	8.5
United Kingdom	4.6	3.0	13.3	7.0	188.5	188.5
Switzerland	0.4	0.0	0.6	0.0	31.5	31.5
Southern Europe	49.9	33.0	68.1	38.0	36.4	4.4

Italy	10.0	7.0	26.5	15.0	166.6	5.0
Total	151.0	100.0	180.2	100.0	19.3	6.0

Northern Europe

Total revenue for Labco's Northern Europe segment increased by €11.0 million, or 10.9%, to €112.1 million for the three months ended March 31, 2015 from €101.1 million for the three months ended March 31, 2014. This increase was primarily due to the commencement of Labco's outsourcing operations under the agreement with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust and to a lesser extent by acquisitions completed during the period, particularly in France and Belgium during 2014 (full-year contribution).

Total revenue in France increased by €1.1 million, or 1.2%, to €89.6 million for the three months ended March 31, 2015 from €88.6 million for the three months ended March 31, 2014. This increase was primarily due to the full-year contribution of acquisitions completed in 2014, and the favorable Mix Effect, partially offset by the annual reduction in prices applied by the French Health Authority of 2.3% in April 2014 and by the effect of a general practitioners' strike in January and February 2015 which led to a slowdown in activity. Labco made one acquisition during the three months ended March 31, 2015, which had no impact on its total revenue for the period given the date of the acquisition. The full-year contribution made by businesses acquired in 2014 amounted to €3.3 million. Organic growth was negative 2.4%, reflecting the impact of the reduction in the tariffs applied by the French Health Authority of around 2.3% in April 2014 and a slight slowdown of activity in January and February 2015 primarily due to the impact of the general practitioners' strike. Due to the slowdown of activity noticed by the industry in France for the three months ended March 31, 2015, and as part of the three years agreement with UNCAM, the adjustments in price applied by the French Health Authority initially expected in April 2015 have been postponed.

Total revenue in Belgium increased by €1.2 million, or 15.7%, to €8.6 million for the three months ended March 31, 2015 from €7.4 million for the three months ended March 31, 2014. This increase was primarily due to expansion in nutritional testing and, to a lesser extent, growth in routine testing, and to the full-year contribution of an acquisition completed in 2014 which amounted to €0.5 million. Organic growth was 8.5%. The acquisition made during the three months ended March 31, 2015 had no impact on Labco's total revenue for the period given the date of the acquisition.

Total revenue in the United Kingdom increased by €8.7 million to €13.3 million for the three months ended March 31, 2015 from €4.6 million for the three months ended March 31, 2014. This increase was primarily due to the commencement of the operations of iPP Analytics and iPP Facilities on October 1, 2014 under the laboratory services outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust. Those two entities contributed €9.0 million to Labco's total revenue for the three months ended March 31, 2015, which included one month of revenue from the site and material management part of the outsourcing contract with Taunton and Somerset and Yeovil District Hospital which was previously managed by iPP. This contract was amended and restructured into two separate contracts, one regarding site management and material (relating to the provision of material, reagents, consumables and support functions) managed by iPP Facilities, which came into effect in early March 2015, and the other regarding the provision of staff (relating to the provision of technical teams) which remains managed by iPP. Labco UK, which manages the subcontracting contract for the Fresenius group's clinical diagnostic testing business, also increased its revenue primarily due to higher volumes.

Total revenue in Switzerland increased by €0.1 million, or 31.5%, to €0.6 million for the three months ended March 31, 2015 from €0.4 million for the three months ended March 31, 2014.

Southern Europe

Total revenue for Labco's Southern Europe segment increased by €18.2 million, or 36.4%, to €68.1 million for the three months ended March 31, 2015 from €49.9 million for the three months ended March 31, 2014. This increase was primarily due to the €15.8 million contribution by the SDN Group in Italy to Labco's total revenue for the three months ended March 31, 2015, which was acquired on July 30, 2014, and the full-year contribution of €0.4 million from businesses acquired during 2014 in Iberia. Organic growth was 4.4%, reflecting volume growth, continued expansion in specialty testing in Spain and Italy and increased revenue from medical services activities in Italy.

Total revenue in Iberia increased by €1.6 million, or 4.0%, to €41.6 million for the three months ended March 31, 2015 from €40.0 million for the three months ended March 31, 2014. This increase was primarily due to the full-year contribution of businesses acquired in 2014 which amounted to €0.4 million. Labco also sold its Sabater Pharma business in Spain which, before its disposal, had contributed €0.4 million to Labco's total revenue for the three months ended March 31, 2014. Labco made three acquisitions in Iberia in 2014. Organic growth was 3.9%, reflecting volume growth in routine testing in Spain, especially in the ambulatory markets, and Portugal and the continued expansion in specialty testing and improved performance in Latin America, partially offset by pricing pressure in Spain and an unfavorable Mix Effect affecting Labco's ambulatory business in Portugal.

Total revenue in Italy increased by €16.6 million to €26.5 million for the three months ended March 31, 2015 from €9.9 million for the three months ended March 31, 2014. This increase was primarily due to the €15.8 million contribution by the SDN Group in Italy to Labco's total revenue for the three months ended March 31, 2015. Labco completed the strategic acquisition of the SDN Group, the Naples-based leader in integrated diagnostics, on July 30, 2014, and benefited from the full-year effect of its acquisition of the Visconteo laboratory. As a result, organic growth was 5.0%, reflecting volume growth, particularly from the development of non-invasive Down's syndrome genetic tests, and increased revenue from medical services, partially offset by the impact of price reductions as a result of budget cuts implemented or expected by ASLs in some regions.

Cost of Sales

Cost of sales increased by €8.0 million, or 23.9%, to €41.5 million for the three months ended March 31, 2015 from €33.5 million for the three months ended March 31, 2014. Expressed as a percentage of total revenue, cost of sales represented 23.1% for the three months ended March 31, 2015, compared with 22.2% for the three months ended March 31, 2014.

The increase in cost of sales was primarily due to the impact of acquisitions made in 2014, particularly the SDN Group, and the activities related to Labco's laboratory services outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust which commenced on October 1, 2014, together with higher cost of sales in Iberia primarily as a result of an increase in the VAT rate in Spain (from 10% to 21%) as of January 1, 2015. The increase in cost of sales as a percentage of total revenue was primarily due to the impact of the increase in the VAT rate in Spain, and, to a lesser extent, the effect of continued expansion in specialty testing in Iberia and Italy, since Labco outsources its specialty Down's syndrome genetic test (and thereby incur additional costs which reduce its gross margin without having any significant impact on its EBITDA margin), and was partially offset by the positive impact of the renegotiations of the commercial terms of its reagent purchases, particularly in France.

Payroll-Related Expenses

Payroll related expenses increased by €8.2 million, or 13.3%, to €70.2 million for the three months ended March 31, 2015 from €61.9 million for the three months ended March 31, 2014. Expressed as a percentage of total revenue, payroll-related expenses represented 38.9% for the three months ended March 31, 2015, compared with 41.0% for the three months ended March 31, 2014.

The increase in payroll-related expenses was primarily due to the full-year contribution of businesses acquired in 2014, particularly the SDN Group, and the impact of activities related to Labco's laboratory services outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust which commenced on October 1, 2014. The decrease in payroll-related expenses as a percentage of total revenue was primarily due to the impact of integrating the SDN Group, which benefits from a significantly lower ratio of payroll-related expenses to revenue than the average for other Labco Group activities, and, to a lesser extent, by the initial benefits of the restructuring and efficiency plans implemented in Spain, particularly the concentration of Labco's activities in Barcelona in one site, and by productivity gains by its operations in Italy (excluding those of the SDN Group) and Belgium.

Share-Based Payments

Share-based payments expenses amounted to €0.9 million for the three months ended March 31, 2015 compared with nil for the three months ended March 31, 2014. The IFRS 2 expense reflected in Labco's results for the three months ended March 31, 2015 relates to a profit-based incentive plan that Labco established in April 2014 for the two main managers of its UK operations and which qualifies under IFRS as a cash-settled share-based payment plan with a *pro rata temporis* vesting period for rights of five years. It also includes the IFRS 2 charge on a *pro rata temporis* basis of Labco's bonus performance share plan introduced in mid-November 2014. That plan, which features a two-year vesting period, relates to approximately 1% of Labco's share capital and qualifies under IFRS as an equity-settled share-based payment plan.

Other Operating Expenses

Other operating expenses increased by €6.4 million, or 28.2%, to €29.0 million for the three months ended March 31, 2015 from €22.6 million for the three months ended March 31, 2014. This increase was primarily due to the full-period contribution made by the businesses acquired in 2014, particularly the acquisition of the SDN Group and the impact of the activities related to Labco's laboratory services outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust which commenced on October 1, 2014.

Expressed as a percentage of total revenue, other operating expense represented 16.1% for the three months ended March 31, 2015, compared with 15.0% for the three months ended March 31, 2014. This increase was primarily due to the impact of the commencement of activities under Labco's outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust on October 1, 2014 and the impact of the acquisition of the SDN Group, both of which have a higher ratio of operating expenses to revenue than Labco's operations in other countries.

Transaction Costs for Usual Small Size Acquisitions

Transaction costs for usual small size acquisitions decreased by €0.1 million, or 27.7%, to €0.3 million for the three months ended March 31, 2015 from €0.4 million for the three months ended March 31, 2014. This decrease was primarily due to limited acquisition activity.

EBITDA

EBITDA increased by €5.8 million, or 17.8%, to €38.3 million for the three months ended March 31, 2015 from €32.5 million for the three months ended March 31, 2014. EBITDA on a constant perimeter basis, however, decreased by €3.2 million, or 7.7%, during the same period. This was primarily due to the impact of the acquisition of the SDN Group which Labco acquired on July 30, 2014 and the full-year contribution made by the businesses acquired in 2014, primarily in France, partially offset by the unfavorable impact of price reductions in France in April 2014, pricing pressure in Iberia, an increase in the VAT rate in Spain and the adverse effect of clinical testing outsourcing for certain NHS trusts in the United Kingdom which reduced Labco's EBITDA. Consolidated EBITDA stated as a percentage of total revenue (EBITDA margin) decreased to 21.3% for the three months ended March 31, 2015 from 21.5% for the three months ended March 31, 2014. Adjusted for the effects of Labco's UK subsidiaries managing laboratory services outsourcing contracts for certain NHS trusts, EBITDA margin was 24.1% for the three months ended March 31, 2015 compared with 22.4% for the three months ended March 31, 2014, primarily as a result of the acquisition of the SDN Group, which has a higher EBITDA margin than Labco's operations in other countries.

The following table shows EBITDA by segment over the indicated periods and also stated as a percentage of each segment's total revenue.

	Three months ended March 31,				
	2014 (restated)	**%**	**2015**	**%**	**% Variation**
	(€ millions except for %) (unaudited)				
EBITDA					
Northern Europe	24.1	74.0	22.4	58.0	(7.2)
As a % of consolidated total revenue	*23.8*		*19.9*		
Southern Europe	8.4	26.0	15.9	42.0	89.5
As a % of consolidated total revenue	*16.8*		*23.4*		
Total	32.5	100.0	38.3	100.0	17.8
As a % of consolidated total revenue	*21.5*		*21.3*		

Northern Europe

EBITDA for Labco's Northern Europe segment decreased by €1.7 million, or 7.2%, to €22.4 million for the three months ended March 31, 2015 from €24.1 million for the three months ended March 31, 2014. This decrease was primarily due to the impact of Labco's new laboratory services outsourcing contract with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust which commenced on October 1, 2014 and from the increase in share-based payment expenses, due to the profit-sharing plan granted to the two main managers in the United Kingdom, and the impact of Labco's bonus performance share plan adopted in November 2014, partially offset by the effect of acquisitions completed in 2014.

The provision of outsourced clinical testing for certain NHS trusts in the United Kingdom reduced Labco's EBITDA by €2.0 million. Outsourcing laboratory services for certain NHS trusts generates losses in the first few years of the contracts while the outsourced operations are restructured and resources are mobilized, before the expected efficiencies are achieved. iPP Analytics and iPP Facilities, set up in 2014, commenced operations under the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract on October 1, 2014. As a result, they reduced Labco's EBITDA by €1.8 million (excluding share-based payment expenses), while iPP, which has operated the Taunton and Somerset and Yeovil District Hospital outsourcing contract since June 1, 2012, made a positive contribution to Labco's results (excluding share-based payment expenses) after two years of losses.

Expressed as a percentage of total revenue, EBITDA for Labco's Northern Europe segment decreased to 19.9% for the three months ended March 31, 2015 from 23.8% for the three months ended March 31, 2014. Adjusted for the effects of Labco's UK subsidiaries managing laboratory services outsourcing contracts for certain NHS trusts, EBITDA margin was 24.5% for the three months ended March 31, 2015 compared with 25.2% for the three months ended March 31, 2014. This decrease in EBITDA margin was primarily due to the decreased ratio in France, with the impact of price reductions in France implemented in April 2014 and the slight slowdown of activity in January and February 2015 following the general practitioners and clinics strike, partially offset by the effects of cost efficiency measures implemented in France (particularly the concentration of laboratories through mergers or the creation of technical platforms, optimization of the workforce and commercial renegotiations with certain suppliers) and an improvement in the EBITDA margin in Belgium as a result of economies of scale flowing from revenue growth.

Southern Europe

EBITDA for Labco's Southern Europe segment increased by €7.5 million, or 89.5%, to €15.9 million for the three months ended March 31, 2015 from €8.4 million for the three months ended March 31, 2014. This increase was primarily due to the strategic acquisition of the SDN Group on July 30, 2014. Adjusted for the impact of consolidating the SDN Group, EBITDA for Labco's Southern Europe segment decreased by €0.8 million due to weaker performance in Spain, partially offset by increased revenues from

Labco's operations in Portugal and its preexisting operations in Italy. The decline in Spain was primarily due to the impact of an increased rate of VAT on reagent purchases as of January 1, 2015, partially offset by the initial benefits of a restructuring implemented in Spain and the continued expansion of Labco's specialty clinical laboratory testing business.

Expressed as a percentage of total revenue, EBITDA for Labco's Southern Europe segment increased to 23.4% for the three months ended March 31, 2015 from 16.8% for the three months ended March 31, 2014, reflecting the significant impact of the acquisition of the SDN Group, which has higher margins than Labco's operations in other countries. Adjusted for the impact of integrating the SDN Group, EBITDA margin was 14.5% for the three months ended March 31, 2015 compared with 16.8% for the three months ended March 31, 2014. This decrease in EBITDA margin was primarily due to weaker performance in Spain following an increase in the VAT rate for reagent purchases as of January 1, 2015, partially offset by the positive impact of the restructuring in progress in Spain, particularly the concentration of Labco's operations in Barcelona into one site.

Depreciation, Impairment Losses and Amortization, Provisions and Reversals

Depreciation, impairment losses and amortization, provisions and reversals increased by €1.7 million, or 33.0%, to €6.7 million for the three months ended March 31, 2015 from €5.0 million for the three months ended March 31, 2014. This increase was primarily due to higher depreciation and amortization expense given the impact of acquisitions, particularly that of the SDN Group, and the amortization of significant IT improvements that were commissioned in 2014.

Non-Recurring Income and Expenses

Non-recurring income and expenses showed a net non-recurring expense of €1.1 million for the three months ended March 31, 2015 compared with a net non-recurring expense of €0.6 million for the three months ended March 31, 2014.

Non-recurring expenses for the three months ended March 31, 2015 primarily comprised €0.8 million of non-recurring costs incurred for strategic projects, including transaction fees and expenses incurred in connection with a refinancing of Labco's indebtedness. Professional fees incurred in relation to the planned initial public offering were temporarily capitalized as deferred expenses as of March 31, 2015 because they were expected to be recorded mostly as a deduction of equity in the form of capital issuance costs since Labco's share capital was expected to increase by €320 million following the initial public offering.

Net non-recurring expense for the three months ended March 31, 2014 primarily comprised €0.4 million in costs incurred for strategic projects.

Net Finance Costs

Net finance costs increased to a total expense of €16.1 million for the three months ended March 31, 2015 from €15.1 million for the three months ended March 31, 2014. Net financing costs were affected proportionally by additional financial expenses arising from the issue in February 2015 of €100 million in aggregate principal amount of additional Existing Labco Notes.

Income Tax Expenses

Income tax expenses increased by €1.4 million, or 20.9%, to €8.1 million for the three months ended March 31, 2015 from €6.7 million for the three months ended March 31, 2014. This increase was primarily due to a tax expense attributable to the SDN Group, partially offset by the positive impact of a corporate restructuring in 2014 that led to a reduction in tax expenses for the entities concerned. The tax charge attributable to the SDN Group for the three months ended March 31, 2015 has been estimated by taking into account the expected effect of the accession of the main SDN Group entities to the tax integration managed by Labco Italia during the year ended December 31, 2015. The accession will be requested by September 2015 in conformity with Italian tax rules but with retroactive effect from January 1, 2015. Labco's relatively high effective tax rate derived from losses, especially at certain holding companies giving rise to tax loss carryforwards that are not capitalized under deferred tax assets, from non-deductible interest and the impact of charges not deductible for tax purposes recognized upon consolidation. These non-deductible expenses reflect to a large extent the impact of the restatement of the priority dividends paid to certain French laboratory doctors, which are recognized under payroll-related expenses but are not deductible for tax purposes because they are accounted for as dividends.

Net Profit

Net profit increased by €1.2 million, or 24.3%, to €6.3 million for the three months ended March 31, 2015 from €5.1 million for the three months ended March 31, 2014 as a result of the reasons stated above.

Comparison of the Years Ended December 31, 2014 and December 31, 2013

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco's results as of and for the years ended December 31, 2013 and 2014 are not directly comparable.

The following table summarizes the historical results of Labco's operations for the years ended December 31, 2014 and 2013. The financial data below has, in part, been derived from and should be read in conjunction with Labco's Audited Financial Statements included elsewhere in this offering memorandum.

	Year ended December 31,					
	2013	%	2014	%	Variation	%
	(€ millions except for %)					
CONSOLIDATED STATEMENT OF INCOME

Total Revenue

Total revenue increased by €68.3 million, or 12.5%, to €615.6 million in the year ended December 31, 2014 from €547.3 million in the year ended December 31, 2013. This increase was primarily due to the full-year contribution of the acquisitions completed in 2013, especially the impact of the full consolidation of iPP as of October 25, 2013, and the impact of acquisitions completed in 2014, particularly the acquisition of the SDN Group in Italy on July 30, 2014, organic volume growth, the commencement of outsourcing activities under Labco's agreement with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust, and favorable Mix Effect recorded in most countries in which Labco operates. This increase was partially offset by a challenging economic environment in Iberia and by price reductions in most of the countries in which Labco operates, especially in France and Italy. The acquisitions completed in 2014, principally in Italy, France, Spain and Belgium, contributed €27.5 million to total revenue in the year ended December 31, 2014.

The following table provides a breakdown of total revenue by country and as a percentage of Labco's total revenue for the years ended December 31, 2014 and 2013, as well as an analysis of the increase in total revenue between organic growth (at constant perimeter) and growth including changes in the perimeter of consolidation (at unadjusted perimeter) for each segment and for the Labco Group as a whole.

	Year ended December 31,				% Variation	
	2013	%	2014	%	Unadjusted Perimeter	Constant Perimeter
	(€ millions except for %)					
Total revenue						
Northern Europe	357.9	65	401.3	65	12.1	3.3
France	325.3	59	342.3	56	5.2	0.1
Belgium	27.2	5	30.0	5	10.5	6.9
United Kingdom	4.4	1	27.0	4	509.7	52.7
Switzerland	0.9	0	2.0	0	113.3	113.3
Southern Europe	189.4	35	214.3	35	13.1	3.7
Iberia	151.2	28	158.7	26	5.0	2.9
Italy	38.2	7	55.6	9	45.4	7.0
Total	547.3	100	615.6	100	12.5	3.4

Northern Europe

Total revenue for Labco's Northern Europe segment increased by €43.4 million, or 12.1%, to €401.3 million for the year ended December 31, 2014 from €357.9 million for the year ended December 31, 2013. This increase was primarily due to the full consolidation of iPP as of October 25, 2013 and the full-year contribution from businesses acquired, especially in France during 2013 and to a lesser extent during 2014. Total revenue growth also reflected organic growth, which was 3.3% during the period.

Total revenue in France increased by €17.0 million, or 5.2%, to €342.3 million for the year ended December 31, 2014 from €325.3 million for the year ended December 31, 2013. This increase was primarily due to the negative impact of poor weather conditions in northern France during the first quarter of 2013, the full-year contribution of the acquisitions completed in 2013, organic volume growth and the favorable Mix Effect in France and, to a lesser extent, the *pro rata temporis* effect of the acquisitions made in 2014, partially offset by the annual reduction in prices applied by the French Health Authority. Labco made five acquisitions during the year ended December 31, 2014, and revenue attributable to these acquisitions amounted to €9.8 million in 2014. The full-year contribution made by businesses acquired in 2013 amounted to €6.9 million. Organic growth was 0.1%, reflecting the negative impact of the imposition by the French Health Authority of an annual tariff decrease of approximately 2.3% in April 2013 and 2.3% in April 2014, which was partially offset by volume growth and the favorable Mix Effect.

Total revenue in Belgium increased by €2.8 million, or 10.5%, to €30.0 million for the year ended December 31, 2014 from €27.2 million for the year ended December 31, 2013. This increase was primarily due to an expansion in nutritional testing and, to a lesser extent, routine testing. Labco made one acquisition during the year ended December 31, 2014, and revenue attributable to this acquisition amounted to €1.0 million. As a result, organic growth was 6.9%.

Total revenue in the United Kingdom increased by €22.6 million to €27.0 million for the year ended December 31, 2014 from €4.4 million for the year ended December 31, 2013. Following Labco's acquisition of almost all of Sodexo's holdings in iPP on October 25, 2013, Labco has been in full control of iPP. Accordingly, iPP has been fully consolidated since that date and contributed revenue of €16.9 million in 2014. Labco UK, which manages the subcontracting contract for the Fresenius group's clinical diagnostic testing business, increased its revenue primarily due to higher volumes. In addition, iPP Analytics and iPP Facilities were set up in 2014 and on October 1, 2014 commenced activities relating to the laboratory services outsourcing contract with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust. Those two entities contributed €8.0 million to total revenue in 2014.

Total revenue in Switzerland increased by €1.1 million to €2.0 million for the year ended December 31, 2014 from €0.9 million for the year ended December 31, 2013. Total revenue in Switzerland reflects the clinical laboratory testing business generated by Test S.A., a 48%-held subsidiary of the Labco Group founded in early 2013 by laboratory doctors, but fully consolidated by the Labco Group as a result of an analysis of the control it exercises.

Southern Europe

Total revenue for Labco's Southern Europe segment increased by €24.9 million, or 13.1%, to €214.3 million for the year ended December 31, 2014 from €189.4 million for the year ended December 31, 2013. This increase was primarily due to revenues of €14.1 million from the SDN Group in Italy, which Labco acquired on July 30, 2014, the full-year contribution of €1.9 million from businesses acquired in 2013 and the impact of €2.6 million from acquisitions completed in Iberia and Italy in 2014. Organic growth was 3.7% during this period, reflecting the strong expansion in specialty testing (particularly non-invasive genetic testing for Down's syndrome) in Spain and Italy, and increased total revenues in Italy.

Total revenue in Iberia increased by €7.5 million, or 5.0%, to €158.7 million for the year ended December 31, 2014 from €151.2 million for the year ended December 31, 2013. Labco made three acquisitions in Iberia during the year ended December 31, 2014, and revenue attributable to these acquisitions amounted to €2.0 million. The full-year contribution made by businesses acquired in 2013 amounted to €1.9 million. In July 2014, Labco sold Sabater Pharma in Spain, which before its disposal contributed €0.9 million to Labco's total revenue in 2014 compared with €1.7 million in 2013. Organic growth was 3.0%, reflecting the volume growth in Spain and Portugal in routine testing and the strong expansion in specialty testing (particularly non-invasive genetic testing for Down's syndrome, which posted a significant increase in sales during 2013) and improved performance in Latin America as a result of the positive impact of currency fluctuations, partially offset by the full-year impact of the price reductions in Spain introduced in early 2013 on certain contracts with hospital laboratories in Spain and the unfavorable Mix Effects affecting Labco's day surgery business in Portugal.

Total revenue in Italy increased by €17.4 million, or 45.4%, to €55.6 million for the year ended December 31, 2014 from €38.2 million for the year ended December 31, 2013. Labco completed a strategic acquisition of the SDN Group, the Naples-based leader in integrated diagnostics, on July 30, 2014, and the Visconteo laboratory, with revenue attributable to these acquisitions amounting to €14.7 million. As a result, organic growth was 7.0%, reflecting volume growth and the launch of non-invasive Down's syndrome genetic tests in particular, partially offset by the impact of price reductions resulting from budget cuts by ASLs in some regions.

Cost of Sales

Cost of sales increased by €17.3 million, or 14.1%, to €140.1 million for the year ended December 31, 2014 from €122.8 million for the year ended December 31, 2013. Expressed as a percentage of total revenue, cost of sales represented 22.7% in 2014, compared with 22.4% in 2013.

The increase in cost of sales was primarily due to the full-year contribution of the acquisitions made in 2013, primarily in France, the impact of the full consolidation of iPP, and the impact of acquisitions in 2014, particularly the SDN Group, together with higher cost of sales in Iberia and Italy as a result of the development of non-invasive genetic testing for Down's syndrome and the increase in the VAT rate in Italy (from 21% to 22%) as of October 2013. The increase in the cost of sales as a percentage of total revenue was primarily due to the impact of the expansion of specialty testing in Iberia and Italy since Labco outsources its specialty Down's syndrome genetic test (and thereby incurs additional costs that reduce its gross margin without having any significant impact on its EBITDA margin). This increase was also attributable to the unfavorable impact on revenue of the price reductions in France and Italy, partially offset by the positive full-year impact of the renegotiations of the commercial terms secured on Labco's reagent purchases in early 2013.

Payroll-Related Expenses

Payroll-related expenses increased by €24.3 million, or 10.5%, to €256.8 million for the year ended December 31, 2014 from €232.5 million for the year ended December 31, 2013. Expressed as a percentage of total revenue, payroll-related expenses represented 41.7% in 2014, compared with 42.5% in 2013.

The increase in payroll-related expenses was primarily due to the full-year contribution made by the businesses acquired in 2013 and 2014, and in particular the impact of the full consolidation of iPP, which incurred non-recurring restructuring costs in line with the estimates of the business plan for the first few years of the NHS outsourcing contracts.

The decrease in payroll-related expenses as a percentage of total revenue was primarily due to efficiency gains, which paved the way for reductions in the operational workforce, and the impact of the restructuring and efficiency plans implemented in Spain, Portugal and France, as well as productivity gains unlocked in Italy and Belgium. The positive impact of the employment competitiveness tax credit (CICE) in France also contributed to the decrease. In its second year in force, the rate of CICE increased from 4% to 6%.

Share-Based Payments

Share-based payments increased by €1.6 million from €0.3 million for the year ended December 31, 2013 to €2.0 million for the year ended December 31, 2014. The IFRS 2 expense reflected, only in 2013, the non-cash expense calculated in respect of certain warrants issued by Labco in 2010 in respect of the last year of the vesting period for the estimated rights as adjusted following the departure of certain beneficiaries. The expense recognized in 2014 reflects a profit-based incentive plan set up in April 2014 for the two main managers of Labco's UK operations and qualifying under IFRS as a cash-settled share-based payments plan with a *pro rata temporis* vesting period for rights of five years. It also includes the IFRS 2 charge on a *pro rata temporis* basis and employer expenses to be paid to French beneficiaries of Labco's bonus performance share plan introduced in mid-November 2014. That plan, which features a performance condition and a two-year vesting period, relates to around 1% of Labco's share capital and qualifies under IFRS as an equity-settled share-based payment plan.

Other Operating Expenses

Other operating expenses increased by €17.6 million, or 20.8%, to €102.1 million for the year ended December 31, 2014 from €84.5 million for the year ended December 31, 2013. This increase was primarily due to the full-period contribution made by the businesses acquired in 2013, especially with the full consolidation of iPP, and the impact of the acquisitions made in 2014, particularly the acquisition of the SDN Group. To a lesser extent, the increase was also caused by rent increases in Italy with the opening of new sites, the commencement of activity under the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract (resulting in one-off start-up costs of €0.7 million) and the higher level of losses on unrecoverable receivables from €2.3 million in 2013 to €4.1 million in 2014. The increase in losses on unrecoverable receivables was due to the write-off of €2.9 million of unrecoverable receivables in France, offset by the release of €1.5 million of impairment provisions. The one-off losses on recoverable receivables in France on December 31, 2014 were mainly the result of an in-depth analysis carried out at the end of 2014 using the operational management software of Labco's SELs, which identified €1.7 million of receivables that were older than the prescribed time limit, together with €0.6 million of unsubstantiated differences between amounts invoiced and amounts received on clinical contracts in two of Labco's SELs. The increase in other operating expenses was partially offset by the reduction in equipment leasing costs in Iberia following a restructuring of Labco's operations there.

Expressed a percentage of total revenue, other operating expenses represented 16.6% in 2014, compared with 15.4% in 2013. This increase was primarily due to the impact of the full consolidation of iPP and the acquisition of the SDN Group, as these entities have a higher ratio of operating expenses to total revenue compared with Labco's operations in other countries and the impact of non-recurring impairments of trade receivables in France.

Transactions Costs for Usual Small Size Acquisitions

Transaction costs for usual small size acquisitions increased by €0.5 million to €1.5 million for the year ended December 31, 2014 from €1.0 million for the year ended December 31, 2013. This increase was primarily due to the number of completed or abandoned acquisition plans being higher in 2014 than the number of acquisitions completed in 2013.

EBITDA

EBITDA increased by €7.0 million, or 6.6%, to €113.2 million for the year ended December 31, 2014 from €106.3 million for the year ended December 31, 2013. This increase was mainly due to the impact of the acquisition of the SDN Group on July 30, 2014 and the full-year contribution made by the businesses acquired in 2013 largely in France, partially offset by the unfavorable impact of price reductions in France, pricing pressure in Iberia and the adverse effect of clinical testing outsourcing by certain NHS trusts in the United Kingdom, which reduced Labco's EBITDA by €1.3 million. iPP, which operates the Taunton and Somerset outsourcing contract, has been fully consolidated since October 25, 2013, and iPP Analytics and iPP Facilities, set up in 2014, commenced operations under the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract on October 1, 2014. Outsourcing laboratory services for certain NHS trusts generates losses in the first few years of the contract while the outsourced operations are restructured and resources are mobilized, before the expected efficiency is achieved. Consolidated EBITDA stated as a percentage of total revenue (EBITDA margin) decreased from 19.4% in 2013 to 18.4% in 2014 (see the segmental analysis below). Adjusted for the effects of UK subsidiaries managing laboratory services outsourcing contracts for certain NHS trusts, EBITDA margin was 19.4% in 2014 compared with 19.6% in 2013.

The following table shows EBITDA by segment over the indicated periods and also stated as a percentage of each segment's total revenue.

	Year ended December 31,				
	2013	**%**	**2014**	**%**	**% Variation**
	(€ millions except for %)				
EBITDA					
Northern Europe	75.5	71	79.2	70	5.0
As a % of consolidated total revenue	*21.1*		*19.7*		
Southern Europe	30.8	29	34.0	30	10.6
As a % of consolidated total revenue	*16.2*		*15.9*		
Total	106.3	100	113.2	100	6.6
As a % of consolidated total revenue	*19.4*		*18.4*		

Northern Europe

EBITDA for Labco's Northern Europe segment increased by €3.7 million, or 5.0%, to €79.2 million for the year ended December 31, 2014 from €75.5 million for the year ended December 31, 2013. This increase was primarily due to the full-period contribution made by the businesses acquired in 2013 (largely in France) and the impact of the acquisitions made during 2014, partially offset by the unfavorable impact of price reductions in France and the increase in share-based payment expenses, as a result of the profit-sharing plan granted to the two main managers in the United Kingdom and the impact of a performance share plan adopted in November 2014. The provision of outsourced clinical testing for certain NHS trusts in the UK reduced Labco's EBITDA by €1.3 million. Outsourcing laboratory services for certain NHS trusts generates losses in the first few years of the contract while the outsourced operations are restructured and resources are mobilized, before the expected efficiency is achieved. iPP Analytics and iPP Facilities, set up in 2014, commenced operations under the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract on October 1, 2014 which caused a reduction in EBITDA of €0.6 million excluding share-based payment expenses, while iPP, which has operated the Taunton and Somerset outsourcing contract since June 1, 2012, made a positive EBITDA contribution of €0.3 million excluding share-based payment expenses after two years of losses. Expressed as a percentage of total revenue, EBITDA for Labco's Northern Europe segment decreased to 19.7% in 2014 from 21.1% in 2013. Adjusted for the effects of UK subsidiaries managing laboratory services outsourcing contracts for certain NHS trusts, EBITDA margin was 21.4% in 2014 compared with 21.3% in 2013. The relative stability of EBITDA margin was primarily due to the stable ratio in France, with the impact of price reductions in France and non-recurring expenses recognized in other operating expenses relating to write-offs of receivables as of December 31, 2014, partially offset by the cost efficiency measures implemented in France (including concentration of laboratories through mergers or the creation of technical platforms, the "Deep Dive" plan optimizing the structure of Labco's workforce, and commercial renegotiations with certain suppliers) and an improvement in the EBITDA margin in Belgium as a result of economies of scale flowing from revenue growth.

Southern Europe

EBITDA for Labco's Southern Europe segment increased by €3.2 million, or 10.6%, to €34.0 million for the year ended December 31, 2014 from €30.8 million for the year ended December 31, 2013. This increase was primarily due to the strategic acquisition of the SDN Group on July 30, 2014. Adjusted for the impact of consolidating the SDN Group, EBITDA in Labco's Southern Europe segment decreased by €0.5 million as a result of revenue declines in Iberia. The impact of pricing pressure in Iberia and in particular price reductions in the Spanish hospital and insurance business and the impact of price reductions for certain tests in Portugal was not fully offset by the impact of the restructuring in Iberia and the expansion of the specialty clinical laboratory testing business, especially certain genetic tests. The strong performance of Labco's Italian operations made up for increases in rent relating to new collection centers and the increase in Italian VAT. Expressed as a percentage of total revenue, EBITDA for Labco's Southern Europe segment decreased from 16.2% in 2013 to 15.9% in 2014 reflecting the impact of the weaker performance by Labco's operations in Iberia, partially offset by the positive impact of the acquisition of the SDN Group, which has margins that are higher than those for Labco's other operations.

Depreciation, Impairment Losses and Amortization, Provisions and Reversals

Depreciation, impairment losses and amortization, provisions and reversals increased by €5.2 million, or 27.3%, to €24.2 million for the year ended December 31, 2014 from €19.0 million for the year ended December 31, 2013. This increase was primarily due to higher depreciation and amortization expense as a result of the impact of acquisitions, particularly that of the SDN Group, including amortization of intangible assets recognized on the allocation of the purchase price of certain acquisitions made in the second half of 2013 with business activities focused on outsourcing or subcontracting contracts (iPP and an acquisition in Spain to acquire a subcontracting contract for a clinic). This increase was also due to the commissioning in late 2013 of the major IT upgrades.

Non-recurring Income and Expenses

Non-recurring income and expenses showed a net non-recurring expense of €20.8 million for the year ended December 31, 2014 compared with net non-recurring income of €0.3 million for the year ended December 31, 2013.

Non-recurring expenses in 2014 mainly consisted of €8.8 million of non-recurring costs and provisions recognized in relation to the purchase of, or undertaking to purchase, priority dividend rights from certain French laboratory doctors for four French SELs, €5.3 million of costs incurred for strategic projects corresponding mainly to advisors', lawyers' and financial auditors' fees in relation to the planned initial public offering, €1.5 million of redundancy costs and restructuring provisions relating to the restructuring in Spain, €1.7 million of non-recurring costs relating to an out-of-court settlement with certain local health insurance funds in France (*Caisses Primaires d'Assurance Maladie*, or "CPAM") (after a French laboratory issued incorrect invoices for several years because of a mistake inputting prices into its information system, it voluntarily informed the CPAMs in its region of the mistake, and an out-of-court settlement was signed on December 2014 in order to repay the incorrectly invoiced sums), €0.6 million of non-recurring costs relating to a material dispute with an IT service provider after the court found against Labco's Roman Pais laboratory in Belgium on appeal, after ten years of legal proceedings, and €0.7 million of non-recurring provisions to cover the risk associated with the dispute concerning Labco's former Dillenburg operations, which is covered by a guarantee (*garantie de passif*) included in the contract to sell the German activities to Sonic Healthcare dated December 2, 2013. They also include perimeter effects corresponding to transaction costs for major planned acquisitions in an amount of €2.0 million, mainly relating to the strategic acquisition of the SDN Group in Italy, which was completed on July 30, 2014, and the €0.5 million gain on disposals of fixed assets, mainly comprising the gain on the Sabater Pharma disposal.

Net non-recurring expense for the year ended December 31, 2013 primarily reflected €1.8 million in costs incurred for strategic projects, costs of departures and provisions for restructuring amounting to €0.7 million covering the outstanding measures in the 2011 restructuring plan implemented in Iberia with the reversal of the corresponding provisions, €0.8 million in severance payments deriving from the measures of Labco's "Deep Dive" efficiency plan implemented in France during 2013, €0.8 million in provisions for restructuring set aside in the first quarter of 2013 for the new restructuring plan implemented in connection with contractual renegotiations with a major customer and use of €0.5 million of the provision during the last nine months of 2013. These items were partially offset by the impact of the step-up acquisition of iPP with €0.8 million of income from the bad will arising on the acquisition and also a €3.4 million non-recurring gain on the disposal of a fixed asset reflecting Labco's original 51% interest in iPP previously accounted for as an associate and its re measurement at fair value at the date of the acquisition.

Net Finance Costs

Net finance costs increased by €5.4 million, or 9.1%, to €64.5 million for the year ended December 31, 2014 from €59.1 million for the year ended December 31, 2013. Net financing costs were affected proportionally by additional financial expenses arising from the issue in February 2013 of €100 million in aggregate principal amount of additional Existing Labco Notes. In 2014, financing costs also included non-recurring costs arising from amendments that substantially altered the terms of Labco's former revolving credit facility, finalized in December 2014. The costs of setting up Labco's former revolving credit facility that were capitalized but not yet amortized were recognized as financial expenses in a non-recurring amount of €3.1 million, while expenses incurred when amending the terms of the facility were capitalized and will be amortized over the renegotiated maturity term.

Income Tax Expenses

Income tax expenses decreased by €2.4 million, or 11.4%, to €18.7 million for the year ended December 31, 2014 from €21.1 million for the year ended December 31, 2013. This decrease was primarily due to the positive effect of the tax restructuring measures that Labco implemented, such as the institution of a single tax group in Portugal and corporate restructuring that led to a reduction in tax expenses, partially offset by the tax expenses attributable to the SDN Group for the period following its consolidation within the Labco Group. Labco's relatively high effective tax rate derived from losses, especially at certain holding companies giving rise to tax loss carryforwards that were not capitalized under deferred tax assets, from non-deductible interests and from the impact of charges not deductible for tax purposes recognized upon consolidation. These non-deductible expenses reflected to a large extent the impact of the restatement of the priority dividends paid out to French laboratory doctors, which are recognized under payroll-related expenses in Labco's consolidated financial statements but are not deductible for tax purposes because they are accounted for as dividends in the individual financial statements. A similar treatment applies to non-recurring expenses related to purchases of these priority dividend rights from certain French laboratory doctors.

Share of Profit of Associates

The share of profit of associates represented a profit of €0.4 million for the year ended December 31, 2014 compared with a loss of €1.3 million for the year ended December 31, 2013. This improvement was primarily due to transferring the losses incurred by iPP, the joint venture with Sodexo in the United Kingdom until October 25, 2013, from the "*share of profit of associates*" line item. Prior to this date, iPP's net loss was included in the "*share of profit of associates*" line item. Since Labco acquired almost all of Sodexo's shares in iPP on October 25, 2013, iPP has been fully consolidated.

Net Profit from Discontinued Operations

Net profit from discontinued operations amounted to €6.8 million for the year ended December 31, 2013, reflecting the net profit of the German cash-generating unit sold to Sonic Healthcare on December 2, 2013 and accounted for under discontinued operations in compliance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*).

Net Profit

As a result of the factors described above, Labco made a net loss of €14.6 million in 2014, compared with a net profit of €12.8 million in 2013.

Comparison of the Years Ended December 31, 2013 and December 31, 2012

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from September 30, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated financial statements as of and for the year ended December 31, 2013, the contribution of its German operations appears separately under the line item "*net profit of the period from discontinued operations*" rather than under each line item where such contribution was previously recorded, and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated financial statements was restated. Labco has not restated its consolidated financial statements as of and for the years ended December 31, 2012 and 2011, and such financial statements are therefore not directly comparable with its financial statements as of and for the year ended December 31, 2013.

The following table summarizes the historical results of Labco's operations for the years ended December 31, 2013 and 2012. The financial data below has, in part, been derived from and should be read in conjunction with Labco's Audited Financial Statements included elsewhere in this offering memorandum.

	Year ended December 31,					
CONSOLIDATED STATEMENT OF INCOME (€ millions except for %)	**2012 restated in line with IFRS 5**	**%**	**2013**	**%**	**Difference**	**%**

Total Revenue

Total revenue increased by €33.1 million, or 6.4%, to €547.3 million for the year ended December 31, 2013 from €514.2 million for the year ended December 31, 2012. This increase was primarily due to the full-year contribution of the acquisitions completed in 2012 and, to a lesser extent, the effect of the acquisitions made in 2013, organic growth in volumes and the favorable Mix Effect in most of the countries in which Labco operates. The increase was partially offset by a challenging economic environment in Iberia and price reductions in most countries where Labco is present, particularly in France and Iberia. The acquisitions completed in 2013, primarily in France, contributed €11.7 million to total revenue for the year ended December 31, 2013.

The following table provides a breakdown of total revenue by country and as a percentage of Labco's total revenue for the years ended December 31, 2013 and 2012, as well as an analysis of the increase in total revenue between organic growth (at comparable perimeter) and growth including changes in the perimeter of consolidation (at current perimeter) for each segment and for the Labco Group as a whole.

Total revenue (€ millions except for %)	Year ended December 31, 2012 restated in line with IFRS 5	%	2013	%	% Variation Unadjusted Perimeter	Constant Perimeter
Northern Europe	328.9	64	357.9	65	8.8	1.8
France	301.8	59	325.3	59	7.8	−0.5
Belgium	25.9	5	27.2	5	4.8	4.8
United Kingdom	1.3	0	4.4	1	253.8	62.6
Switzerland	0.0	0	0.9	0	n/a	n/a
Southern Europe	185.3	36	189.4	35	2.2	1.9
Iberia	149.4	29	151.2	28	1.2	0.4
Italy	35.8	7	38.2	7	6.7	8.0
Total	514.2	100	547.3	100	6.4	1.8

Northern Europe

Total revenue for Labco's Northern Europe segment increased by €28.9 million, or 8.8%, to €357.9 million for the year ended December 31, 2013 from €328.9 million for the year ended December 31, 2012. This increase was primarily due to contribution of revenue from businesses Labco had acquired, especially in France during 2012 and to a lesser extent in 2013. Total revenue growth also reflected organic growth, which was 1.8% during the period.

Total revenue in France increased by €23.6 million, or 7.8%, to €325.3 million for the year ended December 31, 2013 from €301.8 million for the year ended December 31, 2012. This increase was primarily due to the full-year contribution of the acquisitions completed in 2012, organic growth in volumes and the favorable Mix Effect. To a lesser extent, it was due to the pro rata contribution from acquisitions completed in 2013 and the positive effect of the change in accounting treatment of outsourced specialty testing services following regulatory changes in France during February 2012, which resulted in income and expenses generated by outsourced specialty testing services being recognized under revenue and cost of sales respectively. These factors were offset by the annual reduction in prices applied by the French Health Authority (*Autorité Française de Santé*) and the lower number of business days in 2013. Labco made eight acquisitions during the year ended December 31, 2013, and revenue attributable to these acquisitions amounted to €6.8 million in 2013. The full-year contribution made by businesses acquired in 2012 amounted to €18.4 million. The organic contraction was 0.5%, reflecting the impact of the annual adjustment to the prices applied by the French Health Authority (*Autorité Française de Santé*) of around 2.3% in April 2013, offset by volume growth and the favorable Mix Effect.

Total revenue in Belgium increased by €1.3 million, or 4.8%, to €27.2 million for the year ended December 31, 2013 from €25.9 million for the year ended December 31, 2012. This increase was primarily due to expansion in nutritional testing and, to a lesser extent, routine testing.

Total revenue in the United Kingdom increased by €3.2 million to €4.4 million for the year ended December 31, 2013 from €1.3 million for the year ended December 31, 2012. Following Labco's acquisition of almost all of Sodexo's holdings in iPP on October 25, 2013, Labco has been in full control of iPP. Accordingly, iPP has been fully consolidated since that date and contributed revenue of €2.8 million (iPP recognized revenue of €16.0 million over the full year). Labco UK, which manages the subcontracting contract for the Fresenius group's clinical diagnostic testing business, increased its revenues primarily due to higher volumes.

Total revenue in Switzerland amounted to €0.9 million, reflecting the clinical laboratory testing business generated by Test S.A., a 48%-held subsidiary of the Group founded in early 2013 by laboratory doctors, but fully consolidated by the Labco Group as a result of an analysis of the control it exercises.

Southern Europe

Total revenue for Labco's Southern Europe segment increased by €4.2 million, or 2.2%, to €189.4 million for the year ended December 31, 2013 from €185.3 million for the year ended December 31, 2012. Total revenue growth mainly reflects organic growth, which reached 1.9% during the period.

Total revenue in Iberia increased by €1.8 million, or 1.2%, to €151.2 million for the year ended December 31, 2013 from €149.4 million for the year ended December 31, 2012. Labco made two acquisitions in Iberia during the year ended December 31, 2013, and the businesses acquired in 2013 generated a revenue increase of €1.1 million, while no acquisitions took place in 2012. Organic growth was 0.4%, reflecting volume growth in Spain and Portugal in routine clinical testing and the strong expansion in specialty testing, partially offset by the impact of the price reductions in Spain and prices reductions in Portugal. This growth was primarily due to volume growth in Spain and the strong expansion in specialty testing (particularly non-invasive genetic testing for Down's syndrome), partially offset by price reductions in the Spanish hospital and insurance business, as well as price pressure and the negative impact of currency fluctuations which affected Labco's activities in Brazil. Business trends in Portugal remained stable with higher volumes for hospital laboratories offset by the unfavorable impact of a reduction in the price of certain tests from August 2012 and a contraction in the day surgery business.

Total revenue in Italy increased by €2.4 million, or 6.7%, to €38.2 million for the year ended December 31, 2013 from €35.8 million for the year ended December 31, 2012. This increase was primarily due to volume growth generated by increased activity at Labco's Monza medical center, combined with the opening of new Sampling Centers. In addition, Labco sold its Centro Diagnostico Missori subsidiary in June 2012.

Cost of Sales

Cost of sales increased by €11.4 million, or 10.3%, to €122.8 million for the year ended December 31, 2013 from €111.3 million for the year ended December 31, 2012. Expressed as a percentage of total revenue, cost of sales represented 22.4% in 2013, compared with 21.7% in 2012.

This increase in cost of sales was primarily due to the full-year contribution of the acquisitions made in 2012, primarily in France, the impact of the acquisitions made in 2013, particularly the full consolidation of iPP, and the higher cost of sales in Iberia as a result of the development of specialty testing. The increase in the cost of sales as a percentage of total revenue was primarily due to the impact of the expansion of the specialty testing business in Iberia. Genetic testing for Down's syndrome is outsourced, and so it gives rise to a thinner gross margin, but has no material impact on the EBITDA margin. This increase was also due to the unfavorable impact on revenue of the price reductions in France and Iberia, partially offset by the positive full-year impact of the renegotiations of the commercial terms secured on Labco's reagent purchases.

Payroll-Related Expenses

Payroll-related expenses increased by €12.8 million, or 5.8%, to €232.5 million for the year ended December 31, 2013 from €219.6 million for the year ended December 31, 2012. Expressed as a percentage of total revenue, payroll-related expenses represented 42.5% in 2013, compared with 42.7% in 2012.

This decrease was primarily due to the full-year contribution made by the businesses acquired in 2012, primarily in France, the increase in mandatory employee profit-sharing and incentive plans (including the related social security charges) in France as a result of the mergers completed, the impact of the higher payroll charges introduced by the French government and the impact of the businesses acquired in 2013, including the switch to full consolidation of iPP. The increase was partially offset by efficiency gains, which paved the way for reductions in the operational workforce, the impact of the restructuring and efficiency plans implemented in Spain, Portugal and France and the impact of CICE during its first year in force in France. The decrease in the ratio of payroll-related expenses to total revenue was attributable to efficiency gains, especially in Italy and Belgium.

Share-Based Payments

Share-based payments decreased by €0.2 million, or 50.0%, to €0.3 million for the year ended December 31, 2013 from €0.6 million for the year ended December 31, 2012. The IFRS 2 expense in 2013 solely reflects the non-cash expense calculated annually in respect of certain warrants issued by Labco in 2010 adjusted following the departure of certain beneficiaries, while the 2012 figures include the *pro rata temporis* non-cash expense in respect of the 2011 free share plan for the first quarter of 2012. The 2011 free share plan was cancelled in the second quarter of 2012, leading to the residual expense under IFRS 2 of €1.6 million initially intended to be spread over the vesting period of the rights to be recognized immediately in the consolidated income statement as a non-recurring expense.

Other Operating Expenses

Other operating expenses increased by €6.8 million, or 8.7%, to €84.5 million for the year ended December 31, 2013 from €77.7 million for the year ended December 31, 2012. This increase was primarily due to the full-year contribution made by businesses acquired in 2012 (primarily in France), the impact of acquisitions in 2013, particularly the full consolidation of iPP and the rise in real estate rental costs in France, Italy and Belgium with the opening of new sites and the contractual increases in the rental index, partially offset by a reduction in equipment leasing costs and cleaning expenses in Iberia as a result of the restructuring of Labco's operations there.

Expressed as a percentage of total revenue, other operating expenses represented 15.4% in 2013, compared with 15.1% in 2012. This increase was primarily due to the impact of the full consolidation of iPP, as it has a higher ratio of operating expenses to total revenue compared with Labco's operations in other countries.

Transaction Costs for Usual Small Size Acquisitions

Transaction costs for usual small size acquisitions decreased by €0.6 million to €1.0 million for the year ended December 31, 2013 from €1.5 million for the year ended December 31, 2012. This decrease was the result of making fewer and smaller acquisitions in 2013 than in 2012.

EBITDA

EBITDA increased by €2.8 million, or 2.8%, to €106.3 million for the year ended December 31, 2013 from €103.4 million for the year ended December 31, 2012. This increase was primarily due to the full-year contribution made by the businesses acquired in 2012 largely in France, partially offset by the unfavorable impact of prices reductions in France and pricing pressure in Iberia, and by the first year of consolidation of iPP and Test S.A., which generated negative EBITDA in their start-up phases. Expressed as a percentage of total revenue (EBITDA margin), decreased to 19.4% in 2013 from 20.1% in 2012 (see the segmental analysis below).

The following table shows EBITDA by segment over the indicated periods and also stated as a percentage of each segment's total revenue.

	Year ended December 31,				
	2012 restated in line with IFRS 5	**%**	**2013**	**%**	**% Change**
	(€ millions except for %)				
EBITDA					
Northern Europe	71.7	69	75.5	71	5.2
As a % of consolidated total revenue	*21.8*		*21.1*		
Southern Europe	31.7	31	30.8	29	(2.9)
As a % of consolidated total revenue	*17.1*		*16.2*		
Total	103.4	100	106.3	100	2.8
As a % of consolidated total revenue	*20.1*		*19.4*		

Northern Europe

EBITDA for Labco's Northern Europe segment increased by €3.8 million, or 5.2%, to €75.5 million for the year ended December 31, 2013 from €71.7 million for the year ended December 31, 2012. This increase was primarily due to the full-year contribution made by the businesses acquired in 2012 (largely in France), partially offset by the unfavorable impact of price reductions in France. Labco's iPP subsidiary, which handles outsourced clinical laboratory testing for certain NHS trusts and is expected to incur losses in the first few years of the contracts while the outsourced operations are restructured to achieve the anticipated efficiencies, contributed negative EBITDA of €0.25 million to Labco's results. Similarly, the clinical laboratory testing business established in Switzerland during the first half of 2013 gave rise to negative EBITDA during its start-up phase. Expressed as a percentage of total revenue, EBITDA for Labco's Northern Europe segment decreased to 21.1% in 2013 from 21.8% in 2012. Restated for the impact of the Swiss laboratory Test S.A. and Labco's iPP subsidiary, EBITDA margin for Northern Europe decreased to 21.5% in 2013 from 21.8% in 2012. This decrease was primarily due to the impact of price reductions in France, which were not fully offset by commercial renegotiations with certain suppliers and the immediate effects of the cost efficiency measures taken in France (such as the concentration of laboratories through mergers or creations of technical platforms and Labco's "Deep Dive" plan for optimizing the structure of the workforce).

Southern Europe

EBITDA for Labco's Southern Europe segment decreased by €0.9 million, or 2.9%, to €30.8 million for the year ended December 31, 2013 from €31.7 million for the year ended December 31, 2012. This decrease was primarily due to the impact of pricing pressure in Iberia and in particular price reductions in the Spanish hospital and insurance business and the impact of price reductions for certain tests in Portugal, partially offset by the impact of the restructuring in Iberia and the expansion of the specialty clinical laboratory testing business, particularly certain genetic tests, and the firm performance of the businesses in Italy. Expressed as a percentage of total revenue, EBITDA for Labco's Southern Europe segment decreased from 17.1% to 16.2%, reflecting the impact of the weaker performance of Labco's operations in Iberia.

Depreciation, Impairment Losses and Amortization, Provisions and Reversals

Depreciation, impairment losses and amortization, provisions and reversals increased by €1.4 million, or 8.0%, to €19.0 million for the year ended December 31, 2013 from €17.6 million for the year ended December 31, 2012. This increase was primarily due to a higher depreciation and amortization expense as a result of the impact of acquisitions and the specific effect in 2012 of a reversal of a provision covering a dispute with a French laboratory doctor, while the amount paid to settle the dispute (€0.3 million) was recognized as a non-recurring expense.

Non-recurring Income and Expenses

Non-recurring income and expenses showed net recurring income amounting to €0.3 million for the year ended December 31, 2013 compared with €6.5 million in net expense for the year ended December 31, 2012.

Net non-recurring expense for the year ended December 31, 2013 primarily reflected €1.8 million in costs incurred for strategic projects, costs of departures and provisions for restructuring amounting to €0.7 million covering the outstanding measures in the 2011 restructuring plan implemented in Iberia with the reversal of the corresponding provisions, €0.8 million in severance payments deriving from the measures of Labco's "Deep Dive" efficiency plan implemented in France during 2013, €0.8 million in provisions for restructuring set aside in the first quarter of 2013 for the new restructuring plan implemented in connection with contractual renegotiations with a major customer and use of €0.5 million of the provision during the last nine months of 2013. These items were partially offset by the impact of the step-up acquisition of iPP with €0.8 million of income from the bad will arising on the acquisition and also a €3.4 million non-recurring gain on the disposal of a fixed asset reflecting Labco's original 51% interest in iPP previously accounted for as an associate and its remeasurement at fair value at the date of the acquisition.

Non-recurring expenses for the year ended December 31, 2012 primarily comprised €2.8 million of costs incurred on strategic projects, €3.2 million of costs arising from employee departures and provisions for restructuring costs under the 2011 restructuring plans in Spain and Portugal and the 2012 plans in France (particularly Labco's "Deep Dive" plan), with €1.9 million of the provisions used, €1.8 million of net non-recurring income owing to the settlement receivable incurred in connection with the early termination of a clinical services contract in France net of estimated restructuring costs, €1.5 million of IFRS 2 charges reflecting the cancellation of the 2011 free share plan, and €2.7 million arising from perimeter effects in respect of changes in the fair value of earn-out payments and in particular €2.3 million in earn-out payments anticipated upon the acquisition of the CIC group (since renamed Labco NOÛS), which were recognized in expenses.

Net Finance Costs

Net finance costs increased by €5.3 million, or 9.9%, to a total expense of €59.1 million for the year ended December 31, 2013 from €53.8 million for the year ended December 31, 2012. Net financing costs were affected proportionally by additional financial expense arising from the issue in February 2013 of €100 million in aggregate principal amount of additional Existing Labco Notes.

Income Tax Expenses

Income tax expenses increased by €2.6 million, or 13.9%, to €21.1 million for the year ended December 31, 2013 from €18.6 million for the year ended December 31, 2012. This increase was primarily due to the specific impact in 2012 of the capitalization of €4.2 million in deferred taxes representing a portion of Labco's tax loss carryforwards following a review of the prospects of these tax loss carryforwards reversing over the subsequent five-year period given changes in Labco's projections as a result of the tax restructuring carried out coupled with the impact of new tax legislation enacted in certain countries during 2012. Despite the impact of certain corporate restructuring measures that have led to a reduction in tax expense, in 2013 Labco capitalized a smaller amount of €0.3 million in additional deferred tax assets on tax loss carryforwards. Furthermore, Labco incurred the full-year impact of €0.7 million arising from the dividend tax introduced in France during the summer of 2012. Labco's relatively high effective tax rate derived from losses, especially at certain holding companies giving rise to tax loss carryforwards that were not capitalized under deferred tax assets, from non-deductible interests and from the impact of charges not deductible for tax purposes recognized upon consolidation. These non-deductible expenses reflected to a large extent the impact of the restatement of the priority dividends paid out to French laboratory doctors, which are recognized under payroll-related expenses in the consolidated financial statements but are not deductible for tax purposes because they are accounted for as dividends in the individual financial statements.

Share of Profit of Associates

Share of profit of associates decreased by €1.2 million to a loss of €1.3 million for the year ended December 31, 2013 from a loss of €0.1 million for the year ended December 31, 2012. This decrease was primarily due to the loss posted by iPP, Labco's joint venture with Sodexo in the United Kingdom until October 25, 2013. Prior to this date, iPP's net loss was included in the "*share of profit of associates*" line. Since Labco acquired almost all of Sodeco's shares in iPP on October 25, 2013, iPP has been fully consolidated. In 2012, the loss recorded by iPP, which had been in a start-up phase since June 2012 incurring restructuring costs in its first few years in activity, was offset by the positive earnings of three clinical testing laboratories in France (Brigout, Degraef Pouliquen and Sèvre et Loire Biologies) in which Labco had a minority holding and were thus accounted for under this line item. In late 2012, Labco acquired a number of shares that gave it control of these three laboratories and so they were fully consolidated in 2013.

Net Profit from Continuing Operations

As a result of the factors described above, Labco made a net profit from continuing operations of €6.0 million in 2013, compared with a net profit of €6.9 million in 2012.

Net Profit from Discontinued Operations

Net profit from discontinued operations reflected the net profit of Labco's German cash-generating unit which it sold to Sonic Healthcare on December 2, 2013 and accounted for under discontinued operations in compliance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). Net profit over the first eleven months of 2013 amounted to €7.6 million, which was partially offset by the consolidated capital loss of €0.8 million on a disposal recorded in the year ended December 31, 2013, compared with a loss of €35.0 million for the year ended December 31, 2012, including an impairment loss of €36.0 million on the German cash-generating unit's goodwill.

Liquidity and Capital Resources

"Liquidity" describes the ability of a company to generate sufficient cash flows to meet the cash requirements of its business operations, including working capital needs, debt service obligations, capital expenditures, other commitments, contractual obligations and acquisitions. Labco's primary sources of liquidity are provided by cash from its operating activities and its financings.

Labco's liquidity requirements arise primarily to fund acquisitions, to meet its debt services obligations and, to a lesser extent, to fund capital expenditures.

Labco's main sources of liquidity are as follows:

- *Available cash.* Labco retains cash and cash equivalents to cover its ordinary financing needs. The minimum amount of cash and cash equivalents it can retain is €15.0 million, due to the covenants applying to its Existing Credit Facility. Labco's cash position is denominated almost entirely in euros, except for cash held by its subsidiaries located in the United Kingdom, Latin America and Switzerland. Cash and cash equivalents amounted to €56.6 million for the year ended December 31, 2012, €167.8 million for the year ended December 31, 2013 and €74.1 million at December 31, 2014. The increase in cash and cash equivalents in 2013 was primarily due to the disposal of Labco's German business for a net amount of €73 million, and from the residual proceeds, after repaying funds drawn on its previous revolving credit facility, of the February 2013 issue of €100 million in aggregate principal amount of additional Existing Labco Notes.
- *Net cash flows from operating activities.* Labco's main source of liquidity consists of cash flows from its operating activities. Labco's ability to generate cash from operating activities going forward depends on its future operating performance which, in turn, depends on economic, financial, competition, market, regulatory and other factors, most of which are not under its control. Net cash flows from operating activities amounted €90.2 million for the year ended December 31, 2012, €93.0 million for the year ended December 31, 2013 and €85.7 million for the year ended December 31, 2014.
- *Debt.* Following the Offerings and the application of the proceeds therefrom, Labco's principal sources of debt finance will consist of the Notes and the Revolving Credit Facility.

Labco's cash requirements consist mainly of the following:

- *Acquisitions.* Acquisitions consist of purchases of groups of companies, companies and/or businesses for consideration, net of cash acquired and the payment, in certain cases, of fixed or conditional earn-outs, which can be sub divided as follows: bolt-on acquisitions made in regions where the existence of Labco's technical platforms allow industrial synergies to be harnessed rapidly; acquisitions that extend territorial coverage, mainly the acquisition of platforms in new territories from which Labco can apply its strategy of consolidating smaller operators and acquisitions of medical expertise designed to give it additional scientific and technological capacities. For the years ended December 31, 2012, 2013 and 2014, Labco carried out 16, 11 and 16 acquisitions, respectively, of groups of companies, individual companies or the business assets of small and medium-sized laboratories for a total purchase price, net of cash acquired (and excluding earn-out payments) of €45.2 million in 2012, €20.4 million in 2013 and €130.2 million in 2014 (which includes €107.6 million for the strategic acquisition of the SDN Group on July 30, 2014). In addition, Labco made fixed or performance-related earn-out payments in respect of the aforementioned acquisitions or those carried out previously. Labco's liability for earn-out payments, estimated at fair value, amounted to €11.5 million as of December 31, 2014.
- *Investments.* Labco's investments fall into the following categories: purchases of laboratory materials and devices; purchases of information systems: hardware, software, licenses and IT developments; and purchases of fixtures and fittings in rented premises and, in some rare cases, real estate transactions. Labco's investment expenditure net of disposal effects amounted to €15.4 million in 2012, €18.7 million in 2013 and €35.5 million in 2014.
- *Payment of interest and repayment of debts.* A large proportion of Labco's cash flow goes on servicing (paying interest) and repaying debts. Labco paid interest and financial expenses of €51.1 million in 2012, €52.0 million in 2013 and €57.9 million in 2014. Labco also paid (after offsetting transactions involving its previous revolving credit facility) €10.6 million to repay borrowings in 2012, €9.2 million in 2013 and €4.8 million in 2014. Labco paid €6.7 million to repay finance-lease debt in 2012, €6.0 million in 2013 and €6.9 million in 2014.
- *Financing Labco's working capital requirements.* Labco's working capital requirements primarily consist of the value of trade receivables and other operational receivables, plus inventories and minus trade payables and other operating payables. Structurally, Labco's working capital requirements reflect its business models in each geographical zone in which it operates, and is structurally negative in France and the United Kingdom.

Cash Flows for the Three Months Ended March 31, 2014 and 2015

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Labco's results of operations for the three months ended March 31, 2014 do not reflect any results for the SDN Group for that period, whereas the SDN Group's results are fully consolidated in Labco's results of operations for the three months ended March 31, 2015. Labco's results of operations for the three months ended March 31, 2014 are therefore not directly comparable with its results of operations for the three months ended March 31, 2015.

The following table summarizes Labco's cash flows for the three months ended March 31, 2014 and 2015.

Cash flows (€ millions except for %)	Three months ended March 31, (unaudited) 2014 (restated)	2015
Cash flows from operating activities	24.1	15.3
Cash flows from investing activities	(23.3)	(11.5)
Cash flows from financing activities	(43.1)	5.7
Net increase/(decrease) in cash and cash equivalents	(42.3)	9.5

Cash Flows from Operating Activities

The table below shows Labco's cash flows from operating activities for the three months ended March 31, 2014 and 2015.

Cash flows (€ millions except for %)	Three months ended March 31, (unaudited) 2014 (restated)	2015
EBITDA	32.5	38.3
Change in working capital requirement	(4.0)	(13.5)
Income tax paid	(3.6)	(2.4)
Net cash used in non-recurring expenditure	(0.9)	(8.2)
Other cash flows	0.1	1.0
Net cash flows from operating activities	24.1	15.3

Total cash flows from operating activities decreased by €8.8 million, or 36.5%, to a €15.3 million inflow for the three months ended March 31, 2015, from a €24.1 million inflow for the three months ended March 31, 2014. This decrease was primarily due to an increase in cash used in non-recurring expenses, from €0.9 million in the three months ended March 31, 2014, to €8.2 million for the three months ended March 31, 2015, as a result of the purchase of priority dividend rights from certain French laboratory doctors accrued as of December 31, 2014, the payment of costs incurred for preparing an initial public offering and a decrease in change in working capital requirement of €9.6 million, caused by the seasonality of the operations of the SDN Group, and was partially offset by a €5.8 million increase in EBITDA and a €1.3 million decrease in income tax paid due to a corporate reorganization, which led to lower taxes paid by the certain entities.

Cash Flows from Investing Activities

The table below shows Labco's cash flows from investing activities for the three months ended March 31, 2014 and 2015.

Cash flows **(€ millions except for %)**	**Three months ended March 31, (unaudited)**	
	2014 (restated)	**2015**
Purchases and disposals of property, plant and equipment and intangible assets	(4.0)	(8.0)
Purchases of investments net of cash acquired and changes in debt relating to acquisition	(16.4)	(3.4)
Net decrease (increase) in other assets	(2.9)	(0.1)
Cash flows from (used in) investing activities	(23.3)	(11.5)

Total cash flows used in investing activities changed from a €23.3 million outflow for the three months ended March 31, 2014 to a €11.5 million outflow for the three months ended March 31, 2015. This change was primarily due to a decrease in purchases of investments net of cash acquired and changes in debt relating to acquisitions, from a €16.4 million outflow for the three months ended March 31, 2014 to a €3.4 million outflow for the three months ended March 31, 2015, due to a lower number of acquisitions completed in the three months ended March 31, 2015 as a result of management preparing for Labco's proposed initial public offering. Cash used in acquisitions of tangible and intangible assets, net of disposals, increased from a €4.0 million outflow for the three months ended March 31, 2014, to a €8.0 million outflow for the three months ended March 31, 2015, primarily due to non-recurring specific investments, such as the acquisition of fixtures for and improvements to Labco's site in Barcelona, which amounted to €0.7 million, and in the United Kingdom (relating to the new platform for the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract), which amounted to €1.1 million, and to acquisitions made in 2014, particularly the strategic acquisition of the SDN Group on July 30, 2014, together with, to a lesser extent, Labco's investments in information systems.

Cash Flows from Financing Activities

The table below shows Labco's cash flows from financing activities for the three months ended March 31, 2014 and 2015.

Cash flows* **(€ millions except for %)**	**Three months ended March 31, (unaudited)**	
	2014 (restated)	**2015**
Proceeds from share capital increase	(15.0)	1.5
Net cash from (used in) net financial profit (loss)	(26.9)	(26.5)
New borrowings and other financial liabilities*	1.4	256.8
Repayment of borrowings and other financial liabilities*	(1.0)	(224.4)
Repayment of finance lease liabilities	(1.6)	(1.6)
Dividends paid to minority interests in fully consolidated companies	0.0	(0.0)
Cash flows from (used in) financing activities	(43.1)	5.7

* Cash flows from new borrowings and the repayment of borrowings include cash from amounts drawn and repaid on Labco's Existing Credit Facility, either for short periods for cash management purposes, or for longer periods.

Cash flows used in financing activities amounted to a €5.7 million inflow for the three months ended March 31, 2015, because Labco issued €100 million in aggregate principal amount of additional Existing Labco Notes in February 2015, and repaid its previous revolving credit facility in a net amount of €67.0 million. In addition, Labco used €26.5 million of net cash on financial expenses, €1.6 million on repaying finance-lease debt and a net €0.6 million on repaying other debts. Labco also completed several capital increases for the three months ended March 31, 2015, pursuant to the exercise of warrants by certain members of its management team for a total amount of €1.5 million (net of the distribution of part of the specific reserve for warrant holders for an amount of €597,000, as beneficiaries having exercised their warrants are entitled to €0.32 per share).

Cash flows used in financing activities amounted to a €43.1 million outflow for the three months ended March 31, 2014, because Labco used €26.9 million on financial expenses and €1.6 million on repaying finance-lease debt. In addition, Labco distributed share premiums to shareholders, which amounted to €15.0 million as of March 31, 2014, and other debts increased by a net amount of €0.4 million for the three months ended March 31, 2014.

Cash Flows for the Years Ended December 31, 2013 and 2014

On July 30, 2014, Labco acquired the SDN Group. The financial results of the SDN Group have been included in Labco's financial statements from the date of its acquisition. Due to the accounting impact of this transaction and the consolidation of the operating results of the SDN Group, Labco's results as of and for the years ended December 31, 2013 and 2014 are not directly comparable.

The following table summarizes Labco's cash flows for the years ended December 31, 2013 and 2014. It therefore includes, for the year ended December 31, 2013, information relating to the German business that was sold in late 2013, prompting the presentation pursuant to IFRS 5 of cash flows relating to the divested German entities in specific line items relating to discontinued activities.

Cash flows (€ millions except for %)	Year ended December 31, 2013	2014
Cash flows from operating activities	93.0	85.7
Cash flows from investing activities	27.7	(163.1)
Cash flows from financing activities	(9.3)	(16.0)
Net increase/(decrease) in cash and cash equivalents	111.4	(93.5)

Cash Flows from Operating Activities

The table below shows Labco's cash flows from operating activities for the years ended December 31, 2013 and December 31, 2014.

Cash flows (€ millions except for %)	Year ended December 31, 2013	2014
EBITDA	106.3	113.2
Change in working capital requirement	7.3	14.3
Income tax paid	(24.5)	(29.3)
Net cash used in non-recurring expenditure	(5.6)	(14.3)
Other cash flows	1.4	1.7
Cash flows from operating activities in relation to discontinued operations	8.0	—
Net cash flows from operating activities	93.0	85.7

Total cash flows from operating activities decreased by €7.3 million, or 7.9%, to €85.7 million for the year ended December 31, 2014 from €93.0 million for the year ended December 31, 2013. This decrease was primarily due to cash flows from discontinued operations, which amounted to €8.0 million in 2013 and consisted of non-recurring income arising from the settlement of litigation with former shareholders of Labco's Dillenburg laboratory. Adjusted for discontinued operations, net cash flows from operating activities increased, primarily due to a €7.0 million increase in EBITDA and a positive contribution of €7.0 million from a change in Labco's working capital requirement in 2014 as a result of the acquisition of the SDN Group on July 30, 2014 and, to a lesser extent, the impact of non-recurring elements, partially offset by a €8.7 million increase in cash used in non-recurring expenses, related in particular to the purchase of priority dividend rights from certain French laboratory doctors, and a €4.8 million increase in the amount of income tax paid due to the payment of the SDN Group's annual tax bill in the second half of 2014.

Cash Flows from Investing Activities

The table below shows Labco's cash flows from investing activities for the years ended December 31, 2013 and December 31, 2014.

Cash flows (€ millions except for %)	Year ended December 31, 2013	2014
Purchases and disposals of property, plant and equipment and intangible assets	(18.7)	(35.5)
Purchases of investments net of cash acquired and changes in debt relating to acquisition	(20.2)	(125.2)
Net decrease (increase) in other assets	73.1	(2.4)
Cash flows from investing activities in relation to discontinued operations	(6.5)	—
Cash flows from (used in) investing activities	27.7	(163.1)

Total cash flows from investing activities changed from a €27.7 million inflow for the year ended December 31, 2013, including €6.5 million relating to discontinued operations, to a €163.1 million outflow for the year ended December 31, 2014. This change was primarily due to the strategic acquisition of the SDN Group on July 30, 2014, whereas in 2013 Labco sold its German activities for an amount, net of sale fees, of €73 million. Cash used in acquisitions of tangible and intangible assets, net of disposals, increased from €18.7 million in 2013 to €35.5 million in 2014, primarily due to real estate investments in Barcelona, Brussels (relating to the acquisition of a laboratory) and the United Kingdom (relating to the new platform for the new Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust contract), together with, to a lesser extent, Labco's investments in information systems.

Cash Flows from Financing Activities

The table below shows Labco's cash flows from financing activities for the years ended December 31, 2013 and December 31, 2014.

Cash flows* (€ millions except for %)	Year ended December 31, 2013	2014
Proceeds from share capital increase	—	(19.3)
Net cash from (used in) net financial profit (loss)	(52.0)	(57.9)
New borrowings and other financial liabilities	192.4	429.8
Repayment of borrowings and other financial liabilities	(142.2)	(361.8)
Repayment of finance lease liabilities	(6.0)	(6.9)
Dividends paid to minority interests in fully consolidated companies	(0.1)	—
Cash flows from (used in) financing activities of discontinued operations	(1.5)	—
Cash flows from (used in) financing activities	(9.3)	(16.0)

* Cash flows from new borrowings and the repayment of borrowings include cash from amounts drawn and repaid on Labco's Existing Credit Facility, either for short periods for cash management purposes, or for longer periods.

Cash flows used in financing activities amounted to a €16.0 million outflow for the year ended December 31, 2014 because Labco used €57.9 million of net cash on financial expenses, €6.9 million on repaying finance-lease debt and a net €4.2 million on repaying other debts. In addition, Labco distributed share premiums in an amount of €21.9 million to shareholders in the first half of 2014, of which it paid €21.5 million on December 31, 2014, and carried out a €2.2 million capital increase reserved for laboratory doctors who had sold their laboratories to Labco. Labco also drew a net €75 million on its previous revolving credit facility, primarily to finance the acquisition of the SDN Group, and incurred €2.8 million of issuance costs when renegotiating an amendment to its previous senior facilities agreement on December 18, 2014.

Cash flows used in financing activities amounted to a €9.3 million outflow for the year ended December 31, 2013 because Labco used €1.5 million of net cash on the financing of discontinued operations, €52.0 million on financial expenses and €6.0 million on repaying finance-lease debt. In 2013, Labco issued €100 million in aggregate principal amount of additional Existing Labco Notes, and at that time repaid its previous revolving credit facility in a net amount of €41.0 million and other debts in an amount of €8.8 million.

Cash Flows for the Years Ended December 31, 2012 and 2013

On December 2, 2013, Labco sold its entire German operations to Sonic Healthcare for an aggregate consideration of €76.0 million. Labco has accounted for such operations as "discontinued operations" with effect from December 31, 2013 in its financial statements, in accordance with IFRS 5 (*Assets and liabilities held for sale and discontinued operations*). As a result, in Labco's consolidated statement of cash flows as of and for the year ended December 31, 2013, the contribution of its German operations is presented on a separate line item under each of "*cash flows from operating activities*," "*cash flows from investing activities*" and "*cash flows from financing activities*," and the consolidated financial information as of and for the year ended December 31, 2012 included for comparison purposes in such consolidated statement of cash flows was restated accordingly. Labco has not restated its statements of cash flows as of and for the year ended December 31, 2012, and such statements of cash flows are therefore not directly comparable with its statements of cash flows as of and for the year ended December 31, 2013.

The following table summarizes Labco's cash flows for the years ended December 31, 2012 and 2013.

	Year ended December 31,	
Cash flows (€ millions except for %)	**2012 restated in line with IFRS 5**	**2013**
Cash flows from (used in) operating activities	90.2	93.0
Cash flows from (used in) investing activities	(60.0)	27.7
Cash flows from (used in) financing activities	(41.8)	(9.3)
Net increase/(decrease) in cash and cash equivalents	(11.6)	111.4

Cash Flows from Operating Activities

The table below shows Labco's cash flows from operating activities for the years ended December 31, 2012 and December 31, 2013.

	Year ended December 31,	
Cash flows (€ millions except for %)	**2012 restated in line with IFRS 5**	**2013**
EBITDA	103.4	106.3
Change in working capital requirement	5.0	7.3
Income tax paid	(19.6)	(24.5)
Net cash from (used) in non-recurring expenditure	(6.7)	(5.6)
Other cash flows	1.6	1.4
Cash flows from (used in) operating activities of discontinued operations	6.5	8.0
Net cash flows from operating activities	90.2	93.0

Total cash flows from operating activities increased by €2.8 million, or 3.1%, to €93.0 million for the year ended December 31, 2013, including €8.0 million of cash flows from discontinued operations, from €90.2 million for the year ended December 31, 2012, including €6.5 million of cash flows from discontinued operations. This increase was primarily due to a €2.8 million rise in EBITDA from continuing operations, a positive contribution of €2.4 million from a reduction in Labco's working capital requirement, a €1.1 million reduction in cash used in non-recurring expenses and a €1.5 million increase in cash flow generated by discontinued operations in Germany, partially offset by a €4.8 million increase in the amount of income tax paid. The higher amount of income tax paid related mainly to France, because of catch-up in down payments made in 2013 on the basis of 2012 tax, and a balancing tax payment for 2012, whereas in 2012, down payments were low since they were based on the 2011 tax, which was sharply reduced by non-recurring expenses arising from the 2011 refinancing.

Cash Flows from Investing Activities

The table below shows Labco's cash flows from (used in) investing activities for the years ended December 31, 2012 and December 31, 2013.

Cash flows (€ millions except for %)	Year ended December 31, 2012 restated in line with IFRS 5	2013
Purchases and disposals of property, plant and equipment and intangible assets	(14.0)	(18.7)
Purchases of investments, net of cash acquired and changes in debt related to acquisitions	(44.5)	(20.2)
Net decrease (increase) in other assets	(0.1)	73.1
Cash flows from (used in) investing activities of discontinued operations	(1.3)	(6.5)
Cash flows from (used in) investing activities	(60.0)	27.7

Total cash flows from (used in) investing activities changed from a €60.0 million outflow for the year ended December 31, 2012 to a €27.7 million inflow for the year ended December 31, 2013. The improvement resulted mainly from the €73.0 million of net proceeds received in 2013, net of costs, from the disposal of Labco's German entities. In addition, cash used to acquire investments, net of cash acquired and changes in debt related to acquisitions, decreased from €44.5 million in 2012 to €20.2 million in 2013, since Labco made fewer acquisitions and those that it made were smaller than in 2012. Cash used to acquire tangible and intangible assets increased from €14.0 million in 2012 to €18.7 million in 2013.

Cash Flows from Financing Activities

The table below shows Labco's cash flows from (used in) financing activities for the years ended December 31, 2012 and December 31, 2013.

Cash flows* (€ millions except for %)	Year ended December 31, 2012 restated in line with IFRS 5	2013
Proceeds from share capital increase	27.4	—
Net cash from (used in) net financial profit (loss)	(50.6)	(52.0)
New borrowings and other financial liabilities	616.4	192.4
Repayment of borrowings and other financial liabilities	(627.1)	(142.2)
Repayment of finance lease liabilities	(6.0)	(6.0)
Dividends paid to minority interests in fully consolidated companies	(0.1)	(0.1)
Cash flows from (used in) financing activities of discontinued operations	(1.7)	(1.5)
Cash flows from (used in) financing activities	(41.8)	(9.3)

* Cash flows from new borrowings and the repayment of borrowings include cash from amounts drawn and repaid on Labco's Existing Credit Facility, either for short periods for cash management purposes, or for longer periods.

Cash flows used in financing activities amounted to €9.3 million for the year ended December 31, 2013 because Labco used €1.5 million of net cash on the financing of discontinued operations, €52.0 million on financial expenses and €6.0 million on repaying finance-lease debt. In 2013, Labco issued €100 million in aggregate principal amount of additional Existing Labco Notes, and at that time repaid its previous revolving credit facility in a net amount of €41.0 million and other debts in an amount of €8.8 million.

Cash flows used in financing activities amounted to €41.8 million for the year ended December 31, 2012 because Labco used €1.7 million of net cash on the financing of discontinued operations, €50.6 million on financial expenses and €6.0 million on repaying finance-lease debt. Labco also repaid its previous revolving credit facility in a net amount of €7.0 million and other debts totaling €3.9 million. In addition, Labco carried out several capital increases in 2012 amounting to €27.4 million (net of related costs).

Capital Expenditures

Labco's capital expenditures, excluding acquisitions, for the three months ended March 31, 2015 and 2014 and the twelve months ended March 31, 2015 were €8.0 million, €4.1 million and €39.9 million, respectively. Labco's primary capital expenditures for three months ended March 31, 2015 related to fixtures for certain real estate investments, including its new site in Barcelona and new platform in the United Kingdom, as well as site improvements in France and IT improvements and, to a lesser extent, purchase of certain automats. As a percentage of total revenue, capital expenditures, excluding capital lease effect, amounted to 4.4% and 2.7% for the three months ended March 31, 2015 and 2014, respectively.

Labco's capital expenditures, excluding acquisitions, for the years ended December 31, 2014 and 2013 were €36.0 million and €18.9 million (restated for the sale of Labco's German business), respectively. Labco's primary capital expenditures for the year ended December 31, 2014 included exceptional acquisitions of fixed assets amounting to €15.3 million relating to three real estate projects completed in 2014 (new buildings acquired in Barcelona, a new platform in Basildon in the United Kingdom and the purchase of a building in Brussels in Belgium in connection with the acquisition of a Belgian laboratory). Other capital expenditures related to site improvements in France, the purchase of testing equipment, as well as expenditure on Labco's IT systems and the payment of capital expenditure committed in 2013 in Spain and Belgium. As a percentage of total revenue, capital expenditures, excluding capital lease effect, amounted to 5.8% and 3.5% for the years ended December 31, 2014 and 2013, respectively.

Labco's capital expenditures, excluding acquisitions, for the years ended December 31, 2013 and 2012 were €18.9 million and €14.3 million, respectively. Labco's primary capital expenditures in 2013 related to site improvements in France and Iberia, the purchase of certain specific automats and assets in Iberia, France, Belgium and for its new site in Monza, Italy, as well as IT developments and vehicles. As a percentage of total revenue, capital expenditures excluding capital lease effect amounted to 3.5% and 2.8% for the years ended December 31, 2013 and 2012, respectively.

Capital Resources

As of March 31, 2015, Labco had net total financial debt of €661.8 million composed of its borrowings and other financial liabilities (including primarily the aggregate principal amount of the Existing Notes) of €745.6 million, partially offset by cash and cash equivalents of €83.9 million. As of December 31, 2014, Labco had net total financial debt of €650.4 million. Labco defines "net financial debt" as borrowings and other financial liabilities, less cash and cash equivalents.

Future drawings under the Revolving Credit Facility will be available only if, among other things, Labco complies with the financial and other covenants in the Revolving Credit Facility Agreement. Labco's ability to meet the financial covenants in the Revolving Credit Facility Agreement will depend on its results of operations, which may be affected by factors outside its control. For more information about the Revolving Credit Facility Agreement, see "*Description of Other Indebtedness—Revolving Credit Facility Agreement*."

Contractual Obligations and Commercial Commitments

The table below sets forth Labco's contractual obligations and commitments as of March 31, 2015, as adjusted for the offering of the Existing Senior Secured Notes and the application of the proceeds thereof as described in "*The Transactions—The Labco Acquisition*."

Contractual obligations	Less than 1 year	1 - 5 years	More than 5 years	Total
	(€ millions)			
Existing Senior Secured Notes	—	—	800.0	800.0
Bilateral loans(1)	3.3	9.0	0.2	12.5
Finance lease obligations	5.1	9.0	4.1	18.3
Other financial liabilities(2)	0.9	—	—	0.9
Acquisition investment commitment (including earn-outs)(3)	0.3	10.1	—	10.4
Total	9.6	28.1	804.3	842.1

(1) Consists primarily of bilateral bank loans of recently acquired entities or certain non-guarantor subsidiaries of the Issuers used for equipment financing purposes, including accrued but unpaid interest.

(2) Consists primarily of Labco's obligations under its recourse factoring agreement in Portugal.

(3) Consists primarily of earn outs due to sellers from which Labco acquired laboratory companies in the year ended December 31, 2014 and the three months ended March 31, 2015 which are calculated at fair value based on factors including the performance of such companies following their acquisition.

Labco also has obligations under operating leases and towards reagent suppliers who make testing equipment available to it in exchange for exclusive purchasing commitments, including minimum purchase commitments. Labco does not consider these minimum purchase commitments to be material for it.

Off-Balance Sheet Commitments

Labco is party to various customary off-balance sheet arrangements, such as purchase agreements that contain minimum purchase commitments, and securities and pledges given mainly in the context of its financing strategy. None of these arrangements has or is likely to have a material effect on Labco's results of operations, financial condition or liquidity.

Financial Risk Management

Almost all of Labco's income and expenditure is denominated in euro, which is its functional currency.

However, certain Labco Group entities may be exposed to transaction risks relating to a purchase or sale transaction in a different currency. This is primarily the case for one of Labco's subsidiaries in Iberia, which carries out tests from samples taken outside the eurozone (mainly in Latin America). For those tests, customers are invoiced by the local trading subsidiaries in the relevant country's currency. Accordingly, Labco generates revenue in Brazilian real and Colombian pesos.

Similarly, some work, mainly related to genetic tests to detect Down's syndrome, is outsourced from a U.S. provider, resulting in expenditure in U.S. dollars.

In the United Kingdom, Labco's income and expenditure are in sterling and do not give rise to any transaction risk. However, investments in UK subsidiaries and the financing of those subsidiaries may give rise to currency risk due to fluctuations in sterling against the euro. As regards Labco's Swiss subsidiary Test S.A., Labco has marginal exposure to risk relating to the Swiss franc exchange rate. Labco's policy is to hedge that risk on a case-by-case basis. No hedging instrument was in place in respect of that risk as of December 31, 2014.

Revenue denominated in currencies other than the euro accounted for 2.1% of total revenue for the year ended December 31, 2013 and 6.0% for the year ended December 31, 2014. This increase was primarily due to an increase in Labco's activities in the United Kingdom.

Critical Accounting Policies and Estimates

IFRS requires Labco to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the relevant period. These estimates and assumptions are based on the information available at the time of preparation of the financial statements and affect the published amounts. Actual results may differ from these estimates.

A more detailed description of the accounting rules and methods that Labco applies in accordance with IFRS is provided in the notes to its audited consolidated financial statements included elsewhere in this offering memorandum.

INDUSTRY

Historical and current market data used throughout this offering memorandum were obtained from external sources. Industry surveys and publications generally state that the information contained therein has been obtained from sources believed to be reliable, but the accuracy and completeness of the information contained in the industry publications is not guaranteed. None of the Issuers, the Initial Purchasers or any of their respective advisors have independently verified this market data. While we are not aware of any misstatements regarding any industry or similar data presented in this offering memorandum, our estimates, particularly as they relate to market share and our general expectations, involve risks and uncertainties and are subject to change based on various factors, including those discussed under the "Risk Factors" section in this offering memorandum. We do, however, accept responsibility for the correct reproduction of this information, and, as far as we are aware and are able to ascertain from information published, no facts have been omitted that would render the reproduced information inaccurate or misleading.

The projections and other forward looking statements in this section are not guarantees of future performance and actual events and circumstances could differ materially from current expectations. Numerous factors could cause or contribute to such differences. See "Risk Factors" and "Forward Looking Statements."

Overview

We are a major player in the healthcare industry and conduct our business in Europe in the private healthcare sector, primarily in the field of clinical diagnostics. The diagnostic services sector comprises businesses and laboratories that offer analytic or diagnostic testing services including:

- clinical biological testing, including standard and specialty;
- anatomical pathology testing of both histological and cytological samples; and
- diagnostic imaging using medical and molecular imaging technologies.

Diagnostic services are an important factor in medical decisions and the efficiency of healthcare systems. Prompt and accurate diagnoses improve the quality of care and reduce the ultimate cost of medication and/or hospitalization. Aided by technological and medical advances, the healthcare industry's focus is increasingly shifting from the treatment of patients to the prevention and early detection of medical conditions. This shift is leading to greater reliance on diagnostic testing services and, consequently, increasing demand for clinical laboratory services. We believe that while most diagnoses today are based on laboratory testing in some way, expenditures for laboratory testing continue to constitute a very small portion of overall total healthcare expenditures in our markets, providing sufficient room for growth as the demand for clinical laboratory services increases. For example, it is estimated that diagnostic services are used in approximately two thirds of medical decisions but are thought to have only accounted for approximately 3% of health spending in France in 2012 (source: L.E.K. Report). Similarly, based on industry reports available to us, we estimate that laboratory expenditure as a percent of total health care expenditure in Germany has been below three percent between 1993 and 2013.

We believe that operational models for diagnostic services can differ significantly depending on (i) the structure of the local healthcare system and the nature of the payers, (ii) the nature of prescribers, (iii) regulation and (iv) the approach to patient care:

- *Structure:* Healthcare systems differ from one country to the other, with varying levels of coverage by the public healthcare organizations. Other groups of payers include private insurance companies, employers, hospitals, other laboratories or patients themselves.
- *Nature of prescribers:* The healthcare professional prescribing to the patient the analysis necessary for a good clinical diagnosis may influence the choice of the laboratory. In some countries, healthcare professionals may also be able to offer a limited range of analysis. In addition, for certain types of analysis, patients sometimes decide to avail themselves of laboratory services.
- *Regulation:* Regulations relating to the qualification of laboratory doctors and laboratory personnel, technical conditions for testing, professional independence of laboratory doctors and conditions for owning, establishing and operating clinical laboratories vary by country. See "*Regulation*."
- *Patient care:* The clinical laboratory services sector can be subdivided into an inpatient sector and an outpatient, or ambulatory, sector. In the inpatient sector, clinical laboratories increasingly compete with each other for laboratory subcontracting and outsourcing contracts from both public and private hospitals, mainly on the basis of price and quality of service. In the "outpatient" sector,

clinical laboratories generally compete with each other for doctors' referrals and walk in patients, mainly on the basis of quality of service and location.

Clinical Laboratory Services Sector in Europe

Overview

The overall clinical laboratory services sector in Europe comprises both public and private laboratory services providers, which collectively offer services across a range of scientific areas, including:

- general clinical laboratory testing, or testing of body fluids for abnormalities (e.g., blood cell counts, coagulation, iron levels, cholesterol);
- microbiology, or testing for presence of microbiological pathogens (e.g., differentiation, antibiotic resistance, influenza tests);
- anatomic pathology and cytology, or testing of cells and tissue samples for abnormalities (e.g., analysis of tumor marks, pap-smears); and
- genetics, or testing of genetic material for abnormalities (e.g. analysis of risk factors, analysis of fetal DNA for mutations).

Clinical laboratory testing is used in all scientific areas and can broadly be divided into routine testing and specialty testing. Routine clinical laboratory tests are regularly used in general patient care by doctors to establish or support a diagnosis, to monitor treatment or to search for an otherwise undiagnosed condition. Routine testing is highly automated, scale-driven, and efficiency-oriented. Specialty clinical laboratory tests involve a higher level of complexity than routine tests, are conducted by skilled laboratory professionals and generally utilize more sophisticated technology, equipment or materials. Due to technological progress and innovation, the boundary between routine and specialty testing is continuously changing. From time to time, certain specialty tests become processable on automated test equipment; this reduces the cost per test and causes the process to eventually become part of routine testing. The spectrum of specialty tests also continues to expand through the introduction of new innovative tests.

The customer base in the clinical laboratory services market is diverse and spans both the public and private sectors. Therefore, customers include individual patients as well as hospitals, public and private clinics, medical practices and laboratories, physicians, blood collection points, public health agencies, pharmaceutical companies and clinical research organizations, among others.

Depending on applicable law and regulation, diagnostic services are typically covered by statutory health insurance ("SHI") or private health insurance ("PHI") providers. Other testing services are freely negotiated, such as under hospital outsourcing contracts, or are paid for out-of-pocket by patients (if not covered by their SHI or PHI provider) or other private payers.

The European clinical laboratory services sector is highly fragmented, and there are currently only a few pan-European players. The nature of competition in the clinical laboratory services sector varies by country, largely due to different market characteristics and regulatory regimes. The overall market has experienced consolidation in recent years, in part driven by regulatory changes, and we expect this trend to continue in the future. We believe that increasing pressure on governments to reduce healthcare spending in light of budget constraints are likely to lead to greater outsourcing of hospital laboratory work which, in turn, will further drive volume growth for private laboratory operators and increase their accessible market, or the portion of the market accessible to private clinical laboratory service providers like us. We believe that large laboratory networks such as ours will be the main beneficiaries of this development, as they enjoy economies of scale, greater financial resources, experience in operating complex hospital outsourcing contracts and other advantages.

In 2014, we estimate that the European clinical laboratory services sector amounted to approximately €30 billion. The five largest players are Sonic Healthcare, Synlab, Labco, Unilabs and Cerba. We estimate that the combined Synlab/Labco business, together with the next largest competitor, will have a combined market share of approximately 7% of the €30 billion European clinical laboratory services market.

The diversity of healthcare systems in Europe also means that the provision of clinical laboratory services varies from country to country, particularly in relation to:

- *Density of private clinical laboratories:* In 2013, the density of private laboratories was estimated to be approximately six laboratories per 100,000 inhabitants in France while less than one laboratory per 100,000 inhabitants in countries such as Belgium and Germany.
- *Number and density of qualified laboratory doctors and pharmacists:* In Europe, the average number of qualified laboratory doctors is around 5.8 laboratory doctors per 100,000 inhabitants, ranging from approximately 16.5 laboratory doctors per 100,000 inhabitants in France to approximately 0.6 laboratory doctors per 100,000 inhabitants in Germany. In France, the number of qualified laboratory pharmacists has been decreasing over the past few years from approximately 8,000 as of December 31, 2009 to around 7,600 as of December 31, 2013 (source: Xerfi Report).
- *Regulations:* Regulations relating to the qualification of laboratory doctors and laboratory personnel, technical conditions for testing, professional independence of laboratory doctors and conditions for owning, establishing and operating clinical laboratories vary by country. See "*Regulation*."
- *Quality standards:* In countries such as Switzerland, Spain and Belgium, national regulations require, or will require in the future, the accreditation of all clinical laboratories, while other countries accept internal quality management standards. In France, accreditation for clinical laboratories will gradually become compulsory from November 2016.
- *Pricing of clinical laboratory tests:* The prices of clinical laboratory services in most countries in Europe are, to a large extent, regulated. Significant disparities in tariffs persist, with prices per test generally higher in France and Switzerland than in Spain. In countries such as Spain, regulated prices in private clinical laboratory services have been replaced by contractually negotiated prices with private third party payers.
- *Choice of laboratory:* Depending on the country, the clinical laboratory performing tests for a patient is chosen by the patient, by his or her doctor or by the patient's health insurance provider.

Market characteristics

The clinical laboratory services market is characterized by a very limited number of significant new market entrants in recent years, primarily due to economies of scale, regulatory requirements and requisite technical expertise:

- Economies of scale are present in many areas of the market, including procurement, logistics, test processing, professional training and development as well as building and maintaining relationships with customers, regulators and payers. The presence of such economies of scale can be advantageous to larger players who are better able to benefit from efficiencies in procurement by bundling volumes across laboratories and geographies, which assists them in adjusting to price cuts. Similarly, larger players are better able to operate an integrated laboratory model, which utilizes centralized laboratories combined with geographically dispersed base laboratories and collection centres.
- Regulatory requirements and characteristics include complex and varied pricing and reimbursement environments, strict quality standards and requirements, long-term contracts and complex licensing and accreditation processes in certain countries. Market participants with more experience in navigating the national reimbursement environments and relationships with key customers and suppliers in certain geographies enjoy advantages over new entrants who lack such experience. Moreover, the need to adapt to the varied and changing market and regulatory landscape across the countries in which we operate may make it difficult for some laboratory networks to expand their businesses into new geographies other than through acquisitions.
- In the outpatient doctor segment, there is often relatively little customer attrition due to doctors' satisfaction with their incumbent laboratory providers and the integration of the clinical diagnostic process into doctors' daily clinical practice. This often leads to low levels of customer churn, which acts as a competitive advantage to incumbent players with existing customer relationships.
- More established market participants may also enjoy advantages in attracting and retaining leading scientific employees due to scientific reputation and technical capabilities, particularly in the

provision of specialized testing services. Furthermore, their scale may give them greater scope to identify and employ advanced technology and best practices in certain specialized testing segments.

Clinical Laboratory Services Market by Geography

Germany

In 2014, we estimate that the total German clinical laboratory services market amounted to approximately €6.9 billion (source: GIA), with the accessible market for private laboratories accounting for approximately 45% to 55% of the total market according to our estimates. From 2012 to 2014, we estimate that the total German clinical laboratory services market grew by approximately €0.4 billion (from approximately €6.5 billion in 2012 to approximately €6.9 billion in 2014).

With respect to customers, the total German clinical laboratory services market can be divided into an outpatient sector, comprising mainly general practitioners ("GPs"), and an inpatient sector comprising mainly hospitals. In 2014, the total market was approximately evenly split between the outpatient and the inpatient sector. In Germany, GPs are responsible for collecting samples with their own staff, usually nurses or medical technical assistants. In return, they are free to choose a clinical laboratory to test the sample. GPs are allowed to perform certain tests themselves, primarily basic routine tests, whereas only laboratory specialists or other specialist doctors with an additional laboratory qualification may perform specialty laboratory tests in most scientific areas. Private practice GPs frequently form laboratory cooperations (*Laborgemeinschaften*) to perform routine tests. However, such private practice GPs organized in laboratory cooperations (*Laborgemeinschaften*) typically outsource their specialized tests to clinical laboratory service providers. Cooperation with laboratory cooperations (*Laborgemeinschaften*) provides clinical laboratory service providers with access to specialty testing prescribed by GPs and reduces customer churn.

The German clinical laboratory services market is also experiencing an increase in outsourcing of laboratory services by hospitals. Outsourcing requires laboratory providers to have the necessary laboratory and testing capacity, logistics networks, ability to meet turnaround times and availability of specialty laboratory doctors, among other success factors. We have already entered into significant cooperations in the hospital laboratory outsourcing sector, which are freely negotiated and include agreements for full outsourcing of certain hospitals' laboratory testing (i.e., routine and specialty). We believe that there are further opportunities for outsourcing of laboratory services of public hospitals in Germany, particularly in connection with efforts to control costs in smaller hospitals.

We estimate that approximately 90% of the population in Germany are insured by approximately 130 SHIs (*Gesetzliche Krankenversicherung*) and approximately 10% of the population covered by approximately 40 PHIs (*Private Krankenversicherung*) Services which are not covered by SHIs and PHIs may be paid by patients out-of-pocket. Prices and levels of reimbursement of laboratory tests are regulated by the state for both patients insured under SHI and patients insured under PHI. In the inpatient sector, private laboratories invoice hospitals for testing services pursuant to contracts based on freely negotiated prices, which may, for example, be based on flat rates or fees per test as a percentage of applicable fee scales. In the outpatient sector, different price and compensation levels exist under the SHI and PHI systems. In the SHI system, a uniform assessment standard (*Einheitlicher Bewertungsmaßstab*, "EBM") for compensation of medical services has been established at the federal level, and payments are distributed and effected at the regional level by regional health authorities (*Kassenärztliche Vereinigungen*). In the second half of 2012, the German Federal Association of Statutory Health Insurance Physicians (*Kassenärztliche Bundesvereinigung*, or "KV") implemented a central federal quota (i.e., a capped percentage of the scheduled EBM fees) for laboratory tests. The quota for the fourth quarter of 2012 was 95.4%. It decreased for the first quarter of 2013 to 89.2%. The quota for the first quarter of 2015 was 91.6%.

In the PHI system, a binding scale of fees for physicians (*Gebührenordnung für Ärzte*, GOÄ) has been enacted by the Federal Ministry of Health. Any future amendment of the 30-year old tariff system, which has been part of perennial political discussions over the last decade, may result in a reduction of GOÄ prices for laboratory services.

Germany has a relatively low level of reimbursement compared to many other European countries, such as Switzerland, particularly when comparing levels paid in the inpatient sector, which accounts for approximately half of the total market, or under the SHI system for the outpatient sector.

The clinical laboratory services market in Germany is somewhat less fragmented than that of other European countries due to the presence of five laboratory networks, including us, who together make up an estimated approximately 39% of the accessible market by revenue. We estimate that the remainder of the accessible market consists of approximately 300 to 400 small to medium-sized laboratories with a regional focus. We expect consolidation in the market to continue, driven primarily by efforts of the larger clinical laboratory groups to expand their geographical footprint, increase specialization and take advantage of economies of scale in a highly competitive marketplace.

We believe that we are the second largest provider of clinical laboratory testing in Germany based on 2014 revenue, with a market share of approximately 9% of the accessible market in 2014. Our primary competitors include Sonic, Limbach, amedes and LADR. We estimate that the top two players in the German laboratory services market (Sonic and us) had a market share of approximately 20% of the accessible market in 2014.

France

In 2013, studies show that the French clinical laboratory services market generated revenues of approximately €7 billion, with private laboratories representing approximately 66% of the overall French clinical laboratory services market (sources: BIOLAM, Rapport de la Cour des comptes pour la biologie médicale en date du 18 juillet 2013 and L.E.K. Report). In 2011, 2012 and 2013, "outpatient" clinical laboratory services in private laboratories generated fairly stable levels of revenue of approximately €4.6 billion, €4.5 billion and €4.6 billion, respectively (sources: BIOLAM and L.E.K. Report). In 2013, there were thought to be approximately 3,900 private laboratories out of a total estimated at 4,700 laboratories operating in France (source: L.E.K. Report). The number of qualified clinical pharmacists as at December 31, 2013 was about 7,600 compared with approximately 8,000 as at December 31, 2009 (source: Xerfi). The French clinical laboratory services market is highly regulated. In 2012, it is estimated that 76% of the French healthcare market was funded by the French social security system, with private health insurers and patients contributing approximately 14% and 10%, respectively (sources: HCAAM and L.E.K. Report).

In France, doctors prescribe clinical tests for their non hospitalized patients, who are free to choose the laboratory in which they are tested. Patients typically choose a laboratory based on proximity to their home or workplace. Accordingly, presence in high traffic locations and reputation for quality of services are key factors.

Prices for clinical tests are set by a commission consisting of representatives from the Ministry for Social Affairs, Health and Women's Rights, UNCAM and professional bodies. Tests for which reimbursement is authorized are included in the nomenclature of clinical tests and quantified by the letter B, which is worth €0.27 (sources: BIOLAM and L.E.K. Report). Generally, more specialized and newer tests are initially not included in the nomenclature and thus not initially reimbursed.

Depending on the uptake of the test or its therapeutic advantages offered, UNCAM may seek advice from the Haute Autorité de Santé ("HAS") regarding its inclusion in the nomenclature. HAS will base its advice on the following criteria:

- the indications for which the proposed service is assessed and those for which the HAS believes inclusion is warranted, identifying, where appropriate, the population groups affected;
- a description of the role of the act or service in therapeutic strategy; and
- an assessment of the improvement offered by the proposed service compared to alternative standard therapeutic approaches based on current scientific data, notably with regard to the comparative effectiveness of these treatments. The improvement offered by the proposed service is evaluated for each indication and, where appropriate, population group.

With or without this advice, a commission for the evaluation of clinical laboratory acts and services approves or rejects the inclusion of the act in the nomenclature and the price that has been determined by UNCAM. This commission consists of six biologists representing the profession (trade unions) and three UNCAM representatives (each with two votes), and a chairman, elected by the commission, who has one vote. However, UNCAM has the final decision on proposing the inclusion of a test in the nomenclature and submitting its proposal to the minister. If the minister accepts the proposal the test is included in the nomenclature via advertisement in the Official Journal.

The French government has announced its intention to control healthcare spending, particularly spending on clinical testing by French clinical laboratories. An agreement was reached on October 10, 2013 between the main French laboratory doctors' unions and UNCAM. The purpose of this agreement was to give clinical laboratories visibility on their financial prospects over a three year period, while also exerting control over healthcare spending. This resulted in the determination of an annual rate of growth for spending on clinical laboratory services of 0.25% between 2014 and 2016. The government intends to reach this target through modest reductions in prices, which are to be spread over the period, and control of prescriptions, in order to offset the natural growth in volumes. Trade unions are scheduled to meet with representatives of UNCAM every six months in order to assess the impact of changes in prices and determine what future changes may be necessary in order to meet the annual growth target. In late January 2015, UNCAM held discussions with trade unions to reiterate its commitment to the three year agreement and to propose a rate revision commensurate with volume growth projected for 2014 and expected for 2015. Based on those figures, at its meeting held July 8, 2015, CNAM decided to maintain the existing nomenclature for 2015. Another meeting is planned in November 2015 to assess the market spend evolution and potentially propose a rate revision for the beginning of 2016 to align the overall spend with the three-year agreement guideline.

France has the highest number of clinical laboratories and laboratory doctors per capita of all the countries in which we operate. There are therefore significant consolidation opportunities in the French clinical laboratory services market. Several factors drive this consolidation, including:

- the high number of smaller laboratories in France, where levels of automation are still low;
- price cuts to offset rising testing volumes, which create an erosion of margins which can only be offset by the use of increasingly large centers;
- as of November 2013, French legislation has required all clinical laboratories to provide evidence that they have begun the accreditation process (ordinance no. 2010 49 of January 13, 2010, article 8, paragraph V);
- French legislation which now requires that all clinical laboratories be accredited for 50% of the clinical tests they carry out, as of November 1, 2016. This level will increase to 70% from November 1, 2018, before rising to 100% by November 1, 2020. The heightened accreditation standards may force a number of the small clinical laboratories to merge or be acquired by larger laboratory groups (source: HPST Law and Ballereau Decree no. 2010 49). See "*Regulation*." Labco's laboratories' failure to comply with these thresholds by the requisite date could force the laboratories concerned to discontinue the activities for which they are not accredited. See "*—Sector Trends—Quality Standards*"; and
- regulatory constraints that limited consolidation are easing: the restrictions on the number of clinical laboratories that may be owned and operated by the same laboratory company (but still a SEL is not allowed to operate more than five clinical laboratories) or on the number of SELs that may be owned by the same shareholder, and the restrictions on the outsourcing of tests between clinical laboratories and technical platforms operated by the same SEL have been eased (but French law still limits the number of tests that can be outsourced by one clinical laboratory to another for analysis and interpretation every year to 15% of the total number of tests carried out by the outsourcing laboratory).

These different factors driving consolidation are reflected in the figure for "average number of laboratories per SEL," which went from 1.1% in 2006 to 1.15% in 2009 and 1.55% in 2012 (source: Xerfi).

Prior to ordinance No. 2010 49 of January 13, 2010, laboratories were located on a single site and provided the whole of the testing process: pre analysis, analysis and post analysis in their specialty area (immunology, bacteriology, etc.). Since 2010, several laboratories have merged, creating multi site clinical laboratories, pooling most of their testing on a single technical platform. Some local laboratories have been repositioned as collection centers.

The effects of scale are clearly reflected in the operating performances of clinical laboratories. Average EBITDA margins for small structures (those with an annual revenue of less than €2 million) and for medium structures (those with an annual revenue between €2 million and €5 million) were 10% and 11%, respectively, in 2013, while the figure reached 18% for larger structures (with an annual revenue of over €5 million) (source: Xerfi).

After the merger between Cerba and Novescia, the four largest clinical laboratory groups (routine and specialty tests combined) represented approximately 23% of the biological laboratory testing market based on available 2013 revenue figures. These four groups were, in decreasing order of market share, Cerba Novescia, Synlab/Labco on a combined basis, Biomnis and Unilabs with market shares of approximately 8.5%, 7.1%, 4.6% and 2.8%, respectively.

Switzerland

In 2013, the Swiss clinical laboratory services market generated revenues of approximately €1.9 billion, with private laboratories estimated to represent approximately 25% of the overall Swiss clinical laboratory services market. In 2013, it is believed that there were approximately 50 private clinical laboratory groups in Switzerland operating more than 150 laboratories.

In Switzerland, clinical testing is carried out by general practitioners (45% approximately of total volumes), private laboratories (30%) and hospitals (25%). Two thirds of general practitioners have a clinical laboratory within their practice where they carry out the simpler tests, while subcontracting more complex tasks to private laboratories. Studies show that the majority of small hospitals subcontract clinical testing to private laboratories, while larger hospitals generally have their own laboratories, and subcontract only specialty testing.

Prices for clinical tests are set by the DFI and the Decree on Health Insurance Services of September 29, 1995. The DFI defines a list of tests to be reimbursed under compulsory medical insurance and allocates a number of points per test, with each point worth CHF1. Created in 1994, the catalogue contained some 1,500 tests in 2014, including 55 tests that can be carried out in medical practices by general practitioners. The last major revision took place in 2009 to reflect the increased automation of the most commonly used tests. A new revision, applicable as of January 1, 2015, introduces a significant increase in prices for some tests, for general practitioners only. This measure aims to increase the number of general practitioners setting up in Switzerland by offering them a source of more attractive additional income.

The main factors behind the choice of a private clinical laboratory in Switzerland are proximity to patients, the time needed to return results, pre analysis costs charged by general practitioners and the relationship with the laboratory's sales team. For specialty tests, the main selection criteria are the laboratory's reputation and the qualifications and medical expertise of its staff.

In 2013, the private clinical laboratory sector in Switzerland was relatively highly concentrated, with 50 groups operating a total of more than 150 facilities, of which approximately 100 were operated by the six main groups: Unilabs, Sonic, Synlab/Labco on a combined basis, Laboratoire Viollier, Laboratoire du Dr. Risch and Meditest. The market leaders are concentrated in and around the major cities (Zurich, Geneva and Lausanne), with the rest of the country covered by smaller laboratories, which generally operate one or two facilities focusing on a local client base.

In 2013, the four largest clinical laboratory groups represented more than 50% of the private clinical laboratory sector, based on the number of clinical laboratories. These groups were Medisupport, Unilabs, Synlab/Labco on a combined basis and Laboratoire Viollier.

United Kingdom

In 2013, public health spending on clinical laboratory services and anatomical pathology in the United Kingdom was approximately €5.2 billion, of which it is believed approximately €0.3 billion corresponded to subcontracting of services to approximately 40 private laboratories (source: L.E.K. Report). The market for clinical laboratory services is dominated by the public sector through hospital laboratories. The NHS, which accounted for 82% of health spending in 2013, provides testing services for both inpatients and outpatients (sources: OMS, BMI Healthcare). However, contracts are awarded by the distinct entities responsible for each region: NHS England, NHS Scotland, NHS Wales and NHS Northern Ireland. In 2013, approximately 95% of public spending on clinical laboratory services was dedicated to public hospitals. In addition, investments were necessary to keep or obtain the Clinical Pathology Accreditation ("CPA") quality accreditation from the United Kingdom Accreditation Service ("UKAS"). See "*—Sector Trends—Quality Standards*."

Medical services provided to patients outside NHS hospital structures are commonly referred to as "outpatient" or "primary care services." The services are provided by doctors, general practitioners and specialists, assembled in Clinical Commissioning Groups ("CCGs") and Area Teams. In the case of clinical services, CCGs and Area Teams negotiate contracts with NHS hospitals for the testing of their samples. These contracts are generally negotiated on the basis of the volume and typology of the previous year's tests and can be amended annually or semi-annually. The remuneration attached to the contracts is a fixed annual lump sum. Some groups of doctors have already subcontracted their clinical services to private operators. The acute care branches of NHS hospitals have autonomy for the provision of medical services and the allocation of expenses, and are usually managed in coordination with NHS hospitals and CCGs.

Faced with tight budget restrictions, NHS hospitals are increasingly outsourcing their clinical laboratory services to private groups, with a view to making them more economically efficient. This trend towards outsourcing began in London and southeast England, and is now spreading to the whole of the United Kingdom. Studies have shown that between 2008 and 2012, the value of clinical services outsourced to the private sector rose from less than €120 million to more than €280 million (source: L.E.K. Report), demonstrating an annual average growth of 18.5% over this period. By 2018, it is estimated that this figure is likely to increase by more than 15% per year, rising to approximately €0.6 billion. This trend, which is supported by the government, as reflected in the 2010 Carter Report, is likely to continue, given the cost savings and improved operational efficiency that this outsourcing brings. Outsourcing is subject to tender procedures which generally last for between 12 and 18 months, resulting in long term contracts of more than seven years. Test prices are negotiated directly between the NHS Trust hospitals and private clinical laboratories. Prices are usually indexed to inflation over the life of the contract.

In 2013, the four main private sector clinical laboratory groups had a combined share of more than 90% of the clinical tests' outsourcing private sector in the United Kingdom. These four groups were The Doctors Laboratory (TDL), Quest Diagnostics, Viapath (formerly GSTS) and Synlab/Labco on a combined basis (source: L.E.K. Report).

Belgium

In 2013, the Belgian clinical laboratory services market generated revenues of approximately €1.4 billion, with private laboratories estimated to represent approximately 50% of the overall Belgian clinical laboratory services market (source: L.E.K. Report). In 2013, there were approximately 100 private clinical laboratories operating in Belgium, including 64 not for profit organizations. Between 2004 and 2013, the market for private clinical laboratory services grew from approximately €0.4 billion to approximately €0.7 billion (source: INAMI). This market growth was greater between 2004 and 2009, before stabilizing at an average growth rate evaluated at approximately 1.3% per year between 2009 and 2013 (source: INAMI).

The prices of the large majority of laboratory tests are state regulated and are set by the national healthcare regulator (*Institut National d'Assurance Maladie Invalidité*, or "INAMI") on an annual basis. Reimbursement levels for tests included in the INAMI nomenclature are set by the Belgium health authorities and typically provide for a co payment by the patient. A small number of laboratory tests, however, are excluded from the INAMI's price regulation and prices are set at the discretion of individual laboratories. Most nutrition tests, for example, are not reimbursed by INAMI. As in other European countries, efforts are being made to control health spending more effectively.

The Scientific Institute for Public Health (*Institut scientifique de santé publique*, or the "ISP") is responsible for the accreditation of laboratories in Belgium on behalf of *SPF Santé Publique* (the Belgian governmental organization responsible for health issues).

Reimbursement is made by the INAMI when the laboratory test is included in the INAMI nomenclature and the laboratory has been accredited by the ISP.

The outpatient laboratory services market in Belgium is mostly structured on the basis of a business to business model where samples are collected at a doctor's practice before being delivered to a technical platform for testing at clinical laboratories such as ours. Certain laboratories, including our own, also operate networks of Labco Collection Centers for patients whose doctor does not take samples.

The Belgian market is now fairly highly concentrated following the consolidation that took place in the 1990s and 2000s. Market consolidation was triggered by the easing of rules on the ownership of clinical laboratories by investors who are not laboratory doctors. It is also due to the increasing difficulty in obtaining authorizations to operate and to reductions in prices.

In 2013, it is estimated that the two largest clinical laboratory groups represented nearly 25% of the private clinical laboratories' sector while the eight largest represented about 40% (source: L.E.K. Report).

The two leaders are Sonic Healthcare and CMA Medina representing approximately 12% of the market shares each (representing approximately €86 million and €83 million, respectively) followed by Synlab/Labco. The other players are below 3% market share individually.

Our market share in Belgium does not include the nutritional biology's revenue, amounting to approximately €12.2m in 2014, as some tests are carried out on behalf of foreign laboratories or patients and most of them are excluded from the nomenclature.

Austria

In 2014, we estimate that the total Austrian clinical laboratory services market amounted to approximately €750 million, with the accessible market for private laboratories accounting for approximately 45% to 50% of the total market. From 2011 to 2014, we estimate that the Austrian clinical laboratory services market grew by approximately €50 million (from approximately €700 million in 2011 to approximately €750 million in 2014).

Northern Europe

Of the total clinical laboratory services markets in Finland, Lithuania, Estonia and Latvia, we estimate that Finland represented approximately 80% of the market size in 2014. In 2014, we estimate that the Finnish laboratory services market generated revenues of approximately €640 million, with the accessible market for private laboratories amounting to approximately 15%. From 2011 to 2014, we estimate that the Finnish clinical laboratory services market grew by approximately €20 million (from approximately €620 million in 2011 to approximately €640 million in 2014).

Italy

In 2013, the Italian clinical laboratory services market generated revenues of approximately €3.4 billion (source: GIA and L.E.K. Report). The market grew by approximately 1.8% per annum on average between 2010 and 2013 (source: GIA, L.E.K. Report) and this trend is expected to continue between 2013 and 2018, with growth estimated to be between approximately 1.5% and 2% per annum (sources: GIA and L.E.K. Report). Studies show that private clinical laboratories accounted for approximately 45% of the overall Italian clinical laboratory services market based on revenue (sources: GIA and L.E.K. Report). In 2011, there were approximately 2,600 private laboratories operating in Italy (sources: Italian Ministry of Health and L.E.K. Report). The market share of private laboratories, however, varies significantly by region due to Italy's fragmented and decentralized healthcare system.

Generally, in the case of tests covered by the national healthcare authority (*Servizio Sanitario Nazionale*), prior to undergoing any test, a patient must pay a fee that covers only part of the test's actual cost. The amount of this prepayment varies by region and according to the patient's social eligibility criteria. The remaining portion of the cost is covered by the national healthcare authority (*Servizio Sanitario Nazionale*) or by private healthcare insurers.

The *Servizio Sanitario Nazionale* provides guidelines for prices applicable to accredited private clinical laboratories. However, regional authorities, the *Azienda Sanitaria Local* (the "ASL") have the authority to set local prices above or below national guidelines. On an annual basis, each accredited private clinical laboratory must sign an agreement with local authorities that determines the specific reimbursement rules for prices and the total budget allocated to the laboratory for the year. Once the annual budget has been reached, which generally occurs in the final quarter of the year, ASLs will no longer, or only partly, reimburse the tests carried out by the clinical laboratories which requires patients to pay for tests themselves. As a result, reimbursement levels vary widely from region to region. In the unlikely case that the annual budgets allocated by the ASLs for a given year are not fully used by the end of the year, we do not exclude a revision aiming to lower such budgets for the next year.

In Italy, outpatient's doctors prescribe clinical tests and patients are free to choose the clinical laboratory in which the tests are conducted. Patients typically choose a laboratory based on proximity to their home or workplace.

Large clinical laboratories in Italy, such as Alliance Medical, Centro Diagnostico Italiano ("CDI") and Synlab/Labco, typically offer an integrated diagnostic testing service, providing clinical testing, diagnostic imaging services, ambulatory care and other healthcare services.

In Italy, the radiology market produced approximately 60 million scans in 2011 (sources: Italian Ministry of Health). From 2006 to 2011, studies suggest that the market grew by 1% per annum on average in volume (sources: Italian Ministry of Health). During that period, there was a shift from basic to more complex scans, evidenced by the trend in equipment sales. From 2005 to 2012, equipment suppliers achieved average sales growth of around 6.3% per annum and they are forecasting annual growth of approximately 8.5% between 2012 and 2020, with above average predicted growth in CT scanners (approximately 9.7%) and MRI scanners (approximately 11.8%), which are mainly used for high value added scans. As regards nuclear medicine, in 2012, the Italian market represented approximately 1.5 to 2 million scans, of which about one quarter were estimated to be high value added Positron Emission Tomography ("PET") scans which cost approximately €1,000 per scan (source: MTG, L.E.K. Report). Equipment suppliers achieved average sales growth of approximately 3.5% per annum from 2005 to 2012 and they are expecting growth to accelerate at approximately 5.8% a year between 2012 to 2020 (source: Global Data).

We believe that there are significant consolidation opportunities in the Italian clinical laboratory services market as a result of its high fragmentation, decreases in prices (following the recent decreases in national nomenclature prices) and the recent national and regional reductions in healthcare expenditure.

In 2013, the three main groups offering integrated diagnostic testing on a national scale (in decreasing order of 2013 revenue) were Synlab/Labco on a combined basis (*pro forma* for the acquisition of the SDN group), CDI and Alliance Medical. However, in terms of clinical laboratory business within these groups and based on 2013 revenue only, the main companies operating in Italy in the same regions as Synlab/Labco during such period were Laboraf and CDI, with market shares of approximately 2.0% and 1.9%, respectively.

Spain

In 2013, the Spanish clinical laboratory services market generated revenues of approximately €2.6 billion, with private laboratories representing approximately 35% of the total market (source: DBK and L.E.K. Report). In 2013, there were about 1,900 private laboratories operating in Spain.

In Spain, most patients are covered by the public healthcare system, with 22% of the population (predominantly in major urban areas) holding supplementary private medical insurance in 2013 (source: ICEA). For example, in 2011, in the regions of Madrid and Catalonia, where we have a strong presence, 31% and 27% of the population, respectively, were covered by supplementary private medical insurance (source: ICEA). In 2013, the majority of our revenues in Spain was derived from the private system. Despite the difficult economic situation in Spain over the last few years, the private Spanish medical sector continues to grow as patients seek to insure themselves against an increasingly constrained national health system. A privately insured patient must choose from among the clinical laboratories that have entered into a reimbursement agreement with his or her private insurer. Generally, tariffs for tests performed by private clinical laboratories are negotiated at a regional level with private or mutual insurance companies and private hospitals. There are two basic fee structures: a per patient fixed fee model (the "Capitation Model") and an activity based model. Under the Capitation Model, the insurer pays a fixed price for each policyholder. As a result, the revenues of a laboratory for that contract are independent from the volume of analysis performed during the contract period. As a consequence, deviations from the expected volume can either have a positive impact on profitability (lower volumes than anticipated) or negative impact (higher volumes than anticipated). However, certain tests are not included in the fixed prices and are subject to specific invoicing. Under an activity based fee structure, the insurer pays the laboratory for each test performed, in accordance with a schedule of agreed test prices.

In the Spanish outpatient sector, doctors, as well as primary and specialized care centers may collect samples and send them to a clinical laboratory for testing. Some clinical laboratories also collect samples that they process.

Spanish labor law requires employers to provide regular health checks for their employees. The services relating to these checks are generally provided by specialized companies which then subcontract clinical testing to private laboratories such as us.

Numerous private hospitals outsource their medical analysis to private laboratories. However, outsourcing by public hospitals to private clinical laboratories, under public private partnerships, is currently mostly limited to specialized testing. Spanish law requires public hospitals to conduct tender processes when choosing service providers.

The Spanish clinical laboratory services market remains fairly fragmented but is quickly consolidating under the pressure of competitive pricing levels, as clinical laboratories seek to enhance their bargaining power with suppliers and customers. The number of laboratories has decreased from more than 3,600 laboratories in 2008 to approximately 2,600 laboratories in 2013, including approximately 670 hospitals laboratories and approximately 1,900 private laboratories (source: DBK).

In 2013, the five largest clinical laboratory groups represented more than 30% of the private clinical laboratory sector. These five groups were, in decreasing order of market share, Synlab/Labco on a combined basis, Laboratorio Dr. Echevarne, Unilabs, Megalab and Reference Laboratory, with market shares of 11.9%, 6.4%, 5.6%, 3.2% and 3.2%, respectively.

Czech Republic

In 2014, we estimate that the total Czech clinical laboratory services market amounted to approximately €600 million, with the accessible market for private laboratories accounting for approximately 45% of the total market. From 2011 to 2014, we estimate that the total Czech clinical laboratory services market grew by approximately €15 million (from approximately €585 million in 2011 to approximately €600 million in 2014).

With respect to customers, the total Czech clinical laboratory services market can be divided into an outpatient sector comprising GPs, specialists and outpatient clinics and an inpatient sector comprising public and private hospitals. While the accessibility of the inpatient sector remains very limited, the outpatient sector is highly accessible to clinical laboratory service providers. In 2014, the outpatient sector accounted for approximately 68% of the total market and the inpatient sector accounted for approximately 32% of the total market.

SHI covers almost 100% of the Czech population, and reimbursement of almost all clinical laboratory service providers takes place through the seven SHIs in the Czech Republic. Clinical laboratory service providers have direct long-term contracts with the SHIs. The contracts are regulated by the Ministry of Health under the directive on long-term contracts, and are up for renewal every 5 to 7 years. Inpatient clinical laboratory services are reimbursed under diagnosis-related groups and global budgets. Outpatient clinical laboratory services are reimbursed according to a fee-for-service system.

The system of payment for medical care or clinical laboratory services in the Czech Republic is based on a point system, with points having a defined value which are incorporated into the contracts with the SHIs. A positive list of reimbursable tests is issued and annually reviewed by the Czech Ministry of Health, and overall reimbursement for a given test is determined by the number of points assigned to such test multiplied by a point value (which vary by test segment). The point value has a fixed and variable component, subject to a volume cap based on the number of unique patients, with the variable fee associated with the point value reduced proportionally if the average points per patient for a particular laboratory exceeds the volume cap in the respective reference period.

We believe that we are the leading provider of clinical laboratory services in the Czech Republic based on 2014 revenue, with a market share of approximately 17% of the accessible market in 2014. Our primary competitor in the Czech Republic is AeskuLab and, to a lesser degree, AGEL. In 2014, we believe that we, AeskuLab and AGEL together accounted for approximately 40% of the accessible market, with the remaining 60% of the market fragmented among numerous point-of-care laboratories, hospital laboratories and small private laboratory businesses.

Portugal

In 2013, the Portuguese clinical laboratory services market generated revenues of approximately €0.6 billion with private laboratories estimated to represent approximately €253 million, or approximately 40%, of the overall Portuguese clinical laboratory services market (source: L.E.K. Report). In 2012, it is believed that there were approximately 430 private clinical laboratories operating in Portugal. Healthcare spending in 2013 is thought to represent 9.3% of Portuguese gross domestic product (sources: OMS and BMI Healthcare).

In Portugal, there are three major categories of healthcare providers: the national health insurance (*Serviço Nacional de Saúde*); several subsystems in which healthcare is provided by public institutions or by contract with private or public providers (or, a combination of both); and private healthcare insurers. Each of these healthcare providers establishes its own table of prices and reimbursement levels of laboratory tests.

Outpatients are generally free to choose a clinical laboratory from the public or the private sector for their medical testing. Patients with no private insurance can choose to go to public laboratories or to private laboratories that have agreements with the *Serviço Nacional de Saúde* (or a subsystem, if applicable). The prices for clinical laboratory services in the public sector are set and supported by the *Serviço Nacional de Saúde* (or the relevant subsystem) and typically require a small co payment from the patient. Patients with private insurance can choose to go to public laboratories or private laboratories that have entered into reimbursement agreements with their private insurers. The cost of clinical laboratory services in the private sector is not state regulated and test prices are negotiated between private laboratories and private health insurance companies.

The *Serviço Nacional de Saúde* is not currently entering into new reimbursement agreements with clinical laboratories (except in specific situations where the reimbursement agreement is made on a case by case basis in the public interest), creating a significant barrier to entry for new players.

Outsourcing by public hospitals to private laboratories remains limited in Portugal. Opportunities for such contracts mainly arise in connection with newly constructed public hospitals. However, private hospitals are increasingly outsourcing their clinical laboratory services.

The Portuguese private clinical laboratory services market is relatively consolidated but there are still a number of consolidation opportunities.

In 2013, the five largest clinical laboratory groups represented approximately 50% of the private clinical laboratory market (source: L.E.K. Report). These five groups were, in decreasing order of market share, Synlab/Labco on a combined basis, Joaquim Chaves, Unilabs, BMAC and Beatriz Godinho.

Hungary

In 2014, we estimate that the total Hungarian laboratory services market amounted to approximately €107 million, with the accessible market for private laboratories accounting for approximately 45% to 55% of the total market. From 2011 to 2014, we estimate that the total Hungarian clinical laboratory services market grew by approximately €5 million (from approximately €102 million in 2011 to approximately €107 million in 2014).

Emerging Markets

These markets have particularly attractive features for a number of reasons. First, higher and increasing standards of living in these countries are generally accompanied by a strong growth in demand for healthcare, which is due, in particular, to the rapid spread of chronic diseases and a growing desire for preventive treatment. In addition, the investments made by these countries have in many cases focused on the creation of hospital infrastructure, although the introduction of a full range of medical services has not necessarily kept pace.

Competitive Features

Highly competitive market with ongoing consolidation

The European clinical laboratory services sector is highly competitive. We believe that we are one of the leading pan-European players in our sector. However, we expect further cross border consolidation among certain of our competitors as well as increased penetration of the European clinical laboratory services sector by some of the major non-European laboratory groups (Quest Diagnostics, Laboratory Corporation of America and Sonic Healthcare in particular). We continue to implement strategies designed to improve our competitive position.

Selection criteria

Laboratory selection can be determined by the healthcare provider, the insurance or directly by the patient. Patients that are free to select where they are tested usually base their decision on a laboratory's proximity to their home or workplace.

Other clients, mostly doctors, hospitals and other healthcare providers, consider the following factors, among others, in selecting a clinical laboratory:

- accuracy, timeliness and consistency in reporting test results;
- reputation of the clinical laboratory in the medical community or field of specialty;

- number and type of tests performed;
- method of delivering and/or publishing results; and
- tools available for interpreting results.

In addition, price is a key factor in the hospital outsourcing market and unregulated sector.

On an individual basis, our clinical laboratories compete with independent clinical laboratories, hospital-based laboratories (both privately and publicly owned) and doctor office laboratories. At a Group level, our laboratories compete with other national, European and international groups.

Regional, National and European Clinical Laboratory Groups

Certain national laboratory groups emerged between 1995 and 2005, such as Cerba and Biomnis in France, Unilabs in Switzerland, and General Lab and Echevarne in Spain. Since 2006, these groups began consolidating into European groups.

In the last few years, investment funds have shown an increased interest in the healthcare industry, and more particularly in the clinical laboratory services market. This trend is likely to accelerate market consolidation and the integration of pan European groups. For example, Unilabs, in which Apax and Nordic Capital invested in 2007, operates in eleven European countries including France, Switzerland, Spain, Portugal and the United Kingdom.

However, a number of leading independent national groups remain in Europe, such as CMA-Medina in Belgium, Viollier and Echevarne in Spain. In addition, in a number of countries, and in particular in France, there has been an emergence in the recent past of groups organized at a regional level, which are among our main competitors in their particular regional markets.

The consolidation in Eastern Europe is increasing with the formation of pan European groups such as Synevo, which is present in ten countries, and Medicover (Alpha Medical and Diagnostyka), which is one of the leaders in Poland, the Czech Republic and Slovakia.

Non-European Clinical Laboratory Groups

The major international players are:

- Sonic Healthcare, an Australian group, the only truly international player in the clinical laboratory services sector, with operations in Australia, New Zealand, the United States, Belgium, Germany, Switzerland, Ireland and the United Kingdom,
- Quest Diagnostics and Laboratory Corporation of America, both of which are American companies and by far the two largest clinical laboratory groups in the world but operate predominantly in the United States; and
- Diagnosticos da America and Fleury Medicina e Saúde, Brazilian groups which operate exclusively in Latin America.

Sector Trends

There are a number of key trends that we expect will impact the clinical laboratory services sector in Europe generally and our business. The recent economic slowdown has reduced industry growth rates. However, because clinical testing is an important healthcare service and because of the key trends discussed below, we believe that the industry will continue to grow over the medium and long terms.

Demographics

We believe that demographic trends and changes in lifestyles will lead to increased demand for, and consequently increased volumes of clinical testing. This includes the aging of the population, the increased frequency of soft diseases such as allergies and of long-term diseases such as cancer and diabetes requiring recurring tests, as well as an increased focus on preventive healthcare. Healthcare policies also increasingly recognize the value of the early detection and prevention of chronic and severe diseases. The growing emphasis placed on more accurate diagnoses supported by clinical testing has led doctors to increasingly utilize clinical laboratory tests to help identify potential diseases, to detect illnesses early, to monitor patient compliance, and to determine and evaluate treatment. We also believe that there will be a growing demand for customized healthcare solutions and potential for preventive medicine to reduce costs.

In addition, we believe that increased disposable income and a willingness of certain patients to absorb out-of-pocket costs, combined with increased health consciousness of the general population, could contribute to volume growth. At the same time, the impact of certain lifestyle choices, such as low levels of physical activity, malnutrition and stress, can lead to obesity and related chronic illnesses, which in turn may lead to additional testing.

Pricing Conditions

Prices for clinical laboratory services have experienced pressure in recent years due to direct tariff reductions and to broader health system reforms. Additionally, pressure on state budgets has also contributed in recent years to reductions in tariffs that can be legally charged for testing as governments and public authorities as well as third-party payers and private insurers have focused on reducing healthcare costs. In certain countries, public reimbursement levels are regularly updated. We believe that efforts to limit the rate of growth in healthcare expenditure will generally result in further reductions in regulatory tariffs in the future.

In general, price pressure remains part of operating in the European clinical laboratory services sector and we expect it to continue in the future. Price pressure is higher for automated routine tests than for specialty tests, which mitigates the overall impact of price pressure for companies that offer both routine and specialty testing.

Subcontracting and Outsourcing

Subcontracting and outsourcing by public and private hospital laboratories to the benefit of private organizations is another trend observed in the European clinical laboratory services sector over the last few years, driven in particular by the productivity gains that it brings to hospital operators. We believe that subcontracting and outsourcing will potentially represent a growing source of income for groups such as ours and will give us greater visibility on future income. This trend is not at the same stage of maturity in all European countries. It is currently most prevalent in Germany and Spain, especially in the private hospital sector and with hospitals run by churches or trusts. In Portugal, most public hospitals supply clinical laboratory services internally, while private hospitals tend to subcontract or outsource such services to private laboratories. For example, the hospitals of Cascais and Loures have outsourced their services to us. The insourcing trend is, however, offset by private hospitals outsourcing to private laboratories. In the United Kingdom, NHS hospitals, facing tight budget restrictions, are increasingly outsourcing their clinical laboratory services to private groups. See "*—Clinical Laboratory Services Market by Geography—United Kingdom*." We believe that the UK, French, Portuguese and Belgian markets may provide further outsourcing opportunities in the near future.

Integration and Streamlining of Laboratory Workflows

Growing demand for increased efficiency and electronic delivery of laboratory data continue to drive integration, automation and process improvement within the clinical laboratory services market. Clinical laboratory service providers are continuing to automate patient service workflows and laboratory processing in addition to further integrating patient health records and expanding online access to test results.

Medicine and New Technologies

Medical practice has entered a period of profound change, moving from curative medicine to "4P" medicine: Personalized, Predictive, Preventative and Participatory.

Clinical laboratory testing will have a key role to play in the development of 4P medicine, together with strong growth in the most advanced segments of medical biology, especially molecular biology.

- *Personalized.* Medicine will become personalized as it has been established that some treatments may work with one patient but not with another and a simple test can be carried out to identify those for whom it will be effective. Thus personalized medicine could see the development of treatments suited for specific groups of patients with shared medical and genetic characteristics, ensuring greater effectiveness. Most cancer treatments brought on to the market are accompanied by pharmaco genetic tests (or "companion tests") which, according to the patient's genetic profile, help identify the right product and dose to optimize the response and reduce secondary effects.

- *Predictive.* Molecular biology tests (or genetic analysis), and in particular the monitoring of biomarkers indicating the state of the health of individuals, help identify the risk of certain diseases, allowing for the early detection of potential problems before the emergence of clinical symptoms. Certain genetic tests can assess the risk for an individual of developing certain types of cancer, such as breast or colon cancer.
- *Preventative.* Predictive medicine allows for large preventative programs through the organization of screening campaigns for certain diseases (i.e., early diagnosis of chronic diseases such as diabetes and high cholesterol).
- *Participatory.* Participatory medicine is an approach in which individuals take more responsibility for their health and treatment. The development of epigenetics—the interaction between the environment and the expression of genes—shows that patients can, through their behavior, influence the onset or the evolution of diseases: the nutritional tests we offer, for example, help guide changes in dietary habits and reduce the risk of contracting certain diseases. However, increased individual responsibility for health can only come through the offering of a broader range of more sophisticated medical analysis tools. For example, we are developing an adjustment for the European market of an American application for health monitoring. This platform, accessible for both patients and doctors, contains medical and nutritional information, information related to a patient's physical activity as well as regular medical diagnostics in order to anticipate or avoid certain diseases.

We expect that the components of 4P medicine, combined with the most sophisticated diagnostic techniques, will produce significant gains in therapeutic and economic effectiveness. In particular, new opportunities in prevention and in the efficient targeting of treatments should allow significant cost savings for healthcare systems, on a scale that would affect the selection of policies that accelerate the expansion of diagnostic activities.

The acceleration in the development of 4P medicine has been made possible by profound changes in biological and medical research which have opened the way to a considerable expansion of the application of clinical testing in diagnostics.

This transformation has been driven by the development of new techniques which give access to a substantial amount of data on individuals. Progress in DNA sequencing has had a particularly decisive impact and has become the main drive of the development of molecular diagnostics. There has been a diversification in the methods available, with polymerase chain reaction and high speed next generation sequencing ("NGS"), allowing for more targeted testing and analysis and even the sequencing of an entire genome, which is now considerably quicker and cheaper to achieve. The cost of sequencing a human genome has fallen significantly in the past few years—it was less than $5,000 in 2014 and is likely to continue to decrease. We are likely to witness an increase in the demand for and use of sequencing in medical diagnostics.

Technical progress in sequencing is moving along with a better understanding of biological mechanisms. For instance, based on the observation that fragments of fetal DNA circulate freely in maternal blood during pregnancy, progress in sequencing has made it possible to develop non invasive prenatal tests for Down's Syndrome using maternal blood. We believe that molecular biology will soon make it possible to detect a number of other disorders—such as cystic fibrosis and spinal muscular atrophy—from a sample of maternal blood.

Similarly, it is now possible to identify the genetic changes that make tumors malignant, through analysis of the tumor genome, allowing for a greater role for clinical testing in the field of oncology.

More generally, these developments in molecular biology, combined with the identification of new biomarkers for different diseases, as well as new tests for allergies and nutritional biology, are likely to lead to an expansion of the portfolio of tests carried out in our most sophisticated laboratories.

Quality Standards

Changes in quality standards are also shaping the clinical laboratory services market. We believe that the quality standards applicable to the sector, although varying from one country to another, are likely to become increasingly restrictive over the next few years. Compliance with applicable national-level regulations, accreditation or certification standards and the requirements of standard-setting bodies are not only necessary for the continued operation of laboratories but also, in certain markets, a pre-requisite for selection as a contractual partner with health insurance providers or hospitals and clinics. Maintaining high quality standards and meeting increasingly stringent accreditation requirements is costly and time-consuming and may force smaller laboratories and laboratory networks to merge or consolidate in the future. For example, French legislation now requires that all clinical laboratories should have undertaken a quality accreditation process and it is likely that other European countries will follow suit. In view of the resources required to implement these quality standards, many small and medium sized independent laboratories could be tempted to join a network offering a quality control department and dedicated teams. See "*Regulation—France*".

Consolidation

We believe that a combination of factors, including pricing pressure, changing quality standards, the increasing complexity and technical demands of tests and the ongoing industrialization of processes seeking to generate economies of scale and cost reductions, are likely to lead to the consolidation of the portion of the European clinical laboratory services sector that remains fragmented. Consolidation could increase the market share of medium and large scale laboratory groups with a preexisting footprint and level of expertise and could accelerate the entrance of large competitors in the European market.

Environmental and Veterinary

Environmental

The environmental market can be broadly divided into three areas: (i) pollution and hygiene, (ii) food and (iii) pharmaceuticals. In 2014, we estimate that the relevant global environmental market amounted to approximately €8 billion, of which pollution and hygiene accounted for approximately €4 billion, food for approximately €2 billion and pharmaceuticals (excluding the contract research business) for approximately €2 billion. Heightened requirements in such areas as hygiene, pharmaceuticals, food and water quality monitoring and soil analysis are expected to continue to stimulate growth in the environmental analysis business.

Our environmental laboratory operations comprise services in the areas of pollution and hygiene, food and pharmaceuticals:

- Pollution & hygiene: comprises the testing of soil, water, air, and product samples:
  - samples range from drinking and industrial-process water over landfill soil samples to oil or gas products and are usually mandated by law;
  - customers include industrial companies (e.g., pulp and paper, steel, and construction companies) as well as public authorities, associations, and private individuals;
  - typical tests include analysis of ground water and air pollutants in exhaust gases and tests for legionella in drinking water.
- Food: comprises sample analysis from the food industry:
  - covers entire production process from agriculture to food processing and retail;
  - customers include farming and food processing companies as well as retail chains and public authorities;
  - typical tests include quality control, contamination analysis (e.g., pesticides), and authenticity analysis (e.g., meet analysis).
- Pharmaceuticals: comprises sample analysis for the pharmaceutical, med-tech, and cosmetics industries:
  - analysis of clean rooms and production sites to ensure good manufacturing practices;
  - verification of product purity and absence of contaminants;
  - customers mostly include health-care and consumer goods companies as well as public institutions;
  - typical tests include microbial-contamination screening of clean rooms.

Prices for environmental laboratory testing services are freely negotiated and not subject to regulated reimbursement levels. Services provided are paid for out-of-pocket. The environmental market is expected to grow and consolidate going forward due to increasing regulatory pressure, increasing consumer demand for clean products and environment, innovative methods with lower detection limits, outsourcing by industrial companies and consolidation of the testing industry.

We are most active in the German environmental market. In 2014, we estimate that the total addressable environmental market in Germany amounted to approximately €1 billion. We believe the market may continue to grow, mainly driven by increased regulation, customer demand and industry outsourcing. The German environmental market is served by diverse competitors and is highly fragmented, with approximately 800 chemical environmental laboratories. Our primary competitors include eurofins, SGS and Wessling. However, we believe that we are the only significant competitor with extensive clinical laboratory experience and medical test interpretation capabilities.

Veterinary medicine

In 2013, we estimate that the global veterinary diagnostics market amounted to approximately €2 billion. The global veterinary diagnostics market is generally divided into referral laboratory services (approximately €1.1 billion), instruments (approximately €0.6 billion) and point of care testing (approximately €0.3 billion). We are only active in the referral laboratory services segment. The referral laboratory segment comprises testing services provided by external laboratories (private or public) and offers basic analytics in high volume and specialized tests not available as point of care tests.

We have a strong focus on the German market, with approximately 85% of our revenue in the veterinary business in 2014 being generated in Germany (and approximately 14% in Belgium). In 2013, we estimate that the addressable German referral laboratory market generated revenues of approximately €115 million.

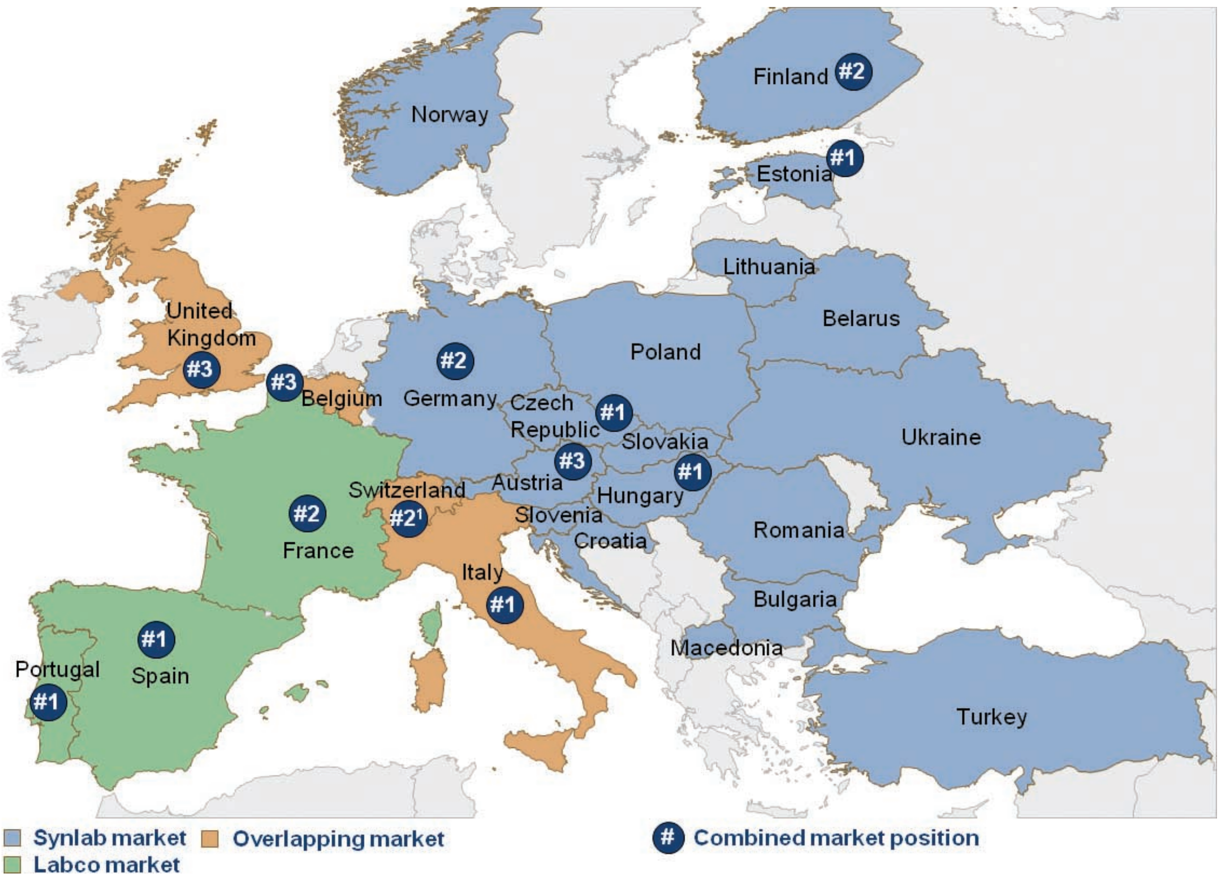
Prices for veterinary diagnostics testing services are freely negotiated and not subject to regulated reimbursement levels. Services provided are paid for out-of-pocket. The competitive landscape of the veterinary market consists both of specialized players as well as clinical laboratory chains. Our primary competitors include IDEXX laboratories, Laboklin and Biocontrol, which is part of the Sonic group.

Overview

Our combined business of Synlab/Labco will be the largest European clinical laboratory services company by revenue and will benefit from a pan-European network of over 465 laboratories across 28 countries. The growing market for clinical laboratory and medical diagnostic services in Europe is driven by positive structural trends, including an aging population, increasing prevalence of chronic diseases, a growing focus on disease prevention, and increasing outsourcing of clinical laboratory testing by hospitals. Significant portions of the European market remain fragmented, and both Synlab and Labco have been at the forefront of the consolidation trend in the clinical laboratory and medical diagnostic services market in Europe. Our combined market positions and the scale of our combined laboratory network will allow us to benefit from advantageous procurement conditions with our suppliers, including through group-wide pan-European framework supply agreements for reagents.

Together we believe we will be the market leader in the Czech Republic, Estonia, Hungary, Italy, Portugal and Spain, one of the top two providers of medical diagnostic services in Finland, France, Germany and Switzerland, and among the top three players in Austria, Belgium and the United Kingdom, in each case by revenue.

The pan-European presence and leading positions of our combined business in our core markets are identified in the map below.



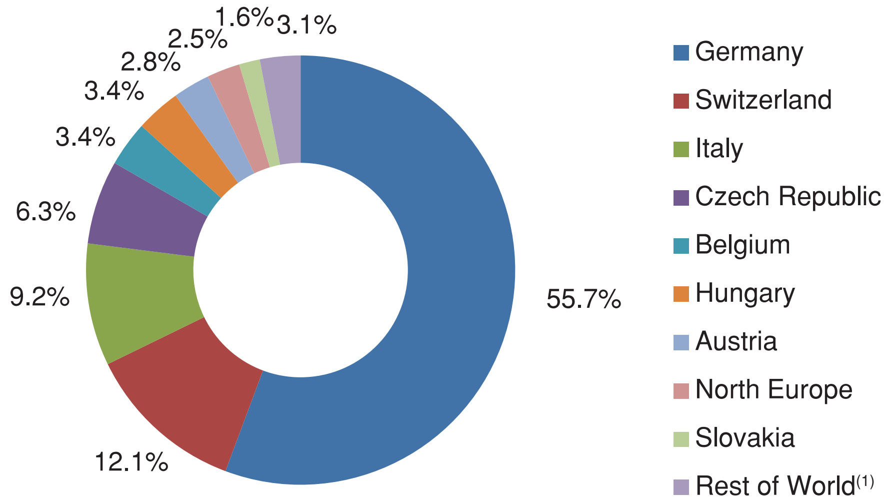
(1) Shared #2 position with medisupport.

Note: Synlab market positions are management estimates. Synlab market positions are based on 2014 revenue, and Labco market positions are based on 2013 revenue.

On a combined basis, we recorded *pro forma* Total Combined Estimated Revenue of €1,402.1 million and generated *Pro forma* Total Combined Estimated Adjusted EBITDA of €305.6 million for the twelve months ended March 31, 2015.

Overview of Synlab

The chart below provides information about Synlab's revenue to external customers for certain countries and regions for the year ended December 31, 2014.



(1) Rest of World comprises the following 11 countries: Belarus, Croatia, Cyprus, Macedonia, Poland, Romania, Slovakia, Slovenia, Turkey, the United Arab Emirates and the United Kingdom.

Synlab's business operations are characterized by a high degree of diversification across customers and payers, geographies, testing services and test parameters. Synlab's broad and diverse customer and payer base includes more than 30,000 medical practices, 700 hospitals and thousands of individuals, in addition to medical insurance companies, pharmaceutical companies and other corporate employers. Synlab's largest customer, a hospital chain operator, accounted for approximately 1% of its revenue in 2014. As of December 31, 2014, Synlab operated a network of over 300 laboratories and 285 blood collection points serving customers in 22 countries. Synlab's efficient hub-and-spoke network comprised 82 base laboratories and 208 hospital/satellite laboratories as well as 16 central hub laboratories, which perform specialty tests on samples provided from other network laboratories. Through Synlab's laboratory network, it is able to offer a full spectrum of approximately 5,000 clinical laboratory tests used by the medical profession in patient diagnosis and in the monitoring and treatment of disease. In 2014, Synlab performed approximately 240 million tests, with its top test accounting for less than 1% of its revenue.

Synlab is a trusted partner to leading healthcare, pharmaceutical and consumer goods companies, who also benefit from Synlab's introduction of approximately 50 new test parameters per year and provide it with further growth and diversification potential.

For the year ended December 31, 2014, Synlab generated revenue of €729.4 million and Adjusted EBITDA of €124.5 million. For the twelve months ended March 31, 2015, Synlab generated revenue of €736.6 million, Adjusted EBITDA of €125.2 million, Estimated Total Revenue of €744.1 million and Estimated Adjusted EBITDA of €139.1 million. As of March 31, 2015, Synlab had 8,006 full-time employees, including 654 laboratory doctors and 3,699 medical technical assistants.

Overview of Labco

The table and chart below provide information about the number of laboritories Labco owns in each of the countries in which it operates and the contribution of those markets to its revenue for the year ended December 31, 2014 after giving *pro forma* effect to the acquisition of the SDN Group in Italy.

France

Total revenue	€342.3 million
Revenue contribution	52.7%
Number of laboratories*	64

Belgium

Total revenue	€30.0 million
Revenue contribution	4.6%
Number of laboratories*	4

United Kingdom

Total revenue	€27.0 million
Revenue contribution	4.2%
Number of laboratories*	6

Switzerland

Total revenue	€2.0 million
Revenue contribution	0.3%
Number of laboratories*	1

Portugal

Total revenue	€43.1 million
Revenue contribution	6.6%
Number of laboratories*	25

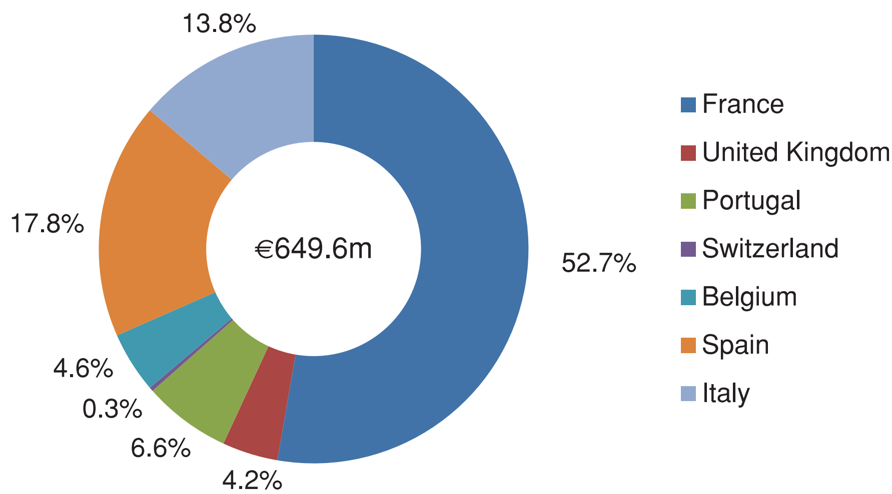
Spain

Total revenue	€115.6 million
Revenue contribution	17.8%
Number of laboratories*	56

Italy

Total revenue	€89.5 million
Revenue contribution	13.8%
Number of laboratories*	9

* Excluding Sampling Centers.



Labco offers a wide range of analytical and diagnostic testing services, including more than 5,000 routine and specialist tests (including molecular biology and nutritional biology) in the field of clinical testing; anatomical pathology testing of both histological and cytological samples; and diagnostic imaging using medical and molecular imaging technologies. Labco also offers medically assisted reproduction services in some of its laboratories in France. As of December 31, 2014, Labco provided services through a network of approximately 165 laboratories in seven European countries and approximately 1,000 Sampling Centers. Labco also provides clinical laboratory testing services in Eastern Europe, Latin America, the Middle East and North Africa.

For the year ended December 31, 2014, Labco recorded total revenue of €615.6 million and generated EBITDA of €113.2 million. For the twelve months ended March 31, 2015, Labco recorded total revenue of €644.8 million and generated EBITDA of €119.0 million. For the twelve months ended March 31, 2015, as adjusted for the acquisition of the SDN Group, among others, Labco generated Estimated *Pro Forma* Adjusted EBITDA of €149.0 million. As of December 31, 2014, Labco had almost 6,000 employees and medical staff and more than 600 people qualified to run a clinical laboratory.

Our Competitive Strengths

We believe our business benefits from a number of competitive strengths, including:

The largest Pan-European clinical laboratory services company with a diversified exposure to countries and payers, leading positions in core European markets, and industry leading capabilities across a broad range of routine and specialty tests

We are the leading European clinical laboratory services company by revenue, benefitting from a pan-European network of clinical laboratories in 28 countries, and are one of the market leaders in each of our core European markets. As a combined business we believe we will be the market leader in the Czech Republic, Estonia, Hungary, Italy, Portugal and Spain, one of the top two providers of medical diagnostic services in Finland, France, Germany and Switzerland, and among the top three players in Austria, Belgium and the United Kingdom, in each case by revenue.

We attribute our strong market positions to the high diversification of our business across countries and payers, the size and scale of our laboratory network, our large catalogue of approximately 5,000 tests, and the high quality and reliability of our services. We believe our strong market positions help us to attract qualified specialists in the industry and remain an industry leader with respect to innovation and medical expertise, including through the introduction of approximately 50 new test parameters each year.

We believe that our leading scale has allowed us to secure strong brand name recognition, cost leadership through favourable procurement conditions and the ability to lead sector consolidation by absorbing incremental test volumes at limited additional cost. We believe that our pan-European presence diversifies our sources of income and reduces country-specific operational and regulatory risks. For example, in the year ended December 31, 2014 (as adjusted for Labco's acquisition of the SDN Group), on a combined basis we generated approximately 29%, 25% and 11% of our total revenue from Germany, France and Italy, respectively, with none of the remaining 25 countries accounting for more than 10% of revenue. Our pan-European presence also enables us to apply best practices identified in some markets to our other markets. For example, we have capitalized on the expertise in hospital laboratory outsourcing developed in Spain by launching outsourcing activities in Portugal, where we now provide laboratory testing services to public hospitals in Cascais and Loures. We have also applied this expertise to our joint venture in the United Kingdom for the outsourcing of NHS laboratory testing services.

Resilient and attractive European clinical laboratory services sector, supported by strong structural growth trends

The European clinical laboratory services sector is characterized by resilient underlying growth supported by a number of strong structural trends. The sector has proven relatively resilient to economic cycles, with key geographies such as Germany and France growing 3.1% and 1.2%, respectively, from 2012 to 2014. The sector is also expected to continue benefiting from favourable demographic factors. For example, demographic factors such as an aging population, the increased frequency of long term illnesses requiring recurring tests and increased levels of disposable income tend to support greater healthcare expenditure. Testing volumes have also increased as the medical profession increasingly focuses on the prevention, early detection and treatment of chronic and severe illnesses and increasingly relies on clinical testing for more accurate diagnoses. In addition, our business benefits from the increasing trend of public healthcare providers to use private sector companies for the operation of their diagnostic services under outsourcing contracts. Moreover, technological advances allow for a considerable broadening of the scope of use of diagnostics and growing interest of individuals in the management of their own health is leading them to independently seek clinical testing.

Furthermore, many of the European countries in which we operate have regulatory and market-specific characteristics that require market knowledge, specialized testing competencies, critical size and experience such as we have developed. For example, in some of our core markets, new licenses for new laboratories or testing services are limited or not available. We believe that the amount of time required to develop integrated laboratory, logistics and referrer networks, combined with the scale, experience and regulatory expertise needed to compete effectively across multiple European countries, are key factors to our operating success.

Efficient and dense laboratory network covering a variety of patient needs supported by European centres of excellence

Our market position is enhanced by advantages in economies of scale. We operate an efficient and integrated hub-and-spoke network with over 465 laboratories, made up of central hub labs that focus on certain medical areas and deliver medical expertise as a centre of excellence for performing certain special tests, and local base and satellite labs (spoke) that are focused on highly automated routine tests with quick turnaround time.

We are focused on maximizing efficiency with respect to our laboratory operations. We use automated testing equipment and highly standardized processes in our network of laboratories, which allowed us to process approximately 400 million tests in 2014 with predominantly same day processing for routine tests and limited manual interaction to reduce lead times and risk of errors. Furthermore, our laboratory network's setup allows us to combine specialty tests from across our European network for processing in central labs and certain routine and specialty tests at regional labs, thereby allowing for higher utilization of local laboratory resources and higher output per employee.

Our 465 laboratories cover both inpatient and outpatient care, and we are well positioned to benefit from the trend of hospitals increasingly outsourcing their laboratory testing.

Combination enabling economies of scale, and enhancing the Group's ability to deliver cost reductions

The Synlab/Labco combination creates the largest (by revenue) pan-European clinical laboratory services company with 465 laboratories. Our market positions and the scale of our combined laboratory network will allow us to benefit from advantageous procurement conditions with our suppliers, including through group-wide pan-European framework supply agreements for reagents. Our combined size presents several opportunities to benefit from economies of scale and deliver cost reductions and synergies through integrating and optimising our laboratory operations, optimizing our procurement functions, our headquarter consolidation, and improving and harmonizing our IT platforms. We intend to take advantage of the increased size by further streamlining our laboratory operations and administrative functions to reduce operating costs and drive margin improvements. At the same time, we are also looking to obtain more favourable commercial conditions from suppliers, optimize production processes in our laboratories through the identification of best practices, rigorously monitor indicators of operating performance, improve logistical processes and centralize certain back office functions, such as treasury and finance. We believe that as a result of the combination we will be able to extract annual EBITDA synergies of €17.5 million in the next twelve months and achieve further potentially significant synergies in the near term. Both Synlab and Labco have a strong track record of executing "buy and build" strategies through the regular acquisition and integration of laboratories into their respective group operations. The achievement of synergy savings has been a key driver in the improvement of gross and operating margins in both groups in recent years and underlines the management team's ability to implement savings.

Demonstrated track record of disciplined acquisitions, integration and efficiency realizations across geographies

The diagnostic services sector in Europe remains fragmented, including in Germany, France, Spain, Switzerland, Italy, Portugal and the Czech Republic, our primary core markets. For example, we estimate that the combined Synlab/Labco business, together with the next largest competitor, will have a combined market share of approximately 7% of the €30 billion European clinical laboratory services market. These markets present opportunities for consolidation and growth.

We believe we are one of the leading consolidators in the European market and that we are well-positioned, based our current geographic footprint, to capitalize on additional opportunities in our existing geographies as well as in potential geographies. We have a dedicated team focused on finding, evaluating and executing external growth opportunities, and have developed a structured approach to acquisitions that capitalizes on the expertise and market knowledge of our management and local laboratory doctors. Both Synlab and Labco have normally acquired small to medium sized laboratory services companies, but in the past have also made relatively larger acquisitions. Both companies have a strong track record of integrating and extracting synergies from the acquisitions that are executed.

Both Synlab and Labco have consistently expanded their laboratory networks through acquisitions. From 2012 to 2014, Synlab and Labco completed 45 and 43 acquisitions, respectively, and in the three months ended March 31, 2015, they completed eight and four acquisitions, respectively. Since March 31, 2015, Synlab and Labco have also entered into sale and purchase agreements in respect of four acquisitions each, all of which which are expected to close in 2015. In addition, we have entered into letters of intent for further targets to be acquired. In addition, we entered into a certain number of letters of intent for further targets to be acquired, which may lead to sale and purchase agreements in the course of this year.

As a large laboratory services company offering an attractive established network, we believe we are well-positioned to take advantage of future consolidation opportunities in the European market at attractive prices, including with respect to more significant transactions. Post acquisition, we generally implement cost reduction initiatives aimed at increasing the profitability of the clinical laboratories we acquire through economies of scale and the sharing of best practices across our network.

Strong combined financial profile and high cash conversion

From 2012 to 2014, Synlab's and Labco's revenue grew at compound annual growth rates of 10.2% and 9.4%, respectively, underpinned by organic growth and acquisitions in core markets. For 2014, Synlab's Adjusted EBITDA margin was 17.1% and Labco's EBITDA margin was 18.5%. The results were supported by each company's standalone economies of scale and relatively low maintenance capital expenditure, which also resulted in a relatively high rate of cash conversion for both companies on a standalone basis. In recent years, both Synlab and Labco have separately implemented a number of initiatives to identify cost savings by optimizing supply contract terms, logistics operations and IT systems. The identified additional operational efficiency and cost saving initiatives for the combined company will allow us to reduce our combined cost base and improve our cash flow generation and financial performance. We believe that as a result of the combination we will be able to extract annual EBITDA synergies of €17.5 million in the next twelve months and achieve further potentially significant synergies in the near-term. For the twelve months ended March 31, 2015, the *Pro Forma* Total Combined Estimated Adjusted EBITDA of our combined business was €305.6 million and combined capital expenditure was €63.0 million.

Highly experienced management team at group and local levels, supported by a committed financial sponsor shareholder

The combined company will be led by Dr. Bartl Wimmer, who will serve as our chief executive officer, with Philippe Charrier as Executive Chairman. They will be supported by our experienced group senior management team in the implementation of our strategies. In addition, we benefit from strong country management teams, who provide invaluable knowledge and experience in navigating local regulatory requirements and acquiring and integrating new laboratories. The senior management of Synlab and Labco have demonstrated an ability to grow each of the businesses and integrate acquisitions to create pan-European of Europe's leading providers of clinical laboratory and medical diagnostics services. We believe the industry knowledge and leadership of our senior and country management teams, combined with their long-term experience, provide us with a significant competitive advantage. We also expect to benefit from Cinven's strong expertise in the healthcare sector. In recent years, funds advised by Cinven have made a significant number of investments in the healthcare sector, including leveraged buyouts of companies in medical devices, healthcare services and life sciences/biotechnology sectors, such as AMCo, Phadia, Sebia, Spire, Avecia and CeramTec.

Our Strategy

As a combined group, we intend to grow our business and maintain our position as the leading provider of clinical laboratory services in Europe by pursuing the following strategies.

Drive organic volume growth by expanding our service offering, strengthening our network and by creating a strong unmatched brand identity across Europe

We aim to capitalize on our medical expertise, the trend of greater outsourcing by hospitals as well as scientific and technological advances to drive further growth. Synlab and Labco each have leading positions in certain geographical areas of operation. We aim to create a fully integrated pan-European business with strong brand recognition and reputation. We plan to leverage such reputation and our customer-facing logistics services to attract new customers, particularly doctors and other primary prescribers of our tests.

At the same time, we plan to offer a greater number of specialty tests in order to provide a broader service offering across our network. This can be achieved by identifying and introducing tests in various geographies that are currently only provided by Labco or by Synlab, but not by both, and therefore create a consistent and increased pan-European products and services offering.

We also plan to enhance our quality standards across Europe by replicating the strength of our platforms in key geographies such as Germany, France, Italy and Spain in our other markets which we intend to develop, and drawing on best practices from each country in which we operate.

As we expand our service offering and strengthen our network, we also aim to create a strong brand identity as a Pan-European business providing a broad range of tests than any competitor. We intend to develop our offerings in all segments of the diagnostic sector, including the growing out-of-pocket self-funded segment, and to accelerate our targeting of large national and international contracts with hospitals, clinics, retirement homes and medical care establishments, particularly for subcontracting and outsourcing.

Establish European centres of excellence to be at the forefront of innovation and continue to develop our distinctive know-how

We plan to further establish our European centers of excellence by continuously strengthening our network through new investments in both technologies and scientists. We refer to Labco's speciality platforms and Synlab's central laboratories as our European centres of excellence which have the ability to perform specialty tests. We are also committed to continuously developing our medical expertise through further improving our track record of innovation. Our increased scale will position us well to further improve our ability to innovate and introduce new tests to all of our markets. In recent years, we have successfully introduced innovative new tests, such as tests for the non invasive prenatal detection of Down's syndrome in fetuses, the detection of markers for colon cancer without the need for a colonoscopy, genetic tests to evaluate the risk of developing breast or ovarian cancer and cystic fibrosis and the identification of MRSA and other pathogenic germs.

Be private and public hospitals' partner of choice for the outsourcing and subcontracting of their diagnostics activities

As healthcare systems are coming under significant budgetary pressure in some of Synlab's and Labco's core markets, public and private hospitals, organizations and other healthcare providers are seeking to improve their productivity and medical quality of service by outsourcing inefficient and sub-scale laboratory activities to diagnostics experts. Synlab and Labco already provide the full spectrum of subcontracting activities, ranging from basic facilities management to full outsourcing with the transfer of entire teams, in Spain, Germany, Switzerland, the Czech Republic and the United Kingdom, and, to a lesser extent, in France, Estonia, Finland and Portugal. All markets are not at the same level of maturity, but the trend is expected to further accelerate across Europe. We recently entered the outsourcing and subcontracting market in Italy and Romania. We believe we will be well-positioned to take advantage of this growing market opportunity by sharing best practices, harmonizing equipment and IT systems and optimizing reorganization of human resources. We intend to pursue such opportunities in new geographies in the future.

Pursue growth opportunities through selective acquisitions in our current markets and in new markets

We believe we are one of the leading consolidators of clinical laboratories in Europe and we intend to grow our share of the fragmented European clinical laboratory services market by pursuing an acquisition strategy focused on generating synergies between our platforms, improving the territorial coverage of our network and increasing our technological capacity. In regions where we already have a presence, our expansion strategy will focus on pursuing acquisitions which are accretive to our local networks and generate synergies through economies of scale. To improve our territorial coverage, we intend to pursue acquisitions of laboratory platforms within our current markets that increase the density of our regional networks and outside our current markets that expand our market share and further consolidate our position across Europe, in each case by continuing to acquire companies that complement the network.

Focus on leveraging the combined business's scale, capabilities and supplier relationships to drive operating efficiencies and increase our cash flow

We intend to take advantage of the significant economies of scale provided by our combined network to streamline our laboratory operations and administrative functions while enhancing our service offering. In doing so, we aim to reduce our combined operating costs through operational efficiency improvements across our laboratory network. We also aim to leverage our combined size to optimize procurement contracts with suppliers at lower costs. Additionally, we believe there is significant scope to optimize production processes in our laboratories by identifying best practices, rigorously monitoring indicators of operating performance, improving logistical processes and centralizing certain back office functions, such as treasury and finance. We also expect greater investment in our information technology systems to enhance our electronic service offering which will comprise the further harmonisation of our laboratory information systems and the implementation of online prescriptions for referrers and the transmittal of results online or via mobile devices, as well as the promotion of teleradiology and telepathology as further improvements in efficiency in these diagnostic areas.

We believe that a broader electronic service offering will be a key driver of our organic growth. We believe that the implementation of the above mentioned steps will lead to significant synergies for the combined group and contribute to increased cash flow of the combined group.

Maintain highest standards of quality, ethics and reliability

We are committed to a strategy of medical expertise and scientific leadership based on the highest standards of quality, ethics and reliability. We will continue to focus on providing customers with accurate test results with the highest possible medical precision, the shortest possible turnaround time and a zero analysis error rate. We also intend to further develop our medical expertise by ensuring that all our laboratories continue to be fully-accredited at the highest European standards and by maintaining our industry leadership in self-regulation and participation on pan-European scientific committees, such as ÄQL (Ärztliches Qualitätslabor e.V.) in Germany. Furthermore, we will continue to invest in adjacent and specialty segments with strong growth potential, including environmental laboratories services and veterinary diagnostics as well as genetic and anatomopathology testing. Such investments will complement our innovation capabilities related to new test parameters and other new technologies to maintain our medical and scientific leadership position.

Our History

Since Synlab was founded in 1998, it has expanded through numerous acquisitions to build a network of over 300 laboratories across Europe, including entering at least one new market per year since 2011.

Since Labco was founded in 2003, Labco has mainly developed its network through selective acquisitions of small and medium-sized clinical laboratories. Between 2007 and 2011, Labco extended its footprint by acquiring Roman Païs in Belgium, CAM and Baluardo in Italy, and General Lab and Sampletest in Spain and Portugal. In 2012, 2013 and 2014, Labco completed 16, 11 and 16 acquisitions, respectively, in France, Belgium, Spain, the United Kingdom and Italy. In the three months ended March 31, 2015, Labco completed two acquisitions.

Synlab's History

The Synlab Group was co-founded in 1998 by Dr. Bartl Wimmer, Synlab's chief executive officer, through the combination of four existing laboratories in Germany. Since Synlab's creation and, in particular, since the introduction of regulatory changes in Germany in 2005 allowing for the operation of commercial laboratory networks, Synlab has continued to develop its expertise in routine and specialty laboratory testing and consistently expanded its presence and services through acquisitions of clinical laboratories.

In 2009, Synlab merged with FutureLAB and acquired Fleming Labs, which marked a significant milestone in its history and expansion. This was followed by Synlab's acquisition of MVZ Leverkusen in 2010, which reinforced its position in western Germany and complemented Synlab's already strong footprint in southern Germany.

In 2011, Synlab significantly expanded its presence in the Czech Republic through the acquisition of Chambon s.r.o. (now synlab genetics s.r.o.), a leading genetics laboratory network in the Czech Republic. The following year, in 2012, Synlab entered the Belgian market through the acquisition of Laboratoire

Collard, a leading regional provider of human and veterinary medicine testing services in Wallonia. In 2013, Synlab expanded into the Baltic and Scandinavian markets through the acquisition of Quattromed Group, which was active in Estonia and Lithuania and had recently commenced operations in Finland. In 2014, Synlab acquired Interlab GmbH in Germany and thereby further extended its offering of testing services to include greater capabilities in pharmaceutical products. In December of that year, Synlab also expanded into Norway to complement its business operations in North Europe. In total, since 2009, Synlab has acquired over 60 laboratories.

Labco's History

Labco was founded by Eric Souêtre, a Ph.D. psychiatrist and health economist, and Stéphane Chassaing, a pharmacist and laboratory doctor. Labco's founders' objective was to consolidate, through integration (initially in France and then in Europe), clinical testing laboratories to enhance the cost-effectiveness of healthcare systems and to help deliver higher-quality healthcare. Labco is still pursuing the same goals today.

Labco initially positioned itself in the diagnostic services market in France in 2003, and then expanded across the country by making various acquisitions that have since established Labco as one of the two leaders in the French market.

In 2007, Labco expanded into the Spanish market by acquiring General Lab S.A. and became the leader in the Spanish clinical testing market during 2008 by acquiring Sampletest, S.A., which had operations in Spain and Portugal. At the same time, Labco began operating clinical testing laboratories in Portugal by acquiring three laboratories in Lisbon from Soprelab. Labco became the leader in the Portuguese clinical laboratory services market in 2008 following the acquisition of Sampletest, S.A. The acquisition of Sampletest, S.A. in 2008 allowed Labco to offer services to patients in Portugal which are reimbursed by the Portuguese National Health Service (*Serviço Nacional de Saúde*). Labco also entered into reimbursement agreements with private insurance companies for patients covered by private insurance. Labco provides services to a public hospital in Cascais through a public-private partnership, and has a small number of corporate customers in Portugal. In 2011, Labco acquired Macedo Dias, the leader in the Portuguese anatomical pathology testing market.

Labco began operating laboratories in Italy in 2007 through the acquisition of the Baluardo laboratory and a shareholding in C.A.M. and, following the acquisition of the SDN Group in July 2014, Labco became, it believes, one of the two leaders in the Italian market as of December 31, 2014. Labco also established a foothold in Belgium in 2008 by acquiring the Roman Païs laboratory.

In 2008, Labco moved into Germany by acquiring six laboratories. Since the competitive environment in Germany is characterized by a high level of consolidation with a few international players (such as Sonic Healthcare, Limbach and Synlab) and mid-sized regional players dominating the market, the small size of its operations in Germany rapidly came to be seen as detrimental to Labco's business. Furthermore, the results of Labco's German operations were severely affected by fractious relationships with the former owners of some of the laboratories that it acquired. In recognition of its much weaker market position in Germany, Labco's board of directors decided to sell all of its German operations. This sale took place on December 2, 2013.

Following the regulatory changes introduced in France in January 2010, Labco set up technical platforms (some performing specialty testing, also called tests and esoteric testing). Some of Labco's routine testing laboratories and technical platforms are located at or near hospitals and offer their services particularly to hospitals (both public and private) under outsourcing contracts.

In 2010, Labco set up Integrated Pathology Partnerships (iPP) in the United Kingdom, a joint venture with Sodexo, a leading global provider of facilities management services to the healthcare market. As a result of the purchase of 46% of iPP's shares from Sodexo on October 25, 2013, Labco owned, as of March 31, 2015, 90% of iPP's shares, a call option on the 3% held by Sodexo and a call option on the 7% granted to iPP's two main managers through its UK Employee Shareholders Scheme (see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Off-Balance Sheet Commitments*"). In June 2012, iPP began to operate under a three-way partnership with Taunton and Somerset NHS Foundation Trust and Yeovil District Hospital NHS Foundation Trust. Under the partnership agreement, iPP delivers the full range of laboratory services while the clinical interpretation and clinical advice functions continue to be provided by medical staff of those trusts, who are still employed by the UK National Health Service. In October 2014, Labco's iPP Facilities and iPP Analytics subsidiaries began to provide laboratory services to Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust.

Following the 2011 acquisition of CIC (since renamed Labco NOÛS), a specialty testing laboratory based in Barcelona, Labco also provides clinical testing services to customers in Latin America, Eastern Europe, North Africa and the Middle East. Labco entered into outsourcing contracts with private hospitals (such as USP Hospitales, Sanitas Hospitales and Hospital de Manises), pursuant to which it performs testing services either in one of Labco's essential services laboratories or at one of its nearby routine testing facilities laboratories or technical platforms. Labco also performs specialty tests for other private clinical laboratories.

Labco established a presence in Switzerland during April 2013 by collaborating with the laboratory doctors within the Test S.A. joint venture.

As of December 31, 2014, Labco operated 64 laboratories in France, 9 laboratories and Integrated Diagnostics Centers in Italy, 56 laboratories in Spain, 25 laboratories in Portugal, 4 laboratories in Belgium, 6 laboratories in the United Kingdom and 1 laboratory in Switzerland.

Our Services

Both Synlab and Labco are active in the field of medical diagnostics and clinical laboratory services. They conduct clinical and medical diagnostic tests, including a wide range of specialty and routine testing services using automated testing equipment, deliver results to prescribing doctors and patients, and offer assistance with the interpretation of such results through its laboratory doctors.

In addition to Synlab's focus in human medicine, it is also active in adjacent markets in environmental and veterinary testing.

Labco also offers anatomical pathology testing of both histological and cytological samples; diagnostic imaging using medical and molecular imaging technologies; and, in some of its laboratories in France, medically assisted reproduction services.

Synlab's Services

Human Diagnostics

Human diagnostics are the primary focus of Synlab's business operations, and it offers them in all of its laboratories across its European network. Synlab's human medicine diagnostics can broadly be divided into specialty and routine tests, which it offers across its entire network of laboratories in each of the countries in which it operates.

Routine clinical laboratory tests are regularly used in general patient care by doctors to establish or support a diagnosis, to monitor treatment or to search for an otherwise undiagnosed condition. Synlab's routine tests include, among others: cholesterol tests, blood cell counts, blood chemistry analyses, urinalyses, thyroid tests, HIV tests, microbiology cultures and alcohol and other substance abuse tests.

Specialty clinical laboratory tests involve a higher level of complexity than routine tests, are conducted by skilled laboratory professionals and generally utilize more sophisticated technology, equipment or materials. In contrast to routine test results, which are frequently provided on a same-day basis, the processing time for specialty tests is typically one day but can range from several days to up to one week for more complex or less frequent tests. Synlab's specialty testing services involve tests in the following fields, among others: human genetics, molecular oncology, cytology and pathology, osteology, hematology and coagulation testing, immunology and immunogenetics, microbiology and infectious diseases, serology, toxicology, drug analysis and identity testing.

For the year ended December 31, 2014, revenue from human medicine amounted to €646.0 million, or 88.6% of Synlab's revenue, an increase of 7.6% compared to €600.3 million for the year ended December 31, 2013.

Environmental Laboratory Services

Synlab's environmental laboratory services are divided into three primary areas—pollution and hygiene, food and pharmaceuticals—and are offered through its dedicated environmental food and hygiene institutes. Synlab's environmental institute is an accredited service provider in the detection and analytical identification of environmental chemicals and pollutants in water, soil and air to industrial companies, public authorities, environmental associations and private customers. Services include support in planning and executing environmental assessments, sample taking and analyses with respect to:

emission, immission, indoor pollutants, air conditioning systems, soil protection, agriculture, site contamination, waste products and residual materials, all forms of water and monitoring projects. Synlab's food institute provides testing and analysis services related to food and animal feed, including test parameters in chemistry and microbiology and support in the fields of food safety, hygiene and food legislation. Synlab's hygiene institute provides technical hospital and environmental hygiene services to a wide customer base, including hospitals, nursing facilities, veterinary services and wellness and spa facilities. Synlab's range of hygiene diagnosis services include drinking and bathing water testing, examination of processed endoscopes, inspections of air-conditioning systems, hygiene monitoring in hospital pharmacies as well as the validation of disinfection and sterilization processes.

For the year ended December 31, 2014, revenue from environmental analysis amounted to €34.7 million, or 4.8% of Synlab's revenue, an increase of 34.0% compared to €25.9 million for the year ended December 31, 2013.

Synlab's expansion in the environmental laboratory service market has helped to further diversify its revenue streams, including with respect to diversity of payer, and generate additional freely negotiated revenue. In addition, certain sub-segments of the markets, such as laboratory hygiene testing, complement Synlab's human diagnostics business by allowing it to cross sell such services to its existing hospital customers. Synlab believes that the environmental laboratory service market presents further opportunities for growth in light of underlying organic growth driven by increasingly stringent regulatory requirements related to pollution and hygiene. For example, amendments to the German drinking water ordinance (*Trinkwasserverordnung*) in 2011 require legionella testing of drinking water supply systems in public buildings and certain commercially-used buildings, such as apartment buildings. Initial testing compliance was deferred until 2013, and testing must occur every three years. From 2012 to 2014, the number of such tests conducted by Synlab's laboratories more than doubled. Synlab believes its existing accredited laboratories, combined with its infrastructure and ability to scale up quickly, positions it well to take advantage of such new segments of the environmental laboratory services market. In addition, the European environmental laboratory services market is highly fragmented, thus offering consolidation potential both in Germany and in other countries across Europe. In recent years, Synlab has completed acquisitions in this segment to grow its environmental laboratory services in Germany as well as to enter Austria, Hungary and Switzerland.

Veterinary Diagnostics

Synlab's veterinary diagnostic services encompass the full spectrum of diagnostic laboratory services for veterinary practices and clinics, universities, research institutes, zoos and animal or livestock farms. Synlab offers a wide range of test parameters, including clinical biochemistry, hematology and immunology as well as hormone analyses, serology, molecular diagnostics, microbiological and parasitological tests. Where permitted by applicable regulations, Synlab is able to generate synergies between its veterinary and human diagnostic services businesses by employing the same testing analysis equipment for certain tests. Synlab's veterinary diagnostic business has a strong focus on the German market, where it operates five accredited specialist veterinary laboratories in Augsburg, Leverkusen, Hamburg, Berlin and Leipzig. It also offers limited veterinary diagnostic services in Belgium and certain other countries. Synlab's international veterinary diagnostics office is located in Leverkusen, Germany, and international veterinary samples are processed at its laboratory in Augsburg, Germany.

From 2012 to 2014, the number of tests performed in Synlab's veterinary diagnostics business increased from 4.3 million to 4.8 million. For the year ended December 31, 2014, revenue from veterinary medicine amounted to €11.8 million, or 1.6% of Synlab's revenue, an increase of 12.4% compared to €10.5 million for the year ended December 31, 2013.

Labco's Services

Overview

Labco offers a wide range of clinical laboratory tests, whether routine or specialty. The nature of these services varies from one country to the next and according to the type of establishment.

Testing is generally organized in three phases: (i) the pre-analytical phase, which consists of collecting samples and delivering them to the clinical laboratory; (ii) the analytical phase, during which the test itself is carried out; and (iii) the post-analytical phase, during which test results are sent to the prescribing doctor and the patient while Labco's laboratory doctors assist with interpreting the results.

(i) *Pre-analytical phase*. Before clinical testing is performed, samples are collected from the patient, identified and delivered to Labco's analytical laboratories. Patient samples are labeled immediately with an identification number that is logged into an information technology system by the health practitioner who performed the extraction. Tests are subjected to quality control as well as technical and biological validation procedures.

Samples are usually accompanied by a test request form (in electronic or paper format). The form states which tests are to be performed and provides the necessary billing information.

Collecting and analyzing samples taken from patients is often carried out at different locations, and samples therefore have to be moved from their collection point (such as hospital sites, doctors' practices or Labco Collection Centers) to Labco's laboratories. In France and Spain, some of Labco's laboratories maintain their own fleets of vehicles and provide both transportation and logistics services in order to ship samples to its laboratories. In other countries, Labco outsources this service to major transportation companies such as DHL and UPS. The transportation of samples is subject to a number of legal requirements relating to sample integrity and data confidentiality, in particular. Maintaining Labco's own logistics network allows it to tailor logistics solutions for the collection of the samples to the needs and requirements of its customers.

(ii) *Analytical phase*. Once the test request form has been entered into Labco's information technology systems and the samples have been collected, the tests are performed, either automatically (in the case of most routine tests) or by Labco's laboratory doctors or technicians (in the case of most specialty tests).

(iii) *Post-analytical phase*. As soon as they are available, test results are inputted either manually or through an electronic data interchange system that is connected with the practitioner, clinic or hospital, depending upon the kind of tests carried out, the type of equipment used and the country in which the tests are performed.

The following summary table presents the main tests and the main examinations that Labco offers.

	Category of tests	Examples	Description
Routine clinical tests	Chemistry	*Urea, creatinine*	Chemical dosages of various components of blood and urine
	Bacteriology	*Cyto-bacteriological examination of urine*	Test looks for pathogenic bacteria in samples: identifies them and assesses their resistance to antibiotics
	Immunology	*Hormonal dosages, dosage of tumoral markers*	Dosages of hormones and tumoral markers that can be involved in a pathology
	Hematology	*Determination of blood formula*	Studies and diagnostics of blood, hematopoietic organs and blood diseases
	Hemostasis	*INR*	Study of coagulation factors; monitoring of anticoagulant treatment drug doses
Specialty clinical tests	Allergology	*Specific IgE tests*	Tests look for and measure of antibodies involved in allergic diseases
	Auto-immunity	*Antinuclear antibodies, anti-transglutaminase antibodies*	Test looks for and quantifies antibodies that may be involved in autoimmune diseases
	Specialized hormonology	*Thyroglobulin, anti-mullerian hormone*	Dosage of hormones involved in certain pathologies
	Specialized bacteriology	*Detection of Koch's bacillus and antibiogram*	Test looks for bacteria involved in certain pathologies, nosocomial infection
	Molecular biology	*NIPD, breast cancer*	Locating and identifying genes involved in various pathologies

	Category of tests	Examples	Description
	Nutritional tests	*Proteinic profile (e.g., albumin), food intolerances, amino acids, metabolic profile, oxidative stress*	Determination of nutritional status via the analysis of certain kinds of food and evaluation of key metabolic zones
	Virology	*HIV, Ebola*	Study of viruses and associated infectious agents
Anatomical pathology	Histology	*Smear tests, biopsy*	Study of tissues placed onto a glass slide
	Cytology	*Smear tests, biopsy*	Study of cells placed onto a glass slide
	Molecular pathology		Tests provide diagnostic criteria, diagnoses and predictive factors with regard to the patient's response to treatment in some diseases, via analysis of proteins and nucleic acids
Imaging & nuclear medicine	Radiology	*Scanography, mammography, sonography, Doppler sonography, etc.*	
	Nuclear medicine	*Positron emission tomography (PET), nuclear imaging*	
MAR	Artificial insemination		
	In vitro fertilization		

Clinical Laboratory Tests

Routine Tests

The clinical laboratory tests Labco offers are regularly used in general patient care. They allow health professionals to establish or confirm a diagnosis, monitor treatment or search for an otherwise undiagnosed condition. The most frequently requested types of test are biochemistry, hematology, immunology and bacteriology.

Labco performs these categories of routine tests in all of its laboratories, including hospital laboratories if it operates under an outsourcing contract, as is the case in the United Kingdom. Labco performs most routine procedures, and generally report their results within 24 hours, by using a variety of sophisticated and computerized laboratory testing instruments.

Within the catalogue of tests that Labco offers, not all tests have comparable volumes. For instance, in 2012, approximately 2% of the tests found in the French nomenclature of clinical laboratory tests (BIOLAM) accounted for 66% of all prescribed tests and for 54% of reimbursements (source: BIOLAM).

Specialty Tests

As specialty tests involve a higher level of complexity than routine tests, they are conducted by highly skilled biologists and generally use more-sophisticated technology, equipment or materials than routine testing. Due to constraints related to costs or infrastructure, hospital, routine or doctor-office laboratories develop and perform a broad range of specialty tests in-house. Labco laboratories that provide specialty testing services specialize in the following fields: allergology, autoimmunity, specialized hormonology, specialized bacteriology, molecular biology, nutritional biology and virology. Labco currently performs specialty tests in all of the countries in which it operates.

Labco operates, together with Labco NOÛS and Roman Païs, two specialty laboratories with an international reputation. Labco NOÛS is a specialty laboratory, offering a catalogue of 5,000 tests which are in part ISO 15 189 accredited, the ability for clients to integrate their results directly in their Laboratory Information Management System, medical and technical multilingual support and expertise in the field of sample transportation. Through this know-how, Labco NOÛS can satisfy the outsourcing needs of most laboratories around the world. Clients of Labco NOÛS are mainly located in Spain, Latin America, the Middle East, Eastern Europe and North Africa. Labco plans to increase the marketing of

Labco NOÛS's services through its local subsidiaries, particularly in Italy and the United Kingdom. Labco's Roman Païs laboratory deals specifically with nutritional biology and functional biology testing. This expertise has allowed it to develop an international client base which contributed towards just over half of its revenue in 2014.

Prior to 2010, Labco outsourced most of its specialty tests in France to clinical testing laboratories that specialize in performing these tests, such as Cerba, Biomnis and Institut Pasteur de Lille. Regulatory changes implemented in France in January 2010 led Labco to set up technical platforms in which it could begin to carry out in-house a limited number of previously outsourced specialty tests. Labco intends to expand the range of specialty tests it performs in France when this option proves to be profitable from an economic viewpoint.

To remain competitive in the clinical testing market, Labco intends to further enhance its testing capacity. The teams led by Labco's Chief Medical Officer monitor the scientific literature and trade press and hold talks with test manufacturers and suppliers in order to identify new tests that become commercially available and, when appropriate, add them to Labco's range of services. Introducing new tests requires giving information about the tests to those who can prescribe them (such as doctors and hospitals) and, in many instances, third-party payers have to cover the reimbursement of such tests. Labco often uses its customer service and continuing medical education initiatives to educate prescribers about new tests. Labco describes the range of routine and specialty tests offered by each of its laboratories in its pathology handbook/test catalogue that enables it to keep its main prescribers regularly informed about changes that may occur in the services that it provides.

Below are a few examples of the innovative tests that Labco offers in its catalogue:

- "A200," a test developed especially for Labco that detects, from a blood sample, a patient's intolerance to more than 200 kinds of food;
- "Septin9," a noninvasive test to detect premature colon cancer, which avoids the need for a colonoscopy;
- "Breast cancer genes panel," using new NGS, detects the presence of each of the 21 genes involved in the hereditary risk of developing breast cancer;
- "Prosigna," which provides reliable identification of the ten-year risk of future recurrence and sub-type of breast cancer, enabling oncologists to decide whether or not to prescribe chemotherapy;
- "TDAGen+," a genetic test for patients with Attention Deficit Hyperactivity Disorder (ADHD) which collects personalized information on the main genetic factors involved and allows predictive treatment in response;
- "Life Length," which measures the percentage of short telomeres in individual cells taken from blood and/or tissue samples, providing an accurate indicator of telomere dysfunction and cellular aging;
- "HPV OncoTect," a test which helps in the early detection of cervical cancer;
- "Gut Microbiome," a functional biology genetic test that analyzes the genomes of normal living microorganisms in the human being (microbiota);
- "Recombine," a noninvasive test to detect the risk of transmitting a genetic disease to one's child;
- "Migratest," a test which helps to evaluate the potential causes of migraine headaches in order to determine the best treatment; and
- "Liquid Biopsy de Pangaea Biotech," a test which reveals the potential mutations of the EGFR, BRAF and KRAS genes (usually related to lung cancer) and which facilitates the determination of the best treatment for the patient.

Moreover, in oncology, numerous treatments require companion tests that detect whether a drug will be efficient or tolerated in a group of patients. Most of these are available in Labco's catalogue of tests, such as the HER2.

Anatomical Pathology

Anatomical pathology is, along with clinical laboratory testing and imaging, one of the principal diagnostics disciplines. This discipline is dedicated to the morphological study of macroscopic and microscopic anomalies of biological tissues and pathological cells removed from a living or dead human being. Anatomical pathology is widely used in oncology to detect and assess the efficiency of the ablation of tumors.

Preparing samples is an important and highly technical stage during which a thin slice, only a few microns thick, is placed onto a glass slide before being colored in order to be examined with a microscope. The preparation, examination and diagnostic of a sample cannot be automated, which results in substantial labor costs.

Anatomical pathology also encompasses cytopathology. Cytopathology studies cells smeared over a glass microscope slide and not cross-sections of cells. The cells are, accordingly, whole cells and can be more easily observed. Some of the most widespread cytologic analyses include lumbar or articular punctures, b1 marrow punctures and pap smears.

In the last few years, the development of "telepathology technology" has paved the way for major progress in the discipline. Sample slides can now be digitalized and sent to a microscope that will automatically identify the zone to be diagnosed and the pathology. This technology, in addition to allowing a doctor's diagnosis to be established more easily and more swiftly, enables the sample to be sent to specialized doctors anywhere in the world in the case of a complex pathology.

Labco offers anatomical pathology services in France, the United Kingdom, Belgium, Spain and Portugal. On May 29, 2015, Labco acquired Technipath, an anatomical pathology group in France, and aims to increase its business in this field as a result.

Imaging

Medical Imaging

Medical imaging encompasses several disciplines such as radiology, scanography, mammography, orthopantomography (dental imaging), sonography and Doppler sonography. Medical imaging services are mainly provided by Labco's Italian subsidiaries. Scanning and mammography are Labco's most widely used disciplines.

Scanography is a medical imaging technology derived from conventional X- ray radiology. The extent to which X-rays are absorbed by tissues is measured by a transmitter and a receiver pivoting around the patient who can be standing or lying down. Two-dimensional or three-dimensional images of anatomical structures are then built digitally.

A mammogram uses X-rays to examine human breasts and detect possible anomalies, most frequently cases of breast cancer. A mammogram provides images of tissues within the breast from different angles, which makes a doctor's diagnosis easier.

Technical, technological and IT developments allow more sharply defined and more precise images to be obtained, more rapidly than in the past. Labco anticipates that this trend is likely to continue to gather momentum. Moreover, systems already enable images to be digitalized and communicated so as to allow a diagnosis to be made remotely.

Nuclear Medicine

Molecular imaging is a medical imaging discipline that provides an in-depth view of what occurs within the human body, at the level of molecules and cells. While conventional medical imaging (X-rays, scanography and ultrasounds) generates an image of the patient's physical structure, molecular imaging enables a doctor to observe the metabolic or molecular activity of the body or its organs by using a technique that is not significantly invasive. Molecular imaging offers a unique vision of the body that allows doctors to, among other things:

- access information that cannot be provided by other imaging technologies or that would require invasive methods such as biopsy or surgery;
- identify the pathology at an earlier stage while locating with a high degree of precision the contaminated zone, often before the symptoms actually appear or before anomalies can be detected by other diagnostic methods;
- determine the most appropriate therapy on the basis of the patient's specific biological characteristics;

• study and monitor the patient's reaction to a specific drug or treatment;

• determine precisely the treatment's efficiency on the patient;

• adapt treatment rapidly in response to the change in cellular activity; and

• gauge the progression of the disease.

Molecular imaging is deemed to be part of nuclear medicine because it uses a small amount of radioactive material (a radioactive marker) to diagnose a pathology. The method consists in injecting into the patient a tracer marked by a radioactive atom (such as carbon, fluorine, nitrogen, oxygen, etc.). The behavior and the biological properties of this tracer are known. The scanner will detect how the tracer moves within the living organism or the organ; this information will then be collected and processed by computers to highlight the presence, or the reaction, of a given number of molecules. Labco has a cyclotron in its SDN Integrated Diagnostics Center that enables it to produce, and potentially market, its own tracers.

PET technology combined with scanography, as offered in Labco's center of excellence in Italy, is a nuclear medicine test combining the two technologies and providing a three-dimensional view of how the organism operates. A PET- CT uses a small dose of radioactive tracer in order to show very precisely the difference between healthy tissues and contaminated tissues.

Molecular imaging techniques are non-invasive, reliable and painless for the patient. They enable doctors to detect, among other things, cases of cancer, heart disease, nervous system diseases such as Alzheimer's disease or Parkinson's disease, b1 diseases and lung diseases.

Changes in molecular imaging will be shaped by the arrival of new tracers and new molecules that will lead to the development of numerous new applications. As far as changes in equipment are concerned, the number of PET-CTs will likely grow further in the next few years, thereby paving the way for additional progress in terms of rapidity, sensitivity and resolution.

Medical Imaging within the Labco Group

Following the 2007 and 2008 acquisitions of the CAM and Baluardo laboratories, nearly all of Labco's imaging services are provided by its Italian subsidiaries. With the acquisition of the SDN Group, Labco now has expertise and cutting- edge technology in the field of molecular imaging that it intend to use and deploy in its other subsidiaries. As adjusted for the acquisition of the SDN Group, revenue generated by imaging services amounted to approximately €40 million for the year ended December 31, 2014.

Medically Assisted Reproduction

Medically assisted reproduction ("MAR"), in a broad sense, covers two main applications:

• intra-uterine insemination ("IUI"), which consists of collecting a sample of sperm and preparing it (selection and concentration of the fastest moving sperm) before giving it to a man so that he can go to his partner's gynecologist, who will place this concentrate into her uterus or cervix; and

• in vitro fertilization ("IVF"), which generally takes place in a hospital and consists of taking sperm from a man and oocytes from a woman through a light surgical intervention. Once they have been collected, the sperm and oocytes are put into contact, either naturally in a test tube, or via a micro-injection of sperm into the oocyte using a micro-needle.

Before resorting to these applications, Labco offers two additional disciplines in most of its laboratories: spermiology, which is the study of the quality of sperm; and hormonology, which is the study of a woman's fertility.

In France, specifically qualified and authorized biologists are required to perform IVF and IUI and clinical laboratories need special authorizations granted by the regional health authority. Every regional health authority grants such authorizations to a very restricted number of public and private biologists in the region it covers. Labco offers IVF in Nantes in two clinics as well as in a hospital located in Lens. The business generated by these three centers enables Labco to position itself as one of the leaders in the IVF market among private entities. Labco also offers IUI in these two cities and work with private gynecologists, as well as in Calais, Libourne, Nice, Orleans and Rodez.

Our Operations

Synlab's operations are conducted through its laboratories and collection centers, while Labco's operations utilize the three major organizational models found in the clinical laboratory services industry:

- clinical laboratories;
- subcontracting and outsourcing operations on behalf of hospital laboratories; and
- export services.

We refer to Labco's speciality platforms and Synlab's central laboratories as our European centers of excellence which have the ability to perform specialty tests.

Synlab's Operations

Synlab's laboratories can be broadly categorized into three types:

Central laboratories

Synlab's 16 central laboratories are centralized, highly specialized laboratories with specific, esoteric testing capabilities and which collectively offer processing of the full spectrum of approximately 5,000 test parameters, including test parameters outside the full routine spectrum of tests, such as leukemia and DNA tests. Such specialty tests are conducted by highly skilled laboratory professions and often require more sophisticated technology, equipment and materials. In particular, various specialty tests from across Synlab's European laboratory network are primarily conducted in its state-of-the-art reference labs in Germany, such as those in Augsburg, Leinfelden, Leverkusen, Munich and Weiden, to maximize utilization rates and efficiency.

Base laboratories

Synlab's 82 base laboratories are regional platforms equipped with advanced equipment to perform high volume routine tests and automated specialty tests. Synlab's base laboratories typically offer a test spectrum of up to 800 different tests. Due to the highly automated processes of Synlab's advanced, multipurpose testing equipment, the processing time at its base laboratories is frequently only a few hours, with same-day or next-day delivery of results.

Satellite laboratories

Synlab's 203 satellite laboratories perform routine tests prescribed by doctors and medical institutions in connection with general patient care to establish or support a diagnosis, to monitor treatment or to search for an otherwise undiagnosed condition. The most common routine tests include cholesterol tests, blood cell counts, blood chemistry analyses and urinalyses. Many of Synlab's satellite laboratories are located in or adjacent to the hospitals which they primarily serve. Results of routine testing at Synlab's satellite laboratories are predominantly delivered on a same-day basis.

Blood collection points

Blood collection points are common in certain of the markets in which Synlab operates, such as Italy, Belgium and the Czech Republic, where blood samples are taken at dedicated collection points rather than by a physician. Tests and analyses of blood samples are typically not performed at Synlab blood collection points. Rather, these collection points generate sample volumes and transfer samples to the appropriate network laboratories for analysis.

Logistics

Synlab's own logistics team includes approximately 670 drivers, who are responsible for ensuring the timely delivery of test samples to its network of laboratories and maintain frequent direct contact with Synlab customers through the collection of test samples. The vehicles that comprise Synlab's logistics fleet are primarily leased. Synlab believes this helps it to maintain its quality and reliability of service. Furthermore, the operation of Synlab's logistics operations allows it to more easily integrate new acquisitions of laboratories into its existing operations and laboratory network, in particular with respect to speciality laboratory testing where applicable national regulations permit the cross-border transport of laboratory samples. Synlab's logistics team is also supported by external logistics providers, particularly in geographic markets where it does not operate its own logistics activities.

Labco's Operations

Labco Collection Centers and Clinical Laboratories

Labco's Diagnostics Centers and Labco Collection Centers can be categorized into six types:

- *sampling centers,* which do not perform tests. Samples are collected from patients and then sent to routine testing laboratories, technical platforms or third parties' laboratories where tests are carried out. Labco owns and manages Sampling Centers in all the countries in which it operates laboratories;
- *routine laboratories*, which collect samples, carry out routine tests and usually communicate results to patients and prescribing healthcare professionals;
- *hospital laboratories providing emergency services*, which are routine testing laboratories located in hospitals that provide emergency diagnostic tests. These laboratories are open all day. They are smaller and have more limited facilities than Labco's other types of laboratories;
- *technical platforms*, which are regional platforms that centralize the processing of all or some test samples from Labco Collection Centers, laboratories and hospital laboratories. Technical platforms are equipped with sophisticated, highly automated equipment and can carry out all routine tests as well as, generally, some specialty tests. They also sometimes have on-site facilities for collecting samples;
- *laboratories and specialty platforms,* which perform specialty tests for Labco's laboratories or external laboratories. Labco has twelve laboratories dedicated exclusively to specialty tests, including one specialty platform in Spain following the acquisition of CIC, which has since changed its name to Labco NOÛS. Labco also has four technical platforms providing a broad range of specialty tests to members of its network in Barcelona, Cambrai, Madrid and Nice; and
- *Integrated Diagnostics Centers or Poly-Ambulatory Centers* ("Integrated Diagnostics Centers"), which combine several diagnostic disciplines including clinical laboratory testing, anatomical pathology, ambulatory surgery, physiotherapy and medical imaging. Of Labco's nine laboratories in Italy, five are Integrated Diagnostics Centers.

The type and size of a laboratory varies from one country to another because of differences between health systems and regulatory environments.

The number of laboratories that Labco operates is constantly changing, as it acquires new laboratories and transforms its Sampling Centers. Between 2012 and 2014, the number of laboratories that it owns decreased even though it made 43 acquisitions, as illustrated in the below chart:

	2012	2013	2014
Country			
France	77	64	64
Belgium	4	3	4
United Kingdom	3	4	6
Spain	57	58	56
Portugal	27	24	25
Italy	4	3	9
Switzerland	—	1	1
Total	**172**	**157**	**165**

Subcontracting and Outsourcing Laboratory Services

Labco offers public and private hospitals and clinics the possibility of subcontracting and outsourcing its clinical laboratory services in France, Spain, Portugal and the United Kingdom. The range of services Labco offers differs according to customers' needs. Some customers want to outsource all their clinical laboratory services, while others prefer to keep some of these services in-house such as, for instance, sampling, the logistics involved in collecting samples (in the United Kingdom, hospitals are in charge of the logistics involved in collecting samples from the general practitioners in their region who take such samples), the diagnosis of certain types of pathologies, medical validation or emergency services. The markets in which Labco offers to subcontract and outsource clinical laboratory services are characterized by high entry barriers since the process followed in a call for tenders requires a company to invest a lot of time before being selected as a joint subcontractor. Being selected requires technical expertise and substantial investment capacities. Finally, the reputation and experience of the bidders are key criteria if they are to be picked as a joint subcontractor.

Labco has built up significant know-how in respect of bidding in tenders for the outsourcing or subcontracting of clinical laboratory services. The most important elements taken into account in this regard relate to:

- *whether existing technical platforms are used or not.* Labco has technical platforms in most of the countries in which it operates. Accordingly, Labco can swiftly and efficiently cope with the additional tests resulting from a new contract. In the United Kingdom, Labco does not have as dense a network as in the other countries where it operates, and sometimes it needs to set up a laboratory on an ad hoc basis, as was the case in Taunton and Basildon;
- *operational reorganization.* The operations of the existing laboratory(ies) within a hospital or clinic are slashed to a strict minimum in order to manage the urgent needs of patients, while the remaining tests are transferred to Labco's technical platform. During this transition, Labco offers appropriate and adapted training courses to facilitate this reorganization;
- *harmonization of equipment*, to benefit from additional economies of scale. This possible change in equipment can lead to additional investments stemming from the need to terminate contracts with a non- referenced supplier;
- *transfers and reorganization of human resources.* Transfers of employees are crucial, especially when they consist of transfers from the public sector to the private sector. In the United Kingdom, Labco has benefited from Sodexo's experience in this respect; and
- *harmonization of information systems.* Labco must ensure the harmonization of its IT systems with those of the relevant hospitals.

The teams that submit bids to these calls for tenders build a specific financial model for every contract that takes into account all variables (such as investments, term and growth) in order to determine the net present value of the project's return on investment and the time needed to reach this return. These two key criteria play a crucial role in determining the price offered to the potential customer. Moreover, although EBITDA margins recognized by Labco in these calls for tenders are generally lower than in the other countries where Labco operates, these contracts offer excellent visibility on future income because prices are set for the entire duration of the contract and are often reassessed in line with inflation indices. This valuation approach is therefore different from the one used for Labco's conventional acquisitions.

Labco has developed transferable expertise in the fields of subcontracting and outsourcing. For instance, Labco transmitted the know-how it developed in Spain and Portugal in outsourcing to Labco's subsidiary in the United Kingdom. Since this initiative began, it has already won two tenders with four NHS hospitals and three more NHS hospitals have launched calls for tenders for outsourcing laboratory services during the first few months of 2015, some of which are located close to its laboratories. This success is mainly due to Labco's approach of focusing on the quality of services and the establishment of partnerships with NHS hospitals by, for example, establishing a scientific committee composed mainly of doctors employed by the hospitals who are responsible for overseeing the transition and then later the proper functioning of the service. In addition, the hospitals benefit from more-attractive prices in the case of an increase in their volumes or when new hospitals join the technical platform in their region.

Export Services

Developing business in emerging countries is one of Labco's organic growth drivers. Integrated providers of diagnostic services, such as Labco, can contribute substantial value to the healthcare sectors in emerging countries. Through Labco's Spanish subsidiary, Labco NOÛS, it has already established a promising foothold in some of these markets.

This presence can take various forms, such as:

- making capacity available for specific tests or providing capacity to cope with excess demand when volumes exceed installed capacity. The laboratory of Labco NOÛS in Barcelona is a central platform for the performance of specialty tests that can carry out highly sophisticated tests when subcontracting for other laboratories. Samples are sent by plane and results are e-mailed to prescribing doctors and patients. This business is particularly developed in Latin America, where prospecting for customers is carried out by local subsidiaries, controlled by Labco but with minority interests held by local partners. This is the case in Brazil, Colombia, Peru and Mexico. In other countries in Latin America (Ecuador, Uruguay and Chile), in Eastern Europe (Romania and Poland), in North Africa or in the Middle East, Labco uses commercial agents, paid on a commission basis, in order to set up partnerships; and
- providing assistance for designing laboratories or providing laboratory management for local partners lacking this kind of expertise. As of the date of this offering memorandum, Labco is working on preparing bids for several calls for tenders related to this kind of assistance in Latin America and the Middle East.

Our Core Markets

Synlab identifies its core markets as the following: Germany, Switzerland, Italy, the Czech Republic, Belgium, Hungary, Austria and North Europe. Labco divides its markets into the Northern European market, including France, United Kingdom, Belgium and Switzerland, the Southern European market, including Spain, Portugal and Italy, emerging countries and Germany (where it sold its operations in 2013).

Synlab's Core Markets

Germany

Synlab was founded in Germany in 1998, and Germany remains its primary core market. As of December 31, 2014, Synlab operated five central laboratories (in Augsburg, Leinfelden, Leverkusen, Munich and Weiden), 23 base laboratories and 91 satellite laboratories, 20 environmental testing laboratories and five veterinary testing laboratories. Synlab's laboratory footprint in Germany is primarily located in southern and western Germany.

Synlab believes it is the second largest provider of clinical laboratory testing in Germany based on 2014 revenue. Synlab's laboratories in Germany are predominantly focused on human medicine laboratory testing and are complemented by a limited number of laboratories which provide environmental laboratory services and veterinary diagnostics testing. Synlab's primary competitors in Germany include Sonic and Limbach, both of whom also have nationwide coverage, as well as amedes and LADR, both of whom operate predominantly in northern Germany.

Synlab's laboratories in Germany offer its full spectrum of routine and specialty tests. Routine tests are performed in either Synlab's hospital satellite laboratories or its base laboratories, depending on where the sample is collected. Specialty tests are primarily performed at Synlab's base laboratories, where possible, or in its central laboratories depending on the particular test requested.

Synlab's revenue in Germany amounted to €406.1 million for the year ended December 31, 2014, or 55.7% of its revenue. Synlab's EBITDA in Germany amounted to €56.4 million for the year ended December 31, 2014, or 46.5% of its EBITDA.

Switzerland

Synlab began operating laboratories in Switzerland in 2006, following the acquisition of Labor Dr. Güntert AG. As of December 31, 2014, Synlab operated three central laboratories (in Lausanne, Lucerne and Lugano), four base laboratories (in Geneva, Olten, Zurich and Frauenfeld) and 11 hospital satellite laboratories and 11 blood collection points located throughout the country covering all three main language regions.

Synlab believes it is the second largest provider of clinical laboratory testing in Switzerland based on 2014 revenue. Synlab's laboratories in Switzerland are predominantly focused on human medicine laboratory testing and are complemented by a limited number of laboratories which provide environmental laboratory services testing. Synlab's primary competitors in Switzerland include Unilabs, Medisupport and Viollier.

Synlab's laboratories in Switzerland offer its full spectrum of routine and specialty tests. Routine tests are performed in either Synlab's hospital satellite laboratories or its base laboratories, depending on where the sample is collected. Specialty tests are primarily performed at Synlab's base laboratories, where possible, or in its central laboratories in Lausanne, Lucerne and Lugano, with a very limited number of advanced specialty tests sent to one of its central laboratories in Germany.

Synlab's revenue in Switzerland amounted to €88.1 million for the year ended December 31, 2014 (at a foreign exchange rate of CHF1.22 to €1.00), or 12.1% of its revenue. Synlab's EBITDA in Switzerland amounted to €18.7 million for the year ended December 31, 2014, or 15.4% of its EBITDA. Since 2012, Synlab has benefitted from a large hospital outsourcing contract with a large group of private clinics in Switzerland, and access to a corresponding large number of attending doctors. This hospital outsourcing contract has been renewed until 2020.

Italy

Synlab began operating laboratories in Italy in 2009, following the acquisition of Fleming Labs, a leading laboratory service provider in northern Italy founded in 1973. As of December 31, 2014, Synlab operated one central reference laboratory located near Brescia, five base laboratories (including one in each of Florence and Rome) and two hospital satellite laboratories generally located in the vicinity of Synlab's base laboratories. As of the same date, Synlab also operated 115 blood collection points.

Synlab believes it is the leading provider of clinical laboratory testing in Italy based on 2014 revenue. Synlab's laboratories in Italy are almost exclusively focused on human medicine laboratory testing, as additional authorizations and separate laboratories are required for environmental and veterinary testing. Synlab's primary competitors in Italy include San Raffaele, Bianalisi and, prior to the Completion Date, Labco.

Synlab's laboratories in Italy offer its full spectrum of routine and specialty tests. Routine tests are performed in either Synlab's hospital satellite laboratories or its base laboratories, depending on where the sample is collected. Specialty tests are primarily performed at Synlab's base laboratories, where possible, or in its central laboratory in Brescia, with a very limited number of advanced specialty tests sent to one of Synlab's central laboratories in Germany.

Synlab's revenue in Italy amounted to €67.1 million for the year ended December 31, 2014, or 9.2% of its revenue. Synlab's EBITDA in Italy amounted to €12.3 million for the year ended December 31, 2014, or 10.1% of its EBITDA.

Czech Republic

Synlab began operating laboratories in the Czech Republic in 2004 through the acquisition of three local laboratories and, in 2011, significantly increased its presence through the acquisition of Chambon, a leading genetics laboratory network in the Czech Republic. As of December 31, 2014, Synlab operated two central laboratories in Prague, 12 base laboratories and 14 satellite laboratories situated throughout western and southern Czech Republic, and 51 blood collection points.

Synlab believes it is the leading provider of clinical laboratory testing in the Czech Republic based on 2014 revenue. In addition to human medicine laboratory testing, Synlab is able to offer a wide range of genetics tests using its specialized genetics laboratory in Prague. Synlab's primary competitor in the Czech Republic is AeskuLab and, to a lesser degree, AGEL.

Synlab's laboratories in the Czech Republic offer its full spectrum of routine and specialty tests, with particularly strong positions in certain specialty testing areas, such as genetics and hematology, as well as the routine testing market. Routine tests are performed in either Synlab's satellite laboratories or its base laboratories, depending on where the sample is collected or the location of the doctor sending the sample. Specialty tests are primarily performed at Synlab's base laboratories, where possible, or in its central laboratories in Prague.

Synlab's revenue in the Czech Republic amounted to €46.1 million for the year ended December 31, 2014, or 6.3% of its revenue. Synlab's EBITDA in the Czech Republic amounted to €7.2 million for the year ended December 31, 2014, or 5.9% of its EBITDA.

Belgium

Synlab began operating laboratories in Belgium in 2012, following the acquisition of Laboratoire Collard, a leading regional laboratory group founded in 1994. As of December 31, 2014, Synlab operated one central laboratory in Liège Froidmont, two base laboratories in Mons and Arlon and 53 blood collection points with an extensive coverage of Wallonia, the French speaking part of Belgium.

Synlab believes it is the number two provider of clinical laboratory testing in Wallonia based on 2014 revenue. In addition to human medicine laboratory testing, Synlab's laboratories in Belgium are increasing their regional coverage to focus on the high growth of veterinary testing in the market. In contrast to certain of Synlab's other core markets, hospitals have not yet begun outsourcing their laboratory testing to private laboratory companies. Synlab's primary competitors in Belgium include amedes and, prior to the Completion Date, Labco.

Synlab's laboratories in Belgium offer a broad range of its full spectrum of routine and specialty tests. Routine tests are performed in either Synlab's central laboratory or one of its two base laboratories, depending on where the sample is collected or the doctor sending the sample. Specialty tests are primarily performed at Synlab's central laboratory in Liège Froidmont, with a very limited number of advanced specialty tests outsourced to other laboratories in its network.

Synlab's revenue in Belgium amounted to €24.8 million for the year ended December 31, 2014, or 3.4% of its revenue. Synlab's EBITDA in Belgium amounted to €6.7 million for the year ended December 31, 2014, or 5.5% of its EBITDA.

Hungary

Synlab began operating laboratories in Hungary in 2004, following the acquisition of Prodia Diagnosztikai. As of December 31, 2014, Synlab operated one central laboratory in Budapest, 11 base laboratories (thereof six hospital laboratories and the majority of which are located in the vicinity of Budapest), 13 satellite laboratories and 23 blood collection centers across the country.

Synlab believes it is the clear leading provider of clinical laboratory testing in Hungary based on 2014 revenue, with a strong position in the hospital laboratories market and leading expertise in microbiology, genetics, forensics and clinical chemistry testing. Synlab's primary competitors include Centrum Lab and Corden International.

Synlab's laboratories in Hungary offer its full spectrum of routine and specialty tests. Routine tests are primarily performed in its hospital satellite laboratories, some of which located directly in or connected to the hospital sites. Specialty tests are performed at either Synlab's base laboratories or its central laboratory in Budapest, with less than 1% of very advanced specialty tests sent to its central lab in Leinfelden, Germany, for processing.

Synlab's revenue in Hungary amounted to €24.7 million for the year ended December 31, 2014, or 3.4% of its revenue. Synlab's EBITDA in Hungary amounted to €3.0 million for the year ended December 31, 2014, or 2.5% of its EBITDA.

Austria

Synlab began operating laboratories in Austria in 1986 through the merger of IMCL and Labor Margareten, both being predecessor entities of FutureLAB, which was founded in 2004. As of December 31, 2014, Synlab operated one central laboratory in Vienna, one environmental base laboratory in Linz and eight hospital laboratories and seven blood collection centers concentrated the vicinity of Vienna.

Synlab believes it is the number three provider of clinical laboratory testing in Austria based on 2014 revenue, with a strong position in the hospital laboratories market, a key market for private laboratory groups in Austria. A significant portion of the market in Austria is still served by public hospital labs, which offer growth opportunities if hospital outsourcing continues in the future. Synlab's primary competitors include Labors.at and Wonnerth und Partner OG.

Synlab's laboratories in Austria offer its full spectrum of routine and specialty tests. Routine tests are primarily performed in Synlab's hospital satellite laboratories located at hospital sites. Specialty tests are performed at Synlab's central laboratory, with only a small number of very advanced specialty tests sent to a central laboratory in Germany for processing.

Synlab's revenue in Austria amounted to €20.3 million for the year ended December 31, 2014, or 2.8% of its revenue. Synlab's EBITDA in Austria amounted to €6.3 million for the year ended December 31, 2014, or 5.2% of its EBITDA.

North Europe

Synlab began operating laboratories in Estonia, Lithuania and Finland in 2013 through the acquisition of the Quattromed Group, the largest laboratory services provider in Estonia founded in 1999. In, 2014, Synlab further expanded its presence in North Europe to Norway. As of December 31, 2014, Synlab operated one central laboratory in Tallinn, Estonia, five base laboratories (with two in Finland and one in each of Estonia, Lithuania and Norway) and 57 satellite labs and 10 blood collection points.

Synlab believes it is the leading provider of clinical laboratory testing in Estonia and the number two provider in Finland, in each case based on 2014 revenue. Synlab's primary competitors in the region include Yhtyneet Medix Laboratoriot and VITA.

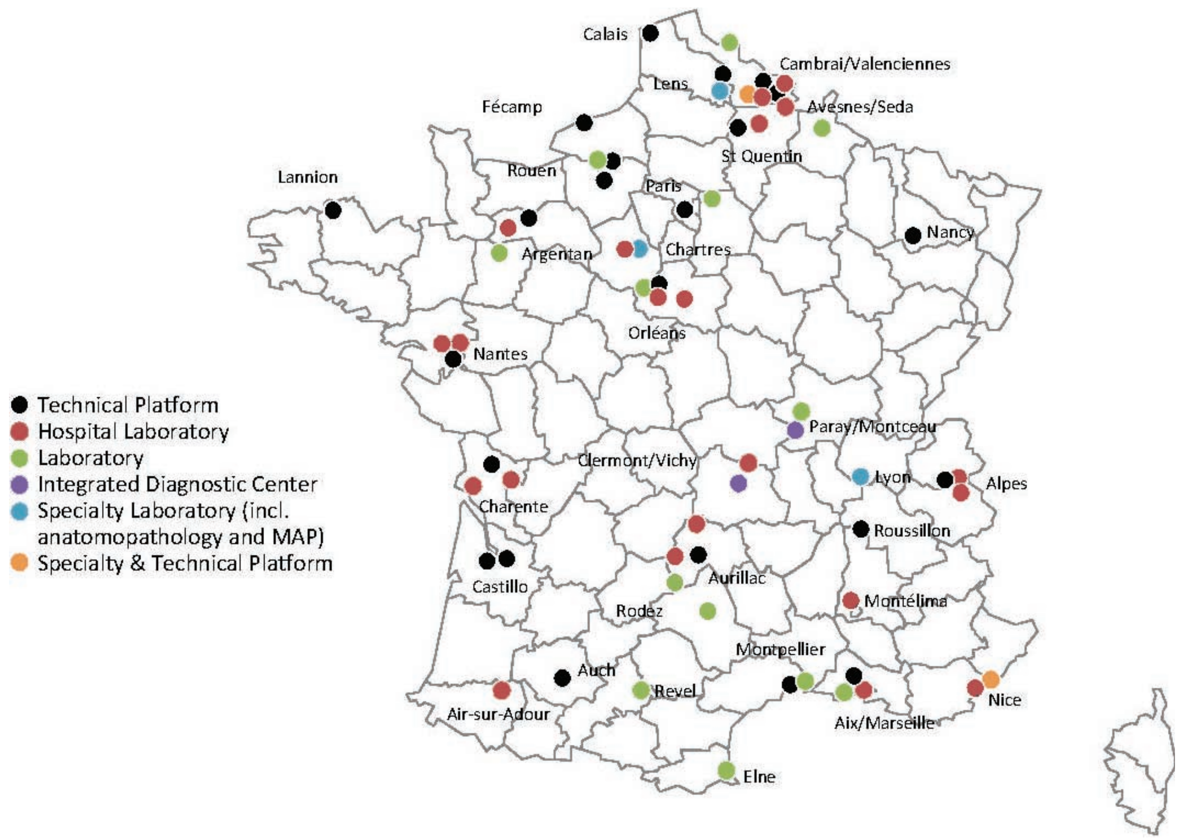
Synlab's laboratories in North Europe offer its full spectrum of routine and specialty tests. Routine tests are performed in either Synlab's satellite laboratories or one of its five base laboratories. Specialty tests are primarily performed at Synlab's base laboratories, where possible, or its central laboratory in Tallinn, Estonia, with a very limited number of advanced specialty tests sent to one of Synlab's central laboratories in Germany. Synlab's operations in North Europe provides a good example its cross-border hub-and-spoke network and the integration of Synlab's laboratory network, particularly through the optimization of test flows to its central laboratory in Tallinn, from which it is able to serve its expanded footprint in Finland through a more cost effective base.

Synlab's revenue in North Europe amounted to €18.2 million for the year ended December 31, 2014, or 2.5% of its revenue. Synlab's EBITDA in North Europe amounted to €11.7 million for the year ended December 31, 2014, or 9.7% of its EBITDA.

Labco's Core Markets

Overview of Labco's Northern European Market

France



Labco entered the diagnostic services market in France in 2003 and is currently one of the two French leaders. Labco's laboratories are evenly distributed throughout France, and are mainly located in small towns or rural areas, but it is also present in major cities such as Bordeaux, Clermont-Ferrand, Marseille, Montpellier, Nancy, Nantes, Nice, Orleans and Paris. Labco's limited operations in large cities is due to its belief that clinical laboratories can be bought at more attractive prices in small towns than in big cities, while the revenue and average profitability per laboratory in large cities is generally lower than the national average in France.

As of December 31, 2014, Labco operated 255 facilities, including 64 laboratories in France. Each of Labco's laboratories and Sampling Centers in France employs a medical doctor. Labco set up technical platforms (some of which provide specialty testing services) following the regulatory changes implemented in January 2010 that relaxed restrictions on the outsourcing of testing and authorized the operation of technical platforms. Some of Labco's routine testing laboratories and technical platforms are located in or near hospitals. They offer their services, in a non-exclusive manner, to public and private hospitals pursuant to outsourcing contracts, such as Labco's Biofrance laboratory in northern France. In September 2014, Labco took over the Alpigène laboratory in Lyon and can now provide cutting-edge molecular biology services in France.

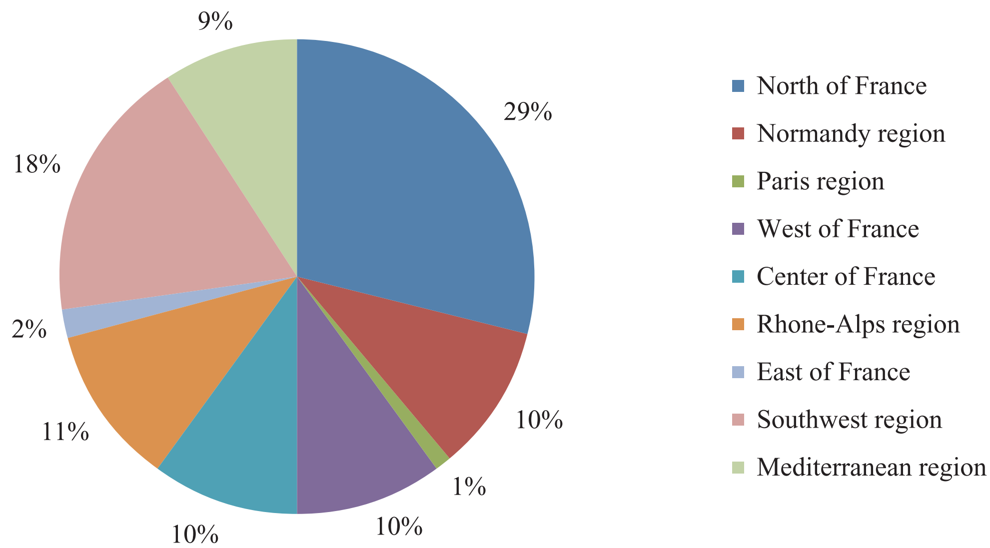
Labco decides whether to do a test internally (keep it) or to outsource it (sell it) depending on the urgency of the demand and the test's production cost. In the case of an internal test, Labco determines the facility in which the test will be taken in order to strike the best balance between the result's date and the production cost. This determination results in the transfer of samples to local, regional or national technical platforms offering specialty tests or specialty laboratories, such as Labco NOÛS, Roman Païs or Alpigène. Generally, samples collected by Labco Collection Centers and laboratories are sent for processing at its technical platforms by using vehicles it owns or rents. Labco's two specialty platforms also have the equipment required to perform specialty tests, but in some cases it can be more efficient and less expensive for Labco's routine testing laboratories to outsource such tests to third parties (which generally transport samples from sampling points to their laboratories). As Labco further expands its network of technical platforms, it plans to transform gradually most of its routine testing laboratories into Sampling Centers and to consolidate, within its technical platforms, its processing activities for routine and specialty tests.

From 2010 to 2014, the aggregate number of facilities Labco operates in France, including laboratories and Sampling Centers, increased from 150 to 255. Over the same period, the proportion of Sampling Centers increased from 37% to 75% of the total. Moreover, the number of health territories (as defined by the French regional health authority (*agence régionale de santé*)) which Labco serves increased from 36 in 2010 to 47 in 2014 (or 44% of the 108 existing health territories). Over the same period, the average number of Labco Collection Centers attached to a technical platform has increased from two to seven. Similarly, the average number of case files handled per laboratory has increased from approximately 60,000 in 2010 to approximately 155,000 in 2014.

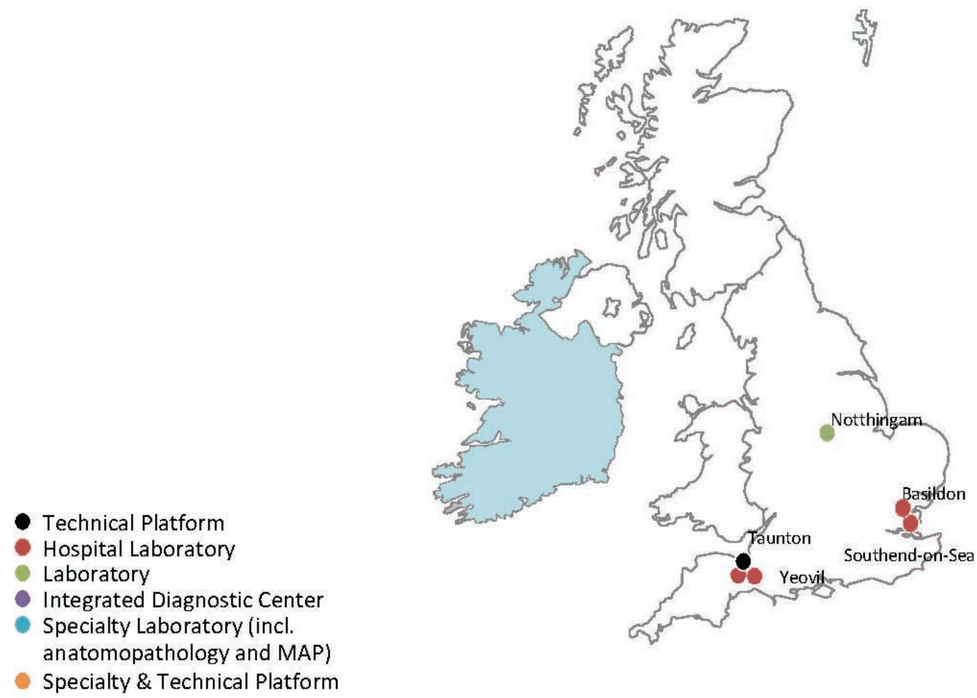
Between 2011 and 2014, Labco made 31, 15, 8 and 6 acquisitions, respectively, in France. Among these 60 acquisitions, 54 were bolt-on acquisitions for preexisting platforms.

In the year ended December 31, 2014, Labco's revenue in France amounted to €342.3 million, or 52.7% of Labco *Pro Forma* Total Revenue.

The number of case files handled by Labco amounted to 8.42 million, 9.17 million and 9.82 million for the years ended December 31, 2012, 2013 and 2014, respectively. The following chart shows the geographical distribution of case files handled by Labco in France:



United Kingdom



In 2010, Labco set up Integrated Pathology Partnerships (iPP), a joint venture with Sodexo, a leading global provider of facilities management services to the healthcare market. Labco holds a 90% equity interest in iPP and two call options over the 3% held by Sodexo and the 7% granted to the two main managers of iPP through a UK Employee Shareholder Scheme (see "*Management's Discussion and Analysis of Financial Condition and Results of Operations of Labco—Off-Balance Sheet Commitments*"). As of December 31, 2014, Labco operated six laboratories in the United Kingdom and ranked number three in the market for outsourced and subcontracted laboratory services.

In January 2012, Labco Diagnostics UK signed a ten-year contract to operate the clinical diagnostic testing business of Fresenius Medical Care (dialysis). In June 2012, iPP began to operate under the partnership set up with Taunton and Somerset NHS Foundation Trust and Yeovil District Hospital NHS Foundation Trust. Under the partnership agreement, iPP delivers the full range of clinical laboratory and anatomopathology laboratory services, while the clinical interpretation and clinical consulting functions continue to be provided by the medical staff of these trusts, who remain NHS employees. This partnership and related agreements have an initial term of 20 years, renewable for five years.

This partnership is focused on providing services to Taunton and Somerset NHS Foundation and Yeovil District Hospital NHS Foundation, but it was structured in a way that allows other medical trusts in the region to join it. The contract has been profitable since 2014 following two years of losses in 2012 and 2013, due to heavy investments and restructuring of the service. The contract was amended on March 2015 and restructured into two separate contracts, one regarding site management and material (concerning the provision of material, reagents, consumables and support functions), and the other relating to the provision of staff (concerning the provision of technical teams). This amendment puts the commercial organization in line with that put in place for other contracts signed in 2014 and described below.

Following the signing of this contract, iPP focused on developing its technical platform in Taunton. Once it became operational in 2013, iPP was able to start transforming the existing hospital laboratories into laboratories able to provide emergency services.

During the first half of 2014, Labco set up two new business units, iPP Facilities Ltd and iPP Analytics Ltd. iPP Analytics was set up in order to integrate NHS staff under TUPE regulations (see "*Regulation—United Kingdom*") and provide testing results. iPP Facilities, in charge of managing Labco's facilities and equipment in the United Kingdom, was also created to handle potential tenders, manage Labco's facilities or provide point of care testing (POCT) systems.

Through these two companies, Labco signed two partnership agreements in May 2014 with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust to provide laboratory services. These partnerships will also allow new customers to be integrated. Operations began in October 2014 for an initial ten-year term with a possible five-year extension. Under these new partnerships, iPP will manage the Sampling Centers of both hospitals and provide the full range of clinical laboratory and anatomical pathology laboratory services.

In total, 560 persons were transferred from the NHS to entities within Labco's Group: 164 under the agreements between Taunton and Somerset NHS Foundation and Yeovil District Hospital NHS Foundation and 396 under the agreements with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust.

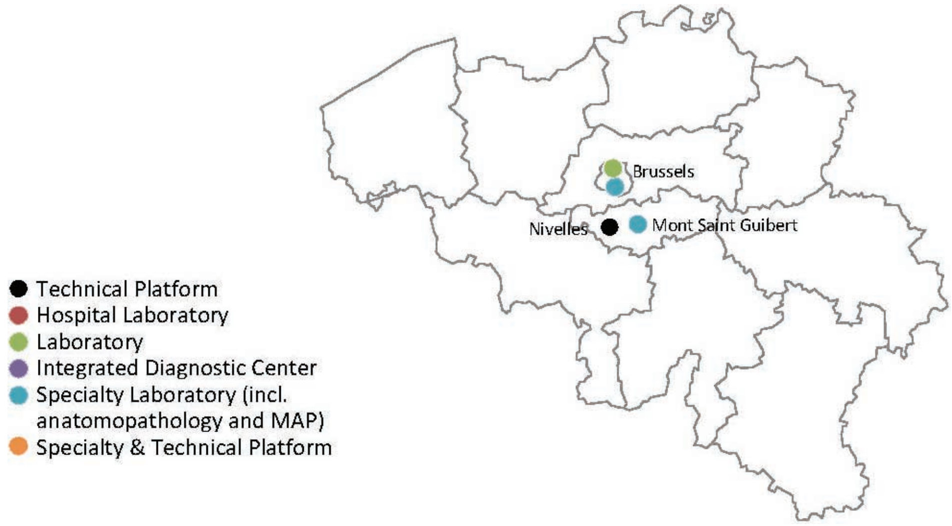
Between 2011 and 2014, Labco made one acquisition in 2012 and one acquisition in 2013 in the United Kingdom.

In the year ended December 31, 2014, Labco's revenue in the United Kingdom amounted to €27.0 million, or 4.2% of *Pro Forma* Total Revenue.

All of Labco's revenue in the United Kingdom is generated by contracts signed with public or private hospitals. However, a significant proportion of the tests analyzed by Labco's facilities is collected from independent doctors, who are themselves partners of these hospitals.

In the United Kingdom, Labco carried out a total of 0.39 million tests in 2012, 1.64 million in 2013 and 10.37 million in 2014. In 2014, 6.7 million tests were carried out under contracts with Taunton and Somerset NHS Foundation and Yeovil District Hospital NHS Foundation, 3.2 million under contracts with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust, and 0.5 million tests were carried out by Labco Diagnostics UK.

Belgium



Labco entered the Belgian market in 2008 after acquiring the Roman Païs biology company. As of December 31, 2014, Labco operated four laboratories in Belgium. Labco's facilities are concentrated in Brussels and Wallonia.

Labco's laboratories in Belgium mainly offer routine and specialty tests. Samples are collected in Labco's Sampling Centers or are sent by healthcare professionals.

In addition to conventional clinical laboratory tests, Labco's laboratories in Belgium perform nutritional tests, which are not usually subject to regulated prices. For the years ended December 31, 2013 and 2014, Labco's nutritional biology business accounted for €10.9 million and €12.2 million, respectively, amounting to 40% and 41% of its revenue in Belgium. In 2014, just over half of the samples of nutritional biology were transferred by laboratories and doctors based outside Belgium. This activity has grown at an average annual rate of approximately 15% since 2011.

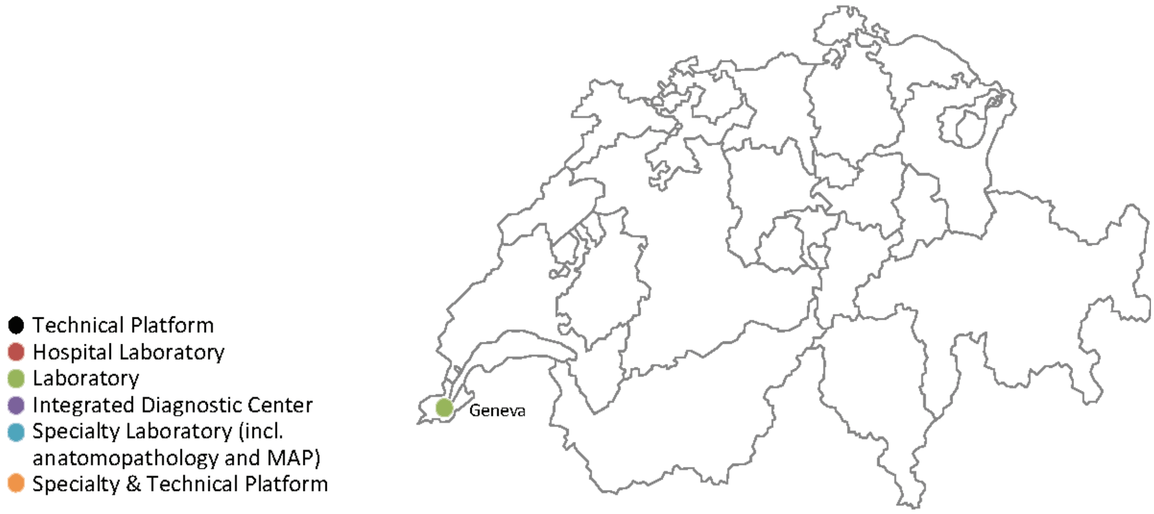
Between 2011 and 2014, Labco made one acquisition in 2011 and one acquisition in 2014 in Belgium.

In the year ended December 31, 2014, Labco's revenue in Belgium amounted to €30.0 million, or 4.6% of *Pro Forma* Total Revenue.

Labco's revenue in Belgium as of December 31, 2014 can be apportioned as follows: poly-ambulatory business: 53%; nutritional operations: 41%; and other tests (anatomical pathology, veterinary, etc.): 6%.

Labco handled approximately 370,000 case files in Belgium for the year ended December 31, 2014, 330,000 for the year ended December 31, 2013 and 340,000 for the year ended December 31, 2012. In 2014, the number of case files related to nutritional biology amounted to approximately 62,000.

Switzerland



Labco has operated one laboratory, Test S.A., in Switzerland since 2013. This laboratory, jointly owned with Labco's two founders, began operations in 2013. Labco holds 48% of the issued capital and a call option at a set price on the remaining 52%. The main objective of this joint venture is to improve Labco's knowledge of the Swiss market and its specific features, in view of potential investments it could make in this market. This laboratory works mainly with independent healthcare professionals. It offers them an all-electronic solution that enables them to view the catalogue of tests, select the tests to be conducted, input information about the patient, look up results and order additional tests, etc.

In the year ended December 31, 2014, Labco's revenue in Switzerland amounted to €2.0 million, or 0.3% of *Pro Forma* Total Revenue.

Overview of Labco's Southern European Market

Spain

Labco entered the Spanish market in 2007 when it acquired General Lab S.A., and it became the leader of the Spanish clinical laboratory services market in 2008 with the acquisition of Sampletest, S.A. Labco is the leader in the Spanish market based on its 2013 and 2014 revenues.

As of December 31, 2014, Labco operated 56 laboratories and a network of more than 500 Sampling Centers, a majority of which is managed with partners (mainly medical centers and nurse offices) under collaboration agreements. Most of Labco's facilities are concentrated in Catalonia, Madrid and Andalucía, which are the three main population centers in Spain.

In 2015, Labco plans to carry out a major restructuring in Spain following the 2014 acquisition of a building in Barcelona, which will house all of its regional operations. The restructuring will entail closing down five laboratories, one warehouse and an administrative office, rationalizing the equipment currently used, insourcing some of Labco's tests to the new Barcelona platform and splitting its support functions between Madrid and Barcelona. This restructuring should significantly improve the productivity of Labco's operations, with capacity to perform 100,000 tests daily at the new facility and a decrease in staff of about 50 employees nationwide.

During 2014, Labco acquired and integrated three laboratories specializing in cytogenetics and molecular biology in Madrid and thereby increased its business in these fields.

In early 2013, Labco added a noninvasive prenatal screening test to its catalogue. This test detects the most frequent chromosomal anomalies in a fetus from a blood sample taken from the mother. Such anomalies include, among other things, Down's syndrome (trisomy 21), Edwards' syndrome (trisomy 18) and Patau's syndrome (trisomy 13). Labco believes that this test has the advantage of not exposing either the mother or the fetus to any risk while being more reliable than all the other tests aimed at detecting these chromosomal anomalies found on the market. After its successful introduction in Spain, this test was launched on the Portuguese and Italian markets. This high value-added test has since then been sold tens of thousands of times within Labco's Group.

Labco's laboratories in Spain offer a range of routine and specialty tests (including anatomical pathology tests). The laboratory in Barcelona is the most technologically advanced in Labco's network. Labco's geographic footprint allows it to enter into nationwide agreements for private market clinical laboratory services with private health insurers, the main ones being with Adeslas, DKV, CASER, Medifiatc, Sanitas (Bupa Group), Assistancia Sanitaria, Colegial, Mapfre, Axa, Divina Pastora, CIGNA and Allianz. These agreements are mainly based on an activity-based fee structure, under which Labco is paid per test performed.

For more than ten years, Labco has managed outsourcing contracts with private hospitals such as Quiron Hospitales, Allançia (Capio group), Sanitas Hospitales and Hospital de Manises (since 2011). Labco carries out tests either in one of its emergency services laboratories or at nearby routine testing laboratories or technical platforms. Labco also performs specialty tests for other private clinical laboratories. As of December 31, 2014, Labco had signed outsourcing contracts with 37 hospitals in Spain.

Labco also has a portfolio of companies and occupational health service providers for which it provides clinical laboratory testing services in connection with regular check-ups for employees. In addition, Labco provides other services in Spain, such as specialty tests for public hospitals and out-of-pocket services for patients.

Following a ruling handed down by the Court of Justice of the European Union on January 17, 2013, Spain was forced to change its regulations relating to the VAT rate applicable to pharmaceutical products and medical equipment.

The European Council Directive (2006/112/EC) of November 28, 2006 on the common system of value added tax (in particular, its Annex III) authorizes a Member State to apply a lower VAT rate to the following products:

- pharmaceutical products used for healthcare, the prevention of illnesses and as treatments for medical and veterinary purposes, especially when used for contraception or sanitary protection purposes; and
- medical equipment, aids and other appliances normally intended to alleviate or treat disability, for the exclusive personal use of the disabled, including the repair of such goods, and supply of children's car seats.

As a result of the aforementioned ruling of the Court of Justice of the European Union, the Spanish VAT regulations have been amended so that the reduced VAT rate of 10% was no longer applicable to certain of Labco's services as of January 1, 2015 and the standard rate of 21% will instead be applied.

Since the acquisition of CIC in 2011, (renamed Labco NOÛS in 2013), a laboratory based in Barcelona that performs specialty tests, Labco has also offered clinical diagnostic testing services to customers in emerging countries (see "*—Emerging Countries*").

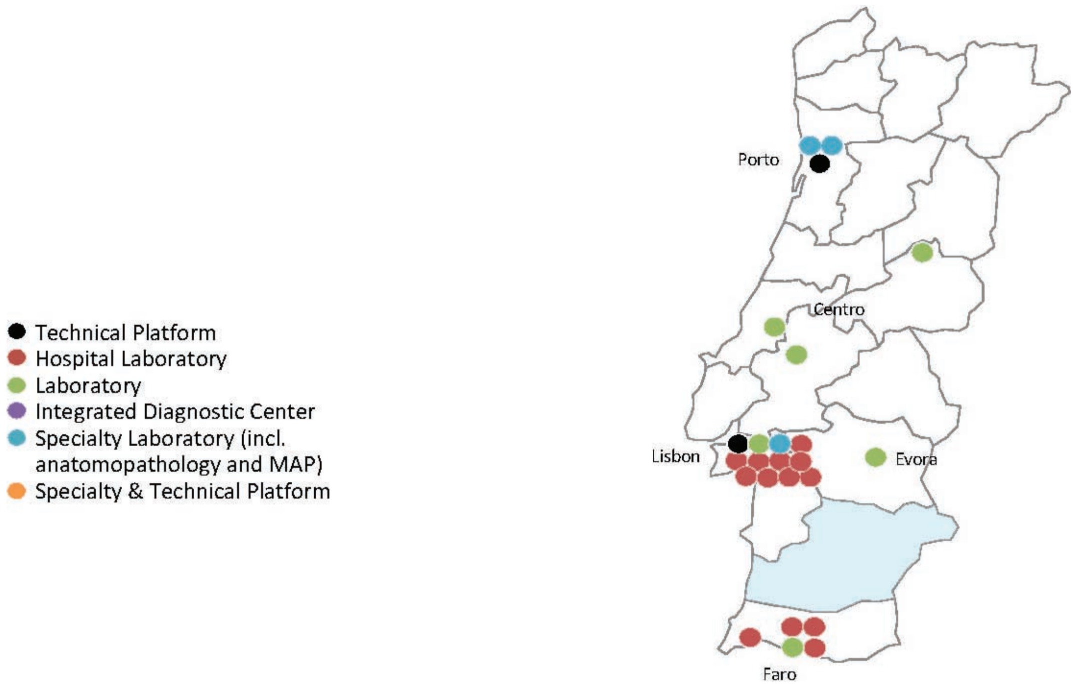
Between 2011 and 2014, Labco made one acquisition in 2011, two acquisitions in 2013 and three acquisitions in 2014 in Spain.

In the year ended December 31, 2014, Labco's revenue in Spain amounted to €115.6 million, or 17.8% of *Pro Forma* Total Revenue.

Labco's revenue in Spain for the year ended December 31, 2014 can be apportioned as follows: poly-ambulatory business: 36%; subcontracting and outsourcing generated by hospitals: 29%; specialty tests: 12%; occupational healthcare: 11%; anatomical pathology: 6%; and other income sources: 6%.

Labco handled a total of 5.90 million case files in Spain in the year ended December 31, 2014, 5.27 million in the year ended December 31, 2013 and 5.01 million in the year ended December 31, 2012.

Portugal



Labco began operating laboratories in Portugal in 2007 following its acquisition of General Lab S.A., and subsequently became the Portuguese clinical testing market leader in 2008 with the acquisition of Sampletest, S.A., which also operates in Spain. In 2011, Labco purchased Macedo Dias, the leader in the Portuguese anatomical pathology market.

As of December 31, 2014, Labco operated 25 laboratories in Portugal, including two technical platforms in Lisbon and one in Porto, which offer a range of routine and specialty tests. Labco has a network of more than 200 Sampling Centers, half of which are managed with partners (mainly medical centers and nurse offices) through collaboration agreements. Most of Labco's facilities are concentrated in the cities of Lisbon, Faro and Porto and in their suburbs.

Labco has signed reimbursement agreements with private insurance companies for patients covered by such private insurers. Labco provides, among other things, services to hospitals in Cascais and Loures based on a model of a flat fee per patient (see "—*Spain*"). As of December 31, 2014, Labco had signed outsourcing contracts with nine hospitals, including two public hospitals. Furthermore, Labco has entered into contracts with a small number of companies to provide diagnostic services for their employees.

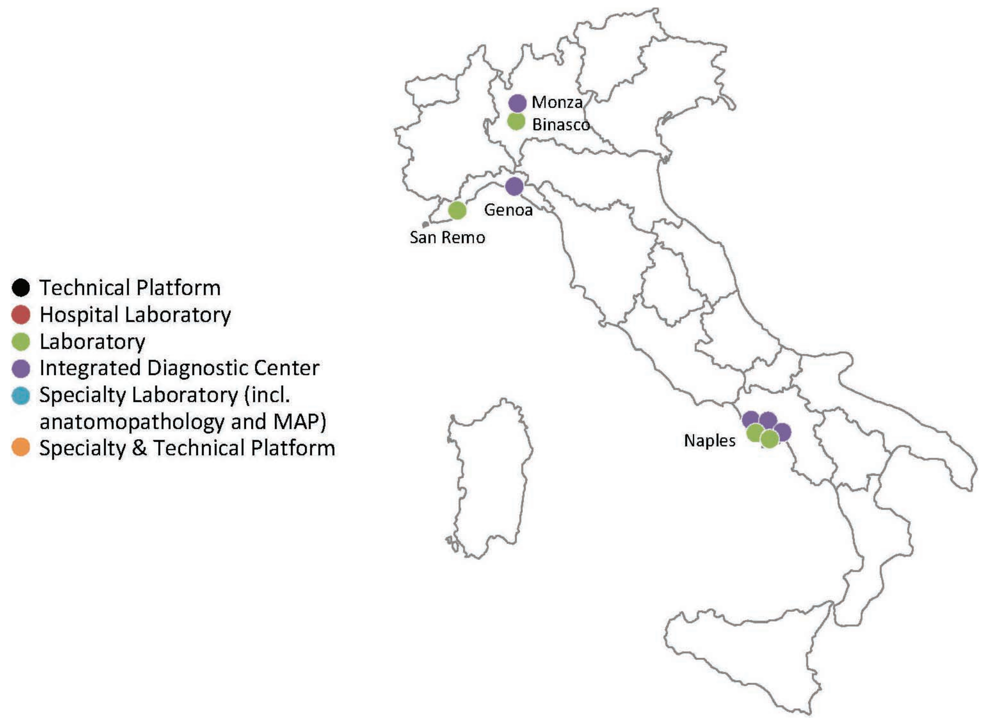
Between 2011 and 2014, Labco made one acquisition in Portugal in 2011.

In the year ended December 31, 2014, Labco's revenue in Portugal amounted to €43.1 million, or 6.6% of *Pro Forma* Total Revenue.

Labco's revenue in Portugal for the year ended December 31, 2014 can be apportioned as follows: poly-ambulatory business: 59%; subcontracting and outsourcing generated by hospitals: 30%; anatomical pathology: 4%; specialty tests: 1%; occupational healthcare: 1%; and other income sources: 5%.

Labco handled a total of 1.74 million case files in Portugal for the year ended December 31, 2014, 1.68 million for the year ended December 31, 2013 and 1.55 million for the year ended December 31, 2012.

Italy



Labco began operating laboratories in Italy in 2007. As of December 31, 2014, Labco operated nine laboratories including five Integrated Diagnostics Centers located in Lombardy, Campania and Liguria. In addition to clinical testing services, Labco also offers other diagnostic services, including medical imaging services, medical check-ups, a complete offer in occupational medicine, physiotherapy services and day surgery.

In July 2014, Labco completed its acquisition of the SDN Group, which offers integrated diagnostic services including (routine and specialty) laboratory tests and the entire range of medical imaging: radiology, MRI and the most sophisticated PET scanning medical imaging technologies, combining molecular imaging and nuclear medicine. Of all the medical imaging companies in Italy, the SDN Group is the only one to hold the status of IRCCS (*Istituto di Ricovero e Cura a Carattere Scientifico,* or an NHS research center), indicating its advanced level of technical expertise. Furthermore, the SDN Group is the driving force of a not-for-profit scientific foundation that conducts research aimed at improving nuclear diagnostic technologies. The foundation boasts unrivalled experience and has been granted substantial national and European grants and subsidies. In 2013 and 2014, the SDN Foundation published 99 and 98 research articles, respectively, in specialized journals such as the Journal of the American College of Cardiology, the European Heart Journal and the American Journal of Gastroenterology.

The SDN Group holds a substantial market share in Campania, particularly in molecular imaging, and has developed an efficient operational organization as a result of its integrated production of contrasting radioactive products (called “tracers”) in a cyclotron located at the company’s main site. Apart from accreditation for all of its activities, the SDN Group is also accredited by The Joint Commission, a US non-profit organization, certifying the quality of care provided to patients while continuing to improve care levels.

Integration of the SDN Group is proceeding according to plan. In 2014, the SDN Group’s revenue increased by more than 1.5% compared with 2013. For instance, in the first two months of 2015, more than 600 patient case files were exchanged between Labco’s laboratories through teleradiology.

The acquisition of the SDN Group fits in well with Labco’s strategy. This acquisition will reinforce the medical imaging and integrated diagnostics already offered in Genoa since 2008 by the laboratory of the Baluardo Group. The know-how and expertise of the SDN Group in the field of integrated diagnostics can be used by other entities of the Group when the national markets where they are present mature.

Between 2011 and 2014, Labco made one acquisition in 2011 and six acquisitions in 2014 in Italy, including five as a result of the acquisition of the SDN Group.

In the years ended December 31, 2013 and December 31, 2014, Labco's revenue in Italy amounted to €38.2 million, or 6.4% of its total revenue, and €55.6 million, or 9.0% of its total revenue, respectively. As adjusted for the acquisition of the SDN Group, Labco's revenue in Italy for the year ended December 31, 2014 amounted to € 89.5 million, or 13.8% of *Pro Forma* Total Revenue, respectively.

Pro Forma Total Revenue in Italy for the year ended December 31, 2014 can be apportioned as follows: clinical laboratory services: 40% (including poly-ambulatory: 30%; occupational healthcare: 8%; and specialty tests: 2%); molecular imaging: 23%; medical imaging (other than molecular): 22%; other medical services: 13%; and other revenue sources: 2%.

Labco handled approximately 710,000 case files in Italy for the year ended December 31, 2012, 790,000 for the year ended December 31, 2013 and 1.23 million for the year ended December 31, 2014 (*pro forma* for the acquisition of the SDN Group). For the year ended December 31, 2014, Labco handled 878,000 clinical case files, 192,000 medical imaging case files, 35,000 nuclear imaging case files and 169,000 other case files.

Emerging Countries

Labco began to offer services in emerging countries after acquiring the CIC laboratory in 2011 (renamed Labco NOÛS in 2013), a laboratory located in Barcelona that performs specialty tests. At the time of the acquisition, Labco NOÛS already had sales offices in Brazil, Colombia and the Middle East. Since then, it has opened two more, in Peru and Mexico. Labco's legal representations in Latin America are purely commercial subsidiaries that negotiate service contracts with local laboratory groups that allow them to send their specialty tests to the technical platform in Barcelona. Local representatives are also in charge of supervising customer relations, promoting new tests and ensuring the smooth running of operations.

In addition to its sales offices, Labco NOÛS also has sales representatives who are Labco Group employees as well as independent commercial agents whose mission is to negotiate new contracts in the regions where Labco has not established as much of a presence as in Western Europe, such as Latin America (Ecuador, Uruguay and Chile), Eastern Europe (Romania and Poland) and North Africa.

As tests for emerging countries are performed by Labco NOÛS in Barcelona, business from emerging countries is allocated to Labco's Iberia cash generating unit and therefore the corresponding revenue is recognized in Spain's revenue.

Germany

In 2008, Labco entered the German market by acquiring six laboratories located in the country's four western *Länder*: Baden-Württemberg (Karlsruhe); Hesses (Dillenburg, Giessen and Marburg); Saar (St-Ingbert); and Rhineland-Palatinate (Duisburg).

The competitive environment in Germany is characterized by an advanced level of market consolidation, with a few major international companies (e.g., Sonic Healthcare, Limbach, Synlab), and mid-sized regional companies.

In such a highly technical environment, the small size of Labco's operations in Germany rapidly came to be seen as a detrimental factor. Furthermore, the results of Labco's German operations were severely affected by contentious relations with the former owners of some of the laboratories that Labco acquired. Due to the lack of non-compete clauses, these owners left the Labco Group to set up directly competing businesses in the very same local markets. Finally, in the case of Labco's Dillenburg laboratory, Labco discovered that the selling shareholders had overcharged private insurance companies and the Hessen health insurance fund. As the new management team notified the relevant authorities of the fraud, this laboratory's revenue massively contracted and, in turn, significantly reduced the overall results for this company. Labco sued the former owners of this laboratory and recovered compensation of €5.5 million. Although a new management team was recruited in 2011 and operational efficiency program was implemented (consolidation of Hessen-located laboratories, the internalization of logistics, pooling of support functions at the Frankfurt site), the turnaround in Labco's German operations remained insufficient in view of its profitability demands. In particular, the turnaround significantly slowed as a result of sweeping price reductions implemented in 2012 at a regional level, and from 2013 onwards at a federal level.

The severe deterioration in Labco's revenue in Germany resulted in a €36 million goodwill impairment loss that was recognized in the German business in its 2012 consolidated financial statements.

Acknowledging its badly weakened market position in Germany, Labco's board of directors decided in the summer of 2013 to conduct a strategic review of its operations in this country. Shortly after launching this review, Labco received an indication of interest for these operations from Sonic Healthcare, an Australian competitor that already has significant operations in Germany. Talks were soon opened and swiftly enabled the main points of a sale agreement to be agreed upon. The agreement was signed on September 26, 2013 and the transaction completed on December 2, 2013.

Labco's German operations were sold for €76 million, showing a double-digit EBITDA multiple.

The sale contract for Labco's German operations includes the usual liabilities guarantee clauses, which expired on June 2, 2015 without any claims, and provides that Labco remains exposed to possible residual eventual legal risks related to the specific situations relating to the Dillenburg and Duisburg laboratories.

Finally, the sale contract does not include a non-compete clause, as Labco reserves the right to re-enter the German market should the conditions allowing it to acquire a leadership position in this market be met.

Acquisitions and External Growth Strategy

Significant portions of the European clinical laboratory services market, including the French, German, Czech, Italian, Portuguese, Spanish and Swiss markets remain fragmented. These markets present opportunities for consolidation and growth, and the shift of test volumes from small, privately-owned laboratories, generally benefit larger laboratory companies or networks such as Synlab and Labco. Synlab and Labco are both leading consolidators in the European clinical laboratory services market based on the number of acquisitions that they have completed.

From 2012 to 2014, Synlab completed 44 acquisitions, primarily in Germany, Italy, Belgium and North Europe. In the first three months of 2015, Synlab completed an additional seven acquisitions and, since March 31, 2015, has entered into sale and purchase agreements in respect of four acquisitions that it expects to close in 2015.

In the years ended December 31, 2012, 2013 and 2014, Labco completed 16, 11 and 16 acquisitions, respectively, and in the three months ended March 31, 2015, Labco completed two acquisitions.

Synlab's Growth Strategy

Since Synlab's founding, it has developed its business both through strategic acquisitions of local and regional laboratories, as well as through selective acquisitions of larger clinical laboratory groups to access new markets and expand its presence in existing markets. Since 2009, when Synlab merged with FutureLAB and acquired Fleming Labs, it has acquired over 60 laboratories.

Synlab's acquisition strategy has three primary objectives: expand its footprint in existing markets, reinforce its scientific expertise and expand into new markets. Acquisitions within Synlab's existing footprint increased its network density, while acquisitions outside its footprint in an existing market enabled Synlab to move into new, attractive regions in a given country. For example, in recent years, Synlab has continued to expand its laboratory network in Italy through cross-region acquisitions to expand its presence beyond Lombardy—including Veneto in 2011, E. Romagna and Lazio in 2013 and Campania in 2014—while at the same time acquiring laboratories and new blood collection points to increase the density of its laboratory network and leverage synergies.

Acquisitions to reinforce Synlab's scientific expertise primarily relate to purchases of laboratories in adjacent or niche markets. For example, in early 2012, Synlab acquired a German laboratory active in preventive testing, thereby expanding its offering to cover additional interpretations of test results consistent with complementary and alternative medicine approaches. More recent acquisitions include laboratories in human genetics and pathology as well as laboratories active in environmental and veterinary testing. Synlab believes these acquisitions complement its test offering by adding knowhow and innovation to its existing platform and present it with significant cross-selling opportunities.

In recent years, Synlab has also acquired laboratories in new geographic markets to diversify its geographic exposure, enter into attractive growth markets and realize synergies from leveraging its existing laboratory network platform. For example, in 2012, Synlab entered the Belgian market through the acquisition of Laboratoire Collard, a leading regional provider of human and veterinary medicine testing services in Wallonia, the French speaking part of Belgium. In July 2013, Synlab entered the Baltic and Scandinavian markets through the acquisition of Quattromed Group, which was active in Estonia, Lithuania and Finland. Synlab has utilized the acquired laboratory facilities in Estonia, including a central laboratory, as a platform for further growth by leveraging its scale, brand and best practices to accelerate growth and generate synergies, mainly in Finland.

Synlab has developed a structured and disciplined approach to acquisitions. Smaller potential acquisitions are initially screened for strategic fit de-centrally by Synlab's country chief executive officers, whereas larger acquisitions are screened at a group level by its executive board. Once a target is identified and before a non-binding offer is submitted, initial due diligence is conducted by Synlab's local management (in the case of acquisitions in existing markets) and its M&A department in close coordination with its group sourcing and operations teams. Final board approvals of acquisitions are subject to consideration and satisfaction of a rigorous set of criteria, including, among others, geographic and strategic fit, customary due diligence, valuation multiples, synergy potential and review by Synlab's post-merger integration teams.

Integration of acquired targets is primarily handled by Synlab's country management teams, with oversight and support provided by management at a group level. Post-merger integration of acquisitions is focused on certain synergy levers, including laboratory network optimization and streamlining of processes, back-office centralization, test volume in sourcing of previously outsourced specialty test volumes to Synlab's central laboratories and procurement optimization. Procurement optimization includes implementation of Synlab's pan-European framework conditions with preferred suppliers as soon as the closing of the acquisition has occurred as well as introduction of standardize laboratory processes and best practices consistent with Synlab's European laboratory network.

Labco's Growth Strategy

Since Labco was founded in 2003, it has implemented a selective external growth strategy aimed at developing its network of clinical laboratories and it constantly reviews acquisition opportunities. Labco's strategy with regard to acquisitions in particular consists in targeting three categories of laboratories or medical diagnostics centers. First, Labco targets incremental ("bolt-on") acquisitions in zones where it already has technical platforms since this leads to the rapid implementation of industrial synergies. In addition, Labco is interested in acquisitions that enable it to improve its coverage of a given region, which means mainly acquiring large platforms in new markets from which Labco will be able to implement its strategy of consolidating smaller operators. Finally, Labco considers acquisitions that allow it to acquire new scientific or technological capacities that can subsequently be deployed throughout its network. Labco is particularly interested in innovations that fit with its strategy of acquiring business that enhance its technological capabilities, especially anatomical pathology, molecular biology and molecular imaging.

Labco generally requires the laboratory doctors who have sold their businesses to it to continue to operate them. In addition, depending on the case, Labco either offers these laboratory doctors the chance to reinvest some of the proceedings from the sale in buying or subscribing for shares in Labco. In the case of substantial acquisitions, Labco likes to ensure that the key managers of the companies it has acquired, who know the region well, join its management team. For instance, Luis Vieira, the current Executive Vice-President of Corporate Development in Europe, became a member of Labco's management team following the acquisition of Sampletest, S.A. in 2008.

Labco has developed a structured approach to acquisitions that enables it to complete these transactions under the best financial and legal terms and conditions, while carrying them out quickly enough to be able to acquire, in a short time span, the most attractive opportunities. Three kinds of synergies can be generated: a reduction in the cost of sales; optimizing the workforce; and cutting other costs related to operations, mainly logistics costs and administrative expenses. For bolt-on acquisitions, once an acquisition has been completed, Labco aims to achieve about half of the synergies expected from the transaction in the first year and then virtually all the remaining synergies during the second year. With larger platform acquisitions, Labco aims to achieve all synergies within the same time period as for bolt-on acquisitions; however, a greater proportion of the synergies for such larger acquisitions are usually realized in the second year following the acquisition and may be delayed further, sometimes significantly, since implementing the measures required to realize the synergies typically takes longer.

Therefore, after factoring in operating gains, the acquisition multiple that Labco achieved on Labco NOÛS was 2.6 times 2014 EBITDA versus 4.9 times 2010 EBITDA.

Labco NOÛS's activity is recognized in the Iberia cash-generating unit, as the samples coming from Latin America are treated in Spain on the technical platform in Barcelona.

In France, Labco's strategy has consisted of unifying the analytical phase and transferring the pre-analytical phase to Sampling Centers. As a result, operational synergies and significant productivity gains were achieved as a result of the automation of tests, optimizing the workforce, the existence of a common IT platform and the setting up of a shared services center.

In addition, Labco is focused on consolidating its position in Europe both through its selective growth strategy and through opportunistic larger acquisitions. Labco has set up a European development team dedicated to identifying potential acquisition targets. This team, which includes financial analysts, local in-house lawyers and local representatives in charge of development, carries out market studies covering, in particular, the regulatory and competitive environments of the countries in which Labco operates or in countries where it is considering the possibility of setting up operations. This team can draw upon, in each of these geographical zones, a constantly updated database covering the potential acquisition targets. By the end of February 2015, the database contained more than 70 entities; were all of such acquisitions to take place, ten of these entities would strengthen Labco's geographical coverage and ten of them would broaden its clinical service offering, while the other acquisitions would be integrated incrementally with its existing laboratories. Labco Group representatives use this database, among other things, to decide whether to get in touch directly or indirectly with the legal entities or natural persons who hold controlling interests in the potential targets. These targets are also identified as a result of relationships forged by Labco's laboratory doctors with their colleagues and proposals made by owners of laboratories who would like to join Labco's network.

When assessing potential targets, Labco studies and evaluates several financial, legal and strategic criteria that may vary according to the country in which the targets are located. The financial criteria include the target's EBITDA margin, return on capital employed (pre-tax operating income as a ratio of capital employed, defined as non-current assets plus working capital), potential synergies and the compatibility of investments with Labco's financial commitments. Among the legal criteria, are analysis of the legal structure of the target, the regulatory constraints applicable to this target and the entirety of the commitments and events that can likely generate constraints or specific risks. The strategic criteria include the target's margins, the extent to which the relevant market has already undergone concentration and its remaining consolidation potential and how close the target's laboratories are located to Labco's own, as well as their size and profitability. Another major assessment criterion is the extent to which the target's laboratories fit strategically in particular with respect to the techniques used and the tests performed by these laboratories that could help Labco build up some of its operations or widen its know-how to specific fields that would complete its range of expertise. Furthermore, when those who could relinquish control of such a target consider the option of continuing to work subsequently for Labco, their ability to buy into Labco's model and corporate culture is also a decisive criterion of whether or not Labco makes the acquisition.

As soon as a target is identified, the acquisition project is reviewed by a deal team composed of a project manager, the relevant country managing director and Labco's President of Corporate Development.

The project is then presented to the management team and, when the investment under consideration is so large or of a nature that requires prior approval from Labco's board of directors, the board decides whether to approve the project or not, after an examination of a complete presentation file.

A compliance certificate for the acquisition is drawn up. It sums up the relevant acquisition in detail by showing the target's key parameters, performance indicators and key financial items so that these indicators can subsequently be monitored to assess the target's performance. Acquisitions carried out less than one year earlier are reviewed to a limited extent every month while the performance of acquisitions made more than a year earlier is reviewed in depth every six months over three years. Labco expects that its acquisition process will be revised following the Acquisition.

Quality Standards

Synlab and Labco are subject to regulation relating to the quality of the tests they perform and the manner in which they conduct tests. In every country in which they operate, Synlab and Labco are both subject to the national legislation that defines the mandatory quality standards they must comply with in their respective operations. These regulatory requirements vary from one country to the next.

Synlab's Quality Standards

Synlab's quality assurance efforts primarily focus on correct patient identification of samples, reporting accuracy, proficiency testing, reference range relevance, process audits, statistical process control and personnel training at all of its laboratories and blood collection centers. Synlab also focuses on ensuring that its professional and technical staff receive the proper training and satisfy applicable licensing and credentials requirements.

Synlab believes that it is in compliance with applicable accreditation or certification standards and, in applicable jurisdictions, the requirements of standard-setting bodies, such as the International Organization for Standardization ("ISO"), among others. For more detail on certain regulations to which Synlab's operations are subject, see "*Regulation*."

Synlab seeks to assure the highest level of diagnostic quality control throughout its group. Synlab's laboratories follow quality control assessment processes and are subject to periodic external reviews for quality assurance. In addition, in various countries, Synlab is a member of self-regulation associations of laboratories or physicians and is committed to the highest quality standards for laboratory services. For example, Synlab is a founding member of ("ÄQL"), the German Laboratory Association for Quality in Laboratory Medicine, and assisted in the promulgation of its Code of Conduct for laboratory physicians and in Switzerland, Synlab is a member of the Swiss Federation of Analytical Medical Laboratories (*Foederatio Analyticorum Medicinalium Helveticorum*, or FAMH).

Synlab is committed to a strategy of medical expertise and scientific leadership based on the highest standards of quality and reliability. Synlab will continue to focus on providing customers with accurate test results with the highest possible medical precision, the shortest turnaround time and a zero analysis error rate. Synlab intends to further develop its medical expertise by ensuring that all of its laboratories continue to be fully-accredited at the highest European standards.

Labco's Quality Standards

As Labco seeks to harmonize quality standards throughout its network, it has set up a quality assurance program that also includes compliance with applicable accreditation or certification standards such as those laid down by the ISO, as well as internal quality assurance standards. The three ISO standards most commonly applied in the sector are ISO 9001, ISO 17025 and ISO 15189. The latter, which is extremely demanding, more specifically applies to clinical laboratories.

Laboratory accreditations according to ISO 15189 are difficult to compare as they vary greatly in scope. Accreditation can cover:

- facilities: places where the tests or samples are carried out;
- test categories, including biochemistry, hematology and coagulation; and
- the tests themselves within each of their respective categories, such as cholesterol, glucose, white blood cells, blood platelets and HIV serology.

For example, a SEL with five facilities comprising two laboratories and three Sampling Centers could be accredited as follows:

- accreditation of one laboratory for the bacteriology test category and for samples at that site;
- accreditation of the other laboratory for biochemistry, hematology and coagulation test categories; and
- accreditation of the three Sampling Centers for samples.

All of the SEL's facilities are therefore accredited but it would be wrong to say that the SEL is accredited for all the tests it performs.

Labco is currently conducting quality programs at a national level in all the countries in which it operates. Labco has therefore set up a European Quality Committee, composed of laboratory doctors and clinical pharmacists, which is in charge of these national quality programs.

France has the strictest quality standards (see "*Regulation—France*"). Labco has therefore set up a national committee composed of five laboratory doctors (or clinical pharmacists) and three internal quality experts, as well as a quality department that employs around 40 quality experts. In addition, upon their integration within the Labco Group, each SEL president undertakes to sign a charter setting out the internal quality policy.

In France, Labco supplies every laboratory in its network with a quality reference handbook along with access to a documentary database, including ISO 9001, ISO 17025 during the first accreditation four-year period and ISO 15189.

The laboratories are subject to an internal audit and an independent external audit by COFRAC. Accreditations are subject to periodic review every twelve months and then every 15 months.

As of November 1, 2016, all clinical laboratories will have to be accredited for 50% of the clinical laboratory tests they perform. This threshold will be raised to 70% as of November 1, 2018 and then to 100% as of November 1, 2020 (see "*Regulation—France*"). In order to achieve this target, Labco has already made significant progress towards complying with the minimum accreditation standards required under ISO 15189.

As of June 30, 2015, 90% of Labco's SELs were ISO 15189 accredited by COFRAC, 7.5% were awaiting COFRAC's decision and 2.5% were awaiting a COFRAC audit. For comparison purposes, according to COFRAC, as of early June 2015, 1,012 laboratories have engaged in an accreditation process and 52% are ISO 15189 accredited.

In the United Kingdom, laboratories have to be accredited by the United Kingdom Accreditation Service ("UKAS"), the national accreditation bureau or the Clinical Pathology Accreditation ("CPA"). In 2009, CPA became a subsidiary of UKAS pursuant to the modernization and development of clinical services in the United Kingdom. All the laboratories accredited by CPA will have to comply with the UKAS accreditation and the intention is for CPA accreditation and standards to ultimately be withdrawn and replaced by UKAS accreditation to the internationally recognized standard ISO 15189. UKAS accreditation standards are converging with those of the ISO 15189 accreditation. Of the six laboratories in the United Kingdom, five are currently CPA accredited and one is UKAS accredited.

In Belgium, the March 19, 2008 Royal Decree imposes an obligation on any laboratory wishing to offer molecular clinical services to obtain ISO 15189 accreditation relating to the departments' tests from the BELAC, the national bureau for Belgian accreditation.

In the other countries where Labco operates, although accreditation is not a prerequisite, most of its laboratories have begun the accreditation process in order to obtain this international recognition of quality.

Environmental, Health and Safety

Both Synlab's and Labco's operations are subject to licensing, authorization and regulation under EU, national and local laws and regulations relating to the protection of the environment and human health and occupational health and safety, including those governing the handling, transportation and disposal of medical samples and biological, infectious and hazardous waste, and the clean-up of contaminated sites. All of their respective laboratories are subject to strict requirements for the disposal of laboratory samples at authorized facilities, and both Synlab and Labco generally use external service providers for the disposal of such samples.

In addition, Synlab and Labco have to meet extensive requirements relating to workplace safety for employees in clinical laboratories who could be exposed to various biological risks such as blood-borne pathogens (including HIV and the hepatitis B virus). These requirements include work practice controls, protective clothing and equipment, training, medical follow-ups, vaccinations and other measures designed to minimize exposure to, and the transmission of, blood-borne pathogens.

Synlab believes it is in material compliance with applicable environmental requirements. However, there can be no guarantee that significant costs will not be incurred for environmental matters. See "*Risk Factors—Risks Related to Our Commercial Activities—Failure to comply with environmental, health and safety* *laws and regulations may result in fines, penalties and other costs as well as the loss of our licenses and authorizations, which could have a material adverse effect on our operations*." Synlab employs comprehensive and strict environmental, health and safety systems in its facilities.

Although Labco is not aware of any current material noncompliance with or any failure to comply with any specific obligation under environmental, health and safety laws and regulations in connection with its operations, failure to comply with such laws and regulations in the future could result in civil and criminal fines and penalties, remediation costs, enforcement actions, the suspension or termination of Labco's licenses and authorizations to operate or third-party claims (see "*Risk Factors—Risks Related to Our Commercial Activities*").

Our Customers

Synlab's Customers

Synlab's customer and payer base comprises more than 30,000 medical practices, 700 hospitals and thousands of individual customers, primarily through Synlab's 285 blood collection points in countries such as Italy, the Czech Republic and Belgium. Synlab's customers and payers also include public and private healthcare providers, including hospitals, public and private clinics and laboratories, physicians, public health agencies, the general public, statutory and private health insurance companies, pharmaceutical companies and clinical research organizations. Patients come to Synlab in a variety of ways: on an in-patient or out-patient basis, as walk-ins, by physician referral or through outsourced testing.

Synlab's customer base is highly diversified and is not characterized by customer concentration. For the year ended December 31, 2014, Synlab estimates that its top general practitioner referrer accounted for significantly less than 1% of its revenue and its largest hospital chain customer accounted for approximately 1% of its revenue.

Synlab enters into long-term contracts with a number of hospitals and clinics, including hospital and clinic full outsourcing contracts, the terms of which are typically up to five years in duration and include an option to renew, which is frequently exercised. Synlab's customer contracts in place with various hospitals are usually concluded following the acquisition of an existing laboratory operated or working in cooperation with the laboratory.

Labco's Customers

Labco provides testing services to a diverse range of customers. Labco considers any party that either directly gets in touch with it or refers a patient to one of its laboratories to be a "customer." It considers any party from whom a sample is taken or on whom a test is performed to be a "patient." Lastly, Labco considers any party that pays for the tests performed to be a "payer." In most cases and depending on the country, Labco's customers, patients and payers are different persons or entities.

Labco's customer base varies considerably from country to country. The main categories of customers to whom Labco provides its services are as follows:

- *Patients.* In France, Italy and, albeit to a lesser extent, in Portugal, patients with a prescription for testing from their doctor may choose the clinical laboratory in which their tests will be performed. The main factor taken into consideration when choosing a laboratory is usually how close it is to their home or workplace. Labco has therefore positioned its network of laboratories in France and Italy mostly in small towns, city centers and suburbs.
- *Independent healthcare professionals and partnerships of health professionals.* In certain countries, healthcare professionals who require testing for their patients can recommend Labco's laboratories. In Belgium and in Switzerland, healthcare professionals take samples themselves and send them to hospitals or private laboratories such as Labco's. Consequently, the relationship with healthcare professionals is a major commercial challenge.
- *Hospitals.* Labco provides hospitals with services ranging from routine and specialty testing to contract management services. Labco operates certain clinical laboratories which hospitals generally maintain on-site to perform immediate testing. However, hospitals may also refer less time sensitive, less frequently needed and highly specialized procedures to outside facilities, including independent clinical laboratories such as Labco's. Labco provides hospital outsourcing services in France, Spain, Portugal, Germany and the United Kingdom. Labco typically enters into mid- and long-term contracts with such clients.

- *Laboratories.* Labco performs specialty tests for other clinical testing laboratories via its Labco NOÛS subsidiary. These laboratories are found in Europe but also in Latin America, the Middle East and North Africa (see "*—Labco's Core Markets—Emerging Countries*").
- *Private Medical Insurance Companies.* In certain countries such as Spain, private medical insurance companies typically require their insured patients to choose from a list of pre-selected laboratories with which these insurers have a reimbursement contract. The list varies depending on the patient's private insurance scheme.
- *Companies.* In jurisdictions such as Spain, Portugal and Italy, employees are entitled to a regular medical check-up paid for by their companies. The services related to these check-ups are generally provided by specialized companies that subsequently subcontract the tests to a private laboratory.
- *Other institutions.* Labco also provides services to other institutions, including government agencies and other independent clinical laboratories that lack the breadth of its testing capabilities.

Invoicing and Payment Procedures

Billing for laboratory services is a complex process that sometimes involves many payers. According to the billing arrangement and the applicable law of the country in which Synlab and Labco each operates, the payer may be either a third party responsible for providing health insurance coverage to patients (such as a national public health insurance system, a private medical insurance company or an employer), a patient, a practitioner or any other party (such as a hospital, another laboratory or an employer) that referred the patient, or several of these parties. Other than in Synlab's hospital outsourcing business, Synlab generally bills for clinical testing services on a fee-for-service basis.

For example, in the outpatient sector in Germany, different price and compensation levels exist under the SHI and PHI systems. In the SHI system, a uniform assessment standard (*Einheitlicher Bewertungsmaßstab*, or "EBM") for compensation has been established at the federal level based on a point system and fixed tariffs. Laboratories invoice the SHIs according to the EBM, which sets standardized limits on compensation across SHIs. In the PHI system, a binding scale of fees for physicians (*Gebührenordnung für Ärzte*, or "GOÄ") has been enacted by the Federal Ministry of Health. The GOÄ is the equivalent of the EBM for PHI patients and sets price corridors for each service. In the PHI system, the laboratories invoice the PHI patients according to the GOÄ, and the patients claim reimbursement from their PHIs. In the inpatient setting, private laboratories invoice hospitals according to negotiated contracts which may be based on flat rates or fees per test that are measured as a percentage of GOÄ values.

Generally, Labco bills for clinical testing services on a fee-for-service basis, except in Spain where it has entered into agreements with some private insurance companies on the basis of individual policyholders' expenditure.

Although neither Synlab nor Labco has knowledge of material problems with or issues with respect to receiving its fees, both are exposed to the risk of nonpayment by patients or other customers. See "*Risk Factors—Risks Related to Our Commercial Activities—Financial difficulties of a customer or third-party payer may result in payment delays or require us to write off debts*."

See "*Industry*" for a description of the billing and payment arrangements in each of the markets in which Synlab and Labco each operate.

Our Suppliers

Synlab's Suppliers and Procurement

The primary equipment and materials required to conduct Synlab's business activities are testing equipment, reagents and other consumables. Synlab regularly reviews its testing equipment needs and have entered into pan-European procurement agreements with certain preferred laboratory suppliers for the supply of chemical reagents and testing equipment. The terms of these agreements typically range from five to seven years and include pricing frameworks which ensure consistent pricing across countries. Synlab has also entered into "per reportable result" agreements for certain testing equipment, reagents and services. Under these agreements, the costs for reagents and consumables as well as the required testing equipment and related services are variable and depend on the number of tests performed. In particular, the cost of testing equipment machines as well as the costs for reagents and consumables is frequently based on the type and number of reported results over a given period with certain minimum volumes of reported results and discounts above certain volume thresholds agreed from time to time in individual agreements.

Synlab does not generally enter into exclusivity contracts with respect to its suppliers. Synlab does, however, enter into exclusive framework agreements for its primary supplies, pursuant to which suppliers provide Synlab's laboratories with equipment, reagents and other consumables on an exclusive basis for a specific medical area of testing for a fixed term of several years. There are a number of other suppliers who are able to supply the equipment and materials necessary for the performance of Synlab's tests. Accordingly, Synlab does not believe it is dependent on any single supplier.

Labco's Suppliers and Procurement

The main equipment and material required by Labco's operations are testing equipment and reagents. Labco regularly assesses its equipment (analytical systems, robotics, and pre- and post-analytical devices) and has entered into national or pan-European pricing agreements with certain laboratory suppliers chosen after calls for tenders. These agreements set purchase prices for reagents according to an adjustable pricing grid as well as for equipment and maintenance required to ensure satisfactory operation of laboratories.

These pricing agreements are entered into for an average term of five years according to the kind of activity but parties are entitled to renegotiate the agreed prices if reimbursement levels set in the relevant county are lowered unless an automatic adjustment in prices was previously provided for in the contract. This provision enables Labco to benefit from the latest technological and medical advances and strike the right balance between total cost, innovation, flexibility and risk management, as quality remains one of Labco's key priorities. For instance, Labco's Quality department steps in at the very beginning of the tendering process by drafting specifications for every category of operation which suppliers must comply with.

In 2014, Labco's three largest suppliers were Siemens, Biomérieux and Roche. They accounted for less than 40% of Labco's total purchases of reagents and consumables. Several other suppliers can supply Labco with the equipment required to perform its tests. Accordingly, Labco believes that it does not depend on any one supplier and therefore losing one of its current suppliers would probably not have a material adverse effect on its business.

Labco increasingly enters into leasing contracts based on a "fee-for-service" model for its laboratory devices. These contracts provide that suppliers of reagents provide Labco with laboratory devices, and in exchange it undertakes to buy reagents exclusively from them. Accordingly, the price that Labco pays to these suppliers also includes the reagents themselves as well as the rental and maintenance of the equipment. Since 2009, Labco has also implemented inventory management policies for its network of laboratories, which are aimed at lowering the level of its inventories by asking suppliers to remain the owners of certain products held in Labco's inventories and by making supply deliveries flexible according to the needs of Labco's laboratories.

Labco regularly launches initiatives aimed at reducing costs for all expenditure items. In particular, in order to lower the cost of raw materials and maintain its margins against a backdrop of price cuts imposed on clinical testing in many countries, Labco launched a pan-European program called SPORT in 2009. It has resulted in a reduction in consumed purchases by cutting the number of suppliers and by negotiating better business terms and conditions as a result of the use of framework contracts, particularly for purchases of reagents used in clinical testing. For example, four European calls for tenders covering up to five countries were successfully concluded during 2014 in the following fields: consumables, microbiology, electrophoresis and immunology-hematology.

Information Technology Systems

Both Synlab and Labco use IT systems in virtually all aspects of their respective businesses, particularly in clinical testing, test reporting, billing, customer service, logistics and the management of medical data. Our ability to maintain our combined business' operations depends on the continued and uninterrupted performance of our IT systems, especially when time is of the essence for a laboratory test result.

Synlab's Information Technology

Historically, Synlab has grown through acquisitions, and, as a consequence, newly acquired laboratories often use older software platforms that are not consistent with the systems it has implemented on a group-wide basis or otherwise used in the relevant country. Synlab uses its internal reporting system in order to monitor key performance indicators in each of its laboratories and adjusts its operations accordingly. Synlab is continually integrating laboratory, reporting, billing and other information technology systems, particularly with respect to newly acquired laboratories but also with respect to existing laboratories. Synlab expects that the implementation of integrated practices and systems across its network will take time to complete, and until such completion, there is a risk that Synlab's operations could be disrupted during the implementation of new systems.

Synlab's current operational initiatives include various measures to further optimize its IT systems across its laboratory network as well as improve internal financial and operational reporting. For example, in Switzerland, Synlab is implementing a unified laboratory information system structure to reduce its IT systems to three, one for each language region in Switzerland. Furthermore, in Germany, Synlab is enhancing the reporting quality and transparency to allow for benchmarking of certain performance indicators by region, location and cost center through the introduction of uniform reporting processes. Monthly reporting of such reporting indicators has been introduced recently, with further refinements to be rolled out in certain locations, depending on the IT infrastructure of a particular site. Finally, Synlab intends to further leverage best practices in the management of blood collection points to facilitate a direct IT interface between its expanding network of blood collection points and its analysis systems.

Synlab has implemented application-specific measures such as stable and redundantly-designed IT systems, backup processes, virus and access protection and encryption systems as well as standardized IT infrastructure and applications. Synlab regularly tests and updates its IT systems. Risk management related to IT systems and applications is conducted using standardized regulations as well as an internal control system.

Labco's Information Technology Systems

Labco has standardized some of its systems and are rolling out standard laboratory information and invoicing systems in all its operations, including those of recently acquired companies. Nonetheless, Labco sometimes still uses non-standardized IT systems for billing and laboratory work as well as centralized information systems for some of the companies it has recently acquired. However, Labco forecasts that rolling out standardized practices and systems throughout its network will take several years; in the meantime, Labco's operations might be negatively affected because of cases of incompatibility between the various IT systems used within them. The breakdowns in Labco's IT systems that would result from systems being converted could disrupt Labco's operations and result in customers or business opportunities being lost (see "*Risk Factors—Risks Related to Our Technology and Intellectual Property Rights*").

Faced with growing demand for the electronic delivery of laboratory data and because Labco is committed to improving its patients' experience, it intends to develop its platforms by adding new capabilities and services. In order to do so, Labco is automating the workflow in patient service centers as well as data processing in laboratories, while working on integrating patient health records and developing online access to information on services and test results for its customers.

In the last few years, Labco has invested heavily in its IT systems to develop the following functionalities:

- It selected Axional to set up its enterprise resource planning system (ERP). The implementation of the asset management and procurement management modules of the system began in 2012 and the were finalized in the first half of 2015. Other system modules will be rolled out once Labco has finished ascertaining its functional needs;
- an application for the publication of clinical results, owned by the Labco Group, which will enhance Labco's relationships with patients, healthcare professionals, nurses and hospitals. The project has been fully deployed in France and Switzerland and is expected to be rolled out in Spain, Portugal and Belgium. Labco plans to further improve this application by also targeting healthcare professionals and mobile users. Since it was set up in 2007, more than ten million patients' case files have been processed and subsequently archived;

- a shared laboratory information system in Spain. Labco launched the convergence process in 2012 and expect it to be completed by the end of 2015;
- a database or "Group Datawarehouse" for all Labco subsidiaries, covering the operational, human resources and procurement aspects in an initial phase. Rolled out in 2013 and 2014 in France, the system's deployment will be completed in late 2015; and
- a mobile application called "iLab" that enables healthcare professionals and partners of Labco's laboratories (such as nurses and homes for dependent seniors) to look up catalogues of tests and instructions on how to take samples, and to remain informed of any possible changes. This will result in a better level of services and compliance. Labco has been working on the enhancement of this application and on adapting it to different countries, and plan to deliver a version for patients in 2015.

In 2014, Labco launched a project to standardize the laboratory information systems for all network members by 2020. This project, known as "EuroLIS," aims to replace all the information systems currently used in the network laboratories to gain significantly in flexibility and productivity. EuroLIS will initially be implemented in several pilot laboratories in France in 2016 and then rolled out to all the French laboratories. In a second stage, it will be rolled out Europe-wide.

Sales Forces, Assistance in Performing Tests and Establishing Diagnostics

Synlab and Labco operate in highly competitive markets across Europe, in which referring parties can send tests to the laboratory of their choice.

Synlab competes primarily on the basis of the quality of its clinical laboratory testing, innovation in its services, the breadth of the test parameters and services it offers, access points (e.g., blood collection points) throughout the various countries in which its operates and prices in the hospital laboratory outsourcing market and in segments in which the prices for its services. In certain markets or segments of its markets, prices may be freely negotiated, including, in environmental laboratory services and veterinary diagnostics.

To stand out from its competitors, Labco mainly relies on the quality of its diagnostic services, innovations in its services, the wide range of services it offers, the fact that its laboratories are easily accessible in the various countries in which its operates and, when the hospital laboratory market has been outsourced, on the prices it offers.

Synlab's and Labco's laboratory doctors play an important role in sales and marketing due to the relationships they have forged with customers. They are backed by a sales force in charge of identifying potential customers with whom laboratory doctors can subsequently get in touch with when local regulations allow them to do so.

Synlab's laboratory doctors also continue to conduct independent research supported by Synlab and participate in international networks and pan-European scientific committees for certain areas of specialty testing. They are supported by Synlab's country management teams.

In the case of Labco, for example in Spain, it is up to management to identify key prospective customers because reimbursement agreements must be negotiated with private insurance companies. Labco's laboratory doctors are subsequently entrusted with the task of establishing a relationship with such healthcare professionals in Spain. In addition, Labco has developed new applications aimed in particular at healthcare professionals. See "*—Information Technology Systems.*"

Property, Plant and Equipment

Synlab's operational facilities consist predominantly of clinical laboratories, collection centers and office space while Labco's facilities consist primarily of Labco Collection Centers, routine testing laboratories, emergency services hospital laboratories, technical platforms and specialty platforms.

Synlab's Property, Plant and Equipment

Synlab rents nearly all of its premises and a significant majority of its laboratory equipment pursuant to commercial and operating leases, respectively. Synlab believes that its laboratories are generally adequate for its present needs and that suitable additional or replacement space would be available to the extent required.

The following table sets out certain information related to Synlab's laboratories and blood collection centers by country, as of December 31, 2014:

Country	Facilities
Germany	119 laboratories (5 central labs, 23 base labs, 91 satellite labs), 20 environmental labs and 5 veterinary labs
Switzerland	18 laboratories (3 central labs, 4 base labs, 11 satellite labs) and 11 blood collection points
Italy	8 laboratories (1 central lab, 5 base labs, 2 satellite labs) and 115 blood collection points
Czech Republic	28 laboratories (2 central labs, 12 base labs, 14 satellite labs) and 51 blood collection points
Belgium	3 laboratories (1 central lab, 2 base labs) and 53 blood collection points
Hungary	25 laboratories (1 central lab, 11 base labs, 13 satellite labs) and 23 blood collection points
Austria	9 laboratories (1 central lab and 8 satellite labs) and 7 blood collection points
North Europe(1)	63 laboratories (1 central lab, 5 base labs, 57 satellite labs) and 10 blood collection points
Rest of World(2)	28 laboratories (1, central lab, 20 base labs, 7 satellite labs)

(1) North Europe comprises Finland, Norway, Estonia and Lithuania.

(2) Rest of world comprises the following 11 countries: Belarus, Croatia, Cyprus, Macedonia, Poland, Romania, Slovakia, Slovenia, Turkey, the United Arab Emirates and the United Kingdom.

Labco's Property, Plant and Equipment

As of December 31, 2014, Labco owned property, plant and equipment with a gross value of approximately €261.3 million, including €50.8 million in the form of contracts eligible to be accounted for as leases under IFRS.

The property, plant and equipment that Labco owns is described in Note 15 to its consolidated financial statements for the years ended December 31, 2012, 2013 and 2014 included elsewhere in this offering memorandum.

Real Estate

Labco's policy is to lease rather than own its facilities, preferably through long-term leases, except where concentrated activity justifies the acquisition of the buildings in which these activities are conducted. Labco rents its head office in Paris. Labco believes that its facilities are generally adequate for its present needs and that suitable additional or replacement space would be available if required.

Barcelona Project

On October 2, 2014, Labco acquired a building in Barcelona to bring together the activities of five production plants, a storage facility and administrative offices in a single location. This building is ideally located as it is close to the Barcelona ring road (*Ronda de Dalt*) and lies within easy reach of the airport (13 km) and the city center (10 km).

The various departments will occupy three floors and a basement providing 5,747 square meters in total floor space. This space is due to be increased in the second half of 2016 to 8,957 square meters. The total cost of this project is estimated at €15.5 million, including reorganization costs (relating to removal expenses, double rent and redundancy payments), of which €12.0 million of expenditure was incurred in 2014 in acquiring the building and completing the initial refurbishment works.

Prior to this acquisition, Labco occupied approximately 7,000 square meters of space in the Barcelona region at an annual cost of approximately €0.8 million. Bringing operations together at a single location will optimize efficiency and reduce overhead costs, generating economies of scale.

Basildon Project

The Basildon real estate project results from Labco entering into an outsourcing contract with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital

NHS Foundation Trust. Labco has undertaken to build a new technical platform to perform all of the non-urgent tests at the two hospitals. A site has been chosen to host the new laboratory facility in north Basildon, close to the A127 road. The proximity of this major road means that the journey time to Southend hospital will be less than 25 minutes, and the location also offers easy and rapid access to London as well as to the region's other public hospitals.

iPP Facilities Ltd, the subsidiary responsible for managing Labco's assets in the United Kingdom, completed this acquisition on September 29, 2014. In advance of this purchase, Labco prepared, along with its partner Ashley House Ltd., the refurbishing and conversion of the premises, which are currently used as office and warehouse space. Labco is also working with its principal suppliers to equip this new technical platform with all the requisite technology. The laboratory facility is expected to open in the first half of 2016.

The total cost of the project is £5.4 million, excluding taxes, consisting of £1.0 million used to acquire the building at the end of September 2014 and £4.4 million to refurbish and convert the premises.

This project will give Labco better control and greater flexibility in the management of its real estate portfolio in the United Kingdom. In addition, given the length of the contract entered into with Basildon and Thurrock University Hospitals NHS Foundation Trust and Southend University Hospital NHS Foundation Trust, this project is financially more attractive than a conventional lease.

Property in Belgium

As part of the acquisition of a laboratory in Belgium in July 2014, Labco acquired a building with floor space of approximately 650 square meters via a Belgian real estate holding company created in 2014 called General Immo, for €1.7 million. A sample-taking laboratory is located on the ground floor of the building, which also contains offices. The building is located on one of Brussels' main thoroughfares.

Other Property, Plant and Equipment

The property, plant and equipment that Labco owns consists mainly of technical equipment and installations, particularly automated devices and tools used to perform clinical testing, office and IT facilities, fixtures and fittings for the premises and vehicles.

Employees

On a combined basis, Synlab/Labco employed a total of over 13,000 people as of December 31, 2014.

Synlab's Employees

As of March 31, 2015, Synlab had 8,006 full-time equivalent employees, including 654 laboratory doctors, 270 scientists and 3,699 medical technical assistants. The following table sets forth Synlab's average number of employees for the periods indicated:

	For the year ended December 31,			For the three months ended March 31,
	2012	**2013**	**2014**	**2015**
Administration	1,866	2,246	2,419	2,470
Operations	4,983	5,299	5,395	5,506
Total	**6,849**	**7,545**	**7,814**	**7,975**
Domestic (Germany)	4,247	4,218	4,205	4,134
Foreign countries	2,602	3,327	3,609	3,841
Total	**6,849**	**7,545**	**7,814**	**7,975**

The increase in the number of employees from 2012 to 2013 was primarily attributable to acquisitions of laboratories in North Europe. The increase in the number of employees from 2013 to 2014 was primarily attributable to acquisitions of laboratories in Italy.

Synlab believes that its relationships with its employees are generally good. Synlab has not suffered any material work stoppages or strikes in recent years.

The countries in which Synlab operates provide various protections and other rights to employees. These employment rights may require Synlab to expend greater time and cost in altering or amending employees' terms of employment or making staff reductions.

Synlab is subject to certain mandatory bargaining agreements (*Tarifverträge*) in certain countries, such as Germany, and collective bargaining agreements with unions representing its employees in certain other countries, including in Italy and Hungary. In Germany, certain of Synlab's employees in Germany are represented by works councils (*Betriebsrat*) and other representative bodies for employees with various information, consultation and co-determination rights. For example, they must be notified in advance of any employee layoffs, must consent to hirings and relocations of employees and are granted co-determination rights in social matters, such as work schedules and rules of conduct. As German law prohibits asking employees whether they are members of unions, Synlab does not know how many of its employees are unionized. In general, Synlab's employees in Germany fall within the scope of the German Dismissal Protection Act (*Kündigungsschutzgesetz*), which limits Synlab's ability to terminate individual employment relationships unilaterally. Synlab also complies with the German Anti-Discrimination Act (*Allgemeines Gleichbehandlungsgesetz*) and comparable legislation in other countries in which it operates.

Labco's Employees

As of December 31, 2014, Labco employed almost 6,000 people. Its workforce is increasing continuously, mainly due to its external growth policy.

During the year ended December 31, 2014, Labco's staff costs amounted to approximately €232.8 million compared with approximately €213.5 million for the year ended December 31, 2013, as adjusted for staff costs incurred by Labco's German business, which was sold on December 2, 2013. Staff costs include gross salaries paid to employees and corresponding employer's social security contributions, as well as fees paid to self- employed (*travailleurs non-salariés*) professionals.

Staff costs (€ million)	2014	201
Wages and salaries	180.7	163.6
Social security charges	52.1	49.9
Total	**232.8**	**213.5**

Breakdown of Employees by Country

The table below shows a breakdown of Labco's employees by country as of December 31, 2014:

	France	Spain	Portugal	United Kingdom	Italy	Belgium	Switzerland	South America(1)	Total
Number of employees	2,907	1,350	538	542	471	138	9	26	5,981

(1) Presence in Brazil, Peru, Colombia and Mexico.

Until 2014, Labco's human resources management was decentralized to each entity within the Labco Group, and in some cases was outsourced to specialized independent firms (particularly in France). A coordinated, consistent human resources policy, introduced in the third quarter of 2014, is currently being implemented across the Labco Group. This policy aims to harmonize the presentation of the workforce according to whether they are linked to one of the three production phases (pre-analytical, analytical and post-analytical) or to support services.

The table below shows a breakdown of Labco's workforce by country as a percentage of total employees as of December 31, 2014:

	France	Spain	Portugal	United Kingdom	Italy	Belgium	Switzerland	South America(1)	Total
Workforce (percentage)	48.6%	22.6%	9.0%	9.1%	7.9%	2.3%	0.2%		0.4%

(1) Presence in Brazil, Peru, Colombia and Mexico.

As of December 31, 2014, 71% of Labco's workforce was employed in France and Spain. Between 2013 and 2014, the salaried workforce increased by 78% in Italy and by 223% in the United Kingdom, following the acquisition of the SDN Group on July 31, 2014 on the one hand and the transfer of NHS employees pursuant to the agreements with Basildon and Thurrock University Hospital NHS Foundation Trust and Southend University Hospital NHS Foundation Trust on the other hand.

Breakdown of Employees by Country and Occupational Category

The following table shows a breakdown of Labco's employees by occupational category and by country as of December 31, 2014:

December 2014	France	Spain	Portugal	United Kingdom	Italy	Belgium	Switzerland	Latin America
Production								
Lab doctor	84	109	52	0	76	0	1	0
Management[(1)]	6	9	0	35	4	1	0	0
Technician	1,137	682	240	246	53	47	3	0
Sampling[(2)]	271	188	0	53	24	1	0	0
Messenger	218	13	17	14	13	23	3	0
Secretaries	840	189	68	32	151	38	0	0
Lab assistant[(3)]	144	10	134	134	42	2	1	0
Support								
Central support function	109[(4)]	106	19	6	1	0	0	0
Local support function	98	44	8	22	107	26	1	26

(1) Management of technical teams only.

(2) Includes nurses.

(3) Includes maintenance personnel.

(4) Includes headquarter personnel of the entire Labco Group.

Breakdown of Workforce Between Full-Time and Part-Time

Labco complies with local legislation on working hours in each country in which it operates. The working week for Labco's employees ranges from 35 hours in France to 40 hours in the United Kingdom and Portugal.

The table below shows a breakdown of Labco's employees in Europe for full- time and part-time workers (excluding South America) as of December 31, 2014:

	Number of Group employees	Percentage of Group employees
Full-time	4,362	73%
Part-time	1,593	27%

Employee Representation

Elections for employee representative bodies have been held in each of Labco's subsidiaries in accordance with applicable legislation. The rights, obligations and operating methods of these bodies vary from one country to another, depending on local legislation.

In France, social dialogue is structured at the company level. Each company has, if necessary, a works council and trade union representatives or a single staff representative body, depending on the number of employees and the complexity of the company's structure. The management of each company negotiates agreements with the representative trade unions on subjects such as incentive plans, gender equality and working time reduction and flexibility. Such company's management chairs the bodies and can negotiate company-wide agreements with the company's trade union representatives.

In the United Kingdom, in-depth work has been carried out with social partners to define the rules and organization governing the transfer of staff from the NHS to Labco's business under a public—private partnership.

There is currently no staff representation at the Labco Group level.

Research and Development, Patents and Licenses

As of March 31, 2015, Synlab owned or had the right to a limited number of trademarks or trade names related to its business. Synlab believes that its trademarks are of value to its business, but, other than its "synlab" brand name, no one trademark is material to its business as a whole.

Labco places considerable emphasis on using equipment at the cutting edge of technology in every laboratory it runs. Labco does not have any specific research and development centers or employee categories devoted to research because it relies in this regard on the results of the research and development research obtained by its equipment and test suppliers.

However, since the acquisition of the SDN Group in July 2014, Labco now runs a research and development activity through the non-profit scientific foundation in which the SDN Group actively participates (see *"—Labco's Core Markets—Overview of Labco's Southern European Market—Italy"*).

Labco operates under several different business names, trademarks and service brands. Although Labco has consolidated a large portion of its business under the "Labco" name, it sometimes operates under the business name of the laboratory acquired in order to gain access to the latter's customer base and reap the benefit of the prestige associated with the trademark or business name of the laboratory concerned.

Ten brands, including the Labco (device) trademark, the Labco NOÛS Advanced Special Diagnostics (device) trademark and the SDN (device) trademark were the object of a community registration and are therefore protected in each of the 28 countries of the European Union, including France (see "*Risk Factors—Risks Related to Our Technology and Intellectual Property Rights*"). The Labco (device) trademark was also registered in Switzerland and other trademarks have been registered in Spain, Portugal and Italy.

Other than the "Labco" trademark, Labco does not believe that any of its other business names, service brands and trademarks are essential for its business activities. Labco has also registered several domain names.

Labco actively protects its intellectual property, particularly by registering its trademarks and business names.

Insurance

We believe that the types and amounts of our existing insurance policies are adequate in terms of both amounts covered and conditions of coverage to cover the major risks of our business, taking into account the cost of insurance coverage and the potential risks to business operations. However, there can be no assurance that no losses will be incurred or that this coverage will be sufficient to cover the cost of defense or damages in the event of a significant claim. In addition, longer interruptions of operations in one or more of our laboratories can, even if insured, result in loss of sales, profit, customers and market share.

Synlab maintains insurance policies to cover risks for physical damage to, and loss of, its equipment and properties and losses related to business interruption, professional and general liabilities that may arise in the ordinary course of business. Synlab also maintains liability coverage for directors and officers. These policies are generally renewed annually.

Synlab also maintains various other insurance policies to cover a number of other risks related to its business, such as employment practices, accident and sickness, automobile liability and physical damage and employers' liability, as well as general excess liability policies which reimburse it in certain situations when the limit under the applicable primary liability policy is insufficient to fully satisfy a valid claim.

Labco maintains insurance against various risks related to its business, including mandatory professional civil liability (for which amendments are made from time to time for laboratories conducting specific activities within the scope of Labco's business, such as artificial insemination or prenatal diagnosis), combined property damage and, in respect of certain of Labco's laboratories, business interruption policies. Labco has taken out directors' and officers' liability insurance for executives within the Labco Group. Labco also maintains applicable compulsory workers' compensation and motor liability coverage.

Legal Proceedings

Synlab's Legal Proceedings

Synlab is party to various legal and regulatory proceedings arising in the ordinary course of business. Synlab is not currently involved in any legal or regulatory proceedings, nor is it aware of any threatened claims against it that it expects to have a material adverse effect on its financial position and results of operations. However, the outcome of legal and regulatory matters can be extremely difficult to predict with any certainty, and there can be no assurances in this regard.

An issue in a dispute between Synlab and one of its suppliers has been resolved in Synlab's favor, as an arbitral tribunal found that the termination of a supply contract was found to have been caused by the supplier. The supplier had brought a claim for breach of a supply contract, and Synlab had counterclaimed for damages, a claim which is still pending. Synlab expects a result in its favor.

In another dispute between Synlab and one of its suppliers currently pending before an arbitral tribunal, Synlab has brought a damage claim in connection with an alleged breach of the supplier's obligations under a framework agreement. Synlab expects a decision soon.

Labco's Legal Proceedings

In the ordinary course of its business, Labco is involved and may in the future be involved in certain contentious proceedings (including administrative, judiciary, arbitration and disciplinary proceedings), relating to matters concerning the professional liability of its laboratories, disputes with laboratory doctors, medical doctors and employees and regulatory issues, as well as enquiries initiated by regulatory authorities, professional associations and health insurers, regarding, among other things, billing matters. Labco also operates in a regulated business sector and, as such, is subject, in the ordinary course of its business, to particular controls and supervision by the competent national or local healthcare authorities. Regulations with which Labco must comply may increase its costs or restrict its activities. Failure to comply with such regulations may lead to sanctions of various types. Future alterations to regulations that apply to Labco could have a material adverse impact on its business (see "*Risk Factors—Risks Related to Our Commercial Activities*").

Labco set aside provisions where there is a sufficient probability of the litigation in question leading to costs for Labco or any of its subsidiaries. The overall amount of provisions for disputes to which Labco is exposed amounted to €1.6 million as of December 31, 2013 and €4.2 million as of December 31, 2014.

Ordre des pharmaciens and Ordre des médecins

The following is a summary of the disciplinary proceedings and other proceedings commenced against Labco by the *Ordre des pharmaciens* and *Ordre des médecins* in France, and of the proceedings commenced by Labco against the *Ordre des pharmaciens*.

In France, the *Ordre des pharmaciens* and, to a lesser extent, the *Ordre des médecins* have challenged Labco's organizational and legal structure. In numerous instances, the *Ordre des pharmaciens* has instituted disciplinary actions against Labco's SELs or laboratory doctors. In 2003, shortly after Labco was founded, the *Ordre des pharmaciens* and the *Ordre des médecins* (together, the "*Ordres*"), in a joint letter to Labco, expressed the view that Labco's project of creating a network of laboratories contravened the principle of independence of laboratory doctors. In that joint letter, the *Ordres* highlighted two aspects of Labco's structure: (i) capital ownership and voting rights arrangements between the laboratory doctors working in each SEL and the rest of the Labco Group; and (ii) the ultimate ownership of a network of laboratories by a financial holding company not subject to the French regulation pertaining to clinical laboratories.

In keeping with this initial position, the *Ordre des pharmaciens*, as well as in several instances the *Ordre des médecins*, have raised a number of objections to the organization of Labco's French operations in the context of their administrative review of proposed changes to the articles of association (*statuts*) or to the ownership structure of SELs of clinical laboratories. Those objections were communicated to the competent administrative authorities in charge of granting the administrative approvals and authorizations necessary for Labco's SELs to operate their laboratories. All such approvals and authorizations were nevertheless eventually granted. Most of the objections raised by the *Ordres* related to the capital ownership structure of Labco's SELs of clinical laboratories in France. The *Ordres* argued that the ownership of a large majority of shares in a SEL operating a clinical laboratory by a person or entity other than the laboratory doctors working in that laboratory constituted a threat to the independence of such laboratory doctors, notwithstanding the fact that such laboratory doctors retained a majority of the voting rights at shareholders' general meetings, as required by regulations. The *Ordres* also challenged the separation of voting rights from economic rights in such a manner. In addition, the *Ordre des pharmaciens* expressed the view that the qualified majority voting provisions contained in the articles of association of Labco's SELs for certain decisions were incompatible with the principle of independence of laboratory doctors insofar as they took away from doctors practicing within the laboratory the final decision-making power over a number of matters pertaining to the laboratory. Finally, the *Ordre des pharmaciens* challenged the provisions set forth in the articles of association of SELs and providing for the distribution of priority dividends to those laboratory doctors who are also shareholders in their laboratory company. The *Ordre des pharmaciens* argued that such provisions, by limiting *ex ante* the share of dividends to be distributed to laboratory doctors, was incompatible with the principle of the independence of laboratory doctors. Both the *Ordres* have, in several cases, raised objections to the registration, based on one or more of the above grounds, of one of Labco's SELs on their respective national registries.

At the disciplinary level, the *Ordre des pharmaciens* brought a number of proceedings against certain of Labco's SELs, as well as against laboratory doctors practicing within those SELs. Several of these proceedings, some of which are still pending, directly challenge the capital ownership structure and the qualified majority voting provisions contained in the articles of association of Labco's SELs as a breach of the principle of independence of laboratory doctors. The *Ordre des pharmaciens* has also regularly brought, or threatened to bring, disciplinary proceedings against Labco's SELs for failing in a timely manner to file with it proposed changes in articles of association or capital ownership. Some of those proceedings are still pending. Labco's SELs and laboratory doctors concerned have appealed these decisions and before the disciplinary chamber of the *Ordre des pharmaciens* at the *Conseil d'Etat* have won a number of cases on procedural grounds. In addition, certain of Labco's laboratory doctors and SELs have been subject to disciplinary measures for failing to maintain adequate health, safety and quality standards. Certain of these disciplinary proceedings, brought on the grounds of a failure to meet filing requirements or to maintain adequate health, safety and quality standards, resulted in decisions to close, for periods ranging from one week to several months, several of Labco's laboratories. In several instances, however, Labco successfully obtained from the competent administrative authority a requisition order to prevent such closing, arguing the public need for access to local laboratory testing services.

In 2007, Labco filed a complaint with the European Commission, arguing that the *Ordre des pharmaciens* had inappropriately used its administrative and disciplinary powers to impede the development of free competition and the creation of groups of laboratories in the French clinical laboratories services market. On December 8, 2010, the European Commission ruled against the *Ordre des pharmaciens*, finding that the *Ordre des pharmaciens* had (i) systematically targeted groups like Labco since 2003 with the aim of impeding their development and (ii) set minimum prices on the French clinical laboratories services market between September 2004 and September 2007, limiting the negotiation of discounts in contracts with large customers such as hospitals or insurance bodies. The European Commission held that the *Ordre des pharmaciens* had breached competition rules and provisions relating to restrictive business practices in the Treaty establishing the European Community by introducing such distortions to competition without it being justified by public health reasons. The Commission thus imposed a €5 million fine on the *Ordre des pharmaciens* and its governing bodies. According to the press release issued by the European Commission commenting on its decision, the European Commission's ruling did not extend to an appreciation of the French laws regulating the clinical laboratories market, but was only related to the behavior of the *Ordre des pharmaciens*. The *Ordre des pharmaciens* appealed against this decision to the European General Court, which, on December 10, 2014, confirmed that the French *Ordre des pharmaciens* had restrained competition in the clinical laboratory services market. Even though the court confirmed the decision of the Commission, it reduced the fine imposed on the *Ordre des pharmaciens* from €5.00 million to €4.75 million. Through a press release dated February 23, 2015, the *Ordre des pharmaciens* confirmed that it would not file an appeal against this decision before the Court of Justice of the European Union.

On March 5, 2015, the *Conseil Central de la Section G*, which is the body of the *Ordre des pharmaciens* competent for clinical testing, closed, during an administrative session, several disciplinary cases without taking any action. The losing of these cases results from a withdrawal of the complaints filed by its president against Labco's laboratory doctors and SELs. Even though the reason for these withdrawals is not mentioned, they are probably the result of the decision of the *Ordre des pharmaciens* not to appeal the ruling of the European General Court.

Aggrieved parties such as Labco are entitled to seek damages before French courts on the basis of the European Commission's decision as confirmed by the court. Consequently, Labco commenced proceedings in 2013 against the *Ordre des pharmaciens* seeking damages. Those proceedings are still underway before the Paris Administrative Court (*Tribunal administratif de Paris*).

French Disputes

Fosty

Through a writ of summons dated June 10, 2013, Fosty, Labco's chief financial officer when the company was still an SAS (*société par actions simplifiée*), asked for a ruling that Labco be ordered to pay to it the following sums plus interest: (i) termination compensation of €520,300 relating to a contract entered into on December 18, 2008; (ii) remuneration of €36,156 (later reduced to €23,695.83); (iii) €20,000 in damages; and (iv) €10,000 under Article 700 of the French Civil Procedure Code (later increased to €15,000).

As part of the proceedings before the Paris Commercial Court, Labco asked for all of Fosty's claims to be rejected, on the grounds that (i) the compensation clause in the December 2008 contract was void and inapplicable in the present case, (ii) no real diligence justified the remuneration claimed and (iii) the claim for damages had no basis. Labco also counterclaimed for €20,000 in damages from Fosty for bringing unjustified proceedings and €15,000 under Article 700 of the French Civil Procedure Code.

On November 28, 2014, the Paris Commercial Court, after a first-instance hearing involving both parties, ruled in favor of Fosty, reducing, however, the damages to €5,000 in respect of non-pecuniary loss (moral damages) and €10,000 under Article 700 of the French Civil Procedure Code. Since the judgment was immediately enforceable, Labco paid the aforementioned amounts but appealed against the decision to the Paris Appeal Court on January 5, 2015.

The provision that Labco set aside, which covered all of the potential risk associated with these proceedings, was used on December 31, 2014 to pay the immediately enforceable judgment amounts. Labco agreed on May 26, 2015, to withdraw the appeal upon closing of the Acquisition.

Labco Midi

Labco's subsidiary Labco Midi leased premises that had previously been rented by a rival laboratory, and that laboratory brought an interim claim (*en référé*) and then a full claim (*au fond*) against Labco. The claimant is claiming from Labco Midi, jointly and severally with the lessor, €1,320,737 in damages and €20,000 under Article 700 of the French Civil Procedure Code for alleged unfair competition. The claimant's interim application was dismissed on April 4, 2013 and the substantive full proceedings are now pending before the Montpellier First Instance Court (*Tribunal de Grande Instance de Montpellier*). Since the claimant itself terminated the lease for the premises leased by Labco Midi, Labco believes that the claim is completely unfounded.

Portuguese Disputes

In September 2014, Labco Diagnostics, one of Labco's Portuguese subsidiaries, was sued, together with a hospital and a medical doctor, for around €2.8 million with respect to an alleged misdiagnosis. The proceedings are at a preliminary stage and Labco believes that the claim for compensation is unfounded.

German Disputes

The following disputes concern companies that no longer belong to Labco. However, they may result in financial liability for the Labco Group because of specific warranties given to the buyer of Labco's German operations, Sonic Healthcare, in late 2013 under the sale agreement.

MVZ Medizinisches Fachlabor Dillenburg GmbH

Legal proceedings brought by the board of the professional association of doctors for the Nordrhein region against former Labco Group subsidiary MVZ Medizinisches Fachlabor Dillenburg GmbH relate to alleged over-billing and fraud relating to the manipulation of test results and the related invoices.

Fees were incorrectly invoiced to the German health insurer Kassenärztliche Vereiningung Hessen ("KV Hessen") and private mutual health insurers by the managers and previous shareholders of that subsidiary, before it was acquired by Labco. Internal audits that Labco performed found irregularities which led to civil and criminal legal proceedings against the former managers. As part of the criminal investigation led by the local prosecuting authority, victim—offender mediation took place, as a result of which Labco's former subsidiary was indemnified in an amount of €5.5 million under a settlement agreement with the former managers and shareholders.

Labco's former subsidiary has already made an undertaking to the board of the professional association of doctors for the Nordrhein region to correct invoices issued between July 1, 2008 and the second quarter of 2012, and to pay the recovery fees arising from the situation. In return, the board has undertaken to limit the amount claimed for the reimbursement of incorrectly invoiced fees. On the basis of this settlement, Labco expects to be ordered to pay €648,845.65; Labco recognized such amount as a provision in its consolidated financial statements for the year ended December 31, 2014.

MVZ Labor Duisburg GmbH

Proceedings involving Labco's former subsidiary MVZ Labor Duisburg GmbH relate to a claim commenced on March 1, 2013 by the North Rhine Appeals Committee of Physicians and Statutory Health.

In a letter sent to that company dated December 28, 2012, a health insurer stated that it had carried out random checks for the period between the third quarter of 2008 and the third quarter of 2011 following claims that a doctor, who has now left the subsidiary, had overprescribed drugs to a patient suffering from hemophilia.

Those checks found an abnormally large number of prescriptions for that patient. After initial proceedings against the doctor, the health insurer's supervisory body also commenced administrative proceedings against MVZ Labor Duisburg GmbH, seeking the reimbursement of prescriptions made by that doctor between April 24, 2008 and July 25, 2011, amounting to €1,325,969. The hearing before the appeal committee took place on October 29, 2014. Labco is awaiting its decision, but consider the claims against its former subsidiary to be unfounded. No provision was recognized for this dispute.

REGULATION

In all the countries in which we operate, the medical diagnostic market (including clinical laboratory tests) is subject to stringent regulation and is supervised by various regulatory bodies. This regulation and supervision strongly influence the way in which we operate. With respect to clinical laboratories, this regulation primarily relates to operating standards, the professional qualifications laboratory staff must hold, restrictions on equity interests in companies operating laboratories and their corporate governance (which restrictions are noticeably stringent in France), and the prices, and the reimbursement of clinical laboratory tests. By way of illustration, in some countries, regulations on owning and operating laboratories require each laboratory or small group of laboratories to be held through a separate subsidiary. In some countries such as France, the regulations also govern the legal form of the entities via which laboratories may be held.

Our operations are also subject to numerous other legal and regulatory provisions, in particular with respect to the handling and storing of certain chemical products and reagents, the disposal of infectious healthcare waste ("*déchets d'activités de soins à risque infectueux*"), the handling and storing of personal data (notably the patients' medical information) and the prevention of fraud to social security systems.

Germany

Laboratory Diagnostics

In Germany, the health insurance system distinguishes between statutory health insurance (*Gesetzliche Krankenversicherung*, "SHI") and the private health insurance (*Private Krankenversicherung*, "PHI"). About 90% of the German population is covered by SHI. The following focuses on our services for SHI patients and SHI reimbursement.

Outpatient medical services, including clinical laboratory testing services, to patients insured through SHI must be provided either by physicians who are licensed by administrative order (*Vertragsärzte*) or by certain non-physician service providers who are licensed by contract with the respective patient's SHI fund. The services must be conducted under the personal supervision and control of such qualified specialists (*Prinzip der persönlichen Leistungserbringung*). Hospitals may also provide outpatient laboratory testing services in certain specialized areas such as oncology, in which case hospital-specific regulations and tariffs apply.

We provide our laboratory testing services primarily by medical care centers (*Medizinische Versorgungszentren*, "MVZ") employing qualified physicians. Alternatively, laboratory work may be provided through independent (*freiberuflich*) office-based physicians, working as sole practitioners or in collaboration with other qualified physicians. In addition, clinical laboratory services providers can enter into outsourcing or other cooperation agreements to provide clinical laboratory services to hospitals.

To obtain admission (*vertragärztliche Zulassung*) and to thereby provide medical services to patients insured under the SHI scheme, MVZs have to meet certain specific eligibility requirements:

- Under the current law, each MVZ is required to offer multidisciplinary services (*fachübergreifende Tätigkeit*), which de facto requires the presence of at least two physicians with different areas of specialization at the same site. Recent case law suggests that two part-time physicians working at least 20 hours per week with different areas of specialization may suffice. Pursuant to a recently enacted bill entering into force on July 23, 2015, the operation of a MVZ will no longer require multidisciplinary services. Under the new regulation, MVZs may be founded and continued with one or more physicians of the same discipline.
- As it is usually the case, our physicians are employees of the MVZ, however, the law also allows to maintain their status as SHI physicians. The employment of a physician at the MVZ must be approved by way of an administrative order issued by the licensing committee.
- A qualified and licensed SHI physician who works at the MVZ must supervise the provision of any medical services offered by the MVZ. The articles of association of each MVZ operating company must specify that shareholders may not instruct physicians acting in their medical capacity.
- MVZs licensed in or after 2012 must be organized in the legal forms of a partnership (a general partnership under German civil law (GbR), a registered partnership (*Partnerschaftsgesellschaft*), a registered cooperative (*eingetragene Genossenschaft*), or a limited liability company (GmbH). MVZs which obtained their license before 2012 benefit from a grandfathering provision pursuant to sec. 95

para. 1a of the Social Security Code V (*Sozialgesetzbuch Fünftes Buch*, "SGB V"). The grandfathering only refers to the status quo of the MVZ (i.e., the legal form and shareholder structure of a MVZ may only be amended into a legal form and shareholder structure which is permissible under the new law).

- Since 2012, MVZs may only be founded and their shares be held by SHI-authorized physicians, SHI-authorized hospitals, licensed non-physician dialysis service providers and non-profit providers already licensed to provide services to publicly-insured patients.
- Prior to 2012, any healthcare service provider licensed to provide services to SHI patients was entitled to establish a MVZ entity. Investors that did not qualify as a healthcare services provider were able to indirectly establish and operate a MVZ by acting through non-physician healthcare service providers, which are not limited by similar ownership restrictions. To those MVZs licensed prior to 2012, the grandfathering provision under sec. 95 para. 1a SGB V is also applicable. Grandfathering protection ceases after six months if new shareholders participate in the MVZ entity that would have not been permitted as shareholders prior to 2012 (sec. 95 para. 6 SGB V).
- Shareholders of an MVZ operating in the legal form of a GmbH must provide a directly enforceable guarantee (*selbstschuldnerische Bürgschaft*) for potential claims of the SHI physicians' associations (*kassenärztlichen Vereinigungen*) and SHI funds against the MVZ entity relating to the MVZ's operation as a SHI healthcare provider. The obligations of the guarantor are strictly accessory to the obligations of the MVZ as principal debtor and are not subject to priority claims by the beneficiaries of these guarantees.

We believe that all German MVZs owned by us have obtained the relevant admissions.

The admission of outpatient medical service providers for SHI services is generally subject to capacity planning (*Bedarfsplanung*) on a state-by-state basis, which means that admission is restricted in certain areas of medical specialization. Under this scheme, which was subject to significant amendments in 2013, SHI admission in restricted areas, whether through individual practice or as an employee in an MVZ, is only granted if the applicant already holds a planning position (*Kassenarztsitz*, or *Arztstelle* in a MVZ) in that state or takes over the practice of physician who holds an existing planning position. The replacement of a planning position generally requires a formal public procurement proceeding prior to the transfer of a planning position to another physician. For an MVZ, additional rules apply. An MVZ may generally be allowed to replace an employed doctor who leaves the MVZ; however, when a physician in individual practice abandons his or her planning position to work in an MVZ, the licensing committee generally has to consent to such employment. While previously exempted, laboratory specialists also became subject to capacity planning in 2013.

In the outpatient sector, different price and compensation levels exist under the SHI and PHI systems. In the SHI system, a uniform assessment standard *Einheitlicher Bewertungsmaßstab*, ("EBM") for compensation of medical services has been established at the federal level. The EBM is mandatory in the SHI scheme and the fees for lab services are laid down in chapter 32. Payments are distributed and effected at the state level by state associations of SHI physicians (*Kassenärztliche Vereinigungen*). In the second half of 2012, the German Federal Association of Statutory Health Insurance Physicians (*Kassenärztliche Bundesvereinigung*, or national KV) implemented a central federal quota (i.e., a capped percentage of the scheduled EBM fees) for laboratory tests. Contrary to the former system, whereby quotas on scheduled compensations were managed at the regional level, under the new national EBM funding structure quotas are calculated nationwide and in advance for each quarter with the general objective of limiting the recent significant increase in laboratory testing expenses in Germany. The quota for the fourth quarter of 2012 was 95.4%. It decreased for the first quarter of 2013 to 89.2%. The quota for the first quarter of 2015 is 91.6%. Tariff reductions are expected in respect of future quarters as well.

A dispute pending at the Federal Social Court (*Bundessozialgericht*) may not only affect the quota regulation in Hamburg in the fourth quarter of 2010, which is the subject of the dispute, but also the current federal quota system.

In the PHI system, a binding scale of fees for physicians (*Gebührenordnung für Ärzte*, "GOÄ") has been enacted by the Federal Ministry of Health. An amendment of the 30-year-old tariff system which has been part of perennial political discussions over the last decade is aimed to be implemented in the current legislative period.

Special contracts (*Selektivverträge*) between SHI funds and clinical laboratories are permitted in the German clinical laboratory services market, and lower prices may be agreed in exchange for volume guarantees. Prices for services provided to hospitals by clinical laboratory services operators under outsourcing or other cooperation contracts are subject to negotiation or public procurement, and are not directly regulated.

Environmental Testing and Analysis

Environmental testing orders are placed following a procurement procedure or following a direct order of private customers. Our service providers are licensed to the extent applicable, and, except for the location in Freiburg, all locations are also accredited according to DIN EN ISO 17025.

The locations are qualified by a number of diverse European, federal and state authorizations and notifications, depending on the operations carried out at the respective laboratory. For example, under sec. 15 para. 4 s. 2 of the Drinking Water Ordinance (*Trinkwasserverordnung*), certain examinations may be conducted by approved bodies. Certain of our locations are acknowledged as investigative bodies for waste industry under the law of the states as applicable as well as investigative bodies pursuant to sec. 18 of the Federal Soil Protection Act (*Bundesbodenschutzgesetz*). In addition, certain of our locations hold permits for testing and analyzing sewage for the self-control of waste water facilities and the waste water discharge required under the law of Saxony.

Veterinary Diagnostics

Pursuant to sec. 44 of the German Infection Protection Act (*Infektionsschutzgesetz*, "IFSG"), inter alia, the treatment of pathogenic agents requires permission by the competent authority, which may be denied if the applicant does not have sufficient expert knowledge or is found to be unreliable. The same is true for the treatment of epizootic pathogens under the Regulation on Epizootic Pathogens (*Tierseuchenerreger-Verordnung*).

Except for the site in Leverkusen, the permissions under the Regulation on Epizootic Pathogens (*Tierseuchenerreger-Verordnung*) have been granted to the full extent. The permission for the Leverkusen site is expected to be granted soon.

France

Description of the Regulations Applicable in France

Applicable rules to the operation of clinical laboratories

In France, the functioning (namely the establishment and operation) of clinical laboratories was historically governed by administrative authorizations. These authorizations were issued by the competent administrative authorities, after review of an application that described in detail the premises, equipment, performed tests and operating procedures of each laboratory, as well as the professional qualifications of the laboratory staff (including laboratory doctors), the governance of the laboratory and its corporate form. The regulations set minimal standards to be met in each of these areas. While the authorizations were not issued for a limited period of time, these could be withdrawn if the legal requirements for operating a clinical laboratory ceased to be fulfilled. Any change in the above had to be notified to the competent administrative authorities.

A January 13, 2010 Ordinance (*ordonnance n°2010-49 relative à la biologie médicale*), ratified and amended by the Law of 30 May 2013, replaced this administrative authorization procedure. Companies operating clinical laboratories are hence now subject to an accreditation procedure delivered by the French COFRAC (Committee for Accreditation) and to a declaration to the ARS (*Agence régionale de santé*), the regional health authority, prior to the opening of the clinical laboratory.

However, a transitional regime has also been introduced. Under this regime, existing administrative authorizations will remain in force until the clinical laboratories that hold them are accredited, but until no later than November 1, 2020, since these authorizations will be rescinded as of that date. New authorizations can no longer be issued apart from a very small number of cases, and under certain conditions, in the context of the restructuring of existing laboratories or site openings. At the same time, accreditation is gradually being made compulsory, in the following manner:

- as of November 1, 2016, clinical laboratories will no longer be allowed to operate without an accreditation covering 50% of the clinical tests they perform;

- as of November 1, 2018, clinical laboratories will no longer be allowed to operate without an accreditation covering 70% of the clinical tests they perform; and
- as of November 1, 2020, clinical laboratories will no longer be allowed to operate without an accreditation covering 100% of the clinical tests they perform.

Some of the provisions relating to the conditions under which COFRAC will deliver accreditations have yet to be specified in the enforcement decrees.

Accreditation under ISO 15189 (the international quality standard for clinical laboratories) is delivered by COFRAC. According to the accreditation procedure rules of COFRAC, the very first accreditation of a clinical laboratory is set to expire within four years following its delivery and is subject to an audit every twelve months, for so long as the first accreditation is in force. At the end of this first four-year period, a renewal audit is then undertaken and, if satisfactory, a five-year accreditation is delivered. COFRAC may suspend or withdraw a clinical laboratory's accreditation in case of failure to comply with the standards and regulatory requirements.

COFRAC may suspend or withdraw a clinical laboratory's accreditation for all or part of the laboratory's business if it fails to comply with applicable requirements. A ministerial decree dated October 17, 2012 as amended by a decree dated October 21, 2013 provides that applications to begin the accreditation process were to be addressed to COFRAC by any non-accredited laboratory no later than May 31, 2013; failing that, the non-accredited laboratory's application were to be regularized no later than October 31, 2013. All our laboratories in France have been notified by COFRAC that it has accepted their applications to enter the accreditation process within the deadlines set out in the mentioned decrees. In addition, the February 23, 2015 decree stated that, in order to be in compliance on November 1, 2016 with the accreditation conditions defined by the regulation, each clinical laboratory must submit to COFRAC by April 30, 2015 at the latest either an initial request for accreditation which will cover at least 50% of the clinical tests that it carries out, or, for clinical laboratories already having a partial accreditation, an accreditation extension request to cover the percentage of accredited tests defined above. In both circumstances, accreditation must apply to at least one test within each category of clinical test that the laboratory carries out.

There were two possible options for entering the accreditation process: route A, consisting of partial COFRAC accreditation (which option has been chosen by 48% of French clinical laboratories) and route B, consisting of temporary "Bio Quality" recognition, which recognition is due to disappear by 2015-2016 (which option has been chosen by 52% of French clinical laboratories). All of our SELs (but one) have chosen route A as it is a longer lasting solution under the transitional provisions. Fewer than 20% of laboratories having opted for route B had filed an accreditation application on November 1, 2014. The mandatory timeline stipulated by the Law of 30 May 2013 has had the effect of accelerating consolidation in the French clinical laboratory market, as the laboratories experiencing difficulties with their accreditation process being forced to merge rapidly with accredited structures. Based on discussions with various market operators, we clearly stand out as the network with the highest number of accredited laboratories.

The ARS, as the competent administrative authorities in France, are responsible for ensuring that clinical laboratories comply with existing sanitary and safety regulations through on-site inspections. Any change in the operating conditions of a laboratory or in the legal or financial structure of the company operating the laboratory must be notified to the ARS. In addition, some tests or categories of tests are controlled by specialized agencies as part of an annual quality control program. The ARS may impose administrative sanctions on SELs, as well as, in certain instances, on laboratory doctors, that infringe certain provisions of the applicable regulation (in particular, health, safety and quality requirements). These sanctions range from fines (up to €2 million per SEL) to the temporary or permanent closure of the laboratory, in the case of particularly serious or repeated violations.

A clinical laboratory can be located on one or several sites. There is no limit under French law to the number of sites that a clinical laboratory may operate, but certain legal provisions may restrict the opening of new sites. Accordingly, a clinical laboratory that has not been granted an accreditation covering 100% of the clinical tests it performs may only open a new site if the total number of its sites open to the public does not increase as a result. Moreover, sites of a clinical laboratory cannot be located in more than three adjacent regional health territories, barring an exemption granted by the managing director of the competent ARS under the conditions set out by a decree issued by the government, reviewed for legality by the *Conseil d'Etat* and included in the regional health organization plan.

Lastly, the ARS can, or must, reject any opening of new sites in certain cases defined by the Law of 30 May 2013. For instance, the ARS' managing directors may oppose the opening of a clinical laboratory or site if it would result in an increase in the relevant regional health territory's availability of clinical tests to a level 25% higher than the population's needs, as defined by the regional health organization plan. They may also oppose, on grounds related to the risk of affecting the continuity of clinical testing availability, an acquisition or restructuring affecting a clinical laboratory or site when this acquisition or restructuring would result in the number of tests performed by the laboratory resulting from the acquisition or restructuring exceeding the threshold of 25% of all clinical tests carried out in the relevant health territory. Finally, the acquisition of shares of companies operating a clinical laboratory is not authorized when such an acquisition would enable a person or entity to control, directly or indirectly more than 33% of all clinical tests performed in the same health territory. A person or entity is deemed to control more than 33% of all clinical tests carried out in a health territory if they own, directly or indirectly, the majority of the share capital of several companies operating a clinical laboratory, and the combined business of those companies represents more than 33% of all clinical tests in that health territory.

French law also limits the number of tests that can be outsourced by one clinical laboratory to another for analysis and interpretation every year to 15% of the total number of tests carried out by the outsourcing laboratory. Subcontracting contracts must be registered with the ARS and professional *Ordres* (as defined below). Clinical laboratories, however, are free to distribute the tests to be carried out between their various sites as they wish. They can even concentrate the performance of all tests in a single site.

Laboratory doctors (doctors or pharmacists), laboratory technicians and nurses who collect samples taken from patients must meet minimum professional qualifications.

In France, every clinical laboratory must be supervised by at least one laboratory doctor (called the responsible laboratory doctor) who acts as the legal representative of the laboratory company operating the laboratory. This laboratory doctor is responsible for the laboratory's operations, including the processing of tests outsourced to other laboratories. A laboratory doctor can hold the position of responsible laboratory doctor in only one laboratory. Each of a laboratory's sites must also be supervised during its opening hours by a laboratory doctor who can be identified at all times and who can intervene within a timeframe that is compatible with the guarantee of patients' safety. Hence any laboratory shall have a number of laboratory doctors equal to at least the number of sites that it has created.

Laboratory doctors working in laboratories are subject to the same rules of professional conduct as doctors and pharmacists, depending on the professional Order they are members of. Laboratory doctors must be registered with the relevant professional association (the *Ordre des pharmaciens* for qualified pharmacists. and the *Ordre des médecins* for qualified medical doctors). Companies operating a clinical laboratory must also be registered with either one or both *Ordres*, based on the professional affiliation of the laboratory doctors practicing within the laboratories they operate.

The professional associations (the *Ordres*) are self- regulating bodies with administrative and disciplinary powers over practicing doctors and pharmacists, and over the companies that have registered with them. They also represent the collective interests of pharmacists (in the case of the *Ordre des pharmaciens)* and medical doctors (in the case of the *Ordre des médecins*), including, in both cases, the interests of laboratory doctors, before French public authorities. These *Ordres* may be called upon to issue opinions on certain issues involving their profession, including when bills and regulations are being drafted. They also monitor compliance with applicable laws, regulations and rules of professional conduct by practicing professionals and professional companies.

The principle of independence, defined in article R. 4235-18 of the French Public Health Code, is one of the professional conduct rules enforced by the *Ordre des pharmaciens*. Under this principle, a pharmacist must not be subject to any financial, commercial, technical or moral constraint, if such constraint could impair his or her professional independence. As for medical doctors, article R. 4127-5 of the French Public Health Code provides that a medical doctor cannot, in any manner whatsoever, compromise his or her professional independence. To guarantee this independence, when the responsible laboratory doctor thinks that the decisions taken by a physical or legal person operating a clinical laboratory could endanger patients' health, public health or the operating rules of the laboratory provided for in the French Public Health Code, the responsible laboratory doctor can inform the managing director of the competent ARS, who will then take appropriate measures.

The *Ordre des pharmaciens* and the *Ordre des médecins* maintain, as far as each is concerned, a national register of practicing professionals (*Tableau de l'Ordre*), on which every practicing pharmacist, doctor and professional company, must be registered, thereby regulating access to the profession. New companies operating clinical laboratories must apply for registration in the relevant national register as a prerequisite to obtaining the prefectoral approval referred to below. An *Ordre* may withhold or suspend registration if it notices that the applicant has breached the relevant rules of professional conduct.

Clinical laboratories are subject to ongoing regulatory supervision by the *Ordres* and must therefore submit certain proposed actions to the relevant *Ordre* or *Ordres* for review. These actions include any proposed change in the share capital or in the articles of association (*Statuts)* of the companies that operate the laboratories, any cooperation contract entered into with other clinical laboratories and, more generally, any agreement relating to the operations of laboratories or governing relations between their shareholders. After reviewing this information, the *Ordres* may inform the ARS of any breaches of the regulations. The ARS are not bound by the findings of the *Ordres* in this respect.

Each professional *Ordre*, using its disciplinary powers, may impose disciplinary sanctions on professional companies and laboratory doctors (doctors or pharmacists). An *Ordre* may especially temporarily or permanently suspend practicing laboratory doctors who have breached rules of professional conduct.

Certain illegal activities, including the illegal practice of clinical biology and the misleading use of the title of laboratory doctor, carry criminal penalties that range from a prohibition from practicing clinical biology or operating a clinical laboratory, to imprisonment for natural persons.

Clinical laboratories may not advertise their services, directly or indirectly, to the general public. However, scientific information given to medical doctors and pharmacists, the public announcement of the existence and location of a clinical laboratory published at the time of its opening or the opening of its sites, and references to the accreditation of a laboratory, are excluded from this prohibition.

With regard to pricing and reimbursement, clinical laboratories are bound by the prices set by the UNCAM. These prices are revised regularly following negotiations between the Ministry of Social Affairs, Health and Women's Rights, the UNCAM, the *Ordre des pharmaciens* and the *Ordre des médecins*. However, an agreement between the main French biologists' trade unions and UNCAM was signed on October 10, 2013. The purpose of such agreement is to give clinical laboratories visibility on their financial prospects over a three-year period and to facilitate a control over public healthcare spending. This led to a three-year agreement setting an annual growth target of 0.25% for clinical laboratory spending for the period 2014-2016. This target will be achieved by reductions in prices to be spread over the period, and a control of prescriptions, in order to offset the natural growth in volumes. Trade unions are due to meet with UNCAM every six months in order to assess the impact of changes in prices and determine what future changes may be necessary to meet the annual growth target. In late January 2015, UNCAM held discussions with trade unions to reiterate its commitment to the three-year agreement and to propose a rate revision commensurate with the growth in volume projected for 2014 and expected for 2015. We estimate that the proposed rate revision will have a gross adverse effect on revenue of around 1.50%, while the 2014 revision had a gross adverse effect of 2.51% and a net adverse effect of around 1.20% (reductions are estimates based on annual test volumes). According to CNAM's projections, volume growth in 2015 will make up for the decline and result in the 0.25% target for annual clinical expenditure growth set by the agreement being reached. On the basis of definitive 2014 figures and information about the trend in early 2015, at its meeting held July 8, 2015, CNAM decided to maintain the existing nomenclature for 2015. Another meeting is planned in November 2015 to assess the market spend evolution and potentially propose a rate revision for the beginning of 2016 to align the overall spend with the three-year agreement guideline. The expenses for clinical tests are reimbursed to the patients if the performed tests are registered upon a predetermined list set by the UNCAM and if the tests have been prescribed in compliance with applicable rules. The French authorities may be tempted in the future to extend the scope of the clinical tests which do not give rise to a reimbursement by the public health insurance funds, hence resulting in a significant decrease of the related prescriptions and revenues.

Restrictions on the ownership and corporate governance of companies operating clinical laboratories

Most importantly, French regulation imposes restrictions on the ownership and corporate governance structure of companies operating a clinical laboratory. These restrictions reflect the traditionally-held view in France that laboratories should be operated by small, privately run professional practices.

All our clinical laboratories in France are operated by SELASs (*société d'exercice libéral par actions simplifiée*), which are a specific category of SELs. This kind of company is governed, in particular, by the following principles:

- a SEL shall be registered on the national register of the *Ordre des médecins* or the *Ordre des pharmaciens* and must have been approved by the "*Préfet de départment*" of the area (who usually delegates this task to the ARS);
- a SEL can only be run by a laboratory doctor who is a shareholder of that SEL and who works for the SEL; a laboratory doctor can run only one SEL; and
- more than half of the share capital and voting rights of a SEL must be held, directly or indirectly (through specific companies), by the laboratory doctors working for the SEL.

The remaining shares and voting rights may be owned by professionals practicing the same profession, which may be either natural persons (i.e., laboratory doctors who do not practice within the SELs) or legal entities (i.e., companies operating laboratories).

Exceptionally, SELs of laboratory doctors that had a different capital ownership structure when the Law of 30 May 2013 was promulgated benefit from a grandfathering exception that allows them to keep their existing structure, so that laboratory doctors who do not practice within these SELs and companies that operate laboratories can continue to hold a majority stake in their share capital (but not in their voting rights). The law gives the laboratory doctors practicing within the SELs who qualify for this exemption a priority right should the shares of the SEL be put up for sale. If the laboratory doctors practicing within the SELs are unable to acquire the transferred shares, such shares can be proposed to professionals practicing the same profession (natural persons or legal entities) and to natural persons or legal entities that are neither laboratory doctors nor laboratory companies (within the limit of 25% of the share capital, as mentioned below);

- natural persons or legal entities that are neither laboratory doctors, nor laboratory companies, cannot directly hold more than 25% of the share capital of a SELAS (this limit was confirmed by a decision of the European Court of Justice on 16 December 2010 (case C-89/09), discussed below);
- finally, to prevent any conflict of interest, Article L. 6223-5 of the French Public Health Code forbids the following persons, on the basis of their activities or their relations with certain activities in the medical or paramedical sector (the "prohibited investors"), from making any direct or indirect investment in the share capital of a company operating a French clinical laboratory:
  - (i) every physical or legal person qualifying as a health professional other than laboratory doctors working as provider, distributor or manufacturer of medical devices or In Vitro Medical Diagnostic devices, being a healthcare facility, social or medico-social private law health institutes an insurance or capitalization company, and welfare, retirement or mandatory or elective social security institutions;
  - (ii) every physical or legal persons holding 10% or more of the share capital of a company which provides, distributes or manufactures medical devices or In Vitro Medical Diagnostic devices, insurance or capitalization companies, and welfare, retirement or mandatory or elective social security institutions; and
  - (iii) every physical or legal persons holding a stake of a health professionals' company which is authorized to take samples under the conditions mentioned under Article L. 6211-13 and which does not meet the conditions of chapter II title I *livre* II "Clinical testing" of part 6 of the legislative part of the French Public Health Code.

It should also be noted that Law no. 90-1258 of December 31, 1990 on SELs enables public authorities to issue decrees, reviewed for legality by the *Conseil d'Etat*, preventing a SEL or an entity operating a clinical laboratory from holding a majority interest in another SEL, and restricting the number of SELs in which a person or a legal entity (practicing as a professional or being a nonprofessional third-party) can directly or indirectly hold a stake. Nonetheless, as regards the first of these restrictions, it is probable that the government cannot impose such a restriction with respect to SELs of laboratory doctors insofar as the Law of 30 May 2013 has already made it compulsory for laboratory doctors practicing in a SEL to hold a majority stake in its share capital, while setting out a system of grandfathering exception. As regards the second restriction, the European Court of Justice has already ruled that limiting the number of SELs in which a laboratory doctor or an entity operating a clinical laboratory can be a shareholder to two violates

Article 43 on the freedom of establishment of the Treaty Establishing the European Community, as discussed further below.

Certain aspects of this legal regime were examined by the European Court of Justice. In March 2009, the European Commission launched a procedure against France to challenge two provisions of French law. First of all, the European Commission argued that the 25% limit set on the share capital interests which can be held by non-professional third parties was an unfounded restriction of the freedom of establishment provided for in the Treaty Establishing the European Community. Second, as mentioned above, the European Commission criticized as overly restrictive the rule under which certain legal or natural persons may not own shares in more than two SELs. In its decision dated December 16, 2010, the European Court of Justice found in favor of France on the first issue, holding that this limitation was reasonable in view of the State's legitimate public health and safety concerns. The Court noted the threat to independence that might arise from financial pressures placed on laboratory doctors by third-party investors. It argued that a Member State could validly draw the conclusion that the professional independence of laboratory doctors would not be adequately protected in structures where such professionals would hold only a minority interest in the share capital, regardless of whether they were granted majority voting rights. The Court found against France on the second issue, however, holding that the ownership restriction placed by existing regulations on qualified professionals was inadequate and disproportionate with respect to the public health objectives sought to be achieved. Acknowledging the decision of the European Court of Justice, France repealed the regulatory provision in question in decree no. 2013-117 of February 5, 2013.

Rules governing anatomical pathology laboratories

Lastly, it should be noted that SELs which operate anatomical pathology laboratories (which we recently acquired) are medical doctors' SELs, and therefore subject to substantially similar rules to those applicable to the SELs which operate clinical laboratories. In particular, the restrictions on ownership and corporate governance structure are relatively similar. In this respect, it is noteworthy that in order to prevent any conflict of interest, any equity interest (whether direct or indirect) in SELs which operate anatomical pathology laboratories is also prohibited for various categories of natural persons and legal entities, because of their business or their relations with certain operations in the medical or paramedical sector. This prohibition includes laboratory doctors and companies operating clinical laboratories. To comply with this regulation, we will set up a corporate structure that will enable us to hold SELs which operate anatomical pathology laboratories through some of our subsidiaries that are not affected by this prohibition.

Impact of Regulations Applicable to the Group's Corporate Structure

Our French subsidiaries which operate clinical laboratories (in the form of SELAS) are held directly and indirectly through an Italian laboratory company, and our foreign subsidiaries are held indirectly through several national holding companies and other laboratory companies.

In France, as described above, ownership of the share capital and voting rights of SELs operating clinical laboratories and their corporate governance structure are highly regulated. In particular, the majority of voting rights of the SELs must be held by laboratory doctors practicing within these SELs.

In order to comply with this regulation, we have put in place:

(i) a corporate structure under which we hold about 99.9% of the share capital of the SELs benefiting from the grandfathering exception under the Law of 30 May 2013 described above, directly or indirectly through Istituto il Baluardo S.p.A. (an Italian subsidiary), while some of the laboratory doctors practicing in these SELs hold the remaining shares; and

(ii) the articles of association (*statuts*) of all our SELs grant the majority of voting rights at all shareholders' general meetings to laboratory doctors who are shareholders in the SELs in which they practice.

We can no longer use this approach (which applies, at the date of this offering memorandum, to the majority of our SELs) for most of our acquisitions as from the enactment of the Law of 30 May 2013, which has made it mandatory for more than 50% of the share capital (in addition to 50% of voting rights) of a SEL of laboratory doctors to be held by the laboratory doctors practicing in this SEL.

We have therefore set up an alternative structure, based on issuing preferred shares within the Group, in order to make acquisitions in compliance with the regulation, while enabling us to hold virtually all the economic rights in the acquired SELs and to exercise control over them. Therefore, in all cases, we hold virtually all the economic rights in the SELs and control them under corporate governance, contractual and organizational structures, in compliance with French regulation. Accordingly, we fully consolidate these SELs in our financial statements.

Impact of the Regulation on the Corporate Governance of the SELs

The laboratory doctors from whom we acquire SELs (whether such SEL are covered by the grandfathering exception or not) or clinical laboratories, who decide to stay in the Group, continue to run them on a day-to-day basis but are contractually bound to comply with our policies and standards in terms of reporting, and in particular with respect to financial and accounting information, financing and centralized cash pooling, budgeting and, insofar as compatible with the French regulatory framework, management of the SEL.

In order to improve the coordination of operations in our clinical laboratories and consolidate our network, we have set up a resource sharing structure in the form of a French GIE (*Groupement d'intérêt économique*), Labco Gestion, which encompasses all of our existing French laboratory companies and some of our foreign companies, including General Lab S.A., Laboratoire d'Analyses Médicales Romain Païs (a Belgian laboratory company) and Istituto il Baluardo S.p.A. (one of the Italian laboratory companies). The GIE provides administrative support for the clinical laboratories of its members, in particular in relation to purchasing, quality management, legal affairs, information technology, scientific communication and human resources. The GIE is managed by Labco as its sole director, appointed by a qualified (three-quarters majority) vote of the GIE's members. The GIE's activities are financed by its members through contributions of an amount set every year for each member by Labco as sole director, based on, *inter alia*, the member's financial capacity, number of employees and level of utilization of the GIE's services. Labco as sole director appoints the other executive officers of the GIE, including regional managers within France, and country managers outside of France, who act as agents of the GIE with respect to its members in their geographical area.

Furthermore, as part of our development, possible changes to the corporate governance arrangements of our SELs have been considered in order to adapt these arrangements to the development of our network's laboratories (which has resulted in an increase in the size of entities and in the number of laboratory doctors working in those entities, generation renewal, adaptation to the new regulatory framework, etc.). As a result, in strict compliance with French regulations governing clinical laboratories, we have begun to set up in 2014 a new corporate governance, contractual and organizational structure for our French SELs subsidiaries, giving us control over them. As of the date of this offering memorandum, these new corporate governance arrangements have not yet been implemented in all our SELs, although a significant percentage of our SELs (representing approximately 63% of the French contribution to our revenue for the financial year ended December 31, 2014) have adopted these new corporate governance arrangements. The expected calendar for the deployment of this new corporate governance framework should allow for the implementation of these new provisions in practically all of our SELs by the end of 2015.

This structure is based on a set of standard agreements (the "Operating Rules"), including:

- articles of association (*statuts*), (which set out in particular that barring a contrary decision voted in by a qualified majority of shareholders, all the distributable income of the SEL must be allocated to dividend payments for every financial year);
- a shareholders' agreement (governing all the corporate governance arrangements specific to the SEL);
- a private practice agreement (which is individualized to define each laboratory doctor's specific contractual commitments);
- the internal rules (*règlement intérieur*) (governing the daily organization of laboratory doctors within the SELs); and
- a charter of management board members (governing the manner in which the SEL's management board operates).

These Operating Rules give us the power to control the SELs' strategic and financial operations, (which may be qualified as *de facto* control where necessary), while strictly complying with the regulation requiring that the laboratory doctors who practice in a SEL (the APIs) hold the majority of the voting rights (50.01%) of such a SEL.

Furthermore, shareholders' agreements with the APIs define the commitments which the APIs accept, including an obligation to sell their shares in the SEL, a firm and definitive acceptance of the constraints related to our financing, and a commitment to fully participate in our development and restructuring. Thus, shareholders' agreements facilitate in advance the restructurings that would be put in place (in particular, through the issuance or conversion of existing shares to preferred shares (*actions de préférence*) and changes to the voting majority rules in the general meetings) in case of a change in the regulations applicable to SELs regarding the holding of share capital or voting rights.

We exercise exclusive control over the day-to-day management of the SELs through Strategic Committees which are set up pursuant to the shareholders' agreements. (The control exercised by our French entities relies on corporate governance mechanisms and contractual agreements, qualified by us as *de facto* control (see Note 3 to the audited consolidated financial statements for the financial year ended December 31, 2014 included elsewhere in this offering memorandum)). These Strategy Committees take strategic and financial decisions by a simple majority vote and are composed equally of the APIs who are members of the SELs' management boards (which are generally composed of three members) and representatives of the Group (in equivalent number). Given the contractual commitments accepted by the API parties to the shareholders' agreements, including the commitment of loyal adherence to our legal organization, which includes membership of GIE Labco Gestion and utilization of its central support services (accounting, finance and legal services, purchasing, IT, human resources, scientific information and quality control), decisions proposed by us are intended to be adopted by consensus, with a favorable vote from the APIs who are members of the Strategy Committee.

We note that the shareholders' agreements expressly provide that the commitments accepted by the APIs shall in no way affect their professional independence and that we expressly undertake not to intervene in the regulated clinical laboratory activities exercised under the sole responsibility of the APIs. We therefore do not, and will never, intervene in the SELs' purely clinical practice, which is under the sole responsibility of the laboratory doctors.

In case of a deadlock, which should be analyzed for the sole purpose of justifying our exclusive control described above and therefore full consolidation under IFRS, we may use the following mechanisms to exercise control:

- We will always have the right to remove *ad nutum* an API from the Strategy Committee of a SEL and appoint one of the other laboratory doctors in the SEL as a replacement (a medium-sized SEL typically has approximately ten laboratory doctors), who would be favorable to the decision to be adopted pursuant to the Operating Rules.
- If this mechanism is insufficient, for example in the event of a block opposition from all the laboratory doctors in the SEL, we will always have the right to appoint a Group laboratory doctor from outside the SEL. This laboratory doctor would then be appointed an API and member of the Strategy Committee of the SEL under the first mechanism described above.
- Lastly, in an extreme case of deadlock, we will always have the right to have the strategic and financial decisions reviewed and adopted by the general meeting of SEL shareholders. In accordance with the first two mechanisms above, we would begin by appointing a Group laboratory doctor to the SEL, then transfer him or her a few shares to enable that person to exercise some of the votes allocated to the API, which, combined with our voting rights (exercised by the parent SEL(s)) would together give them a majority within the SEL and, therefore, exclusive control over it. This would be possible as, within each category of shareholders (on the one hand the API, collectively holding 50.01% of the voting rights and, on the other, the Group, holding 49.99% of the voting rights), the split of voting rights is proportional to the share capital held by each shareholder.

The laboratory doctor appointed in accordance with the above mechanisms, qualified as an "aligned" biologist for the purposes of IFRS 10 (referring to the concept of agent versus principal), can be considered as taking decisions compliant with those of the Group as he himself would be a member of the Group's management and aligned to the Group's interests, given his involvement in the Group.

The mechanism for transferring shares to the laboratory doctor appointed by the Group could be a loan of shares, but other mechanisms could also be considered (e.g., a simple sale of shares).

It should be noted that, at the date of this offering memorandum, we have never yet had to make use of a mechanism for ending a deadlock situation, such as a loan of shares, and that it is neither necessary nor useful to set out the contractual terms insofar as its implementation relies on the use of a mechanism under ordinary law, which has, in any event, already been upheld by previous case law for use within an *société d'exercice libéral*.

We are not in a position to assess whether this mechanism for ending a deadlock situation would consist of any infringement of the principle of professional independence by the laboratory doctor receiving the share transfer. We are nevertheless of the view that, as he or she would become a signatory to the relevant shareholders' agreement guaranteeing total independence in the exercise of his or her medical practice, which is not an element indicative of control, this should be mitigating the risk of non compliance. The incoming laboratory doctor would only have to take a position on subjects already explicitly set out in the corporate governance documentation summarized above.

Again, in accordance with the regulation, the documentation underlying the legal and organizational structure is systematically sent to the supervisory authorities (professional *Ordres* and competent ARS) when adopted by a SEL. The supervisory authorities ensure that the operation of the clinical laboratories complies with the regulations, and the professional *Ordres* ensure that it complies with the applicable ethical rules. To date, none of the Operating Rules as summarized above has been challenged in any way by the supervisory authorities.

Lastly, it should be noted in this respect that certain other legal organizational methods adopted in the past by our SELs were criticized and sanctioned by the Governing Board of the *Ordre des pharmaciens*. These sanctions were contested by the Group, which filed a complaint with the European Commission in 2007. It is mainly on this ground that the European Commission found that the *Ordre des pharmaciens* had sought to prevent the development of laboratory groups in the French market, in violation of European Union rules on collusion and restrictive commercial practices, and ordered it to pay a very substantial fine in December 2010. This ruling has just been confirmed by a decision of the European Court of Justice on December 10, 2014 (see "*Business—Legal Proceedings*"). On March 5, 2015, the *Conseil Central de la Section G,* which is the body of the *Ordre des pharmaciens* responsible for clinical testing, closed several disciplinary cases against us during an administrative session without taking any further action. The closing of these cases results from a withdrawal of the complaints filed by its president against our medical doctors and SELs. Even though these withdrawals were not motivated by any external action, they are probably the result of the decision of the *Ordre des Pharmaciens* to not appeal its conviction by the European General Court.

This specific legal and organizational structure which we currently use, as well as the arrangements described above, entail certain risks (see "*Risk Factors—Risks Related to Our Business—We operate in a highly regulated sector. Compliance with regulations applicable to our activities may increase our costs or restrict our activities. Failure to comply with such regulations may lead to penalties of various types. Future alterations to regulations applicable to us may have a material adverse impact on our activities*").

United Kingdom

In the United Kingdom, there is no specific regulation related to the ownership of a company operating clinical laboratories. However, authorization to operate may be suspended if the CEO of a company providing services to the NHS fails the "fit and proper persons test." Since the implementation of a particular measure in April 2015, the Care Quality Commission is now able to apply findings of failure of the test more firmly against CEOs.

In order to run a clinical laboratory in the United Kingdom, one needs to obtain several authorizations and accreditations. First, the company must register with the Care Quality Commission under the Health & Social Care Act 2008 as a service provider; it must also register the address of every one of its laboratories. If the company is already registered, it must apply to register any additional laboratories. Every laboratory must also have a sworn-in manager who supervises operations, quality, safety and compliance rules. The other key requirement is accreditation, delivered by UKAS. All British laboratories need to obtain this accreditation (see "*Business—Quality Standards*"). Lastly, according to the type of operation involved, certain specific authorizations may be required. For example an authorization from the Medicines and Healthcare Regulatory Agency (MHRA) is necessary for blood transfusions.

There are no specific regulations covering laboratory staff or defining a minimum number of qualified employees. Biomedical scientists must be registered with the Health and Care Professions Council (HCPC). With respect to accreditation by UKAS, the ratio of qualified to trainee laboratory technicians is a crucial criterion.

The adoption of the Health & Social Care Act 2012 started a real overhaul of the organization of the NHS and the way in which budgets are allocated. This new organization favors and facilitates agreements between the NHS and the private sector.

Belgium

In Belgium, in order to be eligible for reimbursement of their services by the mandatory health insurance scheme (INAMI), medical laboratories need to obtain several authorizations and accreditations and to comply with certain regulations, including the Royal Decree of December 3, 1999 on the accreditation of clinical biology laboratories by the Minister competent for Public Health, the Royal Decree No. 143 of 30 December 1982 determining the conditions which must be met by laboratories in order to be eligible for reimbursement by the mandatory health insurance scheme for bio-clinical analysis services and the Royal Decree of December 5, 2011 on the accreditation of anatomical pathology laboratories by the Minister competent for Public Health.

Before September 2005, the above mentioned Belgian Royal Decree No. 143 of December 30, 1982 imposed stringent restrictions on the ownership of clinical biology laboratories whereby (generally speaking) only doctors, pharmacists or chemical science graduates could operate clinical biology laboratories.

In 2002, the European Commission requested Belgium to lift the above restrictions on the basis that they constituted an undue restriction on freedom of establishment.

The Royal Decree No. 143 was amended in 2005 to take into account the request of the European Commission. In addition to hospitals and certain other entities in the medical sector, clinical biology laboratories may now be operated by any legal person falling into any of the categories determined by the implementing royal decree. The latter implementing royal decree of April 26, 2007 listed the following categories of legal entities authorized to operate a clinical biology laboratory: a civil company in the form of a private limited liability company (*société privée à responsabilité limitée*, or "SPRL"), of a *société en nom collectif*, of a *société coopérative* or a non-profit legal entity. It also provided that any such entity's by-laws must include a provision to the effect that the entity strives for a standard of quality that avoids any unjustified expenses for the compulsory healthcare insurer or the patient. This implementing royal decree of April 26, 2007 was initially due to expire on December 31, 2009 and was extended by a decree dated January 27, 2010 until December 31, 2012, but to date, no new extension has been enacted.

Furthermore, a number of rules and restrictions apply to accredited clinical biology and/or veterinary clinical analysis laboratories pursuant to applicable regulations, including:

- certain requirements related to the organizational structure, management, internal and external quality systems and criteria, facilities, infrastructure, equipment and (laboratory) staff must be met;
- applicable ethical rules must be met (including the interdiction to grant any (in)direct benefits to prescribing doctors);
- the authorizations to operate a laboratory are delivered for a period of five years and are renewable;
- the authorizations can be (partially) refused, revoked, suspended or not renewed if the laboratory refuses to submit itself to the imposed (quality) controls or has committed serious faults;
- prescribing doctors are expressly banned from being a member of or holding a stake in companies operating clinical laboratories and from acting as managers or agents of these companies;
- the operation of clinical laboratories must be the company's sole corporate or statutory purpose;
- the company must send a list of its shareholders or members annually to the relevant authorities;
- prior administrative authorization is required to establish, regroup, splits or geographically relocate the laboratories;
- compliance with certain specific accounting standards and requirements in relation to the maintenance of the company's accounting records;
- the company is required to ensure via a written agreement with the persons performing tests on its behalf, that said people are, amongst others, free to carry out these services as they wish and will have access to all necessary means in order to guarantee the quality of the services rendered. Such

written agreement should also include certain financial provisions in relation to the laboratory activities.

Prices and reimbursement levels in the clinical field are set after consultation between the INAMI, and professionals. Said prices and reimbursement levels are set out in a nomenclature, and depend on budget constraints. As a result, should a risk or significant overshooting of budget objectives be recorded, "claw-back" mechanisms kick in. The INAMI nomenclature is regularly updated.

Switzerland

In Switzerland, issues regarding medical laboratories are governed by federal law as well as the laws of the various Swiss cantons. In particular, the Swiss Federal Law on Health Insurance (KVG, SR 832.10), which regulates compulsory basic health insurance in Switzerland, identifies which laboratories are permitted to render services covered by compulsory basic health insurance (art. 35 KVG). Medical laboratories are more specifically regulated in arts. 53 et seq. of the Swiss Federal Ordinance on Health Insurance (KVV, SR 832.102).

The Swiss Federal Ordinance on Health Insurance differentiates between: (i) private practice laboratories (i.e., a laboratory of a general practitioner connected to his medical practice, which only covers tests relating to primary care; see art. 54 sec. 1 KVV); (ii) hospital laboratories (i.e., laboratory of a clinic supervised by a qualified medical doctor, pharmacist or accredited natural scientist; see art. 54 sec. 2 KVV); and (iii) private or external laboratories (see art. 54 sec. 3 KVV).

Private or external laboratories which provide services for other accredited medical professionals beyond primary care (i.e., classic professional laboratories) must generally comply with the following requirements: (i) they must be under the supervision of a qualified medical doctor, pharmacist or accredited natural scientist; and (ii) such supervising professional also needs to have undergone advanced training in laboratory analyses the content of which is defined by the Swiss Federal Department of Home Affairs (art. 54 sec. 3 KVV). In addition, the Swiss Federal Department of Home Affairs is authorized to provide for additional requirements in connection with required equipment and additional training for laboratory management and personnel (art. 54 sec. 4 KVV).

In order to manage a laboratory, the company must provide local authorities with a complete list of the tests that will be offered as well as the names and diplomas of all the managers (the laboratory manager, the technical managers and the quality managers). Authorizations to operate a laboratory are delivered for five years for microbiology, serology and genetics laboratories. For other disciplines, authorizations require renewal only if there is a change in managers. Controls and inspections are carried out by cantonal authorities. For microbiology, serology and genetics laboratories, cantons transfer responsibility to federal authorities and inspections are carried out by SwissMedic.

Additional requirements apply for laboratories running tests in the microbiological and serological fields under the Swiss Ordinance on Microbiological and Serological Laboratories, SR. 818.123.1. In particular: (i) the educational requirements applicable to the person(s) leading the laboratory are higher; (ii) at least half of the staff working in the laboratory must have undergone certain professional training and have at least one year of relevant experience; and (iii) the laboratory premises and equipment must be suitable for the nature of the tests conducted (arts. 2-5 Swiss Ordinance on Microbiological and Serological Laboratories). Furthermore, the laboratory is required to undergo external quality controls, save test data for a certain amount of time and communicate the results of certain analyses to the authorities (arts. 6 Swiss Ordinance on Microbiological and Serological Laboratories). Finally, the laboratory must apply for a permit which is valid for five years and specifies the nature of medical testing in which the laboratory may engage (arts. 6 et seq. Swiss Ordinance on Microbiological and Serological Laboratories).

In addition to the above requirements under Swiss Federal Law, each of Switzerland's 26 cantons has its own health care laws and is permitted to set statutory requirements for healthcare professionals. For example, in the canton of Zurich, a permit is required for the operation of an independent external laboratory (§ 2 Ordinance on Non-Academic Medical Professions); however, such permit will be granted if the requirements of the Swiss federal laws are met (§ 21 Ordinance on Non-Academic Medical Professions).

There are no statutory requirements as to the legal form of a medical laboratory company. A medical laboratory can operate as a commercial enterprise. In addition, there are no applicable ownership restrictions. Rather, Swiss laws and regulations governing medical laboratories focus on the professional qualifications of the person(s) running the medical laboratory and the standards of the facilities.

Swiss Accreditation Service ("SAS") operates under the State Secretariat for Economic Affairs and examines and accredits, inter alia, medical laboratories according to international standards. Accreditation by SAS provides formal recognition of the technical and organizational competence of a medical laboratory to provide specified services which can be recognized internationally. SAS operates within the ISO International Standards accreditation framework.

In addition, the Swiss Federal Ordinance on Health Insurance stipulates that medical laboratories are required to participate in internal and external quality assurance measures (see art. 53 and 77 KVV). As such, medical laboratories must also submit to quality controls conducted by the Swiss Commission for Quality Assurance in the Medical Laboratory ("QUALAB"), which is the organization mandated to implement the required quality control measures in medical laboratories. In certain circumstances, non-compliance with QUALAB's assessments or failure to meet certain standards could result in the medical laboratory being not entitled to receive health insurance reimbursement for a period of one year, and ongoing non-compliance could result in the medical laboratory being permanently barred from receiving such reimbursements.

In addition to the regulatory and accreditation framework described above, certain medical laboratories in Switzerland are members of self-regulated professional organizations which seek to maintain the operational and quality standards of the industry, such as the Swiss Federation of Analytical Medical Laboratories ("FAMH").

Since Switzerland has compulsory basic health insurance, the prices for medical laboratory services are regulated and further detailed in a binding tariff list (*Analyseliste*) issued by the Federal Department of Home Affairs and its Ordinance on Services in the Compulsory Health Insurance (KLV, SR 832.112.31). This list includes tariffs for numerous different medical laboratory services. This list is a 'positive list', and only analyses on this list can be reimbursed. It defines the number of tariff-points for any specific test type and additional surcharges nationwide and is regularly updated. It also contains the amounts of, and rules for, charging additional surcharges. Further it sets the geographic framework for reimbursement. The Swiss system requires analyses to be performed within Switzerland. The territoriality principle (*Territorialitätsprinzip*) prevents outsourcing of analyses outside of Switzerland. The *Analyseliste* is currently under revision. Changes are usually communicated well in advance, which creates a high level of predictability. Significant revisions to the *Analyseliste* were made in 2009. Since then continuous smaller changes have been implemented, in particular amendments focused on improving reimbursement for general practitioners. On January 1, 2015, the special analysis *(Schnelle Analyse*) was introduced, preferentially to be completed at a general practitioner's office. This special analysis (*Schnelle Analyse*) includes special/higher reimbursement for 33 analyses if conducted at a general practitioner's office and is meant to ensure profitability of general practitioners for routine analyses.

A second major revision, including revision of in-office testing and overall reimbursement levels, is expected to take place between 2015 and 2017. The expected cornerstones of the reimbursement reform are the following: the *Analyseliste* is to remain a positive list; the territoriality principle (*Territorialitätsprinzip*) will remain intact; physician in-office testing will be further regulated, which means that standard panel of tests will be reimbursed at relatively high rates if performed in a general practitioner's office to ensure profitability of these analyses for general practitioners; overall reimbursement levels will most likely be lowered—tests impacted could be specialized tests that received higher reimbursement in 2009 as well as tests conducted at the physician but not included in the special reimbursement list.

Spain

In Spain, the rules covering the authorization and operation of healthcare centers, establishments and services—including clinical laboratories—are defined at a national level by the Law No. 14/1986, of 25 April, on General Health (*Ley 14/1986, de 25 de abril, General de Sanidad*) and by Royal Decree No. 1277/2003, of 10 October establishing the general basis for the authorization of healthcare centers, services and health facilities (*Real Decreto 1277/2003, de 10 de octubre, que establece las bases generals sobre autorización de centros, servicios y establecimientos sanitarios*).

This national legislation sets out the general principles that govern the operation of laboratories and the minimum requirements to be met to obtain administrative authorizations, but each autonomous region (*comunidad autónoma*) is in charge of implementing this overall model and accordingly defines the manner in which it is adapted. By consequence, the specific requirements to be met to obtain an administrative authorization and operate a clinical laboratory can vary by region.

Generally speaking:

- prior administrative authorization is required to establish, modify, enlarge, relocate or close clinical laboratories. Each authorization (and the clinical laboratory to which it refers) is registered in the General Registry of Medical Centres, Services and Establishment, run by the Ministry of Health (*Ministerio de Sanidad*);
- administrative health authorizations are generally divided as follows: (i) facility authorization (*autorización de instalación*) which is required to create or locate a healthcare center, service or health facilities that implies new construction or substantial modifications of its structure or facilities; (ii) operating authorization (*autorización sanitaria de funcionamiento*) which enables to carry out the activity for which the healthcare center, service or health facility is duly authorized. Such operating authorization would be granted by the competent health authorities from the autonomous regions for each healthcare center, health facility and for each service to be provided; (iii) amendment health authorization (*autorización sanitaria de modificación*) which is required to healthcare centers, services, and health facilities to operate changes within its structure, ownership or offer; and (iv) closing authorization (*autorización sanitaria de cierre*) for definitively cease to operate;
- to obtain the relevant authorizations, certain requirements related to the organizational structure, business, facilities, infrastructure and personnel of the laboratory must be met;
- there are no ownership restrictions regarding clinical laboratories. Nonetheless, administrative authorization and registration of clinical laboratories is granted to the applicant for a specific clinical laboratory, so it indirectly refers to the applicant (and specific capacity and/or solvency requirements of the applicant could be established by the relevant regional legislation), so that if an indirect change of ownership may eventually affect the applicant's suitability for clinical diagnostics, administrative authorization may have to be obtained.

Also, certain staffing requirements apply. The laboratory must be operated under the responsibility of a qualified laboratory specialist (*especialista en analisis clinicos*). In addition, certain other categories of laboratory personnel must hold minimum professional qualifications.

Additionally, healthcare centers and health facilities—including clinical laboratories—are generally subject to a municipal control by means of a prior notice scheme or a license scheme depending on the environmental impacts generated in the territory of each of the municipalities whereby a healthcare center or a health facility is located. In any case, municipal licenses are subject to the prior granting of the facility and operating authorization.

Laboratory doctors must hold a relevant university degree in fields such as biology, pharmacy, chemistry or medicine, and they must have completed further specialization to qualify as laboratory specialists (*especialista en análisis clíinicos*). In addition, laboratory doctors must be registered with the relevant regional *Colegio Oficial* (Spanish equivalents to the French "*Ordres*") in order to be permitted to practice. Advertising and all kinds of promotion are governed by ethical rules.

Each *Colegio Oficial* (there are *Colegios Oficiales* for each medical profession; doctors, nurses, pharmacists, biologists, etc.) is, generally speaking, in charge of defending the interests of its members and those of the profession as a whole, and for protecting the rights of consumers of services provided by said profession. The *Colegios Oficiales* are given by law the right to participate in the drafting of laws and regulations pertaining to their respective professions. In addition, the *Colegios Oficiales* must approve the rules of professional conduct applicable to their profession, which regulate relations among professionals, interactions with patients and advertising and promotion by professionals of their services to the general public. These *Colegios Oficiales* may take disciplinary actions to sanction breaches of the relevant professional conduct. These sanctions range from warnings to temporary or permanent removal from the relevant professional registry. Unfair competitive practices or a criminal conviction are also grounds for removal from the *Colegios Oficiales*' professional registries. Disciplinary sanctions are not exclusive of other proceedings, in particular by governmental institutions, if the incriminating behavior also constitutes a violation of governmental laws or regulations.

Clinical laboratories must also comply with other specific rules such as health and safety, bio-waste disposal and data protection. Should they carry out clinical tests and trials with medicines, they also have to comply with regulations on this field set forth in Law No. 29/2006, of 26 July on the guarantees and rational use of medicines and healthcare products (*Ley 29/2006, de 26 de Julio, de garantías y uso racional* *de los medicamentos y productos sanitarios*) and in Royal Decree 223/2004, of 6 February, on Clinical Test with Medicines (*Real Decreto 223/2004, de 6 de febrero, que regula los ensayos clínicos con medicamentos*). In addition, in case they offer radio-diagnostic services, compliance with regulations on X-ray medical facilities must be ensured as established in Law No. 15/1980, of 22 April, on Nuclear Safety (*Ley 15/1980, de 22 de abril, por la que se crea el Consejo de Seguridad Nuclear*), in Royal Decree, of 3 December which approves the Regulation on Nuclear and Radioactive Facilities (*Real Decreto 1836/1999, de 3 de diciembre, por que el que se aprueba el Reglamento sobre instalaciones nucleares y radiactivas*), as amended. and in Royal Decree No. 1085/2009, of 3 July on X-ray facilities for medical diagnostics (*Real Decreto 1085/2009, de 3 de Julio, por el que se aprueba el Reglamento sobre instalación y utilización de aparatos de rayos X con fines de diagnóstico médico*).

Furthermore, but not limited to, such facilities are subject to further environmental regulations, as amended, such as Law No. 16/2002 of 1 July 2002 on the Integrated Prevention and Control of Pollution (*Ley 16/2002, de 1 de julio, de prevención y control integrados de la contaminación*) and Law 22/2011 of 28 July 2011 On Waste and Contaminated Soils (*Ley 22/2011, de 28 de julio, de Residuos y Suelos Contaminados*) concerning both contaminated soils and management of hazardous waste. The infringement or the failure to comply with the obligations stated in the abovementioned regulations may trigger administrative sanctions, including fines, the disqualification to carry out certain activities, and the obligation to compensate damages and restore the environment to the status it had before the relevant infringement. In addition to any penalties imposed by the referred regulations, Law 26/2007 of 23 October 2007 on Environmental Liability (*Ley 26/2007, de 23 de octubre, de Responsabilidad Medioambiental*), establishes a number of preventive and reparative administrative obligations and applies generally to operators whose activities cause environmental damage or an imminent threat of environmental damage. Law 26/2007 is aimed at preventing and remedying environmental damages under the principles of "prevention" and "polluter pays." Prices for clinical laboratory services in Spain are not regulated by law. In the private health insurance sector, prices for laboratory tests are set by an agreement between insurers (both public and private), complementary health insurance providers, hospitals and clinical laboratories. Private laboratories receive a fixed fee based on either the number of patients in their geographical region (a model based on the number of inhabitants), or on the number of tests performed (a model based on the number of tests). Public hospitals are required to launch public tender offers to select services providers, and the resulting outsourcing contract must set out the terms of the contractual relationship between the two parties, including the prices for testing services performed.

Portugal

The clinical laboratory services market sector in Portugal is supervised by the Portuguese national health authority (*Entidade Reguladora da Saúde*, or "ERS"), as well as by the regional health authorities. The ERS is a public body administratively and financially independent from the Portuguese government, in charge of enforcing fair competition rules in the healthcare market, monitoring the quality of healthcare services and the protection of end-users rights. The ERS also ensures that the right to equitable and universal access to public healthcare is complied with. The regional health authorities are in charge of delivering authorizations to private healthcare service providers and applying the regulations currently in force.

Private clinical laboratories are currently primarily regulated by the Law on clinical laboratories (*Portaria n° 166/2014 de 21 de Agosto*) (as amended). It sets out the standards required to open and operate clinical laboratories.

Decree-law no. 279/2009 dated as of 6 October 2009, as amended by Decree-law no. 164/2013 dated as of 6 December 2013, established a legal regime for the operation of healthcare units. The Decree reinstates an authorization obligation and defines new criteria for the granting of authorizations to clinical laboratories. This new set of regulations became effective for clinical laboratories by ministerial decree no. 287/2012 of 20 September 2012 as amended by the ministerial decree no. 136-B/2014 of 3 July 2014.

The ministerial application decree published on August 21, 2014, which was the result of discussions between the National Association of Clinical Laboratories (*Associação Nacional dos Laboratorios Clinicos*), other entities and the government, brought little change compared with previous regulations on opening and operating a laboratory. Laboratories in the process of obtaining accreditation will have a period of two years to comply with the decree (*Portaria n° 166/2014 de 21 de Agosto*).

Clinical laboratories must be managed by either a medical doctor registered with the Portuguese *Ordre des médecins* (*Ordem dos Médicos)*, or a pharmacist registered with the Portuguese *Ordre des* *pharmaciens* (*Ordem dos Farmacêuticos*). In both cases, they must be specialized in clinical pathology or in clinical analysis. Clinical pathology laboratories may be managed only by a medical doctor who is specialized in clinical pathology and registered with the Portuguese *Ordre des médecins*. The law requires that this doctor or professional pharmacist (*Director Técnico*) be personally and verifiably available to oversee the operation of the laboratory.

The Portuguese *Ordre des médecins* and *Ordre des pharmaciens* are professional associations that are in charge of the regulation of their respective professions. They have the power to control and oversee access to and the exercise of these professions. In addition, each *Ordre* is in charge of awarding the title of specialist in clinical pathology or clinical testing, necessary for the practice of the profession of laboratory doctor.

Portuguese law does not set any restrictions on the ownership of laboratory companies, except that employees of the national healthcare system are prohibited from holding more than 10% of the share capital of these companies, or serving on the board of a company that provides services to the Portuguese national health service (*Serviço Nacional de Saúde*, or "SNS") (source: *Decreto Lei 97/98 de 18 de Abril*).

Healthcare services are mainly provided by an SNS intermediary, and private laboratories have to enter into reimbursement agreements with this intermediary. Such agreements are not concluded with new market entrants, forcing international groups such as us to penetrate the Portuguese market by way of making acquisitions.

For patients covered by the public insurance system, prices and reimbursement levels are set at the national level by the SNS, with some specific prices applicable to certain categories of employees, such as civil servants. For privately insured patients, prices and reimbursement levels are established as a result of negotiations between insurance companies and laboratories.

As of the date of this offering memorandum, the Portuguese government is analyzing a possible restructuring of the National Healthcare System. This could lead to reforms of the healthcare sector, in particular with respect to the outsourcing of services to national health system patients.

Italy

The Italian healthcare system is decentralized. Decisions in the public sector are enacted on both a national and regional basis level (*competenza concorrente*). National laws and regulations provide a general framework for healthcare policy and regional healthcare budgets. They also set indicative prices for diagnostic services tests. Each region must implement the national legal framework. Each region is responsible for its own annual healthcare budget and for allocating funds to regional health authorities. In turn, regional health authorities allocate funds to both public healthcare facilities and the private facilities meeting the requirements described below.

To operate in the public healthcare system (*Servizio Sanitario Nazionale/Servizio Sanitario Regionale*) and receive reimbursements from public authorities, both public and private healthcare facilities must: (i) obtain accreditation from the competent authority for each facility (which, depending on the regional legislation, may be either the region or the regional health authority), and (ii) enter into agreements with the regional health authorities for the number and type of services that each facility can provide. Maintaining the agreements with the public authorities is likely to become more difficult in the future since it could be requested that the health structure carry out a minimum number of tests per year.

In certain regions, such as Lombardy, there are few accreditations and new accreditations are in limited number for the time being. As a result, new providers currently cannot enter into agreements with regional healthcare authorities and new facilities cannot be opened (for instance, Sampling Centers may only be relocated and new centers cannot be opened). However, non-accredited laboratories can be freely opened. In Liguria, it is no longer possible to obtain accreditations or enter into agreements for new laboratories but new Sampling Centers can be opened. In Campania, accreditations are subject to a temporary regime but a final regime is expected to be defined within the next two years. So far, new facilities cannot be opened under agreements with regional healthcare authorities but the regulation is still under review by the local authorities. In principle, their objective should be to facilitate consolidation and higher quality levels.

Italian laws and regulations provide specifically for data protection requirements in connection with genetic testing, including requirements for security measures (e.g., certified e-mails and coding), detailed information about the scope and purposes of the genetic tests, and genetic counseling.

In Lombardy, Campania and Liguria, where we operate clinical laboratories, public and private healthcare facilities, including clinical laboratories, are generally subject to the following requirements: (i) managers and certain other staff members must hold specific professional qualifications (e.g., the chief medical officer (*direttore sanitario*) must be a qualified doctor and a member of the relevant professional association of doctors); (ii) technical, structural and operational conditions must be met; and (iii) legal entities or natural persons operating the facilities must receive authorization from the relevant regional health authority.

In Lombardy, non-accredited private clinical laboratory operators can self-certify that all requirements are met by filing a declaration of commencement of activity (*Segnalazione di Inizio Attivita*) with the competent regional health authority before a laboratory begins operations. The regional health authority subsequently verifies the accuracy of the information provided in the declaration of commencement of activity. In addition, as a further requirement, clinical laboratories that intend to operate in the public healthcare system must obtain accreditation by enrolling in the register of accredited facilities and entering into agreements with the regional health authorities. Neither Lombardy, Campania nor Liguria restrict or limit the ownership of laboratories. However, the Lombardy Region suspended the implementation of new accreditations with local health authorities for the extension of ambulatory care services (including clinical laboratory tests and sample collection activities) that can be provided under the coverage of the public healthcare system (*Servizio Sanitario Nazionale*).

With respect to Campania, a detailed consolidation plan exists. Key announcements were published in decree 109 (Nov. 2013) and decree 45 (July 2014). By November 30, 2014, all laboratories performing less than 70,000 tests per year will be required to declare whether they intend to participate in a network (or cease analytical activities under the accreditation regime). By 2016, this limit will be increased to 200,000 tests per year. However, due to the recent political election, this project is currently on hold. Lazio also announced consolidation rules for public laboratories in decree U00219 (July 2014). A hub-and-spoke system is to be implemented among public laboratories—eight networks have been defined, each of which having one hub laboratory and several spoke laboratories (27 spoke laboratories in total). Additionally, the types and target numbers of tests per laboratory have been defined. Decrees nos. 274/2014, 127/2015 and 270/2015 have been issued by Lazio in relation to the reorganization of the private accredited laboratories. Such reorganization is based, *inter alia*, on the introduction of a minimum test volume threshold to be performed by private accredited laboratories or by aggregations of private accredited laboratories. The abovementioned decrees have been challenged and a hearing for the discussion of the merits of such proceedings is expected to be held on December 1, 2015.

The national healthcare system sets prices and reimbursement levels for patients. Prices applicable to both public and private healthcare facilities operating within the public healthcare system (*Servizio Sanitario Nazionale*) are set at a regional level. Accordingly, different prices are applied by the various regions. Some regional health authorities, however, are required to apply a discount to reimbursements due to private clinical laboratories. Regional health authorities are in charge of reimbursing healthcare facilities and are bound by the framework implemented by their region. Moreover, with respect to patients covered by private insurance, prices are set by an agreement between private insurance companies and laboratories.

Health services advertising has been liberalized with regard to the operations of sole practitioners, professional associations of doctors and medical service providers established in the form of companies (including clinical laboratories).

Czech Republic

The regulation of medical facilities in the Czech Republic, including clinical laboratories, and the provision of medical care is primarily set out in Act No. 372/2011 Coll., on Healthcare Services (the "Healthcare Services Act"), which entered into force on April 1, 2012 and replaced Act No. 160/1992 Coll., on Healthcare in Non-State Medical Facilities (the "Non-State Medical Facilities Act"). Medical care can only be provided on the basis of (i) a registration issued under the former Non-State Medical Facilities Act, or (ii) an authorization for provision of medical care/services issued under the Healthcare Services Act.

A clinical laboratory may be operated by either an individual or a legal entity regardless of its legal form. However, it must have the personnel, material and technical equipment necessary for the type and extent of medical care/services provided (§§ 11 and 16 of the Healthcare Services Act), and it must fulfil all requirements prescribed for its operation. The details regarding requirements for personnel, material and technical equipment are set out in the relevant Decrees of the Ministry of Health of the Czech Republic

(Decree No. 99/2012 Coll., on Minimum Personnel Requirements and Decree No. 92/2012 Coll., on Minimum Technical and Material Requirements for the Equipment of a Medical Facility).

The application for an authorization must be submitted together with certain additional attachments listed in § 18 of Healthcare Services Act, in particular operational rules approved by the hygienic station (further details and requirements are stated in Act No. 258/2000 Coll.), a list of medical personnel and a declaration of compliance with technical and material requirements.

If the operator of a clinical laboratory is a legal entity, it is further required to appoint and employ a professional representative, who is an individual with the relevant professional capacity and skills and who is a member of the respective professional chamber (further details and requirements are set out in the Act. No. 95/2004 Coll.). In addition, medical personnel who are employed in the clinical laboratory must have all applicable qualifications (further details and requirements are stated in Act No. 96/2004 Coll.).

An authorization is issued on the basis of an application submitted to the regional authority according to the intended place of operation. The clinical laboratory can only provide the type and extent of medical care/services stated in the authorization, and only at the listed place(s) of operation. Several places of operation may be listed within a single authorization in a given region.

Pursuant to Act No. 48/1997 Coll., on Public Health Insurance, all individuals who have permanent residence in the territory of the Czech Republic, or whose employer has permanent residence or a registered office in the Czech Republic, must have medical insurance. The amount of insurance premium is set forth in Act No. 592/1992 Coll., on Insurance Premiums on Public Health Insurance. The insured person has the right to choose a health insurance company. There are currently seven health insurance companies active in the Czech Republic, of which VZP (*Všeobecná zdravotní pojišťovna*) is the largest one on the national level. Clinical laboratory service providers enter into long-term contracts on the provision of and payment for medical care/services directly with the health insurance companies, and, in principle, they are subject to renewal every 5 to 7 years.

The system of payment for medical care or clinical laboratory services in the Czech Republic is based on a "point system": each medical treatment or service corresponds to a certain number of points that have been allocated to it and that have a defined value in CZK. Such points are reimbursable to the provider. The value of points differs according to the particular field of specialization. The Czech Ministry of Healthcare annually reviews and issues a list of medical procedures with point values in the form of decrees. Also, the accreditation certificates of the medical facilities (such as ISO or NASKL) may influence the value of points for some medical procedures or services. The overall amount of reimbursement is, in principle, calculated by multiplying the number of points by a point value.

MANAGEMENT

The Issuers

The Senior Secured Notes Issuer is a public limited company formed on March 23, 2015 as a private limited company under the laws of England and Wales with registered number 9503922. The Senior Secured Notes Issuer re-registered as a public limited company on June 8, 2015. The Senior Notes Issuer is a public limited company formed on June 4, 2015 as a private limited company under the laws of England and Wales with registered number 9624069. The Senior Notes Issuer re-registered as a public limited company on July 17, 2015. The Issuers' principal business address is 5th Floor, 6 St. Andrew Street, London, United Kingdom EC4A 3AE. The Issuers are indirectly owned by the Cinven Funds.

The current members of the board of directors of the Issuers are as follows:

Name	Age	Title
Stuart McAlpine	48	Director
Alex Leslie	35	Director

Stuart McApline, 48, has served as a director of the Senior Secured Notes Issuer since April 24, 2015 and of the Senior Notes Issuer since June 4, 2015. Mr. McAlpine is a member of the Executive Committee and Investment Committee as well as a Partner at Cinven Partners LLP. He joined Cinven Partners LLP in 1996 and leads the Business Services and Industrials sector teams. He is also a member of the Healthcare sector team and the UK and Ireland regional team. Mr. McAlpine has worked on several transactions made by funds advised by Cinven, including AMCo, a firm selling niche specialty pharmaceuticals, Medpace, a clinical research organization of which he is also a board member, and Phadia, a firm which manufactures and markets immunodiagnostic blood test systems, and which was successfully exited in 2011. Since, 2012, Mr. McAlpine has also seated on the board of CPA Global, a patent renewal and IP services firm, and has served as an non-executive director for Amadeus IT, a technology and distribution solution firm for the travel and tourism industry, since 2005. Mr. McAlpine obtained a B.Acc Accountancy from University of Glasgow and qualified as a chartered accountant.

Alex Leslie, 35, has served as a director of the Senior Secured Notes Issuer since April 24, 2015 and of the Senior Notes Issuer since June 4, 2015. Mr. Leslie is a senior principal at Cinven Partners LLP. Mr. Leslie joined Cinven in 2006 and is a member of the Healthcare sector team and the UK and Ireland regional team. He worked on several transactions made by funds advised by Cinven, including Spire Healthcare, a private hospitals business which was successfully listed in the United Kingdom in 2014, AMCo, a firm selling niche specialty pharmaceuticals, and Medpace, a clinical research organization. Mr. Leslie also serves as member of the board of directors of AMCo and Medpace. Mr. Leslie obtained an M.A. in History from University of Edinburgh.

Executive Board of the Combined Business

Upon completion of the Acquisitions, Dr. med. Bartl Wimmer and Mr. Philippe Charrier, will join the board of directors of each Issuer. In addition, Cinven intends to establish an executive board at the level of each Issuer, the combined business or one of the combined business's holding companies or subsidiaries (the "Executive Board"). The Executive Board is expected to be responsible for certain key operational decisions of the combined business in accordance with the constitutional documents and resolutions of the shareholders' meeting of the relevant entity. The Executive Board is also expected to be entrusted with the ultimate direction of the combined business, as well as the supervision and control of the management. The principal functions of the Executive Board will be to debate and authorize the strategic orientation of the combined business.

The Executive Board will include a majority of members appointed by Cinven, although the composition of the Executive Board after the Acquisitions has not yet been determined.

Synlab

synlab Holding GmbH is a limited liability company organized under the laws of Germany. synlab Holding GmbH was incorporated on May 18, 2009 and is registered with the commercial register of the local court of Augsburg under number HRB 24668.

As of the Issue Date, synlab Holding GmbH has an advisory board (the "Advisory Board") in place that advises and oversees the managing directors. The Advisory Board may consist of up to seven members, four of whom may be appointed by SL Lux Investment S.C.A. The current Advisory Board consists of seven members, all of whom are expected to be replaced following the Completion Date.

The current managing directors of synlab Holding GmbH are as follows.

Name	Age	Title
Dr. med. Bartl Wimmer	54	Chief Executive Officer
Markus Stötter	48	Chief Financial Officer

The business address of synlab Holding GmbH's managing directors is Gubener Straße 39, 86156 Augsburg, Germany.

Dr. med. Bartl Wimmer, 54, has served as Chief Executive Officer of synlab Holding GmbH since January 1, 2010. He co-founded Synlab in 1998 and has acted as Managing Director of the company since its founding. Since 2014, he also served as a member of the board of directors of the Sparkasse Berchtesgadener Land, and, until 2011, he served as a member of the board of directors of Kliniken Südostbayern AG. He is also a director of Wimmer Beteiligungs- und Vermögensverwaltungs GmbH (formerly Synlab GmbH). In 1993, Dr. Wimmer qualified as a specialist for laboratory medicine and established a practice in Augsburg. Dr. Wimmer received a degree in medicine (Dr. med.) from the medical faculty of the Technical University of Munich.

Markus Stötter, 48, has served as Chief Financial Officer of synlab Holding GmbH since January 2013. Prior to joining synlab Holding GmbH, he worked for an international accounting firm for five years and founded the AWI Treuhand in Augsburg in 1998. He also served as a member of the board of directors of AWI Treuhand until 2013. Under his responsibility, this company has provided support in tax consultancy matters to the Synlab Group. As of March 2011, this assignment was extended to also include the areas of financial management, controlling, accounting and invoicing as well as the preparation of financial structures for the capital market. Mr. Stötter is a certified public accountant (*Wirtschaftsprüfer*) and tax consultant (*Steuerberater*). Mr. Stötter received a degree in business administration (*Diplom-Kaufmann (Univ.)*) from the University of Augsburg.

Labco

Labco S.A. is a private limited liability company (*société anonyme*) organized under the laws of France. Labco was incorporated in France on 5 June 2003 and is registered with the *registre du commerce et des sociétés de Paris* under registration number 448 650 085.

The current members of Labco's executive committee are as follows.

Name	Age	Title
Philippe Charrier	60	Chief Executive Officer
Vincent Marcel	53	Chief Financial Officer
Etienne Couëlle	49	Chief Executive France
Albert Sumarroca	49	Chief Executive Iberia
Luis Miguel da Palma Vieira	44	Head of Business Development—Chief Executive Italy
Santiago Valor-Garcia	55	Chief Medical Officer
Philippe Cailly	56	Head of Group Information Systems
Stuart Quin	40	Chief Executive UK
Ginette Leclerc	60	General Counsel

The business address of the members of Labco's executive committee is 60-62, rue d'Hauteville, 75010 Paris, France.

Philippe Charrier, 60, is the current Chief Executive Officer of Labco. His appointment became effective on January 1, 2011. Prior to joining Labco, Mr. Charrier acted as chief executive officer of Laboratoire Oenobiol, the French leader in nutritional, health and beauty supplements, from 2006 to 2009. Mr. Charrier joined Procter & Gamble in 1978 and held various financial positions before serving as chief executive officer of Procter & Gamble France from 1999 to 2006. Mr. Charrier is currently a member of the board of directors of Lafarge, Rallye Dental Emco and Alphident and is the founder and President of Clubhouse France. In 1978 Mr. Charrier obtained an M.B.A. from HEC Business School and qualified as a chartered accountant.

Vincent Marcel, 53, has been Labco's Chief Financial Officer since January 2012. Before joining Labco in 2011, Mr. Marcel occupied various positions at Valeo from 1998 to 2011, where he served as CFO from 2001 to 2011. From 1995 to 1998, he served as Director of Telecom and Media at Banexi at BNP Paribas. Mr. Marcel graduated with a master's degree in business administration from Insead in June 1991, from Ecole Polytechnique (Corps des Mines) in September 1985 with a degree in engineering and from Ecole Nationale Supérieure des Télécommunications in 1977 with a degree in engineering.

Etienne Couëlle, 49, is the Chief Executive Officer of France and head of Procurement and Information Technology at the Group level. Mr. Couëlle was appointed Chief Executive Officer of France for Labco in 2009. Before joining Labco, from 2006 to 2011, he had worked at 3i as an Investment Director. Between 1988 and 1995, he was a management consultant with KPMG Peat Marwick Consultants and between 1995 and 2005, he held divisional COO/CEO positions at various Oberthur Group entities. Mr. Couëlle graduated in applied mathematics from Esiea in 1988 and in industrial engineering from Centrale Paris in 1989.

Albert Sumarroca Claverol, 49, is the Executive Vice President of Labco Iberia. Prior to joining Labco in 2007, Mr. Sumarroca served as a commercial director for General Lab S.A., Laboratorios de Análisis (Barcelona) from 1995 to 1999 and as a commercial director for Selfoods S.A. from 1989 to 1991, where he focused on food product distribution. Mr. Sumarroca holds a degree in biology from the University of Barcelona.

Luis Miguel da Palma Vieira, 44, is the Executive Vice President Corporate Development. He is also a member of the board of directors of certain of our Portuguese, Spanish, French, Italian and English subsidiaries. Mr. Vieira was appointed Executive Vice-President Corporate Development of Labco in 2009. Mr. Vieira graduated with a degree in accounting and financial audit from the Instituto Superior de Contabilidade e de Administração de Lisboa in 1992.

Santiago Valor-Garcia, 55, is the Chief Medical Officer for Labco since 2009. Before joining Labco in 2008, Mr. Valor was Director of the Department of Laboratory Medicine and Pathology at Fundación Hospital Alcorcón between 2002 and 2009, vice chairman of the Institute of Laboratory Medicine at the University Hospital "San Carlos" in Madrid from 2000 to 2002, director of the University Hospital Fundacion Alcorcon from 1998 to 2000 and a specialist of laboratory medicine at the University Hospital "San Carlos" in Madrid from 1987 to 1998. Mr. Valor earned his M.D. from the University Complutense Madrid in 1983 and a Health Care—MBA from the University of Alcala in Madrid in 2008.

Philippe Cailly, 56, is the Group CIO and Vice-President Organization & Information Technology of Labco since 2012. Before joining Labco, Mr. Cailly served as VP Information System Product Delivery at the Carlson Wagonlit Group from 2006 to 2011. Mr. Cailly graduated with a Ph.D. in Informatics and Electronics from the Ecole Nationale d'Ingénieurs de Brest in 1981.

Stuart Quin, 40, is Chief Executive of iPP and is Managing Director of Labco UK. Dr. Quin joined iPP in 2014 having previously worked with Labco during his time as an investment manager with 3i where he led 3i's investments in healthcare in the United Kingdom. Dr. Quin was part of the 3i team that led the investment into Labco in 2008. Prior to joining iPP, he was an Investment Director at August Equity where he led the investment into Anglia Care. Before entering private equity, he was a manager at Accenture where he was part of the international healthcare strategy team. During his time at Accenture, Dr. Quin spent time in the United States and Japan advising leading pharmaceutical companies on research and development strategy. He graduated from the University of Edinburgh with a BSc (Hons) in Immunology and has a PhD (DIC) in molecular immunology from Imperial College, London, where he was a Wellcome Trust prize student. He also has an MBA from INSEAD, the international business school based in France and Singapore, and is a fellow of the Royal Society of Medicine.

Ginette Leclerc, 60, is the General Counsel of Labco. Her appointment became effective on September 2014. Prior to joining Labco, Ms. Leclerc was an equity partner in the law firm Fasken Martineau in Paris. Ms. Leclerc was previously a partner of the law firm Gravel, Leclerc & Associés from 2000 to 2009 and an associate and partner at the law firm Norton Rose (formerly Ogilvy Renault, Canada) from 1981 to 1997. From 1998, she was in-house counsel at Valeo, a multinational automotive spare parts and systems manufacturer and supplier and held the office of deputy General Counsel when she left in 2000. Ms. Leclerc obtained a LL.L. in Law and a LL.M. in Business Law from Montreal University in 1979 and 1984 and qualified as a lawyer with the Quebec Bar in 1981 and the Paris Bar in 1991.

Compensation

The total remuneration paid to the managing directors of synlab Holding GmbH for the year ended December 31, 2014 was €372 thousand, compared to €616 thousand for the year ended December 31, 2013. This included share-based payments in the amount of €53 thousand for the year ended December 31, 2014, compared to €103 thousand for the year ended December 31, 2013. Members of the Advisory Board of Synlab received no compensation in 2013 or 2014.

Labco's executive management team and the members of its board of directors received total remuneration of €9.7 million in the year ended December 31, 2014, €5.6 million in the year ended December 31, 2013 and €5.5 million in the year ended December 31, 2012. Remuneration consisted of short-term compensation, post-employment and termination benefits and share-based payments.

PRINCIPAL SHAREHOLDERS

The Issuers are indirectly owned by the Cinven Funds and the Senior Secured Notes Issuer is a direct, wholly owned subsidiary of the Senior Notes Issuer. Following the Acquisitions, Labco will be a direct, wholly owned subsidiary of French BidCo, a wholly owned subsidiary of the Senior Secured Notes Issuer, Synlab will be a direct, wholly owned subsidiary of German BidCo, a wholly owned subsidiary of the Senior Secured Notes Issuer, and the Cinven Funds (together with certain preexisting minority shareholders of Labco, including certain managers of Labco and certain laboratory doctors who are not employees of Labco and may, in the aggregate, own up to 20% of the equity of UK TopCo) will indirectly (through wholly or majority-owned intermediate holding companies) own, following completion of the Labco Squeeze-Out, the entire share capital of Synlab/Labco. See "*Summary—Summary Corporate and Financing Structure*."

Management Equity Participation Program

We plan to implement a management equity participation program prior to the Completion Date pursuant to which certain managers who are employees of Synlab or Labco may hold, through a management pooling vehicle or other entities, up to approximately 2% of the share capital of UK TopCo. The terms of the program are expected to be included in a shareholders' agreement and in put and call option agreements.

Labco Performance Share Plans

Labco implemented a performance share plan in the United Kingdom in April 2014, benefiting two of iPP's managers through a "UK Employee Shareholders Scheme." Seven percent of iPP's shares have been awarded to those managers under the share plan. The economic rights to those shares are subject to a five-year vesting period (20% per year) and the managers have been granted a put option that can be exercised when all the economic rights to the shares have vested. Labco has a call option that can be exercised one year after the end of the vesting period and at any time in the event of a change in control of Labco or iPP. The valuation of the shares is based on a price formula specified in the contract relating to that option. The estimated charge corresponding to the share award plan is subject to regular measurement in the preparation of financial statements.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Consulting Services

Labco entered into an executive administrator agreement with Acand, a company controlled by Andreas Gaddum, who will remain chairman of the Board of Directors of Labco until the Completion Date, pursuant to which Mr. Gaddum provides consulting services to Labco. Pursuant to this agreement, Labco paid Acand €425,495 between 2012 and 2014, €232,360 of which was for specific services.

Real Estate Lease Agreements

Certain of Labco's French entities (SELs) have entered into real estate lease agreements with Société Immobilière de Laboratoires, a real estate company, of which Philippe Dauchy, a member of the board of Labco SA, is the managing director. Société Immobilière de Laboratoires' business is to build or refurbish commercial or industrial premises in order to lease them to certain SELs. The lease agreements contain conditions that are considered to be standard commercial conditions. However, the durations of these leases exceed the usual length of commercial leases in France. Furthermore, and, in compliance with Articles L. 145-18, L. 145-21 and L. 145-24 of the French commercial law (*Code de Commerce*), the duration of these leases is fixed, meaning that the lessee is not entitled to exit the lease at the end of each three-year period.

As of December 31, 2014, 12 lease agreements had been entered into between Société Immobilière de Laboratoires and certain of Labco's French SELs. The aggregate amount of rent paid pursuant to these lease agreements was €1.1 million in 2014.

Settlement Agreements

In January 2013, January 2015 and May 2015, Labco entered into three settlement agreements with a number of its shareholders or warrant-holders, settling existing litigation and preventing future litigation, with regards to the exercise and amendment mechanisms of certain of its warrants.

DESCRIPTION OF OTHER INDEBTEDNESS

The following summary of certain provisions of the documents listed below governing certain of our indebtedness does not purport to be complete and is subject to, and qualified in its entirety by reference to, the underlying documents.

Revolving Credit Facility Agreement

In connection with the Transactions, the Senior Secured Notes Issuer will enter into an amendment and restatement of the Revolving Credit Facility Agreement on or about the Issue Date of the Notes.

Borrowings

Once amended and restated, the Revolving Credit Facility Agreement will provide for total revolving credit facility borrowings of €250 million.

Borrowings under the Revolving Credit Facility may be used to finance or refinance:

(a) the Labco Acquisition, acquisitions, investments in joint ventures or capital expenditure;

(b) the servicing of any indebtedness; and

(c) the working capital requirements and/or general corporate purposes of the combined business.

The Revolving Credit Facility may be utilized in the form of multi currency advances for terms of 1, 2, 3, or 6 months (or any other term agreed with the Agent acting on the instructions of (i) the majority lenders for periods of less than six months, or (ii) all lenders for periods greater than six months) or letters of credit or ancillary facilities.

Additional Facility

The Senior Secured Notes Issuer may elect to request, subject to certain terms and conditions, the commitment of additional facilities, either as a new facility or as additional sub tranches of the Revolving Credit Facility Agreement (the "Additional Facility Commitments"). The Senior Secured Notes Issuer may agree with the relevant lenders certain terms in relation to the Additional Facility Commitments, including the termination date (subject to parameters as set forth in the Revolving Credit Facility Agreement) and the availability period. The margin on any cash advances under the Additional Facility Commitments will be agreed between the Senior Secured Notes Issuer and the relevant lenders providing the relevant Additional Facility Commitments (subject to parameters as set forth in the Revolving Credit Facility Agreement). Unless otherwise agreed between the Senior Secured Notes Issuer and the relevant lenders providing the relevant Additional Facility Commitments, borrowings under an additional facility may be used for the same purposes as under the Revolving Credit Facility Agreement.

Maturity Date

Subject to the absence of a default, the Revolving Credit Facility will be available for drawing from and including the date of the Revolving Credit Facility Agreement until the date falling one month prior to the "termination date" of the Revolving Credit Facility Agreement (which is the earlier of (a) the date falling 72 months after the date of the Revolving Credit Facility Agreement and (b) the date falling one year prior to the maturity date of the Senior Secured Notes, if earlier).

Conditions Precedent

Utilizations (in an amount of up to €140 million) under the existing Revolving Credit Facility are subject to customary conditions precedent, including, without limitation, relating to the Labco Acquisition. Furthermore, the amendment and restatement of the Revolving Credit Facility Agreement which will, amongst other things, increase the available commitments under the Revolving Credit Facility Agreement by €110 million is subject to further customary conditions precedent relating to the Synlab Acquisition.

Interest and Fees

The Revolving Credit Facility bears interest at a rate per annum equal to LIBOR or, for borrowings in euro, EURIBOR, plus a margin of 3.00% per annum, subject, in each case, to a floor of zero. Going forward the margin may be reduced to 2.00% per annum by reference to a senior secured net leverage test.

We are also required to pay a commitment fee, quarterly in arrears, on available but unused commitments under the Revolving Credit Facility at a rate of 35% of the applicable margin.

Security and Guarantees

The Revolving Credit Facility is guaranteed on a joint and several basis by the Guarantors. The Revolving Credit Facility Agreement also requires that, subject to agreed security principles, the EBITDA of the guarantors represents not less than 50% of consolidated EBITDA of the group on the date falling 90 days after the Labco Completion Date (ignoring, for these purpose, the Synlab Group) and not less than 50% on the date falling 90 days after delivery of the annual financial statements of the group for each fiscal year unless the Completion Date has taken place during that fiscal year in which case such date shall be the later of (a) 90 days after delivery of the annual financial statements of the group in respect of that fiscal year and (b) the date on which the Senior Secured Notes Issuer is required to accede all Synlab Guarantors following the Completion Date.

The Revolving Credit Facility is secured by the same security interests as for the Notes as set forth under "*Description of the Senior Secured Notes—Security*."

Under the terms of the Intercreditor Agreement, in the event of acceleration of the Revolving Credit Facility or the Notes, amounts recovered in respect of the Notes, including from the enforcement of guarantees and the Collateral, are required to be turned over to the Security Agent and, subject to the payment of fees and expenses of, amongst others, the agent under the Revolving Credit Facility, the Trustee and Security Agent, paid by the Security Agent to the Credit Facility Lenders (including the lenders under the Revolving Credit Facility) and counterparties to certain hedging obligations in priority to the holders of the Notes.

The provision and the terms of the security set forth above will in all cases be subject to certain limitations and are at all times and in all cases subject to the requirements of applicable law and the other matters set forth in the Revolving Credit Facility Agreement. See "*Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral*."

Covenants

Certain of the covenants contained in the Revolving Credit Facility Agreement are based upon the covenants contained in the Senior Secured Notes Indenture. See "*Description of the Senior Secured Notes—Certain Covenants*." The Revolving Credit Facility Agreement also requires the Senior Secured Notes Issuer and certain of its restricted subsidiaries to observe certain customary covenants, subject to certain exceptions, including covenants relating to obtaining required authorizations; at least *pari passu* ranking with certain unsecured payment obligations; guarantor coverage (as described above); further assurance with respect to security interests granted; no intentional change of COMI; compliance with laws and compliance with the senior notes purchase condition (as described below).

The Revolving Credit Facility Agreement also requires the Senior Secured Notes Issuer to ensure that the senior secured net leverage ratio (calculated as the ratio of total senior secured net debt at each quarter end to consolidated EBITDA for the twelve months ending on that quarter end), does not exceed 7.50:1. The senior secured net leverage covenant is tested quarterly on a rolling basis, subject to (i) the first test date falling at least 12 months after the Labco Completion Date; and (ii) the Revolving Credit Facility being at least 35% drawn on the relevant test date. The senior secured net leverage covenant only acts as a drawstop to new drawings under the Revolving Credit Facility and, if breached, will not trigger a default or event of default under the Revolving Credit Facility Agreement.

The Senior Secured Notes Issuer is permitted to prevent or cure breaches of the senior secured net leverage covenant by applying a "cure" amount (generally, amounts received by the Company in cash pursuant to any new equity or permitted subordinated debt) as if consolidated indebtedness had been reduced by such amount. There is no requirement to apply any cure amount in prepayment of the Revolving Credit Facility. No more than four different cure amounts may be taken into account prior to the termination date of the Revolving Credit Facility Agreement and cure amounts in consecutive financial quarters are not permitted.

Certain of the covenants under the Revolving Credit Facility Agreement will be suspended upon (a) a listing of any member of the Restricted Group or any holding company of any member of the Restricted

Group where the senior secured net leverage ratio is equal to or less than 3.50:1 (*pro forma* for any prepayment of certain indebtedness from the proceeds of such listing) or (b) the Notes achieving a rating equal to or better than Baa3 or BBB− (as applicable) according to both Moody's Investor Services, Inc. and Standard & Poor's Investors Ratings Services, respectively.

Repayment

Loans made under the Revolving Credit Facility must be, subject to any rollover in accordance with the Revolving Credit Facility, repaid in full on the last day of the relevant interest period. All outstanding amounts under the Revolving Credit Facility must be repaid on the "termination date." Amounts repaid by the Senior Secured Notes Issuer in respect of loans made under the Revolving Credit Facility may be reborrowed, subject to certain conditions.

Prepayment

The Revolving Credit Facility permits each lender to require the mandatory prepayment of all amounts due to that lender upon the occurrence of a Change of Control. See "*Description of the Senior Secured Notes—Certain Definitions*" and "*Description of the Senior Notes—Certain Definitions*."

Restrictions on Redemption or Repurchase and Cancellation of the Senior Secured Notes

The Revolving Credit Facility Agreement also contains a "notes purchase condition" covenant. Subject to certain exceptions set out in the Revolving Credit Facility Agreement, the Senior Secured Notes Issuer may not, and shall procure that no other member of the Restricted Group will, repay, prepay, purchase, defease, redeem or otherwise acquire or retire the principal amount of the Senior Secured Notes (or, in each case, any replacement or refinancing thereof as permitted under the Revolving Credit Facility Agreement from time to time but, for the avoidance of doubt, excluding any amount outstanding under any "finance document" entered into in respect of the Revolving Credit Facility) ("Relevant Notes") prior to its scheduled repayment date in any manner which involves the payment of cash consideration by a member of the Restricted Group to a person which is not a member of the Restricted Group. The exceptions to such covenant include, *inter alia*, generally, payments that do not result in the aggregate principal amount of the Relevant Notes falling below 50% of the original principal amount of the Senior Secured Notes in existence as of the Completion Date, as adjusted to exclude, *inter alia*, payments funded from new equity.

Events of Default

Certain of the events of default contained in the Revolving Credit Facility Agreement are based upon the events of default contained in the Senior Secured Notes Indenture. See "*Description of the Senior Secured Notes—Events of Default and Remedies*."

The Revolving Credit Facility Agreement also contains other events of default the occurrence of which would allow the lenders to accelerate all outstanding loans and terminate their commitments, any letters of credit and ancillary facilities, or declare that cash cover in respect of any letters of credit and ancillary facilities is immediately due and payable, subject in certain cases to agreed grace periods, thresholds and other qualifications.

The customary events of default, subject to certain agreed exceptions, include:

- inaccuracy of a representation or statement when made; and
- unlawfulness, invalidity, rescission and repudiation or unenforceability of the "finance documents" entered into in connection with the Revolving Credit Facility Agreement.

Governing Law

The Revolving Credit Facility Agreement is governed by English law, but certain covenants and events of default which reflect, *mutatis mutandis*, the provisions of the Senior Secured Notes, are construed in accordance with the laws of the State of New York.

Bilateral Bank Loans

Certain subsidiaries of Labco have entered into 17 bilateral bank loans for an aggregate principal outstanding amount as of December 31, 2014 of €2.9 million. As of December 31, 2014, these loans have a maturity ranging from 2015 to 2022 and applicable interest rates ranging from 2.50% to 5.16% for fixed rates and 0.30% to 1.50% for floating rates.

Certain subsidiaries of Synlab have overdraft agreements for their current bank accounts that are used flexible, with an aggregate outstanding amount as of December 31, 2014 €593,041.25. Furthermore, Synlab's Austrian subsidiary synlab Holding Austria GmbH has a revolving credit facility with Raiffeisenlandesbank Niederösterreich in an amount of €1 million under which €203,936.82 was drawn as of December 31, 2014.

Factoring Agreements

Certain of Labco's subsidiaries incorporated in Portugal are party to non-recourse and recourse factoring agreements with several banks and factoring companies. They have incurred factoring fees and factoring-related interest charges in an aggregate amount of €0.3 million during the year ended December 31, 2013 and €0.2 million for the year ended December 31, 2014.

The aggregate outstanding factoring cap is approximately €4.4 million under our non-recourse factoring agreements. The annual general factoring fee payable is comprised between 4.15% and 4.8% of the factoring cap. The disbursement fee is based on EURIBOR plus a margin. These agreements are subject to customary terms and conditions.

Finance Leases

Certain subsidiaries of Labco have entered into various finance leases for an aggregate principal outstanding amount as of December 31, 2014 of €19.4 million. As of December 31, 2014, these finance leases have a maturity ranging from 2 to 25, most of them from four to seven years, and are mostly used to finance technical equipment for our laboratories.

Certain of Synlab's subsidiaries have entered into various finance leases with a total carrying amount as of December 31, 2014 of €20.4 million. The maturities of these finance leases generally have maturities ranging from four to seven years, and are mostly used to finance technical equipment.

Intercreditor Agreement

In connection with the entry into the Revolving Credit Facility and the Indentures, each new lender that is not already party to the Intercreditor Agreement, the Guarantors and certain other subsidiaries of the Senior Notes Issuer will accede to the Intercreditor Agreement to govern the relationships and relative priorities between, among others: (i) the Credit Facility Lenders; (ii) any persons who accede to or are already party to the Intercreditor Agreement as counterparties to certain hedging agreements (collectively, the "Hedging Agreement"; the liabilities under such Hedging Agreements, the "Hedging Liabilities"; and any persons that accede to or are already party to the Intercreditor Agreement as counterparties to such Hedging Agreements being referred to in such capacity as the "Hedge Counterparties"); (iii) the trustee, on its own behalf and on behalf of the holders of the Senior Secured Notes (the "Senior Secured Noteholders") (the "Senior Secured Notes Trustee"); (iv) the trustee, on its own behalf and on behalf of the holders of the Senior Notes (the "Senior Noteholders") (the "Senior Notes Trustee"); (v) the intragroup creditors and debtors; and (vi) certain direct or indirect shareholders and subsidiaries of the Senior Secured Notes Issuer in respect of certain structural debt that the Senior Secured Notes Issuer or another member of the Group has incurred or may incur in the future (including any subordinated shareholder loans).

- In this description, "Group" refers to the Senior Secured Notes Issuer and each of its subsidiaries.
- Each member of the Group that incurs any liability or provides any guarantee under the Revolving Credit Facility, in respect of the Notes or under any other Debt Document (as defined in "*—Further Security and Incremental Borrowings*") is referred to as a "Debtor" and are collectively referred to as the "Debtors."

The Intercreditor Agreement sets forth:

- the relative ranking of certain indebtedness of the Debtors;
- the relative ranking of certain security granted by the Debtors;
- when payments can be made in respect of certain indebtedness of the Debtors;

- when enforcement actions can be taken in respect of that indebtedness;
- the terms pursuant to which that indebtedness will be subordinated upon the occurrence of certain insolvency events;
- turnover provisions; and
- when security and guarantees will be released to permit (i) a sale of any assets subject to transaction security (such assets, the "Collateral"; such security, the "Transaction Security"; and the documents constituting such Transaction Security, the "Transaction Security Documents"); and (ii) other activities or transactions (including, without limitation, reorganizations and the incurrence of incremental facilities) permitted by the Debt Documents (as defined below).

The Intercreditor Agreement contains provisions relating to future indebtedness that may be incurred by members of the Group and which is permitted or not prohibited under the Credit Facility Documents (as defined below), the Senior Secured Notes Documents (as defined below), any *Pari Passu* Debt Document (as defined below) and any Senior Debt Document (as defined below) to rank *pari passu* in right of payment with the liabilities under the Revolving Credit Facility Agreement, the liabilities under the Senior Secured Indenture (for the purposes of this section, the "Notes Indenture") and any *Pari Passu* Liabilities (as defined below), or, in each case, with the consent of the relevant Creditor Representatives (as defined below) under such documents (acting on the instructions of the requisite level of creditors under such documents) and to be secured on the Collateral, subject to the terms of the Intercreditor Agreement (such indebtedness being the "*Pari Passu* Debt"; the creditors in respect of such indebtedness being the "*Pari Passu* Creditors"; the liabilities of the Debtors in respect of such indebtedness being the "*Pari Passu* Liabilities"; and the documents creating or evidencing the *Pari Passu* Liabilities, the "*Pari Passu* Debt Documents").

The Intercreditor Agreement also includes provisions relating to future indebtedness in the form of loans, credit or guarantee facilities or notes (such indebtedness being "Senior Debt," the liabilities of the Debtors in respect of such indebtedness being "Senior Debt Liabilities" and documents creating or evidencing the Senior Debt Liabilities (which includes for the avoidance or doubt the Senior Notes), the "Senior Debt Documents") that is to be incurred by the Senior Notes Issuer, or a limited liability company which is a holding company of the Senior Notes Issuer, or a direct wholly owned subsidiary of the Senior Notes Issuer or a holding company of the Senior Notes Issuer which, in each case, is not a member of the Group or a not a borrower or issuer (or co-borrower or co-issuer) of any Super Senior Liabilities or Senior Secured Liabilities (such entity, the "Senior Debt Issuer") and provisions relating to the liabilities in respect of guarantees granted by each guarantor of the Senior Debt (the "Senior Debt Guarantee Liabilities"), that is permitted or not prohibited under the Credit Facility Documents, the Senior Secured Notes Documents, any *Pari Passu* Debt Document and any Senior Debt Document to rank equally with any Senior Debt Liabilities, subject to the terms of the Intercreditor Agreement (the creditors in respect of such indebtedness being the "Senior Debt Creditors").

The Intercreditor Agreement also provides for any credit facility constituting a "Credit Facility" the creditors of which are entitled under the terms of the Senior Secured Notes Documents, any *Pari Passu* Debt Document and any Senior Debt Document to receive priority in respect of the proceeds of the enforcement against the Collateral (each such facility being a "Credit Facility" and, together with the Revolving Credit Facility, the "Credit Facilities" and each finance document relating thereto (but excluding any Hedging Agreement), a "Credit Facility Document"). Each lender under a Credit Facility is a "Credit Facility Lender" and excluding any Hedging Liabilities, the liabilities of the Debtors to the Credit Facility Lenders are referred to as the "Credit Facility Lender Liabilities."

Unless expressly stated otherwise in the Intercreditor Agreement, in the event of a conflict between the terms of a Debt Document and the Intercreditor Agreement, the provisions of the Intercreditor Agreement will prevail.

Any reference in this "*Description of Certain Financing Arrangements*" (and in the Intercreditor Agreement) to any matter being "permitted" under one or more Debt Document shall include reference to such matters not being prohibited under such Debt Documents.

By purchasing a Senior Secured Note, Senior Secured Noteholders shall be deemed to have agreed to, and accepted the terms and conditions of, the Intercreditor Agreement and to have authorized the Senior Secured Notes Trustee to enter into the Intercreditor Agreement on their behalf.

By purchasing a Senior Note, Senior Noteholders shall be deemed to have agreed to, and accepted the terms and conditions of, the Intercreditor Agreement and to have authorized the Senior Notes Trustee to enter into the Intercreditor Agreement on their behalf.

The following description is a summary of certain provisions in the Intercreditor Agreement. It does not restate the Intercreditor Agreement in its entirety.

Ranking and Priority

The Intercreditor Agreement provides, subject to the provisions in respect of permitted payments described below, that (i) the Credit Facility Lender Liabilities; (ii) the liabilities of the Debtors with respect to the Debt Related Hedging Liabilities and the Capped Super Senior Hedging Liabilities (each as defined below) (the "Super Senior Hedging Liabilities" and the creditors of the Super Senior Hedging Liabilities, the "Super Senior Hedge Counterparties," the Super Senior Hedging Liabilities, together with the Credit Facility Lender Liabilities and the Creditor Representative Liabilities owed to the Credit Facility Agent, the "Super Senior Liabilities" and the creditors of the Super Senior Liabilities, the "Super Senior Creditors"); (iii) the liabilities of the Debtors with respect to any Hedging Agreements that do not constitute Super Senior Hedging Liabilities (the "Non-Super Senior Hedging Liabilities" and the creditors of the Non-Super Senior Hedging Liabilities, the "Non-Super Senior Hedge Counterparties"); (iv) the liabilities of the Senior Secured Notes Issuer and the Debtors in respect of the Senior Secured Notes (the "Senior Secured Notes Liabilities"); (v) the *Pari Passu* Liabilities (together with the Senior Secured Notes Liabilities and the Non-Super Senior Hedging Liabilities, the "Senior Secured Liabilities," and the creditors of the Senior Secured Liabilities, the "Senior Secured Creditors"); (vi) the liabilities of the Senior Debt Issuer and the Debtors in respect of the Senior Debt (the "Senior Debt Liabilities") and (vii) certain other unsecured liabilities, will rank in right and priority of payment in the following order:

- *first*, the Super Senior Liabilities, the liabilities of any Debtor to an arranger under the Credit Facilities (the "Arranger Liabilities"), the Senior Secured Liabilities, the Senior Debt Trustee Amounts and the liabilities of the Security Agent (the "Security Agent Liabilities") *pari passu* and without any preference between them; and
- *second*, the Senior Debt Guarantee Liabilities *pari passu* and without any preference between them.

The intercompany obligations (the "Intra Group Liabilities" and the documents creating or evidencing such Intra Group Liabilities being "Intra Group Debt Documents") of any member of the Group to any other member of the Group (each an "Intra Group Lender" and collectively the "Intra Group Lenders") are postponed and subordinated to the Liabilities owed by the Debtors to the Primary Creditors (as defined below). The liabilities owed by any Debtor to any shareholder, direct or indirect, of the Senior Secured Notes Issuer (or any holding company or subsidiary of the Senior Secured Notes Issuer or any other subsidiary of any such holding company that is not a member of the Group) and any of their respective transferees or successors (the "Shareholder Liabilities" and the documents creating or evidencing such Shareholder Liabilities being "Shareholder Debt Documents") are postponed and subordinated to the Liabilities owed by the Debtors to the Primary Creditors.

In this section the Shareholder Liabilities and the Intra Group Liabilities are together referred to as the "Subordinated Liabilities."

The parties to the Intercreditor Agreement have agreed in the Intercreditor Agreement that the Transaction Security ranks and secures the following liabilities in the following order:

- *first*, the Super Senior Liabilities, the Creditor Representatives, the Arranger Liabilities, the Senior Secured Liabilities, the Senior Debt Trustee Amounts and Security Agent Liabilities, *pari passu* and without any preference between them; and
- *second* (to the extent only of any Shared Security (as defined below)), the Senior Debt Liabilities.

The Senior Debt Liabilities and the Subordinated Liabilities will not be secured by any of the Transaction Security unless permitted by the Credit Facility Documents, the Senior Secured Notes Documents and any *Pari Passu* Debt Documents. Notwithstanding the foregoing, the Senior Debt Liabilities may, to the extent provided for under the relevant Senior Debt Document, be secured by the Shared Security if any (being (a) in the case of Senior Debt which is not secured by any assets of the Group, the security (if any) granted in favor of the Security Agent under the Transaction Security Documents over investment instruments issued by the Senior Secured Notes Issuer to the Senior Notes Issuer and over any Senior Debt Issuer Liabilities owed by the Senior Secured Notes Issuer to the Senior

Debt Issuer including, without limitation, any proceeds loan agreement; or (b) in the case of Senior Debt which is secured, the Security granted in favor of the Security Agent under the Transaction Security Documents on a second-ranking basis in accordance with the Intercreditor Agreement). The Senior Debt Liabilities are senior obligations of the Senior Debt Issuer. Until the Senior Secured Debt Discharge Date, the Senior Debt Creditors may not take any steps to appropriate the assets of the Senior Debt Issuer in connection with any enforcement action other than as expressly permitted by the Intercreditor Agreement.

Under the Intercreditor Agreement, all proceeds from enforcement of the Collateral and certain other recoveries will be applied as provided under "*—Application of Proceeds from Enforcement of Transaction Security*."

Hedging Liabilities

The Intercreditor Agreement provides for Super Senior Hedging Liabilities, which consists of Debt Related Hedging Liabilities (being any Hedging Liabilities to the extent hedging any floating interest rate exposures or foreign exchange exposures in respect of any Credit Facilities, Senior Secured Notes, *Pari Passu* Debt or Senior Debt) and Capped Super Senior Hedging Liabilities, and Non-Super Senior Hedging Liabilities.

Capped Super Senior Hedging Liabilities

Any Debtor and a Hedge Counterparty may enter into hedging agreements for the purposes of hedging any interest rate, foreign exchange or other exposures. An agreed amount of Hedging Liabilities incurred under or in connection with the actual or projected exposures arising in the ordinary course of a member of the Group's funding and commercial activities and not for speculative purposes may be designated as capped super senior hedging liabilities ("Capped Super Senior Hedging Liabilities") by the relevant Debtor and the Hedge Counterparty delivering to the Security Agent a notice detailing the maximum amount of Hedging Liabilities under or in connection with any Hedging Agreement (the "Designated Super Senior Amount") up to which the relevant Hedge Counterparty shall at any time be entitled to share in the proceeds of enforcement of any security created by any Transaction Security Document and receive recoveries as provided under "*—Application of Proceeds from Enforcement of Transaction Security*" as Super Senior Hedging Liabilities. The Debtor and relevant Hedge Counterparty together may increase or decrease the Designated Super Senior Amount in respect of such Hedge Counterparty's Super Senior Hedging Liabilities by delivering a notice to this effect to the Security Agent.

The aggregate of all Designated Super Senior Amounts (taking into account any increase or decrease referred to above, as may be increased or decreased) in relation to the Super Senior Hedge Counterparties, may not at any time exceed €50 million (the "Capped Amount") and, in any such case, only the amounts so advised to the Security Agent which, taken in order of being so advised, add up to but do not exceed the Capped Amount shall be treated as Designated Super Senior Amounts. Any Designated Super Senior Amount Notice which would cause the Capped Amount to be exceeded shall be deemed revoked and of no further effect.

Further Security and Incremental Borrowings

The creditors in respect of the Super Senior Liabilities and the Senior Secured Liabilities (the Super Senior Liabilities, the liabilities owed to Creditor Representatives (as defined herein, other than in paragraph (f) of that definition), the Senior Secured Liabilities and the Arranger Liabilities, together, the "Secured Liabilities," and the creditors thereof, the "Secured Parties" and the documents evidencing the Secured Liabilities, the "Secured Debt Documents") may take, accept or receive the benefit of additional security and additional guarantees, indemnities or other assurance against loss from any member of the Group in respect of the Secured Liabilities, *provided that*, if and to the extent legally possible, such security, guarantee, indemnity or other assurance against loss is also granted to the Security Agent as agent and trustee of the other Secured Parties. Any such additional security, guarantee, indemnity or other assurance against loss will rank in the same order of priority as referred to above and the proceeds of the enforcement of any such security will be applied as provided under "*—Application of Proceeds from Enforcement of Transaction Security*."

The Intercreditor Agreement contemplates the Debtors (or any of them): (i) incurring incremental borrowing liabilities and/or guarantee liabilities under; or (ii) refinancing the borrowing liabilities incurred under the documents creating or evidencing indebtedness under or in respect of any Credit Facility, the Senior Secured Notes, the Senior Debt, the Hedging Liabilities, the *Pari Passu* Debt or the Subordinated

Liabilities (such documents or instruments together with Transaction Security Documents, the Shareholder Debt Documents and the Intra Group Debt Documents being referred to collectively as the "Debt Documents") and/or incurring guarantee liabilities in respect of any indebtedness incurred in connection with any such refinancing (such incremental borrowing liabilities, refinancing liabilities and/or guarantee liabilities being referred to as "Additional Indebtedness") which in any such case are intended to rank *pari passu* with and/or share *pari passu* in any Transaction Security with any existing liabilities and/or to rank behind any existing liabilities and/or to share in the Transaction Security behind such existing liabilities. The Secured Parties and the creditors in respect of the Subordinated Liabilities (the "Subordinated Creditors" and, collectively with the Secured Parties and the Senior Debt Creditors, the "Creditors" and each a "Creditor") confirm in the Intercreditor Agreement that, provided such financing or refinancing and such ranking and such security is permitted or not prohibited under the terms of the Debt Documents, they will (at the Debtors' cost) enter into such documentation as may be necessary (including entering into a new intercreditor agreement on substantially the same terms as the Intercreditor Agreement, and, if applicable, entering into any lower ranking security (being Transaction Security which, in accordance with the applicable law of such Transaction Security, is expressed to be lower ranking) to ensure that the Additional Indebtedness (and the liabilities and obligations of the Debtors in respect of such Additional Indebtedness) will have the ranking permitted to be conferred upon it in accordance with the terms of the Debt Documents, *provided that* such documentation does not in any significant respect have a significant adverse effect on the interests of any of the Secured Parties.

Security: Pari Passu Creditors

The *Pari Passu* Creditors may take, accept or receive the benefit of:

(a) security in respect of the *Pari Passu* Liabilities in addition to the Transaction Security if, at the same time, it is also granted either:

  (i) to the Security Agent as trustee for the other Secured Parties in respect of their secured obligations;

  (ii) in the case of any jurisdiction in which effective security cannot be granted in favor of the Security Agent as trustee for the Secured Parties:

    (A) to the other Secured Parties in respect of their secured obligations; or

    (B) to the Security Agent under a parallel debt structure for the benefit of the other Secured Parties; or

  (iii) in the case of any security granted after the date of the Intercreditor Agreement, to some of the Secured Parties *provided that* such security is incremental to the Transaction Security that has already been granted in favor of all other Secured Parties and any proceeds derived from the enforcement of such security will be shared with the Secured Parties in accordance with the payment waterfalls set forth in "*—Application of Proceeds from Enforcement of Transaction Security*"

  and ranks in the same order of priority as that contemplated in "*—Ranking and Priority*"; and

(b) any guarantee, indemnity or other assurance against loss in respect of the *Pari Passu* Liabilities in addition to those in:

  (i) the original form of the *Pari Passu* Debt Documents;

  (ii) the Intercreditor Agreement; or

  (iii) any guarantee, indemnity or other assurance against loss given for the benefit of all the Secured Parties in respect of their Secured Liabilities;

only if, in each case (1) the grant of such security or the giving of such guarantee, indemnity or other assurance against loss is permitted by the documents or instruments creating or evidencing the Senior Secured Notes Liabilities (the "Senior Secured Notes Documents") and the Credit Facility Documents and (2) at the same time, it is also granted to the Credit Facility Lenders and granted to the other Secured Parties in respect of their respective Secured Liabilities and ranks in the same order of priority as that contemplated in "*—Ranking and Priority*."

Permitted Payments

The Intercreditor Agreement permits, prior to the occurrence of an acceleration event in respect of a Credit Facility, the *Pari Passu* Liabilities or the Senior Secured Notes Liabilities (a "Secured Debt Acceleration Event"), payments to be made by the Debtors under a Credit Facility (including the Revolving Credit Facility), the Senior Secured Notes Documents and the *Pari Passu* Debt Documents, in each case in accordance with the terms of the relevant Credit Facility Agreement, Senior Secured Notes Documents and the *Pari Passu* Debt Documents, but subject to: (i) in the case of payments in respect of the Senior Secured Notes, compliance with the Senior Secured Notes Purchase conditions described under "*—Revolving Credit Facility Agreement—Restrictions on Redemption or Repurchase and Cancellation of the Senior Secured Notes*" or any equivalent provision in any other Credit Facility; and (ii) in the case of payments in respect of the *Pari Passu* Liabilities, any restrictions under the Credit Facilities, the Senior Secured Notes Documents, the Senior Debt Documents and any *Pari Passu* Debt Documents then outstanding. Following the occurrence of a Secured Debt Acceleration Event, subject to certain exceptions, payments can only be made by the Debtors applying the amounts received by the relevant Debtor under the process described under "*—Application of Proceeds from Enforcement of Transaction Security*." The restriction in the foregoing sentence shall not apply (i) where, *provided that* the Majority Super Senior Creditors constitute the Instructing Group in accordance with "*—Enforcement Decision*," a payment block suspension notice has been delivered by the Credit Facility Agent to the Security Agent in accordance with the terms of the Intercreditor Agreement or (ii) to the extent that such Secured Debt Acceleration Event has subsequently been cancelled and/or irrevocably revoked in writing by each relevant Creditor Representative.

The Intercreditor Agreement also permits payments in respect of Senior Debt Guarantee Liabilities prior to the Secured Debt Discharge Date (as defined below) to be made by the Debtors under the Senior Debt Documents including if (a) (i) the payment is of any principal amount or capitalized interest of the Senior Debt Liabilities or the Senior Debt Issuer Liabilities which is either not prohibited from being paid by the Credit Facility, the Senior Secured Notes Document and any *Pari Passu* Debt Document or is paid on or after the final maturity date of the Senior Debt Liabilities (*provided that* such maturity date is a date not earlier than one year after the originally scheduled maturity date of the Senior Secured Notes and Termination Date (as defined in the Credit Facility Documents)) at the time of issuance of such Senior Debt or is a payment of any amount in respect of the Senior Debt Liabilities which is not an amount of principal or capitalized interest or a corresponding amount under the relevant proceeds loans for the Senior Debt (such amount including all scheduled interest payments, including if applicable, special interest or liquidated damages) and default interest on the Senior Debt Liabilities accrued due and payable in cash in accordance with the terms of the relevant Debt Document, additional amounts payable as a result of the tax gross up provisions relating to the Senior Debt Liabilities and amounts in respect of currency indemnities in the relevant indenture for the Senior Debt and/or applicable proceeds loan, (ii) no notice of a Secured Debt Event of Default has been delivered by the Credit Facility Agent, the Senior Secured Notes Trustee or the *Pari Passu* Debt Representative (as the case may be); and (iii) no payment default under any Credit Facility, the Senior Secured Notes Indenture (above an agreed threshold) and the *Pari Passu* Debt Documents (above an agreed threshold) has occurred and is continuing; (b) the Majority Super Senior Creditors (as defined below) and the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative give prior consent to that payment being made; (c) the payment is of amounts owing to the Senior Debt Representative in respect of any Senior Debt issued in the form of notes (the "Senior Debt Representative Amounts"); (d) the payment is of administrative and maintenance costs, fees, expenses and taxes of the Senior Debt Issuer including any reporting or listing requirements, in each case in respect of the Senior Debt Issuer, and as permitted under the terms of the Credit Facilities; (e) the payment is of costs, commissions, taxes, premiums and any expenses incurred in respect of (or reasonably incidental to) any refinancing of the Senior Debt Documents in compliance with the Intercreditor Agreement, the Credit Facilities, the Senior Secured Notes Documents and the *Pari Passu* Debt Documents; or (f) the payment is by the Senior Debt Issuer of the Senior Debt Liabilities and such payment is not financed directly or indirectly by a payment to the Senior Debt Issuer from a member of the Group which was prohibited (at the time it was made to the Senior Debt Issuer) by any Credit Facility Document, the Senior Secured Notes Documents, the *Pari Passu* Debt Documents or the Senior Debt Documents.

The Intercreditor Agreement also permits payments to be made from time to time when due to lenders owed any Intra Group Liabilities ("Intra Group Liabilities Payments") if at the time of payment no Secured Debt Acceleration Event or an acceleration event in respect of the Senior Debt Liabilities has occurred and is continuing (an "Acceleration Event"). The Intercreditor Agreement permits Intra Group

Liabilities Payments if (i) an Acceleration Event has occurred prior to the date on which the Super Senior Liabilities are discharged in full (the "Super Senior Discharge Date"), with the consent of the Instructing Group (as defined, and further described, in "*—Enforcement Decision*"); (ii) an Acceleration Event has occurred after the Super Senior Discharge Date but prior to the date on which the Senior Secured Liabilities are discharged in full (the "Senior Secured Discharge Date"), with the consent of the Senior Secured Notes/*Pari Passu* Required Holders (as defined below) (acting through their Creditor Representatives); (iii) an Acceleration Event has occurred after the Senior Secured Discharge Date but prior to the later of the date on which the Senior Debt Liabilities are discharged (the "Senior Debt Discharge Date"), with the consent of the Senior Debt Required Holders (as defined herein) (acting through their Creditor Representatives); (iv) that payment is made to facilitate payment of the Super Senior Liabilities or Senior Secured Liabilities; or (v) to the extent a Secured Debt Acceleration Event has subsequently been cancelled and/or irrevocably revoked in writing by each relevant Creditor Representative, the payment is made to facilitate payments of the Senior Debt Liabilities that are permitted to be paid under the terms of the Intercreditor Agreement and, if such payment is made pursuant to Senior Debt Guarantees, it would be permitted at such time.

The Intercreditor Agreement also permits payments to be made from time to time when due to lenders owed any Senior Secured Notes Structural Intra Group Liabilities (being the intragroup loan from the Senior Secured Notes Issuer to Labco S.A. of a principal amount of up to €800 million, and any other loans or credit or financial arrangements having similar effect which are made available by the Senior Secured Notes Issuer to Ephios France or Labco S.A. and/or by Ephios France to Labco S.A. for the purpose of, directly or indirectly, downstreaming all or part of the proceeds of Senior Secured Notes Liabilities which may be issued and/or incurred by the Senior Secured Notes Issuer in accordance with the Debt Documents) if such payment is made (i) to facilitate the making of a payment by the Senior Secured Notes Issuer under any Senior Secured Notes Document, which was downstreamed to such Debtor under such Senior Secured Notes Structural Intra-Group Liabilities; or (ii) such prepayment is made to facilitate the making of a payment by the Senior Secured Notes Issuer which is stated not to be prohibited by the covenant described under "*Description of the Senior Secured Notes—Certain Covenants—Restricted Payments*" or of a payment of the administrative and maintenance costs, fees, expenses and taxes of the Senior Secured Notes Issuer including any reporting or listing requirements, in each case in respect of the Senior Secured Notes Issuer permitted under the terms of the Credit Facility Documents, the Senior Secured Notes Documents and the *Pari Passu* Debt Documents.

At any time prior to an Acceleration Event, each Debtor may convert its Intra-Group Liabilities (other than the Senior Secured Notes Structural Intra-Group Liabilities) into equity, *provided that* such Debtor may convert prior to an Acceleration Event its Senior Secured Notes Structural Intra-Group Liabilities into equity under the circumstances set forth in, and only up to the amount required to ensure compliance with, Article L. 225-248 of the French Commercial Code, subject to such conversion being implemented in a manner which does not result in a loss of French tax consolidation and, if the existing shares of the relevant Debtor are subject to Transaction Security, subject to any new shares issued as a result thereof automatically falling within the scope of the existing Transaction Security or equivalent Transaction Security is granted in accordance with the terms of the Debt Documents over any such new shares.

Payments may be made on Shareholder Liabilities from time to time when due if: (i) the payment is not prohibited by a Credit Facility, the Senior Secured Notes Documents, the *Pari Passu* Debt Documents or the Senior Debt Documents; (ii) the payment is to be made by the Senior Secured Notes Issuer to the Senior Debt Issuer in respect of any Senior Debt Issuer Liabilities made in order to make a corresponding payment of Senior Debt Liabilities which is then due and payable by the Senior Debt Issuer pursuant to the Senior Debt Documents (or in the case of a payment in respect of scheduled interest, such payment will become due and payable within three business days) to be made at the time such payment of Shareholder Liabilities is made by the Senior Secured Notes Issuer to the Senior Debt Issuer; (iii) prior to the Super Senior Discharge Date, the Instructing Group (as defined below) gives written consent to such payment being made; (iv) on or after the Super Senior Discharge Date but prior to the Senior Secured Discharge Date, the Senior Secured Notes/*Pari Passu* Required Holders (acting through their Creditor Representative (as defined below)) give written consent to such payment being made; or (v) after the Secured Debt Discharge Date but prior to the Senior Debt Discharge Date, the Senior Debt Required Holders (acting through their Creditor Representative (as defined below)) give written consent to such payment being made. At any time prior to an Acceleration Event, Shareholder Liabilities may be converted into equity.

Creditor Representative

To the extent they are not already party to the Intercreditor Agreement, various creditor representatives of the parties will have to accede to the Intercreditor Agreement. "Creditor Representative" means:

(a) in relation to the lenders under the Revolving Credit Facility, the facility agent under the Revolving Credit Facility Agreement;

(b) in relation to the Credit Facility Lenders under any other Credit Facility, the facility agent in respect of that Credit Facility (an "Additional Credit Facility Agent," and, together with the facility agent under the Revolving Credit Facility Agreement, a "Credit Facility Agent");

(c) in relation to the Senior Secured Noteholders, the Senior Secured Notes Trustee;

(d) in relation to the Senior Debt Creditors, the creditor representative for those Senior Debt Creditors (the "Senior Debt Representative");

(e) in relation to any *Pari Passu* Creditors, the creditor representative for those *Pari Passu* Creditors (the "*Pari Passu* Debt Representative"); and

(f) in relation to any Hedge Counterparty, such Hedge Counterparty (which shall be its own Creditor Representative).

Issue of Senior Debt Payment Stop Notice

(a) Until the later of the Super Senior Discharge Date and the Senior Secured Discharge Date (the "Secured Debt Discharge Date"), except with the prior consent of the Credit Facility Agent, the consent of the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s), and subject to the provisions of the Intercreditor Agreement which deals with the effects of an insolvency event, the Senior Secured Notes Issuer shall ensure that no member of the Group shall make, and no Senior Creditor may receive from any member of the Group, any payment in respect of the Senior Debt which would otherwise be permitted as referred to above (other than certain payments, including the Senior Debt Representative Amount and certain amounts relating to the administrative and maintenance costs of the Senior Debt Issuer) if:

   (i) a payment default under the Secured Debt Documents (a "Secured Debt Payment Default") has occurred and is continuing; or

   (ii) an event of default (subject to certain thresholds) under a Credit Facility Document, the Senior Secured Notes Documents or the *Pari Passu* Debt Documents (other than a Secured Debt Payment Default) (a "Secured Debt Event of Default") has occurred and is continuing, from the date on which the Credit Facility Agent or the Senior Secured Notes Trustee or the *Pari Passu* Debt Representative (as the case may be) (the "Relevant Representative") delivers a notice (a "Senior Debt Payment Stop Notice") specifying the event or circumstance in relation to that Secured Debt Event of Default to the Senior Debt Issuer, the Security Agent and the Senior Debt Representative, until the earliest of:

      (A) the date falling 179 days after delivery of that Senior Debt Payment Stop Notice;

      (B) the date on which a Senior Debt Default occurs for failure to pay principal at the original scheduled maturity of the Senior Debt;

      (C) in relation to payments of Senior Debt Liabilities, if a Senior Debt Standstill Period (as defined below) is in effect at any time after delivery of that Senior Debt Payment Stop Notice, the date on which that Senior Debt Standstill Period expires;

      (D) the date on which the relevant Secured Debt Event of Default is no longer continuing and, if the relevant Secured Liabilities have been accelerated, such acceleration has been rescinded;

      (E) the date on which the Relevant Representative delivers a notice to the Senior Debt Issuer, the Security Agent and the Senior Debt Representative cancelling the Senior Debt Payment Stop Notice;

      (F) the Secured Debt Discharge Date; and

(G) the date on which the relevant Senior Debt Representative takes any enforcement action that it is permitted to take under the Intercreditor Agreement.

(b) Unless the relevant Senior Debt Representative waives this requirement:

(i) a new Senior Debt Payment Stop Notice may not be delivered unless and until 360 days have elapsed since the delivery of the immediately prior Senior Debt Payment Stop Notice; and

(ii) no Senior Debt Payment Stop Notice may be delivered in reliance on a Secured Debt Event of Default more than 60 days after the date the Credit Facility Agent, the Senior Secured Notes Trustee or the *Pari Passu* Debt Representative (as applicable) received notice of that Secured Debt Event of Default.

(c) The Credit Facility Agent, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s) may serve only one Senior Debt Payment Stop Notice with respect to the same event or set of circumstances.

(d) The Credit Facility Agent, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s) may not serve a Senior Debt Payment Stop Notice with respect to a Secured Debt Event of Default which had been notified to each of them at the time at which an earlier Senior Debt Payment Stop Notice was issued.

Cure of Payment Stop: Senior Debt Creditors

If at any time following the issuance of a Senior Debt Payment Stop Notice or the occurrence of a Secured Debt Payment Default:

(a) the Senior Debt Payment Stop Notice ceases to be outstanding and/or the Secured Debt Payment Default ceases to be continuing, as the case may be; and

(b) the relevant Debtor then promptly pays to the Senior Debt Creditors an amount equal to any payments which had accrued under the Senior Debt Documents and which would have been permitted payments but for that Senior Debt Payment Stop Notice or Secured Debt Payment Default, then any Event of Default which may have occurred as a result of that suspension of payments shall be waived and any Senior Debt Enforcement Notice (as defined below) which may have been issued as a result of that event of default shall be waived, in each case without any further action being required on the part of the Senior Debt Creditors.

Restrictions on Enforcement/certain Challenges by Senior Debt Creditors

Until the later of the Secured Debt Discharge Date, except with the prior consent of or as required by the Instructing Group, no Senior Creditor shall take or require the taking of any enforcement action in relation to the Senior Debt Guarantee Liabilities except as permitted under the Intercreditor Agreement (see "—*Permitted Senior Debt Guarantee Enforcement*").

Permitted Senior Debt Guarantee Enforcement

(a) The above restrictions on enforcement will not apply in respect of the Senior Debt Guarantee Liabilities or any Shared Security which secures the Senior Debt Liabilities if:

(i) an event of default (or event or circumstance which would, with the expiration of a grace period, the giving of notice, the making of any determination provided for in the relevant definition of "Event of Default" in the Senior Debt Document or any combination of the foregoing, be an event of default) under any Senior Debt Document (a "Senior Debt Default") (such default being a "Relevant Senior Debt Default") is continuing;

(ii) the Credit Facility Agent, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s) have received a notice of the Relevant Senior Debt Default specifying the event or circumstance in relation to the Relevant Senior Debt Default from the Senior Debt Representative;

(iii) a Senior Debt Standstill Period (as defined below) has elapsed; and

(iv) the Relevant Senior Debt Default is continuing at the end of the relevant Senior Debt Standstill Period.

(b) Promptly upon becoming aware of a Senior Debt Default, the Senior Debt Representative may, by notice (a "Senior Debt Enforcement Notice") in writing notify the Credit Facility Agent, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s) of the existence of such Senior Debt Default.

Senior Debt Standstill Period

In relation to a Relevant Senior Debt Default, a Senior Debt Standstill Period shall mean the period beginning on the date (the "Senior Debt Standstill Start Date") the Senior Debt Representative serves a Senior Debt Enforcement Notice on the Credit Facility Agent, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative(s) in respect of such Relevant Senior Debt Default and ending on the earliest to occur of:

(a) the date falling 179 days after the Senior Debt Standstill Start Date (the "Senior Debt Standstill Period");

(b) the date the Secured Parties take any enforcement action (excluding any action taken to preserve or perfect any Collateral as opposed to realize it) in relation to a Guarantor, *provided that* the Senior Debt Creditors may then only take the same enforcement action in relation to the Guarantor as the enforcement action taken by the Secured Parties against such Guarantor and not against any other member of the Group;

(c) the date of an insolvency event in relation to a Senior Debt Guarantor against whom enforcement action is to be taken;

(d) the date on which a Senior Debt Default occurs for failure to pay principal at the original scheduled maturity of the Senior Debt; and

(e) the expiration of any other Senior Debt Standstill Period outstanding at the date such first Senior Debt Standstill Period commenced (unless that expiration occurs as a result of a cure, waiver or other permitted remedy).

The Senior Debt Creditors may take enforcement action as described above in relation to a Relevant Senior Debt Default even if, at the end of any relevant Senior Debt Standstill Period or at any later time, a further Senior Debt Standstill Period has begun as a result of any other Relevant Senior Debt Default.

If the Security Agent has notified the Senior Debt Representative that it is enforcing Transaction Security created over (directly or indirectly) shares of a Senior Debt Guarantor, no Senior Creditor may take any action referred to in "*—Issue of Senior Debt Payment Stop Notice—Permitted Senior Debt Guarantee Enforcement*," against that Senior Debt Guarantor while the Security Agent is, in accordance with the instructions of the Instructing Group, taking steps to enforce that Collateral where such action might be reasonably likely to adversely affect such enforcement or the amount of proceeds to be derived therefrom.

Enforcement Instructions

The Security Agent may refrain from enforcing the Transaction Security or taking any other enforcement action unless otherwise instructed by the relevant Instructing Group (as further described in "*—Enforcement Decision*").

Subject to the Transaction Security having become enforceable in accordance with its terms and subject to the terms of the Intercreditor Agreement, (i) the Instructing Group may give instructions to the Security Agent as to the enforcement of the Transaction Security as they see fit *provided that* the instructions as to enforcement given by the Instructing Group are consistent with the Security Enforcement Principles (as defined below) or (ii) to the extent permitted to enforce the Shared Security prior to the Senior Debt Discharge Date (as further described in "*—Permitted Senior Debt Guarantee Enforcement*") and subject to the following paragraph, the Senior Debt Representative(s) (acting on the instruction of the Senior Debt Required Holders) may give instructions to the Security Agent as to the enforcement of the Shared Security as they see fit within the parameters set out below.

Prior to the Secured Debt Discharge Date:

(a) if the Instructing Group has instructed the Security Agent not to enforce or to cease enforcing the Transaction Security; or

(b) in the absence of instructions from the Instructing Group,

and, in each case, the Instructing Group has not required any Debtor to make a Distressed Disposal, the Security Agent shall give effect to any instructions to enforce the Shared Security which the Senior Debt Representative(s) (acting on the instructions of the Senior Debt Required Holders) are then entitled to give to the Security Agent in accordance with the terms of the Intercreditor Agreement (as further described in "*—Permitted Senior Debt Guarantee Enforcement*").

Notwithstanding the previous two paragraphs, if at any time the Senior Debt Representative(s) are then entitled to give the Security Agent instructions to enforce the Shared Security pursuant to the paragraph above and the Senior Debt Representative(s) either gives such instruction or indicates any intention to give such instruction, then:

(a) the Instructing Group may give instructions to the Security Agent to enforce the Shared Security as the Instructing Group sees fit in lieu of any instructions to enforce given by the Senior Debt Representative(s); and

(b) if the Instructing Group gives any instructions to enforce any Transaction Security over shares in a holding company of any member of the Group whose shares are subject to Transaction Security with respect to which any such enforcement instructions by a Senior Debt Representative have been given, the Security Agent may not act on such enforcement instructions from any Senior Debt Representative(s) unless instructed to do so by the Instructing Group.

Enforcement Decision

If either the Majority Super Senior Creditors or the Senior Secured Notes/*Pari Passu* Required Holders (acting through their Creditor Representatives) (the "Instructing Group") wish to instruct the Security Agent to commence enforcement of any Transaction Security, such group of creditors must deliver a copy of the proposed instructions as to enforcement (the "Proposed Enforcement Instructions") to the Security Agent and the Creditor Representative for each of the Super Senior Creditors and the Senior Secured Creditors (as appropriate). The Security Agent shall promptly notify each Creditor Representative of the Super Senior Creditors, the Senior Secured Notes Trustee and each of the *Pari Passu* Debt Representatives upon receipt of such Proposed Enforcement Instructions.

Prior to the Super Senior Discharge Date, if the Security Agent has received any Proposed Enforcement Instructions, then the Security Agent shall either enforce or refrain from enforcing the Transaction Security in accordance with the instructions of the Senior Secured Notes/*Pari Passu* Required Holders (and the Senior Secured Notes/*Pari Passu* Required Holders shall be the Instructing Group for the purpose of "*—Enforcement Instructions*," in each case, acting through their respective Creditor Representative) *provided that* such instructions are consistent with certain Security Enforcement Principles (as referred to below) and failure to give instructions will be deemed to be an instruction not to take Enforcement steps.

In the event that:

(a) from the date that is three months after the date upon which the first Proposed Enforcement Instructions (including such instructions not to take Enforcement steps) are delivered, the Senior Secured Notes/*Pari Passu* Required Holders have not taken any Enforcement Action of the Transaction Security; or

(b) the Super Senior Liabilities have not been fully discharged in cash within six months of the date upon which the first such Proposed Enforcement Instructions (including any such instructions not to take Enforcement steps) are delivered,

then (with effect from the date of the earlier to occur of such events), the Majority Super Senior Creditors shall become the Instructing Group for the purposes of "*—Enforcement Instructions*."

If at any time the Security Agent has not taken any Relevant Enforcement Action of the Transaction Security notwithstanding the Transaction Security having become enforceable in accordance with its terms, a Creditor Representative acting on behalf of the Majority Super Senior Creditors or the Senior Secured Notes/*Pari Passu* Required Holders, as the case may be, may at any time provide immediate instructions as to Enforcement to the Security Agent, notwithstanding any instructions delivered in accordance with the above, if the Majority Super Senior Creditors or the Senior Secured Notes/*Pari Passu* Required Holders determine in good faith (and notify the Creditor Representatives of the other Super Senior Creditors and the Senior Secured Notes Creditors and the *Pari Passu* Creditors and the Security Agent) the delay in taking Enforcement Action of the Transaction Security could reasonably be expected to have a material adverse effect on:

(i) the Security Agent's ability to enforce the Transaction Security; or

(ii) the realization proceeds of any enforcement of the Transaction Security,

and the Security Agent shall act with respect to the relevant asset or Debtor that is the subject of the determination pursuant to (i) or (ii) above, in accordance with the first such notice of determination and instructions as to Enforcement received by the Security Agent (provided in each case that such instructions are consistent with certain Security Enforcement Principles (referred to below)).

If at any time an insolvency event has occurred with respect to any Debtor or any person (which is not a Debtor) which grants any Transaction Security in favor of the Secured Parties in respect of the obligations of the Debtors) (a "Security Provider") (other than an insolvency event which is the direct result of any action taken by the Security Agent acting on the instructions of the Majority Super Senior Creditors or the Senior Secured Notes/*Pari Passu* Required Holders), the Security Agent shall act, to the extent the Majority Super Senior Creditors have provided such instructions, in accordance with the instructions received from such Majority Super Senior Creditors, *provided that* in the event the Security Agent has received Proposed Enforcement Instructions from the Creditor Representative for the Senior Secured Notes/*Pari Passu* Required Holders and has commenced Relevant Enforcement Action pursuant to such instructions, the Security Agent shall continue to act in accordance with the instructions of the Creditor Representative for the Senior Secured Notes/*Pari Passu* Required Holders until such time as the Creditor Representative for the Majority Super Senior Creditors issues enforcement instructions to the Security Agent and such instructions shall override and supercede any such prior instructions given by the Creditor Representative for the Senior Secured Notes/*Pari Passu* Required Holders.

Other than where the preceding two paragraphs apply, if, prior to the Super Senior Discharge Date, the Majority Super Senior Creditors or the Senior Secured Notes/*Pari Passu* Required Holders (in each case, acting reasonably) consider that the Security Agent is enforcing the Transaction Security in a manner which is not consistent with certain Security Enforcement Principles (as referred to below), the Creditor Representatives for the relevant Super Senior Creditors or Senior Secured Creditors shall give notice to the Creditor Representatives for the other Super Senior Creditors and Senior Secured Creditors (as appropriate), after which the Creditor Representatives for the other Super Senior Creditors, the Senior Secured Notes Trustee and each *Pari Passu* Debt Representative shall consult with the Security Agent for a period of 15 days (or such lesser period as the relevant Creditor Representatives may agree) with a view to agreeing the manner of enforcement provided that such Creditors' Representatives shall not be obligated to consult in the manner referred to in this paragraph more than once in relation to each enforcement action.

After the Super Senior Discharge Date, the Security Agent shall either enforce or refrain from enforcing the Transaction Security in accordance with the instructions provided by the Senior Secured Notes/*Pari Passu* Required Holders.

The "Soulte"

In relation to any enforcement of Transaction Security governed by French Law occurring by way of contractual or judicial foreclosure or appropriation (including pursuant to a *pacte commissoire* or any similar enforcement mechanism), the amount by which (a) the value of the assets (which are the subject of Transaction Security) that are appropriated or foreclosed pursuant to that enforcement exceeds (b) the amount of Liabilities secured by that Transaction Security Document which is discharged as a result of that enforcement being carried out, shall constitute a "Soulte."

The "Soulte" shall constitute an amount payable by the Creditors having participated in the relevant enforcement (*pro rata* to the amount of Liabilities which have been discharged as a result of such enforcement), which liability shall be payable only on the earlier of:

(a) the Final Discharge Date (as defined below); and

(b) the date falling twelve months after the date of such enforcement (in which case, the Soulte shall be paid to, and held by, the Security Agent in accordance with the provisions of the Intercreditor Agreement relating to the payment and holding of the "Soulte").

"*Super Senior Liabilities*," "*Senior Secured Notes Liabilities*," "*Hedging Liabilities*," "*Pari Passu Debt*" and "*Senior Debt*" shall include the amount of any Soulte paid or owed but not yet paid by the relevant Primary Creditors who are obliged to pay such amounts, as described in this section.

Limitation on Enforcement of Shareholder Liabilities

Creditors in respect of the Shareholder Liabilities will not be permitted to take any enforcement action in respect of such liabilities prior to the last to occur of the Super Senior Discharge Date, the Senior Secured Discharge Date and the Senior Debt Discharge Date (the "Final Discharge Date") save that, prior to the Final Discharge Date and after the occurrence of an insolvency event in relation to any Debtor or member of the Group or grantor of Transaction Security, each such Creditor may only (unless otherwise directed by the Security Agent or unless the Security Agent has taken, or has given notice that it intends to take, action on behalf of that Creditor in accordance with the terms of the Intercreditor Agreement), and shall, if so directed by the Security Agent, exercise any right it may otherwise have against that member of the Group to:

(a) accelerate any of that member of the Group's Shareholder Liabilities or declare them prematurely due and payable or payable on demand;

(b) make a demand under any guarantee, indemnity or other assurance against loss given by that member of the Group in respect of any Shareholder Liabilities;

(c) exercise any right of set-off or take or receive any payment in respect of any Shareholder Liabilities of that member of the Group; or

(d) claim and prove in the liquidation of that member of the Group for the Shareholder Liabilities owing to it,

but shall not take any other enforcement action.

Limitation on Enforcement of Intra Group Liabilities

Creditors in respect of the Intra Group Liabilities will not be permitted to take any enforcement action (other than rights of set-off to enable permitted intragroup payments) in respect of such liabilities prior to the Final Discharge Date except that, prior to the Final Discharge Date and after the occurrence of an insolvency event in relation to any member of the Group or grantor of Transaction Security, each Intra Group Lender may only (unless otherwise directed by the Security Agent or unless the Security Agent has taken, or has given notice that it intends to take, action on behalf of that Intra Group Lender in accordance with the Intercreditor Agreement) and shall, if so directed by the Security Agent, exercise any right it may otherwise have against that member of the Group to:

(a) accelerate any of that Group member's Intra Group Liabilities or declare them prematurely due and payable or payable on demand;

(b) make a demand under any guarantee, indemnity or other assurance against loss given by that member of the Group in respect of any Intra Group Liabilities;

(c) exercise any right of set-off or take or receive any payment in respect of any Intra Group Liabilities of that member of the Group; or

(d) file claims, or claim and prove in the liquidation of that member of the Group for the Intra Group Liabilities owing to it,

but shall not take any other enforcement action.

Security Enforcement Principles

A Creditor Representative may only give enforcement instructions that are consistent with the following security enforcement principles (the "Security Enforcement Principles"):

(a) it shall be the primary and overriding aim of any enforcement of the Transaction Security to achieve the security enforcement objective, such objective being to maximize the recovery by the Super Senior Creditors and the Senior Secured Creditors so far as such recovery is consistent with prompt and expeditious realization of value from enforcement of the Transaction Security and the other terms of the Intercreditor Agreement (the "Security Enforcement Objective");

(b) without prejudice to the Security Enforcement Objective, the Transaction Security will be enforced and other enforcement action will be taken such that either:

(i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the terms of the Intercreditor Agreement (as further described in "*—Application of Proceeds from Enforcement of Transaction Security*"); or

(ii) in the case of enforcement by the Senior Secured Notes/*Pari Passu* Required Holders sufficient Proceeds from Enforcement will be received by the Security Agent in cash to ensure that when the proceeds are applied in accordance with the terms of the Intercreditor Agreement (see "*—Application of Proceeds from Enforcement of Transaction Security*"), the Super Senior Liabilities are repaid and discharged in full in cash (unless the Majority Super Senior Creditors agree otherwise);

(c) to the extent that the Transaction Security that is the subject of the proposed enforcement action is:

(i) securing assets other than shares in a member of the Group where the aggregate book value of such assets exceeds €5 million (or its equivalent); or

(ii) over some or all of the shares in a member of the Group,

then the Security Agent shall, if requested by the Instructing Group, and at the expense of the Senior Secured Notes Issuer, (to the extent that financial advisors have not adopted a general policy of not providing such opinion) appoint an internationally recognized investment bank or accountancy firm or, if it is not practicable for the Security Agent to appoint any such bank or firm on commercially reasonable terms (including for reasons of conflicts of interest) as determined by the Security Agent (acting in good faith), another third-party professional firm which is regularly engaged in providing valuations in respect of the relevant type of assets (in each case not being the firm appointed as the relevant Debtor's administrator or other relevant officer holder) selected by the Security Agent (a "Financial Advisor") to opine as expert that the consideration received from any disposal is fair from a financial point of view after taking into account all relevant circumstances (a "Financial Advisor's Opinion");

(d) the Security Agent shall be under no obligation to appoint a Financial Advisor or to seek the advice of a Financial Advisor, unless expressly required to do so by the Intercreditor Agreement. Prior to making any appointment of a Financial Advisor, the Security Agent is entitled to ensure that cost cover (at a level it is satisfied with acting reasonably) has been provided;

(e) the Financial Advisor's Opinion (or any equivalent opinion obtained by the Security Agent in relation to any other enforcement of the Transaction Security that such action is fair from a financial point of view after taking into account all relevant circumstances) will be conclusive evidence that the Security Enforcement Objective has been met;

(f) where the Instructing Group is the Senior Secured Notes/*Pari Passu* Required Holders, the Senior Secured Notes/*Pari Passu* Required Holders may waive the requirement for a Financial Advisor's Opinion where sufficient Proceeds from Enforcement will be received by the Security Agent in cash to ensure that when the proceeds are applied in accordance with the terms of the Intercreditor Agreement (see "*—Application of Proceeds from Enforcement of Transaction Security*"), the Super Senior Liabilities are repaid and discharged in full; and

(g) in the event that an enforcement of the Transaction Security is conducted by way of Public Auction (as defined below), no Financial Advisor shall be required to be appointed, and no Financial Advisor's Opinion shall be required, in relation to such enforcement, *provided that* the Security Agent shall be entitled (but not obligated) to appoint a Financial Advisor to provide such advice as the Security Agent deems appropriate in relation to such enforcement by way of Public Auction.

The Security Enforcement Principles may be amended, varied or waived with the prior written consent of the Majority Super Senior Creditors, the Senior Secured Notes Required Holders, the *Pari Passu* Debt Required Holders, the Security Agent and the Senior Secured Notes Issuer.

"Public Auction" means an auction or other competitive sale process of assets, by or on behalf of the Security Agent pursuant to an enforcement of Transaction Security (or by a member of the Group in circumstances that are a Distressed Disposal (as defined below)), the process of such sale or disposal having been conducted as follows:

(a) prior to the sale or other disposal, the Security Agent shall, in respect of such auction or other competitive sale process, consult with an internationally recognized investment bank or accounting firm selected by the Security Agent (acting reasonably) with respect to the procedures which may reasonably be expected to be used to obtain a fair market price in the then prevailing market conditions (taking into account all relevant circumstances and in order to facilitate a prompt and expeditious sale at a fair market price in the prevailing market conditions although there shall be no obligation to postpone any such sale in order to achieve a higher price);

(b) the Security Agent shall have implemented (to the extent permitted by law) in all material respects the procedures recommended by such bank or firm in relation to such auction or process;

(c) the Secured Parties shall have a right to participate; and

(d) UK Holdco shall not have the right to participate without the consent of the Majority Super Senior Creditors (excluding the Hedge Counterparties), the Senior Secured Notes Required Holders and the *Pari Passu* Debt Required Holders of each tranche of *Pari Passu* Debt if such auction or competitive sale process is in respect of Shared Security or assets which were secured by such Shared Security before foreclosure thereof.

For the purposes of paragraphs (a), (b), (c) and (d) above:

(i) the Security Agent shall be entitled to retain any such internationally recognized investment bank or accounting firm as its and/or any of the other Secured Parties' financial advisor to advise and assist in the proposed sale or disposition for such remuneration as the Security Agent in good faith determines is appropriate for the circumstances;

(ii) except as required by applicable law, the Security Agent shall not have any obligation to any person to engage in or to use reasonable efforts to engage in a listing of any or all of any equity interests the subject of such auction or other competitive sale process, including, without limitation, if recommended by such investment bank or accounting firm;

(iii) by reason of certain prohibitions, or exemptive or safe-harbor provisions from such prohibitions, contained in law or regulations of any applicable governmental authority, the Security Agent may, with respect to any sale of all or any part of such equity interests or assets:

(A) limit purchasers to those who meet the requirements of such governmental authority or exemptive or safe-harbor provision (as applicable) and/or make representations and undertakings satisfactory to the Security Agent relating to compliance with such requirements and/or provisions; and/or

(B) limit purchasers to persons who will agree, among other things to acquire such shares for their own account, for investment and not with a view to the distribution or resale thereof;

(iv) the Security Agent and other Secured Parties shall not under any circumstances be required to make representations, warranties or undertakings to any actual or proposed purchaser (other than customary representations in a security enforcement as to power to transfer the relevant equity interests pursuant to the Transaction Security Documents) or to indemnify any actual or proposed purchaser against any costs, liabilities or similar expenses or losses;

(v) without limitation to the other circumstances of the sale or other disposition that the Security Agent and such investment bank or accounting firm may take into consideration, the Security Agent may (but is not required to) in all circumstances specify that no offer to purchase equity interest or other assets will be entertained unless such offer:

(A) is for all (and not some only) of the equity interests being sold or otherwise disposed;

(B) is for cash consideration payable at closing (and therefore not including, for the avoidance of doubt, any element of deferred compensation) and is not subject to any financing conditions; and/or

(C) contemplates a closing of the sale of the equity interests or other assets in not more than three (3) months (or such longer period as the Security Agent may specify) from the time of initiation of the sale or disposition process; and

(vi) a "right to participate":

(A) means any offer, or indication of a potential offer, that a Secured Party makes shall be considered by the Security Agent or such investment bank or accounting firm against the same criteria as any offer, or indication of a potential offer, by any other bidder or potential bidder. For the avoidance of doubt, if after having applied that same criteria, the offer or indication of a potential offer made by a Secured Party is not considered by the Security Agent or such investment bank or accounting firm to be sufficient to continue in the sale or disposal process, such consideration being against the same criteria as any offer, or indication of a potential offer, by any other bidder or potential bidder (such continuation may include being invited to review additional information or being invited to have an opportunity to make a subsequent or revised offer, whether in another round of bidding or otherwise) then the right to participate of that Secured Party under this Agreement shall be deemed to be satisfied; and

(B) shall not apply if the Security Agent believes in good faith that it may (or there is a risk that it may) result in a violation of any applicable laws or that it may (or there is a risk that it may) result in a requirement for registration under any applicable securities laws.

For the purposes of paragraph (a), such investment bank or accounting firm may be instructed by the Security Agent to take the limitations set out in subparagraphs (i) to (vi) (inclusive) above into account and to formulate recommendations that are consistent with them.

Exercise of Voting Rights

Each Creditor (other than the Credit Facility Lenders, the Revolving Credit Facility Agent, the Senior Secured Notes Trustee, the *Pari Passu* Debt Representative and the Senior Debt Representative) will cast its vote in any proposal put to the vote by or under the supervision of any judicial or supervisory authority in respect of any insolvency, pre-insolvency or rehabilitation or similar proceedings relating to any member of the Group as instructed by the Security Agent and the Security Agent shall give instructions for these purposes as directed by the Instructing Group, *provided that* such instructions have been given in accordance with the terms of the Intercreditor Agreement.

Turnover

Turnover by Primary Creditors

The Intercreditor Agreement provides that if any creditor in respect of the Super Senior Liabilities, the Senior Secured Liabilities or the Senior Debt Liabilities (the "Primary Creditors") receives or recovers the proceeds of any enforcement of any Transaction Security (whether before or after an insolvency event) other than in accordance with the payment waterfall described in "*—Application of Proceeds from Enforcement of Transaction Security*," that Primary Creditor will, subject to certain exceptions:

(a) in relation to receipts or recoveries not received or recovered by way of set-off: (i) hold that amount on trust for the Security Agent and promptly pay that amount to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and (ii) promptly pay an amount equal to the amount (if any) by which receipt or recovery exceeds the relevant liabilities owed to such creditor to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and

(b) in relation to receipts and recoveries received or recovered by way of set-off, promptly pay an amount equal to that recovery to the Security Agent for application in accordance with the terms of the Intercreditor Agreement.

Turnover by Senior Debt Creditors and Subordinated Creditors

The Intercreditor Agreement provides that if any Senior Debt Creditor or any creditor of any Subordinated Liabilities receives or recovers:

(a) any payment or distribution of, or on account of, or in relation to any such liabilities which is not otherwise permitted under the Intercreditor Agreement or made in accordance with the payment waterfall described in "*—Application of Proceeds from Enforcement of Transaction Security*";

(b) other than by way of set-off permitted under the Intercreditor Agreement, any amount by way of set-off in respect of any such liabilities which is not otherwise permitted under the Intercreditor Agreement or which does not give effect to a payment or enforcement action which is otherwise permitted to be made, received or taken by the relevant creditor under the Intercreditor Agreement;

(c) other than by way of set-off permitted under the Intercreditor Agreement, any amount on account of, or in relation to, any of such liabilities after the occurrence of an Secured Debt Acceleration Event or the enforcement of any Transaction Security (a "Distress Event") or as a result of any other litigation or proceedings against a Debtor or a member of the Group (other than after the occurrence of an insolvency event in respect of that Debtor or that member of the Group), other than, in each case, any amount received or recovered in accordance with the payment waterfall described in "*—Application of Proceeds from Enforcement of Transaction Security*";

(d) other than by way of set-off permitted under the Intercreditor Agreement, any amount by way of set-off in respect of any of such liabilities after the occurrence of a Distress Event; or

(e) other than by way of set-off permitted under the Intercreditor Agreement, any distribution in cash or in kind or payment of, or on account of or in relation to, any of such liabilities which is not made in accordance with the payment waterfall described in "*—Application of Proceeds from Enforcement of Transaction Security*" and which is made as a result of, or after, the occurrence of an insolvency event in respect of that Debtor,

the relevant Senior Debt Creditor or Subordinated Creditor (as applicable) will, subject to certain exceptions:

(i) in relation to receipts or recoveries not received or recovered by way of set-off, hold that amount on trust for the Security Agent and promptly pay that amount to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and promptly pay an amount equal to the amount (if any) by which receipt or recovery exceeds the relevant liabilities owed to such creditor to the Security Agent for application in accordance with the terms of the Intercreditor Agreement; and

(ii) in relation to receipts and recoveries received or recovered by way of set-off, promptly pay an amount equal to that recovery to the Security Agent for application in accordance with the terms of the Intercreditor Agreement.

Application of Proceeds from Enforcement of Transaction Security

The Intercreditor Agreement provides that amounts received from the realization or enforcement of all or any part of the Transaction Security will be applied in the following order of priority:

(a) *first*, *pari passu* and *pro rata* in or towards payment of: (A) any sums owing to the Security Agent or any delegate appointed by the Security Agent or any receiver, any *Pari Passu* Debt Representative in respect of any *Pari Passu* Debt issued in the form of notes, any amounts owing to the Senior Secured Notes Trustee, any Senior Debt Representative Amounts payable to the Senior Debt Representative and (B) the liabilities owed to the Revolving Credit Facility Agent and each Creditor Representative (to the extent not included in the foregoing and excluding any Hedge Counterparty in its capacity as its own Creditor Representative) of any unpaid fees, costs, expenses and liabilities (and all interest thereon as provided in the relevant finance documents) of each such Creditor Representative and any receiver, attorney or agent appointed by such Creditor Representative under any Transaction Security Document or the Intercreditor Agreement (to the extent that such Transaction Security has been given in favor of such obligations);

(b) *second*, *pari passu* and *pro rata* in or toward payment of all costs and expenses incurred by the holders of Super Senior Liabilities and the holders of Senior Secured Liabilities (and their respective Creditor Representatives) in connection with any realization or enforcement of the Transaction Security taken in accordance with the terms of the Transaction Security Documents and the Intercreditor Agreement or any action taken at the request of the Security Agent;

(c) *third*, *pari passu* and *pro rata* in or toward payment to: (i) the Revolving Credit Facility Agent on behalf of the Revolving Credit Facility finance parties and on behalf of the arrangers under the Revolving Credit Facility and each Creditor Representative in respect of a Credit Facility on behalf of the arrangers and lenders under and in respect of that Credit Facility; and (ii) the Hedge Counterparties in respect of the Super Senior Hedging Liabilities, for application towards the discharge of (A) the Credit Facility Lender Liabilities and related liabilities owed to the arrangers under the Revolving Credit Facility and the Credit Facility Lender Liabilities and related liabilities owed to the arrangers under such Credit Facility in accordance with the terms of the Credit Facility Documents and (B) the Super Senior Hedging Liabilities on a *pari passu* and *pro rata* basis as between (A) and (B);

(d) *fourth*, *pari passu* and *pro rata* to the Senior Secured Notes Trustee on behalf of the Senior Secured Noteholders for application towards the discharge of the Senior Secured Notes Liabilities and to the relevant *Pari Passu* Debt Representative on behalf of the *Pari Passu* Creditors for application towards the discharge of the *Pari Passu* Liabilities and to the Non-Super Senior Hedge Counterparties for application towards the discharge of the Non-Super Senior Hedging Liabilities; and

(e) *fifth*, to the extent paid out of enforcement proceeds resulting from the enforcement of Shared Security, the Senior Debt Guarantee or proceeds from a Distressed Disposal in relation to assets which were previously secured by such Shared Security, in payment or distribution to each Senior Debt Representative on behalf of the Senior Debt Creditors or, if there is no Senior Debt Representative acting on behalf of any relevant Senior Debt Creditors, such Senior Debt Creditors for application towards the discharge of the Senior Debt Liabilities owed to the Senior Debt Creditors (in accordance with the terms of the Senior Debt Documents);

(f) *sixth*, *pro rata* and *pari passu* among themselves to any Security Provider or Debtor to which a Soulte has been paid or remains payable, in payment or distribution in an amount equal to such Soulte and to the extent such Soulte has been already paid by any Secured Parties to such Security Provider or Debtor, only to the extent that such Security Provider or Debtor has turned such Soulte over to the Security Agent in accordance with the provisions of the Intercreditor Agreement; and

(g) the balance, if any, in payment or distribution to the Security Providers, any member of the Group or any other party entitled to receive it.

Release of the Guarantees and the Security

Non-Distressed Disposal

In circumstances where:

(a) a disposal of an asset of the Group (or, to the extent subject to Transaction Security, UK Holdco), or any other release of an asset of the Group which is subject to the Transaction Security; or

(b) any other release of a Debtor or Security Provider from its guarantee liabilities and Transaction Security in a manner contemplated by the Debt Documents,

is not being effected (a) by enforcement of the Transaction Security; (b) at the request of the Instructing Group, after the Transaction Security has become enforceable; or (c) in the case of a disposal to a person or persons outside the Group, after a Secured Debt Acceleration Event or a Distress Event has occurred (each a "Distressed Disposal") and is otherwise permitted by the Credit Facility Documents, the Senior Secured Notes Documents, the *Pari Passu* Debt Documents and the Senior Debt Documents (together the "Senior Debt Documents," and such disposal, a "Non-Distressed Disposal"), the Intercreditor Agreement provides that the Security Agent is authorized (i) to release the Transaction Security or any other claim relating to a Debt Document over the relevant asset; and (ii) if the relevant asset consists of shares in the capital of a Debtor, to release the Transaction Security or any other claim relating to a Debt Document over the assets of that Debtor and the shares in and assets of any of its subsidiaries, *provided that* if an asset which is the subject of a Non-Distressed Disposal is transferred to another member of the Group the release of the Transaction Security must be permitted under the terms of the Credit Facilities, the Senior Secured Notes Documents and any *Pari Passu* Debt Documents and, to the extent that replacement Transaction Security is required from the transferee under the terms of the Debt Documents, such Transaction Security will (subject to any other requirements relating to the release, retaking, amendment or extension of the Transaction Security under the Debt Documents) be granted at the same time as (or before) the relevant disposals are effected.

If any proceeds from a Non-Distressed Disposal are required to be applied in mandatory prepayment of any of the Secured Liabilities or to be offered to any Secured Party pursuant to the terms of the Secured Debt Documents, then such proceeds will be applied in or towards payment of such Secured Liabilities or shall be offered to the relevant Secured Parties in accordance with the terms of the relevant Secured Debt Documents and the consent of any other party will not be required for that application.

Distressed Disposal

Where a Distressed Disposal of an asset is being effected, the Intercreditor Agreement provides that the Security Agent is authorized: (a) if the asset being disposed of consists of shares in the capital of a Debtor, to release: (i) the Transaction Security over the assets of that Debtor or any subsidiary of that Debtor; (ii) that Debtor and any subsidiary of that Debtor from all or any part of its borrowing liabilities in respect of the Debt Documents (other than borrowing liabilities owed by the Senior Secured Notes Issuer to the Primary Creditors), its liabilities as guarantor in respect of the Debt Documents and any trading or other liabilities it may have to an Intra Group Lender or another Debtor ("Other Liabilities"); and (iii) any other claim of a Subordinated Creditor or another Debtor over the relevant assets; and (b) if the asset being disposed of consists of shares in the capital of a holding company of a Debtor, to release: (i) the Transaction Security over the assets of that holding company and any subsidiary of that holding company; (ii) that holding company and any subsidiary of that holding company from all or any part of its borrowing liabilities in respect of the Debt Documents (other than borrowing liabilities owed by the Senior Secured Notes Issuer to the Primary Creditors), its liabilities as guarantor in respect of the Debt Documents and any Other Liabilities; and (iii) any other claim of a Subordinated Creditor or another Debtor over the relevant assets.

Where a Distressed Disposal of an asset is being effected, the Intercreditor Agreement provides that the Security Agent is authorized:

(a) if the asset being disposed of consists of shares in the capital of a Debtor or a holding company of a Debtor and the Security Agent (acting in accordance with the terms of the Intercreditor Agreement) decides to dispose of all or any part of the liabilities of that Debtor or holding company or any subsidiary of that Debtor or holding company under the Debt Documents (other than borrowing liabilities owed by the Senior Secured Notes Issuer to a Primary Creditor) or any liabilities owed by such Debtor, holding company or subsidiary to another Debtor ("Debtor Liabilities"):

   (i) if the Security Agent does not intend that the relevant transferee will be treated as a Primary Creditor or a Secured Party for the purposes of the Intercreditor Agreement, to enter into any agreement to dispose of all (but not part) of such liabilities owed to a Primary Creditor or all (but not part) of such Debtor Liabilities; or

   (ii) if the Security Agent does intend that the relevant transferee will be treated as a Primary Creditor or a Secured Party for the purposes of the Intercreditor Agreement, to enter into any agreement to dispose of all (but not part) of such liabilities owed to a Primary Creditor and all or any part of such Debtor Liabilities and any other liabilities under the Debt Documents,

on behalf of the relevant creditors and Debtors.

Where a Distressed Disposal of an asset is being effected, the Intercreditor Agreement also provides that the Security Agent is authorized, if the asset being disposed of consists of shares in the capital of a Debtor or a holding company of a Debtor (the "Disposed Entity") and the Security Agent decides to transfer to another Debtor all or any part of that Disposed Entity's obligations (or any obligations of any subsidiary of that Disposed Entity) in respect of Intra Group Liabilities or Debtor Liabilities, to enter into any agreement to agree the transfer and acceptance of all or part of the obligations in respect of those

Intra Group Liabilities or Debtor Liabilities on behalf of the Debtors which owe such liabilities and the Debtors to which such liabilities are to be transferred.

In the case of a Distressed Disposal, the Security Agent shall take reasonable care to obtain a fair market price in the prevailing market conditions (though the Security Agent shall not have an obligation to postpone any Distressed Disposal in order to achieve a higher price).

If on or after the first date on which Senior Debt are issued but before the Senior Debt Discharge Date, a Distressed Disposal is being effected such that the Senior Debt Guarantees will be released, it is a further condition to the release that either:

(a) the Senior Debt Representative has approved the release on the instructions of the Senior Debt Required Holders; or

(b) where shares or assets of a Senior Debt Guarantor are sold:

(i) the proceeds of such sale or disposal are in cash (or substantially in cash);

(ii) all present and future obligations owed to the Secured Parties under the Credit Facility Documents, Hedging Agreements, the Senior Secured Notes Documents and the *Pari Passu* Debt Documents by a member of the Group, all of whose shares are pledged or charged in favor of the Secured Parties are sold or disposed of pursuant to such enforcement action, are unconditionally released and discharged or sold or disposed of concurrently with such sale (and are not assumed by the purchaser or one of its affiliates), and all or part security under the Transaction Security Documents in respect of the assets that are sold or disposed of is simultaneously and unconditionally released and discharged concurrently with such sale, provided that in the event of a sale or disposal of any such claim (instead of a release or discharge):

(A) the Credit Facility Agent, Senior Secured Notes Trustee and *Pari Passu* Debt Representative determine acting reasonably and in good faith that the finance parties under the Revolving Credit Facility, the Senior Secured Note Creditors and the *Pari Passu* Creditors (respectively) will recover more than if such claim was released or discharged; and

(B) the Credit Facility Agent, Senior Secured Notes Trustee and *Pari Passu* Debt Representative serve a notice on the Security Agent notifying the Security Agent of the same, in which case the Security Agent shall be entitled immediately to sell and transfer such claim to such purchaser (or an affiliate of such purchaser); and

(iii) such sale or disposal (including any sale or disposal of any claim) is made:

(A) pursuant to a Public Auction; or

(B) where a Financial Advisor confirms that the sale, disposal or transfer price is fair from a financial point of view after taking into account all relevant circumstances, although there shall be no obligation to postpone any such sale, disposal or transfer in order to achieve a higher price.

The net proceeds of each Distressed Disposal (and the net proceeds of any disposal of liabilities owed to a Primary Creditor or disposal of Debtor Liabilities) shall be paid to the Security Agent for application in accordance with the payment waterfall described in "*—Application of Proceeds from Enforcement of Transaction Security*," as if those proceeds were the proceeds of an enforcement of the Transaction Security and, to the extent that any disposal of liabilities owed to a Primary Creditor or disposal of Debtor Liabilities has occurred, as if that disposal of liabilities or Debtor Liabilities had not occurred.

In this section:

"Majority Super Senior Creditors" means those Super Senior Creditors whose super senior credit participations at that time aggregate more than 66⅔% of the total super senior credit participations at that time;

"*Pari Passu* Debt Required Holders" means in respect of any direction, approval, consent or waiver to be granted by a tranche of the *Pari Passu* Debt, the *Pari Passu* Creditors of the principal amount of the relevant tranche of *Pari Passu* Debt required to vote in favor of such direction, consent or waiver under the terms of the relevant *Pari Passu* Debt Documents or, if the required amount is not specified, the holders holding at least the majority of the principal amount of the then outstanding relevant tranche of *Pari Passu* Debt, in accordance with the relevant *Pari Passu* Debt Documents. For the avoidance of doubt, in determining whether the *Pari Passu* Creditors of the required principal amount of relevant tranche of *Pari Passu* Debt have concurred in any direction, waiver or consent, relevant *Pari Passu* Debt owned by any Debtor, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with any Debtor (other than an independent fund established for the purpose of making, purchasing or investing in loans or debt securities and which has not been set up solely to make purchases of any of the commitments or amounts outstanding under the Debt Documents, and which is managed or controlled by Cinven Capital Management (V) General Partner Limited or its affiliates which have an ownership interest in the Group (an "Independent Debt Fund")), will be considered as though not outstanding;

"Relevant Enforcement Action" means either (a) the determination by the Instructing Group of the method of enforcement of Transaction Security or (b) the appointment of a Financial Advisor by the Instructing Group to assist in such determination;

"Senior Secured Notes/*Pari Passu* Required Holders" means, at any time, those Senior Secured Notes Required Holders, *Pari Passu* Debt Required Holders and Non- Super Senior Hedging Counterparties whose Senior Secured Credit participations at that time aggregate more than 50% of the total Senior Secured Credit Participations (as defined herein) at that time;

"Senior Secured Notes Required Holders" means in respect of any direction, approval, consent or waiver, the Senior Secured Notes Trustee acting on behalf of the relevant Senior Secured Noteholders of the principal amount of the then outstanding Senior Secured Notes required or permitted under the terms of the Senior Secured Notes Indenture to vote in favor of such direction, approval, consent or waiver under the terms of the Senior Secured Notes Indenture or, if the required amount is not specified, the holders holding at least the majority of the aggregate principal amount of the then outstanding Senior Secured Notes, in accordance with the Senior Secured Notes Indenture. For the avoidance of doubt, in determining whether the Senior Secured Noteholders of the required principal amount of Senior Secured Notes have concurred in any direction, approval, consent or waiver, Senior Secured Notes owned by any Debtor, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with any Debtor other than an Independent Debt Fund, will be considered as though not outstanding, except that for the purpose of determining whether the Senior Secured Notes Trustee will be protected in relying on any such direction, approval, waiver or consent, only Senior Secured Notes that the Senior Secured Notes Trustee knows are so owned will be disregarded;

"Senior Debt Guarantees" means each senior subordinated guarantee by a Senior Debt Guarantor of the obligations of the Senior Debt Issuer under the Senior Debt Documents which shall be made expressly subject to the provisions of the Intercreditor Agreement in a legally binding manner; and

"Senior Debt Required Holders" means, in respect of any direction, approval, consent or waiver to be granted by a tranche or class of Senior Debt Creditors, the Senior Debt Creditors of the principal amount of the relevant tranche or class of Senior Debt required to vote in favor of such direction, approval, consent or waiver under the terms of the relevant Senior Debt Documents (which includes for the avoidance of doubt the Senior Notes), or, if the required amount is not specified, the holders holding at least a majority of the principal amount of the then outstanding relevant tranche or class of Senior Debt, in accordance with the relevant Senior Debt Documents. For the avoidance of doubt, in determining whether the Senior Debt Creditors of the required principal amount of relevant tranche or class of Senior Debt have concurred in any direction, waiver or consent, relevant Senior Debt owned by any Debtor, or by any Person directly or indirectly controlling or controlled by or under direct or indirect common control with any Debtor other than an Independent Debt Fund, will be considered as though not outstanding.

Amendment

In addition to customary minor, technical or administrative matter amendments by the Security Agent, the Intercreditor Agreement provides that it may be amended with only the consent of the Majority Super Senior Creditors, the Senior Secured Notes Required Holders, the *Pari Passu* Debt Required Holders, the Senior Debt Required Holders, the Senior Secured Notes Issuer (on behalf of itself and on behalf of the Guarantors) and the Security Agent (insofar as the amendment or waiver might adversely affect the rights, ranking, immunities or protections of the Security Agent), unless it is an amendment, waiver or consent that has the effect of changing or which relates to: (a) any amendment to the order of priority or subordination set forth in the Intercreditor Agreement; (b) any amendment to the payment waterfall, turnover provisions or enforcement provisions set forth in the Intercreditor Agreement; (c) certain provisions relating to the giving of instructions to the Security Agent or the exercise of discretion by the Security Agent; or (d) the amendment of such provision in the Intercreditor Agreement, which shall not be made without consent of:

(i) the Credit Facility Lenders;

(ii) the Senior Secured Notes Trustee (acting in accordance with the terms of the Senior Secured Notes Indenture);

(iii) in the case of any Senior Debt constituting an issuance of debt securities, the Senior Debt Representative (acting in accordance with the terms of the relevant Senior Debt Document), insofar as the amendment or waiver might adversely affect the rights, ranking, immunities or protections of the Senior Debt Representative or the Senior Debt Creditors;

(iv) in the case of any Senior Debt constituting a credit facility, the Senior Debt Creditors in that tranche of Senior Debt;

(v) in the case of any *Pari Passu* Debt constituting an issuance of debt securities, the *Pari Passu* Debt Representative (acting in accordance with the terms of the relevant *Pari Passu* Debt Documents);

(vi) in the case of any *Pari Passu* Debt constituting a credit facility, the *Pari Passu* Creditors in that tranche of *Pari Passu* Debt;

(vii) each Hedge Counterparty (to the extent that the amendment or waiver would adversely affect the Hedge Counterparty);

(viii)the Senior Secured Notes Issuer; and

(ix) the Security Agent (insofar as the amendment or waiver might adversely affect the rights, ranking, immunities or protections of the Security Agent).

If, however, an amendment, waiver or consent affects only one class of Secured Party and could not reasonably be expected to materially and adversely affect the interests of the other classes of Secured Party, only agreement from the required portion of the relevant affected class is required.

Subject to the paragraphs above and certain other exceptions, no amendment or waiver of the Intercreditor Agreement may impose new or additional obligations on or withdraw or reduce the rights of any party to the Intercreditor Agreement without the prior written consent of the affected party.

Option to Purchase: Senior Secured Notes Creditors and Pari Passu Creditors

After a Distress Event, by giving not less than ten days' prior written notice to the Revolving Credit Facility Agent and, if applicable, the Hedge Counterparties, the Senior Secured Notes Trustee and the *Pari Passu* Debt Representative, at the direction and expense of and having obtained all necessary approvals from the Senior Secured Noteholders and *Pari Passu* Creditors (as applicable) (the "Purchasing Senior Secured Creditors"), will have the right to acquire or procure that a nominee acquires by way of transfer all (but not part only) of the rights and obligations of the Credit Facility Lenders and the Super Senior Hedge Counterparties in respect of Super Senior Liabilities and the Super Senior Hedging Liabilities (the "Super Senior Acquisition Debt"). If more than one Purchasing Senior Secured Creditor wishes to exercise the option to purchase the Super Senior Acquisition Debt, each such Purchasing Senior Secured Creditor shall acquire the Super Senior Acquisition Debt *pro rata*, in the proportion that its principal amount outstanding under the Senior Secured Notes and its principal amount outstanding under the *Pari Passu* Debt Documents ("Senior Secured Credit Participations") bears to the aggregate Senior Secured Credit Participations of all the Purchasing Senior Secured Creditors.

Any such purchase will be on terms which will include, without limitation, payment in full in cash of an amount equal to the Credit Facility Lender Liabilities then outstanding and relevant hedging purchase amount (as determined in accordance with the Intercreditor Agreement), including in respect of any broken funding costs, as well as certain costs and expenses of the Super Senior Creditors and Super Senior Hedge Counterparties; after the transfer, no Super Senior Creditor or Super Senior Hedge Counterparty will be under any actual or contingent liability to any Debtor or any other person under the Intercreditor Agreement, any Credit Facility Document or any Hedging Agreement (in relation to Super Senior Hedging Liabilities only) for which it is not holding cash collateral in an amount and on terms satisfactory to it; the Purchasing Senior Secured Creditors (other than the Senior Secured Notes Trustee and the *Pari*

Passu Debt Representative) indemnify each Super Senior Creditor and Super Senior Hedge Counterparty for any actual or alleged obligation to repay or claw back any amount received by such Super Senior Creditor or Super Senior Hedge Counterparty; and the relevant transfer shall be without recourse to, or warranty from, any Super Senior Creditor or Super Senior Hedge Counterparty, save that each Credit Facility Lender and Super Senior Hedge Counterparty will be deemed to have given the following representations and warranties on the date of the transfer:

(a) in the case of a Credit Facility Lender, it is the sole owner, free from all security and third-party interests (other than any arising under the relevant finance documents or by operation of law), of all rights and interests under the Revolving Credit Facility finance documents or the Credit Facility Documents purporting to be transferred by it by that transfer;

(b) in the case of a Super Senior Hedge Counterparty, it is the sole owner, free from all Security and third-party interests (other than any arising under the relevant Hedging Agreements or by operation of law) of all rights and interests under the relevant Hedging Agreements purporting to be transferred by it by that transfer;

(c) it has the power to enter into and make, and has taken all necessary action to authorize its entry into and making of, that transfer;

(d) the Credit Facility Lenders and Super Senior Hedge Counterparties are satisfied with the results of any "know your client" or other similar checks relating to the identity of any person that they are required by law to carry out in relation to such a transfer; and

(e) the Senior Debt Creditors have not exercised the purchase rights described in "*—Option to Purchase: Senior Debt Creditors*" or, having exercised such rights, have failed to complete the acquisition of the Credit Facility Lender Liabilities, the Hedging Liabilities under the Hedging Agreements, the Senior Secured Notes Liabilities and the *Pari Passu* Liabilities.

Option to Purchase: Senior Debt Creditors

The Senior Debt Creditors (the "Purchasing Senior Debt Creditors") may, after a Distress Event, by giving not less than ten days' notice to the Credit Facility Agent, the Senior Secured Notes Trustee, the Hedge Counterparties and the *Pari Passu* Debt Representative (together, the "Relevant Representatives"), require the transfer to them (or to a nominee or nominees) of all (but not part only) of the rights, benefits and obligations in respect of the Super Senior Liabilities and the Senior Secured Liabilities (the "Senior Secured Acquisition Debt"). If more than one Purchasing Senior Debt Creditor wishes to exercise the option to purchase the Senior Secured Acquisition Debt, each such Purchasing Senior Debt Creditor shall acquire the Senior Secured Acquisition Debt *pro rata*, in the proportion that its principal amount outstanding under the Senior Debt and its principal amount outstanding under the Senior Debt Documents ("Senior Debt Credit Participations") bears to the aggregate Senior Debt Credit Participations of all the Purchasing Senior Debt Creditors.

Any such purchase will be on terms which will include, without limitation, payment in full in cash of an amount equal to the Secured Liabilities then outstanding, including in respect of any broken funding costs, as well as certain costs and expenses of the creditors in respect of the relevant Secured Liabilities; after the transfer, no Credit Facility Lender, Hedge Counterparty, Senior Secured Notes Creditor or *Pari Passu* Creditor will be under any actual or contingent liability to any Debtor or any other person under the Intercreditor Agreement, any Credit Facility Document, any Hedging Agreement, any Senior Secured Notes Finance Document or any *Pari Passu* Debt Document for which it is not holding cash collateral in an amount and on terms satisfactory to it; the Purchasing Senior Debt Creditors, other than the Senior Debt Representative (or if required by the Credit Facility Lenders, Hedge Counterparties, Senior Secured Noteholders or *Pari Passu* Creditors, a third party acceptable to the Credit Facility Lenders, Hedge Counterparties, Senior Secured Notes Creditors or *Pari Passu* Creditors), shall provide on the date of the transfer an indemnity to each Credit Facility Lender and each other finance party under such Credit Facility Document, Hedge Counterparty, Senior Secured Notes Creditor or *Pari Passu* Creditor (each, an "Indemnified Party") for any actual or alleged obligation to repay or claw back any amount received by such Indemnified Party; and the relevant transfer shall be without recourse to, or warranty from, any Primary Creditor, save that each such Primary Creditor will be deemed to have given the following representations and warranties on the date of the transfer:

(a) in the case of a Credit Facility Lender, it is the sole owner, free from all Security and third-party interests (other than any arising under the Credit Facility Documents or by operation of law), of all rights and interests under the Credit Facility Documents purporting to be transferred by it by that transfer;

(b) in the case of a Hedge Counterparty, it is the sole owner, free from all Security and third-party interests (other than any arising under the Hedging Agreements or by operation of law) of all rights and interests under the Hedging Agreements purporting to be transferred by it by that transfer;

(c) in the case of a Senior Secured Notes Creditor, it is the sole owner, free from all Security and third-party interests (other than any arising under the Senior Secured Notes Documents or by operation of law), of all rights and interests under the Senior Secured Notes Documents purporting to be transferred by it by that transfer;

(d) in the case of a *Pari Passu* Creditor, it is the sole owner, free from all Security and third-party interests (other than any arising under the relevant *Pari Passu* Debt Documents or by operation of law), of all rights and interests under the relevant *Pari Passu* Debt Documents purporting to be transferred by it by that transfer;

(e) it has the power to enter into and make, and has taken all necessary action to authorize its entry into and making of, that transfer; and

(f) the transferring Primary Creditors and Hedge Counterparties are satisfied with the results of any "know your client" or other similar checks relating to the identity of any person that they or any representative are required by law to carry out in relation to such a transfer.

Governing Law

The Intercreditor Agreement is governed by and construed in accordance with English law.

DESCRIPTION OF THE TEMPORARY SENIOR SECURED NOTES

You will find definitions of certain capitalized terms used, but not defined, in this "Description of the Temporary Senior Secured Notes" in the "Description of the Senior Secured Notes" section of this offering memorandum. Certain capitalized terms used in this Description of the Temporary Senior Secured Notes may have different definitions than the same term used in other sections of this offering memorandum. For purposes of this "Description of the Temporary Senior Secured Notes", references to (i) the "Issuer" refers only to Ephios Bondco PLC, and any successor obligor to Ephios Bondco PLC under the Temporary Senior Secured Notes Indenture, and not to any of its Subsidiaries or to its parent, Ephios Holdco II plc and (ii) "Holder" means each Person in whose name the Temporary Senior Secured Notes are registered on the relevant Registrar's books, which shall initially be the respective nominee of the common depositary of Clearstream and Euroclear.

On August 6, 2015 (the "*Temporary Senior Secured Notes Issue Date*"), the Issuer will issue €685.0 million aggregate principal amount of Temporary Senior Secured Notes, consisting of €400.0 million aggregate principal amount of 6.25% Temporary Senior Secured Fixed Rate Notes due 2022 (the "*Temporary Senior Secured Fixed Rate Notes*") and €285.0 million aggregate principal amount of Temporary Senior Secured Floating Rate Notes (the "*Temporary Senior Secured Floating Rate Notes*" and, together with the Temporary Senior Secured Fixed Rate Notes, the "*Temporary Senior Secured Notes*") under an indenture (the "*Temporary Senior Secured Notes Indenture*") among, *inter alios,* the Issuer and U.S. Bank Trustees Limited, as the trustee (in such capacity, the "*Trustee*") and the security agent (in such capacity, the "*Security Agent*"), in a private transaction that is not subject to the registration requirements of the U.S. Securities Act of 1933, as amended. The Issuer will issue the Temporary Senior Secured Notes in minimum denominations of €100,000 and any integral multiple of €1,000 in excess thereof. The issue price of (i) the Temporary Senior Secured Fixed Rate Notes is 99.00% of the principal amount thereof plus an amount equal to the accrued interest on the Additional Senior Secured Fixed Rate Notes from June 17, 2015 to, but not including, the Temporary Senior Secured Notes Issue Date and (ii) the Temporary Senior Secured Floating Rate Notes is 99.00% of the principal amount thereof, plus an amount equal to the accrued interest on the Additional Senior Secured Floating Rate Notes from June 17, 2015 to, but not including, the Temporary Senior Secured Notes Issue Date. Interest on the Temporary Senior Secured Fixed Rate Notes will accrue at 6.25% per annum. Interest on the Temporary Senior Secured Floating Rate Notes will accrue at a rate per annum, reset quarterly, equal to the sum of (i) three month EURIBOR (with 0% floor) plus (ii) 5.00%, as determined by the Calculation Agent.

The terms and conditions of the Temporary Senior Secured Notes include those stated in the Temporary Senior Secured Notes Indenture and, (i) in the case of the Temporary Senior Secured Fixed Rate Notes are the same as the terms and conditions of the Senior Secured Fixed Rate Notes under the Senior Secured Notes Indenture and (ii) in the case of the Temporary Senior Secured Floating Rate Notes are the same as the terms and conditions of the Senior Secured Floating Rate Notes under the Senior Secured Notes Indenture, except for the changes related to the terms described below:

- on or about the date of completion (the "*German Completion Date*") of the acquisition (the "*German Acquisition*") of Synlab Holding GmbH (the "*German Target*") by Ephios Acquisition GmbH ("*German BidCo*") pursuant to the sale and purchase agreement dated 27 June, 2015 by and among certain sellers identified therein and German Bidco with respect to no less than 72.15% of the share capital of German Target (the "*German Acquisition Agreement*"), (i) the Temporary Senior Secured Fixed Rate Notes will automatically be exchanged for an equal aggregate principal amount of Additional Senior Secured Fixed Rate Notes issued under the Senior Secured Notes Indenture and (ii) the Temporary Senior Secured Floating Rate Notes will automatically be exchanged for an equal aggregate principal amount of Additional Senior Secured Floating Rate Notes issued under the Senior Secured Notes Indenture;
- upon the issuance of the Additional Senior Secured Notes, the Temporary Senior Secured Notes will be cancelled;
- for purposes of the covenant described under "*Description of the Senior Secured Notes—Reports*", the Issuer may use financial statements of (i) the Issuer or (ii) the Target and the German Target, with respect to periods commencing prior to the German Completion Date;
- The Trustee under the Temporary Senior Secured Notes Indenture will not accede to the Intercreditor Agreement and the holders of the Temporary Senior Secured Notes will not benefit from the Intercreditor Agreement;
- the Temporary Senior Secured Notes will be not be guaranteed;

- notwithstanding anything to the contrary under "*Description of the Senior Secured Notes—Limitation on Issuances of Guarantees of Indebtedness*", the Issuer may cause or permit (x) the Completion Date Guarantors and (y) if the German Completion Date occurs after the Post-Completion Date, the Post-Completion Guarantors, directly or indirectly, to guarantee the Existing Senior Secured Notes and the Revolving Credit Facility on the Completion Date and the Post-Completion Date, as applicable, without the Completion Date Guarantors and the Post-Completion Guarantors, as applicable, simultaneously executing and delivering a supplemental indenture providing for the guarantee of the payment of the Temporary Senior Secured Notes by such Completion Date Guarantors and Post-Completion Date Guarantors, as applicable;
- the Temporary Senior Secured Notes will not be entitled to the Collateral referred to under "*Description of the Senior Secured Notes—Security*";
- the Temporary Senior Secured Notes will be secured on a first-ranking basis by a charge over the Temporary Senior Secured Notes Escrow Account; and
- failure by the Issuer to consummate a Temporary Senior Secured Notes Special Mandatory Redemption (as defined below) as described under the caption "*—Escrow of Proceeds; Special Mandatory Redemption*" will constitute an "Event of Default" under the Temporary Senior Secured Notes Indenture.

Upon completion of the automatic exchange on or about the later of the Completion Date and the German Completion Date, (i) Holders of Temporary Senior Secured Fixed Rate Notes will receive an equal aggregate principal amount of Additional Senior Secured Fixed Rate Notes on which interest will be deemed to have accrued from June 17, 2015 and (ii) Holders of Temporary Senior Secured Floating Rate Notes will receive Additional Senior Secured Floating Rate Notes on which interest will be deemed to have accrued from June 17, 2015. Upon such automatic exchange on or about the later of the Completion Date and the German Completion Date, interest shall cease to accrue on the Temporary Senior Secured Notes.

The proceeds of the offering of the Temporary Senior Secured Notes sold on the Temporary Senior Secured Notes Issue Date will be used by the Issuer as set forth in this offering memorandum under the caption "*Use of Proceeds*." For a further description of the German Acquisition, see "*Summary—The Transactions—The Synlab Acquisition*". For a summary of the material provisions of the Senior Secured Notes Indenture and the Senior Secured Notes, see "*Description of the Senior Secured Notes.*"

Disbursement of Funds; Temporary Senior Secured Notes Escrow Account; Special Mandatory Redemption

Concurrently with the closing of the offering of the Temporary Senior Secured Notes, the initial purchasers of the Temporary Senior Secured Notes will deposit the gross proceeds from the sale of Temporary Senior Secured Notes in the offering of the Temporary Senior Secured Notes (the "*Temporary Senior Secured Notes Escrowed Funds*") into an escrow account (the "*Temporary Senior Secured Notes Escrow Account*") pursuant to the terms of an escrow deed (the "*Temporary Senior Secured Notes Escrow Agreement*") dated as of the Temporary Senior Secured Notes Issue Date among the Issuer, the Trustee and Elavon Financial Services Limited, UK Branch, as escrow agent (the "*Escrow Agent*"). Pursuant to a charge over the Temporary Senior Secured Notes Escrow Account dated as of the Temporary Senior Secured Notes Issue Date (the "*Temporary Senior Secured Notes Escrow Charge*"), the Issuer will grant a first priority security interest in the Temporary Senior Secured Notes Escrowed Funds to the Trustee for the benefit of the Holders of the Temporary Senior Secured Notes. Receipt by the Trustee of either an Offer Conditions Certificate (as defined below) for the release of the Temporary Senior Secured Notes Escrowed Funds or a notice of Temporary Senior Secured Notes Special Mandatory Redemption shall constitute deemed consent by the Trustee for the release of the Temporary Senior Secured Notes Escrowed Funds from the Escrow Charge.

The Temporary Senior Secured Notes Escrow Agreement provides that the Temporary Senior Secured Notes Escrowed Funds will be released for purposes of closing the German Acquisition on the date (the "*Temporary Senior Secured Notes Escrow Release Date*") that the Issuer certifies to the Escrow Agent, prior to December 31, 2015 (the "*Temporary Senior Secured Notes Escrow Longstop Date*"), in accordance with the terms of the Temporary Senior Secured Notes Escrow Agreement (the "*Temporary Senior Secured Notes Offer Conditions Certificate*") that:

(i) the Equity Contribution has been made, and the Acquisition has been completed in accordance with the terms of the Acquisition Agreement prior to the open of business on the next Business Day following the date that the gross proceeds from the sale of the Existing

Senior Secured Notes (the "*Escrowed Funds*") were released from escrow pursuant to the terms of the escrow deed (the "*Escrow Agreement*"), dated as of June 17, 2015 among the Issuer, the Trustee and the Escrow Agent, without giving effect to any modifications, amendments, consents or express waivers thereto that were materially adverse to the noteholders and on substantially the same terms as described in the offering memorandum relating to the offering of the Existing Senior Secured Notes under the heading "*Summary—The Transactions—The Acquisition*";

(ii) the Escrowed Funds were applied, directly or through intercompany transfers, for their permitted uses in accordance with the terms of the Escrow Agreement and, following such application, the Acquisition was completed;

(iii) immediately after consummation of the Acquisition, the Issuer owned, directly or indirectly, 95% or more of the share capital of the Target (subject to notarization of the share transfer if required);

(iv) the Sponsor has made the equity contribution to the Issuer in connection with the transactions contemplated by the German Acquisition Agreement and as described in this offering memorandum under the heading "*Summary—The Transactions—The Synlab Acquisition*," and the German Acquisition shall be completed prior to the open of business on the next Business Day following the Temporary Senior Secured Notes Escrow Release Date in accordance with the terms of the German Acquisition Agreement, without giving effect to any modifications, amendments, consents or express waivers thereto that are materially adverse to the noteholders and on substantially the same terms as described in this offering memorandum under the heading "*Summary—The Transactions—The Synlab Acquisition*";

(v) the Temporary Senior Secured Notes Escrowed Funds will be applied, directly or through intercompany transfers, for their permitted uses in accordance with the terms of the Temporary Senior Secured Notes Escrow Agreement and, following such application, the German Acquisition will be completed;

(vi) immediately after consummation of the German Acquisition, the Issuer will own, directly or indirectly, 90% or more of the share capital of the German Target (subject to notarization of the share transfer if required);

(vii) the security documents, legal opinions, certificates and other documents substantially in the form as those attached as appendices to (i) the Escrow Agreement (or in the form as agreed between the Issuer and the initial purchasers of the Existing Senior Secured Notes following the date thereof) and (ii) the Temporary Senior Secured Notes Escrow Agreement (or in the form as agreed between the Issuer and the initial purchasers of the Temporary Senior Secured Notes following the date thereof) will be delivered in accordance with the terms of the Escrow Agreement and the Temporary Senior Secured Notes Escrow Agreement, respectively; and

(viii) as of the later of the Completion Date and the German Completion Date, there is no Default or Event of Default under clause (9) of the first paragraph under the heading titled "*Events of Default and Remedies*" in the section of this offering memorandum entitled "*Description of the Senior Secured Notes*";

In the event that (a) the Completion Date or the German Completion Date does not take place on or prior to the Temporary Senior Secured Notes Escrow Longstop Date or the Issuer certifies to the Trustee and the Escrow Agent that the Acquisition or the German Acquisition will not take place or that the Acquisition Agreement or the German Acquisition Agreement has been terminated (the "*Temporary Senior Secured Notes Special Mandatory Redemption Certificate*"), (b) in the reasonable judgment of the Issuer, the Acquisition or the German Acquisition will not be consummated by the Temporary Senior Secured Notes Escrow Longstop Date, (c) the Acquisition Agreement or the German Acquisition Agreement terminates at any time prior to the Temporary Senior Secured Notes Escrow Longstop Date, (d) the Sponsor ceases to beneficially own and control a majority of the issued and outstanding Capital Stock of the Issuer or (e) a Default or Event of Default arises under clause (9) of the first paragraph under the heading titled "*Events of Default and Remedies*" in the section of this offering memorandum entitled "*Description of the Senior Secured Notes*" on or prior to the Temporary Senior Secured Notes Escrow Longstop Date, the Issuer will redeem the Temporary Senior Secured Notes (a "*Temporary Senior Secured Notes Special Mandatory Redemption*") at (i) in the case of the Temporary Senior Secured Fixed Rate Notes, 100% of the issue price of the Temporary Senior Secured Fixed Rate Notes plus accrued and unpaid interest thereon through to but not including the redemption date (the "*Temporary Senior Secured Fixed Rate Notes Special Mandatory Redemption Price*") and (ii) in the case of the Temporary Senior Secured Floating Rate Notes, 100% of the issue price of the Temporary Senior Secured Floating Rate Notes plus accrued and unpaid interest thereon through to but not including the redemption date (the "*Temporary Senior Secured Floating Rate Notes Special Mandatory Redemption Price*" and together with the Temporary Senior Secured Fixed Rate Notes Special Mandatory Redemption Price, the "*Temporary Senior Secured Notes Special Mandatory Redemption Price*"). The Issuer will instruct the Escrow Agent to release the Temporary Senior Secured Notes Escrowed Funds to the Paying Agent for purpose of paying the Temporary Senior Secured Notes Special Mandatory Redemption Price.

In the event that the Temporary Senior Secured Notes Special Mandatory Redemption Price payable upon such Temporary Senior Secured Notes Special Mandatory Redemption exceeds the amount of the Temporary Senior Secured Notes Escrowed Funds, the Sponsor will be required to fund the accrued and unpaid interest, and Additional Amounts, if any, owing to the holders of the Temporary Senior Secured Notes, pursuant to an equity contribution. See "*Risk Factors—Risks Related to the Transactions—If the conditions in the escrow agreements are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes*".

For Temporary Senior Secured Notes which are represented by global certificates held on behalf of Euroclear or Clearstream, Luxembourg, notice of any Temporary Senior Secured Notes Special Mandatory Redemption (any such notice a "*Temporary Senior Secured Notes Special Redemption Notice*") will be given by delivery of the notice to Euroclear or Clearstream, Luxembourg for communication to entitled account holders on the first Business Day following the date the Issuer becomes required to effect a Temporary Senior Secured Notes Special Mandatory Redemption. For Senior Secured Definitive Registered Notes, the Temporary Senior Secured Notes Special Redemption Notice will be mailed by first class mail to each holder of Notes at its registered address on the first Business Day following the date the Issuer becomes required to effect a Temporary Senior Secured Notes Special Mandatory Redemption. The Issuer will provide a copy of the Temporary Senior Secured Notes Special Redemption Notice to the Trustee and the Escrow Agent. So long as any Temporary Senior Secured Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require, any such notice to the Holders of the relevant Temporary Senior Secured Notes shall also be published in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Irish Stock Exchange (*www.ise.ie*). The redemption date will be up to five (5) Business Days after the delivery of the notice to Euroclear or Clearstream, Luxembourg or the mailing (as applicable) of the Temporary Senior Secured Notes Special Redemption Notice.

DESCRIPTION OF THE SENIOR SECURED NOTES

In a private transaction that is not subject to the registration requirements of the U.S. Securities Act of 1933, as amended (the "*U.S. Securities Act*"), Ephios Bondco PLC (the "*Issuer*") will issue €685.0 million aggregate principal amount of Additional Senior Secured Notes, consisting of €400.0 million aggregate principal amount of 6.25% Senior Secured Fixed Rate Notes due 2022 (the "*Additional Senior Secured Fixed Rate Notes*") and €285.0 million aggregate principal amount of Senior Secured Floating Rate Notes due 2022 (the "*Additional Senior Secured Floating Rate Notes*" and, together with the Additional Senior Secured Fixed Rate Notes, the "*Additional Senior Secured Notes*") under an indenture dated June 17, 2015 (the "*Senior Secured Notes Indenture*") between, among others, the Issuer and U.S. Bank Trustees Limited, as the trustee (in such capacity, the "*Trustee*") and the security agent (in such capacity, the "*Security Agent*"), pursuant to which the Issuer initially issued €800.0 million aggregate principal amount of Senior Secured Notes, consisting of €500.0 million aggregate principal amount of 6.25% Senior Secured Fixed Rate Notes due 2022 (the "*Existing Senior Secured Fixed Rate Notes*") and €300.0 million aggregate principal amount of Senior Secured Floating Rate Notes due 2022 (the "*Existing Senior Secured Floating Rate Notes*" and, together with the Existing Senior Secured Fixed Rate Notes, the "*Existing Senior Secured Notes*", and collectively with the Additional Senior Secured Notes, the "*Senior Secured Notes*"). Unless the context requires otherwise, references in this "*Description of the Senior Secured Notes*" to (i) *"Senior Secured Fixed Rate Notes*" refer, collectively, to the Existing Senior Secured Fixed Rate Notes, the Additional Senior Secured Fixed Rate Notes and any other additional Senior Secured Fixed Rate Notes that are issued, (ii) *"Senior Secured Floating Rate Notes*" refer, collectively, to the Existing Senior Secured Floating Rate Notes, the Additional Senior Secured Floating Rate Notes and any other additional Senior Secured Floating Rate Notes that are issued and (iii) the Senior Secured Notes include the Senior Secured Notes and any other additional Senior Secured Notes that are issued. The terms of the Senior Secured Notes include those set forth in the Senior Secured Notes Indenture. The Senior Secured Notes Indenture will not be qualified under, incorporate by reference, include or otherwise be subject to, any of the provisions of the U.S. Trust Indenture Act of 1939, as amended. The Security Documents referred to below under the caption "*—Security*" define the terms of the security that will secure the Senior Secured Notes.

The €685.0 million aggregate principal amount of Additional Senior Secured Notes will be issued upon the exchange of the Temporary Senior Secured Notes as described in "*Description of the Temporary Senior Secured Notes*."

The proceeds of the offering of the Existing Senior Secured Notes sold on the Issue Date will be used by the Issuer, together with the Equity Contribution, as set forth in the offering memorandum relating to the Existing Senior Secured Notes under the caption "*Use of Proceeds*." The proceeds of the offering of the Additional Senior Secured Notes sold on August 6, 2015 (the "*Temporary Senior Secured Notes Issue Date*") will be used by the Issuer as set forth in this offering memorandum under the caption "*Use of Proceeds*", including, together with the proceeds from the offering of Senior Notes by the Senior Notes Issuer and the equity contribution (the "*German Equity Contribution*") made by the Sponsor to the Issuer in connection with the transactions contemplated by the German Acquisition Agreement (as defined below) and as described in this offering memorandum under the heading "*The Transactions*," to finance the acquisition (the "*German Acquisition*") of Synlab Holding GmbH (the "*German Target*") by Ephios Acquisition GmbH ("*German BidCo*") pursuant to the sale and purchase agreement dated 27 June, 2015 by and among certain sellers identified therein and German Bidco with respect to no less than 72.15% of the share capital of German Target (the "*German Acquisition Agreement*").

Prior to the Completion Date, we will not control the Target or any of its Subsidiaries and neither the Target nor any of its Subsidiaries will be subject to the covenants described in this "*Description of the Senior Secured Notes*." Prior to the date of completion of the German Acquisition (the "*German Completion Date*"), we will not control the German Target or any of its Subsidiaries and neither the German Target nor any of its Subsidiaries will be subject to the covenants described in this "*Description of the Senior Secured Notes*." As such, we cannot assure you that the Target and its Subsidiaries, prior to the Completion Date, and the German Target and its Subsidiaries, prior to the German Completion Date, will not engage in activities that would otherwise have been prohibited by the Senior Secured Notes Indenture or the Senior Notes Indenture had those covenants been applicable to such entities after the Issue Date, with respect to the Target and its Subsidiaries, and after the Temporary Senior Secured Notes Issue Date, with respect to the German Target and its Subsidiaries, and prior to any such entity becoming party to the Senior Secured Notes Indenture or the Senior Notes Indenture.

The following description is a summary of the material provisions of the Senior Secured Notes Indenture, the Senior Secured Notes and the Security Documents and refers to the Intercreditor Agreement. It does not restate those agreements in their entirety. We urge you to read the Senior Secured Notes Indenture, the Senior Secured Notes, the Security Documents and the Intercreditor Agreement because they, and not this description, define your rights as holders of the Senior Secured Notes. Copies of the Senior Secured Notes Indenture, the form of Senior Secured Note, the Security Documents and the Intercreditor Agreement are available as set forth below under "*—Additional Information*".

Certain defined terms used in this description but not defined below under "*—Certain Definitions*" have the meanings assigned to them in the Senior Secured Notes Indenture. You can find the definitions of certain terms used in this description under the caption "*—Certain Definitions*". In this description, references to (i) the "*Issuer*" refer only to Ephios Bondco PLC and not to any of its Subsidiaries and (ii) "*we*", "*our*", "*us*" and the "*Group*" refer to the Issuer and its Restricted Subsidiaries.

The registered holder of a Senior Secured Note will be treated as the owner of it for all purposes. Only registered holders will have rights under the Senior Secured Notes Indenture.

Brief Description of the Senior Secured Notes and the Senior Secured Note Guarantees

The Senior Secured Notes

The Senior Secured Notes are and:

- will be general obligations of the Issuer;
- will be *pari passu* in right of payment to any future Indebtedness of the Issuer that is not subordinated in right of payment to the Senior Secured Notes, including the Revolving Credit Facility;
- will be senior to any future Indebtedness of the Issuer that is subordinated in right of payment to the Senior Secured Notes, including any Subordinated Shareholder Debt;
- will be guaranteed on a senior basis by the Guarantors;
- will mature on July 1, 2022;
- will be secured as set forth under "*—Security*"; and
- will be structurally subordinated to all obligations of the Issuer's subsidiaries that are not Guarantors.

The Senior Secured Note Guarantees

The Senior Secured Note Guarantee of each Guarantor are and:

- will be a general obligation of that Guarantor;
- will be *pari passu* in right of payment to all existing and future Indebtedness of that Guarantor that is not subordinated in right of payment to the Senior Secured Note Guarantee of that Guarantor, including the Revolving Credit Facility;
- will be senior in right of payment to any future subordinated Indebtedness of that Guarantor; and
- will be secured by the Collateral owned by the relevant Guarantor as set forth under "*—Security*".

The obligations of the Guarantors are and will be contractually limited under the applicable Senior Secured Note Guarantees to reflect limitations under applicable law. Under the terms of the Intercreditor Agreement, in the event of acceleration of the Revolving Credit Facility or the Senior Secured Notes, amounts recovered in respect of the Senior Secured Notes, including from the enforcement of guarantees and the Collateral, are required to be turned over to the Security Agent and, subject to the payment of fees and expenses of the agent under the Revolving Credit Facility, the Trustee and Security Agent, paid by the Security Agent to the lenders under the Revolving Credit Facility and counterparties to certain Hedging Obligations in priority to the holders of the Senior Secured Notes.

As of the Temporary Senior Secured Notes Issue Date, all of the Issuer's Subsidiaries will be "Restricted Subsidiaries" for purposes of the Senior Secured Notes Indenture. However, under the circumstances described below under the caption "*—Certain Covenants—Designation of Restricted and Unrestricted Subsidiaries*", the Issuer will be permitted to designate Restricted Subsidiaries as "Unrestricted

Subsidiaries." Most of the restrictive covenants in the Senior Secured Notes Indenture do not apply to Unrestricted Subsidiaries. The Issuer's Unrestricted Subsidiaries, if any, will not guarantee the Senior Secured Notes.

Principal, Maturity and Interest

The Issuer will issue €685.0 million in aggregate principal amount of Additional Senior Secured Notes in this offering, consisting of €400.0 million aggregate principal amount of Senior Secured Fixed Rate Notes and €285.0 million aggregate principal amount of Senior Secured Floating Rate Notes. The Issuer may issue an unlimited principal amount of additional Senior Secured Notes, having identical terms and conditions as the Senior Secured Fixed Rate Notes and Senior Secured Floating Rate Notes, respectively, under the Senior Secured Notes Indenture from time to time after this offering. Any further issuance of additional notes is subject to all of the covenants in the Senior Secured Notes Indenture, including the covenant described below under the caption "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*".

Each of the Existing Senior Secured Fixed Rate Notes (together with the Additional Senior Secured Fixed Rate Notes and any further additional Senior Secured Fixed Rate Notes) and Existing Senior Secured Floating Rate Notes (together with the Additional Senior Secured Floating Rate Notes and any further additional Senior Secured Floating Rate Notes) will constitute a separate series of Senior Secured Notes, but shall be treated as a single class for all purposes under the Senior Secured Notes Indenture, including in respect of any amendment, waiver or other modification of the Senior Secured Notes Indenture or any other action by the holders of the Senior Secured Notes hereunder, except as otherwise provided in the Senior Secured Notes Indenture.

The Issuer will issue Additional Senior Secured Notes in denominations of €100,000 and integral multiples of €1,000 in excess thereof. The Senior Secured Notes will mature on July 1, 2022.

Fixed Rate Notes

Interest on the Senior Secured Fixed Rate Notes will accrue at the rate of 6.25% per annum. Interest on the Senior Secured Fixed Rate Notes will be payable semiannually in arrears on January 1 and July 1, commencing on January 1, 2016. The Issuer will make each interest payment to the holders of record on the December 15 and June 15 immediately preceding the related interest payment date.

Interest on the Senior Secured Fixed Rate Notes will accrue from June 17, 2015, or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360 day year and the actual number of days elapsed.

Floating Rate Notes

Interest on the Senior Secured Floating Rate Notes will accrue at a rate per annum (the "*Applicable Rate*"), reset quarterly, equal to the sum of (i) three month EURIBOR (with 0% floor) plus (ii) 5.00%, as determined by the Calculation Agent. Interest on the Senior Secured Floating Rate Notes will be payable in cash quarterly in arrears on January 1, April 1, July 1 and October 1 commencing on January 1, 2016. The Issuer will make each interest payment to the holders of record on December 15, March 15, June 15 and September 15 immediately preceding the related interest payment date.

Interest on the Senior Secured Floating Rate Notes will accrue from June 17, 2015, or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360 day year comprised of twelve 30 day months.

Set forth below is a summary of certain of the provisions from the Senior Secured Notes Indenture relating to the calculation of interest on the Senior Secured Floating Rate Notes.

"Calculation Agent" means a financial institution appointed by the Issuer to calculate the interest rate payable on the Senior Secured Floating Rate Notes in respect of each interest period, which shall initially be Elavon Financial Services Limited, UK Branch.

"Determination Date" with respect to an Interest Period, means the day that is two TARGET Settlement Days preceding the first day of such Interest Period.

"EURIBOR" with respect to an Interest Period, means the rate (expressed as a percentage per annum) for deposits in euro for a three month period beginning on the day that is two TARGET

Settlement Days after the Determination Date that appears on Reuters Page 248 as of 11:00 a.m. Brussels time, on the Determination Date. If Reuters Page 248 does not include such a rate or is unavailable on a Determination Date, the Calculation Agent will request the principal London office of each of four major banks in the euro zone inter- bank market, as selected by the Calculation Agent, to provide such bank's offered quotation (expressed as a percentage per annum) as of approximately 11:00 a.m., Brussels time, on such Determination Date, to prime banks in the euro zone inter-bank market for deposits in a Representative Amount in euro for a three month period beginning on the day that is two TARGET Settlement Days after the Determination Date. If at least two such offered quotations are so provided, the rate for the Interest Period will be the arithmetic mean of such quotations. If fewer than two such quotations are so provided, the Calculation Agent will request each of three major banks in London, as selected by the Calculation Agent, to provide such bank's rate (expressed as a percentage per annum), as of approximately 11:00 a.m., London time, on such Determination Date, for loans in a Representative Amount in euro to leading European banks for a three month period beginning on the day that is two TARGET Settlement Days after the Determination Date. If at least two such rates are so provided, the rate for the Interest Period will be the arithmetic mean of such rates. If fewer than such rates are so provided then the rate for the Interest Period will be the rate in effect with respect to the immediately preceding Interest Period.

"euro zone" means the region comprised of member states of the European Union that adopt the euro.

"Interest Period" means the period commencing on and including an interest payment date and ending on and including the day immediately preceding the next succeeding interest payment date, with the exception that the first Interest Period shall commence on and include the Issue Date and end on and include December 31, 2015.

"Representative Amount" means the greater of (i) €1,000,000 and (ii) an amount that is representative for a single transaction in the relevant market at the relevant time.

"Reuters Page 248" means the display page so designated on Reuters (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor).

"TARGET Settlement Day" means any day on which the Trans European Automated Real Time Gross Settlement Express Transfer (TARGET) System is open.

The Calculation Agent shall, as soon as practicable after 11:00 a.m. (Brussels time) on each Determination Date, determine the Applicable Rate and calculate the aggregate amount of interest payable in respect of the following Interest Period (the "Interest Amount"). The Interest Amount shall be calculated by applying the Applicable Rate to the principal amount of each Senior Secured Floating Rate Note outstanding at the commencement of the Interest Period, multiplying each such amount by the actual amounts of days in the Interest Period concerned divided by 360. All percentages resulting from any of the above calculations will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one millionths of a percentage point being rounded upwards (e.g., 4.876545% (or .04876545) being rounded to 4.87655% (or .0487655). The determination of the Applicable Rate and the Interest Amount by the Calculation Agent shall, in the absence of willful default, bad faith or manifest error, be final and binding on all parties. In no event will the rate of interest on the Senior Secured Floating Rate Notes be higher than the maximum rate permitted by applicable law, provided, however, that the Calculation Agent shall not be responsible for verifying that the rate of interest on the Senior Secured Floating Rate Notes is permitted under any applicable law.

Paying Agent and Registrar for the Senior Secured Notes

The Issuer will maintain one or more paying agents (each, a "*Paying Agent*") in a member state of the European Union that will not be obliged to withhold or deduct tax pursuant to European Union Council Directive 2003/48/EC, as amended or supplemented from time to time, including through European Union Council Directive 2014/48/EU, or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income, or any law implementing, or complying with or introduced in order to conform to, such directive. The initial Paying Agent will be Elavon Financial Services Limited, UK Branch.

The Issuer will also maintain one or more registrars (each, a "*Registrar*") and a transfer agent (the "*Transfer Agent*") in a member state of the European Union. The initial Registrar will be Elavon Financial Services Limited. The initial Transfer Agent will be Elavon Financial Services Limited, UK Branch. The

Registrar and the Transfer Agent will maintain a register reflecting ownership of Senior Secured Definitive Registered Notes (as defined herein) outstanding from time to time and will make payments on and facilitate transfer of Senior Secured Definitive Registered Notes on behalf of the Issuer.

Subject to the above restrictions, the Issuer may change the Paying Agent, the Registrar or the Transfer Agent without prior notice to the holders of Senior Secured Notes. For so long as the Senior Secured Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market and the rules of the Irish Stock Exchange so require, the Issuer will publish a notice of any change of Paying Agent, Registrar or Transfer Agent in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Irish Stock Exchange (*www.ise.ie*).

Transfer and Exchange

Additional Senior Secured Notes sold within the United States to qualified institutional buyers pursuant to Rule 144A under the U.S. Securities Act will initially be represented by one or more global Senior Secured Notes in registered form without interest coupons attached (the "*Senior Secured Rule 144A Global Notes*"), and Senior Secured Notes sold outside the United States pursuant to Regulation S under the U.S. Securities Act will initially be represented by one or more global Senior Secured Notes in registered form without interest coupons attached (the "*Senior Secured Regulation S Global Notes*" and, together with the Senior Secured Rule 144A Global Notes, the "*Senior Secured Global Notes*").

Ownership of interests in the Senior Secured Global Notes (the "*Senior Secured Book-Entry Interests*") will be limited to persons that have accounts with Euroclear or Clearstream, Luxembourg or Persons that may hold interests through such participants. Ownership of interests in the Senior Secured Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under "*Transfer Restrictions*". In addition, transfers of Senior Secured Book-Entry Interests between participants in Euroclear or Clearstream, Luxembourg will be effected by Euroclear or Clearstream, Luxembourg pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear or Clearstream, Luxembourg and their respective participants.

Senior Secured Book-Entry Interests in the Senior Secured Rule 144A Global Note, or the "*Senior Secured Rule 144A Book-Entry Interest*", may be transferred to a person who takes delivery in the form of Senior Secured Book-Entry Interests in the Senior Secured Note Regulation S Global Note, as applicable, or the "*Senior Secured Regulation S Book-Entry Interests*", only upon delivery by the transferor of a written certification (in the form provided in the Senior Secured Notes Indenture) to the effect that such transfer is being made in accordance with Regulation S under the U.S. Securities Act.

Subject to the foregoing, Senior Secured Regulation S Book Entry Interests may be transferred to a person who takes delivery in the form of Senior Secured Rule 144A Book Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Senior Secured Notes Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Notice to Investors*" and in accordance with any applicable securities law of any other jurisdiction.

No Book Entry Interest in any Senior Secured Global Note representing the Senior Secured Fixed Rate Notes (the "*Senior Secured Global Fixed Rate Notes*"), and no Senior Secured Definitive Registered Note issued in exchange for a Book Entry Interest in the Senior Secured Global Fixed Rate Notes (the "*Senior Secured Definitive Registered Fixed Rate Notes*"), may be transferred or exchanged for any Book Entry Interest in any Senior Secured Global Note representing the Senior Secured Floating Rate Notes (the "*Senior Secured Global Floating Rate Notes*") or any Senior Secured Definitive Registered Note issued in exchange for a Book Entry Interest in the Senior Secured Global Floating Rate Notes (the "*Senior Secured Definitive Registered Floating Rate Notes*"), and no Book Entry Interest in the Senior Secured Global Floating Rate Notes and no Senior Secured Definitive Registered Floating Rate Note may be transferred or exchanged for any Book Entry Interest in any Senior Secured Global Fixed Rate Note or any Senior Secured Definitive Registered Fixed Rate Note.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book-Entry Interest in the Senior Secured Global Note from which it was transferred and will become a Book-Entry Interest in the Senior Secured Global Note to which it was transferred. Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Senior Secured Book-Entry Interests in the Senior Secured Global Note to which it was transferred.

If Senior Secured Definitive Registered Notes are issued, they will be issued only in minimum denominations of €100,000 principal amount and integral multiples of €1,000 in excess thereof, upon receipt by the applicable Registrar of instructions relating thereto and any certificates and other documentation required by the Senior Secured Notes Indenture. It is expected that such instructions will be based upon directions received by Euroclear or Clearstream, Luxembourg, as applicable, from the participant that owns the relevant Senior Secured Book-Entry Interests. Senior Secured Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Senior Secured Notes Indenture or as otherwise determined by the Issuer in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under "*Notice to Investors*".

Subject to the restrictions on transfer referred to above, Senior Secured Notes issued as Senior Secured Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof, to persons who take delivery thereof in the form of Senior Secured Definitive Registered Notes. In connection with any such transfer or exchange, the Senior Secured Notes Indenture will require the transferring or exchanging holder to, among other things, furnish appropriate endorsements and transfer documents, furnish information regarding the account of the transferee at Euroclear or Clearstream, Luxembourg, where appropriate, furnish certain certificates and opinions and pay any Taxes in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the holder, other than any Taxes payable in connection with such transfer or exchange; *provided* that, if the Issuer or any Guarantor is a party to the transfer or exchange, the holder will not be required to pay such Taxes.

Notwithstanding the foregoing, the Issuer is not required to register the transfer of any Senior Secured Definitive Registered Notes:

(1) for a period of 15 days prior to any date fixed for the redemption of the Senior Secured Notes;

(2) for a period of 15 days immediately prior to the date fixed for selection of Senior Secured Notes to be redeemed in part;

(3) for a period of 15 days prior to the record date with respect to any interest payment date; or

(4) which the holder has tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Sale Offer.

The Issuer, the Trustee and the Paying Agent will be entitled to treat the holder of a Senior Secured Note as the owner of it for all purposes.

Additional Amounts

All payments made by or on behalf of the Issuer under or with respect to the Senior Secured Notes or any of the Guarantors with respect to any Senior Secured Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (1) any jurisdiction in which the Issuer or any Guarantor is then incorporated or organized, engaged in business for tax purposes or otherwise considered to be resident for tax purposes, or any political subdivision thereof or therein having the power to tax or (2) any jurisdiction from or through which payment is made on any such Senior Secured Note or Senior Secured Note Guarantee by or on behalf of the Issuer or any Guarantor (including the jurisdiction of any Paying Agent), or any political subdivision thereof or therein having the power to tax (each, a "*Tax Jurisdiction*") will at any time be required by law to be made from any payments made by or on behalf of the Issuer under or with respect to the Senior Secured Notes or any of the Guarantors with respect to any Senior Secured Note Guarantee, including payments of principal, redemption price, interest or premium, if any, the Issuer or the relevant Guarantor, as applicable, will pay (together with such payments) such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received in respect of such payments by each holder after such withholding or deduction (including any such withholding or deduction from such Additional Amounts) will equal the respective amounts that would have been received by each holder in respect of such payments on any such Senior Secured Note or Senior

Secured Note Guarantee in the absence of such withholding or deduction; *provided*, *however*, that no Additional Amounts will be payable for or on account of:

(1) any Taxes, to the extent such Taxes would not have been imposed but for the existence of any present or former connection between the holder or the beneficial owner of the Senior Secured Notes (or between a fiduciary, settlor, beneficiary, partner of, member or shareholder of, or possessor of a power over, the relevant holder, if the relevant holder is an estate, trust, nominee, partnership, limited liability company or corporation) and the relevant Tax Jurisdiction (including, without limitation, being or having been a citizen, resident, or national thereof or being or having been present or engaged in or carrying on a trade or business therein or having or having had a permanent establishment therein), but excluding any connection arising solely from the holding of such Senior Secured Note, the enforcement of rights under such Senior Secured Note or under a Senior Secured Note Guarantee or the receipt of any payments in respect of such Senior Secured Note or a Senior Secured Note Guarantee;

(2) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Senior Secured Note for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the holder (except to the extent that the holder would have been entitled to Additional Amounts had the Senior Secured Note been presented on the last day of such 30-day period);

(3) any estate, inheritance, gift, sales, transfer, personal property or similar Taxes, or excised taxes imposed on the transfer of the Senior Secured Notes;

(4) any Taxes withheld, deducted or imposed on a payment to an individual that are required to be made pursuant to European Union Council Directive 2003/48/EC, as amended or supplemented from time to time, including through European Union Council Directive 2014/48/EU, or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing, or complying with, or introduced in order to conform to, such directive;

(5) Taxes imposed on or with respect to a payment made to or for the benefit of a holder or beneficial owner of Senior Secured Notes who would have been able to avoid such withholding or deduction by presenting the relevant Senior Secured Note to, or otherwise accepting payment from, another Paying Agent in a member state of the European Union;

(6) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Senior Secured Notes or any Senior Secured Note Guarantee;

(7) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the holder or beneficial owner of Senior Secured Notes, following the Issuer's written request addressed to the holder or beneficial owner (and made at a time that would enable the holder or beneficial owner acting reasonably to comply with that request, and in all events, at least 30 days before any such withholding or deduction would be made), to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the holder or beneficial owner is legally entitled to provide such certification or documentation);

(8) any Taxes imposed on or with respect to any payment by the Issuer or Guarantor to the holder if such holder is a fiduciary or partnership or any person other than the sole beneficial owner of such payment to the extent that Taxes would not have been imposed on such payment had such holder been the sole beneficial owner of such Senior Secured Note;

(9) where such withholding or deduction is required pursuant to an agreement entered into pursuant to section 1471(b) of the U.S. Internal Revenue Code (or any amended or successor version that is substantively comparable) or otherwise imposed pursuant to sections 1471 through 1474 of the U.S. Internal Revenue Code (or any amended or successor version that is substantively comparable), any regulations or agreements thereunder (including any intergovernmental agreements), official interpretations thereof, or any law implementing an intergovernmental agreement relating thereto; or

(10) any combination of items (1) through (9) above.

In addition to the foregoing, the Issuer and the Guarantors will also pay the holder or beneficial owner for any present or future stamp, issue, registration, transfer, court or documentary Taxes, or any other property or similar Taxes or similar charges or levies (including penalties, or interest related thereto) which are levied by any Tax Jurisdiction on the execution, delivery, issuance, registration or enforcement of. or the receipt of payments with respect to, any of the Senior Secured Notes, the Senior Secured Notes Indenture, any Senior Secured Note Guarantee or any other document referred to therein (other than a transfer of the Senior Secured Notes after the consummation of this offering) and limited, solely to the extent that such taxes, similar charges or levies arise from the receipt of any payments of principal or interest on the Senior Secured Notes, to any such taxes, similar charges or levies that are not excluded under clauses (1) through (5) and (7) through (9)).

If the Issuer or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Senior Secured Notes or any Senior Secured Note Guarantee, each of the Issuer or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises less than 45 days prior to that payment date, in which case the Issuer or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificate must also set forth any other information reasonably necessary to enable the Paying Agent to pay Additional Amounts on the relevant payment date. The Trustee shall be entitled to rely solely on such Officer's Certificate, without further inquiry, as conclusive proof that such payments are necessary.

The Issuer or the relevant Guarantor will make all withholdings and deductions required by law and will timely remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. If reasonably requested by the Trustee, the Issuer or the Guarantors will provide to the Trustee such information as may be in the possession of the Issuer or the Guarantors (and not otherwise in the possession of the Trustee) to enable the Trustee to determine the amount of withholding taxes attributable to any particular holder, *provided*, *however*, that in no event shall the Issuer or the Guarantors be required to disclose any information that they reasonably deem to be confidential.

Whenever in the Senior Secured Notes Indenture or in this "*Description of the Senior Secured Notes*" there is mentioned, in any context, the payment of amounts based upon the principal amount, interest or of any other amount payable under, or with respect to, any of the Senior Secured Notes or any Senior Secured Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The above obligations will survive any termination, defeasance or discharge of the Senior Secured Notes Indenture, any transfer by a holder or beneficial owner of its Senior Secured Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Issuer or any Guarantor is incorporated or organized, engaged in business for tax purposes or resident for tax purposes or any jurisdiction from or through which such Person makes any payment on the Senior Secured Notes (or any Senior Secured Note Guarantee) and any department or political subdivision thereof or therein having power to Tax.

The Senior Secured Note Guarantees

The Senior Secured Note Guarantees will be joint and several obligations of the Guarantors. The Issuer's obligations under the Existing Senior Secured Notes, the Additional Senior Secured Notes, if issued on such date, and the Senior Secured Notes Indenture will be guaranteed on a senior basis on the Completion Date by:

- BidCo;
- the Target;
- Labco Corporate Assistance, the Target's cash pooling entity;
- Labco Diagnostics España S.A., the Target's holding company in Iberia; and
- Biopar, one of the Target's subsidiaries incorporated in France (together, the "*Completion Date Guarantors*");

The Issuer's obligations under the Existing Senior Secured Notes, the Additional Senior Secured Notes, if issued on or prior to such date, and the Senior Secured Notes Indenture will be guaranteed on the earlier of (i) the date on which any Post-Completion Guarantor accedes to the Revolving Credit Facility and (ii) the 90th day following the Completion Date (the "*Post-Completion Date*") by:

- Labco Italia S.r.l., Labco's holding company in Italy;
- the holding company that Labco intends to incorporate in England (such company to become a Guarantor on or prior to the later of (i) the 90th day following the Completion Date and (ii) the 30th day following its incorporation);
- the following eight subsidiaries of the Target incorporated in France: Bioalliance, Biofrance, Biopaj, Institut de Biologie Clinique, Laboratoire Bioliance, Novabio Diagnostics, Oxabio and Unibionor (which Labco intends to merge into or with Institut de Biologie Clinique) (such entities, the "*French Guarantors*");
- the following subsidiary of the Target incorporated in Belgium: Laboratoire d'Analyses Médicales Roman Païs SC SPRL;
- the following three subsidiaries of the Target incorporated in Italy: Istituto il Baluardo S.p.A, CAM Centro Analisi Monza S.p.A. and SDN S.p.A; and
- the following subsidiary of the Target incorporated in Spain: General Lab S.A. (together, the "*Post-Completion Guarantors*").

The Issuer's obligations under the Existing Senior Secured Notes, the Additional Senior Secured Notes and the Senior Secured Notes Indenture will be guaranteed on a senior basis on the German Completion Date by:

- BidCo;
- the Target;
- Labco Corporate Assistance, the Target's cash pooling entity;
- Labco Diagnostics España S.A., the Target's holding company in Iberia;
- Biopar, one of the Target's subsidiaries incorporated in France; and
- German BidCo (together, the "*German Completion Date Guarantors*").

The Issuer's obligations under the Existing Senior Secured Notes, the Additional Senior Secured Notes and the Senior Secured Notes Indenture will be guaranteed on the earlier of (i) the date on which any German Post-Completion Guarantor accedes to the Revolving Credit Facility and (ii) (x) if German Bidco has acquired 100% of the share capital of the German Target in the German Acquisition, the 90th day or (y) if German Bidco has acquired less than 100% of the share capital of German Target in the German Acquisition, the 270th day, in each case, following the Completion Date by:

- synlab Holding GmbH, synlab Services GmbH, Synlab Verwaltungs u. Beteiligungs GmbH; Steinlach-Klinik GmbH, synlab Medizinisches Versorgungszentrum Weiden GmbH, synlab Medzinisches Versorgungszentrum Leinfelden-Echterdingen GmbH, synlab Medzinisches Versorgungszentrum Augsburg GmbH, Medizinisches Versorgungszentrum synlab Leverkusen GmbH, synlab.vet GmbH; synlab Umweltinstitut GmbH, synlab Medizinisches Versorgungszentrum Heidelberg GmbH, synlab Medizinisches Versorgungszentrum Kassel GmbH, synlab Medizinisches Versorgungszentrum Trier GmbH, synlab Medizinisches Versorgungszentrum Berlin GmbH, synlab Medizinisches Versorgungszentrum Stuttgart GmbH, synlab Medizinisches Versorgungszentrum Humangenetik Mannheim GmbH, Synlab Italia S.r.l., synlab Holding Italy S.r.l., synlab Suisse SA, AMS analyses médicales services SA, synlab Holding Austria GmbH and Institut für medizinische und chemische Labordiagnostik Gesellschaft m.b.H. (together, the "*German Post-Completion Guarantors*" and, together with the Completion Date Guarantors, the Post-Completion Guarantors and the German Completion Date Guarantors, the "*Guarantors*").

If one or more (but no more than three) of the French Guarantors are unable to accede to the Senior Secured Notes Indenture as Guarantors on or prior to the 90th day following the Completion Date due to the refusal by the Board of Director of any such French Guarantor to approve its Senior Secured Note Guarantee, or failure by such French Guarantor to execute all required documentation to this effect (any such French Guarantors being referred to as the "*Refusing French Guarantors*"), the Issuer will use its commercially reasonable efforts to replace such Refusing French Guarantors by one or more other Guarantors (incorporated in France or elsewhere) having, in the aggregate, an EBITDA contribution substantially similar to the Refusing French Guarantors.

Assuming we had completed the offering of Existing Senior Secured Notes and this offering of Additional Senior Secured Notes and applied the net proceeds therefrom, as of March 31, 2015, the Issuer and the Guarantors would have had *pro forma* combined net financial debt of approximately €1,896.2 million, €1,485.0 million of which would have been represented by the Senior Secured Notes, and excluding a drawing of €51.6 million by BidCo under the Revolving Credit Facility to fund a portion of the Acquisition and pay certain expenses relating thereto. BidCo intends to repay that facility shortly after the Completion Date. Other than for such loan, which depending on timing of the German Completion Date may still be outstanding, the Revolving Credit Facility is expected to remain undrawn on or about the German Completion Date. We expect that on the Completion Date, the amount of cash held by the Target or any of its subsidiaries (the "*Target Group*") and the amount of reserves at the Target Group which are capable of being distributed to BidCo, will be in excess of the amount of such loan.

Claims by the Trustee or the Security Agent against a Guarantor on behalf of the holders of the Senior Secured Notes will be direct claims on that Guarantor. The obligations of the Guarantors will be contractually limited under the applicable Senior Secured Note Guarantees to reflect limitations under applicable law with respect to maintenance of share capital, corporate benefit, fraudulent conveyance and other legal restrictions applicable to the Guarantors and their respective shareholders, directors and general partners. By virtue of these limitations, a Guarantor's obligation under its Senior Secured Note Guarantee could be significantly less than amounts payable with respect to the Senior Secured Notes, or a Guarantor may have effectively no obligation under its Senior Secured Note Guarantee. In particular, the Senior Secured Note Guarantee of each Guarantor may be limited in value to an amount no greater than the amount of the proceeds of the Senior Secured Notes (i) directly or indirectly onlent to such Guarantor or its subsidiaries or (ii) used to refinance directly or indirectly any indebtedness previously incurred which was onlent to such Guarantor or its subsidiaries, in each case to the extent of the amount so onlent which is outstanding on the date a payment is to be made under the Senior Secured Note Guarantee of the relevant Guarantor. Due to restrictions under French, Italian, Austrian and Belgian law, the Senior Secured Note Guarantees of the Guarantors in France, Italy and Belgium will provide credit support to the full aggregate principal amount of the Senior Secured Notes but will have no greater monetary value than the aggregate principal amount of Existing Senior Secured Notes, and the Senior Secured Note Guarantees of the Guarantors in Austria will effectively have no monetary value, as none of them will be onlent any of the proceeds of the offering of the Additional Senior Secured Notes. The Senior Secured Note Guarantees will also be be subject to certain other limitations under applicable law, as described under "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,*" "*Risk Factors—Risks Related to the Transactions—The Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco*" and "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—The insolvency laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability*."

The Senior Secured Note Guarantee of each Guarantor incorporated under the laws of Italy shall be limited to comply with Italian law rules on corporate benefit, corporate authorization and financial assistance and in any event, pursuant to article 1938 of the Italian Civil Code, shall include a maximum guarantee amount.

The operations of the Issuer are conducted through its Subsidiaries and, therefore the Issuer depends on the cash flow of its Subsidiaries to meet its obligations, including its obligations under the Senior Secured Notes. Not all of the Issuer's Subsidiaries will guarantee the Senior Secured Notes. The Senior Secured Notes will be effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of the Issuer's non-guarantor Subsidiaries. Any right of the Issuer or any Guarantor to receive assets of any of its non-guarantor Subsidiaries upon that non-guarantor Subsidiary's liquidation or reorganization (and the consequent right of the holders of the Senior Secured Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary's creditors, except to the extent that the Issuer or such Guarantor is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Issuer or such Guarantor, as the case may be, would still be subordinated in right of payment to any security in the assets of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Issuer or such Guarantor. As of March 31, 2015, on a *pro forma* basis after the completion of the offering of the Existing Senior Secured Notes, this offering of Additional Senior Secured Notes and the offering of the Senior Notes and applying the net proceeds therefrom, the Issuer's non-guarantor Subsidiaries would have had approximately €5.9 million of financial Indebtedness. See "*Risk Factors—Risks Related to Our Capital Structure—The Additional Senior Secured Notes and the Senior Notes are structurally subordinated to the liabilities of non-guarantor subsidiaries*". For a description of such contractual limitations, see "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral*."

Release of the Senior Secured Note Guarantees

The Senior Secured Note Guarantees will be released:

(1) in connection with any sale, disposition, exchange or other transfer of all or substantially all of the assets of that Guarantor (including by way of merger, consolidation, amalgamation or combination) to a Person that is not (either before or after giving effect to such transaction) the Issuer or a Restricted Subsidiary, if the sale or other disposition does not violate the "Asset Sale" provisions of the Senior Secured Notes Indenture;

(2) in connection with any sale, disposition, exchange or other transfer of Capital Stock of that Guarantor to a Person that is not (either before or after giving effect to such transaction) the Issuer or a Restricted Subsidiary, if the sale or other disposition does not violate the "Asset Sale" provisions of the Senior Secured Notes Indenture and the Guarantor ceases to be a Restricted Subsidiary as a result of the sale or other disposition;

(3) if the Issuer designates any Restricted Subsidiary that is a Guarantor to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Senior Secured Notes Indenture;

(4) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Senior Secured Notes Indenture as provided below under the captions "*—Legal Defeasance and Covenant Defeasance*" and "*—Satisfaction and Discharge*";

(5) upon the sale of all the Capital Stock of, or all or substantially all of the assets of, such Guarantor or its Parent Entity pursuant to a security enforcement sale in compliance with the Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or the Senior Secured Notes Indenture;

(6) upon the full and final payment and performance of all obligations of the Issuer under the Senior Secured Notes Indenture and the Senior Secured Notes;

(7) in the case of any Restricted Subsidiary that after the Issue Date is required to guarantee the Senior Secured Notes pursuant to the covenant described under "*—Certain Covenants—Limitation on Issuances of Guarantees of Indebtedness*", upon the release or discharge of the guarantee of Indebtedness by such Restricted Subsidiary which resulted in the obligation to guarantee such Senior Secured Notes;

(8) with respect to a Guarantor that is not the continuing or surviving Person in the relevant consolidation or merger, upon any transaction permitted by "*—Certain covenants—Merger, Consolidation or Sale of Assets*"; or

(9) as described under "*—Amendment, Supplement and Waiver*".

No release and discharge of the Guarantee will be effective against the Trustee, the Security Agent or the holders of Senior Secured Notes until the Issuer shall have delivered to the Trustee and the Security Agent an Officer's Certificate stating that all conditions precedent provided for in the Senior Secured Notes Indenture relating to such release and discharge have been satisfied and that such release and discharge is authorised and permitted under the Senior Secured Notes Indenture and the Trustee shall be entitled to rely on such Officer's Certificate absolutely and without further inquiry. At the request and expense of the Issuer, the Trustee, or the Security Agent, as applicable, will execute any documents reasonably required in order to evidence or effect such release, discharge and termination in respect of such guarantee. Neither the Issuer, the Trustee, the Security Agent nor any Guarantor will be required to make a notation on the Senior Secured Notes to reflect any such release, termination or discharge.

Security

Pursuant to the Senior Secured Notes Indenture and the Security Document to be entered into on the Temporary Senior Secured Notes Issue Date, the Additional Senior Secured Notes will initially be secured by a first priority lien on the Temporary Senior Secured Notes Escrowed Funds deposited into the Temporary Senior Secured Notes Escrow Account (the "*Temporary Senior Secured Notes Issue Date Collateral*").

Pursuant to the Senior Secured Notes Indenture and various Security Documents to be entered into on or about the Completion Date, the Existing Senior Secured Notes, the Additional Senior Secured Notes, if issued on such date, and the Senior Secured Note Guarantees will be secured on the Completion Date by the following (collectively, the "*Completion Date Collateral*"):

- a first priority lien on the issued share capital of the Issuer and the receivables, if any, owed by the Issuer to Ephios Holdco II Limited, the direct parent company of the Issuer ("*UK Holdco II*");
- a first priority lien on the issued share capital of BidCo owned by the Issuer;
- a first priority lien on the issued share capital of the Target owned by BidCo;
- a first priority lien on each the receivables arising under the Proceeds Loan and the BidCo Loan; and
- a first priority lien over the rights of BidCo under the Acquisition Agreement.

The Issuer and the Guarantors will grant to U.S. Bank Trustees Limited, as Security Agent, within 90 days of the Completion Date (collectively, the "*Post-Completion Collateral*"):

- a first priority lien on the issued share capital owned by the Target or any other Guarantor in the following Post-Completion Guarantors: Biopar, Labco Corporate Assistance, Labco Diagnostics España S.A., Labco Italia S.r.l., Istituto il Baluardo S.p.A., and the holding company that we intend to incorporate in England (such company to become a Guarantor on or prior to the later of (i) the 90th day following the Completion Date and (ii) the 30th day following its incorporation); and
- present and future intercompany loan receivables arising under inter-company loans with a principal amount in excess of €5.0 million granted by the Target or any other Guarantor that is a subsidiary of the Target, other than such inter-company loans arising under the cash pooling arrangements to which the Issuer and its Restricted Subsidiaries may from time to time become a party;

provided, that to the extent that any Post-Completion Collateral has been provided prior to the German Completion Date, the Additional Senior Secured Notes shall be secured by that Post-Completion Collateral, on the basis set out above, by not later than the 30th day after the German Completion Date.

Pursuant to the Senior Secured Notes Indenture and various Security Documents to be entered into on or about the German Completion Date, the Existing Senior Secured Notes, the Additional Senior Secured Notes and the Senior Secured Note Guarantees will be secured on the German Completion Date by the following (collectively, the "*German Completion Date Collateral*"):

- a first priority lien on the issued share capital of German BidCo owned by the Issuer and the receivables, if any, owed by the German BidCo to the Issuer;
- a first priority lien on the issued share capital of the German Target owned by German BidCo;
- a first priority lien on the receivables arising under the German Proceeds Loan and the German Bidco Loan; and
- a first priority lien over the rights of German BidCo under the German Acquisition Agreement and the receivables, if any, owed to German BidCo by the German Target or any of its subsidiaries (the "*German Target Group*").

The Issuer and the Guarantors will grant to U.S. Bank Trustees Limited, as Security Agent, on the earlier of (i) the date on which any German Post-Completion Guarantor accedes to the Revolving Credit Facility and (ii) (x) if German Bidco has acquired 100% of the share capital of the German Target in the

German Acquisition, the 90th day or (y) if German Bidco has acquired less than 100% of the share capital of German Target in the German Acquisition, the 270th day, in each case, following the German Completion Date (the "*German Post-Completion Collateral*" and together with the Temporary Senior Secured Notes Issue Date Collateral, the Completion Date Collateral, the German Completion Date Collateral and the Post-Completion Collateral, the "*Collateral*"):

- a first priority lien on the issued share capital owned by the German Target or any other Guarantor in the following Guarantors: synlab Services GmbH, Synlab Verwaltungs u. Beteiligungs GmbH; Steinlach-Klinik GmbH, synlab Medizinisches Versorgungszentrum Weiden GmbH, synlab Medzinisches Versorgungszentrum Leinfelden-Echterdingen GmbH, synlab Medzinisches Versorgungszentrum Augsburg GmbH, Medizinisches Versorgungszentrum synlab Leverkusen GmbH, synlab.vet GmbH; synlab Umweltinstitut GmbH, synlab Medizinisches Versorgungszentrum Heidelberg GmbH, synlab Medizinisches Versorgungszentrum Kassel GmbH, synlab Medizinisches Versorgungszentrum Trier GmbH, synlab Medizinisches Versorgungszentrum Berlin GmbH, synlab Medizinisches Versorgungszentrum Stuttgart GmbH, synlab Medizinisches Versorgungszentrum Humangenetik Mannheim GmbH, Synlab Italia S.r.l., synlab Holding Italy S.r.l., synlab Suisse SA, AMS analyses médicales services SA, synlab Holding Austria GmbH and Institut für medizinische und chemische Labordiagnostik Gesellschaft m.b.H.; and
- present and future intercompany loan receivables arising under inter-company loans with a principal amount in excess of €5.0 million granted by the German Target or any other Guarantor that is a subsidiary of the German Target, other than such inter-company loans arising under the cash pooling arrangements to which the Issuer and its Restricted Subsidiaries may from time to time become a party.

Subject to certain conditions, including compliance with the covenants described under "*—Certain Covenants—Impairment of Security Interest*" and "*—Certain Covenants—Liens*", the Issuer is permitted to pledge the Collateral in connection with future issuances of its Indebtedness, including any further additional Senior Secured Notes, or Indebtedness of its Restricted Subsidiaries, in each case permitted under the Senior Secured Notes Indenture and on terms consistent with the relative priority of such Indebtedness.

No appraisals of any Collateral have been prepared by or on behalf of the Issuer, the Security Agent or the Trustee in connection with the issuance of the Senior Secured Notes and the Senior Secured Note Guarantees. By its nature, some or all of the Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Collateral will be able to be sold in a short period of time or at all.

Security Documents

The Issuer, the Guarantors and the Security Agent will, as applicable, enter into the Security Documents, which define the terms of the security interests that secure the Senior Secured Notes and the Senior Secured Note Guarantees. The Security Documents will secure the payment and performance when due of all of the obligations of the Issuer and the Guarantors under the Senior Secured Notes, the Senior Secured Notes Indenture and the Senior Secured Note Guarantees and other obligations.

In certain jurisdictions, due to the laws and jurisprudence governing the creation and perfection of security interests, the relevant Security Documents will provide for the creation of "parallel debt" obligations in favor of the Security Agent, and the security interests in such jurisdictions will secure the parallel debt (and not the Indebtedness under the Senior Secured Notes, the Senior Secured Note Guarantees and the other secured obligations). The parallel debt construct has not been tested under law in certain of these jurisdictions. See "*Risk Factors—Risks Relating to Our Capital Structure—In certain jurisdictions, Security over the Collateral will be granted to the Security Agent rather than directly to the holders of the Senior Secured Notes. The ability of the Security Agent to enforce the Collateral may be restricted by local law*" and "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency law Considerations*".

Subject to the terms of the Intercreditor Agreement, the Senior Secured Notes Indenture and the Security Documents, the Issuer and the Guarantors will have the right to remain in possession and retain exclusive control of the Collateral securing the Senior Secured Notes and the Senior Secured Note Guarantees, to freely operate the Collateral and to collect, invest and dispose of any income therefrom.

The Security Documents will, as described under the caption "*Description of Other Indebtedness—Intercreditor Agreement*", permit the Trustee and the agent for the Revolving Credit Facility to instruct the Security Agent to take enforcement action under the Security Documents following the occurrence of an event of default under such Indebtedness, such Indebtedness being declared due and payable and the requisite approval or consent of the holders of such Indebtedness.

Intercreditor Agreement

On the Issue Date, the Trustee entered into an Intercreditor Agreement with, among others, the Issuer, the Security Agent and the agent for the Revolving Credit Facility as described under "*Description of Other Indebtedness—Intercreditor Agreement*".

Priority

The relative priority among (a) the lenders under the Revolving Credit Facility, (b) the counterparties under certain Hedging Obligations (c) the Trustee and the holders of Senior Secured Notes under the Senior Secured Notes Indenture and (d) certain other senior and super senior secured creditors with respect to the security interests in the Collateral created by the Security Documents which secure the obligations under the Revolving Credit Facility, certain Hedging Obligations, the Senior Secured Notes and certain other senior and super senior secured liabilities or the Senior Secured Note Guarantees and the Senior Secured Notes Indenture is established by the terms of the Intercreditor Agreement, the Senior Secured Notes Indenture, the Security Documents, the Revolving Credit Facility, such Hedging Obligations and the documentation relating to such other senior and super senior secured liabilities, which provide that all obligations under the Senior Secured Notes, the Revolving Credit Facility, certain Hedging Obligations and certain other senior and super senior secured liabilities are secured equally and ratably by a first-priority interest in the Collateral, but in the event of acceleration of the Revolving Credit Facility and the Senior Secured Notes and certain other senior and super senior secured liabilities, amounts recovered in respect of the Senior Secured Notes and certain other senior secured liabilities, including from the enforcement of the Collateral, are required to be turned over to the Security Agent and, subject to the payment of fees and expenses of the agent under the Revolving Credit Facility, the Trustee and Security Agent (and the agent of certain other senior and super senior secured liabilities), paid by the Security Agent to the lenders under the Revolving Credit Facility and counterparties to certain Hedging Obligations and certain other super senior secured creditors in priority to the holders of the Senior Secured Notes and certain other senior secured creditors.

Security Release

The Security Agent will only be permitted to enforce the Security Documents in accordance with instructions permitted to be given under the Intercreditor Agreement or any Additional Intercreditor Agreement. The Intercreditor Agreement restricts the ability of the Trustee or the holders of the Senior Secured Notes or certain other creditors to instruct the Security Agent to take enforcement action. The Security Agent may refrain from enforcing the security unless instructed to do so by the representative in respect of the creditors under the Revolving Credit Facility, certain Hedging Obligations and certain other super senior liabilities or by the Trustee/representative in respect of the Senior Secured Notes and certain other senior secured liabilities, and provided that, while the Trustee/representative in respect of the Senior Secured Notes and certain other senior secured liabilities will ordinarily constitute the instructing group for the purposes of giving enforcement instructions to the Security Agent, in certain circumstances, the super senior creditors alone may be able to initiate enforcement action. For a description of security enforcement and other intercreditor provisions (*including provision as regards the impact of competing instructions, such as which set of instructions will prevail (and when), and who shall be able to instruct the Security Agent in which circumstances*), see "*Description of Other Indebtedness—Intercreditor Agreement*".

The Issuer and the Guarantors will be entitled to the release of property and other assets constituting Collateral from the Liens securing the Senior Secured Notes and the Senior Secured Note Guarantees under any one or more of the following circumstances:

(1) upon the full and final payment and performance of all obligations of the Issuer under the Senior Secured Notes Indenture and the Senior Secured Notes;

(2) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Senior Secured Notes as provided below under the captions "*—Legal Defeasance and Covenant Defeasance*" and "*—Satisfaction and Discharge*";

(3) as described under "—*Amendment, Supplement and Waiver*" and "*Liens*";

(4) if the Lien granted in favor of the Revolving Credit Facility, Public Debt or such other Indebtedness that gave rise to the obligation to grant the Lien over such Collateral is released;

(5) as otherwise provided for under the Intercreditor Agreement, including in connection with an enforcement sale, or the Security Documents;

(6) in connection with any sale or other disposition of Collateral that does not violate the "Asset Sale" provisions of the Senior Secured Notes Indenture;

(7) in the case of a Guarantor that is released from its Senior Secured Note Guarantee pursuant to the terms of the Senior Secured Notes Indenture, the release of the property and assets, and Capital Stock, of such Guarantor;

(8) if the Issuer designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Senior Secured Notes Indenture, the release of the property and assets of such Restricted Subsidiary;

(9) pursuant to certain Permitted Reorganizations subject to compliance with the conditions set forth in the Senior Secured Notes Indenture;

(10) upon the contribution of any claim of the Issuer or any Restricted Subsidiary, which is subject to a Lien, to the equity of the Issuer or any of its Restricted Subsidiaries (other than the Proceeds Loan), *provided* that such contribution is made in compliance with the Intercreditor Agreement;

(11) in accordance with the terms of the relevant Security Document; or

(12) in accordance with "—*Certain Covenants—Impairment of Security Interests*" or as otherwise not prohibited by the Senior Secured Notes Indenture.

The Senior Secured Notes Indenture will provide that any release of a Lien on Collateral shall be evidenced by the delivery by the Issuer to the Trustee of an Officer's Certificate of the Issuer, and that the Security Agent shall acknowledge and confirm such release upon delivery of such Officer's Certificate.

The Security Agent may need to evaluate the impact of the potential liabilities before determining to foreclose on certain Collateral. In this regard, the Security Agent may decline to foreclose on the Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction from the holders of the Senior Secured Notes. In addition, the Security Agent's ability to foreclose on the Collateral on behalf of the holders of the Senior Secured Notes may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Security Agent's Liens on the Collateral.

The Senior Secured Notes Indenture will provide that the Security Agent shall have no liability to any of the holders of the Senior Secured Notes as a consequence of its performance or non-performance under the Security Documents, except for its gross negligence or wilful misconduct.

The Proceeds Loan and the BidCo Loan

On the Completion Date:

- the Issuer will lend, pursuant to an intercompany loan (the "*Proceeds Loan*"), the proceeds of the issuance of the Existing Senior Secured Notes in an amount of €800.0 million to Target for the purpose of redeeming the Existing Senior Secured Notes, paying a redemption premium in respect of the Existing Senior Secured Notes, repaying certain existing debt of the Target Group and paying associated costs and expenses; and
- BidCo will use the amounts received under the Equity Contribution and drawings in an amount of approximately €51.6 million under the Revolving Credit Facility to fund the acquisition of the Target Securities and to make further intercompany loans in an amount of approximately €7.6 million (the "*BidCo Loan*").

The German Proceeds Loan and German Bidco Loan

On the German Completion Date:

- the Issuer will lend, pursuant to an intercompany loan (the "*German Proceeds Loan*"), a portion of the proceeds of the issuance of the Temporary Senior Secured Notes and a portion of the proceeds of the issuance of senior notes (the "*Senior Notes*") by Ephios Holdco II PLC (the "*Senior Notes Issuer*") pursuant to an indenture (the "*Senior Notes Indenture*") dated August 6, 2015 between, among others, Ephios Holdco II PLC and U.S. Bank Trustees Limited, as the trustee and the security agent in an aggregate amount of €475.6 million to German Target for the purpose of repaying certain existing debt of the German Target Group and for general corporate purposes; and
- the Issuer will lend, pursuant to an intercompany loan (the "*German Bidco Loan*"), the proceeds from the German Equity Contribution a portion of the proceeds of the issuance of the Additional Senior Secured Notes and a portion of the proceeds of the issuance of the Senior Notes in an aggregate amount of €1,328.0 million to German BidCo for the purpose of financing the German Acquisition and paying associated costs and expenses; and

Optional Redemption

At any time prior to July 1, 2018, the Issuer may on any one or more occasions redeem up to 40% of the aggregate principal amount of Senior Secured Fixed Rate Notes issued under the Senior Secured Notes Indenture, upon not less than 10 nor more than 60 days' notice, at a redemption price equal to 106.250% of the principal amount of the Senior Secured Fixed Rate Notes redeemed, in each case, plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of redemption (subject to the rights of holders of Senior Secured Notes on the relevant record date to receive interest on the relevant interest payment date), with the net cash proceeds of an Equity Offering of (i) the Issuer or (ii) any direct or indirect parent entity of the Issuer to the extent the proceeds from such Equity Offering are contributed (other than in the form of an Excluded Contribution or Parent Senior Debt Contribution) to the Issuer's common equity capital or are paid to the Issuer as consideration for the issuance of ordinary shares of the Issuer; *provided* that:

(1) at least 60% of the aggregate principal amount of the Senior Secured Fixed Rate Notes (calculated after giving effect to any issuance of any further additional Senior Secured Notes but excluding Senior Secured Fixed Rate Notes held by the Issuer and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and

(2) the redemption occurs within 180 days of the date of the closing of such Equity Offering.

At any time prior to July 1, 2018, the Issuer may on any one or more occasions redeem during each calendar year up to 10% of the original principal amount of the Senior Secured Fixed Rate Notes (including the original principal amount of any further additional Senior Secured Fixed Rate Notes), upon not less than 10 nor more than 60 days' notice, at a redemption price of 103.00% of the principal amount of the Senior Secured Fixed Rate Notes so redeemed, plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date, subject to the rights of holders on the relevant record date to receive interest due on the relevant interest payment date.

At any time prior to July 1, 2018 for the Senior Secured Fixed Rate Notes and July 1, 2016 for the Senior Secured Floating Rate Notes, the Issuer may on any one or more occasions redeem all or a part of the Senior Secured Notes upon not less than 10 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Senior Secured Notes redeemed, plus the Applicable Premium as of, and accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of redemption, subject to the rights of holders of the Senior Secured Notes on the relevant record date to receive interest due on the relevant interest payment date.

Except pursuant to the preceding three paragraphs and except pursuant to "*—Redemption for Changes in Taxes*", the Senior Secured Fixed Rate Notes and the Senior Secured Floating Rate Notes will not be redeemable at the Issuer's option prior to July 1, 2018 and July 1, 2016, respectively.

On or after July 1, 2018 for the Senior Secured Fixed Rate Notes and July 1, 2016 for the Senior Secured Floating Rate Notes, the Issuer may on any one or more occasions redeem all or a part of Senior Secured Notes upon not less than 10 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Additional Amounts, if any, on the Senior Secured Notes redeemed, to, but not including, the applicable date of redemption, if redeemed during the twelve-month period beginning on July 1 of the years indicated below, subject to the rights of holders of Senior Secured Notes on the relevant record date to receive interest on the relevant interest payment date:

Senior Secured Fixed Rate Notes

Year	Redemption Price
2018	103.1250%
2019	101.5625%
2020 and thereafter	100.0000%

Senior Secured Floating Rate Notes

Year	Redemption Price
2016	101.0000%
2017 and thereafter	100.0000%

Unless the Issuer defaults in the payment of the redemption price, interest will cease to accrue on the Senior Secured Notes or portions thereof called for redemption on the applicable redemption date. If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest will be paid to the Person in whose name the Senior Secured Note is registered at the close of business on such record date, and no additional interest will be payable to holders of Senior Secured Notes whose Senior Secured Notes are subject to redemption by the Issuer.

Any redemption or notice may, in the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice may state that, in the Issuer's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied (*provided, however, that*, in any case, such redemption date shall be no more than 60 days from the date on which such notice is first given), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date so delayed.

Notwithstanding the foregoing, in connection with any tender offer for the Senior Secured Notes at a price of at least 100% of the principal amount of the Senior Secured Notes tendered, plus accrued and unpaid interest thereon to, but excluding, the applicable tender settlement date, if holders of Senior Secured Notes of not less than 90% in aggregate principal amount of the outstanding Senior Secured Notes validly tender and do not withdraw such Senior Secured Notes in such tender offer and the Issuer, or any third party making such a tender offer in lieu of the Issuer, purchase all of the Senior Secured Notes validly tendered and not withdrawn by such holders, the Issuer or such third party will have the right upon not less than 10 nor more than 60 days' prior notice, given not more than 30 days following such purchase date, to redeem all Senior Secured Notes that remain outstanding following such purchase at a price equal to the price offered to each other holder of Senior Secured Notes in such tender offer plus, to the extent not included in the tender offer payment, accrued and unpaid interest, if any, thereon, to, but excluding, the Redemption Date.

The Issuer or its affiliates may at any time and from time to time purchase Senior Secured Notes. Any such purchases may be made through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices as well as with such consideration as the Issuer or any such affiliates may determine.

Redemption for Changes in Taxes

The Issuer may redeem the Senior Secured Notes, in whole but not in part, at its discretion at any time upon giving not less than 10 nor more than 60 days' prior notice to the holders of the Senior Secured Notes (which notice will be irrevocable and given in accordance with the procedures described in "*—Selection and Notice*"), at a redemption price equal to 100% of the aggregate principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Issuer for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise, if any, if on the next date on which any amount would be payable in respect of the Senior Secured Notes or any Senior Secured Note Guarantee, the Issuer under or with respect to the Senior Secured Notes or any of the Guarantors under or with respect to any Senior Secured Note Guarantee, as the case may be, is or would be required to pay Additional Amounts and the Issuer or the relevant Guarantor cannot avoid any such payment obligation by taking reasonable measures available (including, for the avoidance of doubt, the appointment of a new Paying Agent under the caption "*—Paying Agent and Registrar for the Senior Secured Notes*" or, in respect of a payment under a Senior Secured Note Guarantee, payment through another Guarantor or the Issuer), and the requirement arises as a result of:

(1) any amendment to, or change in, the laws or treaties (or any regulations or rulings promulgated thereunder) of a relevant Tax Jurisdiction which change or amendment becomes effective on or after the date of the offering memorandum relating to the Existing Senior Secured Notes (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of the offering memorandum relating to the Existing Senior Secured Notes, such later date) and which was not publicly and formally announced or publicly and formally proposed, in substantially the form as enacted, prior to the date of the offering memorandum relating to the Existing Senior Secured Notes (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of the offering memorandum relating to the Existing Senior Secured Notes, such later date); or

(2) any amendment to, or change in, an official interpretation, application or administration of such laws, treaties, regulations or rulings (including by virtue of a holding, judgment, order by a court of competent jurisdiction or a change in published administrative practice) which amendment or change becomes effective on or after the date of the offering memorandum relating to the Existing Senior Secured Notes (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of the offering memorandum relating to the Existing Senior Secured Notes, such later date) and which was not publicly and formally announced or publicly and formally proposed, in substantially the form as enacted, prior to the date of the offering memorandum relating to the Existing Senior Secured Notes (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of the offering memorandum relating to the Existing Senior Secured Notes, such later date) (each of the foregoing clauses (1) and (2), a "*Change in Tax Law*").

The Issuer will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Issuer or the relevant Guarantor would be obligated to make such payment of Additional Amounts. Prior to the publication or, where relevant, mailing of any notice of redemption of the Senior Secured Notes pursuant to the foregoing, the Issuer will deliver to the Trustee an opinion of independent tax counsel of recognized standing and reasonably satisfactory to the Trustee to the effect that there has been such Change in Tax Law which would entitle the Issuer to redeem the Senior Secured Notes hereunder. In addition, before the Issuer publishes or mails notice of redemption of the Senior Secured Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that it cannot avoid its or a Guarantor's obligation to pay Additional Amounts by the Issuer taking reasonable measures available to it.

The Trustee will accept and shall be entitled to rely on such Officer's Certificate and Opinion of Counsel as sufficient evidence of the existence and satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the holders.

The foregoing provisions shall apply (a) to a Guarantor only after such time as such Guarantor is obligated to make at least one payment on the Senior Secured Notes and (b) *mutatis mutandis* to any successor Person, after such successor Person becomes a party to the Senior Secured Notes Indenture, with respect to a Change in Tax Law occurring after the time such successor Person becomes a party to the Senior Secured Notes Indenture.

Mandatory Redemption

The Issuer is not required to make mandatory redemption or sinking fund payments with respect to the Senior Secured Notes, except as described in "*Description of the Temporary Senior Secured Notes*" under the caption "*—Disbursement of Funds; Senior Secured Notes Escrow Account; Special Mandatory Redemption*".

Repurchase at the Option of Holders

Change of Control

If a Change of Control occurs, each holder of Senior Secured Notes will have the right to require the Issuer to repurchase all or any part (equal to €100,000 or integral multiples of €1,000 in excess thereof) of that holder's Senior Secured Notes pursuant to a Change of Control Offer on the terms set forth in the Senior Secured Notes Indenture. In the Change of Control Offer, the Issuer will offer a payment in cash equal to 101% of the aggregate principal amount of Senior Secured Notes repurchased, plus accrued and unpaid interest and Additional Amounts, if any, on the Senior Secured Notes repurchased to the date of purchase (the "*Change of Control Payment*"), subject to the rights of holders of Senior Secured Notes on the relevant record date to receive interest due on the relevant interest payment date. Unless the Issuer has unconditionally exercised its right to redeem all the Senior Secured Notes of a series as described under "*—Optional Redemption*" or all conditions to such redemption have been satisfied or waived, within 30 days following any Change of Control, the Issuer will mail a notice to each holder of the Senior Secured Notes at such holder's registered address or otherwise deliver a notice in accordance with the procedures described under "*—Selection and Notice*", with a copy to the Trustee, stating that a Change of Control Offer is being made and offering to repurchase Senior Secured Notes on the date (the "*Change of Control Payment Date*") specified in the notice, which date will be no earlier than 10 days and no later than 60 days from the date such notice is mailed or delivered, pursuant to the procedures required by the Senior Secured Notes Indenture and described in such notice. The Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with the repurchase of the Senior Secured Notes as a result of a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Senior Secured Notes Indenture, the Issuer will comply with any applicable securities laws and regulations and will not be deemed to have breached its obligations under the Senior Secured Notes Indenture by virtue of such compliance.

On the Change of Control Payment Date, the Issuer will, to the extent lawful:

(1) accept for payment all Senior Secured Notes or portions of Senior Secured Notes properly tendered pursuant to the Change of Control Offer;

(2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Senior Secured Notes or portions of Senior Secured Notes properly tendered; and

(3) deliver or cause to be delivered to the Trustee the Senior Secured Notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of Senior Secured Notes or portions of Senior Secured Notes being purchased by the Issuer.

The Paying Agent will promptly mail (or cause to be delivered) to each holder of Senior Secured Notes properly tendered the Change of Control Payment for such Senior Secured Notes, and the Trustee (or its authenticating agent) will promptly authenticate and mail (or cause to be transferred by book-entry) to each holder a new Senior Secured Note equal in principal amount to any unpurchased portion of the Senior Secured Notes surrendered, if any. The Issuer will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The provisions described above that require the Issuer to make a Change of Control Offer following a Change of Control will be applicable whether or not any other provisions of the Senior Secured Notes Indenture are applicable. Except as described above with respect to a Change of Control, the Senior Secured Notes Indenture will not contain provisions that permit the holders of the Senior Secured Notes to require that the Issuer repurchase or redeem the Senior Secured Notes in the event of a takeover, recapitalization or similar transaction. The existence of a holder of the Senior Secured Notes' right to require the Issuer to repurchase such holder's Senior Secured Notes upon the occurrence of a Change of Control may deter a third party from seeking to acquire the Issuer or its Subsidiaries in a transaction that would constitute a Change of Control.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Senior Secured Notes Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Senior Secured Notes properly tendered and not withdrawn under the Change of Control Offer, or (2) a notice of redemption has been given pursuant to the Senior

Secured Notes Indenture as described above under the caption "*—Optional Redemption*", unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

The Issuer's ability to repurchase Senior Secured Notes pursuant to a Change of Control Offer following the occurrence of a Change of Control may be limited by the Issuer's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Senior Secured Notes. See "*Risk Factors—Risks Related to Our Capital Structure—We may not have the ability to raise the funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control as required by the Indenture*".

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of "all or substantially all" of the properties or assets of the Issuer and its Restricted Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of Senior Secured Notes to require the Issuer to repurchase its Senior Secured Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Issuer and its Restricted Subsidiaries taken as a whole to another Person or group may be uncertain. In addition, if an event constitutes a Change of Control, the definitions of Change of Control and Permitted Holders expressly permit a third party to obtain control of the Issuer in a transaction which is a Specified Change of Control Event without any obligation to make a Change of Control Offer.

The provisions under the Senior Secured Notes Indenture relating to the Issuer's obligation to make an offer to repurchase the Senior Secured Notes as a result of a Change of Control may be waived or modified with the consent of the holders of a majority in principal amount of the Senior Secured Notes prior to the occurrence of the Change of Control.

If and for so long as the Senior Secured Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market and the rules of the Irish Stock Exchange so require, the Issuer will publish a public announcement with respect to the results of any Change of Control Offer in a leading newspaper of general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Irish Stock Exchange (*www.ise.ie*).

Asset Sales

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, consummate an Asset Sale unless:

(1) the Issuer (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration received in the Asset Sale by the Issuer or such Restricted Subsidiary is in the form of cash or Cash Equivalents. For purposes of this provision, each of the following will be deemed to be cash:

   (a) any liabilities, as recorded on the balance sheet of the Issuer or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Senior Secured Notes or any Senior Secured Note Guarantee), that are assumed by the transferee of any such assets and as a result of which the Issuer and its Restricted Subsidiaries are no longer obligated with respect to such liabilities or are indemnified against further liabilities;

   (b) any securities, notes or other obligations received by the Issuer or any such Restricted Subsidiary from such transferee that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of the Asset Sale, to the extent of the cash or Cash Equivalents received in that conversion;

   (c) any Capital Stock or assets of the kind referred to in clauses (1)(c) or (e) of the next paragraph of this covenant;

(d) any Designated Non-Cash Consideration received by the Issuer or any Restricted Subsidiary in such Asset Sales having an aggregate Fair Market Value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (d) that is at that time outstanding, not to exceed the greater of €20.0 million and 1.5% of Total Assets at the time of the receipt of such Designated Non-Cash Consideration (with the Fair Market Value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value);

(e) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Sale, to the extent that the Issuer and each other Restricted Subsidiary are released from any guarantee of such Indebtedness in connection with such Asset Sale; and

(f) consideration consisting of Indebtedness of the Issuer or any Guarantor received from Persons who are not the Issuer or any Restricted Subsidiary.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale, the Issuer (or the applicable Restricted Subsidiary, as the case may be) may:

(1) apply such Net Proceeds (at the option of the Issuer or Restricted Subsidiary):

(a) to prepay, repay or purchase:

(i) Obligations under the Revolving Credit Facility or other Senior Secured Indebtedness incurred pursuant to clause (1) of the second paragraph of "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" and to correspondingly reduce commitments with respect thereto (except in the case of any revolving Indebtedness, including but not limited to the Revolving Credit Facility); or

(ii) unless included in (i), Senior Secured Notes and Senior Secured Indebtedness and to correspondingly reduce commitments with respect thereto (except in the case of any revolving Indebtedness, including but not limited to the Revolving Credit Facility); *provided* that if the Issuer or any Restricted Subsidiary shall so reduce Obligations constituting Senior Secured Indebtedness, the Issuer will equally and ratably reduce Obligations under the Senior Secured Notes by making an offer (a "*Senior Secured Notes Offer*") to all holders to purchase at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, for the pro rata amount of the Senior Secured Notes or through open market repurchases (to the extent such purchases are at or above 100% of the principal amount thereof); *provided*, *further*, that in each case under this clause (ii), such Senior Secured Notes and Senior Secured Indebtedness shall be other than Indebtedness owed to the Issuer or an Affiliate of the Issuer;

(b) to purchase or prepay or redeem or repay (i) any Indebtedness that is secured by a Lien on assets or property which do not constitute Collateral or (ii) any Indebtedness of a Restricted Subsidiary that is not a Guarantor (other than Indebtedness owed to the Issuer or an Affiliate of the Issuer);

(c) to acquire all or substantially all of the assets of, or any Capital Stock of, another Permitted Business, if, after giving effect to any such acquisition of Capital Stock, the Permitted Business is or becomes a Restricted Subsidiary *provided, however,* if the assets sold constitute Collateral or constitute all or substantially all of the assets of a Restricted Subsidiary whose Capital Stock has been pledged as Collateral, subject to the Agreed Security Principles (set forth in the Senior Secured Notes Indenture) and any Permitted Liens on the acquired Capital Stock or assets, the Issuer shall pledge or shall cause the applicable Restricted Subsidiary to pledge any acquired Capital Stock or assets (to the extent such assets were of a category of assets included in the Collateral as of 90 days after the Completion Date) referred to in this clause (c) in favor of the Senior Secured Notes on a first-ranking basis;

(d) to make a capital expenditure;

(e) to acquire other assets (other than Capital Stock) not classified as current assets under IFRS that are used or useful in a Permitted Business; or

(f) any combination of the foregoing;

(2) enter into a binding commitment to apply the Net Proceeds pursuant to clauses (b), (c), (d) or (e) of paragraph (1) above; *provided* that such binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment until the earlier of (x) the date on which such acquisition or expenditure is consummated, and (y) the 180th day following the expiration of the aforementioned 365-day period.

Pending the final application of any Net Proceeds, the Issuer (or the applicable Restricted Subsidiary) may temporarily reduce revolving credit borrowings or otherwise invest the Net Proceeds in any manner that is not prohibited by the Senior Secured Notes Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in the second paragraph of this covenant will constitute "*Excess Proceeds*". When the aggregate amount of Excess Proceeds exceeds €30.0 million, within ten Business Days thereof, the Issuer will make an offer (an "*Asset Sale Offer*") to all holders of Senior Secured Notes and, to the extent the Issuer elects, to any holders of other Senior Secured Indebtedness, to purchase, prepay or redeem the maximum principal amount of Senior Secured Notes and such other Senior Secured Indebtedness (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith) that may be purchased, prepaid or redeemed out of the Excess Proceeds. The offer price for the Senior Secured Notes in any Asset Sale Offer will be equal to 100% of the principal amount, plus accrued and unpaid interest and Additional Amounts, if any, to the date of purchase, prepayment or redemption, subject to the rights of holders of Senior Secured Notes on the relevant record date to receive interest due on the relevant interest payment date, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Issuer may use those Excess Proceeds for any purpose not otherwise prohibited by the Senior Secured Notes Indenture. To the extent that the aggregate principal amount of Senior Secured Notes and other Senior Secured Indebtedness so validly tendered and not properly withdrawn pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to the other covenants contained in the Senior Secured Notes Indenture. If the aggregate principal amount of Senior Secured Notes and other Senior Secured Indebtedness tendered into (or to be prepaid or redeemed in connection with) such Asset Sale Offer exceeds the amount of Excess Proceeds or if the aggregate amount of Senior Secured Notes or other Senior Secured Indebtedness tendered pursuant to an Asset Sale Offer exceeds the amount of the Net Proceeds so applied, the Trustee will select the Senior Secured Notes and such other Indebtedness, if applicable, to be purchased on a *pro rata* basis (or in the manner described under "*—Selection and Notice*"), based on the amounts tendered or required to be prepaid or redeemed. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

The Issuer or a Restricted Subsidiary, as the case may be, may make an Asset Sale Offer prior to the expiration of the 365-day period mentioned above.

To the extent that any portion of Net Proceeds payable in respect of the Senior Secured Notes is denominated in a currency other than euros, the amount thereof payable in respect of such Senior Secured Notes shall not exceed the net amount of funds in euros that is actually received by the Issuer upon converting such portion of the Net Proceeds into euros.

The Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with each repurchase of Senior Secured Notes pursuant to a Change of Control Offer or an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control or Asset Sale provisions of the Senior Secured Notes Indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Senior Secured Notes Indenture by virtue of such compliance.

Selection and Notice

If less than all of the Senior Secured Notes are to be redeemed at any time, the Trustee, or the Registrar, as applicable, will select Senior Secured Notes for redemption on a *pro rata* basis (or, in the case of Senior Secured Notes issued in global form as discussed under "*Book-Entry, Delivery and Form*", based on a method that most nearly approximates a *pro rata* selection as the Trustee or the Registrar deems fair and appropriate, including the pool factor), unless otherwise required by law or applicable stock exchange or depositary requirements. Neither the Trustee nor the Registrar shall be liable for selections made by it in accordance with this paragraph.

No Senior Secured Notes of €100,000 or less can be redeemed in part. Notices of redemption will be mailed by first class mail at least 10 but not more than 60 days before the redemption date to each holder of Senior Secured Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Senior Secured Notes or a satisfaction and discharge of the Senior Secured Notes Indenture.

If any Senior Secured Note is to be redeemed in part only, the notice of redemption that relates to that Senior Secured Note will state the portion of the principal amount of that Senior Secured Note that is to be redeemed. A new Senior Secured Note in principal amount equal to the unredeemed portion of the original Senior Secured Note will be issued in the name of the holder of Senior Secured Notes upon cancellation of the original Senior Secured Note. In the case of a Global Senior Secured Note, an appropriate notation will be made on such Senior Secured Note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Senior Secured Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Senior Secured Notes or portions of Senior Secured Notes called for redemption.

For Senior Secured Notes which are represented by global certificates held on behalf of Euroclear or Clearstream, Luxembourg, notices may be given by delivery of the relevant notices to Euroclear or Clearstream, Luxembourg for communication to entitled account holders in substitution for the aforesaid mailing. So long as any Senior Secured Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require, any such notice to the holders of the relevant Senior Secured Notes shall also be published in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Irish Stock Exchange (*www.ise.ie*) and, in connection with any redemption, the Issuer will notify the Irish Stock Exchange of any change in the principal amount of Senior Secured Notes outstanding.

Certain Covenants

Incurrence of Indebtedness and Issuance of Preferred Stock

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, "*incur*") any Indebtedness (including Acquired Debt), and the Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; *provided*, *however*, that the Issuer may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, and the Restricted Subsidiaries may incur Indebtedness (including Acquired Debt), issue Disqualified Stock or issue preferred stock, if:

(a) the Fixed Charge Coverage Ratio for the Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or such preferred stock is issued, as the case may be, would have been at least 2.00 to 1.00, in each case determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or the preferred stock had been issued, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four-quarter period; and

(b) if such Indebtedness is Senior Secured Indebtedness, the Consolidated Senior Secured Leverage Ratio for the Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Senior Secured Indebtedness is incurred would have been less than 5.5 to 1.0, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Senior Secured Indebtedness had been incurred, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four-quarter period,

provided, *further*, that (i) the aggregate amount of Indebtedness (including Acquired Indebtedness) that may be Incurred and Disqualified Stock or preferred stock that may be issued pursuant to the foregoing by the Issuer's non-guarantor subsidiaries shall not exceed the greater of (x) €75.0 million and (y) 6.0% of Total Assets, at any one time outstanding, after giving *pro forma* effect to such incurrence or issuance (including a *pro forma* application of the net proceeds therefrom), and (ii) if the incurrence of Senior

Secured Indebtedness under section (b) above is in connection with consummating a Material Acquisition, the Issuer or any Restricted Subsidiary may only incur such Senior Secured Indebtedness if the Consolidated Senior Secured Leverage Ratio for the Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Senior Secured Indebtedness is incurred would have been less than 5.0 to 1.0, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Senior Secured Indebtedness had been incurred, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four quarter period.

The first paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, "*Permitted Debt*"):

(1) the incurrence by the Issuer and its Restricted Subsidiaries of additional Indebtedness under Credit Facilities in an aggregate principal amount at any one time outstanding under this clause (1) not to exceed the greater of €150.0 million and 100% of Consolidated EBITDA, *plus,* in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such refinancing;

(2) (a) Indebtedness of the Target and its Restricted Subsidiaries outstanding on the Completion Date and which remains outstanding after giving effect to the Transactions and the use of proceeds of the Senior Secured Notes and (b) Indebtedness of the Issuer or any Restricted Subsidiary on the Issue Date and which is to be repaid after giving effect to the use of proceeds of the Senior Secured Notes during the pendency of the application of such proceeds;

(3) the incurrence by the Issuer and the Guarantors of Indebtedness represented by the Senior Secured Notes issued on the Issue Date, the related Senior Secured Note Guarantees and any "parallel debt" obligations under the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents and any loan pursuant to which the proceeds of the incurrence of any Parent Senior Debt are onlent to the Issuer or any of its Restricted Subsidiaries;

(4) the incurrence by the Issuer or any of its Restricted Subsidiaries of Indebtedness represented by Capital Lease Obligations, mortgage financings, purchase money obligations or other financings, in each case, incurred for the purpose of financing all or any part of the purchase price, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment (whether through the direct purchase of assets or the Capital Stock of any Person owning such assets) used in the business of the Issuer or any of its Restricted Subsidiaries, in an aggregate principal amount, including all Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this clause (4), not to exceed the greater of €50.0 million and 4.0% of Total Assets at any time outstanding, so long as the Indebtedness exists on the date of such purchase, lease, rental or improvement or is created within 180 days thereafter;

(5) the incurrence by the Issuer or any of its Restricted Subsidiaries of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, defease or discharge any Indebtedness (other than intercompany Indebtedness) that was permitted by the Senior Secured Notes Indenture to be incurred under (a) the first paragraph of this covenant or (b) clauses (2)(a), (3), (5), (16) or (17) of this paragraph;

(6) the incurrence by the Issuer or any Restricted Subsidiary of intercompany Indebtedness between or among the Issuer or any Restricted Subsidiary; *provided* that:

   (a) if the Issuer or any Guarantor is the obligor on such Indebtedness and the payee is not the Issuer or a Guarantor, such Indebtedness must be unsecured and expressly subordinated to the prior payment in full in cash of all Obligations then due with respect to the Senior Secured Notes, in the case of the Issuer, or the Senior Secured Note Guarantee, in the case of a Guarantor (i) except in respect of Working Capital Intercompany Loans and (ii) only to the extent legally permitted (the Issuer and its Restricted Subsidiaries having completed all procedures required in the reasonable judgment of directors or officers of the obligee or obligor to protect such persons from any penalty or civil or criminal liability in connection with the subordination of such Indebtedness); and

(b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Issuer or a Restricted Subsidiary and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Issuer or a Restricted Subsidiary, will be deemed, in each case, to constitute an incurrence of such Indebtedness by the Issuer or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the issuance by any Restricted Subsidiary to the Issuer or to any of its Restricted Subsidiaries of preferred stock; *provided* that:

(a) any subsequent issuance or transfer of Equity Interests that results in any such preferred stock being held by a Person other than the Issuer or a Restricted Subsidiary; and

(b) any sale or other transfer of any such preferred stock to a Person that is not either the Issuer or a Restricted Subsidiary,

will be deemed, in each case, to constitute an issuance of such preferred stock by such Restricted Subsidiary that was not permitted by this clause (7);

(8) the incurrence by the Issuer or any Restricted Subsidiary of Hedging Obligations for *bona fide* hedging purposes of the Issuer and its Restricted Subsidiaries and not for speculative purposes;

(9) the guarantee by the Issuer or any Restricted Subsidiary of Indebtedness of the Issuer or any Restricted Subsidiary to the extent that the guaranteed Indebtedness was permitted to be incurred by another provision of this covenant; *provided* that if the Indebtedness being guaranteed is subordinated to the Senior Secured Notes or a Senior Secured Note Guarantee, then the guarantee must be subordinated to the Senior Secured Notes or Senior Secured Note Guarantee to the same extent as the Indebtedness guaranteed;

(10) the incurrence by the Issuer or any of its Restricted Subsidiaries of Indebtedness in respect of workers' compensation claims, self-insurance obligations, captive insurance companies, bankers' acceptances, performance and surety bonds in the ordinary course of business and consistent with industry practice;

(11) the incurrence by the Issuer or any of its Restricted Subsidiaries of Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently drawn against insufficient funds, so long as such Indebtedness is covered within five Business Days of such incurrence;

(12) the incurrence by the Issuer and its Restricted Subsidiaries of Indebtedness arising from agreements of the Issuer or a Restricted Subsidiary providing for customary indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Equity Interests of a Subsidiary, *provided* that the maximum liability of the Issuer and its Restricted Subsidiaries in respect of all such Indebtedness shall at no time exceed the gross proceeds, including the Fair Market Value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Issuer and its Restricted Subsidiaries in connection with such disposition;

(13) the incurrence by the Issuer and its Restricted Subsidiaries of Indebtedness in respect of (A) letters of credit, surety, performance or appeal bonds, completion guarantees, judgment, advance payment, customs, VAT or other tax guarantees or similar instruments issued in the ordinary course of business of such Person and not in connection with the borrowing of money, including letters of credit or similar instruments in respect of self-insurance and workers compensation obligations, and (B) any customary cash management, cash pooling or netting or setting off arrangements; *provided*, *however*, that upon the drawing of such letters of credit or other instrument, such obligations are reimbursed within 30 days following such drawing;

(14) Indebtedness of the Issuer of any of its Restricted Subsidiaries in respect of Management Advances;

(15) customer deposits and advance payments received in the ordinary course of business from customers for goods and services purchased in the ordinary course of business;

(16) Indebtedness in an aggregate outstanding principal amount that, when taken together with any Permitted Refinancing Indebtedness in respect thereof and the principal amount of all other Indebtedness incurred pursuant to this clause (16) and then outstanding, will not exceed 100% of the net cash proceeds received by the Issuer or any of its Restricted Subsidiaries from the issuance or sale (other than to a Restricted Subsidiary) of its Subordinated Shareholder Debt or Capital Stock (other than Disqualified Stock, or an Excluded Contribution or Parent Senior Debt Contribution) or otherwise contributed to the equity (other than through the issuance of Disqualified Stock or an Excluded Contribution or Parent Senior Debt Contribution) of the Issuer or any of its Restricted Subsidiaries, in each case, subsequent to the Issue Date; *provided, however*, that (i) any such net cash proceeds that are so received or contributed shall be excluded for purposes of making Restricted Payments under the first paragraph and clauses (2), (4) and (9) of the second paragraph of the covenant described below under "*—Certain Covenants—Restricted Payments*" to the extent the Issuer and its Restricted Subsidiaries incur Indebtedness in reliance thereon and (ii) any net cash proceeds that are so received or contributed shall be excluded for purposes of incurring Indebtedness pursuant to this clause (16) to the extent the Issuer or any of its Restricted Subsidiaries makes a Restricted Payment under the first paragraph and clauses (2), (4) and (9) of the second paragraph of the covenant described below under "*—Certain Covenants—Restricted Payments*" in reliance thereon;

(17) Indebtedness (a) outstanding on the date on which any Person becomes a Restricted Subsidiary of the Issuer or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Issuer or any of its Restricted Subsidiaries or (b) incurred to provide all or any portion of the funds used to consummate the transaction or series of related transactions pursuant to which (i) any Person became a Restricted Subsidiary of the Issuer or was otherwise acquired by the Issuer or any of its Restricted Subsidiaries or (ii) any assets are acquired and related liabilities are assumed by the Issuer or any Restricted Subsidiary; *provided*, *however*, with respect to this clause (17), that at the time of the acquisition or other transaction pursuant to which such Indebtedness was deemed to be incurred (x) either (A) the Issuer would have been able to incur €1.00 of additional Indebtedness pursuant to the first paragraph of this covenant after giving *pro forma* effect to the incurrence of such Indebtedness pursuant to this clause (17) or (B) the Fixed Charge Coverage Ratio of the Issuer would not be less than it was immediately prior to giving *pro forma* effect to such acquisition or other transaction and the related incurrence of such Indebtedness pursuant to this clause (17) and (y) to the extent the Indebtedness incurred pursuant to sub-clause (b) constitutes Senior Secured Indebtedness, either (A) the Issuer would have been able to incur €1.00 of additional Senior Secured Indebtedness pursuant to the first paragraph of this covenant, or (B) the Consolidated Senior Secured Leverage Ratio for the Issuer and its Restricted Subsidiaries would not be greater than it was immediately prior to giving *pro forma* effect to such acquisition or other transaction and the related incurrence of such Indebtedness pursuant to this clause (17); and further provided that the Issuer and its Restricted Subsidiaries shall not incur Indebtedness to pay all or a portion of the purchase price for a Material Acquisition pursuant to sub-clause (y)(B) of this clause (17);

(18) Indebtedness incurred in any (a) Receivables Financing or (b) CIR Financing or CICE Financing (or any equivalent or successor tax credit financing); *provided* that, in the case of clause (18)(b) only, such Indebtedness, together with any Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to such clause, does not exceed €25.0 million in the aggregate outstanding at any one time;

(19) Indebtedness of the Issuer's non-guarantor Subsidiaries in an aggregate principal amount not to exceed the greater of €20.0 million and 1.5% of Total Assets in the aggregate outstanding at any one time (it being understood that any Indebtedness incurred pursuant to this clause (19) shall cease to be deemed incurred or outstanding pursuant to this clause (19) but shall be deemed incurred and outstanding pursuant to the first paragraph of this covenant from and after the first date on which such non-guarantor Subsidiary could have incurred such Indebtedness pursuant to the first paragraph of this covenant);

(20) Indebtedness consisting of guarantees of Indebtedness incurred by joint ventures of the Issuer or any of its Restricted Subsidiaries that, together with the outstanding aggregate amount of Investments made pursuant to clause (16) of the definition of "Permitted Investment", does not

exceed the greater of €30.0 million and 2.5% of Total Assets in the aggregate outstanding at any one time; and

(21) the incurrence by the Issuer or any of its Restricted Subsidiaries of additional Indebtedness in an aggregate principal amount (or accreted value, as applicable) at any time outstanding, including all Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this clause (21) not to exceed the greater of €60.0 million and 4.5% of Total Assets.

The Issuer and the Guarantors will not incur any Indebtedness (including Permitted Debt) that is contractually subordinated in right of payment to any other Indebtedness of the Issuer or any Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the Senior Secured Notes and the applicable Senior Secured Note Guarantee on substantially identical terms; *provided*, however, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Issuer solely by virtue of being unsecured or by virtue of being secured with different collateral or by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment-ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

Any Guarantees provided by the Issuer or a Restricted Subsidiary in respect of any Indebtedness of any Parent Entity (including any Parent Senior Debt) shall be expressly subordinated to the prior payment in full of all obligations with respect to the Senior Secured Notes pursuant to the Intercreditor Agreement or any Additional Intercondition Agreement.

For purposes of determining compliance with this covenant, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (21) above or is permitted to be incurred pursuant to the first paragraph of this covenant, the Issuer, in its sole discretion, will be permitted to classify such item of Indebtedness on the date of its incurrence and only be required to include the amount and type of such Indebtedness in one of such clauses or paragraph, and will be permitted on the date of such incurrence to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, and from time to time to divide and reclassify all or a portion of such item of Indebtedness, in any manner that complies with this covenant, *provided* that Indebtedness under the Revolving Credit Facility incurred or outstanding on the Completion Date will be deemed to have been incurred on such date in reliance on the exception provided in clause (1) of the definition of Permitted Debt and may not be reclassified.

Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included. If obligations in respect of letters of credit, bankers' acceptances or other similar instruments are incurred pursuant to any Credit Facility and are being treated as incurred pursuant to clause (1), (4) or (21) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included. The principal amount of any Disqualified Stock of the Issuer or a Restricted Subsidiary, or preferred stock of a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof.

The accrual of interest or preferred stock dividends, the accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness, the reclassification of preferred stock as Indebtedness due to a change in accounting principles, and the payment of dividends on preferred stock or Disqualified Stock in the form of additional shares of the same class of preferred stock or Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of preferred stock or Disqualified Stock for purposes of this covenant, nor to be the incurrence of a Lien under the "*Liens*" covenant, *provided* that the Lien securing such originally incurred preferred stock, Indebtedness or preferred stock was secured in accordance with the Senior Secured Notes Indenture. For purposes of determining compliance with any euro-denominated restriction on the incurrence of Indebtedness, the euro-equivalent principal amount of Indebtedness denominated in a different currency shall be utilized, calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term Indebtedness, or first committed, in the case of Indebtedness incurred under a revolving credit facility; *provided*, *however*, that (i) if such Indebtedness denominated in non-euro currency is subject to a Currency Exchange Protection Agreement with respect to euro, the amount of such Indebtedness expressed in euro will be calculated so as to take account of the effects of such Currency Exchange Protection Agreement; and (ii) the euro-equivalent of the principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date and the euro-equivalent of the principal amount of any such Indebtedness of the Target and its Subsidiaries outstanding on the Completion Date shall be calculated based on the relevant currency exchange rate in effect on the Completion Date. The principal amount of any refinancing Indebtedness incurred in the same currency as the Indebtedness being refinanced will be the euro-equivalent of the Indebtedness refinanced determined on the date such Indebtedness was originally incurred, except that to the extent that:

(1) such euro-equivalent was determined based on a Currency Exchange Protection Agreement, in which case the Refinancing Indebtedness will be determined in accordance with the preceding sentence; and

(2) the principal amount of the refinancing Indebtedness exceeds the principal amount of the Indebtedness being refinanced, in which case the euro-equivalent of such excess will be determined on the date such refinancing Indebtedness is being incurred.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Issuer or any Restricted Subsidiary may incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in exchange rates or currency values.

The amount of any Indebtedness outstanding as of any date will be:

(1) in the case of any Indebtedness issued with original issue discount, the amount of the liability in respect thereof determined in accordance with IFRS;

(2) the principal amount of the Indebtedness, in the case of any other Indebtedness; and

(3) in respect of Indebtedness of another Person secured by a Lien on the assets of the specified Person, the lesser of:

   (i) the Fair Market Value of such assets at the date of determination; and

   (ii) the amount of the Indebtedness of the other Person.

Restricted Payments

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Issuer's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Issuer's or any of its Restricted Subsidiaries' Equity Interests in their capacity as holders (other than (i) dividends or distributions payable in Equity Interests (other than Disqualified Stock) of the Issuer and (ii) dividends or distributions payable to the Issuer or a Restricted Subsidiary);

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Issuer) any Equity Interests of the Issuer or any direct or indirect parent entity of the Issuer;

(3) make any principal payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Subordinated Shareholder Debt, any Parent Senior Debt or any Indebtedness of the Issuer or any Guarantor that is contractually subordinated in right of payment to the Senior Secured Notes or to any Senior Secured Note Guarantee (excluding any intercompany Indebtedness between or among the Issuer and any of its Restricted Subsidiaries), except (i) a payment of interest or principal at the Stated Maturity thereof or (ii) the purchase, repurchase or other acquisition of Indebtedness purchased in anticipation of satisfying a scheduled sinking fund obligation, principal installment or scheduled maturity, in each case due within one year of the date of such purchase, repurchase or other acquisition; or

(4) make any Restricted Investment,

(all such payments and other actions set forth in these clauses (1) through (4) above being collectively referred to as "*Restricted Payments*"), unless, at the time of any such Restricted Payment:

(a) no Default or Event of Default has occurred and is continuing or would occur as a consequence of such Restricted Payment;

(b) the Issuer would, at the time of such Restricted Payment and after giving *pro forma* effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least €1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*"; and

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Issuer and its Restricted Subsidiaries since the Issue Date (excluding Restricted Payments permitted by clauses (2), (3), (4), (5), (6), (7), (8), (10), (11), (12), (14), (15), (16), (17), (19), (20) and (21) of the next succeeding paragraph), is less than the sum, without duplication, of:

   (i) 50% of the Consolidated Net Income of the Issuer for the period (taken as one accounting period) from the first day of the fiscal quarter commencing immediately prior to the Issue Date to the end of the Issuer's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit); *plus*

   (ii) 100% of the aggregate net cash proceeds and the Fair Market Value of marketable securities received by the Issuer from the Completion Date as a contribution to its common equity capital or from the issue or sale of Equity Interests of the Issuer (other than Disqualified Stock, Excluded Contributions, the Equity Contribution or a Parent Senior Debt Contribution) or from the issue or sale of convertible or exchangeable Disqualified Stock of the Issuer or convertible or exchangeable debt securities of the Issuer, in each case that have been converted into or exchanged for Equity Interests of the Issuer (other than Equity Interests and convertible or exchangeable Disqualified Stock or debt securities sold to a Subsidiary of the Issuer) or from the issuance or sale of Subordinated Shareholder Debt (other than an issuance or sale to a Subsidiary of the Issuer); *plus*

   (iii) to the extent that any Restricted Investment that was made after the Issue Date is (a) sold, disposed of or otherwise cancelled, liquidated or repaid, 100% of the aggregate amount received in cash and the Fair Market Value of the property and marketable securities received by the Issuer or any Restricted Subsidiary (other than from a Person that is the Issuer or a Restricted Subsidiary), or (b) made in an entity that subsequently becomes a Restricted Subsidiary, 100% of the Fair Market Value of the Restricted Investment of the Issuer and its Restricted Subsidiaries as of the date such entity becomes a Restricted Subsidiary; *plus*

   (iv) to the extent that any Unrestricted Subsidiary of the Issuer designated as such after the Issue Date is redesignated as a Restricted Subsidiary or is merged or consolidated into the Issuer or a Restricted Subsidiary, or all of the assets of such Unrestricted Subsidiary are transferred to the Issuer or a Restricted Subsidiary, the lesser of (i) the Fair Market Value of the property received by the Issuer or Restricted Subsidiary or the Issuer's Restricted Investment in such Subsidiary as of the date of such redesignation, merger, consolidation or transfer of assets and (ii) such Fair Market Value as of the date on which such Subsidiary was originally designated as an Unrestricted Subsidiary, in each case, to the extent such Investments reduced the Restricted Payments capacity under this clause (iv) and were not previously repaid or otherwise reduced; *plus*

   (v) upon the full and unconditional release of a Restricted Investment that is a guarantee made by the Issuer or one of its Restricted Subsidiaries to any Person, an amount equal to the amount of such guarantee; *plus*

   (vi) 100% of any cash dividends or distributions and the Fair Market Value of property and marketable securities received by the Issuer or a Restricted Subsidiary after the Completion Date, (A) in connection with the sale or other disposition (other than to the Issuer or a Restricted Subsidiary or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) of Capital Stock of an Unrestricted Subsidiary of the Issuer; and (B) from an Unrestricted Subsidiary; *provided, however*, that no amount will be included in Consolidated Net Income for purposes of the preceding clause (i) to the extent that it is (at the Issuer's option) included under this clause (vi).

provided, however, that upon a Specified Change of Control Event, all amounts calculated pursuant to this clause (c) shall be reset to zero and all references to the Issue Date and Completion Date in this clause (c) shall thereafter refer to the date of such Specified Change of Control Event.

The preceding provisions will not prohibit:

(1) the payment of any dividend or the consummation of any redemption within 60 days after the date of declaration of the dividend or giving of the redemption notice, as the case may be, if at the date of declaration or notice, the dividend or redemption payment would have complied with the provisions of the Senior Secured Notes Indenture;

(2) the making of any Restricted Payment in exchange for, or out of or with the net cash proceeds of the substantially concurrent sale or issuance (other than to a Subsidiary of the Issuer) of, Equity Interests of the Issuer (other than Disqualified Stock), Subordinated Shareholder Debt or from the substantially concurrent contribution of common equity capital to the Issuer; *provided* that the amount of any such net cash proceeds that are utilized for any such Restricted Payment will be excluded from the calculation of amounts under clause (c)(ii) of the preceding paragraph, will not constitute Excluded Contributions or Parent Senior Debt Contributions and will not be considered to be net cash proceeds from an Equity Offering for purposes of the "Optional Redemption" provisions of the Senior Secured Notes Indenture;

(3) the repurchase, redemption, defeasance or other acquisition or retirement for value of Indebtedness of the Issuer or any Guarantor that is contractually subordinated to the Senior Secured Notes or any Senior Secured Note Guarantee with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness;

(4) the repurchase, redemption or other acquisition or retirement for value of any Equity Interests of the Issuer or any Restricted Subsidiary held by any current or former officer, director, employee or consultant of the Issuer or any of its Restricted Subsidiaries pursuant to any equity subscription agreement, stock option agreement, restricted stock grant, shareholders' agreement or similar agreement; *provided* that the aggregate price paid for all such repurchased, redeemed, acquired or retired Equity Interests may not exceed €2.0 million in any calendar year (with any unused amount in any calendar year being carried over in the succeeding calendar years); and *provided*, *further*, that such amount in any calendar year may be increased by an amount not to exceed (A) the cash proceeds from the sale of Equity Interests of the Issuer or a Restricted Subsidiary received by the Issuer or a Restricted Subsidiary during such calendar year, in each case to members of management, directors or consultants of the Issuer, any of its Restricted Subsidiaries or any of its direct or indirect parent companies and (B) the cash proceeds of key man life insurance policies, in each case to the extent the cash proceeds have not otherwise been applied to the making of Restricted Payments pursuant to clause (c)(ii) of the preceding paragraph or clause (2) of this paragraph;

(5) the repurchase of Equity Interests deemed to occur upon the exercise of stock options or warrants to the extent such Equity Interests represent a portion of the exercise price of those stock options or warrants;

(6) the declaration and payment of regularly scheduled or accrued dividends to holders of any class or series of Disqualified Stock of the Issuer or any preferred stock of any Restricted Subsidiary issued on or after the Issue Date in accordance with the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(7) payments of cash, dividends, distributions, advances or other Restricted Payments by the Issuer or any of its Restricted Subsidiaries to allow the payment of cash in lieu of the issuance of fractional shares upon (x) the exercise of options or warrants or (y) the conversion or exchange of Capital Stock of any such Person;

(8) without duplication payments pursuant to any Tax Sharing Agreement or arrangements, payments or other transactions among the Issuer and its Subsidiaries and other Persons with which the Issuer or any of its Subsidiaries is required or permitted to file a consolidated or combined tax return or with which the Issuer or any of its Restricted Subsidiaries is a part of a group for tax, accounting or cash pooling purposes or any tax advantageous group made pursuant to applicable legislation, together with other reasonable costs and expenses relating thereto; *provided*, *however*, that such payments, and the value of such transactions, shall not exceed the amount of tax that the Issuer and such Restricted Subsidiaries would owe on a stand-alone basis and the amount of cash paid by Unrestricted Subsidiaries to the Issuer or such Restricted Subsidiaries for such purpose.

(9) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), the declaration and payment by the Issuer of, or loans, advances, dividends or distributions to any Parent Entity to pay, dividends on the common stock or common equity interests of the Issuer or any Parent Entity following a Public Offering of such common stock or common equity interests, in an amount not to exceed in any fiscal year the greater of (a) 6% of the net cash proceeds received by the Issuer from any Public Offering or contributed to the equity (other than through the issuance of Disqualified Stock or through Excluded Contributions or a Parent Senior Debt Contribution) of the Issuer or contributed as Subordinated Shareholder Debt to the Issuer and (b) following the Initial Public Offering, an amount equal to the greater of (i) the greater of (A) 7% of the Market Capitalization and (B) 7% of the IPO Market Capitalization; *provided that* in the case of this clause (i) after giving *pro forma* effect to such loans, advances, dividends or distributions, the Consolidated Leverage Ratio shall be equal to or less than 4.0 to 1.0 and (ii) the greater of (A) 5% of the Market Capitalization and (B) 5% of the IPO Market Capitalization; *provided that* in the case of this clause (ii) after giving *pro forma* effect to such loans, advances, dividends and distributions, the Consolidated Leverage Ratio shall be equal to or less than 4.5 to 1.0;

(10) advances or loans to (a) any future, present or former officer, director, employee or consultant of the Issuer or a Restricted Subsidiary to pay for the purchase or other acquisition for value of Equity Interests of the Issuer (other than Disqualified Stock), or any obligation under a forward sale agreement, deferred purchase agreement or deferred payment arrangement pursuant to any management equity plan or stock option plan or any other management or employee benefit or incentive plan or other agreement or arrangement or (b) any management equity plan or stock option plan or any other management or employee benefit or incentive plan or unit trust or the trustees of any such plan or trust to pay for the purchase or other acquisition for value of Equity Interests of the Issuer (other than Disqualified Stock); *provided* that the total aggregate amount of Restricted Payments made under this clause (10) does not exceed € 2.0 million in any calendar year (with any unused amount in any calendar year being carried over in the succeeding calendar years);

(11) the payment of any dividend (or, in the case of any partnership or limited liability company, any similar distribution) by a Restricted Subsidiary to the holders of its Equity Interests (other than the Issuer or any Restricted Subsidiary) on no more than a *pro rata* basis;

(12) the declaration and payment of dividends, loans, advances, other distributions or other amounts to, or the making of loans to any Parent Entity for such entity to, if applicable:

  (a) pay amounts equal to amounts required for any Parent Entity to pay interest and/or principal on Parent Senior Debt;

  (b) pay fees and expenses incurred by any Parent Entity related to (i) the maintenance of such Parent of its corporate or other entity existence and performance of its obligations under the Senior Secured Notes Indenture and similar obligations under the Revolving Credit Facility and/or Parent Senior Debt, (ii) any unsuccessful equity or debt offering of such Parent Entity and (iii) any equity or debt issuance, incurrence or offering, any disposition or acquisition or any investment transaction by the Issuer or any of its Restricted Subsidiaries (or any acquisition of or investment in any business, assets or property that will be contributed to the Issuer or any of its Restricted Subsidiaries as part of the same or a related transaction) permitted by the Senior Secured Notes Indenture; and

(c) make payments to the Sponsor (i) representing annual management, consulting, monitoring or advisory fees and related expenses in an aggregate amount not to exceed €1.0 million in any calendar year (with unused amounts in any calendar year being permitted to be carried over into succeeding calendar years) or (ii) for any other financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including, without limitation, in connection with acquisitions or divestitures, including in connection with the consummation of the Transactions, which payments are approved in respect of such activities by a majority of the Board of Directors of the Issuer in good faith.

(13) Permitted Biologist Payments;

(14) any purchase, repurchase, redemption, payment on, defeasance or other acquisition or retirement for value of Indebtedness of the Issuer or any Restricted Subsidiary that is subordinated in right of payment to the Senior Secured Notes or to any Senior Secured Note Guarantee, including Subordinated Indebtedness and Subordinated Shareholder Debt (A) upon a Change of Control or Asset Sale to the extent required by the agreements governing such Indebtedness at a purchase price not greater than (x) 101% of the principal amount of such Indebtedness in the case of a Change of Control or (y) 100% of the principal amount of such Indebtedness in the case of an Asset Sale, in each case plus accrued and unpaid interest, but only if the Issuer shall have complied with its obligations under the covenants described under "*—Repurchase at the Option of Holders—Change of Control*" or "*—Repurchase at the Option of Holders—Asset Sales*", if applicable, or (B) consisting of Acquired Debt (other than Indebtedness Incurred (i) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Issuer or a Restricted Subsidiary or (ii) otherwise in connection with or in contemplation of such acquisition) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest and any premium required by the terms of any such Indebtedness;

(15) the distribution, as a dividend or otherwise, of shares of Capital Stock of, or Indebtedness owed to the Issuer or a Restricted Subsidiary of the Issuer by, Unrestricted Subsidiaries;

(16) the payment of any Receivables Fees and purchases of Receivables Assets pursuant to a Receivables Repurchase Obligation in connection with CICE Financing, Receivables Financing and CIR Financing;

(17) Restricted Payments that are made with cash Excluded Contributions, or consisting of non-cash Excluded Contributions, or Investments in exchange for or using as consideration Investments previously made under this clause (17);

(18) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), any Restricted Payment; *provided that*, on the date of any such Restricted Payment, the Consolidated Leverage Ratio for the Issuer and its Restricted Subsidiaries does not exceed 3.5 to 1.0 on a *pro forma* basis after giving effect thereto;

(19) the Transactions;

(20) dividends, loans, advances or distributions to any Parent Entity or other payments by the Issuer or any Restricted Subsidiary in amounts equal to (without duplication) (a) the amounts required for any Parent Entity, without duplication, to pay any Parent Expenses or any Related Taxes; (b) amounts constituting or to be used for purposes of making payments of fees and expenses incurred in connection with the Transactions or disclosed in the offering memorandum relating to the Existing Senior Secured Notes or to the extent specified in the second paragraph under "*—Transaction with Affiliates*"; and (c) the amounts constituting dividends or other distributions as described in the offering memorandum relating to the Existing Senior Secured Notes under "*Use of Proceeds*"; and

(21) so long as no Default or Event of Default has occurred and is continuing, other Restricted Payments in an aggregate amount not to exceed the greater of €40.0 million and 3.0% of Total Assets since the Issue Date.

The amount of all Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment.

For purposes of determining compliance with this covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories of Restricted Payments described in clauses (1) through (21) above, or is permitted pursuant to the first paragraph of this covenant, the Issuer, in its sole discretion, will be entitled to divide or classify such Restricted Payment (or portion thereof) on the date made or later divide or reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

Liens

The Issuer will not and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien (the "*Initial Lien*") of any kind securing Indebtedness upon any of their property or assets, now owned or hereafter acquired, except (a) in the case of any property or asset that does not constitute Collateral, (i) Permitted Liens or (ii) unless all payments due under the Senior Secured Notes Indenture and the Senior Secured Notes (including a Senior Secured Note Guarantee in the case of Liens of a Guarantor) are secured on an equal and ratable basis with the Indebtedness so secured until such time as such Indebtedness is no longer secured by a Lien (and if such Indebtedness so secured is subordinated in right of payment to either the Senior Secured Notes or a Senior Secured Note Guarantee, on a senior priority basis); and (b) in the case of any property or asset that constitutes Collateral, Permitted Collateral Liens.

Any Lien created for the benefit of the holders pursuant to this covenant will provide by its terms that such Lien will be automatically and unconditionally released and discharged (a) upon the release and discharge of the Initial Lien with respect to clause (a) of the preceding paragraph or (b) as set forth under the caption "—*Security*".

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock to the Issuer or any Restricted Subsidiary, or with respect to any other interest or participation in, or measured by, its profits, or pay any Indebtedness owed to the Issuer or any Restricted Subsidiary;

(2) make loans or advances to the Issuer or any Restricted Subsidiary; or

(3) sell, lease or transfer any of its properties or assets to the Issuer or any Restricted Subsidiary,

provided that (x) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill period to) loans or advances made to the Issuer or any Restricted Subsidiary to other Indebtedness incurred by the Issuer or any Restricted Subsidiary, in each case, shall not be deemed to constitute such an encumbrance or restriction.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

(1) agreements governing Indebtedness and Credit Facilities as in effect on the Issue Date and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of those agreements; *provided* that the amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on the Issue Date;

(2) the Senior Secured Notes Indenture, the Senior Secured Notes, the Senior Secured Note Guarantees, the Intercreditor Agreement, the Security Documents and any other agreement or instrument with respect to the Target or its Subsidiaries, in each case, in effect at or entered into on the Completion Date;

(3) any encumbrance or restriction arising pursuant to an agreement or instrument relating to any Indebtedness permitted to be incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under "—*Incurrence of Indebtedness and Issuance of Preferred Stock*" if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole

(i) are not materially less favorable to the holders of the Senior Secured Notes than the encumbrances and restrictions contained in the Revolving Credit Facility and the Intercreditor Agreement, in each case, as in effect on the Issue Date (as determined in good faith by the Issuer) or (ii) is customary in comparable financings and where, in the case of this sub-clause (ii), the Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Issuer ability to make principal or interest payments on the Senior Secured Notes (as determined in good faith by the Issuer);

(4) applicable law, rule, regulation or order or the terms of any license, authorization, concession or permit;

(5) any instrument governing Indebtedness or Capital Stock of a Person acquired by the Issuer or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness or Capital Stock was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired; *provided* that, in the case of Indebtedness, such Indebtedness was permitted to be incurred by the terms of the Senior Secured Notes Indenture;

(6) provisions in leases, licenses and joint venture agreements;

(7) purchase money obligations for property acquired in the ordinary course of business and Capital Lease Obligations that impose restrictions on the property purchased or leased of the nature described in clause (3) of the preceding paragraph;

(8) any agreement for the sale or other disposition of the Capital Stock or all or substantially all of the property and assets of a Restricted Subsidiary that restricts distributions by that Restricted Subsidiary pending its sale or other disposition;

(9) Permitted Refinancing Indebtedness; *provided* that (i) the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced or (ii) is customary in comparable financings and where, in the case of this sub-clause (ii), the Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Issuer's ability to make principal or interest payments on the Senior Secured Notes (as determined in good faith by the Issuer);

(10) Liens permitted to be incurred under the provisions of the covenant described above under the caption "*—Liens*" that limit the right of the debtor to dispose of the assets subject to such Liens;

(11) customary provisions limiting the disposition or distribution of assets or property in joint venture agreements, asset sale agreements, sale-leaseback agreements, stock sale agreements and other similar agreements in the ordinary course of business (including agreements entered into in connection with a Restricted Investment), which limitation is applicable only to the assets that are the subject of such agreements;

(12) restrictions on cash or other deposits or net worth imposed by customers or suppliers or required by insurance, surety or bonding companies, in each case, under contracts entered into in the ordinary course of business;

(13) any encumbrance or restriction pursuant to Currency Exchange Protection Agreements or Hedging Obligations;

(14) any encumbrance or restriction of a Receivables Subsidiary effected in connection with a Receivables Financing; and restrictions effected in connection with a CICE Financing, Receivables Financing or CIR Financing that, in the good faith determination of the Board of Directors or an Officer of the Issuer, are necessary or advisable to effect such CICE Financing, Receivables Financing or CIR Financing; or

(15) any encumbrance or restriction existing under any agreement that extends, renews, refinances or replaces the agreements containing the encumbrances or restrictions in the foregoing clauses (1) through (14), or in this clause (15); *provided* that (i) the terms and conditions of any such encumbrances or restrictions are no more restrictive in any material respect than those under or pursuant to the agreement so extended, renewed, refinanced or replaced or (ii) is customary in

comparable financings and where, in the case of this sub-clause (ii), the Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Issuer's ability to make principal or interest payments on the Senior Secured Notes (as determined in good faith by the Issuer).

Merger, Consolidation or Sale of Assets

The Issuer will not directly or indirectly: (1) consolidate or merge with or into another Person (whether or not the Issuer is the surviving corporation), or (2) sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the properties or assets of the Issuer and its Restricted Subsidiaries taken as a whole in one or more related transactions, to another Person, unless:

(1) either: (a) the Issuer is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than the Issuer) or to which such sale, assignment, transfer, conveyance, lease or other disposition has been made is an entity organized or existing under the laws of any member state of the Pre-Expansion European Union, Switzerland, Canada, any state of the United States or the District of Columbia;

(2) the Person formed by or surviving any such consolidation or merger with the Issuer (if other than the Issuer) or the Person to which such sale, assignment, transfer, conveyance, lease or other disposition has been made assumes all the obligations of the Issuer under the Senior Secured Notes, the Senior Secured Notes Indenture and the Intercreditor Agreement, the Security Documents;

(3) immediately after such transaction, no Default or Event of Default exists;

(4) the Issuer or the Person formed by or surviving any such consolidation or merger (if other than the Issuer), or to which such sale, assignment, transfer, conveyance, lease or other disposition has been made would, on the date of such transaction after giving *pro forma* effect thereto and any related financing transactions as if the same had occurred at the beginning of the applicable four-quarter period (i) be permitted to incur at least €1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*" or (ii) have a Fixed Charge Coverage Ratio no less than it was immediately prior to giving effect to such transaction; and

(5) the Issuer delivers to the Trustee an Officer's Certificate and Opinion of Counsel, in each case, stating that such consolidation, merger or transfer and such supplemental Senior Secured Notes Indenture comply with this covenant; *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact, including as to satisfaction of clauses (3) and (4) above.

A Guarantor (other than a Guarantor whose Senior Secured Note Guarantee is to be released in accordance with the terms of such Senior Secured Note Guarantee and the Senior Secured Notes Indenture) will not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not such Guarantor is the surviving corporation), or (2) sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the properties or assets of such Guarantor and its Subsidiaries which are Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Person, unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

  (a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under its Senior Secured Note Guarantee, the Senior Secured Notes Indenture, the Intercreditor Agreement and the Security Documents to which such Guarantor is a party pursuant to a supplemental indenture, accession agreement, Additional Intercreditor Agreement and appropriate Security Documents reasonably satisfactory to the Trustee; or

  (b) the Net Proceeds of such sale or other disposition are applied in accordance with the applicable provisions of the Senior Secured Notes Indenture.

In the event of any transaction (other than a lease) described in and complying with the conditions listed in the preceding paragraph in which a Guarantor is not the continuing corporation, the successor Person formed or remaining or to which such transfer is made shall succeed to, and be substituted for, and may exercise every right and power of the Guarantor and the Guarantor will be discharged from all obligations and covenants under the Senior Secured Notes Indenture, its Senior Secured Note Guarantee, the Senior Secured Notes and the Security Documents to which such Guarantor is a party.

In addition, the Issuer will not, directly or indirectly, lease all or substantially all of the properties and assets of it and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to any other Person.

Clauses (3) and (4) of the first paragraph and clause (1) of the second paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to (a) any sale or other disposition of all or substantially all of the assets or merger or consolidation of any Restricted Subsidiary (including any Guarantor) with or into any Guarantor or the Issuer or (b) any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Issuer with or into any other Guarantor. Clauses (1) and (2)(b) of the second paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Guarantor with or into any other Guarantor. Clause (4) of the first paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Issuer or any Guarantor with or into an Affiliate solely for the purpose of reincorporating the Issuer or such Guarantor in another jurisdiction for tax reasons. Notwithstanding any other provision of this covenant, any Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Guarantor.

Although there is a limited body of case law interpreting the phrase "all or substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

Transactions with Affiliates

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, make any payment to or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Issuer (each, an "*Affiliate Transaction*") involving aggregate payments or consideration in excess of €2.5 million, unless:

(1) the Affiliate Transaction is on terms that are not materially less favorable to the Issuer or the relevant Restricted Subsidiary than those that could have been obtained in a comparable transaction by the Issuer or such Restricted Subsidiary with an unrelated Person; and

(2) the Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of €7.5 million, a resolution of the Board of Directors of the Issuer set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with this covenant.

The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

(1) any employment agreement, collective bargaining agreement, consultant, employee benefit arrangements with any employee, consultant, officer or director of the Issuer or any Restricted Subsidiary, including under any stock option, stock appreciation rights, stock incentive or similar plans;

(2) transactions between or among the Issuer and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among Restricted Subsidiaries or any Receivables Subsidiary;

(3) any transaction in the ordinary course of business with any Affiliate or Associate or similar entity (in each case other than an Unrestricted Subsidiary of the Issuer) that is an Affiliate or Associate, respectively, solely because the Issuer or a Restricted Subsidiary or any Affiliate of the Issuer or a

Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;

(4) payment of reasonable and customary fees and reimbursements of expenses (pursuant to indemnity arrangements or otherwise) of Officers, directors, employees or consultants of the Issuer or any of its Restricted Subsidiaries;

(5) any issuance of Equity Interests (other than Disqualified Stock) of the Issuer to Affiliates of the Issuer or Subordinated Shareholder Debt;

(6) any Investment (other than a Permitted Investment) or other Restricted Payment, in either case, that does not violate the provisions of the Senior Secured Notes Indenture described above under the caption "*—Restricted Payments*";

(7) Management Advances;

(8) any Permitted Investments (other than Permitted Investments described in clauses (3), (9), (15), (16) and (17) of the definition thereof);

(9) the incurrence of any Subordinated Shareholder Debt;

(10) (i) the Transactions, (ii) the entry into and performance of obligations of the Issuer or any of its Restricted Subsidiaries under the terms of any transaction pursuant to or contemplated by, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Issue Date or described in "*Description of Certain Related Party Transactions*" in the offering memorandum relating to the Existing Senior Secured Notes, as these agreements and instruments may be amended, modified, supplemented, extended, renewed, replaced or refinanced from time to time in accordance with the other terms of this covenant or to the extent not more disadvantageous to the holders of Senior Secured Notes in any material respect, and (iii) the entry into and performance of any registration rights or other listing agreement;

(11) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services or providers of employees or other labor, in each case in the ordinary course of business and otherwise in compliance with the terms of the Senior Secured Notes Indenture that are fair to the Issuer or the Restricted Subsidiaries, in the reasonable determination of the members of the Board of Directors of the Issuer or an Officer thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated Person;

(12) the execution, delivery and performance of any Tax Sharing Agreement or any arrangements, payments or other transactions pursuant to which the Issuer and any other Person or a Restricted Subsidiary of the Issuer and any other Person with which the Issuer or any of its Restricted Subsidiaries files a consolidated or combined tax return or with which the Issuer or any of its Restricted Subsidiaries is part of a group for tax, accounting or cash pooling purposes or any tax advantageous group contribution made pursuant to applicable legislation;

(13) any contribution to the capital of the Issuer in exchange for Capital Stock of the Issuer (other than Disqualified Stock and preferred stock) or any investments by the Sponsor in Equity Interests (other than Disqualified Stock) (and payment of reasonable out-of-pocket expenses incurred by the Sponsor in connection therewith);

(14) transactions between the Issuer or any of its Restricted Subsidiaries and any Person, a director of which is also a director of the Issuer or any direct or indirect parent of the Issuer; *provided*, *however*, that such director abstains from voting as a director of the Issuer or such direct or indirect parent, as the case may be, on any matter involving such other Person;

(15) pledges of Equity Interests of Unrestricted Subsidiaries;

(16) payments to any Permitted Holder of reasonable out-of-pocket expenses incurred by such Permitted Holder in connection with its direct or indirect investment in the Issuer and its subsidiaries;

(17) investments by the Sponsor in securities of the Issuer or any Restricted Subsidiary (and payment of reasonable out-of-pocket expenses incurred by the Sponsor in connection therewith);

(18) investments by Affiliates in Indebtedness or preferred Equity Interests of the Issuer or any of its Subsidiaries, so long as non-Affiliates were also offered the opportunity to invest in such

Indebtedness or preferred Equity Interests, and transactions with Affiliates solely in their capacity as holders of Indebtedness or preferred Equity Interests of the Issuer or any of its Subsidiaries, so long as such transaction is with all holders of such class (and there are such non-Affiliate holders) and such Affiliates are treated no more favorably than all other holders of such class generally;

(19) any transaction effected as a part of a CICE Financing, Receivables Financing, CIR Financing and factoring or similar arrangements; and

(20) any transactions for which the Issuer or a Restricted Subsidiary delivers to the Trustee a letter from an independent financial advisor stating that such transaction is (i) fair to the Issuer or such Restricted Subsidiary from a financial point of view or (ii) on terms not less favorable that might have been obtained in a comparable transaction at such time on an arm's length basis from a Person who is not an Affiliate.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors of the Issuer may designate any Restricted Subsidiary (including any newly acquired or newly formed Restricted Subsidiary) to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate Fair Market Value of all outstanding Investments owned by the Issuer and its Restricted Subsidiaries in the Subsidiary designated as an Unrestricted Subsidiary will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the covenant described above under the caption "*—Restricted Payments*" or under one or more clauses of the definition of Permitted Investments, as determined by the Issuer. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Issuer may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if that redesignation would not cause a Default.

Any designation of a Subsidiary of the Issuer as an Unrestricted Subsidiary will be evidenced to the Trustee by filing with the Trustee a copy of a resolution of the Board of Directors giving effect to such designation and an Officer's Certificate certifying that such designation complied with the preceding conditions and was permitted by the covenant described above under the caption "*—Restricted Payments*". If, at any time, any Unrestricted Subsidiary would fail to meet the preceding requirements as an Unrestricted Subsidiary, it will thereafter cease to be an Unrestricted Subsidiary for purposes of the Senior Secured Notes Indenture and any Indebtedness of such Subsidiary will be deemed to be incurred as of such date and, if such Indebtedness is not permitted to be incurred as of such date under the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*", the Issuer will be in default of such covenant. The Board of Directors of the Issuer may at any time designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that such designation will be deemed to be an incurrence of Indebtedness by a Restricted Subsidiary of any outstanding Indebtedness of such Unrestricted Subsidiary, and such designation will only be permitted if (1) such Indebtedness is permitted under the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*", calculated on a *pro forma* basis as if such designation had occurred at the beginning of the applicable reference period; and (2) no Default or Event of Default would be in existence following such designation.

Limitation on Issuances of Guarantees of Indebtedness

The Issuer will not cause or permit any of its Restricted Subsidiaries that is not a Guarantor, directly or indirectly, to guarantee any Public Debt of the Issuer or its Restricted Subsidiaries or any Credit Facilities (including the Revolving Credit Facility), unless such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture providing for the guarantee of the payment of the Senior Secured Notes by such Restricted Subsidiary, which guarantee will be senior to or *pari passu* with such Restricted Subsidiary's guarantee of such other Indebtedness and on the same terms as the other Guarantees of the Senior Secured Notes by the Guarantors except that:

(1) if such Indebtedness is by its terms expressly subordinated to the Senior Secured Notes or any Senior Secured Note Guarantee, any such assumption, guarantee or other liability of such Restricted Subsidiary with respect to such Indebtedness shall be subordinated to such Restricted Subsidiary's Guarantee of the Senior Secured Notes at least to the same extent as such

Indebtedness is subordinated to the Senior Secured Notes or any such Senior Secured Note Guarantee; and

(2) no Senior Secured Note Guarantee shall be required if such Senior Secured Note Guarantee could reasonably be expected to give rise to or result in (A) personal liability for the officers, directors or shareholders of such Restricted Subsidiary, (B) any violation of applicable law that cannot be avoided or otherwise prevented through measures reasonably available to the Issuer or such Restricted Subsidiary, including, for the avoidance of doubt, "whitewash" or similar procedures or (C) any significant cost, expense, liability or obligation (including with respect of any Taxes) other than reasonable out-of-pocket expenses and other than reasonable expenses incurred in connection with any governmental or regulatory filings required as a result of, or any measures pursuant to clause (B) undertaken in connection with, such Senior Secured Note Guarantee, which cannot be avoided through measures reasonably available to the Issuer or the Restricted Subsidiary.

The first paragraph of this covenant will not be applicable to any guarantees of any Restricted Subsidiary:

(a) that existed at the time such Person became a Restricted Subsidiary if the guarantee was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary;

(b) arising solely due to the granting of a Permitted Lien that would not otherwise constitute a guarantee of Indebtedness of the Issuer or any Guarantor; or

(c) given to a bank or trust company incorporated in any member state of the European Union as of the date of the Senior Secured Notes Indenture or any commercial banking institution that is a member of the U.S. Federal Reserve System (or any branch, Subsidiary or Affiliate thereof), in each case having combined capital and surplus and undivided profits of not less than €500.0 million, whose debt has a rating, at the time such guarantee was given, of at least A or the equivalent thereof by S&P and at least A2 or the equivalent thereof by Moody's, in connection with the operation of cash management programs established for the Issuer's benefit or that of any Restricted Subsidiary.

Each such guarantee will be limited as necessary to recognize certain defenses generally available to guarantors (including those that relate to fraudulent conveyance or transfer, voidable preference, financial assistance, corporate purpose, capital maintenance or similar laws, regulations or defenses affecting the rights of creditors generally) or other considerations under applicable law.

The form of such guarantee shall be the same as the form of a Senior Secured Note Guarantee.

Each guarantee of the Senior Secured Notes shall be released in accordance with the provisions of the Senior Secured Notes Indenture and the Intercreditor Agreement described under "*—Senior Secured Note Guarantees*" and "*Description of Other Indebtedness—Intercreditor Agreement*".

Payments for Consent

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any holder of Senior Secured Notes for or as an inducement to any consent, waiver or amendment of any of the terms of the provisions of the Senior Secured Notes Indenture or the Senior Secured Notes unless such consideration is offered to be paid and is paid to all holders of the Senior Secured Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement. Notwithstanding the foregoing, the Issuer and its Restricted Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Senior Secured Notes Indenture, to exclude holders of Senior Secured Notes in any jurisdiction where (i) the solicitation of such consent, waiver or amendment, including in connection with an offer to purchase for cash, or (ii) the payment of the consideration therefor would require the Issuer or any of its Restricted Subsidiaries to file a registration statement, prospectus or similar document under any applicable securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states), which the Issuer in its sole discretion determines (acting in good faith) (A) would be materially burdensome (it being understood that it would not be materially burdensome to file the consent document(s) used in other jurisdictions, any substantially similar documents or any summary thereof with the securities or financial services authorities in such jurisdiction); or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

Impairment of Security Interest

The Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, take or knowingly or negligently omit to take, any action which action or omission would have the result of materially impairing the security interests with respect to the Collateral (it being understood that the incurrence of Liens on the Collateral permitted by the definition of Permitted Collateral Liens shall under no circumstances be deemed to materially impair the security interests with respect to the Collateral) for the benefit of the Trustee and the holders of the Senior Secured Notes, and the Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, grant to any Person other than the Security Agent, for the benefit of the Trustee and the holders of the Senior Secured Notes and the other beneficiaries described in the Security Documents and the Intercreditor Agreement any interest whatsoever in any of the Collateral; *provided* that (a) the Collateral may be discharged and released in accordance with the Senior Secured Notes Indenture, the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement; (b) the Issuer and its Restricted Subsidiaries may incur Permitted Collateral Liens; (c) the Issuer and its Restricted Subsidiaries may undertake a Permitted Reorganization; (d) the applicable Security Documents may be amended, extended, renewed, restated, supplemented or otherwise modified, replaced, or released (followed by an immediate retaking of a Lien of at least equivalent ranking over the same assets); and (e) the Issuer and its Restricted Subsidiaries may amend the Security Documents in any manner that does not adversely affect the holders of the Senior Secured Notes in any material respect; *provided, however*, that in the case if clause (a), (c) and (d) above, except with respect to any discharge or release in accordance with the Senior Secured Notes Indenture, any Security Document, the Intercreditor Agreement or any Additional Intercreditor Agreement, or any action not prohibited by the applicable Security Document, the Senior Secured Notes Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement, the Security Documents may not be amended, extended, renewed, restated, supplemented or otherwise modified, replaced, or released, unless contemporaneously with such amendment, extension, replacement, restatement, supplement, modification, renewal or release (followed by an immediate retaking of a Lien of at least equivalent ranking over the assets), the Issuer delivers to the Trustee either (1) a solvency opinion from an investment bank or accounting firm, in form and substance reasonably satisfactory to the Trustee confirming the solvency of the Issuer and its Subsidiaries, taken as a whole, after giving effect to any transactions related to such amendment, extension, renewal, supplement, modification, replacement or release, (2) a certificate from the board of directors or an Officer of the relevant Person amending, extending, renewing, restating, supplementing, modifying, replacing or releasing and retaking such Security Document which confirms the solvency of such Person after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or release and retaking and replacement, or (3) an Opinion of Counsel, in form and substance reasonably satisfactory to the Trustee (subject to customary exceptions and qualifications), confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification, replacement or release, the Lien or Liens securing the Senior Secured Notes created under the Security Documents so amended, extended, renewed, restated, supplemented, modified or replaced are valid and perfected Liens not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Lien or Liens were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification, replacement or release and retaking.

At the direction of the Issuer and without the consent of the holders of Senior Secured Notes, the Security Agent may from time to time enter into one or more amendments to the Security Documents to: (i) cure any ambiguity, omission, defect or inconsistency therein, (ii) (but subject to compliance with the immediately preceding paragraph) provide for Permitted Collateral Liens, (iii) add to the Collateral, (iv) comply with the terms of the Intercreditor Agreement or any Additional Intercreditor Agreement, (v) evidence the succession of another Person to the Issuer or a Guarantor and the assumption by such successor of the obligations under the Senior Secured Notes Indenture, the Senior Secured Notes, the applicable Senior Secured Note Guarantee and the Security Documents, in each case, in accordance with "*—Merger, Consolidation or Sale of Assets*," (vi) provide for the release of property and assets constituting Collateral from the Lien of the Security Documents or the release of the Senior Secured Note Guarantee of a Guarantor, in each case, if not prohibited by the terms of the Senior Secured Notes Indenture, (vii) conform the Security Documents to this "*Description of the Senior Secured Notes*," (viii) evidence and provide for the acceptance of the appointment of a successor Trustee or Security Agent, (ix) (but subject to compliance with the immediately preceding paragraph) to provide for Additional Senior Secured Notes to also benefit from the Collateral or (x) (but subject to compliance with the immediately preceding paragraph) make any other change thereto that does not adversely affect the rights of the holders of the Senior Secured Notes in any material respect.

In the event that the Issuer complies with this covenant, the Trustee and the Security Agent shall (subject to customary protections and indemnifications) consent to such amendment, extension, renewal, restatement, supplement, modification, replacement or release with no need for instructions from holders of the Senior Secured Notes.

Additional Intercreditor Agreements

At the request of the Issuer and without the consent of holders of the Senior Secured Notes, at the time of, or prior to, the incurrence by the Issuer or a Guarantor of Indebtedness permitted to share in the Collateral, the Issuer or the relevant Guarantor, the Trustee and the Security Agent shall enter into with the holders of such Indebtedness (or their duly authorized representatives) an additional intercreditor agreement (an "*Additional Intercreditor Agreement*") on substantially the same terms as the Intercreditor Agreement or an amendment to the Intercreditor Agreement (which amendment does not adversely affect the rights of the holders of the Senior Secured Notes in any material respect, as determined in good faith by the Issuer), it being understood that, for the avoidance of doubt, an increase in the amount of Indebtedness being subject to the terms of the Intercreditor Agreement or Additional Intercreditor Agreement will be deemed to be on substantially similar terms to the Intercreditor Agreement and will be deemed not to adversely affect the rights of the holders of the Senior Secured Notes and will be permitted by this covenant if, in each case, the incurrence of such Indebtedness (and any Lien in its favor) is permitted by the covenants described under the captions "*—Incurrence of Indebtedness and Issuance of Preferred Stock*" and "*—Liens*".

At the request of the Issuer, without the consent of holders of the Senior Secured Notes, and at the time of, or prior to, the incurrence by the Issuer or a Guarantor of Indebtedness permitted to be incurred pursuant to the preceding paragraph, the Issuer or the relevant Guarantor, the Security Agent and the Trustee shall enter into one or more amendments to any Intercreditor Agreement or Additional Intercreditor Agreement to: (1) cure defects, resolve ambiguities or reflect changes, in each case, of a minor, technical or administrative nature, (2) increase the amount or types of Indebtedness covered by any Intercreditor Agreement or Additional Intercreditor Agreement that may be incurred by the Issuer or a Guarantor that is subject to any Intercreditor Agreement or Additional Intercreditor Agreement (*provided* that such amendment is consistent with the preceding paragraph), (3) add new Guarantors to the Intercreditor Agreement or an Additional Intercreditor Agreement, (4) further secure the Senior Secured Notes, (5) make provision for the security securing Additional Senior Secured Notes to rank *pari passu* with the Collateral, (6) implement any Permitted Collateral Liens, (7) amend the Intercreditor Agreement or any Additional Intercreditor Agreement in accordance with the terms thereof or (8) make any other change to any such Intercreditor Agreement or an Additional Intercreditor Agreement that does not adversely affect the rights of holders of the Senior Secured Notes in any material respect.

The Issuer shall not otherwise direct the Trustee or the Security Agent to enter into any amendment to the Intercreditor Agreement or any Additional Intercreditor Agreement without the consent of the holders of the majority in aggregate principal amount of the Senior Secured Notes then outstanding, except as otherwise permitted by "Amendment, Supplement and Waiver" or as described in the preceding paragraph and the Issuer may only direct the Trustee and the Security Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or the Security Agent or adversely affect the rights, duties, liabilities or immunities of the Trustee or the Security Agent under the Senior Secured Notes Indenture, the Intercreditor Agreement or such Additional Intercreditor Agreement.

In relation to the Intercreditor Agreement or, to the extent applicable, an Additional Intercreditor Agreement, the Trustee shall be deemed to have consented on behalf of the holders of the Senior Secured Notes to any payment, repayment, purchase, repurchase, defeasance, acquisition, retirement or redemption of any obligations subordinated to the Senior Secured Notes thereby; *provided* that such transaction would comply with the covenant described under "*—Restricted Payments*."

Each holder of the Senior Secured Notes shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement or any Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein) and to have consented to and directed the Trustee and the Security Agent to enter into any Additional Intercreditor Agreement or any amendment of the Intercreditor Agreement or any Additional Intercreditor Agreement which complies with the foregoing provision and the conditions contained therein.

Suspension of Covenants When Senior Secured Notes Rated Investment Grade

If on any date following the Issue Date:

(1) the Senior Secured Notes have achieved Investment Grade Status; and

(2) no Default or Event of Default shall have occurred and be continuing on such date,

then, beginning on that day and continuing until such time, if any, at which the Senior Secured Notes cease to have Investment Grade Status (such period, the "*Suspension Period*"), the covenants specifically listed under the following captions in this offering memorandum will no longer be applicable to the Senior Secured Notes and any related default provisions of the Senior Secured Notes Indenture will cease to be effective and will not be applicable to the Issuer and its Restricted Subsidiaries:

(1) "*—Repurchase at the Option of Holders—Asset Sales*";

(2) "*—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(3) "*—Restricted Payments*";

(4) "*—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries*";

(5) clause (4) of the first paragraph of the covenant described under "*—Merger, Consolidation or Sale of Assets*";

(6) "*—Transactions with Affiliates*";

(7) "*—Designation of Restricted and Unrestricted Subsidiaries*"; and

(8) "*—Limitations on Issuances of Guarantees of Indebtedness*".

Such covenants will not, however, be of any effect with regard to the actions of Issuer and its Restricted Subsidiaries properly taken during the continuance of the Suspension Period; *provided* that (1) with respect to the Restricted Payments made after any such reinstatement, the amount of Restricted Payments will be calculated as though the covenant described under the caption "*—Restricted Payments*" had been in effect prior to, but not during, the Suspension Period and (2) all Indebtedness incurred, or Disqualified Stock or preferred stock issued, during the Suspension Period will be classified to have been incurred or issued pursuant to clause (2) of the second paragraph of the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*", (3) any transactions prohibited by the covenant described under "*—Transactions with Affiliates*" entered into after such reinstatement pursuant to an agreement entered into during any Suspension Period shall be deemed to be permitted pursuant to clause (10) of the second paragraph of the covenant described under "*—Transactions with Affiliates*," and (4) any encumbrance or restriction on the ability of any Restricted Subsidiary to take any action described in clauses (1) through (3) of the first paragraph of the covenant described under "*—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries*" that becomes effective during any Suspension Period shall be deemed to be permitted pursuant to clause (3) of the second paragraph of the covenant described under "*—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries*". Upon the occurrence of a Suspension Period, the amount of Excess Proceeds shall be reset at zero. The Issuer shall notify the Trustee upon the occurrence of a Suspension Period; *provided* that such notice shall not be a condition of the suspension of covenants described under this caption having effect and the failure to deliver such notice shall not be a Default or Event of Default under the Senior Secured Notes Indenture. There can be no assurance that the Senior Secured Notes will ever achieve or maintain an Investment Grade Status.

Reports

So long as any Senior Secured Notes are outstanding, the Issuer will furnish to the Trustee:

(1) within 150 days after the end of the Issuer's fiscal year beginning with the fiscal year ending December 31, 2015 and within 120 days after the end of each of the Issuer's fiscal years beginning with the fiscal year ending December 31, 2016, annual reports containing the following information: (a) audited consolidated balance sheet of the Issuer as of the end of the most recent fiscal year (and comparative information for the end of the prior fiscal year) and audited

consolidated income statement and statement of cash flow of the Issuer for the most recent fiscal year (and comparative information for the prior fiscal year), including footnotes to such financial statements and the report of the independent auditors on the financial statements; (b) *pro forma* income statement and balance sheet information of the Issuer, together with explanatory footnotes, for any material acquisitions or dispositions (including, without limitation, any acquisitions or disposition that, individually or in the aggregate when considered with all other acquisition or dispositions that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates, represent greater than 20% of the consolidated revenues, EBITDA, or assets of the Issuer on a *pro forma* basis) or recapitalizations that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates, in each case unless *pro forma* information has been provided in a previous report pursuant to clause (2) or (3) below; (c) an operating and financial review of the audited financial statements, including a discussion of the results of operations (including a discussion by business segment, if any), financial condition and liquidity and capital resources, and a discussion of material commitments and contingencies and critical accounting policies; (d) a description of the industry, business, management and shareholders of the Issuer, all material affiliate transactions, Indebtedness and material financing arrangements and a description of all material contractual arrangements, including material debt instruments; and (e) material risk factors and material recent developments; *provided further*, that, if and for so long as the Issuer's shares or the shares of any Parent Entity would be listed on the Euronext Paris Stock Exchange or any stock exchange established in a Member State of the European Union, any item of disclosure that complies in all material respects with the requirements applicable to such item in connection with an annual report (*rapport financier annuel* or *document de référence*) filed with the French *Autorité des Marchés Financiers* (AMF) or the relevant authority of any Member State of the European Union will be deemed to satisfy the Issuer's obligations under this clause (1) with respect to such item;

(2) within 90 days following the end of the fiscal quarter ending June 30, 2015 and within 60 days after the end of each of the Issuer's fiscal quarters beginning with the fiscal quarter September 30, 2015, quarterly reports containing the following information: (a) an unaudited condensed consolidated balance sheet as of the end of such quarter and unaudited condensed statements of income and cash flow for the quarterly and year to date periods ending on the unaudited condensed balance sheet date, and the comparable prior year periods for the Issuer, together with condensed footnote disclosure; (b) *pro forma* income statement and balance sheet information, together with explanatory footnotes, for any material acquisitions or dispositions (including, without limitation, any acquisition or disposition that, individually or in the aggregate when considered with all other acquisitions or dispositions that have occurred since the beginning of the most recent completed fiscal quarter as to which such quarterly report relates, represents greater than 20% of the consolidated revenues, EBITDA or assets of the Issuer on a *pro forma* basis) or recapitalizations that have occurred since the beginning of the most recently completed fiscal quarter as to which such quarterly report relates, in each case unless *pro forma* information has been provided in a previous report pursuant to clause (1) or (2) of this covenant; (c) an operating and financial review of the unaudited financial statements (including a discussion by business segment, if any), including a discussion of the consolidated financial condition and results of operations of the Issuer and any material change between the current quarterly period and the corresponding period of the prior year; (d) material recent developments in the business of the Issuer and its Subsidiaries; and (e) any material changes to the risk factors disclosed in the most recent annual report with respect to the Issuer; *provided further*, that, if and for so long as the Issuer's shares or the shares of any Parent Entity would be listed on the Euronext Paris Stock Exchange or any stock exchange established in a Member State of the European Union, any item of disclosure that complies in all material respects with the requirements applicable to such item in connection with a semi-annual report (*rapport financier semestriel*) filed with the French *Autorité des Marchés Financiers* (AMF) or the relevant authority of any Member State of the European Union will be deemed to satisfy the Issuer's obligations under this clause (2) with respect to such item; and

(3) promptly after the occurrence of (a) a material acquisition, disposition or restructuring (including any acquisition or disposition that would require the delivery of *pro forma* financial information pursuant to clauses (1) or (2) above); (b) any senior management change at the Issuer; (c) any change in the auditors of the Issuer; (d) any resignation of a member of the Board of Directors of the Issuer as a result of a disagreement with the Issuer; (e) the entering into an agreement that

will result in a Change of Control; or (f) any material events that the Issuer announces publicly, in each case, a report containing a description of such events; *provided further*, that, if and for so long as the Issuer's shares or the shares of any Parent Entity would be listed on the Euronext Paris Stock Exchange or any stock exchange established in a Member State of the European Union, any item of disclosure that complies in all material respects with the requirements applicable to such item in connection with ongoing disclosures (*information permanente*) filed with the French *Autorité des Marchés Financiers* (AMF) or the relevant authority of any Member State of the European Union will be deemed to satisfy the Issuer's obligations under this clause (3) with respect to such item,

provided, *however*, that the reports set forth in clauses (1) and (2) above will not be required to (i) contain any reconciliation to U.S. generally accepted accounting principles or (ii) include separate financial statements for any Guarantors and non-guarantor Subsidiaries of the Issuer.

If the Issuer has designated any of its Subsidiaries as Unrestricted Subsidiaries and such Subsidiaries are Significant Subsidiaries, then the quarterly and annual financial information required by the preceding paragraph will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, of the financial condition and results of operations of the Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Issuer. For purposes of this covenant, the Issuer may use financial statements of the Issuer or the Target with respect to periods commencing prior to the Completion Date.

All financial statements shall be prepared in accordance with IFRS. In addition, all financial statement information and other reports required under this covenant will be presented in the English language.

In addition, for so long as any Senior Secured Notes remain outstanding and during any period during which the Issuer is not subject to Section 13 or 15(d) of the U.S. Exchange Act nor exempt therefrom pursuant to Rule 12g3-2(b), the Issuer has agreed that it will furnish to the holders of the Senior Secured Notes and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the U.S. Securities Act.

The Issuer will also make available copies of all reports required by clauses (1) through (3) of the first paragraph of this covenant (i) on the Issuer's website and (ii) if and so long as the Senior Secured Notes are listed on the Global Exchange Market and the rules of the Irish Stock Exchange so require, at the specified office of the Listing Agent in Dublin.

Events of Default and Remedies

Each of the following is an "*Event of Default*":

(1) default for 30 days in the payment when due of interest or Additional Amounts, if any, with respect to the Senior Secured Notes;

(2) default in the payment when due (at maturity, upon redemption or otherwise) of the principal of, or premium, if any, on, the Senior Secured Notes;

(3) failure by the Issuer or relevant Guarantor to comply with the provisions described under the caption "*—Certain Covenants—Consolidation, Merger or Sale of Assets*";

(4) failure by the Issuer or relevant Guarantor for 60 days after written notice to the Issuer by the Trustee or the holders of at least 25% in aggregate principal amount of the Senior Secured Notes then outstanding voting as a single class to comply with any of the agreements in the Senior Secured Notes Indenture (other than a default in performance, or breach, or a covenant or agreement which is specifically dealt with in clauses (1), (2) or (3));

(5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Issuer or any of its Restricted Subsidiaries (or the payment of which is guaranteed by the Issuer or any of its Restricted Subsidiaries), whether such Indebtedness or guarantee now exists, or is created after the Issue Date, if that default:

   (a) is caused by a failure to pay principal of such Indebtedness at the Stated Maturity thereof prior to the expiration of the grace period provided in such Indebtedness on the date of such default (a "*Payment Default*"); or

(b) results in the acceleration of such Indebtedness prior to its express maturity,

and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated, aggregates €30.0 million or more;

(6) failure by the Issuer or any Restricted Subsidiary to pay final judgments entered by a court or courts of competent jurisdiction aggregating in excess of €30.0 million (exclusive of any amounts that a solvent insurance company has acknowledged liability for), which judgments shall not have been discharged or waived and there shall have been a period of 60 consecutive days during which a stay of enforcement of such judgment or order, by reason of an appeal, waiver or otherwise, shall not have been in effect;

(7) (i) any security interest created by the Security Documents with respect to Collateral having in the aggregate a Fair Market Value in excess of €5.0 million ceases to be in full force and effect (except as permitted by the terms of the Senior Secured Notes Indenture or the Security Documents), or an assertion by UK Holdco II, the Issuer or any of its Restricted Subsidiaries that any Collateral is not subject to a valid, perfected security interest (except as permitted by the terms of the Senior Secured Notes Indenture, the Intercreditor Agreement or the Security Documents); or (ii) the repudiation by UK Holdco II, the Issuer or any of its Restricted Subsidiaries of any of its material obligations under the Security Documents;

(8) except as permitted by the Senior Secured Notes Indenture or the Intercreditor Agreement, if any Senior Secured Note Guarantee is held in any judicial proceeding to be unenforceable or invalid or ceases for any reason to be in full force and effect and such Default continues for 30 days, or any Guarantor, or any Person acting on behalf of any Guarantor, denies or disaffirms its obligations under its Senior Secured Note Guarantee; and

(9) certain events of bankruptcy or insolvency described in the Senior Secured Notes Indenture with respect to UK Holdco II, the Issuer or any of its Restricted Subsidiaries that is a Significant Subsidiary or any group of its Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for the Issuer and its Restricted Subsidiaries), would constitute a Significant Subsidiary.

In the case of an Event of Default specified in clause (9), all outstanding Senior Secured Notes will become due and payable immediately without further action or notice. If any other Event of Default occurs and is continuing, the Trustee or the holders of at least 25% in aggregate principal amount of the then outstanding Senior Secured Notes may and, if directed by holders of at least 25% in aggregate principal amount of the then outstanding Senior Secured Notes, the Trustee shall, declare all the Senior Secured Notes to be due and payable immediately.

Subject to certain limitations, holders of a majority in aggregate principal amount of the then outstanding Senior Secured Notes may direct the Trustee in its exercise of any trust or power. The Trustee may withhold from holders of the Senior Secured Notes notice of any continuing Default or Event of Default if it determines that withholding notice is in their interest, except a Default or Event of Default relating to the payment of principal, interest or Additional Amounts or premium, if any.

Subject to the provisions of the Senior Secured Notes Indenture relating to the duties of the Trustee, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Senior Secured Notes Indenture at the request or direction of any holders of Senior Secured Notes unless such holders have offered to the Trustee indemnity and/or security satisfactory to it against any loss, liability or expense. Except (subject to the provisions described under "*—Amendment, Supplement and Waiver*") to enforce the right to receive payment of principal, premium, if any, or interest or Additional Amounts when due, no holder of a Senior Secured Note may pursue any remedy with respect to the Senior Secured Notes Indenture or the Senior Secured Notes unless:

(1) such holder has previously given the Trustee notice that an Event of Default is continuing;

(2) holders of at least 25% in aggregate principal amount of the then outstanding Senior Secured Notes have requested the Trustee to pursue the remedy;

(3) such holders have offered the Trustee security and/or indemnity satisfactory to it against any loss, liability or expense;

(4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security and/or indemnity; and

(5) holders of a majority in aggregate principal amount of the then outstanding Senior Secured Notes have not given the Trustee a direction inconsistent with such request within such 60-day period.

The holders of not less than a majority in aggregate principal amount of the Senior Secured Notes outstanding may, on behalf of the holders of all outstanding Senior Secured Notes, waive any past Default under the Senior Secured Notes Indenture and its consequences, except a continuing Default in the payment of the principal or premium, if any, any Additional Amounts or interest on any Senior Secured Note held by a non-consenting holder (which may only be waived with the consent of holders of the Senior Secured Notes holding 90% of the aggregate principal amount of the Senior Secured Notes outstanding under the Senior Secured Notes Indenture).

Holders of Senior Secured Notes may not enforce the Security Documents, except as provided in the Intercreditor Agreement. The Senior Secured Notes Indenture will provide that in the event an Event of Default has occurred and is continuing, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law or the Senior Secured Notes Indenture or that the Trustee determines is materially prejudicial to the rights of any other holder of Senior Secured Notes or that would involve the Trustee in personal liability.

The Issuer is required to deliver to the Trustee annually a statement regarding compliance with the Senior Secured Notes Indenture.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of the Issuer or any Guarantor, as such, will have any liability for any obligations of the Issuer or the Guarantors under the Senior Secured Notes, the Senior Secured Notes Indenture, the Senior Secured Note Guarantees, the Security Documents, the Intercreditor Agreement or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of Senior Secured Notes by accepting a Senior Secured Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Senior Secured Notes. The waiver may not be effective to waive liabilities under applicable securities laws.

Legal Defeasance and Covenant Defeasance

The Issuer may at any time, at the option of its Board of Directors evidenced by a resolution set forth in an Officer's Certificate, elect to have all of its obligations discharged with respect to the outstanding Senior Secured Notes and all obligations of the Guarantors discharged with respect to their Senior Secured Note Guarantees ("*Legal Defeasance*") except for:

(1) the rights of holders of outstanding Senior Secured Notes to receive payments in respect of the principal of, or interest (including Additional Amounts) or premium, if any, on, such Senior Secured Notes when such payments are due from the trust referred to below;

(2) the Issuer's obligations with respect to the Senior Secured Notes concerning issuing temporary Senior Secured Notes, registration of Senior Secured Notes, mutilated, destroyed, lost or stolen Senior Secured Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's and the Guarantors' obligations in connection therewith; and

(4) the Legal Defeasance and Covenant Defeasance provisions of the Senior Secured Notes Indenture.

In addition, the Issuer may, at its option and at any time, elect to have the obligations of the Issuer and the Guarantors released with respect to certain covenants (including its obligation to make Change of Control Offers and Asset Sale Offers) that are described in the Senior Secured Notes Indenture ("*Covenant Defeasance*") and thereafter any omission to comply with those covenants will not constitute a Default or Event of Default with respect to the Senior Secured Notes. In the event Covenant Defeasance occurs, all Events of Default described under "*—Events of Default and Remedies*" (except those relating to payments on the Senior Secured Notes or, solely with respect to the Issuer, bankruptcy or insolvency events) will no longer constitute an Event of Default with respect to the Senior Secured Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

(1) the Issuer must irrevocably deposit with the Trustee, in trust, for the benefit of the holders of the Senior Secured Notes, cash in euros, non-callable European Government Obligations or a combination of cash in euros and non-callable European Government Obligations, in amounts as will be sufficient, in the opinion of an investment bank, appraisal firm or firm of independent public accountants, to pay the principal of, or interest (including Additional Amounts and premium, if any) on the outstanding Senior Secured Notes on the stated date for payment thereof or on the applicable redemption date, as the case may be, and the Issuer must specify whether the Senior Secured Notes are being defeased to such stated date for payment or to a particular redemption date;

(2) in the case of Legal Defeasance, the Issuer must deliver to the Trustee an Opinion of Counsel in the United States reasonably acceptable to the Trustee confirming that (i) the Issuer has received from, or there has been published by, the U.S. Internal Revenue Service a ruling or (ii) since the Issue Date, there has been a change in the applicable U.S. Federal income tax law, in either case to the effect that, and based thereon such Opinion of Counsel will confirm that, the holders of the outstanding Senior Secured Notes will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such Legal Defeasance and will be subject to tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Issuer must deliver to the Trustee an Opinion of Counsel in the United States reasonably acceptable to the Trustee confirming that the holders of the outstanding Senior Secured Notes will not recognize income, gain or loss for U.S. Federal income tax purposes as a result of such Covenant Defeasance and will be subject to U.S. Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) the Issuer must deliver to the Trustee an Officer's Certificate stating that the deposit was not made by the Issuer with the intent of preferring the holders of Senior Secured Notes over the other creditors of the Issuer with the intent of defeating, hindering, delaying or defrauding any creditors of the Issuer or others; and

(5) the Issuer must deliver to the Trustee an Officer's Certificate and an Opinion of Counsel, subject to customary assumptions and qualifications, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Amendment, Supplement and Waiver

Except as provided otherwise in the succeeding paragraphs, the Senior Secured Notes Indenture, the Senior Secured Notes, the Senior Secured Note Guarantees, the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement may be amended or supplemented with the consent of the holders of at least a majority in aggregate principal amount of the Senior Secured Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Senior Secured Notes), and any existing Default or Event of Default or compliance with any provision of the Senior Secured Notes Indenture, the Senior Secured Notes, the Senior Secured Note Guarantees, the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement may be waived with the consent of the holders of a majority in aggregate principal amount of the then outstanding Senior Secured Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Senior Secured Notes). If any amendment, supplement or waiver will only affect the Senior Secured Fixed Rate Notes or the Senior Secured Floating Rate Notes, only the holders of a majority in aggregate principal amount of the then outstanding Senior Secured Fixed Rate Notes or Senior Secured Floating Rate Notes (and not the consent of the holders of the majority of all Senior Secured Notes), as the case may be, shall be required.

Unless consented to by the holders of at least 90% (or, in the case of clauses (8) and (9) of this paragraph, 75%) of the aggregate principal amount of the then outstanding Senior Secured Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Senior Secured Notes) (provided, however that if any amendment, supplement, waiver or other modification or consent will only affect the Senior Secured Fixed Rate Notes or the Senior Secured Floating Rate Notes, only the consent of the holders of at least 90% (or, in the case of clauses (8) and (9) of this paragraph, 75%) of the aggregate principal amount of the then outstanding Senior Secured Fixed Rate Notes or Senior Secured Floating Rate Notes will be required), without the consent of each holder of Senior Secured Notes affected, an amendment, supplement or waiver may not (with respect to any Senior Secured Notes held by a non-consenting holder):

(1) reduce the principal amount of Senior Secured Notes whose holders must consent to an amendment, supplement or waiver;

(2) reduce the principal of or change the fixed maturity of any Senior Secured Note or alter the provisions with respect to the redemption of the Senior Secured Notes (other than provisions relating to the covenants described above under the caption "*—Repurchase at the Option of Holders*");

(3) reduce the rate of or change the time for payment of interest, including default interest, on any Senior Secured Note;

(4) impair the right of any holder of Senior Secured Notes to receive payment of principal of and interest on such holder's Senior Secured Notes on or after the due dates therefore or to institute suit for the enforcement of any payment on or with respect to such holder's Senior Secured Notes or any Senior Secured Note Guarantee in respect thereof;

(5) waive a Default or Event of Default in the payment of principal of, or interest, Additional Amounts or premium, if any, on, the Senior Secured Notes (except a rescission of acceleration of the Senior Secured Notes by the holders of at least a majority in aggregate principal amount of the then outstanding Senior Secured Notes and a waiver of the Payment Default that resulted from such acceleration);

(6) make any Senior Secured Note payable in money other than that stated in the Senior Secured Notes;

(7) make any change in the provisions of the Senior Secured Notes Indenture relating to waivers of past Defaults or the rights of holders of Senior Secured Notes to receive payments of principal of, or interest, Additional Amounts or premium, if any, on, the Senior Secured Notes; or

(8) release any Guarantor from any of its obligations under its Senior Secured Note Guarantee or the Senior Secured Notes Indenture, except in accordance with the terms of the Senior Secured Notes Indenture or the Intercreditor Agreement;

(9) release any Collateral granted for the benefit of the holders of the Senior Secured Notes, except in accordance with the terms of the Senior Secured Notes Indenture, the Intercreditor Agreement or the Security Documents; or

(10) make any change in the preceding amendment and waiver provisions.

Notwithstanding the preceding, without the consent of any holder of Senior Secured Notes, the Issuer, the Guarantors, the Restricted Subsidiaries, the Trustee and the Security Agent may amend or supplement the Senior Secured Notes Indenture, the Senior Secured Notes, any Senior Secured Note Guarantee, any of the Security Documents or the Intercreditor Agreement:

(1) to cure any ambiguity, defect or inconsistency;

(2) to provide for uncertificated Senior Secured Notes in addition to or in place of certificated Senior Secured Notes (*provided* that the uncertificated Senior Secured Notes are issued in registered form for purposes of Section 163(f) of the U.S. Internal Revenue Code);

(3) to provide for the assumption of the Issuer's or a Guarantor's obligations to holders of Senior Secured Notes and Senior Secured Note Guarantees in the case of a merger or consolidation or sale of all or substantially all of the Issuer's or such Guarantor's assets, as applicable;

(4) to make any change that would provide any additional rights or benefits to the holders of Senior Secured Notes or that does not adversely affect the legal rights under the Senior Secured Notes Indenture of any such holder in any material respect;

(5) to conform the text of the Senior Secured Notes Indenture, the Senior Secured Note Guarantees, the Security Documents or the Senior Secured Notes to any provision of this Description of the

Senior Secured Notes to the extent that such provision in this Description of the Senior Secured Notes was intended to be a verbatim recitation of a provision of the Senior Secured Notes Indenture, the Senior Secured Note Guarantees, the Security Documents or the Senior Secured Notes;

(6) to enter into additional or supplemental Security Documents;

(7) to release any Senior Secured Note Guarantee in accordance with the terms of the Senior Secured Notes Indenture;

(8) to release the Collateral in accordance with the terms of the Senior Secured Notes Indenture and the Security Documents;

(9) to provide for the issuance of additional Senior Secured Notes in accordance with the limitations set forth in the Senior Secured Notes Indenture as of the Issue Date;

(10) to allow any Guarantor to execute a supplemental indenture or a Senior Secured Note Guarantee with respect to the Senior Secured Notes;

(11) to evidence and provide the acceptance of the appointment of a successor Trustee under the Senior Secured Notes Indenture; or

(12) as provided under "*—Certain Covenants—Impairment of Security Interest*" or "*—Certain Covenants—Additional Intercreditor Agreement*."

The consent of the holders of Senior Secured Notes is not necessary under the Senior Secured Notes Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

In formulating its opinion on such matters, the Trustee shall be entitled to rely absolutely on such evidence as it deems appropriate, including an Opinion of Counsel and an Officer's Certificate.

Satisfaction and Discharge

The Senior Secured Notes Indenture will be discharged and will cease to be of further effect as to all Senior Secured Notes issued thereunder, when:

(1) either:

(a) all Senior Secured Notes that have been authenticated, except lost, stolen or destroyed Senior Secured Notes that have been replaced or paid and Senior Secured Notes for whose payment money has been deposited in trust and thereafter repaid to the Issuer, have been delivered to the Paying Agent for cancellation; or

(b) all Senior Secured Notes that have not been delivered to the Paying Agent for cancellation have become due and payable by reason of the mailing of a notice of redemption or otherwise or will become due and payable within one year and the Issuer or any Guarantor has irrevocably deposited or caused to be deposited with the Paying Agent or the Trustee (or such entity as the Trustee designates for this purpose) as trust funds in trust solely for the benefit of the holders, cash in euros, non-callable European Government Obligations or a combination of cash in euros and non-callable European Government Obligations, in amounts as will be sufficient, without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Senior Secured Notes not delivered to the Paying Agent for cancellation for principal, premium and Additional Amounts, if any, and accrued interest to the date of maturity or redemption;

(2) the Issuer or any Guarantor has paid or caused to be paid all sums payable by it under the Senior Secured Notes Indenture; and

(3) the Issuer has delivered irrevocable instructions to the Paying Agent or the Trustee under the Senior Secured Notes Indenture, as applicable, to apply the deposited money toward the payment of the Senior Secured Notes at maturity or on the redemption date, as the case may be.

In addition, the Issuer must deliver an Officer's Certificate and an Opinion of Counsel to the Trustee stating that all conditions precedent to satisfaction and discharge have been satisfied; *provided* that any such counsel may rely on any Officer's Certificate as to matters of fact (including as to compliance with the foregoing clauses (1), (2) and (3)).

Judgment Currency

Any payment on account of an amount that is payable in euros which is made to or for the account of any holder or the Trustee in lawful currency of any other jurisdiction (the "*Judgment Currency*"), whether as a result of any judgment or order or the enforcement thereof or the liquidation of the Issuer or any Guarantor, shall constitute a discharge of the Issuer or the Guarantor's obligation under the Senior Secured Notes Indenture and the Senior Secured Notes or Senior Secured Note Guarantee, as the case may be, only to the extent of the amount of euros with such holder or the Trustee, as the case may be, could purchase in the London foreign exchange markets with the amount of the Judgment Currency in accordance with normal banking procedures at the rate of exchange prevailing on the first Business Day following receipt of the payment in the Judgment Currency. If the amount of euros that could be so purchased is less than the amount of euros originally due to such holder or the Trustee, as the case may be, the Issuer and the Guarantors shall indemnify and hold harmless the holder or the Trustee, as the case may be, from and against all loss or damage arising out of, or as a result of, such deficiency. This indemnity shall constitute an obligation separate and independent from the other obligations contained in the Senior Secured Notes Indenture or the Senior Secured Notes, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any holder or the Trustee from time to time and shall continue in full force and effect notwithstanding any judgment or order for a liquidated sum in respect of an amount due hereunder or under any judgment or order.

Concerning the Trustee and the Security Agent

U.S. Bank Trustees Limited will be the Trustee under the Senior Secured Notes Indenture, and will be the Security Agent under the Senior Secured Notes Indenture and the Security Documents.

The Issuer shall deliver written notice to the Trustee within 30 Business Days of becoming aware of the occurrence of a Default or an Event of Default. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest in its capacity as Trustee (of which it has actual knowledge), it must eliminate such conflict within 90 days or resign as Trustee.

The holders of a majority in aggregate principal amount of the then outstanding Senior Secured Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Senior Secured Notes Indenture provides that in case an Event of Default occurs and is continuing, of which the Trustee has written notice, the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent man in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Senior Secured Notes Indenture at the request of any holder of Senior Secured Notes, unless such holder has offered to the Trustee security and/or indemnity satisfactory to it against any loss, liability or expense.

The Issuer and the Guarantors will indemnify the Trustee for certain claims, liabilities and expenses incurred without negligence, willful misconduct or bad faith on its part, arising out of or in connection with its duties. The Senior Secured Notes Indenture will provide for the indemnification of the Security Agent and its relief from responsibility in connection with its actions in relation to the Collateral. The Security Agent will be under no obligation to exercise any of its rights or powers under the Senior Secured Notes Indenture at the request of any Holder of Senior Secured Notes, unless such holder has offered the Security Agent security and/or indemnity satisfactory to it against any loss, liability or expense.

Neither the Trustee nor the Security Agent will be responsible for any unsuitability, inadequacy or unfitness of any of the Collateral as security in relation to the Senior Secured Notes and shall not be obliged to make any investigation into, and shall be entitled to assume, the suitability, adequacy and fitness of the Collateral as security for the Senior Secured Notes. Neither the Trustee nor the Security Agent will be responsible for any loss, expense or liability which may be suffered as a result of the Collateral being uninsured or inadequately insured.

Maintenance of Listing

The Issuer will use its commercially reasonable efforts to obtain and maintain the listing of the Senior Secured Notes on the Global Exchange Market of the Irish Stock Exchange for so long as such Senior Secured Notes are outstanding; provided that if the Issuer is unable to obtain admission to the listing of the Senior Secured Notes on the Global Exchange Market of the Irish Stock Exchange or if at any time the Issuer determines that it will not maintain such listing, it will use its commercially reasonable efforts to obtain and maintain a listing of such Senior Secured Notes on another "recognised stock exchange" as defined in Section 1005 of the Income Tax Act 2007 of the United Kingdom.

Additional Information

Anyone who receives this offering memorandum may, following the Temporary Senior Secured Notes Issue Date, obtain a copy of the Senior Secured Notes Indenture, the form of Senior Secured Note, the Security Documents and the Intercreditor Agreement without charge by writing to the Issuer at 5th Floor, 6 St. Andrew Street, London, United Kingdom EC4A 3AE.

So long as the Additional Senior Secured Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market and the rules of the Irish Stock Exchange shall so require, copies of the financial statements included in this offering memorandum may be obtained, free of charge, during normal business hours at the offices of the Listing Agent in Dublin.

Consent to Jurisdiction and Service of Process

The Senior Secured Notes Indenture will provide that the Issuer and each Guarantor will appoint an agent for service of process in any suit, action or proceeding with respect to the Senior Secured Notes Indenture, the Senior Secured Notes and the Senior Secured Note Guarantees brought in any U.S. federal or New York state court located in the City of New York and will submit to such jurisdiction.

Enforceability of Judgments

Substantially all of the assets of the Issuer and the Guarantors are outside the United States. As a result, any judgment obtained in the United States against the Issuer or any Guarantor may not be collectable within the United States.

Prescription

Claims against the Issuer or any Guarantor for the payment of principal or Additional Amounts, if any, on the Senior Secured Notes will be prescribed ten years after the applicable due date for payment thereof. Claims against the Issuer or any Guarantor for the payment of interest on the Senior Secured Notes will be prescribed five years after the applicable due date for payment of interest.

Certain Definitions

Set forth below are certain defined terms used in the Senior Secured Notes Indenture. Reference is made to the Senior Secured Notes Indenture for a full disclosure of all defined terms used therein, as well as any other capitalized terms used herein for which no definition is provided.

"*Acquisition*" means the acquisition of the Target by BidCo pursuant to the Acquisition Agreement.

"*Acquisition Agreement*" means the sale and purchase agreement dated May 27, 2015 by and among certain sellers identified therein and Ephios France, a *société par actions simplifiée* organized under the laws of France, a wholly-owned subsidiary of the Issuer, with respect to no less than 75% of the share capital of Labco S.A.

"*Acquired Debt*" means, with respect to any specified Person:

(1) Indebtedness of any other Person existing at the time such other Person is merged with or into or became a Subsidiary of such specified Person, whether or not such Indebtedness is incurred in connection with, or in contemplation of, such other Person merging with or into, or becoming a Restricted Subsidiary; and

(2) Indebtedness secured by a Lien encumbering any asset acquired by such specified Person.

"*Affiliate*" of any specified Person means any other Person directly or indirectly controlling or controlled by or under direct or indirect common control with such specified Person. For purposes of this definition, "control", as used with respect to any Person, means the possession, directly or indirectly, of the power to direct or cause the direction of the management or policies of such Person, whether through the ownership of voting securities, by agreement or otherwise. For purposes of this definition, the terms "controlling", "controlled by" and "under common control with" have correlative meanings.

"*Agreed Security Principles*" means the Agreed Security Principles set out in the annex to the Senior Secured Notes Indenture, as applied reasonably and in good faith by the Issuer.

"*Applicable Premium*" means, (x) with respect to any Senior Secured Fixed Rate Note on any redemption date, the greater of:

(1) 1.0% of the principal amount of the Senior Secured Fixed Rate Note; or

(2) the excess of:

(a) the present value at such redemption date of (i) the redemption price of the Senior Secured Fixed Rate Note at July 1, 2018, (such redemption price being set forth in the table appearing above under the caption "*—Optional Redemption*") plus (ii) all required interest payments due on the Senior Secured Fixed Rate Note through July 1, 2018 (excluding accrued but unpaid interest to the redemption date), computed using a discount rate equal to the Bund Rate as of such redemption date plus 50 basis points; over

(b) the principal amount of the Senior Secured Fixed Rate Note, and

(y) with respect to any Senior Secured Floating Rate Note on any redemption date, the greater of:

(1) 1.0% of the principal amount of the Senior Secured Floating Rate Note; or

(2) the excess of:

(a) the present value at such redemption date of (i) the redemption price of the Senior Secured Floating Rate Note at July 1, 2016 (such redemption price being set forth in the table appearing above under the caption "*—Optional Redemption*"), plus (ii) all required interest payments due on the Senior Secured Floating Rate Note through July 1, 2016 (excluding accrued but unpaid interest to the redemption date), computed using a discount rate equal to the Bund Rate as of such redemption date plus 50 basis points; over

(b) the principal amount of the Senior Secured Floating Rate Note.

For the avoidance of doubt, calculation of the Applicable Premium shall not be an obligation or duty of the Trustee, the Registrar or the Paying Agent.

"*Asset Sale*" means:

(1) the sale, lease, conveyance or other disposition of any assets by the Issuer or any of its Restricted Subsidiaries; *provided* that the sale, lease, conveyance or other disposition of all or substantially all of the assets of the Issuer and its Restricted Subsidiaries taken as a whole will be governed by the provisions of the Senior Secured Notes Indenture described above under the caption "*—Repurchase at the Option of Holders—Change of Control*" and/or the provisions described above under the caption "*—Certain Covenants—Merger, Consolidation or Sale of Assets*" and not by the provisions described under the caption "*—Repurchase at the Option of Holders—Asset Sales*"; and

(2) the issuance of Equity Interests by any Restricted Subsidiary or the sale by the Issuer or any of its Restricted Subsidiaries of Equity Interests in any of the Issuer's Subsidiaries (in each case, other than directors' qualifying shares).

Notwithstanding the preceding, none of the following items will be deemed to be an Asset Sale:

(1) any single transaction or series of related transactions that involves assets having a Fair Market Value of less than the greater of €10.0 million and 1.0% of Total Assets;

(2) a transfer of assets, claims or Equity Interests between or among the Issuer and any Restricted Subsidiary;

(3) an issuance of Equity Interests by a Restricted Subsidiary to the Issuer or to a Restricted Subsidiary;

(4) the sale, lease or other transfer of accounts receivable, inventory, trading stock, communications capacity and other assets (including any real or personal property) in the ordinary course of business (including the abandonment or other disposition of intellectual property that is, in the reasonable judgment of the Issuer, no longer economically practicable to maintain or useful in the conduct of business of the Issuer and its Restricted Subsidiaries taken as a whole);

(5) licenses and sublicenses by the Issuer or any of its Restricted Subsidiaries of software or intellectual property in the ordinary course of business;

(6) any surrender or waiver of contract rights or the settlement, release, recovery on or surrender of contract, tort or other claims in the ordinary course of business;

(7) the granting of Liens not prohibited by the covenant described above under the caption "*—Certain Covenants—Liens*";

(8) the sale or other disposition of cash or Cash Equivalents;

(9) a Restricted Payment that does not violate the covenant described above under the caption "*—Certain Covenants—Restricted Payments*", a Permitted Investment or any transaction specifically excluded from the definition of Restricted Payment or, solely for purposes of the second paragraph of the covenant described above under the caption "*Repurchase at the Option of Holders—Asset Sales*", dispositions, the proceeds of which are used to make such Restricted Payments or Permitted Investments;

(10) the disposition of receivables in connection with the compromise, settlement or collection thereof in the ordinary course of business or in bankruptcy or similar proceedings and exclusive of factoring or similar arrangements;

(11) the foreclosure, condemnation or any similar action with respect to any property or other assets or a surrender or waiver of contract rights or the settlement, release or surrender of contract, tort or other claims of any kind;

(12) the disposition of assets to a Person who is providing services (the provision of which have been or are to be outsourced by the Issuer or any Restricted Subsidiary to such Person) related to such assets;

(13) any sale or other disposition of Equity Interests in, or Indebtedness or other securities of, an Unrestricted Subsidiary;

(14) any sale, transfer or other disposition of receivables in connection with any CICE Financing, Receivables Financing, CIR Financing and factoring or similar arrangements or otherwise in the ordinary course of business;

(15) any exchange of assets (including a combination of assets and Cash Equivalents) for assets related to a similar business of comparable or greater market value or usefulness to the business of the Issuer and its Restricted Subsidiaries as a whole, as determined in good faith by the Issuer;

(16) any disposition of Capital Stock of a Restricted Subsidiary pursuant to an agreement or other obligation with or to a Person (other than the Issuer or a Restricted Subsidiary) from whom such Restricted Subsidiary was acquired or from whom such Restricted Subsidiary acquired its business and assets (having been newly formed in connection with such acquisition), made as part of such acquisition and in each case comprising all or a portion of the consideration in respect of such sale or acquisition; and

(17) a disposition that is made in connection with the establishment of a joint venture or sales, transfers and other dispositions of Investments in joint ventures to the extent required by or made pursuant to, customary buy/sell arrangements between the joint venture parties set forth in joint venture agreements and similar binding agreements; *provided* that any cash or Cash Equivalents received in such sale, transfer or other disposition is applied in accordance with the covenant described under "*—Repurchase at the Option of Holders—Asset Sales*".

"*Asset Sale Offer*" has the meaning assigned to that term in the Senior Secured Notes Indenture governing the Senior Secured Notes.

"*Associate*" means (i) any Person engaged in a Permitted Business of which the Issuer or its Restricted Subsidiaries are the legal and beneficial owners of between 20% and 50% of all outstanding Voting Stock and (ii) any joint venture entered into by the Issuer or any Restricted Subsidiary of the Issuer.

"*Beneficial Owner*" has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the U.S. Exchange Act; *provided* that any Voting Stock of which any Permitted Holder is the "beneficial owner" (as so defined) (other than deemed beneficial ownership derived from membership in a group) shall not be included in any Voting Stock of which any other person or group is the "beneficial owner" (as so defined), unless that person or group is not an affiliate of a Permitted Holder and has the sole voting power with respect to that Voting Stock. The terms "*Beneficially Owns*" and "*Beneficially Owned*" have a corresponding meaning.

"*BidCo*" means Ephios France S.A.S.

"*Biologist Shareholders*" means holders of Capital Stock of the Issuer or any of its Restricted Subsidiaries that (i) devote their professional activity to the development of the business of the Issuer or any of its Restricted Subsidiaries and (ii) are subject to restrictions on their ability to carry out professional activities other than in respect of the business of the Issuer or any of its Restricted Subsidiaries, as determined by the Board of Directors of the Issuer in good faith.

"*Board of Directors*" means:

(1) with respect to a corporation, the board of directors of the corporation or any committee thereof duly authorized to act on behalf of such board;

(2) with respect to a partnership, the board of directors of the general partner of the partnership;

(3) with respect to a limited liability company, the managing member or members or any controlling committee of managing members thereof; and

(4) with respect to any other Person, the board or committee of such Person serving a similar function.

"*Bund Rate*" means, as of any redemption date, the rate per annum equal to the equivalent yield to maturity as of such redemption date of the Comparable German Bund Issue, assuming a price for the Comparable German Bund Issue (expressed as a percentage of its principal amount) equal to the Comparable German Bund Price for such relevant date, where:

(1) "*Comparable German Bund Issue*" means the German Bundesanleihe security selected by any Reference German Bund Dealer as having a fixed maturity most nearly equal to the period from such redemption date to, with respect to the Senior Secured Fixed Rate Notes, July 1, 2018, and with respect to the Senior Secured Floating Rate Notes, July 1, 2016, and that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of euro denominated corporate debt securities in a principal amount approximately equal to the then outstanding principal amount of the Senior Secured Fixed Rate Notes or the Senior Secured Floating Rate Notes, as applicable, and of a maturity most nearly equal to, with respect to the Senior Secured Fixed Rate Notes, July 1, 2018, and with respect to the Senior Secured Floating Rate Notes, July 1, 2016; provided, however, that, if the period from such redemption date to, with respect to the Senior Secured Fixed Rate Notes, July 1, 2018, and with respect to the Senior Secured Floating Rate Notes, July 1, 2016, is less than one year, a fixed maturity of one year shall be used;

(2) "*Comparable German Bund Price*" means, with respect to any relevant date, the average of all Reference German Bund Dealer Quotations for such date (which, in any event, must include at least two such quotations), after excluding the highest and lowest such Reference German Bund Dealer Quotations, or if the Issuer obtains fewer than four such Reference German Bund Dealer Quotations, the average of all such quotations;

(3) "*Reference German Bund Dealer*" means any dealer of German Bundesanleihe securities appointed by the Issuer in good faith; and

(4) "*Reference German Bund Dealer Quotations*" means, with respect to each Reference German Bund Dealer and any relevant date, the average as determined by the Issuer of the bid and offered prices for the Comparable German Bund Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Issuer by such Reference German Bund Dealer at 3:30 p.m. Frankfurt, Germany time on the third Business Day preceding the relevant date.

"*Business Day*" means a day (other than a Saturday, Sunday) on which banking institutions are open in London and Paris and which is a day on which the Trans-European Automated Real-Time Gross Settlement Express Transfer (TARGET) System is open.

"*Capital Lease Obligation*" means, at the time any determination is to be made, the amount of the liability in respect of a capital lease that would at that time be required to be capitalized on a balance sheet (excluding the footnotes thereto) prepared in accordance with IFRS, and the Stated Maturity thereof shall be the date of the last payment of rent or any other amount due under such lease prior to the first date upon which such lease may be prepaid by the lessee without payment of a penalty.

"*Capital Stock*" means:

(1) in the case of a corporation, corporate stock;

(2) in the case of an association or business entity, any and all shares, interests, participations, rights or other equivalents (however designated) of corporate stock;

(3) in the case of a partnership or limited liability company, partnership interests (whether general or limited) or membership interests; and

(4) any other interest or participation that confers on a Person the right to receive a share of the profits and losses of, or distributions of assets of, the issuing Person, but excluding from all of the foregoing any debt securities convertible into Capital Stock, whether or not such debt securities include any right of participation with Capital Stock.

"*Cash Equivalents*" means:

(1) direct obligations (or certificates representing an interest in such obligations) issued by, or unconditionally guaranteed by, the government of a member state of the Pre-Expansion European Union, the United States of America, Switzerland or Canada (including, in each case, any agency or instrumentality thereof), as the case may be, the payment of which is backed by the full faith and credit of the relevant member state of the European Union or the United States of America, Switzerland or Canada, as the case may be, and which are not callable or redeemable at the Issuer's option;

(2) overnight bank deposits, time deposit accounts, certificates of deposit, banker's acceptances and money market deposits with maturities (and similar instruments) of 12 months or less from the date of acquisition issued by a bank or trust company which is organized under, or authorized to operate as a bank or trust company under, the laws of a member state of the Pre-Expansion European Union or of the United States of America or any state thereof, Switzerland or Canada; *provided* that such bank or trust company has capital, surplus and undivided profits aggregating in excess of €250 million (or the foreign currency equivalent thereof as of the date of such investment) and whose long-term debt is rated "A-2" or higher by Moody's or A or higher by S&P or the equivalent rating category of another internationally recognized rating agency, as of the date of the investment;

(3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clauses (1) and (2) above entered into with any financial institution meeting the qualifications specified in clause (2) above;

(4) commercial paper having one of the two highest ratings obtainable from Moody's or S&P on the date of the investment and, in each case, maturing within one year after the date of investment; and

(5) money market funds at least 95% of the assets of which constitute Cash Equivalents of the kinds described in clauses (1) through (4) of this definition.

"*Change of Control*" means the occurrence of any of the following:

(1) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the properties or assets of the Issuer and its Subsidiaries taken as a whole to any Person (including any "person" (as that term is used in Section 13(d)(3) of the U.S. Exchange Act) other than one or more Permitted Holders); or

(2) the consummation of any transaction (including, without limitation, any merger or consolidation), the result of which is that any Person (including any "person" as defined above) other than one or more Permitted Holders, becomes the Beneficial Owner, directly or indirectly, of more than 50% of the issued and outstanding Voting Stock of the Issuer measured by voting power rather than number of shares,

provided that, in each case, a Change of Control shall not be deemed to have occurred if such Change of Control is also a Specified Change of Control Event.

"*Change of Control Offer*" has the meaning assigned to that term in the Senior Secured Notes Indenture governing the Senior Secured Notes.

"*CICE*" means the competitiveness and employment tax credit (*crédit d'impôt pour la compétitivité et l'emploi*) provided for in article 244 quater C of the French Tax Code (*Code général des impôts*).

"*CICE Financing*" means Indebtedness under an agreement pursuant to which current or future CICE payments or claims of the Issuer or any Restricted Subsidiary are assigned.

"*CIR*" means the research tax credit (*crédit d'impôt recherche*) provided for in article 244 quater B of the French Tax Code (*Code général des impôts*).

"*CIR Financing*" means Indebtedness under an agreement pursuant to which current or future CIR payments or claims of the Issuer or any Restricted Subsidiary are assigned.

"*Clearstream, Luxembourg*" means Clearstream Banking, *société anonyme*.

"*Collateral*" means the rights and assets securing the Senior Secured Notes and the Senior Secured Note Guarantees as described in the section entitled "*—Security*" and any rights or assets over which a Lien has been granted to secure the Obligations of the Issuer and the Guarantors under the Senior Secured Notes, the Senior Secured Note Guarantees and the Senior Secured Notes Indenture.

"*Completion Date*" means the date of completion of the Acquisition.

"*Consolidated EBITDA*" means, with respect to any specified Person for any period, the Consolidated Net Income of such Person for such period plus the following to the extent deducted in calculating such Consolidated Net Income, without duplication:

(1) provision for taxes based on income, profits and pursuant to the *Cotisation sur la valeur ajoutée des enterprises*, in each case of such Person and its Subsidiaries which are Restricted Subsidiaries for such period; *plus*

(2) the Fixed Charges of such Person and its Subsidiaries which are Restricted Subsidiaries for such period; *plus*

(3) depreciation, amortization (including, without limitation, amortization of intangibles and deferred financing fees) and other non-cash charges and expenses (including without limitation write-downs and impairment of property, plant, equipment and intangibles (including goodwill) and other long-lived assets and the impact of purchase accounting on the Issuer and its Restricted Subsidiaries for such period) of the Issuer and its Restricted Subsidiaries (excluding any such non-cash charge or expense to the extent that it represents an accrual of or reserve for cash charges or expenses in any future period or amortization of a prepaid cash charge or expense that was paid in a prior period) for such period; *plus*

(4) (a) any income or charge attributable to a post-employment benefit scheme (including the current service costs) and any past service costs and curtailments and settlements attributable to the scheme and; *plus*

(5) (a) the amount of management, monitoring, consulting and advisory fees, termination payments and related expenses paid to the Sponsor (or any accruals relating to such fees and related expenses) during such period to the extent permitted by the covenant described under "*—Certain Covenants—Transactions With Affiliates*" and (b) the amount of expenses relating to payments made to option holders (or employees holding other rights tied to the equity value of the Issuer or any Parent Entity) of the Issuer or any Parent Entity in connection with, or as a result of, any distribution being made to shareholders of such Person or its direct or indirect Parent, which payments are being made to compensate such option holders as though they were shareholders at the time of, and entitled to share in, such distribution, in each case to the extent permitted under the Senior Secured Notes Indenture; *plus*

(6) any fees, expenses, charges (including non-cash charges) or other costs related to the Transactions, the issuance of any Capital Stock, any Investment, acquisition, disposition, recapitalization, listing or the incurrence or repayment of Indebtedness or Hedging Obligations permitted to be incurred under the Senior Secured Notes Indenture (including refinancing thereof) whether or not successful, including (i) such fees, expenses, charges or other costs related to any incurrence of Indebtedness and (ii) any amendment or other modification of any incurrence; *plus*

(7) any Receivables Fees and discounts on the sale of accounts receivables in connection with any Receivables Financing, CIR Financing representing, in the Issuer's reasonable determination, the implied interest component of such discount for such period; *plus*

(8) all expenses incurred directly in connection with any early extinguishment of Indebtedness; *plus*

(9) any losses due to outsourcing contracts under which the Issuer or its Restricted Subsidiaries provide services within the 24-month period following the signing of such outsourcing contracts (as calculated in good faith by a responsible financial or chief accounting officer of the Issuer); *provided that* such losses will be limited to 5% of Consolidated EBITDA; *plus*

(10) all adjustments of the nature used in connection with the calculation of "Adjusted EBITDA" and "Estimated *Pro Forma* Adjusted EBITDA" as set forth in footnotes (2) and (3) of "*Summary Historical Consolidated Financial Information and Other Data—Other Financial Data*" contained in the offering memorandum relating to the Existing Senior Secured Notes applied in good faith to the extent such adjustments continue to be applicable during the period in which Consolidated EBITDA is being calculated; *minus*

(11) non-cash items increasing such Consolidated Net Income for such period (other than any non-cash items increasing such Consolidated Net Income pursuant to clauses (1) through (16) of the definition of Consolidated Net Income), other than the reversal of a reserve for cash charges in a future period in the ordinary course of business,

in each case, on a consolidated basis and determined in accordance with IFRS.

For the purpose of clause (1) of the definition of "Permitted Debt", Consolidated EBITDA shall be measured on the basis of the most recent four full fiscal quarters for which internal financial statements are available immediately preceding any incurrence of Indebtedness pursuant to such clause and shall be adjusted as provided under the second paragraph of the definition of "Consolidated Senior Secured Leverage Ratio".

"*Consolidated Leverage*" means, as of any date of determination, the sum of the total amount of Indebtedness of the Issuer and its Restricted Subsidiaries on a consolidated basis (excluding Hedging Obligations entered into for bona fide hedging purposes and not for speculative purposes (as determined in good faith by an Officer or the Board of Directors)).

"*Consolidated Leverage Ratio*" means, as of any date of determination, the ratio of (a)(i) the Consolidated Leverage of the Issuer and its Restricted Subsidiaries on a consolidated basis on such date, less (ii) cash and Cash Equivalents that are stated on the balance sheet of the Issuer and its Restricted Subsidiaries on such date on a consolidated basis, to (b) the Consolidated EBITDA of the Issuer for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred. In the event that the specified Person or any of its Restricted Subsidiaries incurs, assumes, guarantees, repays, repurchases, redeems, defeases or otherwise discharges any Indebtedness (other than ordinary working capital borrowings) or issues, repurchases or redeems Disqualified Stock or preferred stock subsequent to the commencement of the period for which the Consolidated Senior Secured Leverage Ratio is being calculated and on or prior to the date on which the event for which the calculation of the Consolidated Senior Secured Leverage Ratio is made (for the purpose of this definition, the "*Calculation Date*"), then the Consolidated Senior Secured Leverage Ratio will be calculated giving *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of the Issuer) to such incurrence, assumption, guarantee, repayment, repurchase, redemption, defeasance or other discharge of Indebtedness, or such issuance, repurchase or redemption of Disqualified Stock or preferred stock, and the use of the proceeds therefrom, as if the same had occurred at the beginning of the applicable four-quarter reference period.

In addition, for the purposes of calculating the Consolidated Leverage Ratio, see the definition of "Consolidated Senior Secured Leverage Ratio".

"*Consolidated Net Income*" means, with respect to any specified Person for any period, the aggregate of the net income (loss) of such Person and its Restricted Subsidiaries for such period, on a consolidated basis (excluding the net income (loss) of any Unrestricted Subsidiaries), determined in accordance with IFRS and without any reduction in respect of preferred stock dividends; *provided* that:

(1) any net after-tax extraordinary, non-recurring or exceptional gains or losses or income, expenses or charges (less all fees and expenses related thereto), including (a) any start-up costs associated

with the launch of new operations by the Issuer or any of its Restricted Subsidiaries, (b) any one-off charge in respect of the acquisition of, establishment of, or opening of, new laboratories, distribution centers, or depots, (c) any net loss realized upon the sale, abandonment or other disposition of any laboratory, (d) any losses due to a variation of the earnout or other deferred payment relating to an acquisition or disposition of any business, assets, Person or any Equity Interests of a Subsidiary resulting from a change in the fair value of such earnout or deferred payment, (e) any business optimization expenses and other restructuring or reorganization charges, expenses, accruals or reserves (which shall include retention, severance, systems establishment cost, excess pension charges, contract termination costs, including future lease commitments, integration costs, transition costs, costs related to the start-up, closure, relocation or consolidation of facilities and costs to relocate employees), (f) any costs associated with non-ordinary course tax projects and audits, signing, retention or completion bonuses, and any fees and expenses relating to any of the foregoing, (g) or any charges or reserves in respect of any severance expenses and expenses, charges, fees or other costs related to any Equity Offering and the transactions will be excluded;

(2) the net income or loss of any Person that is not a Restricted Subsidiary or that is accounted for under the equity method of accounting will be included only to the extent of the amount of dividends or similar distributions paid in cash to the specified Person or a Restricted Subsidiary which is a Subsidiary of the Person;

(3) solely for the purpose of determining the amount available for Restricted Payments under clause (c)(i) of the first paragraph under the caption "*—Certain Covenants—Restricted Payments*", any net income or loss of any Restricted Subsidiary (other than any Guarantor) will be excluded if such Subsidiary is subject to restrictions, directly or indirectly, on the payment of dividends or the making of distributions by such Restricted Subsidiary, directly or indirectly, to the Issuer (or any Guarantor that holds the Equity Interests of such Restricted Subsidiary, as applicable), by operation of the terms of such Restricted Subsidiary's charter or any agreement, instrument, judgment, decree, order, statute or governmental rule or regulation applicable to such Restricted Subsidiary or its shareholders (other than (a) restrictions that have been waived or otherwise released, (b) restrictions pursuant to the Senior Secured Notes or the Senior Secured Notes Indenture, (c) restrictions not prohibited by the covenant described under "*—Certain Covenants—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries*" and (d) contractual restrictions in effect on the Issue Date with respect to such Restricted Subsidiary and other restrictions with respect to such Restricted Subsidiary that, taken as a whole, are not materially less favorable to the holders of the Senior Secured Notes than such restrictions in effect on the Issue Date), except that the Issuer's equity in the net income of any such Restricted Subsidiary for such period will be included in such Consolidated Net Income up to the aggregate amount of cash or Cash Equivalents actually distributed or that could have been distributed by such Restricted Subsidiary during such period to the Issuer or another Restricted Subsidiary as a dividend or other distribution (subject, in the case of a dividend to another Restricted Subsidiary (other than any Guarantor), to the limitation contained in this clause);

(4) any net after-tax income or loss from discontinued operations and any net after-tax gains or losses on disposal of discontinued operations will be excluded;

(5) any net gain (or loss) realized upon the revaluation, sale or other disposition of any asset or disposed operations of the Issuer or any Restricted Subsidiaries (including pursuant to any sale leaseback transaction) which is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by the Issuer) will be excluded;

(6) (i) any one time non-cash charges or (ii) any increases in amortization or depreciation resulting from purchase accounting, in each case, in relation to any acquisition, or merger or consolidation with, of another Person or business or resulting from any reorganization or restructuring involving the Issuer or its Subsidiaries will be excluded;

(7) the cumulative effect of a change in accounting principles will be excluded;

(8) any Permitted Biologist Payments will be included;

(9) any unrealized gains or losses in respect of Hedging Obligations or any ineffectiveness recognized in earnings related to qualifying hedge transactions or the fair value or changes therein

recognized in earnings for derivatives that do not qualify as hedge transactions, in each case, in respect of Hedging Obligations will be excluded;

(10) any non-cash expense realized or resulting from stock option plans, employee benefit plans or post-employment benefit plans, grants and sales of stock, stock appreciation or similar rights, stock options or other equity interests or rights of officers, directors and employees of such Person or any of its Restricted Subsidiaries will be excluded;

(11) any goodwill or other intangible asset impairment charges and the amortization of intangibles arising from the application of IFRS (excluding any non-cash item to the extent that it represents an accrual of or reserve for cash expenditures in any future period except to the extent such item is subsequently reversed) will be excluded;

(12) any net after-tax gains or losses (less all fees and expenses or charges relating thereto) attributable to the early extinguishment, forgiveness or termination of Indebtedness or Hedging Obligations or other derivative instruments (including deferred financing costs written off and premiums paid) and any net gain or loss from any write-off or forgiveness of Indebtedness will be excluded;

(13) any non-cash interest expense, including non-cash interest expense associated with Subordinated Shareholder Debt, and any non-cash interest income, in each case to the extent there is no associated cash disbursement or receipt, as the case may be, before the earlier of the maturity date of the Senior Secured Notes and the date on which all the Senior Secured Notes cease to be outstanding will be excluded;

(14) any unrealized foreign currency transaction gains or losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person, any unrealized foreign currency transaction gains or losses in respect of Indebtedness or other obligations of the Issuer or any Restricted Subsidiary owing to the Issuer or any Restricted Subsidiary, any unrealized foreign exchange gains or losses relating to translation of assets and liabilities denominated in foreign currencies and any unrealized foreign currency transaction gains or losses deriving from the purchase of raw materials will be excluded;

(15) to the extent covered by insurance and actually reimbursed, or, so long as the Issuer has made a determination that there exists reasonable evidence that such amount will in fact be reimbursed by the insurer and only to the extent that such amount is (a) not denied by the applicable carrier in writing within 180 days and (b) in fact reimbursed within 365 days of the date of such evidence (with a deduction for any amount so added back to the extent not so reimbursed within 365 days), losses with respect to business interruption and other liability and/or casualty insurance will be excluded; and

(16) any (a) relocation costs or expenses relating to officers and employees, (b) one-time non-cash compensation charges, (c) the costs and expenses related to employment of terminated officers or employees and (d) costs or expenses realized in connection with or resulting from stock appreciation or similar rights under management equity or stock options plans or any other management or employee benefit plan or agreement or any stock subscription or shareholder agreement, stock options or other equity interests or rights of officers or directors, in each case of such Person or any of its Restricted Subsidiaries will be excluded.

"*Consolidated Senior Secured Leverage*" means, as of any date of determination, the sum of the total amount of Senior Secured Indebtedness of the Issuer and its Restricted Subsidiaries on a consolidated basis (excluding Hedging Obligations entered into for *bona fide* hedging purposes and not for speculative purposes (as determined in good faith by an Officer or the Board of Directors)).

"*Consolidated Senior Secured Leverage Ratio*" means, as of any date of determination, the ratio of (a)(i) the Consolidated Senior Secured Leverage of the Issuer and its Restricted Subsidiaries on a consolidated basis on such date, less (ii) cash and Cash Equivalents that are stated on the balance sheet of the Issuer and its Restricted Subsidiaries on such date on a consolidated basis, to (b) the Consolidated EBITDA of the Issuer for the most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred. In the event that the specified Person or any of its Restricted Subsidiaries incurs, assumes, guarantees, repays, repurchases, redeems, defeases or otherwise discharges any Indebtedness (other than ordinary working capital borrowings) or issues, repurchases or redeems Disqualified Stock or preferred stock subsequent to the commencement of the period for which the Consolidated Senior Secured Leverage Ratio is being calculated and on or prior to the date on which the event for which the calculation of the Consolidated Senior Secured Leverage Ratio is made (for the purpose of this definition, the "*Calculation Date*"), then the Consolidated Senior Secured Leverage Ratio will be calculated giving *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of the Issuer) to such incurrence, assumption, guarantee, repayment, repurchase, redemption, defeasance or other discharge of Indebtedness, or such issuance, repurchase or redemption of Disqualified Stock or preferred stock, and the use of the proceeds therefrom, as if the same had occurred at the beginning of the applicable four-quarter reference period; *provided*, however, that the *pro forma* calculation shall not give effect to (i) any Indebtedness incurred on the Calculation Date pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*," or (ii) the discharge on the Calculation Date of any Indebtedness to the extent that such discharge results from the proceeds incurred pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*."

In addition, for purposes of calculating the Consolidated EBITDA for such period:

(1) acquisitions that have been made by the specified Person or any of its Subsidiaries which are Restricted Subsidiaries, including through mergers or consolidations, or by any Person or any of its Subsidiaries which are Restricted Subsidiaries acquired by the specified Person or any of its Subsidiaries which are Restricted Subsidiaries, and including all related financing transactions and including increases in ownership of Subsidiaries which are Restricted Subsidiaries, during the four-quarter reference period or subsequent to such reference period and on or prior to the Calculation Date, or that are to be made on or substantially concurrently at the time of the Calculation Date or with all or a portion of the proceeds of any Indebtedness incurred on the Calculation Date, will be given *pro forma* effect (as determined in good faith by a responsible accounting or financial officer of the Issuer) as if they had occurred on the first day of the four-quarter reference period;

(2) the Consolidated EBITDA attributable to discontinued operations, as determined in accordance with IFRS, and operations or businesses (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded;

(3) any Person that is a Restricted Subsidiary on the Calculation Date will be deemed to have been a Restricted Subsidiary at all times during such four-quarter period;

(4) any Person that is not a Restricted Subsidiary on the Calculation Date will be deemed not to have been a Restricted Subsidiary at any time during such four-quarter period; and

(5) the difference between: (i) the total *pro forma* consolidated amount received or receivable pursuant to CICE for the four quarter period as determined on the basis of CICE applicable to all relevant entities of the Group as at the end of the period, and (ii) the total amount received or receivable pursuant to CICE already included in Consolidated EBITDA for that period, shall be added to Consolidated EBITDA.

For the purposes of this definition and the definitions of Consolidated Leverage Ratio, Consolidated EBITDA, Fixed Charges and Consolidated Net Income, (a) calculations will be as determined in good faith by a responsible financial or accounting officer of the Issuer (including in respect of anticipated expense and cost reductions and expense and cost synergies as though the full effect of such expense and cost reductions and expense and cost synergies were realized on the first day of the relevant period and shall also include the reasonably anticipated full run rate cost savings effect (as calculated in good faith by a responsible financial or chief accounting officer of the Issuer) of cost savings programs, business optimization programs or other restructurings or reorganizations that have been initiated by a member of the Group as though programs, restructurings or reorganizations had been fully implemented on the first day of the relevant period (regardless of whether these cost savings and expense and cost reduction and expense and cost synergies could then be reflected in *pro forma* financial statements to the extent prepared); *provided* that such anticipated expense and cost reductions and expense and cost synergies and cost savings are reasonably anticipated to be realized within 24 months after the consummation of the cost savings program, business optimization program, restructuring, reorganizations or any operational change or the purchase or sale which is expected to result in such anticipated expense and cost reductions and synergies and cost savings), and *further provided* that any synergies directly related to acquisitions completed in the 24-month period prior to the Calculation Date shall be subject to a 20% discount and

(b) in determining the amount of Indebtedness outstanding on any date of determination and Fixed Charges for the relevant period, *pro forma* effect shall be given to any Incurrence, repayment, repurchase, defeasance or other acquisition, retirement or discharge of Indebtedness as if such transaction had occurred on the first day of the relevant period.

For the avoidance of doubt, the Consolidated EBITDA and all outstanding Indebtedness of any company or business to be acquired pursuant to a signed purchase agreement (which may be subject to one or more conditions precedent) may be given *pro forma* effect for the purpose of calculating the Fixed Charge Cover Ratio and the Consolidated Senior Secured Leverage Ratio of the Issuer *provided* that (A) if the company or business to be acquired has a Fair Market Value in excess of €25.0 million, the proceeds of any Indebtedness incurred for the purpose of financing such acquisition or refinancing Indebtedness of any such company or business are deposited in an escrow account and are to be later released (x) to pay, in whole or in part, the purchase price of such acquisition, (y) to repay, redeem or refinance existing Indebtedness of such company or business and/or (z) to pay any related costs in connection with any such acquisition or refinancing; (B) the release of such escrowed proceeds shall be conditional upon such acquisition or refinancing to occur and (C) if such acquisition or refinancing does not occur, the Issuer or any of its Restricted Subsidiaries shall be required to make a mandatory redemption of the Indebtedness the proceeds of which were deposited in such escrow account.

"*Contingent Obligations*" means, with respect to any Person, any obligation of such Person guaranteeing in any manner, whether directly or indirectly, any operating lease, dividend or other obligation that, in each case, does not constitute Indebtedness ("*primary obligations*") of any other Person (the "*primary obligor*"), including any obligation of such Person, whether or not contingent:

(1) to purchase any such primary obligation or any property constituting direct or indirect security therefor;

(2) to advance or supply funds:

   (a) for the purchase or payment of any such primary obligation; or

   (b) to maintain the working capital or equity capital of the primary obligor or otherwise to maintain the net worth or solvency of the primary obligor; or

(3) to purchase property, securities or services primarily for the purpose of assuring the owner of any such primary obligation of the ability of the primary obligor to make payment of such primary obligation against loss in respect thereof.

"*continuing*" means, with respect to any Default or Event of Default, that such Default or Event of Default has not been cured or waived.

"*Credit Facilities*" means, one or more debt facilities, instruments or arrangements incurred by the Issuer or any Restricted Subsidiary or any Finance Subsidiary (including the Revolving Credit Facility and overdraft facilities) or commercial paper facilities or indentures or trust deeds or note purchase agreements, in each case, with banks, other institutions, funds or investors, providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables), letters of credit, bonds, notes debentures or other corporate debt instruments or other Indebtedness, in each case, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time (and whether in whole or in part and whether or not with the original administrative agent and lenders or another administrative agent or agents or trustees or other banks or institutions and whether provided under the Revolving Credit Facility or one or more other credit or other agreements, indentures, financing agreements or otherwise) and in each case including all agreements, instruments and documents executed and delivered pursuant to or in connection with the foregoing (including any notes and letters of credit issued pursuant thereto and any guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other guarantees, pledges, agreements, security agreements and collateral documents). Without limiting the generality of the foregoing, the term "*Credit Facilities*" shall include any agreement or instrument (1) changing the maturity of any Indebtedness incurred thereunder or contemplated thereby, (2) adding Subsidiaries of the Issuer as additional borrowers, issuers or guarantors thereunder, (3) increasing the amount of Indebtedness incurred thereunder or available to be borrowed thereunder or (4) otherwise altering the terms and conditions thereof.

"*Currency Exchange Protection Agreement*" means, in respect of any Person, any foreign exchange contract, currency swap agreement, currency option, cap, floor, ceiling or collar or agreement or other similar agreement or arrangement designed to protect such Person against fluctuations in currency exchange rates as to which such Person is a party.

"*Default*" means any event that is, or with the passage of time or the giving of notice or both would be, an Event of Default.

"*Designated Non-cash Consideration*" means the Fair Market Value of non-cash consideration received by the Issuer or one of its Restricted Subsidiaries in connection with an Asset Sale that is so designated as "Designated Non-cash Consideration" pursuant to an Officer's Certificate, setting forth the basis of such valuation, less the amount of cash or Cash Equivalents received in connection with a subsequent sale of such Designated Non-cash Consideration.

"*Disqualified Stock*" means any Capital Stock that, by its terms (or by the terms of any security into which it is convertible, or for which it is exchangeable, in each case, at the option of the holder of the Capital Stock), or upon the happening of any event, matures or is mandatorily redeemable, pursuant to a sinking fund obligation or otherwise, or redeemable at the option of the holder of the Capital Stock, in whole or in part, on or prior to the sixth month anniversary of the date that the Senior Secured Notes mature. Notwithstanding the preceding sentence, any Capital Stock that would constitute Disqualified Stock solely because the holders of the Capital Stock have the right to require the issuer thereof to repurchase such Capital Stock upon the occurrence of a Change of Control or an Asset Sale will not constitute Disqualified Stock if the terms of such Capital Stock provide that the issuer thereof may not repurchase or redeem any such Capital Stock pursuant to such provisions unless such repurchase or redemption complies with the covenant described above under the caption "*—Certain Covenants—Restricted Payments*". For purposes hereof, the amount of Disqualified Stock which does not have a fixed repurchase price shall be calculated in accordance with the terms of such Disqualified Stock as if such Disqualified Stock were purchased on any date on which Indebtedness shall be required to be determined pursuant to the Senior Secured Notes Indenture, and if such price is based upon, or measured by, the Fair Market Value of such Disqualified Stock, such Fair Market Value to be determined as set forth herein.

"*Equity Contribution*" means the equity contribution to be made by the Sponsor to the Issuer in connection with the Transactions as described in the offering memorandum relating to the Existing Senior Secured Notes.

"*Equity Interests*" means Capital Stock and all warrants, options or other rights to acquire Capital Stock (but excluding any debt security that is convertible into, or exchangeable for, Capital Stock).

"*Equity Investors*" means the Sponsor and any funds, co-investment vehicles or partnerships owned, managed, sponsored or advised, directly or indirectly by the Sponsor or an Affiliate thereof, and solely in their capacity as such, any limited partner of any such partnership, co-investment vehicle or fund.

"*Equity Offering*" means any public or private sale of (i) Capital Stock (x) that is a sale of Capital Stock of the Issuer (other than Disqualified Stock) other than offerings registered on Form S-8 (or any successor form) under the U.S. Securities Act or any similar offering in other jurisdictions, or (y) the proceeds of which are lent as Subordinated Shareholder Debt or contributed to the equity (other than through the issuance of Disqualified Stock or an Excluded Contribution or Parent Senior Debt Contribution) of the Issuer or any of its Restricted Subsidiaries or (ii) Subordinated Shareholder Debt.

"*Escrowed Proceeds*" means the proceeds from the offering of any debt securities or other Indebtedness paid into an escrow account with an independent escrow agent on the date of the applicable offering or incurrence pursuant to escrow arrangements that permit the release of amounts on deposit in such escrow account upon satisfaction of certain conditions or the occurrence of certain events. The term "*Escrowed Proceeds*" shall include any interest earned on the amounts held in escrow.

"*Excluded Contributions*" means the net cash proceeds or property received by the Issuer after the Issue Date from:

(1) contributions to its common equity capital; and

(2) the sale (other than to a Subsidiary of the Issuer) of Capital Stock (other than Disqualified Stock) of the Issuer,

in each case designated as "*Excluded Contributions*" pursuant to an Officer's Certificate of the Issuer (which shall be designated no later than the date on which such Excluded Contribution has been received by the Issuer), the net cash proceeds of which or property are excluded from the calculation set forth in the clause (c)(ii) of the covenant described under "*—Certain Covenants—Restricted Payments*" hereof; *provided that* to the extent any Excluded Contributions so designated are not utilized to make a Restricted Payment, such Excluded Contribution may be reclassified so as to allow the incurrence of Indebtedness incurred under clause (16) of the second paragraph of the covenant described above under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*".

"*Euroclear*" means Euroclear Bank SA/NV.

"*European Government Obligations*" means direct obligations of, or obligations guaranteed by, a member state of the European Union, and for the payment of which such member state of the European Union pledges its full faith and credit.

"*Fair Market Value*" means the value that would be paid by a willing buyer to an unaffiliated willing seller in a transaction not involving distress of either party, determined in good faith by the Issuer's Chief Executive Officer, Chief Financial Officer or responsible accounting or financial officer of the Issuer.

"*Finance Subsidiary*" means a wholly owned subsidiary that is formed for the purpose of borrowing funds or issuing securities and lending the proceeds to the Issuer or a Guarantor and that conducts no business other than as may be reasonably incidental to, or related to, the foregoing.

"*Fixed Charges*" means, with respect to any specified Person for any period, the sum, without duplication, of:

(1) the consolidated interest expense (net of interest income) of such Person and its Subsidiaries which are Restricted Subsidiaries for such period, whether paid, capitalized or accrued (but excluding such interest on and expense associated with Subordinated Shareholder Debt), including, without limitation, amortization of debt discount (but not debt issuance costs, commissions, fees and expenses), non-cash interest payments (but excluding any non-cash interest expense attributable to the movement in the mark to market valuation of Hedging Obligations or other derivative instruments), the interest component of deferred payment obligations, the interest component of all payments associated with Capital Lease Obligations, commissions, discounts and other fees and charges incurred in respect of letter of credit or bankers' acceptance financings; *plus*

(2) any interest on Indebtedness of another Person that is guaranteed by such Person or one of its Subsidiaries which are Restricted Subsidiaries or secured by a Lien on assets of such Person or one of its Subsidiaries which are Restricted Subsidiaries to the extent actually paid by such Person or one of its Subsidiaries which are Restricted Subsidiaries, including any Parent Senior Debt (which interest shall include, without double counting, all amounts paid pursuant to Clause 12(a) of the second paragraph of the covenant described under "*—Certain Covenants—Restricted Payments*"; *plus*

(3) the product of (a) all dividends, whether paid or accrued and whether or not in cash, on any Disqualified Stock of any Restricted Subsidiary, other than dividends on Equity Interests payable to the Issuer or a Restricted Subsidiary, *times* (b) a fraction, the numerator of which is one and the denominator of which is one minus the then current applicable tax rate of such Person, expressed as a decimal, as estimated in good faith by a responsible accounting or financial officer of the Issuer.

In addition, for the purposes of calculating Fixed Charges, see the definition of Consolidated Senior Secured Leverage Ratio.

"*Fixed Charge Coverage Ratio*" means, with respect to any specified Person for any period, the ratio of the Consolidated EBITDA of such Person for such period to the Fixed Charges of such Person for such period. In the event that the specified Person or any of its Subsidiaries which are Restricted Subsidiaries incurs, assumes, guarantees, repays, repurchases, redeems, defeases or otherwise discharges any Indebtedness (other than ordinary working capital borrowing) or issues, repurchases or redeems preferred stock subsequent to the commencement of the period for which the Fixed Charge Coverage Ratio is being calculated and on or prior to the date on which the event for which the calculation of the Fixed Charge Coverage Ratio is made (the "*Calculation Date*"), then the Fixed Charge Coverage Ratio will be calculated giving *pro forma* effect (as determined in good faith by the Issuer's Chief Financial Officer or a responsible financial or accounting officer of the Issuer) to such incurrence, assumption, guarantee, repayment, repurchase, redemption, defeasance or other discharge of Indebtedness, or such issuance, repurchase or redemption of preferred stock, and the use of the proceeds therefrom, as if the same had occurred at the beginning of the applicable four-quarter reference period; *provided*, however, that the *pro forma* calculation shall not give effect to (i) any Indebtedness incurred on the Calculation Date pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*," or (ii) the discharge on the Calculation Date of any Indebtedness to the extent that such discharge results from the proceeds incurred pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*."

In addition, for purposes of calculating the Fixed Charge Coverage Ratio:

(1) acquisitions of business entities or property and assets constituting a division or line of business of any Person, acquisitions that have been made by the specified Person or any of its Subsidiaries which are Restricted Subsidiaries, including through mergers or consolidations, or any Person or any of its Subsidiaries which are Restricted Subsidiaries acquired by the specified Person or any of its Subsidiaries which are Restricted Subsidiaries, and including all related financing transactions and including increases in ownership of Subsidiaries which are Restricted Subsidiaries, during the four-quarter reference period or subsequent to such reference period and on or prior to the Calculation Date, or that are to be made on the Calculation Date, will be given *pro forma* effect (as determined in good faith by the Issuer's Chief Financial Officer or Chief Accounting Officer) as if they had occurred on the first day of the four-quarter reference period;

(2) the Consolidated EBITDA attributable to discontinued operations, as determined in accordance with IFRS, and operations or businesses (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded;

(3) the Fixed Charges attributable to discontinued operations, as determined in accordance with IFRS, and operations or businesses (and ownership interests therein) disposed of prior to the Calculation Date, will be excluded, but only to the extent that the obligations giving rise to such Fixed Charges will not be obligations of the specified Person or any of its Subsidiaries which are Restricted Subsidiaries following the Calculation Date;

(4) any Person that is a Restricted Subsidiary on the Calculation Date will be deemed to have been a Restricted Subsidiary at all times during such four-quarter period;

(5) any Person that is not a Restricted Subsidiary on the Calculation Date will be deemed not to have been a Restricted Subsidiary at any time during such four-quarter period; and

(6) if any Indebtedness bears a floating rate of interest and such Indebtedness is to be given *pro forma* effect, the interest expense on such Indebtedness will be calculated as if the rate in effect on the Calculation Date had been the applicable rate for the entire period (taking into account any Hedging Obligation applicable to such Indebtedness if such Hedging Obligation has a remaining term as at the Calculation Date in excess of 12 months, or, if shorter, at least equal to the remaining term of such Indebtedness).

For the avoidance of doubt, the *pro forma* calculation of the Fixed Charge Coverage Ratio shall not give effect to (i) any Indebtedness Incurred on the dates of determination pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*".

"*guarantee*" means a guarantee other than by endorsement of negotiable instruments for collection or deposit in the ordinary course of business, of all or any part of any Indebtedness (whether arising by agreements to keep-well, to take or pay or to maintain financial statement conditions, pledges of assets or otherwise).

"*Guarantors*" means the Completion Date Guarantors, the German Completion Date Guarantors, the Post-Completion Guarantors, the German Post-Completion Guarantors and any Person that subsequently becomes a Guarantor in accordance with the terms of the Senior Secured Notes Indenture; *provided* that upon the release or discharge of such Person from its Senior Secured Note Guarantee in accordance with the Senior Secured Notes Indenture, such Person ceases to be a Guarantor unless such Person is required to provide a guarantee under the covenant described under "*—Certain Covenants—Limitation on Issuances of Guarantees of Indebtedness*".

"*Hedging Obligations*" means, with respect to any specified Person, the obligations of such Person under:

(1) interest rate swap agreements, (whether from fixed to floating or from floating to fixed), interest rate cap agreements and interest rate collar agreements;

(2) other agreements or arrangements designed to manage interest rates or interest rate risk; and

(3) other agreements or arrangements designed to protect such Person against fluctuations in currency exchange rates, including Currency Exchange Protection Agreements, or commodity prices.

"*IFRS*" means International Financial Reporting Standards as endorsed by the European Union and in effect on the date of any calculation or determination required hereunder.

"*Indebtedness*" means, with respect to any specified Person, any indebtedness of such Person (excluding accrued expenses and trade payables):

(1) in respect of borrowed money;

(2) evidenced by bonds, notes, debentures or similar instruments for which such Person is responsible or liable;

(3) representing reimbursement obligations in respect of letters of credit, bankers' acceptances or similar instruments (except to the extent such reimbursement obligations relate to trade payables and such obligations are satisfied within 60 days of incurrence);

(4) representing Capital Lease Obligations;

(5) representing the balance deferred and unpaid of the purchase price of any property or services due more than twelve months after such property is acquired or such services are completed;

(6) representing any Hedging Obligations;

(7) representing the principal component of all obligations of a Parent Entity in connection with any Parent Senior Debt (without duplicating with any Indebtedness in respect of Guarantees of such Parent Senior Debt by the Issuer or any of its Restricted Subsidiaries),

if and to the extent any of the preceding items (other than letters of credit and Hedging Obligations) would appear as a liability upon a balance sheet (excluding the footnotes thereto) of the specified Person prepared in accordance with IFRS. In addition, the term "Indebtedness" includes all Indebtedness of others secured by a Lien on any asset of the specified Person (whether or not such Indebtedness is assumed by the specified Person) and, to the extent not otherwise included, the guarantee by the specified Person of any Indebtedness of any other Person to the extent guaranteed by such Person; *provided*, *however*, that in the case of Indebtedness secured by a Lien, the amount of such Indebtedness will be the lesser of (a) the fair market value of such asset at such date of determination (as determined in good faith) by the Issuer and (b) the amount of such Indebtedness of such other Person.

The term "Indebtedness" shall not include:

(1) Subordinated Shareholder Debt;

(2) any lease of property which would be considered an operating lease under IFRS and any guarantee given by the Issuer or a Restricted Subsidiary in the ordinary course of business solely in connection with, and in respect of, the obligations of the Issuer or a Restricted Subsidiary under any operating lease;

(3) Contingent Obligations incurred in the ordinary course of business;

(4) in connection with the purchase by the Issuer or any Restricted Subsidiary of any business, any post-closing payment adjustments to which the seller may become entitled to the extent such payment is determined by a final closing balance sheet or such payment depends on the performance of such business after the closing; *provided, however*, that, at the time of closing, the amount of any such payment is not determinable and, to the extent such payment thereafter becomes fixed and determined, the amount is paid within 180 days thereafter;

(5) the avoidance of doubt, any contingent obligations in respect of workers' compensation claims, early retirement or termination obligations, pension fund obligations or contributions or similar claims, obligations or contributions or social security or wage Taxes;

(6) deferred or prepaid revenues;

(7) obligations under or in respect of CICE Financing, Receivables Financings and CIR Financing and accrued liabilities incurred in the ordinary course of business that are not more than 90 days past due;

(8) prepayments of deposits received from clients or customers in the ordinary course of business;

(9) obligations under any license or permit or (or guarantees given in respect of such obligations) incurred prior to the Issue Date or in the ordinary course of business;

(10) non-interest bearing installment obligations and accrued liabilities Incurred in the ordinary course of business that are not more than 90 days past due;

(11) Indebtedness in respect of the Incurrence by the Issuer or any Restricted Subsidiary of Indebtedness in respect of standby letters of credit, performance bonds or surety bonds provided by the Issuer or any Restricted Subsidiary in the ordinary course of business to the extent such letters of credit or bonds are not drawn upon or, if and to the extent drawn upon are honored in accordance with their terms and if, to be reimbursed, are reimbursed no later than the fifth Business Day following receipt by such Person of a demand for reimbursement following payment on the letter of credit or bond;

(12) Indebtedness incurred by the Issuer or one of the Restricted Subsidiaries in connection with a transaction where (A) such indebtedness is borrowed from a bank or trust company, having a combined capital and surplus and undivided profits of not less than €250 million, whose debt has a rating immediately prior to the time such transaction is entered into, of at least A or the equivalent thereof by S&P and A2 or the equivalent thereof by Moody's and (B) a substantially concurrent Investment is made by the Issuer or a Restricted Subsidiary in the form of cash deposited with the lender of such indebtedness, or a Subsidiary or Affiliate thereof, in amount equal to such indebtedness;

(13) for the avoidance of doubt, any amounts payable to Oséo, Bpifrance Financement or other French governmental entities for CICE subsidies received; and

(14) any liability for Taxes.

"*Initial Public Offering*" means the first Public Offering of common stock or common equity interests of the Issuer or any Parent Entity (the "*IPO Entity*") following which there is a Public Market.

"*Intercreditor Agreement*" means the intercreditor agreement dated on the Issue Date made between, among others, the Issuer, the Trustee, Natixis, as facility agent under the Revolving Credit Facility, the lenders under the Revolving Credit Facility, and U.S. Bank Trustees Limited, as Security Agent, as amended, restated or otherwise modified or varied from time to time and to which the Guarantors will accede at the same time as they accede to the Senior Secured Notes Indenture.

"*Investment Grade Status*" shall occur when the Senior Secured Notes are rated Baa3 or better by Moody's and BBB− or better by S&P (or, if either such entity ceases to rate the Senior Secured Notes, the equivalent investment grade credit rating from any other Rating Agency).

"*Investments*" means, with respect to any Person, all direct or indirect investments by such Person in other Persons (including Affiliates) in the forms of loans (including guarantees or other obligations, but excluding advances or extensions of credit to customers or suppliers made in the ordinary course of business), advances or capital contributions (excluding commission, travel and similar advances to officers and employees made in the ordinary course of business), purchases or other acquisitions for consideration of Indebtedness, Equity Interests or other securities, together with all items that are or would be classified as Investments on a balance sheet (excluding the footnotes) prepared in accordance with IFRS. If the Issuer or any Restricted Subsidiary sells or otherwise disposes of any Equity Interests of any direct or indirect Restricted Subsidiary such that, after giving effect to any such sale or disposition, such Person is no longer a Restricted Subsidiary, the Issuer will be deemed to have made an Investment on the date of any such sale or disposition equal to the Fair Market Value of the Issuer's Investments in such Restricted Subsidiary that were not sold or disposed of in an amount determined as provided in the final paragraph of the covenant described above under the caption "*—Certain Covenants—Restricted Payments*". The acquisition by the Issuer or any Restricted Subsidiary of a Person that holds an Investment in a third Person will be deemed to be an Investment by the Issuer or such Restricted Subsidiary in such third Person in an amount equal to the Fair Market Value of the Investments held by the acquired Person in such third Person in an amount determined as provided in the final paragraph of the covenant described above under the caption "*—Certain Covenants—Restricted Payments*". Except as otherwise provided in the Senior Secured Notes Indenture, the amount of an Investment will be determined at the time the Investment is made and without giving effect to subsequent changes in value and, to the extent applicable, shall be determined based on the equity value of such Investment.

"*IPO Market Capitalization*" means an amount equal to (1) the total number of issued and outstanding shares of the common stock or common equity interests of the IPO Entity at the time of closing of the Initial Public Offering multiplied by (2) the price per share at which such shares of common stock or common equity interests are sold in such Initial Public Offering.

"*Issue Date*" means June 17, 2015.

"*Lien*" means, with respect to any asset, any mortgage, lien, pledge, charge, security interest or encumbrance of any kind in respect of such asset, whether or not filed, recorded or otherwise perfected under applicable law, including any conditional sale or other title retention agreement or any lease in the nature thereof.

"*Management Advances*" means loans or advances made to, or guarantees with respect to loans or advances made to, directors, officers, managers, employees or consultants of the Issuer or any Restricted Subsidiary:

(1) in respect of travel, entertainment or moving related expenses incurred in the ordinary course of business;

(2) in respect of moving related expenses incurred in connection with any closing or consolidation of any facility or office; or

(3) (in the case of this clause (3)) not exceeding €5.0 million in the aggregate outstanding at any time.

"*Management Group*" means the group consisting of (i) any shareholders of the Target who reinvested in the Issuer or any Parent Entity all or part of its investment in the Target and (ii) persons who are or become officers or management personnel of Target or any Parent Entity, as applicable, and its Subsidiaries following the Completion Date (other than in connection with a transaction that would otherwise be a Change of Control if such persons were not included in the definition of "Permitted Holders"), or (in each case) family members thereof, or trusts, partnerships or limited liability companies for the benefit of any of the foregoing, or any of their heirs, executors, successors and legal representatives, who at any date beneficially own or have the right to acquire, directly or indirectly, Equity Interests of UK TopCo.

"*Market Capitalization*" means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the IPO Entity on the date of the declaration of the relevant dividend multiplied by (ii) the arithmetic mean of the closing prices per share of such common stock or common equity interests for the 30 consecutive trading days immediately preceding the date of declaration of such dividend.

"*Material Acquisition*" means any transaction or series of related transactions pursuant to which any Person becomes a Restricted Subsidiary of the Issuer or is otherwise acquired by the Issuer or any of its Restricted Subsidiaries or is merged into or consolidated with the Issuer or any of its Restricted Subsidiaries, in each case, which transaction or series of related transactions results in a Consolidated EBITDA for the Issuer or any successor entity (calculated after giving *pro forma* effect to such transaction or series of related transactions and using the consolidated financial statements of the Target or the consolidated financial statements of the Issuer which include the Target and its Restricted Subsidiaries (as available) for such calculation) equal to 150% or greater of the Issuer's Consolidated EBITDA (calculated using the consolidated financial statements of the Target or the consolidated financial statements of the Issuer which include the Target and its Restricted Subsidiaries (as available) for the most recently ended four full fiscal quarters for which internal financial statements are available immediately prior to the date on which such transaction or series of related transactions is completed) immediately prior to giving *pro forma* effect to such transaction or series of related transactions, and which is financed in all or part by the incurrence of Parent Senior Debt.

"*Moody's*" means Moody's Investors Service, Inc.

"*Net Proceeds*" means the aggregate cash proceeds received by the Issuer or any of its Restricted Subsidiaries in respect of any Asset Sale (including, without limitation, any cash received upon the sale or other disposition of any Designated Non-cash Consideration or other consideration received in non-cash form or Cash Equivalents substantially concurrently received in any Asset Sale), net of the direct costs relating to such Asset Sale and the sale of such Designated Non-cash Consideration or other consideration received in non-cash form, including, without limitation, legal, accounting and investment banking fees, and sales commissions, and any relocation expenses incurred as a result of the Asset Sale, taxes paid or payable as a result of the Asset Sale, and all distributions and other payments required to be made to minority interest holders (other than the Issuer or any Subsidiary) in Subsidiaries or joint ventures as a result of such Asset Sale, and any reserve for adjustment or indemnification obligations in respect of the sale price of such asset or assets established in accordance with IFRS.

"*Non-Recourse Debt*" means Indebtedness as to which neither the Issuer nor any of its Restricted Subsidiaries (1) provides credit support of any kind (including any undertaking, agreement or instrument that would constitute Indebtedness) or (2) is directly or indirectly liable as a guarantor or otherwise.

"*Obligations*" means any principal, interest, penalties, fees, indemnifications, reimbursements, damages and other liabilities payable under the documentation governing any Indebtedness.

"*Officer*" means, with respect to any Person, the Chief Executive Officer, Chief Financial Officer, President, any manager, director, Executive Vice President, Senior Vice President or Vice President, the Treasurer or the Secretary of such Person or any other person that the board of directors of such Person shall designate for such purpose.

"*Officer's Certificate*" means a certificate signed by an Officer.

"*Opinion of Counsel*" means a written opinion from legal counsel reasonably satisfactory to the Trustee. The counsel may be an employee of or counsel to the Issuer or any of its Subsidiaries.

"*Parent Entity*" means any direct or indirect parent company or entity of the Issuer.

"*Parent Expenses*" means:

(1) costs (including all professional fees and expenses) incurred by any Parent Entity in connection with reporting obligations under or otherwise incurred in connection with compliance with applicable laws, rules or regulations of any governmental, regulatory or self-regulatory body or stock exchange, the Senior Secured Notes Indenture or any other agreement or instrument relating to Indebtedness of the Issuer or any Restricted Subsidiary, including in respect of any reports filed with respect to the U.S. Securities Act or the U.S. Exchange Act or the respective rules and regulations promulgated thereunder;

(2) customary indemnification obligations of any Parent Entity owing to directors, officers, employees or other Persons under its charter or by-laws or pursuant to written agreements with any such Person to the extent relating to the Issuer and its Subsidiaries;

(3) obligations of any Parent Entity in respect of director and officer insurance (including premiums therefor) to the extent relating to the Issuer and its Subsidiaries;

(4) fees and expenses payable by any Parent Entity in connection with the Transactions;

(5) general corporate overhead expenses, including (a) professional fees and expenses and other operational expenses of any Parent Entity related to the ownership or operation of the business of the Issuer or any of its Restricted Subsidiaries, and (b) costs and expenses with respect to the ownership, directly or indirectly, of the Issuer and its Restricted Subsidiaries by any Parent Entity, (c) any Taxes and other fees and expenses required to maintain such Parent Entity's corporate existence and to provide for other ordinary course operating costs, including customary salary, bonus and other benefits payable to, and indemnities provided on behalf of, officers and employees of such Parent Entity and (d) to reimburse reasonable out of pocket expenses of the Board of Directors of such Parent Entity;

(6) other fees, expenses and costs relating directly or indirectly to activities of the Issuer and its Subsidiaries or any Parent Entity or any other Person established for purposes of or in connection with the Transactions or which holds directly or indirectly any Capital Stock or Subordinated Shareholder Debt of the Issuer, in an amount not to exceed €1.0 million in any fiscal year;

(7) any income taxes, to the extent such income taxes are attributable to the income of the Issuer and its Restricted Subsidiaries and, to the extent of the amount actually received in cash from its Unrestricted Subsidiaries, in amounts required to pay such taxes to the extent attributable to the income of such Unrestricted Subsidiaries; provided, however, that the amount of such payments in any fiscal year do not exceed the amount that the Issuer and its Subsidiaries would be required to pay in respect of such Taxes on a consolidated basis on behalf of an affiliated group consisting only of the Issuer and such Subsidiaries; and

(8) expenses incurred by any Parent Entity in connection with any public offering or other sale of Capital Stock or Indebtedness (a) where the net proceeds of such offering or sale are intended to be received by or contributed to the Issuer or a Restricted Subsidiary; (b) in a pro-rated amount of such expenses in proportion to the amount of such net proceeds intended to be so received or contributed; or (c) otherwise on an interim basis prior to completion of such offering so long as any Parent Entity shall cause the amount of such expenses to be repaid to the Issuer or the relevant Restricted Subsidiary out of the proceeds of such offering promptly if completed.

"*Parent Senior Debt*" means any Indebtedness of any Parent Entity (i) the proceeds of which have been contributed to the Issuer or any of its Restricted Subsidiaries in the form of a Parent Senior Debt Contribution and (ii) the interests on which are being serviced by the Issuer or any of its Restricted Subsidiaries pursuant to clause (12)(a) of the caption "*—Certain Covenants—Restricted Payments*" above; *provided that* at the time of such Incurrence, after giving *pro forma* effect to the Incurrence of such Indebtedness (including *pro forma* application of the proceeds thereof), either the Issuer would have been able to incur €1.00 of additional Indebtedness pursuant to the first paragraph of the covenant "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" or the Fixed Charge Coverage Ratio for the Issuer and its Restricted Subsidiaries would not be less than it was immediately prior to giving effect to such incurrence, in each case, as if the Issuer had incurred such Indebtedness of the Parent Entity. For the purposes of the definitions of Consolidated Leverage Ratio, Consolidated EBITDA, Fixed Charges and Consolidated Net Income in determining the amount of Indebtedness outstanding on any date of determination and Fixed Charges for the relevant period, *pro forma* effect shall be given to any Incurrence, repayment, repurchase, defeasance or other acquisition, retirement or discharge of Parent Senior Debt as if such transaction had occurred on the first day of the relevant period.

"*Parent Senior Debt Contribution*" means a contribution to the Issuer or any of its Restricted Subsidiaries in the form of equity, funding the issuance or sale of Capital Stock of the Issuer or as Subordinated Shareholder Debt or otherwise on lent as a proceeds loan to the Issuer or any of its Restricted Subsidiaries pursuant to which dividends or other distributions may be paid pursuant to clause (12)(a) of the caption "*—Certain Covenants—Restricted Payments*" above.

"*Permitted Biologist Payments*" means the amount of dividends paid in cash in respect of the relevant period to Biologist Shareholders.

"*Permitted Business*" means (i) any business, services or activities engaged in by the Issuer or any of its Restricted Subsidiaries (including the Target and its Subsidiaries) on the Completion Date, and (ii) any businesses, services and activities that are related, complementary, incidental, ancillary or similar to any of the foregoing, or are extensions or developments of any thereof.

"*Permitted Collateral Liens*" means (x) Liens on the Collateral that are described in one or more of clauses (2), (3), (5), (6), (7), (8), (9), (14), (18) and (28) of the definition of "Permitted Liens" and that, in each case, would not materially interfere with the ability of the Security Agent to enforce the security interest in the Collateral; (y) Liens on the Collateral on a junior priority basis to secure Parent Senior Debt and any guarantees thereof and (z) Liens on Collateral to secure Indebtedness of the Issuer or a Restricted Subsidiary that is permitted to be incurred under the first paragraph and clauses (1), (3), (4), (5) (if the original Indebtedness was so secured), (8), (9) (to the extent such guarantee is in respect of Indebtedness otherwise permitted to be secured and specified in this definition of Permitted Collateral Liens), (16), (17), (18) and (21) of the second paragraph of the covenant "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" and any Permitted Refinancing Indebtedness in respect of such Indebtedness; *provided, however*, that, in each case, such Lien ranks equal or junior to Liens securing the Senior Secured Notes and the Senior Secured Note Guarantees (and junior to Liens securing the Senior Secured Notes and the Senior Secured Note Guarantees if the Lien secures Subordinated Indebtedness of the Issuer or the relevant Guarantor) (in each case including, for the avoidance of doubt, to distributions of proceeds from enforcement of the Collateral), except that (1) a Lien in favor of Indebtedness incurred under clause (1) of the second paragraph of "*—Certain Covenants—Incurrence of Indebtedness and*

Issuance of Preferred Stock" and Hedging Obligations (other than with respect to commodity prices) may have super priority status, (2) a Lien securing Indebtedness ("*Refinancing Indebtedness*") need not rank equally with Liens in favor of other Indebtedness if such Refinancing Indebtedness was incurred to refinance Indebtedness and such unequal ranking is due solely to operation of law arising as a consequence of such refinancing and (3) lenders under any Credit Facilities may provide for any ordering of payments under the various tranches of such Credit Facilities). Permitted Collateral Liens shall include any extension, renewal or replacement, in whole or in part, of any Lien described in the immediately preceding sentence; *provided* that any such extension, renewal or replacement will be no more restrictive in any material respect than the Lien so extended, renewed or replaced and will not extend in any material respect to any additional property or assets. For purposes of determining compliance with this definition, (a) Liens need not be incurred solely by reference to one category of Permitted Collateral Liens described in this definition but are permitted to be incurred in part under any combination thereof and of any other available exemption and (b) in the event that a Lien (or any portion thereof) meets the criteria of one or more of the categories of Permitted Collateral Liens, the Issuer will, in its sole discretion, classify or reclassify such Lien (or any portion thereof) in any manner that complies with this definition.

"*Permitted Holders*" means each of (i) the Equity Investors and any Affiliate or Related Person of any of them, (ii) the Management Group, and (iii) any group (within the meaning of Section 13(d)(3) or Section 14(d)(2) of the Exchange Act or any successor provision) of which the Persons described in clauses (i) and/or (ii) are members; *provided* that, without giving effect to the existence of such group or any other group, the Persons described in clauses (i) and/or (ii), collectively, beneficially own Voting Stock representing more than 50% of the total voting power of the Voting Stock of the Issuer or any of its Parent Entities held by such group. Any Person or group, together with its Affiliates, whose acquisition of Beneficial Ownership constitutes (i) a Change of Control in respect of which a Change of Control Offer is made in accordance with the requirements of the Senior Secured Notes Indenture or (ii) a Change of Control which is also a Specified Change of Control Event, will thereafter, together with its Affiliates (other than any Affiliate that is an operating portfolio company of any Person that is a financial sponsor), constitute an additional Permitted Holder.

"*Permitted Investments*" means:

(1) any Investment in the Issuer or in a Restricted Subsidiary;

(2) any Investment in cash and Cash Equivalents;

(3) any Investment by the Issuer or any Restricted Subsidiary in a Person, if as a result of such Investment:

  (a) such Person becomes a Restricted Subsidiary; or

  (b) such Person is merged, consolidated or amalgamated with or into, or transfers or conveys substantially all of its assets to, or is liquidated into, the Issuer or a Restricted Subsidiary;

(4) any Investment made as a result of the receipt of non-cash consideration from an Asset Sale that was made pursuant to and in compliance with the covenant described above under the caption "*—Repurchase at the Option of Holders—Asset Sales*";

(5) any Investments received in compromise or resolution of (a) obligations of trade creditors or customers that were incurred in the ordinary course of business of the Issuer or any of its Restricted Subsidiaries, including pursuant to any plan of reorganization or similar arrangement upon the bankruptcy or insolvency of any trade creditor or customer; or (b) litigation, arbitration or other disputes;

(6) Investments in receivables owing to the Issuer or any Restricted Subsidiary created or acquired in the ordinary course of business, including Investments in connection with any CICE Financing, Receivables Financings and CIR Financing, including any Investment in a Receivables Subsidiary or any Investment by a Receivables Subsidiary in any other Person;

(7) Investments represented by Hedging Obligations, which obligations are permitted by clause (8) of the second paragraph of the covenant entitled "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(8) Investments in the Senior Secured Notes (including any additional Senior Secured Notes) and any other Indebtedness of the Issuer or any Restricted Subsidiary;

(9) any guarantee of Indebtedness or performance and surety bonds not prohibited by the covenant described above under the caption "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" and loans, guarantees, keepwells and similar arrangements in the ordinary course of business, including guarantees of the obligations of, and loans to, franchisees;

(10) any Investment existing on, or made pursuant to binding commitments existing on, the Issue Date and any Investment consisting of an extension, modification or renewal of any Investment existing on, or made pursuant to a binding commitment existing on, the Issue Date; *provided* that the amount of any such Investment may be increased (a) as required by the terms of such Investment as in existence on the Issue Date or (b) as otherwise permitted under the Senior Secured Notes Indenture;

(11) Investments acquired after the Issue Date as a result of the acquisition by the Issuer or any Restricted Subsidiary of another Person, including by way of a merger, amalgamation or consolidation with or into the Issuer or any of its Restricted Subsidiaries in a transaction that is not prohibited by the covenant described above under the caption "*—Certain Covenants—Merger, Consolidation or Sale of Assets*" after the Issue Date to the extent that such Investments were not made in contemplation of such acquisition, merger, amalgamation or consolidation and were in existence on the date of such acquisition, merger, amalgamation or consolidation;

(12) pledges or deposits (x) with respect to leases or utilities provided to third parties in the ordinary course of business or (y) otherwise described in the definition of "Permitted Liens" or made in connection with Liens permitted under the covenant described under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(13) any Investment to the extent made using as consideration Capital Stock of the Issuer (other than Disqualified Stock), Subordinated Shareholder Debt or Capital Stock of any Parent Entity;

(14) Management Advances;

(15) other Investments in any Person having an aggregate Fair Market Value (measured on the date each such Investment was made and without giving effect to subsequent changes in value), when taken together with all other Investments made pursuant to this clause (15) that are at the time outstanding not to exceed the greater of €35.0 million and 3.0% of Total Assets; *provided* that if an Investment is made pursuant to this clause in a Person that is not a Restricted Subsidiary and such Person subsequently becomes a Restricted Subsidiary or is subsequently designated a Restricted Subsidiary pursuant to the covenant described above under the caption "*—Certain Covenants—Restricted Payments*", such Investment shall thereafter be deemed to have been made pursuant to clause (1) or (3) of the definition of "Permitted Investments" and not this clause;

(16) Investments in joint ventures of the Issuer or any of its Restricted Subsidiaries not to exceed at any one time in the aggregate outstanding, the greater of €30.0 million and 2.5% of Total Assets; *provided*, that if any Investment pursuant to this clause (16) is made in any Person that is not a Restricted Subsidiary of the Issuer at the date of the making of such Investment and such Person becomes a Restricted Subsidiary of the Issuer after such date, such Investment shall thereafter be deemed to have been made pursuant to clause (1) above and shall cease to have been made pursuant to this clause (16) for so long as such Person continues to be a Restricted Subsidiary; and

(17) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), (a) minority Investments in any Person engaged in a Permitted Business and (b) Investments in joint ventures that conduct a Permitted Business; *provided that*, on the date of any such Restricted Investment, the Consolidated Leverage Ratio for the Issuer and its Restricted Subsidiaries does not exceed 4.25 to 1.0 on a *pro forma* basis after giving effect thereto.

For purposes of determining compliance with this definition, (a) Permitted Investments need not be made solely by reference to one category of Permitted Investments described in this definition but are permitted to be made in part under any combination thereof and of any other available exemption and (b) in the event that a Permitted Investment (or any portion thereof) meets the criteria of one or more of the categories of Permitted Investments, the Issuer will, in its sole discretion, classify or reclassify such Permitted Investment (or any portion thereof) in any manner that complies with this definition.

"*Permitted Liens*" means:

(1) Liens in favor of the Issuer or any of the Restricted Subsidiaries;

(2) Liens on property (including Capital Stock) of a Person existing at the time such Person becomes a Restricted Subsidiary or is merged with or into, consolidated with, amalgamated with or otherwise combined with (including pursuant to any acquisition of assets and assumptions of related liabilities) the Issuer or any Restricted Subsidiary or Liens securing Indebtedness in relation to any such acquisition, merger, consolidation, amalgamation or combination; *provided* that such Liens do not extend to any assets other than those of the Person that becomes a Restricted Subsidiary or is merged with or into or consolidated with the Issuer or any Restricted Subsidiary;

(3) Liens to secure the performance of statutory obligations, trade contracts, insurance, surety or appeal bonds, workers' compensation obligations, leases, performance bonds or other obligations of a like nature incurred in the ordinary course of business (including Liens to secure letters of credit issued to assure payment of such obligations);

(4) Liens to secure Indebtedness permitted by clause (4) of the second paragraph of the covenant entitled "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(5) (a) Liens existing on, or provided for or required to be granted under written agreements existing on, the Issue Date, after giving *pro forma* effect to the use of the proceeds of the Senior Secured Notes and the Transactions as described in the offering memorandum relating to the Existing Senior Secured Notes or (b) with respect to the Target and its Subsidiaries, Liens existing on, or provided for or required to be granted under written agreements existing on, the Completion Date;

(6) Liens for taxes, assessments or governmental charges or claims that (x) are not yet due and payable or (y) are being contested in good faith by appropriate proceedings and for which a reserve or other appropriate provision, if any, as will be required in conformity with IFRS will have been made;

(7) Liens imposed by law, such as carriers', warehousemen's, landlord's and mechanics' Liens, in each case, incurred in the ordinary course of business;

(8) survey exceptions, easements or reservations of, or rights of others for, licenses, rights-of-way, sewers, electric lines, telegraph and telephone lines and other similar purposes, or zoning or other restrictions as to the use of real property that were not incurred in connection with Indebtedness and that do not in the aggregate materially adversely affect the value of said properties or materially impair their use in the operation of the business of such Person;

(9) Liens created for the benefit of (or to secure) the Senior Secured Notes (or any Senior Secured Note Guarantee);

(10) Liens securing Indebtedness under Hedging Obligations, which obligations are permitted by clause (8) of the second paragraph of the covenant described above under the caption "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(11) Liens to secure any Permitted Refinancing Indebtedness permitted to be incurred under the Senior Secured Notes Indenture (excluding Liens to secure Permitted Refinancing Indebtedness initially secured pursuant to clause (26) of this definition); *provided*, *however*, that:

   (a) the new Lien is limited to all or part of the same property and assets that secured or, under the written agreements pursuant to which the original Lien arose, could secure the original Lien (plus improvements and accessions to, such property or proceeds or distributions thereof); and

   (b) the Indebtedness secured by the new Lien is not increased to any amount greater than the sum of (x) the outstanding principal amount, or, if greater, committed amount, of the Indebtedness renewed, refunded, refinanced, replaced, defeased or discharged with such Permitted Refinancing Indebtedness and (y) an amount necessary to pay any fees and expenses, including premiums, related to such renewal, refunding, refinancing, replacement, defeasance or discharge;

(12) Liens on insurance policies and proceeds thereof, or other deposits, to secure insurance premium financings;

(13) filing of Uniform Commercial Code financing statements under U.S. state law (or similar filings under other applicable jurisdictions) in connection with operating leases in the ordinary course of business;

(14) bankers' Liens, rights of setoff or similar rights and remedies as to deposit accounts, Liens arising out of judgments or awards not constituting an Event of Default and notices of lis pendens and associated rights related to litigation being contested in good faith by appropriate proceedings and for which adequate reserves have been made;

(15) Liens on cash, Cash Equivalents or other property arising in connection with the defeasance, discharge or redemption of Indebtedness;

(16) Liens on specific items of inventory or other goods (and the proceeds thereof) of any Person securing such Person's obligations in respect of bankers' acceptances issued or created in the ordinary course of business for the account of such Person to facilitate the purchase, shipment or storage of such inventory or other goods;

(17) leases, licenses, subleases and sublicenses of assets in the ordinary course of business;

(18) Liens arising out of conditional sale, title retention, consignment or similar arrangements for the sale of assets entered into in the ordinary course of business;

(19) (a) mortgages, liens, security interests, restrictions, encumbrances or any other matters of record that have been placed by any developer, landlord or other third party on property over which the Issuer or any Restricted Subsidiary has easement rights or on any real property leased by the Issuer or any Restricted Subsidiary and subordination or similar agreements relating thereto and (b) any condemnation or eminent domain proceedings or compulsory purchase order affecting real property;

(20) Liens on Receivables Assets or related assets incurred in connection with any CICE Financing, Receivables Financings and CIR Financing;

(21) Liens on property or assets under construction (and related rights) in favor of a contractor or developer or arising from progress or partial payments by a third party relating to such property or assets;

(22) Liens securing or arising by reason of any netting or set-off arrangement entered into in the ordinary course of banking or other trading activities;

(23) Liens (including put and call arrangements) on Capital Stock or other securities of any Unrestricted Subsidiary that secure Indebtedness of such Unrestricted Subsidiary;

(24) limited recourse Liens in respect of the ownership interests in, or assets owned by, any joint ventures which are not Restricted Subsidiaries securing obligations of such joint ventures;

(25) Liens on property at the time the Issuer, the Target or a Restricted Subsidiary acquired the property, including any acquisition by means of a merger or consolidation with or into the Issuer, the Target or any Restricted Subsidiary; *provided* that such Liens are not created, incurred or assumed in connection with, or in contemplation of, such acquisition and do not extend to any other property owned by the Issuer, the Target or any Restricted Subsidiary;

(26) Liens incurred with respect to Indebtedness that does not exceed the greater of €25.0 million and 2.0% of Total Assets at any one time outstanding;

(27) any interest or title of a lessor under any operating lease;

(28) Liens on Escrowed Proceeds for the benefit of the related holders of debt securities or other Indebtedness (or the underwriters or arrangers thereof) or on cash set aside at the time of the incurrence of any Indebtedness or government securities purchased with such cash, in either case to the extent such cash or government securities prefund the payment of interest on such Indebtedness and are held in an escrow account or similar arrangement to be applied for such purpose; and

(29) (a) Liens over cash paid into an escrow account pursuant to any purchase price retention arrangement as part of any permitted disposal by the Issuer or a Restricted Subsidiary on condition that the cash paid into such escrow account in relation to a disposal does not represent more than 15% of the net proceeds of such disposal; (b) Liens over cash paid into an escrow account to fund an acquisition or pay related fees and expenses pending the closing of such acquisition by the Issuer or any Restricted Subsidiary; and (c) Liens over cash paid into an escrow account pursuant to any purchase price retention arrangement or deferred consideration in connection with the acquisition by the Issuer or any Restricted Subsidiary.

For purposes of determining compliance with this definition, (a) Liens need not be incurred solely by reference to one category of Permitted Liens described in this definition but are permitted to be incurred in part under any combination thereof and of any other available exemption and (b) in the event that a Lien (or any portion thereof) meets the criteria of one or more of the categories of Permitted Liens, the Issuer will, in its sole discretion, classify or reclassify such Lien (or any portion thereof) in any manner that complies with this definition.

"*Permitted Refinancing Indebtedness*" means any Indebtedness of the Issuer or any of its Restricted Subsidiaries issued in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, exchange, defease or discharge other Indebtedness of the Issuer or any of its Restricted Subsidiaries (other than intercompany Indebtedness (other than any proceeds loan)); *provided* that:

(1) the aggregate principal amount (or accreted value, if applicable), or if issued with original issue discount, aggregate issue price) of such Permitted Refinancing Indebtedness does not exceed the principal amount (or accreted value, if applicable, or if issued with original issue discount, aggregate issue price) of the Indebtedness renewed, refunded, refinanced, replaced, exchanged, defeased or discharged (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith);

(2) such Permitted Refinancing Indebtedness has (a) a final maturity date that is either (i) no earlier than the final maturity date of the Indebtedness being renewed, refunded, refinanced, replaced, exchanged, defeased or discharged or (ii) after the final maturity date of the Senior Secured Notes and (b) has a Weighted Average Life to Maturity that is equal to or greater than the Weighted Average Life to Maturity of the Indebtedness being renewed, refunded, refinanced, replaced, defeased or discharged;

(3) if the Indebtedness being renewed, refunded, refinanced, replaced, defeased or discharged is expressly, contractually, subordinated in right of payment to the Senior Secured Notes or any Senior Secured Note Guarantee, as the case may be, such Permitted Refinancing Indebtedness is subordinated in right of payment to the Senior Secured Notes or such Senior Secured Note Guarantee, as the case may be, on terms at least as favorable to the holders of Senior Secured Notes or the Senior Secured Note Guarantee, as the case may be, as those contained in the documentation governing the Indebtedness being renewed, refunded, refinanced, replaced, exchanged, defeased or discharged; and

(4) if the Issuer or any Guarantor was the obligor on the Indebtedness being renewed, refunded, refinanced, replaced, defeased or discharged, such Indebtedness is incurred either by the Issuer, a Finance Subsidiary or by a Guarantor.

"*Permitted Reorganization*" means (a) any amalgamation, demerger, merger, voluntary liquidation, consolidation, reorganization (including reorganization of the shareholding structure of the Restricted Subsidiaries), winding up or corporate reconstruction involving the Issuer or any of its Restricted Subsidiaries (a "*Reorganization*") that is made on a solvent basis; *provided* that (1) any payments or assets distributed in connection with such Reorganization remain within the Issuer and its Restricted Subsidiaries and (2) if any shares or other assets form part of the Collateral, substantially equivalent Liens must be granted over such shares or assets of the recipient such that they form part of the Collateral and (b) any transaction contemplated by the Tax Structure Report, including any optional step.

"*Person*" means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company or government or other entity.

"*Pre-Expansion European Union*" means the European Union as of January 1, 2004, including the countries of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, The Netherlands, Portugal, Spain, Sweden and the United Kingdom, but not including any country which became or becomes a member of the European Union after January 1, 2004.

"*Public Debt*" means any Indebtedness consisting of bonds, debentures, notes or other similar debt securities issued in (a) a public offering registered under the U.S. Securities Act or (b) a private placement to institutional investors that is underwritten for resale in accordance with Rule 144A or Regulation S under the U.S. Securities Act, whether or not it includes registration rights entitling the holders of such debt securities to registration thereof with the U.S. Securities and Exchange Commission ("*SEC*") for public resale.

"*Public Market*" means any time after:

(1) a Public Offering of the IPO Entity has been consummated; and

(2) at least 20% of the total issued and shares of common stock or common equity interests of the IPO Entity has been distributed to investors other than the Permitted Holders or their Related Parties or any other direct or indirect shareholders of the Issuer as of the Issue Date.

"*Public Offering*" means, with respect to any Person, a bona fide underwritten primary public offering of the shares of common stock or common equity interests of such Person, either:

(1) pursuant to a flotation on the main market of the London Stock Exchange or any other nationally recognized regulated stock exchange or listing authority in a member state of the Pre-Expansion European Union; or

(2) pursuant to an effective registration statement under the U.S. Securities Act (other than a registration statement on Form S-8 or otherwise relating to Equity Interests issued or issuable under any employee benefit plan).

"*Rating Agencies*" means Moody's and S&P or, in the event Moody's or S&P no longer assigns a rating to the Senior Secured Notes, any other "nationally recognized statistical rating organization" within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the U.S. Exchange Act selected by the Issuer as a replacement agency.

"*Receivables Assets*" means any assets (including receivables pursuant to CICE) that are or will be the subject of a Receivables Financing.

"*Receivables Fees*" means distributions or payments made directly or by means of discounts with respect to any participation interest issued or sold in connection with, and other fees paid to a Person that is not a Restricted Subsidiary in connection with, any CICE Financing, Receivables Financing and CIR Financing.

"*Receivables Financing*" means any transaction or series of transactions that may be entered into by the Issuer or any of its Subsidiaries pursuant to which the Issuer or any of its Subsidiaries may sell, convey or otherwise transfer to (a) a Restricted Subsidiary or a Receivables Subsidiary (in the case of a transfer by the Issuer or any of its Subsidiaries), or (b) any other Person, or may grant a security interest in, Receivables Assets, any accounts receivable (and related assets) (whether now existing or arising in the future) of the Issuer or any of its Subsidiaries, including all collateral securing such accounts receivable, all contracts and all guarantees or other obligations in respect of such accounts receivable, proceeds of such accounts receivable and other assets which are customarily transferred or in respect of which security interest are customarily granted in connection with asset securitization transactions or invoice discounting involving accounts receivable, asset securitizations and invoice discounting facilities, and any Hedging Obligations entered into by the Issuer or any such Subsidiary in connection with such accounts receivable.

"*Receivables Repurchase Obligation*" means any obligation of a seller of receivables in a CICE Financing, Receivables Financing and CIR Financing to repurchase receivables arising as a result of a breach of a representation, warranty or covenant or otherwise, including as a result of a receivable or portion thereof becoming subject to any asserted defense, dispute, off-set or counterclaim of any kind as a result of any action taken by, any failure to take action by or any other event relating to the seller.

"*Receivables Subsidiary*" means a Subsidiary of the Issuer (or another Person formed for the purposes of engaging in a CICE Financing, Receivables Financing or CIR Financing with the Issuer in which the Issuer or any Subsidiary of the Issuer makes an Investment and to which the Issuer or any Subsidiary of the Issuer transfers Receivables Assets, accounts receivable and related assets) which engages in no activities other than in connection with the financing of accounts receivable of the Issuer and its Subsidiaries, all proceeds thereof and all rights (contractual or other), collateral and other assets relating thereto, and any business or activities incidental or related to such business, and which is designated by the Board of Directors of the Issuer (as provided below) as a Receivables Subsidiary.

"*Related Party*" means:

(1) any controlling stockholder, partner or member, or any 50% (or more) owned Subsidiary, or immediate family member (in the case of an individual), of any Equity Investor; or

(2) any trust, corporation, partnership or other entity, the beneficiaries, stockholders, partners, owners or Persons beneficially holding a 50% or more controlling interest of which consist of any one or more Equity Investors and/or such other Persons referred to in the immediately preceding clause.

"*Related Taxes*" means any Taxes, including sales, use, transfer, rental, ad valorem, value added, stamp, property, consumption, franchise, license, capital, registration, business, customs, net worth, gross receipts, excise, occupancy, intangibles or similar Taxes (other than (x) Taxes measured by income and (y) withholding imposed on payments made by any Parent Entity), required to be paid (*provided* such Taxes are in fact paid) by any Parent Entity by virtue of its:

(a) being incorporated or otherwise being established or having Capital Stock outstanding (but not by virtue of owning stock or other equity interests of any corporation or other entity other than, directly or indirectly, the Issuer or any of the Issuer's Subsidiaries);

(b) issuing or holding Subordinated Shareholder Debt;

(c) being a Holding Company, directly or indirectly, of the Issuer or any of the Issuer's Subsidiaries;

(d) receiving dividends from or other distributions in respect of the Capital Stock of, directly or indirectly, the Issuer or any of the Isuer's Subsidiaries; or

(e) having made any payment with respect to any of the items for which the Issuer is permitted to make payments to any Parent Entity pursuant to "*—Certain Covenants—Restricted Payments*".

"*Restricted Investment*" means an Investment other than a Permitted Investment.

"*Restricted Subsidiary*" means any Subsidiary of the Issuer that is not an Unrestricted Subsidiary.

"*Revolving Credit Facility*" means the credit agreement for an amount of up to €140.0 million entered into on the Issue Date among, *inter alios*, the Issuer, certain lenders party thereto, and Natixis, as facility agent, as amended, restated or otherwise modified or varied from time to time and to which the Target and certain of its Subsidiaries will accede as "borrower" or "guarantor" on or after the Completion Date.

"*S&P*" means Standard & Poor's Ratings Group.

"*Security Documents*" means the security documents, pledge agreements and other instruments and documents executed and delivered pursuant to the Senior Secured Notes Indenture or otherwise or any of the foregoing, as the same may be amended, supplemented or otherwise modified from time to time and pursuant to which the Collateral is pledged, assigned or granted to or on behalf of the Security Agent for the benefit of the holders of the Senior Secured Notes and the Trustee or notice of such pledge, assignment or grant is given.

"*Senior Secured Indebtedness*" means, as of any date of determination, any Indebtedness that is incurred under the first paragraph of the covenant described above under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" or clauses (1), (2) (but only with respect to Indebtedness of the Issuer or any Restricted Subsidiary (including the Target and its Restricted Subsidiaries) incurred after the Issue Date), (3), (4), (8), (16), (17) or (21) of the second paragraph of the covenant described under "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*" and any Refinancing Indebtedness in respect thereof, in each case secured on a *pari passu* or senior basis by a Lien on Collateral that also secures the Senior Secured Notes or the Senior Secured Note Guarantees.

"*Senior Secured Note Guarantee*" means a guarantee by each Guarantor of the Issuer's obligations under the Senior Secured Notes Indenture and the Senior Secured Notes, executed pursuant to the provisions of the Senior Secured Notes Indenture and subject to the provisions of the Intercreditor Agreement.

"*Significant Subsidiary*" means, at the date of determination, any Restricted Subsidiary that together with its Subsidiaries which are Restricted Subsidiaries (i) for the most recent fiscal year, accounted for more than 10% of the consolidated revenues of the Issuer or (ii) as of the end of the most recent fiscal year, was the owner of more than 10% of the consolidated assets of the Issuer.

"*Specified Change of Control Event*" means the occurrence of any event that would constitute a Change of Control pursuant to the definition thereof; provided that giving *pro forma* effect thereto, the Consolidated Leverage Ratio (calculated on a gross basis) of the Issuer and the Restricted Subsidiaries would have been less than (1) 5.5 to 1.0 for any Change of Control occurring on or prior to the 18 month anniversary of the Completion Date or (2) 5.0 to 1.0 for any Change of Control occurring thereafter.

"*Sponsor*" means one or more investment funds advised or managed by Cinven Capital Management (V) Limited Partnership Incorporated in its capacity as general partner of such investment funds, acting through its general partner Cinven Capital Management (V) General Partner Limited, in each case (whether individually or as a group), Affiliates of the foregoing (but excluding any operating portfolio companies of the foregoing).

"*Standard Securitization Undertakings*" means representations, warranties, covenants, indemnities and guarantees of performance entered into by the Issuer or any Subsidiary of the Issuer which are reasonably customary in securitization of receivables transactions.

"*Stated Maturity*" means, with respect to any installment of interest or principal on any series of Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the documentation governing such Indebtedness as of the Issue Date, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

"*Subordinated Indebtedness*" means (a) with respect to the Issuer, any Indebtedness of the Issuer which is by its terms subordinated in right of payment to the Senior Secured Notes and (b) with respect to a Guarantor, any Indebtedness of such Guarantor which is by its terms subordinated in right of payment to its Senior Secured Note Guarantee, *provided that* Subordinated Shareholder Debt is excluded from this definition.

"*Subordinated Shareholder Debt*" means, collectively, any debt provided to the Issuer by any direct or indirect parent of the Issuer or any Permitted Holder or Related Party, in exchange for or pursuant to any security, instrument or agreement other than Capital Stock, together with any such security, instrument or agreement and any other security or instrument other than Capital Stock issued in payment of any obligation under any Subordinated Shareholder Debt; *provided* that such Subordinated Shareholder Debt:

(1) does not (including upon the happening of any event) mature or require any amortization or other payment of principal prior to the first anniversary of the Stated Maturity of the Senior Secured Notes (other than through conversion or exchange of any such security or instrument for Equity Interests of the Issuer (other than Disqualified Stock) or for any other security or instrument meeting the requirements of the definition);

(2) does not (including upon the happening of any event) require the payment of cash interest prior to the first anniversary of the Stated Maturity of the Senior Secured Notes;

(3) does not (including upon the happening of any event) provide for the acceleration of its maturity nor confers on its shareholders any right (including upon the happening of any event) to declare a default or event of default or take any enforcement action, in each case, prior to the first anniversary of the Stated Maturity of the Senior Secured Notes;

(4) is not secured by a lien on any assets of the Issuer or a Restricted Subsidiary and is not guaranteed by any Subsidiary of the Issuer;

(5) is subordinated in right of payment to the prior payment in full in cash of the Senior Secured Notes in the event of any default, bankruptcy, reorganization, liquidation, winding up or other disposition of assets or pursuant to its terms or the terms of the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement;

(6) does not (including upon the happening of any event) restrict the payment of amounts due in respect of the Senior Secured Notes or compliance by the Issuer with its obligations under the Senior Secured Notes and the Senior Secured Notes Indenture;

(7) does not (including upon the happening of an event) constitute Voting Stock; and

(8) is not (including upon the happening of any event) mandatorily convertible or exchangeable, or convertible or exchangeable at the option of the holder, in whole or in part, prior to the date on which the Senior Secured Notes mature other than into or for Capital Stock (other than Disqualified Stock) of the Issuer,

provided, *however*, that any event or circumstance that results in such Indebtedness ceasing to qualify as Subordinated Shareholder Debt, such Indebtedness shall constitute an incurrence of such Indebtedness by the Issuer, and any and all Restricted Payments made through the use of the net proceeds from the incurrence of such Indebtedness since the date of the original issuance of such Subordinated Shareholder Debt shall constitute new Restricted Payments that are deemed to have been made after the date of the original issuance of such Subordinated Shareholder Debt.

"*Subsidiary*" means, with respect to any specified Person:

(1) any corporation, association, *société d'exercice libéral* or other business entity of which more than 50% of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency and after giving effect to any voting agreement or stockholders' agreement that effectively transfers voting power) to vote in the election of directors, managers or trustees of the corporation, association or other business entity is at the time owned or controlled, directly or indirectly, by that Person or one or more of the other Subsidiaries of that Person (or a combination thereof); *provided that* any corporation, association or other business entity shall also be considered a Subsidiary if either (a)(i) such corporation, association or other business entity is organized under the laws of the Republic of France and is subject to limitations on the amount of total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency and after giving effect to any voting agreement or stockholders' agreement that effectively transfers voting power) to vote in the election of directors, managers or trustees of the corporation, association or other business entity that may be held by persons other than laboratory doctors and (ii) such Person owns an amount equal to at least the lesser of 45% and the maximum percentage that such Person is permitted to hold under applicable law of the total voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency and after giving effect to any voting agreement or stockholders' agreement that effectively transfers voting power) to vote in the election of directors, managers or trustees of such corporation, association or other business entity, or (b) such corporation, association or other business entity is consolidated in the financial statements of such Person according to the full consolidation method in accordance with applicable IFRS; and

(2) any partnership or limited liability company (other than entities covered by clause (1) of this definition) of which (a) more than 50% of the capital accounts, distribution rights, total equity and voting interests or general and limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof, whether in the form of membership, general, special or limited partnership interests or otherwise, and (b) such Person or any Subsidiary of such Person is a controlling general partner or otherwise controls such entity.

"*Target*" menas Labco S.A.

"*Tax*" means any present or future tax, duty, levy, impost, assessment or other governmental charge (including penalties, interest and any other additions thereto, and, for the avoidance of doubt, including any withholding or deduction for or on account of Tax) imposed by any government or other taxing authority.

"*Taxes*" and "*Taxation*" shall be construed to have corresponding meanings.

"*Tax Sharing Agreement*" means any tax sharing or profit and loss pooling or similar agreement (such as a French tax consolidation agreement (*convention d'intégration fiscale* relating to an *intégration fiscale* in accordance with article 223 A et seq. of the French *Code général des impôts*) with customary or arm's-length terms entered into with any Parent Entity or Unrestricted Subsidiary, as the same may be amended, supplemented, waived or otherwise modified from time to time in accordance with the terms thereof and of the Senior Secured Notes Indenture, and any arrangements or transactions made between the Issuer and/or any of its Subsidiaries and any Parent Entity in order to satisfy the obligations arising under any such Tax Sharing Agreement (including, for the avoidance of doubt, distributions for purposes of compensating accounting losses in relation to a profit and loss pooling agreement and/or upstream loans to any Parent Entity to enable a Parent Entity to compensate the Issuer or such Subsidiary for losses incurred which may need to be compensated by a Parent Entity under any profit and loss pooling agreement).

"*Tax Structure Report*" means the tax structure memo dated June 9, 2015 and entitled "Project Zeus—Structure Report".

"*Total Assets*" means the consolidated total assets of the Issuer and its Restricted Subsidiaries, as shown on the most recent balance sheet of the Issuer, and may give *pro forma* effect to any acquisition under the conditions, *mutatis mutandis*, set forth under clause (1) of the second paragraph of the definition of "Consolidated Senior Secured Leverage Ratio".

"*Transactions*" means the transactions contemplated by the Acquisition Agreement and as described in the offering memorandum relating to the Existing Senior Secured Notes under the heading "*Summary—The Transactions*," including the issuance of the Senior Secured Notes, entry into the Revolving Credit Facility and the payment of related fees and expenses.

"*UK TopCo*" means the entity defined as such elsewhere in this offering memorandum.

"*Unrestricted Subsidiary*" means any Subsidiary of the Issuer (other than the Issuer or any successor to the Issuer) that is designated by the Board of Directors of the Issuer as an Unrestricted Subsidiary pursuant to a resolution of the Board of Directors but only to the extent that at the time of such designation such Subsidiary:

(1) has no Indebtedness other than Non-Recourse Debt;

(2) except as permitted by the covenant described above under the caption "*—Certain Covenants—Transactions with Affiliates*", is not party to any agreement, contract, arrangement or understanding with the Issuer or any Restricted Subsidiary unless the terms of any such agreement, contract, arrangement or understanding are no less favorable to the Issuer or such Restricted Subsidiary than those that might be obtained at the time from Persons who are not Affiliates of the Issuer; and

(3) is a Person with respect to which neither the Issuer nor any Restricted Subsidiary has any direct or indirect obligation (a) to subscribe for additional Equity Interests or (b) to maintain or preserve such Person's financial condition or to cause such Person to achieve any specified levels of operating results.

"*Voting Stock*" of any specified Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the Board of Directors of such Person.

"*Weighted Average Life to Maturity*" means, when applied to any Indebtedness at any date, the number of years obtained by dividing:

(1) the sum of the products obtained by multiplying (a) the amount of each then remaining installment, sinking fund, serial maturity or other required payments of principal, including payment at final maturity, in respect of the Indebtedness, by (b) the number of years (calculated to the nearest one-twelfth) that will elapse between such date and the making of such payment; by

(2) the then outstanding principal amounts of such Indebtedness.

"*Working Capital Intercompany Loan*" means any loan to or by the Issuer or any of its Restricted Subsidiaries to or from the Issuer or any of its Restricted Subsidiaries from time to time (1) for purposes of consolidated cash and tax management and working capital management and (2) for a duration of less than one year; *provided* that if such Working Capital Intercompany Loan exceeds the greater of €5.0 million and 0.5% of Total Assets, it shall be expressed to be Subordinated Indebtedness.

DESCRIPTION OF THE SENIOR NOTES

Ephios Holdco II PLC (the "*Senior Notes Issuer*") will issue €375.0 million aggregate principal amount of 8.25% Senior Notes due 2023 (the "*Senior Notes*") under an indenture (the "*Senior Notes Indenture*") between, among others, the Senior Notes Issuer and U.S. Bank Trustees Limited, as the trustee (in such capacity, the "*Trustee*") and the security agent (in such capacity, the "*Security Agent*"), in a private transaction that is not subject to the registration requirements of the U.S. Securities Act of 1933, as amended (the "*U.S. Securities Act*"). Unless the context requires otherwise, references in this "*Description of the Senior Notes*" to the Senior Notes include the Senior Notes and any Additional Senior Notes that are issued. The terms of the Senior Notes include those set forth in the Senior Notes Indenture. The Senior Notes Indenture will not be qualified under, incorporate by reference, include or otherwise be subject to, any of the provisions of the U.S. Trust Indenture Act of 1939, as amended. The Security Documents referred to below under the caption "*—Security*" define the terms of the security that will secure the Senior Secured Notes.

The proceeds of the offering of the Existing Senior Secured Notes sold on the Original Senior Secured Notes Issue Date will be used by the Senior Secured Notes Issuer, together with the Equity Contribution, as set forth in the offering memorandum relating to the Existing Senior Secured Notes under the caption "*Use of Proceeds*." The proceeds of the offering of the Senior Notes sold on the Senior Notes Issue Date will be used by the Senior Notes Issuer as set forth in this offering memorandum under the caption "*Use of Proceeds*", including, together with the proceeds from the offering of additional Senior Secured Notes by the Senior Secured Notes Issuer and the German Equity Contribution, to finance the acquisition (the "*German Acquisition*") of synlab Holding GmbH (the "*German Target*") by Ephios Acquisition GmbH ("*German BidCo*") pursuant to German Acquisition Agreement.

Pending consummation of the Acquisition and the German Acquisition and the satisfaction of certain other conditions as described below, the initial purchasers of the Senior Notes will, concurrently with the closing of the offering of the Senior Notes on the Senior Notes Issue Date, deposit the gross proceeds of this offering of the Senior Notes into an escrow account (the "*Senior Notes Escrow Account*") pursuant to the terms of an escrow deed (the "*Senior Notes Escrow Agreement*") dated as of the Senior Notes Issue Date among the Senior Notes Issuer, the Trustee and Elavon Financial Services Limited, UK Branch, as escrow agent (the "*Escrow Agent*"). If the Acquisition and the German Acquisition have not been completed on or prior to December 31, 2015 (the "*Senior Notes Escrow Longstop Date*") or the Senior Notes Issuer certifies to the Trustee and the Escrow Agent that the Acquisition or the German Acquisition will not take place or that the Acquisition Agreement or the German Acquisition Agreement has been terminated (the "*Senior Notes Special Mandatory Redemption Certificate*"), the Senior Notes Issuer will redeem the Senior Notes (a "*Senior Notes Special Mandatory Redemption*") at 100% of the issue price of the Senior Notes plus accrued and unpaid interest thereon through to but not including the redemption date (the "*Senior Notes Special Mandatory Redemption Price*"). See "*—Disbursement of Funds; Senior Notes Escrow Account; Senior Notes Special Mandatory Redemption*"." Following the German Completion Date (as defined below), the Senior Notes will be secured by the Senior Notes Collateral (as defined under "*—Security*"). See "*—Security*."

Prior to the Completion Date, we will not control the Target or any of its Subsidiaries and neither the Target nor any of its Subsidiaries will be subject to the covenants described in this "*Description of the Senior Notes*." Prior to the date of completion of the German Acquisition (the "*German Completion Date*"), we will not control the German Target or any of its Subsidiaries and neither the German Target nor any of its Subsidiaries will be subject to the covenants described in this "*Description of the Senior Notes*." As such, we cannot assure you that the Target and its Subsidiaries, prior to the Completion Date, and the German Target and its Subsidiaries, prior to the German Completion Date, will not engage in activities that would otherwise have been prohibited by the Senior Secured Notes Indenture or the Senior Notes Indenture had those covenants been applicable to such entities after the Original Senior Secured Notes Issue Date, with respect to the Target and its Subsidiaries, and after the Senior Notes Issue Date, with respect to the German Target and its Subsidiaries, and prior to any such entity becoming party to the Senior Secured Notes Indenture or the Senior Notes Indenture.

The following description is a summary of the material provisions of the Senior Notes Indenture, the Senior Notes and the Security Documents and refers to the Intercreditor Agreement. It does not restate those agreements in their entirety. We urge you to read the Senior Notes Indenture, the Senior Notes, the Security Documents and the Intercreditor Agreement because they, and not this description, define your rights as holders of the Senior Notes. Copies of the Senior Notes Indenture, the form of the Senior Note, the Security Documents and the Intercreditor Agreement are available as set forth below under "*—Additional Information*".

Certain defined terms used in this description but not defined below under "*—Certain Definitions*" have the meanings assigned to them in the Senior Notes Indenture. You can find the definitions of certain terms used in this description under the caption "*—Certain Definitions*". In this description, references to (i) the "*Senior Notes Issuer*" refer only to Ephios Holdco II PLC and not to any of its Subsidiaries and (ii) "*we*", "*our*", "*us*" and the "*Group*" refer to the Senior Notes Issuer and its Restricted Subsidiaries.

The registered holder of a Senior Note will be treated as the owner of it for all purposes. Only registered holders will have rights under the Senior Notes Indenture.

Brief Description of the Senior Notes and the Senior Note Guarantees

The Senior Notes

The Senior Notes:

- will be general obligations of the Senior Notes Issuer;
- will be *pari passu* in right of payment to any future Indebtedness of the Senior Notes Issuer that is not subordinated in right of payment to the Senior Notes;
- will be senior to any future Indebtedness of the Senior Notes Issuer that is subordinated in right of payment to the Senior Notes, including any Subordinated Shareholder Debt;
- will be guaranteed on a senior subordinated basis by the Guarantors;
- will mature on July 1, 2023;
- will be secured as set forth under "*—Security*"; and
- will be structurally subordinated to all obligations of the Senior Notes Issuer's subsidiaries that are not Guarantors.

The Senior Note Guarantees

The Senior Note Guarantee of each Guarantor:

- will be a general obligation of that Guarantor;
- will be subordinated in right of payment to any existing and future Senior Debt of that Guarantor, including that Guarantor's obligations under, and guarantee of, the Senior Secured Notes and Indebtedness incurred under the Revolving Credit Facility;
- will be *pari passu* in right of payment to all existing and future senior subordinated Indebtedness of that Guarantor that is not subordinated in right of payment to the Senior Note Guarantee of that Guarantor;
- will be senior in right of payment to all existing and future Indebtedness of that Guarantor that is subordinated in right of payment to the Senior Note Guarantee of that Guarantor; and
- will be secured by the Senior Notes Collateral owned by the relevant Guarantor as set forth under "*—Security*".

The obligations of the Guarantors will be contractually limited under the applicable Senior Note Guarantees to reflect limitations under applicable law. In particular, due to restrictions under French, Italian, Austrian and Belgian law, the Senior Note Guarantees of the Guarantors in France, Italy, Austria and Belgium will effectively have no monetary value as none of them will be onlent any of the proceeds of the offering of the Senior Notes. The Senior Note Guarantees will also be be subject to certain other limitations under applicable law, as described under "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,*" "*Risk Factors—Risks Related to the Transactions—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco.*" and "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—The insolvency laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another* *jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability*."

As of the Senior Notes Issue Date, all of the Senior Notes Issuer's Subsidiaries will be "Restricted Subsidiaries" for purposes of the Senior Notes Indenture. However, under the circumstances described below under the caption "*—Certain Covenants—Designation of Restricted and Unrestricted Subsidiaries*", the Senior Notes Issuer will be permitted to designate Restricted Subsidiaries as "Unrestricted Subsidiaries." Most of the restrictive covenants in the Senior Notes Indenture do not apply to Unrestricted Subsidiaries. The Senior Notes Issuer's Unrestricted Subsidiaries, if any, will not guarantee the Senior Notes.

Principal, Maturity and Interest

The Senior Notes Issuer will issue €375.0 million in aggregate principal amount of Senior Notes in this offering. The Senior Notes Issuer may issue an unlimited principal amount of additional Senior Notes ("*Additional Senior Notes*"), having identical terms and conditions as the Senior Notes under the Senior Notes Indenture from time to time after this offering. Any issuance of Additional Senior Notes is subject to all of the covenants in the Senior Notes Indenture, including the covenant described below under the caption "*—Certain Covenants—Incurrence of Indebtedness and Issuance of Preferred Stock*".

The Senior Notes and any Additional Senior Notes subsequently issued under the Senior Notes Indenture will be treated as a single class for all purposes under the Senior Notes Indenture, including, without limitation, waivers, amendments, redemptions and offers to purchase, except as otherwise provided in the Senior Notes Indenture. The Senior Notes Issuer will issue Senior Notes in denominations of €100,000 and integral multiples of €1,000 in excess thereof. The Senior Notes will mature on July 1, 2023.

Interest on the Senior Notes will accrue at the rate of 8.25% per annum. Interest on the Senior Notes will be payable semiannually in arrears on January 1 and July 1, commencing on January 1, 2016. The Senior Notes Issuer will make each interest payment to the holders of record on the December 15 and June 15 immediately preceding the related interest payment date.

Interest on the Senior Notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360 day year and the actual number of days elapsed.

Paying Agent and Registrar for the Senior Notes

The Senior Notes Issuer will maintain one or more paying agents (each, a "*Paying Agent*") in a member state of the European Union that will not be obliged to withhold or deduct tax pursuant to European Union Council Directive 2003/48/EC, as amended or supplemented from time to time, including through European Union Council Directive 2014/48/EU, or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income, or any law implementing, or complying with or introduced in order to conform to, such directive. The initial Paying Agent will be Elavon Financial Services Limited, UK Branch.

The Senior Notes Issuer will also maintain one or more registrars (each, a "*Registrar*") and a transfer agent (the "*Transfer Agent*") in a member state of the European Union. The initial Registrar will be Elavon Financial Services Limited. The initial Transfer Agent will be Elavon Financial Services Limited, UK Branch. The Registrar and the Transfer Agent will maintain a register reflecting ownership of Senior Definitive Registered Notes (as defined herein) outstanding from time to time and will make payments on and facilitate transfer of Senior Definitive Registered Notes on behalf of the Senior Notes Issuer.

Subject to the above restrictions, the Senior Notes Issuer may change the Paying Agent, the Registrar or the Transfer Agent without prior notice to the holders of Senior Notes. For so long as the Senior Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market and the rules of the Irish Stock Exchange so require, the Senior Notes Issuer will publish a notice of any change of Paying Agent, Registrar or Transfer Agent in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Irish Stock Exchange (*www.ise.ie*).

Transfer and Exchange

Senior Notes sold within the United States to qualified institutional buyers pursuant to Rule 144A under the U.S. Securities Act will initially be represented by one or more global Senior Notes in registered form without interest coupons attached (the "*Senior Rule 144A Global Notes*"), and Senior Notes sold outside the United States pursuant to Regulation S under the U.S. Securities Act will initially be represented by one or more Senior Global Notes in registered form without interest coupons attached (the "*Senior Regulation S Global Notes*" and, together with the Senior Rule 144A Global Notes, the "*Senior Global Notes*").

Ownership of interests in the Senior Global Notes (the "*Senior Book-Entry Interests*") will be limited to persons that have accounts with Euroclear or Clearstream, Luxembourg or Persons that may hold interests through such participants. Ownership of interests in the Senior Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under "*Transfer Restrictions*". In addition, transfers of Senior Book-Entry Interests between participants in Euroclear or Clearstream, Luxembourg will be effected by Euroclear or Clearstream, Luxembourg pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear or Clearstream, Luxembourg and their respective participants.

Senior Book-Entry Interests in the Senior Rule 144A Global Note, or the "*Senior Rule 144A Book-Entry Interest*", may be transferred to a person who takes delivery in the form of Senior Book-Entry Interests in the Senior Regulation S Global Note, as applicable, or the "*Senior Regulation S Book-Entry Interests*", only upon delivery by the transferor of a written certification (in the form provided in the Senior Notes Indenture) to the effect that such transfer is being made in accordance with Regulation S under the U.S. Securities Act.

Subject to the foregoing, Senior Regulation S Book Entry Interests may be transferred to a person who takes delivery in the form of Senior Rule 144A Book Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Senior Notes Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a "qualified institutional buyer" within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under "*Notice to Investors*" and in accordance with any applicable securities law of any other jurisdiction.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book-Entry Interest in the Senior Global Note from which it was transferred and will become a Book-Entry Interest in the Senior Global Note to which it was transferred. Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Senior Book-Entry Interests in the Senior Global Note to which it was transferred.

If Senior Definitive Registered Notes are issued, they will be issued only in minimum denominations of €100,000 principal amount and integral multiples of €1,000 in excess thereof, upon receipt by the applicable Registrar of instructions relating thereto and any certificates and other documentation required by the Senior Notes Indenture. It is expected that such instructions will be based upon directions received by Euroclear or Clearstream, Luxembourg, as applicable, from the participant that owns the relevant Book-Entry Interests. Senior Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Senior Notes Indenture or as otherwise determined by the Senior Notes Issuer in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under "*Notice to Investors*".

Subject to the restrictions on transfer referred to above, Senior Notes issued as Senior Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof, to persons who take delivery thereof in the form of Senior Definitive Registered Notes. In connection with any such transfer or exchange, the Senior Notes Indenture will require the transferring or exchanging holder to, among other things, furnish appropriate endorsements and transfer documents, furnish information regarding the account of the transferee at Euroclear or Clearstream, Luxembourg, where appropriate, furnish certain certificates and opinions and pay any Taxes in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the holder, other than any Taxes payable in connection with such transfer or exchange; *provided* that, if the Senior Notes Issuer or any Guarantor is a party to the transfer or exchange, the holder will not be required to pay such Taxes.

Notwithstanding the foregoing, the Senior Notes Issuer is not required to register the transfer of any Senior Definitive Registered Notes:

(1) for a period of 15 days prior to any date fixed for the redemption of the Senior Notes;

(2) for a period of 15 days immediately prior to the date fixed for selection of Senior Notes to be redeemed in part;

(3) for a period of 15 days prior to the record date with respect to any interest payment date; or

(4) which the holder has tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Sale Offer.

The Senior Notes Issuer, the Trustee and the Paying Agent will be entitled to treat the holder of a Senior Note as the owner of it for all purposes.

Additional Amounts

All payments made by or on behalf of the Senior Notes Issuer under or with respect to the Senior Notes or any of the Guarantors with respect to any Senior Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future Taxes unless the withholding or deduction of such Taxes is then required by law. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (1) any jurisdiction in which the Senior Notes Issuer or any Guarantor is then incorporated or organized, engaged in business for tax purposes or otherwise considered to be resident for tax purposes, or any political subdivision thereof or therein having the power to tax or (2) any jurisdiction from or through which payment is made on any such Senior Note or Senior Note Guarantee by or on behalf of the Senior Notes Issuer or any Guarantor (including the jurisdiction of any Paying Agent), or any political subdivision thereof or therein having the power to tax (each, a "*Tax Jurisdiction*") will at any time be required by law to be made from any payments made by or on behalf of the Senior Notes Issuer under or with respect to the Senior Notes or any of the Guarantors with respect to any Senior Note Guarantee, including payments of principal, redemption price, interest or premium, if any, the Senior Notes Issuer or the relevant Guarantor, as applicable, will pay (together with such payments) such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received in respect of such payments by each holder after such withholding or deduction (including any such withholding or deduction from such Additional Amounts) will equal the respective amounts that would have been received by each holder in respect of such payments on any such Senior Note or Senior Note Guarantee in the absence of such withholding or deduction; *provided*, *however*, that no Additional Amounts will be payable for or on account of:

(1) any Taxes, to the extent such Taxes would not have been imposed but for the existence of any present or former connection between the holder or the beneficial owner of the Senior Notes (or between a fiduciary, settlor, beneficiary, partner of, member or shareholder of, or possessor of a power over, the relevant holder, if the relevant holder is an estate, trust, nominee, partnership, limited liability company or corporation) and the relevant Tax Jurisdiction (including, without limitation, being or having been a citizen, resident, or national thereof or being or having been present or engaged in or carrying on a trade or business therein or having or having had a permanent establishment therein), but excluding any connection arising solely from the holding of such Senior Note, the enforcement of rights under such Senior Note or under a Senior Note Guarantee or the receipt of any payments in respect of such Senior Note or a Senior Note Guarantee;

(2) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Senior Note for payment (where presentation is required) more than 30 days after the relevant payment is first made available for payment to the holder (except to the extent that the holder would have been entitled to Additional Amounts had the Senior Note been presented on the last day of such 30-day period);

(3) any estate, inheritance, gift, sales, transfer, personal property or similar Taxes, or excised taxes imposed on the transfer of the Senior Notes;

(4) any Taxes withheld, deducted or imposed on a payment to an individual that are required to be made pursuant to European Union Council Directive 2003/48/EC, as amended or supplemented from time to time, including through European Union Council Directive 2014/48/EU, or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26

and 27, 2000 on the taxation of savings income, or any law implementing, or complying with, or introduced in order to conform to, such directive;

(5) Taxes imposed on or with respect to a payment made to or for the benefit of a holder or beneficial owner of Senior Notes who would have been able to avoid such withholding or deduction by presenting the relevant Senior Note to, or otherwise accepting payment from, another Paying Agent in a member state of the European Union;

(6) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Senior Notes or any Senior Note Guarantee;

(7) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the holder or beneficial owner of Senior Notes, following the Senior Notes Issuer's written request addressed to the holder or beneficial owner (and made at a time that would enable the holder or beneficial owner acting reasonably to comply with that request, and in all events, at least 30 days before any such withholding or deduction would be made), to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the holder or beneficial owner is legally entitled to provide such certification or documentation);

(8) any Taxes imposed on or with respect to any payment by the Senior Notes Issuer or Guarantor to the holder if such holder is a fiduciary or partnership or any person other than the sole beneficial owner of such payment to the extent that Taxes would not have been imposed on such payment had such holder been the sole beneficial owner of such Senior Note;

(9) where such withholding or deduction is required pursuant to an agreement entered into pursuant to section 1471(b) of the U.S. Internal Revenue Code (or any amended or successor version that is substantively comparable) or otherwise imposed pursuant to sections 1471 through 1474 of the U.S. Internal Revenue Code (or any amended or successor version that is substantively comparable), any regulations or agreements thereunder (including any intergovernmental agreements), official interpretations thereof, or any law implementing an intergovernmental agreement relating thereto; or

(10) any combination of items (1) through (9) above.

In addition to the foregoing, the Senior Notes Issuer and the Guarantors will also pay the holder or beneficial owner for any present or future stamp, issue, registration, transfer, court or documentary Taxes, or any other property or similar Taxes or similar charges or levies (including penalties, or interest related thereto) which are levied by any Tax Jurisdiction on the execution, delivery, issuance, registration or enforcement of. or the receipt of payments with respect to, any of the Senior Notes, the Senior Notes Indenture, any Senior Note Guarantee or any other document referred to therein (other than a transfer of the Senior Notes after the consummation of this offering) and limited, solely to the extent that such taxes, similar charges or levies arise from the receipt of any payments of principal or interest on the Senior Notes, to any such taxes, similar charges or levies that are not excluded under clauses (1) through (5) and (7) through (9)).

If the Senior Notes Issuer or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Senior Notes or any Senior Note Guarantee, each of the Senior Notes Issuer or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises less than 45 days prior to that payment date, in which case the Senior Notes Issuer or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificate must also set forth any other information reasonably necessary to enable the Paying Agent to pay Additional Amounts on the relevant payment date. The Trustee shall be entitled to rely solely on such Officer's Certificate, without further inquiry, as conclusive proof that such payments are necessary.

The Senior Notes Issuer or the relevant Guarantor will make all withholdings and deductions required by law and will timely remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. If reasonably requested by the Trustee, the Senior Notes Issuer or the Guarantors will provide to the Trustee such information as may be in the possession of the Senior Notes Issuer or the Guarantors (and not otherwise in the possession of the Trustee) to enable the Trustee to determine the amount of withholding taxes attributable to any particular holder, *provided*, *however*, that in no event shall the Senior Notes Issuer or the Guarantors be required to disclose any information that they reasonably deem to be confidential.

Whenever in the Senior Notes Indenture or in this "*Description of the Senior Notes*" there is mentioned, in any context, the payment of amounts based upon the principal amount, interest or of any other amount payable under, or with respect to, any of the Senior Notes or any Senior Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The above obligations will survive any termination, defeasance or discharge of the Senior Notes Indenture, any transfer by a holder or beneficial owner of its Senior Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Senior Notes Issuer or any Guarantor is incorporated or organized, engaged in business for tax purposes or resident for tax purposes or any jurisdiction from or through which such Person makes any payment on the Senior Notes (or any Senior Note Guarantee) and any department or political subdivision thereof or therein having power to Tax.

Disbursement of Funds; Senior Notes Escrow Account; Senior Notes Special Mandatory Redemption

The gross proceeds from the sale of Senior Notes in the offering (the "*Senior Notes Escrowed Funds*") will be deposited into the Senior Notes Escrow Account. Pursuant to a charge over the Senior Notes Escrow Account dated as of the Senior Notes Issue Date (the "*Senior Notes Escrow Charge*"), the Senior Notes Issuer will grant a first priority security interest in the Senior Notes Escrowed Funds to the Trustee for the benefit of the holders of the Senior Notes. Elavon Financial Services Limited, UK Branch will act as escrow agent (the "*Escrow Agent*") pursuant to the Senior Notes Escrow Agreement dated as of the Senior Notes Issue Date among, *inter alios*, the Senior Notes Issuer, the Escrow Agent, and the Trustee on behalf of the holders of the Senior Notes. Receipt by the Trustee of either a Senior Notes Offer Conditions Certificate (as defined below) for the release of the Senior Notes Escrowed Funds or a notice of Senior Notes Special Mandatory Redemption shall constitute deemed consent by the Trustee for the release of the Senior Notes Escrowed Funds from the Senior Notes Escrow Charge.

The Senior Notes Escrow Agreement will provide that the Senior Notes Escrowed Funds will be released for purposes of closing the German Acquisition on the date (the "*Senior Notes Escrow Release Date*") that the Senior Notes Issuer certifies to the Escrow Agent, prior to the Senior Notes Escrow Longstop Date, in accordance with the terms of the Senior Notes Escrow Agreement (the "*Senior Notes Offer Conditions Certificate*") that:

(i) the Equity Contribution has been made, and the Acquisition has been completed in accordance with the terms of the Acquisition Agreement prior to the open of business on the next Business Day following the date that the gross proceeds from the sale of the Existing Senior Secured Notes (the "*Escrowed Funds*") were released from escrow pursuant to the terms of the escrow deed (the "*Escrow Agreement*"), dated as of June 17, 2015 among the Senior Secured Notes Issuer, the Trustee and the Escrow Agent, without giving effect to any modifications, amendments, consents or express waivers thereto that were materially adverse to the noteholders and on substantially the same terms as described in the offering memorandum relating to the offering of the Existing Senior Secured Notes under the heading "*Summary—The Transactions—The Acquisition*";

(ii) the Escrowed Funds were applied, directly or through intercompany transfers, for their permitted uses in accordance with the terms of the Escrow Agreement and, following such application, the Acquisition was completed;

(iii) immediately after consummation of the Acquisition, the Senior Secured Notes Issuer owned, directly or indirectly, 95% or more of the share capital of the Target (subject to notarization of the share transfer if required);

(iv) the German Equity Contribution has been made, and the German Acquisition shall be completed prior to the open of business on the next Business Day following the Senior Notes Escrow Release Date in accordance with the terms of the German Acquisition Agreement, without giving effect to any modifications, amendments, consents or express waivers thereto that are materially adverse to the noteholders and on substantially the same terms as described in this offering memorandum under the heading "*Summary—The Transactions—The Synlab Acquisition*";

(v) the Senior Notes Escrowed Funds will be applied, directly or through intercompany transfers, for their permitted uses in accordance with the terms of the Senior Notes Escrow Agreement and, following such application, the German Acquisition will be completed;

(vi) immediately after consummation of the German Acquisition, the Senior Notes Issuer will own, directly or indirectly, 90% or more of the share capital of the German Target (subject to notarization of the share transfer if required);

(vii) the security documents, legal opinions, certificates and other documents substantially in the form as those attached as appendices to (i) the Escrow Agreement (or in the form as agreed between the Senior Secured Notes Issuer and the initial purchasers of the Existing Senior Secured Notes following the date thereof) and (ii) the Senior Notes Escrow Agreement (or in the form as agreed between the Senior Notes Issuer and the initial purchasers of the Senior Notes following the date thereof) will be delivered in accordance with the terms of the Escrow Agreement and the Senior Notes Escrow Agreement, respectively;

(viii) as of the later of the Completion Date and the German Completion Date, there is no Default or Event of Default under clause (9) of the first paragraph under the heading titled "*Events of Default and Remedies*"; and

(ix) immediately after consummation of the German Acquisition, the Trustee, on behalf of the Holders of Senior Notes, will accede to the Intercreditor Agreement.

In the event that (a) the Completion Date or the German Completion Date does not take place on or prior to the Senior Notes Escrow Longstop Date or the Senior Notes Issuer certifies to the Trustee and the Escrow Agent that the Acquisition or the German Acquisition will not take place or that the Acquisition Agreement or the German Acquisition Agreement has been terminated (the "*Senior Notes Special Mandatory Redemption Certificate*"), (b) in the reasonable judgment of the Senior Notes Issuer, the Acquisition or the German Acquisition will not be consummated by the Senior Notes Escrow Longstop Date, (c) the Acquisition Agreement or the German Acquisition Agreement terminates at any time prior to the Senior Notes Escrow Longstop Date, (d) the Sponsor ceases to beneficially own and control a majority of the issued and outstanding Capital Stock of the Senior Notes Issuer or (e) a Default or Event of Default arises under clause (9) of the first paragraph under "*—Events of Default and Remedies*" on or prior to the Senior Notes Escrow Longstop Date, the Senior Notes Issuer will redeem the Senior Notes (a "*Senior Notes Special Mandatory Redemption*") at 100% of the issue price of the Senior Notes plus accrued and unpaid interest thereon through to but not including the redemption date (the "*Senior Notes Special Mandatory Redemption Price*"). The Senior Notes Issuer will instruct the Escrow Agent to release the Senior Notes Escrowed Funds to the Paying Agent for purpose of paying the Senior Notes Mandatory Redemption Price.

In the event that the Senior Notes Special Mandatory Redemption Price payable upon such Senior Notes Special Mandatory Redemption exceeds the amount of the Senior Notes Escrowed Funds, the Sponsor will be required to fund the accrued and unpaid interest, and Additional Amounts, if any, owing to the holders of the Senior Notes, pursuant to an equity contribution. See "*Risk Factors—Risks Related to the Transactions—If the conditions in the escrow agreements are not satisfied, the Issuers will be required to redeem the Notes, which means that you may not obtain the return you expect on the Notes*".

For Senior Notes which are represented by global certificates held on behalf of Euroclear or Clearstream, Luxembourg, notice of any Senior Notes Special Mandatory Redemption (any such notice a "*Senior Notes Special Redemption Notice*") will be given by delivery of the notice to Euroclear or Clearstream, Luxembourg for communication to entitled account holders on the first Business Day following the date the Senior Notes Issuer becomes required to effect a Senior Notes Special Mandatory Redemption. For Senior Definitive Registered Notes, the Senior Notes Special Redemption Notice will be mailed by first class mail to each holder of Senior Notes at its registered address on the first Business Day following the date the Senior Notes Issuer becomes required to effect a Senior Notes Special Mandatory Redemption. The Senior Notes Issuer will provide a copy of the Senior Notes Special Redemption Notice to the Trustee and the Escrow Agent. So long as any Senior Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require, any such notice to the holders of the relevant Senior Notes shall also be published in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Irish Stock Exchange (*www.ise.ie*). The redemption date will be up to five (5) Business Days after the delivery of the notice to Euroclear or Clearstream, Luxembourg or the mailing (as applicable) of the Senior Notes Special Redemption Notice.

The Senior Note Guarantees

The Senior Note Guarantees will be joint and several obligations of the Guarantors. The Senior Notes Issuer's obligations under the Senior Notes and the Senior Notes Indenture will be guaranteed on a senior subordinated basis on the German Completion Date by:

- BidCo;
- the Target;
- Labco Corporate Assistance, the Target's cash pooling entity;
- Labco Diagnostics España S.A., the Target's holding company in Iberia;
- Biopar, one of the Target's subsidiaries incorporated in France;
- the Senior Secured Notes Issuer; and
- if the German Completion Date occurs on or after the 90th day following the Completion Date, the Post-Completion Guarantors (together, the "*German Completion Date Guarantors*").

The Senior Notes Issuer's obligations under the Senior Notes, if the German Completion Date occurs on or has occurred prior to such date, will be guaranteed on the earlier of (i) the date on which any Post-Completion Guarantor accedes to the Revolving Credit Facility and (ii) the 90th day following the Completion Date by:

- Labco Italia S.r.l., Labco's holding company in Italy;
- the holding company that Labco intends to incorporate in England (such company to become a Guarantor on or prior to the later of (i) the 90th day following the Completion Date and (ii) the 30th day following its incorporation);
- the following eight subsidiaries of the Target incorporated in France: Bioalliance, Biofrance, Biopaj, Institut de Biologie Clinique, Laboratoire Bioliance, Novabio Diagnostics, Oxabio and Unibionor (which Labco intends to merge into or with Institut de Biologie Clinique) (such entities, the "*French Guarantors*");
- the following subsidiary of the Target incorporated in Belgium: Laboratoire d'Analyses Médicales Roman Païs SC SPRL;
- the following three subsidiaries of the Target incorporated in Italy: Istituto il Baluardo S.p.A, CAM Centro Analisi Monza S.p.A. and SDN S.p.A; and
- the following subsidiary of the Target incorporated in Spain: General Lab S.A. (together, the "*Post-Completion Guarantors*").

The Senior Notes Issuer's obligations under the Senior Notes and the Senior Notes Indenture will be guaranteed on the earlier of (i) the date on which any German Post-Completion Guarantor accedes to the Revolving Credit Facility and (ii) (x) if German Bidco has acquired 100% of the share capital of the German Target in the German Acquisition, the 90th day or (y) if German Bidco has acquired less than 100% of the share capital of German Target in the German Acquisition, the 270th day, in each case, following the German Completion Date by:

- synlab Holding GmbH, synlab Services GmbH, Synlab Verwaltungs u. Beteiligungs GmbH; Steinlach-Klinik GmbH, synlab Medizinisches Versorgungszentrum Weiden GmbH, synlab Medzinisches Versorgungszentrum Leinfelden-Echterdingen GmbH, synlab Medzinisches Versorgungszentrum Augsburg GmbH, Medizinisches Versorgungszentrum synlab Leverkusen GmbH, synlab.vet GmbH; synlab Umweltinstitut GmbH, synlab Medizinisches Versorgungszentrum Heidelberg GmbH, synlab Medizinisches Versorgungszentrum Kassel GmbH, synlab Medizinisches Versorgungszentrum Trier GmbH, synlab Medizinisches Versorgungszentrum Berlin GmbH, synlab Medizinisches Versorgungszentrum Stuttgart GmbH, synlab Medizinisches Versorgungszentrum Humangenetik Mannheim GmbH, Synlab Italia S.r.l., synlab Holding

Italy S.r.l., synlab Suisse SA, AMS analyses médicales services SA, synlab Holding Austria GmbH and Institut für medizinische und chemische Labordiagnostik Gesellschaft m.b.H. (together, the "*German Post-Completion Guarantors*" and, together with the German Completion Date Guarantors and the Post-Completion Guarantors, the "*Guarantors*").

If one or more (but no more than three) of the French Guarantors are unable to accede to the Senior Notes Indenture as Guarantors on or prior to the 90th day following the Completion Date due to the refusal by the Board of Director of any such French Guarantor to approve its Senior Note Guarantee, or failure by such French Guarantor to execute all required documentation to this effect (any such French Guarantors being referred to as the "*Refusing French Guarantors*"), the Senior Notes Issuer will use its commercially reasonable efforts to replace such Refusing French Guarantors by one or more other Guarantors (incorporated in France or elsewhere) having, in the aggregate, an EBITDA contribution substantially similar to the Refusing French Guarantors.

The Senior Notes Guarantees are senior subordinated indebtedness of the Guarantors, which means that, pursuant to the terms of the Intercreditor Agreement and the Senior Notes Indenture, the Senior Note Guarantees rank behind, and are expressly subordinated to, all the existing and future Senior Debt of the Guarantors, including any obligations under the Revolving Credit Facility and the Senior Secured Notes and any other indebtedness ranking *pari passu* therewith. The ability to take enforcement action against the Guarantors is subject to significant restrictions imposed by the Intercreditor Agreement, and potentially any Additional Intercreditor Agreements entered into after the German Completion Date. In addition, the Senior Note Guarantees and the collateral securing the Senior Notes and Senior Note Guarantees are subject to release under certain circumstances, including, but not limited to, certain enforcement actions taken by the Security Agent acting at the direction of an instructing group of senior secured creditors. Because of the foregoing subordination provisions, it is likely that holders of Senior Debt of the Guarantors would recover disproportionately more than the holders of the Senior Notes recover in any insolvency or similar proceeding relating to such entity. In any such case, there may be insufficient assets, or no assets, remaining to pay the principal of or interest on the Senior Notes after the repayment in full of all Senior Debt.

Assuming we had completed the offering of Existing Senior Secured Notes, the offering of additional Senior Secured Notes and this offering of Senior Notes and applied the net proceeds therefrom, as of March 31, 2015, the Senior Notes Issuer and the Guarantors would have had *pro forma* combined net financial debt, which represents the sum of current and non-current interest-bearing loans and borrowings less cash and cash equivalents, of approximately €1,896.2 million, €375.0 million of which would have been represented by the Senior Notes, and excluding a drawing of €51.6 million by BidCo under the Revolving Credit Facility to fund a portion of the Acquisition and pay certain expenses relating thereto. BidCo intends to repay that facility shortly after the Completion Date. Other than for such loan, which depending on timing of the German Completion Date may still be outstanding, the Revolving Credit Facility is expected to remain undrawn on or about the German Completion Date. We expect that on the Completion Date, the amount of cash at the Target Group and the amount of reserves at the Target Group which are capable of being distributed to BidCo, will be in excess of the amount of such loan.

Claims by the Trustee or the Security Agent against a Guarantor on behalf of the holders of the Senior Notes will be direct claims on that Guarantor. The obligations of the Guarantors will be contractually limited under the applicable Senior Note Guarantees to reflect limitations under applicable law with respect to maintenance of share capital, corporate benefit, fraudulent conveyance and other legal restrictions applicable to the Guarantors and their respective shareholders, directors and general partners. By virtue of these limitations, a Guarantor's obligation under its Senior Note Guarantee could be significantly less than amounts payable with respect to the Senior Notes, or a Guarantor may have effectively no obligation under its Senior Note Guarantee. In particular, the Senior Note Guarantee of each Guarantor may be limited in value to an amount no greater than the amount of the proceeds of the Senior Notes (i) directly or indirectly onlent to such Guarantor or its subsidiaries or (ii) used to refinance directly or indirectly any indebtedness previously incurred which was onlent to such Guarantor or its subsidiaries, in each case to the extent of the amount so onlent which is outstanding on the date a payment is to be made under the Senior Note Guarantee of the relevant Guarantor, and due to such restrictions under French, Italian, Austrian and Belgian law, the Senior Note Guarantees of the Guarantors in France, Italy, Austria and Belgium will effectively have no monetary value as none of them will be onlent any of the proceeds of the offering of the Senior Notes. The Senior Note Guarantees will also be be subject to certain other limitations under applicable law, as described under "*Limitations on the Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations,*" "*Risk Factors—Risks*

Related to the Transactions—The Additional Senior Secured Notes and the Senior Notes may not be secured by guarantees and Collateral of Synlab and its respective subsidiaries if minority shareholders fail to comply with their obligation to transfer their shares to German Bidco" and "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—The insolvency laws of France, Germany and other applicable jurisdictions may not be as favorable to you as the insolvency laws of the United States or those of another jurisdiction with which you are familiar; other limitations on the Guarantees and the Security Interests, including fraudulent conveyance statutes, may adversely affect their validity and enforceability*."

The Senior Note Guarantee of each Guarantor incorporated under the laws of Italy shall be limited to comply with Italian law rules on corporate benefit, corporate authorization and financial assistance and in any event, pursuant to article 1938 of the Italian Civil Code, shall include a maximum guarantee amount.

The operations of the Senior Notes Issuer are conducted through its Subsidiaries and, therefore the Senior Notes Issuer depends on the cash flow of its Subsidiaries to meet its obligations, including its obligations under the Senior Notes. Not all of the Senior Notes Issuer's Subsidiaries will guarantee the Senior Notes. The Senior Notes will be effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of the Senior Notes Issuer's non-guarantor Subsidiaries. Any right of the Senior Notes Issuer or any Guarantor to receive assets of any of its non-guarantor Subsidiaries upon that non-guarantor Subsidiary's liquidation or reorganization (and the consequent right of the holders of the Senior Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary's creditors, except to the extent that the Senior Notes Issuer or such Guarantor is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Senior Notes Issuer or such Guarantor, as the case may be, would still be subordinated in right of payment to any security in the assets of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Senior Notes Issuer or such Guarantor. See "*Risk Factors—Risks Related to the Senior Notes—The Senior Notes are effectively subordinated to our secured debt*". For a description of such contractual limitations, see "*Risk Factors—Risks Related to the Senior Secured Notes and the Senior Notes—Corporate benefit, financial assistance laws, capital maintenance and other limitations on the Guarantees and the Collateral may adversely affect the validity and enforceability of the Guarantees and the Collateral*."

Release of the Senior Note Guarantees

The Senior Note Guarantees will be released:

(1) in connection with any sale, disposition, exchange or other transfer of all or substantially all of the assets of that Guarantor (including by way of merger, consolidation, amalgamation or combination) to a Person that is not (either before or after giving effect to such transaction) the Senior Notes Issuer or a Restricted Subsidiary, if the sale or other disposition does not violate the "Asset Sale" provisions of the Senior Notes Indenture;

(2) in connection with any sale, disposition, exchange or other transfer of Capital Stock of that Guarantor to a Person that is not (either before or after giving effect to such transaction) the Senior Notes Issuer or a Restricted Subsidiary, if the sale or other disposition does not violate the "Asset Sale" provisions of the Senior Notes Indenture and the Guarantor ceases to be a Restricted Subsidiary as a result of the sale or other disposition;

(3) if the Senior Notes Issuer designates any Restricted Subsidiary that is a Guarantor to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Senior Notes Indenture;

(4) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Senior Notes Indenture as provided below under the captions "*—Legal Defeasance and Covenant Defeasance*" and "*—Satisfaction and Discharge*";

(5) upon the sale of all the Capital Stock of, or all or substantially all of the assets of, such Guarantor or its Parent Entity pursuant to a security enforcement sale in compliance with the Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or the Senior Notes Indenture;

(6) upon the full and final payment and performance of all obligations of the Senior Notes Issuer under the Senior Notes Indenture and the Senior Notes;

(7) in the case of any Restricted Subsidiary that after the Senior Notes Issue Date is required to guarantee the Senior Notes pursuant to the covenant described under "*—Certain Covenants—Limitation on Issuances of Guarantees of Indebtedness*", upon the release or discharge of the guarantee of Indebtedness by such Restricted Subsidiary which resulted in the obligation to guarantee such Senior Notes;

(8) with respect to a Guarantor that is not the continuing or surviving Person in the relevant consolidation or merger, upon any transaction permitted by "*—Certain covenants—Merger, Consolidation or Sale of Assets*"; or

(9) as described under "*—Amendment, Supplement and Waiver*".

No release and discharge of the Guarantee will be effective against the Trustee, the Security Agent or the holders of Senior Notes until the Senior Notes Issuer shall have delivered to the Trustee and the Security Agent an Officer's Certificate stating that all conditions precedent provided for in the Senior Notes Indenture relating to such release and discharge have been satisfied and that such release and discharge is authorised and permitted under the Senior Notes Indenture and the Trustee shall be entitled to rely on such Officer's Certificate absolutely and without further inquiry. At the request and expense of the Senior Notes Issuer, the Trustee, or the Security Agent, as applicable, will execute any documents reasonably required in order to evidence or effect such release, discharge and termination in respect of such guarantee. Neither the Senior Notes Issuer, the Trustee, the Security Agent nor any Guarantor will be required to make a notation on the Senior Notes to reflect any such release, termination or discharge.

Security

Pursuant to the Senior Notes Indenture and the Security Document to be entered into on the Senior Notes Issue Date, the Senior Notes will initially be secured by a first-priority lien on the Senior Notes Escrowed Funds deposited into the Senior Notes Escrow Account (the "*Senior Notes Issue Date Collateral*").

Pursuant to the Senior Notes Indenture and various Security Documents to be entered into on or about the German Completion Date, the Senior Notes and the Senior Note Guarantees will be secured on the German Completion Date by the following (the "*Senior Notes German Completion Date Collateral*" and collectively with the Senior Notes Issue Date Collateral, the "*Senior Notes Collateral*"):

- a first priority lien on the issued share capital of the Senior Notes Issuer and the receivables, if any, owed by the Senior Notes Issuer to Ephios Holdco Limited ("*UK Holdco*"), the direct parent company of the Senior Notes Issuer (the "*Senior Notes Issuer Share Pledge*");
- a first priority lien on the receivables, if any, owed by the Senior Notes Issuer to UK Holdco (the "*Senior Notes Receivables Assignment*" and together with the Senior Notes Issuer Share Pledge, the "*SUN Only Collateral*"); and
- a second priority lien on the issued share capital of the Senior Secured Notes Issuer and the receivables owed by the Senior Secured Notes Issuer to the Senior Notes Issuer, including the receivables arising under the Senior Notes Proceeds Loan (the "*Shared Collateral*").

Subject to certain conditions, including compliance with the covenants described under "*—Certain Covenants—Impairment of Security Interest*" and "*—Certain Covenants—Liens*", the Senior Notes Issuer is permitted to pledge the Senior Notes Collateral in connection with future issuances of its Indebtedness, including any Additional Senior Notes, or Indebtedness of its Restricted Subsidiaries, in each case permitted under the Senior Notes Indenture and on terms consistent with the relative priority of such Indebtedness.

No appraisals of any Senior Notes Collateral have been prepared by or on behalf of the Senior Notes Issuer, the Security Agent or the Trustee in connection with the issuance of the Senior Notes and the Senior Note Guarantees. By its nature, some or all of the Senior Notes Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, there can be no assurance that the Senior Notes Collateral will be able to be sold in a short period of time or at all.

Security Documents

The Senior Notes Issuer, the Guarantors and the Security Agent will, as applicable, enter into the Security Documents, which define the terms of the security interests that secure the Senior Notes and the

Senior Note Guarantees. The Security Documents will secure the payment and performance when due of all of the obligations of the Senior Notes Issuer and the Guarantors under the Senior Notes, the Senior Notes Indenture and the Senior Note Guarantees and other obligations.

In certain jurisdictions, due to the laws and jurisprudence governing the creation and perfection of security interests, the relevant Security Documents will provide for the creation of "parallel debt" obligations in favor of the Security Agent, and the security interests in such jurisdictions will secure the parallel debt (and not the Indebtedness under the Senior Notes, the Senior Note Guarantees and the other secured obligations). The parallel debt construct has not been tested under law in certain of these jurisdictions. See "*Risk Factors—Risks Relating to Our Capital Structure—Security over the Collateral will be granted to the Security Agent rather than directly to the holders of the Senior Notes. The ability of the Security Agent to enforce the Collateral may be restricted by local law*" and "*Limitations on Validity and Enforceability of the Guarantees and the Security Interests and Certain Insolvency Law Considerations*".

Subject to the terms of the Intercreditor Agreement, the Senior Notes Indenture and the Security Documents, the Senior Notes Issuer and the Guarantors will have the right to remain in possession and retain exclusive control of the Senior Notes Collateral securing the Senior Notes and the Senior Note Guarantees, to freely operate the Senior Notes Collateral and to collect, invest and dispose of any income therefrom.

The Security Documents will, as described under the caption "*Description of Other Indebtedness—Intercreditor Agreement*", permit the Trustee and the agent for the Revolving Credit Facility to instruct the Security Agent to take enforcement action under the Security Documents following the occurrence of an event of default under such Indebtedness, such Indebtedness being declared due and payable and the requisite approval or consent of the holders of such Indebtedness.

Intercreditor Agreement

On the Senior Notes Escrow Release Date, the Trustee, on behalf of the Holders of the Senior Notes, will accede to an Intercreditor Agreement that was entered into on the Original Senior Secured Notes Issue Date by, among others, the Senior Secured Notes Issuer, the Security Agent and the agent for the Revolving Credit Facility as described under "*Description of Other Indebtedness—Intercreditor Agreement*".

Priority

The relative priority among (a) the lenders under the Revolving Credit Facility, (b) the counterparties under certain Hedging Obligations (c) the Trustee and the holders of Senior Notes under the Senior Notes Indenture and (d) certain other senior and super senior secured creditors with respect to the security interests in the Senior Notes Collateral created by the Security Documents which secure the obligations under the Revolving Credit Facility, certain Hedging Obligations, the Senior Notes and certain other senior and super senior secured liabilities or the Senior Note Guarantees and the Senior Notes Indenture is established by the terms of the Intercreditor Agreement, the Senior Notes Indenture, the Security Documents, the Revolving Credit Facility, such Hedging Obligations and the documentation relating to such other senior and super senior secured liabilities, which provide that all obligations under the Senior Notes, the Revolving Credit Facility, certain Hedging Obligations and certain other senior and super senior secured liabilities are secured equally and ratably by a first-priority interest in the Senior Notes Collateral, but in the event of acceleration of the Revolving Credit Facility and the Senior Notes and certain other senior and super senior secured liabilities, amounts recovered in respect of the Senior Notes and certain other senior secured liabilities, including from the enforcement of the Senior Notes Collateral, are required to be turned over to the Security Agent and, subject to the payment of fees and expenses of the agent under the Revolving Credit Facility, the Trustee and Security Agent (and the agent of certain other senior and super senior secured liabilities), paid by the Security Agent to the lenders under the Revolving Credit Facility and counterparties to certain Hedging Obligations and certain other super senior secured creditors in priority to the holders of the Senior Notes and certain other senior secured creditors.

Security Release

Certain of the Liens securing the Senior Notes and the Senior Note Guarantees, other than the Liens securing the SUN Only Collateral, will also secure, on a first-priority basis, the obligations of the Senior Notes Guarantors under the Revolving Credit Facility Agreement, the Senior Secured Notes and certain hedging obligations. The relative priority with regard to the security interests in the Senior Notes Collateral that are created by the Security Documents as between (a) the lenders under the Revolving

Credit Facility, (b) the trustee and the holders of the Senior Secured Notes, (c) the counterparties under certain Hedging Obligations, and (d) the Senior Notes Trustee, certain other creditor representatives, the Security Agent and the Holders of the Senior Notes, respectively, is established by the terms of the Intercreditor Agreement, which provides, among other things, that the obligations under the Revolving Credit Facility, the Senior Secured Notes, and certain Hedging Obligations are secured by first-priority security interests and that the Senior Notes will be secured by second-priority security interests over the Shared Collateral.

The Security Agent will only be permitted to enforce the Security Documents in accordance with instructions permitted to be given under the Intercreditor Agreement or any Additional Intercreditor Agreement. The Intercreditor Agreement restricts the ability of the Trustee or the holders of the Senior Notes or certain other creditors to instruct the Security Agent to take enforcement action. The Security Agent may refrain from enforcing the security unless instructed to do so by the representative in respect of the creditors under the Revolving Credit Facility, certain Hedging Obligations and certain other super senior liabilities or by the Trustee/representative in respect of the Senior Secured Notes and certain other senior secured liabilities, and the Trustee/representative in respect of the Senior Notes will ordinarily not constitute the instructing group for the purposes of giving enforcement instructions to the Security Agent. For a description of security enforcement and other intercreditor provisions, see "*Description of Other Indebtedness—Intercreditor Agreement*".

The Senior Notes Issuer and the Guarantors will be entitled to the release of property and other assets constituting Senior Notes Collateral from the Liens securing the Senior Notes and the Senior Note Guarantees under any one or more of the following circumstances:

(1) upon the full and final payment and performance of all obligations of the Senior Notes Issuer under the Senior Notes Indenture and the Senior Notes;

(2) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Senior Notes as provided below under the captions "*—Legal Defeasance and Covenant Defeasance*" and "*—Satisfaction and Discharge*";

(3) as described under "*—Amendment, Supplement and Waiver*" and "*Liens*";

(4) if the Lien granted in favor of the Revolving Credit Facility, Public Debt or such other Indebtedness that gave rise to the obligation to grant the Lien over such Senior Notes Collateral is released;

(5) as otherwise provided for under the Intercreditor Agreement, including in connection with an enforcement sale, or the Security Documents;

(6) in connection with any sale or other disposition of Senior Notes Collateral that does not violate the "Asset Sale" provisions of the Senior Notes Indenture;

(7) in the case of a Guarantor that is released from its Senior Note Guarantee pursuant to the terms of the Senior Notes Indenture, the release of the property and assets, and Capital Stock, of such Guarantor;

(8) if the Senior Notes Issuer designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Senior Notes Indenture, the release of the property and assets of such Restricted Subsidiary;

(9) pursuant to certain Permitted Reorganizations subject to compliance with the conditions set forth in the Senior Notes Indenture;

(10) in accordance with the terms of the relevant Security Document; or

(11) in accordance with "*—Certain Covenants—Impairment of Security Interests*" or as otherwise not prohibited by the Senior Notes Indenture.

The Senior Notes Indenture will provide that any release of a Lien on Senior Notes Collateral shall be evidenced by the delivery by the Senior Notes Issuer to the Trustee of an Officer's Certificate of the Senior Notes Issuer, and that the Security Agent shall acknowledge and confirm such release upon delivery of such Officer's Certificate.

The Security Agent may need to evaluate the impact of the potential liabilities before determining to foreclose on certain Senior Notes Collateral. In this regard, the Security Agent may decline to foreclose on the Senior Notes Collateral or exercise remedies available if it does not receive indemnification and/or security to its satisfaction from the holders of the Senior Notes. In addition, the Security Agent's ability to foreclose on the Senior Notes Collateral on behalf of the holders of the Senior Notes may be subject to lack of perfection, the consent of third parties, prior Liens and practical problems associated with the realization of the Security Agent's Liens on the Senior Notes Collateral.

The Senior Notes Indenture will provide that the Security Agent shall have no liability to any of the holders of the Senior Notes as a consequence of its performance or non-performance under the Security Documents, except for its gross negligence or wilful misconduct.

The Senior Notes Proceeds Loan

On the Senior Notes Escrow Release Date:

- the Senior Notes Issuer will lend, pursuant to an intercompany loan (the "*Senior Notes Proceeds Loan*"), the proceeds of the issuance of the Senior Notes in an amount of €375.0 million to the Senior Secured Notes Issuer for the purpose of financing the German Acquisition, repaying certain existing debt of the German Target and its subsidiaries and paying associated costs and expenses.

Optional Redemption

At any time prior to July 1, 2018, the Senior Notes Issuer may on any one or more occasions redeem up to 40% of the aggregate principal amount of Senior Notes issued under the Senior Notes Indenture, upon not less than 10 nor more than 60 days' notice, at a redemption price equal to 108.250% of the principal amount of the Senior Notes redeemed, in each case, plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of redemption (subject to the rights of holders of Senior Notes on the relevant record date to receive interest on the relevant interest payment date), with the net cash proceeds of an Equity Offering of (i) the Senior Notes Issuer or (ii) any direct or indirect parent entity of the Senior Notes Issuer to the extent the proceeds from such Equity Offering are contributed (other than in the form of an Excluded Contribution) to the Senior Notes Issuer's common equity capital or are paid to the Senior Notes Issuer as consideration for the issuance of ordinary shares of the Senior Notes Issuer; *provided* that:

(1) at least 60% of the aggregate principal amount of the Senior Notes (calculated after giving effect to any issuance of Additional Senior Notes but excluding Senior Notes held by the Senior Notes Issuer and its Subsidiaries) remains outstanding immediately after the occurrence of such redemption; and

(2) the redemption occurs within 180 days of the date of the closing of such Equity Offering.

At any time prior to July 1, 2018, the Senior Notes Issuer may on any one or more occasions redeem all or a part of the Senior Notes upon not less than 10 nor more than 60 days' notice, at a redemption price equal to 100% of the principal amount of the Senior Notes redeemed, plus the Applicable Premium as of, and accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of redemption, subject to the rights of holders of the Senior Notes on the relevant record date to receive interest due on the relevant interest payment date.

Except pursuant to the preceding three paragraphs and except pursuant to "*—Redemption for Changes in Taxes*", the Senior Notes will not be redeemable at the Senior Notes Issuer's option prior to July 1, 2018.

On or after July 1, 2018, the Senior Notes Issuer may on any one or more occasions redeem all or a part of Senior Notes upon not less than 10 nor more than 60 days' notice, at the redemption prices (expressed as percentages of principal amount) set forth below, plus accrued and unpaid interest and Additional Amounts, if any, on the Senior Notes redeemed, to, but not including, the applicable date of redemption, if redeemed during the twelve-month period beginning on July 1 of the years indicated below, subject to the rights of holders of Senior Notes on the relevant record date to receive interest on the relevant interest payment date:

Year	Redemption Price
2018	106.1875%
2019	104.1250%
2020	102.0625%
2021 and thereafter	100.0000%

Unless the Senior Notes Issuer defaults in the payment of the redemption price, interest will cease to accrue on the Senior Notes or portions thereof called for redemption on the applicable redemption date. If the optional redemption date is on or after an interest record date and on or before the related interest payment date, the accrued and unpaid interest will be paid to the Person in whose name the Senior Note is registered at the close of business on such record date, and no additional interest will be payable to holders of Senior Notes whose Senior Notes are subject to redemption by the Senior Notes Issuer.

Any redemption or notice may, in the Senior Notes Issuer's discretion, be subject to the satisfaction of one or more conditions precedent. In addition, if such redemption or notice is subject to satisfaction of one or more conditions precedent, such notice may state that, in the Senior Notes Issuer's discretion, the redemption date may be delayed until such time as any or all such conditions shall be satisfied (*provided, however, that*, in any case, such redemption date shall be no more than 60 days from the date on which such notice is first given), or such redemption may not occur and such notice may be rescinded in the event that any or all such conditions shall not have been satisfied by the redemption date, or by the redemption date so delayed.

Notwithstanding the foregoing, in connection with any tender offer for the Senior Notes at a price of at least 100% of the principal amount of the Senior Notes tendered, plus accrued and unpaid interest thereon to, but excluding, the applicable tender settlement date, if holders of Senior Notes of not less than 90% in aggregate principal amount of the outstanding Senior Notes validly tender and do not withdraw such Senior Notes in such tender offer and the Senior Notes Issuer, or any third party making such a tender offer in lieu of the Senior Notes Issuer, purchase all of the Senior Notes validly tendered and not withdrawn by such holders, the Senior Notes Issuer or such third party will have the right upon not less than 10 nor more than 60 days' prior notice, given not more than 30 days following such purchase date, to redeem all Senior Notes that remain outstanding following such purchase at a price equal to the price offered to each other holder of Senior Notes in such tender offer plus, to the extent not included in the tender offer payment, accrued and unpaid interest, if any, thereon, to, but excluding, the Redemption Date.

The Senior Notes Issuer or its affiliates may at any time and from time to time purchase Senior Notes. Any such purchases may be made through open market or privately negotiated transactions with third parties or pursuant to one or more tender or exchange offers or otherwise, upon such terms and at such prices as well as with such consideration as the Senior Notes Issuer or any such affiliates may determine.

Redemption for Changes in Taxes

The Senior Notes Issuer may redeem the Senior Notes, in whole but not in part, at its discretion at any time upon giving not less than 10 nor more than 60 days' prior notice to the holders of the Senior Notes (which notice will be irrevocable and given in accordance with the procedures described in "*—Selection and Notice*"), at a redemption price equal to 100% of the aggregate principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Senior Notes Issuer for redemption (a "*Tax Redemption Date*") and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise, if any, if on the next date on which any amount would be payable in respect of the Senior Notes or any Senior Note Guarantee, the Senior Notes Issuer under or with respect to the Senior Notes or any of the Guarantors under or with respect to any Senior Note Guarantee, as the case may be, is or would be required to pay Additional Amounts and the Senior Notes Issuer or the relevant Guarantor cannot avoid any such payment obligation by taking reasonable measures available (including, for the avoidance of doubt, the appointment of a new Paying Agent under the caption "*—Paying Agent and Registrar for the Senior Notes*" or, in respect of a payment under a Senior Note Guarantee, payment through another Guarantor or the Senior Notes Issuer), and the requirement arises as a result of:

(1) any amendment to, or change in, the laws or treaties (or any regulations or rulings promulgated thereunder) of a relevant Tax Jurisdiction which change or amendment becomes effective on or after the date of this offering memorandum (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of this offering memorandum, such later date) and which was not publicly and formally announced or publicly and formally proposed, in substantially the form as enacted, prior to the date of this offering memorandum (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of this offering memorandum, such later date); or

(2) any amendment to, or change in, an official interpretation, application or administration of such laws, treaties, regulations or rulings (including by virtue of a holding, judgment, order by a court of competent jurisdiction or a change in published administrative practice) which amendment or change becomes effective on or after the date of this offering memorandum (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of this offering memorandum, such later date) and which was not publicly and formally announced or publicly and formally proposed, in substantially the form as enacted, prior to the date of this offering memorandum (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the date of this offering memorandum, such later date) (each of the foregoing clauses (1) and (2), a "*Change in Tax Law*").

The Senior Notes Issuer will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Senior Notes Issuer or the relevant Guarantor would be obligated to make such payment of Additional Amounts. Prior to the publication or, where relevant, mailing of any notice of redemption of the Senior Notes pursuant to the foregoing, the Senior Notes Issuer will deliver to the Trustee an opinion of independent tax counsel of recognized standing and reasonably satisfactory to the Trustee to the effect that there has been such Change in Tax Law which would entitle the Senior Notes Issuer to redeem the Senior Notes hereunder. In addition, before the Senior Notes Issuer publishes or mails notice of redemption of the Senior Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that it cannot avoid its or a Guarantor's obligation to pay Additional Amounts by the Senior Notes Issuer taking reasonable measures available to it.

The Trustee will accept and shall be entitled to rely on such Officer's Certificate and Opinion of Counsel as sufficient evidence of the existence and satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the holders.

The foregoing provisions shall apply (a) to a Guarantor only after such time as such Guarantor is obligated to make at least one payment on the Senior Notes and (b) *mutatis mutandis* to any successor Person, after such successor Person becomes a party to the Senior Notes Indenture, with respect to a Change in Tax Law occurring after the time such successor Person becomes a party to the Senior Notes Indenture.

Mandatory Redemption

The Senior Notes Issuer is not required to make mandatory redemption or sinking fund payments with respect to the Senior Notes, except as described above under the caption "*—Disbursement of Funds; Senior Notes Escrow Account; Senior Notes Special Mandatory Redemption*".

Repurchase at the Option of Holders

Change of Control

If a Change of Control occurs, each holder of Senior Notes will have the right to require the Senior Notes Issuer to repurchase all or any part (equal to €100,000 or integral multiples of €1,000 in excess thereof) of that holder's Senior Notes pursuant to a Change of Control Offer on the terms set forth in the Senior Notes Indenture. In the Change of Control Offer, the Senior Notes Issuer will offer a payment in cash equal to 101% of the aggregate principal amount of Senior Notes repurchased, plus accrued and unpaid interest and Additional Amounts, if any, on the Senior Notes repurchased to the date of purchase (the "*Change of Control Payment*"), subject to the rights of holders of Senior Notes on the relevant record date to receive interest due on the relevant interest payment date. Unless the Senior Notes Issuer has unconditionally exercised its right to redeem all the Senior Notes of a series as described under "*—Optional Redemption*" or all conditions to such redemption have been satisfied or waived, within 30 days following any Change of Control, the Senior Notes Issuer will mail a notice to each holder of the Senior Notes at such holder's registered address or otherwise deliver a notice in accordance with the procedures described under "*—Selection and Notice*", with a copy to the Trustee, stating that a Change of Control Offer is being made and offering to repurchase Senior Notes on the date (the "*Change of Control Payment Date*") specified in the notice, which date will be no earlier than 10 days and no later than 60 days from the date such notice is mailed or delivered, pursuant to the procedures required by the Senior Notes Indenture and described in such notice. The Senior Notes Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with the repurchase of the Senior Notes as a result of a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control provisions of the Senior Notes Indenture, the Senior Notes Issuer will comply with any applicable securities laws and regulations and will not be deemed to have breached its obligations under the Senior Notes Indenture by virtue of such compliance.

On the Change of Control Payment Date, the Senior Notes Issuer will, to the extent lawful:

(1) accept for payment all Senior Notes or portions of Senior Notes properly tendered pursuant to the Change of Control Offer;

(2) deposit with the Paying Agent an amount equal to the Change of Control Payment in respect of all Senior Notes or portions of Senior Notes properly tendered; and

(3) deliver or cause to be delivered to the Trustee the Senior Notes properly accepted together with an Officer's Certificate stating the aggregate principal amount of Senior Notes or portions of Senior Notes being purchased by the Senior Notes Issuer.

The Paying Agent will promptly mail (or cause to be delivered) to each holder of Senior Notes properly tendered the Change of Control Payment for such Senior Notes, and the Trustee (or its authenticating agent) will promptly authenticate and mail (or cause to be transferred by book-entry) to each holder a new Senior Note equal in principal amount to any unpurchased portion of the Senior Notes surrendered, if any. The Senior Notes Issuer will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

The provisions described above that require the Senior Notes Issuer to make a Change of Control Offer following a Change of Control will be applicable whether or not any other provisions of the Senior Notes Indenture are applicable. Except as described above with respect to a Change of Control, the Senior Notes Indenture will not contain provisions that permit the holders of the Senior Notes to require that the Senior Notes Issuer repurchase or redeem the Senior Notes in the event of a takeover, recapitalization or similar transaction. The existence of a holder of the Senior Notes' right to require the Senior Notes Issuer to repurchase such holder's Senior Notes upon the occurrence of a Change of Control may deter a third party from seeking to acquire the Senior Notes Issuer or its Subsidiaries in a transaction that would constitute a Change of Control.

The Senior Notes Issuer will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Senior Notes Indenture applicable to a Change of Control Offer made by the Senior Notes Issuer and purchases all Senior Notes properly tendered and not withdrawn under the Change of Control Offer, or (2) a notice of redemption has been given pursuant to the Senior Notes Indenture as described above under the caption "*—Optional Redemption*", unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

The Senior Notes Issuer's ability to repurchase Senior Notes pursuant to a Change of Control Offer following the occurrence of a Change of Control may be limited by the Senior Notes Issuer's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Senior Notes. See "*Risk Factors—Risks Related to Our Capital Structure—We may not have the ability to raise the funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control as required by the Indenture*".

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of "all or substantially all" of the properties or assets of the Senior Notes Issuer and its Restricted Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of Senior Notes to require the Senior Notes Issuer to repurchase its Senior Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of the Senior Notes Issuer and its Restricted Subsidiaries taken as a whole to another Person or group may be uncertain. In addition, if an event constitutes a Change of Control, the definitions of Change of Control and Permitted Holders expressly permit a third party to obtain control of the Senior Notes Issuer in a transaction which is a Specified Change of Control Event without any obligation to make a Change of Control Offer.

The provisions under the Senior Notes Indenture relating to the Senior Notes Issuer's obligation to make an offer to repurchase the Senior Notes as a result of a Change of Control may be waived or modified with the consent of the holders of a majority in principal amount of the Senior Notes prior to the occurrence of the Change of Control.

If and for so long as the Senior Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market and the rules of the Irish Stock Exchange so require, the Senior Notes Issuer will publish a public announcement with respect to the results of any Change of Control Offer in a leading newspaper of general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Irish Stock Exchange (*www.ise.ie*).

Asset Sales

The Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, consummate an Asset Sale unless:

(1) the Senior Notes Issuer (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of; and

(2) at least 75% of the consideration received in the Asset Sale by the Senior Notes Issuer or such Restricted Subsidiary is in the form of cash or Cash Equivalents. For purposes of this provision, each of the following will be deemed to be cash:

  (a) any liabilities, as recorded on the balance sheet of the Senior Notes Issuer or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Senior Notes or any Senior Note Guarantee), that are assumed by the transferee of any such assets and as a result of which the Senior Notes Issuer and its Restricted Subsidiaries are no longer obligated with respect to such liabilities or are indemnified against further liabilities;

  (b) any securities, notes or other obligations received by the Senior Notes Issuer or any such Restricted Subsidiary from such transferee that are converted by the Senior Notes Issuer or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of the Asset Sale, to the extent of the cash or Cash Equivalents received in that conversion;

  (c) any Capital Stock or assets of the kind referred to in clauses (1)(c) or (e) of the next paragraph of this covenant;

  (d) any Designated Non-Cash Consideration received by the Senior Notes Issuer or any Restricted Subsidiary in such Asset Sales having an aggregate Fair Market Value, taken together with all other Designated Non-Cash Consideration received pursuant to this clause (d) that is at that time outstanding, not to exceed the greater of €20.0 million and 1.5% of Total Assets at the time of the receipt of such Designated Non-Cash Consideration (with the Fair Market Value of each item of Designated Non-Cash Consideration being measured at the time received and without giving effect to subsequent changes in value);

  (e) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Sale, to the extent that the Senior Notes Issuer and each other Restricted Subsidiary are released from any guarantee of such Indebtedness in connection with such Asset Sale; and

  (f) consideration consisting of Indebtedness of the Senior Notes Issuer or any Guarantor received from Persons who are not the Senior Notes Issuer or any Restricted Subsidiary.

Within 365 days after the receipt of any Net Proceeds from an Asset Sale, the Senior Notes Issuer (or the applicable Restricted Subsidiary, as the case may be) may:

(1) apply such Net Proceeds (at the option of the Senior Notes Issuer or Restricted Subsidiary):

(a) to prepay, repay or purchase:

(i) Obligations under the Revolving Credit Facility and the Senior Secured Notes and to correspondingly reduce commitments with respect thereto (except in the case of any revolving Indebtedness, including but not limited to the Revolving Credit Facility); or

(ii) Senior Notes and Pari Passu Debt and to correspondingly reduce commitments with respect thereto (except in the case of any revolving Indebtedness); *provided* that if the Senior Notes Issuer or any Restricted Subsidiary shall reduce such Obligations, the Senior Notes Issuer will equally and ratably reduce Obligations under the Senior Notes by making an offer to all holders to purchase at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, for the pro rata amount of the Senior Notes or through open market repurchases (to the extent such purchases are at or above 100% of the principal amount thereof); *provided*, *further*, that in each case under this clause (ii), such Senior Notes and Pari Passu Debt shall be other than Indebtedness owed to the Senior Notes Issuer or an Affiliate of the Senior Notes Issuer;

(b) to purchase or prepay or redeem or repay (i) any Senior Debt, (ii) any Indebtedness that is secured by a Lien on assets or property which do not constitute Senior Notes Collateral or (ii) any Indebtedness of a Restricted Subsidiary that is not a Guarantor (other than Indebtedness owed to the Senior Notes Issuer or an Affiliate of the Senior Notes Issuer);

(c) to acquire all or substantially all of the assets of, or any Capital Stock of, another Permitted Business, if, after giving effect to any such acquisition of Capital Stock, the Permitted Business is or becomes a Restricted Subsidiary *provided, however,* if the assets sold constitute Senior Notes Collateral or constitute all or substantially all of the assets of a Restricted Subsidiary whose Capital Stock has been pledged as Senior Notes Collateral, subject to the Agreed Security Principles (set forth in the Senior Notes Indenture) and any Permitted Liens on the acquired Capital Stock or assets, the Senior Notes Issuer shall pledge or shall cause the applicable Restricted Subsidiary to pledge any acquired Capital Stock or assets (to the extent such assets were of a category of assets included in the Senior Notes Collateral as of 90 days after the Completion Date) referred to in this clause (c) in favor of the Senior Notes on a first-ranking basis;

(d) to make a capital expenditure;

(e) to acquire other assets (other than Capital Stock) not classified as current assets under IFRS that are used or useful in a Permitted Business; or

(f) any combination of the foregoing;

(2) enter into a binding commitment to apply the Net Proceeds pursuant to clauses (b), (c), (d) or (e) of paragraph (1) above; *provided* that such binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment until the earlier of (x) the date on which such acquisition or expenditure is consummated, and (y) the 180^{th} day following the expiration of the aforementioned 365-day period.

Pending the final application of any Net Proceeds, the Senior Notes Issuer (or the applicable Restricted Subsidiary) may temporarily reduce revolving credit borrowings or otherwise invest the Net Proceeds in any manner that is not prohibited by the Senior Notes Indenture.

Any Net Proceeds from Asset Sales that are not applied or invested as provided in the second paragraph of this covenant will constitute "*Excess Proceeds*". When the aggregate amount of Excess Proceeds exceeds €30.0 million, within ten Business Days thereof, the Senior Notes Issuer will make an offer (an "*Asset Sale Offer*") to all holders of Senior Notes and, to the extent the Senior Notes Issuer elects, to any holders of other Senior Secured Indebtedness, to purchase, prepay or redeem the maximum principal amount of Senior Notes and such other Senior Secured Indebtedness (plus all accrued interest on the Indebtedness and the amount of all fees and expenses, including premiums, incurred in connection therewith) that may be purchased, prepaid or redeemed out of the Excess Proceeds. The offer price for the

Senior Notes in any Asset Sale Offer will be equal to 100% of the principal amount, plus accrued and unpaid interest and Additional Amounts, if any, to the date of purchase, prepayment or redemption, subject to the rights of holders of Senior Notes on the relevant record date to receive interest due on the relevant interest payment date, and will be payable in cash. If any Excess Proceeds remain after consummation of an Asset Sale Offer, the Senior Notes Issuer may use those Excess Proceeds for any purpose not otherwise prohibited by the Senior Notes Indenture. To the extent that the aggregate principal amount of Senior Notes and other Senior Secured Indebtedness so validly tendered and not properly withdrawn pursuant to an Asset Sale Offer is less than the Excess Proceeds, the Senior Notes Issuer may use any remaining Excess Proceeds for general corporate purposes, subject to the other covenants contained in the Senior Notes Indenture. If the aggregate principal amount of Senior Notes and other Senior Secured Indebtedness tendered into (or to be prepaid or redeemed in connection with) such Asset Sale Offer exceeds the amount of Excess Proceeds or if the aggregate amount of Senior Notes or other Senior Secured Indebtedness tendered pursuant to an Asset Sale Offer exceeds the amount of the Net Proceeds so applied, the Trustee will select the Senior Notes and such other Indebtedness, if applicable, to be purchased on a *pro rata* basis (or in the manner described under "*—Selection and Notice*"), based on the amounts tendered or required to be prepaid or redeemed. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds will be reset at zero.

The Senior Notes Issuer or a Restricted Subsidiary, as the case may be, may make an Asset Sale Offer prior to the expiration of the 365-day period mentioned above.

To the extent that any portion of Net Proceeds payable in respect of the Senior Notes is denominated in a currency other than euros, the amount thereof payable in respect of such Senior Notes shall not exceed the net amount of funds in euros that is actually received by the Senior Notes Issuer upon converting such portion of the Net Proceeds into euros.

The Senior Notes Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the U.S. Exchange Act and any other applicable securities laws and regulations to the extent those laws and regulations are applicable in connection with each repurchase of Senior Notes pursuant to a Change of Control Offer or an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the Change of Control or Asset Sale provisions of the Senior Notes Indenture, the Senior Notes Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Senior Notes Indenture by virtue of such compliance.

Selection and Notice

If less than all of the Senior Notes are to be redeemed at any time, the Trustee, or the Registrar, as applicable, will select Senior Notes for redemption on a *pro rata* basis (or, in the case of Senior Notes issued in global form as discussed under "*Book-Entry, Delivery and Form*", based on a method that most nearly approximates a *pro rata* selection as the Trustee or the Registrar deems fair and appropriate, including the pool factor), unless otherwise required by law or applicable stock exchange or depositary requirements. Neither the Trustee nor the Registrar shall be liable for selections made by it in accordance with this paragraph.

No Senior Notes of €100,000 or less can be redeemed in part. Notices of redemption will be mailed by first class mail at least 10 but not more than 60 days before the redemption date to each holder of Senior Notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Senior Notes or a satisfaction and discharge of the Senior Notes Indenture.

If any Senior Note is to be redeemed in part only, the notice of redemption that relates to that Senior Note will state the portion of the principal amount of that Senior Note that is to be redeemed. A new Senior Note in principal amount equal to the unredeemed portion of the original Senior Note will be issued in the name of the holder of Senior Notes upon cancellation of the original Senior Note. In the case of a Senior Global Note, an appropriate notation will be made on such Senior Note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Senior Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Senior Notes or portions of Senior Notes called for redemption.

For Senior Notes which are represented by global certificates held on behalf of Euroclear or Clearstream, Luxembourg, notices may be given by delivery of the relevant notices to Euroclear or Clearstream, Luxembourg for communication to entitled account holders in substitution for the aforesaid mailing. So long as any Senior Notes are listed on the Official List of the Irish Stock Exchange and admitted for trading on the Global Exchange Market of the Irish Stock Exchange and the rules of the Irish Stock Exchange so require, any such notice to the holders of the relevant Senior Notes shall also be published in a newspaper having a general circulation in Dublin (which is expected to be *The Irish Times*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Irish Stock Exchange (*www.ise.ie*) and, in connection with any redemption, the Senior Notes Issuer will notify the Irish Stock Exchange of any change in the principal amount of Senior Notes outstanding.

Certain Covenants

Incurrence of Indebtedness and Issuance of Preferred Stock

The Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise, with respect to (collectively, "*incur*") any Indebtedness (including Acquired Debt), and the Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, issue any Disqualified Stock and will not permit any of its Restricted Subsidiaries to issue any shares of preferred stock; *provided*, *however*, that the Senior Notes Issuer may incur Indebtedness (including Acquired Debt) or issue Disqualified Stock, and the Restricted Subsidiaries may incur Indebtedness (including Acquired Debt), issue Disqualified Stock or issue preferred stock, if, the Fixed Charge Coverage Ratio for the Senior Notes Issuer's most recently ended four full fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or such preferred stock is issued, as the case may be, would have been at least 2.00 to 1.00, in each case determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if the additional Indebtedness had been incurred or the Disqualified Stock or the preferred stock had been issued, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four-quarter period; *provided*, *further*, that the aggregate amount of Indebtedness (including Acquired Indebtedness) that may be Incurred and Disqualified Stock or preferred stock that may be issued pursuant to the foregoing by the Senior Notes Issuer's non-guarantor subsidiaries shall not exceed the greater of (x) €75.0 million and (y) 6.0% of Total Assets, at any one time outstanding, after giving *pro forma* effect to such incurrence or issuance (including a *pro forma* application of the net proceeds therefrom).

The first paragraph of this covenant will not prohibit the incurrence of any of the following items of Indebtedness (collectively, "*Permitted Debt*"):

(1) the incurrence by the Senior Notes Issuer and its Restricted Subsidiaries of additional Indebtedness under Credit Facilities in an aggregate principal amount at any one time outstanding under this clause (1) not to exceed the greater of €150.0 million and 100% of Consolidated EBITDA, *plus,* in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such refinancing;

(2) (a) Indebtedness of the Target and its Restricted Subsidiaries outstanding on the Completion Date and which remains outstanding after giving effect to the Original Transactions and the use of proceeds of the Existing Senior Secured Notes, (b) Indebtedness of the Senior Secured Notes Issuer or any Restricted Subsidiary on the Original Senior Secured Notes Issue Date and which is to be repaid after giving effect to the use of proceeds of the Existing Senior Secured Notes during the pendency of the application of such proceeds, (c) the incurrence by the Senior Secured Notes Issuer and the Guarantors of Indebtedness represented by the Existing Senior Secured Notes issued on the Original Senior Secured Notes Issue Date and (d) Indebtedness represented by the Temporary Senior Secured Notes issued on the Senior Notes Issue Date, the Additional Senior Secured Notes to be issued on the Completion Date, the related Senior Secured Note Guarantees and any "parallel debt" obligations under the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents;

(3) the incurrence by the Senior Notes Issuer and the Guarantors of Indebtedness represented by the Senior Notes issued on the Senior Notes Issue Date, the related Senior Note Guarantees and any "parallel debt" obligations under the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents;

(4) the incurrence by the Senior Notes Issuer or any of its Restricted Subsidiaries of Indebtedness represented by Capital Lease Obligations, mortgage financings, purchase money obligations or other financings, in each case, incurred for the purpose of financing all or any part of the purchase price, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment (whether through the direct purchase of assets or the Capital Stock of any Person owning such assets) used in the business of the Senior Notes Issuer or any of its Restricted Subsidiaries, in an aggregate principal amount, including all Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this clause (4), not to exceed the greater of €50.0 million and 4.0% of Total Assets at any time outstanding, so long as the Indebtedness exists on the date of such purchase, lease, rental or improvement or is created within 180 days thereafter;

(5) the incurrence by the Senior Notes Issuer or any of its Restricted Subsidiaries of Permitted Refinancing Indebtedness in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, defease or discharge any Indebtedness (other than intercompany Indebtedness) that was permitted by the Senior Notes Indenture to be incurred under (a) the first paragraph of this covenant or (b) clauses (2)(a), (3), (5), (16) or (17) of this paragraph;

(6) the incurrence by the Senior Notes Issuer or any Restricted Subsidiary of intercompany Indebtedness between or among the Senior Notes Issuer or any Restricted Subsidiary; *provided* that:

  (a) if the Senior Notes Issuer or any Guarantor is the obligor on such Indebtedness and the payee is not the Senior Notes Issuer or a Guarantor, such Indebtedness must be unsecured and expressly subordinated to the prior payment in full in cash of all Obligations then due with respect to the Senior Notes, in the case of the Senior Notes Issuer, or the Senior Note Guarantee, in the case of a Guarantor (i) except in respect of Working Capital Intercompany Loans and (ii) only to the extent legally permitted (the Senior Notes Issuer and its Restricted Subsidiaries having completed all procedures required in the reasonable judgment of directors or officers of the obligee or obligor to protect such persons from any penalty or civil or criminal liability in connection with the subordination of such Indebtedness); and

  (b) (i) any subsequent issuance or transfer of Equity Interests that results in any such Indebtedness being held by a Person other than the Senior Notes Issuer or a Restricted Subsidiary and (ii) any sale or other transfer of any such Indebtedness to a Person that is not either the Senior Notes Issuer or a Restricted Subsidiary, will be deemed, in each case, to constitute an incurrence of such Indebtedness by the Senior Notes Issuer or such Restricted Subsidiary, as the case may be, that was not permitted by this clause (6);

(7) the issuance by any Restricted Subsidiary to the Senior Notes Issuer or to any of its Restricted Subsidiaries of preferred stock; *provided* that:

  (a) any subsequent issuance or transfer of Equity Interests that results in any such preferred stock being held by a Person other than the Senior Notes Issuer or a Restricted Subsidiary; and

  (b) any sale or other transfer of any such preferred stock to a Person that is not either the Senior Notes Issuer or a Restricted Subsidiary,

  will be deemed, in each case, to constitute an issuance of such preferred stock by such Restricted Subsidiary that was not permitted by this clause (7);

(8) the incurrence by the Senior Notes Issuer or any Restricted Subsidiary of Hedging Obligations for *bona fide* hedging purposes of the Senior Notes Issuer and its Restricted Subsidiaries and not for speculative purposes;

(9) the guarantee by the Senior Notes Issuer or any Restricted Subsidiary of Indebtedness of the Senior Notes Issuer or any Restricted Subsidiary to the extent that the guaranteed Indebtedness was permitted to be incurred by another provision of this covenant; *provided* that if the Indebtedness being guaranteed is subordinated to the Senior Notes or a Senior Note Guarantee, then the guarantee must be subordinated to the Senior Notes or Senior Note Guarantee to the same extent as the Indebtedness guaranteed;

(10) the incurrence by the Senior Notes Issuer or any of its Restricted Subsidiaries of Indebtedness in respect of workers' compensation claims, self-insurance obligations, captive insurance companies, bankers' acceptances, performance and surety bonds in the ordinary course of business and consistent with industry practice;

(11) the incurrence by the Senior Notes Issuer or any of its Restricted Subsidiaries of Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument inadvertently drawn against insufficient funds, so long as such Indebtedness is covered within five Business Days of such incurrence;

(12) the incurrence by the Senior Notes Issuer and its Restricted Subsidiaries of Indebtedness arising from agreements of the Senior Notes Issuer or a Restricted Subsidiary providing for customary indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Equity Interests of a Subsidiary, *provided* that the maximum liability of the Senior Notes Issuer and its Restricted Subsidiaries in respect of all such Indebtedness shall at no time exceed the gross proceeds, including the Fair Market Value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Senior Notes Issuer and its Restricted Subsidiaries in connection with such disposition;

(13) the incurrence by the Senior Notes Issuer and its Restricted Subsidiaries of Indebtedness in respect of (A) letters of credit, surety, performance or appeal bonds, completion guarantees, judgment, advance payment, customs, VAT or other tax guarantees or similar instruments issued in the ordinary course of business of such Person and not in connection with the borrowing of money, including letters of credit or similar instruments in respect of self-insurance and workers compensation obligations, and (B) any customary cash management, cash pooling or netting or setting off arrangements; *provided*, *however*, that upon the drawing of such letters of credit or other instrument, such obligations are reimbursed within 30 days following such drawing;

(14) Indebtedness of the Senior Notes Issuer of any of its Restricted Subsidiaries in respect of Management Advances;

(15) customer deposits and advance payments received in the ordinary course of business from customers for goods and services purchased in the ordinary course of business;

(16) Indebtedness in an aggregate outstanding principal amount that, when taken together with any Permitted Refinancing Indebtedness in respect thereof and the principal amount of all other Indebtedness incurred pursuant to this clause (16) and then outstanding, will not exceed 100% of the net cash proceeds received by the Senior Notes Issuer or any of its Restricted Subsidiaries from the issuance or sale (other than to a Restricted Subsidiary) of its Subordinated Shareholder Debt or Capital Stock (other than Disqualified Stock or an Excluded Contribution) or otherwise contributed to the equity (other than through the issuance of Disqualified Stock, an Excluded Contribution, the Equity Contribution or the German Equity Contribution) of the Senior Notes Issuer or any of its Restricted Subsidiaries, in each case, subsequent to the Original Senior Secured Notes Issue Date; *provided, however*, that (i) any such net cash proceeds that are so received or contributed shall be excluded for purposes of making Restricted Payments under the first paragraph and clauses (2), (4) and (9) of the second paragraph of the covenant described below under "*—Certain Covenants—Restricted Payments*" to the extent the Senior Notes Issuer and its Restricted Subsidiaries incur Indebtedness in reliance thereon and (ii) any net cash proceeds that are so received or contributed shall be excluded for purposes of incurring Indebtedness pursuant to this clause (16) to the extent the Senior Notes Issuer or any of its Restricted Subsidiaries makes a Restricted Payment under the first paragraph and clauses (2), (4) and (9) of the second paragraph of the covenant described below under "*—Certain Covenants—Restricted Payments*" in reliance thereon;

(17) Indebtedness (a) outstanding on the date on which any Person becomes a Restricted Subsidiary of the Senior Notes Issuer or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Senior Notes Issuer or any of its Restricted Subsidiaries or (b) incurred to provide all or any portion of the funds used to consummate the transaction or series of related transactions pursuant to which (i) any Person became a Restricted Subsidiary of the Senior Notes Issuer or was otherwise

acquired by the Senior Notes Issuer or any of its Restricted Subsidiaries or (ii) any assets are acquired and related liabilities are assumed by the Senior Notes Issuer or any Restricted Subsidiary; *provided*, *however*, with respect to this clause (17), that at the time of the acquisition or other transaction pursuant to which such Indebtedness was deemed to be incurred either (A) the Senior Notes Issuer would have been able to incur €1.00 of additional Indebtedness pursuant to the first paragraph of this covenant after giving *pro forma* effect to the incurrence of such Indebtedness pursuant to this clause (17) or (B) the Fixed Charge Coverage Ratio of the Senior Notes Issuer would not be less than it was immediately prior to giving *pro forma* effect to such acquisition or other transaction and the related incurrence of such Indebtedness pursuant to this clause (17);

(18) Indebtedness incurred in any (a) Receivables Financing or (b) CIR Financing or CICE Financing (or any equivalent or successor tax credit financing); *provided* that, in the case of clause (18)(b) only, such Indebtedness, together with any Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to such clause, does not exceed €25.0 million in the aggregate outstanding at any one time;

(19) Indebtedness of the Senior Notes Issuer's non-guarantor Subsidiaries in an aggregate principal amount not to exceed the greater of €20.0 million and 1.5% of Total Assets in the aggregate outstanding at any one time (it being understood that any Indebtedness incurred pursuant to this clause (19) shall cease to be deemed incurred or outstanding pursuant to this clause (19) but shall be deemed incurred and outstanding pursuant to the first paragraph of this covenant from and after the first date on which such non-guarantor Subsidiary could have incurred such Indebtedness pursuant to the first paragraph of this covenant);

(20) Indebtedness consisting of guarantees of Indebtedness incurred by joint ventures of the Senior Notes Issuer or any of its Restricted Subsidiaries that, together with the outstanding aggregate amount of Investments made pursuant to clause (16) of the definition of "Permitted Investment", does not exceed the greater of €30.0 million and 2.5% of Total Assets in the aggregate outstanding at any one time; and

(21) the incurrence by the Senior Notes Issuer or any of its Restricted Subsidiaries of additional Indebtedness in an aggregate principal amount (or accreted value, as applicable) at any time outstanding, including all Permitted Refinancing Indebtedness incurred to renew, refund, refinance, replace, defease or discharge any Indebtedness incurred pursuant to this clause (21) not to exceed the greater of €60.0 million and 4.5% of Total Assets.

The Senior Notes Issuer and the Guarantors will not incur any Indebtedness (including Permitted Debt) that is contractually subordinated in right of payment to any other Indebtedness of the Senior Notes Issuer or any Guarantor unless such Indebtedness is also contractually subordinated in right of payment to the Senior Notes and the applicable Senior Note Guarantee on substantially identical terms; *provided*, however, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Senior Notes Issuer solely by virtue of being unsecured or by virtue of being secured with different collateral or by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment-ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

Any Guarantees provided by the Senior Notes Issuer or a Restricted Subsidiary in respect of any Indebtedness of any Parent Entity shall be expressly subordinated to the prior payment in full of all obligations with respect to the Senior Notes pursuant to the Intercreditor Agreement or any Additional Intercondition Agreement.

For purposes of determining compliance with this covenant, in the event that an item of Indebtedness meets the criteria of more than one of the categories of Permitted Debt described in clauses (1) through (21) above or is permitted to be incurred pursuant to the first paragraph of this covenant, the Senior Notes Issuer, in its sole discretion, will be permitted to classify such item of Indebtedness on the date of its incurrence and only be required to include the amount and type of such Indebtedness in one of such clauses or paragraph, and will be permitted on the date of such incurrence to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, and from time to time to divide and reclassify all or a portion of such item of Indebtedness, in any manner that complies with this covenant, *provided* that Indebtedness under the Revolving Credit Facility incurred or outstanding on the Completion Date will be deemed to have been incurred on such date in reliance on the exception provided in clause (1) of the definition of Permitted Debt and may not be reclassified.

Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included. If obligations in respect of letters of credit, bankers' acceptances or other similar instruments are incurred pursuant to any Credit Facility and are being treated as incurred pursuant to clause (1), (4) or (21) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included. The principal amount of any Disqualified Stock of the Senior Notes Issuer or a Restricted Subsidiary, or preferred stock of a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof.

The accrual of interest or preferred stock dividends, the accretion or amortization of original issue discount, the payment of interest on any Indebtedness in the form of additional Indebtedness, the reclassification of preferred stock as Indebtedness due to a change in accounting principles, and the payment of dividends on preferred stock or Disqualified Stock in the form of additional shares of the same class of preferred stock or Disqualified Stock will not be deemed to be an incurrence of Indebtedness or an issuance of preferred stock or Disqualified Stock for purposes of this covenant, nor to be the incurrence of a Lien under the "*Liens*" covenant, *provided* that the Lien securing such originally incurred preferred stock, Indebtedness or preferred stock was secured in accordance with the Senior Notes Indenture. For purposes of determining compliance with any euro-denominated restriction on the incurrence of Indebtedness, the euro-equivalent principal amount of Indebtedness denominated in a different currency shall be utilized, calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term Indebtedness, or first committed, in the case of Indebtedness incurred under a revolving credit facility; *provided*, *however*, that (i) if such Indebtedness denominated in non-euro currency is subject to a Currency Exchange Protection Agreement with respect to euro, the amount of such Indebtedness expressed in euro will be calculated so as to take account of the effects of such Currency Exchange Protection Agreement; and (ii) the euro-equivalent of the principal amount of any such Indebtedness outstanding on the Senior Notes Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Senior Notes Issue Date and the euro-equivalent of the principal amount of any such Indebtedness of the Target and its Subsidiaries outstanding on the Completion Date shall be calculated based on the relevant currency exchange rate in effect on the Completion Date. The principal amount of any refinancing Indebtedness incurred in the same currency as the Indebtedness being refinanced will be the euro-equivalent of the Indebtedness refinanced determined on the date such Indebtedness was originally incurred, except that to the extent that:

(1) such euro-equivalent was determined based on a Currency Exchange Protection Agreement, in which case the Refinancing Indebtedness will be determined in accordance with the preceding sentence; and

(2) the principal amount of the refinancing Indebtedness exceeds the principal amount of the Indebtedness being refinanced, in which case the euro-equivalent of such excess will be determined on the date such refinancing Indebtedness is being incurred.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Senior Notes Issuer or any Restricted Subsidiary may incur pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in exchange rates or currency values.

The amount of any Indebtedness outstanding as of any date will be:

(1) in the case of any Indebtedness issued with original issue discount, the amount of the liability in respect thereof determined in accordance with IFRS;

(2) the principal amount of the Indebtedness, in the case of any other Indebtedness; and

(3) in respect of Indebtedness of another Person secured by a Lien on the assets of the specified Person, the lesser of:

    (i) the Fair Market Value of such assets at the date of determination; and

    (ii) the amount of the Indebtedness of the other Person.

Restricted Payments

The Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly:

(1) declare or pay any dividend or make any other payment or distribution on account of the Senior Notes Issuer's or any of its Restricted Subsidiaries' Equity Interests (including, without limitation, any payment in connection with any merger or consolidation involving the Senior Notes Issuer or any of its Restricted Subsidiaries) or to the direct or indirect holders of the Senior Notes Issuer's or any of its Restricted Subsidiaries' Equity Interests in their capacity as holders (other than (i) dividends or distributions payable in Equity Interests (other than Disqualified Stock) of the Senior Notes Issuer and (ii) dividends or distributions payable to the Senior Notes Issuer or a Restricted Subsidiary);

(2) purchase, redeem or otherwise acquire or retire for value (including, without limitation, in connection with any merger or consolidation involving the Senior Notes Issuer) any Equity Interests of the Senior Notes Issuer or any direct or indirect parent entity of the Senior Notes Issuer;

(3) make any principal payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Subordinated Shareholder Debt or any Indebtedness of the Senior Notes Issuer or any Guarantor that is contractually subordinated in right of payment to the Senior Notes or to any Senior Note Guarantee (excluding any intercompany Indebtedness between or among the Senior Notes Issuer and any of its Restricted Subsidiaries), except (i) a payment of interest or principal at the Stated Maturity thereof or (ii) the purchase, repurchase or other acquisition of Indebtedness purchased in anticipation of satisfying a scheduled sinking fund obligation, principal installment or scheduled maturity, in each case due within one year of the date of such purchase, repurchase or other acquisition; or

(4) make any Restricted Investment,

(all such payments and other actions set forth in these clauses (1) through (4) above being collectively referred to as "*Restricted Payments*"), unless, at the time of any such Restricted Payment:

(a) no Default or Event of Default has occurred and is continuing or would occur as a consequence of such Restricted Payment;

(b) the Senior Notes Issuer would, at the time of such Restricted Payment and after giving *pro forma* effect thereto as if such Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least €1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*"; and

(c) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by the Senior Notes Issuer and its Restricted Subsidiaries since the Original Senior Secured Notes Issue Date (excluding Restricted Payments permitted by clauses (2), (3), (4), (5), (6), (7), (8), (10), (11), (12), (14), (15), (16), (17), (19), (20) and (21) of the next succeeding paragraph), is less than the sum, without duplication, of:

(i) 50% of the Consolidated Net Income of the Senior Notes Issuer for the period (taken as one accounting period) from the first day of the fiscal quarter commencing immediately prior to the Original Senior Secured Notes Issue Date to the end of the Senior Notes Issuer's most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment (or, if such Consolidated Net Income for such period is a deficit, less 100% of such deficit); *plus*

(ii) 100% of the aggregate net cash proceeds and the Fair Market Value of marketable securities received by the Senior Notes Issuer from the Completion Date as a contribution to its common equity capital or from the issue or sale of Equity Interests of the Senior Notes Issuer (other than Disqualified Stock, Excluded Contributions or the Equity Contribution or the German Equity Contribution) or from the issue or sale of convertible or exchangeable Disqualified Stock of the Senior Notes Issuer or convertible or exchangeable debt securities of the Senior Notes Issuer, in each case that have been converted into or exchanged for

Equity Interests of the Senior Notes Issuer (other than Equity Interests and convertible or exchangeable Disqualified Stock or debt securities sold to a Subsidiary of the Senior Notes Issuer) or from the issuance or sale of Subordinated Shareholder Debt (other than an issuance or sale to a Subsidiary of the Senior Notes Issuer); *plus*

(iii) to the extent that any Restricted Investment that was made after the Original Senior Secured Notes Issue Date is (a) sold, disposed of or otherwise cancelled, liquidated or repaid, 100% of the aggregate amount received in cash and the Fair Market Value of the property and marketable securities received by the Senior Notes Issuer or any Restricted Subsidiary (other than from a Person that is the Senior Notes Issuer or a Restricted Subsidiary), or (b) made in an entity that subsequently becomes a Restricted Subsidiary, 100% of the Fair Market Value of the Restricted Investment of the Senior Notes Issuer and its Restricted Subsidiaries as of the date such entity becomes a Restricted Subsidiary; *plus*

(iv) to the extent that any Unrestricted Subsidiary of the Senior Notes Issuer designated as such after the Original Senior Secured Notes Issue Date is redesignated as a Restricted Subsidiary or is merged or consolidated into the Senior Notes Issuer or a Restricted Subsidiary, or all of the assets of such Unrestricted Subsidiary are transferred to the Senior Notes Issuer or a Restricted Subsidiary, the lesser of (i) the Fair Market Value of the property received by the Senior Notes Issuer or Restricted Subsidiary or the Senior Notes Issuer's Restricted Investment in such Subsidiary as of the date of such redesignation, merger, consolidation or transfer of assets and (ii) such Fair Market Value as of the date on which such Subsidiary was originally designated as an Unrestricted Subsidiary, in each case, to the extent such Investments reduced the Restricted Payments capacity under this clause (iv) and were not previously repaid or otherwise reduced; *plus*

(v) upon the full and unconditional release of a Restricted Investment that is a guarantee made by the Senior Notes Issuer or one of its Restricted Subsidiaries to any Person, an amount equal to the amount of such guarantee; *plus*

(vi) 100% of any cash dividends or distributions and the Fair Market Value of property and marketable securities received by the Senior Notes Issuer or a Restricted Subsidiary after the Completion Date, (A) in connection with the sale or other disposition (other than to the Senior Notes Issuer or a Restricted Subsidiary or an employee stock ownership plan or trust established by the Senior Notes Issuer or any Subsidiary of the Senior Notes Issuer for the benefit of its employees to the extent funded by the Senior Notes Issuer or any Restricted Subsidiary) of Capital Stock of an Unrestricted Subsidiary of the Senior Notes Issuer; and (B) from an Unrestricted Subsidiary; *provided, however*, that no amount will be included in Consolidated Net Income for purposes of the preceding clause (i) to the extent that it is (at the Senior Notes Issuer's option) included under this clause (vi).

provided, however, that upon a Specified Change of Control Event, all amounts calculated pursuant to this clause (c) shall be reset to zero and all references to the Original Senior Secured Notes Issue Date and Completion Date in this clause (c) shall thereafter refer to the date of such Specified Change of Control Event.

The preceding provisions will not prohibit:

(1) the payment of any dividend or the consummation of any redemption within 60 days after the date of declaration of the dividend or giving of the redemption notice, as the case may be, if at the date of declaration or notice, the dividend or redemption payment would have complied with the provisions of the Senior Notes Indenture;

(2) the making of any Restricted Payment in exchange for, or out of or with the net cash proceeds of the substantially concurrent sale or issuance (other than to a Subsidiary of the Senior Notes Issuer) of, Equity Interests of the Senior Notes Issuer (other than Disqualified Stock), Subordinated Shareholder Debt or from the substantially concurrent contribution of common equity capital to the Senior Notes Issuer; *provided* that the amount of any such net cash proceeds that are utilized for any such Restricted Payment will be excluded from the calculation of amounts under clause (c)(ii) of the preceding paragraph, will not constitute Excluded Contributions and will not be considered to be net cash proceeds from an Equity Offering for purposes of the "Optional Redemption" provisions of the Senior Notes Indenture;

(3) the repurchase, redemption, defeasance or other acquisition or retirement for value of Indebtedness of the Senior Notes Issuer or any Guarantor that is contractually subordinated to the Senior Notes or any Senior Note Guarantee with the net cash proceeds from an incurrence of Permitted Refinancing Indebtedness;

(4) the repurchase, redemption or other acquisition or retirement for value of any Equity Interests of the Senior Notes Issuer or any Restricted Subsidiary held by any current or former officer, director, employee or consultant of the Senior Notes Issuer or any of its Restricted Subsidiaries pursuant to any equity subscription agreement, stock option agreement, restricted stock grant, shareholders' agreement or similar agreement; *provided* that the aggregate price paid for all such repurchased, redeemed, acquired or retired Equity Interests may not exceed €2.0 million in any calendar year (with any unused amount in any calendar year being carried over in the succeeding calendar years); and *provided*, *further*, that such amount in any calendar year may be increased by an amount not to exceed (A) the cash proceeds from the sale of Equity Interests of the Senior Notes Issuer or a Restricted Subsidiary received by the Senior Notes Issuer or a Restricted Subsidiary during such calendar year, in each case to members of management, directors or consultants of the Senior Notes Issuer, any of its Restricted Subsidiaries or any of its direct or indirect parent companies and (B) the cash proceeds of key man life insurance policies, in each case to the extent the cash proceeds have not otherwise been applied to the making of Restricted Payments pursuant to clause (c)(ii) of the preceding paragraph or clause (2) of this paragraph;

(5) the repurchase of Equity Interests deemed to occur upon the exercise of stock options or warrants to the extent such Equity Interests represent a portion of the exercise price of those stock options or warrants;

(6) the declaration and payment of regularly scheduled or accrued dividends to holders of any class or series of Disqualified Stock of the Senior Notes Issuer or any preferred stock of any Restricted Subsidiary issued on or after the Original Senior Secured Notes Issue Date in accordance with the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*";

(7) payments of cash, dividends, distributions, advances or other Restricted Payments by the Senior Notes Issuer or any of its Restricted Subsidiaries to allow the payment of cash in lieu of the issuance of fractional shares upon (x) the exercise of options or warrants or (y) the conversion or exchange of Capital Stock of any such Person;

(8) without duplication payments pursuant to any Tax Sharing Agreement or arrangements, payments or other transactions among the Senior Notes Issuer and its Subsidiaries and other Persons with which the Senior Notes Issuer or any of its Subsidiaries is required or permitted to file a consolidated or combined tax return or with which the Senior Notes Issuer or any of its Restricted Subsidiaries is a part of a group for tax, accounting or cash pooling purposes or any tax advantageous group made pursuant to applicable legislation, together with other reasonable costs and and expenses relating thereto; *provided*, *however*, that such payments, and the value of such transactions, shall not exceed the amount of tax that the Senior Notes Issuer and such Restricted Subsidiaries would owe on a stand-alone basis and the amount of cash paid by Unrestricted Subsidiaries to the Senior Notes Issuer or such Restricted Subsidiaries for such purpose;

(9) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), the declaration and payment by the Senior Notes Issuer of, or loans, advances, dividends or distributions to any Parent Entity to pay, dividends on the common stock or common equity interests of the Senior Notes Issuer or any Parent Entity following a Public Offering of such common stock or common equity interests, in an amount not to exceed in any fiscal year the greater of (a) 6% of the net cash proceeds received by the Senior Notes Issuer from any Public Offering or contributed to the equity (other than through the issuance of Disqualified Stock or through Excluded Contributions) of the Senior Notes Issuer or contributed as Subordinated Shareholder Debt to the Senior Notes Issuer and (b) following the Initial Public Offering, an amount equal to the greater of (i) the greater of (A) 7% of the Market Capitalization and (B) 7% of the IPO Market Capitalization; *provided that* in the case of this clause (i) after giving *pro forma* effect to such loans, advances, dividends or distributions, the Consolidated Leverage Ratio shall be equal to or less than 4.0 to 1.0 and (ii) the greater of (A) 5% of the Market Capitalization and (B) 5% of the IPO Market Capitalization; *provided that* in the case of this clause (ii) after giving

pro forma effect to such loans, advances, dividends and distributions, the Consolidated Leverage Ratio shall be equal to or less than 4.5 to 1.0;

(10) advances or loans to (a) any future, present or former officer, director, employee or consultant of the Senior Notes Issuer or a Restricted Subsidiary to pay for the purchase or other acquisition for value of Equity Interests of the Senior Notes Issuer (other than Disqualified Stock), or any obligation under a forward sale agreement, deferred purchase agreement or deferred payment arrangement pursuant to any management equity plan or stock option plan or any other management or employee benefit or incentive plan or other agreement or arrangement or (b) any management equity plan or stock option plan or any other management or employee benefit or incentive plan or unit trust or the trustees of any such plan or trust to pay for the purchase or other acquisition for value of Equity Interests of the Senior Notes Issuer (other than Disqualified Stock); *provided* that the total aggregate amount of Restricted Payments made under this clause (10) does not exceed € 2.0 million in any calendar year (with any unused amount in any calendar year being carried over in the succeeding calendar years);

(11) the payment of any dividend (or, in the case of any partnership or limited liability company, any similar distribution) by a Restricted Subsidiary to the holders of its Equity Interests (other than the Senior Notes Issuer or any Restricted Subsidiary) on no more than a *pro rata* basis;

(12) the declaration and payment of dividends, loans, advances, other distributions or other amounts to, or the making of loans to any Parent Entity for such entity to, if applicable:

(a) pay fees and expenses incurred by any Parent Entity related to (i) the maintenance of such Parent of its corporate or other entity existence and performance of its obligations under the Senior Notes Indenture and similar obligations under the Revolving Credit Facility, (ii) any unsuccessful equity or debt offering of such Parent Entity and (iii) any equity or debt issuance, incurrence or offering, any disposition or acquisition or any investment transaction by the Senior Notes Issuer or any of its Restricted Subsidiaries (or any acquisition of or investment in any business, assets or property that will be contributed to the Senior Notes Issuer or any of its Restricted Subsidiaries as part of the same or a related transaction) permitted by the Senior Notes Indenture; and

(b) make payments to the Sponsor (i) representing annual management, consulting, monitoring or advisory fees and related expenses in an aggregate amount not to exceed €1.0 million in any calendar year (with unused amounts in any calendar year being permitted to be carried over into succeeding calendar years) or (ii) for any other financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including, without limitation, in connection with acquisitions or divestitures, including in connection with the consummation of the Transactions, which payments are approved in respect of such activities by a majority of the Board of Directors of the Senior Notes Issuer in good faith.

(13) Permitted Biologist Payments;

(14) any purchase, repurchase, redemption, payment on, defeasance or other acquisition or retirement for value of Indebtedness of the Senior Notes Issuer or any Restricted Subsidiary that is subordinated in right of payment to the Senior Notes or to any Senior Note Guarantee, including Subordinated Indebtedness and Subordinated Shareholder Debt (A) upon a Change of Control or Asset Sale to the extent required by the agreements governing such Indebtedness at a purchase price not greater than (x) 101% of the principal amount of such Indebtedness in the case of a Change of Control or (y) 100% of the principal amount of such Indebtedness in the case of an Asset Sale, in each case plus accrued and unpaid interest, but only if the Senior Notes Issuer shall have complied with its obligations under the covenants described under "*—Repurchase at the Option of Holders—Change of Control*" or "*—Repurchase at the Option of Holders—Asset Sales*", if applicable, or (B) consisting of Acquired Debt (other than Indebtedness Incurred (i) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Senior Notes Issuer or a Restricted Subsidiary or (ii) otherwise in connection with or in contemplation of such acquisition) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest and any premium required by the terms of any such Indebtedness;

(15) the distribution, as a dividend or otherwise, of shares of Capital Stock of, or Indebtedness owed to the Senior Notes Issuer or a Restricted Subsidiary of the Senior Notes Issuer by, Unrestricted Subsidiaries;

(16) the payment of any Receivables Fees and purchases of Receivables Assets pursuant to a Receivables Repurchase Obligation in connection with CICE Financing, Receivables Financing and CIR Financing;

(17) Restricted Payments that are made with cash Excluded Contributions, or consisting of non-cash Excluded Contributions, or Investments in exchange for or using as consideration Investments previously made under this clause (17);

(18) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), any Restricted Payment; *provided that*, on the date of any such Restricted Payment, the Consolidated Leverage Ratio for the Senior Notes Issuer and its Restricted Subsidiaries does not exceed 3.5 to 1.0 on a *pro forma* basis after giving effect thereto;

(19) the Transactions;

(20) dividends, loans, advances or distributions to any Parent Entity or other payments by the Senior Notes Issuer or any Restricted Subsidiary in amounts equal to (without duplication) (a) the amounts required for any Parent Entity, without duplication, to pay any Parent Expenses or any Related Taxes; (b) amounts constituting or to be used for purposes of making payments of fees and expenses incurred in connection with the Transactions, disclosed in the offering memorandum relating to the Existing Senior Secured Notes, disclosed in this offering memorandum, to the extent specified in the second paragraph under "*—Transaction with Affiliates*" in the section of this offering memorandum titled "*Description of the Senior Secured Notes*" or to the extent specified in the second paragraph under "*—Transaction with Affiliates*"; and (c) the amounts constituting dividends or other distributions as described in the offering memorandum relating to the Existing Senior Secured Notes under "*Use of Proceeds*"; and

(21) so long as no Default or Event of Default has occurred and is continuing, other Restricted Payments in an aggregate amount not to exceed the greater of €40.0 million and 3.0% of Total Assets since the Original Senior Secured Notes Issue Date.

The amount of all Restricted Payments (other than cash) will be the Fair Market Value on the date of the Restricted Payment of the asset(s) or securities proposed to be transferred or issued by the Senior Notes Issuer or such Restricted Subsidiary, as the case may be, pursuant to the Restricted Payment.

For purposes of determining compliance with this covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories of Restricted Payments described in clauses (1) through (21) above, or is permitted pursuant to the first paragraph of this covenant, the Senior Notes Issuer, in its sole discretion, will be entitled to divide or classify such Restricted Payment (or portion thereof) on the date made or later divide or reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

Liens

The Senior Notes Issuer will not and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, assume or otherwise cause or suffer to exist or become effective any Lien (the "*Initial Lien*") of any kind securing Indebtedness upon any of their property or assets, now owned or hereafter acquired, except (a) in the case of any property or asset that does not constitute Senior Notes Collateral, (i) Permitted Liens or (ii) unless all payments due under the Senior Notes Indenture and the Senior Notes (including a Senior Note Guarantee in the case of Liens of a Guarantor) are secured on an equal and ratable basis with the Indebtedness so secured until such time as such Indebtedness is no longer secured by a Lien (and (x) if such Indebtedness so secured is subordinated in right of payment to either the Senior Notes or a Senior Note Guarantee, on a senior priority basis and (y) if such Indebtedness so secured is Senior Debt, on a junior priority basis); and (b) in the case of any property or asset that constitutes Senior Notes Collateral, Permitted Collateral Liens.

Any Lien created for the benefit of the holders pursuant to this covenant will provide by its terms that such Lien will be automatically and unconditionally released and discharged (a) upon the release and discharge of the Initial Lien with respect to clause (a) of the preceding paragraph or (b) as set forth under the caption "*—Security*".

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

The Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, directly or indirectly, create or permit to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to:

(1) pay dividends or make any other distributions on its Capital Stock to the Senior Notes Issuer or any Restricted Subsidiary, or with respect to any other interest or participation in, or measured by, its profits, or pay any Indebtedness owed to the Senior Notes Issuer or any Restricted Subsidiary;

(2) make loans or advances to the Senior Notes Issuer or any Restricted Subsidiary; or

(3) sell, lease or transfer any of its properties or assets to the Senior Notes Issuer or any Restricted Subsidiary,

provided that (x) the priority of any preferred stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill period to) loans or advances made to the Senior Notes Issuer or any Restricted Subsidiary to other Indebtedness incurred by the Senior Notes Issuer or any Restricted Subsidiary, in each case, shall not be deemed to constitute such an encumbrance or restriction.

However, the preceding restrictions will not apply to encumbrances or restrictions existing under or by reason of:

(1) agreements governing Indebtedness and Credit Facilities as in effect on the Senior Notes Issue Date and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of those agreements; *provided* that the amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on the Senior Notes Issue Date;

(2) the Senior Secured Notes Indenture, the Senior Secured Notes, the Senior Secured Note Guarantees, the Senior Notes Indenture, the Senior Notes, the Senior Note Guarantees, the Intercreditor Agreement, the Security Documents and any other agreement or instrument with respect to the Target or its Subsidiaries, in each case, in effect at or entered into on the Completion Date;

(3) any encumbrance or restriction arising pursuant to an agreement or instrument relating to any Indebtedness permitted to be incurred subsequent to the Original Senior Secured Notes Issue Date pursuant to the provisions of the covenant described under "*—Incurrence of Indebtedness and Issuance of Preferred Stock*" if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole (i) are not materially less favorable to the holders of the Senior Notes than the encumbrances and restrictions contained in the Revolving Credit Facility and the Intercreditor Agreement, in each case, as in effect on the Original Senior Secured Notes Issue Date (as determined in good faith by the Senior Notes Issuer) or (ii) is customary in comparable financings and where, in the case of this sub-clause (ii), the Senior Notes Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Senior Notes Issuer ability to make principal or interest payments on the Senior Notes (as determined in good faith by the Senior Notes Issuer);

(4) applicable law, rule, regulation or order or the terms of any license, authorization, concession or permit;

(5) any instrument governing Indebtedness or Capital Stock of a Person acquired by the Senior Notes Issuer or any of its Restricted Subsidiaries as in effect at the time of such acquisition (except to the extent such Indebtedness or Capital Stock was incurred in connection with or in contemplation of such acquisition), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person, or the property or assets of the Person, so acquired; *provided* that, in the case of Indebtedness, such Indebtedness was permitted to be incurred by the terms of the Senior Notes Indenture;

(6) provisions in leases, licenses and joint venture agreements;

(7) purchase money obligations for property acquired in the ordinary course of business and Capital Lease Obligations that impose restrictions on the property purchased or leased of the nature described in clause (3) of the preceding paragraph;

(8) any agreement for the sale or other disposition of the Capital Stock or all or substantially all of the property and assets of a Restricted Subsidiary that restricts distributions by that Restricted Subsidiary pending its sale or other disposition;

(9) Permitted Refinancing Indebtedness; *provided* that (i) the restrictions contained in the agreements governing such Permitted Refinancing Indebtedness are not materially more restrictive, taken as a whole, than those contained in the agreements governing the Indebtedness being refinanced or (ii) is customary in comparable financings and where, in the case of this sub-clause (ii), the Senior Notes Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Senior Notes Issuer's ability to make principal or interest payments on the Senior Notes (as determined in good faith by the Senior Notes Issuer);

(10) Liens permitted to be incurred under the provisions of the covenant described above under the caption "*—Liens*" that limit the right of the debtor to dispose of the assets subject to such Liens;

(11) customary provisions limiting the disposition or distribution of assets or property in joint venture agreements, asset sale agreements, sale-leaseback agreements, stock sale agreements and other similar agreements in the ordinary course of business (including agreements entered into in connection with a Restricted Investment), which limitation is applicable only to the assets that are the subject of such agreements;

(12) restrictions on cash or other deposits or net worth imposed by customers or suppliers or required by insurance, surety or bonding companies, in each case, under contracts entered into in the ordinary course of business;

(13) any encumbrance or restriction pursuant to Currency Exchange Protection Agreements or Hedging Obligations;

(14) any encumbrance or restriction of a Receivables Subsidiary effected in connection with a Receivables Financing; and restrictions effected in connection with a CICE Financing, Receivables Financing or CIR Financing that, in the good faith determination of the Board of Directors or an Officer of the Senior Notes Issuer, are necessary or advisable to effect such CICE Financing, Receivables Financing or CIR Financing; or

(15) any encumbrance or restriction existing under any agreement that extends, renews, refinances or replaces the agreements containing the encumbrances or restrictions in the foregoing clauses (1) through (14), or in this clause (15); *provided* that (i) the terms and conditions of any such encumbrances or restrictions are no more restrictive in any material respect than those under or pursuant to the agreement so extended, renewed, refinanced or replaced or (ii) is customary in comparable financings and where, in the case of this sub-clause (ii), the Senior Notes Issuer determines at the time of incurrence of such Indebtedness that such encumbrances or restrictions would not adversely affect, in any material respect, the Senior Notes Issuer's ability to make principal or interest payments on the Senior Notes (as determined in good faith by the Senior Notes Issuer).

Merger, Consolidation or Sale of Assets

The Senior Notes Issuer will not directly or indirectly: (1) consolidate or merge with or into another Person (whether or not the Senior Notes Issuer is the surviving corporation), or (2) sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the properties or assets of the Senior Notes Issuer and its Restricted Subsidiaries taken as a whole in one or more related transactions, to another Person, unless:

(1) either: (a) the Senior Notes Issuer is the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if other than the Senior Notes Issuer) or to which such sale, assignment, transfer, conveyance, lease or other disposition has been made is an entity organized or existing under the laws of any member state of the Pre-Expansion European Union, Switzerland, Canada, any state of the United States or the District of Columbia;

(2) the Person formed by or surviving any such consolidation or merger with the Senior Notes Issuer (if other than the Senior Notes Issuer) or the Person to which such sale, assignment, transfer, conveyance, lease or other disposition has been made assumes all the obligations of the Senior Notes Issuer under the Senior Notes, the Senior Notes Indenture and the Intercreditor Agreement, the Security Documents;

(3) immediately after such transaction, no Default or Event of Default exists;

(4) the Senior Notes Issuer or the Person formed by or surviving any such consolidation or merger (if other than the Senior Notes Issuer), or to which such sale, assignment, transfer, conveyance, lease or other disposition has been made would, on the date of such transaction after giving *pro forma* effect thereto and any related financing transactions as if the same had occurred at the beginning of the applicable four-quarter period (i) be permitted to incur at least €1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described above under the caption "*—Incurrence of Indebtedness and Issuance of Preferred Stock*" or (ii) have a Fixed Charge Coverage Ratio no less than it was immediately prior to giving effect to such transaction; and

(5) the Senior Notes Issuer delivers to the Trustee an Officer's Certificate and Opinion of Counsel, in each case, stating that such consolidation, merger or transfer and such supplemental indenture comply with this covenant; *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact, including as to satisfaction of clauses (3) and (4) above.

A Guarantor (other than a Guarantor whose Senior Note Guarantee is to be released in accordance with the terms of such Senior Note Guarantee and the Senior Notes Indenture) will not, directly or indirectly: (1) consolidate or merge with or into another Person (whether or not such Guarantor is the surviving corporation), or (2) sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of the properties or assets of such Guarantor and its Subsidiaries which are Restricted Subsidiaries taken as a whole, in one or more related transactions, to another Person, unless:

(1) immediately after giving effect to that transaction, no Default or Event of Default exists; and

(2) either:

(a) the Person acquiring the property in any such sale or disposition or the Person formed by or surviving any such consolidation or merger assumes all the obligations of that Guarantor under its Senior Note Guarantee, the Senior Notes Indenture, the Intercreditor Agreement and the Security Documents to which such Guarantor is a party pursuant to a supplemental indenture, accession agreement, Additional Intercreditor Agreement and appropriate Security Documents reasonably satisfactory to the Trustee; or

(b) the Net Proceeds of such sale or other disposition are applied in accordance with the applicable provisions of the Senior Notes Indenture.

In the event of any transaction (other than a lease) described in and complying with the conditions listed in the preceding paragraph in which a Guarantor is not the continuing corporation, the successor Person formed or remaining or to which such transfer is made shall succeed to, and be substituted for, and may exercise every right and power of the Guarantor and the Guarantor will be discharged from all obligations and covenants under the Senior Notes Indenture, its Senior Note Guarantee, the Senior Notes and the Security Documents to which such Guarantor is a party.

In addition, the Senior Notes Issuer will not, directly or indirectly, lease all or substantially all of the properties and assets of it and its Restricted Subsidiaries taken as a whole, in one or more related transactions, to any other Person.

Clauses (3) and (4) of the first paragraph and clause (1) of the second paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to (a) any sale or other disposition of all or substantially all of the assets or merger or consolidation of any Restricted Subsidiary (including any Guarantor) with or into any Guarantor or the Senior Notes Issuer or (b) any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Senior Notes Issuer with or into any other Guarantor. Clauses (1) and (2)(b) of the second paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Guarantor with or into any other Guarantor. Clause (4) of the first paragraph of this "Merger, Consolidation or Sale of Assets" covenant will not apply to any sale or other disposition of all or substantially all of the assets or merger or consolidation of the Senior Notes Issuer or any Guarantor with or into an Affiliate solely for the purpose of reincorporating the Senior Notes Issuer or such Guarantor in another jurisdiction for tax reasons. Notwithstanding any other provision of this covenant, any Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Guarantor.

Although there is a limited body of case law interpreting the phrase "all or substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

Transactions with Affiliates

The Senior Notes Issuer will not, and will not cause or permit any of its Restricted Subsidiaries to, make any payment to or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with, or for the benefit of, any Affiliate of the Senior Notes Issuer (each, an "*Affiliate Transaction*") involving aggregate payments or consideration in excess of €2.5 million, unless:

(1) the Affiliate Transaction is on terms that are not materially less favorable to the Senior Notes Issuer or the relevant Restricted Subsidiary than those that could have been obtained in a comparable transaction by the Senior Notes Issuer or such Restricted Subsidiary with an unrelated Person; and

(2) the Senior Notes Issuer delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of €7.5 million, a resolution of the Board of Directors of the Senior Notes Issuer set forth in an Officer's Certificate certifying that such Affiliate Transaction complies with this covenant.

The following items will not be deemed to be Affiliate Transactions and, therefore, will not be subject to the provisions of the prior paragraph:

(1) any employment agreement, collective bargaining agreement, consultant, employee benefit arrangements with any employee, consultant, officer or director of the Senior Notes Issuer or any Restricted Subsidiary, including under any stock option, stock appreciation rights, stock incentive or similar plans;

(2) transactions between or among the Senior Notes Issuer and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among Restricted Subsidiaries or any Receivables Subsidiary;

(3) any transaction in the ordinary course of business with any Affiliate or Associate or similar entity (in each case other than an Unrestricted Subsidiary of the Senior Notes Issuer) that is an Affiliate or Associate, respectively, solely because the Senior Notes Issuer or a Restricted Subsidiary or any Affiliate of the Senior Notes Issuer or a Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;

(4) payment of reasonable and customary fees and reimbursements of expenses (pursuant to indemnity arrangements or otherwise) of Officers, directors, employees or consultants of the Senior Notes Issuer or any of its Restricted Subsidiaries;

(5) any issuance of Equity Interests (other than Disqualified Stock) of the Senior Notes Issuer to Affiliates of the Senior Notes Issuer or Subordinated Shareholder Debt;

(6) any Investment (other than a Permitted Investment) or other Restricted Payment, in either case, that does not violate the provisions of the Senior Notes Indenture described above under the caption "*—Restricted Payments*";

(7) Management Advances;

(8) any Permitted Investments (other than Permitted Investments described in clauses (3), (9), (15), (16) and (17) of the definition thereof);

(9) the incurrence of any Subordinated Shareholder Debt;

(10) (i) the Transactions, (ii) the entry into and performance of obligations of the Senior Notes Issuer or any of its Restricted Subsidiaries under the terms of any transaction pursuant to or contemplated by, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Senior Notes Issue Date, described in "*Description of Certain Related Party Transactions*" in this offering memorandum or described in "*Description of Certain Related Party Transactions*" in the offering memorandum relating to the Existing Senior Secured Notes, as these agreements and instruments may be amended, modified, supplemented, extended, renewed, replaced or refinanced from time to time in accordance with the other terms of this covenant or to the extent not more disadvantageous to the holders of Senior Notes in any material respect, and (iii) the entry into and performance of any registration rights or other listing agreement;

(11) transactions with customers, clients, suppliers, or purchasers or sellers of goods or services or providers of employees or other labor, in each case in the ordinary course of business and otherwise in compliance with the terms of the Senior Notes Indenture that are fair to the Senior Notes Issuer or the Restricted Subsidiaries, in the reasonable determination of the members of the Board of Directors of the Senior Notes Issuer or an Officer thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated Person;

(12) the execution, delivery and performance of any Tax Sharing Agreement or any arrangements, payments or other transactions pursuant to which the Senior Notes Issuer and any other Person or a Restricted Subsidiary of the Senior Notes Issuer and any other Person with which the Senior Notes Issuer or any of its Restricted Subsidiaries files a consolidated or combined tax return or with which the Senior Notes Issuer or any of its Restricted Subsidiaries is part of a group for tax, accounting or cash pooling purposes or any tax advantageous group contribution made pursuant to applicable legislation;

(13) any contribution to the capital of the Senior Notes Issuer in exchange for Capital Stock of the Senior Notes Issuer (other than Disqualified Stock and preferred stock) or any investments by the Sponsor in Equity Interests (other than Disqualified Stock) (and payment of reasonable out-of-pocket expenses incurred by the Sponsor in connection therewith);

(14) transactions between the Senior Notes Issuer or any of its Restricted Subsidiaries and any Person, a director of which is also a director of the Senior Notes Issuer or any direct or indirect parent of the Senior Notes Issuer; *provided*, *however*, that such director abstains from voting as a director of the Senior Notes Issuer or such direct or indirect parent, as the case may be, on any matter involving such other Person;

(15) pledges of Equity Interests of Unrestricted Subsidiaries;

(16) payments to any Permitted Holder of reasonable out-of-pocket expenses incurred by such Permitted Holder in connection with its direct or indirect investment in the Senior Notes Issuer and its subsidiaries;

(17) investments by the Sponsor in securities of the Senior Notes Issuer or any Restricted Subsidiary (and payment of reasonable out-of-pocket expenses incurred by the Sponsor in connection therewith);

(18) investments by Affiliates in Indebtedness or preferred Equity Interests of the Senior Notes Issuer or any of its Subsidiaries, so long as non-Affiliates were also offered the opportunity to invest in such Indebtedness or preferred Equity Interests, and transactions with Affiliates solely in their capacity as holders of Indebtedness or preferred Equity Interests of the Senior Notes Issuer or any of its Subsidiaries, so long as such transaction is with all holders of such class (and there are such non-Affiliate holders) and such Affiliates are treated no more favorably than all other holders of such class generally;

(19) any transaction effected as a part of a CICE Financing, Receivables Financing, CIR Financing and factoring or similar arrangements; and

(20) any transactions for which the Senior Notes Issuer or a Restricted Subsidiary delivers to the Trustee a letter from an independent financial advisor stating that such transaction is (i) fair to the Senior Notes Issuer or such Restricted Subsidiary from a financial point of view or (ii) on terms not less favorable that might have been obtained in a comparable transaction at such time on an arm's length basis from a Person who is not an Affiliate.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors of the Senior Notes Issuer may designate any Restricted Subsidiary (including any newly acquired or newly formed Restricted Subsidiary) to be an Unrestricted Subsidiary if that designation would not cause a Default. If a Restricted Subsidiary is designated as an Unrestricted Subsidiary, the aggregate Fair Market Value of all outstanding Investments owned by the Senior Notes Issuer and its Restricted Subsidiaries in the Subsidiary designated as an Unrestricted Subsidiary will be deemed to be an Investment made as of the time of the designation and will reduce the amount available for Restricted Payments under the covenant described above under the caption "*—Restricted Payments*" or under one or more clauses of the definition of Permitted Investments, as determined by the Senior Notes Issuer. That designation will only be permitted if the Investment would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. The Senior Notes Issuer may redesignate any Unrestricted Subsidiary to be a Restricted Subsidiary if that redesignation would not cause a Default.
